VSTREAM® WINDSCREENS FOR FLHT/FLHX MODELS

The Tall and Standard size VStream® Windscreens for the FLHT/FLHX are outstanding high-speed highway performers for average size and taller riders. Shorter riders will like the performance of the VStream® Low and Ultra Low models.

Enjoy a significant improvement in wind management and riding comfort.

Mounts with existing OEM hardware.

VStream® Windscreens for FLH Models are measured from bottom center mount hole to top of screen.

VSTREAM® WINDSCREENS FOR FLTR ROAD GLIDE MODELS

Owners of FLTR Road Glides will appreciate the enhanced performance and stunning appearance of the VStream® Windscreens. Choose from Extra Tall and Standard Touring Size in Clear, Mid-Size in Light Tint, and in a Low Size in Light Tint or Dark Tint.

All FLTR VStream® Windscreens include metal compression limiters that spread the load for long life and durability.

national cycle since

VSTREAM® WINDSCREENS
QUIET • COMFORT • OPTICS • STRENGTH

The VStream® gets its name from the unique shape and dimensional contours designed and engineered into the windscreen. The patented "V" profile helps push the turbulent wind out and away from the side of the rider's head, producing a quieter and more comfortable riding

experience. This improvement also reduces

wind noise and buffeting for the passenger.

- Constructed from thick, durable hardcoated Lexan® polycarbonate material
- Coated with National Cycle's exclusive scratch-resistant Quantum® hardcoating
- Replaces the stock windscreen and uses the OEM mounting hardware
- All VStream® Windscreens are made in the U.S.A. and are covered by National Cycle's exclusive 3-Year Warranty against breakage

WHAT ARE THE BENEFITS OF LEXAN® POLYCARBONATE?

Outstanding impact strength! No other thermoplastic comes close to matching the impact strength of polycarbonate, making it the ideal material for motorcycle windshields. It is 20X more impact resistant than acrylic plastic (Lucite®).

So whether it's birds, bugs, rocks or road debris, for the serious rider, a strong polycarbonate windshield is very important.

QUALITY MANUFACTURING

National Cycle engineers and manufactures the plastic and the mount systems of all their windshields. Replacement parts are readily available for years to come.

REAL WORLD PERFORMANCE

Watch National Cycle's "Polycarbonate vs. Acrylic" video on YouTube™ to see the entire gamut of impact tests.

VStream® Windscreens are offered in Clear, Light Tint, and Dark Tint hardcoated polycarbonate. See application charts for details.

WAVE® WINDSCREENS FOR FLHT/FLHX/FLTR RIDERS

National Cycle's Wave® Windscreens are now available for 2013 and earlier FLH and FLTR models.

Quality is evident when you feel the thick gauge, precision cut, smooth radiused edge on these windscreens. Quantum® hardcoated polycarbonate delivers outstanding strength and unbeatable scratch resistance.

It's stylish... sleek... and sexy.

It's the new Wave. Ride it!

10.50" (26.7cm) 8.25" (21.0cm) 6.25" (15.9cm) 10.00" (25.4cm) 7.75" (19.7cm) 5.25" (13.3cm)

Wave Windscreens are measured from the top of the fairing in a vertical line level to the top of the screen. Three different sizes means there's a perfect Wave Windscreen for any rider.

WAVE QR® QUICK RELEASE FAIRINGS

- Its jetstreamed looks come from National Cycle's attention to aerodynamics and precision forming. It's removable in just seconds, without tools - thanks to National Cycle's Quick Release Mount Kit! And, it's rake adjustable!
- The highly regarded Quick Release Mount Kit is the same that's used for the SwitchBlade® and Spartan® Windshields, so you not only have a choice between riding with or without a shield - you also have a choice between completely different styles of quick release shields!
- Made from durable FMR hardcoated polycarbonate and covered by National Cycle's 3-Year Warranty against breakage.

See pages 10-12 for Applications Mount Kits sold separately

562-20115

Wave QR® Fairings are measured

from the headlight cutout in a vertical

line level to the top of the shield in the

fully raked forward position. Width is

measured in a straight line across the

back of the shield at the widest point.

Straight Forks

Covered Forks

TWO PREMIUM QUICK RELEASE WINDSHIELD LINES

Black Powdercoated Stainless Steel

THE BEST HARDWARE

- Chromed steel with polished or black powdercoated stainless steel hardware is used throughout for rocksolid strength, dependability and great looks
- Cushion wheels turn and flex, allowing your SwitchBlade® or Spartan® to securely lock into place
- Sleek and elegant no exposed fasteners

EXCLUSIVE QUANTUM® HARDCOAT

Developed for windshield use by National Cycle, Quantum hardcoat takes motorcycle windshields a "quantum leap"

forward in abrasion resistance and outdoor life. National Cycle applies this crystal clear hard coating to polycarbonate material. The combined result is the strongest, most scratch resistant windshield material available worldwide.

SUPERIOR SCRATCH RESISTANCE

30X more scratch resistance than typical acrylic windshields is saying a lot! Think of it as 30X more miles per windshield. Even compared to FMR coated polycarbonate, Quantum® has 10X better scratch resistance.

Award-Winning Quantum hardcoating is used in many tough applications. It has withstood over one million windshield wipes in tests for the fully enclosed Benelli Adiva Scooter.

See pages 10-12 for Applications

POLYCARBONATE STRENGTH

SwitchBlade® and Spartan® Windshields are made from durable 4.0mm thick polycarbonate for 20X more impact resistance than acrylic. This is tough material that you can trust!

GLARE-FREE OPTICS

Think about riding into the sun or at oncoming headlights and not having to look through the glare of fine scratches that eventually show up on your screens. Quantum® hardcoating gives your windshield much better optical definition and clarity, and your windshield will stay that way a lot longer.

TWITCHIE THATE Cycle 1997

ON AND OFF IN LESS THAN FIVE SECONDS... **WITHOUT TOOLS!**

- The SwitchBlade® Quick Release Mount System gives you the flexibility to mount any of four sizes of SwitchBlade® Windshields... or none at all!
- SwitchBlade® Mount Kits (sold separately) are engineered directly on each model bike to ensure perfect fit and function

SWITCHBLADE® 2-UP®

- Largest size with maximum wind protection
- Ideal for touring, two-up riding, and cold season commuting
- Add SwitchBlade® Chrome Lowers and National Cycle Hand Deflectors for complete wind and weather protection

SWITCHBLADE® CHOPPED™

- A cut-down version of the popular 2-Up
- Recontoured top is 4-5" shorter (depending on model) and the trimmed bottom profile is narrower
- Excellent protection for shorter riders/low saddle heights

All SwitchBlade® and Spartan® Windshields are covered by National Cycle's 3-Year Warranty against bréakage!

See pages 10-12 for Applications Mount Kits sold separately

SWITCHBLADE® SHORTY®

- An ideal choice for shorter riders or for morning commutes
- Short in size but long on looks and quality features
- Keeps wind blast at bay while preserving the "wind in your face" motorcycling experience
- See pages 10-12 for Applications

SWITCHBLADE® DEFLECTOR™

- Minimal profile with maximum attitude
- Patented Rake Adjust[™] feature lets you easily change the screen angle for appearance or for wind protection
- Perfect shield for warmer weather and boulevard cruising
- High quality chromed steel and stainless steel hardware
- See pages 10-12 for Applications

CHROME LOWER DEFLECTORS FOR SWITCHBLADE® WINDSHIELDS

- Chrome Lower Deflectors improve the performance of your windshield by preventing unwanted turbulence below the shield
- National Cycle's Chrome Lowers are engineered for proper fit, clearance and performance
- Mounts to SwitchBlade® Windshield Mount Kits (See pages 10-12 for Applications)
- Superb polishing and chrome plating make National Cycle Chrome Lowers stand out from the rest

8

REFERENCE

SPARTAN® QUICK RELEASE **WINDSHIELDS**

- The new Spartan® Windshield has a stainless steel frame finished in a stealthy black powdercoat and looks perfect on today's dark custom bikes. You won't find a better quality touring-sized windshield at such a great price!
- This full-size Quantum® hardcoated polycarbonate windshield comes in two heights - 18.50" and 16.25" - to fit almost any rider
- Mounts to National Cycle's tried-and-true Quick Release Mount Kits with stainless steel hardware and rubber grommet compression limiters that spread the load for long life and durability

Clear

See pages 10-12 for Applications Mount Kits sold separately

Simplified fitments are made possible by Spartan®'s unique, patented parallel slotted tabs that adjust for a perfect, customized fit with different fork widths.

SELECTING THE CORRECT WINDSHIELD & MOUNT KIT FOR YOUR BIKE

- 1. Determine your motorcycle's make, model and year.
- 2. Choose the appropriate SwitchBlade® Mount Kit
- 3. Determine what style windshield best fits you.
 - Consider your height and saddle position.
 - Determine your riding habits: Daily commutes? Long trips? Weekend rides?
 - Do you want maximum protection? A sporty look? Or a combination?

- 4. Sit on your bike, measure from a few inches above the headlight to the point horizontally level with the tip of your nose.
- **5.** Pick the appropriate size SwitchBlade®, Spartan® or Stinger windshield.

Still can't decide? Get two or more windshields. With the Quick Release SwitchBlade® Mount Kit, you can change your windshield as quickly as you change your mind!

Windshield height is a personal preference, but one recognized standard is to be able to look just over the top of your windshield to see the road at a distance of 50 feet in front of you. Generally, this means that a correctly sized windshield mounted to your bike will have a top edge that is horizontally level with the tip of your nose, or just slightly below eye level.

SWITCHBLADE®/SPARTAN®/WAVE QR® WINDSHIELD PRICE LIST

DAKOTA

All Mounting Hardware is Included!

DAKOTA 3.0™ **WINDSHIELDS**

The Dakota 3.0™ windshield gives a custom look to any narrow glide front end. The patented variable width brackets and adjustable diameter fork clamps are included with the windshield.

Available in short or tall sizes to fit bikes with or without National Cycle's N935 Spotlight Bar.

The Dakota 3.0™ is made from High Impact Acrylic for great wind protection at a budget price.

Bikes Without N935 Spotlight Bar NC125A

Height: 17.5" (44.5cm) Width: 18.3" (46.5cm)

N2310

Height: 20.5" (52.0cm) Width: 18.3" (46.5cm)

BEADED WINDSHIELD FOR FXSTS MODELS

National Cycle's Beaded Heavy Duty™ windshield for the FXSTS and FXSTSB is trimmed with a traditional beaded edge that is mechanically applied. No yellowing or cracking of glue joints is possible.

The highly polished chrome mounts attach to the handlebar risers to provide a significant range of adjustment for height and rake.

This rugged windshield features stainless steel and chrome hardware and FMR hardcoated polycarbonate. All necessary mounting hardware is included.

To top it off, it's covered by National Cycle's 3-Year Warranty against breakage!

Height: 13.25" (33.6cm) Width: 20.25" (51.4cm)

HERITAGE BEADED WINDSHIELDS

The National Cycle 5-bolt pattern Beaded Heavy Duty™ Windshield is an authentic three-piece beaded construction manufactured with modern, premium quality materials. The complete windshield is available in polycarbonate with a clear top and your choice of Clear, Red, Blue or Black bottom section, and Early FL-Style or Standard Round adjustable middle window. Outer frame hardware is bright chrome plated steel and internal hardware is non-glare zinc finish. Windshield Mount Kits are available for an extremely wide range of makes and models

REPLACEMENT SCREENS FOR FLHR & FLSTC MODELS

Made from 4mm thick polycarbonate (33% thicker than OEM) with National Cycle's exclusive Quantum® hardcoating.

This replacement windshield plastic fits exactly into the stock hardware of the OEM windshield.

Best of all, you get National Cycle's 3-Year Warranty against breakage!

Height is measured from headlight cutout to top of screen.

Description	Year	Material Color	Height	WPS#

MOHAWK™ WINDSHIELDS

Chrome

Hardware

Continuing the minimalist, sporty tradition of our famous Flyscreen®, the Mohawk™ features a taller and wider size with a special 'V' profile for added wind management.

- Manufactured from FMR hardcoated polycarbonate for unbeatable strength and impact resistance
- Linking Arm fork mount system (available in chrome or black) with countersunk screws offers a custom fit for almost any motorcycle with open front forks
- All Mohawk[™] windshields are dark gray tinted, 9.25" tall x 11.75" wide and include all hardware needed

Black

Hardware

If your bike is not listed in the application chart, order by mounting bracket type (universal applications).

SWITCHBLADE® HOLDSTER™

 Fits SwitchBlade® 2-Up, Chopped and Shorty windshields

 Handy storage for glasses, cell phones, gloves, etc.

SWITCHBLADE® STORAGE BAG

- · Designed to store and protect any of the four SwitchBlade® Windshields, or any other National Cycle windshield
- Soft inner, durable outer, sturdy zipper and convenient handle
- 29" high x 25" wide

Description WPS# Storage Bag 562-21221

FLH/FLT HEAT SHIELDS

- These Heat Shields fit all 2009-16 Touring and Trike models
- Dark tint polycarbonate replaces the OEM black plastic shields and lets more of the engine details show through without the heat waves roasting your thighs
- Simple installation with unique clip-nut fastener system

Applications	Year	WPS#	
Touring and Trike models	`09-17	562-20260	

SHIELD WASH™AND RAINZIP®

- Shield Wash™ is strong enough to clean spotlessly, mild enough to use as needed
- Safe on all motorcycle windshields, face shields and goggles
- Includes 8-oz. bottle of Shield Wash, 1-oz. spray bottle and special microfiber cleaning cloth
- RainZip® rain repellent treatment is formulated for Quantum® hardcoated polycarbonate but is safe for all windshields
- Comes in a 3-oz. bottle and includes an application cloth and microfiber polishing cloth

Description	WPS#	
Shield Wash	562-21100	
Rain7in	562-21101	

Chrome-plated or black powdercoated, and easy to mount to Glide front ends. Deflects wind away from your legs and feet. A beautiful addition to most Touring models, fits 1983-up FLHT, FLHS, FLHR and FLHRC models. Does not fit models equipped with fairing lowers or lighted fork slider kits. Does not fit FLHX Street Glide models or models equipped with Custom Front Bullet Turn Signal Kits (OEM's 69577-06 and 69492-05).

WINDSHIELDS

The Dragonfly Cycle Concepts Flip Out Windshields provide excellent air flow over and around the rider while still giving a great appearance to your ride. With making wind protection and audio fairings for over 15 years, Dragonfly really understands the need for letting you have a little wind in your face without Beating you up!

Through extensive testing Dragonfly has developed a full line of the "Flip Out" Windshields.

- Fits All HD **Batwing Fairings**
- Made of Acrylic it is more scratch resistant than Lexan shields
- Fits all Dragonfly Classic Model Fairings
- Takes wind off of you like taller windshields

SONS OF AUDIO 1/4 FAIRING

Made from injection-molded LPRTM composite parts with powder coated steel mounting brackets, formed and bolted to the inside of the fairing, providing unmatched strength. The basic ABS fairing ships with inner/outer shell in black gel-coat finish (this fairing is designed to be painted). The fairing is set up for 6.5" speakers (sold separately).

- One set black powder coated steel brackets
- Fork clamps (2 pair)

Application	ABS	Carbon Fiber
For 49mm Front Ends `06-17 Dynas	826-02030	826-02031
For 39mm Narrow Glide Front Ends	826-02032	826-02033
REPLACEMENT HEADLIGHT CO	VER	
For SOA 1/4 Fairings	826-02034	

CLAMSHELL 1/4 FAIRING

- Constructed from heavy duty precision molded ABS
- Black powder coated brackets (application specific fork clamps sold separately)
- Fits Dynas, FXRs and Sportsters
- · Includes dark tinted screen and headlight cover

Application	Description	WPS#	
Universal	Clamshell 1/4 Fairing	820-55412	

2014 STYLE DETACHABLE BATWING FAIRING

"2014 Style" Gives any year Harley Davidson Free Wheeler or Road King the Look of a 2014 and NEWER Street Glide!!!

Made from injection-molded LPRTM composite parts with stainless steel mounting brackets formed and bolted inside the fairing from top to bottom providing unmatched strength with NO vibration

The detachable fairing ships FULLY ASSEMBLED with inner/outer shell in black gel-coat finish (this fairing is designed to be painted). Delivered with 6" tinted windshield. Set up for 6"x9" speakers and single DIN stereo (sold separately).

- One Set Stainless Steel Brackets
- One 12-Volt Accessory Port
- Two Speaker Grills
- One Set Mounting Hardware

Application	WPS#
Fits All Road King Models `94-Up	826-02050
Fits Freewheeler Models `15-Up	826-02051
FAIRING LOCK	
Fits FLHR Models	826-02052

FXRP FAIRING FOR DYNAS

Modeled after the Police/Touring fairing, this is a frame mounted fairing (does not turn with handle bars). We have added the Dragonfly styling touches, and made it audio friendly!

Set up for an Aquatic AV radio or a radio of your choice (sold separately). We have also set it up to have one pair of speakers of your choice added. With room to add amps if desired, this can be a great retro fairing for the increasingly popular Dyna scene.

Requires (sold separately):

- Windshield
- Headlight Cover

Application	WPS#
Fits All FXDB, FXDL Models `06-17	826-02060
REPLACEMENT PARTS	
Tinted Windshield	826-02061
Clear Headlight Cover	826-02062

FAIRING ACCESSORIES

This model specific kit will correct your fairing attitude after installing our SRT Performance Wide Tire Kit on your 2015-later Road Glide. First, our patented Wedge Drop Block not only rotates the fairing back to its original angle, it also drops the fairing a full 1.75" which gives it that awesome "Muscle Bagger" look! Lowering the fairing also dramatically increases your field of vision while enhancing your Baggers custom look.

This kit is also available for stock Road Glides giving you the same benefits as the SRT drop block without the change of angle.

Included in both kits is our patented Stealth Fairing Support Bar which hides discreetly inside your fairing providing all the support your fairing needs. This allows you to remove those ugly stock clamp brackets that attach to your engine guard. This part also allows removal of your engine guard if you so choose which is a popular decision during the customizing process.

Our SRT Wedge Drop Block is CNC machined from 6061-T6 aircraft aluminum for unparalleled strength and precision. It is then gloss black powder coated to match the OEM bracket it attaches to. Easy install instructions and hardware are included.

Our Stealth Fairing Support Bar is precision fixture TIG welded by Arizona craftsmen and assembled from US cold rolled steel. It's then gloss black powder coated. Easy install instructions and hardware are included.

Description	Application/Year	WPS#
SRT Fairing Wedge Kit	FLTR `15-Up	834-02010

Headlight Wedge	Batwing Fairings `15-Up	834-02012
	Batwing Fairings `92-14	827-05160

 Road Glide fans unite! The SCOOWL Fairing Extension will transform the look of your Road Glide and will give your Bagger a vicious and angry stare!

- The SCOOWL is a direct replacement on 1998-2013 Road Glides and can be installed as-is or painted to match your bike.
- *2009 and earlier models need a 2010 and later headlight kit. (HD P/N 67775-10 available at your local Harley-Davidson Dealership).
- US Patent D683,495 S

Application	WPS#	
Fit's `98-13 FLTR Models	827-05345	

FAIRING FLARES

- These pressure-formed, urethane wings add a really cool accent on the lower edge of the fairing and create a seamless flow between the fairing and fuel tank. The Wing-It Fairing Flares are a must on raked, big-wheel Baggers and they look super cool on your stock Road Glide as well!
- Wing-It Fairing Flares are a direct bolt-on item for Baggers utilizing our NEW Bagger Nation Stealth Fairing Support Bar (which eliminates the stock engine guard) or they can be easily modified to work on Baggers that have the OEM fairing support brackets.
- Wing-It Fairing Flares are sold in pairs and come in a smooth black plastic finish that can be easily painted to match your fairing color.
- All hardware and easy bolt-on instructions are included.

Application	Non-Raked	Raked
Fits `15-Up FLTR	827-05500	827-05501

BATWING FAIRING COMPONENTS

- · Quality ABS reproduction inner and outer vented Batwing fairing components
- Effortlessly match up to OEM and most aftermarket components
- Require minimal prep for paint

Application	Description	WPS#
Fits Touring Models `14-UP	Outer Fairing	820-55410
	Inner Fairing	820-55411
	Fairing Side Wings	820-55420

FLTR GAUGE HOUSING

- · Reproduction of OEM gauge housing
- · Works with stock and most aftermarket gauges
- · Unpainted ABS from precision molds

Description	Application	WPS#
Instrument Housing	Fits FLTR Models `15-UP	820-55432

ROAD GLIDE FAIRING SUPPORT BRACKETS

- These fairing support bracket kits are precision made from forged aluminum and available in a beautiful Chrome or Vanta-black
- Easy to install fairing mounts can be used as direct OEM replacement to form a seamless transition between the engine guard & fairing
- · Kits include left & right fairing support brackets and matching engine guard clamps & hardware.

ROKKER XXR EXTREME 350W SPEAKER AND AMP

- This is the new J&M Custom 2-speaker & amplifier kit
- Fits '14-Up Batwing or '15-Up Road Glide fairing with the Harley BoomBox 6.5GT Premium or 4.3 standard radio
- 2 channel amplifier rated at 175w RMS per channel X 2 to provide up to 350w total RMS power!
- The amplifier's settings have been dialed in & optimized for this exact speaker/radio configuration, to provide the on-highway volume, clarity and overall performance that most riders only dream about
- Includes fully weatherproof 6.71" ROKKER XXR speakers featuring a high-tech woven-fiber woofer cone & a massive high-density high-flux strength Neodymium magnet structure with large center & perimeter positioned voice coil cooling vents, to provide for maximum heat dissipation when operating at high volume levels for extended periods

- The custom designed speaker grills with mounted highoutput dome tweeters are also weather-proof and shockproof for maximum long-term durability
- This custom installation KIT has been engineered to be 100% plug-and-play for your convenience during the installation and to maintain the complete integrity of your Harley's internal wiring harness.
- In the Stage 5 version the amplifier will be custom tuned for use in conjunction with your specially FLASHED Harley Infotainment radio ("J&M Corporation Custom Audio Flash" menu option w/Techno-Research digital technician), to provide THE BEST on-highway volume, clarity and overall performance available, from your music source selections of FM stereo, XM sat radio, Smartphone or USB thumb drive. (Harley Infotainment/BoomBox radio can also be shipped to the J&M factory in Tucson for FLASHING, there is a separate for the "J&M Corporation Custom Audio" Harley radio FLASH).

ROKKER XXRP 4 CH. AMPLIFIERS

- 4-channel 700 watt RMS fairing/rear speaker amplifier kit
- Plug-n-play RCA input harnesses included with this amplifier kit
- Provides 4 separate channels of amplification at 175 watts RMS continuous power per-channel into a 2 or 4-ohm
- This is a full range class D digital amplifier properly shielded against RF interference into the AM or FM stereo radio bands
- Amplifiers use advanced digital switching power supply technology to reduce the 12v current demands on the motorcycles electrical system
- Amplifier mounts to the custom made stainless steel 2-piece bracket system, to provide solid and secure mounting inside the fairing, in addition to blocking amplifier heat from being transferred to the radio
- Fully programmable thru the internal digital signal processor (DSP)

- Should you wish to alter these DSP settings using the internal programming dongle already built into this new amplifier, (USB computer connection cable also included with this amplifier kit) all of our specific custom amplifier programs are now available as a consumer download from the J&M.
- Amplifier itself measures 8 1/4" Long X 5 1/8" Wide X 1 5/8" Tall.

ROKKER XXR - SERIES 2 CHANNEL AMP KITS

- Full range class G digital amplifier
- Spec'd at 175watts RMS per channel X2 channels
- 350w total, driven continuous into a 2 ohm load @ 14 4vdc
- Stainless steel 2-piece bracket system, provides solid and secure mounting while blocking amplifier heat from being transferred to the radio
- These amplifiers are now fully programmable thru the internal digital signal processor
- Dialed in for model specific speaker configuration, to provide maximum highway performance from your Harley Davidson audio system
- Should you wish to alter these settings, when adding additional speakers to the system, or changing the impedance of the speakers, J&M will be offering all of our specific custom pre-loaded amplifier programs as a consumer download from the J&M.
- Custom made plug-n-play wiring harnesses are included with this amplifier kit
- Top quality heavy gauge power/ground wires are used for the fused battery connection
- Comes with all necessary mounting hardware & complete installation/operation instructions
- Amplifier itself measures 7 ¼" X 4 ¾" X 1 ¾"

ROKKER® XXR EXTREME 350W BLUETOOTH AMP KIT

- Simply link your SmartPhone to the weatherproof handlebar controller via Bluetooth and control all volume and track up/down music functions direct from the handlebar buttons.
- This is a full range class D audio amplifier and is spec'd at 175watts RMS per channel X2 channels, (350w total) driven continuous into a 2-ohm load @ 14.4vdc.
- Amplifier mounts to the custom made stainless steel bracket system inside the left saddlebag.
- BlueTooth control mounts to the blackpowder coated SS handlebar bracket.

- Custom made heavy-duty plug-n-play wiring harnesses are all built at the J&M factory in Tucson for this specific application, to allow connection to either 2 or 4 total speakers on the RoadKing.
- Wiring harness system includes waterproof plugs/pins at each location including the left side saddlebag panel connector (like CVO) & Bluetooth control head connections.
- Top quality heavy gauge power/ground wires are used for the fused battery connection, along with all necessary mounting hardware & complete installation/operation instructions.
- Amplifier itself measures 7 ½" X 4 ¾" X 1 ¾".

INDEX

- J&M's NEW ROKKER XXR series 6.71" speakers have been designed as exact size component/replacements for the stock 6.5"
- Spec'd at 2 ohms impedance and an impressive 300 watts maximum input (175w RMS - 91db sensitivity), these speakers provide the ultimate in raw audio power and include the new custom grills with built-in high-output tweeters
- Lightweight waterproof one-piece woven-fiber driver cone with super-rigid metal basket design
- High-density lightweight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- High efficiency VENTED voice-coil for improved cooling when operating at high volume levels for extended periods
- Custom speaker grills with high-output tweeters for crystal clear sound at highway speeds
- Mounting hole pattern and spade electrical connections are exactly the same as the factory specification, this is a total plug-and-play no-modification solution complete with easy to follow installation instructions
- These are THE most powerful speakers you can buy for your Harley and they will perform extremely well when used with a medium to high-powered accessory amplifier

ROKKER® XXR SERIES SPEAKER KITS

- J&M's ROKKER XXR series 7.25" drivers are the largest diameter speakers that can be installed into the Harley fairings, with cone volume and mass comparable to a 6X9" speaker
- Spec'd at 2 ohms impedance and an impressive 217 watts maximum input (165w RMS continuous - 92db sensitivity), these new speakers provide the ultimate in raw audio power
- This custom speaker installation kit has been designed specifically for the 1998-2013 models
- Lightweight waterproof one-piece polycarbonate driver cone with super-rigid metal basket design

- High-density lightweight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- High efficiency VENTED voice-coil for improved cooling when operating at high volume levels for extended periods
- Custom speaker grills with high-output tweeter & midrange for crystal clear sound at highway
- This speaker kit is NOT compatible for direct connection to the 1998-2005 Harley RSI factory radio system, without connecting an amplifier between the RSI radio and the speakers

XT SERIES

- The new three-way high-performance speaker set has been designed specifically for the rear pod position on the 2006-2013 FLHTCU/FLHTK
- Spec'd at 2 ohms impedance and 140+ watts max power
- Superior bass response, along with an extended mid/high frequency range
- Waterproof injection-molded polycarbonate woofer cone
- High-flux strength but light-weight Neodymium magnet
- · High efficiency voice coil
- The latest design grillwork with mounted black-titanium tweeter and midrange drivers
- Second set of paintable grills also included
- Plug-and-play installation complete with easy to follow instructions
- Perform extremely well with the stock Harley radio system
- You won't be disappointed

XX SERIES

- Lightweight waterproof one-piece wovenfiber driver cone
- · High-output silk-dome tweeter
- · Super high-density lite-weight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- High efficiency VENTED voice-coil & magnet structure for improved cooling when operating at high volume levels for extended periods
- · Custom max-flow speaker grills for crystal clear sound at highway speeds
- Plug-and-play no-modification solution complete with easy to follow installation
- These are THE most powerful speakers you can buy for your Harley and they will perform extremely well when used with a medium to high-powered accessory amplifier

XXR SERIES

- Spec'd at 2 ohms impedance and an impressive 300 watts maximum input (175w RMS - 91db sensitivity)
- High-density lite-weight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- · Custom bridge-mounted high-output

These are THE most powerful 5X7" speakers you can buy for your Harley and they will perform extremely well when used with a medium to highpowered accessory amplifier.

ROKKER WIRING HARNESSES

- Plug-n-play wiring harness kit connects to lower fairing mounted speakers
- Designed for ROKKER XTP or Performance series amplifier kits
- Kits include exact factory spec wire color coding & plugs for all harness connections

ROCKSTAR BOOMBOTTLE

RUGGED WATERPROOF WIRELESS SPEAKER

- 12W 2X 50mm high quality speakers and passive subwoofer produce rich, clear sound, 2 passive radiators
- IP67 rated dust and waterproof / buoyant construction
- · Fits in most bike water bottle cages and cup holders
- · Omni-directional speakers send music in all directions
- · Control play/pause and skip tracks from the BoomBottle
- Dual Pairing for true stereo sound
- Powerful 6000mAh rechargeable Lithium-ion battery provides up to 15 hours of play time or allows you to fully recharge your USB powered device up to 3 times
- · EQ switch for outdoor use
- Includes micro charge and sync cable and single 12 watt USB wall charger for fastest charge possible
- USB output 2.1A charging

194-1000

BOOMBOUY

RUGGED WATERPROOF WIRELESS SPEAKER

- 3W 50mm high quality speaker produce rich, clear sound, 1 passive radiator
- IP67 rated dust and waterproof / buoyant buoy construction
- Up firing Omni-directional speaker sends music in all directions
- Control play/pause and skip tracks from the boomBUOY
- Powerful rechargeable Lithium-ion battery provides up to 11 hours of play time

Includes

- · Micro charge and sync cable
- Carbineer

TIRES I TIRE ACCESSORIES VICTORY INDIAN If you are looking for THE Best performing shorty antenna upgrade look no further than J&M

 This new shorty antenna model from J&M comes out of the packaged pre-tuned for all AM/FM CB & WB frequencies, so that you don't need to worry about which side of the tail trunk or rear fender to mount them on

 The performance improvement compared to stock Harley is especially significant for the CB radio band transmission distance

• Installation is a snap as you simply unscrew
the stock Harley antenna and screw on the
new J&M shorty

- Both long and short antenna tip cover options are included, with a total overall length of approximately 17"
- Sold individually as one antenna per package with extra screw in trunk mounting stud included

Application	WPS#	
`14-19 FLHT/FLT Models	94-1199	
`09-13 FLHT/FLT Models	94-1198	
`89-08 FLHT/FLT Models	94-1200	

BIG BIKE PARTS®

SHORT ANTENNA

• AM/FM only, not for CB's

• No interference with storage covers

 Decription
 Application
 WPS#

 Short spiral antenna
 Harley, Indian, Victory
 94-1165

HIDE - A - WAY ANTENNA

• FLEXPOWER hide-a-way is the best way to hide the CB and radio antennas on the market today

- Eliminate the rear mounted antennas on your Harley
- J&M in-fairing antenna is pre-tuned from our factory
- Is designed for the Harley Batwing or Road Glide fairing, with the factory Harley CB and/or radio
- Installation is a snap, as there are no wires to cut or splice and antenna wire lead is secured in the fairing with included double sided tape clips

Bluetooth 4.1 HEADSET

THE WORLD'S BEST MOTORCYCLE MESH & BLUETOOTH™ COMMUNICATIONS SYSTEM.

The most powerful communicator using the most powerful interface – your voice. With DMC® on-board, PACKTALK BOLD is the world's most advanced communicator, connecting up to 15 riders to an overall distance of up to 8 Km (5mi.). From sheer performance, to human engineering, to software design, to an endless list of every imaginable feature – nothing comes close. Whether you ride with a buddy or in a group of up to 15, just say "Hey Cardo", PACKTALK BOLD will do the rest. Focus on your ride and nothing else. No more tinkering with group connectivity, or taking your hands off the handlebar to click a button. Just tell it what you want – it will do the rest, and stay connected. It's that simple.

- Bluetooth 4.1 / IP67 Certified
- Battery operations up to 13hrs talk time and up to 1 week standby
- 1-15 riders universal connectivity
- Up to 8km (5mi) distance intercom overall
- Charge while riding, hybrid and corded mic
- Mobile conferencing, radio & music sharing, GPS, music streaming, automatic volume control
- Natural voice operation with dual core technologies (DMC[®]/ BluetoothTM)
- Connectivity with two bluetooth mobile devices
- Thick 40mm interchangeable speakers
- Voice assisted menus, VOX, parallel audio streaming
- Cardo Connect App (iOS/Android)

THE ESSENTIAL COMMUNICATOR FOR THE LONE RIDER

Rugged, reliable and easy to use, the Q-solo has all you need to get you up and going day in and day out. Underneath the tough water and dustproof exterior lies the same technology that has made the scala rider Q-series world famous. Offering crystal-clear sound quality and seamless integration with any smartphone, your Q-solo will work under any riding conditions and will never let you down. Whether you're a savvy road warrior or a freshman experiencing first incursions on two wheels - if you're looking for a top-branded, affordable, essential communicator that you can rely upon, look no further. The scala rider Q-solo is the one for you.

- Bluetooth 3.0 / IP67 Certified
- Upto 10 hours talk time/ 1 week standby
- · Dynamic volume control
- Phone, GPS and remote operations of music player

SENA BOK

Bluetooth 4.1 MOTORCYCLE COMMUNICATION SYSTEM

Sena Mesh Intercom[™] technology is now here and ready to change your ride. Simply press the button on top of the 30K to turn on public mode, and you will be automatically and instantaneously connected to a virtually limitless amount of 30K users within a mile range. Intercom connections are also now more stable than ever with Sena's new Mesh Intercom[™] technology. When one of a group's riders goes out of range, the rest of the group remains seamlessly connected while the 30K still intelligently searches for the lost connection and reconnects automatically once back in range. No longer will you have to worry about losing half of your group due to a Bluetooth chain linked connection of the past. With private mode you can invite and communicate with up to 16 riders at a range of up to 2.0 km (1.2 miles), while an endless amount of guests can join to listen in as well. When riding with 5 or more riders, the Mesh Intercom will intelligently keep the group connected at a range of up to 8 km in ideal riding environments (5 miles).

FEATURES

- Mesh Intercom[™]
- Bluetooth 4.1
- Audio Multitasking
- Voice command
- Intercom 2 km / 1.2 miles
- Multi-way group intercom
- Advance noise control™
- FM Radio
- Remote Control
- Sena 30K Utility App and Sena RideConnected App (for iPhone and Android)

Bluetooth 4.1 motorcycle communication system

(AVAILABLE W/ STANDARD OR SLIM SPEAKER KIT)

The 20S EVO is the next generation of the original 20S, with an updated design and improved intercom functionality and stability to keep up with your ride. The 20S EVO was designed with a fixed type, shark fin antenna as opposed to its predecessor with the flip up antenna. This sleek new antenna design improves upon intercom stability and even secures the intercom distance while updates to the hardware allow for an even more robust general performance updates.

5ENA 209

Bluetooth 4.1 HELMET CLAMP KITS FOR HARLEY DAVIDSON AND UNIVERSAL SLIM SPEAKER KITS

- This 20S Harley-Davidson helmet clamp kit allows the rider to communicate thru their on-board CB system, work their GPS and get music to their helmet.
- It's still a wired solution, it's a clean and affordable system. It can be used with or without a 20S. Using it with a 20S provides the rider intercom & cell phone connections into the helmet. Adding the 20S allows the rider to connect via Bluetooth to their fellow riders
- IMPORTANT: This kit DOES NOT include the 20S Bluetooth main module as shown on packaging.
- IMPORTANT: This unit is only compatible with Harley Davidsons that have the 7 Pin Din plug on the tank console or dash. For Harley Davidsons that do not have the 7 Pin Din plug accessible on the front of the bike, a specific Harley Davidson audio/communication cable is required. The Harley Davidson connector cable kit part number is 69200865. This part number is available online or at Harley Davidson dealerships.

SENA 105

Bluetooth 4.1 HEADSET AND INTERCOM

The Sena 10S Motorcycle Bluetooth® Communication System is an upgraded version of the original SMH10 system, which has proven itself roadworthy to motorcyclists everywhere. Now in a slimmer profile, the 10S maximizes the enjoyment factor of your ride by keeping you in touch with up to four riding companions via crystal-clear HD audio, up to 1.6 km (1 mile) away, through the One Touch Group Intercom™, the 10S is the best long range Bluetooth headset. The unit also uses the Universal Intercom™ protocol so it can communicate with all Sena motorcycle Bluetooth headsets and non-Sena Bluetooth headsets on the market.

SENA 10R

Bluetooth 4.1 HEADSET AND INTERCOM

Low profile, yet rich with high-performance features, the Sena 10R lets riders make hands-free phone calls, listen to music, get GPS directions, and have full-duplex intercom conversations with other riders in crystal-clear audio quality through the stereo Bluetooth® headset. Ultra slim and featherlight, it's a particularly good choice for riders who want to concentrate on their riding technique and minimize fuss factor.

FEATURES

- Bluetooth 4.1
- Universal 4-way group intercom with ranges up to 900 m / 1/2 mile
- · Music sharing
- · Voice prompts
- FM Radio
- Advance noise control™
- · Light weight and ultra slim
- · Ease of use with or without remote control

INCLUDED:

Bluetooth Handlebar Remote Control.

The innovative Bluetooth® Handlebar Remote puts the controls where you can easily see and use them with a gloved hand, without interrupting the rhythm and safety of your ride.

ENA TUFFTALK

OVER-THE HEAD EARMUFF HEADSET WITH LONG-RANGE Bluetooth COMMUNICATION

TUFFTALK is industrial and commercial grade, and can be used for up to 15 hours of talk time with each of the included Lithium Ion rechargeable batteries (2 included) or 12 hours of talk time using 3 x AAA batteries. Crystal-clear high definition audio and advanced noise control, smart phone application, and firmware upgradeable for free. Unit is water resistant.

The innovative and intuitive Jog Dial makes controlling the Tufftalk easy to use, even with gloves on. Unit has ambient mode, so you can hear outside the headset without removing the headset. Headset also has up to 24 DB noise cancelling attenuation (passive). Tufftalk is equipped with VOX for Phone and Intercom, and the voice activation makes answering calls or communicating via intercom a breeze. Range is up to .86 of a mile within line of sight. This is the perfect UTV, Can Am Spyder & Slingshot communicator. This premium product is the solution for those riders that want good side-by-side communication. This is also a great communication headset for the driver of a chase vehicle to communicate with up to three motorcycles. The TUFFTALK compatible with the RideConnected App.

IMPORTANT: These will be sold as each (one in the box).

SENA FREEWIRE

Bluetooth CB and AUDIO ADAPTER FOR HARLEY DAVIDSON & HONDA GOLDWING

With the new FREEWIRE when you connect it to your Harley-Davidson or Honda Gold Wing, you can utilize all the bike's Infotainment features WIRELESSLY! Communicate with the CB radio, hear turn-by-turn directions from the bike's GPS, rock out to your favorite radio stations and so much more — all thru our Bluetooth headset. Use an additional FREEWIRE for your passenger to talk over the motorcycle's internal intercom system. This is the item Harley & Gold Wing riders have been looking for.

*IMPORTANT: This item is compatible with the 20S and 10S models (10R, 10C, and 10U) with current firmware update. (Firmware update coming)

*IMPORTANT: This unit is only compatible with Harley Davidsons that have the 7 Pin Din plug on the tank console or dash. For Harley Davidsons that do not have the 7 Pin Din plug accessible on the front of the bike, a specific Harley Davidson audio/communication cable is required. The Harley Davidson connector cable kit part number is 69200865. This part number is available online or at Harley Davidson dealerships.

*IMPORTANT: Goldwing kit includes 5 Pin Din Plug

SENA SR10

🚯 Bluetooth" TWO-WAY RADIO ADAPTER

The SR10 is a Class 1 Bluetooth® Two-way Radio adapter based on Bluetooth® 2.1+EDR technology. You can connect various two-way radio devices in the market by using SR10 and may talk wireless using Bluetooth® headsets in the market. SR10 has two AUX ports that enable you to connect non-Bluetooth® devices such as radar detector or GPS navigation. Along with SR10, you can talk by phone or by two-way radios at the same time, listen to alarm signal from radar detector and listen to the guides from GPS Navigation. The SR10 may cover such various application areas as motorcycle group riding, outdoor sports and activities or security.

- Bluetooth® hands-free adaptor for two-way radios
- Bluetooth® hands-free gateway for mobile phones
- Connect 1 two-way radio and 1 mobile phone simultaneously
- Compatible with standard stereo or mono Bluetooth® headsets
- AUX input for GPS, radar or laser detectors
- Handlebar mounting and belt clamping
- Wired PTT button extension for handlebar grip mounting
- Optional 12V bike-powered kit with on/off control by ignition switch
- Firmware upgradable
- Two-year limited warranty
- Talk time: 12 Hours Standby: 10 Days

A. HANDLEBAR REMOTE

The Sena Handlebar Remote control installs easily with a handlebar clamp and features a glove-friendly joystick and buttons. It gives you full control over your Sena Bluetooth® communication gear while reducing the risks of taking your hands off the handlebars while riding.* The unit charges via USB port, but with several months of battery life per charge, you won't need to hook it up very often. This Bluetooth handlebar remote fits on almost any bike and will surely simplify your ride.

*With the exclusion of the camera on the 10C.

GAUGE

- Bluetooth 4.1
- Water resistant
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

B. WRISTBAND REMOTE

You can wear the Sena Wristband Remote control on your wrist or arm and it features glove-friendly buttons and a joystick. It gives you full control over your Sena Bluetooth® communication gear.* The unit charges via the USB port, but with several months of battery life per change, you won't need to hook it up very often. This intelligent Bluetooth wristband remote safely enhances any ride, riders no longer have to lift their hand to their headset to control it.

*With the exclusion of the camera on the 10C.

FEATURES

- Bluetooth 4.1
- Water resistant
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

C. RC3 REMOTE

With three ways to install and the simple control of the three-button design, the RC3 offers the versatility you want and need while riding. Clip the device directly on your right sleeve, or attach it to the body of your motorcycle with either the adhesive type mount or the loop and fastener type mount to have full control of your Sena Bluetooth® communication gear. With a battery life of about 5 months, you'll no longer have to reach to your helmet to intercom, answer calls or change a song again.

FEATURES

- Bluetooth 4.1
- Water resistant
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

D. RC4 REMOTE

Its glove friendly, 4-button design allows for extremely simple operation, and less distraction while riding. Place the device directly onto your bike's handlebars and you're ready to ride. The RC4 features a much more compact design than its predecessor, and fits perfectly on even more types and sizes of handlebars.

FEATURES

- Bluetooth 4.1
- Water resistant
- CR2016 lithium coin battery (1 included)
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

PROMOTIONA REFERENCE INDEX

Meeting the Communication Needs of Every Rider. The SF Series was designed to give riders the exact features they need for their ideal riding scenario. The SF1 allows for 1 Bluetooth connection to a smartphone, MP3 player or GPS while both the SF2 and SF4 offer Intercom functionality. All SF models include brand new capabilities such as Audio Overlay™, Quick Charging and microphone mute option features. The SF Series boast a a sleek and low profile design that will fit on almost any helmet.

Bluetooth Connectivity for Those Who Ride Solo

Whether you're commuting to work or primarily ride solo, the SF1 has you covered. The SF1 was created to give solo riders all of the awesome Bluetooth features that they need, without the ones they don't. The SF1 pairs to your phone allowing for music streaming, taking and making phone calls, and hearing turn-by-turn GPS directions. The SF1 also allows VOX Phone commands. SF2 & SF4

Rider to Passenger or Small Group Communication

For riders looking to communicate with their passenger, the SF2 provides simple Rider to Passenger 2-way intercom communication up to 800 m (880 yards) in open terrain. For those who ride in small groups, the SF4 is equipped with 4-way intercom over 1.2 kilometers (0.8 miles). Both models let riders enjoy smartphone connectivity. Riders can listen to music and use the intercom simultaneously using the Audio Overlay™ feature. Please note that Audio Overlay works best with Android devices, while iOS offers limited functionality.

FEATURES

- Bluetooth 4.1
- Upto 4 way Intercom that extends up to 1.2km (.8 mile) (SF2 and SF4 Models ONLY)
- FM Radio, Radio sharing, audio overlay (SF2 and SF4 Models ONLY)
- Sena App for Smartphone

UCLEAR®

The UCLEAR AMP GO helmet audio system was designed from the ground up to be the best preforming, most rugged, and simple to use entry-level comm system available. It really hits that mark. Powerful music, 4-rider intercom, crystal clear phone calls, and noise cancellation from dual BOOMLESS microphones are just some of the features riders will enjoy. Enhance your rides and stay connected.

Bluetooth 4.2

2 CLEARUM

- Intercom Range: Up to 300M/Yards per person
- Battery Life: 12 hours average
- CLEARLink Mobile App & wireless FW updates
- Media over intercom overlay
- · Universal pairing compatibility
- · Ruggedized and fully weatherproof
- Advanced ABF noise cancellation
- Universal mounting to any style helmet
- NEW Boost 2.0 premium speakers with dual BOOMLESS hidden mics.

COMMUNICATION SOUND **& SAFETY**

...AND EASIER

The revolutionary **USAFE** uses an advanced accelerometer to detect and measure hard impacts. If you are unresponsive, USAFE can alert your contacts of your situation and GPS location. Requires a connected GPS enabled mobile device.

DYNAMESH: The first ever mesh intercom network combined with Multi-Hop automatic switching. DYNAMESH pairs with mesh and non-mesh units, and auto-reorganizes as group riders change positions. This ensures stable and constant connections over the longest distances allowed by the FCC.

UCommand: Control your Motion Series unit by natural voice connected through Apple Siri or Google Voice. Speech engine accuracy constantly updates through the cloud.

UPrompt: Voice confirmations of user inputs.

Exclusive **GESTURE CONTROL** sends out a sensor beam from your MOTION unit allowing simple hand gestures to command the most common features such as volume and pause/ restart music. Winter gloves? No problem!!

UMOVE: Exclusive motion sensor powers your Motion Series unit on and off. Motion is on by the time you put on your helmet, and automatically shuts your Motion off if you forget.

1-touch access to most commonly used advanced features such as group intercom pairing, voice commands, or quick access to Apple Siri or Google Voice. It's E-Z!

U-Pair allows universal device pairing to multiple Bluetooth devices at once. Smart phones, smart watches, tablets, GPS, action cams, OEM systems, and competitors' comm systems.

Advanced features, preference settings, support, and our exclusive wireless firmware updates. Music sharing, music + intercom overlay, noise cancellation settings, etc.

UNIVERSAL EARBUDS

UCLEAR's Earbud accessory lets riders enjoy all the benefits of their UCLEAR system with half helmets that do not have traditional speaker pockets covering the ears. Works with any half helmet including motor sports, outdoor sports, and even hard hats! Dual in-line mics install in the helmet liner; only the earbud tips dangle to your ears.

Comes with:

- Hi-Fi earbuds with dual in-line mics
- Earphone pouch
- · 4 sets of replaceable tips
- Speaker mounting kit

Description	WPS#
Earbuds - long w/ mini USB for HBC and AMP Series	11017
Earbuds - long with USB-C for Motion Series	111043

PULSE WIRED DROP IN SPEAKER

Extreme bass and clean sound for those who want a premium wired helmet speaker that plugs into their audio source with a 3.5mm jack. Also serves as a speaker upgrade for most competing comm systems with 3.5mm jacks. The 3' extension allows it to reach from your helmet to your device, but breaks away easily when you remove your helmet or need a shorter cord for use with competitors' comm systems. Not for use with UCLEAR comm systems.

- Gold-plated 3.5mm stereo jack
- 3' extension
- 40mm driver
- Universal fit

ZUMO 595LM NAVIGATOR

Zumo® 595LM motorcycle GPS navigator offers a premium navigation experience with adventurous routing for those twisty, thrilling rides, along with a big 5-inch sunlight-readable touchscreen, Bluetooth® connectivity for hands-free calling, music streaming from Pandora® and Spotify®, smart notifications4 plus rider alerts to encourage a safer ride. You're warned of sharp curves, animal crossings, nearby red light, speed cameras and more.

Description	WPS#
595LM Navigator	989-1385
ACCESSORIES	
Motorcycle Mount	989-1402
TPMS Valve Cap (EACH)	989-1396
12V Power Cable	989-1399

- Large 5-inch dual-orientation touchscreen display that is glove friendly and easy to read — even in bright sunlight
- Rugged design withstands fuel vapors, UV rays, rain and harsh weather, IPX7 rated
- Garmin Adventurous Routing[™] lets you avoid major highways and find curvy, hilly roads—even see upcoming elevation information.
- Rider alerts for upcoming sharp curves, animal crossings, state helmet laws, wrong way on a oneway street, fatigue warning and more
- Warnings for nearby red light and speed cameras, where applicable
- Lets you control music and media from compatible MP3 player or smartphone right on your Zumo® navigator display — and even streams Pandora® and Spotify® music services
- Preloaded with detailed 3-D terrain maps of North America, plus lifetime1 map updates
- Hands-free phone control and spoken directions heard in-helmet via Bluetooth® technology, with compatible headset
- Smart notifications4 (calls/texts, calendar updates, etc.) via free Smartphone Link app
- LiveTrack tool lets you use free Smartphone Link app4 to wirelessly share your live route — great for riding in groups
- Motorcycle-specific points of interest (POIs) for cycle repair services, dealers, etc.
- Live weather radar and live traffic via Smartphone Link4 app (subscription may be required)
- PhotoReal and Bird's Eye junction views with Active Lane Guidance help you navigate interchanges with ease

- Easily see places along your route and milestones up ahead, without leaving the map
- Easy Route Shaping feature lets you easily add a point on the map to ride through preferred areas or follow specific roads
- Spoken Garmin Real Directions[™] feature guides like a friend, using recognizable landmarks, buildings and traffic lights
- Foursquare® data for millions more new and popular places
- Service history log helps simplify your record keeping for bike maintenance
- Round trip routing lets you plan your ride based on time, distance or location
- TracBack® feature makes it easy to follow the same route for your return trip
- Supports custom and TOPO maps (additional mapping sold separately)
- Easily find addresses and millions of points of interest
- Displays current street, current speed, speed limit and arrival time
- Compatible with VIRB® action cameras (sold separately); start and stop recording right from your Zumo® navigator display
- Monitor motorcycle tire pressure on Zumo[®] display with TPMS accessory6 (sold separately)
- Motorcycle and automotive mounts included
- Music and Media control work with iPhone[®] 4 or later, some iPod[®] devices, and some Android[™] devices.

