WHY CHOOSE US?

Born in Southern California, DV8 Off Road understands Jeeps and the importance of creating a product that stands the test of time on and off the trail. We build durable and long lasting parts that compliment the natural lines of a Jeep. We also understand that along with style, Jeep enthusiasts need functional and reliable equipment that protects their investment. This is why we test all of our products on our Jeeps before releasing them to the public. These vehicles are used as daily drivers and trail vehicles. Our staff enjoys taking the DV8 Jeeps to their limits on some of the most extreme trails in the country. This is to ensure that we are providing high quality accessories that are just as amazing as the Jeeps themselves.

OUR TEAM

Our team is made up of men and women who embody the Jeep lifestyle. They are outgoing, active and willing to DV8 from the beaten path. This passion goes towards creating and delivering the best products available to the off road community. Because of this, we are proud to stand behind all of our products. For DV8 Off Road, having a jeep is not just a way to get around, it's an expression of who you are.

DAY-TO-ROAD

JL

2018 Jeep Wranglers

RBJL-01

Full Length Rear Bumper

- Fits all 2018+ JL models
- 2 integrated LED lights
- Made from 3/16 cold rolled steel, dual layer powder coat that resists rust and is highly UV resistant.
- Full length design, compatible with the bumper mounted tire carrier.
- D-rings included
- Integrated holes and caps for the factory backup sensors

SRJL-01

Rock Sliders *Patent Pending*

- Built extremely tough and designed to take a beating so you can keep moving forward with confidence
- Protection extends down to the frame rails
- Boat side design prevents hang ups
- Removable plates for replacement/recoating

FDJL-01

FRONT

REAR

High Clearance Fenders

Patent Pending

- Designed for max protection and clearance
- Unique flares to keep mud and debris from the side of your JL
- 100% bolt on and require no cutting or drilling
- Integrated LED turn signal, 50 state legal
- light weight and built tough

JL

2018 Jeep Wranglers

INFEND-03FR

Front Inner Fenders *Patent Pending*

- Reseals the engine compartment to protect from mud, dust, and debris
- Better airflow to keep your engine compartment cooler
- Mounts with the factory fenders and most aftermarket fenders
- Available in raw aluminum or black powder coating.

Also available in Black **INFEND-03FB**

INFEND-03RR

Rear Inner Fenders *Patent Pending*

- Protects components while not reducing tire clearance
- Mounts with the factory fenders and most aftermarket fenders
- Available in raw aluminum or black powder coating.

Also available in Black **INFEND-03RB**

SPJL-01

Skid Plate

- Protects the exposed sway bar disconnect and factory crash bar.
- Cleans up the aesthetics when installing an aftermarket bumper.
- Works with all of DV8 Offroad front bumpers for JL Jeep Wranglers.

JL

2018 Jeep Wranglers

LBJL-01

Light Bar Bracket

- Secure mounting of a 50" LED light bar over the windshield of the JL
- Light weight and strong
- Space for wiring is provided
- Rubber backing to prevent any paint damage
- Patent pending

TCJL-01

Tire Carrier

- DV8 Tire Carrier allows for mounting up to a 35 inch tire to the factory tailgate
- This tire carrier allows for the utilization of the JL's reinforced tailgate.
- 3/16 cold rolled steel adjustable tire carrier.
- Uses factory 3rd brake light assembly
- Remounts factory back up camera in a stout steel housing.

FBAB-01

JL to JK Front Bumper Adapter Bracket

- JK to JL adapter bracket allows for the use of any DV8 JK 2007-2017 front bumpers on 2018+ Jeep JL
- Brackets are made of 3/16" cold rolled steel and powder coated textured black
- Comes with Grade 8 hardware
- Maintains winch capability
- Patent pending

JK

HEAD/TAIL/WORK LIGHTS

LED Projector Headlights

LED projector headlights are a huge upgrade from stock JK headlights in both brightness and style. They use advanced optical technology to make the most of the LED lights that are housed within them.

HL-1

HL-2
w/Halo

LED Tail Lights

Off road LED Tail Lights are just the thing to set your Jeep apart from the others and are great to replace lights that have been damaged out on the trail.

