TRINITY

Every choice and every sacrifice before the race impacts your results. Our highest-level racers across the globe wear off-the-shelf Trinity gear because it fits and flows with the shape and movements of the next level motocross athlete. The road to the pro ranks is hard and also long, so Trinity gear is also tough, not a tear-off. You won't find a set of gear that moves better with your body while you ride – no restrictions, no distractions, pure focus.

HELMETS

Driven by a passion for creating a higher standard, the AR-5 helmet by Answer Racing brings an unparalleled step forward in safety and value. Never before has a fiberglass helmet been equipped with MIPS technology at such an affordable price. Developed by brain surgeons and scientists to reduce forces on the brain, MIPS has revolutionized the way we think about helmet safety. By adding a low-friction layer between the helmet and head, MIPS helps to reduce rotational forces on the brain that can occur during angled impacts to the head. A refined interior features Cool-Core® technology that aids in evaporative cooling, a dual-density EPS liner that offers superior impact absorption and removable/washable cheek pads and helmet liner.

ARKON

Riders who know what they want, what they need, and can tell instantly what works will love the new lightweight, high-flow, modernized-fit Arkon gear line. The unique, clean styling allows mix and match combinations – these kits are designed to look great even with pieces from our other lines. This high quality gear lets you feel nimble yet has durability that destroys those flimsy 'race graphic pajamas' offered in this category by other brands.

HELMETS

Style and performance combine with safety in the Answer Racing AR-3 helmet. DOT and ECE certified, comfort is addressed with our intermediate-ova / shell shape and uses top-of-the-line Cool-Core® evaporative cooling in the interior. Cool-Core® wicks away perspiration and dries faster than non-treated materials, plus it is anti-microbial to help eliminate odors between washes. The shell design features exceptional venting, a strengthened chin bar and large eye port that accommodates most goggles, including over the glasses types.

SYNCRON

YOUTH
—

We make gear for riders so small some of them have to learn how to talk before they can tell us how good it fits! Even if you are not 'taller than this line' we will still kit you up for the best gear in the world. Young riders and their parents have long appreciated the fit and durability of the Synchron Youth line, and pro-rider-spawn Vincent Wey and dad give the new line two big and two small thumbs up for making the great fitting gear work even better.

OPS
OFFROAD · PERFORMANCE · SERIES

The best you know is only the best you've experienced. If you ride off-road, you've been forced to choose between durable, but heavy and restrictive off-road gear or comfortable but delicate track gear. We designed a new front of off-road gear for the serious rider who gets miles into the hills or trees. We took inspiration from our military heroes to bring a fresh approach with gear that's ready for the battle and built for the war.

The Ops line is performance-first gear that can also hold up to impacts with brushes, branches, earth and stone.

ELITE OPS

Most riders wear motocross gear on the trail for one reason – it's comfortable. Our all-new off-road gear is as light weight and unrestrictive as our top of the line Trinity MX gear, but features strategically added materials in key areas for increased durability. We've also included off-road specific convenience features, and a stealthy look that keeps you low profile when you're connecting trails and stopping for gas. Answer's same great 2020 MX line fit keeps you comfortable whether you're covering ground quickly or fighting through the impossible.

ARKON OPS

Off-road riding gear doesn't have to feel like camping gear. If you want a pant and jersey that moves with you so you can ride better and conserve energy, and also need to stretch your riding dollar, try a set of the all-new Arkon Ops line on your favorite loop. This is gear for the talented rider who dreams of single track not the moto track.

AR1 BOOTS

ADULT & YOUTH

The Answer AR1 boot represents a new idea in motocross boots. Inexpensive boots have been around for a long time and no brand had ever really tried to make them good. The AR1 boot is better than good, it offers you far more than is offered by any other boot in it's price range. Using just the right combination of synthetics, plastic and high performance textiles we've created an upper that is light, durable and protective. We coupled that to a four layer sole system that we stitched on for a foolproof and long lifespan that is easy to re-sole when the time comes.

- FOUR EASY-ADJUST STEEL / PLASTIC BUCKLES
- BUCKLES ARE REPLACEABLE
- INJECTION MOLDED PLASTIC SHIN GUARD PLATE
- INJECTION MOLDED REAR PLATE HELPS PROTECT LEG BONES
- ARTICULATED REAR ANKLE AREA AIDS MOVEMENT
- STEEL SHANK SYSTEM ADDS SUPPORT WHILE RIDING
- UNI-DIRECTIONAL CUT SOLE SPECIFICALLY FOR MOTOCROSS
- THICK ANKLE PADDING COVERED IN VENTED MATERIAL
- FOOTBED FOREFOOT HOLES ADD AIR FLOW & BREATHABILITY

APEX

ROOST GUARDS

The Answer Apex line of Chest Protectors were designed to be lightweight and extremely ventilated without losing their rigidity. Answer's exclusive In-Molded Honeycomb Hexframe Construction adds impact and lateral Stiffness yet can still remain fully ventilated to keep you cool on the track. The Apex comes in two different versions, the Apex 1 and Apex 3. Both Protectors achieve a CE certification of EN 14021. (Stone Shield) Both Protectors have a removable front and back panel for compatibility with today's neck braces and allow for a better integration to the rider's torso.

The Apex 1 comes with a clear vinyl back strap for an Ultra-Lite feel and can easily be worn under a jersey. The Apex 3 is the benchmark for total protection. Both front and back panels are fully ventilated yet extremely rigid for impacts. The Apex 3 comes with articulated shoulder and upper arm roost guards, fully adjustable side flank protection and can be fully adjusted to fit most riders. Its streamline design is easily worn under a jersey. The Answer APEX line of Chest Protectors truly is the ultimate for performance based athletic upper body protection.

PANTS

Measure the width of the waist on your regular street pants and multiply by 2. Then refer to the chart. Note that ratchet buckle and side waist adjusters will cinch up an additional 2" of waist size to fine tune the fit.

SMALL (6-8)	YMD
MEDIUM (10-12)	YLG
LARGE (14-16)	YXL
X-LARGE (18-20)	Y2XL

HELMETS

Using a tape measure, measure the circumference of your head just above the ears and across the forehead. Refer to the chart for proper helmet size. Example: Head circumference measures 22-3/4" = Adult med helmet.

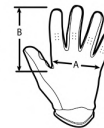

GLOVES

Measure the width of your palm "A" about 1" below the base of your fingers (about 3/4" for kids) and the length from the tip of your index finger to the base of your thumb "B" and match measurements to sizes listed on the chart.

MEN'S A/B	GLOVE SIZE
