## RACING ABSOLUTE LEATHER SUIT - TECH-AIR® COMPATIBLE

RACING / PERFORMANCE RIDING | SIZE: 44-58

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- High level race suit incorporating MotoGP-derived technologies.
- Designed with body mapped race fit and pre-curved sleeves for optimum riding performance.
- Premium full kangaroo leather construction for lightness, flexibility and optimum levels of protection.
- Highly durable, flexible kangaroo leather features anatomical panels for high levels of movement and a superior fit.
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- Tech-Air® compatible; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required.
- An LED display on the sleeve indicates the airbag's operational status, while an internal housing located in the back protector accommodates the system vest's ECU.
- Patented leather bonded aramid grid reinforcements on the arm, back, seat, thigh and elbow areas to reduce heat transfer and prevent the skin from burning when sliding. This also gives more strength to the leather against tear and abrasion.
- New aramid reinforced stretch fabric panels on crotch, back of the leg and underarms to guarantee excellent levels of lightness, flexibility and breathability.
- Large perforated kangaroo leather panels are strategically placed to offer excellent levels of cooling airflow and comfort.
- Alpinestars race-derived protectors on the elbow, shoulder, knee and tibia.
- Alpinestars new exclusive GP Dynamic Friction Shield (DFS) on knee and further DFS protection on the elbow and shoulder.
- Innovative new RR elbow slider is anatomically contoured and features a removable screw-mounted insert slider.
- Chest pad compartment (designed to take the CE-certified Nucleon chest pads).
- Comes fitted with the Nucleon pads.
- Ergonomically designed AR (Abrasion Resistant) Shield reinforcement with aramid fiber and polyamide construction in the limb flexion zones to protect the exposed seams against abrasion.
- Removable inner stretch mesh liner with multi-panel construction and 3D back panel.
- Soft 3D textured fabric comfort collar construction.
- New GP aerodynamic back hump improves stability and airflow at speed. Ventilated and designed to incorporate a hydration pack, it comes complete with an opening which can accommodate a hydration hose.
- Internal waterproof wallet pocket for peace-of-mind storage.
- Printed logos reduce weight and improve the flexibility of the leather, thus enhancing comfort and performance.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
  - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.
  - CE Level 1 EN1621-1:2012 Alpinestars GP-R shoulder and elbow protectors.

## GP TECH v3 LEATHER SUIT TECH-AIR® COMPATIBLE

RACING / PERFORMANCE RIDING / SIZE: 44-58

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Racing leather suit designed with a body mapped race fit and pre-curved sleeves, legs and body for optimal riding performance.
- Tech-Air® compatible; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required.
- An LED display on the sleeve indicates the airbag's operational status, while an internal housing located in the back protector accommodates the system vest's ECU.
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- Kangaroo and bovine multi-panel construction for strength and flexibility.
- Patented leather bonded aramid grid panels placed in the most exposed areas which offer excellent additional resistance to tear and abrasion, and highly efficient insulation against the build-up of frictional heat.
- Hyper Resistant Stretch Fabric (HRSF) panels on the crotch, back of leg and underarms ensure lightness and high levels of flexibility and breathability.
- Perforated premium full-grain leather panels are strategically positioned to offer excellent levels of cooling airflow and comfort.
- Alpinestars race-derived protectors on the elbow, shoulder, knee and tibia.
- Alpinestars new exclusive knee GP Dynamic Friction Shield (DFS) slider, with additional GP DFS on the shoulders.
- Innovative new RR elbow slider is anatomically contoured and features a removable and replaceable screw-mounted insert slider.
- Chest pad compartment designed to take the Nucleon chest pads.
- Comes fitted with the Nucleon hip protectors.
- Ergonomically designed AR (Abrasion Resistant) Shield reinforcement with aramid fiber and polyamide construction in the limb flexion zones to protect the exposed seams against abrasion.
- Removable inner stretch mesh liner with multi-panel construction and 3D textured fabric on the collar for comfort.
- Aerodynamic back hump is ventilated and designed to incorporate a hydration pack. Comes complete with an opening which can accommodate a hydration hose.
- Internal waterproof wallet pocket for peace-of-mind storage.
- Printed logos reduce weight and improve the flexibility of the leather, thus enhancing comfort and performance.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## GP PRO v2 LEATHER SUIT TECH-AIR® COMPATIBLE

RACING / PERFORMANCE RIDING / SIZE: 44-58

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Premium leather main chassis constructed from 1.3mm genuine premium bovine leather.
- Large accordion stretch panels help movement and comfort on the bike.
- Stretch fabric panels on sleeves and crotch further improve fit and feel.
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- Tech-Air® compatible; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required.
- An LED display on the sleeve indicates the airbag's operational status, while an internal housing located in the back protector accommodates the system vest's ECU.
- Ergonomic back hump, sculpted for better airflow and performance at high speed.
- Pre-curved sleeves and legs construction to reduce rider fatigue.
- Localized perforations improve ventilation.
- Calf expansion gusset allow riders to tailor the fit.
- Aramid fiber reinforcement on critical areas: shoulder, elbow, lower back.
- Integrated padding for increased levels of rider comfort.
- Chest compartments designed to accommodate the Alpinestars Nucleon chest pads, available as an accessory upgrade.
- Reinforced knee features multi-layer construction for enhanced levels of protection.
- Removable mesh inner liner for convenience and breathability.
- Waterproof inner wallet pocket for peace-of-mind storage.
- Multiple snap button system to integrate the Level 2 Alpinestars Nucleon Back protector.
- 3D textured fabric collar construction for rider comfort.
- Alpinestars GP-R protectors on the shoulder, elbow and knee.
- Innovative new elbow slider is anatomically contoured and features a removable and replaceable screw-mounted insert slider.
- DFS (Dynamic Friction Shield) external dual density TPU sliders on the shoulder and knee.
- Sport knee slider.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
  - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.

