BIG SUR GORE-TEX PRO JACKET TECH-AIR® COMPATIBLE

ALL-WEATHER RIDING / ADVENTURE TOURING | SIZE: S - 4XL

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- - LED display on sleeve indicating airbag's operational status, plus internal housing for the system vest's ECU.
- - Internal hook and loop fixings plus cable housing in order to seamlessly accommodate airbag system.
- Gore-Tex Pro Shell multi-fabric laminated construction with high abrasion resistance fabric on elbow and shoulder areas.
- Convenient storage options with two front waterproof hand pockets, front chest pockets and large rear utility pocket.
- Advanced ventilation system on front and back for enhanced levels of breathability and airflow.
- Waist adjustment belt for a custom fit.
- Multiple fit and volume adjusters on sleeves to reduce material bunching.
- New cuff adjuster closure system, features a dual hook and loop securing system for an optimized fit and the effective prevention of water ingress.
- Accordions on elbow and scapulae area for improved freedom of movements.
- Reflective details.
- Magnet located on collar to keep the flap open.
- Internal waist connection zipper for attachment to riding pants.
- Chest pad and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Soft collar inner liner with padded edging for improved rider comfort.
- Removable thermal layer allows the jacket to be tailored to the weather conditions.
- New shoulder protection features over-molded advanced TPU guard layered under the outer fabric.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Fully riding garment to CE – Category II prEN17092 draft standards – A class.
- CE Level 2 EN1621-1:2012 Alpinestars Bio-Air shoulder and elbow protectors.

BIG SUR GORE-TEX PRO PANTS

ALL-WEATHER RIDING / ADVENTURE TOURING | SIZE: S - 4XL

- Gore-Tex Pro multi-fabric laminated construction with high abrasion resistance fabric on knee and inner legs.
- Gore-Tex stretch inserts on waist, crotch and back knees for freedom of movement.
- Leather insert on inner calf for enhanced durability.
- Convenient storage options with two front hand pockets and a cargo pocket on left thigh for real-world practicality.
- Large ventilation system on front thigh panel for high levels of airflow.
- Waist adjustment, hook and loop strap ankle adjuster and hook and loop strap calf adjuster for an optimized fit.
- Accordion insert on knee for high levels of rider comfort and an optimized fit.
- Reflective details.
- Waist connection zipper for attachment to Alpinestars motorcycle jackets.
- Removable bib suspenders to ensure the pants stay in position.
- Removable thermal layer allows the pants to be adapted to suit the weather conditions.
- Soft mesh lining for comfort and high levels of breathability.
- Hip pad compartments can accommodate the Nucleon hip inserts (available as an accessory upgrade).
- Soft waist inner liner with padded rear panel for improved comfort.
- Alpinestars Bio-Air knee protector.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- CE Category II PPE Regulation (EU) 2016/425 – A class.

ALL-WEATHER RIDING / ADVENTURE TOURING | SIZE: S - 4XL

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- LED display on sleeve indicating airbag's operational status, plus internal housing for the system vest's ECU.
- Internal hook and loop fixings plus cable housing in order to seamlessly accommodate airbag system.
- Adventure Rally jacket constructed with a Gore-Tex Pro laminated material for all-weather performance and durability.
- ARMACOR™ reinforcement on shoulder and elbow for additional strength and durability.
- Double wrist hook and loop closure and adjustment for effective prevention of water ingress and a secure fit.
- Upper sleeve and waist buckle adjustment for an optimized fit and the prevention of material bunching.
- Jet Ventilation System large zippered air intakes on chest for powerful cooling performance.
- Waterproof zippered sleeves and rear air intakes.
- Large accordion stretch insert on back shoulder and arms for increased levels of flexibility and movement.
- Stretch panel on sleeve for an optimized fit.
- Hydration back pocket with tube holder on jacket's front.
- Chest and hand pockets for real-world practicality.
- Multiple reflective prints.
- PU prints on elbows for increased levels of abrasion resistance.
- Pre-curved sleeves for increased comfort in riding position.
- Large external utility pocket on lower back of the jacket for additional storage.
- Integrated soft edge collar construction for enhanced rider comfort.
- Hook and loop collar volume adjuster for an optimized fit.
- Chest pad and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Inner waterproof pocket plus internal compartments.
- GP Lite shoulder protection features over-molded advanced TPU guard layered under the outer fabric for additional protection against impacts.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Fully riding garment to CE – Category II prEN17092 draft standards – A class.
 - CE Level 2 EN1621-1:2012 Alpinestars Bio-Air shoulder and elbow protectors.

