CARGO MANAGEMENT PRODUCTS

CONSUMER/INDUSTRIAL DIVISION

Welcome to the latest edition of the Ancra Cargo, Consumer/Industrial Group catalog!

Nearly 50 years ago, Ancra introduced the "Original" cam buckle tie-down to the consumer market for the safe and reliable transportation of motorcycles. Fast forward to today, Ancra has become an industry titan in cargo restraint for the Heavy-Duty Fleet and Aviation industries, and a respected and trusted supplier to our nation's Military, Commercial Contractors, and avid DIYers. Under the ownership and support of The Heico Companies, Ancra Cargo has experienced exponential growth and become the cornerstone of North America's largest supplier of cargo control products.

Ancra Cargo prides itself on providing one of the most robust product offerings in the Cargo Control industry. Our extensive listing covers multiple product categories that support a broad spectrum of customer applications. At the core of our business is quality, heavy duty, professional grade tie-downs. However, we also boast a wide assortment of the top selling retail packaged goods and industrial grade products, such as cable pullers, fencing installation tools, and lifting slings. With such a comprehensive product assortment, sourcing your cargo control category with Ancra Cargo become quick and painless.

We are here to help. We understand that cargo control can be a tricky business. Our experienced and knowledgeable team is here to help you through the entire process. Whether it is choosing the right product mix for your specific customers, planogramming, or anything in between, you can depend on Ancra Cargo to guide you through the entire process.

Thank you for taking the time to explore our product offering as well as the value that Ancra Cargo provides to you and your customers, not only during the sale, but afterwards and *into the future.*

We look forward to working with you and your team.

Your success is our success!

Sincerely,
The Ancra Consumer/Industrial Team

ABOUT ANCRA CARGO

Ankra Cargo is a full-line manufacturer of cargo control products and related accessories with an emphasis on commercial and heavy-duty fleet transport applications. The Ankra brand name is highly regarded by professionals throughout North America for quality and reliability. Our in-house engineering and experience help ensure that our products comply with current industry standards and federal transportation safety requirements. Ankra is a wholly owned business in the Applied Solutions Groups of The Heico Companies, LLC. Heico is a multi-billion-dollar, global entity, and through its holdings is the leading supplier of cargo control products in North America serving the Heavy Duty, Military, Aviation, Towing, Auto Transport, Power Sports, DIY Consumer, Commercial and Industrial markets.

CONSUMER/INDUSTRIAL MISSION

Help our customers increase their share of the consumer and commercial cargo control markets and attract new customers through the supply of quality built, reliable and cost-effective products while maintaining the highest regard for meeting industry standards and cargo transportation safety requirements.

FENCING PRODUCTS

CABLE PULLERS

Ankra cable pullers are available in different sizes with pulling capabilities ranging from 1,500 to 8,000 pounds. A variety of pullers are available to make pulls easier and more efficient. In addition to cable pullers, Ankra offers Wire Grips, Fence Pliers, Gin Wheel, and Wire Stretchers for your convenience.

Cable Puller Packaging

Cable Pullers are packaged in sturdy, color coded cardboard boxes with a cutout window to display the product.

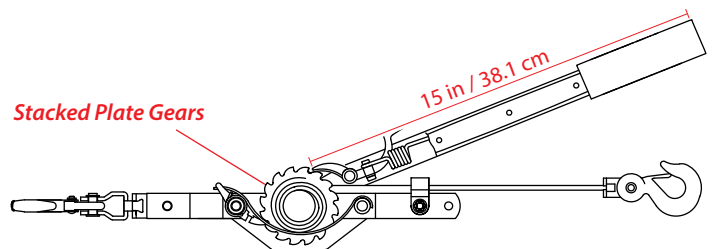

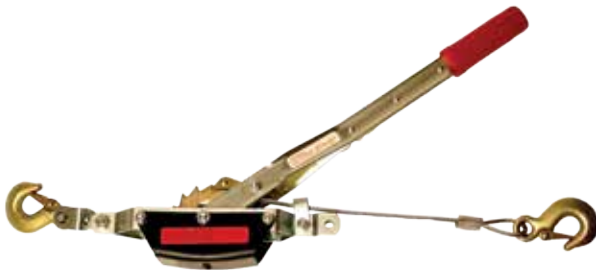

- 1-Ton Pullers
- 2-Ton Pullers
- 4-Ton Pullers

Standard Grade

- Dual stamped metal ratchet wheels
- High strength, electro-plated steel parts
- Galvanized 3/16" aircraft cable
- Drop forged steel slip hooks w/safety latches

