## X-STRONG KNEE BODY ARMOR

**DETAILS:** Perfect for riders who need more protection than a tradition knee guard but do not want the additional bulk and expense of orthopedic knee braces, the new X-Strong Knee Guard showcases comfort, style, and strength. The kneecap, tibia, and the lower part of the femur are protected by Acerbis P.O.I Technology, a sandwich of thermoplastic material and padding that offers high energy absorption from shock. Designed to complement the knee's anatomy, the X-Strong Knee Guard ensures maximum movement and mobility. Its double-articulated joint allows natural flexion while still providing great torsional stiffness.

- Carry bag and elastic knee socks included.
- K+L EN 1621-1/97 Homologated for Knee and Tibia.

# TRI-FIT HANDGUARDS

The new Tri-Fit handguard is a perfect fit for almost any application! Made of Nylon, this innovative, multi-functional handguard kit allows 3 different configurations:

1. Closed Wrap: Full wrap-around
2. MX Open: Flag-style MX roost guard
3. ATV: mounts to the end of the handlebar, leaving room for larger controls

The wide variety of mounting options make the Tri-Fit a perfect handguard for the versatile racer, allowing for quick and easy handguard customization depending on the conditions. Also a great choice for ATVs and adventure-touring bikes that have large controls that hinder the mounting of traditional handguards.

# VISION HANDGUARDS

The Vision Handguard is an innovative handguard, fitted with adjustable LED lights (LED for low power consumption running off 4 watts p/side), giving you effective, additional light for extreme conditions. In addition to a headlight, the Vision Handguards provide additional visibility both at night and during the day with a combined luminous efficiency off 300 lumens. The handguards mount to both ends of the bar and have an on/off switch, which can also be mounted on the handlebars. The Vision is built around an aluminum bar for added durability and deflection from debris and the elements. It is a great addition to any off-road bike, ATV, or dual road. A universal mount kit, which fits most applications, is included.

# X-TARMAC HANDGUARDS

The X-TARMAC handguard combines style, safety, and convenience into a modern and sleek design. Designed for on-road and dual sport motorcycles, this unique handguard features an electroluminescent flat light that is easy to connect to a (12v) lighting system. It is trimmed with a semi transparent, removable spoiler that is designed to deflect cold air and rain. A large hinge allows the front cover to be rotated horizontally ensuring a precise fit with most levers and controls. The aerodynamic design is also co-injected with a metal insert to provide considerable rigidity. The X-TARMAC is compatible with handlebars that have an internal diameter of 13.6mm to 19mm. LED light strips are integrated into the handguard shield. Replacement LED strips can be purchased separately.

# OFFROAD SKIDPLATES

Acerbis off-road skid plates provide protection for the engine cases and frame rails. The extended coverage of the off-road version provides additional protection to the ignition cover and the water pump area on most applications. Key features and benefits of Acerbis skid plates include:

- Simple mounting system makes installation, cleaning, and maintenance (like oil changes) a snap.
- Snug fit prevents mud/dirt/rock/debris from building up between the skid plate and the motor.
- Less expensive than many other aluminum and carbon fiber units.
- Much quieter than aluminum skid plates; does not vibrate during idle or resonate after a rock ding.
- Does not affect frame rigidity/flex.
- Allows engine to run cooler.
- Constructed of lightweight polypropylene.

# X-SEAT

The Acerbis X-Seat debut set a new benchmark in the industry for its revolutionary design and technical features. Made entirely of one piece, the X-Seat has recently been updated and is now widely used by motocross and enduro riders who seek its lightness, exceptional durability, comfort and optimal grip.

- Fully external plastic shell with anti-slip grip
- Internal expanded foam for maximum comfort
- Fully waterproof. Integrity of seat does not deteriorate after pressure washing.
- Anti-slip grip
- Washable with pressure washer and soap and water only; do NOT use chemicals or solvents.
- Made entirely of one piece, fully waterproof
- SOFT VERSION FOR BETTER COMFORT.

# FUEL TANKS

## HONDA FUEL TANKS

Acerbis fuel tanks provide additional fuel capacity while still providing slim ergonomics and sleek styling. Impact and abrasion resistant Polyurethane provides years of service with proper care. All Acerbis fuel tanks include Acerbis gas cap, mounting kit, and vent hose. Applications that require special fuel Y-fittings, petcocks, etc. will come with the tank. EFI tanks do NOT come with the fuel pump; they are designed to accept the stock one.