В	Protective Storage Cover	989-1406
C	Replacement Battery	989-1407
D	12v Car Power Cable	989-1408
Ε	USB Cable	989-1351
F	AMPS Rugged mount w/ Audio/ Power Cable	989-1371

The Mapping You Want

 Almost anywhere you want to go, GPSMAP 276Cx has a compatible map to take you there. It comes preloaded with worldwide basemap and includes a free 1-year BirdsEye Satellite Imagery subscription. It also supports a variety of other mapping options such as Garmin TOPO maps, Garmin HuntView™ maps, BlueChart® g2 HD marine charts, turn-by-turn directions on City Navigator® NT, Garmin Custom Maps, raster maps and vector maps.

The Connected Navigator

 In addition to GPS and GLONASS reception, GPSMAP 276Cx is ANT+® compatible for the integration of external sensors like the Tempe™ ambient temperature sensor. You can even connect it to Wi-Fi® for over-the-air updates and Garmin Connect™ database syncs. Pair with your compatible mobile device1 for additional features like LiveTrack and smart notifications1.

 GPSMAP 276Cx was designed for your rugged lifestyle. You'll navigate with confidence by seeing clearly on the large 5-inch sunlight-readable screen. The navigator's flexible mounting lets you keep the device exactly where you need it. Operate GPSMAP 276Cx with its reliable push-button controls that resist dirt, dust and grit, and best of all -keep all your maps on hand with 8 GB of internal memory, expandable by a microSD™ card (sold separately).

More Power Options

• Get peace of mind knowing that the GPSMAP 276Cx GPS navigator is going to be ready when you need it, now that there are more ways to power your device. It features in-unit charging with an included lithium-ion battery pack and even has the ability to use standard AA batteries.

276Cx ALL-TERRAIN GPS NAVIGATOR

- Internal antenna with GPS and GLONASS satellite reception for tracking in more challenging environments than GPS alone; for better reception in vehicle interiors add an external antenna (sold separately) to the built-in MCX connector
- Built-in worldwide basemap and free 1-year BirdsEye Satellite Imagery subscription
- Supports Garmin TOPO maps, Garmin HuntView[™] maps, BlueChart[®] q2 HD marine charts and more
- Supports Active Weather forecasts and animated weather tracking
- Pairs with your compatible smartphone¹ for automatic uploads, smart notifications and more

Includes:

- GPSMAP 276Cx
- 1 year BirdsEye Satellite Imagery subscription¹
- AMPS powered mounting bracket with marine bail mount
- Lithium-ion rechargeable battery pack
- USB cable
- AC charger
- Quickstart Guide

VIRB™ ULTRA 30 ACTION CAMERA

- Ultra HD video Crystal-clear 4K/30fps footage, 1080p/120fps or slow motion capability at 720p/240fps
- G-Metrix GPS data overlays help prove how far, how high and how fast you went
- LCD color touchscreen 1.75-inch display is easy to operate; fully functional in and out of waterproof case
- Voice control Shoot hands-free by using voice commands to start/stop recording, take a photo or tag footage
- 3-axis image stabilization Captures steady footage up to 1080p/60fps
- High-sensitivity microphone Captures clear audio, even in windy conditions or underwater
- Automatic video creation Create videos that show off the best moments from your activity
- 1-touch live streaming (for compatible Apple® devices) -Share your video with friends in real-time
- Simple, 1-touch controls and dedicated "instant on" record switch to turn on the camera and start/stop recording; use the separate photo button to capture still images
- Presets let you save camera configurations for fast setup when switching operation
- Auto pause sensing: starts recording when VIRB® starts moving; avoids capturing boring footage before activity begins

- Photo 12 megapixels; burst up to 60 frames per second in wide mode (8 megapixels); night shots, time lapse, extended time lapse and travelapse photo capture
- Multicamera sync VIRB Edit® software syncs clips from multiple angles based on GPS time
- Custom, wide-angle aspherical glass lens: maximum image sharpness, lowest distortion above and below water
- Built-in motion sensors sync to video, using 10 Hz GPS, gyroscope, compass, altimeter and accelerometer to capture motion data
- VIRB® Ultra 30 works with many compatible Garmin devices using ANT+® wireless technology to remotely control the camera and capture sensor data for performance data sharing or display on footage
- Free VIRB® app turns your compatible smartphone or tablet into a Wi-Fi® remote control for your camera; lets you view and control multiple cameras, add G-Metrix™ overlays, select highlight clips, live-stream3 footage online and more
- Free VIRB® Edit software lets you easily create and edit video. Add music and/or G-Metrix™ animated data graphs and gauges to your footage; share with friends online

PRO RADAR/LASER DETECTOR

- Superior radar and laser detection performance
- Equipped with GPS data points for Red Light Camera and Radar Camera locations
- Free lifetime monthly GPS data points updates
- Six selectable detection modes
- Ability to turn Radar Detection and GPS functions on and off
- Specifically designed for motorcycle use; water, shock, and vibration resistant

- Detects all radar and laser bands and is certified by Speed Measurement Labs
- · Audio and visual alerts
- Oversize, backlit control buttons, easy to operate even with gloves on
- Angled, backlit, daylight visible liquid crystal display
- 3.5mm auxiliary out jack for integration with other audio or communication systems, including Bluetooth systems with use of TPX Bluetooth Transceiver (sold separately)
- Optional TPX Wireless Headset for in helmet audio alerts (sold separately)
- Includes Visual Alert, Wiring Harness, Universal Mount Plate Adapter with hardware
- · Industry leading 2 year warranty

TPX

2.0 RADAR/LASER DETECTOR

- Version 2.0 features increased detection sensitivity and 3 additional user modes compared to the original version Adaptiv detectors
- Specifically designed for motorcycle use, water, shock, and vibration resistant
- Detects all radar and laser bands and is certified by Speed Measurement Labs
- · Audio and visual alerts
- Oversize, backlit control buttons, easy to operate, even with gloves on

- Angled, backlit, daylight visible liquid crystal display
- 3.5mm auxiliary out jack for integration with other audio or communication systems
- Recommended for use with TPX Wireless Headset and/or TPX visual alert
- Includes visual alert, wiring harness, universal mount plate adapter with hardware

WPS#

BLUETOOTH TRANSMITTER & 12 VOLT POWER SUPPLY

TPX™ BLUETOOTH TRANSMITTER

- Wirelessly syncs with most any Bluetooth audio device
- Transmits alerts from the TPX radar detector and laser jammer along with music and sound from any device with a 3.5mm audio-out plug
- Includes AC wall charger

Description	WPS#	
TPX Bluetooth transmitter	71-9115	

TPX™ 12 VOLT POWER SUPPLY

- Power or charges any USB device
- Can also be used in conjunction with the TPX™ Bluetooth adapter, eliminating the need to charge with the AC wall charger

Description	WPS#
12 volt power supply	71-9116

WIRELESS HEADSET

- For use with the TPX Radar/Laser Detector main console
- Alerts the rider to the detection of radar/ laser signals by audio beeps through the earphone
- Wireless, water resistant design easily attaches to most open or full face helmets
- Can be used in conjunction with the TPX Visual Alert
- Powered by a lithium coin cell battery (included)

WPS# 71-9102

VISUAL ALERT

- For use with the TPX Radar/Laser Detector main console
- Alerts the rider to the detection of radar/ laser signals by flashing 3 ultra bright LEDs
- Water resistant and designed to be mounted most anywhere: gauge cluster, handlebars
 ofc
- Ideal for riders that don't wear a full or open faced helmet, can be used in conjunction with the TPX Wireless Headset

WPS# 71-9106

For radar detector mounts, see page 99

ACCESSORIES AND MOUNTS FOR TPX SERIES RADAR/LASER DETECTOR

- AdaptivMount mounting assemblies are constructed from high strength steel and aircraft grade aluminum and feature AdaptiSorb anti-vibration technology
- Universal Mount Adapter Only needed of you want to replace a lost or damaged mount adapter or want an addition mount for another motorcycle

L

- AdaptivGrip device holder holds devices up to 5/8" thick and 4 1/4" wide, compatible with all mounts w/AMPS hole
- Automotive Mount Allows you to use the TPX Main Console in a car, truck, SUV etc. Includes mount plate and cigarette lighter adapter
- Replacement Wiring Harness Only needed if you want

	 Replacement Wiring Harness - Only neede to replace a damaged harness or use your Console on another motorcycle 	d if you want TPX Main

	Base Descriptions	RAM #	WPS #
١	2.5" Composite base that connects to a 1" ball, double-sided adhesive PSA stick pad and sealed alcohol prep pad	RAP-B-378U	71-7207
	2.25" x 0.875" base with 11mm hole provides a universal platform to mount on using a 1" diameter rubber ball	RAM-B-252U	71-7208
	1" diameter ball and base with an offset 9mm hole	RAM-B-272U	71-7209
	Motorcycle handlebar base designed to mount on rails that are 0.5" to 1.25" in Diameter and provides a 1" diameter rubber ball to mount from	RAM-B-231ZU	71-7210
	Connects to a handlebar that is from .5" to 1.25" in diameter or the brake/clutch reservoir clamp. Provides a 1" diameter rubber ball to mount off of	RAM-B-309-7U	71-7212
	Fork stem mounted motorcycle base that fits .5" to 1.10" diameter holes and provides a 1" diameter rubber ball to mount off of	RAM-B-342U	71-7213
	Hardware replaces most M8 size bolts and provides a 1" diameter ball to mount from. Comes with the following bolts, M8 x 55 bolt (1.25 thread pitch), M8 x 65 bolt (1.25 thread pitch), M8 x 65 bolt (1.25 thread pitch)	RAM-B-367U	71-7214
	Steel strap base to fit rails .5" to 3.15" in diameter with a 1" diameter rubber ball to mount off of	RAM-B-231Z-2NUBU	71-7221
	3.25" Twist lock suction cup base that is connected to the RAM-B-238U diamond base with 1" rubber ball	RAM-B-224-1U	71-7216
	Fits over your brake/clutch reservoir cover using the exhisting hardware and comes with the 1" ball offset to mount off of	RAM-B-346U	71-7218
	M10 x 1.25 Pitch threaded stud connected to a 1" rubber ball	RAM-B-349U	71-7242
	Stainless steel double u-bolt base connected to a 1.5" diameter ball. The double u-bolt base will accommodate rails from 1" to 1.25" in diameter	RAM-235U	71-7222
	1.5" Diameter rubber ball connected to a 2.5" universal AMPS hole pattern	RAM-202U	71-7223
	1.5" Ball quick release track base (track dimensional range .25"562")	RAP-383U	71-7224
	EZ-ON/OFF™ low profile handlebar mount. Attaches with zip ties and will fit on almost any handlebar over .5" in diameter. Needs adapter WPS # 71-7206	RAP-274-1U	71-7225
	Tough-Claw mount universal clamp w/1" ball, fits rails .625"-1.5" in diameter	RAP-B-400U	71-7026
	Tough-Claw mount universal clamp w/1" ball, fits rails 1"-2.25" in diameter	RAP-B-401U	71-7033
	Medium Tough-Claw w/1" diameter ball	RAP-B-404U	71-7230
	2"x1.7" Base w/1" ball and AMPs hole pattern to fit Garmin Zumo, Tom Tom Rider & Urban Rider	RAM-B-347U	71-7226
	Rail base w/stainless U-bolt & 1" ball, fits .5" to 1" rails	RAM-B-231U	71-7211
	Rail base w/stainless U-bolt & 1" ball, fits .5" to 1" rails (chrome)	RAM-B-231CHU	71-7211C
	Brake/clutch reservoir base with 1" Ball	RAM-B-309-1U	71-7241
	Brake/clutch reservoir base w/qty. 2 1" balls	RAM-B-309-2U	71-7240
	Brake/clutch reservoir base w/qty. 2 1" balls (chrome)	RAM-B-309-2CHU	71-7240C
	Brake/clutch reservoir cover base w/1" centered ball	RAM-B-345U	71-7229
	Rail base w/zinc coated U-bolt, ATV/UTV strap & 1" ball for rails to 3.15" in diameter	RAM-B-231Z-2U	71-7215
	U-Bolt handlebar base with 1/4" NPT threaded hole	RAM-B-241U	71-7217
A	1" Ball adapter for brake/clutch reservoir base	RAM-B-309-3U	71-7243
В	1/4"-20 x 21/4" Threaded stud w/1" ball	RAM-B-273U	71-7244
C	3/8" Threaded post w/1" ball	RAM-B-236U	71-7246
	M10 x 1.5 Threaded stud w/1" ball	RAM-B-349-1U	71-7252
D	1" Tough-Ball™ w/¼"-20 x ¼ " male threaded post	RAP-B-379U-252025U	71-7248
	Composite rail base w/1" ball for rails from ¾" to 1" in diameter	RAP-B-231U	71-7272
	Pivot mount w/1" ball, inc. M8 & M10 stud mounts	RAM-B-360U	71-7204
G	1" ball with V-mount, fits rails 1" - 2.1" in diameter	RAM-B-108BU	71-7227
Н	Torque™ mount w/1"ball, fits rails 3/8" - 5/8" in diameter	RAM-B-408-37-62U	71-7253
	Torque™ mount w/1"ball, fits rails 3/4" - 1" in diameter	RAM-B-408-75-1U	71-7254
J	Torque™ mount w/1"ball, fits rails 1 1/8" - 1 1/2"	RAM-B-408-112-15U	71-7255
K	Gas tank mount w/1" ball, fits most Honda, Suzuki, KTM, Victory and Yamaha models with 3.5" bolt circle gas cap	RAM-B-410U	71-7231
L	Gas tank mount w/1" ball, fits most BMW and Kawasaki models with 4" bolt circle gas cap	RAM-B 411U	71-7232

SOLO SEAT MOUNTING KIT

- TC Bros. Choppers solo seat spring mounts are CNC machined from 1018 cold rolled steel and are ready to weld on
- Stud is 3/8" diameter and base is 1" diameter with a 1 1/8" radius coped into the mount
- Easily fits 1" and 1 1/4" cross tubes

TC Bros.

- Includes a pair of hairpins, steel washers, and leather washers to keep your springs quiet and protect your paint
- The pivot bracket is made from one piece of 3/16" steel for the ultimate in strength and simplicity
- Long slotted holes permit a wide range of fitments and

- The bracket is a black powdercoat finish for durability
- The weld-on pivot mount is raw finish steel and ready to weld
- The hardware is stainless steel
- The replaceable bushings are oil impregnated bronze for a squeak free ride and very long life.
- · Fitment possibilities are nearly endless

	Description	WPS#

AIR RIDE SOLO SEAT BRACKETS

- This kit provides the ultimate in comfort, vibration dampening, and adjustability for your hardtailed chopper or bobber
- Single or dual compact rubber air springs available
- The air spring uses a bicycle style schrader fill valve
- Easily inflate the air spring from 1psi-100psi depending on rider weight and desired firmness
- This kit gives you a 2.1" length of travel comparable to a set of 3" seat springs but with better vibration damping
- No "metal on metal" contact!

- Slotted mounting holes on the 1/4" thick steel seat bracket allows universal fitment
- The seat bracket is powdercoated black for durability
- Weld-on frame mounting bracket is formed from one piece of steel
- The frame mounting bracket is coped for perfect fitment on 1 1/8" diameter frame tubing but can easily fit 1" or 1 1/4" crossmembers as well
- The frame bracket is raw finish mild steel for easy weldability

	Description	WPS#

В	Dual Air Ride Solo Seat Kit	563-01301

RIGID SEATS

TC Bros. Cobra hardtail chopper seats feature quality American construction and timeless looks. Handmade in the USA, these seats are designed to be a perfect fit to our 1982-03 Sportster weld-on hardtails using our mounting kit, fender, and sissy bar (sold separately). Six 5/16-18 threaded mounts on the heavy 14 ga powder coated steel seat pan make it possible to fit these seats to many other hardtail frames as well. Hand stitched from 100% Marine grade vinyl, these seats look like leather but without the maintenance.

RIGID SEAT MOUNT KIT

Everything you need to mount your TC Bros. King Cobra Seat. Weld on bracket is coped to fit our Sportster hardtail perfectly. Mounts are slotted if you want to us this for a universal/custom use.

REAR SEAT PADS

Nothing will ever provide long distance riding comfort for the motorcycle passenger like a full size seat. The posterior support of a large 13" wide seating area is complemented by an ergonomically correct shape that eliminates pressure on the tail bone!

The ButtyBuddy motorcycle seat provides passengers on-demand comfort when riding on bikes with small pillions or bare fenders. The portable 3 piece seat comes with its own tote and snaps together in seconds, providing correct shape and width necessary for enjoying those long road trips. Thousands have been freed from serious numb-bun pain, and

- WIDTH Butty Buddy is a huge 13.5 inches wide. That's wider than 86% of the pillions on expensive aftermarket seats. Gel pads and Air cushions cannot increase seating width.
- SHAPE Butty Buddy's ergonomic shape minimizes pressure at the tail bone. 90% of all aftermarket seat pillions are shaped wrong. Pads and cushions cannot modify seat shape.
- WARRANTY ButtyBuddy is unconditionally warranted for a lifetime. Very few expensive aftermarket seats, gel pads or air cushions dare to offer a warranty like ours.

	Description	WPS#	
Butty Bu	ddy for Over Existing Seat Application	823-10001	
Butty Bu	ddy for Bare Fender Application with Suction Cups	823-10002	

*NOTE: Do not attempt to use 823-10002 on flat finish paint jobs

SEAT CUSHIONS

Developed by a pioneer in the medical industry, the technology used in the Airhawk seat cushion was originally developed to prevent pressure injuries of patients who were bed-ridden or confined to a wheelchair. By using interconnected cells, the Airhawk cushion can adapt to the individual contours of the rider, and distribute weight in a way regular seats and pads can't. The non-slip surface on the underside of the pad sits securely on the top of the seat, and also comes with attachment loops for semipermanent mounting and

The last mile will feel like the first!!

- · Stress Relief design features reduced pressure points on the tail bone, scrotum and prostate areas
- Cell heights on front lowered for better leg passage
- Ergonomically form fitting design allows better conformity to a multitude of seat shapes and sizes
- The cover is a breathable spacer mesh cloth material w/red vinyl accent, non-skid bottom material
- · The inner bladder is manufactured out of Polyurethane
- · Airhawk seat cushions have a 2 year warranty

- · Cruiser R Small: will fit Sport Touring, Sport Bikes, Dual Sports, Standards, and non-**Touring Harleys**
- Cruiser R Large: Big Cruisers, H-D Touring models and non-H-D Touring models.
- Medium cruiser: fits Big Cruisers, Sport Touring, Standards, and Non-Touring Harleys
- Cruiser pillion: fits passenger seats of Sport touring, Dual Sport, Standards and Non-Touring Harleys.
- DualSport: fits dual sport bikes as well as hard-to-fit seats where the Cruiser and Medium Cruiser are too wide and the Small Cruiser is too long

Crliseliner QUICK RELEASE SADDLEBAGS

- Easy-to-use, quarter-turn fasteners for no-tool removal of the saddlebags from the mount frames in just seconds!
- A keyed, push-button lock is recessed into the lid
- Lids are hinged in the front and swing forward for easy access to the interior
- Tight-fitting seals conform to the shape of the lid to keep the elements out
- Mount Kits are custom engineered for each model bike to exact specifications and are guaranteed to fit
- Cruiseliners[™] are painted gloss black and ready to mount or custom paint to match your bike

Bags and Mount Kits sold separately. Mount kits available in Black Powdercoat or Chrome, depending on application. Kits include saddlebag mount frames, hardware and instructions.

Quick release quarter-turn fasteners are located inside the bags for easy, no-tool saddlebag removal in seconds.

Which Cruiseliner Style is Right For You?

Choose the "pocket back" style (562-40100) if you wish to retain the stock turn signals mounted on the rear of the fender struts. These bags feature a cutout for turn signal clearance.

If you decide to use an OEM or aftermarket turn signal relocation kit, or if your turn signals have already been mounted by the taillight, you can use the "smooth back" style (562-40101).

National Cycle's 562-40836 (shown above) for late model Sportsters® includes all the hardware required for turn signal relocation. With 562-4083C, you can choose the turn signal placement and Cruiseliner saddlebag style that's right for you.

XL883N, XL1200N, XL1200V and XL1200X require HD part number 562-41004 License Plate Relocation Kit.

† 562-40101 smooth-back bags may be used when eliminating the turn signal stalks. All hardware provided mount kit.

§ The Bad Boy is all black, the turn signal relocation bracket is chrome plated--the owner may want to paint this bracket to match the motorcycle.

@ The Fat Boy comes with a "Shotgun" style exhaust. In order to use 562-4084C, a low exit exhaust must be used. Staggered dual exhaust is OK. The turn signal relocation bracket will work, but the assembly method for the turn signal is different than the FX Softails and is not documented in the instructions

‡ 562-40101 Smooth Back Saddlebag can be used as long as the turn signals are dealt with in a suitable manner.

GENUINE LEATHER LUGGAGE

The Willie & Max Leather Luggage Series is a classic design, made in Wisconsin with the same premium cow hides that are used to make OEM bags. 100% Genuine Leather designed and made in the USA

SADDLEBAGS

- These American hard mount motorcycle saddlebags, must be used in conjunction with a saddlebag bracket system
- Large size gives you plenty of room to carry everything you need wherever the road may take you
- Interior is supported with a plastic liner to help keep the bag from sagging
- Quick release buckles hold the outer flap down while the black buckles give a modern look to the bags

Includes two bags

- •Ventura- Exterior Dimensions 11" x 13" x 8"
- •Montana- Exterior Dimensions 11" x 13" x 7"
- •Mighty Legend- Exterior Dimensions 11" x 13" x 7"

WINDSHIELD BAGS

- The size makes it ideal for small items like tools, gloves, sunglasses or other small items you may take on the road with you
- These are available in high or low mount mount versions, and are available to fit Harley-Davidson or Metric windshields
- Chrome, turnbuckle style closure
- Exterior Dimensions 5" x 9" x 3.5"

FORK BAGS

- This is an authentic retro American leather fork bag made with 100% leather
- The size makes it ideal for small items like tools, gloves, sunglasses or other small items you may take on the road with you
- The bag can be mounted to a variety of locations on your bike, including the swing arm, rear fender support and other places that have structure to support the bag
- Mounted with leather straps to the front fork of your motorcycle or other locations
- Uses traditional belt buckles to close the bag
- Exterior Dimensions 5.5" x 10" x 4"

SKATE SACK SIDE BAG

Never be caught without your second set of wheels. Our new Skate Sack makes transporting your other ride even easier. These bags are made inside-out to optimize structure and space, and the adjustable mounting straps allows it to fit on a number of bikes (see photos). As always, the Skate Sack is made in the U.S.A with all-American leather and hardware.

Description	WPS #
Skate Sack LEFT	811-30200
Skate Sack RIGHT	811-30203

SPORTY SACK SIDE BAG

The sporty sack is the perfect bag for every Sportster. It's nice to have somewhere to store some tools, your paperwork, and a small jacket, whatever it may be. The design of this bag is big enough for storage but small enough to maintain the look of the bike. The sporty sack can be mounted in 2 ways, you can use the adjustable leather straps to attach around the fender strut or the stationary straps with grommets attached to the fender strut bolts. The bag will fit 1957-Up Sportster applications. We have left, and right side available to order.

PLEASE NOTE: Bag may not fit all leather jackets.

Description	WPS #	
Sporty Sack, Left	811-30201	
Sporty Sack, Right	811-30202	

SIDE BAGS

- · Solo side bags for various applications in different styles
- Made of durable vinyl

TC Bros.

DIY SISSY BARS

Kit includes a precision CNC bent sissy bar hoop, axle plate mounting tabs, 3/8-16 threaded radius bungs, mounting bolts, and leather washers to protect your paint. Simply trim the hoop to your desired height and weld the included tabs and bungs to the hoop. The hoop is constructed from premium 1/2" diameter 1018 cold rolled American steel for high strength and easy welding. The threaded radius bungs allow for mounting bolts to be hidden on the underside of your fender for a professional looking installation. Universal design is perfect for both flat or round profile rear fenders and proudly made in the USA!

firebrand LUGGAGE / SEATS **GP TOURING SLIP-ONS** EXHAUST

Grand Prix Slip-Ons take Firebrand's aggressive styling to the next level. Don't be fooled by their good looks, the Grand Prix Slip-Ons are not only for show. Inside the 4" muffler bodies are free flowing, stainless core baffles wrapped in dual-density packing. Engineered for today's larger displacement motors, they deliver increased performance,

Billet aluminum MotoGP[™] inspired end caps

and a sound so deep you can feel it.

- Deep race sound delivered through high performance stainless core baffles
- Engineered to maximize power in today's larger displacement motors
- · Work with extended saddlebags and skirts
- · Available in show quality chrome or black ceramic finishes

Not legal for use in California on pollution controlled vehicles - check local laws before installation

Application	Year	Chrome	Black	Inserts (each)

FIFTYTW052 2 IN 1 EXHAUST

Named after the RPM point at which an engines horsepower equals its torque, The FiftyTwo52 was engineered with one priority: performance. Beginning with the 1 ¾ matched ratio head pipes, exhaust pulses are synchronized to allow for optimized scavenging of exhaust pressure. Flowing into the Powercurve, True-Merge Collector, the exhaust will maintain velocity and experience the smoothest transition possible. Moving into the muffler, a 2 ½ free flowing, perforated core baffle provides the least interference as the exhaust escapes.

And it doesn't all end with performance. The 20 degree upswept muffler with MotoGP™ inspired end treatment attains a unique and aggressive style, while the dual layer baffle packing produces an incredibly deep race tune. Integrated heat shields and Firebrand's hand crafted quality complete the package.

- Proprietary Powercurve, True-Merge Collector
- Billet aluminum MotoGP™ inspired end cap
- Race inspired, stainless core, high performance baffle
- Unmatched combination of horsepower and torque
- · Available in show quality chrome or black ceramic finish

Application	Year	Chrome	Black

RIP - ROD SLIP-ON EXHAUST

Take your bike, throw in some hard tail chopper, a touch of '32 Ford, and a rebellious attitude, and you have Firebrands Rip-Rod slip-ons. Retro style ripple pipe and old school end caps deliver a modern variation on the glory days when guys chopped, channeled and raced whatever they could get their hands on to prove who was coolest.

• 2 1/4" rippled muffler bodies

- Billet aluminum hot rod style end caps
- Maintenance free, removable baffles
- All mounting hardware included (Universal kit includes bracket mount hardware)

Chrome, Black and Gold End Cap Kits available separately

	Application	Description	WPS #
Α	Fits `70-84 4-Spd FX Models	40" Slash Drag Pipes	830-3506
		Hanger Bracket for 830-3506	830-3512
В		34" Goose Cut Drag Pipes	830-3507

SPORTY DRAGPIPES

These 1-3/4" drag pipes bolt to the stock HD mounting bracket on '86-03 models, on later

Application

models mounting hardware is included for a quick and painless installation. They fit all 883, 1100 and 1200 models. Not legal for use in California on pollution controlled vehicles- check local laws before installation

WPS#

830-3503

FISHTAIL EXTENSIONS

Different length Fishtail extensions for universal applications that will slip over any 1¾"-diameter headpipe. All measurements shown are overall lengths. Sold each.

	Description	WPS #
Α	Fishtail Extension 18" Long	830-3026
В	Fishtail Extension 31" Long	830-3027
C	Fishtail Extension 31" Long Upswept	830-3028

UNIVERSAL MUFFLERS

Different length Fishtail mufflers for universal applications that will slip over any 1-3/4"-diameter headpipe. All measurements shown are overall lengths. Sold each.

	Description	WPS #
	3" Turn Down or Turn Out Muffler 31"	830-3020
Α	Bell Tip Muffler Short 20"	830-3021
В	Bell Tip Muffler Long 22"	830-3022
C	2-1/2" Fishtail Muffler 22.5" Right Mounting Slider	830-3023
D	2-1/2" Fishtail Muffler 22.5" No Mounting Slider	830-3024
Е	2-1/2" Fishtail Muffler 28"	830-3025

MUFFLERS CLAMPS

Great for mounting universal mufflers. Sold each.

Description	WPS #
Muffler Clamp 3"	830-3050
Muffler P-Clamp 3"	830-3051
Muffler Clamp 2-1/2"	830-3052
Muffler P-Clamp 2-1/2"	830-3053

TC Bros Choppers do it yourself builder's exhaust kits fit all Harley Davidson engine generations from Pan to Twin Cam including Sportsters. This kit comes with everything you need to cut and weld a set of custom pipes for your bike and is made right here in the USA! All tubing is 1.75" OD x 16ga Wall (.065" Thick) American made mild steel for superior weldability. All bends are 3.5" centerline radius and are produced using a CNC mandrel bender for accuracy and maximum exhaust flow. Kit includes qty 2 90 degree bends, 2 180 degree bends, 3 straight tubing pieces, 2 U-channel mounts, and the proper heavy duty flange set to fit your bike with a leak free seal. This DIY kit is the perfect way to build the unique looking set of pipes you desire!

Not legal for use in California on pollution controlled vehicles, check local laws before installation.

	Application	WPS#
Α	Evo, Twin Cam and Sportster	563-01900
В	Shovelhead	563-01901
C	Ironhead Sportster `57-85	563-01902
D	Panhead	563-01903
Е	STD Pan and Shovel 3 Bolt	563-01904

EXHAUST FLANGE KITS

TC Bros Choppers do it yourself builder's exhaust flange kits fit all Harley Davidson engines including all Sportster '57-up and Big Twin models. This DIY flange set is perfect for the exhaust pipe builder who has access to a tubing bender. Tubing is 1.75" OD x 16ga Wall (.065" Thick) American made mild steel for superior weldability. These heavy duty flanges are designed to provide a leak free seal.

	Application	WPS#
Α	Evo, Twin Cam and Sportster	563-01910
В	Shovelhead	563-01911
C	Ironhead Sportster	563-01912
D	Panhead	563-01913
F	STD Pan and Shovel 3 Bolt	563-01914

STEEL EXHAUST DONUT

- Steel exhaust donuts perfect for the custom exhaust builder
- Full 360 degree bend allows it to be cut to find that perfect angle
- Mandrel bending process guarantees 100% wrinkle free bends with no crimping

Application	WPS #
16G Steel Exhaust Donut 1 3/4" Dia.	820-0161
16G Steel Exhaust Donut 2" Dia.	820-0162

UNIVERSAL MUFFLERS

• Two unique styles available

- Ideal for DIY exhaust builder kits
- Fit 1-3/4" head pipes

	Description	WPS #	
Α	Shorty Muffler	750-01700	
В	Cigar Muffler	750-01701	

Not legal for use in California on pollution controlled vehicles, race use only in California - waiver available

- New twist on the classic trumpet muffler with gold or black grooved billet endcap
- Muffler has baffle installed and comes with reducer sleeves to fit 1 3/4" to 1 1/2" headers
- Universal mounting strap included
- Sold each

	Description	WPS#	
Α	Megaphone Muffler	820-0070	
В	Trumpet w/Black Endcap	820-0071	
C	Trumpet w/Gold Endcap	820-0072

EXHAUST WRAP KIT

An all in one kit for wrapping one set of motorcycle pipes. Kit includes two rolls of 2"x15ft wrap, one can of silicone coating and stainless steel locking ties.

Description	WPS#
Motorcycle Exhaust Wrap Kit, Black Wrap/Black Coating	790-01000
Motorcycle Exhaust Wrap Kit, Tan Wrap/ Coating	790-01001
Motorcycle Exhaust Wrap Kit, Tan Wrap/White Coating	790-01002

EXHAUST WRAP & TIE KITS

Convenient pack with one roll of 2"x25ft wrap and stainless steel locking ties.

Description	WPS#
Wrap and Ties Kit, Black	790-01010
Wrap and Ties Kit, Tan	790-01011
Wrap and Ties Kit, Titanium	790-01012
Wrap and Ties Kit, Black	790-01013
Litanium	

INDIVIDUAL EXHAUST WRAP ROLLS

• Decreases exhaust density & increases exhaust flow

- Improves horsepower
- Sewn in guide lines for proper overlap
- Tan & black wraps withstand 1200 F direct heat, titanium withstands 1800 F direct heat
- Titanium wrap requires no coating or pre-wetting

Description	WPS#
Black wrap 2" x 50'	790-01030
Tan wrap 2" x 50'	790-01031
Titanium wrap 2" x 50'	790-01032
Black titanium wrap 2" x 50'	790-01041
Black wrap 2" x 15'	790-01033
Tan wrap 2" x 15'	790-01034
Titanium wrap 2" x 15'	790-01035
Black titanium wrap 2" x 15'	790-01040

GEN III ONYX HEATSHIELDS

DEI has expanded its award winning Flexible Heat Shields to include additional sizes and premium nishes. Each shield uses our reliable stainless standoff bracket and includes mounting hardware for easy installation.

ONYX UNIVERSAL HEAT SHIELD

- Aluminum Impregnated fabric outside layer, high temperature resistant fabric (89% silica) inside layer capable of withstanding extreme exhaust heat – up to 1350°F
- Flexible material for easy fit on many pipe diameters
- Stainless steel hardware

Description	M L 2 #	
Onyx Universal Heatshield Black 4"x8"	790-01200	

EXO EXHAUST WRAP

- The EXO Series[™] exhaust wrap is a dual-layer design, using a combination of hi-temp fiberglass, covered with a 304 grade stainless steel exoskeleton. The stainless steel exoskeleton hooks together when overlapped, saving time and making installation much easier.
- Each kit includes a 1.5"x 20' roll of wrap, stainless steel locking ties, and installation tool.

Description	WPS#
Exo Wrap Tan	790-01036
Exo Wrap Black	790-01037

LOCKING TIES

- Self locking design
- Constructed from high grade 304 stainless steel
- Capable of withstanding in excess of 2500 F
- 100lb tensile strength

Description	WPS#
Stainless Steel Locking Ties 8" (8 pack)	790-01100
Stainless Steel Locking Ties 14" (4 pack)	790-01101
Stainless Steel Locking Ties 20" (10 pack)	790-01102

HT SILICONE COATING

Recommended for use with DEI non-Titanium exhaust wraps. HT silicone coating penetrates, seals and protects as well as helping to extend the lifespan of exhaust wrap.

- Protects from abrasions, hot oil spills & road grime
- Heat protection up to 1500 F
- For use on engine blocks, pipes, manifolds and more
- 12 oz. can (6 cans in a case)

Description	WPS#
HT Silicone Assortment Case (2 of each color)	790-01150
HT Silicone Coating, Black	790-01151
HT Silicone Coating, Aluminum	790-01152
HT Silicone Coating, White	790-01153

LOCKING TIE TOOL

The DEI Locking Tie Tool will fit on the end of any standard ¼" drive extension so working in tight spaces where your hands don't fit is no problem. The tool works with all the popular styles of stainless ties up to ½" wide. Simply engage the tie, and twist. This gets the tie nice and secure, without any hassle.

Description	WPS#	
Locking Tie Tool	790-01105

MASTERTUNE SYSTEM FOR V-TWIN

The TTS MasterTune System is designed specifically to tune all 2001 and later Delphi-equipped Harley-Davidson® motorcycles, and includes four powerful Windows®-based programs, including:

MasterTune2-HD:

An ECM calibration development tool that allows you to:

- Choose from a wide selection of base maps
- Save and Restore current calibration (factory or other)
- Modify many critical ECM tables and constants
- Graph tables in 2D or 3D
- · Quickly compare changes in tables
- · Correct speedometer calibration
- Change primary ratio

VTune3-HD:

Assists you with:

- Calibrating VE tables
- Calibrating spark tables
- Calibrating EGR correction tables
- Verifying injector sizing

DataMaster2-HD:

A diagnostic and calibration support tool that allows you to:

- Check and Clear diagnostic codes
- Utilize VTune Histogram for tuning development
- View real time engine parameters
- Playback recorded data
- Analyze Camshaft settings
- Analyze IAC warmup settings
- \bullet Simulate dyno and $\mbox{\em 1}\!\!\!/_4$ mile results

Flight Recorder:

Configures a Communications Interface to allow you to:

- · Record data without a computer
- Record as much as 8 hours of data
- Store up to 64 recordings
- · Automatically start and stop recordings

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

- All TTS MasterTune software is compatible with 32- and 64- bit versions of Windows 7 and newer
- Cables sold separately
- Made in USA

TIER1 FUEL OPTIMIZER FOR HARLEY DAVIDSON

CCT is an acronym for "Consecutive Cycle Tuning". We use CCT to describe our fuel tuning process, which is the measuring of consecutive cycles of power, with unique amounts of fuel to determine which fuel amount provides the best acceleration.

The process, in many ways, is identical to the acceleration measuring procedure used in today's most popular tuning dynamometers, such as, those made by Dynojet and other companies. The important thing to remember is the time between consecutive cycles of power and between fuel adjustments on a dynamometer are measured in minutes and is based on one style of load or acceleration simulation at any given time, while the Tier 1 Tuners innovative +CCT Acceleration Tuner technology has a time between consecutive cycles of power and tuning of fuel that is measured in milliseconds and is based on Real Time/Real Life constant feedback.

The Tier 1 Tuners +CCT Acceleration Tuner can now provide your motorcycle with Real Time fuel adjustments that will optimize acceleration and compensate for the constantly changing Real Life conditions, (i.e. 1up/2up, head winds, tailwinds, uphill, down hills, etc.) which substantially affects the performance mode operations of your motorcycle throughout your normal daily driving.

The +CCT's patented technology adds a "Closed Loop" control system to your bikes fuel injection system.

Almost all motorcycle fuel injection systems in use today are using "open loop" control systems when they are being driven in a performance manner. "Open loop" refers to a control system that does not have feedback to adapt to conditions outside of its current programing, while a "closed loop" control system functions by its ability to take feedback from an engine sensor. For example, the oxygen sensors common on many of today's motorcycles use this type of system in cruise, but not in power mode.

The +CCT Acceleration Tuner unit will add a "closed loop" control system to your current fuel injection system while it is in performance mode. The +CCT Acceleration Tuner adjusts fuel while receiving feedback from the engine's acceleration in Real Time/Real Life. The fuel is changed to whatever is needed to optimize the engine's acceleration while in performance mode.

Tier1Tuners +CCT Acceleration Tuner can provide up to 95% optimization under Real Time/Real Life performance acceleration.

Most motorcycles today that use an "open loop" control system during power mode operation are typically about 70% optimized (because of various Real Time/Real Life road conditions). When optimizing the fuel map to 70%, a 30% margin is created to maintain good drivability over the full range of acceleration rates found in real life performance driving. The +CCT Acceleration Tuner's "closed loop" functionality cuts this margin of error from 30% to only 5% thus giving you up to 95% optimization under Real Time/Real Life performance.

Tier1Tuners new +CCT Acceleration Tuner is a standalone performance product. It requires no other modifications to deliver its performance potential. The +CCT Acceleration Tuner derives its benefit from its Real Time/Real Life "closed loop" functionality, not from making a better or different open loop fuel map.

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

- Real Time Fuel Adjustments
- Up To 95% Optimization Under Real Life Acceleration
- Works On Stock Or Currently Mapped Bikes
- Measures only 2"x1"x1/4"
- Made In The U.S.A

The EJK (Gen 3 Electronic Jet Kit) evolved out of the need to address the ever-increasing complexity of factory fuel injection. For the newcomer to the market or professionals wanting an easier method for tuning fuel injection, the EJK is a customizable solution for the shop that wants to take control of their tuning needs.

- No computer needed
- No dyno required
- Quick "plug and play" installation, initial settings are all preset based on make/
- · Full range tunability, does not interfere with stock ECU
- · Simple push button adjustment interface
- 2 year warranty
- · Not legal for use in California on pollution controlled vehicles - Check local laws before installing

FUEL TUNER

The AFR+ brings together two technologies within one system to make it the most powerful, user-friendly tuning device on the market. AFR+ combines an EFI controller with a wideband O2 sensor and AFR gauge to provide a user instant fuel trimming ability and feedback about their vehicle's state of tune.

- · Maximizes power and fuel economy
- Plug and play installation
- On the fly tuning, no dyno required
- · Works with all ECU downloads and all brands of aftermarket ECU controllers
- · Does not interfere with stock ECU
- operation
- · Includes air/fuel ratio gauge (2 1/8" diameter), wideband controller and Bosch O2 sensor (gauge mount and O2 sensor bung not included)
- · Harley Davidson AFR gauge is chrome w/white face/orange needle

- 1 Year warranty, will not void any OEM factory warranties
- · Not legal for use in California on pollution controlled vehicles -. Check local laws before installing

TWIN TUNER

The Twin Tuner allows you to easily adjust your fuel injection to match the requirements of performance parts including camshafts, free flowing exhausts, and low restriction air filters. You can add up to +30% or subtract down to -20% fuel.

You can use the mode and up/down pushbutton switches to make fuel trim adjustments in the RPM and throttle position ranges required by most applications. The fuel trim value is displayed on a bright daylight readable LED display. The Twin Tuner also has an advanced mode, where you can use the optional USB Interface and PC Link Tuner software to make precise fuel adjustments. The USB interface also allows you to make independent adjustments to the front and rear cylinders.

- Increases horsepower
- Improves throttle response
- · Easy plug-in installation and setup
- Very compact size only 4" L x 2" W x 1/2" H
- Optional USB interface and PC link tuner software available to make precise fuel adjustments
- Oxygen sensor eliminator kits available separately (model depending) for more precise tuning at idle and partial throttle

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

TWIN TUNER II

The Twin Tuner II has all of the features of the Twin Tuner and also allows retarding of the spark timing up to 10° to help prevent pre-ignition knocking.

The user interface consists of up/down push buttons and a bright daylight readable LED display to select and change the fuel trim and spark retard in the RPM and throttle position ranges required by most applications.

TCFI EFI CONTROLLERS

- Fully programmable plug-in replacement for 36 pin Delphi controller with J1850 data bus
- Quickly auto-tune fuel curves for front and rear cylinders on a dyno or on-road with new WEGO IIID dual channel wide-band oxygen sensor interface
- Robust alpha-N (throttle position and RPM based) fuel control eliminates problems with long duration/high overlap camshafts
- Extended data logging and diagnostics
- DataFLASH memory stores full 60 minutes of operating data at 10 samples/second

- Powerful Windows software for custom programming and data analysis
- Programmable user input for functions (not available in TCFI EX version)
- Programmable user output for functions (not available in TCFI EX version)
- · Billet aluminum housing with black anodized finish
- Support for new 6th gear indicator on '07-13 models
- Easy plug-in installation Supports all sensors including theft/security module

Not legal for use in California on pollution controlled vehicles - check local laws before installation

The TCFI kit includes the WEGO IIID dual channel wide-band exhaust gas oxygen interface that allows quick auto-tuning on a dyno or

on-road during actual riding conditions. The kit includes Bosch LSU 4.2 wide-band sensors for both front and rear cylinders. The TCFI solves tuning problems with highly modified engines. Competitive "band-aid" products that interface to the Delphi® controller still rely on speed-density fuel control. Long duration/high overlap camshafts wreak havoc with manifold pressure - especially at idle and cruise RPM. Speed-density based fuel control simply can't cope.

IGNITION & FUEL MODULE

The new Fusion FI controller combines both fuel and ignition tuning into one device and comes equipped with factory connectors for easy installation.

- PC programmable fuel & ignition maps
- 2 position map switching function
- · Gear position input
- Analog input for 0-5 volt input for boost mapping
- · Individual cylinder mapping
- -100/+250% fuel adjustment range
- Can use Power Commander maps
- Self Tuning with the DynaTune autotune

Not legal for use in California on pollution controlled vehicles - check local laws before installation

NOTE: Only works in conjunction with Dynatek Fusion Control Module, it is not a stand alone tuner.

DYNATUNE AUTOTUNE KIT

The DynaTune kit monitors the fuel mixture (by installing the included Wide Band O2 sensor(s) in the exhaust). It then sends this information to the Dynatek Fusion Control Module and automatically corrects it as you ride, letting you feel the changes as they happen. Each map that we offer has preset Air/Fuel ratio target values included that we find to be the best overall settings.

This lets you simply plug in the unit and let it do the work. For advanced users who would like to change the Air/Fuel ratios from our baseline, they are fully adjustable. Each throttle opening/rpm combination is individually adjustable, so that you can have both fuel economy, during cruise, while maintaining peak output at larger throttle openings. For most models of bikes it is also possible to adjust the Air/ Fuel ratios "per gear". make adjustments.

This gives you total control of the fueling in every gear and throttle/ rpm area if required. The DynaTune kit can be configured to run and make adjustments at all times or by using the "map switch port" on the Dynatek Control Module you can set it up so that you can switch back and forth between the tuning mode and the base map settings. You can also configure the DynaTune kit to wait until the bike is at a certain operating temperature before beginning to make adjustments.

FLASH TUNER

The Power Vision incorporates a very sophisticated, yet simple touch screen display that DOES NOT require the use of a computer to flash your bike or to use Auto Tune! Simply select the tune, follow the on-screen prompts to download the tune, and if you'd like, edit your tune without ever touching a computer! That's right, you can flash and make changes to your tune without ever getting off your bike.

Power Vision downloads and stores the stock calibration, and lets you select up to 8 different tunes that are stored on the device, and can be flashed to your bike. The types of tunes include:

- Dynojet Preconfigured Tunes Tunes for YOUR bike pre-loaded on the device... ready to go, right out of the box! Power Vision identifies your bike's information and automatically sorts hundreds of applicable dyno proven tunes for you to choose from.
- Custom Tunes loaded by a custom tuning shop, or received via email and loaded on the device.
- Copy of Original or Copy of Current a version of the Original calibration that was saved when the Power Vision was married to the ECM. Or a version of the Current calibration that is currently saved in the ECM.

Power Vision provides insightful, valuable information on how your bike is running:

- Display all J1850 and CAN H-D vehicle data as well as wide band air/fuel ratio1 and various channels (such as MPG instant and trip MPG)
- AutoTune2 Basic and Pro
 — AutoTune is built into the Power Vision so you can modify your tune as you ride without using a computer
- Check and clear diagnostic codes
- Reset adaptive fuel trims and idle offset (with bike running)
- Not legal for sale in California, check local laws before installation.

FUEL INJECTOR

 Upgraded version of the OEM fuel injector for '06-Up 96" and 103" Twin Cams (except FLH/FLT '08-16, '16-Up Softails)

- 25 Degree spray angle with 6 spray holes
- Replaces OEM# 27709-06A
- Sold each

Description Fuel Injector `06-16 Big Twin except Touring 820-57200

FUEL INJECTORS

• Ten different flow rates with part numbers for 2001 and later models

- Made in the USA using the latest injector technology
- · Sold in matched sets (two injectors)
- Detailed test report included with each set
- Not for use in California

'08-Up Touring models

'06-Up models (except Touring models)

'01-05 F/I models

FUEL INJECTOR CLEANERS

- Easily cleans most fuel injectors
- Will flush and back flush injectors for best possible cleaning process
- No compressed air required
- Requires aerosol can of fuel injection cleaner (not included)
- Push button switch to turn fuel injector on with LED indicator light
- Durable anodized billet aluminum construction
- Built tough for everyday shop use
- 9 volt battery included
- Replacement pigtails available
- Patent pending

42mm HSR Carburetor	EVO models	`84-99	42-8	14-2008 *	

* Includes breather kit for '93-99 models, '84-89 models require cables from '90-95 models

3 8

- Total Kit includes:

 A special manifold
- Rubber flange
- High flow air filter
- (Manifold clamps and seals are not included in kit).

14-2511

SMOOTHBORE CARBURETORS FOR CUSTOM INSTALLATIONS

- 45mm carb for use on modified engines requiring the maximum in carburetion (Manifolds not included)
- 42mm carb for use in custom applications on many different types of engines (Now uses OEM Harley cables)

Application	Description	WPS#

HSR-42	Rubber Flange Adapter `99-06 Twin Cam	14-2028

THUNDERSLIDE KIT

These kits incorporate a custom made slide. The unique configuration allows precise control over the slide's range of movement and creates a stronger signal, which improves fuel atomization. This provides more power, increased throttle response and improved fuel economy.

Not legal for sale in California, check local laws before installation.

Application	WPS#	Application WPS#

CARB REBUILD KITS

Quality carb rebuild kits from James Gaskets include all essential parts needed to rebuild Keihin, Bendix and Linkert carburetors.

D

	Application	WPS#
Α	All Keihin CV Carbs `90-Up	681-4423
В	All Keihin CV Carbs `76-89	681-4777
C	All Bendix Carbs `72-76	681-5509
D	All Linkert Carbs `36-65	681-5167
Ε	All Linkert DC Carbs `57-66	681-5168

CARB REBUILD KITS

- NBR rubber material is used on all O-rings and rubber gaskets. NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kits are based off of US models and discretion must be used when attempting to install the kit on a non US model
- All gaskets and O-rings including intake gaskets before and after the carburetor
- Float bowl, carburetor cap, and accelerator pump screws
- Extended fuel mixture screw with spring, washer, and O-ring
- Float needle valve with FMK tip
- · Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- 3 main jets and 3 pilot jets that can be used to tune a stock machine or a modified one

Fuel-Tool.

FUEL SHARING SYSTEM

- No tools required, no modifications or permanent attachments are needed to your bike
- Fits 2001 and newer fuel injected Harley-Davidson models
- Entire connection and disconnection takes only seconds, transfers fuel at roughly one quart every 20 seconds
- Will not stall engine while in use
- Small & compact size, stores anywhere, includes storage pouch

WPS# 62-5100

CARBURETOR POCKET TUNER

- · Pocket size slide calculator
- Helps determine required jetting changes in carburetors due to temperature and altitude change
- For single & multiple carburetion on 2 & 4 stroke engines
- Comes with a guide for determining rich or lean conditions
- A must for riders and mechanics that demand maximum performance

WPS# 13-2430

CARBURETOR PRODUCTS CATALOG

A complete guide to Mikuni carburetors, components, and accessories. 32 pages of photos, drawings, and technical descriptions of all Mikuni products.

CARBURETOR LEAK DETECTOR

Check needle & seat holding pressure, crankshaft seals, crankcase surfaces, & many other critical parts with this simple tool.

MIKUNI CARB TOOL KIT

Handy kit includes all tools necessary to completely disassemble carb, change jets, etc.

