**2020**

**35** YEARS  
**EV**S

**PROTECTING  
CHAMPIONS**

**35 years ago**, EVS Sports began with an idea that would revolutionize protection in the sport of motorcycling. Ever since the first motocross specific knee brace all those years ago, EVS has evolved and transformed into becoming the leader in innovation and technology in the protection industry; EVS now offers a full line of knee braces, helmets, neck braces, roost deflectors and a host of other protective gear products made for almost any activity imaginable.

Whether your passion is motocross, street riding, hitting the trails or if you just love twisting the throttle, EVS has been happy to protect all of you while you do what you love and will continue to do so for years to come. Dirt, snow or asphalt, the EVS team has the same love affair with powersports you've grown up with and we've spent our lives making sure you're protected and prepared for any obstacle that comes your way #WeAreProtection

# KNEE BRACES

Ben Lamay | Southwick National | Web Pro, Fusion Socks, TUG

# AXIS PRO

A knee brace is designed to prevent potential injuries, both new and reoccurring, while providing stability and strength to the knee and leg. They also limit lateral torsion and hyperextension and in the event of a crash will provide impact protection.

## HELP PREVENT HYPEREXTENSION

## HELP PREVENT TWISTED KNEE

### 1 HYBRID CARBON FIBER FRAME

Hybrid carbon fiber and aluminum construction creates an incredibly strong frame while simultaneously offering a rigid and lightweight brace.

### 2 DUAL DEFENSE KNEE CUPS

Two interactive knee cups slide with your knee's flexion and extension to provide full coverage knee protection.

### 3 COMFORT CUFF

This neoprene compression cuff is designed to wrap around your calf, limiting lower leg migration.

### TRU-MOTION 2.0 HINGE

The hinge mimics knee movement giving the rider a natural feel while riding.

### 4 SHARK SKIN LINER

This antimicrobial liner provides a soft cushion of support and textured surface to limit migration.

### MAX EXTENSION LOCKOUT 30

To accommodate a wide variety of knees and riding styles you're able to adjust the max extension lockout from 0°-30°.

# AXIS PRO

The Axis Pro Knee Brace features a combination of aluminum and carbon fiber in its frame construction. The aluminum hinge design allows for a low-profile structure resulting in a comfortable, fluid, lightweight and rigid brace.

- ▶ **Aluminum Carbon Fusion Frame** - An aluminum lower frame fuses to a carbon fiber upper cuff, allowing for a lightweight and incredibly strong knee brace.
- ▶ **Stretch Fit Strap** - Stretch Fit technology is an elastic material that expands and compresses providing a comfortable and secure fit.
- ▶ **Dual Defense Knee Cups** - Two interactive knee cups slide with your knees flexion and extension to provide full coverage knee protection.
- ▶ **Hyperextension Lockout 30** - A hinge component designed to prevent hyperextension, the most common knee injury in action sports. To accommodate a variety of knees and riding styles, you're able to adjust the hyperextension lockout from zero to thirty degrees.
- ▶ **Comfort Cuff** - This neoprene compression cuff is designed to wrap around your calf to limit knee brace migration.
- ▶ **5 Point Strap** - A five-point strapping system is used to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ **Shark Skin Liner** - This antimicrobial liner provides a soft cushion support and textured surface to limit knee brace migration.
- ▶ **Tru-Motion 2.0 Hinge** - The hinge mimics knee movement giving the rider a more natural stance.
- ▶ Sizes: S, M, L, XL

# WEB PRO

The Web Pro Knee Brace was designed to be smaller, lighter and stronger than the original Web Knee Brace. Our patented Tru-Motion Hinges anatomically mimic the natural motion of the human knee for increased comfort and connectivity to your bike.

- ▶ **Twin Wall Carbon Fiber Frame** - The Web Pro consists of a composite material fully encased in a thick shell of carbon fiber designed to be strong enough to endure significant amounts of force and torsion.
- ▶ **Stretch Fit Strap** - Stretch Fit technology is an elastic material that expands and compresses providing a comfortable and secure fit.
- ▶ **Dual Defense Knee Cups** - Two interactive knee cups slide with your knee's flexion and extension to provide full coverage knee protection.
- ▶ **Dual Alloy Tru-Motion 3.0 Hinge** - The Tru-Motion hinge mimics knee movement giving the rider a more natural stance. To endure significant amounts of force the hinge is attached using a two-layer composite of carbon fiber and aluminum.
- ▶ **Hyperextension Lockout 30** - A hinge component designed to prevent hyperextension, the most common knee injury in action sports. To accommodate a variety of knees and riding styles, you're able to adjust the hyperextension lockout from zero to thirty degrees.
- ▶ **Comfort Cuff** - This neoprene compression cuff is designed to wrap around your calf to limit knee brace migration.
- ▶ **5 Point Strap** - A five-point strapping system is used to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ **Shark Skin Liner** - This antimicrobial liner provides a soft cushion support and textured surface to limit knee brace migration.
- ▶ Sizes: S, M, L, XL

# AXIS SPORT

The Axis Sport utilizes lightweight nylon injected upper and lower cuffs providing optimal comfort and flexibility. The Axis Sport is a favorite among both professional and recreational riders.