## MISSILE IGNITION LEATHER SUIT - TECH-AIR® COMPATIBLE

RACING / PERFORMANCE RIDING | SIZE: 46-60

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Premium leather main chassis constructed from 1.3mm genuine bovine leather.
- Large accordion stretch panels help movement and comfort on the bike.
- High Resistant Stretch Fiber (HRSF) panels on sleeves and crotch further improve fit and feel.
- Ergonomic back hump, sculpted for better airflow and performance at high speed.
- Two zippered hand pockets for real-world practicality.
- Pre-curved sleeve construction for reduced riding fatigue and excellent comfort on the bike.
- Large perforated leather panels with reinforced stitching for maximum ventilation.
- Localized perforations for improved ventilation.
- Fixed mesh inner liner for improved rider comfort.
- Inner waterproof wallet pocket for secure storage of valuables.
- Adjustable snap button system to integrate the Alpinestars Nucleon back protector.
- Comfort fabric on collar.
- Alpinestars GP-R protectors on shoulders and elbows for high levels of impact protection.
- Dynamic Friction Shield (DFS) external dual density TPU sliders on shoulders and elbows for high levels of abrasion resistance.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
  - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.

## SUPERTECH GLOVE

RACING / PERFORMANCE RIDING | SIZE: S-3XL

- Innovative glove uses MotoGP-derived technology.
- Constructed from supple and strong full grain kangaroo and bovine leather for superior performance.
- Pre-shaped leather on finger and thumb for superior feel.
- Localized perforations on back hand and fourchettes keep the hands cool.
- Aramid reinforcements on the palm and outer hand landing zones provide maximum abrasion resistance in key impact zones.
- Ergonomic stretch insert on palm.
- Pre-curved finger construction reduces rider fatigue.
- Alpinestars Dynamic Friction

- Shield (DFS) knuckle protection system features dual density mould construction for superior resistance to repeated impacts.
- Molded knuckle protection air intakes and exhaust ports for improved hand ventilation.
- Injected TPU finger slider for superior impact and abrasion resistance.
- Ergonomically shaped TPU injected adjustable cuff panel for superior impact and abrasion resistance with high grip hook and loop closure for security.
- Stretch leather accordion insert on extended thumb zone and fingers for superior fit and flexibility.
- Lateral leather accordion

insert gives greater range of movement to back hand area.

- Internal top surface hand and thumb lining made with aramidic fiber.
- Internal little finger lining made with Dupont™ Kevlar® fiber.
- Alpinestars patented third and fourth finger bridge prevents finger roll and separation in the event of a slide.
- Printed logos.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## GP TECH GLOVE

RACING / PERFORMANCE RIDING | SIZE: S-3XL

- Innovative glove uses MotoGP-derived technology.
- Constructed from supple and strong full grain kangaroo and bovine leather for superior performance.
- Palm, thumb and finger sidewalls reinforced with kangaroo leather.
- Lower palm incorporates strategically positioned compound TPU sliders mounted on foam-backed leather panel.
- Alpinestars Dynamic Friction Shield (DFS) knuckle protector features dual density mould construction for superior

- resistance to repeated impacts.
- Ergonomically shaped TPU injected wrist cuff protects wrist bone from impact.
- Alpinestars patented third and fourth finger bridge.
- Leather accordion insert on extended thumb zone and fingers for superior fit and flexibility.
- Lateral leather accordion insert gives greater range of movement to back hand area.
- Vented back hand TPR for climate control.
- Internal back hand, wrist and thumb lining made

- with aramidic fiber.
- Compound TPU sliders on fingers are mounted on padded leather panels.
- Perforated leather top panel and wrist with ventilated finger sidewalls.
- External finger to palm seams for a close fit and superior feel.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## GP PRO R3 GLOVE

RACING / PERFORMANCE RIDING | SIZE: S-3XL

- Pure racing glove utilizing innovative design features taken straight from the lessons learnt from top level competitive racing.
- Outer seam palm construction for enhanced levels of rider comfort.
- Long cuff for extended coverage.
- Hard knuckle for superior resistance to repeated impacts.
- Knuckle panel perforated gusset for improved levels of hand ventilation.
- Finger bridge on the third and fourth finger prevents finger roll and separation in the event of a slide.
- Mix of cow, goat and kangaroo (palm) leather for superior performance.
- Double closure system for security.
- Dynamic Friction Shield on the cuff for high levels of abrasion resistance.
- Side reinforcements with palm hard slider for superior abrasion resistance.
- Accordions in leather on fingers thumb and backhand to increase fit and direct comfort.
- Aramid lining on the backhand and landing zone for added protection.
- Thumb and palm reinforcement for a superior grip.
- TPU finger protection for superior protection against impacts.
- Soft padding on fingertips and ergonomic stretch insert on palm for enhanced levels of rider comfort.

## GP PLUS R v2 GLOVE

RACING / PERFORMANCE RIDING | SIZE: S-3XL

- Localized perforations on palm and backhand, plus ventilated finger fourchettes keep the hands cool.
- Ergonomically engineered leather reinforcements on the palm and outer hand landing zones provide maximum abrasion resistance in key impact zones.
- Alpinestars developed ergonomic stretch insert between thumb and palm offers flexibility to vastly improve hand movement.
- Pre-curved finger construction reduces rider fatigue and offers improved comfort.
- Advanced polymer compound palm and finger sliders for impact and abrasion resistance.
- Protective double cuff closure with TPR logo wraps around wrist, raising the entire profile of the glove to protect the wrist
- bone from impact in a crash.
- Closure incorporates a Hook and loop fastener adjustable strap for secure, personalized fit.
- Dual cuff closure on wrist for a secure fit and precision adjustment.
- Stretch leather accordions on fingers and thumb for superior fit and flexibility.
- Innovative multi-panel leather construction that is ergonomically profiled for performance.
- Alpinestars exclusive Dynamic Friction Shield (DFS) protectors feature advanced airflow ventilation and a dual density polymer mold construction for superior performance against repeat impacts as well as abrasion resistance.
- Internal aramid fiber hand and thumb reinforcement, plus
- an aramid fiber layer around little finger gives excellent abrasion resistance.
- Alpinestars patented third and fourth finger-bridge prevents leather from twisting on fingers, and helps prevent potential burst seams and finger separation.
- Palm pad panel combined into palm/thumb/little finger area for reinforcement in a key area.
- External finger and palm seams for a close fit and superior feel.
- Printed logos for weight-saving and material integrity.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Level 1 EN135954:2015, KP.