TL-1

TL-2

LED Mirror Housing

The Off road LED mirror housing allows drivers to have a wider range of visibility. LEDs are angled slightly outward from center to promote a better field of view. The mirror also works as a turn signal to replace the factory fender signals when moving to after market fenders.

BC-M

Fog Lights

Lights are sized to be a direct factory replacement and will work in place of the factory fog lights in any application.

R4-FL

LED Cube and Rock Lights

Optical Technology and cutting edge design delivers unparalleled light output. These small rock lights deliver light right where you need it.

HARDTOP BREAKDOWN

JK

2007 – 2017 Jeep Wranglers

* Product dimensions and weights are approximate

- (4) Flat Fenders w/ thick tubing and rigid steel plating
- 4 Rubber guards to keep the fenders from rubbing on the Jeep's body
- Stainless steel mounting hardware
- Black powder coating
- Easy installation, NO modifications needed, Hardware included

DV8 Off road Flat Fenders provide more tire clearance and more room to flex. They come with internal bracing to ensure strength and durability. Our fenders come in a satin black powder coating and can be painted to match or left as is.

FENDB-02

DV8 Flat Fenders line up perfectly with the JK body lines and installation is extremely simple with precision cut holes to match the factory fender holes. DV8 fenders also come with our exclusive turn signal mounting bracket that can be used to mount an after market turn signal light. Ditch the factory plastic fenders that leave your JK vulnerable to expensive body damage and upgrade to DV8 steel fenders.

FENDB-02

- Front width: 10.5"
- Rear width: 5.0"
- Textured 3 stage powdercoat
- Solid steel construction
- Light weight
- Bolt on installation
- Standard DV8 Warranty

*Weight: 60lbs

FENDB-06

DV8's Slim Fenders were designed for maximum clearance when traversing narrow passages that would rip off an ordinary width fender. They bolt on with no drilling required and feature a turn signal light that can integrate into the factory harness.

FENDB-06

- Front width: 7.375"
- Rear width: 4.75"
- Slim design
- Textured 3 stage powdercoat
- Solid steel construction
- Light weight
- Bolt on installation
- Standard DV8 Warranty

*Weight: 50lbs

JK

2007 – 2017 Jeep Wranglers

- Material: Aluminum
- Raw or Powder Coated Black
- Easy installation, NO modifications needed, Hardware included

DV8 Off Road Aluminum inner fenders are designed to reveal your engine compartment when using after market fenders. Clean up your inner fender and provide better air flow where it counts. DV8 Inner fenders are available in raw aluminum or powder coated black.

Hinged Rear Window with Gas Shock Assist

JK

TIRE CARRIERS 2007 – 2017 Jeep Wranglers

*Product dimensions and weights are approximate

- Bolt on Tire Carrier accepts up to a 42" Tire
- .120 wall tubing to increase strength
- Will accept any bolt pattern
- High Quality Bushings for a quiet ride
- Removable plates make color matching easy
- Comes with License plate mount
- Some Drilling Required for Installation

The DV8 body mounted tire carrier provides a high clearance tire mounting solution that is all about function. This carrier can be run with ANY aftermarket bumper for the JK. Holds the tire tighter to the body for better departure angles. Will fit any bolt pattern wheel. Includes a license plate relocation bracket and a cover for the old license plate mount.

*Dim: n/a
*Weight: 75lbs

TC-1

TC-6 Tire Carrier

The TC-6 is a tire carrier that extends from the bumper (RS-10 & RS-11) to the Jeep's rear tailgate. Much like the DV8 RS-2 it opens along with the tailgate in 1 simple step. This carrier is designed to bolt onto your existing RS-10 or 11 bumper. It has a multitude of mounting points so that you can mount your hi-lift jack, gas and water cans, or whatever else you like to bring with you.

TC-6

*Dim: n/a
*Weight: 50lbs

JK

ROCK RUNNER KIT 2007 – 2017 Jeep Wranglers

- 3.5" lift kit, clears 35" tires, easy bolt on installation
- Vehicle specific spring rates, Stock drive line compatible
- Front & rear track bars - heim jointed chromoly track bars
- 4 patent pending DV8 progressive Rate coil springs
- Extended sway bar endlinks, Extended brake lines
- Includes 4 Monotube Rock Shocks

DV8 Rock Runner Kit with front & rear track bars 4 DV8 Nitro Monotube shocks, 4 dual rate coil springs, extended sway bar endlinks, extended brake lines included.