- ▶ **Form Fit Frame** - Built from our proprietary Polyfusion composite, the Form Fit Frame provides a rigid base without limiting flexion. The Form Fit Frame bends to the contours of the rider's thigh, allowing for a comfortable fit with dependable strength.
- ▶ **Stretch Fit Strap** - Stretch Fit technology is an elastic material that expands and compresses providing a comfortable and secure fit.
- ▶ **Dual Defense Knee Cups** - Two interactive knee cups slide with your knees flexion and extension to provide full coverage knee protection.
- ▶ **Hyperextension Lockout 30** - A hinge component designed to prevent hyperextension, the most common knee injury in action sports. To accommodate a variety of knees and riding styles, you're able to adjust the hyperextension lockout from zero to thirty degrees.
- ▶ **Comfort Cuff** - This neoprene compression cuff is designed to wrap around your calf to limit knee brace migration.
- ▶ **5 Point Strap** - A five-point strapping system is used to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ **Shark Skin Liner** - This antimicrobial liner provides a soft cushion support and textured surface to limit knee brace migration.
- ▶ **Tru-Motion 2.0 Hinge** - The hinge mimics knee movement giving the rider a more natural stance.
- ▶ Sizes: S, M, L, XL

# RS9

The RS9 offers comfort and protection. The knee brace is constructed with a lightweight, impact resistant, injection molded shell. Venting provides increased airflow for added comfort.

- ▶ **Click Tech Buckle** - The Click Tech Buckle utilizes a quick release attachment system allowing for an easy gear up and gear down.
- ▶ **Dual Defense Knee Cups** - Two interactive knee cups slide with your knees flexion and extension to provide full coverage knee protection.
- ▶ **Hyperextension Lockout 30** - A hinge component designed to prevent hyperextension, the most common knee injury in action sports. To accommodate a variety of knees and riding styles, you're able to adjust the hyperextension lockout from zero to thirty degrees.
- ▶ **Tru-Motion 2.0 Hinge** - The hinge mimics knee movement giving the rider a more natural stance.
- ▶ **Form Fit Frame** - Built from our proprietary Polyfusion composite, the Form Fit Frame provides a rigid base without limiting flexion. The Form Fit Frame bends to the contours of the rider's thigh, allowing for a comfortable fit with dependable strength.
- ▶ **Flow Vents** - Exterior venting provides additional air circulation for added comfort.
- ▶ Sizes: S, M, L, XL

## SX01 [NEW]

The SX01 offers compression and support in a soft, form fitting pull-on brace. Bilateral polycentric hinges offer strength and prevent hyperextension.

- ▶ **Airprene Construction** - Designed as orthopedic support for athletes to aid in performance or rehab.
- ▶ **PolyCentric Hinge** - The PolyCentric hinge features strategically designed pivot points to provide a more accurate approximation of knee movement, providing the rider with a more natural feel while riding.
- ▶ **Single Hyperextension Lockout** - This is a component in the hinge designed to prevent hyperextension, the most common knee injury in action sports.
- ▶ **Removable Knee Cups** - Impact armor cups are removable and provide dual usage in performance riding and recovery.
- ▶ **Moisture Wicking Bio Foam Liner** - This antimicrobial liner provides soft cushion-like support.
- ▶ **Dual Nylon Strap System** - The SX01 uses a two-point nylon strapping system to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ Sizes: S, M, L, XL
- ▶ Sold individually

## SX02 [NEW]

The SX02 offers compression and support in a soft, form fitting pull-on brace. Fully adjustable bilateral polycentric hinges offer strength and limit hyperextension.

- ▶ **PolyCentric Hinge** - The PolyCentric hinge features strategically designed pivot points to provide a more accurate approximation of knee movement, providing the rider with a more natural feel while riding.
- ▶ **Airprene Construction** - Designed as orthopedic support for athletes to aid in performance or rehab.
- ▶ **Removable Knee Cups** - Impact armor cups are removable and provide dual usage in performance riding and recovery.
- ▶ **Moisture Wicking Bio Foam Liner** - This antimicrobial liner provides soft cushion-like support.
- ▶ **3 Point Nylon Strap** - The SX02 uses a three-point nylon strapping system to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ Sizes: S, M, L, XL
- ▶ Sold individually

# KNEE & ELBOW PROTECTION

# TP 199

Designed specifically for Travis Pastrana, the TP199 Knee Pad is for those looking for knee support and stability without wearing a true knee brace.

## REACTIVE MEMORY FOAM

## A SUPERIOR FIT

### 1 REACTIVE MEMORY FOAM

The RMF knee cup is soft and pliable at its natural state. When impact force is applied it instantly hardens to meet the force being applied against it, allowing a comfortable ride without sacrificing protection.

RMF KNEE CUP

### 2 SHIN GUARD

The shin guard extends protection down the front of the leg. Designed to fit inside the boot, the shin guard also helps keep the pad in the correct position.

### 3 FLOATING INNER SLEEVE

The floating inner sleeve of the TP199 keeps it in place and prevents migration while you ride. Additionally, the sleeve features impact gel inserts for added comfort and protection.

# TP199

Designed specifically for Travis Pastrana, the TP199 Knee Pad is for those looking for knee support and stability without wearing a true knee brace. They are perfect for both track and off-road riders.

- ▶ **Air Mesh** - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight.
- ▶ **RMF** - Reactive Memory Foam is soft and pliable in its natural state but hardens when force is applied to it, providing a protective barrier.
- ▶ **Polyflex Shin Guard** - A form fitting polymer material provides added protection to the shins.
- ▶ **KS199 Knee Sleeve** - An inner sleeve provides the knee additional support and stability.