## SUPERTECH R BOOT

RACING / PERFORMANCE RIDING | SIZE: 39-48 EUR / 6-12.5 US

- Durable and technical microfiber upper construction offering superb levels of flexibility.
- Front flex area is constructed with a redesigned soft TPU over-injected on breathable mesh with a shaped relief for improved abrasion resistance and natural forward and back movements.
- Flexible accordion microfiber stretch at Achilles allows natural movement.
- Top gaiter follows leg contour and is made of flexible high-grade synthetic leather reinforced with PU for maintaining shape.
- Full length suede microfiber panel on inner side of the boot provides a smooth surface for excellent grip and feel

- against the bike and protects from abrasion and heat.
- Flexible, lightweight toe shifter allows feel for changing gears.
- Strategically positioned ventilation in heel and shin TPU guides air through the boot on the vented version.
- Extremely protective, flexible and comfortable with excellent aerodynamics.
- Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg.
- New external TPU shin protection wraps around to outer calf and is engineered to

- spread and dissipate impact energy across the entire surface while remaining compact.
- Replacement clip-on shin-slider improves protection, while the vented section promote airflow into the boot.
- Integrated replaceable co-injected TPU/aluminum toe slider features new easy screw fixing concept provides feel and protects the outer toe box structure from abrasion.
- Replaceable nylon heel plate slider protects from impact and reduces friction in the event of a crash.
- Outside entry/exit has stretch accordion panel for a close fit and ease of entrance and removal.
- Zip mounted on soft TPU stretch panel gives easy

- closure with excellent fit – additional TPU zip slider reduces friction in the event of a crash.
- Hook and loop tab lock the zip pull closed, keeping it flat and secure.
- Micro adjustable redesign ratchet top closure stows tab end.
- Redesigned lightweight rubber compound sole offers excellent grip and feel and allows for natural flex as the rider changes position and pressure on the foot-peg.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2010.

#### INNER ANKLE BRACE SYSTEM

- Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg.
- New research has produced re-profiled double-hinged inner and outer torsion bars to give greater impact protection of the ankle and progressively absorb flex and rotation stress, reducing pressure and hyper-extension injury to the lower leg joints.
- The inner ankle brace is

constructed with a fiberglass re-inforced polyamide compound and ergonomically designed closed cell padding to give protection and comfort.

- Alpinestars exclusive lasting process has developed the Supertech R's fit and feel characteristics to an even greater level, ensuring the inner structure allows the rider maximum feedback from the bike.
- Specially developed polyamide compound moldings give impact protection while retaining the ease

of natural skeletal movement.

- Main upper material constructed from breathable mesh and microfiber chassis supported by an inner ankle soft padding for maximum comfort
- Metal eyelet closure ensures rapid and accurate entry and exit and with micro-adjustability, ensures perfect fitting and security.
- Removable anatomic footbed is sculpted for precise fit.

## SMX PLUS v2 BOOT

RACING / PERFORMANCE RIDING | SIZE: 36-48 EUR / 3.5-12.5 US

- Advanced microfiber upper construction for lightweight high performance protection and superb levels of flexibility.
- Front flex area is constructed with a soft microfiber for improve abrasion resistance and natural forwards and backwards movement.
- Flexible accordion microfiber on Achilles gives enhanced natural movement.
- Strategically positioned ventilation area in heel and shin TPU for breathability and airflow.
- Outside entry/exit has stretchable accordion panel for a close fit and ease of entry and removal.
- Contoured high modulus shin plate protector gives

- superior impact and abrasion resistance.
- An evolution of Alpinestars unique Multi-Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles impact protection.
- Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle reinforcement.
- Dual density TPU replaceable toe slider with screw-in assembly provides protective coverage around the outer toe area.
- Replaceable heel slider and external side heel

- slider are positioned to dissipate and absorb shock and promote sliding during an accident.
- Large front and rear asymmetrical accordion zones are optimized to maximize flexibility.
- Micro adjustable ratchet top closure stows tab end.
- Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort.
- Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling.
- Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip.

- Inner instep speed lacing closure and unique lateral zipper offer precise and secure fit.
- Alpinestars Lace-Lock System is constructed from an advanced polymer resin to guarantee a quick, precise and secure closure.
- Hook and loop top locks the zip pull close, keeping in flat and safe.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

## SMX 6 v2 BOOT

RACING / PERFORMANCE RIDING | SIZE: 36-50 EUR / 3.5-14 US

- Newly designed boot upper incorporates innovative front, rear bellow and rear calf zones for superior levels of flexibility.
- The upper is constructed from microfiber for durability and abrasion resistance.
- Ergonomic last for forefoot streamlining to enable greater control of the bike's controls and for superior, wide-ranging foot profile, fit and comfort.
- Alpinestars innovative TPU lateral ankle brace protection provides a bio-mechanical support between lateral top calf/shin and ankle and offers improved structural integrity, protection against impact shocks,

- repeated abrasion resistance and flex support.
- Air vents on the heel counter and shin plate plus breathable mesh inserts improve comfort and reduce fatigue on short and long rides.
- High modulus TPU injected shin guard, calf protector, heel counter, shift pad, ankle brace and toe slider for improved shock protection and durability.
- Double density ankle protector on medial side layered under the upper offers protective performance in key area.
- Innovative instep and Achilles accordion

- flex zone construction for superior comfort, extension, control and support.
- Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure for flexibility and secure fit.
- The aperture opening is large to promote easier in/out.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- Breathable textile interior lining features anti-

- sliding microfiber suede reinforcement on heel area help keep foot in position while riding.
- New, removable anatomic footbed includes EVA and Lycra for performance, comfort and support.
- Alpinestars new and exclusive compound rubber sole promotes improved feel and grip, water dispersion and durability.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

RACING / PERFORMANCE RIDING | SIZE: 36-50 EUR / 3.5-14 US

- Durable microfiber upper construction offering superb levels of flexibility and comfort.
- Ergonomic new last for forefoot streamlining to enable greater feeling with the bike's controls.
- New TPU shin plate protector is race-derived for superior impact and abrasion resistance.
- Lateral TPR-injected ankle support construction

- offers optimized levels of protection and stability.
- TPU double density ankles protectors are layered under the upper in both lateral and medial side.
- Breathable textile interior lining.
- Integrated, replaceable bi-injected TPU slider features new easy no-screw fixing concept.
- Shift pad made from TPU incorporates

technical texturing for protection and grip.

- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- New, dual compound removable anatomic

footbed includes EVA and Lycra®.

- Alpinestars new and exclusive compound rubber sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## SMX PLUS v2 GORE-TEX BOOT

ALL-WEATHER PERFORMANCE RIDING | SIZE: 36-48 EUR / 3.5-14 US

- Main upper material constructed from advanced microfiber for durability and abrasion resistance, plus a waterproof and highly breathable Gore-Tex lining for excellent all-weather performance.
- Alpinestars Lace-Lock system constructed from an advanced polymer resin to guarantee quick, precise and secure closure.
- Advanced microfiber upper construction for lightweight high performance protection and superb levels of flexibility.
- Front flex area is constructed with a soft microfiber for improved abrasion resistance and natural forward and back movement.

- Flexible accordion microfiber on Achilles gives enhanced natural suppleness.
- Strategically positioned ventilation area in heel and shin TPU for breathability and airflow.
- Outside entry/exit has stretchable accordion panel for a close fit and ease of entry and removal.
- Contoured high modulus shin plate protector gives superior impact and abrasion resistance.
- New Alpinestars unique Multi-Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection.

- Lateral laser ventilation improves breathability for optimum comfort.
- Dual density TPU replaceable toe slider with screw-in assembly provides protective coverage around the outer toe area.
- TPU heel protector are positioned to dissipate and absorb shocks and allow sliding during an accident.
- Large front and rear accordion zones are optimized to maximize flexibility for supreme comfort and improved safety.
- Lateral micro adjustable ratchet top closure stows tab end.
- Alpinestars anatomical and replaceable countered EVA

- footbed provides arch support and forefoot pedal feeling.
- Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip.
- Inner instep speed lacing closure and unique lateral zipper offer precise and secure fit.
- Hook and loop tab locks the zip pull closed, keeping it flat and safe.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product.
- The following standards apply: CE EN13634:2017.

## SMX-6 v2 GORE-TEX BOOT

ALL-WEATHER PERFORMANCE RIDING | SIZE: 36-50 EUR / 3.5-14 US

- Newly designed boot upper incorporates innovative front, rear below and rear calf zones.
- Main upper material constructed from advanced microfiber for durability and abrasion resistance, plus a waterproof and highly breathable Gore-Tex liner for excellent all-weather performance.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's controls.
- Alpinestars innovative TPU lateral ankle brace

- protection provides a biomechanical support between lateral top calf/shin and ankle and offers improved structural integrity.
- Alpinestars new and exclusive compound rubber sole promotes improved feel and grip, water dispersion and durability.
- Air vents on the heel counter and shin plate improves cooling comfort on short and long rides.
- High modulus TPU injected shin guard, calf

- protector, heel counter and shift pad.
- Double density ankle protector on medial side layered under the upper offers protective performance.
- Innovative instep and Achilles accordion flex zone construction.
- Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.

- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- New, dual compound removable anatomic footbed includes EVA and Lycra.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product.
- The following standards apply to this product: EN 13634:2010.

## SMX-6 v2 DRYSTAR® BOOT

ALL-WEATHER PERFORMANCE RIDING | SIZE: 36-50 EUR / 3.5-14 US

- Newly designed boot upper incorporates innovative front, rear bellow and rear calf zones.
- Main upper material constructed from advanced microfiber for durability and repeated abrasion resistance, plus a waterproof and breathable Drystar® liner for excellent all-weather performance.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's controls.
- Alpinestars innovative TPU lateral ankle brace

- protection provides a biomechanical support between lateral top calf/shin and ankle and offers improved structural integrity, protection against impact shocks, repeated abrasion resistance and flex support.
- Air vents on the heel counter and shin plate improve comfort and reduce fatigue.
- High modulus TPU injected shin guard, calf protector, heel counter, shift pad and toe slider.
- Double density ankle protector on medial side layered

- under the upper offers protection in key area.
- Integrated, replaceable bi-injected TPU slider features new easy screw fixing concept.
- Innovative instep and Achilles accordion flex zone construction.
- Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.

- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- Alpinestars new and exclusive compound rubber sole.
- New, dual compound removable anatomic footbed includes EVA and Lycra®
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product.
- The following standards apply to this product: EN 13634:2010.

## SMX S WATERPROOF BOOT

ALL-WEATHER PERFORMANCE RIDING | SIZE: 36-50 EUR / 3.5-14 US

- Durable microfiber upper construction offering superb levels of flexibility and comfort.
- Incorporating a waterproof and breathable membrane for comfort and weather performance.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's controls.
- New, ergonomic TPU shin plate protector is race-derived for superior impact and abrasion resistance.
- Lateral TPR-injected ankle support construction offers optimized levels of protection and stability.
- TPU double density ankles protectors are layered under the upper in both lateral and medial side.
- Integrated, replaceable bi-injected TPU slider features new easy no-screw fixing concept.
- Shift pad made from TPU incorporates technical texturing for protection and grip.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- New, dual compound removable anatomic footbed includes EVA and Lycra®.
- Alpinestars new and exclusive compound rubber sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2010.

## SPECTER LEATHER JACKET TECH-AIR® COMPATIBLE

PERFORMANCE RIDING | SIZE: 48-60

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Premium leather main chassis constructed from 1.0mm – 1.2mm bovine leather.
- Large accordion stretch panels on rear shoulder helps movement and comfort on the bike.
- Stretch fabric panels on sleeves further improve fit and feel.
- Two zippered hand pockets.
- Pre-curved sleeve construction reduces fatigue.
- Localized perforations for excellent ventilation and internal airflow.
- Reflective details.
- Low profile collar construction with microfiber comfort edging plus 3D textured fabric inner collar lining for comfort.
- Zippered air-intake vents are strategically positioned for optimized airflow when opened.
- Hook and loop grip waist and cuff adjuster.
- Chest pad and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Mesh lining for breathability and comfort.
- Inner waterproof wallet / document pocket.
- Multiple snap button system to integrate the Level 2 Alpinestars Nucleon back protector.
- Waist connection zipper allows attachment to Alpinestars riding pants.
- Level 1 Alpinestars GP-R protectors on the shoulder and elbow.
- Shoulder protection features over-molded advanced TPU guard layered under the outer fabric.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – A class.

