## TECH-AIR™ RACE VEST

RACING / PERFORMANCE RIDING / SIZE: M - XL

- System's firmware is upgradable and can be configured to run the TECH-AIR™ Street airbag settings for non racing use in road and off-road situations.
- Ergonomically profiled, performance fit airbag vest optimized for use with compatible racing/performance riding airbag leather suit.
- Airbag Control Unit incorporated within strong, lightweight, ergonomic polymer back protector, specially optimized for race and track use.
- Electronic sensors incorporated in the system's chassis, meaning vest is completely self-contained and allows it to be worn interchangeably with compatible garments.
- Advanced multi-material main shell incorporates Lycra®, 2D mesh and Cordura.
- Interior comprises of perforate Lycra, 3D mesh and comfort edging for high levels of comfort.
- Specially designed, race-developed back protector.
- Comprehensive inflatable upper body protection for back shoulders, kidney area, chest and upper abdomen.
- Incorporates removable inner mesh and elastic Hook and loop fastener waistband to position airbag system to customize fit and improve adjustability.
- Argon inflator cartridges are CE certified to ISO 14451 standard.
- ACU is seal-protected within vest to ensure its all-weather performance and the vest and componentry are certified.
- ACU has been homologated to ECE R10 04, which ensures the electromagnetic integrity and stability of the unit.
- System uses an integrated, certified lithium ion battery, with a battery life of 25 hours and a recharge time of approximately 6 hours. Micro USB charger allows convenient recharging of system, with one hour of charging time giving four hours of riding coverage.
- Color coded front YKK zippers allow for vest to be easily and securely attached to outer jacket.
- Category II CE Certified to the 686/89/EEC European PPE Directive, using a version of EN1621-4:2013, which guarantees impact protection performance between 45 milliseconds to 5 seconds.
- Design and manufacture CE certified to the 2007/23/EC pyrotechnic directive.

## MOTEGI LEATHER SUIT

RACING / PERFORMANCE RIDING / SIZE: 46-60 / 44-60 BLACK WHITE

- Constructed with premium 1.3mm full-grain bovine leather for high levels of abrasion resistance, comfort and durability.
- Multiple-stitched main seam construction provides maximum tear resistance in the event of an impact and offers improved durability.
- High-density perforation zones throughout suit plus perforated leather panels on torso and arms offer optimum cooling performance.
- Extended, reinforced stretch fiber stretch panels on the sides of the torso, arms, crotch and legs.
- Accordion leather stretch inserts on knees and elbows for excellent fit and reduced stress on body while in riding position.
- Removable, CE-certified protectors on elbows, shoulders and knees feature injection molded shells and dual density foam padding for exceptional protection against impact forces.
- External TPU shoulder sliders offer additional abrasion resistance in a key impact area.
- Integrated PE foam padding on the chest, hips, coccyx, upper arms and sides of the torso further enhance fit and comfort while riding.
- Snap connection system allows integration with Alpinestars CE level 2 certified Nucleon Back Protector for the ultimate in protection.
- Replaceable Alpinestars PU Sport knee sliders can be positioned according to riding style.
- Removable mesh liner features built-in stretch inserts to ensure a snug fit and is washable for extra convenience.
- Premium YKK fasteners used throughout garment including flat-profile YKK semi auto lock wrist zippers.
- Ventilated back hump is aerodynamically sculpted for superior air flow and performance at high speeds.
- Soft, 3D mesh and Neoprene collar for comfort while arm and leg cuffs feature soft poly-fabric.
- Lightweight, contoured stretch calf panels, plus zippered expansion gusset, enhance fit and ensure comfort with riding boots.
- Reflective detailing on arms and legs improve visibility of rider in poor light conditions.