Air Mesh

Reactive Memory Foam

Trac Grip

Polyflex Shin Guard

- ▶ **Trac Grip** - Sticky silicone grippers are strategically placed in key positions to help hold the Knee Pad in place, limiting uncomfortable pad migration.
- ▶ **Rhyno Skin** - Made from durable performance stretch fabric. Ultra-high abrasion resistant designed to withstand consistent impacts
- ▶ Molded bio-foam upper for increased impact protection
- ▶ Sold in pairs
- ▶ Sizes: S/M, L/XL

# TP199 LITE

The TP199 Lite features a shorter overall profile than the TP199, making it ideal for MX, Off-Road, BMX and MTB usage. The molded bio-foam upper offers increased impact protection while the inner circular comfort gel knee donut limits migration. The fully breathable mesh backing provides temperature control for a cool ride.

- ▶ **Air Mesh** - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight.
- ▶ **RMF** - Reactive Memory Foam is soft and pliable in its natural state but hardens when force is applied to it, providing a protective barrier.
- ▶ **Trac Grip** - Sticky silicone grippers are strategically placed in key positions to help hold the Knee Pad in place, limiting uncomfortable pad migration.

Trac Grip

- ▶ Molded bio-foam upper for increased impact protection.
- ▶ Sold in pairs
- ▶ Sizes: S/M, L/XL

# OPTION AIR

## KNEE PAD

The Option Air provides ultra-lightweight protection with maximum airflow to combat excess heat.

- ▶ **Impact Shield** - High-impact tested polymer provides superior protection against debris and collisions.
- ▶ **Flyte Liner** - A grid of impact dampening pads lifts the protective gear off the skin, allowing for increased air flow.
- ▶ **Trac Grip** - Sticky silicone grippers are strategically placed in key positions to help hold the Elbow Pad in place, limiting uncomfortable pad migration.
- ▶ Size: Adult
- ▶ Sold in pairs

# OPTION

## KNEEPAD

The best-selling and cost conscientious knee pad of choice.

- ▶ Hard molded polypropylene shell
- ▶ Perforated bio-foam liner for increased breathability
- ▶ Full knee to shin coverage
- ▶ Reinforced TPR hinge system
- ▶ Asymmetric design provides anatomical fit for left and right leg
- ▶ Sold in pairs
- ▶ Sizes: Adult

Hi-Viz

# OPTION

## ELBOW PAD

Proven elbow protection at a great price point.

- ▶ Hard molded polypropylene shell
- ▶ Perforated bio-foam liner for increased breathability
- ▶ Tri-Y forearm strapping system provides increased support and reduces migration
- ▶ Extended forearm protection pad
- ▶ Asymmetric design provides anatomical fit for left & right arms
- ▶ Sold in pairs
- ▶ Sizes: Adult

Hi-Viz

## EPIC [NEW] KNEEPAD

The Epic Knee Pad uses design elements from our high-end knee brace technology, offering complete shin and patella coverage. The Epic Knee Pad is a hybrid between a knee brace and the traditional knee pad.

- ▶ **Form Fit Frame** - Built from our proprietary Polyfusion composite, the Form Fit Frame provides a rigid base without limiting flexion. The Form Fit Frame bends to the contours of the rider's thigh, allowing for a comfortable fit with dependable strength.
- ▶ Floating patella system for full coverage protection
- ▶ Asymmetrical Form Fit chassis & full flex hinge system
- ▶ Plush, contour, molded bio-foam liner
- ▶ Quick release positive locking buckles
- ▶ Fully adjustable dry-suede straps
- ▶ Sold in pairs
- ▶ Sizes: S/M, L/XL

## EPIC [NEW] ELBOW PAD

The Epic Elbow Pad offers breathable elbow and forearm protection in a lightweight pad.

- ▶ Flex enhances comfort and protection between forearm and elbow
- ▶ Active compression sleeve reduces arm pump
- ▶ Silicone grip cuff reduces migration
- ▶ Sold in pairs
- ▶ Sizes: S/M, L/XL

## GLIDER

### KNEE PAD

- ▶ High-impact polyethylene knee cup sits on a flexible membrane
- ▶ Soft neoprene interior liner
- ▶ TPR migration limiters keep the cup where you need it during impacts
- ▶ Perforated soft neoprene inner layer offers maximum ventilation
- ▶ Sold in pairs
- ▶ Sold in Sizes: S, M, L

## GLIDER LITE

### KNEE PAD

- ▶ Semi-flexible outside shell sits on a flexible membrane
- ▶ Comprised of TPR impact pad & molded bio-foam
- ▶ TPR migration limiters keep the shell where you need it during impact
- ▶ Perforated soft airprene inner layer for maximum ventilation
- ▶ Sold in pairs
- ▶ Sizes: S, M, L

## GLIDER

### ELBOW PAD

- ▶ High-impact polyethylene elbow cup sits on a flexible membrane
- ▶ Soft neoprene interior liner
- ▶ TPR migration limiters keep the cup where you need it during impacts
- ▶ Perforated soft neoprene inner layer for maximum ventilation
- ▶ Sold in pairs
- ▶ Sizes: S, M, L

## GLIDER LITE

### ELBOW PAD

- ▶ Semi-flexible outside shell sits on a flexible membrane
- ▶ Comprised of TPR impact pad & molded bio-foam
- ▶ TPR migration limiters keep the shell where you need it during impact
- ▶ Perforated soft airprene inner layer for maximum ventilation
- ▶ Sold in pairs
- ▶ Sizes: S, M, L

