WHY CHOOSE US?

Born in Southern California, DV8 Off Road understands Jeeps and the importance of creating a product that stands the test of time on and off the trail. We build durable and long lasting parts that compliment the natural lines of a Jeep. We also understand that along with style, Jeep enthusiasts need functional and reliable equipment that protects their investment. This is why we test all of our products on our red Rubicon before releasing them to the public. This vehicle is used as a daily driver and a trail vehicle. Our staff enjoys taking the DV8 Jeep to its limits on some of most extreme trails in the country. This is to ensure that we are providing high quality accessories that are just as amazing as the Jeep itself.

OUR TEAM

Our team is made up of men and women who embody the Jeep lifestyle. They are outgoing, active and willing to DV8 from the beaten path. This passion goes towards creating and delivering the best products available to the off road community. Because of this, we are proud to stand behind all of our products. For DV8 Off Road, having a jeep is not just a way to get around, it's an expression of who you are.

BS-50

LED Projector Headlights

LED projector headlights are a huge upgrade from stock JK headlights in both brightness and style. They use advanced optical technology to make the most of the LED lights that are housed within them.

HL-1

HL-2 w/Halo

LED Tail Lights

Off road LED Tail Lights are just the thing to set your Jeep apart from the others and are great to replace lights that have been damaged out on the trail.

TL-1

TL-2

LED Mirror Housing

The Off road LED mirror housing allows drivers to have a wider range of visibility. LEDs are angled slightly outward from center to promote a better field of view. The mirror also works as a turn signal to replace the factory fender signals when moving to after market fenders.

BC-M

Fog Lights

Lights are sized to be a direct factory replacement and will work in place of the factory fog lights in any application.

R4-FL

LED Cube and Rock Lights

Optical Technology and cutting edge design delivers unparalleled light output. These small rock lights deliver light right where you need it.

JK	2ND Gen Flat Fenders
2007-2017	(4) Flat Fenders w/ thick tubing and rigid steel plating
	4 Rubber guards to keep the fenders from rubbing on the Jeep's body
	Stainless steel mounting hardware
	Black powder coating
Easy installation, NO modifications needed, Hardware included	

DV8 Off road Flat Fenders provide more tire clearance and more ability to flex. They come with internal bracing to ensure strength and durability. Our fenders come in a satin black powder coating and can be painted to match or left as is.

DV8 Flat Fenders line up perfectly with the JK body lines and installation is extremely simple with precision cut holes to match the factory fender holes. DV8 fenders also come with our exclusive turn signal mounting bracket that can

be used to mount an after market turn signal light. Ditch the factory plastic fenders that leave your JK vulnerable to expensive body damage and upgrade to DV8 steel fenders.

FENDB-02

JK	Inner Fenders
2007-2017	Material: Aluminum
	Raw or Powder Coated Black
	Easy installation, NO modifications needed, Hardware included

DV8 Off Road Aluminum inner fenders are designed to reseal your engine compartment when using after market fenders, clean up your inner fender, and provide better air flow where it counts. DV8 Inner fenders are available in raw aluminum or powder coated black.

OFFROAD

HOOD LIGHT BAR MOUNT

Mounts over hood hinges for a low profile off road lighting solution. Easy installation with no drilling required. Fits 2007-2017 Jeep Wranglers

HOOD HINGE LIGHT BAR MOUNT

Mounts behind hood hinges for a low profile off road lighting solution. Will fit 30" light bars and longer with bottom mounts. Fits 2007-2017 Jeep Wranglers. Easy Installation with no drilling

WINDSHIELD LIGHT BAR MOUNT

Compatible with end mounted or bottom mounted 50" LED Light Bars. Padded Mounts to protect painted surfaces. Easy Installation with no drilling required. Fits 2007-2017 Jeep Wranglers

WINDSHIELD LIGHTING MOUNT

Easy installation using factory windshield bracket bolts. Fits 2007-2017 Jeep Wranglers