CHECK VALVE REBUILD KIT

- Eliminate the need for replacing expensive check valve and fuel line when only a rebuild is needed
- Fits 2001 and newer fuel injected Harley Davidson models
- Long lasting, high quality DuPont Viton O-rings, solid brass nickel plated check valve, stainless steel springs

WPS# 62-5112

CHECK VALVE REPLACEMENT O-RINGS

- Sold each or in packs of 5
- Eliminate the need for replacing expensive check valve and fuel line when only an O-Ring is needed
- Fits 2001 and newer fuel injected Harley-Davidson models
- · Long lasting, high quality DuPont Viton O-ring

WPS	
62-5110	each
62-5111	5 pack

CHECK VALVE REBUILD TOOL

- Provides for fast and easy professional installation of check valve
 O-ring or rebuild kit without having to remove tank from the bike
- For 2001 and newer fuel injected Harley-Davidson models
- · High quality, professional grade

WPS 62-5101

FUEL PRESSURE GAUGE

- Provides for simple, fast and accurate fuel pressure checks, push button completely releases all fuel through the drain line
- Quickly diagnoses: Loss of power, poor fuel economy, hesitation & stalling
- Fits 2001 and newer fuel injected Harley-Davidson models
- Solid brass adapter and release valve, steel housing (100 psi) gauge, stainless steel springs, Viton O-Rings, O-Ring lubricant and nylon storage pouch

FUEL INJECTION LINES

These Goodridge EFI lines are designed to replace the OEM EFI line and is ready to snap into place. They are available in black or stainless steel braid and provide superior abrasion and heat resistance in addition to an aesthetically pleasing appearance.

Description	Black	Clear	
Fits Touring Models `08-16	817-02102		
Fits Touring `02-06 Dyna `04-17 Softail `01-17	817-02100	817-02101	
Fits Touring Models `95-99		817-02106	
Fits Sportster Models `07-19	817-02104	817-02105	

FUEL CROSSOVER LINES

- · Quick disconnect crossover lines feature a high quality quick disconnect valve and durable hose finishers for simple attachment to standard hose
- The braided hoses are compatible with gasoline or ethanol
- The hose finishers feature a stainless gear drive hose clamp for a reliable, long lasting seal
- Chrome plated quick disconnect features Viton o-rings and stainless shut off valves to eliminate fuel loss during tank removal
- · Rated at 250 psi
- · Universal design fits most models with split tanks

Description	WPS#

EFI FUEL FILTERS

- · Includes parts as pictured, filter, o-ring, clamps where applicable
- Designed as OEM replacements

	Description	WPS#
Α	Fits Touring Models `02-07 Softails `01-08 repl. OEM 61001-01	820-50562
В	Fits Touring and Softail Models `08-17 FXD `04-17 repl. OEM 61011-04A	820-50563
C	Fits Touring Models `95-99 repl. OEM 61343-95	820-50564
D	Fits Sportster Models `07-Up repl. OEM 75304-07A	820-50565

FUEL PUMPS

- Lifetime Warranty
- Pumps come with hoses pre-installed and all components necessary for installation
- OEM or better performance
- Polished corrosion-resistant case to help minimize seizing during non-operation
- Specifically designed for quiet operation
- Drop-in replacement
- Gradient density fuel strainer for superior contaminant filtration (intank pumps only)
- Patented check valve technology
- Compatible with modern ethanol-infused pump gasoline

HIGH FLOW FUEL PETCOCKS

- · Assure your bike isn't starving for fuel
- · Recommended for any bike with performance modifications
- Built in 100 micron screen filter
- 3 position On/Off/Reserve
- Show quality chrome
- For all models with 22mm bungs

	Description	WPS #
Α	Hi-flow Petcock, Straight	274-0300
В	Hi-flow Petcock, Rotates Horizontally	274-0301
C	Hi-flow Petcock, Rotates Vertically	274-0302

REPLACEMENT PETCOCKS

- These petcocks are highly polished and then chrome plated
- Petcocks are designed to maximize fuel flow in both main and reserve modes
- 22mm metric petcocks fit all 1975 to present Big Twin and Sportster models as well most Custom tanks

	Application	Description	WPS#	
	Tanks with 13/16" Bungs (`75-Up)	Straight Down Spigot	820-52250	
Α		Left Spigot	820-52251

Annlication

BRASS PETCOCKS

- These new Hi-flow petcocks feature a round or hexagonal body
- Brass finish
- Three position knob, on, off, reserve
- 5/16" fuel outlet
- Fit most stock and custom tanks with 22mm or 3/8" outlets
- Sold each

Description	WPS#
Left side position 22mm round	820-52238
Right side position 22mm round	820-52239
Downward side position 22mm round	820-52240
Left side position 3/8 round	820-52241
Right side position 3/8 round	820-52242
Downward side position 3/8 round	820-52243
Left side position 22mm hex	820-52244
Right side position 22mm hex	820-52245
Downward side position 22mm hex	820-52246
Left side position 3/8 hex	820-52247
Right side position 3/8 hex	820-52248
Downward side position 3/8 hex	820-52249

FUEL SYSTEMS

- 6000 series valves are a universal fit that can be used in almost every tank location
- Offered in show chrome and polished brass
- 22mm inlet for 1975 and up applications
- 5/16" outlet barb
- 274-0504 does not have reserve

	Application	Description	WPS#
A 22mm `75-Up		Chrome oval, universal	274-0500

YGON® GRAY AND BLACK FUEL LINE

- Use with any type of gasoline
- · Resists swelling and hardening
- Resistant to direct sunlight, hardening and/or cracking
- Flexible in temperatures from -35F to +165F
- Fuel line stretches easily over fittings or petcocks
- Sold in 25' rolls
- · Made in the U.S.A.

I	.D	().D.	Grey 25'	Black 25'	Grey 3'	Black 3'
3/16"	(5mm)	5/16"	(8mm)	12-0031	12-0040	12-0049	12-0050

BRAIDED VINYL FUEL LINE

- Nylon-reinforced vinyl fuel line
- Braided nylon within the wall gives added strength
- Recommended where higher pressure is involved
- Outstanding appearance for custom fuel lines
- · Sold in 25' rolls
- Made in the U.S.A.

I.D		0	.D.	Roll Length	WPS#	
3/16"	(5mm)	3/8"	(10mm)	25'	12-0009

PREMIER QUALITY CLAMPS

- Highest quality clamps available
- · Stainless steel throughout including the drive
- · Superior in strength, appearance and functionality
- The band's worm drive is raised to give a smooth surface preventing hose damage
- Rolled edges eliminate hose damage found with normal clamps
- Short housing saddle, smooth underside and tapered tail end provide maximum circumference sealing at minimum torque

90 PIECE DEALER KIT

Norma Dispenser Kit with Torro Worm Drive Hose Clamps, covering a range from 8mm (5/16") to 80mm (4")

Description	WPS#	
90 niece Dealer Kit: Includes 10 each of 9 sizes	14-0090	

SELF TENSIONING WIRE HOSE CLAMP

CUSTOM AIR CLEANER ASSEMBLIES

- · High flow performance air cleaners designed to match our popular HardDrive wheel designs
- Machined from billet aluminum with breather system integrated into the backing plate
- Due to the increased airflow we highly recommend rejetting your carb or adding a fuel tuner
- Not legal for use on pollution controlled vehicles-check your local laws before installation

Е

F

AIR CLEANERS

If you do not have a 5.5" diameter air cleaner or you aren't in love with the one you have... If you want the hot rod style of the Defender or the F1 and increased air flow performance, Brass Balls Cycles offers both air cleaner covers with the S&S Stealth air cleaner kit.

This S&S® Stealth air cleaner kit fits Big Twin and Sportster models. Increased filter area, combined with an air horn like radiused inlet and unique S&S® stinger cone to allow smoother faster air flow for more power. Kit includes back plate, filter element, top cover, hardware, and instructions.

The Defender and F1 covers are machined from billet aluminum, black anodized or raw finish with carbon fiber inlay.

AIRCHARGER INTAKE SYSTEMS

K&N® AIRCHARGER® Performance Air Intake Systems increase power by eliminating the restrictive stock OE air cleaner and replacing it with a K&N® complete performance intake system.

Built with a heritage of over 45 years of performance, building horsepower and making motorcycles perform to get you moving down the highway! K&N's AIRCHARGER Intake System will give your motorcycle an aggressive appearance while providing a significant increase in airflow resulting in more horsepower and torque delivered to the rear wheels.

- Cast aluminum high-performance intake tube
- · Integrated internal velocity stack
- Built-in breathers replace external OE breathers
- K&N® High-Flow cotton air filter provides outstanding performance and protection
- Fits Harley-Davidson Touring Models, without Lower Fairings

Application	Black	Satin
Touring `17-Up, Softail `18-Up	K63-1139	K63-1139S

* WILL NOT FIT WITH LOWER FAIRINGS

HIGH FLOW AIR FILTER FOR 58MM THROTTLE BODIES

The original High-Flow Air Filter™ invented by K&N®. A perfect upgrade for 2-up rides on your V-Twin motorcycle with filled saddle bags, a long life High-Flow Air Filter™ delivers improved performance and excellent protection for the life of your motorcycle.

- Designed to provide low restriction, resulting in increased airflow and high performance
- Pleated media provides a large filtration area, delivering high capacity and long service intervals
- Durable Zinc Coated top plates for years of protection without corrosion
- · Pre-oiled and ready to ride
- Made in the USA

Application WPS #
All Models with 58mm Throttle Body 720801

AIRCHARGER INTAKE SYSTEMS

K63-1125 K63-1125P

K&N®'s AIRCHARGER® Performance Intake Kit will get more horsepower from your Harley-Davidson® motorcycle. This High-Flow Intake System increases power by eliminating the restrictive stock OE air cleaner and replacing it with a K&N® High-Flow Air Filter and mandril bent aluminum intake tube. This complete intake system will help relieve the labored feeling associated with two-up riding or loaded touring. K&N®'s High-Flow Intake System gives your Harley® an aggressive appearance while providing a significant increase in airflow resulting in more power.

- K&N® High-Flow Air Filter significantly increases performance
- Billet aluminum throttle-body mounting plate
- Includes complete breather assembly and mounting hardware
- Aluminum Intake Tube available in two finishes; Bright Mirror or Textured
- Guaranteed increase in horsepower
- Custom aluminum throttle-body mounting plate
- Not legal for use in California on pollution controlled vehicles - Check local laws before installing

Guaranteed increase in horsepower

- Developed around an oversized K&N® High-Flow Air Filter™ that is designed to boost performance, filtration and service intervals
- · Aluminum backing plate with integrated velocity stack provides solid mounting surface
- Built-in breathers replace external OE breathers*
- · High quality mirror-finish or wrinkle black aluminum cover

RK SERIES AIR INTAKE **ASSEMBLIES**

K&N®'s RK Series Air Cleaner Assemblies are designed to get more horsepower from your Harley-Davison motorcycle. These air cleaner assemblies replace the stock air filter and backplate with an oversized K&N® Air Filter and custom aluminum backing plate. K&N®'s RK Series Air Cleaner Assemblies are designed to give you an increase in power and long service intervals critical for distance rides. This complete assembly fits inside the OE air cleaner cover maintaining stock appearance, while providing outstanding airflow.

- Developed around an oversized K&N® High-Flow Air Filter that is designed to boost performance, filtration and service intervals
- · Dyno-tuned velocity stack directs airflow to engine
- Aluminum backing plate provides solid mounting surface
- Built-in breathers replace external OE breathers

CAST AIR CLEANERS

Add classic vintage style to your motorcycle with these TC Bros. Choppers air cleaners in raw cast, black or polished finish. The covers are beautifully hand cast from 356-T6 aluminum right here in the USA. A washable cotton gauze filter element provides high performance air flow to your V-Twin. Kits attach easily using the American made, CNC machined, powder coated steel mounting bracket. These ultra-compact kits are designed to fit all Harley Davidson® Big Twin and Sportster models using factory CV Carburetors or factory electronic fuel injection (EFI) units. They will not fit '95-01 HD Big Twin models equipped with Magneti Marelli fuel injection units using dual bore throttle bodies. If installing on models using a CV carburetor, it is highly recommended to use in conjunction with a support bracket for longevity. Support bracket is not required on EFI models. Note: EVO Big Twins and '91-up Sportsters also require crankcase breathers.

Not legal for use in California on pollution controlled vehiclescheck local laws before installation

LOUVERED AIR CLEANERS

- · CNC machined, powder coated steel mounting bracket
- Made in the USA

- Kit includes both a hotrod inspired Tri-Bar wing bolt or standard round head screw hardware
- Ultra-compact
- Designed to fit all Harley Davidson® Big Twin and Sportster models using factory CV Carburetors or factory electronic fuel injection (EFI) units
- A version for S&S® Super E or Super G series carburetors is also available
- Does not fit '95-01 HD Big Twin models equipped with Magneti Marelli fuel injection.
- If installing on models using a CV carburetor, it is highly recommended to use in conjunction with a support bracket for longevity. Support bracket is not required on EFI models. Breathers where applicable sold separately.
- Not legal for sale in California on pollution controlled vehicles-check local laws before installation

TEARDROP AIR CLEANERS

- Made from chrome-plated cast aluminum
- Measures 8"-wide x 41/2"-tall x 2"-thick
- They fit S&S carbs and most HD induction systems since 1936
- A mini air filter is included as well as any required fittings and hardware
- Not legal for use in California on pollution controlled vehicles-check local laws before installation

Description	Application	WPS #	
Ribbed Air Cleaner Assemblies	S&S E and G Carbs	830-3402	
	CV, Delphi EFI	830-3403	

LINKERT STYLE CARB COVERS

- Perfect reproductions of the late 1930's Linkert carb covers used on Knuckleheads and Flatheads
- They've been redesigned to bolt right onto the immensely popular late model S&S E and G model carburetors
- The backing plate bolts to the rear head for support with the supplied special hardware and spacers
- The '92-Up version uses existing breather hoses and fittings
- Not legal for use in California on pollution controlled vehicles-check local laws before installation

Description	Application	WPS #
Linkert Style Carb Cover for S&S E & G	`84-91 no breather	830-3400
	`92-Up	830-3401

Breather Bolts for `99-17 Twin Cams	563-01552
Breather Bolts For `91-UP Sportster & EVO Big Twin	563-01551

AIR IS POWER, and Boyesen has channeled that power like never before. With its revolutionary design and ease of installation, adding more power and greater acceleration is now within your reach. Available for all Harley Davidson (FLH) touring models '08-Up. Not for use in California on pollution controlled vehicles.

- Complete bolt-on kit: backing plate, filter and mounting hardware.
- Patented X-Wing design of more power and acceleration.
- X-Wing Venturi increases air speed for added throttle response.
- Oil free/washable filter media poly-cotton blend.
- XL filter area for increased airflow filters to 40 microns.
- One piece precision casting with internal breather passages.
- Bolt-on o-ring assembly no modification required.
- Available in polished silver or matte black.
- · Accepts stock filter cover.
- · Not legal for use in California on pollution controlled vehiclescheck local laws before installation

Application	Description	WPS#
Fits `08-16 Touring Models	Power X Intake Silver	59-9001
	Power X Intake Black	59-9002

AIR CLEANER COVERS

 These performance air cleaner covers are a no nonsense, bad ass upgrade for your bike. Machined from 6061 T6 aircraft grade billet aluminum, natural machined finish with carbon fiber inlay.

 Have a round 5.5" diameter air cleaner and want to upgrade the look of your bike? Simply replace your existing air cleaner cover. It's the easiest custom design upgrade you can do.

• *Fits most 5.5" diameter, center bolt mount air cleaners

Application	Description		Black		Natural
Fits Most 5.5" Air Cleaners	F1 Cover	Α	826-01000	В	826-01002
	Defender Cover	C	826-01004	D	826-01003

AIR CLEANER COVERS

Pro One billet air cleaner covers are CNC machined from solid billet aluminum, carefully polished, then show-chrome plated or black anodized to perfection! Hardware included. Evo version diameter is 6.280", Twin Cam version diameter is 5.485".

Application	Description		Chrome		Black
Fit `84-99 Evos	Smooth	Α	812-02050	В	812-02051
Fit `99-15 Twin Cams		C	812-02070	n	812-02071

CHOKE KNOB COVERS

Pro One patented choke knob covers fit just about any motorcycle with a choke knob. Popluar on Harley Davidsons and metric cruisers with choke knobs. Show-Chrome plated. Easy to install. U.S. Patents #5,836,214 & 418,390

Description	Chrome	Black

HIGH FLOW REPLACEMENT AIR FILTERS

- Designed to provide increased horsepower and torque
- Pleated media provides a large filtration area offering long service intervals
- Multi-Layers of woven cotton gauze media offers excellent filtration
- · Application specific base seal and sealing bead
- Fuel-Management modifications are not required for increased performance
- Made in the USA for over 40 years
- Washable & reusable, pre-oiled and ready to ride!
- Includes K&N Million-Mile Limited Warranty®

K&N CLEANING AND REOILING SUPPLIES:

Recharge your K&N Air Filter with genuine K&N Cleaning Accessories. Cleaning and re-oiling your K&N filters is very simple with the use of K&N's four-step maintenance system designed to recharge your K&N Air Filter. The use of K&N cleaner and filter oil completely restores airflow efficiency so your air filter performs virtually like new.

KIT "A" CONTAINS:

- 1 12 oz. Air Filter Cleaner Spray Bottle
- 1 6.5 oz. Air Filter Oil Aerosol

	Size	WPS#
Α	12/case	62-1514
В	12/case	62-1515
NIC	OTT. Use	of other elegning

NOTE: Use of other cleaning or oiling methods, cleaners or oils could damage the filter and void K&N Warranty

KIT "B" CONTAINS:

- 1 12 oz. Air Filter Cleaner Spray Bottle
- 1 8 oz. Squeeze Oil and Service Decal

POWER KLEEN™

 Air filter cleaner/degreaser dissolves dirt build-up and old filter oil

Size		WPS#

PREMIUM QUALITY OIL FILTERS

- State of the art canister construction eliminates leakage or high pressure blowout
- Fram uses only the finest filtering media to keep oil clean and prevent excessive wear

- Quality oil filters manufactured by one of the largest manufacturers and suppliers of motorcycle oil filters
- High performance oil filter with a high oil flow capacity
- Withstand high heat and pressures
- Microglass filter media traps particles down to 10 microns in size, compared to 20 microns for regular filter media

REFERENCE INDEX

- Provides unbeatable performance and exceptional value, Hiflo filters are the best-selling brand of aftermarket filters for motorcycles worldwide
- To achieve our high quality and to ensure the consistency of our products, we use only premium raw materials from well known manufacturers
- Every oil filter goes through 16 individual quality control checks before it is ready to leave the factory. The whole manufacturing process, including the checking of raw materials and individual filter testing, is regularly audited and verified independently
- Race filters have a welded-on 5/8"/17mm nut with safety wire provisions to make installation and removal easier

OIL COOLER/FILTER KIT

Cleaner cooler oil with the Feuling® oil cooler/filtration system, this oil cooler is designed with an internal spun glass element cartridge filter which is used as an additional oil filter in conjunction with the factory spin on oil filter. The Feuling® oil cooler system drastically reduces contamination and viscosity breakdown in the oil; protecting the engine from cylinder, piston, ring and bearing wear. Preventing extreme oil temperatures, promoting engine performance, longer engine life & extended oil change intervals.

This oil cooler system makes a clean custom look, mounting between the frame rails in position to take advantage of the air flow from the front tire. Available in chrome or gloss black, the housing measures 5 long and 3-3/4 in diameter.

Kits include filter cooler housing, replaceable spun glass cartridge filter, gloss black mounting bracket, off-set oil filter adapter, braided steel lines with swivel fittings, K&N® spin-on oil filter, ARP® 12 bolt fasteners and all necessary hardware. Kits available in chrome finish with stainless lines. & black finish with black lines.

BRASS ROCKER BOX OIL LINES

 Old-STF Ironhead Sportster loop rocker box lines. 1/4" Brass oil lines pre-bent with all necessary fittings. Easy install, all lines and fittings are polished. Install loop up or down.

• No hassle kit for Shovelheads 1966-84. Heavy 1/4" Brass oil lines are pre bent with all necessary fittings. These lines will eliminate the problem of the "starving front head"

• All compression fittings are pre tightened, thread sealant is provided for the npt to case and rockers. A stainless allen plug is provided for the rear rocker when installed is flush and unseen.

Made in the USA.

PAN ROCKER COVERS

Covers are chrome plated stamped steel and sold in pairs. Sockethead screw sets come in packs of 24.

HYPEREUTECTIC CAST PISTONS

KB Hypereutectic alloy pistons are cast with a 16% high silicon content that has very high thermal barrier properties along with a low thermal expansion rate, allowing tight piston to cylinder wall clearances. This makes them ideal for air-cooled engines, offering optimal ring seal, quieter engine running and reduced wear. Hypereutectics are best suited for stock or mild compression ratios up to 10.5:1 running on pump fuel. Replacement rings are special order, please call for pricing.

FORGED ALLOY PISTONS

KB forged pistons are made from 4032 forged alloy with an 11% silicon content, formed in a forging press and then fully machined. Due to the material and manufacturing process these pistons have superior crack resistance under detonation or pre-ignition. They are suited for Street or Race applications with power adders such as NOS or boost. All Twin Cam and Sportster application feature coated skirts. Replacement rings are special order, please call for pricing.

WHY USE WISELD ?

Note: Some piston kits change displacement, compression ratio, etc. and may be illegal for use on pollution controlled vehicles, check your local laws before installation.

Note: Replacement Rings and Circlips sold per piston

1) FORGED

All Wiseco Pistons are forged from high silicon, low expansion aluminum which offers superior strength, reduced weight, improved heat transfer, and longer life.

2) ADVANCED MANUFACTURING TECHNIQUES

Diamond turned finish from one of the many CNC computer controlled turning centers guarantees you a perfect finish with no size variation. Wiseco pistons can be installed in any of today's cylinder bore compositions (cast iron, chrome, nikasil and boron composite) with confidence.

3) OVERSIZE OPTIONS

Wiseco's wide range of oversize pistons increase the life of cast iron lined cylinders. With the availability of replacement cylinder sleeves, chrome, nikasil and boron composite cylinders can be resleeved to accept Wiseco's oversizes.

4) COMPUTERIZED

Wiseco's state-of-the-art computerized manufacturing facility is dedicated to supplying both the high-performance racer and recreational enthusiast with the finest forged piston available in today's market place.

5) EASY AVAILABILITY

Three WPS warehouses offer you one of the largest Wiseco inventories available. Our telephone sales staff can verify availability at the time of your order. Pistons that we don't have in stock are rushed in air freight and are available for shipment to you within two to three working days.

PISTONS

- Replacement cast pistons with wrist pins and keepers (sold each)
- · Piston rings sold separately

*Wrist pins do not include oil hole(s). These must be drilled after installation

WRIST PIN BUSHING

- Designed and manufactured by KPMI® to original OEM dimensions with Kibblewhite® Quality and Precision
- These bushings have excellent anti friction qualities, good hardness, and resistance to wear and deformation under high loads
- Held to tight dimensional tolerances, offer excellent machinability, so the optimum surface finish may be obtained, and have a tapered lead on each end to ease installation

Description	Size	Application	WPS#	
Engine Builders series wrist pin bushing (1pair)	1.0190"	`05-17 Twin Cam Models	191-57080	*

COMPRESSION RELEASES

- KPMI® Compression release valves are state of the art
- Designed to reduce "hot start" issues and starter/ battery loads
- 5-7 Newton's of closing force resistance, for high demand applications
- Custom molded knobs ensure a cool touch and easy operation
- Embossed with the KPMI® brand so you know you have purchased a quality product
- M10 x 1 thread pitch, sold in pairs

	Application	Thread Length	Install Height	WPS#
Α	Evo Applications	0.350"	1.050"	191-27050

INTAKE AND EXHAUST VALVES Black Diamond® Valves:

All KPMI Black Diamond® stainless steel valves are impregnated by a special German process to a depth of .002", with a surface build up of .0002". This "Black Diamond®" process improves wear properties, reduces friction, and provides resistance to corrosion and wear that is superior to chrome and nickel electrolysis plating. Black Diamond® Valves are light, strong, one-piece forgings with profiles that provide excellent flow characteristics.

Application	Year	Valve		Stem Dia		Length	OEM#	WPS#

VALVE SEATS

Kibblewhite's proprietary seat material is compatible with leaded and unleaded fuels including methanol and ethanol fuel blends. This material offers excellent thermal characteristics and resists microwelding that leads to seat and valve face recession. Leading edge has generous radius to ease installation.

Application	Inside Diameter	Outside Diameter	Height	WPS#

VALVE SPRINGS

KPMI Valve Springs:

Wound from Premium Kobe Super-Clean Chrome Silicon Wire. KPMI valve springs are heat-treated, stress relieved and shot peened to insure maximum performance and life.

Springs are engineered for each specific application using proprietary advanced spring design simulation, and analysis software. Engineers pay special attention to cam and spring harmonics, stress, mass and operating rpm.

- Part numbers ending with (S) use steel retainers
- Part numbers ending with (T) use titanium retainers

Application	Year	Description	Valve Spring Kit
Milwaukee 8	`17-Up	Beehive Valve Spring kit .465 lift (titanium retainers)	191-27020

VALVE GUIDES AND VALVE STEM SEALS

KPMI Bronze Valve Guides:

We choose to use C630 nickel bronze as a material to make valve guides because of its ideal characteristics for the application. The 4-5 percent nickel content provides superior resistance to wear, and the approximately 80 percent copper content delivers outstanding heat conductivity. Guide profiles are designed to have minimal effect on the airstream while maintaining critical cross sectional thickness in high temperature areas. promoting high performance and endurance. The top portion of the guides are shortened when cam lift information available at the time of design shows that additional retainer to seal clearance is required.

KPMI Cast Iron Valve Guides:

KPMI R&D has produced a proprietary cast iron blend that thrives in the tough operating conditions of today's engines. KMPI's certified cast iron provides excellent wear resistance and a superior guide bore finish that is easy on valve stems.

KPMI Valve Stem Seals "The Red Ones":

KPMI Red Viton® valve stem seals are designed to have optimum fitment, allow for maximum lift, and to give maximum life. KPMI Red valve stem seals are resistant to high temperatures, petroleum products and by-products of combustion. They retain their ability to seal in situations where other materials could allow oil to enter the combustion chamber causing detonation, carbon build up and a loss of power. The Red Ones are truly the racer's choice.

FAST INSTALL PUSH RODS

- FEULING® FAST Install adjustable pushrods are made from the same great design. as the regular install FEULING® adjustable pushrods but feature a slightly shorter tapered tube and come disassembled allowing the engine builder to install the pushrods without removing the top rocker box. These pushrods feature a dual jam nut locking system and include FEULING® part #9012 which is a tool to hold the pushrod tubes up and out of the way while adjusting the pushrods.
- FEULING® pushrods can be used with the factory pushrod tubes and are the longest fast install pushrods available on the market. FEULING® pushrods use separate lengths for intake and exhaust which keeps the adjustment area to a minimum creating a fast install pushrod with maximum rigidity promoting maximum valve lift.

PUSH RODS

- Maintain maximum valve lift!
- · Increased stiffness and column rigidity maximizing valvetrain stability, increasing engine RPM horsepower and torque
- Tapered 7/16 4130 chrome moly adjustable pushrods, use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods.
- Individual length intake & exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear.
- CNC machined with 32 thread per inch adjustment, Double jam nut lock system, RACE SERIES® wall thickness .120recommended when extreme spring pressures are used
- Designed for use with hydraulic or solid lifters and street or race engines
- These pushrods require removal of rocker covers and rocker arm supports

	Application	Year	WPS#	
Α	Twin Cam	`99-17	811-04070	
В	EVO Big Twin	`85-99	811-04080	

ROLLPIN TOOL

- This tool makes for easy removal and installation of the pressure relief spring, by-pass valve and roll pin in the Twin Cam camplate. The tool is used to hold the relief spring down and away from the roll pin. Fits all Twin Cam® engine camplates.
- Made in the U.S.A.

CAM INSTALL KITS

FEULING® Quick Change Camshaft installation kits for Twin Cam® engines include Timken® camplate roller bearings, KOYO® Torrington® full roller needle inner cam bearings, 12 point ARP® camshaft and crankshaft bolts with hardened washers and camshaft retaining clip. Gaskets include cam cover, lifter blocks, exhaust, pushrod tube and camplate o-rings, ARP fastener moly paste, and Loctite thread compound.

FEULING® Quick Change + Top End kits also include rocker box cover and breather assembly gaskets, breather elements, breather umbrella valves and rocker support O-rings.

ROLLER LIFTERS

- Performance hydraulic roller lifters
- · Optimized oil flow to top end valves, springs, rockers, shafts & valve guides
- Cooler oil and reduced wear
- Extends life of top end valve gear
- · CNC machined and precision ground
- · Drop in replacement for stock lifters
- · Dyno developed and track tested
- Recommended for use with the Feuling® Oil Pump or comparable high volume oil pump
- Made in the U.S.A.

LIFTERS

- Feuling® Race Series® full travel hydraulic lifters are machined from a steel body and designed to exceed the needs of large lift camshafts and higher valve spring pressures with a slower bleed down rate. Race Series® lifters maintain proper oil flow to the top end, increase engine RPM, valve-train stability, decreasing valve float promoting maximum valve lift.
- Feuling® recommends Race Series® lifters for engines running higher than 185Lbs. valve spring seat pressure. FEULING recommends the use of a high volume oil pump which will result in quieter, better performing lifters. Race Series® lifters are compatible with either FEULING® HP+® or Race Series® oil pumps and are designed for use with both street and strip engines. Spin-Tron dyno developed and track proven.
- Available in oversized diameters Case Savers!
- Recommended for both strip and performance street engines
- Made in the U.S.A.

CAMSHAFTSFOR H-D® V-TWIN

- TTS Camshafts are designed to provide smooth power delivery throughout your engine's entire operating range. The various grinds allow you to select a cam that optimizes torque in the RPM range you require without compromising performance elsewhere.
- TTS-100: Designed to increase torque in the 1000-4000 RPM range with smooth power to 5500 RPM. Developed for 88-117 CID with stock heads and pistons. Not recommended for compression over: 10.2:1 Twin Cam or 10.5:1 Milwaukee-Eight®. Ideal for heavy bikes like baggers or trikes. Bolt-in design utilizes stock springs and pushrods.
- TTS-150: Designed to increase torque in the 2200-5200 RPM range. Developed for 88-117 CID with stock heads and pistons. Not recommended for compression over 10.5:1. Bolt-in design utilizes stock springs and pushrods.
- TTS-200: Designed to increase torque over a broad RPM range (1800-5500 RPM). Developed for Milwaukee-Eight® engines with modified heads and pistons. Ideal for Stage III or IV kits. Not recommended for compression over 11.0:1. Requires use of high lift valve springs and modified valve reliefs in pistons.
- TTS-250: Designed to increase torque in the 2500-6000 RPM range. Developed for Milwaukee-Eight® engines with modified heads and pistons. Ideal for Stage III or IV kits. Not recommended for compression over 12.0:1. Requires use of high lift valve springs and modified valve reliefs in pistons.

CHRIS RIVAS' ROCKET CAMS FOR MILWAUKEE 8 BIG TWINS!

4 Valves are better than 2!! The next progression of Harley-Davidson power is happening through four valves which have different requirements for the camshaft. Chris has come up with 4 new cam lobe profiles to squeeze the performance out of the smaller multivalve ports. Low lift 444, 464 and 474 cams are a direct bolt in application delivering the power where you expect it to be for your personal riding style. 544 cam is for the builder that wants the best possible power in his big inch motor. As with all cam changes, a performance intake, exhaust system, and EFI tuning are a must to get the full benefit from the cams. Many World Champions and speed record holders have trusted Chris for their power so when you want to explore the performance possibilities of your new Milwaukee 8 engine, who better to trust.

NOT FOR USE IN CALIFORNIA

Bolt-in cam with increased power over stock configuration with excellent low end power and great acceleration. Power from Idle to

464

Bolt-in improved acceleration, works great for big torque in 107 and 114 displacement engines. Allows engine to make big power through the midrange RPM. Power from 1500 to 5800.

474

Bolt-in outrageous torque and power for bigger engines with added compression 114 cubic inch and higher engines. Power from 1800 to 6000.

544

This aggressive lobe profile is intended for 114 and larger engines. Torque comes on later in the RPM range and horsepower extends further. Perfect cam for those big builds when using high compression pistons and ported heads. High lift valve springs are necessary. Power from 2000 to 6200.

The first Rocket Cam was created in 1996 for a race bike that accomplished several titles and championships. In Chris Rivas' career he has not only raced at the highest level in drag racing and land speed racing but has been very successful at both, setting and holding multiple records along the way. He currently owns the world's only 200 MPH Bagger with a top speed of 204 MPH. He also owns the world's fastest Dyna with a top speed of 244 MPH. His Rocket Cams technology has gone into every one of these bikes making them perform at the highest level that no other racer or manufacturer has been able to top. This is the same technology that goes into the street cams offered through Rocket Cams for the local performance shops in your area.

Best power with free-flow air cleaner and performance exhaust.

Peak performance at 1500 to 5800 rpm. Stock compression

ratio or up to 10:1. Best power with free-flow air cleaner and

performance exhaust. Powerful cruising bolt-in cam. Uses stock

valve springs. Recommended engine sizes 88" to 107" above

Cruising hi-torque bolt-in cams. Incredible low rpm pulling power recommended for heavier bikes with stock compression ratio or up

to 9.5:1. Peak performance at 1500 to 5000 rpm. Use stock valve

LUNATI VOODOO CAMS

Voodoo Camshafts for Harley Davidson applications deliver more area under the curve than any other series of cams for these engines. This means more throttle response, quicker acceleration, more vacuum and better efficiency. These factors, combined with maximum horsepower and torque, make Voodoo Camshafts the perfect choice for your Harley.

CHAIN DRIVE CAMS FOR 07-17 TWIN CAMS

Cam and Lifter Kits include the camshaft of choice with the matching replacement lifters recommended by Lunati. High RPM or stock replacement type lifters also available separately. All cams with 0.510 lift will work with stock valve springs.

Description	Lift	RPM Range	Cams only #	Cam & Lifters #
Maximum torque for heavy bikes and passenger riding with stock heads. Strong low end & mid range power.	0.510	Idle - 5100	276-01040	276-01080
Potent mid range power for both light and heavy bikes. Very effective for compression ratios up to 9.5:1.	0.510	1500 - 5500	276-01041	276-01081
Strong mid range power for 88-95 c.i. engines. Works well with compression ratios of up to 10:1.	0.510	1700 - 5900	276-01042	276-01082
Strong mid range power for 88-95 c.i. engines. Works well with compression ratios of up to 10:1.	0.569	1700 - 5700	276-01043	276-01083
Great power in mid to upper RPM range. Likes upgraded fuel and aftermarket exhausts and higher compression ratios.	0.585	2100 - 6100	276-01044	276-01084
Maximum upper RPM power. Great for large 95-107+ c.i. engines with increased compression and fuel/exhaust system upgrades.	0.601	2500 - 6500	276-01045	276-01085

CHAIN DRIVE CAMS FOR 99-06 (EXCEPT 06 DYNA) TWIN CAMS

Cam and Lifter Kits include the camshaft of choice with the matching replacement lifters recommended by Lunati. High RPM or stock replacement type lifters also available separately. Not legal for use on pollution controlled vehicles, check local laws before installation.

Description	Lift	RPM Range	Cams only #	Cam & Lifters #
Maximum torque for heavy bikes and passenger riding with stock heads. Strong low end & mid range power.	0.510	Idle - 5100	276-01020	276-01060
Potent mid range power for both light and heavy bikes. Very effective for compression ratios up to 9.5:1.	0.510	1500 - 5500	276-01021	276-01061
Strong mid range power for 88-95 c.i.engines. Works well with compression ratios of up to 10:1.	0.510	1700 - 5900	276-01022	276-01062
Strong mid range power for 88-95 c.i. engines. Works well with compression ratios of up to 10:1.	0.569	1700 - 5700	276-01023	276-01063
Great power in mid to upper RPM range. Likes upgraded fuel, aftermarket exhausts and higher compression ratios.	0.585	2100 - 6100	276-01024	276-01064
Maximum upper RPM power. Great for large 95-107+ c.i. engines with increased compression and fuel/exhaust system upgrades.	0.601	2500 - 6500	276-01025	276-01065

CAMS FOR 84-99 EVOLUTION MODELS

High lift spring kits required (sold separately). Not legal for use on pollution controlled vehicles, check local laws before installation.

		RPM	
Description	Lift	Range	WPS #
Generates maximum torque for heavy bikes and passenger riding. Strong low end & mid range power	0.570	Idle-5500	276-01001
Good low end and mid range power. Works well with stock compression. Excellent highway performance.	0.577	900-5700	276-01002
Potent mid range power for both light and heavy bikes. Very effective for compression ratios up to 9.5:1.	0.583	1300-5900	276-01003
Strong mid range power for 88 c.i. engines. Works well with compression ratios of up to 10:1.	0.590	1500-6100	276-01004
Ideally suited for 88 c.i. motors. Performs well with higher compression ratios & aftermarket exhaust systems	0.596	1700-6300	276-01005
Great power in mid to upper RPM range. Likes upgraded fuel & aftermarket exhausts & higher compression ratios.	0.603	1900-6500	276-01006
Maximum upper RPM power. Great for large c.i. engines with increased compression and fuel/exhaust system upgrades.	0.603	2300-6900	276-01007

VALVE TRAIN ACCESSORIES

- Lunati valve spring kits were designed to get the most power out of Harley upgrades and are a perfect match for a Lunati Harley cam.
- Each kit contains (4) each of the following items: valve springs, retainers, locks and locators.
- Valve locks are manufactured from fatigue-proof steel and then heat treated for hardness and to reduce wear and distortion, while our locators are engineered from a high-strength steel alloy that holds the spring in place and requires no machining.
- Steel retainers are constructed from 4140 chrome moly steel, which is stronger and harder than standard 1020 steel. This increased strength to weight ratio results in a stronger yet lighter retainer. All steel retainers from Lunati are black oxide coated for corrosion resistance.
- Lunati offers two types of hydraulic roller lifters for Harleys: OEM Replacement and High RPM. OEM Replacement Lifters are designed to exceed the specifications of your OEM lifters while High RPM Lifters were specially designed to handle applications producing over 6500 RPM to avoid horsepowerrobbing valve float and serious engine damage.

CAM CHAIN ACCESSORIES

- Replacement inner and outer cam chain tensioners for Twin Cam motors
- Cam chain tensioners wear differently depending on useage, oil change frequency and many other factors. We recommend inspection for wear frequently to avoid any engine damage.
- Cam chain guide also available
- Sold individually

	Application	Description	WPS#
Α	`99-06 Twin Cams	Cam Chain Tensioner Long Life OUTER	820-51406

12 POINT CAM & PINION BOLT KIT

- Quality 12-point heat treated 8740 chrome moly steel bolts with black oxide finish
- Tensile strength rated @ 170,000 psi Superior & Stronger than OEM & stronger than grade 8 fasteners
- Kits include moly assembly lubricant for installation
- Made in the U.S.A.

Application	Year	Description	WPS#	
Twin Cam	`99-17	12 Point Cam & Pinion Rolt Kit	811-03042	

CRANKSHAFT TOOL

- This tool simplifies and speeds the process of checking crankshaft run out on both Twin Cam® and EVO® model engines with the crankshaft installed. The tool mounts to the cam chest side of the engine case using the designated mounting holes of the tool combined with the handled thumb screws and the case cam cover bolt holes. The tool gives quick and accurate readings of the engines crank pinion shaft run out.
- Tool includes: tool plate. +/-0.001dial indicator, thumb screws & hardware.

Description	WPS#	
Crankshaft Tool	811-09015	

OILING SYSTEM KIT

• FEULING® oiling system kits combine all the needed components to finish your T/C® engines oiling system under 1 Part #, available in HP+® or RACE SERIES® kits. FEULING® oiling system kits increase oil pressure, oil volume, engine oil flow and return oil scavenging, eliminating wet sumping and oily air cleaners. Test results show 25-35 degree cooler engine temperatures, 15-30 degree cooler oil temperatures, 15-30 more pounds of oil pressure and quieter smoother engine operation. Results also show a substantial increase of oil pressure and 3 H.P. and 4 Ft. Lbs of T.Q to the rear wheel.

- Both HP+® and RACE SERIES® kits include FEULINGS® HIGH FLOW billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory, SE® and other aftermarket camplates. FEULING® increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil port holes throughout the camplate to the port holes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings.
- HP+® SERIES Kits include a billet 6061 aluminum high volume oil pump, FEULING® HIGH FLOW camplate, HP+® Hydraulic roller lifters, gaskets and o-ring kit.
- RACE SERIES® Kits include a billet 7075 hard anodized oil pump which is 50% harder and stronger than the factory
 pump holding tighter tolerances under temperature. RACE SERIES® hydraulic lifters have a full .200 of total travel
 designed with a slower bleed down rate to handle heavy valve spring pressures, increase engine RPM before valve
 float and feature increased roller clearance for steep ramped camshafts. Kits include a RACE SERIES® oil pump,
 RACE SERIES® lifters, HIGH FLOW camplate, gaskets and o-rings.
- *CONVERSION CAMPLATE Kits #811-07076 & #811-07077 utilize the early style 99-06 camshafts and upgrade the cam chain system to use the late style 07-16 hydraulic tensioner system. Factory sprockets, tensioners, chain and hardware must be purchased separately.

	Application	Style	Series		WPS#

OIL PUMPS

- Billet 6061 aluminum -High Volume oil pump
- Increases oil pressure -Cooler oil & engine temperatures
- No more oily air cleaners -40% more pressure volume than stock
- Eliminates blow-by & wet sumping -60% more scavenge (return) volume than stock
- More HP and Torque to the rear wheel -Stock replacement
- Fits both A and B Twin Cam engines -Feuling® design, tolerances & material
- High Flow 2 Chrome Moly gerotor gears -Made in the U.S.A.

	Application	Style	WPS #
Α	`99-06 Twin Cam (Exc. `06 Dyna)	HP+® Oil Pump	811-07000
В	`07-17 Twin Cam (Inc.`06 Dyna)	HP+® Oil Pump	811-07060
	`99-06 Twin Cam (Exc. `06 Dyna)	Feuling Oil Pump Rebuild Kit	811-07001
C	`07-17 Twin Cam (Inc.`06 Dyna)	Feuling Oil Pump Rebuild Kit	811-07061

OIL PUMPS

- 7075 Billet aluminum with military spec hard anodized, blue printed and designed for the racer!
- The 7075 alloy is 50% harder and stronger than 6061 aluminum and holds tighter tolerance under temperature
- More pressure volume and more oil pressure
- More scavenge volume eliminating power robbing wet sumping, blow-bye and oily air cleaners
- Cooler oil and engine temperatures
- More horsepower, more torque, more oil pressure, more return volume
- High Flow 4140 heat treated Chrome Moly gerotor gears
- When combined with the Feuling® Camplate test results show 3
 Horsepower gain and 4 ft/lbs of Torque gain to the rear wheel,
 while lowering engine & oil temperature. Feuling® camplate NOT
 required.
- Stock replacement for Twin Cam[®] engines, recommended for both strip & performance street engines
- Made in the U.S.A.

BILLET OIL PUMPS

Harddrive oil pumps are made from cast aluminum that is CNC machined to close tolerances and then polished to a high gloss finish. Great value for small dollars! Surplus oil is routed back to the main passage rather than the return to avoid unnecessary filtering and offer the opportunity to upgrade earlier engines to the 81-up oiling system. This oiling system splits bottom and top end oil supply which increases oil pressure to the hydraulic lifters and and top end. They come with gaskets, drive shaft with with keys and snap ring, mounting hardware, check ball and pressure relief valve assemblies.

REFERENCE INDEX

PSI TESTER

- This pressure test tool is a must for any H-D® Twin Cam engine builder. Bench test each camplate before installation, cycle the pressure relief valve, testing operation and assuring the valve moves freely, seats and seals each time, any leakage at the relief valve will reduce oil pressure.
- This tool allows the engine builder to know what PSI the relief valve opens; the spring tension can be adjusted to achieve the desired pop off PSI. Tool includes: air regulator, 0 - 100 psi pressure gauge, gasket & needed hardware, fits all Twin Cam engine camplates. Feuling® recommends the camplate valve be seated 0-30 psi with full pop off at 55-60 psi. Made in the U.S.A.

SPORTSTER CAM COVERS

Featuring a raised rib design, this cast aluminum 'second skin' cam cover trim fits over your OEM cam cover. It is held in place with three supplied Allen bolts and spacers. The EMD cam cover trim can be notched at the upper front to make room for your OEM breather. You can also opt to relocate the breather to a lower position, especially if you're cutting the OEM cam cover up to visually 'split' the motor from the transmission. These covers are available in two styles, the classic ribster and the knuckle style with raised ribs and a smooth front section.

	Application	Description	WPS#
Α	Fits `91-Up XL Models	Ribster Cam Cover Raw	866-05005
В		Ribster Cam Cover Black	866-05006
C		Knuckle Style Cam Cover Raw	866-05055
		Knuckle Style Cam Cover Black	866-05056
D	Fits `77-90 XL Models	Ribster Cam Cover Raw	866-05057
		Ribster Cam Cover Black	866-05058

SPORTSTER SPROCKET COVERS

Featuring a raised rib design to match the EMD Cam Cover Trim, the EMD Sprocket Cover provides a much-needed finishing touch to any custom Sportster for that 'split transmission' look. The Sprocket Cover is a direct bolt-on for Sportsters with forward controls and forward-mounted master cylinder. Midmount Sportsters will require custom modifications.

	Application	Description	WPS#
Α	Fits `04-Up XL Models	Ribster Sprocket Cover Raw	866-05080
В		Ribster Sprocket Cover Black	866-05081
C	Fits `91-03 XL Models	Ribster Sprocket Cover Raw	866-05082
D		Ribster Sprocket Cover Black	866-05083

BILLET POINTS COVER

- Harley Davidson points cover is CNC milled from 6061 aircraft billet aluminum
- Available in our hard black anodized contrast cut or our show chrome finish

CYLINDER STUDS

- These High Performance Cylinder studs are made from 180,000 psi yield strength, fine grain, heat treated, premium grade 8740 material
- Threads are rolled after heat treating to insure maximum compressive stresses are retained, insuring maximum strength, and the longest fatigue life possible
- The case end threads are designed to have a slight interference fit to maintain good thread contact at high temperature
- Studs are center less ground to insure concentricity, and finished with a premium black oxide treatment, excellent appearance

Description	Year	WPS#
Twin Cam Cylinder Studs	`99-17	191-57096
EVO Big Twin Cylinder Studs	`84-99	191-57086
EVO Sportster Cylinder Studs	`86-17	191-57085

CYLINDER DOWELS

- Cylinder alignment dowels are machined from steel and receive a black oxide surface treatment
- OEM Cylinder Alignment Dowels are often galled and distorted when removed during a top end job
- Quick, clean, easy, and accurate reassembly

Description	Application	WPS#
Cylinder Dowels 0.5575" O.D. (4pack)	All EVO Big Twin and XL Models	191-57087
Cylinder Dowels 0.4365" O.D. (4pack)	All Twin Cam Models	191-57097

CYLINDER STUD KIT

- The strongest studs available!
- Feuling® studs are installed to a torque spec can be reused and carry a lifetime warranty
- Heat-treated 8740 chrome moly steel studs
- Stock replacement
- Kit includes 8 cylinder studs, moly assembly lubricant and thread sealant
- Made in the U.S.A.

CYLINDER STUD & HEAD BOLT KIT

- The strongest studs & bolts available!
- Top engine builders demand quality fasteners! Secure your engine with complete confidence
- Superior in strength and performance to any other cylinder stud head bolt kit on the market, this kit is designed to exceed the needs of high performance engines.
- Dont Risk Head Gasket Failure!
- Stock Cylinder studs are designed as a stretch to torque stud with a one time use only lifespan
- Feuling® studs are installed to a torque spec can be reused and carry a lifetime warranty
- Heat-treated 8740 chrome moly steel studs
- Precision j-form threads for optimum engagement, to prevent galling and promote more consistent torque
- · Special alloyed stainless steel head bolts
- Manufactured by ARP® to Feulings® exact specifications
- Recommended for all V-Twin engines
- Stock replacement
- Kit includes 8 cylinder studs, 8 head bolts, moly assembly lubricant and thread sealant
- Made in the U.S.A.

HACADÁVA AMERICAN V-TWIN PRODUCTS

CRANKCASE BREATHERS

- · Crankcase vent filter with base
- For 3/8" hose
- Chrome finish

•	Re	p	la	cem	ent	filter	avai	ilable

· Sold each

	Description	WPS#
Α	Crankcase Breather Assembly	820-51578
В	Replacement filter (for 820-51578)	820-51579
C	Dual Breather Filter	820-51580

THE 'OIL' FIX

- Prevents blown or weeping gaskets
- Produces the proper amount of vacuum in the crankcase, at all RPM ranges

CRANKCASE VENTING SYSTEM

- Your engine gains quicker throttle response
- You'll gain 2-8% of usable rear wheel horsepower
- It snaps open for easy cleaning, and is light weight, compact and not restricted to position to fit all H-D models

Application	Year	WPS#	
Big Twins/Sportsters	All	39-1206	

- Fixes problem leaks associated with the base gasket
- With the oil control jet installed into the crankcase, the oil doesn't touch the gasket, thereby no leaking through the base gasket
- Oil Fix control jets control the oil coming from the head through the barrel and into the case

Application	Year	WPS#	
EVO Big Twins	`84-99	39-1207	

HORIZONTAL OIL COOLERS

- The Jagg 6-row LowMount oil cooler keeps a low profile and beats the heat
- Designed especially for Softail models (without ABS)
- · LowMount oil cooler mounts in the lowest possible position, yet still above the bottom of the frame
- Special in-line turbulators add to the cooler's efficiency with minimal oil pressure loss or restriction
- The Jagg 10-row LowMount oil cooler system was designed to deliver and keep a low-profile
- This mounting position is particularly suited to touring models with lower fairings
- Extreme performance in a compact package

	Model	Year	Black	Chrome	Fan-Assisted

VERTICAL FRAME MOUNT OIL COOLERS

Quality, Style, Performance: The Jagg SlimLine was designed for applications that demand exceptional performance and a stealthy, appearance.