# HELMETS

Pinner | Hi-Viz

## T5 HELMET

- ▶ Dual density EPS impact liner provides superior impact force dissipation
- ▶ Compression gasket integrates with race collar/neck brace
- ▶ Proprietary engineered polycarbonate impact shell
- ▶ Max Flow air intake/exhaust system provides increased ventilation and comfort
- ▶ Removable, washable, moisture wicking, anti-microbial liner
- ▶ Eject system compatible
- ▶ Lightweight protection at 1350 grams
- ▶ DOT and ECE certified
- ▶ Sizes: XS, S, M, L, XL, XXL

### EJECT SYSTEM COMPATIBLE

Eject® is a small air bladder that fits easily into our Eject® compatible T5 Helmet. It's specially designed for first responder units to remove a helmet when neck and spine injuries are suspected.

Our T5 Helmets exceed the U.S. Department of Transportation (DOT) Federal Motor Vehicle Safety Standard (FMVSS) 218 as well as Economic Commission for Europe safety standard ECE 22.05

# ROOST DEFLECTORS

Henry Miller | Washougal National | Revo 4, Axis Pro, Fusion Socks

# F2

Getting hit in the chest by a rock flung from the back tire of the rider you are chasing will hurt. For this reason, Roost Deflectors are a necessary part of every riders gear set.

## PIVOT SYSTEM

## ROOST DEFLECTION

## 1 RACE COLLAR COMPATIBLE

Built with Race Collar compatibility in mind, the F2 is designed to fit the shape of a race collar. In addition, loop straps on either shoulder negate the need for an additional X-Strap to hold a Race Collar in place.

## 2 PIVOT SYSTEM

The Pivot System attaches the front plate of the Roost Deflector to the side pieces with a pivot bolt. This allows the Roost Deflector to move with the rider as he or she leans left or right, allowing for a comfortable, snug fit.

## 4 FLYTE LINER

A grid of impact dampening pads lift the F2 off the skin, allowing for increased air flow.

## 3 FLOW VENTS

Exterior air vents provide additional air circulation.

Black

## F2

- ▶ **Flow Vents** - Exterior venting provides additional air circulation.
- ▶ **Modularity** - A modular design allows for different configurations depending on the user's preferences.
- ▶ **Pivot System** - The two-piece chest plate articulates with the rider's lateral lean to provide enhanced fluid movement and a comfortable, snug fit.
- ▶ **Impact Shield** - High-impact tested polymer provides superior protection against debris and collisions.
- ▶ **Flyte Liner** - A grid of impact dampening pads lifts the protective gear off the skin, allowing for increased air flow.
- ▶ Lightweight, ventilated, high-impact polypropylene construction.
- ▶ Fully adjustable design to comfortably fit a wide range of riders.
- ▶ Wrap-around body and rib coverage.
- ▶ Meets CE 1402-1 standards for roost deflection.
- ▶ Meets CE 1621-1 standards for back impact protection.
- ▶ Sizes: S, M, L, XL

- ▶ **Anti-Chafe Layer** - This product is designed to fit between you and your protective gear. It assists in preventing safety equipment, such as a Knee Brace, from rubbing against your skin and causing discomfort
- ▶ Soft elastic waistband
- ▶ Removable impact-foam tailbone pad
- ▶ Minimum seams to reduce pressure points.
- ▶ Sizes: S, M, L, XL, XXL

Anti-Chafe Layer

Moisture Wicking

4-Way Stretch

# CTR VEST

- ▶ **4-Way Stretch** - Allows for a degree of stretch in all four directions, providing improved comfort for the user.
- ▶ **Air Mesh** - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight
- ▶ **Moisture Wicking** - Moisture wicking material pulls water off the skin allowing you to stay dry and comfortable while riding
- ▶ **Anti-Chafe Layer** - This product is designed to fit between you and your protective gear. It assists in preventing safety equipment, such as a Knee Brace or Roost Guard, from rubbing against your skin and causing discomfort
- ▶ **Cold Touch Fabric** - Submerge the CTR Vest in water to activate the cold-capture molecules. This will reduce the fabric temperature up to 30 degrees, keeping the rider cool for several laps on the track
- ▶ Sizes: S, M, L, XL, XXL

# MX SOCKS

The fusion sock is a favorite of many riders and it's easy to see why. Vented moisture wicking fabric and silicone knee brace grippers ensure that your ride is comfortable and chafe free.

Justin Starling | Daytona SX | Fusion Socks, Axis Sport

# THE PERFECT KNEE BRACE COMPANION

# FUSION SOCK

Trac Grip

Anti-Caffe Layer

Moisture Wicking

4-Way Stretch

- ▶ **Trac Grip** - Sticky silicone grippers are strategically placed in key positions to help hold a Knee Brace or Knee Pad in place, limiting uncomfortable brace migration
- ▶ **Anti-Caffe Layer** - Designed to fit between you and your protective gear, this feature prevents safety equipment, such as your Knee Brace, from rubbing against your skin and causing discomfort
- ▶ **Moisture Wicking** - Moisture wicking material pulls water off the skin allowing you to stay dry and comfortable while riding
- ▶ **4-Way Stretch** - Allows for a degree of stretch in all 4 directions, providing improved comfort for the user
- ▶ Reinforced heel and toe add durability
- ▶ Extends to lower thigh for added comfort under knee pad or brace
- ▶ Vented Lycra construction keeps you cool

# SUPPORT

We know you want to get back on the bike as soon as possible post injury. That's why our support gear is built to be worn while riding. Our braces provide compression while allowing a full range of motion, giving you the ability to recover on and off the track.

