ENERGY MANAGEMENT

3 LAYERS, EACH WITH THEIR OWN JOB

EPO
(Expanded Polyolefin)
LOW-SPEED IMPACTS
3 METERS/SECOND

EPP
(Expanded Polypropylene)
MID-SPEED IMPACTS
5 METERS/SECOND

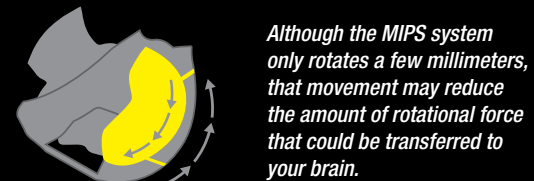

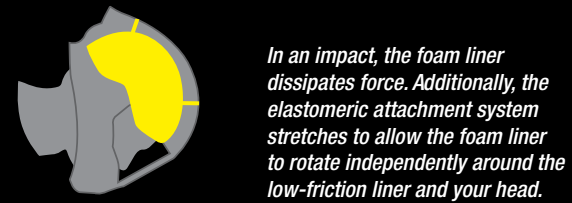

EPS
(Expanded Polystyrene)
HIGH-SPEED IMPACTS
7.75 METERS/SECOND

HOW DOES IT WORK?

There are three main components to a MIPS-equipped helmet:

PROGRESSIVE LAYERING

A first-of-its kind, three-layer impact liner designed to manage energy from three potential impact scenarios: low, mid and high-speed.

ADAPTIVE FIT

Segmented construction, automatically conforming to a rider's head for a better fit and more predictable energy management.

ROTATIONAL ENERGY MANAGEMENT

A "slip zone" within the impact liner allows for subtle movement between the inner layers and works to reduce rotational energy transfer from angular impacts.

MIPS SLIP PLANE

This low-friction slip plane is designed to reduce rotational force during certain impacts.

ELASTOMETRIC RETENTION

Four elastomeric bands provide a few millimeters of movement in all directions.

ELEVATING VISION

INTRODUCING ProTint

PROTINT™

PHOTOCHROMIC SHIELDS

ACTIVATED BY UV LIGHT:

Enhance your ride with Bell ProTint Shields. Activated by UV light, ProTint shields adapt to changing light conditions, providing enhanced vision during any ride.

ADAPTIVE TECHNOLOGY:

Offering exceptional clarity in low light conditions, ProTint shields quickly darken when exposed to bright sunlight. This adaptive technology helps your eyes adjust to the conditions, even when they are changing as quickly as the road ahead.

UNRIVALED DETAIL:

ProTint Photochromic lenses provide enhanced contrast, helping your eyes to discern shapes and colors more quickly. The result is enhanced clarity and a reduction in eye strain through varying light conditions.

CLEAR PERFORMANCE

INTRODUCING ProVision™

PROVISION™

DUAL PANE ANTI-FOG TECHNOLOGY

INDUSTRY LEADING ANTI-FOG PERFORMANCE:

ProVision™'s anti-fog performance vastly outperforms the ECE standard's mist-retardant test. The ProVision™ insert is ready for all ranges of use, from everyday commuting to extreme competition.

NO HASSLE PERFORMANCE:

The dual-pane ProVision™ insert is factory installed with no additional work needed, making shield swaps a breeze.

Dual Pane Technology

BRAND VALUE: STEWARDSHIP
PROTECT THE PLACES WE PLAY.
FOSTER SPORT. BUILD CULTURE.

ProFIT

PURPOSE-BUILT SIZING FOR HIGH-SPEED RACING.

6 SHELLS. UNLIMITED PERFORMANCE.

By offering 6 shell sizes instead of the traditional 2-3, and 6 impact liner sizes, we enable riders to experience the performance of a near-custom fit. *However you ride, fit matters.*

1 EXTRA SMALL	2 SMALL	3 MEDIUM	4 LARGE	5 EXTRA LARGE	6 XXL
					
53-54 CM	55-56 CM	57-58 CM	59-60 CM	61-62 CM	63-64 CM

PLUS, 6 IMPACT LINER SIZES

We engineered 6 unique impact liners, based on the headforms of each major size, to provide a pro-level fit and helmet.