ROCK ROLLER KIT 2007 – 2017 Jeep Wranglers

- 2.5" lift kit, clears 35" tires, easy bolt on installation
- Vehicle specific spring rates, Stock drive line compatible
- Front & rear track bar brackets
- 4 patent pending DV8 progressive Rate coil springs, Alignment washers
- Extended sway bar endlinks, Extended brake lines, Bump stop extensions
- Option: DV8 base 2" monotube shocks

The DV8 off road rock roller 2.5" lift kit was designed for those who want to gain additional ground clearance and accommodate 35" tires without compromising the factory ride. We accomplished this with longer springs and all of the necessary components to correct the suspension geometry for the lift. Add our unique shock extension kit or a set of dv8 monotube shocks for increased articulation and a completely dialed in ride.

SHOCK EXTENSION KIT

Add our shock extension kit! Properly positions factory length shocks to work with a 2.5" lift. Unique 1/4" brackets sandwich the factory mounts for more rigidity & less chance of bending compared to the competition. Hand milled billet aluminum rear extensions.

JK

NITRO MONOTUBE ROCK SHOCKS 2007 - 2017

- 2" Diameter Shock Body
- Kit comes with 4 shocks
- Shock Valving is JK Specific

Simply put, the thing that makes our monotube shocks stand out from the crowd is their size. Having a thicker body allows us to put more fluid into the shock which in turn results in better performance for longer.

Internal bump stops protect your shocks and suspension at full flex.

Finally, when a customer orders one of our lift kits we provide mono-tube shocks that are designed for that specific kit. The result is perfect harmony between ride quality and off road performance.

JK

BUSHING STYLE TRACK BARS 2007 - 2017

- Fully adjustable for a perfectly aligned ride
- Over double the diameter of the factory track bars at 1.5 inches (Front)-- 1.25 inch (Rear)
- Thick .375 wall DOM Steel Tubing (Front) and .250 Wall DOM Steel Tubing (Rear) Zinc Plated and Powder coated for corrosion resistance.
- Maintains the correct geometry with lift for better handling
- Can accommodate from 1-6 inches of suspension lift
- Quiet ride high flex rubber bushings

DV8 is proud to introduce our bushing style adjustable track-bars, newest addition to the DV8 suspension line.

Note: Not Compatible With Frame Mounted Trackbar Drop Brackets

JK

BUMP STOPS 2007 - 2017

- Installs easily into the factory JK coil bucket
- Completely serviceable and rebuildable
- Valved perfectly for Jeep JK
- Locking Rings lock against each other for firm mounting
- Fully adjustable for different lift heights and tire sizes
- Comes with complete install instructions
- Sold in pairs

DV8 Threaded Body 2.0 Bump Stop with 2.5" Stroke. These heavy duty bump stops install directly into the JK coil bucket and prevent the suspension from bottoming out through the last few inches of travel.

Whether dropping off of a rock ledge or hitting the whoops, the factory bump stops can not effectively keep up with the force that is being exerted on them. Our bump stops control the last few inches of travel and provide additional dampening where it is most needed.

DV8 Bump Stops will help to save you and your Jeep from harshly bottoming out and allow for a more comfortable ride as you push your rig to its limits.

BUMPERS

OFF ROAD TRUCK SERIES

TB

DV8 Off Road truck bumpers are built with abuse in mind

DV8 bumpers are tested and proven in the desert, heavy off road recovery, and utility. All of our front bumpers accommodate a 12,500lb winch, come with 7/8" D-ring shackles, and have holes for LED lighting. Our rear bumpers come with 7/8" D-ring shackles, will work with your factory hitch receiver, and have holes for LED lighting.

DV8 bumpers are made from 3/16 cold rolled steel with 1/4" + gusseting and mounting points. Every DV8 truck bumper comes with DV8's exclusive wrinkled 20 step powder coat. This finish looks great, is extremely durable, and is highly UV resistant. DV8 bumpers are 100% bolt on and include DV8's 2 year warranty against manufacturer defects. When you're tired of banging up your trucks thin fragile factory bumpers, DV8 has you covered.