Kyle Peters | SB03, Revo 4, TUG, Fusion Socks

# AN INJURY IS A DETOUR-NOT A ROADBLOCK

## SBO2

- ▶ Provides compression and support and is ideal for a wide range of shoulder injuries.
- ▶ Adjustable arm closure design eliminates underarm chaffing
- ▶ Universal no snag design fits left and right shoulders
- ▶ Easy on / off design
- ▶ Breathable air mesh construction with TPR gripper pull-tabs
- ▶ Sizes: S, M, L, XL, XXL

## SBO3

- ▶ The X-Strap fits over the brace to provide additional compression support
- ▶ Designed for sports and activities to provide compression and support without limiting mobility
- ▶ Adjustable arm closure design eliminates underarm chaffing
- ▶ Universal no snag design fits left and right shoulders
- ▶ Easy on / off design
- ▶ Breathable air mesh construction with TPR gripper pull-tabs
- ▶ Sizes: S, M, L, XL, XXL

## SB04

- ▶ Designed for action sports to offer a layer of protection in addition to providing compression and support
- ▶ Heavy duty molded EVA shoulder cup with 1680D ballistic nylon
- ▶ Adjustable arm closure design eliminates underarm chaffing
- ▶ Universal no snag design fits left and right shoulders
- ▶ Easy on / off design
- ▶ Sizes: S, M, L, XL, XXL

## SB05

- ▶ Designed to provide compression and support to both shoulders and is ideal for sports and activities
- ▶ Adjustable arm closure design eliminates underarm chaffing
- ▶ Universal no snag design fits left and right shoulders
- ▶ Easy on / off design
- ▶ Breathable, perforated, hook and loop compatible, neoprene construction
- ▶ Sizes: S, M, L, XL, XXL

## BB1 CELTEK

- ▶ Reinforcehook and loop rspine panel
- ▶ Dual pull hook and loop adjustment system
- ▶ Channeled hex-foam for maximum ventilation and support
- ▶ Ergonomically designed to provide maximum support and mobility
- ▶ Improved low profile breathable construction.
- ▶ Perforated bio-foam core with TPR reinforcement providing lumbar support.
- ▶ Medical grade elastic provides superior compression.
- ▶ TPR grip waist-strap adjusters.
- ▶ Sizes: S, M, L, XL, XXL

## BB1 CELTEK AIR

- ▶ Lightweight, breathable construction.
- ▶ Perforated bio-foam main support with TPR reinforcement outriggers.
- ▶ Medical grade elastic provides superior compression.
- ▶ S, M, L, XL, XXL

## KS61

KNEE STABILIZER

- ▶ Reinforced compression sleeve with medial bilateral support straps
- ▶ Sold individually, fits left or right knee
- ▶ Provides compression for knee support & stability
- ▶ 3mm neoprene open patella design for comfort
- ▶ Slip-on design
- ▶ Sizes: S, M, L, XL, XX

## KS199

KNEE STABILIZER

- ▶ Provides compression for knee support and stability
- ▶ Fully breathable stretch-mesh backing
- ▶ Gel inserts support either side of the knee
- ▶ Anti-slip gripper elastic
- ▶ Sold individually, fits left or right knee
- ▶ Sizes: S/M, L/XL

## AB14

ANKLE STABILIZER

- ▶ Slip-on design
- ▶ Elastic strap for added ankle stability
- ▶ Sizes: S, M, L, XL
- ▶ Sold individually, fits left or right ankle

## AB07

ANKLE STABILIZER

- ▶ Slip on design with elastic hook and loop closure
- ▶ Full Ariaprene™ design that stabilizes the ankle with a breathable compression sleeve
- ▶ Articulated ankle flex inserts for added support and protection
- ▶ Dual webbing pull tabs for easy on and off
- ▶ Sizing: S, M, L, XL
- ▶ Sold individually, fits left or right ankle

## AS06

ANKLE SUPPORT

- ▶ Sold individually, fits left or right ankle
- ▶ Slip-on design
- ▶ Sizes: S, M, L, XL

## WS91

WRIST SUPPORT

- ▶ Wrap around design
- ▶ Size: One size fits most
- ▶ Sold individually, fits left or right wrist

## WB03

WRIST SUPPORT

- ▶ Sold individually
- ▶ Fits left or right wrist

## WB01

WRIST SUPPORT

- ▶ Dual-density plates add support while allowing full range of motion
- ▶ Sold individually, fits left or right wrist
- ▶ Size: One size fits most

## BANTAM [NEW]

Low profile articulating roost deflector provides maximum upper body protection.