TAILWIND AIR WATERPROOF JACKET TECH-AIR® COMPATIBLE

ALL WEATHER RIDING / ADVENTURE TOURING | SIZE: S - 3XL

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- - LED display on sleeve indicating airbag's operational status, plus internal housing for the system vest's ECU.
- - Internal hook and loop fixings plus cable housing in order to seamlessly accommodate airbag system.
- 600D polyester fabric with PU coating for high levels of durability.
- Extended high performance mesh panels on chest, back and sleeves for improved cooling performance.
- Strategically positioned shoulder accordion stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- Detachable waterproof membrane for all-weather versatility.
- Multiple volume elastically adjusted adjusters on sleeves for a tailored fit.
- Waist adjustment for an improved riding fit.
- Two front kangaroo pouch-style pockets and one zippered chest pocket for real-world practicality.
- New ergonomic cuff adjustment closure system, snap button gusset and security zippers for ease-of-use with gloved hands.
- Reflective prints on the back.
- Pre-curved sleeve construction reduces riding fatigue.
- Waterproof front inner pocket for peace-of-mind storage.
- Chest and back compartments are designed to accommodate the Alpinestars Level 1 Nucleon chest and Level 2 back inserts, available as an accessory upgrade.
- Collar construction with rubberized fabric edging plus for rider comfort and to prevent chafing.
- Waist connection zipper allows attachment to Alpinestars riding pants.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Fully riding garment to CE – Category II prEN17092 draft standards – A class.

TOUCAN GORE-TEX BOOT

ADVENTURE TOURING / LIGHT OFF-ROAD | SIZE: 40.5-48 EUR / 7-13 US

- Innovative lateral ankle protection with a supporting bio-mechanical link between the upper boot and the lower foot structure provides support and control.
- Medial side structure is contoured for perfect fit and flexibility fit, with reinforced polymer and rubber sculpturing for grip and protection against impact.
- Advanced TPU protection layer covers the internal heel counter and toe box enhancing support and rigidity in key impact areas.
- Coated leather panel forms the outer surface of the toe box providing effective abrasion and weather resistance.
- Heel is encased in a moulded external protector for increased impact dissipation and absorption.
- Ankle protector is carefully shaped around the ankle bone, with reduced volume, to optimize protection and comfort.
- High modulus shin guard incorporates an innovative, vertical,

flex blade system offering improved forward and rearward control and a high level of impact and abrasion resistance.

- Advanced instep and Achilles accordion flex zone construction, made of soft microfibers, gives superior comfort, control and support.
- Medial surface stamped on top calf suede panel improves grip and protection.
- Wide entry aperture for convenience, with secure upper TPR and hook and loop closure flap to allow broad ranging calf fit adjustment and support.
- Boot can be worn under and over riding pants and denims for adaptability.
- Closure system features two polymer buckles plus aluminum frames with innovative self-aligning, quick release, closures for customized and secure fitment.
- Screw fixed buckle base is replaceable.
- Upper collar and inner lining are formed with breathable mesh for riding comfort and freshness.

- Full waterproof and breathable Gore-Tex lining ensures 100% moisture protection while maintaining high levels of perspiration exchange.
- Removable anatomic structured footbed.
- Internal toe box and heel counter are built-in, under the outer skin for robust protection.
- Alpinestars new and exclusive compound rubber sole for optimal combination of control and grip.
- Unique Alpinestars advanced sole construction, fully perimeter stitched, is fully replaceable. The sole construction includes a structured midsole and rigid insole with an integrated steel shank for excellent feel and rigid comfort and safety.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2010.

