COMPLETE GRAPHIC KITS

Custom Looks, No Paint!

With our years of experience as leaders in motocross graphics, we have applied that design and engineering into our line of Sport Bike graphic kits. All of our pre-cut full-coverage graphic kits are made with super-durable ultracurve vinyl and precision-cut to fit most late-model bikes. Most importantly, our graphics are easy to apply with no cutting, trimming or paint required. With many designs to choose from like our race inspired EV-R line or our aggressive and bold EV-X line, you'll find something to freshen up the look of your bike and make it the center of attention.

1 FENDERS

Front fender and fork guards decals protect the front from road debris / Rear Fender decals protect the tail section from foot wear of getting on/off

3 LOWER FAIRING

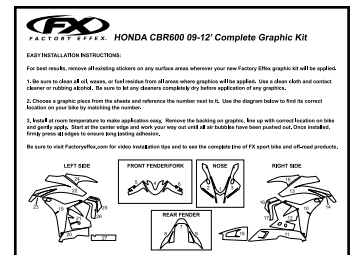

Protect your lower fairing and swingarm which takes the bulk of the wear and tear from road debris

2 SIDE FAIRING/TANK

OEM side fairing and tank decals scratch over time / Protect the complete side fairing & the partial side of tank while giving you that complete custom look

4 FRONT FAIRING

Protects and dresses up the nose area around the windscreen and headlights

WHAT'S INSIDE THE BOX?

Each complete graphic kit includes front, upper and lower fairing, front and rear fender, side of tank & swingarm decal pieces for both left and right sides of the bike. Each decal is precision-cut to go on easy with no cutting or trimming.

Also included is a detailed, application specific instruction sheet with prep and installation instructions. The kit comes on sheets which every component is numbered for easy reference. Using the number ID system, you can quickly identify each piece and understand where to install it on your bike. If you need further help with installation, please visit the Factory Effex website to view our installation videos.