- ▶ Bio-foam Construction – An impact absorption material designed for comfort and breathability
- ▶ TPR Shield – A durable, pliable material designed to protect the chest and back from debris and impacts.
- ▶ Fit – Form fitting material and adjustable elastic strap allows for maximum comfort and fit.
- ▶ Size: Youth S/M, L/XL

## SLAM COMBO

- ▶ Contains: Option Elbow Pads, Option Knee/Shin Pads, R2 Race Collar
- ▶ Sizes: Mini, Youth

## SLAM COMBO PLUS [NEW]

- ▶ Contains: Option Elbow Pads, Option Knee/Shin Pads, R2 Race Collar, and Bantam roost deflector
- ▶ Sizes: Mini, Youth

## R4

- ▶ **Cross Strap** - An elastic cross body strapping system holds the Race Collar securely in place.
- ▶ **Impact Shield** - High-impact tested polymer provides superior protection against debris and collisions.
- ▶ A Hi-tensile dual-density polyurethane core disperses impact energy
- ▶ Bio-foam liner provides extra comfort and impact absorption
- ▶ Lightweight and form fitting
- ▶ Rapid lock closure system for easy front entry
- ▶ Adjustable rear strut for a customized fit
- Sizes: Youth

CE

## R3

- ▶ Easily connects directly to most chest protectors
- ▶ Polyurethane core and ballistic nylon outer shell
- ▶ Easy front entry system
- ▶ Removable / washable liner

## SX01 [NEW]

### KNEE BRACE

- ▶ **Airprene Construction** - Designed as orthopedic support for athletes to aid in performance or rehab.
- ▶ **PolyCentric Hinge** - The PolyCentric hinge features strategically designed pivot points to provide a more accurate approximation of knee movement, providing the rider with a more natural feel while riding.
- ▶ **Single Hyperextension Lockout** - This is a component in the hinge designed to prevent hyperextension, the most common knee injury in action sports.
- ▶ **Removable Knee Cups** - Impact armor cups are removable provide dual usage in performance riding and recovery.
- ▶ **Moisture Wicking Bio Foam Liner** - This antimicrobial liner provides soft cushion-like support.
- ▶ **Dual Nylon Strap System** - The SX01 uses a two-point nylon strapping system to secure the knee brace firmly to your leg. Each strap is strategically placed and designed to function independently from each other.
- ▶ Sold individually
- ▶ Sizes: Youth

## TP199

### KNEE PAD

- ▶ **Air Mesh** - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight.
- ▶ **RMF** - Reactive Memory Foam is soft and pliable in its natural state but hardens when force is applied to it, providing a protective barrier.
- ▶ **Polyflex Shin Guard** - A form fitting polymer material provides added protection to the shins.
- ▶ **KS199 Knee Sleeve** - An inner sleeve provides the knee additional support and stability.
- ▶ **Trac Grip** - Sticky silicone grippers are strategically placed in key positions to help hold a Knee Pad in place, limiting uncomfortable brace migration.
- ▶ Molded bio-foam upper for increased impact protection
- ▶ Sold in pairs
- ▶ Sizes: Youth

## OPTION

### KNEE EPAD

The best-selling and cost conscientious knee pad of choice.

- ▶ Hard molded polypropylene shell
- ▶ Perforated bio-foam liner for increased breathability
- ▶ Full knee to shin coverage
- ▶ Reinforced TPR hinge system
- ▶ Asymmetric design provides anatomical fit for left and right leg
- ▶ Sold in pairs
- ▶ Sizes: Mini, Youth

## OPTION

### ELBOW PAD

Proven elbow protection at a great price point.

- ▶ Hard molded polypropylene shell
- ▶ Perforated bio-foam liner for increased breathability
- ▶ Tri-Y forearm strapping system provides increased support and reduces migration
- ▶ Extended forearm protection pad
- ▶ Asymmetric design provides anatomical fit for left & right arms
- ▶ Sold in pairs
- ▶ Sizes: Mini, Youth

## F2

- ▶ **Flow Vents** - Exterior venting provides additional air circulation.
- ▶ **Modularity** - A modular design allows for different configurations depending on the user's preferences.
- ▶ **Pivot System** - The two-piece chest plate articulates with the rider's lateral lean to provide enhanced fluid movement and a comfortable, snug fit.
- ▶ **Impact Shield** - High-impact tested polymer provides superior protection against debris and collisions.
- ▶ **Flyte Liner** - A grid of impact dampening pads lifts the protective gear off the skin, allowing for increased air flow.
- ▶ Lightweight, ventilated, high-impact polypropylene construction.
- ▶ Fully adjustable design to comfortably fit a wide range of riders.
- ▶ Wrap-around body and rib coverage.
- ▶ Meets CE 1402-1 standards for roost deflection.
- ▶ Meets CE 1621-1 standards for back impact protection.
- ▶ Sizes: Small

## VEX

- ▶ Lightweight, durable polycarbonate construction
- ▶ Ventilated design for maximum breathability
- ▶ Low profile, lightweight design
- ▶ Full chest and spine coverage
- ▶ Adjustable front and back panels
- ▶ Neck brace compatible
- ▶ Sizes: Small

## COMP SUIT

- ▶ **Flow Vents** - Exterior venting provides superior air circulation.
- ▶ **Impact Shield** - high-impact tested polymer provides superior protection against debris and collisions.
- ▶ **Removable Sleeves** (Adult sizes only) - On-the-fly removable sleeves provide versatility in varying climates.
- ▶ **Kidney Belt** (Adult sizes only) - Provides lower back support and added stability.
- ▶ **Side-zip design** allows for full roost protection
- ▶ **Hard plastic chest, back, arm and shoulder protection**
- ▶ **Full torso and elbow protection**
- ▶ **Full articulating spine protection that moves with you**
- ▶ **Lightweight ballistic fabric with mesh stretch panels** provide superior fit
- ▶ S, M, L