COROZAL ADVENTURE DRYSTAR® OILED LEATHER BOOT

ADVENTURE TOURING | SIZE: SIZE: 40.5-48 EUR / 7-13 US

- The upper is constructed from full grain oiled leather on lower medial panel, both with heat press texture for superior grip.
- Front and rear bellow made with lightweight microfiber for more durability and abrasion resistance.
- Extended PU coated leather gaiter helps seal out excessive water and dirt entry; rear gaiter includes rubber insert for flexibility and comfort.
- TPU shin plate and calf plate offer support and resistance for impacts.
- Bio-mechanical lateral flex-blade system provides excellent front and rear movement while offering support and protection to the ankle.
- TPU shift pad made with technical texture for added grip
- plus foam padding on underneath for better comfort.
- Wide entry aperture for convenience with hook and loop upper closure flap to allow broad ranging calf fit adjustment.
- TPU double density ankles protector on medial side for protection.
- New closure system includes two polymer buckles with an innovative closure system.
- This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure.
- Soft foam surrounds the ankles and collar offer comfort and shock absorbing performance.
- Drystar® membrane layer between upper and lining for proven performance in difficult weather conditions.
- Toe box and heel counter reinforcement are layered under the upper.
- PP insole with steel shank co-injected for excellent feel and safety.
- Alpinestars exclusive vulcanized rubber plus injected PU midsole designed for optimal combination of comfort and grip.
- Replaceable anatomical EVA footbed with Lycra® lining on top.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

STELLA ANDES PRO DRYSTAR® JACKET TECH-AIR® COMPATIBLE
WOMEN'S ALL-WEATHER RIDING / ADVENTURE TOURING | SIZE: S - 2XL

- Tech-Air® compatible.
- The Tech-Air® system is purchased separately, installs easily and does not require any external sensors to operate. Should it detect the start of a crash, it will deploy a protective airbag, providing unrivaled protection to the rider's full back, shoulders, kidney area and chest.
- Designed and specifically optimized for a women's performance fit
- Multi-fabric shell construction, with durable material in strategic areas.
- Direct jet ventilation foldable panels offer personalized levels of airflow and internal cooling.
- Two zippered air vents on back and zippered ventilation on sleeve bottoms for effective temperature management.
- Waterproof Drystar® 100 per cent waterproof and breathable fixed membrane for effective all-weather performance.
- Waist adjustment and multiple volume adjusters on sleeves for an optimized riding fit.
- Two front waterproof cargo pockets and a large back utility pocket for real-world practicality.
- Cuff adjustment closure system.
- Elbow and shoulder PU reinforcement for high levels of protection against impacts.
- Large stretch panels for increased flexibility and movement.
- Scapulae area accordion inserts for airbag compatibility.
- Bottom sides bellows.
- Multiple reflective prints.
- Touring collar construction with rubberized fabric comfort edging plus 3D textured comfort fabric on the inner collar lining.
- Pre-curved sleeve construction reduces riding fatigue.
- Removable long sleeve thermal liner for cold conditions.
- Front inner waterproof pockets for safe and secure storage of valuables.
- Chest and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Rubberized fabric comfort edge on collar and cuffs.
- Waist connection zipper allows attachment to Alpinestars riding pants.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation (EU) 2016/425 – A class.

PROTECTION | SIZE: XS-S-M-L-XL

- The Nucleon KR-R Cell is an innovative track and race back protector.
- Developed in three waist-to-shoulder dimensions in order to cover all body sizes.
- The new Cell Technology back protector is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- Extended lower back protector offers more protection to the rider.
- Highly perforated for maximum breathability and ventilation.
- The ergonomically designed protector contours to the natural curve of the back ensuring an optimum fit while riding.
- Horizontal flexion grooves for an adaptive fit in different riding positions.
- Compatible with the Nucleon KR-TB protector for extended lower spine protection.
- Height adjustable kidney belt featuring dual hook and loop closure system for easy, secure closure.
- Soft Bio-Foam padded chassis for maximum comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Back protector according with the EN 1621-2 : 2014 Level 2.

NUCLEON KR-2 PROTECTOR
PROTECTION | SIZE: XS-S-M-L-XL

- Back protector developed in three waist to shoulder dimensions in order to cover all the body sizes.
- Back shell plate is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight-saving properties.
- Soft viscoelastic compound developed for all the Nucleon protectors 2018.
- Hybrid construction: lattice shell with a new viscoelastic PU foam compound.
- Single injected lattice structure shell constructed with ergonomic design to absorb high impacts and allow maximum breathability and air flow.
- In combination with the Nucleon, PU foam on the central spine area offers extraordinary performance on impact absorption.
- Additional convex design on the central hard shell provides highest protection of the spine.
- Horizontal flex grooves for an adaptive fit in all riding positions.
- Adjustable rib protector made by a high performance polymeric material blend for additional side protection.
- Shoulder blade protective padding extensions to protect the acromion bones.
- Waist adjustment for customized fit and slim vented kidney belt for added position stability and security.
- Adjustable and detachable elastic shoulder straps via snap fit system to allow a more comfortable use of the protector.
- Compatible with the Nucleon KR-C protector.
- Compatible with the Nucleon KR-TB protector.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