FOR COMPARISON'S SAKE

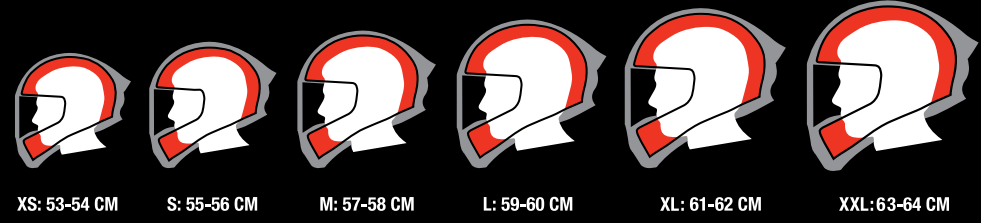

The Traditional
2 OR 3-SHELL FIT SYSTEM

While it works for many applications, this more typical offering requires additional padding to compensate for the shell sizing variance.

The All New
BELL ProFIT SYSTEM

The ProFIT system's 6 shells ensure that riders experience a more proportional fit that's optimized for weight, size, and stability.

SMALLER. FASTER. PERIOD.

A MORE COMPACT, PROPORTIONATE FIT EQUATES TO A LIGHTER AND FASTER HELMET.

SMALLER PROFILE

This allows riders to achieve a tighter, tucked position with improved aerodynamics.

LESS NOISE

A better fitting helmet will quiet wind noise and reduce buffeting.

BETTER STABILITY

Without the added size and material, it's steady on the head and reduces fatigue.

*"IT JUST DISAPPEARED ON MY HEAD."
Cameron Beaubier in the Star*

Q & A

Q: I've always worn a medium. According to this, I'm now a large. Can you please explain how this is smaller?

A: That's because you've always based your size on a 3 shell system. The Star Series uses the ProFIT's 6 shell system which has a unique liner for every major size. Overall, the profile will be more proportionate.

Q: When i put the helmet on, it seemed tight. Is that normal?

A: Yes. The performance fit of a ProFIT helmet will be light and snug as it's optimized for size, weight and stability.

RACE STAR FLEX

BRAD BINDER

DEDICATED RACER

Designed for the racer with a day job, where every race weekend decision has to be carefully considered during the long week, the Race Star is the prime choice. Offering all the features and protection of its class-leading sibling, the Race Star utilizes a 3k carbon fiber shell and is packed with cutting edge technology to deliver premier performance. Our proprietary Flex liner provides comprehensive protection, and Magnefusion cheek pads ensure superior comfort with optimal fit, and RaceView orientation capped with the class 1 optics of Bell's Panovision face shield affords you a perfect view of the finish line. The desire to win starts in the head.

STAR MIPS

TRACK TESTED

Introduced back in 1967, the first full-face helmet on the market, the Bell Star has long represented THE standard in head protection, and it has inspired an industry to pursue the science of head protection. The Star is the continuing evolution of that original ethos, and more. Drawing our inspiration from the essential needs of the modern racer, and loaded with quality features – TriMatrix composite shell, MIPS energy management, XStatic liner and Panovision Class-1 optics - it's a complete rethinking of what a race helmet should be.

FEATURES

- Tri-Matrix Composite Shell
- X-Static® XT2 Silver Liner
- Panovision™ Shield with Class 1 Optics
- Bell 54 Removable Cheek Pads
- StreetView Orientation
- Integrated Speaker Pockets
- Eyewear compatible
- MIPS® energy management system

SRT-MODULAR

VERSATILE PERFORMANCE

The SRT-Modular combines the quality construction of the SRT – fiberglass shell, recessed EPS speaker pockets, a broad range of sizing options and class-1 Panovision optics – and adds in the versatility and convenience of a modular helmet. All the protection of a quality full-face when you need it, as well as the ease and accessibility of an open-face for when you want to face the world head-on. SRT – putting the Sport back in Sport Touring.