## BB1 CELTEK

- ▶ Reinforced lower spine panel
- ▶ Dual pull **hook and loop** adjustment system
- ▶ Channeled hex-foam for maximum ventilation and support
- ▶ Ergonomically designed to provide maximum support and mobility
- ▶ Improved low profile breathable construction.
- ▶ Perforated bio-foam core with TPR reinforcement providing lumbar support.
- ▶ Medical grade elastic provides superior compression.
- ▶ TPR grip waist-strap adjusters.
- ▶ Sizes: Small

## SHORT SLEEVE

- ▶ 4-Way Stretch - Allows for a degree of stretch in all four directions, providing improved comfort for the user.
- ▶ Air Mesh - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight.
- ▶ Moisture Wicking - Moisture wicking material pulls water off the skin allowing you to stay dry and comfortable while riding.
- ▶ Anti-Chafe Layer - This product is designed to fit between you and your protective gear. It assists in preventing safety equipment, such as a Roost Guard, from rubbing against your skin and causing discomfort.
- ▶ Sizes: M, L

## LONGSLEEVE

- ▶ 4-Way Stretch - Allows for a degree of stretch in all four directions, providing improved comfort for the user.
- ▶ Air Mesh - Perforated fabric allows air to flow unimpeded while still providing protection from abrasion and sunlight.

- ▶ Perforated leather panels increase airflow
- ▶ Removable Reactive Memory Foam elbow and shoulder pads
- ▶ Reflective black piping integrated into back and sleeve seams
- ▶ Insulated and quilted liner
- ▶ Reinforced elbow and shoulder panels
- ▶ Sizes: M, L, XL, XXL

# COMPTON

## TEXTILE JACKET

- ▶ Waxed cotton with inset genuine leather panels
- ▶ Removable Reactive Memory Foam elbow and shoulder pads
- ▶ Reflective black piping integrated into back and sleeve seams
- ▶ Sizes: M, L, XL, XXL

# COMPTON VEST

- ▶ Highly abrasion-resistant faux-leather
- ▶ Accordion stitched side flex panels
- ▶ Drop tail and over-jacket rider fit
- ▶ Insulated quilted liner
- ▶ Sizes: M, L, XL, XXL

## SV2 PRO TRAIL VEST

Explore with confidence while wearing the SV2 Pro Trail Vest. Constructed from ballistic nylon and high-density impact polymers, the SV2 is the perfect combination of comfort and protection.

- ▶ Durable ballistic nylon outer shell
- ▶ Puncture resistant panels with impact protection
- ▶ Internal armor plating provides lightweight, all-over protection
- ▶ Recco Rescue System
- ▶ Hi-Viz reflective overlays keep you visible in low-light conditions
- ▶ Built-in kidney belt for lower torso protection
- ▶ Removable fleece lined and water repellent collar
- ▶ Ignition kill tether attachment
- ▶ Sizes: XS/S, M/L, XL/XXL

## SV1 RACE VEST

The SV1 Race Vest is a race ready snow vest that covers all the bases. It's equipped with the RECCO Avalanche Rescue System and its modular design allows the shoulder and tail pads to be removed. The SV1 Race Vest conforms to all ISR racing guidelines.

- ▶ Hi-Viz materials meets racing requirements
- ▶ Durable ballistic nylon outer shell construction
- ▶ Embossed bio-foam exterior panels for increased roost and impact protection
- ▶ Recco Rescue System
- ▶ Adjustable / removable arm guards
- ▶ Adjustable / removable padded tail
- ▶ Ignition kill tether attachment
- ▶ Sizes: XS/S, M/L, XL/XXL

## SV1 TRAIL VEST

Explore in confidence with the SV1 Trail Vest. Constructed from ballistic nylon and high-density impact polymers.

- ▶ Durable ballistic nylon outer shell
- ▶ Puncture resistant armor with impact protection
- ▶ Hi-Viz reflective overlays keep you visible in low-light conditions
- ▶ Removable fleece lined and water repellent collar
- ▶ Ignition kill tether attachment
- ▶ Sizes: XS/S, M/L, XL/XXL

# YETI GLOVE

- ▶ Reinforced palm and thumb
- ▶ Fleece comfort liner
- ▶ Silicone fingers provide increased grip
- ▶ Water resistant Hypora® inner membrane
- ▶ Sizes: S, M, L, XL

BLACK

HI-VIZ YELLOW

ORANGE

# BREATH DEFLECTOR

A musthave for winter and cold weather conditions.

- ▶ Helps eliminate goggle fog.
- ▶ Secured in place through chin strap and hook and loop attachment.
- ▶ Molded nose for custom fit.
- ▶ Designed for the T5 Helmet (fits most helmets with minor modification)

## FREIGHTER BAG

- ▶ Ballistic nylon shell with reinforced stitching
- ▶ Engineered polyurethane high abrasion resistant base material
- ▶ Plenty of pockets and padding to protect your gear
- ▶ Fold out changing mat
- ▶ Large easy roll wheels
- ▶ 32" x 18" x 16"

## HELMET BAG

- ▶ Ballistic nylon shell with reinforced stitching
- ▶ Engineered polyurethane high abrasion resistant base material
- ▶ Boot leather duffel straps & grip handles
- ▶ Padded sides with reinforced bottom
- ▶ 16" x 11.5" x 12"