- Two sides handle to move the bag easily.
- Big screen print.
- High-visibility Alpinestars lining.
- Strong Ppastic YKK Zipper chain size 10mm.
- Bottom and side panels made with waterproof tarpaulin, ensuring the bag remains dry when it stands on muddy terrain.
- Webbing reinforcement to give a better structure to the bag.
- Compartment walls can be removed to allow the bag to be reconfigured to one extra large internal compartment.

CITY HUNTER BACKPACK

TECHNICAL LUGGAGE | SIZE: OS

- 20" x 12.5" x 8.25"
- 51cm x 32cm x 21cm
- 25L Capacity (approximately).
- Multi-material outershell: light-weight 420D Nylon / 420D Ripstop Nylon to reinforce the bottom part of the bag.
- Computer compartment with full length zip featuring 15" laptop protective fleece sleeve.
- Large main compartment with internal organizer featuring a smartphone protective fleece sleeve.
- Built-in helmet carrier.
- Rain cover stored in its pocket in the main compartment.
- Ergonomic shoulder belts with perforated foam padding and mesh panels for an optimized airflow, adjustable and removable sternum strap and the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing flapping.
- Ergonomic 15mm back padding preventing spine pressure with ventilation channels for an optimized air flow.
- Removable waist strap featuring the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing flapping.
- YKK semi auto-locking zippers for a secure closure.
- Reflective details.

FORCE BACKPACK 25

TECHNICAL LUGGAGE | SIZE: OS

- 21" x 12" x 8"
- 53cm x 32cm x 20cm
- 25L Capacity (approximately).
- 420D nylon / 420D ripstop nylon / 1050D ballistic nylon / hypalon reinforcement for durability and strength.
- Four external pockets (two on the front / two on the sides) and one main compartment for real-world practicality.
- Internal removable organizer featuring 15" laptop and 11" tablet protective sleeves.
- Water bladder carrying system on the left or right side.
- Waterproof rain cover.
- Built-in helmet carrier.
- Four x 25mm adjustable compression straps.
- Two x 25mm adjustable bottom straps.
- Ergonomic and free moving shoulder belts featuring

- a built in grab handle, an adjustable sternum strap and the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing from flapping.
- Ergonomic trapeze construction on the bottom for a better load distribution, keeping the bag closer to the back.
- Ergonomic 15mm back padding preventing spine pressure with ventilation channels for an optimized air flow.
- Removable waist strap featuring the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing from flapping.
- YKK semi auto-locking zippers for a secure closure.
- Reflective details on the front.

TECH AERO BACKPACK

TECHNICAL LUGGAGE | SIZE: OS

- 21.25" x 12.5" x 7"
- 54cm x 32cm x 18cm
- Fully expandable from 18L to 24L (approximately).
- 100% polyester construction.
- Sport silhouette engineered for a low profile aerodynamic performance while riding.
- Built-in helmet carrier.
- YKK semi-auto locking zip to ensure secure closure while riding.
- Zipper puller.
- Internal Laptop sleeve which fits most 15" Laptop computers.
- Internal organizer pockets.
- Internal sleeve for Nucleon KR-2i Back Insert.

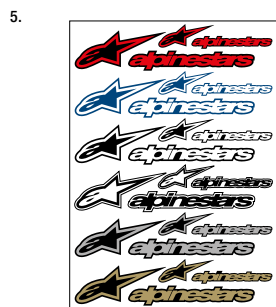

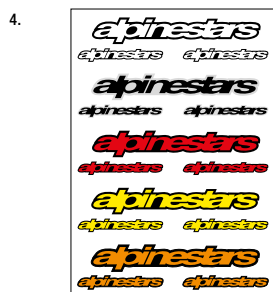

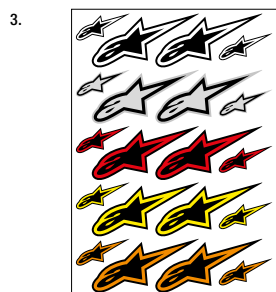

- Rain cover stored into lower zippered pocket.
- Conduit for hydration hose.
- Anatomical, adjustable, padded shoulder straps with chest connection strap for additional security and comfort.
- Innovative shoulder strap adjustment.
- Innovative adjustable waist strap for security which also features built-in zippered kidney pockets.
- Anatomical back padding built with 3D vented mesh.
- TPR and embroidered logo details.
- Reflective printed details.