- 6-row, 2-pass Jagg oil cooler design
- Powder coated gloss black to virtually disappear when mounted on the frame tube
- High-flow oil filter adapter (included!) features an automatic thermal by-pass - only cools oil when it's hot
- Designed with HyperFlow Technology: the engineered balance between performance & flow
- · Includes everything for a quick and easy installation

Model	Year	Deluxe	Chrome	Slimline
Sportster	`86-19	821-2000	821-2001	821-2002

Touring *	`84-16	821-2000	821-2001	821-2002

*Will not mount with models equipped with lower farings or 2014-2015 models with water cooled heads

VERTICAL FRONT MOUNT WIDELINE OIL COOLERS

Extreme performance in a compact package, the Jagg WideLine oil cooler was designed to exceed the cooling demands of the modern V-Twin motorcycle—and look good doing it. An unmatched 10-rows of cooling potential will end the discussion about heat.

- · Integrated Jagg WeatherTek Fan pulls wind through the oil cooler when low vehicle speeds demand more airflow
- High-flow oil filter adapter (included!) features an automatic thermal by-pass - only cools oil when it's hot
- Designed with HyperFlow Technology: the engineered balance between performance & flow
- Includes everything for a quick and easy installation

Fan Assisted

GASKET SERVICE KIT

- Gasket, large o-ring, and instructions for servicing Jagg Offset Oil Filter Adapters
- Aluminum foam material (AFM) gasket provides leak-free seal between adapter halves
- Large rubber o-ring (square cross-section) seals rear face of adapter

Description	WPS#	
Gasket Service Kit	821-2020	

OIL HOSE UPGRADE

- Set your bike apart and give your Jagg oil cooler installation a racy look with a set of performance braided oil hoses
- Hose features internal steel wire reinforcement and braided outer jacket for structure, toughness, and a racy look
- Hose finishers with integrated worm-drive hose clamps dress up hose ends and make for solid connections
- Hose separators manage hose lengths, keeping hose tight and tidy UPGRADE KIT INCLUDES:
- 3-foot length of your choice of either: 821-2022 or 821-2023
- One pair of aluminum hose separators in matching color
- Two pair of aluminum hose finishers with integrated wormdrive clamps, in matching color

Description	WPS#
Lightweight Fiber Braided Hose	821-2022
Stainless-Steel Braided Hose	821-2023

OIL COOLERS BLACK HOSE CLAMP

- For connecting hose to push-on style hose fittings
- Worm-drive mechanism tightens and seals over hose
- Great for disappearing on black oil hoses
- Steel construction, black finish

Description	WPS#	
7/8" OD Black Hose Clamps (10pk)	821-2021	

OIL FILTER OFFSET ADAPTER

- Offset Filter Mounts Allows for Easy Installation of Remote Oil Coolers
- 1/8" NPT Fittings (included)

Description	Application	WPS #
Offset Oil Filter Adapter	TC 88/96 Models	820-0704
Offset Oil Filter Adapter	Evo Big Twin and Sportsters	820-0705

RED EAGLE CLUTCH PACK

This is our oldest and most reliable grade. It is the most popular as well. It offers the best combination of performance and price. For most applications it is ideal as it offers high heat resistance and durability at an affordable cost.

CARBONITE® CLUTCH KITS This is our high end, highest heat resistance, and most

durable product we offer. It is recommended for high end use and has been used in world class racing. It is very popular with the Police Drill Teams around the USA, because of its ability to slip and still maintain durability. It is far and away the best material available and comes with a lifetime warranty.

Carbonite® High Performance Clutch Kits are designed and engineered for maximum performance and durability in the most demanding performance applications.

Carbon Carbonite® based friction material:

- · Carbon offers superior coeffcient of friction
- Carbon provides higher temperature capacity
- · Decreases wear while increasing durability

Single side extra capacity clutches reduce heat:

- Additional friction element increases surface area
- Additional steel elements increase conductivity
- Balanced temperature and rapid heat dissipation

ENERGY ONE Performance Clutches

PERFORMANCE CLUTCHES

All clutch plates are made of either 6061 T6 or high-tempered steel with our own race proven friction material. Each plate design was tested so that maximum performance is achieved. Different groove patterns were designed for maximum oil circulation and heat dissipation. The steady flow of lubricant will cool and determine the longevity of your clutch.

A

- Kit Includes 5 friction plates with tempered steel cores
- Maximum groove pattern for excellent heat dissipation & oil circulation (run wet or dry)
- · Steel plates not included
- Made in the USA

В

- Includes five friction plates (6061 T6 aluminum core)
- With maximum depth groove pattern for efficient heat dissipation and oil circulation
- Included are four tempered steel drive plates
- Made in the USA

C

- High performance extra plate kit
- Includes 6 friction plates with 6061 T6 aluminum cores, 5 tempered steel drive plates and 10 Zero crush coil type clutch springs
- Stack height is preset for easy, accurate installation (run wet or dry)

D

- Includes six friction plates with tempered steel cores and seven tempered steel drive plates
- 25% wider than OEM clutch plates for a significant increase in clutch area
- Stack height is preset for easy installation (run wet or dry)

E

- High Performance Extra Plate Kit
- Includes nine friction plates on tempered steel cores, eight tempered steel drive plates and 15% stronger diaphragm spring
- Starburst groove pattern for maximum heat dissipation and oil circulation
- Preset stack height for easy installation
- 15% more clutch area for high performance strokers
- Remove OEM rivet plate!

FEATURED TECHNOLOGY

EXP

AUTO CLUTCH TECHNOLOGY

Using principles of centrifugal force, EXP technology automatically engages and disengages the clutch based on engine RPM to eliminate stalling. With EXP, riders can start and stop without touching the clutch lever. By eliminating engine stalling and optimizing power delivery, we provide riders an enriched riding experience, increased clutch life, and convenient navigation through stop-and-go traffic, while maintaining a fully functional clutch lever at all times.

TorqDrive[®] CLUTCH DISK TECHNOLOGY

Our TorgDrive friction disk technology provides riders with added durability, a highly responsive feel and the torque capacity required to access the motor's full potential. TorgDrive disks feature a high strength steel core and friction material with unmatched energy capacity. TorqDrive delivers next level clutch control and consistency. Rekluse steel basket lining sleeves provide protection against basket wear and notching.

Core (Applicable to Harley-Davidson® Sportster® models only)

BILLET ALUMINUM COMPONENTS

Our Core technology is the foundation of Core EXP 3.0. Engineered and made from aerospace quality billet aluminum, Core components optimize oil flow, last longer and reduce temperatures to maintain consistent performance even in extreme conditions.

RADIUSX

RadiusX is a high-performance auto clutch combining TorqDrive® friction technolog with our flagship automatic EXP disk, all within an OEM clutch footprint.

FEATURES AND BENEFITS

- Take off and stop in gear without using clutch lever no more stalls
- · Confidently navigate traffic and slow speed conditions
- TorqDrive® friction disks deliver increased torque capacity and power transfer
- · Standard clutch lever function with full override capability

TorqDrive®

Unlock more power without compromising reliability. TorqDrive provides more disks in less space, allowing us to add up to 6 additional friction disks to the clutch pack over stock. More frictions = more torque capacity and less slip thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock up device.

MANUAL

FEATURES AND BENEFITS

- Plus 6 friction disks offers up to 50% stronger clutch engagement with no increase in lever effort
- · Smoother shifting
- · Improved lever feel
- Engineered to eliminate slip and tunable to handle high horsepower engines
- · Steel core friction disks for improved heat dissipation and longer clutch life

CoreEXP 3.0

Available exclusively for Harley-Davidson® Sportster®

Core EXP 3.0 is a centrifugal auto clutch featuring Rekluse's EXP technology. Full clutch control and use of the lever is retained for a no-compromise riding experience. Core EXP 3.0 offers dead-on clutch engagement every time. Rekluse's billet center hub and pressure plate convert the clutch to six coil springs which improves lever feel, clutch performance, and durability.

FEATURES AND BENEFITS

- Take off and stop in gear without using clutch lever no more stalls
- Confidently navigate traffic and slow speed conditions
- Billet center hub and pressure plate converts clutch to 6 coil springs
 - -Improves lever feel, clutch performance, and durability
- Increased oil flow through center hub and pressure plate
 Decreases operating temperatures, increases clutch life
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)

RADIUSX AUTO CLUTCHES

RadiusX is a high performance centrifugal auto clutch combining our TorqDrive and EXP technologies. TorqDrive provides more clutch disks in less space, allowing for maximum performance within your bike's existing clutch footprint. You retain full control of shifting and use of your clutch lever with no compromise in power delivery.

- Dead-on clutch engagement every time
- Take off and stop in gear without using clutch lever no more stalls
- Experience maximum power delivery
- Confidently navigate traffic and slow speed conditions
- TorgDrive® clutch pack delivers higher torque capacity and increased power transfer
- Rekluse sleeves eliminate basket wear and notching
- Standard clutch lever function with full override
- No modification to stock components
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)

CORE EXP 3.0 CLUTCH FOR SPORTSTERS

- Take off and stop in gear without using clutch lever
- Centrifugally activated technology automatically prevents engine
- Cruise through traffic like you're on the open road You don't have to hold the clutch in at a red lights or in heavy traffic anymore
- Effortless low speed maneuverability
- Cooler operating temperatures extend clutch pack life
- Standard clutch lever function with full override
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)
- No modification to stock components

Application	Rekluse #	WPS#	
98-18 XL Models	RMS-6206	156-9000	

^{*} Converts stock diaphragm spring to six coil springs. Billet pressure plate and center clutch included.

Α

MANUAL PRIMARY CHAIN ADJUSTER

- Ideal for bikes equipped with big displacement high performance engines
- Permits manual selection of primary chain tension and is a direct replacement for the original equipment automatic version
- The anodized billet aluminum adjuster allows you to fine tune & lock settings
- The manual adjustment locks the chain tension in place to prevent free play during severe shifting

Description	Application	WPS#
Manual Primary Chain Adjuster	Fits `06-16 Dynas, `07-16 Softails and Touring Models	820-52350
Replacement Shoe		820-51211

FINE TOOTH ADJUSTMENT KIT

- The finer pitch teeth make it easier to dial in your primary chain slack
- The BAKER primary chain adjuster bracket looks like the stock 39990-01 style bracket but has 28% more adjuster teeth

Application	WPS #	
`87-06 Big Twin Except 2006 Dyna	821-1064	

- Direct replacement for the stock tensioner shoe
- Sold each

The EMD/Billy Boy primary cover is directly inspired by the design of the Panhead/ Knuchlehead tin primary cover housings from the Forties. The Snatch primary cover design is inspired by the finned primary covers from the golden age of choppers. They install in place of your OEM primary cover and will bring the ultimate vintage, bobber and chopper look to your project!

 Manufactured in die cast aluminum, CNC milled gasket surface

- OEM mounting hardware reusable
- Derby cover hardware included (chrome)
- Seal kit not included, please order separately
- Billy Boy cover available in "Raw" with chrome derby cover or "Black" with chrome derby cover

Description	Application	Raw	Black	Black Cut
Snatch Primary Cover	Fits `07-16 Touring Models	866-05101	866-05102	
	Fits `07-17 Softail Models	866-05103	866-05104	
	Fits `06-17 Dyna models	866-05105	866-05106	
Billy Boy Primary Cover	Fits `89-06 Softail Models	866-05107	866-05111	
	Fits `91-05 Dyna Models	866-05109	866-05112	
JayDee Primary Cover	Fits `07-16 Touring Models			866-05100

SPORTSTER PRIMARY COVERS

Add a classic custom look to your ride with these EMD outer primary covers. They are made of cast aluminum and then CNC machined for precise, leak free fitment.

- · Available in raw cast or black powder coat finish
- Add your personal touch by polishing or accenting the ribs or the entire piece
- Ribbed design is directly inspired by the finned primary covers from the golden age of Choppers!
- EMD/RIBSTER primary cover replaces your OEM primary cover and will radically change the look of your engine
- OEM mounting hardware reusable
- Gasket kit NOT SUPPLIED please order separately

Application	Description	WPS#
Fits `91-03 XL Models	Ribster Primary Cover Raw	866-05001

7-SPEED DIRECT DRIVE BUILDERS KIT

- Shorter first gear ratio (numerically higher) to help with the off the light get up and go, as well as slow speed maneuvering around the bar parking lot
- Fully assembled gear set and shift system. No adjustments needed for installation
- The DD7 re-uses the stock shifter pawl and includes a new main drive gear bearing and seal, door, top and side cover gaskets
- Compatible will all types of aftermarket hydraulic side covers, as well as the stock Screaming Eagle versions
- Direct slide in installation. No case modifications needed. Clears all exhaust and works with all after market clutches

- Includes a new transmission top cover that holds the linear, roller bearing mounted, shift detent
- Easy to find neutral, every time.
 Smooth shifting without the the stock clunks or 'jerks' when engaging
- Upgraded ARP 12 pt stainless steel bolts included. For transmission top and side cover as well
- Included BAKER Direct Drive 7 Speed Stock Side Cover emblem
- Backed by a 5 year limited warranty

Application	Description	Year	WPS#	
Touring	7-Speed direct drive builder's kit w/ chrome trap door	`07-16	821-1000	
	7-Speed direct drive builder's kit w/ wrinkled black trap door	`07-16	821-1001	
Softail	7-Speed direct drive builder's kit w/ chrome trap door	`07-17	821-1000

Dyna	7-Speed direct drive builder's kit w/ chrome trap door	`06-17	821-1000	
	7-Speed direct drive builder's kit w/ wrinkled black trap door	`06-17	821-1001	

6-SPEED DIRECT DRIVE BUILDERS KIT

- Pre-assembled gearset, ready to easily install, featuring helical cut 4th, 5th, and 6th gears for noise reduction, and straight cut gears in 1st - 3rd for strength in the torque ranges.
- 28 tooth compensating sprocket necessary for maintaining the stock 1st - 5th ratios included.
 Overdrive is obtained through the primary, reducing the overall rpm in 6th gear by 400-500rpm depending on the application.
- Roller detent shift drum with fixed spindle, eliminates shimming and misalignment. Finding neutral is very easy with a redundant neutral detent.

- Shifter pawl assembly with improved geometry for a perfect response. Includes a built in over-shift protection for smooth precise shifting.
- Gears are manufactured with 8620 hardened gear steel for long life and dependability.
- 120 ft-lb torque capacity, applications that exceed this rating should use the Overdrive 6-speed rated at 165 ft-lb torque capacity.
- Available with 3.24 1st gear, or 2.94 1st gear.
- Backed by a 5 year limited warranty.

OVERDRIVE 6-SPEED BUILDERS KIT

THE ORIGINAL 6-SPEED TRANSMISSION

This is the ORIGINAL 6-speed design that revolutionized the American V-Twin industry. Yet, it's still the best overdrive 6-speed built to this day...hands down. Our OD6 is built to comfortably handle the power from todays big-inch motors. This transmission is rated for motors putting out up to 165ft/lbs of continuous use. It is available as a complete transmission with a wide variety of case options and configurations, or as a builder's kit for your stock case application, which requires little to no modification. The BAKER OD6 is available with many optional gear ratios to match your engine torque and riding style.

- Billet 6061-T6 bearing door
- 1/8" thick bearing retainer plate
- Redundant Neutral smooth shift system
- · Hard chrome plated shift forks
- Diamond cut gearset made out of 8620 steel
- Optional Gear Ratios
- · All transmission seals, gaskets and hardware
- 5 year limited warranty

ODR6 COMPLETE TRANSMISSION

- 6 Speed units only available as a complete build transmission
- Multiple gear ratio combinations available
- Full complement of straight cut gears for the ultimate in strength, with the tooth forms ground with diamond coated tooling
- Works with all primary and clutch configurations on the market
- Comes standard with zero offset pulleys and 530 chain sprockets, with many offset pulleys available at a nominal up-charge
- Pulley covers sold separately
- Keeps the motorcycle fully balanced by not needing any drivetrain offsets, strictly a bolt in design on all versions
- · Backed by a 5yr limited warranty

6 - INTO - 4 TRANSMISSION

Years ago we came out with the 6-into-4 for Shovelheads. Sales of these transmissions have been a complete shocker and the message is loud and clear: People love their Shovelheads and they ride the piss out of them. We often get asked "why not a 5-into-4?". This is because 4-speeds have a 1:1 fourth gear and Evo 5-speeds do as well. This provides no RPM advantage to your old iron. 6-into-4's have a 1:1 fifth gear and a .86:1 sixth gear; good for a 500 RPM reduction on the highway. Our original 6-into-4 transmission is a direct replacement for the 1970-Early 1984 4-speed. This year we have main shaft options that allow fitment into wet (diaphragm) clutch model Shovels and 4-speed Evo models that require a longer main shaft and shorter ones for Pan and Knuckle. Available with different kicker covers.

- 6061-T6 extruded billet case with the nostalgic look of 4-Speed and precision machined for no leaks
- 5th mounting stud machined into the case, for pure strength and no weak points
- BAKER Klassic Kicker gears, stainless steel kick arm, and bronze pedal standard
- Case available with or without primary flange; raw, wrinkle black, or polished
- 23 tooth sprocket standard
- Forged top cover available with or without neutral switch
- Modern 5-speed style shift drum and shifter pawl for smooth guick shifts
- Electronic speed sensor provision on right rear of case
- Comes standard with a BAKER 5 Year/50,000 mile warranty

Application	Description	Year	WPS#

5-SPEED ROLLER SHIFT KIT

- Our 5-speed drum is a direct replacement for all existing stock H-D 5-speeds, but features improvements for smoother shifting
- The pillow blocks included with the kit are machined from our 6061-T6 extrusion stock for a significant increase in strength over stock
- Made in the U.S.A.

Application	WPS #	
`80-06 Big Twin All	821-1060	

BILLET STEEL SHIFT FORKS

- Our Shift Fork Kits include all three forks and are a direct replacement for the standard O.E.
- Cross section is three times thicker than stock
- These billet steel forks are hard chrome plated like a fine American made tool

Application	WPS #	
`87-06 5-speed Big Twin	821-1063	

5-SPEED SMOOTH SHIFT KIT

- 5- Speed smooth shift kit greatly improves the shifting
- The shift detent plate is made out of billet and securely bolted to the shift drum
- Made in the U.S.A.

Application	WPS #	
`91-03 Sportster	821-1061	

TRANSMISSION DIPSTICK

- Our dipstick is made of billet aluminum and is showchrome plated
- Redesigned dipstick with the largest radius possible for added strength
- Made in the U.S.A.

Application	WPS #	
`87-06 Big Twin Except `06 Dyna	821-1070	

TRANSMISSION DIPSTICK

These Knurled dipsticks replace the OEM # 37065-06 item and really clean up the look of the transmission. Our Knurled transmission dipsticks are machined from 6061 T6 billet aluminum and are brilliantly chrome plated or anodized black with machined accents.

Application	Chrome	Black
`07-18 FLH/FLT and Softails, `06-17 Dynas	811-20190	811-20191

TRANSMISSION DIPSTICK

Chrome plated transmission dip stick

Sold each

TRANSMISSION

- Transmission Case Bearings
- Transmission Case Snap Rings
- Transmission Trap Door Bearings
- Gearset Bearings
- Gearset Snap Rings and Thrust Washers
- Transmission Assembly Gaskets
- Transmission Assembly Seals

Application	WPS #	
4-06 Softail, FXR, FLT-FLH	821-1062	

MAIN DRIVE GEAR SEAL

- Replaces the H-D part number 12067B
- It's a 5-speed transmission main seal

Application	WPS #	
`94-06 Big Twin	821-1110	

INNER PRIMARY BEARING AND SEAL KIT

Includes all parts needed for inner primary bearing replacement

• OE quality, fits stock and most aftermarket inner primaries

Application		WPS#
Twin Cam stock replacement	`08-17	22-53103
	`85-07	22-53101
Harley Davidson Big Twin HP Double row ball bearing designed for use on straight splined shafts only (Except `06 Dyna)	`90-06	22-53102

ROD END BALL JOINTS

- 5/16" Threaded ball joints
- Compatible with most OEM shift linkages
- Sold each

Description	WPS#
5/16"-24 Ball Joint Rod End	563-01015

SHIFT LINKAGES

- WOW! These shift linkages are truly BADASS! Paul wanted to expand his ever-popular Wedgy, Speed Freak and Yafterburner product lines and these shift linkages fit the bill.
- Our shift linkages are machined from 6061-T6 aluminum and then brilliantly chrome plated or black anodized.
- Shift linkages are a simple bolt-on installation (2017 requires a spacer kit). All hardware is included.

	Description	Black	Chrome
Α	Speed Freak	827-05490	827-05491
В	Wedgy	827-05492	827-05493
C	Yafterburner	827-05494	827-05495

SHIFT ROD ENDS

- Chrome plated rod ends
- 5/16" thread
- · Sold in sets of two

Description	WPS#

SPROCKETS

• .900" offset sprockets are the maximum offset that can be used without any modification to the stock inner primary. This makes it possible to run a 180 rear tire with no transmission offset or primary drive monkey-business required. Some rear fender modification may be required

- .500" offset sprockets series permits use of a wider tire than stock and great flexibility in dialing-in your secondary drive
- .200" offset sprockets are modeled after the factory 21 tooth sprocket, except this series is available with various tooth counts for flexibility in dialing-in your secondary drive ratio

821-1101

821-1098

Sprockets	Application	WPS #
Sprocket, 25 tooth .200" offset	`06-17 Dyna and Softail, `07-Later Touring	821-1094
Sprocket, 24 tooth .500" offset	`79-06 5-Speed Era Transmissions	821-1098
Sprocket, 23 tooth .500" offset	`79-06 5-Speed Era Transmissions	821-1099
Sprocket, 24 tooth .900" offset	`79-06 5-Speed Era Transmissions	821-1100
Sprocket, 23 tooth .900" offset	`79-06 5-Speed Era Transmissions	821-1101
PULLEY SPACERS		
Pulley/Sprocket Spacer	`94-06 Big Twin/Sportster (exc. `06 Dyna)	821-1102
Pulley/Sprocket Spacer	`85-93 Big Twin/Sportster	821-1103

- Sprockets are precision machined with hardened teeth for more mileage
- The off-set sprockets are an easy solution when installing a slightly wider tire without offsetting the primary or transmission
- Off-set sprockets are available in 1/2"

INDEX

All sprockets are heat-treated one-piece construction, machined on computer controlled lathes to assure the highest quality and longest wear available. Remember, when you buy PBI sprockets, you are buying an unbeatable combination of guaranteed quality, experience, competitiveness and availability. Ask for PBI sprockets by name.

REAR SPROCKETS

MADE IN THE USA BY THE PROS FOR THE PROS!

- Manufactured from 7075 T6-51 aluminum
- Stronger than steel sprockets in tensile, yield and shear strength
- · Far lighter than steel for less unsprung weight
- Made from full thickness aluminum for maximum strength
- · Available in a full range of tooth sizes

Material	Brinel	l Hardness
Plain Aluminum	6061-T6	95
Mild Steel	1010	116
PBIs aircraft alloy aluminum	7075-T6-51	150

COUNTERSHAFT SPROCKETS OEM REPLACEMENT

- CNC machined from solid high grade 8620 alloy steel
- Broached specially for maximum spline-to-shaft contact providing optimum load bearing
- Heat-treated for long life and extended wear resistance
- Finished with an electroless nickel plating for corrosion, wear resistance and lubricity
- Manufactured in USA
- ADD TOOTH COUNT TO END OF PART NUMBER WHEN ORDERING

3D CHAIN

EK ThreeD (3D) Premium motorcycle chain is Elegant, Strong, Detailed and Magnificent. It offers the ultimate shape with flexibility and strength. EK Chain set out to produce a premium chain that was as beautiful as it is strong. An impressive outer plate shape that offers a curved form to reduce weight and increase appeal is connected together with inner plates and pins that feature lightening holes to further reduce mass. QX2 X-Rings have a better wear-resistance and performance than standard QX-Rings by 30% resulting in a chain that puts 1% more power to the rear tire.

5 CONCEPTS TO MAKE OUR IDEAL "ThreeD" CHAIN A REALITY

IMPRESSIVE

- Ultimate plate shape
- 3D-designed with a beautiful curved form is an evolutionary shape

DYNAMIC

- Astonishing transmission efficiency
- · Smooth and powerful acceleration

- Bright Silver, Gold and Black premium chain
- Nothing but our 3D design makes it possible to have an elegant form and everlasting beautiful light reflection

ADVANCED

- Applying brand-new revolutionary process of manufacturing
- Far better than standard chains in every aspect such as fatigue strength, product quality and light weight
- Aiming for no initial stretch

LIGHT

- Slim design with minimum weight
- Produced by our exclusive technology to strengthen a chain without making it heavy.
- Weight per 100 links 530Z=4.81LB

alitication of the last of the **MVXZ2 SERIES COLORED CHAIN**

- For Offroad, ATV and 600-1000cc street applications
- · Lightening holes on side plates
- Friction reducing QUADRA-X Rings
- X-Rings have greater sealing surface and less friction than O-ring chains
- · Gives your bike the factory works look
- Larger pin diameter than standard chains make chains stronger and last longer

THE PINNACLE OF CHAIN TECHNOLOGY

- Ultra strong: ZVX3 series chains easily surpass every other brand with a tensile strength of 11,100lbs.
- New NX-ring lasts 15% longer than ZVX series
- Minimizing the clearance between the plates for improved stiffness and weight
- · Available in metallic colors and natural finish

SRO SERIES O-RING (SRO, SRO-Z, SRO-5)

For Dirt, ATV and Street applications

- High quality O-ring chain seals in lube and keeps water and mud out
- Solid rollers and entended anti-kink bushings increase chain longevity
- Japanese made chain with quad staked riveting of pins into side plates
- · Available in gold and standard finish

Rivet Masterlink	691-0901

- Utilizes Sunstar's exclusive TG-ring (TripleGuard) where the ring seals with 3 lips per side for the ultimate in heat prevention and keeping the chain lubricated even in extremely harsh conditions
- The 520RTG1 is the perfect choice for racing / performance oriented applications with 520 chain size. With a tensile strength of 9900 lbs, the 530RTG1 is intended for the large displacement sport machines like Ninja 1400, GSX1300R Hayabusas and others
- Color option: Gold
- · Uses rivet type connecting link

STANDARD & HEAVY DUTY CHAINS

- Designed and manufactured in Japan
- Hardened and shot peened components
- · Solid rollers, pre-stretched
- · All chains are available in natural finish, gold finish available depending on chain pitch/length
- · All chains supplied with clip style master links.
- All rolls of chain include 5 master links per 25' of chain.

See page 389 for specification chart.

MILWAUKEE 8 GASKETS AND SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

TWIN CAM GASKETS & SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

All individual gasket list prices are per ea

EVO BIG TWIN GASKETS & SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

PANHEAD & SHOVELHEAD GASKETS & SEALS

- · At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

COMETIC IRONHEAD SPORTSTER GASKETS & SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- Low Compression, .063" Head Gaskets
- Head Gaskets are .032" copper except where noted and Base Gaskets are .031"
- Kit contains all of the necessary gaskets, seals and o-rings to rebuild the motor from the cylinder base up

All individual gasket list prices are per ea

V-ROD GASKETS & SEALS

- Provide maximum sealing performance for today's high output engines and require no sealants
- Ideal for aluminum heads to aluminum blocks and aluminum heads to cast iron blocks withstanding the shearing force created by the two materials.
- No need to re-torque, the embossing design of the MLS gasket promotes an even clamp load across the sealing surface allowing for measurable reduced bore distortion

EVOLUTION BIG TWIN GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application

- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

INDEX

PANHEAD GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

All individual gasket list prices are per ea

'57-85 SPORTSTER GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

TWIN CAM

Small Stocking kit includes 1 package of each

- 681-4002 (motor kit w/ .046 head gasket)
- 681-4306 (5pk trans oil pan gaskets for Touring models)
- 681-4028 (trans gasket kit Dyna 6speed)
- 681-4033 (primary cover kit Touring 6speed)
- 681-4037 (primary cover kit Dyna/Softail 6speed)

EVO BIG TWIN

Small Stocking kit includes 1 package of each

- 681-4383 (motor kit w/ metal base gaskets '84-91)
- 681-4381 (motor kit w/ metal base gaskets '92-99)

EVO SPORTSTER

Small Stocking kit includes 1 package of each

- 681-5215 (motor kit w/ metal base gaskets)
- 681-5213 (motor kit w/ rubber rocker cover gasket)

GASKET BOARDS · Sturdy four-color gasket display boards

- 32" tall x 48" wide
- Come ready to mount 1/8" or 1/4" peg board
- · Peg board hooks included
- Made from durable 20-mil stay flat vinyl
- Water and oil proof
- · Large Stocking Kits include 1 package of each gasket seal and O-ring

SHOVELHEAD

Small Stocking kit includes 1 package of each

- 681-4740 (motor kit w/ beaded chain cover)
- 681-4407 (primary cover gasket kit FXR/FLT)
- 681-4763 (primary cover gasket kit FL/FLH/FXS)

KNUCKLEHEAD/ PANHEAD

Small Stocking kit includes 1 package of each

- JG# 17028-36 (motor gasket kit '36-47)
- 681-5051 (copper embossed head gaskets, Knucklehead)
- 681-5055 (primary cover seal kit)

GARAGE DOOR OPENER REMOTE

"Let us open your garage door"

- · Garage door opener mounts in place of the OEM front master cylinder cover for an ultra clean look
- · Works with garage door, gate and commercial door openers that are 315 or 390 MHz and have a learn/programming button (inc. most all models with pet safety sensors)

Application	Year	Flat Black	Gloss Black
Dyna	`06-17	12-8902FBK	12-8902GBK
Softail	`06-14	12-8902FBK	12-8902GBK
Sportster	`04-16	12-8903FBK	12-8903GBK
Touring	`05-07	12-8902FBK	12-8902GBK
	`08-13	12-8901FBK	12-8901GBK
V-Rod	`06-17	12-8901FBK	12-8901GBK

The Flash2Pass system turns your existing headlight high-beam switch into a transmitter to open and close your garage door or gate.

- Uses an encrypted radio frequency (RF) signal
- Safely and conveniently opens doors/gates; eliminates the need to carry and use a standard, push button door opener
- No extra switches or buttons needed, activated by the double clicking of the headlight high beam or other 12 volt switch
- Works with any vehicle with a 12-Volt electrical system: motorcycles, cars, trucks, ATVs, snowmobiles, golf carts
- Proprietary receiver operates with virtually all automatic garage door or gate opener brands manufactured from 1982 to the
- Easy, DIY instructions; installs in less than 15 minutes with standard household tools

- Unobstructed range of more than 100 feet
- Weatherproof transmitter
- · Patented technology
- 1-year limited warranty
- · Made in the USA

	Description	WPS#
Α	Flash2Pass kit	71-9030

THROTTLE BY WIRE EXTENSIONS

- Replacement electrical harness for HD models that use the Throttle by Wire system
- Lower connector body is not installed, to facilitate routing the harness through the handlebar during installation
- All wires are finished with the proper terminals, just plug into connector after harness is installed in handlebar, no soldering or crimping is necessary
- Harness length is 46"
- Excess length can be hidden inside handlebar, or behind a body panel if necessary

RELAY SWITCHES

- Direct OE style replacement Relay switches
- Consistent and reliable starting performance and long-life
- Includes a heavy-duty brightly finished case and many of the high performance model features

	Description	Year	OEM#	WPS#
Α	Most HD models with "plug" style Starter Relay	`80-99	31506-79B	275-01090
В	Same as above, but w/ no protective skirt	`80-99	31506-79B	275-01091
С	This headlight relay allows control of hi-low beam from one wire using a button type switch			275-01092
D	Starter and brake relay w/ diode works with most models	`91-07	31504-91B	275-01093
Ε	Big Twins	`00-13	31522-00C	275-01094
F	Big Twins	`00-11	31511-01A	275-01095
G	XL models	`05-09	31601-04	275-01096
Н	Touring models	`04-17	31586-07	275-01097

PUSH BUTTON SWITCHES

This extra heavy-duty momentary starter switch features 60 Amps at 12V, 40 Amps at 24V, silver contacts, flush terminals in molded insulator, a housing that is rolled over the insulator to seal out dust and moisture, hex back nut, bright polished face nut and a black molded plunger. Part also features a chrome plated protection collar for preventing accidental starts. Mounting stem 5/8" long, 5/8" diameter thread, overall length 1 13/16", housing diameter 15/16"

This heavy-duty two position, "Off-On" (normally "Off"), momentary switch features heavy duty contacts, two screw terminals and a 5/8" mounting stem. Rating: 12 Volts, 15 Amps. 24 Volts, 52 Amps.

WPS# 275-01120

ILLUMINATED SWITCH

- Illuminated rocker switches can be used for many applications
- Snap in panel type switch with blade terminals

Description	WPS#
Green: 2 position ON/OFF blade terminals 12 Volts, 20 Amps	275-01110

VACUUM OPERATED **ELECTRIC SWITCHES**

Standard Motor Products® Vacuum Operated Electrical Switches (VOES) are produced from high tech engineered thermoplastics and are 100% calibrated and vacuum tested to assure the accuracy and reliability of each part. Our self assembly kits allow the user to select a part from various preset levels of calibration for their specific tuning needs. Kits come complete with bracket, crimp terminals and instructions for easy installation.

HEADLIGHT CONNECTORS

- · Replacement and retrofit headlight connectors for H4 bulbs in both male and female versions
- Female version is a complete replacement for the OE socket, terminals and wires
- Temperature thermoplastic withstands temperatures in the confined space of the headlight housing for long term use and
- Male version is for off-road applications and can be used when converting to an LED headlight without the need to alter your factory wiring

Description	WPS#
Complete replacement for OE socket, female version	275-01140
LED headlight conversion connector, male version	275-01141 *

*Not DOT approved. For aftermarket LED headlight assemblies

CONNECTOR ASSEMBLIES

These relay connector assemblies come pre-wired and are ready to install, making the life of the custom bike builder and the mechanic much easier

	Description	WPS#
Α	5 Wire starter relay socket assembly	275-01100
В	4 wire starter relay socket assembly	275-01101
C	Flat type 2 pole neoprene molded w/ 12" 18 gauge wire	275-01130
D	Square type 4 pole neoprene molded w/ 12" 18 gauge wire	275-01131

ALTERNATOR KITS

- Cycle Electric alternator kits combine our state of the art stator with our legendary bullet proof rectifying regulator and a stock Harley rotor
- Better low speed output

- Smoother charge to the battery for crisper starting and longer battery life
- Durable and longer lasting system
- Full two year guarantee and are 100% American made

Note 1: These kits include the Screamin Eagle® Big Twin Compensator upgrade. Starting on the 2006 & later Dyna®, 2007-2010 Touring and 2007 & later Softail® models (except FXCW, FXCWC and FXSTSEE3) the compensator spring cup is built in to the alternator rotor.

Note 2: Not recommended for use with oil coolers that mount in front of the regulator. Cycle Electric Inc. does not recommend installing an oil cooler in front of any regulator.

Note 3: Will not fit with low mount oil cooler

(L) = Low volt for use with battery in a horse shoe oil tank

(P) = Pass through Wiring

(NB) = No battery, requires a magneto for the ignition

STATORS

- Insulation able to withstand temperatures of 600° F to eliminate stator burn out
- Better low speed output to reduce battery discharge at an idle
- Lower operating temperature for longer service life
- Improved plugs that will not swell or separate

273-1407

273-1415

- Double sealed bearing for longer life
- Needle bearings with high temperature lubricant for longer life
- High temperature epoxy armature provides strength to secure wires
- Includes self locking nylon nut

Application	Year	Description	OEM#	WPS#
Big Twin	`58-69	12V 10A black prestolite	29975-65/29978-77A	280-2001
XL	`54-84	12V 10A black prestolite	29975-65/29978-77A	280-2001

GENERATOR

- Cycle Electric Inc. manufacturers the model 65A 12V and model 61 6V generators to Harley-Davidson specifications for restoration purposes
- The model 65A is rated at 10 amps and the model 61 at 15 amps They are both capable of producing 20-30 amps. For this reason it is very important to have a properly working current limiting regulator to restrict amperage draw on the generator to (10 amps on the 65A, 15 amps on the 61 model). Improper regulation may cause generator damage not covered under warranty
- Complete charging system for generator bikes
- It features simplified wiring, higher output, longer service life
- This is the last generator you will have to buy for your bike.

Harley Davidson	OEM#	WPS#	Rep. Regulator
(model 65A) 12V OEM replacement for `65-81 models with Generators	29975-65A	273-1451	273-1237
12V high output Generator w/ built in Regulator for `65-84 models with Generators		273-1452	273-1235
12V low output Generator w/ built in Regulator use for upgrading from a 6V Generator		273-1453	273-1236
(model 61) 6V OEM stock replacement for `58-64 also fits `36-57 models	29975-61	273-1456	273-1239
6V charging system use on `36-64 models		273-1457	
Replacement end plate w/ bearing	30095-61	273-1471	

12V GENERATOR

- Replacement 12V generator for Pan and Shovel (early) motors
- Can be used to upgrade early bikes to 12V with addition of a compatible regulator

STARTER BUTTON

Tired of committing the reach around? The guys at NMC have come up with a stylish solution. Their new starter plunger is the perfect aftermarket alternative, with a 1 1/4" black knob and an overall length of 4 1/4". The plunger comes with a black powder coated steel body, steel shaft and bronze bushing. Just reach down and give it a push and start your bike.

Description	WPS #	
Starter Button	811-30120	

STARTER CLUTCHES

- · Lifetime warranty
- Clutches come with heavy duty bearings and hardened intermediate gear
- These newly developed clutches are by far the most durable high quality clutches in today's marketplace
- They were developed by MES using special metals, high temperature springs, and special hardness coated cam and rollers
- Economy starter clutches are delivered without bearing, slipper mechanism only

	Application		Year	Description	OEM#	Black
Α	Big Twins	**	`07-16	Lifetime warranty starter clutch	31681-07	820-60304

HIGH TORQUE STARTERS

 ALL BALLS starter motors are manufactured with all new components that have been fine-tuned for starting the H-D V-Twin engine

• All starters are supplied with a 10/32 threaded output shaft, and a conversion bolt for the earlier 1/4-20 threaded output shafts to cover all Big Twins from 1989 thru 2005

- Idler gears are manufactured from cold-heated steel
- End frames are cold-chamber die cast and machined on precision fixtures
- · Armature hairpins are resistance-fused to the commutator

280-1003/1004

• Our clutches utilize 20% oversize rollers

280-1001/1002

STARTER SOLENOIDS & RELAYS

STARTER SOLENOIDS

- · Heavy duty replacement quality
- Designed to deliver positive starter engagement every time
- Hardened steel plungers and moisture proof cases are used for maximum durability
- Available in show quality chrome, stealth black and zinc plate

Application	OEM#	Zinc	Chrome	Black
Single Bracket for 4 Speed Models	71469-65B	274-0011	274-0013	274-0012
Dual Bracket for 5 Speed Models	31489-79B	274-0015	274-0017	274-0016

SOLENOID REPAIR KIT

- Complete kit contains all the parts necessary to rebuild an OE or ACCEL solenoid
- Includes plunger, lugs, spring assembly, bakelite cap and hardware
- Rebuild for a fraction of the cost of new

Description	WPS#	
Solenoid Repair Kit	274-0014	

STARTER RELAY EARLY

- Durable heavy duty contacts in a rugged molded case
- · Totally sealed from moisture and road grime
- · Reliable starting

Model	Year	OEM#	WPS#
Most Big Twins	`73-85	71463-73C	274-0010
Sportster Models	`75-79	71463-73C	274-0010

STARTER RELAY (BOSCH® STYLE)

- Injection molded case eliminates corrosion for increased durability
- Relays designed to work in high performance applications
- Works great in stock bikes too

Model	Year	WPS#	
Most Big Twins	`80-94	274-0030	
Sportster Models	`80-92	274-0030	

Professional diagnostic tool for Harley Davidson & Buell workshops and tuning centers. Diagnoses electronic fuel injection module (EFI) and others (Security modules, ABS, etc.) through the diagnostic connector. The system consists of a communication interface with Harley-Davidson adapter, USB cable for connection to your Laptop (PC) and software (SOLD SEPARATELY) compatible with Windows XP, Vista, 7, 8 and 10. A wireless Bluetooth version of the interface is also available. An adapter for CAN-BUS models is included. The system performs the following functions and more. Software for Indian and Victory is also available.

OVERVIEW OF CONTROL UNITS THAT CAN BE DIAGNOSED ON HARLEY DAVIDSONS

- Ignition Module
- EFI (Electronic Fuel Injection Module) - All models
- TSSM (Turn Signal Security Module)..... Key FOB with button
- HFSM (Hands Free Security Module)..... Key FOB without button
- BCM (Body Control Module).....Key FOB without button
- · Gauges (Speedo, Tach and Instrument Module) - All models

- ABS Module (Delphi + CAN models) - All models
- · Radio and Audio all models
- Thunder MAX EFI
- · Read and Clear Diagnostic Trouble Codes..... All models
- · Read Identification data (part numbers, VIN number).....All models
- Monitoring real-time data (throttle position, temperature, oxygen sensors, turn signals etc.)
- · Test actuators (injectors, coils, main relay, fuel pump, idle, turn signals, tachometer, lamps etc.)
- Buell diagnostics are incorporated in Harley-Davidson diagnostics
- · Unit of measure selection metric/standard
- Communication interface is CAN ready (models with 6-pin connector)

MOTORCYCLE REPORT

Search for and identify all embedded control units. Read fault code memory + generate and print a diagnostic report with odometer reading

TOOLBOX

(Special functions that can be performed)

- Module replacement TSM, TSSM, HFSM, BCM,
- ABS Service (Bleeding) and configuration, Delphi + CAN models) - All models
- ACR (Automatic compression release during starting)
- · Cruise Control, Exhaust actuator, EITMS...... enable/disable
- Side Stand Switch Configuration - All Models
- Intake Solenoid Valve Configuration on CAN Models
- Radio customizationregion code and speaker configuration, radio pairing
- J&M Audio Configuration

- ABS Telltale Configuration on CAN Models
- Idle speed adjustment 800 - 1200 rpm (models with Delphi Electronic Fuel Injection Module)
- TSSM Customization..... PIN read/change, Auto arming disable/enable etc.
- HFSM Customization..... Key FOB assignment/ replacement, Auto arming disable/enable, PIN read/ change, Side car and Service Mode (disable/ enable)
- BCM Customization...... Key FOB assignment/ replacement, Auto arming disable/enable, PIN read/change, Lights configuration, keyless ignition

- Disarming (HFSM/BCM module)......PIN read/ FOB assignment on armed bike (for BCM modules a CAN disarming cable is needed)
- · Buell TPS adjustment
- Dataloging
- ABS Module (embedded/ not embedded)
- · Speedo module pairing
- · Wheel size adjustment (Speedo calibration)
- · Odometer unit setting

PARALLEL DIAGNOSTIC SYSTEM

Parallel diagnostics are designed for measuring input and output signals from the electronic fuel injection module (EFI) and other modules. Measurements can be made on running engines. The system consists of a wiring harness adapter and breakout box. The breakout box is inserted between EFI module and motorcycle's wiring harness so that the system continues to function as normal. Monitoring points for all connector pins of the EFI module are clearly arranged on the breakout box. It is possible to measure signals and waveforms from all systems and actuators. Disconnecting the ECU from the breakout box allows quick and reliable check of the integrity of the wiring harness in respect to continuity, and leakage currents. Universal connector kit includes common adapters (73 connectors) for non-destructive diagnostic operations on the wiring harness.

Description		WPS#

I	Universal Connector Kit	867-02040

EFI TUNING SYSTEM

• The tuning system is integrated into the software of the diagnostic system DIAG4BIKE, the basic tuning software DIAG4TUNE is included as a FREE option in the diagnostic software versions 12 and later. To tune an individual motorcycle a TUNING DONGLE must be purchased that can be used for that specific motorcycle.

Description

- The tuning process does not require the installation of additional component(s) or any motorcycle harness modification. Tuning is achieved through modification of the EFI Calibrations (software modification/reflash) exclusively via the diagnostic connector.
- The first step in TUNING is saving of the original EFI calibration. The tuning operator can restore the original EFI Calibration at any time during tuning process (stock calibration)

WPS#

• The tuning process is used to optimize FUEL MAPS to accommodate any changes to the configuration of engine components or accessories (exhaust or/and intake system etc.)

A) BASIC TUNING DONGLE

The Basic Tuning Dongle enables EASY MODE in the tuning software, EASY MODE provides the ability to adjust fuel trim tables, acceleration enrichment and spark advance tables manually in a limited range of +/- 20%. Closed loop mode can be switched on or off and Throttle By Wire speed up function can be activated (crisper response). Other functions are restricted.

Tuning Dongle Basic 867-02050 Tuning Dongle Advanced 867-02051 Dongle Pack 3+1 867-02052 **AFR Tuning Monitor** 867-02070 Lambda Installation Kit 867-02071 Lambda Install Kit Mini 867-02072 867-02073 Open Exhaust Adapter

B) ADVANCED TUNING DONGLE

The key function of the Tuning Dongle is to save the original EFI calibration. With this function the original calibration can be restored at any time, the tuning dongle also incorporates the tuning licence exclusively for one motorcycle and must be purchased for tuning of each individual motorcycle and will be mated to the ECM of that motorcycle. It enables ADVANCED MODE in the tuning software. Custom fuel maps and timing tables can be created as desired with the help of the AFR tuning monitor or downloaded from a database of preset maps.

The AFR Tuning Monitor is used for the advanced tuning mode and consists of two wideband Air/Fuel ratio sensors and a compact electronic unit. It is an option for the DIAG4BIKE communication interface and can be used with a roller station or on road tests to develop custom fuel maps.

D) LAMBDA INSTALLATION KIT

This set is an option to the AFR Tuning Monitor. It allows you to install a pair of wide band sensors on all exhausts where it is not possible to simply replace the installed O2 sensors (M18 thread). The set contains a powerful double pump, which ensures high accuracy and measurement speed of the actual AFR in each cylinder. The pump is powered by a 12V supply and can therefore also be used for road testing.

E) INSTALLATION SET LAMBDA MINI

This set is an option to AFR Tuning Monitor. It allows you to install a pair of wide band lambda sensors on all exhausts where it is not possible to simply replace the installed lambda sensors (M18 thread).

DIAGNOSTIC SCAN TOOLS

A. TWIN SCAN 4 COMPLETE KIT

- Includes both Twin Scan II ABS and Twin Scan 4 ABS units
- WEGO IIID Interface
- Two Bosch LSU 4.2 wide-band oxygen sensors
- Two 18 x 1.5 mm weld nuts, two 18 x 1.5 mm hex socket plugs
- USB cable, probe kit, and software on CDROM

B. TWIN SCAN 4 ABS KIT

- Compatible with 2011-2018 Softail®, 2012-2017 Dyna® and 2014+ Sportster® and 2014+ Touring models with CAN data bus (all models with a 6-pin diagnostics connector)
- Real time display of engine data on instrument panel type display
- Includes two analog inputs with 0-20V or +200V range
- Features two channel scopemeter capability for waveform display
- Analog inputs can also be used for air/fuel ratio
- Uses laptop PC for display, includes Windows software

C. TWIN SCAN II ABS

- Compatible with 2003-2006 carbureted models with new 12 pin ignition module
- Anti-Skid Brake System (ABS) brake bleeding functions for 2008-2013 Touring models
- Support for 2006-2013 closed loop fuel injection systems
- Real time display of engine data on instrument panel type display
- Uses laptop PC for display, includes Windows software

See pages 469 for part #s and prices

REFERENCE INDEX

DIAGNOSTIC SCAN TOOLS

D. TWIN SCAN PROBE KIT

- For scopemeter feature
- Two insulation piercing probes
- 12 volt power adapter

E. TWIN SCAN WEGO UPGRADE KIT

- For customers with any Twin Scan II or 3 version
- Includes WEGO IIID Interface
- Two Bosch LSU 4.2 wide-band oxygen sensors, two 18 x 1.5 mm weld nuts, and two 18 x 1.5 mm hex socket plugs

2000i 2KI PROGRAMMABLE IN **CONE IGNITION**

The Dyna 2Ki Programmable Ignition is the newest addition to the successful line of Dyna 2000 ignition systems. The 2Ki not only adds to, but extends many features of the best selling Dyna 2000 module out of sight in a completely new design that fits in the cone of Shovelhead and Evolution engines. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

- Single Fire operation down to zero rpm for easier cranking
- 8 advance curves to cover a broad range of engine builds and riding styles.
- Engine over rev protection adjustable from 6000 to 7500 rpm.
- · Adjustable timing retard for nitrous and turbo applications.
- · Active Dwell Control.

Description	Year	WPS#

DYNA 2000 PROGRAMMABLE IGNITION MODULE

The Dyna 2000 Digital Ignition System for Harley-Davidson Motorcycles, which has become the standard for performance and versatility in the Harley aftermarket, has been enhanced to include even more features. Including expanded advance curve functionality, vacuum advance compensation, and a special Retard Mode for use with turbocharged and nitrous bikes.

The Dyna 2000 allows selection between four different advance curves and four independent rev limiter settings from 6000 to 7500 rpm.

Dyna 2000 ignition modules use the stock factory pick-up and simply plug into the existing factory wiring harness on 1991-1998 model bikes. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

Sportsters `94-97, FLH, `95-Later FXR 8 Pin Connector	133-3020

DYNA S IGNITION SYSTEM

The Dyna S High Performance Ignition System, designed for Harleys, is a complete self-contained electronic ignition system built with the latest state-of-the-art engineering. This is the same ignition used by top racers over the past 2 decades. The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, so the factory advance curve is maintained. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

Note: Must be used with 5 ohm coils for street operation

Description	WPS#
1970 & Later (Dual Fire)	133-3001
1970 & Later (Single Fire)	133-3002

DYNA S IGNITION KIT

The Dyna S High Performance Ignition System, designed for Harleys, is a complete self-contained electronic ignition system built with the latest state-of-the-art engineering. This is the same ignition used by top racers over the past 2 decades. The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, so the factory advance curve is maintained. Dyna high tech coils for Harley-Davidson Big Twins and Sportsters are American made, top quality performance coils. Tested and proven on street, racing, and touring motorcycles for over fourteen years. Dyna coils produce spark voltages in excess of 30,000 volts and spark energies second to none. All Dyna Coils are guaranteed against defects in materials and workmanship. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

- The 133-3003 Dyna S and coil system includes a 133-1086 high energy coil
- The 133-3004 Dyna S and coil system is designed for single-fire applications; includes two Dyna coils

Application	WPS#
1970 & Later (Dual Fire)	133-3003
1970 & Later (Single Fire)	133-3004

DYNA 2000 TC IGNITION

Dynatek's TC88 Digital Performance Ignition signals a new era in Twin Cam ignition power and capability. The TC88 enhances the power of the Single Fire ignition by allowing selection between 16 programmable advance curves, covering the entire range of engine modifications. From stock to insanely modified engines, the TC88 provides the widest range and highest level of advance curve functionality for Twin Cam available in today's market. There are also eight different rev limiter settings from 5750-7250 rpm. All TC88 functions have full digital accuracy to insure maximum performance with unparalleled quality. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

Application	Year	WPS#
Twin Cam (Carbureted)	`99-03	133-3005
Twin Cam (Carbureted)	`04-06	133-3006
Sportster	`04-06	133-3007

DYNA COILS

Dyna Performance Replacement Coils are high tech, top quality coils, designed for maximum performance. They produce spark voltages in excess of 30,000 volts and spark energies second to none. Dynatek coils are available in a wide variety of resistances and output configurations to allow easy replacement of stock coils. Dynatek coils work with factory electronic ignitions, points, and aftermarket ignitions. Choose from four body styles and five different primary resistance ranges to match your ignition needs. Advanced magnetic core technology of the Dynatek Mini Series Coils delivers high output in one of the smallest packages available. Great for customs where coils need to be hidden.

