For more than 25 years, Arnott has been providing innovative air suspension replacement products for luxury cars, trucks and SUVs. Arnott's success is largely the result of daily, painstaking attention to our core beliefs of customer service excellence, incorporating the highest quality components and providing truly affordable products backed by superior warranties and support. Today, Arnott continues to improve with additional U.S. and international warehouses, a massive increase in research and development and unprecedented product availability through the industry's leading auto parts distributors. That's the Arnott Advantage.

THE BROADEST COVERAGE OF QUALITY AIR SUSPENSION PRODUCTS & OPTIONS

Arnott offers over 250 quality air suspension products covering nearly 800 applications. Arnott also offers an extensive line of air suspension replacement options including new OES Compressors, replacement Air Springs, Arnott-designed 100% new Air Struts, remanufactured OE Air Struts and Coil Spring Conversion Kits.

RESEARCH AND DESIGN EXPERTISE

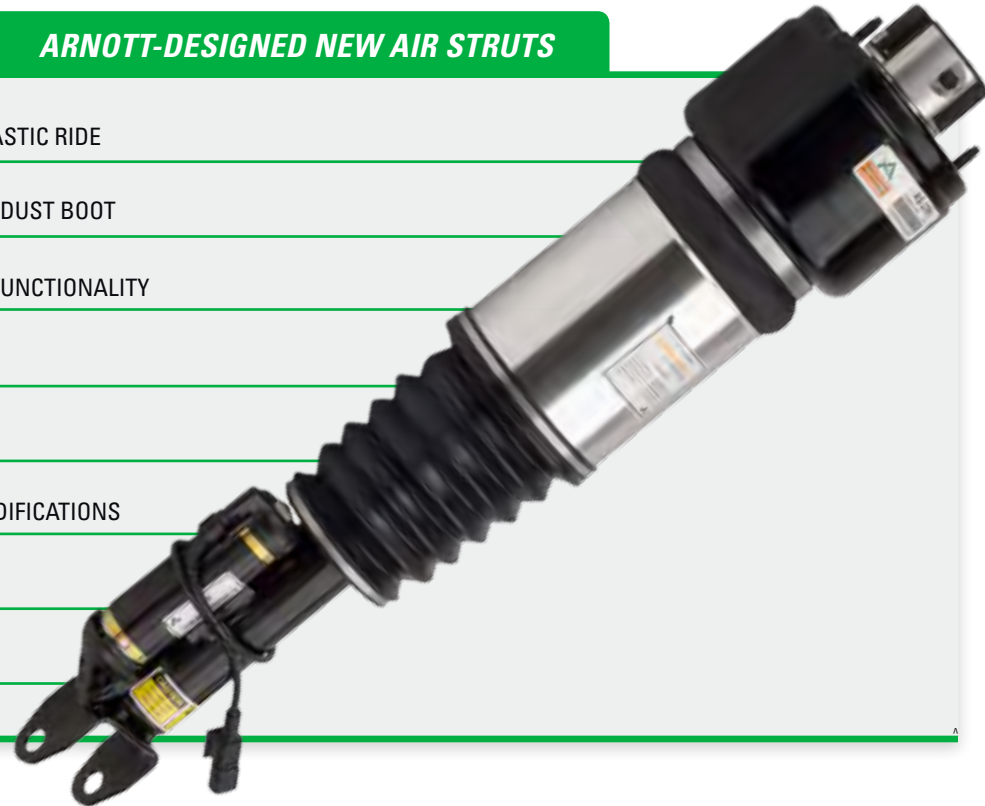

Arnott is committed to designing, testing and building the best products available. By examining tens of thousands of used cores each year, Arnott has found and improved upon many common failure points. Through this rigorous process, Arnott engineers have not only been able to improve remanufactured struts but also design a line of innovative Air Springs and 100% new Air Suspension Struts. Arnott is committed to using the highest quality components including longer-lasting seals, stronger rubber bladders, protective aluminum cans and dust boots, aircraft-quality aluminum and much more.