Part Number	Description	Capacity (lbs)	Power Ratio	Take-up (ft/m)
96111	1-Ton Single Line	2,000	1:1	7' (2.2m)
96112	2-Ton Double Line	4,000	2:1	5' (1.5m)
96114	4-Ton Double Line	8,000	2:1	5' (1.5m)

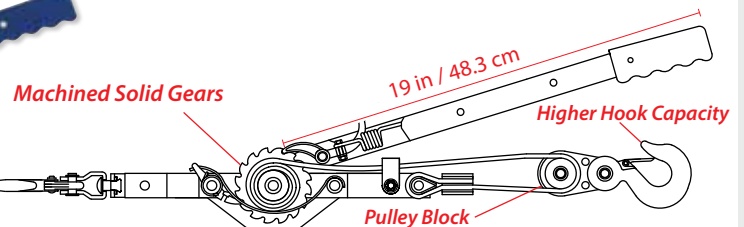

Professional Grade

Longer handle, larger hooks, thicker frame, and higher take-up than Standard Grade models.

- Dual machined one-piece gears
- High strength, electro-plated steel parts
- Galvanized 3/16" aircraft cable
- Drop forged steel slip hooks w/safety latches

Part Number	Description	Capacity (lbs)	Power Ratio	Take-up (ft/m)
96121	1-Ton Pro Single Line	2,000	1:1	12' (3.6m)
96122	2-Ton Pro Double Line	4,000	2:1	6' (1.8m)

INSTALLATION ACCESSORIES

Specialty Pullers

96100 | 3/4 Ton Rope Puller

1,500 lbs Capacity (1,680 kgs)
20FT Take-Up (6.0m)

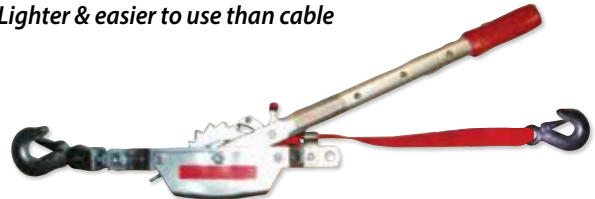

- Single piece drive wheel
- High strength, electro-plated steel parts
- 1/2" Wear resistant twisted rope
- 20' Rope & hook assembly included
- Drop forged steel slip hooks w/safety latch
- Easily lower tree limbs
- Provides longer pull length

96101 | 1 Ton Strap Puller

2,000 lbs Capacity (907 kgs)
12FT Take-Up (3.6m)

- Dual stamped metal ratchet wheels
- High strength, electro-plated steel parts
- 1" High strength webbing
- 12' Strap & hook assembly included
- Drop forged steel slip hooks w/safety latches on both ends
- Great for composite materials and decorative vinyl
- Lighter & easier to use than cable

Fencing Installation Accessories

96140 | Fence Pliers

10IN Length

- Forged jaws
- Integrated wire cutter
- Padded non-slip contoured grips for comfort and peak performance
- For use in cutting, bending, & tying wire fencing
- Great for barbed wire repairs
- Carded blister pack

96142 | Fence Pliers

12IN Length

- Forged jaws
- Integrated wire cutter
- Padded non-slip contoured grips for comfort and peak performance
- For use in cutting, bending, & tying wire fencing
- Great for barbed wire repairs
- Carded blister pack

96147 | 1/2 Ton Wire Grip

1,000 lbs Capacity (454 kgs)

- Works on smooth or barbed wire
- Handles wire 5/32" - 5/16" in diameter
- Corrosion resistant
- Lightweight zinc-plated steel
- Double sealed ratchet wheel brake system
- Carded blister pack

96148 | Woven Wire Stretcher

Quick & Even Stretching

- Makes fence repairs quick and easy
- Ideal for fast tightening
- Pull fence evenly and tightly
- For field and chain link fences
- Dependable design
- Bulk packaging