## GP-R v2 LEATHER JACKET TECH-AIR® COMPATIBLE

PERFORMANCE RIDING | SIZE: 46-60

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Main chassis constructed from 1.3mm premium bovine leather.
- Large accordion stretch panels help movement.
- Stretch fabric panels on sleeves further improve fit and feel.
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- An LED display on the sleeve indicates the airbag's operational status, while an internal housing located in the back protector accommodates the system vest's ECU.
- Waist adjustment for improved riding fit.
- Two zippered hand pockets for added practicality.
- Pre-curved sleeve construction reduces riding fatigue.
- Zippered air intakes are strategically positioned for optimized airflow when opened.
- Low profile collar construction with 3D textured fabric inner collar lining for additional rider comfort.
- Printed graphic details for reduced weight.
- Chest and back compartments are designed to accommodate the Alpinestars Nucleon chest and back inserts, available as an accessory upgrade.
- Fixed inner liner for breathability.
- Removable thermal liner for enhanced versatility.
- Waterproof inner wallet pocket for peace-of-mind storage.
- Multiple snap button system to integrate the Level 2 Alpinestars Nucleon Back protector.
- Alpinestars Bio Armor protectors on the shoulder and elbow.
- GP Lite external sliders on shoulder.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
  - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.

## SP-1 v2 BOOT

ROAD RIDING | SIZE: 36-50 EUR / 3.5-14 US

- The main upper material is microfiber.
- Tongue and rear accordion made by lightweight padded material that offer superior comfort.
- Airflow and ventilation are improved thanks to lateral Air Intake with metallic mesh.
- New speed lace system derived from Alpinestars MotoGP™ technology for improved quick precise and secure closure.
- Higher closure system with new adjustable hook-and-loop closure and debossed Alpinestars logo.
- Foam backed double density ankles disk protection are mounted under the upper plus lateral outer TPR guards provide all-round strategic protection and flexibility in keys area.
- External TPR toe reinforcement helps protect against abrasion and gives greater stability.
- Welded reflective insert on rear to make the rider more visible to other road users, especially when riding at night.
- TPU heel counter protects from impact and abrasion.
- Internal toe box reinforcement layered under the microfiber.
- Breathable textile lining with anti-sliding microfiber suede on the heel.
- Removable anatomic EVA foam footbed.
- Alpinestars exclusive vulcanized rubber compound sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- SP-1 v2 shoe is Cat 2 to 89/686/ECC EU directive.

## SMX-1 R BOOT

PERFORMANCE RIDING | SIZE: 38-50 EUR / 6-14 US

- The main upper material is synthetic microfiber and offer greater comfort, durability and abrasion resistance.
- Front and rear accordions are made by lightweight microfiber that offer more comfort.
- Same S-MX 6 ergonomic shaping for forefoot streamlining which enables greater control of the bike's controls and offers a superior wide-ranging foot profile for better fit and comfort.
- Lateral adjustable closure system envelopes around the front accordion for a secure closure and fit coupled with hook and loop tab. The strap is located on the medial side of the top of the boot for secure fast fastening with a TPR terminal strap for an easier prehensibility.
- Zip closure is covered with microfiber to protect bike from zipper scratches.
- Hook and loop tab locks the zip pull closed, keeping it flat and secure.
- New TPR design on medial side to protect the ankle panel.
- New TPR design on lateral toe-box gives more flexion and comfort.
- Rear TPR Silver insert joined with the heel counter ensures additional support and security.
- Double density ankle protector on medial side layered under the upper offers protective performance and abrasion resistance in key area.
- Integrated replaceable TPU bi-injected slider features new easy screw fixing concept.
- High modulus TPU injected heel counter and shift pad for enhanced structural protection.
- Internal toe box is layered under the upper.
- Exclusive rubber compound for an optimal combination of comfort and grip.
- Removable anatomic EVA footbed with Lycra® lining on top.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- SMX-1 R boot is to Cat 2 to 89/686/ECC EU Directive.

## FASTER-3 RIDEKNIT RIDING SHOE

ROAD RIDING | SIZE: 6-14 US / 38-48 EUR

- Main upper material combination of advanced microfiber, knitted mesh and seamless thermo-welded microfiber forms an innovative and technical finish.
- Lower tongue, lateral and medial quarter in knitted mesh construction allows breathability, comfort and a modern streetwear look.
- Air vent details on lateral and toe area are strategically positioned to improve airflow and ventilation.
- Enhanced TPU ankle extended into lower lateral area gives improved support and protection.
- TPR slider details on lateral toe box gives increased flex and protection.
- New TPR heel counter design ensures additional lateral support and security.
- Asymmetric toe design gives protection on shift area.
- Traditional lace closure system for an easy, secure and comfortable fit.
- Lateral adjustable hook and loop closure system with TPR strap for increased security.
- Medial dual density ankle protectors are applied between the upper and padded lining to provide strategic protection and flexibility in key areas.
- Tongue and collar padding provides high levels of comfort and fit around the ankle and instep.
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design.
- 3D mesh lining for high levels of breathability with anti-slip micro-suede in the heel.
- Replaceable anatomical EVA footbed with Lycra lining on top.
- Extremely lightweight, specifically compounded, rubber sole provides textured grip, excellent absorption and features an integrated support shank for enhanced sole rigidity.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