FEATURES

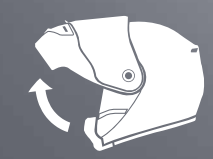

- Modular, flip up style helmet
- Lightweight fiberglass composite shell construction
- Removable/washable anti-bacterial interior
- Drop down sun shield
- Panovision shield with Class 1 Optics
- Recessed EPS speaker pockets
- Eyewear compatible
- Industry-leading Five-year warranty

QUALIFIER DLX MIPS

VERSATILITY AND PERFORMANCE

Packed with features gleaned directly from our flagship Star line, the Qualifier DLX MIPS delivers exceptional performance at incredible value. Safety is enhanced by the inclusion of the MIPS energy management system, and an integrated communications port works with Sena or Cardo Bluetooth stereo communications. Qualifier DLX MIPS is otherwise fully decked with aggressive styling, NutraFog II anti-fog, anti-scratch face shield, Velocity Flow ventilation, a removable, washable liner and a padded wind collar.

FEATURES

- Lightweight Polycarbonate/ABS Shell Construction
- Transitions® Adaptive ClickRelease™ Shield Included
- Transitions® Anti fog and UV protection
- Integrated communication port accommodates Sena and Cardo Bluetooth® stereo headset and intercom systems
- Removable/washable anti-bacterial interior
- Velocity Flow Ventilation™ system with FlowAdjust™
- Padded Wind Collar drastically reduces wind and road noise

- Contoured cheek pads
- Integrated speaker pockets
- Padded chin strap with D-ring closure
- Industry-leading Five-year warranty

REVOLVER EVO

AGGRESSIVE STYLE, MODULAR PERFORMANCE

We locked our R&D team in the laboratory and didn't let them out until they had taken the Revolver helmet and turned it into a truly class leading modular worthy of the Bell name. When our engineering team finally emerged, the result was the Revolver EVO. With improved features like a redesigned eyeport seal, new chin curtain and an improved flip down sun shade, the Revolver EVO has truly taken Bell modular helmets to the next level.

FEATURES

- Lightweight Polycarbonate/ABS Shell Construction
- ClickRelease™ Shield for fast, easy and tool-free shield replacement
- NutraFog II™ anti-fog, anti-scratch and UV protected shield
- Velocity Flow Ventilation™ system with FlowAdjust™
- Drop-down sunshield offers “on the fly” protection from the sun
- Contoured Cheek pads
- Removable/washable interior
- Exclusive Magnefusion™ magnetic strap keeper
- Chin Curtain to prevent cold air from entering the helmet
- Padded chin strap with D-ring closure
- Industry-leading Five-year warranty

BRAND VALUE: CAMARADERIE

PEOPLE ARE THE POINT.
PARTNERSHIP IS OUR PROCESS.
SUCCESS IS NOT A SOLO ACT.

MOTO-9 FLEX

PROGRESSIVE PROTECTION

Ever since the first Bell helmet, our ongoing mission has been to innovate and improve the science of protection, always striving to bring technologies to the table that set the benchmark for impact and energy management. Meet the Moto-9 Flex – evolution of the fittest. A first-of-its-kind, three-layer impact liner utilizes multiple densities of material to more comprehensively disperse impact energy and works to reduce rotational energy transfer. Moto-9's flexible, segmented liner achieves an adaptive, more personalized fit for a wider variety of head shapes, and allows us to deliver superior ventilation throughout the helmet. The Moto-9 Flex is the most advanced helmet we have ever made, and is setting the standard for rider protection in motocross and off-road racing.

MX-9 MIPS

MOTOCROSS HERO

The off-road world is a dirty, tough place. Chunks of rock and dirt mean business when launched by roosting tires, and even when it's muddy, hitting the ground is always hard. That's why we sweated the details on the MX-9, loading it with a tough polycarbonate shell, MIPS energy management system, an adjustable visor, Velocity Flow ventilation, and a removable, washable, anti-microbial liner for when the time comes to hose down. The MX-9 MIPS packs all these features into one helmet, delivering exceptional value and pro-caliber performance.

