GP TECH v2 LEATHER SUIT

TECH-AIR™ AIRBAG COMPATIBLE
RACING / PERFORMANCE RIDING / SIZE: 44-58 EUR

- Evolution of GP Tech Suit design in order to integrate Tech-Air™ Race airbag system:
 - LED display on sleeve easily indicating airbag's working status, plus internal conduit for system vest's ECU.
 - Internal Hook and loop fastener fixings in order to house airbag system vest.
 - Accordion stretch inserts on shoulder and underarm designed to accommodate inflated airbag but which also offers anatomical performance while when riding without system.
- Highly durable, premium kangaroo and bovine leather multi-panel construction.
- Strategic perforations throughout suit for excellent levels of airflow and comfort.
- Class-leading protective capabilities – internally and externally – with:
 - Alpinestars race-derived, CE-approved internal elbow, shoulder, knee and tibia protectors.
 - Alpinestars' new, exclusive shoulder GP Dynamic Fiction Shield (GP DFS) friction slider
 - Innovative new elbow slider features a removable and replaceable screw-mounted insert slider for unsurpassed friction management.
 - External (DFS) knee sliders offer additional abrasion resistance in a key impact area.
 - Snap connection system allows
- integration of CE level 2-certified Nucleon Race Back Protector.
 - Chest pad compartments with padding (CE certified Nucleon chest pads available).
 - Garment comes supplied with anatomically profiled and removable CE Nucleon hip protection.
- Ergonomically engineered ARSHIELD reinforcements, consisting of aramidic fiber and polyamide.
- Soft 3D mesh collar and cuff construction for improved level of comfort and breathability.
- Wrist and ankle cuff edges constructed from stretch fabric for fit and comfort.
- Newly evolved aerodynamic ventilated back hump is designed to incorporate hydration pack and features a conduit opening for water hydration hose.
- All leather accordion inserts are perforated for comfort, airflow and abrasion and tear resistance.
- Extensive aramidic fiber stretch panels on the underarms, shoulders, crotch and thigh areas.
- Removable inner stretch mesh liner with multi-panel construction and 3D mesh inserts.
- Waterproof internal wallet pocket for peace-of-mind storage.
- Printed detailing and logos for a unique aggressive performance riding look.

GP PLUS R LEATHER GLOVE

RACING / PERFORMANCE RIDING / SIZE: S-3XL

- Constructed from supple and durable full-grain cow and goat leather
- Localized perforations on palm and backhand, Ventilated fourchettes keep the hands cool
- Ergonomic – engineered leather reinforcements on the palm and outer hand landing zones provide maximum abrasion resistance in key impact zones
- Ergonomic stretch insert on palm
- Pre-curved finger construction reduces rider fatigue
- Alpinestars Dynamic Friction Shielded (DFS) knuckle protection system features dual density mould construction for superior resistance to repeated impacts
- Molded knuckle protection air intakes and exhaust ports for improved hand ventilation
- Injected TPU palm and finger slider for superior impact and abrasion resistance
- Protective double cuff closure with TPR logo wraps around wrist and raises the entire profile of the glove to protect wrist bone from impact in a crash
- Hook and loop fastener wrist adjustable closure strap
- External fourth
- Stretch leather accordions on fingers and thumb for superior fit and flexibility
- Internal top surface hand and thumb lining made with Aramidic fiber
- Internal little finger lining made with Aramidic fiber
- Alpinestars patented third and fourth finger bridge prevents finger roll separation in the event of a slide
- Palm pad panel combined into palm/thumb/little finger reinforcement
- External finger and palm seams for a close fit and superior feel
- Printed logos

NOVUS SOLID HELMET

CITY / SIZE: XS-2XL

- Lightweight outer shell is constructed from an advanced, injection-molded thermoplastic resin for excellent impact protection and optimized levels of weight distribution, comfort and strength. The Novus Helmet is homologated to ECE 22.05 standards.
- Multiple density inner shell constructed from fused closed-cell polymer foam which helps channel impact energy away from the head in the event of a crash and increases mechanical resistance in the event of accidental shock.
- Specifically profiled outer shell for excellent aerodynamic performance, offering increased aerodynamic stability at speed.
- Open-face design for convenience of entry and increased width and range of vision, plus extended low profile for increased protective coverage.
- Adjustable ventilation system features triple air-intakes and two exhaust ports. Ventilation system is engineered to guarantee ample and equal internal airflow, keeping the rider comfortable on short

or long rides. Vent is activated by a cable slider system allowing the rider to regulate and personalize the level of cooling airflow.