## VANTAGE DUFFEL BAG

- ▶ Ballistic nylon shell with reinforced stitching
- ▶ Engineered polyurethane high abrasion resistant base material
- ▶ Approx Size: 11" x 20" x 10"

## BACKPACK

- ▶ Ballistic nylon shell with reinforced stitching
- ▶ Built in padded laptop compartment
- ▶ Padded back and straps
- ▶ Lots of zippers & pockets plus a secret stash pocket
- ▶ Padded back & shoulder straps keep the bag in place
- ▶ 9" deep x 14" x 18"

## KNEEBRACE BAG

- ▶ Fits all types of knee braces
- ▶ Sized for one pair of knee braces
- ▶ 19" x 10" x 8"

## HELMET SLEEVE

- ▶ Designed for protecting your T5 or T3 Helmet

# TRACKSIDE

# SHOW YOUR EVS LOVE

## RACING CANOPY

- ▶ Clear-Span center provides increased headroom
- ▶ Heavy duty footpads for stakes
- ▶ Easy slide push pin for quick lock release
- ▶ High-Strength end caps for greater durability
- ▶ Reinforced fabric top corners provide greater durability
- ▶ Leg toggles provide three levels of height
- ▶ Includes: Canopy top, Frame and rolling bag.

## RAIN COAT [NEW]

- ▶ Waterproof 100% Nylon
- ▶ Lightweight, waterproof material provides water resistance with little weight
- ▶ Rain jacket funnel hood with drawstring
- ▶ Elastic cuffs help to keep clothes dry

## UMBRELLA [NEW]

- ▶ 60" Doubled layered nylon canopy
- ▶ Auto open feature

## PITBOARD

- ▶ Our pit boards are made of polyethylene making them extremely durable.
- ▶ 12" x 24" dry erase section that make communicating with your rider easy and effective.
- ▶ Comes with a dry erase pen.

## GRIP DONUTS

- ▶ Designed to soften thumb rub caused by a day of riding
- ▶ Reduces thumb shred
- ▶ Made from 3mm neoprene
- ▶ Colors: Black, Blue, Grey, Red, Yellow
- ▶ Sold in pairs

## APRON

- ▶ Great for grilling trackside
- ▶ 14 pockets to hold everything you need

## LANYARD [NEW]

- ▶ Flat polyester webbing lanyard
- ▶ Metal clasp

## KEYCHAIN

- ▶ Branded keychain is a perfect addition to any key ring.

## RACE BANNER

- ▶ 3 x 10 foot vinyl banner
- ▶ Durable vinyl material, for in or outdoor use
- ▶ Can be hung Vertical or horizontal
- ▶ Easily hang with optional grommets

## DRINK COOLER [NEW]

- ▶ Our branded drink cooler keeps drinks cold when its warm at the track

## 20 OZ TUMBLER

- ▶ Temperature retention for up to 24 hours
- ▶ No-sweat exterior
- ▶ Food grade stainless steel

## PRODUCT DISPLAYS

### FLOOR COMPOUND

- ▶ Large rolling floor display with modular options for hanging and displaying product
- ▶ 31" x 24" x 76"

### COMPOUND HOOKS

### KNEE BRACE DISPLAY

- Our knee brace display is designed exclusively to show case our AXIS, Web Pro & RS9 Knee Braces.
- ▶ Free standing or slatwall compatible
  - ▶ 14.5" x 19.5" x 12"

## MULTI PRODUCT DISPLAY

EVS Sports Multi-product floor display is perfect for displaying all of your EVS Motocross or Street products! Constructed out of lightweight corrugated cardboard, this display comes with 12 metal hooks that are adjustable, allowing for many different display options.

- ▶ Dimensions: 23.25" W, 20" D, 70.5" H
- ▶ 12 Metal Slatwall hooks
- ▶ Easy assembly instructions included

## FLOOR TUG DISPLAY

- ▶ Showcases entire TUG line
- ▶ Shipped flat with easy in store assembly
- ▶ Designed to fit as an end cap on standard retail aisles
- ▶ 4. 22" x 12" x 56"

## COUNTERTOP TUG DISPLAY

- ▶ Showcases select TUG products
- ▶ Shipped flat with easy in store assembly
- ▶ Designed for counter-top display
- ▶ 14" x 12" x 27"

## HELMET STAND

- ▶ Holds up to 16 helmets
- ▶ Powder coated black
- ▶ Adjustable revealing feet for support and stability
- ▶ Can be de-constructed for easy shipment
- ▶ Large sturdy base

# SLATWALL GRAPHICS & ACCESSORIES

## SLATWALL GRAPHICS

L	157-178 CM   5'2"-5'10"	49.9-81.6 KG   110-180 LBS
XL	178 CM +   5'10" +	81.6 KG +   180 LBS +

## HOW TO MEASURE

**HEAD**  
Lift your arms up to the side and have your friend wrap the measuring tape under your armpits. Lower it until the tape is wrapped around the widest part of your chest.

**CHEST**  
Using a cloth measuring tape, measure the circumference of your head at the point approximately one inch above the eyebrows in front, and at a point in the back of the head that results in the largest possible measurement.

**KNEE**  
Measure calf and thigh circumference 8" or 20cm above and below the center of knee

**HANDS**  
Measure the palm width around the widest point of your hand just below your knuckles. Then match that measurement to the appropriate glove size.

## HELMETS

T3 Youth

Size	Head Circumference
S	18.5-18.9"   47-48 CM
M	19.3-19.7"   49-50 CM