## GP PRO 2PC LEATHER SUIT

RACING / PERFORMANCE RIDING / SIZE: 44-60 / 44-64 BLACK RED

- Highly abrasion resistant main construction using premium, 1.3mm full-grain leather for excellent comfort, fit and durability.
- Alpinestars race-derived, external Dynamic Friction Shield (DFS) protectors in the shoulders and knees/shins feature injection-molded profiles and dual density foam padding.
- Removable, internal CE-certified protectors offer superior impact protection to shoulders, elbows and knees.
- Snap connection system allows integration of CE level 2-certified Nucleon Back Protector for the ultimate protection.
- Chest and hip pad compartments with PE padding (Alpinestars Nucleon chest pads available as accessory upgrade).
- Replaceable Alpinestars PU Sport knee sliders incorporate Hook and loop fastener for customized and secure fitment. A specific polymer compound ensures excellent feel on track.
- Advanced poly-textile accordion stretch inserts in key articulation zones on the back and elbows for excellent racing fit.
- Extensive advanced poly-textile stretch panels on crotch, underarms, calf and back of the knees for range of movement.
- Integrated PE comfort padding on the chest, torso, coccyx and back further enhances fit and comfort while riding.
- High-density perforations on chest, arm and leg offer airflow and help regulate body temperature.
- Airprene sleeve and ankle cuff edging for breathability; cuffs incorporate zip and Hook and loop fastener closures for secure and customizable fit.
- Zippered ventilation air-intakes on chest offer personalized levels of airflow.
- Moto GP profiled, perforated, back hump for improved aerodynamic and ventilation performance.
- Alpinestars-developed accordion leather back panel and knee inserts for superior comfort in riding position.
- Zippered rear calf expansion gusset improves range of fit and comfort.
- Reflective detailing for improved rider visibility.
- Premium YKK fasteners and semi-auto locking zips used throughout garment.
- Full circumference waist connection zipper to securely fasten upper and lower garments together.
- Extended lower back profile for increased lumbar coverage.
- Internal water-resistant wallet pocket, plus zippered jacket pockets for peace-of-mind closure.

## SP AIR GLOVE

PERFORMANCE RIDING / SIZE: S-3XL

- Constructed from supple and durable full-grain leather with strategically placed 3D mesh inserts providing an optimized airflow
- Localized perforations on palm and backhand, Ventilated fourchettes, TPR air intakes on fingers and knuckle protectors help keep the hands cool when riding
- Synthetic suede reinforcements on the palm and outer hand landing zones provide maximum abrasion resistance in key impact zones
- Ergonomic stretch insert on palm
- Pre-curved finger construction reduces rider fatigue
- Injected TPU palm slider for superior impact and abrasion resistance
- Race proven injected TPU knuckle protection system to absorb and dissipate impact
- Palm, fingers and backhand padded with energy absorbing E.V.A foam for additional protection
- Hook and loop fastener Wrist adjuster and wide Hook and loop fastener strap on the cuff provide a secure and adjusted closure
- Stretch accordions and lycra gusset on fingers and thumb for superior fit and flexibility
- Touchscreen compatible index fingertip and thumb allow the use of smartphone and GPS systems
- Printed logos
- Alpinestars patented third and fourth finger bridge prevents finger roll separation in the event of a slide

PERFORMANCE RIDING

## SMX-1 R BOOT

PERFORMANCE RIDING / PRODUCED SIZES: EUR 38-50 / CORRESPONDING TO: US 5-14

- The main upper material is synthetic microfiber and offer greater comfort, durability and abrasion resistance.
- Front and Rear accordions are made by lightweight microfiber that offer more comfort.
- Same S-MX 6 Ergonomic shaping for forefoot streamlining which enables greater control of the bike's controls and for superior wide-ranging foot profile, fit and comfort.
- Lateral adjustable strap closure system

envelopes around the front accordion for a secure closure and fit coupled with Hook and loop fastener tab.

- Zip closure is covered with microfiber to protect bike from zipper scratches.
- Hook and loop fastener tab locks the zip pull closed, keeping it flat and secure.
- New TPR design on lateral side to protect the ankle panel.
- New TPR design on lateral toe-box gives more flexion and comfort.