PRODUCT FEATURES

ARNOTT-DESIGNED NEW AIR STRUTS

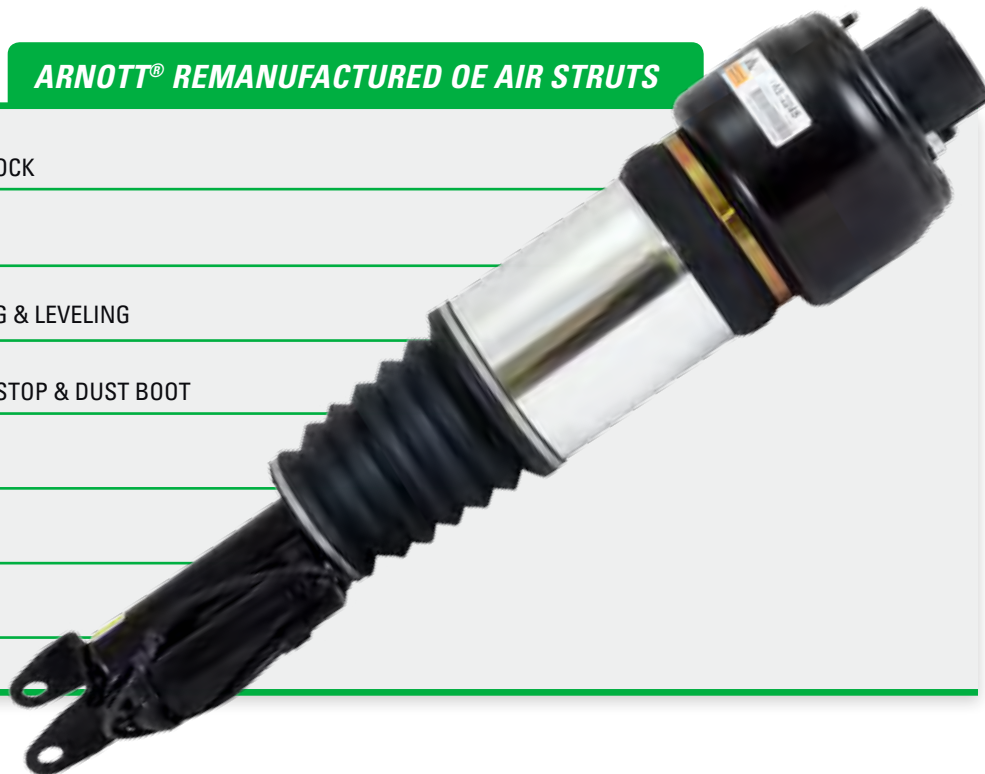

- CUSTOM-VALVED SHOCK PROVIDES FANTASTIC RIDE
- NAME-BRAND AIR SLEEVE, BUMP STOP & DUST BOOT
- WORKS WITH VEHICLE'S AUTO LEVELING FUNCTIONALITY
- CNC-MACHINED ALUMINUM TOP
- IMPROVED SEALS PREVENT LEAKS
- CONNECTS TO ADS SYSTEM WITH NO MODIFICATIONS
- ENGINEERED & ASSEMBLED IN THE USA
- LIMITED LIFETIME WARRANTY

**OE QUALITY FIT EVERY TIME!
LIMITED LIFETIME WARRANTY
INCLUDES DETAILED INSTRUCTIONS**

ARNOTT® REMANUFACTURED OE AIR STRUTS

- TESTED, CLEANED & RECHARGED OE SHOCK
- NEW SEALING CAP & AIR LINE FITTING
- WORKS WITH VEHICLE'S AUTO DAMPING & LEVELING
- NEW NAME-BRAND AIR SLEEVE, BUMP STOP & DUST BOOT
- OE TOP MOUNT & SENSOR
- REMANUFACTURED IN THE USA
- LIMITED LIFETIME WARRANTY

PRODUCT FEATURES

ARNOTT® AIR SPRINGS

- NAME-BRAND AIR SLEEVE
- HIGH-GRADE CRIMPING RINGS
- ENGINEERED & ASSEMBLED IN THE USA
- MATES UP TO OE AIR LINES WITH NO MODIFICATIONS
- HIGH-IMPACT PLASTIC RESIN OR AIRCRAFT-QUALITY ALUMINUM
- LIMITED LIFETIME WARRANTY