CHARGER BACKPACK

TECHNICAL LUGGAGE | SIZE: OS

- 17.75" x 13" x 7"
- 45cm x 33cm x 18cm
- 17L capacity (approximately) with an internal laptop sleeve pocket to accommodate most 15" computers.
- Nylon and polyester construction for durability.
- Sport silhouette engineered for a low profile aerodynamic performance while riding.
- Water resistant fleece lined audio pocket with headphone exit port.
- Internal organizer pockets keep personal items accessible.
- Anatomical, adjustable,

- padded shoulder straps with chest connection strap for additional security and comfort and a quick release connection for convenience.
- Adjustable waist strap for security which also features built-in kidney pockets.
- Built-in helmet carrier.
- TPR and embroidered logo details.
- Waterproof, YKK auto-locking, one-way only, zip to ensure weather protection and secure closure while riding.

TECH-AIR®

STREET_AIRBAG_SYSTEM
COMPATIBLE

SENSORS

Electronic sensors incorporated in the system's chassis, meaning it is completely self-contained and allows it to be worn interchangeably with compatible garments.

INTEGRAL BLADDER

Built to withstand extreme impacts of force and inflates at a calculated rate of ~25 milliseconds.

ACU

System's firmware within the Airbag Control Unit (ACU) is upgradeable and can be configured to run the Tech-Air® E-Street airbag settings for non-racing use in road and light off-road situations.

EXTENDED SHOULDERS

Ergonomically profiled, performance fit airbag that covers and protects the most vulnerable parts of the body.

BATTERY

System uses an integrated, certified lithium-ion battery, with a battery life of 25 riding hours.

System goes into sleep mode when non-riding.

CARTRIDGE CONNECTION

Argon cartridges are rechargeable at your local service station.

CARTRIDGES

Argon inflator cartridges are CE certified to ISO 14451 standard, and will only fire if commanded by the electronic unit.

It also certifies that the cartridges can be safely handled, assembled and transported.

COVERAGE

Comprehensive inflatable upper body protection for back, shoulders, kidney area, chest and upper abdomen.

TECH-AIR® STREET VEST

TOURING / ROAD RIDING | SIZE: S-3XL - WOMEN'S SIZE: S-M

- Designed to be used in conjunction with airbag-compatible outer jackets
- Comprehensive inflatable upper body protection for back, shoulders, kidney area, chest and upper abdomen.
- Electronic sensors are securely and unobtrusively incorporated within the system's chassis, meaning the vest is completely self-contained and allows it to be worn interchangeably between compatible jackets.
- Constructed from a strong and durable mesh main shell with stretch Polyfabric on shoulders and torso for a compact and secure fit that is close to the rider's body while allowing freedom of movement.
- Removable inner mesh and elastic hook and loop waistband to position airbag system to customize fit and improve adjustability.
- Full internal back lining constructed from 3D mesh for optimized levels of ventilation and breathability.
- The Airbag Control Unit (ACU) of Tech-Air® is incorporated within strong, lightweight polymer back protector, which features an ergonomic plate construction for structural strength and a fit to follow the natural contours of the back.
- Tech-Air® ACU is seal-protected within vest to ensure its all-weather performance.
- ACU has been homologated to ECE R10 04, which ensures the electromagnetic integrity and stability of the unit.
- Tech-Air® uses an integrated, certified lithium ion battery, with a battery life of 25 hours and a recharge time of approximately 6 hours. Micro USB charger allows convenient recharging of system, with one hour of charging time giving four hours of riding coverage.
- CERTIFICATIONS
- Argon inflator cartridges are to ISO 14451 standard, meaning that they will only fire if commanded by the electronic unit. It also certifies that the cartridges can be safely handled, assembled and transported.
- System's firmware is upgradable and external service record will be managed by a custom-made data portal.
- Tech-Air® is Category II to the 686/89/EEC
- European PPE Directive, using a version of EN1621-4:2013, which guarantees impact protection performance from 25 milliseconds to 5 seconds.
- Certified to function at -10°C and and50°C to guarantee system's use in wide range of weather conditions.
- Tech-Air® design and manufacture is to the 2007/23/EC pyrotechnic directive, guaranteeing it has been assembled following all pyrotechnic handling and safety regulations, which means the system can be transported by car, ship, train or airplane.