# KTM FUEL TANKS

Acerbis fuel tanks provide additional fuel capacity while still providing slim ergonomics and sleek styling. Impact and abrasion resistant Polyurethane provides years of service with proper care. All Acerbis fuel tanks include Acerbis gas cap, mounting kit, and vent hose. Applications that require special fuel Y-fittings, petcocks, etc. will come with the tank. EFI tanks do NOT come with the fuel pump; they are designed to accept the stock one.

## FRONT HANDLEBAR AUXILIARY TANK

Auxiliary fuel tank mounts to all kinds of handlebars, both 7/8" and 1-1/8". Suitable for minis, trials bikes, full size bikes, and anywhere else a little extra fuel is needed. Includes siphon kit that connects the handlebar tank to the main fuel tank and automatically siphons fuel while the bike is being ridden. With this design, the handlebar tank empties first before the main tank. Does not interfere with headlight, handguards, etc. Holds 0.6 gallons. Does NOT work with handlebar-mounted steering stabilizers.

## FRONT AUXILIARY TANK

Acerbis auxiliary tanks mount on the front forks in place of the front number plate/headlight. They carry extra fuel to increase fuel and fun range! Included mounting kit secures them to most front forks. The included siphon kit integrates the auxiliary tank with the bike's main tank, allowing fuel to siphon from the auxiliary tank to the main tank while riding; there is no need to stop. The siphon kit drains the auxiliary tank completely before the main tank capacity is used. Mounting hardware and siphon kit included.

# SPEEDY QUICKFILL SYSTEM COMPLETE

The Speedy Quick Fill System is the essential off-road race support accessory! This quick refueling system is able to transfer 2.6 gallons of fuel in 8 seconds!

4 gallon capacity tank with visible increments to easily determine how much fuel has been transferred.

Includes aluminum adapter nozzle compatible with fuel tanks having 39.5mm/1.5" or greater diameter filler neck opening.

Also works great with the Acerbis MDR cap.

Fuel tanks with larger filler neck opening require different adapter nozzles, sold separately.

Speedy Quick Fill System is held by Kubro stand, sold separately.

## SUPER MOTO EVO FRONT FENDER

The Acerbis Supermoto Evo is a result of our R&D department's focus on supermoto. Taking advantage of the smaller diameter of the front wheel, a sophisticated venting system allows fresh air to flow over the radiators. The result is optimal bike performance, even in hot weather conditions. Front fender is made up of two parts, which allows easy dis-assembly of the rear section without the need to remove the front section.

- Perfect for use in hot and dry weather conditions.
- Constructed of Polypropylene.

## TRACK MARKER

Acerbis track markers are highly visible plastic stakes that are easily installed in the dirt on the side of the track. Not only do these stakes give the track a clean, professional appearance, they also are safer and easy to move than hay bales. As hay bales sit at the edge of the track, they become water logged from track watering. This can make them almost impossible to move, and hitting one or catching one with a footpeg almost always results in a crash. The design of our track markers allows the them to fold down when struck by a bike or quad, and then pop right back up. Also, they are quick and easy to move around because they simply press down into the dirt.

## X-MOD

The X-Mod is a track barrier intended to be used to line barriers along side the track. The interlocking design allows for multiple X-Mod's to be connected.

## RACE TAPE

Acerbis track tape comes in 1500ft rolls, making them perfect for marking enduro tests, marking "wrong ways" on hare scrambles courses, or saving a section in the pits. This tape is very thick and heavy duty, so it will be the last to blow down in the wind.

## ACERBIS FLAG

Acerbis Track Flags are perfect for dressing up any track or pit area. The fabric flag is durable and bright, and it looks great flowing in the breeze. It is quick and easy for one person to set up, and it includes a sturdy folding base with stakes and collapsible water bladder to keep the flag in the right position. When it is time to head out, the flag disassembles quickly and everything fits nicely into the included carry bag.

## ACERBIS TENT

This Acerbis Tent is the ultimate popup tent! Constructed of hexagonal aluminum tubing, the frame is incredibly strong and sturdy, and it is also adjustable for different heights. Unlike some inferior popups, the Acerbis tent can be raised and lowered while staked down; it can be lowered over the bikes at night and quickly raised again in the morning without hassle. The tent fabric is durable and sharp looking. Acerbis A logos ensure that your pit will stand out. Includes heavy duty carrying bag with dual zippered ends, multiple carry handles, roller wheels, and a pocket for the included stakes.