96149 | Fencing Wire Stretcher

With Control Release Ratchet

- Ideal for fast tightening
- Dependable design
- Makes fence repairs quick and easy
- For high-tensile, smooth and barbed wire
- Hardened guide and clamp grip wire firmly over a large area
- Bulk packaging

96146 | Gin Wheel

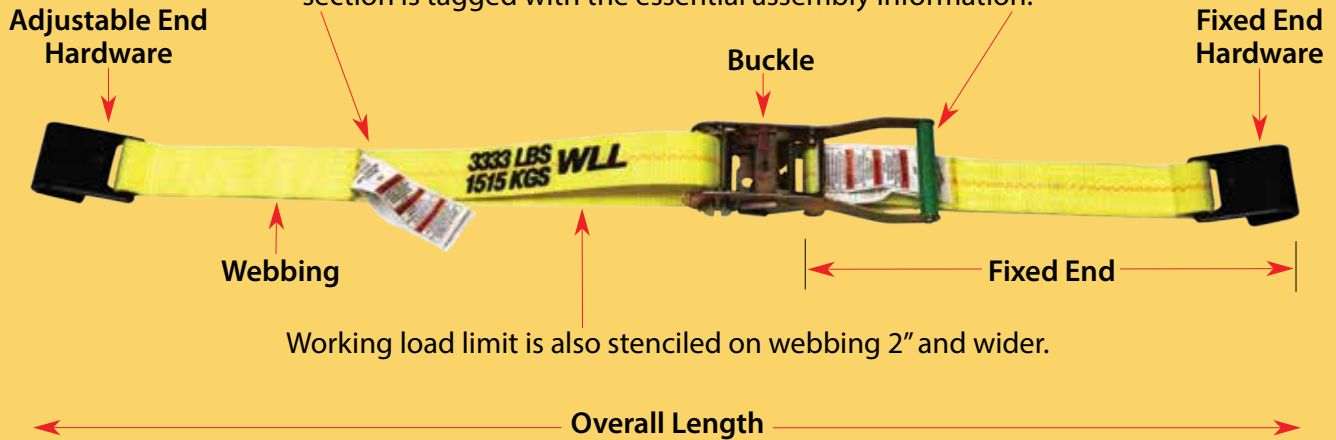

1,250 lbs WLL (567 kgs)

- Accepts up to 1" diameter rope
- Heavy duty 12" cast iron sheave
- Forged steel swivel hook w/safety latch
- Blue powder coat finish
- Bulk packaging

ANATOMY OF A RATCHET STRAP

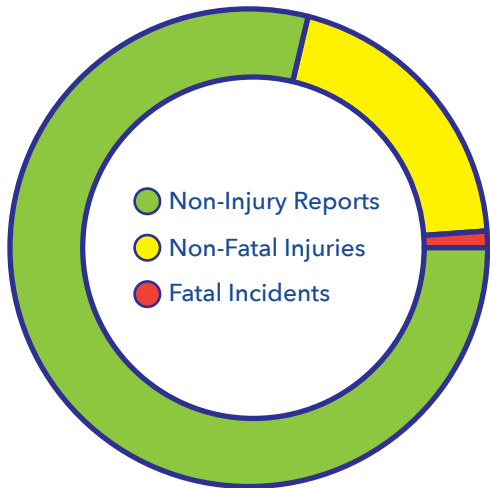

Our strap assemblies are designed with separate sections. Each section is tagged with the essential assembly information.

Working load limit is also stenciled on webbing 2" and wider.

The distance between extreme end bearing points of the web tie-down assembly, including the fittings.

THE IMPORTANCE OF SECURING CARGO

ROAD DEBRIS

ACCIDENT FATALITIES & INJURIES

From 2011 - 2014 there were more than 200,000 police-reported crashes that listed Road Debris as a factor. This resulted in approximately 39,000 involved injuries and 500 deaths.