HOW TO MEASURE

- A. Chest - Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. Waist - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. Hip - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
- D. Thigh - Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. Inseam - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. Arm Length - Measure from shoulder (Humerus) to wrist.
- G. Height - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

GLOSSARY

4-IN-1 SYSTEM - Interchangeable system incorporating the removable, waterproof and breathable drystar® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the drystar® and thermal liners together; the drystar® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.

ARMACOR™ - Product technology it's a patented lattice structure with an integrated dupont™ kevlar® fiber core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a Gore-Tex Pro shell motorcycling jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort – in all-weather conditions.

CE-CERTIFICATION - Protection and protectors that are ce-certified have met the strict performance standards and requirements of the European Union.

CLARINO® - This highly durable material provides great feel for the palm. Machine washable, clarino® remains soft and supple even after repeated exposure to water.

CLIMATE CONTROL SYSTEM - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.

COOLMAX® - This unique material “wicks” moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.

CORDURA® - This textured nylon is durable, lightweight and abrasion resistant

DENIER - Denier is a measurement which denotes the thickness and the diameter of a fiber material.

DRYSTAR® - Alpinestars waterproof and breathable membrane for all-weather comfort and performance.

DRYSTAR® PERFORMANCE - Alpinestars exclusive sealed triple layer construction technology which bonds all layers in glove, thereby affording a highly reduced material chassis to promote good levels of sensitivity of bike controls.

E.V.A. - This comfortable and lightweight material provides superior shock absorption and impact protection.

GORE-TEX - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.

GORE-TEX INFINIUM WITH WINDSTOPPER TECHNOLOGY - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.

GORE-TEX PRO SHELL - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.

GORE-TEX PACLITE® SHELL - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.

GORE-TEX SOFT SHELL - Constructed with soft and warm fabrics, they are designed for reduced layering and improved freedom of movement in colder conditions.

GORE-TEX WITH GORE GRIP TECHNOLOGY - Sealed triple layer material construction from Gore-Tex for improved dexterity, grip and control sensitivity.

PERFORMANCE SHELL - Designed to provide comfort and durable waterproof protection.

DUPONT™ KEVLAR® - Used as a reinforcement, this high strength fiber is cut and tear resistant.

NEOPRENE - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.

OUTDRY® - Innovative heat-bonded membrane construction which provides an impenetrable layer with no seams, preventing water collecting between the layers for a lightweight improved fit, greater dexterity and comfort.

PITTARDS® DIGITAL LEATHER - Supple and quick drying leather which provides excellent grip in all-weather conditions.

SCHOELLER® KEPROTEC® - This stretchable and vented material features dupont™ kevlar® reinforced thread for maximum tear and abrasion resistance.

SUBLIMATED GRAPHICS - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.

SUPERFABRIC® - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.

TAPED SEAMS - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.

TASLAN - Durable and water repelling nylon fabric.

THINSULATE® - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.

PRIMALOFT® - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.

PE - Polyethylene - Thermoplastic material composed of polymers of ethylene. It is light, strong, water resistant and flexible at low temperatures.

PU - Polyurethane - Polymer containing urethane used in plastics, rubber, foam, etc.

PU COATING - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.

TPU - Thermoplastic polyurethane. A hybrid material - a mixture between hard plastic and soft silicone. A very dense and smooth rubber.

KEY FEATURES

	RACING		REMOVABLE THERMAL VEST LINER		ALL SEASON JACKET		TEXTILE PALM CONSTRUCTION		ADJUSTABLE WRIST
	SPORT		REMOVABLE THERMAL JACKET LINER		REMOVABLE STORM COLLAR		SYNTHETIC PALM CONSTRUCTION		ADJUSTABLE CUFF