Before selecting a coil, check the coil primary resistance requirements as specified by the manufacturer of the ignition being used.

The Dyna Twin Fire coil is the new standard for performance and packaging efficiency for single fire ignition installations on Harley-Davidson Motorcycles. The Twin Fire coil incorporates two individual performance ignition coils into one easy to mount package. This solves the problem of trying to mount two ignition coils on Harleys when installing single fire ignition systems. The Twin Fire coil is only slightly larger than the stock Harley coil and uses the stock mounting bracket. The Twin Fire coil will fit under the tank on XL AND FLH models as well as in the stock location on the side of the motor for FXR models or rear of the motor for Dyna and Softail models. The DC6-4 is used for all dual spark plug head applications. The Dyna Twin Fire coil can be used with any electronic advance ignition system that incorporates dwell control, but cannot be used with the DS6-2 Dyna S or similar ignitions. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

PROGRAMMING KITS

Take your Dyna Ignition to the next level with the Dyna HD Programming Kit that works with the Dyna 2000 and Dyna 2KI ignition systems. Now riders, performance tuning shops and engine builders can find all that they need to properly tune their bikes.

STEALTH SUPERCOILS

The all new ACCEL Stealth SuperCoil is the hottest looking and best performing ignition coil on the market. The ACCEL Stealth SuperCoil eliminates the need for ignition wires forever by mounting the coil directly to the spark plug. A beautiful cast aluminum cover holds the coil in place and acts as a functional heat sink to pull heat away from the cylinder head. All wiring is hidden in the fins of the head for a clean and custom look. Like all of our SuperCoils, the Stealth SuperCoils are covered by ACCEL's famous limited lifetime warranty.

Features

- · Mounts the coil directly to the spark plug
- Custom, clean, wireless appearance
- Proven automotive technology for your air cooled Twin Cam
- · Maximum spark energy to the plugs
- · Limited Lifetime Warranty

8.8MM UNIVERSAL WIRE SETS

- Premium quality ACCEL 8.8mm ignition wire in universal kits
- Available for 2 and 4 plug applications for electronic and points type ignitions
- Pre terminated with either a 90 deg or variangle heavy duty spark plug boots
- 2 plug kits contain one 42" wire, brass terminals, coil boots and instructions
- 4 plug kits contain two 42" wires, brass terminals, coil boots and instructions
- The ultimate in performance and reliability for street and racing use

HIGH PERFORMANCE IGNITION WIRE

All Moroso spark plug wires feature silicone plug boots that withstand high temperatures (up to 600°), and have a silicone jacket to reduce heat and chafing. Locking stainless steel terminals that stay connected under high vibration and are fully compatible with the Harley-Davidson® ION sensing coils used on virtually all late model bikes. Moroso High Performance Ignition wire combines state of the art engineering with the Finest "Made In the USA" workmanship and the very highest standards of quality control available.

GAUGES

SEALS

- Nylon Pull Tape provides unbeatable pull strength and terminal retention.
- Glass center Core offers high tensile strength
- 8mm Silicone Jacket
- Extra Thick EPDM Layer of Insulation provides greater dielectric strength
- Locking Stainless Steel Plug Terminals
- High-temperature silicone boots that can withstand heat up to 600 degrees

Spiral Core

- Nylon Pull Tape provides unbeatable pull strength and terminal retention.
- Stainless steel alloy conductor greatly improves spark energy
- 8mm Silicone Jacket
- Extra Thick EPDM Layer of Insulation provides greater dielectric strength
- Patented core that's four times stronger than Aramid cores
- Locking Stainless Steel Plug Terminals
- High-temperature silicone boots that can withstand heat up to 600 degrees
- Ferrite Impregnated Core tunes EMI Suppression characteristics

Ultra 40

- 8.65mm diameter, 40 ohms per foot resistance
- Features of these 8.65mm wires include:
- 100% Compatible with HD's ION Sense Ignition Coils
- Patented core that's four times stronger than Aramid cores
- Class-leading 40 ohms of resistance per foot
- Nickel copper alloy conductors for superior spark energy transfer
- Extra-thick EPDM layer for greater dielectric strength
- High-temperature silicone boots that can withstand heat up to 600 degrees
- Locking stainless steel plug terminals

RACING CABLE

Designed to deliver maximum spark energy for today's extreme performance applications.

- High performance RED SILICONE• Solid copper wire strand inner outer shell for maximum heat resistance and durability
- High quality ceramic resistor (5k ohm) enhances protection against • Fits most applications for RFI (radio frequency interference) which can disrupt electronic ignition performance and lead to misfire
- Molded cap design keeps water out, giving you the confidence needed to win races
- Resistor covers in either straight or 90 (degree) configurations
- watercraft, snowmobiles, motorcycles and karts
- In-line wire connector provides a hassle free watertight connection - sold separately

INDEXING WASHER KITS

Indexed spark plugs align the open end of the electrode toward the intake port. The hottest flame meets the new fuel charge for a performance gain, increases fuel mileage and plug life. This is a speed secret car racers have used for years. You simply

mark the electrode side of the plug with a magic marker on the porcelain. You then shim the plugs with the washers to align the electrodes toward the intake ports.

Fits 14mm threaded spark plugs.

Application	Includes	WPS#

HIGH PERFORMANCE PLATINUM SPARK PLUGS

- Made from the finest materials available to ensure long trouble free operation
- Premium quality platinum tip is more durable than other plug material
- Maintains proper gap much longer than standard plugs
- Pure copper center electrode for reduced fouling
- Enjoy easier starting, smooth idling and increased performance
- Sold in packs of 2

HIGH PERFORMANCE U-GROOVE SPARK PLUGS

- Patented U shaped ground electrode produces a wider, hotter spark
- Heavy duty 5 rib insulators prevent flashover
- High quality copper/nickel alloy electrode
- Highly foul resistant and dissipates heat better than any other material
- Improves engine efficiency and reduces emissions
- · Increases throttle response

Autolite®

COPPER CORE

- Copper-glass seal bonds insulator, terminal post center electrode together; assures full required voltage at spark gap; gas-tight seal (100% leak proof)
- Multi-rib insulator reduces danger of "flash-over"
- One-piece terminal post adds strength
- Resistor reduces radio frequency interference (RFI) and electrode erosion
- Cold-formed steel shell precision rolled threads
- Full copper core electrode provides better performance in all conditions

All Autolite Spark Plugs sold in BOX quantities of 4, priced each

XTREME SPORT

- Engineered to meet or exceed OE designs and withstand the extreme operating temperatures experienced during a powersports engine's combustion
- Iridium-enhanced 0.6mm finewire design for improved ignitability, faster fuel combustion and a more focused ignition versus standard plugs
- Up to 26 percent quicker starts compared to that of standard plugs and as much as 21 percent less hydrocarbon emissions than standard plugs, which promotes better fuel efficiency and horsepower

WMD LITHIUM BATTERIES

- · Lithium Ion Polymer technology
- All components are designed, manufactured, assembled and packed in one location assuring high quality and consistency
- Fitments for most Harley Davidson® and other V-Twin motorcycles
- Extremely lightweight, 50% to 70% lighter than standard batteries
- Heavy duty case and terminals
- Increased cranking amps over lead acid batteries
- Fast recharge, can be brought up to 90% charge in within 6 minutes
- Easily 6 to 12 times more cycle life compared to lead acid batteries
- Long shelf life, up to 1 year before requiring recharging
- · Can be mounted in any position
- No hazardous acid or heavy metals, nonexplosive and non-combustible
- No shipping restrictions!
- More precise fitments, foam spacers are not required!
- 2 Year warranty

Battery Model

Number	WPS #

YTX20L-BS	490-2610	
YB30L-B	490-2611	
YIX30L	490-2611	

RESTART LITHIUM BATTERIES

- The Antigravity Restart lithium battery is the first battery manufactured with built-in jump-starting technology, so you won't ever get stranded with a dead battery again! This compact, lightweight lithium-ion battery directly replaces many OEM powersport batteries and can also be used in custom applications
- The Restart batteries features include a BMS (battery management system) with over and under voltage and thermal protection along with real time lithium ion cell balancing
- For custom/high performance applications, make sure to match the cranking amps needed for the application to the appropriate battery
- Antigravity only recommends the use of a powersports specific lithium battery charger

Restart batteries include a 3 year pro-rated, nontransferable warranty (registration of the battery with the manufacturer is required within 30 days of purchase by the retail customer). All warranties are to go back through Antigravity.

Not for use with internally modified V-Twin engines, warranty will be void if used in these applications.

- Most compact of lithium motorsports batteries available
- Ultra-lightweight and high-power
- Can hold a charge up to a year provided there are no "parasitic drains" (accessories that draw power when bike is off - i.e. alarms, ECUs, GPS, heated grips, etc)
- · Large all-brass terminal design
- Can be installed in any orientation

Antigravity batteries include a 3 year pro-rated, non-transferable warranty (registration of the battery with the manufacturer is required within 30 days of purchase by the retail customer). All warranties are to go back through Antigravity.

Not for use with internally modified V-Twin engines, warranty will be void if used in these applications.

	WPS#	Antigravity #	Dimensions L" x W" x H"	Cranking Amps	Amp Hour Rating (actual)	Weight lbs.
Α	58-7050	AG-401	4.25 x 1.25 x 3.75	120	2.6	1.5
В	58-7051	AG-801	4.25 x 2.25 x 3.75	240	5.5	1.32
C	58-7052	AG-1201	4.5 x 3.12 x 4	360	8	2.3
D	58-7053	AG-1601	4.5 x 3.12 x 5	480	11	2.35

PREMIUM FACTORY ACTIVATED BATTERIES

Freshening charge is recommended prior to installation.

- Higher CCA rating compared to same series standard factory activated batteries
- Non-Spillable design
- AGM separators
- Heavy duty terminals
- Made in the USA!
- 1 Year warranty

Battery Model Number	WPS#
YTX14L/GYZ16HL	490-2658
YTX20/YTX20H/GYZ20H	490-2656
YTX20L/YTX20HL/GYZ20HL	490-2657
YIX30L/GYZ32HL	490-2655

FACTORY ACTIVATED SEALED BATTERIES

- Designed for American V-Twin motorcycles
- Heavy duty brass terminals
- Activated and sealed at the factory (freshening charge is recommended prior to installation)
- Calcium alloy technology: Improves cranking power and helps give the battery longer life
- Valve regulated lead acid design: Sealed Non-Spillable design eliminates leakage
- Safety valve flame arrestor: Safely regulates internal pressure
- Tight-pack absorbed glass mat separators: Absorbs acid & reduces damage due to vibration
- Spill-proof sealed battery: Sonically sealed cover allows for angled battery mounting if needed for more mounting options
- One Year Warranty

PROMOTIONA

GYZ SEALED

- · Highest CCA rating compared to the same series lead acid batteries
- AGM separators, Non-Spillable design
- · Heavy duty flush terminals
- 1 year warranty
- · Factory filled and sealed

GRT SEALED

- Once filled and permanently sealed "Install it and forget it"
- · Easily meets or exceeds all OEM requirements
- Will hold a specific gravity 3 times longer than a conventional battery
- · Contains sulfate stop to retard sulfation on plates
- 1 year warranty
- Comes with pre-measured acid pack

YTZ MAINTENANCE FREE

- 12 Month Warranty
- · Longer life than conventional batteries
- · Spill-proof design
- · No additional hazardous shipping fees
- · Discharges less in storage for longer life
- 1 year warranty
- · Factory filled and sealed

YUMICRON

- 30% more cranking power than conventional batteries
- · Heavy duty polypropylene case and cover heat sealed together
- · Patented sealed posts
- · Contains sulfate stop to retard sulfation on plates
- 1 year warranty
- · Must purchase acid pack separately

CONVENTIONAL 6 AND 12 VOLT BATTERY KITS

- Meets or exceeds OEM specifications
- Extremely strong polypropylene cases to withstand impacts and vibration
- 1 year warranty on all batteries if properly pre-serviced and charged
- · Anti-Sulfate treated for longer life
- · Shelf-life almost infinite due to dry-charged plates
- · Designed for higher cold cranking AMP capacity
- · Comes with pre-measured acid pack

MAINTENANCE FREE **12 VOLT BATTERIES**

- Absorbed Glass Mat (AGM) technology
- Sealed impact resistant polypropylene case
- A must for motorcycles and ATVs that require a sealed battery
- 1/2 the price of an OEM sealed battery
- Must be mounted in upright position
- · Comes with pre-measured acid pack

SEALED FACTORY **ACTIVATED BATTERIES**

- Advanced Absorbed Glass Mat (AGM) technology
- Sealed maintenance free design
- 1 Year free replacement warranty
- · Battery comes filled and pre-charged from the manufacturer (freshening charge recommended before installation)

BATTERY CABLE KITS

- All Balls battery cables are manufactured with pure electrolytic grade, 36 gauge copper wire strands
- Increase starter performance by reducing voltage losses from undersized battery cables
- The 7 over 7 bundling of the copper strands maximizes current flow and flexibility of the cable
- The outer jacket material is rated for 257°F and is oil and gas resistant
- Cables are available in individual lengths, application specific cable kits, and 25ft custom cable kit allowing for custom build lengths

Description	WPS#	
Charger	56-1111	
Replacement Battery Leads	56-1110	

- Adjustable backlight display, can be used in varying light conditions
- · Also capable of testing most automotive and some powersport vehicle charging systems*
- · Includes storage case

CCA capacity of the battery will need to be known for proper testing, CCA list is included with the instructions. Contact WPS if your powersport battery is not listed.

*The primary intention for this tester is to analyze a batteries condition. if it does not analyze a charging systems condition properly, it does not mean that the tester is at fault.

Description	WPS#	
Digital Battery Tester	490-9951	

12 VOLT/2 AMP BATTERY CHARGER

Charges and maintains all 12 volt lead acid, gel and lithium iron phosphate (LiFePO4)/lithium ion polymer powersport batteries.

- CONSTANT CURRENT CHARGE If the battery voltage is over 10 volts, the charger will deliver a 2 amp charge until the battery reaches 14.2 volts
- MAINTENANCE CHARGE When the battery reaches 14.2 volts, the charger will automatically convert to maintenance mode. The charger will revert to charge mode when the voltage drops below a specified voltage
- LOW VOLTAGE RECOVERY If battery voltage is below 8 volts, the charger will apply a .2 amp charge to recover the battery, once the battery reaches 8 volts, the charger will apply a .5 amp charge, at 10 volts a full 2 amp charge is applied until the battery is fully charged
- AUTOMATIC VERIFICATION STAGE Charger automatically stops charging if the battery does not reach at least 10 volts after 2 hours of charging
- SAFETY Power is not passed thru the charging leads unless they are connected to a battery
- LED indicator light shows charging status
- Includes heavy duty clamps and fused ring terminal SAE adapter

490-9950

6 AND 12 VOLT BATTERY CHARGER

- · Converts from 6 to 12 volts at the flick of a switch

4 AMP SELECTABLE

The Battery Tender® 4 Amp Selectable is an automatic and easy to use battery charger that will keep your battery fully charged and ready to go when you are. Whether it is 6 or 12 volt AGM, Lead Acid or Lithium, the Battery Tender 4 Amp Selectable has the proper charge algorithm for charge and maintenance to ensure long term battery health.

• Selectable Battery Chemistry- has battery chemistry selection with proper charge algorithm for lead-acid, flooded or sealed maintenance free (AGM and gel cell), and Lithium batteries.

- 6/12 volt selectable
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/ maintenance voltage after fully charging the battery
- If the battery voltage drops too far under

load, full charger output power resumes

- Solid state two color LED indicates stage of charger
- Spark proof reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems
- 5 year warranty

6	/12 Volt, 4 amp	56-1120	

1.25 AMP SELECTABLE

The Battery Tender® 1.25 Amp Selectable is a fully automatic battery charger that will keep your battery fully charged and ready to go when you are. With a 6 and 12 volt option, this charger has the proper charge algorithm for charge and maintenance to ensure long term battery health.

- 6 and 12 volt selectable
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/ maintenance voltage after fully charging the battery
- · If the battery voltage drops too far under load, full charger output power resumes
- Solid state two color LED indicates stage of charger

- Spark proof, reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems
- 5 vear warrantv

Description	WPS#	
6/12 Volt, 1.25 amp	56-1115	

JUNIOR SELECTABLE

The Battery Tender® Junior Selectable is much more than a trickle charger. It has a brain. It's lightweight, compact, and fully automatic; very easy to use, especially in small spaces. It will keep your Lead Acid, AGM or Lithium battery fully charged so that it is ready to go when you are!

- Selectable Battery Chemistry- has battery chemistry selection with proper charge algorithm for lead-acid, flooded or sealed maintenance free (AGM and gel cell), and Lithium batteries
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- · Automatically switches to float/maintenance voltage after fully charging the battery

- If the battery voltage drops too far under load, full charger output power resumes
- · Solid state two color LED indicates stage of charger
- Spark proof, reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems

• 12' output cord

Description

• 5 year warranty Junior 12 volt, .8 amp 56-1119

JUNIORTM

- Lightweight, compact in size ideal for those
 When voltage drops below 12.6 VDC, hard to fit spots
- · Trickle charger with a brain will assure batteries are maintained after charging and . Solid state two color LED indicates state of always ready to go!
- Fully automatic two-stage lead-acid battery 5 Year Warranty charger is perfect for all lead-acid, sealed maintenance free and gel cell batteries
- · After reaching peak 14.4 VDC, charger automatically switches to 13.2 VDC float voltage
- charger resumes charging back to 14.4 VDC
- charger

These chargers do NOT meet California/ Oregon appliance efficiency standards.

SAFE, RELIABLE, TROUBLE FREE BATTERY CARE!

Developed to maintain batteries in vehicles not in constant use and stored over lengthy periods of time.

FULLY AUTOMATIC CHARGER

· Automatically switches after fully charging to storage charge; constantly Battery Tender automatically converts better absorption for sealed batteries monitors the battery without the damaging effects of trickle charging

• After a full charge is reached, the to a float charger and monitors the battery at 13.6 volts

• Improved circuit design provides

5 year warranty

These chargers do NOT meet California/Oregon appliance efficiency standards.

ALUMINUM CONSTRUCTION Equipped with 6' power cord, 6" output cord with clamps, and 6" quick disconnect output cord.

MULTIPLE BANK PLUS

The multiple bank Battery Tender Charging Stations have two or four encased 1.25 amp battery chargers designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. This charger will operate anywhere in the world!

- 2 or 4 independent charging stations
- 12 volts @ 1.25 amps per station
- Operates anywhere in the world, 100-240 VAC 50/60 Hz
- Microprocessor controlled constant current charging
- · Reverse polarity protected, spark proof
- Perfect for all AGM (absorbed glass mat), sealed maintenance free and flooded batteries
- Complies with US and international safety standards (UL/CE)
- 2 year warranty

BATTERY CHARGERS

- Smart, multi-step, fully automatic switch-mode battery charger/maintainer
- Automatically diagnosis, recovers, charges and maintains acid, gel, and AGM batteries
- Perfect for Motorcycle, ATV, Jet Ski, and Snowmobiles
- Designed for safety: Reverse polarity, short circuit, open circuit, spark proof, overheat, overcurrent and overcharge
- Powered by NOCO's VosFX processor: The revolutionary smart processor utilizing sophisticated levels of intelligence to alter the charging process
- Charges up to 2X faster than traditional linear chargers
- Uses 1/2 the power of standard chargers

С

A. G750

- 5 step / .75 amp charging
- Charges all 6 and 12 volt lead acid (1.2 - 30 amp hour) batteries

B. G1100

- 7 step / 1.1 amp charging
- Charges all 6 and 12 volt lead acid (2.2 - 40 amp hour) and 12 volt lithium batteries

C. G3500

- 8 step / 3.5 amp charging
- Charges all 6 and 12 volt lead acid (1.2 - 120 amp hour) and 12 volt lithium batteries

- 4 bank shop charger
- 7 step / 1.1 amp per bank charging
- Charges all 6 and 12 volt lead acid (2.2 - 40 amp hour) and 12 volt lithium batteries

VICTORY /
INDIAN

- Compact size, 5" x 2.8" x .875", weighs just 9.75 oz
- Enough power to start up to a 5 liter non-modified gas engine
- Charges/powers most all personal electronic devices (except laptops)
- Built-in LED flashlight with 3 beam modes
- Recharges from any standard USB power port

FEATURES:

- Dimensions: 6.75" x 3.25" x 1", weighs 15.25 oz
- Enough power to start up to a 6 liter non-modified gas engine
- Charges/powers most all personal electronic devices including 19 volt laptops (not compatible with 16 volt Apple)
- Built-in LED flashlight with 3 beam modes
- Recharges from any standard USB power port, cigarette lighter outlet or included wall charger

FEATURES:

- Dimensions: 6" x 3" x 1", weighs 15 oz
- Enough power to start up to a 5.7 liter non-modified gas engine
- Charges/powers most all personal electronic devices (except laptops)
- Built-in LED flashlight with 3 beam modes
- Recharges from any standard USB power port, cigarette lighter outlet or included wall charger
- Not for use with large displacement
 V-Twin engines

INCLUDES:

- · Micro-Start Sport PPS
- Nylon carry case, holds and keeps all parts neatly organized
- Smart mini jumper clamps with multiple safety protections built-in (prevents reverse polarity connection, over-charge, over-discharge, short-circuit, back-charge)
- Universal 4-into-1 USB cable (Tips: Mini USB, Micro USB, Type C USB, Apple 8-pin)
- Instruction manual

Description WPS#
Micro-Start Sport 58-7100

XP-1

INCLUDES:

- Micro-Start XP-1 PPS
- Leatherette carry case, holds and keeps all parts neatly organized
- Smart mini jumper clamps with multiple safety protections built-in (thermal protections & multiple safety features: prevents reverse polarity connection, over-charge, over-discharge, short-circuit, back-charge)
- Universal DC cable for most all 12V accessories & 8 detachable laptop tips (fits many but not every laptop charging port. Fits: Apple, Acer, Dell, HP, Asus, more)

Description WPS#

58-7102

CELL PHONE/GPS CHARGER ADAPTER

First and only cell phone and GPS charger adapter. It is a complete ready-to-go system, patented and manufactured by Brookshire innovations LLC in Roseville CA.

- Adapter includes a waterproof fused 15 amp 4' wiring harness with an SAE dual pin connector (works with many popular battery chargers) and a power socket that is compatible with most all 12 volt powered equipment (radar detectors, heated clothing, GPS, cell phone chargers etc.)
- Easy to install and works on any motorcycle, ATV, watercraft, snowmobile or scooter, and carries an unlimited 5 year manufacturers electronics warranty
- Kick Start Finalist winner at the 2009 Dealer Expo
- Dealer display pack includes 12 adapters, point of sale display, header card and poster. Refill pack includes 12 adapters
- Optional chrome plated handlebar mount available; works with Eklipes adapter along with most
 1" diameter power sockets

Description	WPS#	
Dealer display pack	71-9120	
Adapter (single)	71-9125	

VIPER CHROME SOCKET

- Chrome socket system with a 3'6" long wiring harness and SAE dual pin adapters
- Compatible with most all 12 volt powered equipment that uses a cigarette style plug-in
- Includes the Battery Harness Kit (WPS # 71-9126) and works with the Jump Start Kit (WPS # 71-9127)

Description	WPS #	
Chrome Adapter	71-9123	

HANDLEBAR MOUNTING SYSTEMS FOR EKLIPES ADAPTERS

Perfect for mounting the cell phone/GPS charger adapters (WPS #'s 71-9125 / 71-9123) and most 1" diameter power sockets (power socket not included).

Dual Ring Mount:

 Innovative adjustable ring design fits all handlebars up to 1¼" in diameter

Chrome Riser Mount:

Attaches to handlebar mounting clamp

	Description	WPS #
Α	Dual Ring mount chrome	71-9132
В	Dual Ring mount black	71-9132BK
C	Riser mount	71-9131

BIG BIKE PARTS

USB CHARGER

- Waterproof USB charger
- 7/8" & 1" handlebar fitment
- 2.1 amp and 1.0 amp charging ports
- Enough separation to allow for both ports being used simultaneously

Description	WPS#
Dual port USB charger	94-13208

COBRA CHARGING STATION

- Full feature charging station that includes a 12 volt charging socket and a USB charging port
- · On/off switch with LED indicator light
- USB port will charge most any device including iPhone®, iPod®, iPad®, Android phones, MP3/MP4 players and more
- 3'6" long wiring harness and SAE dual pin adapters, includes the Battery Harness Kit (WPS # 71-9126) and works with the Jump Start Kit (WPS # 71-9127)
- Includes a waterproof cap and chrome mount that will fit all handlebars up to 1¼" in diameter

Description	WPS #
Black	71-9133BK
Chrome	71-9133

MULTI-PORT TANK BAG CHARGING STATION

- Includes three 12 volt power sockets, two USB ports and an SAE plug along with a custom tank bag permanent flange mount with a female BMW style plug on one side and an SAE plug on the other side
- Also includes a 2' 10" power line which plugs in perfectly to any Battery Harness and a Male BMW style plug that plugs directly into the included tank bag flange mount

Description	WPS #	I
Silver	71-9128	
Black	71-9128BK	
	_	

MULTI-PORT ADAPTER

- Three 12 volt power sockets with two USB ports for charging cell phones, MP3 players, Blue Tooth devices, PDA's and much more
- Plugs into any standard cigarette lighter socket

Description	WPS #	
Multi-Port Adapter	71-9129

BATTERY HARNESS AND JUMP START KIT

Description

BIKE-2-BIKE JUMP START KIT

- Includes the Battery Harness (listed above) along with a 5' long jump start extension cable (capable of handling 2000 amps!) with 2 BMW style plugs which allows you to jump start vehicles by just plugging them together
- Also includes 2' 3" long alligator clip leads with female BMW style ends, waterproof caps included

Description	WPS #
Jump Start Kit	71-9127

BATTERY HARNESS

- State of the art 2' 3" long harness includes waterproof caps, 15 amp fuse, conventional SAE plug and a female BMW connector for easy access jump starting between two power sport vehicles
- Works with the Eklipes Bike-2-Bike Jumper Pack (WPS # 71-9127) and is compatible with the Eklipes Charger Adapter (WPS # 71-9125)

Battery Harness	71-9126	

WPS#

BIKE 2 BIKE JR . PLUG-IN JUMP START ACCESSORY KIT FOR COBRA

- Plugs directly into the Battery Harnes Kit (WPS # 71-9126) in the EKLIPES Cobra Charging Stations (WPS # 71-9133, 71-9133BK, 71-9133BC)
- Includes a 5' long jump start extension cable with 2 male BMW style plugs which allows you to jump start vehicles by just plugging them together
- Also includes 2' 3" long alligator clip leads with a female BMW style plug for easy jump starting your motorcycle from a car or any other available vehicle

Description	WPS#	
Bike 2 Bike Jumpstart for Cobra	71-9134	

BATTERY AND CHARGING SYSTEM TESTER

- The most convenient 12 volt tester on the market today, plugs directly into any cigarette lighter/power socket
- Immediately indicates battery state of charge and how your charging system is functioning in seconds

Description	WPS #
Battery Tester	71-9130

7" ADAPTIVE LED HEADLIGHT

The Adaptive 2 Series headlights have been improved to feature Adaptive technology when using the high beam, in addition to the low beam. Providing ditch-to-ditch lighting to eliminate dark corners on sharp turns and a punch of light 1,500 feet down the road to give you a safer and more confident ride to master the corners.

- Improved to feature adaptive technology with the high beam, in addition to the low beam
- On-board intelligence senses leaning angles when cornering to control light
- · Dynamically fills in dark areas while turning
- Breakthrough improvement in visibility and safety
- Plug & play solution for 7" round (also known as PAR56) motorcycle headlight buckets
- DOT & ECE dual-compliant headlight
- Dual Burn™ high & low beam optics for extra punch of light
- ComfortLite[™] high beams
- · Some models may require an adapter ring for installation (sold separately)

SIDEMOUNT TAILLIGHT KITS

- Unique modular design
- License plate can be mounted horizontally or vertically on either the left or right side of the bike
- Bolt it together using the pre-cut mounting holes in the bracket
- Includes three different mounting brackets
- Bolt bracket to your axle, shock, or weld the included raw steel slug anywhere on your frame and clamp it to that
- Can be used on Harleys with 3/4" axles and metric bikes with 20mm axles
- This is the most versatile bracket on the market!
- Mix and match the mounts to give your bike a unique look
- Includes a 12V brake/tail lamp with license plate light
- The bracket is powder coated gloss black and comes with stainless steel button head bolts/nuts

STEALTH III WEEKITS

- Cleans up the look of your CVO and does away with the ugly light box
- Hidden LED's in the frame illuminate the license plate
- True plug-n-play direct bolt-on installation (for CVO models)
- Can universally fit any curved fender by drilling two holes

Application	Black	Chrome
Universal	827-05460	827-05461

STEALTH II WEEK

Do you love the look of a frenched license plate? We do too, so if you want the cleanest, sexiest style for the ass end of your Bagger, then you better get a Bagger Nation French Box Kit!

For you fiberglass fans, our Composite French Box Kit can be molded into any fibergalss fender 7" or wider. Our Composite French Box Kit comes with an anodized black or brilliant chrome Stealth 2 License Plate Frame.

Wiring and installation instructions included.

	Description	Black	Chrome
Α	Composite	827-05120	827-05121
В	Steel	827-05122	827-05123

The Stealth 2 License Plate Frame is a billet frame that's perfect for frenched rear fenders with plate boxes, or any license plate application when no back plate is required. It has two hidden white LEDs in the corners to illuminate your license plate.

Application	Black	Chrome
Universal	827-05350	827-05351

LED LICENSE PLATE **FRAMES**

- These dual intensity LED License Plate Frames have been designed to give greater visibility and conspicuity to your motorcycle
- · Engineered to function in both high and low intensity brightness for a multitude of applications
- Because many motorcycles have only one brake/ running light bulb, these units can easily be used as back-up brake, and running lights, providing you a greater degree of safety and added visibility
- · Some models feature 3 amber LEDs on both sides of the light bars that function as auxiliary turning signals
- Mount and install this beautifully crafted license plate frame and give your bike an excellent finished appearance compared to an otherwise obtrusive license plate

WEDGY LIGHTS

 Our world famous Wedgy Lights have been an industry standard for years! They can be surface mounted or frenched with our exclusive Frenchy Boxes that are now included with every pair. They feature super-bright LEDs that function as taillights, turn signals and brake lights - and increase your visibility over 50%!

 Our Wedgy Lights are machined from 6061-T6 billet aluminum then brilliantly chrome plated or black anodized, making your Bagger look 100% cooler!

Application	Black	Chrome
Universal	827-05472	827-05473

LIGHTNING BOLTS LED LIGHTS

- Introducing Daytime Lightning BoltZ, Bagger Nation's newest Super Bright LED's. The latest in our Super Bright LED technology, the NEW Daytime Lightning BoltZ are self-contained, bolt-in, flush-mounted and crazy bright!
- Taillights, brake lights and turn signals all in one incredibly small package.
 The NEW Daytime Lightning BoltZ measure 15mm (19/32") in diameter and you simply drill a hole, bolt them in and wire them up. It's that easy!
- You can also create your own custom taillight design with the original Lightning BoltZ, the only limitation being your imagination!
- Daytime Lightning BoltZ Super Bright LED's are sold in pairs and come in gloss black or silver finish.

SUPER BRIGHT LEDS

These insanely bright LEDs are easy to install...
just drill a hole, silicone them in place and wire
them up!

• Available in red or amber.

Application	Red	Amber
Universal	827-05315	827-05316

BULLET TURN SIGNALS FOR ROAD GLIDES

 Available in brilliant chrome or gloss black. Easy installation instructions included. 3/4" x 3/4" x 3".

Application	Black	Chrome
Fits `98-13 FLTR	827-05440	827-05441

TURN SIGNAL ELIMINATORS FOR ROAD GLIDES

- Bagger Nation turn signal eliminators for 2013-earlier models are machined from 6061-T6 aluminum, then beautifully chrome plated or black anodized.
- Our wedgy shaped 2015-Up Road Glide Turn Signal Eliminators are made from injection molded urethane and come in a natural black finish. They are sold in pairs and can be easily painted to match your ride. Installation is simple and allows for custom relocation or simple removal of your stock signals.

	Application	Black	Chrome
Α	Fits `98-13 FLTR	827-05442	827-05443
R	Fits `15-IIn FLTR	827-05444	

TURN SIGNAL ELIMINATORS WARPS FOR STREET GLIDES

- When customizing a Street Glide, one of the first things Paul does is remove the stock turn signals. Well, that leaves ugly holes in the lower fairing...so Paul created these bitchin' Turn Signal Eliminators for Street Glides!
- Turn Signal Eliminators are a super cool and quick way to dress up the front end of your Street Glide. They create a killer contrast look that defines your unique Bagger. We make them available in a brilliant chrome finish or powder coated in a deep, rich black then accent-cut to bring forward the underlying metal.
- Each Street Glide Turn Signal Eliminator includes: (2) covers, hardware, and instructions.

	Application	Black	Chrome

BAG LIGHTS

These LED turn signals fit nicely between the saddlebag & fender on a custom FLH or on any flat surface. They are a great solution for adding rear lights to custom baggers. The LED unit is a 3-wire light & can be used as a running, turn and/or brake light. A load equalizer or turn signal controller may be needed for your application. The billet housing is 8-3/8" Long & 1-1/2" Wide. The LED unit has 10 LED's & is 5-1/4" Long & ½" Wide. Approximately ¾" of clearance is needed behind the surface. Machined from 6061 T6 billet aluminum. They are available in a chrome plated finish or our "Night Series", brilliantly Black Anodized, then areas are machined again for a contrast of a black anodized & a raw aluminum finish. Sold in pairs.

FENDER STRUT MARKER LIGHTS

CNC machined from solid billet aluminum, carefully polished, then hit with a super-durable black anodized or chrome finish that will never fade or flake off. Includes smoked lenses. LEDs are single function but can be converted to multifunction brake, turn signal, running lights, etc., by installing an optional conversion module. Fit '06-16 Dynas except FLD, FXDF, FXDB and FXDWG. Sold in pairs.

Application	Description	Chrome	Black	
Fit `06-17 FXD	Amber	812-02098	812-02099	
	Red	812-02101	812-02100	

TURN SIGNAL BARS

Pro One turn signal bars fit between the forks and mount to the headlight mounting bolt. Machined from billet aluminum. Come with elliptical amber lenses. Wide Glide version measures 8-1/8" x 3/4" x 1-1/2. Narrow Glide version measures 5-1/4" x 3/4" x 1-1/2. Load equalizer required to properly control the signal action on most models.

Application	Chrome	Black
Narrow Glide Forks	812-02094	812-02095
Wide Glide Forks	812-02096	812-02097

TURN SIGNAL ELIMINATORS

Pro One turn signal eliminators are CNC machined from solid billet aluminum, carefully polished and then finished with a durable black anodized or chrome finish. Adds a custom billet accent when you relocate your stock front turn signals. Easy to install, mounts to the stock holes and includes chrome mounting hardware. Fits 06-13 FLHX, FLHXXX TRIKE models. Sold in pairs.

Description	Chrome	Black
Turn Signal Eliminators	812-02090	812-02091

BILLET SIGNAL LIGHTS FLHX

- Billet LED signal lights fit FLHX models and FLHT models without spotlight bars installed
- Load equalizer required for most models
- Sold in pairs
- · Smoke lenses included

Description	Chrome	Black
Billet Signal Lights	812-02102	812-02103

BILLET SIGNAL LIGHTS FLTR

- For '98-13 FLTR models.
- · CNC machined from solid Billet Aluminum, carefully polished, then triple-chrome
- Includes both Smoked and Amber Lenses.
- Replaces your stock front turn signals for a cleaner, custom look. Bolts to stock mounting holes with no drilling.
- Load equalizer required on most models

Description	Chrome	Black
Billet Signal Lights	812-02092	812-02093

REAR TURN SIGNAL **BLOCK OFF PLATES**

- Used to cover the holes in fender struts when relocating rear turn signals
- Fit most models with rear strut mounted turn signals
- Black powder coated finish

Description	WPS #	
Universal Turn Signal Block Off Plates	750-02021

H-D TURN SIGNAL LED RETRO FIT KITS

- Convert your Harley Davidson deuce style marker/turn signal lights from incandescent bulbs to ultra-bright LED lights
- LEDs can last up to 100 times longer than incandescent bulbs. They draw 10 times less amperage and turn on significantly faster than standard factory bulbs, and because they are solid state, there is no filament to burn out or be damaged by vibration.

Each Kit Contains:

- Two (2) Clear Polycarbonate Outer Bullet Light Lenses (specific for 'deuce' style bullet lights)
- Two (2) Harley Davidson Deuce Marker/Turn Signal LED Light boards
- Two (2) Amber or Red Inner Lens/Disc to be placed on the LED light board
- Six (6) male connectors for simple wire splicing
- Six (6) female connectors for simple wire connection
- Two (2) Jumper wires (Black, Blue and Purple to match stock HD
- One (1) DUAL LOAD EQUALIZER

TURN SIGNALS

Unlike other lights in the market that have narrow angles of light using old technology LEDs, AC11 series use 120 degrees ultra wide viewing angle SMD LEDs. Offering such a wide viewing angle makes this turn signal visible from adjacent road lanes, where it counts the most. When turning or changing lanes normally vehicles and pedestrians in 30 or 45 degrees off axis are most important to be alerted. More than 3 times more effective light in such angles makes AC11 series a clear winner.

TURN S

TURN SIGNAL BRACKETS

Add a radical custom look to your Sportster or Big Twin with these turn signal relocation brackets.

- 750-01320 Brackets will mount most custom turn signals to the rear axle adjusters (not for use with OEM turn signals) sold in pairs
- 750-01321 Bracket mounts the turn signals to the front of the frame on Sportsters '04-Up
- 750-01322 Aluminum spacers that bring OEM or custom turn signals closer to the bike for a clean custom look
- 750-01323 Brackets mount most custom turn signals to the frame of Dynas (will not work with forward controls)
- 750-01324 Brackets mount to the forward control mounting points on '04-Up Sportsters

PIAA Corporation was established in 1963 with the commitment to manufacture world-class products that customers could use with pride and confidence. Today, PIAA upholds that commitment by combining market driven concepts with the latest technology to make night and inclement weather driving as safe as possible.

Beam Pattern

Driving Beam Pattern

Driving lamps are designed to increase the range and brightness of your vehicle's high beam. They are especially useful at higher cruising speeds where they help to identify hazards and signs long before they would be seen with stock lamps. All driving lamps are extremely bright and must be used with caution.

LP270 SERIES LED DRIVING LIGHT KIT

The PIAA LP270 LED Driving light kit offers the beam control of a halogen light with the low power consumption and durability of an LED light. As a light source LED's offer several advantages over their halogen counterparts including very low power consumption, compact size and durability. Unlike most LED lights currently on the market that position the LED aimed straight out forward the LP270 lights aim the LEDs at the reflector. This new orientation of the light source allows for far better beam control and output than the conventional layout.

- 2 3/8" LED light assembly (two 3W LED bulbs per light) in a black PPS housing
- White 6000 K beam color
- Computer designed multi-surface reflector gives a true high performance driving pattern
- Includes two lamps and wiring harness, mounting brackets sold separately, see application chart

PASSING LAMP BULB

- These bulbs draw less than 1 amp, but they are amazingly bright!
- · More visibility either day or night
- They run extremely cool compared to your stock bulbs
- Your passing lights will have a nice clean look instead of the yellow tones of the standard stock bulbs
- Direct LED replacement for H-D # 68348-05

Description	WPS#	
`06-Up H-D Models w/Passing Lamps	226-0001	

REPLACEMENT BULBS

- Easily replace stock to LED
- Instant intensity
- Powered by Cree LED
- These are one of the best and brightest LED bulbs you can buy
- Impressive lighting output compared to your stock lights!
- Increase your visibility to other drivers/riders
- Lower the electric load on your alternator and battery
- Increase the life span of your lights

HEADLIGHT LED BULB UPGRADE KITS

 Take the guesswork out of upgrading your headlight bulbs to LED

- Passive cooling heat sink
- Plug & play
- Ultra bright Hi/Lo beam LEDs
- Low amp draw
- 6000K color temperature with 4000 Lumens

Description	Application	WPS#
Headlight LED Bulb Upgrade Kit	Road Glide Models `98-13	226-0091
	Fat Bob Models `08-17	226-0090

HIGH PERFORMANCE TRI-LED BULBS

New Generation LED's are here and it's easier than ever to replace the yellow dull stock headlight on your bike!

- Plug N Play and easy installation
- These bulbs are very bright and they put out some serious light, over 2000 lumens
- Drawing only a few amps and no ballasts required, it plugs directly into your bike's power connector
- Available in H4/H7/H11/H13 applications
- 226-0008 is recommended for 2014 H-D touring models that have a dual top and bottom head lamp system
- Color temp: 6000K
- 36W low power draw

Description	WPS#
H4 LED w/Fan Heatsink	226-0007
H11 LED w/Fan Heatsink	226-0008
H7 LED w/Fan Heatsink	226-0009
H13 LED w/Fan Heatsink	226-0010

PERFORMANCE LED PASSIVE HEAT SINK

- Plug N Play
- This high performance LED headlamp is the closest LED replacement of an incandescent bulb but benefits in LED technology
- Low Power/AMP draw, Ultra bright white and about 2-3x better lighting coverage compared to your stock bulbs
- LO/HI BEAM 2000/3000 LUMENS per bulb
- Available in H4 and H11 fitments

Description	WPS#
H4 LED w/Fanless Heatsink	226-0022
H4 LED w/Fanless Heatsink (Pair) *	226-0023
H11 LED w/Fanless Heatsink	226-0024

*Recommended for Road Glide models

RUGGED FANLESS LED BULBS

- 4000 Lumens (SFS bulbs)
- H11 is a perfect fit for V-Rod models equipped with H11 bulb and '14-Up touring models that have a dual top and bottom headlight system
- Drop In Replacement Led Bulb
- Color temp 6500K
- Low AMP draw

	Description	WPS#
Α	H4 Fanless LED bulb	226-0038
В	H7 Fanless LED bulb	226-0039
C	H11 Fanless LED bulb	226-0037
D	H13 Fanless LED bulb	226-0040

COMPACT H4 LED BULB

- H4 Mini LED Ultra compact fanless design
- Ultra compact design, fits virtually any H4 application
- Adjustable beam pattern via swivel base
- 3200LM/3600LM @6000K color temp
- IP 65 rated

OEM STYLE REPLACEMENT BULBS

GREATER PERFORMANCE: PIAA bulbs are engineered with XTRA Technology for greater performance per watt than any other bulb on the road. (XTRA is a term coined by PIAA to designate a high-efficiency bulb that is designed to produce greater light output than its rated power consumption, i.e. 55W = 85W of light output.) Greatly enhance your ability to see and be seen. A metal bond holds the heat-resistant glass tube securely to prevent cracks and leaks. A welded focus ring and one-piece filament support assures proper positioning.

BRILLIANT COLOR: Beam color affects visibility and eye strain over long periods. The brilliant white/blue light allows comfortable night driving over extended periods of time. PIAA bulbs are both a performance upgrade and an aesthetic enhancement. You will see the difference even in the daytime.

WARRANTY AND SUPPORT: PIAA is so confident in the durability and reliability of our products that we offer a no questions asked, replacement of any halogen bulb that fails within one year of purchase. PIAA bulbs are an investment in safety and peace of mind.

Super Plasma GT-X - The Super Plasma GT-X bulbs offer an unmatched combination of fashion and performance with a bluish-purple color very similar to H.I.D. and the closest yet to sunlight.

Xtreme White / Xtreme White Plus / Xtreme Plus Hybrid - The Xtreme White Series of bulbs have a cool white light output that gives the driver better color recognition on depth perception and better contrast than stock halogen lamps. The blue top coat on this series of bulbs adds a slight blue tint to a lamp with no loss of performance.

TRI-STAR TAIL LIGHT MODULE

The Tri-Star module converts the rear turn signal lights to function as brake and turn signal lights. When the brakes are applied, the turn signal lights illuminate. If a turn signal is applied, it has priority over the brake light function on the side that is selected. If the turn signal is canceled and the brakes are still applied, the brake light function of the turn signal lights illuminate steady on.

- · Adds brake light function to existing turn signals
- Weather proof solid-state electronic components.
- Dimension: 2 1/4" L x 1 5/8" W x 5/8" H
- Mounting: Secure to flat surface with double sided VHB tape (included).
- NOTE: If your bike does not have a variable load turn signal flasher, a Dual Load Equalizer will be needed for this installation.

WPS# 28-01006

TRI-STAR XP TAIL LIGHT MODULE

- The Tri-Star XP module converts the rear turn signal lights to function as brake and turn signal lights...and now has running light capabilities!
- When the brakes are applied, the turn signal lights illuminate. If a turn signal is applied, it has priority over the brake light function on the side that is selected. If the turn signal is canceled and the brakes are still applied, the brake light functions of the turn signal lights illuminate steady on.
- Adds brake light function to existing turn signals
- Dimension: 2 1/4" L x 1 5/8" W x 5/8" H
- Mounting: Secure to flat surface with double sided VHB tape (included).
- Weather proof solid-state electronic components
- NOTE: If your bike does not have a variable load turn signal flasher, the included Dual Load Equalizer will be needed for this installation.

Note: This unit will not work on bikes that have the left and right turn signal switch built into one unit that you must push to cancel.

SELF-CANCELING TURN SIGNAL MODULE

- Three turn signal timing modes self canceling + hazard mode non self-canceling.
- Non-Load Dependent Flash Duration flash time constant whether using incandescent or LED lighting
- Weather proof solid-state electronic components potted with soft cell technology to prevent wire chaffing and damage.
- · Four unique turn signal modes of operation
- Mounting: Secure to flat surface with double sided VHB tape (included).
- Dimension: 2 1/4" L x 1 5/8" W x 5/8" H

Note: This unit will not work on bikes that have the left and right turn signal switch built into one unit that you must push to cancel.

28-01501

PENTA-STAR TAIL LIGHT MODULE

- The Penta-Star[™] module combines all of the functions of the Self-Canceling Turn Signal Module and the Tri-Star Module
- Three turn signal timing Modes Self Canceling non-load dependent flash duration: all three modes are flash time constant whether using incandescent or LED lighting
- Five unique turn signal modes of operation
- Hazard Mode Non self-canceling
- Adds brake light function to turn signals
- Designed for use with individual momentary type turn signal switches mounted on the left and right handle bars
- Weather proof dependable solid-state electronic components Dimension: 2 1/4" L x 1 5/8" W x 5/8" H Mounting: Secure to flat surface with double sided VHB tape (included).

WPS# 28-01007

PENTA-STAR XP MODULE

- This module combines all of the functions of the Self-Canceling Turn Signal Module and the Tri-Star Module ... and now has running lights capabilities!!!
- Three turn signal timing modes self-canceling
- Five Unique Turn Signal Modes of Operation
- Hazard mode Non self-canceling
- · Adds brake light function to turn signals
- Non-load dependent flash duration: all three modes are flash time constant whether using incandescent or LED lighting
- Voltage: 12 VDC, Negative Ground. Max Load Capacity: 6 amps per left or right channel.
- Dimension: 2 1/4" L x 1 5/8" W x 5/8" H
- Mounting: Secure to flat surface with double sided VHB tape (included).
- Weather Proof Dependable Solid-state electronic components.

DUAL-LOAD EQUALIZER

- The Dual Load Equalizer is designed to correct the issue of turn signals flashing too quickly or not at all. It does this by adding back the load to your mechanical flasher relay that was removed by converting stock incandescent turn signals to LED's
- Dependable weather proof Solid-state electronic components
- Dimensions: 2 1/4" L x 1 5/8" W x 5/8" H
- One equalizer per set of lights

WPS#

28-01008

HEADS UP VOLTAGE MONITOR

- This module is a micro-processor that monitors the output of the charging system and is accurate to within 200 milli-volts. The Heads-Up Voltage Monitor's™ onboard microprocessor performs a self-test each time voltage is applied.. Additionally, you will be notified of serious fault conditions by an attention-getting flash of the LED.
- The single, multi-color LED (red-amber-green) visually indicates the state of your motorcycle's battery / charging system. At a glance, you will instantly know whether the voltage is normal or abnormal. Auto-dimming - after 8 seconds at a single voltage, the LED intensity is lowered to 50%
- Voltage Range: 6 to 17 VDC, Accuracy: within 200 millivolts, Amp Draw: 20–85 milli-amps.
- Dimension: 2 1/4" L x 1 5/8" W x 5/8" H

WPS#

28-01050

THE ORIGINAL BACKOFF™

- Compact solid state module converts your ordinary brake light into an attention getting visual alerting device, more visibility and conspicuity when you are stopped or stopping
- With BackOFF installed, when you apply your brakes, it causes your brake light to automatically emit a visual alerting signal of 3 short light flashes, followed by 1 steady on light condition of 3.5 seconds
- Signal automatically repeats itself as long as the brakes are applied
- Compact size. 2-1/4"L x 1-5/8"W x 5/8"H
- 12v DC, 10A max

BACKOFF™ BRAKE HOLD MODULE

- The Brake Hold Module connects to your bike's electronic speed pick-up sensor (will not work with cable driven speedometers); to keep your brake lights on when you release your brakes but are still decelerating
- Mode #1: Emits a visual signal of 3 short light flashes, followed by 1 long light flash (3.5 seconds). The signal automatically repeats itself as long as the brake lights are on. Mode #2: Emits a visual signal of 5 guick flashes, followed by a steady on light that remains steady as long as the brake lights are on
- 12 volts DC Maximum Capacity: 10 Amps (normally up to 3
- Compact size. 2-1/4"L x 1-5/8"W x 5/8"H sealed weather resistant heat sink case.
- 1 Year limited warranty
- Your Bike MUST have Electronic Pick-Up Sensor for this module to function

WPS# 28-01020

BACKOFF™ WIG WAG MODULE

- The Wig-Wag enables your brake lights to alternate back and forth in a wig-wagging pattern.
- This module is specifically designed for use with motorcycle's that are equipped with 2 brake lights located side by side.
- Choice of 2 different modes during installation.
- 12 volts DC, Maximum Capacity 10 Amps!
- Compact size. 2-1/4"L x 1-5/8"W x 5/8"H sealed weather resistant heat sink case
- · Limited Warranty One Year

WPS# 28-01009

BACKOFF™ XP

- This module converts your ordinary brake lights into your choice of two attention getting visual alerting signals when you apply your
- Mode #1: Emits a visual signal of 4 short light flashes, followed by 1 long light flash (3.5 seconds). The signal automatically repeats itself as long as the brakes are applied. Mode #2: Emits a visual signal of 5 short flashes, followed by a steady on light that remains steady on as long as the brakes are applied
- Compact 2-1/4"L x 1-5/8"W x 5/8"H sealed weather resistant heat sink case
- 12 volts DC, 10A max capacity
- Limited Warranty One Year
- NOTE: This module is rated at 10 Amps which will only drive 3 - 1156/1157 bulbs, Please DO NOT install any BackOFF Brake Light product on your turn signals, it is illegal and also confusing to following vehicles.