- Rear TPU silver insert joined with the heel counter ensures additional support and security.
- Double density ankle protector on medial side layered under the upper offers protective performance and abrasion resistance in key area.
- Integrated replaceable TPU bi-injected slider features new easy screw fixing concept.
- High modulus TPU injected heel counter and shift pad for enhanced structural protection.
- Internal toe box is layered under the upper.
- Internal insole with the shank reinforcement integrated for added support to the arch area and foot protection.
- Exclusive rubber compound for an optimal combination of comfort and grip.
- Removable anatomic EVA footbed with Lycra lining on top.
- NEW SMX-1 R is CE certified to Cat 2 CE Certified to 89/686/ECC EU Directive.

## HOW TO MEASURE

- A. Chest** - Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. Waist** - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. Hip** - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
- D. Thigh** - Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. Inseam** - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. Arm Length** - Measure from shoulder (Humerus) to wrist.
- G. Height** - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

## HOW TO MEASURE HAND CIRCUMFERENCE WITHOUT THUMB

# GLOSSARY

**4-IN-1 SYSTEM** - Interchangeable system incorporating the removable, waterproof and breathable Drystar® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the Drystar® and thermal liners together; the Drystar® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.

**ARMACOR™ PRODUCT TECHNOLOGY** it's a patented lattice structure with an integrated Dupont™ Kevlar® fiber core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a GORE-TEX® Pro Shell motorcycle jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort – in ALL-WEATHER conditions.

**CE CERTIFICATION** - Protection and protectors that are CE-certified have met the strict performance standards and requirements of the European Union.

**CLARINO®** - This highly durable material provides great feel for the palm. Machine washable, Clarino® remains soft and supple even after repeated exposure to water.

**CLIMATE CONTROL SYSTEM** - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.

**COOLMAX®** - This unique material “wicks” moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.

**CORDURA®** - This textured nylon is durable, lightweight and abrasion resistant

**DENIER** - Denier is a measurement which denotes the thickness and the diameter of a fiber material.

**DRYSTAR®** - Alpinestars' waterproof and breathable membrane for all-weather comfort and performance.

**DRYSTAR® PERFORMANCE** - Alpinestars' exclusive sealed triple layer construction technology which bonds all layers in glove, thereby affording a highly reduced material chassis to promote good levels of sensitivity of bike controls.

**E.V.A.** - This comfortable and lightweight material provides superior shock absorption and impact protection.

**GORE-TEX®** - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.

**GORE-TEX® PRO SHELL** - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.

**GORE-TEX® PACLITE® SHELL** - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.

**GORE-TEX® SOFT SHELL** - Constructed with soft and warm fabrics. GORE-TEX® Soft Shells are designed for reduced layering and improved freedom of movement in colder conditions.

**GORE-TEX® WITH GORE® GRIP TECHNOLOGY** - Sealed triple layer material construction from GORE-TEX® for improved dexterity, grip and control sensitivity.

**PERFORMANCE SHELL** - Designed to provide comfort and durable waterproof protection.

**DUPONT™ KEVLAR®** - Used as a reinforcement, this high strength fiber is cut and tear resistant.

**NEOPRENE** - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.

**PITTARDS® DIGITAL LEATHER** - Supple and quick drying leather which provides excellent grip in all-weather conditions.

**SCHOELLER® KEPROTEC®** - This stretchable and vented material features Dupont™ Kevlar® reinforced thread for maximum tear and abrasion resistance.

**SUBLIMATED GRAPHICS** - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.

**SUPERFABRIC®** - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.

**TAPED SEAMS** - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.

**TASLAN** - Durable and water repelling nylon fabric.

**THINSULATE®** - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.

**PRIMALOFT®** - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.

**PU COATING** - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.

**PU** - Polyurethane. Polymer containing urethane used in plastics, rubber, foam, etc.

**PE** - Polyethylene. Thermoplastic material composed of polymers of ethylene. It is light, strong, water resistant and flexible at low temperatures.

**TPU** - Thermoplastic polyurethane. A hybrid material - a mixture between hard plastic and soft silicone. A very dense and smooth rubber.

**WINDSTOPPER®** - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.
