**FACTORY**  **RACING**

### **IN OFF ROAD, FACTORY RACING MEANS PERFORMANCE.**

Set your bike apart from the rest with the ultimate look in race performance. Over the years, top riders like Barry Hawk, Randy Hawkins and Mike Lafferty, have all helped to make the Factory Racing brand of clutch covers a recognizable part of off road history that still lives on today. Add style and the Factory look to your bike with a Boyesen Factory Clutch Cover. Exterior grade, UV resistant powder coat finish is available in three classic colors, as well our new Factory Matte Orange to perfectly match KTMs. Made from investment cast aluminum, the Factory Cover is strong, lightweight, and durable providing years of outstanding protection.

### **THE BOYESEN ADVANTAGE**

- » Gives your bike the Factory Works look.
- » Lightweight factory clutch covers provide years of outstanding protection; guaranteed not to warp.
- » Cast from the highest quality aluminum.
- » Super-tough, powder-coated finish resists weathering and wear and tear.
- » Seals perfectly to keep out dirt and moisture.
- » Covers come with the gaskets.
- » Asbestos-free gasket is bound with nitrile for a tight, leak-free seal.

Rely on premium motorcycle air intake & filters by Boyesen if you're looking for quality and efficiency.
