

**AXXESS.i**<sup>TM</sup>

**BACKUP CAMERA** INTEGRATION

## Backup Camera Integration

Axxess.i now lets you easily add an aftermarket backup camera to most vehicles utilizing the factory video/navigation screen. Each interface allows for selectable source while including an additional video input for your vehicle. It's a simple 3-Step process - First, choose the interface that best fits your needs. Next, choose a vehicle specific harness for a simple install. And Step 3, install it!

## Add Video

Most of the Axxess.i Interfaces include an additional video input. This allows connection of other aftermarket video sources to your factory screen. Play movies, music videos or cartoons for the kids!

# Backup Camera RGB Interfaces

Easily add an aftermarket Backup camera to your RGB-based vehicle utilizing the factory screen. Each of the Axxess.i interfaces include varying levels of technology while including an additional video input for your vehicle. First, choose the interface that best fits your needs then choose a vehicle specific harness for a simple install.

## Step 1 Choose your Interface

### AXi-RGB3 HDMI® + 2-INPUT PROGRAMMABLE INTERFACE

- Compatible with all RGB based cars
- Supplies 1 HDMI® and 2 composite video inputs
- HDMI® input for any smartphone mirroring or any other HDMI® device (MHL™ adaptor required)
- Automatically shows a rearview camera image while the vehicle is in reverse
- Onscreen display shows video input selected while switching
- Static nonadjustable parking lines (can be turned on or off)
- One touch rearview camera operation while in drive
- Use any smartphone navigation app as an upgrade to the existing navigation system (display only)
- Got just a color screen? You can now have a navigation app from your smartphone on your existing vehicles color screen
- Stereo audio output via a 3.5mm AUX-IN jack
- Video output from your smartphone via a composite RCA for rear seat entertainment
- USB charger to keep your smartphone charged or MHL™ power on (MHL™ adaptor required)
- Video 1 can be used for a front camera
- Can be installed with a plug and play harness or a universal harness
- 100% automotive grade video interface
- USB programmable
- Micro "B" USB updatable
- Made in USA

Universal Port Works with All Axxess.i Harnesses for Easy Install & One Totally Integrated System

Easily Update Firmware to Include New Vehicles with the USB Port - Never Have Outdated Inventory!

# Step 1 Choose your Interface

## RGB Interfaces

### AXi-RGB2

#### 2-INPUT PROGRAMMABLE INTERFACE

- Compatible with all RGB based cars
- Supplies (2) video inputs
- Automatically shows rearview camera image while the vehicle is in reverse
- One touch rearview camera operation while in drive
- Onscreen display shows video input selected while switching
- Static nonadjustable parking lines (can be turned on or off)
- Video 1 can be used for a front camera
- Can be installed with a plug and play harness or a universal harness
- 100% automotive grade video interface
- USB programmable
- Micro "B" USB updatable
- Made in the U.S.A.

Easily Update Firmware to Include New Vehicles with the USB Port - Never Have Outdated Inventory!

### AXi-RGB1

#### 2-INPUT INTERFACE

- Compatible with most RGB based vehicles
- Supplies (2) video inputs
- Automatically shows the rearview camera image while the vehicle is in reverse
- One touch rearview camera operation while in drive
- Onscreen display shows video input selected while switching
- Static nonadjustable parking lines (can be turned on or off)
- Video 1 can be used for a front camera
- Can be installed with a plug and play harness or a universal harness
- 100% automotive grade video interface
- Made in the U.S.A.

# Backup Camera CAN Interfaces

Add an aftermarket Backup Camera to your Factory Screen

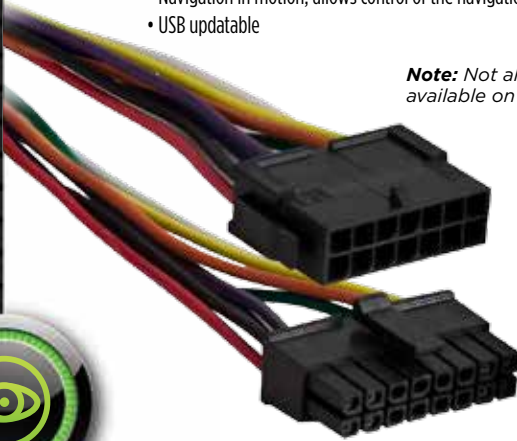

## Step 1 Choose your Interface

### AXi-CANBOX1

#### MULTI-CAMERA PROGRAMMABLE INTERFACE FOR CAN-BUS VEHICLES

- Four camera switching: rear camera in reverse, front camera below 10 mph, left and right cameras with the turn signals
- Selectable cameras to use via USB programming
- Video in motion; provides use of the factory DVD while driving off road
- Camera in drive; provides an image of the factory or aftermarket camera while driving forward
- Control in motion; provides the ability to block certain features while driving
- Navigation in motion; allows control of the navigation system while driving
- USB updatable

*Note: Not all features are available on all vehicles*

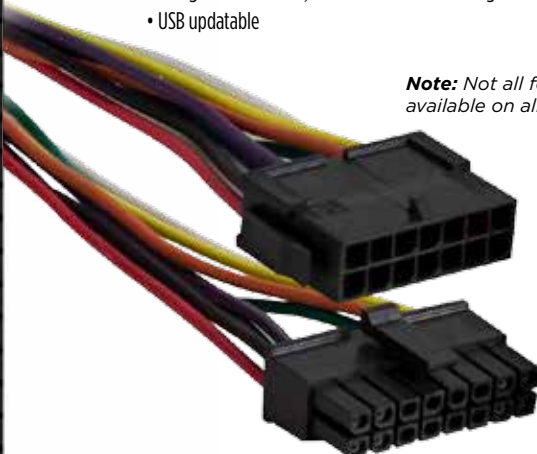

Easily Update Firmware to Include New Vehicles with the USB Port - Never Have Outdated Inventory!

### AXi-GMBOX1

#### MULTI-CAMERA PROGRAMMABLE INTERFACE FOR GM CAN-BUS VEHICLES ONLY

- Four camera switching: rear camera in reverse, front camera below 10 mph, left and right cameras with the turn signals
- Selectable cameras to use via USB programming
- Video in motion; provides use of the factory DVD while driving off road
- Camera in drive; provides an image of the factory or aftermarket camera while driving forward
- Control in motion; provides the ability to block certain features while driving
- Navigation in motion; allows control of the navigation system while driving
- USB updatable