FUSION MOTORCYCLE LED LIGHTING SYSTEM - STAGE 5

THE SHOW STOPPER

Fusion LED Systems are the most complete way to quickly customize your motorcycle with LED's, yet not spend a fortune. Our Fusion systems eliminate time consuming wiring of LEDs and simply plug into a main control module that can create the wildest flash patterns. Fusion 21 color LED systems allow you to change colors with the press of a button. Every Fusion system comes with a wireless remote, CPU, LED light strips, and mounting hardware.

- Multi-color, three-zone, six lines, plug-n-play CPU with wireless remote
- 13 Flash Patterns (5 Music / Engine Thump Modes)
- 5 Speed Flash Driver
- 5 Levels of sound sensitivity
- 21 Colors, including million color mode and 7 color mode
- Secondary Power Up Option

Description	WPS #
Stage 5 Kit	127-0017
Spare Remote Fob	127-0000

FUSION MC STAGE 3

Now we're talking about some serious lighting. Guaranteed to turn some heads, this kit will fully cover mid-weight cruisers and sport bikes. Whether you want to light up your Suzuki GSXR, Harley-Davidson Fat Boy, or any bike of similar size this kit is right for you. Fusion 21 color system allows you to change colors with

the press of a button. Features: A multi-color, three-zone, six lines, plug-n-play

FUSION LED SYSTEMS

FUSION LED SYSTEM - STAGE 1 HARLEY DAVIDSON®

The absolutely amazing Harley-Davidson Fusion LED Lighting system is designed to be the easiest, most affordable way to light a Harley-Davidson motorcycle from front to rear. The Fusion Stage 1 Harley-Davidson LED system is designed for the non-touring Harley-Davidson motorcycles such as Sportster, V-Rod, Dyna and Softtails.

- Multi-color, three-zone, six lines, plug-nplay CPU with wireless remote
- 13 Flash Patterns (5 Music / Engine Thump Modes)
- 5 Speed Flash Driver
- 5 Levels of sound sensitivity
- 21 Colors, including million color mode and seven color mode
- Secondary Power Up Option

LED KIT Contains:

CPU and Wireless Remote

- (4) 4" Flex-Tech LED strips
- (4) 15" Flex-Tech LED strips
- (2) Y-Splitter cables
- (2) 12" extension cables Mounting hardware

Description	WPS #	
Stage 1 Kit- HD	127-0010	
Spare Remote Fob	127-0000	

FUSION MC STAGE 1 STARTER KIT

Here is a great LED kit that is inexpensive and quick to install. Consider the stage one kit if you don't want to go wild (yet). The ideal kit for mild accenting through out your bike, or to explode a single area such as the engine. Add more LED strips at any time.

Fusion systems come in two models: single color or million color systems. Million color systems allow you to change colors with the press of a button. Features: A multi-color, three-zone, six lines, plug-n-play CPU with wireless remote.

- 13 Flash Patterns (5 Music/Engine Thump Modes)
- 5 Speed Flash Driver
- 5 Levels of sound sensitivity
- 21 Colors, including million color mode and seven color mode

•	Secondary	/ Power	Un	Ontion

- CPU and Wireless Remote
- (2) 3" Flex-Tech LED strips
- (4) 5" Flex-Tech LED strips
- · Mounting hardware
- Total number of LEDs: 90

MILLION COLOR FLEX-TECH PODS

Add more million color pods to your FUSION MC-X6+ system. Pods are 100% waterproof and shock resistant. Each pod comes with four feet of cable and attached connector plug for easy, plug-n-play installation. Million color pods include double-sided adhesive tape for mounting. The double-sided 3M adhesive foam tape is pre-applied to the back of each pod to streamline the installation process. Our

Flex-Tech pods can bend 180 degrees, allowing the pods to flow with the natural curves of your bike.

ATTENTION: You will need to purchase one Y-splitter cable for every pod you want to add to a system. For example: if you purchase three additional pods, you also will want to purchase three additional Y-Splitter cables.

MILLION COLOR FLEX-TECH POD (3")

Each million color pod has 3 SMD LEDs. Each SMD LED has 7 internal diodes making a total of 21 LEDs per 3" pod. Dimensions: 2.6" long, 1/2" wide, 1/4" high.

WPS #

MILLION COLOR FLEX-TECH POD (5")

Each million color pod has six SMD LEDs. Each SMD LED has 7 internal diodes making a total of 42 LEDs per 5" pod. Dimensions: 4.75" long, 1/2" wide, 1/4" high.

WPS # 127-0021

MILLION COLOR FLEX-TECH POD (10")

10", waterproof, flexible LED strip with black PCB. 34" cable with attach plug. Extended 40" cable. 3M red tape applied. 15 of the 5050 SMD style LEDs. LED total: 45

WPS # 127-0022

FRONT AND REAR FUSION LED RIM KIT

LED Rim Lights are here! This is the motorcycle industry's first completely round LED lighting disk designed specifically for adding accent lighting to your motorcycle's wheels or rims. The Fusion Rim Lights plug into the Fusion MC-x6 or MC-x3 controllers and display 21 different colors and will flash in sequence with the existing Fusion LED Lighting System. With 36 LEDs shining outward in a perfect cylindrical pattern you will get an even spread of light on your entire rim. Must have a Fusion LED Kit to run these lights, as they are multi-color and require a controller.

- 72" wire leads for front mount rim lights and 40" cable for rear mounted rim lights
- Light weight black Delrin construction
- Size is .4" thick by 2.25" diameter. Check clearance between brake caliper and wheel spoke to ensure 1/2" of clearance

 Inner brake caliper must be smooth surface for mounting

WPS # 127-0029

MILLION COLOR FUSION 24" EXTENSION CABLE

• 24 inch extension cable for multi-color system. Male plug to female plug.

WPS#

127-0028

MILLION COLOR Y-SPLITTER CABLE

Y-Splitter cables make it easy to add more pods to your FUSION MC-X6 system. Simply attach the splitter cable to the L.E.D. driver (CPU) cable; making each cable capable of driving 2 pods instead of one.

XTL LED LIGHT STRIPS

- Flexible LED strips are less than 1mm thick and can bend around a .5" radius
- Waterproof and extremely light weight, great for under body accent lighting
- · Concussion and abrasion resistant
- Attaches with 3M® VHB double sided tape for long term adhesion
- LED's are spaced 12mm apart, (Extreme White 6mm apart)
- For use with 12 volt DC systems, sold each
- Made in the U.S.A.

DIGITAL HARLEY GAUGE CLUSTER

- Plug & play
- · Available with silver or black bezel
- Features a 2 color changeable LCD display (red or blue)

6 piece Kit includes:

- 4" Speedometer w/ indicator lights and clock
- 4" Tachometer w/ indicator lights and gear positioning
- 2" Ambient temperature: 0-120F°

2" Fuel level: 0-100%2" Oil pressure: 0-60 psi2" Volt meter: 8-16V

Application	Ambient or Oil Temp	Polished Bezel	Black Bezel
`04-13 FLTR, FLHX, and FLHT models	Kit with Ambient Temp Gauge	27-5794	27-5795
	Kit with Oil Temp Gauge	28-61012	28-61013

OIL TEMP GAUGE

This plug & play oil temperature gauge is equipped with a 2 color changeable LCD display. It will provide you with the oil temperature from 0 to 400°F and is easy to connect and install. This meter is a great addition to all HarleyDavidson Touring models 2004 to 2013. Can also be used to replace the ambient temp gauge in Koso HD-02 kits.

	Silver	Black	
Application	Bezel	Bezel	
`04-13 FLTR, FLHX, and FLHT models	28-61010	28-61011	

HD-05 MULTIFUNCTION 4.5" GAUGE

The 100% plug and play HD-05 series for 4 ½" gas tank mounted models features a tach and speedo combo with a programmable shift light with gear indicator. This gauge also features vital readings such as engine temperature and battery voltage along with average fuel economy and a complete system of indicators to monitor your bikes vital signs. This plug and play kit fits directly into the stock harness and works directly in relation with your bikes CAN BUS system.

Application	WPS#
Fits `12-17 Dyna, `11-17 Softail, `14-Up Road King Models	28-61004
Fits `04-11 Dyna, `04-10 Softail, `04-13 Road King Models	28-61005

LCD COLOR CHANGE SPEEDO & TACHOMETER

- Customize your Sportster, Dyna and Softail with our high quality plug & play meter
- Equipped with a 7 color changeable LCD display
- Its stepper motor provides a precise and fast response
- Speed, RPM, indicator lights, fuel level, and gear position indicator
- Available in silver or black bezel
- Tachometer display range: 0-8000 RPM
- Speedometer display range: 0-225 mph

Application	Silver Bezel	Black Bezel
`04-13 Sportster and `04-11 Dyna models	27-5797\$	27-5797BK
`14-Up Sportster, `12-17 Dyna and `11-17 Softail models	27-5798\$	27-5798BK

TNT TACHOMETER

Built with the best components and strongest stepper motor on the market, this TNT tachometer is the perfect addition for all Harley Davidson® Motorcycles. Its large dial face and backlight makes it easy to read all day long.

- Tachometer Display range: 0-8,000 RPM
- Display internal < 0.5 second
- RPM input signal number setting range 0.5, 1-6
- RPM input pulse setting range: HI (Positive wave pulse)
- Lo (Negative wave pulse)
- · Backlight brightness setting range: 5 different levels available
- Setting unit: Each level represents 20%
- Effective voltage DC 12V
- Effective temperature range 14°F 140°F
- Meter standard JIS D 0203 S2
- Measure 3" diameter (without bezel), 3.4" with bezel x 1.75" deep (without bezel)
- · Meter weight around 6oz.

Description	WPS#
Black casing Black face Tach 8,000 RPM	27-5782
Chrome casing White face Tach 8,000 RPM	27-5783

- Plug-n-play gear indicator for Harley Davidson®
- Lightweight, compact, easy to use and to install
- Its big digits and blue back light makes it easy to read during day or night riding
- Made to fit most of the Harley Davidson® models
- Gear Display range: N, 1, 2, 3, 4, 5, 6
- Effective voltage DC 12V
- Effective temperature range 14° 140°F
- Meter standard JIS D0203
- Meter size 1.5 x 2 x 0.5 inches
- · Meter weight around 2oz

DL UNIVERSAL SPEEDO AND TACH

BLUE BACK LIGHT • BLACK PANEL RANGE: 0 ~ 360 km/h or 0 ~ 223 mph

This digital instrument gives the basic functions such as speed, trip meter, odometer and fuel level. Its round shape makes it perfect for motorcycles. Matching tachometer available. Both gauges fit in an optional bullet housing that clamps to 1" or 1.25" bars. The face of the instrument becomes totally dark when the ignition is off.

G

DL-2 UNIVERSAL SPEEDO AND TACH

The DL-02S speedometer has been developed with the latest technology. Its unique casing allows the adjust buttons to be right in the front. This makes the DL-02S a very convenient instrument to adjust. The big digits and blue back light make the DL-02S a very easy gauge to read even at night. Gauge will fit into the optional bullet housing that clamps to 1" or 1 1/4" bars or the optional one bolt mounting bracket (27-5773)

- Speedometer Display range: 0~260 km/h or 0~160 MPH
- Display unit: KMH & MPH
- Display internal < 0.5 Second RPM
- Odometer Display range: 0~99999 km or mile, Display unit: 1 km or mile
- Trip meter Display range: 0~999.9 km or mile, Display unit: 1 km or mile
- The circumference Setting range: 300~2,500 mm
- Setting unit: 1 mm Pulse setting: 1~60

- Top speed record Display range: 0~260 km/h or 0~160 MPH
- AVE speed Display range: 0~260 km/h or 0~160 MPH
- Riding time Setting range: 0~99'59"99 second.
- Fuel meter Display range: 0%~100%
- Setting range: 100 Ω , 510 Ω , no display
- Supply voltage DC 12V
- Effective temperature range: -10°C ~ +60°C
- Meter standard JIS D 0203 S2
- Sensor type Passive speed sensor

SPEEDO TUNER®

Everyone deserves an accurate speedometer to prevent breaking the law and hurting the value of their motorcycles. Until now the only solution was limited to a few products that require complicated mathematical formulas to calculate an adjustment to offset a gearing or tire/wheel change, but it still carried the original factory offset along with it.

• Works on most any bike with an electronic speedometer

· No math required, no guessing

 Simple 3-step procedure to regain accurate speedometer and odometer readings within 1%

• Fixes calibration once and for all

• 6th gear indicator light function may be lost

 May interfere with cruise control functionality depending on severity of gear ratio change Speedo Tuner® fixes the following problems:

- Any sprocket or gearing change (up or down)
- Tire profile change or using any of the new oversized tires
- Harley's changing to 6-speed and/or overdrive transmissions
- Anyone who's tired of poor OE speedometer inaccuracies

Application	Year	WPS#
Big Twin	`98-06	58-7900

H-D TACH

To make the needle stable for the high vibrations, a stepper motor is used. With the auto-scan function, the meter will scan when the engine is turned on. This Tachometer with illuminated needle is very easy to read at night and features an integrated oil pressure indicator. Gauge will fit the optional bullet housing or the optional one bolt mounting bracket (27-5773).

- Speedometer 0 ~120 MPH
- Trip Meter Display Range 0~999.9 Miles
- Tachometer 0 ~9000 RPM
- Oil Pressure 0~75 PSI

GAUGE MOUNT FOR T-BARS

Accutronix Gauge mount adapter's give you a place to mount your gauge bracket after you switch to T-Bar handle bars. These Gauge mount adapters are machined from 6061 T-6 Billet Aluminum and brilliantly Chrome plated or Black Anodized. Our Gauge Mount Adapters are designed to adapt FXD & XL OEM gauge mounts that normally bolt to your top riser clamp to a 1", 1-1/4", or a 1-1/2" T-Bar handle bar.

Description	Bar Diameter	Chrome	Black
T-Bar Gauge Mount	1"	811-20040	811-20043
	1-1/4"	811-20041	811-20044
	1-1/2"	811-20042	811-20045

Note: The late model DYNA and SPORTSTER Gauge Mount is also the top riser clamp. You will need an early H-D Gauge mount as well as our gauge mount adapter.

DUAL GAUGE MOUNT BRACKET KIT

- These new dual gauge mount kits have a steel construction
- Available in chrome or black

LATE XL FORWARD CONTROLS

TC Bros. Choppers bolt on forward controls to fit all 883 and 1200 Sportster models from 2004-2013 proudly made in the USA!

Kit features CNC machined 6061 aluminum folding footpegs with a knurled, non slip finish for great looks and performance. Heavy duty steel mounting brackets are TIG welded and powdercoated satin black for durability. Stainless steel linkage rods provide smooth shifting and corrosion resistance. Highly detailed mounting instructions allow for simple installation. All pivot points utilize oil impregnated, precision fit bronze bushings for long life. Foot position is the same as a set of OEM Harley forward controls for an all around, comfortable ride.

		Application	Description	WPS#
	Α	`04-13 XL Models	Forward Controls	563-01006
	В		Forward Controls (No Pegs)	563-01007

UNIVERSAL FORWARD CONTROL KITS

- Universal forward controls available with and without mounting kit
- Kit includes a pair of universal forward controls and material to make mounts for them
- They can be used to fit virtually any bike
- CNC machined aluminum pegs (knurled for extra grip)
- The mounting plates are 5/16" thick raw steel and the spacers are heavy duty 1/4" wall seamless DOM steel
- · You can make bolt on mounts or just
- Custom shapes can be cut for the unique look that you are going for
- tubina

weld them to your frame

WPS# Description 563-01000 563-01001 C Universal Forward Controls with Mounting Kit 563-01002

*The universal linkage kit includes the rods and tubes, they will need to be cut to fit your application

- Perfect for custom choppers and bobbers or even stock bikes!
- KIT INCLUDES: two 24" Long 5/16" threaded rods, four 5/16" ball joints, two 5/16" ID x 1/2" OD steel tubes* (to cover rod threads and increase rigidity), eight 5/16" jam nuts, four nylock nuts, and four flat washers.

XL FORWARD CONTROLS

USA made bolt on forward control kit features CNC machined 6061 aluminum folding footpegs with a knurled, non slip finish for great looks and performance. Heavy duty steel mounting brackets are TIG welded and powdercoated gloss black for a highly durable finish. Kit includes detailed mounting instructions, stainless steel linkage rods, as well as everything your need to bolt these to your Sportster, whether it came with factory mid controls or factory forward controls. All pivot points utilize oil impregnated, precision fit bronze bushings for long life. Foot position is the same as a set of OEM Harley forward controls for an all around, comfortable ride.

	Application	Description	WPS#
Α	`91-03 XL Models	Forward Controls	563-01004
В		Forward Controls (without pegs)	563-01005

UNIVERSAL REARSETS

Loaded Gun Customs aluminum universal fit, bolt on rearsets by TC Bros. Choppers. Can fit virtually any bike if you make mounts and shift/brake linkage rods. Rearsets feature CNC machined 6061 aluminum pegs with precision fit oil impregnated bronze bushings. Each lightweight rearset weighs only 9oz. The pegs are knurled for extra grip. They also include stainless steel mounting bolts that thread into the pegs. Universal linkage kits are not included. These are perfect for Cafe Racer styled bikes and are proudly made in the USA!

Application	WPS#	
Custom Applications	563-01003	

NOMAD FOOT AND SHIFT PEGS

TC Bros. Nomad footpegs mount directly to your stock Harley female foot peg mounts. Great for use on late-model Harley-Davidson forward controls or even mid-control replacements. High quality, non-slip, knurled finish pegs are CNC machined with a radius end for great looks. Proudly made in the USA! These are also direct replacements for TC Bros. Harley forward control kits.

	Application	Description	WPS#
Α	Fits HD Female Peg Mounts	Nomad Footpegs	563-01020
В		Nomad Shift Peg	563-01021

SPORTSTER MID-CONTROLS

Kit features CNC machined 6061 aluminum folding footpegs with a knurled, non slip finish for great looks and performance. A version without pegs is also available. Heavy duty steel mounting brackets are TIG welded and powdercoated satin black for a highly durable finish. Highly detailed mounting instructions are included for easy installation. All pivot points utilize oil impregnated, precision fit bronze bushings for long life. Foot position is the same as a set of OEM Harley mid controls for an all around, comfortable ride. Proudly made in the USA!

Application	Description	WPS#
Fits XL Models `91-03	Mid Controls	563-01009
	Mid Controls, no pegs	563-01008

SPORTSTER FORWARD CONTROL EXTENSIONS

These +6" forward control extension plates are machined from 6061 T-6 billet aluminum and powder coated gloss black to match your frame. The shift & brake rods are polished stainless steel. They bolt to the frame where the stock Sportster forward controls mount. The shift & brake arms as well as the foot pegs then mount 6" forward from the stock location helping people with a long inseam stretch out.

GAUGES

Bagger Nation grip styles are so awesome, we now offer matching foot pegs! Yaffe footpegs are direct bolt-on OEM replacement.

We make our pegs available in a brilliant chrome finish, or powdercoated in a deep, rich black then accent-cut to bring forward the underlying metal.

Description	Black	Chrome
Bullet	827-05270	827-05271
Speed Freak	827-05272	827-05273
Yafterburner	827-05274	827-05275

SHIFT PEGS

Our Bagger Nation grip styles are so awesome, we now offer matching shift pegs! Our Bullet Shift Pegs are direct bolt-on OEM replacements and are CNC machined from 6061-T6 Aluminum.

Available in brilliant chrome finish or black anodized.

Description	Black	Chrome
Bullet	827-05355	827-05356
Speed Freak	827-05357	827-05358
Yafterburner	827-05359	827-05360

WEDGY PEGS

We removed the rubber inserts and machined a brilliant diamond pattern right into the aluminium surface. This adds a whole new level of sparkling detail to our Wedgy Line. All Super Bling Wedgy Passenger Pegs are CNC machined from 6061-T6 aluminum and brilliantly chrome plated or black powder coated.

Simply remove the factory peg body and our Classic Wedgy Pegs slip right on!

The Super Bling Wedgy Line includes Foot Boards, Passenger Foot Boards and Pegs, Shift Pegs and Brake Pedals.

Application	Black	Chrome
All `86-Up	827-05478	827-05479

WEDGY SHIFT PEGS

Bagger Nation Classic Wedgy Shift Pegs are a direct bolt-on replacement for stock pegs. Each Wedgy Classic Shift Peg is beautifully machined from 6061-T6 aluminum and then brilliantly chrome plated or gloss black powder coated!

Application	Black	Chrome
All `86-Up	827-05480	827-05481

FOOTPEGS

BBMX PEGS

These pegs are designed with you in mind. Kick ass design with high functionality. Precision machined from aircraft grade 6061 T6 billet aluminum and anodized. Included with adjustable chrome plated steel clevis. They are light weight and strong. The outermost edge is tapered underside to optimize lean angle on BBMX and Meat Hooks with Brass Balls logo located on the underside.

• BBMX pegs measurements: 3.5" L x 2.5" W x 1" H

- Meat Hooks pegs measurements: 4.40" L x 2.5" W x 1.01" H
- Muzzle Break pegs measurements: 4.06" L x 1.38" W x 1.14" H

HEEL SHIFT ELIMINATOR

- Many riders don't like the rear-heel shift lever that comes stock on H-D touring models with factory floorboards. When you remove the lever it leaves unattractive, exposed splines.
- Paul designed this neat billet adapter that allows you to remove the unwanted lever, scoot the front lever out to the end of the shaft and the Bagger Nation Heel Lever Eliminator will fill the space!
- Machined from 6061-T6 aluminum, then brilliantly chrome plated or black anodized.

Application	Black	Chrome
Fits `84-Up FLH/FLT	827-05170	827-05171

- These handy spacers cover up the exposed part of the shift shaft when the heel shifter is removed
- Made from billet aluminum and show chrome plated

FLOORBOARD EXTENSION KITS

- Easily bolts on to your 1983-2018 Touring bike
- It extends your floorboards outward .75"
- You will notice a difference
- On the left side you will be able to use more of the floorboard because you are moving it slightly away from the shifter
- On the right side it gives you some more room from your pipes
- This kit comes with billet aluminum, powder coated spacers and stainless steel hardware

ORIGINAL MONKEY BARS 101:

- All of our customers RAVE about how comfortable our Monkey Bars are and how installing them has changed their riding experience! That's because they were designed by a rider for riding!
- That's one aspect our Original Monkey Bars that all of the copiers have been unable to duplicate! Our only goal when creating our Monkey Bars was to offer the highest quality product...period!
- Width: Our bars a several inches narrower than the other because we utilize a more labor intensive process of assembling the grip post areas. Swedging is cheaper, but it adds 2"of width to each side of the bar!
- Natural Grip Angle: Our bars were painstakingly engineered to provide a natural, relaxed grip angle. They don't force your hand or wrists into an uncomfortable position. Non-riders would never think of this.
- Adjustability: Our bars are designed to allow maximum rotation in regards to your hand control positioning. Everyone has a different taste and comfort zone here, so it's important to be able to put em' where you want em'!
- Pull Back: Our bars are specifically designed to provide excellent pullback (9") if so desired for optimum back comfort.

MONKEY SPORT BARS

- We realize that you have a choice when choosing the correct set of handlebars for your bike. We are absolutely positive that we offer the best designs and quality available. So when choosing a bar, remember, all bars are definitely NOT created equal.
- Bagger Nation fans asked us for a low slung bar for their Road Glides and Road Kings, and they also wanted more pullback so they weren't left stretching forward to reach traditional drag bars. So, we combined the classic style of our OEM Monkey Bars with our signature tightly bent uprights with good pullback and BAM, the Monkey Sport Bar is born!
- These high-style bars have tons of attitude and all the comfort that our original OEM Monkey Bars are famous for. They feature the exact same natural hand position as our OEM bars, they are 33 inches wide, with a 6" rise and over 9" of pull back! So if it's a low slung profile you crave, our Monkey Sport Bars deliver!
- Available in gloss black powder coat or brilliantly chrome plated.
- OEM Monkey Bars require spacer kit 827-05375 for installation on FLHR and FLHRC models `14-UP.

SUPER CLAMP

The Bagger Nation Super Riser Clamp is a must when installing internally wired custom handlebars. Our incredibly strong design is CNC machined from a solid block of 6061-T6 aircraft aluminum. The innovative design incorporates a series of three locking screws that virtually lock the ever popular tall Monkey Bars in place. The Super Riser Clamp all but eliminates the potential for handlebar slippage that is common with tall bars and big riders. Simply put, a 10" or higher bar and a 200+ lb. rider creates an increased leverage that was never considered by factory engineers! Especially when you're suddenly pulling yourself up off your seat in an "emergency unseen pot hole, trying not to bust your butt" situation...riders know exactly what we mean!

Additionally, 2007-Earlier HD Touring models have a 2-piece top clamp system that can create a safety problem when handlebars are used with internal wiring. A large wiring exit hole is required on handlebars designed for internal wiring. This design factor can create a stress riser or breakage point where the handlebar is weakest at a point where the leverage is greatest at the same time. Without the use of our Super Riser Clamp you have created a recipe for potential disaster! The one piece, solid carved from billet design of our clamp completely eliminates this stress area and makes the wire exit of the handlebar the strongest not the weakest point!

Last but not least, The Bagger Nation Super Riser Clamp and its 1-piece design with bar-locking set screws machined into the clamp will prevent inferior handlebars with poor knurling from slipping. Our Super Riser Clamp has a wire relief incorporated into its design specifically for internal wiring applications. The 1-piece design displaces pressure off of the center of the handlebar making the handlebar stronger and more secure. This becomes especially important when using 1" handlebar styles and internal wiring.

Application	WPS#	
Fits All Models w/1" Bars	827-05370	
Fits `15-Up FLTR Models	827-05371	

NEW! We now offer 2 sizes of The Bagger Nation Super Riser Clamp, our original 1" clamp and the new 1.25" clamp for 2015-Later Road Glides and other models using 1.25" handlebars.

The Super Riser Clamp is CNC machined in-house from 6061-T6 aircraft aluminum, and is the highest quality, problem solving, badass clamp available!

*Bagger Nation STRONGLY recommends installing our 1-piece Super Riser Clamp on 2007-Earlier HD Touring models. Failure to use a one piece clamp when installing Monkey Bars will VOID the Bagger Nation warranty.

चित्रदिक्षविका

WELD WING SUPER CLAMP

- The NEW Weld Wing No-Slip Super Clamp covers the unsightly welds and steps on 1.25" handlebars. Our "Super Clamp" design eliminates bar slippage and is an easy bolt-on application.
- The sport styling of the NEW Weld Wing No-Slip Super Clamp looks great on Dyna's FXR's and Sportsters! You can choose from three finishes: Chrome, black with accent cut or gold with accent cut.
- Our NEW Weld Wing No-Slip Super Clamp is Made in the U.S.A. right here in our shop!

OG SLIMS RISERS

Forbidden Motorcycles introduces their NEW OG Slims risers. Still sporting that no non-sense, aggressive look and feel, available in both 9" or 11" rise and your choice of black anodize or raw finish. The new OG's are made from super strong T6061 aluminum with the famous FM one piece top clamp for extreme stability. You asked and Forbidden listened, the OG's are now designed so you can run your favorite MX style bar with a 1" clamping area and OG's use the OEM bolt pattern on the top clamp so you can run the stock Dyna and Sportster gauge mounts.

Description	WPS#
FM Risers 9" Raw	825-05020

FM Risers 2" Raw	825-05035
FM Risers 2" Black	825-05036

HUD RISERS FOR STREET BOB MODELS

The newest addition to the Forbidden Motorcycles range of risers has the same trick look as the original risers but they accept the digital gauge that's on the new M8 Softail Street Bob. No need to relocate or find a different gauge option to get the classic Forbidden look on your new Street Bob. Of course they accept our 1-1/8" moto style bars!

Note: The 9" and 11" versions may require extending the gauge wiring harness. Gauge not included.

HANDLEBAR RISERS

anodized finishes. The top clamp is a one piece construction for extreme stability and

durability. The FM logo is machined into the T 6061 aluminum. The risers are pre-drilled for

internal wiring for a super clean assembly, we also offer FM moto bars by Fly Racing with 1"

ends for HD controls and pre-drilled holes for internal wiring to bolt directly onto these risers!

Forbidden Motorcycles risers feature a 1-1/8" clamping area for MX style bars. They come in 9" and 11" heights and raw or black

MOTO STYLE BARS WITH 1" ENDS

These moto style bars are designed by Forbidden Motorcycles and made by Fly Racing! They feature the moto typical 1-1/8" clamping area but taper down to 1" to accommodate stock Harley hand controls, eliminating the need to sleeve them. They are pre drilled for internal wiring, including the holes to run wires through the FM risers. Bars are 32" wide, pullback is 3" and rise is 2.5"

PROMOTIONAL REFERENCE

SMART GIMPS

No one knew the Gimps would eventually grow rounded corners! Check out the Smart Gimps, the newly designed Gimp Hanger, with a new flare to them. These gimps go off the same shape and feel you get with the traditional gimp hangers but they have rounded corners like an original ape hanger.

Description	Color	Tube Size	Height	Width	Pull Back	WPS #

EXHAUST **EL GR**

EL GRINGO BARS

Designed after the El Gringo bike, these one of a kind bars feature a welded cross bar and unique corners. These bars are sure to give your bike that one of a kind look you want.

Description	Color	Tube Size	Height	Width	Pull Back	WPS #
EL GRINGO BARS						
Dimpled `82-Up	Black	1"	4"	29"	5"	811-30016
	Chrome	1"	4"	29"	5"	811-30017

	Chrome	1"	4"	29"	5"	811-30037

DRAG BARS

Racer style Drag Bars with the look of our Gimp Hangers. These are TIG welded and made in the USA by Nash Motorcycle Company. Made from one inch steel tubing in black or chrome finish.

Description	Color	Tube Size	Height	Width	Pull Back	WPS #
DRAG BARS						
Dimpled `82-Up	Black	1"	4.5"	32"	2"	811-30012
	Chrome	1"	4.5"	32"	2"	811-30013
Non-Dimpled Pre-`82	Black	1"	4.5"	32"	2"	811-30032
	Chrome	1"	4.5"	32"	2"	811-30033

INTERNAL THROTTLE

Fully machined out of mild steel and covered with a black oxide coating to prevent rusting. Both bearings inside the throttle are stainless steel. Three features of our sticky throttle make it a cut above the rest, # 1 being the fact that it's made by Nash Motorcycle Company right here in the good Ol' USA. # 2 being the fact that there is no other throttle on the market that you can actually have cruise control with. This internal throttle can also be run without the cruise control option, by removing the nylon insert. # 3 ease of installation. Our throttle can be installed by anyone that has a saw and a couple Allen wrenches. Please read installation instructions for more details on how to install. The cable offered has a 83" overall length and 69" housing length for anything from drag bars to gimp hangers.

WPS #
811-30110
811-30111

HOOKED APE HANGERS

- Combine comfort with attitude
- Drilled for internal wiring
- Made with double wall construction
- Manufactured to make sure the inside corners are smooth so the electrical doesn't get hung up during installation
- Available in show Chrome or Satin black powder coat

RISERS

- Keg Risers are the perfect risers for Springer front ends! Stepped risers add a classic look to your chop.
- Machined from 6061 T6 aircraft grade billet aluminum.

Description	Black	Natural
Keg Risers	826-01120	826-01121
Step Risers 2"	826-01123	826-01122

TOP CLAMPS

- The Carbon Inlay series uses real carbon fiber inlay. Due to properties of carbon fiber, the laser cut edge is perfectly imperfect. Each top clamp is unique and exquisite. These top clamps are machined from aircraft grade 6061 T6 billet aluminum.
- They are a direct replacement for your stock top clamp and sport a clean aggressive look. Fit `74-later XL, FX, FXR, FX Dyna® and FX Softail® models that have no gauges attached to the top clamp. For use with 1.0" diameter handlebars.
- Machined from aircraft grade 6061 T6 billet aluminum

Description	Natural	Black
Knurled	826-01124	826-01125
Carbon Fiber	826-01126	826-01127
Hammered Copper	826-01128	826-01129

RISERS

- Available in Show Chrome or Gloss Black
- Machined Grooved Top Caps
- 1/2"-13 Mounting Bolts
- For 1" Handle Bars

2" Risers Black	820-1348B	
2" Risers Chrome	820-1348C	

826-01125

1.25" HANDLEBAR RISERS

Designed for handlebars with 1.25" clamping area (will not work with 1" clamping area)

· Billet aluminum chrome

- Come with upper clamps and necessary hardware
- Require 1/2"-13 coarse riser bolts

	Description	WPS#	
Α	Fat Bar chrome 5" tall risers w/ separate top clamp	820-54521	
	Fat Bar chrome 5" tall risers w/ 1 piece top clamp	820-54522	
В	Infinity Risers 1.5" tall risers w/ separate top clamp	820-54520	

PIVOTING HANDLEBAR RISERS

Rox unique patented riser design allows you to pivot the riser in the original clamps and pivot the bar orientation in the top clamps of the riser. This provides an incredible amount of bar positions for you to find the right height and pull-back for your riding position and stature. Rox Risers are incredibly universal with their 2 piece design; clamped into virtually any 1" diameter clamps and then reclamping the bar directly above that, on its original clamping area.

- · Available in chrome or anodized black
- Universal (2-piece) design attaches to nearly any bar or clamping area with a 1" diameter
- Chrome risers come standard with chrome bolt head buttons
- Re-routing of stock lines and cables or longer lines and cables may be necessary on certain bikes
- 2" center to center height, sold in pairs
- Made in the U.S.A.

Description	Black	Chrome
1" STEM CLAMI	P, 1" HANDLEBAR	
2" Rise	44-8460BK	44-8460C
3" Rise	44-8465BK	44-8465C
4" Rise	44-8464BK	44-8464C

Add some vintage look to your ride with modern duraluminum material and precision manufacturing with these West Eagle Old Style risers. Available in two distinct styles in gloss black powder coat or polished finish.

TOP CLAMPS

- These top clamps complement Wild 1 Chubby bars like no other riser and clamp combo
- Made in the USA with top quality materials
- Hidden hardware version available for the cleanest look
- Available in black or chrome finish
- Fit most HD and aftermarket risers with offset bolt pattern

	Description	Application	Chrome	Black	
A&B	Hidden hardware top clamp, smooth	Fits most HD's with offset bolt pattern	830-0535	830-0535B	
C&D	Hidden hardware top clamp, ball milled	Fits most HD's with offset bolt pattern	830-0536	830-0536B	
E&F	Smooth top clamp	Fits most HD's with offset bolt pattern	830-0505	830-0505B	
G&H	Ball milled top clamp	Fits most HD's with offset bolt pattern	830-0506	830-0506B	

SOLID RISER BUSHINGS

Solid riser bushing conversions eliminate flex in your handlebars often related to worn out rubber bushings. Made from stainless steel, 1/2"-13 x 1-3/4" riser bolts included. Will not fit Softail Deuce or Springer models.

DEUCE RISER ADAPTERS

• Use when removing stock Deuce risers and replacing with aftermarket.

Description	WPS#	
uce handlebar adapter kit, chrome	830-0805	

1.25" RISER ADAPTERS

• Use for models with factory 1 1/4" bars and risers when changing to aftermarket 1 1/4" bars like Wild 1 Chubby bars.

Description	Black	Chrome
1-1/4" Riser adapter	830-0806B	830-0806

HANDLEBAR ADAPTERS

For use with most aftermarket 1-1/4" handlebars with a clamping area that's 1" diameter, when installing on models with 1-1/4" risers with individual top clamps.

Description	WPS#
Handlebar Adapters (Two Sets Required Per Bar)	750-01214

RISER BUSHINGS

- Designed specifically for tall bars to reduce handlebar movement
- Complete kits with sleeves bushings and washers

Description	WP5#
Firm bushings for Softail, Dyna, Sporty	830-0802
Firm bushings for Touring models	830-0803

RISER BUSHINGS

- Manufactured with proprietary Hyer-Flex[™] Polyurethane
- Out Performs and outlasts OEM Rubber
- Comes in Stiff or Stock Soft
- Resists Oils and Chemicals
- Chrome or Zinc washers
- With or without sleeves

	Application	Description	WPS#
Α	Fit all Softails, Dynas and Sportsters `87-Up	Firm	770-4001
		Stock	770-4002
В		Firm w/Out Insert	770-4003
		Stock w/Out Insert	770-4004
	Fit Touring Models `87-Up	Firm w/Zinc Washers	770-4005
		Firm w/Chrome Washers	770-4006

THROTTLE BY WIRE BAR ENDS

- Convert any handlebar to throttle by wire
- Installation requires cutting and welding of handlebar
- Available in mild or stainless steel

Description	WPS#
Mild Steel	750-01234
Stainless Steel	750-01235

CUSTOM MIRRORS

- The latest mirror design from Paul is the uniquely styled Double Trouble mirror set. A contemporary profile mixed with nostalgic, graduated holes make these mirrors incredibly versatile for any Bagger.
- The Power Mirror sports an aggresive design that gives some serious attitude to your front end. You can carry the aggresive Wedgy styling througout your Bagger with our complete line of Wedgy accessories!
- Machined from 6061-T6 aluminum, then beautifully chrome plated or powder coated black. Includes 2 mirrors, 2 arms, hardware.
- Double Trouble Mirrors are 5.50" x 1.50"
- Power Mirrors are 5.75" x 1.75"

	Description	Black	Chrome
Α	Double Trouble	827-05090	827-05091
В	Power	827-05260	827-05261

BAGGA CHIPS

- If you want to change the fairing mounted mirrors on your Street Glide, the solution is here! Simply use a set of our Bagga Chips to cover the holes left in your inner fairing and add some cool style to your Bagger!
- Each set is machined from 6061-T6 aluminum and available in chrome or black accent finishes. Hardware and installation instructions included.

Application	Black	Chrome

ODI VANS-CULT GRIPS

Man, you need Vans®! Two Southern California originals have teamed up to create a modern-day classic design for your V-Twin Motorcycle. Designed by Cult, the Vans/Cult V-Twin Grips feature the classic Vans® wave sole pattern with a subtle domed center section for improved ergonomics and vibration dampening. Each pair are constructed in-house at ODI using our proprietary grip compounds for a consistent feel that provides exceptional control in all conditions.

- Available in 5 Colors: Black, Classic Orange, Gum Rubber, Ox Blood, Brown
- Both 1" and 7/8" Handlebar fitments available
- 125mm Length
- Sold In Pairs
- Proudly made in the USA by ODI
- Throttle sleeve required
- 7/8" grips have 1" throttle side, 1" grips have 1-1/8" throttle side ID

CUSTOM GRIPS

 Bagger Nation grips offer traditional styling with an aggressive punch in the face!

 Our grips are CNC machined from T-6061 aircraft aluminum, and they work great on all Fly-By-Wire models. The clutch side grip has our exclusive hidden double mounting system, which makes them safe and clean.

• Available in Chrome or Black accent finishes.

Description	Black	Chrome
Bullet	827-05140	827-05141
Speed Freak	827-05142	827-05143
Yafterburner	827-05144	827-05145

KNURLED GRIPS

These knurled grips are the pinnacle of grip and performance. Do you ride hard, wheelie from time to time, do the occasional hole-shot? If so, you need these grips. Aggressively knurled for maximum grip. Slight raised arc to fit perfectly in the palm of your hand. Plus, they look amazing!

Description	Finish	Cable Throttle	Throttle by Wire	
Knurled Grips	Natural	826-01070	826-01076	
	Black	826-01071	826-01077	
	Gold	826-01072	826-01078	
	Red	826-01074	826-01079	

LEATHER GRIPS

Your hands engage with your bike on a more personal and tactile level than the rest of your body. They control your bike. Shouldn't your grips be amazing?

Like the leather wrapped steering wheel of a premium automobile, our uniquely designed, precision crafted and hand stitched leather wrapped grips deliver an experience like no other.

First they are CNC machined from billet aircraft grade aluminum with a recessed knurled surface to ensure the leather will not slide or twist. The leather is laser cut to shape then the pattern embossed. Next the leather is dyed & airbrushed. Finally the grips & leather have bonding agent applied. The leather is glued and skillfully hand stitched around the grip.

V-CRUISER GRIPS

- V-Cruiser grips have a very traditional Harley look and feel
- · Made with Kraton rubber
- Feature a double leather grain texture in a soft but durable grip
- 6061 billet aluminum end caps and collars
- Fit '84-Up H-D models
- Inside length 5.10", OD 1.50"
- Sold in pairs.

Description	Chrome
V-Cruiser w/cable throttle	40-4362C
V-Cruiser w/fly-by-wire throttle	40-4363C

OLD SCHOOL GRIPS

- Made with Kraton rubber
- These "made to look old" grips will not dry and harden
- They will not stain your hands black and they look and feel great
- Fits H-D 1" bars
- Sold in pairs

	Description	WPS#	
Α	Soda Bottle	40-4366BK	
В	Waffle	40-4367	
C	Jack Hammer	40-4368	

AIR GEL GRIPS

- The new GEL grips are a very ergonomic grip
- Feature the softest rubber that Avon has used in a street bike grip
- The soft rubber has a unique dimple texture and tacky feel that helps reduces unwanted road and engine vibrations
- The new style grip is complimented by stylish, billet aluminum, triple chrome plated or black anodized end caps and collars

Description	Black	Chrome
Air Gel Grips w/cable throttle	40-4730BK	40-4730C
Air Gel Grips w/flv-bv-wire throttle	40-4731BK	40-4731C

- The Air-SS incorporates an air cushion system that will reduce some of the unwanted vibrations
- Same grippy texture as the original Air Cushion grip
- Available in triple chrome plated, or black anodized, billet aluminum ends
- · Also available in heated version
- Heated grips have 4 heat settings indicated by LED lights and include a switch
- Fit '84-Up H-D models
- Inside length 4.60", OD 1.50"
- Sold in pairs

UNIVERSAL THROTTLE KITS

Description	WPS#
32.5" Kit	70-12790
38.5" Kit	70-12791
42.5" Kit	70-12792
48.5" Kit	70-12793

 Perfect for installing a push-pull S&S Super E or G carburetor on 1981 and earlier models that used an OEM pull only throttle assembly on a 1" handlebar

- Designed to work with S&S Super E and Super G carbs using the butterfly bracket
- Cables included in the kit have 90 degree elbows
- Kits include a push/pull screw in style throttle assembly for use on 1" handle bars
- Cable lengths provided with each kit include the vinyl portion of the cable and the step cap into the carb, elbows are not included in lengths
- Throttle cables have 3.75" of free length, idle cables have 4" of free length

THROTTLE ASSEMBLIES

TC Bros. 1" throttles are the perfect solution for eliminating the bulky throttle/switch housings on custom Harley Davidson motorcycles. The billet aluminum grip tube is CNC machined with a knurled finish to accept a huge variety of aftermarket rubber grips. The unique housing design also accommodates nearly every stock or aftermarket Harley one piece style grip by simply installing in place of the included TC Bros. throttle tube. Each throttle includes a variety of HD style chrome plated ferrules (both threaded and snap lock style) to allow universal fitment of many years, makes, and models. These throttles are available in single or dual cable configurations in either a black anodized or hand polished finish.

Description	Polished	Black
Dual Cable	563-01570	563-01571
Single Cable	563-01572	563-01573

THROTTLE SLEEVES

- Available in single,dual and TBW set ups
- For 1" handle bars

Application	WPS#	
Single Cable	820-1719	
Dual Cable	820-1709	
Throttle By Wire	820-1718

RACE LEVERS

In our never ending pursuit of speed, Bagger Nation commissioned an independent aeronautical laboratory to determine wind drag on stock HD hand levers vs Paul's 40% lighter, graduated-hole style Racing Lever. Well, the data was astounding! Paul's new lever design not only increased stopping power by an amazing 20%, they also added 10mph to his top speed!

OK, that's a bunch of crap, but these are the coolest levers we've seen!

Our Bagger Nation Racing Levers are brilliantly chrome plated or black powder coated and machine accented to match factory controls.

When installing Bagger Nation Racing Levers, use your pin, roller and bushing from your stock levers (when applicable).

NOTES: Models with turn signals mounted to stock controls will require a turn signal relocation kit not supplied in this kit † Models w/ mechanical clutch

* Models w/ hydraulic clutch

LIGHT KITS FOR STAR SERIES HANDGUARDS

Maximize your visibility to approaching vehicles by adding PowerMadd's high powered Star Series LED Turn Signal Light Kit. Designed specifically for Harley Davidson motorcycles. Super bright amber and white LED light. The white LED light is a running light and turns off when the turn signals are active for better visibility. The turn signals operate in conjunction with your OE turn signals. Easy four wire installation (power, ground, left turn signal, right turn

VISION HANDGUARDS

The Vision Handguard is an innovative guard, fitted with adjustable LED lights (LED for low power consumption), giving you effective, additional light for extreme conditions. The handguard is mounted to the end of the bar and has an on/off switch, which can also be mounted on the handlebars. A great solution for an off road bike, atv, or dual road. Comes complete with a universal mount kit.

Color	WPS#	
Black	23677-00001	

HANDGUARDS

- Made of gel coated fiberglass, ready for paint
- Brackets and mounting hardware included
- May require relocation of turn signals on some models

Description	Application	WPS#
Hand Guards	`91-17 FXD, `82-94 FXR, `82-03 XL	750-01090
	`18-Up Softails	750-01091

HAND DEFLECTORS

- Hand Deflectors are an economical, easy-to-install solution for keeping your hands warm and dry
- Coupled with a windshield, Hand Deflectors protect your entire upper body from cold wind and rain
- Mounts easily and securely to bike's mirror mounts, yet allows plenty of room for brake/clutch lever movement
- Made from High Impact Acrylic, with mounting hardware in chromed steel and black powder coated steel

BLACK VINYL CLUTCH CABLES

- Uses precise OEM component dimensions
- Manufactured to meet or exceed OEM specifications
- Part number embossed on each cable
- OEM part number listed on each package
- Special nylon inner liner assures smooth operation
- Extra outer sleeve to protect cable
- Longitudinally-wound housing will not compress and feel mushy under heavy loads

BLACK VINYL SPEEDO CABLES

- Uses precise OEM component dimensions
- · Manufactured to meet or exceed OEM specifications
- Part number embossed on each cable
- OEM part number listed on each package
- Special nylon inner liner assures smooth operation
- Extra outer sleeve to protect cable
- Longitudinally-wound housing will not compress and feel mushy under heavy loads

ARMOR COAT CLUTCH CABLES

- Uses precise OEM component dimensions
- Manufactured to meet or exceed OEM specifications
- Part number embossed on each cable
- OEM part number listed on each package

- Special nylon inner liner assures smooth operation
- Extra outer sleeve to protect cable
- · Longitudinally-wound housing will not compress and feel mushy under heavy loads

Price list on pa	C	je 7	701

CLUTCH CABLE BRACKET

- · Chrome clutch cable bracket
- Replaces OEM 62576-65A

Description	WPS#
Fits FL Models `65-78 and FX Models `71-78	820-52267

UNIVERSAL WIRE STOP

For use with any control wire up to 2.5mm or 1/8" diameter.

Size	WPS#	
1/16"	12-3901	
1/8"	12-1902	

BRAKE AND CLUTCH CABLE FITTINGS

SOLD 10 per bag

Nipple type	Size	WPS#
Barrel	3/8" for 2mm wire	70-1002
Barrel	5/16" for 2mm wire	70-1003
Barrel	5/16" for 2.5mm wire	70-1009
Pear	(cable lower) for 2mm wire	70-1007
Pear	(cable lower) for 2.5mm wire	70-1008

CABLE ADJUSTERS

 $Mikuni\,cable\,adjuster\,with\,locknut\,for\,throttle\,cables.$ Screws into threaded carburetor caps. Replaces M21/14 & B30/247.

‡ Sold 10 per bag

Mid adjuster for 5mm

throttle housing

applications that have limited clearance above carburetor.

CONTROL WIRE

High quality steel wire, easy to solder.

Description	Length	WPS#	
FOR THROTTLE			
1mm 3/64" O.D.	100 Coil	12-3900	
1.5mm 1/16" O.D.	100 Coil	70-1100	
FOR CLUTCH & BRAKE			
2mm 5/64" O.D.	100 Coil	70-1101	
2.5mm 1/8" O.D.	100 Coil	70-1102	

CONTROL WIRE OUTER HOUSING

Made from rolled tempered wire, precision wound for correct inner clearance. Has nylon inner liner. Comes in a 50' coil.

١	Outer Housing	For wire size	Length	WPS#
	5mm	1.5mm	22"	12-3905
	5mm	1.5mm	60"	12-3907
	5mm	1.5mm	50'	70-1104

^{*}Will NOT fit wheels with perimeter style mounted rotors *Designed to fit wheels with HUB mounted rotors

BRAKE ROTORS

- · Polished stainless steel rotors
- '84-Up part numbers include reducer spacer for '84-99 applications
- Fit most OEM wheels and HardDrive wheels

REFERENCE INDEX

- Stainless steel rotors in both machined and mirror polished finished
- '84-Up part numbers include reducer spacer for '84-99 applications
- Rotors work with all styles of brake pads including Sintered
- Surface induction hardened with 12-14% more chrome for superior wear characteristics
- Made from 420 stainless steel and precision ground for trueness
- Drilled for better wet weather braking and heat dissipation

	11.5"	Machined	820-51271

HIGH CARBON STEEL PHOENIX ROTORS

Front Rotor

- High carbon steel offers a high coefficient with low wear character
- Lug-drive: Full floating design for predictable, repeatable hard stopping performance
- Fly cut for improved out gassing

- Crown-cut design offers increased cooling capacity while lowering the mass, making it almost half as light as a solid
- Work best with Gold Plus or Extreme Performance pads

BRAKE ROTOR HARDWARE

- Chrome plated hardware
- Made in the USA!