AIR SUSPENSION COMPRESSORS

- NEW OES QUALITY COMPRESSORS
- LIFE-CYCLE TESTED
- EPOXY-ELECTROCOATED FINISH TO PREVENT CORROSION
- MANUFACTURED WITH ROHS-COMPLIANT MATERIALS
- MOST MATE UP WITH OE LINES AND PLUGS
- LIMITED LIFETIME WARRANTY

ARNOTT COIL SPRING CONVERSION KITS

- ELECTRONIC BYPASS MODULE (EBM) ELIMINATES FAULT CODES
- CUSTOM-VALVED SHOCK ABSORBERS
- DURABLE AMERICAN-MADE, POWDER-COATED COIL SPRINGS
- PRE-ASSEMBLED FOR EASY & SAFE INSTALLATION
- OE FIT WITH NO MODIFICATIONS NEEDED
- LIMITED LIFETIME WARRANTY

Arnett is committed to helping its distributors, resellers and installers sell and install Arnett's affordable, high quality, aftermarket air suspension products. Arnett's comprehensive product line, outstanding value and worldwide distribution network provide resellers with options so they'll never lose business to dealerships or inferior knock-off products.

EASY TO SELL: Arnett provides detailed product information at Arnett along with standardized industry data feeds via ACES (Aftermarket Catalog Exchange Standard) and PIES (Product Information Exchange Standard). Arnett's catalog team can provide you with a customized spreadsheet or feed based on your particular needs.

EASY TO GET: Arnett has multiple warehouses throughout North America and has also partnered with the industry's top Warehouse Distributors who provide near-blanket coverage of North America for fast delivery, centralized billing and discounted price bands. Ask your distributors about Arnett pricing and availability.

EASY TO INSTALL: Arnett offers expert technical support plus detailed installation manuals and a growing list of installation videos to help your team quickly learn about and install Arnett products. If you can handle a brake job – you can install air suspension products.

EASY TO PROMOTE: Arnett offers a wide variety of sales and marketing tools designed to increase customer interest, reseller knowledge and overall product sales. These tools include promotional materials such as catalogs, counter mats, hanging banners, point of sale flyers and more. Plus, Arnett offers fashionable accessories such as tee-shirts, hats, cups, pens and more to help you promote the brand.

THE ARNOTT ADVANTAGE:

-  Highest quality aftermarket air suspension replacement products
-  Limited Lifetime Warranty in North America and the European Union
-  Warranty replacement handled by Reseller or Repair Shop
-  Fast shipping available through Arnett's six warehouses and network of distributors
-  Ongoing training, promotions and product update communications
-  Marketing support and promotional materials to enhance your shop's image

Q: HOW DOES ARNOTT SELL THESE GREAT PRODUCTS FOR SUCH AN AFFORDABLE PRICE?

A: The Arnett® Family commitment to lower prices is truly the foundation of our business philosophy. We have established coveted business relationships with the biggest names in the air suspension industry including Goodyear®, Kaiser Aluminum®, Firestone® and Continental ContiTech® to name a few. We then take raw materials, purchased in bulk and assemble the parts in our USA and European facilities. Our reputation and success in the industry have allowed us to set competitive prices regardless of application and our customers reap the benefits. Just as we have learned over 25 years of automotive air suspension experience, and in accordance with our mission, we simply do it better for less. We have the resources, the skill and the dedication to be the most competitive manufacturer of air suspension products in the industry.

Q: WHERE ARE ARNOTT PRODUCTS MADE?

A: Most Arnett products are engineered, tested and assembled in the USA using the highest quality domestic and foreign components. Remanufactured parts are completely rebuilt in Arnett's facility using the manufacturers' original equipment shocks. Air Suspension Compressors are purchased new from OE quality vendors such as AMK and WABCO and are then tested and fitted by Arnett with application-specific mounting hardware and other new components. Most Arnett Coil Spring Conversion Kits are designed and assembled at our Florida facility using American-made, powder-coated springs while others are made by domestic and foreign manufacturers who meet our rigid design and quality specifications. Arnett parts are tested, date coded and serialized for additional quality control.