- Extended, anti-scratch visor is homologated and is constructed from advanced polycarbonate for strength. Visor offers coverage to lower face when closed and flips up neatly and securely. The visor includes a lock to ensure closure. It is designed to minimize turbulence and reduce aerodynamic noise (in conjunction with the internal padding) in the closed position. Visor is removable and easy to replace.
- Built-in internal tinted sun shield visor made of injected polycarbonate offers effective protection from the direct sunlight. Sun-shield is anti-scratch. Sun visor is activated by a cable slider system allowing rider to regulate visor according to needs). Sun visor is removable.
- Chin closure system features micro-adjustment buckle for precise and personalized fit.

- Premium quality internal padding is constructed from multiple density foam padding for comfort and is especially designed for exceptional facial contouring.
- Moisture-wicking comfort textile used through-out helps prevent build-up of sweat. Interior sections are removable and washable.
- Internal padding includes adaptive fit technology allowing helmet to be precisely configured to wide range of head shapes and sizes.
- The Alpinestars Novus helmet incorporates "A-HEAD" adjustment technology which allows the fit to be fully customized. An industry-first, micro-adjustment system, "A-HEAD" is made up of two patented adjustment structures – one for the adjusting the fit around the circumference of the head – and another for adjusting the fit on the top of the head and improved levels of comfort and security.
- Optional A-Connect, Bluetooth bike-to-passenger or bike-to-bike intercom communication system.

A-CONNECT SYSTEM

ACCESSORY / SIZE: OS

- Bluetooth bike-to-passenger or bike-to-bike intercom communication system.
- Speak to another 'A-Connect' equipped helmet (within a maximum distance of 200m)
- Link your helmet as a hands free headset to your Bluetooth-enabled phone.
- Listen to music from a Bluetooth A2DP enabled phone or MP3 player, and control it remotely if your device also supports AVRCP (Audio-Video Remote Control Protocol).
- Compatible for use with mobile phone, MP3, GPS connection.

SMX PLUS BOOT

RACING / PERFORMANCE RIDING / PRODUCED SIZES: 36-48 EUR / CORRESPONDING TO: 3.5-12.5 US

SPORT FIT

- Contoured high modulus shin plate protector gives superior impact and abrasion resistance.
- Alpinestars unique Multi Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection.
- Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle protectors.
- Integrated replaceable bi-injected TPU slider features new easy screw fixing concept.
- Replaceable heel slider and external side heel slider are positioned to dissipate and absorb shock and promote sliding during an accident.
- Large front and rear asymmetrical accordion zones are optimized to maximize flexibility for maximum comfort and improved safety.
- Advanced microfiber upper construction for lightweight high performance protection.
- Inner instep made with Dupont™ Kevlar® with metal eyelet lacing closure and a unique lateral zipper offer precise and secure fitting.
- Elastic mounted zipper gives easy closure with excellent fit. Hook and loop fastener tab locks the zip pull closed, keeping it flat and secure.
- Micro adjustable ratchet buckle closure on the calf features a hidden strap for security.
- Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort.
- Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip, with aqua dynamic grooves to drain the water efficiently.
- Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling.
- SMX Plus boot is CE certified to EN 13634:2010.

HOW TO MEASURE

- A. CHEST** - Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. WAIST** - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. HIP** - Measure around the fullest part of your hips, about 20cm below waist line, keeping the tape horizontal.
- D. THIGH** - Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. INSEAM** - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. ARM LENGTH** - Measure from shoulder (Humerus) to wrist.
- G. HEIGHT** - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.