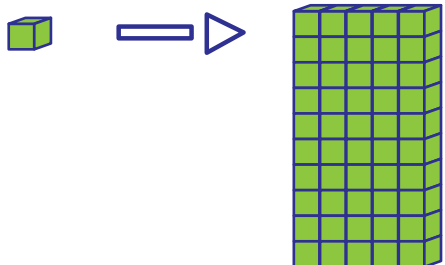

UNSECURED LOAD

STATE FINES & PENALTIES

All 50 U.S. States, plus the District of Columbia, have fines ranging from \$10-\$5,000 for loads that are not properly secure. At least 16 states also add possible imprisonment.

$20 \text{ lbs} + 55 \text{ mph} = 1,000 \text{ lbs}$

FORCE OF IMPACT

STATIONARY VS MOVING

A 20-pound object traveling at 55 mph hits with the force of 1,000 pounds at the time of impact.

TIE- DOWNS

INDUSTRIAL TIE-DOWNS

Industrial Strap Assembly Components

Tried & tested by professional truck drivers for 50 years, Ankra Industrial Grade ratchet straps are built for the most demanding applications. Quality, care and thought go into every strap ensuring our products perform as intended and outlast the competition. From full size long wide handle ratchets for easier grip and maximum leverage, to specialty coated webbings that provide additional UV and water resistance to big beefy end fittings matched to the strap's working load limit, you're certain to find the tie-down that fits your needs.

2^{IN} STANDARD WIDE HANDLE

- Dichromate finish
- 3.76" Aluminum grip
- 6.25" Handle
- 3,333 lbs WLL / 1,515 kgs

2^{IN} LONG WIDE HANDLE

- Dichromate finish
- 3.76" Aluminum grip
- 8.5" Handle
- 3,666 lbs WLL / 1,662 kgs

3^{IN} LONG WIDE HANDLE

- Dichromate finish
- 4.8" Aluminum grip
- 10.5" Handle
- 7,333 lbs WLL / 3,326 kgs

4^{IN} LONG WIDE HANDLE

- Dichromate finish
- 5.2" Aluminum grip
- 12.5" Handle
- 8,000 lbs WLL / 3,628 kgs

STANDARD HIGH CAPACITY WEBBING (SHC)

- Latex coated polyester with excellent UV protection and abrasion resistance
- Meets DOT and WSTDA requirements

X-TREME™ HIGH CAPACITY WEBBING (X-TREME)

- Polyester webbing with superior weave pattern and permanent proprietary coating that provides twice the abrasion resistance of standard high capacity webbing and greater resistance to damaging water absorption
- Meets DOT and WSTDA requirements

EVENT TENT PRODUCTS

Tie-Downs

TENT STRAPS

The last thing you want to worry about is the security of your tent on that special occasion. Ancra tent straps and bungee balls are made with high quality materials that are built to last and provide stability even under extreme pressure. Our white tent straps work on most party tents and keep tents secure even in high wind conditions. Straps come in a variety of lengths and widths with a wide selection of hardware to ensure your tent stays tied down. With a large range of options to choose from, you're certain to find the most reliable, cost effective solution possible.

All Ancra tent straps feature:

- Clear zinc coated hardware
- Premium latex coated white polyester webbing

WINCH STRAPS

WINCHES & WINCH BARS

Winches

Ancra winches comply with DOT, WSTDA-T3 and Canadian Standard 905 regulations. Available in different base configurations to suit a variety of needs and load requirements.

All winches shown are right hand models.
Left hand models may be available on special orders.

- Powder coating withstands 250 hours of standard salt spray testing to ensure years of service
- Stamped working load limit and Ancra name certify quality
- High-strength alloy pawl pins
- Seamless solid steel mandrel
- Smooth ground web slots prevent web wear

Ratcheting Winches

Faster and more convenient than traditional winches. Reduces the tensioning time by 33%. Also, reduces risk of winch bar rollover. Once the winch bar tip is inserted into the winch cap, the winch can be fully tensioned without the need to repetitively remove and reposition the winch bar.

CHAIN BINDERS

Chain Binders

All traditional chain load binders are constructed of drop forged steel for strength and durability and are designed for use with Grade 70 transport chain. They are available in traditional Lever, Recoilless and Ratcheting models, and are finished in an E-coat paint. They meet or exceed WSTDA T-6 standards.