Q: DO YOUR PRODUCTS COME WITH INSTALLATION INSTRUCTIONS?

A: Arnett offers expert technical support. Detailed installation manuals are available for most Arnett products. Arnett also has produced professional installation videos for a growing list of products.

Q: WHAT IS ARNOTT'S WARRANTY ON PARTS?

A: Arnett offers a Limited Lifetime Warranty for customers in North America and in the European Union on all Air Springs, new and remanufactured Strut and Shock Assemblies, Air Suspension Compressors and Coil Spring Conversion Kits. Orders outside of these regions come with a Limited Two-Year Warranty. Arnett's non-transferrable Warranty replacement is handled by the Reseller or Repair Shop. Arnett is so confident that you will be 100% satisfied with its products that it offers a 30-Day Money Back Guarantee and a 90-Day Return Policy on unused and uninstalled parts.

Q: WHAT TYPES OF PAYMENTS DO YOU ACCEPT?

A: We accept all major credit cards: Visa, MasterCard, American Express and Discover. We also accept payments made through PayPal, or by mailing us a Money Order or Cashier's Check.

Q: WILL ARNOTT AIR SUSPENSION PARTS RIDE DIFFERENTLY FROM THE ORIGINALS?

A: No. Arnett designs its parts to provide an OE-like ride. Arnett's Air Springs are engineered with the same spring rate and load capabilities as the OE and our new Shocks are valved to provide an excellent ride regardless of road conditions.

Q: DO I HAVE TO WELD OR MODIFY CUSTOMERS' VEHICLES TO MAKE YOUR COIL SPRING CONVERSION KITS FIT?

A: Absolutely not! Our Conversion Kits are designed to mount directly to their chassis and suspension components without modification. No special tools are necessary to install our Conversion Kits. Most of our kits come preassembled and ready to bolt in. All of our suspension brackets are specifically engineered for their vehicle. Some kits may require a spring compressor.

Q: SHOULD CUSTOMERS REPLACE THE AIR SUSPENSION PARTS OR JUST CONVERT THEIR CAR TO COIL SPRINGS?

A: If your customers like their vehicle's load-leveling capabilities, or if they tow things, then they should repair the air suspension system. If they are tired of replacing their air suspension's many components, an Arnett Coil Spring Conversion Kit should be perfect for them.

ARNOTT® REMANUFACTURED FRONT AIR STRUT – AUDI A8 (D4)

Arnott now offers a Remanufactured Air Suspension Strut for the front of the 2010-2016 Audi A8 (D4/4H Chassis) with Comfort/Normal Suspension. Remanufactured in the USA, each strut is thoroughly tested, cleaned, repainted and then rebuilt with a new rubber air spring bladder manufactured by Continental ContiTech along with heavy-duty crimping rings, long-lasting O-Ring, new 2-pin connector, protective can and dust cover. Arnott is so confident in its Remanufactured Struts that it backs them with a Limited Lifetime Warranty.

FEATURES:

- Remanufactured in the USA
- New Continental ContiTech Air Spring Bladder
- New 2-Pin Connector, Crimping Rings & O-Ring
- New Protective Can & Dust Cover
- Detailed Installation Manual Available

ARNOTT-DESIGNED NEW FRONT AIR STRUT - BENTLEY

Arnott® has engineered 100% new aftermarket Air Suspension Struts for the front of the 2003-2012 Bentley Continental and Flying Spur. These new, not remanufactured, assemblies replace worn OE struts and feature a new custom-tuned Shock Absorber calibrated to provide excellent ride control and performance. The Arnott Strut includes a new air bladder from Continental ContiTech which is protected by an aluminum can along with a CNC-machined top mount made from aircraft-quality aluminum. This new air strut is assembled in the USA with Arnott's long-lasting seals, O-Rings, bump stop, heavy-duty crimping rings, new air line fitting and connector valve along with a protective dust boot.