GLOSSARY

- **4-IN-1 SYSTEM** - Interchangeable system incorporating the removable, waterproof and breathable DRYSTAR® liner and removable thermal liner. The 4-in-1 system enables the jacket to be used with the DRYSTAR® and thermal liners together; the DRYSTAR® or thermal liner by themselves; or without either liner, allowing the jacket to be configured in 4 different ways to suit any climatic condition.
- **ARMACOR™** - Product Technology it's a patented lattice structure with an integrated Dupont™ Kevlar® fiber core. This technology offers extreme tear and abrasion resistance yet lighter weight. Incorporated into a GORE-TEX® Pro Shell motorcycling jacket, it will protect enthusiastic motorcyclists in the event of a fall. This means safety and enhanced comfort – in ALL-WEATHER conditions.
- **CE CERTIFICATION** - Protection and protectors that are CE-certified have met the strict performance standards and requirements of the European Union.
- **CLARINO®** - This highly durable material provides great feel for the palm. Machine washable, Clarino® remains soft and supple even after repeated exposure to water.
- **CLIMATE CONTROL SYSTEM** - System of zippered air intakes and exhausts that allow precise control of airflow while riding for superior body temperature regulation.
- **COOLMAX®** - This unique material "wicks" moisture away from the skin and quickly transfers it to the outer surface to speed up evaporation.
- **CORDURA®** - This textured nylon is durable, lightweight and abrasion resistant
- **DENIER** - Denier is a measurement which denotes the thickness and the diameter of a fiber material.
- **DRYSTAR®** - Alpinestars' waterproof and breathable membrane for all-weather comfort and performance.
- **DRYSTAR® PERFORMANCE** - Alpinestars' exclusive sealed triple layer construction technology which bonds all layers in glove, thereby affording a highly reduced material chassis to promote good levels of sensitivity of bike controls.
- **E.V.A.** - This comfortable and lightweight material provides superior shock absorption and impact protection.
- **GORE-TEX®** - This world renowned waterproof and breathable membrane features pores that are smaller than water to keep rain out, but larger than water vapor, allowing perspiration to escape.
- **GORE-TEX® PRO SHELL** - It is the optimum solution for outdoor professionals and serious enthusiasts, who need to face extreme weather and tough conditions. Made with the most rugged, most breathable, durably waterproof and windproof fabrics.
- **GORE-TEX® Paclite® Shell** - Combines extreme breathability and durable wind and waterproofness with minimum weight and pack volume.
- **GORE-TEX® SOFT SHELL** - Constructed with soft and warm fabrics. GORE-TEX® Soft Shells are designed for reduced layering and improved freedom of movement in colder conditions.
- **GORE-TEX® WITH GORE® GRIP TECHNOLOGY** - Sealed triple layer material construction from Gore-Tex® for improved dexterity, grip and control sensitivity.
- **PERFORMANCE SHELL** - Designed to provide comfort and durable waterproof protection.
- **DUPONT™ KEVLAR®** - Used as a reinforcement, this high strength fiber is cut and tear resistant.
- **NEOPRENE** - Comfortable and flexible, this water resistant material provides great insulation in cold and damp conditions and excellent wind stopping performance.
- **PITTARDS® DIGITAL LEATHER** - Supple and quick drying leather which provides excellent grip in all-weather conditions.
- **SCHOELLER® KEPROTEC®** - This stretchable and vented material features Dupont™ Kevlar® reinforced thread for maximum tear and abrasion resistance.
- **SUBLIMATED GRAPHICS** - Utilizing a pressure and heat process, this system of design transfer produces fade free graphics even after extensive washing.
- **SUPERFABRIC®** - Flexible, ceramic reinforced fabric that is extremely abrasion, puncture and cut resistant making it ideally suited for application on exposed areas such as knees and elbows.
- **TAPED SEAMS** - Seam tape is applied along the stitch line of the garment, which prevents water intrusion at these small but critical areas.
- **TASLAN** - Durable and water repelling nylon fabric.
- **THINSULATE®** - Lightweight, breathable, moisture resistant and quick drying, Thinsulate® provides superior insulation for cold weather riding.
- **PRIMALOFT®** - A lightweight, breathable insulation that repels moisture to offer superior performance for cold-weather riding.
- **PU COATING** - A thin layer of film applied to the backside of the fabric to give strength, structural integrity and water resistance.
- **PU** - Polyurethane. Polymer containing urethane used in plastics, rubber, foam, etc.
- **PE** - Polyethylene. Thermoplastic material composed of polymers of ethylene. It is light, strong, water resistant and flexible at low temperatures.
- **TPU** - Thermoplastic polyurethane. A hybrid material - a mixture between hard plastic and soft silicone. A very dense and smooth rubber.
- **WINDSTOPPER®** - Laminated membrane offering total windproof performance and maximum breathability for complete comfort.