FEATURES

- Lightweight Polycarbonate/ABS Shell Construction
- MIPS® energy management system
- 3 shell and EPS sizes for a personalized fit
- Velocity Flow Ventilation™ system for maximum cooling
- Fully adjustable Flying Bridge Visor™ with air intake vents
- Removable/washable anti-bacterial interior
- Integrated roost guard
- Padded chin strap with D-ring closure
- Industry-leading Five-year warranty

MX-9 ADVENTURE MIPS

ALL-TERRAIN EXPLORER

From the roughest singletrack to urban blacktop, the MX-9 Adventure MIPS gets you there safely in style. We've taken our MX-9 and added even more capability with an integrated anti-fog, anti-scratch faceshield. The shield flips up and leaves enough room for goggles in extreme conditions, or it can be removed completely. Conversely, the adjustable visor can be removed for a stealth street look. MIPS protection, Velocity Flow ventilation, and a removable, washable, anti-microbial liner round out a highly adaptable package.

FEATURES

- Lightweight Polycarbonate/ABS Shell Construction
- MIPS® energy management system
- 3 shell and EPS sizes for a personalized fit
- Integrated/Removable shield with NutraFog II™ anti-fog, anti-scratch and UV protection
- Velocity Flow Ventilation™ system for maximum cooling
- Two point adjustable Visor™ with air intake vents

- Removable/washable anti-bacterial interior
- Padded chin strap with D-ring closure
- Industry-leading Five-year warranty

ELIMINATOR FORCED AIR NEW FOR 2019

BREATH WITH AUTHORITY

Sometimes the air gets too thick to breathe. You wouldn't let your engine suck dust, and neither should you. To that end, we enhanced the no-nonsense function and style of the Eliminator with dust skirt seals and fresh air system compatibility. State of the art ventilation capability combined with premium fit and protection allows you to stay focused and breathe easy in the most challenging off-road conditions.

ELIMINATOR

NEW FOR 2019

CAREY HART

BORN FROM AUTO, BUILT FOR THE STREET

The new Eliminator delivers bold, assertive street performance. Sixty years of evolution is rolled into a stripped down, no-BS helmet that combines light weight, perfect fit and a legendary reputation for protection. The auto-inspired design is available in either fiberglass composite or carbon fiber shells, and can be worn with no-fog face shields or visors. Scorch the dragstrip. Carve the canyons. Own the streets.

Deluxe helmet bag included with Eliminator Carbon

BULLITT

CULTURE

MODERN CLASSIC

Offering riders a vintage look with a modern flavor, the Bullitt transcends many categories of motorcycling. Design features like the large eye port keep the wearer feeling less confined while still offering full face protection. Steel mesh vents on the forehead—inspired by the "snaps" that would have been found on helmets from the 70s—are actually functional airways that draw cool air over the rider's head and exit out of the low-profile exhaust in the rear. A fiberglass composite shell and genuine leather interior, combined with the seemingly endless shield options solidify this as a wearable, protective work of art. A true Bell Original, modern classic.

Deluxe helmet bag included

FEATURES

- Low-Profile Carbon Composite Shell or
- 3 shell and EPS sizes for a personalized fit
- Front chin vents with metal mesh intake and exhaust vents
- Genuine leather, removable/washable, anti-bacterial interior
- Contoured cheek pads

MOTO-3

NOT RETRO. ORIGINAL.

The iconic legend has returned! When the original Moto-3 was created back in the late 70s it was a product ahead of its time. Quickly becoming the industry standard in performance and style, today's Moto-3 is everything it was style-wise, with the added benefits of modern safety and production advancements. From the fiberglass composite shell to the EPS-lined chin bar, we left no detail unpolished. The solid colors use the original style terrycloth liner while the colab artist series graphics feature a plush micro suede liner. Both are removeable and washable.

Leather Interior for Artist Series

CULTURE

SOMETHING TO RIOT ABOUT

Elemental form meets modern versatility. Whether you are riding a stripped-down café creation on the cobbled streets of Italy or floating a Gold Wing along wide-open Texas highways, the Riot has you covered. A timeless style with a modern twist evidenced in the attached, flip up windscreen make this one a true Bell original. With five unique fiberglass composite shell sizes for a compact personal fit, and DOT/ECE certification, the Riot is taking over a street near you.