В

С

Е

F

	Description	Application	WPS#
Α	Front rotor screw kit chrome plated 8mm x 1.25 x 30mm torx	`14-Up Touring models (OEM# 41500020)	830-1107
В	Front rotor screw kit chrome plated button head torx	`06-Up Dyna w/ cast wheels (OEM# 3762M)	830-1105
C	Front rotor screw and nut kit chrome plated 5/16-7 x 7/8 torx bolts and lock nuts	`84-Up FXST and FXDWG	830-1115
D	Front rotor screw kit chrome plated 5/16-7 x 7/8 torx	`84-Up FX, FXR, XL, FLT/FLH w/ single disc (dual disc require 2 sets)	830-1114
Ε	Rear rotor screw kit chrome plated 3/8-16 x 1 button head torx bolts	`97-Up all models w/ rear spoke wheel (OEM# 43567-92)	830-1117
F	Rear rotor screw and nut kit chrome plated 3/8-16 x 1 torx bolts and lock nuts	`92-Up XL, FLT/FLH, FLST, FXD models (OEM# 43567-92)	830-1116

ROTOR BOLTS

- Made in the USA!
- Put the finishing touches on your custom rotor
- Choose from chrome plated Torx or Allen head bolts
- Will not fit models with perimiter mounted rotors such as '14-up Touring and '06-up Dyna with cast wheels

Description	Application	WPS#	
Front brake rotor chrome allen bolts	`84-Up Big Twin modes with laced wheels	830-1057

REFERENCE

- Optimum stopping power
- DuPont Carbon-Kevlar (organic)
- The most rotor friendly pad in the industry
- Produces no dust, no noise, while providing 20% more stopping torque than stock pads
- The service life generally averages about 18,000 miles
- Made in the USA

GOLD PLUS BRAKE PADS

- Gold Plus pads are a DuPont Carbon-Kevlar (Organic) compound
- High performance friction materials
- Extreme stopping power in both wet and dry conditions
- As close to a full race pad as you can get without it actually being a race pad
- We softened the compound to make it better for street riding while still providing premium stopping power
- The Gold Plus pads are ideal for heavy touring and hard stopping
- Produces no dust, no noise, and no rotor wear while providing 30% more stopping torque than stock pads
- The service life generally averages about 18,000 miles

EXTREME PERFORMANCE BRAKE PADS

- For use with Lyndall composite or steel rotors
- 40% more stopping power than stock brakes!
- No noise, no dust
- 15,000 service miles

FRONT STREET APPLICATIONS

EBC Brakes offer a full line of brake pads and brake shoes for most Harley- Davidson, street bikes, dirt bikes and ATVs.

BRAKE SHOES

Standard Shoes: FS rated, higher rating than O.E.M. shoes for better stopping

power.

Grooved Shoes: FG rated, high friction grooved linings, efficiency improves with

heat, for wet and muddy conditions. Listed with suffix G

BRAKE PADS - STREET

Black Coded: OEM replacement for Street Sport/Touring with Aramid fibre composite, the most popular pad for street use.

V series: Heavy duty organic/copper sintered material gives the feel of an organic pad with the wear characteristics

of a sintered pad. Great for larger touring bikes, offers stable braking with minimal pad/rotor wear and lower

brake dusting of wheels.

Double-H: High performance High friction super bike/race sintered formula. Double-H sintered pads offer the maximum

brake effect and a lifetime approximately double that of any organic pad.

Race inspired pads with a very exotic blend of sintered bronze including Tungsten and Moly metal to bring you the grippiest, most fade resistant pad we have ever tested.

REAR STREET APPLICATIONS

EBC Brakes offer a full line of brake pads and brake shoes for most street bikes, dirt bikes and ATVs.

BRAKE SHOES

Standard Shoes: FS rated, higher rating than O.E.M. shoes for better

stopping power.

Grooved Shoes: FG rated, high friction grooved linings, efficiency

improves with heat, for wet and muddy conditions.

Listed with suffix G

BRAKE PADS - STREET

Black Coded: OEM replacement for Street Sport/Touring with Aramid fibre composite, the most popular pad for street use. **V series:** Hi Performance Heavy duty organic/copper sintered material gives the feel of an organic pad with the wear

characteristics of a sintered pad. Great for larger touring bikes, offers stable braking with minimal pad/rotor

wear and lower brake dusting of wheels.

Double-H: High friction superbike/race sintered formula. Double-H sintered pads offer the maximum brake effect and a

lifetime approximately double that of any organic pad.

UNIVERSAL BRAKE LINES

Universal brake lines are the most efficient brake line solution for virtually all bikes. The lines come pre-assembled with -3 female swivels that mate with the accompanying universal fittings. Goodridge offers a variety of fitment options to match the appearance and geometry of any bike. Hoses are available in clear or black PVC coated stainless braided versions. Hardware is available in chrome or black zinc finish.

GOODRIDGE FLUID TRANSFER SYSTEMS

ABS TUBE ADAPTERS

These adapters are used when installing tall bars on 2014 and later Touring models. They can be combined with extended Highend upper brake lines, so there is no need to purchase a complete 3 line kit.

Description	WPS#
Master Cylinder to ABS Box `14-16 Models	817-02270
Tri Front Tube for Non-ABS `14-16 Models	817-02271

BRAKE LIGHT BANJOS

Goodridge brake light banjo bolts are banjo bolts with a built in pressure switch and are wired to adapt to virtually any model that utilizes a hydraulic stoplight system. Perfect for eliminating brake tees in HD rear brake line applications or converting Offroad bikes to street legal.

Description	WPS#	
3/8-24	817-02200	
10mm X 1.25	817-02201	
10mm X 1.00	817-02202	

SPEEDBLEEDERS

- Speedbleeder, the patented bleeder screw with the built in check valve
- To bleed the brakes, simply loosen each bleeder 1/4 turn and pump the lever
- When the job is completed re-tighten the bleeder and you're done!

	Description	Application	WPS#

SNIPER 2 BUILDERS KIT

- · Available in stainless steel or black finish
- Each kit contains multiples of all Sniper 2 components

Description	WPS#
Sniper 2 Builders Kit CLEAR	817-2300
Sniper 2 Builders Kit BLACK	817-2301

SNIPER 2 BRAKE LINES

Sniper 2 products are made to ride hard and excel in high performance applications. They are easily assembled without any specialty tools. Their micro size is ideal for routing through concealed areas such as forks, frames and handlebars. Available in clear or black PVC coated braided hose. Hardware is available in stainless steel or black. Complete Builders Kits are available on request.

REFERENCE INDEX

23" COMPOSITE FENDER

- Our front fenders perfectly follow the contour of your 23" inch front
- · Carbon composite fenders are constructed from a blend of composite materials with a layer of carbon fiber for fenders as strong as steel with less than half the weight.
- These fenders are an average of 8 lbs lighter than most similar steel fenders, saving weight and improving gas mileage.
- Ready to paint finish

Description	Application	WPS#	
Carbon Composite Fender for 23" Wheels	`14-Up Touring Models	820-80011	
	`87-13 Touring Models	820-80010	

FENDER ADAPTER BRACKETS

- Used to re-position the front fender on '14-Up FLT models to allow the use of a 21" front wheel
- Jig-drilled for the perfect fit and simple bolt-on installation
- · Steel with a powder-coated finish
- Sold in pairs

Description	Application	WPS#	
•			
er Brackets for 21" Wheels	`14-LIn Touring Models	820-80005	

Check out our Solid Steel DEI Fender! The DEI fender has been a best seller for years, and this classic west coast styled fender is the perfect complement to any Bagger. The "OEM" version means that we've created an all new shape that fits like a glove on your stock front wheel and tire! Whether you run a 16",17" 18" or 19" front wheel our OEM will fit your application perfectly.

Paul created all new tooling for our OEM steel front fenders that allows them to be "deepdrawn" from one indestructible piece of 14-gauge steel! Each stamped fender is then precision laser-cut for perfect symmetry.

We've even drilled the mounting holes so you won't have to touch a tool when you choose our fenders! No spinning, no welding, no seams or grooves that need to be body worked! Each fender is meticulously E-Coated so you can rest assured your fender will arrive corrosion free and remain corrosion free.

These fenders are perfect... seriously, they are perfect! You can pull them right out of the box, scuff them, paint them, and mount them! No drilling, no shaping of any kind is required. Your painter will love us...and you will too!

TALON FENDERS

Add instant attitude to your Bagger with the latest addition to our front fender line. The Solid Steel Talon Fender is an aggressive and radically styled fender featuring a swooping claw-like design that draws your eyes right to the points! The edgy Talon Fender will set your bike apart from the crowd!

Paul created all new tooling for our steel front fenders that allows them to be "deep-drawn" from one indestructible piece of 14-gauge steel! Each stamped fender is then precision lasercut for perfect symmetry.

We've even drilled the mounting holes so you won't have to touch a tool when you choose our fenders! No spinning, no welding, no seams or grooves that need to be body worked! SMOOTH FENDER SPACERS 49MM

The 49mm FLH "SMOOTH" fender spacers have a 2-bolt pattern for a smoother custom look.

Description	Thickness	Chrome	Black
Fender Spacers	7/16"	811-20064	811-20067
	5/8"	811-20065	811-20068
	7/8"	811-20066	811-20069

FENDER SPACERS 41MM

These FLH billet fender spacers are designed to work with Arlen Ness "Hot Legs" billet lower legs, American Suspension "Bagger Legs" billet lower legs, or stock Harley Davidson 41MM FLH & FLT lower legs, not FX or XL legs. The 1-1/4" thick fender spacers can be used with a 6-3/8" wide custom front fender. The 1.0" thick fender spacers can be used with a 6" wide custom front fender. The 0.8125" thick fender spacers can be used with a 5-1/2" wide custom front fender.

Description	Thickness	Chrome	Black
Fender Spacers	0.8125"	811-20050	811-20053
	1"	811-20051	811-20054
	1-1/4"	811-20052	811-20055

SMOOTH FENDER SPACERS 41MM

FLH fender spacers fit H-D FLH & FLT 41mm fork legs. The bolt spacing is 3.0" on these spacers & they are radiused to clear the fork leg. These fender spacers are machined from 6061 T-6 Billet Aluminum and brilliantly Black Anodized or Chrome Plated.

NOTE: For use with a 5-1/2" wide custom fender on OEM FLH or FLT 41mm fork legs.

Description	Chrome	Black
Fender Spacers	811-20056	811-20057

DYNA FENDER KITS

Turn your Dyna into a bobber or just show off some more of that rear tire with one of these custom rear fender kits.

- Made from gel coated fiberglass
- Turn signal and taillight relocation may be required, we recommend a side mount taillight
- Glide style fender works well with chopped fender taillights (# 750-01280 thru 750-01282)
- Requires a custom solo seat (not included)
- Check fitment and tire clearances before paint and final installation

	Application	Description	WPS#	
Α	Dyna Models `06-17	Bobber Style Rear Fender Kit	750-01071	Ī
В		Short Fat Bob Rear Fender Kit	750-01072	
C		Glide Rear Fender Kit	750-01086	

STILETTO SOFTAIL FENDER KIT

The ultimate short fender kit for Softails. Show off that rear tire and give your bike some attitude!

- Struts and fender are made from steel (unpainted)
- OEM taillight and turn signals will not work with this kit
- · We recommend using a side mount taillight
- ECM mounting bracket included
- Will not fit Rocker models

Application

Softail Models `08-17 w/200mm rear tire Stiletto Rear Fender Kit **750-01070**

FENDER STRUT KIT

- Universal fender strut kit for choppers and bobbers
- Kit includes: 4 CNC Machined steel bungs with 3/8-16 threaded hole and two 12" long 1/2" diameter steel rods
- Everything is made from 1018 mild steel for easy welding!
- Threaded bungs can be used to mount fenders, tanks, and virtually anything that you want to bolt to your frame
- 1.75" Overall Length
- Includes Bolts and Rubber Washers to protect your paint
- Sold in quantities of 4

	Description	WPS#
Α	Universal Fender Strut Kit	563-01151
В	Threaded Bungs	563-01150

NEW

Everyone knows that Paul Yaffe's Bagger Nation makes the coolest stretched tank kits in the industry! All steel, direct bolt-on and

perfectly proportioned. Well guess what? Paul took it to the next level! Check out the Razorback™ Stretched Tank! This super sexy, deep drawn, all steel stretched tank is the ultimate complement to your custom Bagger project! The Razorback Tank flows seamlessly from front to back, and the stretched wings flow right into the side covers! The uninterrupted line allows your eyes to roll along the sexy profile.

The Razorback ™ Stretched Tank is a direct bolt-on replacement steel tank and requires NO modifications! No gluing, no taping, no nothing! No plastic here, baby, just steel...real steel!

Each 6.5 gallon Razorback[™] Tank kit is hand crafted and pressure tested twice at the factory. Each Razorback[™] Tank comes complete with tank, steel dash, chrome pop-up cap, rubber dash trim and hardware.

- Go with the flow of the Razorback™ Stretched Tank!
- Fits all H-D Touring models 2010 and later.
- Custom seat required and sold separately.
- US Patent D737,192

Application	WPS#
Fits `10-Up FLH/FLT Models	827-05580

Bagger Nation strongly recommends getting your Razorback™ Stretched Tank nickel plated as a corrosion control measure internally and externally. Bagger Nation is not responsible for any oxidation damage due to the non-use or improper application of corrosion control products.

An alternative to nickel plating is using Red-Kote® Fuel Tank Liner for corrosion control inside the Razorback™ Stretched Tank. Bagger Nation is not responsible for any oxidation damage due to improper application of Red-Kote®. Red-Kote® is available for purchase online but can only be shipped to the contiguous United States and Canada (ground only).

STEEL DASH

Our Clean And Simple Steel Dash design looks great on the 2008-later 6-gallon H-D tanks! When the late model H-D Touring gas tank got bigger, so did the OEM dash. This gave Paul the perfect opportunity to create a sleek, custom low- profile dash for your late model tank application! Our steel Clean and Simple dash will bolt right on to your 6 gallon tank.

The dash is a simple, direct bolt on application to your stock tank and really creates a sexy look to your tank area!

Our Clean and Simple dash kit includes: (1) Steel dash, a chrome pop-up gas cap, rubber trim, hardware and simple installation instructions. Each dash kit is available brilliantly chrome plated, flawlessly gloss black powder coated or simply raw for custom match paint applications.

Application	Finish	WPS#
Fits `08-18 FLH/FLT	Gloss Black	827-05045

Tank measures approximately 17" L x 11.5" W & 2"
 W tunnel

 3.3 Gal capacity, fitted center right hand 3/8" NPT gas outlet with 2 x 1/4" cross over outlets one either side at rear, allows for multiple choice routing of fuel lines

Application	Description	WPS#
Custom Applications	Ribbed Mustang Tank, Screw Bung	820-52200
	Ribbed Mustang Tank, Cam Style Bung	820-52201
	Ribbed Mustang Tank, Pop-Up Cap	820-52202

GAS TANK PARTS

- Want a sight gauge on your gas or oil tank but don't want bulky lines and fittings hanging off the side? TC Bros. has the solution! Crystal clear glass viewing lens sealed tight into a CNC machined brass housing. Also included is a forged 3/4" NPT mild steel bung for easy welding. Proudly made in the USA!
- Aluminum filler cap for oil tanks (unvented). Standard 1 5/16"-12 thread fits many chopper oil tanks. CNC Machined From 6061 Billet Aluminum with a leak free O-ring seal. Cap is knurled for extra grip and features a dome top contour for classic looks. Proudly made in the USA!

	Description	WPS#
Α	Sight Glass Kit	563-01822
В	Aluminum Filler Cap (unvented)	563-01823
C	Aluminum Filler Cap w/Weld in Bung	563-01824

HAND SHIFT TANKS

A reproduction of the long unavailable hand shift style 3.5 gallon tank set as used on the 1947 thru 1965 Big Twins. This reproduction takes original rod type shut-off valve, cam style gas caps, cross over gas line and is designed to accept the 1947 thru 1965 shifter guide. Measurement may slightly vary from OEM tank.

Application	Description	WPS#
`47-65 Big Twins	3.5 Gal, Rod Style Shut Off Valve	820-52203
	3.5 Gal, `75-Up Style Petcock Bung	820-52204

FAT BOB TANKS

Reproductions of the classic Fat Bob gas tank. Mounting is made to OEM specifications for a perfect fit on stock Harley 4 Speed Big Twin frames thru 1984 (except Softails). Also fits custom rigid and swing arm frames. Each tank is made to accept either the FX style dual instrument dash or the FL-FXWG style large speedo dash. Available in 3.5 gallon and 5 gallon. Tank accepts OEM or after market gas caps and fuel valve.

Application	Description	WPS#
4-Speed Big Twins to `84 (except Softails)	3.5 Gal, Cam Style Bungs	820-52205
	3.5 Gal, Screw Style Bungs	820-52207
	5 Gal, Cam Style Bungs	820-52206
	5 Gal, Screw Style Bungs	820-52208

FLAT SIDE TANKS

These tank sets are a duplication of the late style "Flatside" tank sets. They fit FXST models 1984 thru 1999 and are available with two versions of tank caps such as OEM style cam lock gas cap and Screw-In bung. Can be used for crash repairs or any other Custom application. Available in a 3.5 and a 5 gallon capacity. Accepts most FL, FXWG and FXST style dashes

Application	Description	WPS#
`84-99 Softails	3.5 Gal, Screw Style Bungs	820-52209
	5 Gal, Screw Style Bungs	820-52210

SOFTAIL TANKS

Gas tanks with dash mount for Twin Cam Softail models. Can be used with the stock or stock style seats. Made from heavy gauge steel for years of leak and trouble free riding. Tanks are available for use with OEM style Screw-In gas caps and the gauge equipped OEM left side cap. Available for carburetor and EFI models. Tanks take approx. 5.1 gallon.

Application	Description	WPS#
`00-07 Softails	5 Gal Tank for Carb Models	820-52211
	5 Gal Tank for EFI Models	820-52212
EFI Tanks	Block off kit for fuel gauge bung	820-52227

SLIM LINE LEGACY GAS TANK

- These new Slim-line Legacy gas tanks have been narrowed & tapered for a great new custom look
- Available with screw-in style center bung position
- Holds approx 2.75 Gal
- Old school rubber knee pad kits also available, sold separately

Application	Description	WPS#
`83-03 Sportster models	Comes with twin petcocks and chrome block-off nut. Replaces stock tanks 61023-93 and 61348-96A	820-52220
`04-06 Sportster models	Replaces stock tank 61348-04 with single LH petcock	820-52224
Legacy EFI Tank Screw in Style	Uses `07-Up OEM Sporster Fuel Pump	820-52114
Legacy EFI Lynx Style	Uses `07-Up OEM Sportster Fuel Pump	820-52115
Custom applications	Comes with 3 piece weld-on mounting bracket and bushing kit	820-52222
Legacy Tanks	Black rubber knee pad kit sold in pairs	820-52225

XL EFI TANKS

Peanut style tanks to fit 2004 to present stock Sportster frames. Fuel capacity is approximately 3.9 gallon. Available complete with your choice of stock style screw bung or pop-up style gas cap (included). Tanks are approximately 19" long, 11" wide, and 8" high.

Application	Description	WPS#
`04-06 XL Models	3.3 Gal. Pop-Up Cap	820-52215
`07-Up XL Models	3.3 Gal. Stock Screw Style Cap	820-52216
`07-Up EFI XL Models	3.3 Gal. Stock Screw Style Cap	820-52112
Custom Application EFI	3.3 Gal. Stock Screw Style Cap w/Weld on Brackets	820-52113
`07-Up EFI XL Models	Dished Tank 3.3 Gal. Stock Screw Style Cap	820-52116

XL RUBBER MOUNTED TANKS

This upgraded stock style Peanut Sportster gas tank features rubber mounting. Rubber mounts isolate the tank from engine vibration and prevent cracking of the welds. This is a great improvement over the OE tank. Tank holds approximately 2.25 gallons and is available with a screw-in type bung, gas cap not included.

Application	Description	WPS#
`83-94 XL Models	2.25 Gal	820-52213
`95-03 XL Models	2.25 Gal	820-52214

XL KING TANKS

King Size tanks for Sportster models have been a popular choice of Custom bike builders for many years. Will bolt to the Stock frame mounts on all '79-03 Sportsters. Has a larger than stock fuel capacity for extra mileage. Holds approximately 3.1 gallons. The '79-81 version accepts cam style gas caps while the later versions have screw style bungs. Gas caps sold separately.

Application	Description	WPS#
`79-81 XL Models	3.1 Gal	820-52217
`82-94 XL Models	3.1 Gal	820-52218
`95-03 XL Models	3.1 Gal	820-52219

DISHED TANKS MADE IN THE

These single cap tanks have the late stock-style screw-in filler necks, and have 22mm petcock bungs on the 1995 thru 2006 tanks. Re-use your OEM fuel pump assembly on the 2007–up tanks

	Description	Application	WPS #

TANK MOUNT KITS

- Our quick mount kit for Fat Bob tanks (820-52260) is a precise way to mount the OEM or aftermarket Fat Bob tanks to custom or original frames that have the OEM mounting tabs removed. Allows you to locate the bracket for a visual check of the tank location on the frame and once the position is selected the whole bracket set can be welded in place
- Our front bottom mount (820-52262) is an exact reproduction of the lower bracket as featured on the 4-speed frames thru 1984. Easy to weld on and can be adapted to many custom frames
- Our Flat-Side tank mounting kit (820-52265) makes it possible to mount the late style Flat-Side gas tank on your early style 4-speed Big Twin frame
- Our Flat-Side tank mount kit (820-52266) can be used to update your existing Flat-Side tank mounts, or for use on newly constructed vehicles instead of purchasing the original parts. The beveled washers and mounting screws are chromeplated. Fits '84-99 Softail, and all other models with split tanks from '85-99.

Saddlebag Speaker Lids	Fit Touring Models `14-UP	820-55430
	Fit Touring Models `94-13	820-55431

SADDLEBAG SKID PLATES

Avoid those embarrassing skid marks by adding a set of our Bagger Nation Skid Plates to your Bagger Nation Swoop, Chupa or Super Stretch saddlebags! Our easy-to-install plates are precision laser cut from stainless steel and then die bent and high polished for a perfect fit and look. They will protect your valuable custom paint job from getting edge and corner scratches from extreme lean angles, high driveways, speed bumps or whatever unavoidable obstacles you may encounter.

Our high quality Skid Plates are sold in pairs and simply attach with 3M super double-sided tape.

Application	WPS#	
Universal	827-05310	

REAR SADDLEBAG BRACKETS

- Thicker material than stock saddlebag brackets

AMERICAN V-TWIN PRODUCTS

SADDLEBAG LATCH KIT **`14-UP TOURING MODELS**

- This kit is a direct OE replacement for saddlebag lids
- Great for custom saddlebags

· Comes with all necessary tethers, hardware, seals, and hinges

• Includes a saddlebag lockset & keys

SADDLEBAG LATCH COVERS

- CNC Machined from billet aluminum
- · Radium are made from aluminum die-cast and beautifully finished
- Available in chrome plated or black with machined accents
- 2014-Up Touring models
- Sold in pairs

	Description	Chrome	Black
Α	Machined Finish	820-55300	820-55301
R	Radium Smooth Finish	820-54667	

SADDLEBAG LATCH COVERS

- 1-piece design
- CNC machined from solid billet aluminum
- Sold in pairs
- Includes all necessary mounting hardware

Application	Description	Chrome	Black
Fit `93-13 Touring Models w/Hard Bags	Smooth	812-02030	812-02031
	Milled	812-02032	812-02033

SADDLEBAG LATCH INSERTS

Saddlebag latch cover Inserts for 2014-Up FLH's. These inserts replace the factory reflector and really clean up the stock latch cover. They are machined from 6061 T6 billet aluminum. They are available in a chrome plated finish and "Night Series", brilliantly black anodized, then areas are machined again for a contrast of black anodized & a raw aluminum finish. Sold in pairs.

		Description	Chrome	Black	
ľ	Α	Speed Ball Insert	811-20030	811-20031	
	В	Velocity Insert	811-20032	811-20033	

SADDLEBAG LATCH COVERS

These latch covers replace the boring factory cover, they have a sleek hole feature leading to the lock cylinder between two raised islands. Machined from 6061 T6 billet aluminum with a brilliant chrome plated or black anodized finish. Installs quickly with OEM hardware. (Sold in pairs.)

Description	Chrome	Black
Drilled Latch Covers `93-13	811-20034	811-20035

SADDLEBAG KNOBS

These saddlebag lid knurled knobs replace the OEM # 90200902 & 90200903 levers on a 2014-Up FLH. They really clean up the look of the saddlebag lid. The knobs are machined from 6061 T6 billet aluminum. Available in a chrome plated finish or black anodized with machined accents.

Application	Chrome	Black
Fit `14-Up Touring Models	811-20180	811-20181

TIRE ACCESSORIES

Introducing the Bagger Nation Speed Freak Saddlebag "Lid Lifters" TM. We lent our classic styling cues to the bag opening levers and holy smokes do they look trick!

"Lid Lifters"TM are available brilliantly chrome plated or black anodized and accent cut. Each Lid LifterTM set is CNC machined from 6061-T6 aluminum. Our innovative installation cams are patent pending.

*Lid Lifters will not work with CVO and Boom Audio applications.

Sold in pairs. Hardware and instructions included. Simple bolt-on installation.

Application	Black	Chrome
FITS `14-UP	FLH/FLT	
Race	827-05200	827-05201
Speed Freak	827-05202	827-05203
Yafterburner	827-05204	827-05205

SADDLEBAG LATCH COVERS

Need to spice up your factory saddlebag latches with something cool? Our Bagger Nation Saddlebag Latches add serious flavor to your Bagger!

Yaffe Saddlebag Latches fit 2013-Earlier HD Touring models. There are no modifications required and our Latches are a direct bolt-on application. Of course, we hid the mounting hardware for that clean Bagger Nation look!

Our latches are CNC machined from T-6061 aircraft aluminum. We make them available in a brilliant chrome finish or powder coated in a deep, rich black then accent-cut to bring forward the underlying metal.

Outfit your Bagger, front to back, with our complete line of Yafterburner or Speed Freak products- Grips, Ignition Switch Covers, Turn Signal Eliminators, Slider Covers, Yaxle Covers, Shift Pegs, Shift Link, Brake Lever Covers, Passenger Pegs, Lid Lifters, Saddlebag Latches and Covers and Exhaust Tips.

Application	Black	Chrome
FITS `14-UP F	LH/FLT	
Speed Freak	827-05300	827-05301

IGNITION SWITCH COVERS

Paul continues to create innovative products to stylize your Bagger. Check out our Yafterburner and Speed Freak Ignition Switch Cover!

Our Ignition Switch Cover is available for model years 2006-Up and is easy to install. Our Yafterburner and Speed Freak styles create a killer contrast look that defines your unique Bagger. First, they are CNC machined from T-6061 aircraft aluminum. We make them available in a brilliant chrome finish, or powdercoated in a deep, rich black - then accent-cut to bring forward the underlying metal.

C	Lower Door Cup Holder	980-01072
D	Lower Door Challenge Coin Holder Chrome	980-01073
Ε	Lower Door Challenge Coin Holder Black	980-01074

CAST FENDER TIPS

- Cast in the traditional method by hand, not just a stamped sheet like the other guys
- An economical way to add shine and a custom touch
- Installation is determined by best styling, fit and material of stock fender; depending on model, application will include countersunk outside screws or concealed screw mounts
- Many models available including 2-piece front fender kits and rear fender applications

See page 780 for applications.

CHROME SPEEDOMETER COWL

- No more trouble seeing instruments in bright sunlight or having the backlit readout reflect on windshields at night
- Cast metal, not stamped, with quality polished chrome
- Stylish and functional
- Secure 3M® industrial tape mounting
- Fits all standard Harley-Davidson® tank console speedometers

See page 780 for applications.

RIGID FRAMES

Standard width rigid frames. They can be combined with a variety of drivetrains, including Shovelhead and Evolution engines, and most transmission combinations. Straight Leg or the timeless Wishbone frame styles with OEM-style necks, with or without tank mounts for pre–1984 Fat Bob gas tanks. These frames are not stock replacement frames, we recommend pre-fitting parts before painting.

All frames have 0° stretch up and out, neck rake is 30°

	Description	Application	WPS #	
	Wishbone Frame	Without Fat Bob Tank Mounts	830-4000

OIL TANKS

830-3700 - when used with an FXE battery, will fit rigid and 1958-1964 swingarm frames, and will also clear 1979-up 4-speed transmissions. The tanks measure 55/8"-tall x 85/8"-deep x 121/4"wide, and the battery compartment is 7½"-wide x 51/8"-deep.

B. 830-3701 - for 1965-1986 FL and FX 4-speed models, that provide easy access to the battery, and bolt to the stock mounts. Each tank includes a two-piece front bracket for easy installation, and measures 59/16"-tall x 71/2"-deep x 12"-wide. The battery compartment is 73/8"-wide x 41/8"-deep.

C. Both tanks require the purchase of drain plug 830-3702. Oil tanks come with filler plug and fittings as shown.

	Description	Application	WPS #
Α	3.5 Qt Custom Oil Tank	Fits `65-86 FL/FX 4-Spd Frames	830-3700

UNIVERSAL HARDTAIL KIT

TC Bros. Choppers USA Made Universal Hardtail Kit. The CNC Mandrel Bent Tubing is 1 1/8" Diameter Steel with .120 (about 1/8" wall thickness. The axle plates are CNC laser cut from 3/8" thick steel and have an integrated mounting tab for easy fender mounting. The axle slots are 20mm (.787"). In addition to the cross tubes offered, we also include solid cold rolled steel slugs that fit tightly into the inner diameter of the tubing for joining the hard tail to the stock frame tubes. You can determine stretch, ground clearance, width, etc. Fitment possibilities are nearly endless. Remember that since this kit is universal, you will be responsible for modifying your frame and making this kit fit and function properly. All modification is done at your own risk.

Description	WPS#	
ersal Weld-on Hardtail Kit	563-01810	

ELECTRONICS BOX

TC Bros. Choppers USA Made Custom Chopper/Bobber Battery Box and electronics box that looks like a round oil tank. The electronics box is 4.5" diameter and has removable caps for hiding all of your wiring and ignition components while still having access to them. Mounts are already TIG welded in for you and mounting bolts are included. Kit is raw finish steel and ready to paint. Mounting straps for both the battery box and electronics box are included and ready to bolt or weld on. Battery box fits a 12N14 type battery perfectly. Can fit many models and applications! Battery Box dimensions: 4-1/4" W, 5-1/2" H and 5-7/8" L. Electronics Tank(fake oil tank) dimensions: 4 1/2" diameter x 8" long with caps installed.

	Description	WPS#
Α	Electronics Tank	563-01800
В	Battery Box/Electronics Tank	563-01801

BATTERY HOLEY BOX

TC Bros. Holey battery boxes come in two sizes for YTX14AH, 12N14 or YTX20, YB16 series batteries. Inside dimensions of small battery box are 3.75in wide x 5.5in long. Inside dimensions of large battery box are 4in wide x 7in long. Proudly made in the USA! Includes stainless mounting hardware and rubber cushion to isolate battery from vibration.

3	Battery Box Large	563-01821

563-02011

RUBBER MOUNTING **TABS**

- TC Bros. Choppers universal fit, weld-on rubber mounting tabs are CNC laser cut from 1/4" thick American made mild steel for easy welding.
- The CNC machined, 6061 aluminum tophat style spacer and military spec rubber grommet perform under the most demanding rigid frame applications. Included 5/16"-18 x 1" stainless steel button head mounting bolt looks great and is very corrosion resistant.
- These tabs save you a lot of time on your build and provide you with professional quality results. Perfect for mounting oil tanks, gas tanks, or any other component that can be easily damaged by excessive vibration. Sold individually.
- · Proudly made in the USA.

Description	WPS#

Triangular Rubber Mounting Tab	563-02012	
Tank Mounting Kit	563-02013	

TOPHAT & COUNTERBORE STYLE BUNGS

- · Save time and create a super strong mount for just about anything on your bike using these bungs. Proudly made in the USA from premium American 1018 cold rolled steel for easy welding. Counterbored bungs fit standard socket head bolts so that the head of the bolt is flush inside the bung for a clean looking installation. Pair these bungs with any of our matching threaded bungs and you have a professional quality mounting solution.
- Tophat style blind threaded hole bungs are perfect for mounting gas tanks, oil tanks, or any other item requiring a leak free mount. These bungs install easily by inserting into a hole and welding around the flange. See photos for all dimensions.

RISERLESS HANDLEBAR **BUNGS**

- These bungs are perfect for building custom riser-less handlebars. Proudly made in the USA from premium American 1018 cold rolled steel for easy welding.
- The internal riser bungs are designed to fit inside 1" outer diameter steel tubing with a maximum wall thickness of .120" (11 gauge). A machined chamfer allows for proper weld penetration. The 1" diameter is a perfect match to your tubing and the 1-1/4" overall length allows for sufficient thread engagement. The coped end bungs fit perfectly to 1" diameter tubing and the 1" length from edge of cope to flat face provides 1" of rise once welded to your handlebar.
- These bungs feature 1/2-13 internal threads for mounting to Harley Davidson® style triple trees. Your handlebar mounting bolts pass through the bottom of the triple trees and thread into these bungs for a much cleaner installation as compared to traditional clamp style risers. See photos for all dimensions.

Description	QTY	WPS#
Coped Handlebar Riser Bungs	Pair	563-02050
Internal Riser Bungs	Pair	563-02051

NPT PETCOCK BUNGS

These NPT (National Pipe Thread) bungs are most commonly used for gas tank petcock bungs or for oil tank fittings. Proudly made in the USA from premium American 1018 cold rolled steel for easy welding. Note: NPT threads are tapered. They are only designed to be used with corresponding NPT threaded fittings or pipe. The tapered design allows the threads to create a leak proof seal when tightened. They are not to be used with standard bolts or hardware. These bungs install easily by inserting into a 3/4" diameter hole and welding around the 1" diameter flange. See photos for all dimensions.

Description	QTY	WPS#	
1/8" NPT Weld In Bungs	Pair	563-02052

WELD ON BRAKE STAY

TC Bros. Choppers universal fit, weld-on brake stay mounting tabs are CNC laser cut from 1/4" thick American made mild steel for easy welding. Vintage style curves and contours provide eye appeal while the 3/8" diameter hole makes for easy attachment of your brake anchor rod end.

Description	QTY	WPS#	
Brake Stay	Each	563-02014	

IGNITION SWITCH TABS

TC Bros. Choppers universal fit, ignition switch mounting tabs are CNC laser cut from 12 gauge (.105" thick) American made mild steel. Vintage style curves and contours provide eye appeal while saving you serious time on your build. Most ignition switches require a "D" shaped installation hole to prevent rotation while turning the key. These tabs have the proper shaped hole to fit most ignition switches with 3/4" or 13/16" diameter threads. The bolt-on ignition switch mounting tabs come with a durable black powdercoat finish.

	Description	WPS#
Α	3/4" Ignition Switch Mounting Tab, Weld On	563-02020
В	13/16" Ignition Switch Mounting Tab, Weld On	563-02021
С	3/4" Ignition Switch Mounting Tab, Bolt On	563-02022
D	13/16" Ignition Switch Mounting Tab, Bolt On	563-02023

WELD ON REAR FENDER MOUNT

TC Bros. Choppers universal fit, weld-on fender mounting bracket is constructed from a single piece of 1/4" thick American made mild steel for easy welding. Vintage style curves and contours provide eye appeal while the 5/16" diameter mounting holes make for a simple installation. Leather washers are provided to prevent paint damage and provide vibration resistance. This fender bracket is most commonly used to mount flat profile fenders (4.5" minimum width) to a frame cross member. The straight portion of the bracket is easily trimmed to length to fit your application.

	Description	QTY	WPS#	
Weld	On Rear Fender Mount	Each	563-02030	

AXLE PLATES

TC Bros. Universal hardtail axle plates with 3/4" or 1" slots. They are cut from 3/8" thick steel and have an integrated fender mounting tab. Perfect for people building hardtails who have access to tubing, but can't get axle plates made.

Description	QTY	WPS#

The super slick Swoop Chin Scoop is a direct bolt-on, 5 minute install and makes quick, slick work out of hiding the radiator on H-D's new 2017-later Milwaukee 8 models!

It features a hand-formed aluminum perforated grill that can be optionally glued in after paint. The Scoop looks awesome painted in a high gloss black as a really nice accent on your stock S model custom, or as a radical accent on your current custom project. It bolts directly on a stock touring model with literally NO modifications needed.

Each scoop is hand made from our exclusive 3-D composite process which creates the slickest and straightest products available with the un-paralleled quality you expect from Bagger Nation. Simple instructions and all required hardware are included.

Application	WPS#
Fits `17-Up FLH/FLT	827-05320
Adapter for `09-16	827-05321

TIE-DOWN BRACKETS

Introducing our Touchless Tie-Down Anchor System! A simple yet strong steel bracket that mounts almost invisibly at the front tank tab. It allows you to attach a strap right to the bracket therefore eliminating the need loop tie-downs through your frame, triple trees or handlebars. Now you can secure your bike in your trailer without any part of the strap threatening your killer paint job or shiny chrome! The often included contortion act of looping your tie-downs in tight trailer spaces is eliminated too!

Our Touchless Tie-Down Anchor Systems come in a deep black powder coat finish and virtually disappear against the factory black frame of your Bagger.

Touchless Tie-Down Anchor Systems are super easy to mount in a couple minutes and grade #9 installation hardware is included.

Application	WPS#	
Fits Most FLH/FLT Models	827-05404

FRONT MUD GUARDS

If you don't run a front fender and have ever been caught in the rain you will appreciate these gadgets. These mud guards are made from heavy duty nylon. They easily attach to your front forks when needed and roll up into a small, easy to carry bundle when not needed. Ideal to keep water and other road grime from splashing up into your face. Available for 39mm front ends and stock type springers.

	Description	WPS#
Α	Front Mudguard 39mm Forks	750-01030

FUEL SLING WITH BOTTLE

Tired of running out of fuel with nothing left but your legs to get you where you need to go? NMC's new fuel sling holds an extra quarter gallon of fuel to give you that extra boost in desperate riding situations. The 33 fl.oz. fuel bottle will give you an average of 10 miles extra riding time, and 10 less miles you have to walk or ditch your bike on the side of the road. The fuel sling is hand made out of high grade American leather, will fit just about any application with easy adjustable straps, brass hardware, and quick snaps on top and bottom so you can slide the bottle out quickly and get back on the road. The aluminum bottle is included with the sling and has a 1" opening so that it's easy to fill at the pump. If you want to have extra security, get two of them.

Description	WPS #	
Fuel Sling	811-30210	

HAMMER HANGER

Ever been on a long ride and realized you brought all the tools you need except your hammer? You tried really hard, but you were trying to save all the space you could for your ride. Here at Nash, we came up with the perfect solution. Introducing the Hammer Hanger! Made from high quality leather hand stitched right here in our shop. The hammer hanger can mount anywhere you need using the 3/4" strap system. The sling is made for larger hammers 16 oz or bigger.

Description WPS # Hammer Hanger **811-30121**

KEY KEEPER

Never get caught without your keys again. This brand spankin' new Nash Key Keeper attaches to your belt with a snap to keep your keys handy.

MINI REGISTRATION TUBES

Conveniently stores your registration behind your license plate holder. Adjustable brackets mount to the rear of most stock license plate assemblies. The hardware mounts through the front of the license frame. The end caps on the tube are sealed with o-rings to insure a water-tight seal. The length of the tube is 4.5". The Tube is constructed of polished Stainless Steel. The brackets are machined from 6061-T6 Billet Aluminum, then polished and chrome plated. Includes all necessary mounting hardware.

FOX SERIES FLH/FLT AIR SUSPENSION

Arnott's stylish new chrome rebound adjustable FOX® Air Suspension System has been custom designed for Harley-Davidson Touring models to give the rider superior control, additional ride comfort settings and fast ride height adjustability.

The FOX shock's custom valving, designed for your motorcycle, provides you with a safe and comfortable ride. Arnott's patent-pending kit offers TruAIR technology with a rugged Goodyear air spring bladder and shock damper design, not an air cylinder or air-assisted unit. For added ride comfort this kit includes FOX's adjustable rebound control dial so you can quickly and easily adjust your shocks' internal damping characteristics – a feature not found elsewhere in the air suspension market.

WITH REBOUND ADJUSTMENT					
FLH/FLT	`09-18	850-01033	850-01034		

The affordable Smooth Ride Series helps riders quickly adjust the bike's ride height for stopping, parking or for that "slammed" look. Our kits provide an upgrade over stock shocks and are far superior in quality and safety compared to other discount kits on the market. The Smooth Ride Series includes:

- Monotube shocks engineered by Arnott specifically for motorcycles to provide a sporty, stock-like ride at an affordable price
- A multi-ply Goodyear[®] air bladder to provide height adjustability, additional air spring firmness to reduce bottoming and smooth out bumps.
- Micro compressor and inflation control toggle switch.

FOX SERIES VROD AIR SUSPENSION

At the core of this system are two custom nitrogen charged FOX shock absorbers. Then, using a patent-pending design, Arnott adds a rugged Goodyear® air spring, ensuring superior comfort, ride quality, and durability. Arnott pairs your shocks with a small but powerful compressor, application-specific mounting bracket, and air distribution valve block which include a muffler to control how fast air is released. Each kit includes everything you need for a fast and flawless installation including Detailed Installation Manual, fused wiring harness and relay assembly, handlebar-mounted inflation switch, all necessary tubing, cable ties, fittings, bolt covers, and mounting accessories.

M8 SOFTAIL AIR SUSPENSION

Arnott engineers improved the new Softail's rear suspension by designing a fully adjustable FOX® mono shock and air spring that can be controlled with an on-board compressor and inflation switch, providing exceptional ride quality, confident control while stopped and enhanced safety.

Application	Year	Black	Chrome
Softails	`18-Up	850-01070	850-01071

FOX SERIES SOFTAIL AIR SUSPENSION

Arnott's new adjustable Air Suspension System for the Harley-Davidson Softail® has been custom designed for the Softail frame to provide the rider with superior control, ride comfort and height adjustability. The kit, featuring Arnott's TruAIR technology, includes a rugged air spring bladder and is not an air cylinder or air-assisted unit. Arnott includes a powerful compressor and black anodized cover which attaches to the regulator rectifier to hide and protect the compressor.

RUSTY BUTCHER SIGNATURE SERIES

Mark Atkins (@MarkTheButcher) is the face behind Rusty Butcher, a premium clothing and leather goods brand.

Growing up he started riding motocross at 3 years old, racing at 4 and it was only a matter of time before his obsession with Harleys and love for jumping anything collided. Mark is a leader in innovation in free riding and dirt track racing on Harley Davidson Motorcycles. FOX worked closely with Mark to develop the Rusty Butcher Signature Series Street Performance QS3-R shocks.

FEATURES:

- High-performance Rusty Butcher-developed ride tune
- Aluminum piggyback reservoir
- · Advanced high-flow deflective disc velocitysensitive damping
- 1.5" 6061-T6 aluminum type III hard anodized
- 5/8" low friction, super-finished hard chrome
- Matte Black spring
- Billet preload adjuster and spring seat
- Fully rebuildable and revalveable
- Designed and Assembled in the US

	HVY	890-01254	
Springs for 39mm Cartridge	STD	890-01250	
	HVV	890-01251	

Racing Bros Scepter 25 cartridge kits for baggers have the same great features as their counterparts for Dyna and FXR models, the only difference being the lack of adjustability because once installed there is no access to the adjusters. The development of these kits took longer than their counterparts because a lot of time went into getting the setup right, out of the box so no adjustment is needed after installation. They provide an excellent ride with lots of feedback and no lack of comfort!

- High performance cartridge with IFP design, 25mm CNC 7075-T6 damping piston ensures stable damping quality
- High strength Cr-Si steel material used for the spring ensures a consistent spring rate and best fatigue resistance

REMOTE RESERVOIR REAR SHOCKS

HardDrive remote reservoir rear shocks by RacingBros' feature full adjustability with preload, compression and rebound adjusters to easily adapt to all riding styles and conditions. Whether you choose stock 12.5" length for your Dyna or Sportster, or you want the tall 14" curb hopper club style look, these performance shocks with race proven "Speed Adaptive Valving" will provide you with the ultimate ride.

- Speed Adaptive Valving (SAV)
- Internal floating piston design for consistent performance
- Components made from A7075 forged aluminum then precision CNC machined
- Progressive rate springs with tapered ends to avoid bowing and bottoming
- '04-13 Sportsters may require relocation of rear master cylinder with 14" shocks

BAZOOKA REAR SHOCKS

HardDrive Bazooka rear shocks with RacingBros' race proven SAV, "Speed Adaptive Valving", damping system provides superior ride quality regardless of road conditions!

Details:

- Speed Adaptive Valving (SAV)
- Internal Floating Piston (IFP) stabilizes damping performance
- One-Piece damping body construction forged from A7075 aluminum
- Easy set up spring preload cap, no special tool needed
- Rebound adjustable version available
- Available in 12", 12.5" or 13" lengths
- Heavy Duty spring rate recommended for riders over 200 lbs or frequent 2-up riding

HARDEIVE AMERICAN V-TWIN PRODUCTS

SHORT SHOCKS

Give your bike that extreme low look with these 10.5" lowering shocks. Preload adjustable and available in chrome or gloss black finish. Check all clearances after installation. Sold in pairs.

Application	Description	Chrome	Black
Fits XL Models `91-18 Models	10.5" Lowering Shocks	890-01100	890-01101

4-SPEED SHOCKS

Chrome replacement shocks for most 4-speed Big Twins and Sportsters, some available with or without full cover shroud.

Application	Description	WPS#
Fit Big Twins `73-86	Chrome 12" Shocks w/Short Cover	820-52703
	Chrome 12" Shocks w/Full Cover	820-52704
	Chrome 11" Shocks w/Short Cover	820-52705
	Chrome 11" Shocks w/Full Cover	820-52706
Fit FL Models `58-72 and XL Models `54-74	Chrome 13.5" Shocks w/Short Cover	820-52701
	Chrome 13.5" Shocks w/Full Cover	820-52702
Fit XL Models `54-78	Chrome 14.5" Shocks	820-52700

SOFTAIL SHOCKS

- Chrome replacement OEM style shocks.
- They feature height and preload adjustability.

Application	WPS#	
Fit Softails `89-99	820-52707	

SOFTAIL LOWERING KIT

- · Easily lowers your Softail up to 2"
- Adjustable to allow lowering between 0" and 2"
- Fits most Softails from 2000-2015 (except FXCW/FXCWC, FLSTFB, FLSTSB, FLSTN, FXSTD, FXS, FXSB, and FLS or models with profile lowering kits)

Application	Year	WPS#	
Softail	au-00'	820-1747	

SOFTAIL LOWERING KIT

- Adjustable lowering kit permits easy ride height control
- Includes all necessary hardware
- Installation should be performed by a certified mechanic

Application	Year	WPS#	
Softail	`89-99	830-0200	

SHOCK MOUNTING KIT

- Chrome plated mounting hardware
- Give your bike that custom look

	Application	WPS#	
SHO	CK MOUNTING KIT		
Α	For `84-99 Softail	830-1162	
В	For 2004-UP Sportster	830-1148	
C	For `00-03 Sportster	830-1149	
D	For `91-01 Dyna	830-1203

FAIRING ACCESSORIES

This model specific kit will correct your fairing attitude after installing our SRT Performance Wide Tire Kit on your 2015-later Road Glide. First, our patented Wedge Drop Block not only rotates the fairing back to its original angle, it also drops the fairing a full 1.75" which gives it that awesome "Muscle Bagger" look! Lowering the fairing also dramatically increases your field of vision while enhancing your Baggers custom look.

This kit is also available for stock Road Glides giving you the same benefits as the SRT drop block without the change of angle.

Included in both kits is our patented Stealth Fairing Support Bar which hides discreetly inside your fairing providing all the support your fairing needs. This allows you to remove those ugly stock clamp brackets that attach to your engine guard. This part also allows removal of your engine guard if you so choose which is a popular decision during the customizing process.

Our SRT Wedge Drop Block is CNC machined from 6061-T6 aircraft aluminum for unparalleled strength and precision. It is then gloss black powder coated to match the OEM bracket it attaches to. Easy install instructions and hardware are included.

Our Stealth Fairing Support Bar is precision fixture TIG welded by Arizona craftsmen and assembled from US cold rolled steel. It's then gloss black powder coated. Easy install instructions and hardware are included.

SLIDER COVERS

Continue with Paul's Yafterburner or Speed Freak styling down your forks and you'll have the most radical looking front end in town! Our Extended Slider Covers are 8.25" long as opposed to our standard 6.25" model. This is an simple, bolt-on product that will dramatically change the look of your Bagger!

Machined from 6061-T6 aluminum, then brilliantly chrome plated or black accent cut.

Extended Slider Covers only fit 23" and up raked applications.

STEEL KORE RAKE KITS

"STOP" Do not cut your stock frame any longer.

Because Steel Kore Rake Kits are a bolt on application, you simply remove your existing parts and bolt on our kit.

You can do all of this with your own basic tool kit. These kits provide precision alignment, great cornering stability along with high quality parts while maintaining stock linked ABS function. With the included wheel bearing installed there is no need for an expensive calibration

Every single bolt included in the Steel Kore kit is made of SAE 4140 high strength steel and the main frame is made of 6061 T-6 aluminum.

The Steel Kore kit maintains stock steel ABS brake lines simply by using a unique bracket. The kit retains stock ground clearance and handling characteristics with built in fork extensions. Built in preload adjusters eliminate the need to disassemble the forks. Neck bearings can be adjusted via an external nut underneath the tree to optimize steering characteristics.

PROGRESSIVELY WOUND FORK SPRING KITS

MULTIRATE FORK SPRING KITS

Our Multirate fork springs are produced from the best spring materials available. They are precision wound and stress relieved and mechanically polished to increase surface density to improve corrosion resistance. Straight rate springs have the same rate every inch that they are compressed, which is fine on flat super smooth roads but they lack the ability of our Multirate fork springs to handle some of the more unpredictable road conditions without sacrificing ride quality. If you have a heavier bike or increased load, try our new "GENISIS SERIES" fork springs.

