Quick
Strap

How many times have you wished you could quickly remove and replace your goggles with just one hand? Now with Quick Strap®, you can.

Next time you're waiting on the starting line, trying to start your bike or just taking a break, simply release Quick Strap® tab and let your goggles hang. They will be safe from damage and won't fog up.

When you're ready to ride, just grab the Quick Strap® tab with your left hand, pull goggles over eyes and press to Velcro® patch on helmet.

ENGINE HOSE KITS

Factory Effex engine hoses add style and superior cooling functionality.

Made with reinforced, woven thermoplastic and silicone materials, our engine hoses offer the highest quality. We integrated a unique HDPE-coated inner lining, to increase the flow of liquids. Our hoses have been tested to withstand temperatures of up to 420 degrees, which offers superior cooling for your race bike.

We offer a wide range of colors in a standard replacement kit as well as Y-type kits that eliminate the plastic fitting found on most late model motocross engines that can melt under extreme heat and cause engine failure.

Custom Looks, No Paint!

With our years of experience as leaders in motocross graphics, we have applied that design and engineering into our line of Sport Bike graphic kits. All of our pre-cut full-coverage graphic kits are made with super-durable ultracurve vinyl and precision-cut to fit most late-model bikes. Most importantly, our graphics are easy to apply with no cutting, trimming or paint required. With many designs to choose from like our race inspired EV-R line or our aggressive and bold EV-X line, you'll find something to freshen up the look of your bike and make it the center of attention.

1 FENDERS

Front fender and fork guards decals protect the front from road debris / Rear Fender decals protect the tail section from foot wear of getting on/off

3 LOWER FAIRING

Protect your lower fairing and swingarm which takes the bulk of the wear and tear from road debris

2 SIDE FAIRING/TANK

OEM side fairing and tank decals scratch over time / Protect the complete side fairing & the partial side of tank while giving you that complete custom look

4 FRONT FAIRING

Protects and dresses up the nose area around the windscreen and headlights

WHAT'S INSIDE THE BOX?

Each complete graphic kit includes front, upper and lower fairing, front and rear fender, side of tank & swingarm decal pieces for both left and right sides of the bike. Each decal is precision-cut to go on easy with no cutting or trimming.

Also included is a detailed, application specific instruction sheet with prep and installation instructions. The kit comes on sheets which every component is numbered for easy reference. Using the number ID system, you can quickly identify each piece and understand where to install it on your bike.

NEXT TIME YOU'RE WAITING ON THE STARTING LINE, TRYING TO START YOUR BIKE OR JUST TAKING A BREAK, SIMPLY RELEASE QUICK STRAP® TAB AND LET YOUR GOGGLES HANG.