## STELLA MISSILE LEATHER SUIT - TECH-AIR® COMPATIBLE

WOMEN'S PERFORMANCE RIDING | SIZE: 38-50

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Anatomically profiled for a fully optimized female fit and constructed with premium 1.3mm genuine bovine leather.
- Large accordion stretch panels help movement and comfort on the bike.
- Strategically positioned accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- An LED display on the sleeve indicates the airbag's operational status, while an internal housing located in the back protector accommodates the system vest's ECU.
- Hyper Resistant Stretch Fiber (HRSF) fabric panels on sleeves and crotch further improve fit and feel.
- Ergonomic back hump, designed specifically for the female form and sculpted for better airflow and performance at high speed.
- Pre-curved sleeves and legs construction to reduce rider fatigue when riding.
- Large perforated leather panels for maximum ventilation.
- Localized perforations highly improve ventilation.
- Stitched leather graphic details.
- Calf expansion gusset.
- Integrated padding for increased levels of rider comfort.
- Chest compartments are designed to accommodate the Alpinestars Stella Nucleon chest pads, available as an accessory upgrade.
- Knee multi-layer reinforced construction with grip texture on the bike contact area.
- Removable mesh inner liner for convenience and breathability.
- Waterproof inner wallet pocket for peace-of-mind storage.
- Multiple snap button system to integrate the Level 2 Alpinestars Nucleon Back protector.
- 3D textured fabric collar construction aids comfort and prevents chafing.
- Innovative inner cuff and calf adjusters allow riders to tailor the fit.
- Alpinestars GP-R protectors on the shoulder, elbow, knee.
- Innovative new elbow slider is anatomically contoured and features a removable and replaceable screw-mounted insert slider.
- Dynamic Friction Shield (DFS) external dual density TPU sliders on the shoulder and knee for high levels of abrasion resistance.
- Sport knee slider.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
  - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
  - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.
  - CE Level 1 EN1621-1:2012 Alpinestars GP-R shoulder, elbow and knee protectors.

## STELLA SMX PLUS v2 BOOT

WOMEN'S PERFORMANCE RIDING | SIZE: 36-43 EUR / 5-11 US

- Fully optimized for a female fit.
- Advanced microfiber upper construction for lightweight high performance protection and superb levels of flexibility.
- Front flex area is constructed with a soft microfiber for improved abrasion resistance and natural forwards and backwards movement.
- Flexible accordion microfiber on Achilles gives enhanced natural movement.
- Strategically positioned ventilation area in heel and shin TPU for breathability and airflow.
- Outside entry/exit has stretchable accordion panel for a close fit and ease of entry and removal. Contoured high modulus shin plate protector gives superior impact and abrasion resistance.
- An evolution of Alpinestars unique Multi-Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection.
- Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle protectors.
- Dual density TPU replaceable toe slider with screw-in assembly provides protective coverage around the outer toe area.
- Replaceable heel slider and external side heel slider are positioned to dissipate and absorb shock and promote sliding during an accident.
- Large front and rear asymmetrical accordion zones are optimized to maximize flexibility for superior comfort and improved safety.
- Micro adjustable ratchet top closure stows tab end.
- Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort.
- Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling.
- Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip.
- Inner instep speed lacing closure and unique lateral zipper offer precise and secure fit.
- Alpinestars Lace-Lock System is constructed from an advanced polymer resin to guarantee a quick, precise and secure closure.
- Hook and loop tab locks the zip pull close, keeping in flat and safe.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
- CE EN13634:2017.

## STELLA SMX-6 v2 BOOT

WOMEN'S PERFORMANCE RIDING | SIZE: 36-43 EUR / 5-11 US

- Designed and constructed specifically for a women's performance fit.
- Newly designed boot upper incorporates innovative front, rear bellow and rear calf zones for superior levels of flexibility. Upper constructed from advanced microfiber for durability and abrasion resistance.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's controls and for superior, wide-ranging foot profile, fit and comfort.
- Alpinestars innovative TPU lateral ankle brace protection provides a biomechanical support between lateral top calf/shin and ankle and offers improved structural integrity, protection against impact shocks, repeated abrasion resistance and flex support.
- Air vents on the heel counter and shin plate plus breathable mesh inserts improve comfort and reduce fatigue on short and long rides.
- High modulus TPU injected shin guard, calf protector, heel counter, shift pad, ankle brace and toe slider for improved shock protection and durability.
- Double density ankle protector on medial side layered under the upper offers protective performance in key area.
- Integrated, replaceable bi-injected TPU slider features new easy screw fixing concept for quicker and easier replacement.
- Innovative instep and Achilles accordion flex zone construction for superior comfort, extension, control and support.
- Internal insole with the shank reinforcement integrated for added support to the arch area and foot protection.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure for flexibility and secure fit. The aperture opening is large to promote easier in/out.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- Breathable textile interior lining features anti-sliding suede reinforcement on heel area help keep foot in position while riding.
- New, removable anatomic footbed includes EVA and Lycra® for performance, comfort and support.
- Alpinestars new and exclusive compound rubber sole promotes improved feel and grip, water dispersion and durability.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
- Stella SMX-6 v2 Boot is to EN 13634:2010.

## STELLA SMX-1 R BOOT

WOMEN'S PERFORMANCE RIDING | SIZE: 36-44 EUR / 5-11.5 US

- Specific women fit.
- Specifically engineered for women.
- The main upper material is synthetic microfiber and offer greater comfort, durability and abrasion resistance.
- Front and rear accordions are made by lightweight microfiber to offer more comfort.
- Ergonomic shaping for forefoot streamlining which enables greater control of the bike's controls while also providing superior wide-ranging foot profile, fit and comfort.
- Lateral adjustable closure system envelopes around the front accordion for a secure closure and fit coupled with hook and loop tab. The strap

- is located on the medial side of the top of the boot for secure fast fastening with a TPR terminal strap for an easier prehensibility.
- Zip closure is covered with microfiber to protect bike against zip scratches.
- Hook and loop tab locks the zip pull closed, keeping it flat and secure.
- New TPR design on medial side to protect the ankle panel.
- New TPR design on lateral toe-box gives more flexion and comfort.
- Rear TPR silver insert joined with the heel counter ensures additional support and security.
- Double density ankle protector on medial side layered under the upper offers protective performance and abrasion resistance in key area.

- Integrated replaceable TPU bi-injected slider features new easy screw fixing concept.
- High modulus TPU injected heel counter and shift pad for enhanced structural protection.
- Internal toe box is layered under the upper.
- Exclusive rubber compound for an optimal combination of comfort and grip.
- Removable anatomic EVA footbed with Lycra® lining on top.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
- CE EN13634:2017.