FEATURES:

- New Custom-Valved Shock Absorber
- Multi-Ply Continental ContiTech Air Spring Bladder
- Pre-Assembled for Easy Installation
- Includes Detailed Installation Manual
- Designed & Assembled in the USA

ARNOTT-DESIGNED PREMIUM REAR AIR SHOCK - GM SUVs

Arnott's premium Rear Shock for GM vehicles equipped with air-assisted suspensions is an ideal replacement for failing OE rear shocks. This Top-of-the-Line Shock was engineered in the USA to deliver control, stability, performance, and comfort. Arnott's new aftermarket shock connects to the vehicle's auto-leveling system with no modifications and includes a bypass resistor to turn off dashboard warning lights for the often problematic auto-damping control unit.

FEATURES:

- Improved Ride & Handling
- CNC-Machined Components
- Goodyear Air Spring Bladder
- Engineered in the USA
- Limited Lifetime Warranty

PROVIDES AUTO LEVELING

THE ARNOTT® ADVANTAGE

When customers simply want to replace their failing air suspension system, Arnott has a wide selection of Coil Spring Conversion Kits. Many of our kits come with Arnott's patents-pending Electronic Bypass Module (EBM) to turn off dashboard suspension warning lights. To maximize efficiency, Arnott's aftermarket Coil Spring Struts are preassembled and ready for easy installation, eliminating the need for special tools or the use of a dangerous spring compressor.

ARNOTT-DESIGNED NEW AIR STRUT - JAGUAR XJ SERIES

Arnott's completely new, not remanufactured, Air Struts for the Jaguar XJ series with X350 or X358 Chassis are available in both Comfort and Sport suspension versions. Arnott's Struts feature a custom-made and tuned premium Monotube Shock Absorber designed to provide an excellent ride. The Arnott-designed Strut eliminates many of the common high wear weaknesses of the OE strut including the leaky upper seal, noisy upper mount, and the weak lower rubber seal. The Arnott® Strut is built with a new Continental ContiTech air bladder, heavy-duty crimping rings, O-Rings and new, OE-inspired dampening coil. The Arnott design is not only more efficient, it's also much more affordable! Each Jaguar Air Strut is backed by a Limited Lifetime Warranty.

FEATURES:

- Custom-Designed Monotube Shock Absorber
- CNC-Machined Aluminum Parts
- Anodized Aluminum Finish
- Pre-Assembled For Easy Installation

ARNOTT-DESIGNED NEW FRONT AIR STRUT - LAND ROVER RANGE ROVER

The Arnott-designed Front Strut for the 2010-2013 Range Rover Sport (Supercharged) is new and not remanufactured. Arnott's exclusive design features a new custom-made and tuned shock absorber valved for a great ride. The Strut is assembled in the USA with a multi-ply air spring bladder manufactured by Continental ContiTech. The Strut Assembly also features extra heavy-duty crimping rings, new seals, air fitting and check valve along with a black anodized aluminum top. Arnott® protects the assembly with an aluminum can to keep out debris.

FEATURES:

- Custom-Designed Twin-Tube Shock
- Continental ContiTech Multi-Ply Air Bladder
- Black Anodized Aluminum Top
- Heavy-Duty Crimping Rings
- Limited Lifetime Warranty

THE ARNOTT® ADVANTAGE

Arnott has been remanufacturing OE Air Suspension Struts for over 25 years. Through years of testing and examination of used cores, Arnott has learned where the usual failure points occur and has designed its parts to meet or exceed the original part's quality and durability. Each part is carefully tested, disassembled, cleaned, and painted. The OE Shock is recharged and then completely rebuilt with a new heavy-duty air spring and crimping rings, longer-lasting seals, new air line fitting and more. Arnott is so confident in its Remanufactured Struts that it backs them with the same Limited Lifetime Warranty that comes with new Arnott Struts and Springs.