X-TREME Guard® | Lightweight Corner Protectors | Made in USA

- Constructed of high density polyethylene for strength and durability
- Spreads the strap tension over the length of the guard
- More durable than wood and greater memory than aluminum
- Weather and UV resistant, good to -30°F
- Lightweight & made from recycled materials
- Sold in bundles of 10 - each piece UPC labeled

Part Number	Trade Size (Inches)
50089-12	12"
50089-24	24"
50089-36	36"
50089-48	48"

50451-11 | Corner Protector Placement Tool

- Lightweight, telescoping tool
- Powder-coated steel handle
- Impact-resistant durable head that has a recessed center
- Works with the X-Treme Guard corner protectors as well as most other Ancra corner protectors
- Extension Pole: 4ft.- 8ft.

43986-10 | Corner Protector Takes up to 4" Webbing

- High density plastic polymer
- Bulk packaged with UPC
- Retail pack quantity 1
- 50 Per box

50433-10 | Winch Strap Storage Band

- Keeps stored straps from unrolling
- 1" by 7" Long
- Made of natural rubber
- Pack of 5

50092-10 | EZ Winder

- Quickly and easily winds straps onto winches for storage when not in use
- Carded package of 1
- Tri-lingual warning tags

49723-10 | SilverCap OverDrive® 5,500 lbs WLL (2,500 kgs)

- Converts standard winches to ratcheting winches
- Works with weld-on, sliding, or portable mount winches

50117-10 | Lever Binder Lock

Lock your chain and lever in place after tightening with our Lever Binder Lock.

Bungee Cords
& Tarp Ties

BUNGEE CORDS

Bungee Cords

Standard Duty

- Vinyl coated steel hooks with tip guards
- Strong UV and abrasion resistance
- Stranded first quality latex rubber
- Bulk packaged with UPC tag
- Color coded by length

Part Number	Length (Inches)	Color
95413	13"	Green
95418	18"	Yellow
95424	24"	Blue
95430	30"	Orange
95436	36"	Red

95400 | Starter Pack

Contains (10) each of 95413, 95418, 95424, 95430, & 95436

EZ Grip Series | Clamshell

- PVC injection molded grip steel hool
- Stranded first quality latex rubber
- Strong UV & abrasion resistance
- Clamshell packaging
- Color coded by length

Part Number	Length (Inches)	Color
95518-1	18"	Yellow
95524-1	24"	Blue
95536-1	36"	Red
95540-1	40"	Green
95548-1	48"	Orange

95500-1 | Starter Pack

Contains (6) each of 95518-1, 95524-1, 95536-1, 95540-1, & 95548-1

Heavy Duty

- 50% More rubber than standard cords
- HD steel hooks w/corrosion resistant coating & tip guards
- Stranded first quality latex rubber
- Safety orange polyester outer jacket, all lengths
- Bulk packaged with UPC tag

Part Number	Length (Inches)
95618	18"
95624	24"
95632	32"
95640	40"
95648	48"

95600 | Starter Pack - Bulk

Contains (10) each of 95618, 95624, 95632, 95640, & 95648

SL148 | Carrabungee™ Cord

- "Build-a-Net" technology
- Link multiple cords together
- 24" Length
- Carabiner hooks
- Polyester jacket

XB210-22P | 10" Mini Cords 22 Piece

Great for bundling and storing tools, cords, blueprints, camping equipment, household items and much more!

SL33 | 10" Mini Cords 4 Piece

Great for bundling and storing tools, cords, blueprints, camping equipment, household items and much more!

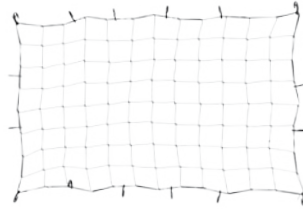

BUNGEE CORDS

Bungee Nets

95480 | Bungee Net with Detachable Hooks

- Great for securing tarps and keeping light cargo and debris from moving around
- Smaller 5" x 5" cross pattern design for greater load coverage
- One size fits most trucks & SUV's
- Minimum size: 48" x 72"
- Maximum stretch: 72" x 108"
- Includes storage bag
- 16 Hooks are detachable

SL50 | 36" 6 Arm Bungee Net

- 6 Attachment points
- Center ring gives infinite shape options
- Great for larger, bulky items