### STELLA FASTER-3 DRYSTAR® RIDING SHOE

WOMEN'S PERFORMANCE RIDING | SIZE: 5-11.5 US / 36-44 EUR

- Engineered specifically for women.
- Main upper material combination of advanced microfiber, PU suede and seamless thermo-welded microfiber for durability and abrasion resistance.
- Air ventilation details on lateral quarter with mesh openings for breathability.
- Enhanced TPU ankle extended into lower lateral area gives increased support and protection.
- TPR slider detail on lateral toe box gives improved flex and protection.
- New TPR heel counter design ensures additional lateral support and security.
- Asymmetric toe design gives protection on shift area.
- Traditional lace closure system for an easy, secure and comfortable fit.
- Lateral adjustable hook and loop closure system with TPR strap for increased security.
- Medial dual density ankle protectors are applied between the upper and padded lining to provide strategic protection and flexibility in key areas.
- Tongue and collar padding provides high levels of comfort and fit around the ankle and instep.
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design.
- Drystar® membrane within chassis gives 100% performance against wet penetration.
- Replaceable anatomical EVA footbed with Lycra lining on top.
- Extremely lightweight, specifically compounded, rubber sole provides textured grip, excellent absorption and features an integrated support shank for enhanced sole rigidity.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
- CE EN13634:2017.

# TECH-AIR®

RACE\_AIRBAG\_SYSTEM  
COMPATIBLE

## SENSORS

Electronic sensors incorporated in the system's chassis, meaning it is completely self-contained and allows it to be worn interchangeably with compatible garments.

## ACU

System's firmware within the Airbag Control Unit (ACU) is upgradeable and can be configured to run the Tech-Air® E-Street airbag settings for non-racing use in road and light off-road situations.

## BATTERY

System uses an integrated, certified lithium-ion battery, with a battery life of 25 riding hours.

System goes into sleep mode when non-riding.

## CARTRIDGES

Argon inflator cartridges are CE certified to ISO 14451 standard, and will only fire if commanded by the electronic unit.

It also certifies that the cartridges can be safely handled, assembled and transported.

## INTEGRAL BLADDER

Built to withstand extreme impacts of force and inflates at a calculated rate of ~25 milliseconds.

## EXTENDED SHOULDERS

Ergonomically profiled, performance fit airbag that covers and protects the most vulnerable parts of the body.

## CARTRIDGE CONNECTION

Argon cartridges are rechargeable at your local service station.

## COVERAGE

Comprehensive inflatable upper body protection for back, shoulders, kidney area, chest and upper abdomen.

## TECH-AIR® RACE VEST

RACING / PERFORMANCE RIDING | SIZE: XS-2XL

- System's firmware is upgradable and can be configured to run the Tech-Air® Street airbag settings for non racing use in road and off-road situations.
- Ergonomically profiled, performance fit airbag vest optimized for use with compatible racing / performance riding airbag leather suit.
- Airbag Control Unit incorporated within strong, lightweight, ergonomic polymer back protector, specially optimized for race and track use.
- Electronic sensors incorporated in the system's chassis, meaning vest is completely self-contained and allows it to be worn interchangeably with compatible garments.
- Advanced multi-material main shell incorporates Lycra®, 2D mesh and Cordura.
- Interior comprises of perforate Lycra, 3D mesh and comfort edging for high levels of comfort.
- Specially designed, race-developed back protector.
- Comprehensive inflatable upper body protection for back shoulders, kidney area, chest and upper abdomen.
- Incorporates removable inner mesh and elastic hook and loop waistband to position airbag system to customize fit and improve adjustability.
- Argon inflator cartridges are to ISO 14451 standard.
- ACU is seal-protected within vest to ensure its all-weather performance and the vest and componentry are certified.
- ACU has been homologated to ECE R10 04, which ensures the electromagnetic integrity and stability of the unit.
- System uses an integrated, certified lithium ion battery, with a battery life of 25 hours and a recharge time of approximately 6 hours. Micro USB charger allows convenient recharging of system, with one hour of charging time giving four hours of riding coverage.
- Color coded front YKK zippers allow for vest to be easily and securely attached to outer jacket.
- Category II to the 686/89/EEC European PPE Directive, using a version of EN1621-4:2013, which guarantees impact protection performance between 45 milliseconds to 5 seconds.
- System features Dual Charge capability for M-XL sizes (2XL garments have only single charge capacity).
- Design and manufacture to the 2007/23/EC pyrotechnic directive.

G. HEIGHT IN	47 ¼ - 51	51 - 55	55 - 59	59 - 63

## HOW TO MEASURE

A. Chest - Measure around the fullest part, under the armpits, keeping the tape horizontal.

B. Waist - Measure around the natural waist line, in line with the navel, keeping the tape horizontal.

C. Hip - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.

D. Thigh - Measure around the thigh just below the crotch, keeping the tape horizontal.

E. Inseam - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.

F. Arm Length - Measure from shoulder (Humerus) to wrist.

G. Height - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

## GLOSSARY

**4-IN-1 SYSTEM** - Interchangeable system incorporating the removable, waterproof and breathable drystar® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the drystar® and thermal liners together; the drystar® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.

**ARMACOR™** - Product technology it's a patented lattice structure with an integrated dupont™ kevlar® fiber core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a Gore-Tex Pro shell motorcycling jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort – in all-weather conditions.

**CE-CERTIFICATION** - Protection and protectors that are ce-certified have met the strict performance standards and requirements of the European Union.

**CLARINO®** - This highly durable material provides great feel for the palm. Machine washable, clarino® remains soft and supple even after repeated exposure to water.

**CLIMATE CONTROL SYSTEM** - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.

**COOLMAX®** - This unique material "wicks" moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.

**CORDURA®** - This textured nylon is durable, lightweight and abrasion resistant

**DENIER** - Denier is a measurement which denotes the thickness and the diameter of a fiber material.

**DRYSTAR®** - Alpinestars waterproof and breathable membrane for all-weather comfort and performance.

**DRYSTAR® PERFORMANCE** - Alpinestars exclusive sealed triple layer construction technology which bonds all layers in glove, thereby affording a highly reduced material chassis to promote good levels of sensitivity of bike controls.