FEATURES

- Fiberglass composite shell construction
- 5 specific shell sizes for a low profile look and personalized fit
- Anti-bacterial liner
- Integrated flip up face shield included
- Padded chin strap with leather D-ring closure
- Industry-leading Five-year warranty

SIZES: XS, S, M, L, XL, XXL

RECON

NEW FOR 2019

CRUISER

TACTICAL DEFENSE

The Recon takes styling cues from our brothers and sisters in the armed forces, with subtle colors, Velcro patches and a shape cut in homage to our troops. It's got a job to do; protecting your head with comfort and minimalist class. Removable ear covers and speaker pockets are as fancy as this stripped-down half-lid gets. Sometimes, less is more.

(Shown with optional graphic patch)

FEATURES

- 3 shell and EPS sizes for a personalized fit
- Removable/washable interior
- Durable plastic goggle strap holder
- Removable Peltor ear covers with built-in speaker pockets
- Convenient communication wire routing
- Industry-leading Five-year warranty

SCOUT AIR

FLYWEIGHT LOOKS, HEAVYWEIGHT PROTECTION

The Scout Air utilizes an advanced and innovative "In-mold" construction that combines the Tri-Matrix composite shell with the internal EPS liner. The final result is an extremely compact, lightweight helmet that surpasses both DOT and European ECE certification requirements. The ultimate lightweight protection - in spite of the robust performance - it weighs a feathery 900 grams; so light it almost disappears on your head. Snap in either of the two included visors and tailor the look to suite your style, or pick up one of the clear or smoked "full-face" accessory shields and escape from the elements.

Extra Removeable snap peak included

Accessory shield available

FEATURES

- Lightweight inmolded design weighing less than 900 grams
- Composite "Tri Matrix" Shell Construction
- 5 shells, 5 EPS Sizes
- Includes 2 snap peaks
- Accessory shield available
- Industry-leading Five-year warranty

MAG-9

ROAD WARRIOR

Loaded with options the Mag 9 is as versatility defined. With 7 different configurable visor and face shield possibilities, it's ready to take on whatever road you choose to travel. Whether it's an all-weather daily commute or a cross-country journey, snap your Sena or Cardo system into the factory ready location using our brand specific mounting kits and you'll be rolling in comfort and style.

FEATURES

- Lightweight polycarbonate/ABS shell
- 3 EPS sizes for maximum comfort and size range
- Velocity Flow Ventilation™ creates the most ventilated helmet in the open face category
- Accommodates the Bell-specific Sena SMH10 Bluetooth® and Cardo Scala Rider Q1/Q3 stereo headset and intercom
- If you already have a Sena SMH10 unit, a Bell-specific clamp and boom will be necessary to install
- If you already have a Cardo Scala Rider Q1/Q3 unit, a Bell-specific adapter will be necessary to install
- Helmet can be run in multiple configurations: with or without shield and with or without visor
- Fast and easy tool-free shield changes
- Drop-down sunshield offers "on the fly" protection from the sun
- Removable and washable interior for maximum comfort
- Contour cheekpads for superior fit and comfort
- Convenient speaker pockets make it easy to set up the Mag-9
- Industry-leading Five-year warranty

PIT BOSS

CRUISER

PERFECT YOUR FIT

Looks can be deceiving. At first glance our Pit Boss may look like many other half helmets in the cruiser category. Scratch the surface, though, and you'll discover quality that sets it above the competition: A lightweight Tri-Matrix shell with innovative Speed dial fit system that prevents "lift and slippage" plaguing most other half helmets, a drop-down internal sun shield provides on the fly protection from the sun, and a removable neck curtain not only offers cold weather protection but also houses speaker pockets should as a convenient way to add audio enhancement. Snug the Pit Boss onto your head, thumb the starter button, one ride will confirm the Pit Boss as the King of the Road.

FEATURES

- Tri-Matrix composite shell
- Innovative Speed Dial adjustable fit system
- Internal Sun Shade offers "on the fly" protection from the sun
- Removable neck curtain for cold weather riding
- Convenient speaker pockets make communication device set up easy
- Optional replacement lenses available in clear, hi-def and smoke
- Industry-leading Five-year warranty