Tarp & Canopy Ties

SL43 | 10 Piece

- For use with tarps and canopies
- 10 Piece
- Length: 10in

Bungee Cord - Assortments

SLINGS & RECOVERY STRAPS

Slings &
Recovery Straps

LIFTING SLINGS

Polyester Eye to Eye

- Lightweight & economical
- Single-ply & double-ply styles
- WSTDA industry compliant tri-lingual warning tags
- Reinforced loop ends with protective wear sleeve
- Flat eye loops on 1" width
- Tapered eye loops on 2", 3", & 4" widths
- Shrink-wrap package
- Durable service inspection tag helps track usage

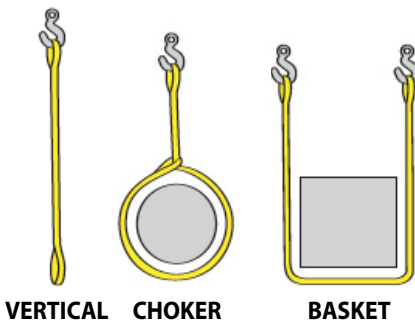

All Ancra lifting slings, both eye-to-eye and round sling styles, are built to the Web Sling & Tie Down Association (WSTDA) standards which cover construction, ratings, and markings.

The standard rating for a sling is based on a straight-line pull, or vertical pull, as the WSTDA defines it. This number begins to skew as the rigging style and angle of pull changes. An instruction sheet is included with each sling and the user is responsible for making these calculations.

When the sling is looped through itself to cinch down on the lifted piece, known as a choker-style lift, the lifting capacity is de-rated roughly 20% compared to the vertical rating. This is due to the stress points caused by the sling pinching on itself.

If the lift is being done basket style, utilizing two lifting points, the effective lifting capacity is doubled compared to the vertical rating. Each point can support its original vertical rated capacity.

Per WSTDA requirements, all Ancra lifting slings have these three types of lifts and ratings on their sewn-in tag.

VERTICAL CHOKER BASKET

EE1 Series | Single Ply Slings

1" Width

PADS & NETS

Utility Pad

SL215 | Multi-Use Utility Pad | Camo

60" x 62"

- Heavy duty colorfast poly/cotton blend with continuous quilted stitching for added durability
- One piece UV treated and metal filtered filler
- Machine washable
- Great for moving & storage, garage floors, camping, beach, hunting, vehicle protection, & more

Disclaimer: Do NOT use for bedding

Nets

50199 | Adjustable Pickup Truck Cargo Nets

60" x 62"

1,200 lbs WLL (540 kgs)

- Intended for securement of cargo being transported in the cargo bed of a standard pickup truck
- Proper use will insure compliance with FMCSA and Canada's National Safety Code Standard 10 against loss of cargo
- Place net over the cargo and secure at four corners of the net using the quick straps with safety hooks provided
- Secure side rings with 2 additional straps

Part Number	Size (Inches)	Bed Type
50199-10	72" x 80"	Short
50199-11	72" x 96"	Long

50199-10

50199-11

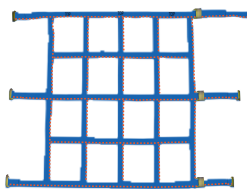

D-rings and connectors are spaced to accommodate various heights of loads. Each net comes with six (6), 1-1/4" x 5' long straps with a die cast cam buckle. Each strap has vinyl coated S-hooks with wire keepers to prevent them from disengaging. Net Openings: 6.0"

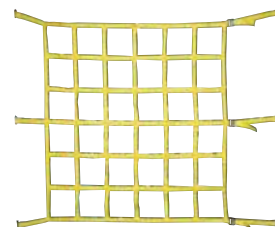

10869 | Adjustable Cargo Nets for A or E-Track

2,500 lbs WLL (1,134 kgs)

- Spring lever E-clips
- Quick release cam buckles
- Creates a barrier between loads to help prevent load shift and falling cargo
- Actual working load capacity dependent upon track installation (Please reference TIMA RP No. 47-99 or hire a professional installer)
- Openings on sides of net will vary from interior net openings based on trailer width