DV8 TRAMP STAMP

Steel Construction with vented grill. Fits 2007-2017 Jeep Wranglers

ROTOPAX MOUNT

Fits all DV8 tire carriers. Easy Installation

JK

Product Description

2007-2017	Easy, bolt on installation	Steps extend lower than any other product on the market
	Wireless control module	Fast acting, with no delay when door is opened
	High clearance motor location	Front and rear doors will activate the step
	Light weight aluminum construction	Easy wiring for faster install times
	Completely adjustable for a clean fit with any fenders	Designed specifically for the Jeep JK

Electric Steps were designed to complement the lines of the JK Wrangler and act as a functional electric step. With our wireless control module, the difficult time consuming task of splicing into factory wiring harnesses is a thing of the past.

ELECTRIC STEP

Note: 2 Door and 4 Door models available

JK	Rock Roller 2.5" Lift Kit
2007-2017	2.5" Lift kit
	Clears 35" tires
	Easy Bolt on Installation
	Vehicle Specific Spring Rates
	Stock drive line compatible
	4 Patent Pending DV8 Progressive Rate Coil Springs
	Extended Sway Bar Endlinks
	Extended Brake Lines
	Bump stop Extensions
	Alignment Washers
Options: DV8 Monotube Shocks	
Options: DV8 Shock Extension kit	

The DV8 off road rock roller 2.5" lift kit was designed for those who want to gain additional ground clearance and accommodate 35" tires without compromising the factory ride. We accomplished this with longer springs and all of the necessary components to correct the suspension geometry for the lift. Add our unique shock extension kit or a set of dv8 monotube shocks for increased articulation and a completely dialed in ride.

DV8 Rock Roller 2.5" Kit

Shock Extension Kit

Add our shock extension kit! Properly positions factory length shocks to work with a 2.5" lift. Unique 1/4" brackets sandwich the factory mounts for more rigidity & less chance of bending compared to the competition. Hand milled billet aluminum rear extensions.

JK	Nitro Monotube Shocks
2007-2017	2" Diameter Shock Body
	Kit comes with 4 shocks
	Shock Valving is JK Specific

Simply put, the thing that makes our mono-tube shocks stand out from the crowd is their size. Having a thicker body allows us to put more fluid into the shock which in turn results in better performance for longer.

Another thing that makes our shock better is that it contains an internal bump stop so that at full flex the seals of the shock are not being damaged.

Finally, when a customer orders one of our lift kits we provide monotube shocks that are designed for that specific kit. The result is perfect harmony between the shock and the jeeps ability to flex.

JK	Bushing Style Track Bars
2007-2017	Fully adjustable for a perfectly aligned ride
	Over double the diameter of the factory track bars at 1.5 inches (Front)-- 1.25 inch (Rear)
	Thick .375 wall DOM Steel Tubing (Front) and .250 Wall DOM Steel Tubing (Rear)
	Maintains the correct geometry with lift for better handling
	Can accommodate from 1-6 inches of suspension lift
	DOM Steel tubing
	Quiet ride high flex rubber bushings
Zinc Plated and Powder coated for corrosion resistance	

DV8 Off Road truck bumpers are built with abuse in mind. DV8 bumpers are tested and proven in the desert, heavy off road recovery, and utility. All of our front bumpers accommodate a 12,500lb winch, come with 7/8" D-ring shackles, and have holes for LED lighting. Our rear bumpers come with 7/8" D-ring shackles, will work with your factory hitch receiver, and have holes for LED lighting.

DV8 bumpers are made from 3/16 cold rolled steel with ¼"+ gusseting and mounting points. Every DV8 truck bumper comes with DV8's exclusive wrinkled 20 step powder coat. This finish looks great, is extremely durable, and is highly UV resistant. DV8 bumpers are 100% bolt on and include DV8's 2 year warranty against manufacturer defects. When you're tired of banging up your trucks thin fragile factory bumpers, DV8 has you covered.