**E.V.A.** - This comfortable and lightweight material provides superior shock absorption and impact protection.

**GORE-TEX** - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.

**GORE-TEX INFINIUM WITH WINDSTOPPER TECHNOLOGY** - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.

**GORE-TEX PRO SHELL** - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.

**GORE-TEX PACLITE® SHELL** - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.

**GORE-TEX SOFT SHELL** - Constructed with soft and warm fabrics, they are designed for reduced layering and improved freedom of movement in colder conditions.

**GORE-TEX WITH GORE GRIP TECHNOLOGY** - Sealed triple layer material construction from Gore-Tex for improved dexterity, grip and control sensitivity.

**PERFORMANCE SHELL** - Designed to provide comfort and durable waterproof protection.

**DUPONT™ KEVLAR®** - Used as a reinforcement, this high strength fiber is cut and tear resistant.

**NEOPRENE** - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.

**OUTDRY®** - Innovative heat-bonded membrane construction which provides an impenetrable layer with no seams, preventing water collecting between the layers for a lightweight improved fit, greater dexterity and comfort.

**PITTARDS® DIGITAL LEATHER** - Supple and quick drying leather which provides excellent grip in all-weather conditions.

**SCHOELLER® KEPROTEC®** - This stretchable and vented material features dupont™ kevlar® reinforced thread for maximum tear and abrasion resistance.

**SUBLIMATED GRAPHICS** - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.

**SUPERFABRIC®** - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.

**TAPED SEAMS** - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.

**TASLAN** - Durable and water repelling nylon fabric.

**THINSULATE®** - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.

**PRIMALOFT®** - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.

**PE** - Polyethylene - Thermoplastic material composed of polymers of ethylene. It is light, strong, water resistant and flexible at low temperatures.

**PU** - Polyurethane - Polymer containing urethane used in plastics, rubber, foam, etc.

**PU COATING** - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.

**TPU** - Thermoplastic polyurethane. A hybrid material - a mixture between hard plastic and soft silicone. A very dense and smooth rubber.

## KEY FEATURES

	RACING		REMOVABLE THERMAL VEST LINER		ALL SEASON JACKET		TEXTILE PALM CONSTRUCTION		ADJUSTABLE WRIST
	SPORT		REMOVABLE THERMAL JACKET LINER		REMOVABLE STORM COLLAR		SYNTHETIC PALM CONSTRUCTION		ADJUSTABLE CUFF
	TOURING		REMOVABLE THERMAL PANTS LINER		FOUR JACKETS IN ONE		TEXTILE / LEATHER PALM CONSTRUCTION		THERMAL INSULATION
	CITY		REMOVABLE THERMAL THIGH WARMER		FIT ADJUSTMENT		LEATHER / SYNTHETIC PALM CONSTRUCTION		CONDUCTIVE FINGER
			REMOVABLE MEMBRANE LINER		FIT ADJUSTMENT		TEXTILE / SYNTHETIC PALM CONSTRUCTION		VISOR WIPER
	CE PROTECTORS POSITIONING GUIDE		REMOVABLE MEMBRANE LINER		PATENTED CALF EXPANSIONS POCKET		PU KNUCKLE		
	CE CERTIFIED HIP PROTECTOR COMPATIBLE		REMOVABLE WINDBREAKER LINER		SEAMLESS CONSTRUCTION		MOLDED KNUCKLE		GORE-TEX® WATERPROOF BREATHABLE INTERNAL MEMBRANE
	CE CERTIFIED HIP PROTECTOR INCLUDED		REMOVABLE WINDBREAKER VEST LINER		BIONIC NECK SUPPORT COMPATIBLE		CARBON FIBER KNUCKLE		ALPINESTARS EXCLUSIVE WATERPROOF / BREATHABLE INTERNAL MEMBRANE
	CE PROTECTORS POSITIONING GUIDE		REMOVABLE WASHABLE COMFORT LINER		DUPONT™ KEVLAR® FIBER REINFORCED PANELS ON SEAT AND KNEE		TPR KNUCKLE		ALPINESTARS EXCLUSIVE SEALED AND BONDED TRIPLE LAYER CONSTRUCTION
	CE PROTECTORS POSITIONING GUIDE		REMOVABLE WASHABLE COMFORT LINER JACKET		ADJUSTABLE KNEES PROTECTORS INCLUDED		FOAM PADDING KNUCKLE		WINDPROOF BREATHABLE LAMINATED MEMBRANE
	CE PROTECTORS POSITIONING GUIDE		REMOVABLE WASHABLE COMFORT LINER PANTS				PU FINGER FINGER SLIDERS		OUTDRY® HEAT-BONDED MEMBRANE CONSTRUCTION
	BACK PROTECTOR SNAP LINKAGE SYSTEM				LEATHER TOP CONSTRUCTION		CARBON FIBER FINGER SLIDERS		WATERPROOF
	AERODYNAMIC BACK HUMP BASED ON THE ALPINESTARS MOTOGP® PROFILE		REMOVABLE BRACES		TEXTILE TOP CONSTRUCTION		PU FINGER FINGER SLIDERS		WATER RESISTANT
	AERODYNAMIC BACK HUMP		DETACHABLE SLEEVES		SYNTHETIC TOP CONSTRUCTION		FOAM FINGER SLIDERS		VENTILATED
	ALPINESTARS PATENTED EXTERNAL PU SLIDERS		DEVICE COMPATIBLE		TEXTILE / LEATHER TOP CONSTRUCTION		HIGH FINGER BRIDGE		WINDPROOF
	ALPINESTARS PATENTED EXTERNAL PU SLIDERS		REFLECTIVE INSERTS		LEATHER / SYNTHETIC TOP CONSTRUCTION		PATENTED FINGER BRIDGE		MESH PANEL VENTILATION
	ALPINESTARS PATENTED EXTERNAL PU SLIDERS		INTERNAL CHEST WATERPROOF DOCUMENT POCKET		TEXTILE / SYNTHETIC TOP CONSTRUCTION		PALM SLIDER		VENTILATED OPENINGS
	REMOVABLE PROTECTOR LINER		DOWN FILLING		LEATHER PALM CONSTRUCTION		PU CUFF