ARNOTT-DESIGNED NEW FRONT AIR STRUT - LEXUS LS

Arnott® has released an all-new aftermarket Air Suspension Strut for the front right and left hand side of the Lexus LS 460. This new assembly replaces the OE strut and features a new, not remanufactured, custom-tuned Shock Absorber designed to provide an OE ride. The Arnott Strut is built with a new heavy-duty air bladder from Continental ContiTech which is protected by an aluminum can along with a CNC-machined top mount and sealing cap made from aircraft-quality aluminum. This new air strut is assembled in the USA with Arnott's long-lasting seals, O-Rings, bump stop, heavy-duty crimping rings, new air fitting and a dust boot. Arnott's new Struts do not require a core deposit or the storage and shipping of the core.

FEATURES:

- New Custom-Valved Shock Absorber
- Multi-Ply Continental ContiTech Air Spring Bladder
- Pre-Assembled for Easy Installation
- Detailed Installation Manual Available

THE ARNOTT® ADVANTAGE

Arnott is pleased to offer customers free technical support, detailed installation manuals for nearly every product and a growing library of installation videos. Arnott's installation videos are professionally produced to show certified mechanics how to safely uninstall the original equipment components and install Arnott replacement products. Arnott's videos include step-by-step instructions, and offer tips to complete the install quickly and easily.

THE ARNOTT® ADVANTAGE

The innovative Arnott engineered aftermarket Air Spring for the rear of the Mercedes-Benz W211 E-Class and W219 CLS-Class greatly simplifies installation by eliminating the OE reservoir, **saving the installer hours of time.**

THE ARNOTT® ADVANTAGE

Arnott offers completely rebuilt OE Mercedes-Benz hydropneumatic struts for several CL-Class, S-Class, and SL-Class models with Active Body Control (ABC) hydraulic suspensions. Each Mercedes-Benz hydraulic shock is painstakingly tested, disassembled and rebuilt from the ground up. Arnott has worked directly with one of the largest seal manufacturers to design a nearly indestructible polyurethane seal that, unlike the OE rubber seal, should last for many years. Arnott is so confident in this design that it backs these remanufactured struts with a Limited Lifetime Warranty.

ARNOTT® COIL SPRING CONVERSION KIT

Arnott's Coil Spring Conversion Kit for Porsche Cayenne and Volkswagen Touareg crossover SUVs with air suspension and without PDCC converts all four air springs and shocks to a more reliable coil spring/strut combination. To maximize efficiency, Arnott's Coil Spring Struts are preassembled and ready for easy installation. For ride quality, the kit includes custom-valved Shock Absorbers and specially tuned steel springs. The Coil Spring Kit includes aircraft quality CNC-machined aluminum seats, new rubber upper mounts and comes with Arnott's patents-pending Electronic Bypass Module (EBM). This exclusive device, which installs quickly and easily, turns off dashboard suspension warning lights.

FEATURES:

- Custom-Valved Shock Absorbers
- CNC-Machined Aluminum Seats
- New Rubber Upper Mounts
- Specially Tuned Powder-Coated Coil Springs
- Pre-Assembled for Easy Installation
- Exclusive EBM Turns Off Dash Warning Lights

Arnett® has rebuilt hundreds of thousands of OE struts. During that exacting process, Arnett engineers have studied the many failure points and have worked to improve upon the strut design. Arnett Struts provide an exceptional ride, adjustable ride height and excellent durability without the costly and problematic issues associated with aging OE air suspension systems. Here is how the Arnett-designed new Front Strut for the Mercedes-Benz W220 S-Class differs from other manufacturers:

- ▲ Improved seal design to prevent leakage - Not filled with epoxy which cracks and leaks ①
- ▲ Thick Aircraft Quality Aluminum Top VS Thin-Pressed Steel Top - Provides better support for internal shock's top mount ②
- ▲ Thicker Multi-Ply Continental Air Bladder - More rugged so they last longer than the delicate bellows used in others ③
In addition to being thicker, the Arnett Air Bladder is longer, providing a smooth ride over all road conditions
- ▲ Arnett replaced the Lower Isolator Seal which is subject to blowouts and failure ④
- ▲ Heavier Duty Crimping Rings provide a tighter seal for the air spring, reducing the possibility of a leak
- ▲ Arnett Custom-Valved Nitrogen-Charged Shocks provide an exhilarating ride and cost-effective alternative
- ▲ Larger Aluminum Can to better protect air bladder and shock
- ▲ Designed and Assembled in the USA
- ▲ Limited Lifetime Warranty on entire strut

For more than 25 years, customers have turned to Arnett® for the company's air suspension expertise. Arnett's Research and Development Engineers work tirelessly to meet the challenge of uncovering solutions to common original equipment failure points, enhancing existing products and improving process efficiencies.