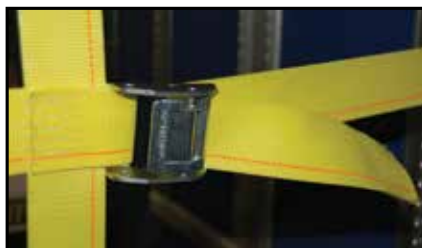

10869-10

10869-20

Part Number	Width (Inches)	Height (Inches)	Opening (Inches)	Color
10869-10	60" - 72"	46"	9" x 10"	Blue
10869-20	84" - 96"	72"	9" x 10"	Yellow

Lights & Reflectors

50440-10 | H.E.L.P. Light
3 Puck Light Kit with Bag

- Made with impact resistant plastic
- 15 High output LEDs (12 red, 3 white)
- Rain proof
- Back contains magnet and folding hook
- Three lighting modes:
Red LEDs on steady (Road Flare)
Red LEDs double pulse (Emergency Strobe)
White LEDs on steady (Flashlight)

50437-10PK-SP | LED Flashlight

- 400 Lumens
- Light range 200M
- Blue on-off tactical type tail switch
- Anodized aluminum case
- Adjustable beam size
- 10 Piece shelf pack

Also available without the display box. P/N 50437-10

50434-10 | Triangle Warning Kit
3 Collapsible Reflective Triangles

- Comes with durable red plastic case
- Certified by AMECA
- In compliance with FMCSA standards
- DOT certified

GLOSSARY

Abrasion	The mechanical wearing of a surface from contact with another object.
Aggregate Working Load Limit	The summation of the Working Load Limit (WLL) of all tie-downs used to secure an article of cargo.
Anchor Point	The location to which a tie-down is attached to a vehicle or article of cargo. If the anchor point is inadequate to support the force of the tie-down system, then the load rating of the tie-down will be limited to the strength of the anchor point.
Bulk Bin	Neatly packed bins that allow for easy merchandising. Reduces package waste and increases holding power. Also referred to as Pop Up Bins.
Breaking Strength	The tensile load in pounds or kilograms at which any part of the securement assembly fails.
Cargo	All articles or material carried by a vehicle, including those used in operation of the vehicle.
Design Factor	The ratio of the breaking strength to the Working Load Limit (WLL).
Direct Tie-Down	A tie-down that is attached directly to the cargo.
Elongation	The measurement of stretch at a specifically applied load, expressed as a percentage of the original length.
Fabrication Efficiency	The synthetic web tie-down assembly break strength, as a percentage of the webbing strength prior to fabrication.
Indirect Tie-Down	A tie-down which passes over the cargo and is secured to the vehicle at both ends. Tension in the tie-down increases the pressure of an article or stack of articles on the deck of the vehicle.
Keeper	A device used on a hook to prevent the hook from inadvertently releasing.
Length	The distance between extreme end bearing points of the synthetic web tie-down assembly, including the fittings.
Lever Load Binder	A chain binder incorporating an overcenter locking action.
Maximum Vehicle Weight (MVW)	The maximum weight of the vehicle being recovered, including cargo load, for which the strap is intended for use.
Planogram	A diagram or model that indicates the placement of retail products on shelves in order to best utilize available space.
Proof Load Test	A non-destructive load test to some multiple of the working load limit.
Selvage	The woven or knitted edge of synthetic webbing.
Sew/Stitch Pattern	The pattern of the stitches used to sew the webbing together.
Shoring Bar	A structural bar placed transversely between the walls of a vehicle to prevent cargo from tipping or shifting.
Soft Hook	Loop made of webbing designed to protect delicate surface finishes such as chrome or automotive paint.
Take Up	The distance that a cable puller can pull before it runs out of cable/rope/web.
Ultimate Test	A load test of a securement assembly tested to failure.
Warp	A longitudinal load bearing yarn in webbing.
Winch	A device for tensioning a webbing or wire rope tie-down that is fitted with means to lock the initial tension.
Working Load Limit (WLL)	The maximum load a component or assembly should be subjected to during routine use.

PLANOGRAM SUPPORT

We can help.

Whether you are just getting started or you need to redesign your entire program, we can assist by providing suggested planograms geared for your business. Simply contact your Ancra sales representative or Customer Service department to get the process started.