Arnett prides itself in offering first-to-market innovations known for generating distinctive value for installers and end users.

SOME OF ARNOTT'S R&D ACHIEVEMENTS:

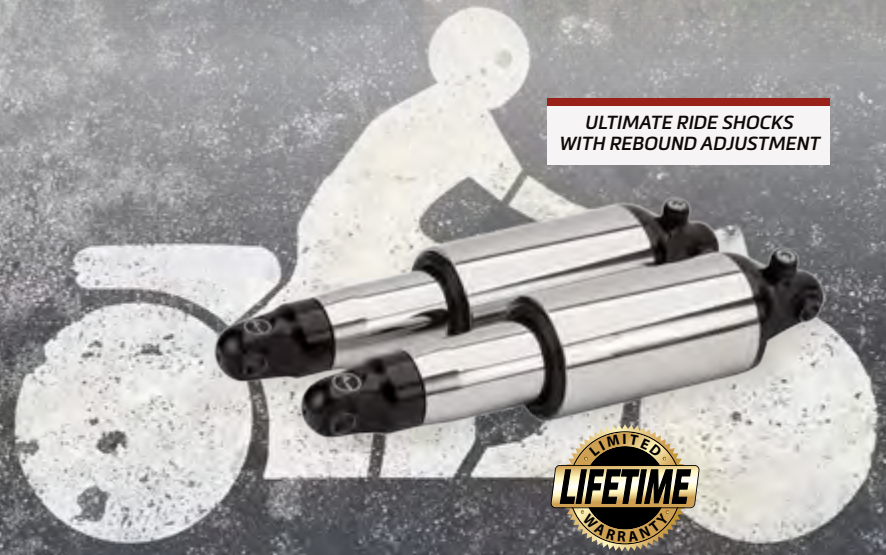

- Patented Top Mount with no external air line and a certified weight capacity of over 100,000 lbs
- Patents-Pending Electronic Bypass Modules turn off dashboard suspension warning lights on some Conversion Kits
- 100% New Struts with valved Shocks that offer an outstanding ride and performance
- Flexible air fitting design so some air springs can fit the left or right side
- E-Class Rear Air Spring designed to eliminate the air reservoir, reducing installation time by 94%
- Engineered spring designs that offer superior strength and an advanced ride
- Coil Spring Conversion Kits that eliminate older, problematic air ride systems while still providing an excellent ride

ELEVATE YOUR RIDE.

Arnott® designs and handcrafts air suspension systems specifically for motorcycles. Each component is designed and developed by suspension engineers to ensure bikers have the best riding experience possible. By designing kits for specific applications, Arnott ensures the system exceeds the highest standards in quality, functionality and safety. Arnott Motorcycle Air Suspension systems deliver a better ride for your motorcycle customers.

ULTIMATE RIDE SHOCKS WITH REBOUND ADJUSTMENT

**ARNOTT MOTORCYCLE AIR SUSPENSION FOR:
HARLEY DAVIDSON® • HONDA® • INDIAN® • KAWASAKI®
SUZUKI® • VICTORY® • YAMAHA®**

ORDERING IS FAST & EASY!

Arnott's Customer Service team is available to assist you with what to order, placing an order, order status, product availability or any other questions you might have regarding Arnott's air suspension products. Contact the air suspension experts at Arnott to make sure you order the correct part and to answer any installation questions you might have.

ORDER WITH CONFIDENCE:

- Same-Day Shipping Available
- Se Habla Español
- Better Business Bureau - A+ Rating
- Satisfaction Guaranteed
- Limited Lifetime Warranty
- Over 25 Years of Customer Satisfaction