MULTIRATE LOWERING KITS

The Multirate lowering kits are engineered to lower the front end of your bike 1 to 2 inches and still preserve ride quality. The lowering springs undergo the same thorough process as the Multirate fork springs. The kit comes with two specially designed Multirate fork springs, washers, aluminum spacer, two lowering springs and instructions

GENISIS SERIES FORK SPRING KITS

STOCK HEIGHT KITS

The innovative Genisis Series dual spring set up contains a specially designed Multirate outer spring and a one of a kind Genisis inner spring that are assembled together to make the Genisis Series. The Genisis Series works great whether you ride alone or with a passenger, by putting the Genisis spring inside the outer fork spring it allows the springs to work together instead of against each other. The inner fork spring is there when you need it for hard braking and extreme riding conditions of any kind, making them almost impossible to bottom. Each standard Genisis Series kit comes with two Genisis series fork springs (preassembled), 4 Genisis washers, aluminum spacer and instructions.

LOWERED KITS

We use the dual spring combination of the Genisis Series springs and our polished lowering springs to give you what we consider as one of the best front end lowering kits available today. By using the Genisis Series fork springs we are able to give you a comfortable ride without worrying about bottoming out because the Genisis inner spring is there to give you that extra power when you need it. "Hourglass" style kit is used in necks that are 7" long. Used on later stock Harley-Davidson frames and many aftermarket custom frames. Fits all Pro-One Triple Trees and other brands with 4 pre-drilled holes. On brands without the necessary holes, kit can still be installed by drilling and tapping 4 holes. Easy to follow instructions included. Bearing Race fits 1.990" neck bore. Measure the neck bore where the races install in the neck, or the length of the neck to be sure this is the kit you need.

Press-in bearing cup style kit is used on many older Harley-Davidson frames and many custom aftermarket frames. Designed for necks that are 5-11/16" long (not including the cups). Includes Polished Stainless Steel bearing cups. Easy to follow instructions included. Bearing cups fit 1.325" neck bore. Measure the neck bore where the external neck cups install in the neck, or the length of the neck to be sure this is the kit you need.

PRELOAD ADJUSTERS

The Patriot Suspension preload adjusters easily tune your front suspension to suit your weight and riding style.

- Simple installation (replaces stock fork cap) with included tool
- 1" of adjustment range via hex key
- Available in a black or machined aluminum finish
- Made in the USA

FORK SPRING KITS

FOX FORK SPRING UPGRADES substantially improve the handling characteristics of your Harley Bagger or Dyna by correcting the spring rates and geometry of your motorcycle to perform when needed. We utilize straight rate high quality springs that are available in three different options so that you can further fine tune your ride. Our spring kits provide consistent and predictable comfort and feedback that removes the harshness of the road and holds the motorcycle up in the stroke when cornering or braking. Coupled with our FOX Street Performance rear shocks feel the difference of how your V-Twin should handle the road.

Upgrade kit comes complete with a set of springs, exact length spacers needed and instructions for how to install.

GOLD VALVE EMULATORS FOR H-D FORKS

H-D Damping Rod Style Forks are notorious for being both too harsh and too mushy. Gold Valve Cartridge Emulators remedy this problem by controlling the motion with a tunable valve that sits on top of the damping rod. They are held in place by the main fork springs. Simply put; Emulators make damping rod forks perform like well-tuned cartridge forks.

Application	Description	WPS#
`14-18 Touring Models (Except Trike and Models w/Cartridge Fork)	49mm forks	200-\$4901
`69-01 Touring Models, `94-05 FLHR, `06-13 Touring Models	41mm forks	200-\$3802
`84-17 Softail Models (except FLS, FXCW, and Springer Models)	41mm forks	200-\$3802
`06-17 Dyna Models (except FXDWG and FLD)	49mm forks	200-\$4901
`87-05 Dyna Models (except FXDWG)	39mm forks	200-\$3501
`13-15 Dyna Wide Glide FXDWG	49mm forks	200-\$4901
`93-12 Dyna Wide Glide FXDWG	41mm forks	200-\$3802
`87-94, `99 FXR Models (except `83-92 FXRT)	39mm forks	200-\$3501
`88-15 XL Models (does not fit XR1200)	39mm forks	200-\$3501
`02-11 VRSC Models (except Street Rod)	49mm forks	200-\$4901

- Increased tune-ability
 - Dual stage tune-ability
 - Personalized setup
 - orderianzea eetap
 - Reduced harshness
 - Increased bottoming resistance
- Improved traction
- Consistent feel
- Technical support
- 100% Guaranteed
- Made in the USA

FORK SPRING KIT

- RT Fork Suspension/Lowering Kits are designed to improve the ride, comfort and handling of your bike
- The kits allow the suspension to be customized for the rider
- They include a set of Gold Valve Cartridge Emulators, a pair of Hi-Performance Springs and Lowering Hardware
- The Lowering Hardware allows the option to lower the front end 1"-2"
- · Lowering is not required and is recommended for show models only

FORK / DUST SEAL KITS

- Patented fork seal features a balanced 3 lip design that evenly distributes the pressure reducing operating temperature, wear and friction
- Custom Elastomer Fork Seals have been tested to outlast OEM fork seals. Extends typical seal life by 3 to 5 times over OEM seals
- Stiction (friction) measures from 1/3 to 1/2 less than OEM seals for smoother fork action
- Sold in pairs

BRASS FORK STEM NUT

Brass triple tree stem nut manufactured in Phoenix Arizona USA from solid 360 brass. Fits all Accutronix 0° raked triple trees, many other aftermarket triple trees, as well as stock trees for 71-85 FX, 82-87 FXR, 78-87 XL and also replaces the OEM # 45718-71 that are threaded 7/8"-24.

Description	WPS#	
Brass Stem Nut	811-20000	

UPPER FORK BEARING ADJUSTMENT KIT

• Reproduction of OEM

• Wiper seal with optional dual lip design for high contamination situations

- New oil seal lip geometry specific to fork seals
- Enhanced water and dirt protection capability
- Reduced and constant friction over the life of seal
- Compatibility with a wide range of OE and aftermarket oils
- Reduced wear,increased life and performance

Description	Application	WPS#
Fork seals	'84-2016 Models w/41mm fork tubes	115-0415

FORGED ALUMINUM WHEELS

• Set your bike apart from the crowd with a set of our custom billet wheels! Available in three distinct designs to complement the style you are going for. They come in black anodized finish with machined details or high gloss triple chrome finish. All wheels are CNC machined from forged aluminum for superior strength and durability. Our wheels fit most current Harley models and are designed to accept stock rotors and pulleys or our matching two piece custom rotors and pulleys that are listed in the brake and drive sections. Some wheels may require extra pulley and rotor spacers depending on application. We do not list all possible sizes for all models so if you can't find the size/application combo you are looking for contact your HardDrive sales rep, we will do what is possible to accommodate your needs

TT TRACKER AND B-52 WHEELS

Lyndall Wheels are manufactured in the USA combining cutting edge design and craftsmanship with premium quality rotary forgings. Bringing you the first and foremost in performance, Lyndall Wheels, are both stronger and lighter than stock; improving the performance, functionality, and beauty of your bike like no other can. Their B-52 and TT Tracker designs are available exclusively through HardDrive. Matching pulleys, sprockets and rotors are available separately to complete the look. Other applications available on request per special order, please allow at least three weeks for delivery.

TT TRACKER AND **B-52 ROTORS**

Create your own rotors to match your Lyndall wheels. Choose your center carrier design and finish then choose the friction ring that fits your application in silver or black high carbon steel in crown cut or smooth. Lyndall's patented lug drive design allows for easy assembly and unmatched braking performance. Carriers fit 2000 and later wheels with hub mounted rotors, for perimeter style rotors (used on '14-Up Touring models and '06-Up Dynas with cast wheels) see the Lyndall rotors in the brake section.

Quick application guide (for exact rotor dimensions for your model refer to your OEM parts guide):

- '00-07 Touring models require 11.5" rotors front and back
- '08-13 Touring models require 11.8" rotors front and back
- '08-Up Dynas with laced wheels require 11.8" rotors front and 11.5" rear rotors

FRONT 40/48/60 SPOKE WHEELS AMERICAN V-TWIN PRODUCTS

- Chrome wheels available for many stock and custom applications in 40 and 60 spoke and the 48 Big Spoke
- Sealed for tubeless tires
- Application listed for axle size and location diameter only, additional spacing of rotors and pulleys may be required for exact fitment on some applications
- Wheels can be upgraded with 25mm bearings (sold separately) and bearing spacer (not included) for '08-Up applications
- Will not fit with front wheel speedometer drive on narrow glide front ends

YAXLES

Your front end needs some pizzaz... Well, The Yaxle is Paul's new twist on the flush-mount axle!

The Yaxle is the perfect way to make your stock fork look super sleek and custom! Our Yaxle and end caps are CNC machined from 6061-T6 aluminum and then flawlessly chrome plated or black anodized. The Yaxle is a small, quick and simple way to bring some life and detail to your lower fork legs.

FRONT AND REAR AXLES

• Chrome plated axles with hardware (except where noted)

Application	WPS#
FRONT AXLES	
Fits EL, FL and UL Models from `36-48	820-51320
Fits FL Models from `49-66	820-51321
Fits FL Models from `67-71	820-51322
Fits 4-Speed FL `73-80 and FXWG `80-83	820-51323
Fits Sportster, FX and K Models `52-72	820-51325
Fits Sportster and FX w/Single Disc `73-77	820-51326
Fits Sportster, FX and FXR Models w/Dual Disc from `77-83	820-51327
Fits Sportster, FX and FXR Models w/35mm Forks from `84-87	820-51328
Fits FXST/C `84-99, FLT, FLHT `84-99, FXWG `85-86 and FXDWG `93-99	820-51324
Fits FLH/FLT Models `00-07	820-51334
Fits FLH/FLT Models `08-Up	820-54117
Fits FL Softail Models `86-99	820-51329
Fits FLST Models `07-17 and FLS Models `12-17	820-51335
Fits FXST Models `07-10 and FXS `11-13	820-54120
Fits FXSB `13-17	820-54119
Fits FXD Models (except FXDF) `08-17	820-54121
Fits FXDF `08-17 and FLD `12-15	820-54122
Fits XL 1200X `10-Up and FXD `08-17 (AXLE ONLY)	820-51330
Fits Sportster Models `88-99	820-51355
Fits Spotster Models `88-99 (AXLE ONLY)	820-51354
Fits Sportster Models `00-07	820-51333
Fits XL 883L/1200C/X/V `11-Up	820-54123
Fits XL 883R/N/1200V `11-13	820-54125
Fits XL 883N/1200V `14-Up	820-54124

Application	WPS#
REAR AXLES	
Fits EL, FL and UL Models `36-57	820-51300
Fits FL Models `58-66	820-51301
Fits FL and FX Models `67-72	820-51302
Fits 4-Speed FL and FX w/Chain Drive `73-85	820-51303
Fits 4-Speed FL and FX w/Belt Drive `80-86	820-51304
Fits Sportster and K Models `52-E78	820-51305
Fits Sportster Models `79-03	820-51306
Fits FXR Models `82-94	820-51307
Fits Softail Models `86-06	820-51308
Fits Softail Models `08-Up (AXLE ONLY)	820-51331
Fits FXSB `13-Up and FXCW/C `08-11	820-54126
Fits FXD Models `08-Up (AXLE ONLY)	820-51332
Fits FLT, FLHT. FLHS and FLHR Models `87-01 (AXLE ONLY)	820-51309
Fits Touring Models `09-Up	820-54128
Fits Sportster Models `08-Up	820-54127
Custom Acorn Style Axle Kit 9"L and 5/8" ID (includes spacer)	820-54129

CHROME AXLE ADJUSTER SPACERS

• Chrome plated steel replacement axle adjuster spacers

 Application
 WPS#

 Fits `00-07 Softails
 820-52351

AXLE ADJUSTER BLOCKS

- Rear axle block adjuster kits ensure better alignment of the rear axle
- Prevent swing arm tube collapse due to over-tightening.
- Kit includes heavy duty washer

Description	WPS #
Axle Adjuster Set Zinc `84-96 FLT (OEM 41573-84)	820-51350

PULLEY SPACERS

Aluminum spacers that are ideal for lining up pulleys and sprockets. The spacers can easily be machined down to the next size under without having to worry about the spigot alignment when you machine the face of the spacer down to the desired thickness. They are drilled for up to 7/16" bolts. Can also be used as disc spacers.

Application	Width	WPS Part#
`00-Up	1/2"	820-60550
	3/4"	820-60551
	7/8"	820-60555

STREET WHEEL BEARING AND SEAL KITS

- · Contains all of the bearings and seals required to re-fit a wheel
- Wheel bearings typically fail from water and dirt contamination. The All Balls wheel bearing was developed in partnership with KML Bearing and is designed to excel in the difficult operating environment street riding
- Premium EMQ quality, hi-speed-bearing featuring low drag, double lip rubber seals which provide superior exclusion of water, dirt and to improved grease retention
- Type TC Nitrile Elastomer wheel seals are specifically designed to keep out water and dirt
- The rubber coated outside diameter creates an optimum seal at the hub
- · Steel garter spring guarantees constant pressure on the axle shaft over the life of the seal

TIRE CONVERSION CHARTS

THESE REFERENCE CHARTS ARE AS ACCURATE AS THE INFORMATION AVAILABLE TO US. FOR INFORMATION ON SPECIAL APPLICATIONS, PLEASE CALL US.

SIZE CONVERSION TABLES: Use these tables to convert your older style inch size to the new style metric sizing.

STREET TIRES

- Front and Rear tires should be properly matched and sized to maintain correct clearance
- Mount tube type or tubeless tires only on the rims designed for each type of tire
- Before mounting, check for directional arrows on tire tubes. It is advisable to replace tube
- Before use, check wheel balance, wheel alignment, and most importantly, tire air pressure

SEALS

- Outstanding Grip: Semi-slick tread pattern maximizes the contact patch for excellent adhesion on dry roads.
 Optimized tread groove design efficiently evacuates water for dependable wet grip.
- Excellent Tread Life: Derived from Michelin's championship winning race tires, newly developed rubber compounds combine durability and high performance.
- Precise Handling: The latest generation of Michelin radial* technology allows for easy maneuverability and impressive agility.

*The 100/80-17 Scorcher 11 tire is a bias tire.

MICHELIN Scorcher®

The MICHELIN® Co-Branded Tire for Select Harley-Davidson® Dyna®, Sportster® and Touring Models

Load/

- Cruise with Confidence: Innovative rubber compounds, incorporating knowhow derived from Michelin's decades of road-racing experience, provide remarkable grip on both wet and dry roads.
- Exceptional Comfort and Handling:
 The supple casing design and profile of MICHELIN® Scorcher® "31" tires promote nimble handling on winding roads.
- Long Mileage: Michelin carbon blackenriched rubber compounds promote excellent durability without compromising performance.

MICHELIN Scorcher 32

The MICHELIN® Co-Branded Tire for Fat Bob® Motorcycle Riders

- Impressive Durability: Innovative "reverse" tread design combined with Michelin's proven rubber-compound technology help deliver superb tread life and even wear patterns.
- Agile Handling and Smooth Ride:
 Working in concert with Harley-Davidson,
 Michelin has developed Scorcher® "32"
 tires to maximize the ride and handling of
 your Fat Bob® motorcycle.
- Dependable Grip: Excellent traction on wet or dry roads, thanks to generously grooved tread patterns and advanced Michelin rubber chemistry.

More Miles for Your Money!!

A new standard in cruiser tire longevity

• Independent tests* show that the MICHELIN® Commander® II rear tire lasts almost twice as long its main competitors, the Metzeler ME880 and the Dunlop D407/408

Innovative technology

 Amplified Density Technology: A highly dense, more-rigid tire casing, which helps deliver excellent feedback and handling

ply is 25% more dense than conventional plies

- All-new rubber compounds for remarkable wet grip, without compromising durability
- Square bead wires improve casing rigidity, handling and ease of installation

FRONT

A groundbreaking new look

- · Unique tread pattern for head-turning looks
- Premium sidewall treatment complements cruiser styling

* Commissioned third party tests conducted in 2011 on public roads comparing MICHELIN® Commander® II , Metzeler ME880 and Dun	nlop
D407/408 tires in sizes 130/80 B 17 and 180/65 B 16. Individual results may vary depending on motorcycle type and operating condit	ions

CRUISER / TOURING

"REFLECTOR" SR777 & SR777 H.D.

Shinko SR777 & SR777 H.D. Reflector tires are the next evolution in motorcycle tire technology. Almost completely unnoticeable until light hits the reflective material on the sidewall and then BAM ...the sidewall of the Shinko 777 Reflector tire lights up. Be Safe. Be Seen. 777 Reflector & 777 H.D Reflector tires are specifically designed for cruiser motorcycles and are available in many sizes to fit V-Twin and metric cruiser models.

- Reflective strip is built into the sidewall of the tire
- Looks like a normal black wall tire during the day
- Rubber compound formulated to provide maximum grip and comfort
- Confidence inspiring traction you can feel when accelerating, braking and cornering
- . H.D. (Heavy Duty) version with reinforced carcass providing a more stable and planted feel
- H speed rated tubeless
- · Aramid belted provides ample load capacity while also giving more stability
- Unleash the handling potential of you cruiser motorcycle

CRUISER / TOURING TIRES

SRT 777 H.D. 20 INCH

 Requires Paul Yaffe's 20" big wheel performance SRT Kit for installation.
 See Page 824 in the HardDrive Catalog

 This is a front tire designed specifically for it's purpose not like other fat front tire conversions that use a rear tire

Size	Load/Speed Rating	WPS#
FRONT		
6.5" - 20	77H	87-4200

 Fat 6.5" wide front tire with a true front tire profile and tread ensure superior handling

 H.D. (Heavy Duty) version with reinforced carcass providing higher load ratings

 Available through your authorized Shinko retailer

SR777 30 INCH

Specifically designed for the custom 30" front wheel market

- Legendary 777 handling and performance now available in a 30"!
- Tread compound designed for a great combination of traction and mileage
- Directional tread pattern and functional siping offers excellent wet and dry traction
- Aramid belted
- DOT approved

Description	Load/Speed Rating	WPS#
FRONT		
140/40-30	57H	87-4580

CRUISER / TOURING TIRES

230 TOUR MASTER

- Designed for long distance, high speed riding
- Aramid belted

DRAG / RACE RADIALS

HOOK-UP PRO DRAG RADIAL

- The ultimate DOT drag tire.....Just got better!!
- HOOK-UP PRO! All of the great features of the original Hook-Up, but lighter. faster and now even better at the top-end of the track! Competition-developed design allows for more horsepower to be used throughout the run due to a larger contact patch at high speed. Enhanced carcass resists distortion, chunking, and the stresses of centrifugal force to maintain a more constant footprint.
- Due to the soft compound of this tire, it is not for use on dynamometers!

Ultra Lightweight!	
Hook-Up Like A Pro!	

Size	Load/Speed Rating	WPS#
190/50ZR17	73W	87-4651P
200/50ZR17	75W	87-4652P

HOOK-UP DRAG RADIAL

- · Light weight extremely flexible carcass
- Softest street compound available from Shinko
- Tread pattern and profile designed specifically for the demands of drag racing
- · Aramid belted, DOT approved, not intended for use on public roads or street use
- Combine with the Shinko 003 Stealth front tire for a matching tread pattern
- Due to the soft compound of this tire, it is not for use on dynamometers!

Size	Rating	WPS#	
180/55ZR17	73W	87-4650	
190/50ZR17	73W	87-4651	
200/50ZR17	75W	87-4652	

Stacey Bortz is the fastest female in the world of American V-Twin drag racing. She has run as fast as 8.86 seconds in the quarter mile with speeds over 150 MPH. She uses Shinko tires on her AMRA Outlaw Street bike as well as her 10 second Superglide.

STEALTH-D

- Specifically designed for V-Twin Drag racing
- DOT approved
- Ultra-Soft compound for maximum traction
- Fits right onto your stock 16" wheel!!

Size	Load/Speed Rating	WPS#	
150/80ZR16	71W	87-4002U	

REACTOR

REACTOR DRAG SLICK

- Wrinkle wall drag slick, for track use only
- Tread compound designed for maximum traction
- 26" x 7" x 17" size fits most sport bike rear wheels
- Recommended rim width 5½" to 7½"
- · Track use only
- NHS (Not for Highway Service)

Size	WPS #	
26" x 7" - 17	87-4656

INNER TUBES

- High quality 1.5mm thick butyl tube pre-loaded with Counteract Balancing Beads
- · Balanced for the life of the tire
- Extend tire life, even tread wear, increases horsepower due to decreased rolling resistance.
- Provides the smoothest and most efficient ride possible
- No need for unsightly wheel weights or a tire balancer
- Cost effective
- Will not void tire warranties

TIRE BALANCING BEADS

- No more external weights!
- Made from micro-glass beads
- Increases tire life, improves fuel economy
- Reduced vibration and heat build up
- Tires are balanced all the time, not just at over 30 mph like other products
- No rebalancing every time you come to a stop
- No dust to clog valve cores
- Guaranteed safe for all tire pressure monitoring systems (TPMS)
- Can be used in tube type and tubeless tires
- Simply throw in a bag when mounting a new tubeless tire or use the DIY kit for "on the bike" and tube type installation

- Threaded full 1-3/16" length for various rim thicknesses
- Fits .327" valve hole and equipped with O-ring seal

- Pop-in valve meets the same rigid standards required for OEM applications
- Designed to resist damage from ozone and premature rubber deterioration from valve hole compression, heat, cold and moisture

- · Chrome plated sealing valve cap
- · Grommets to fit either .453 or .625" valve holes

- 90° valve stem style
- 85-0435 fits .327 valve hole 85-0436 fits .453 or .625

VALVE CORE REMOVER

- Made from Hex Steel
- · Allows for easy removal and installation of standard valve cores

LED SMART CAPS

- Ride-On LED Smart Caps are the easiest TPMS (Tire Pressure Monitoring System) to install on your tire valve stems
- The LED Smart Caps automatically calibrate to the pressure in the tire and sets itself when the cap are installed
- TPMS caps can be used with pressures from 10 psi to 70 psi
- Automatically compensates for ambient temperature changes to avoid false alarms
- · Comes with integrated anti-theft device
- Ride-On TPMS LED Smart Caps blink red to alert of low pressure for up to 750 hours
- Low battery alarm the LED Smart Caps will blink yellow for up to 100 hours to alert you that the batteries are running low
- Uses standard watch batteries
- Bright blinking LED light that is visible in daylight and night time

Description	WPS#
LED Smart Caps/pr	85-4210
Repl. anti-theft wrench	85-4211

The purchase of Ride-On LED Smart Caps entitles you to a free 1 year membership to Ride-On's exclusive road side assistance program

Tire Protection System

TPS TIRE BALANCER AND SEALANT

- Ride-On TPS (Tire Protection System) is a tire balancer and sealant compound for tube or tubeless tires that evenly coats the inner surface of your tires
- Eliminates the need wheel weights, specially formulated to hydrodynamically balance high speed tires, dampen road noise and vibrations that cause a rough ride
- If the tire is punctured in the contact patch, the centrifugal force of the rotating tire and the internal air pressure force Ride-On into the hole, sealing it instantly
- Ride-On is a Green biodegradable product that is designed to be non-hazardous and non-flammable, and contains corrosion inhibitors that protect all alloys of steel, aluminum, magnesium and yellow metals against oxidation
- Note: Refer to Dosage table/calculator to find the amount needed for each tire
- Ride-On TPS will act as a balancer and will result in erroneous readings from a dynamic spin balancer
- Available in motorcycle and ATV formulas, simply squeeze/pump the fluid into the tires and you are set to go, refer to dosage table below to find the amount needed for each tire

RIDE-ON DOSAGE (all measurements in inches):

High speed street tires: Diameter x Width x .055 = ounces of Ride-On **Off road tires:** Diameter x Width x .075 = ounces of Ride-On

ATV tires: Diameter x Width x .087

Description		WPS#	
MOTORCYCLE FO	RMULA		
8 oz	12/case	85-4200	
5 gallon pail	*	85-4201	
Pump for 5 gallon pail		85-4202	

*DOES NOT COME WITH PUMP

IMPORTANT NOTE: After installing Ride-On TPS Motorcycle Formula sealant into the tires, a slight vibration may be noticed until the sealant has warmed up and distributed evenly in the tires. This process usually takes 2 to 5 miles. DO NOT attempt to rebalance tires after the installation of Ride-On TPS Motorcycle Formula. Ride-On TPS is a balancing compound

SUPER DUTY AND ORIGINAL FORMULA

"THE FLAT TIRE ELIMINATOR"

In tubeless tires the SLIME seal is as effective as a normal repair. In tubed tires, regard SLIME in the same way as you would a patch. If you would be content riding a patched tube, then the SLIME seal is fine. If you regard the patch as a "get you home" emergency repair, then fit a new tube. SLIME can be easily removed with cold water. There is no other product like SLIME on the market. There are no glues, no latex, no adhesives in its formulation. SLIME is the most innovative breakthrough in flat tire prevention.

Application:	Ounces per tire	Uses:
Motorcycle	8	Motorcycle's / ATVs
Bicycle	4	Bicycles
Wheelbarrow	8	Golf Carts
Boat/Snowmobile	8	Utility Vehicles
Trailer		Wheel Chairs
Compact car/Lt.Tru	ıck 8	Wheelbarrows
4x4/SUV	8	Agriculture
ATV	16-32	Any pneumatic tire
Riding Mower	20	tube or tubeless

- Super duty slime seals punctures up to 1/4"
- Fine tunes balance of all tires
- Will not freeze down to -35°, dry-out or ball-up inside the tire
- Prevents corrosion of the tire and rim
- SLIME is formulated to last as long as the life of your tire

Or simply use this formula

Under 45 mph:

Tread Width (inches) x Height (inches) x .13 = _____ oz. Example 8 x 22 x .13 = 23 oz. Over 45 mph:

(Tread Width (inches) x Height (inches) x .13) /2 = oz. Example (8 x 22 x .13) /2 = 12 oz.

BLUETOOTH® TIRE PRESSURE MONITORING SYSTEM

The BLU TPMS (Tire Pressure Monitoring System) constantly monitors your motorcycle, trike, UTV, Pre-2007 or classic car, truck, trailer or RV tire pressure and temperature and warns you of danger.

- Offers both external (replaces your existing air valve stem cap) or internal (in the wheel) O.E.M. quality Low Energy Bluetooth connected sensors (BLE)
- Uses the latest BLE technology for maximum battery life
- Monitors pressure and temperature and sends this information to your IOS or Android mobile device via a free downloadable App
- If a low tire is detected, the sensors send a signal to the App and you receive a warning notification on your screen and an audible alarm (the alarm even tells you which tire is low)
- Pressure warning levels are easily set by the user from 1 PSI to over 100 PSI
- The App also lets you monitor up to 99 different vehicles and allows you to choose the type of vehicle the sensors are installed on, no additional equipment is required, just the sensors and your mobile device
- External caps include a secure locking device to keep the sensors from being stolen
- Systems are available in 2 wheel (motorcycle/trailer), 3 wheel (trikes, Can Am, etc.) and also 4 wheel kits (ATV/ UTV, trailers/toy haulers)

Description	WPS#
2 tire external sensor	71-9160
2 tire internal sensor	71-9162
3 tire external sensor	71-9163
3 tire internal sensor	71-9164
4 tire external sensor	71-9165
4 tire internal sensor	71-9166

BIG BIKE PARTS

TIRE PRESSURE **MONITORING SYSTEM**

- Features a large LCD display screen mounted on a slim 2 7/16" x 2 5/8" x 3/4" monitor
- · Monitor features a quick release mounting
- Includes 1/3 oz. anti-theft sensors that feature the latest TPMS sensor technology available
- Kit also includes monitor mounts to fit 7/8", 1" and 1 1/8" handlebars, can also be mounted to the clutch or brake control
- The monitor and sensors feature timed automatic shut off for extended battery life

INDIAN SCOUT FENDER TRIM

- Cast in the traditional method by hand, not simply stamped sheet metal
- An economical way to add shine and a custom touch
- · Available in a two piece kit or front tip only

Indian	Year	Front & Rear Tip	Rear Tip Only
Scout	`15-19	562-30151	562-30152

PALADIN® SOLO FENDER RACK

- Stainless steel
- · Easy installation
- · Hardware included
- It's a quick and simple job that pays back big style points
- · Available in brilliant chrome or powder coated gloss
- Dimensions: length 14.00" width 7.25"

Application	Chrome	Black
`15-10 Indian Scout (except Robber)	562-21188	562-21180

CRUISELINER™ SADDLEBAGS **FOR INDIAN SCOUT**

- · Easy-to-use, quarter-turn fasteners for no-tool removal of the saddlebags from the mount frames in just seconds!
- A keyed, push-button lock is recessed into the lid
- Lids are hinged in the front and swing forward for easy access to the interior
- Tight-fitting seals conform to the shape of the lid to keep the elements out
- Mount Kits are custom engineered for each motorcycle to exact specifications and are guaranteed to fit
- Bags are painted gloss black and ready to mount or custom paint to match your bike

Indian	Year	Smoothback	Mount kit (black)
Scout (except Bobber)	`15-19	562-40101	562-4085B

893

BIG BIKE PARTS

TOUR PACK RACK

Finish

- · Available in show chrome or satin black
- Mounting legs line up with OEM mounting points
- Manufacturer's tour pack loading limits must be followed
- Designed to spread weight over trunk lid to alleviate stress cracking

INDIAN GRIPS

Your hands engage with your bike on a more personal and tactile level than the rest of your body. They control your bike. Shouldn't your grips be amazing? Like the leather wrapped steering wheel of a premium automobile, our uniquely designed, precision crafted and hand stitched leather wrapped grips deliver an experience like no other.

First they are CNC machined from billet aircraft grade aluminum with a recessed knurled surface to ensure the leather will not slide or twist. The leather is laser cut to shape then the pattern embossed. Next the leather is dyed & airbrushed. Finally the grips & leather have bonding agent applied. The leather glued and skillfully hand stitched around the grip.

	Description	Black/Tan	Natural/Tan
Α	Scout models	826-01087	
В	Chieftain models		826-01088

KNURLED SCOUT GRIPS

More Grip and No Slip. These classically styled Moto grips have perfect knurling to ensure great grip without tearing up your hands or gloves. Slight raised arc to fit perfectly in the palm of your hand.

Description	Finish	WPS#	
Knurled Grips	Natural	826-01075	

AIR GEL GRIPS

- The new GEL grips are a very ergonomic grip
- Feature the softest rubber that Avon has used in a street bike grip
- The soft rubber has a unique dimple texture and tacky feel that helps reduces unwanted road and engine vibrations
- The new style grip is complimented by stylish, billet aluminum, triple chrome plated or black anodized end caps and collars

FUSION FUEL CONTROLLER

- Uses factory connectors for easy installation
- USB powered from computer (9 volt adapter is no longer needed for programming)
- 2 position map switching function built in (map switch not included)
- · Gear input (allows for map adjustment based on gear and speed)
- Analog input (allows user to install any 0-5 volt sensor and build an adjustment table based on its input such as boost or temperature)
- With gear position input connected the Fusion is capable of allowing each cylinder to be mapped individually and for each gear (for example: on a 4 cylinder bike with a six speed transmission there could be up to 24 separate fuel tables).
- Unit has a -100/+250% fuel change range
- 10 throttle position columns
- Enhanced "accel pump" utility (increased adjustment and sensitivity ranges)
- Can use Power Commander maps
- Self tuning available with the optional Dynatune Autotune controller, see AIR/FUEL section

Notes:

- 1 Includes single channel O2 Optimizer
- 3 Includes dual channel O2 Optimizer
- 4 Optional oxygen sensor eliminator required for California and some overseas models, 2 eliminators required - call Dynojet, part #76423005
- 5 Optional oxygen sensor eliminator required for some overseas models, 2 eliminators required - call Dynojet, part #76423008
- 6 Optional oxygen sensor eliminator required for California "C" models, 2 eliminators required for California "Retro" models - call Dynojet, part #76423005
- 7 Requires additional Dynojet hardware for Quickshifter to function - call Dynojet
- 9 European models require O2 optimizer for closed loop control
- 11 Optional oxygen eliminator available for California and European models call Dynojet, part #76423007
- 12 Includes ignition adjustment

Not legal for use in California on pollution controlled vehicles, race use only in California - waiver available

Z-FI FUEL CONTROLLER

Bazzaz has developed an in-line unit that precisely controls fuel delivery to optimize engine performance. It is a plug and play unit that piggy-backs onto the stock ECU. Each unit comes with an application specific harness that utilizes OEM connectors for simple installation, and comes pre-programmed for either the stock exhaust or a slip-on. The Z-Fi also features a USB interface with easy to use software, allowing tuning modifications by the end user that can be done at the bike or at a PC being that the system can be powered using the USB connection. The Z-Fi is the first piggyback system on the market that can run up to 8 injectors independently. Bazzaz uses the latest in semi conductor technology creating a control unit that runs on less power, is more efficient, and process faster to make your bike perform better. This all translates into ease of tuning, and significantly better throttle response and performance on applications that utilize 8 injectors like the modern day sportbikes. The Z-Fi can be tuned to perfection using the Z-AFM self mapping module.

Not legal for use in California on pollution controlled vehicles, race use only in California - waiver available

- Supplied with application specific harness for easy Plug and Play installation - no cutting into OEM wires
- Pre-programmed with 2 maps. one for stock and one for a slip-on exhaust
- Comes with easy to use software and USB cable making tuning a snap
- Runs up to 8 injectors independently
- · TPS Calibration, to account for slight variations between bikes
- · Self mapping capability with purchase of optional Z-AFM
- · Optional handlebar mounted MAP switch available separately (WPS # 277-A868)

ELECTRONIC JET KIT

"INSTALL AND RIDE, EFI MADE EASY."

The EJK (Electronic Jet Kit) evolved out of the need to address the ever-increasing complexity of factory fuel injection. For the newcomer to the market or professionals wanting an easier method for tuning fuel injection, the EJK is a customizable solution for the shop that wants to take control of their tuning needs.

- No computer needed
- No dyno required
- Quick "plug and play" installation, initial settings are all preset based on make/ model
- Full range tunability, does not interfere with stock ECU
- Simple push button adjustment interface
- 2 year warranty

The GEN 3 is a piggy-back EFI controller because it does not replace the stock ECU, but rather monitors the signals to the injectors and makes fuel adjustments based on the mode settings. The GEN 3 has a push button interface allowing access up to 6 different modes to allow for quick fine tuning by the end user without needing a computer. The GEN 3 also is nitrous oxide compatible, and allows the user to add fuel thru the stock fuel injection when using nitrous oxide.

The GEN 3.5 EFI controller is an extension to the GEN 3 controller. The GEN 3.5 controller has the ability to add or pull fuel within each available fueling zone. The GEN 3.5 is NOT compatible with nitrous oxide systems.

Not legal for use in California on pollution controlled vehicles, race use only in California - waiver available

FUEL TUNER

The AFR+ brings together two technologies within one system to make it the most powerful, user-friendly tuning device on the market. AFR+ combines an EFI controller with a wideband O2 sensor and AFR gauge to provide a user instant fuel trimming ability and feedback about their vehicle's state of tune.

- Maximizes power and fuel economy
- Plug and play installation
- On the fly tuning, no dyno required
- Works with all ECU downloads and all brands of aftermarket ECU controllers
- Does not interfere with stock ECU operation
- Includes air/fuel ratio gauge (2 1/8" diameter), wideband controller and Bosch O2 sensor (gauge mount and O2 sensor bung not included)

Not legal for use in California on pollution controlled vehicles, race use only in California - waiver available

Springfield	`16-18	131-12024

The AFR+ can handle all of your fueling needs or compliment ECU downloads and already installed EFI controllers. The AFR gauge allows you to know exactly how well your tune-up is performing. The EFI fueling allows you to control any necessary fine tuning without spending more money or valuable time.

- Harley Davidson AFR gauge is chrome w/grey face/orange needle, Indian and Victory AFR gauge is chrome w/white face/orange needle, all others are black w/black face/orange needle. Gauge can be exchanged direct with Dobeck if another color is wanted.
- 1 Year warranty, will not void any OEM factory warranties

ACCELERATION TUNER

CCT is an acronym for "Consecutive Cycle Tuning". We use CCT to describe our fuel tuning process, which is the measuring of consecutive cycles of power, with unique amounts of fuel to determine which fuel amount provides the best acceleration.

The process, in many ways, is identical to the acceleration measuring procedure used in today's most popular tuning dynamometers, such as, those made by Dynojet and other companies. The important thing to remember is the time between consecutive cycles of power and between fuel adjustments on a dynamometer are measured in minutes and is based on one style of load or acceleration simulation at any given time, while the Tier 1 Tuners innovative +CCT Acceleration Optimizer technology has a time between consecutive cycles of power and tuning of fuel that is measured in milliseconds and is based on Real Time/Real Life constant feedback.

The Tier 1 Tuners +CCT Acceleration Optimizer can now provide your motorcycle with Real Time fuel adjustments that will optimize acceleration and compensate for the constantly changing Real Life conditions, (i.e. 1up/2up, head winds, tailwinds, uphill, down hills, etc.) which substantially affects the performance mode operations of your motorcycle throughout your normal daily driving.

The +CCT's patented technology adds a "Closed Loop" control system to your bikes fuel injection system. Almost all motorcycle fuel injection systems in use today are using "open loop" control systems when they are being driven in a performance manner. "Open loop" refers to a control system that does not have feedback to adapt to conditions outside of its current programing, while a "closed loop" control system functions by its ability to take feedback from an engine sensor. For example, the oxygen sensors common on many of today's motorcycles use this type of system in cruise, but not in power mode.

The +CCT Acceleration Optimizer unit will add a "closed loop" control system to your current fuel injection system while it is in performance mode. The +CCT Acceleration Optimizer adjusts fuel while receiving feedback from the engine's acceleration in Real Time/Real Life. The fuel is changed to whatever is needed to optimize the engine's acceleration while in performance mode.

Tier1Tuners +CCT Acceleration Optimizer can provide up to 95% optimization under Real Time/Real Life performance acceleration.

Most motorcycles today that use an "open loop" control system during power mode operation are typically about 70% optimized (because of various Real Time/Real Life road conditions). When optimizing the fuel map to 70%, a 30% margin is created to maintain good drivability over the full range of acceleration rates found in real life performance driving. The +CCT Acceleration Optimizer's "closed loop" functionality cuts this margin of error from 30% to only 5% thus giving you up to 95% optimization under Real Time/Real Life performance.

Tier1Tuners new +CCT Acceleration Optimizer is a standalone performance product. It requires no other modifications to deliver its performance potential. The +CCT Acceleration Optimizer derives its benefit from its Real Time/Real Life "closed loop" functionality, not from making a better or different open loop fuel map.

- Real Time Fuel Adjustments
- Up To 95% Optimization Under Real Life Acceleration
- Works On Stock Or Currently Mapped Bikes
- Made In The U.S.A

HIGH FLOW REPLACEMENT AIR FILTERS

- Designed to provide increased performance
- Pleated media provides a large filtration area offering long service intervals
- Multi-Layers of woven cotton gauze media offers excellent filtration
- Fits directly into OEM Airbox with application specific sealing bead to ensure a precise fit
- Fuel management modifications are not normally required for increased performance
- Made in the USA for over 40 years
- Washable & reusable, pre-oiled and ready to ride!

FOR SCOUT MODELS

RadiusX is a high performance centrifugal auto clutch combining our TorqDrive and EXP technologies. TorqDrive provides more clutch disks in less space, allowing for maximum performance within your bike's existing clutch footprint. You retain full control of shifting and use of your clutch lever with no compromise in power delivery.

- Dead-on clutch engagement every time
- Take off and stop in gear without using clutch lever no more stalls
- Experience maximum power delivery
- Confidently navigate traffic and slow speed conditions
- TorqDrive® clutch pack delivers higher torque capacity and increased power transfer
- Rekluse sleeves eliminate basket wear and notching
- Standard clutch lever function with full override
- No modification to stock components
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)

	Application	Rekluse #	WPS#
`15-Up Sco `18-Up Sco	ut, `16-Up Scout 60,	RMS-6231	156-9207

TORQDRIVE CLUTCH **FOR SCOUT MODELS**

Unlock more power! TorgDrive provides more disks in less space, allowing us to add up to 6 additional frictions disks to the clutch pack over stock. More frictions = more torque capacity thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock up device. Proven in racing at the highest levels, it's not just good, it's rEvolutionary.

- Plus 6 friction disks offers up to 50% stronger clutch engagement with no increase in lever effort
- Smoother shifting
- Improved lever feel
- Engineered to eliminate slip and tunable to handle high horsepower engines
- Steel core friction disks for improved heat dissipation and longer clutch life
- · Rekluse sleeves eliminate basket wear and notching

DERBY COVERS FOR SCOUT MODELS

A Rekluse Derby Cover is the perfect complement to your RadiusX or TorqDrive. Designed to match OEM specifications, they bolt on with no modifications or drilling. Available in Gloss Black or Wrinkle Black powder coating, they will give you the look you want.

- Designed to OEM specifications no modifications necessary
- Powder coated billet aluminum for increased durability
- Fits over all Rekluse or OEM clutches
- Available in gloss or wrinkle black

ADAPTIVE LED HEADLIGHTS **FOR VICTORY**

The Adaptive 2 Series headlights have been improved to feature Adaptive technology when using the high beam, in addition to the low beam. Providing ditch-to-ditch lighting to eliminate dark corners on sharp turns and a punch of light 1,500 feet down the road to give you a safer and more confident ride to master the corners.

The Model 8695 Adaptive 2 offers a dynamically adaptive LED headlight designed to fit Victory® motorcycles, featuring the diamond shape unique to this application.

- Improved to feature adaptive technology with the high beam, in addition to the low beam
- Diamond shape mount for Victory motorcycle headlights
- On-board intelligence senses leaning angles when cornering to control light
- · Dynamically fills in dark areas while turning
- · Breakthrough improvement in visibility and safety
- · DOT-compliant headlight
- Dual Burn™ high low & beam optics for extra punch of light
- ComfortLite[™] high beams

12V GENERATOR

Cycle Electric Inc. makes generators to fit Indian Chiefs in 6V and 12V configuration. These generators offer a higher than stock output and are therefore equipped with a built in regulator, except 273-1454 which must be used with a high output regulator. They fit in the stock mounting clamp and use the stock 1/2" straight bore pulley.

SPARK PLUGS

- Listed price is for individual spark plug
- Spark plugs sold individually
- To receive box, order listed box quantity

FRONT BRAKE APPLICATIONS

USA made, they range has a highly refined copper alloy including extra expensive ingredients to further enhance lifetime and silence the brakes during operation.

Black Coded: Street Sport/Touring with Aramid fibre composite, the most popular pad for street use.

V series: Heavy duty organic/copper sintered material gives the feel of an organic pad with the wear characteristics of a sintered pad. Great for larger touring bikes, offers stable braking with minimal pad/rotor wear and lower brake dusting of wheels.

Double-H: High friction superbike/race sintered formula. Double-H sintered pads offer the maximum brake effect and a lifetime approximately double that of any organic pad. Add "H" to end of part number.

HIGH PERFORMANCE BRAKE PADS

- All Braking® brake pads are asbestos and nickel free
- Other brake companies stress friction over other performance factors — Braking® uses an organic base material for outstanding friction along with a soft, non-aggressive metal that allows the pad to glide on the disc, providing better control
- All Braking® brake pads are compatible with cast iron, stainless steel and Carbiron® materials and, when used with Braking® rotors, provide the greatest control and braking power available

• SM1 SEMI-METALLIC PADS

- Perfect alternative to OE replacement
- Deliver dependable, rugged performance certain to satisfy the most demanding sport riders, commuters and touring enthusiasts
- Superior performance in wet or dry conditions
- SM pads are fade-free, noise-free and dust-free
- · Smoothness, consistency and responsiveness from the lowest to highest possible temperature
- · Gentle on all rotors

• SPORT COMPOUND CM55/56 SINTERED METAL PADS

- Upgrade from stock
- CM55/56 sportbike pads are a sintered mixture designed to give power and longevity
- CM55/56 pads offer strong power, stability and improved brake modulation and feel

OIL FILTERS

- Provides unbeatable performance and exceptional value,
 Hiflo filters are the best-selling brand of aftermarket filters for motorcycles worldwide
- To achieve our high quality and to ensure the consistency of our products, we use only premium raw materials from well known manufacturers
- Every oil filter goes through 16 individual quality control checks before it is ready to leave the factory. The whole manufacturing process, including the checking of raw materials and individual filter testing, is regularly audited and verified independently

PROMOTIONAL REFERENCE INDEX

Quality oil filters manufactured by one of the largest manufacturers and suppliers of motorcycle filters.

Today's motorcycles require a high performance oil filter with a high oil flow capacity in order to withstand high heat and pressures. EMGO oil filters meet or exceed these requirements.

BAZOOKA SHOCKS FOR INDIAN SCOUT

Bazooka Mono R Features

- Speed Adaptive Valving (SAV) technology
- Internal Floating Piston (IFP) design stabilizes damping performance
- Forged A7075 aluminum one-piece damping body construction
- · Rebound adjustable
- Easy setup preload adjustability

Bazooka HLR Remote Reservior Features

- Speed Adaptive Valving with progressive valve stack
- Internal Floating Piston technology for consistent performance
- · High and Low Speed compression damping adjustability
- · Rebound adjustable
- Forged CNC machined eyelet
- Hard chrome shaft for smooth operation
- Remote reservoir may interfere with OEM or aftermarket saddlebags

Application	Description	WPS#
Indian Scout Models `15-Up	11.5" Monotube Shocks w/Rebound Adjust	890-01080
	11.5" Remote Reservoir Shocks	890-01085

FORK SPRINGS FOR INDIAN SCOUT

- Multirate springs ensure a smooth, responsive ride under all road conditions
- Genisis springs have an additional inner spring that prevents excessive dive and bottoming during hard braking while retaining a comfortable smooth ride
- All kits include precision wound, stress relieved, machine polished springs and aluminum spacers
- · Instructions included
- Made in the USA

Application	Description	WPS#
Scout Models `15-17 and `19	Multirate Fork Springs	015-01100

WHEEL BEARING AND SEAL KITS

- Contains all of the bearings and seals required to re-fit a wheel
 Wheel bearings typically fail from water and dirt contamination.
- Wheel bearings typically fail from water and dirt contamination.
 The All Balls wheel bearing was developed in partnership with KML Bearing and is designed for the difficult operating environment of the Power Sport industry
- Premium EMQ quality, hi-speed-bearing featuring low drag, double lip rubber seals which provide superior exclusion of water, dirt and to improved grease retention
- Type TC Nitrile Elastomer wheel seals are specifically designed to keep out water and dirt
- The rubber coated outside diameter creates an optimum seal at the hub
- Steel garter spring guarantees constant pressure on the axle shaft over the life of the seal

FORK/DUST SEAL WIPER KITS

- Patented fork seal features a balanced 3 lip design that evenly distributes the pressure reducing operating temperature, wear and friction.
- Custom Elastomer Fork Seals have been tested to outlast OEM fork seals. Extends typical seal life by 3 to 5 times over OEM seals.

 Stiction (friction) measures from 1/3 to 1/2 less than OEM seals for smoother fork action.

- Lower Stiction, Longer Life! It doesn't get any better than this!
- Plus, the only complete line of dust wipers! Wipers should be replaced with the fork seals to assure peak performance.

Functions smoothly during repetitive jumping. Seal life is 540,000 strokes, equal to 100 hours of continuous 28.8' jumps. Seal life exceeds current seals by 496,800 strokes (8 hours of continuous 28.8 foot jumps).

CUSTOM VICTORY WHEELS

Set your Victory apart from the crowd with a set of our custom billet wheels! Available in three distinct designs to complement the style you are going for. They come in black anodized finish with machined details or high gloss triple chrome finish. All wheels are CNC machined from forged aluminum for superior strength and durability. Our wheels fit all current Victory models and are designed to accept stock rotors and pulleys.

Manufactured and tested in the USA

Applications on the following pages

WEATHERALL PLUS

- Features 4 built in alarm sleeves (n/a with medium cruiser and trike covers) for use with up to 2 secure alarm systems
- Waterproof heavyweight polyester construction
- Moisture guard venting system to eliminate condensation
- Flannel liner to protect windshields on large and extra large covers
- Scorch-resistant aluminized lower panels
- Elastic corded bottom hem for a snug fit
- · Stuff bag for travel storage
- For 130db secure alarm use 27-6350

WEATHERALL PLUS EZ-ZIP

- Heavy duty polyester material for long lasting durability
- · ClimaShield Plus fabric coatings ensure water repellency, UV stability and retard the growth of mildew
- Aluminized panels to guard against hot engine and pipes
- EZ On and EZ Off zipper make installation/removal of cover hassle free
- · Windshield liner protects windshield from scratching
- · Shock cord hem and sewn-in grommets for added security

ULTRALITE PLUS

- Water repellent rip-stop polyester
- · Better tear and abrasion resistance than standard ultralite
- · Sewn-in storage bag
- Full perimeter elastic cord with locking grommets
- Gray/Silver color

- · Water-repellent, lightweight polyester
- · Shock cord hem and locking grommets
- Storage bag
- · Available in blue, gray, khaki and yellow

ULTRALITE

LEGEND TRAVELER COVER

- · Covers the top half of your bike
- Tough, lightweight synthetic fabric for strength and durability
- · Breathable and water repellent
- · Covers fairing, seat, and rear trunk
- Elastic cord ensures a snug fit
- · Compact design folds easily into tank bag or trunk

70MM ROUND LOCK

- 19mm Armor protected shackle
- Stainless steel, deep welded body
- 5 pin brass cylinder

WPS#

57-9744

44MM PADLOCK

- · Hardened steel shackle
- Double dead bolt locking mechanism
- Laminated steel padlock with plated steel body

WPS# 57-9716

CABLE AND PADLOCK

- 5/16" X 6' self coiling cable
- Hardened steel padlock with plastic cover
- Easy to use and carry

WPS# 57-9711

STRONGHOLD

- Above ground anchor security
- · Hardened carbon alloy shackle
- Comes with cement anchor bolts
- 7 ¹/₂" dia. x 1 ⁵/₈" tall

WPS# 57-9776

TRUCK BED U-LOCK

- Provides locking 190° swivel tie down point
- Hardened steel shackle and lock body
- Fits into pick-up truck bed stake hole pockets or onto the stock tie down locations of the following:

Dodge Ram and Dakota '06-up Ford F-Series '02-up GMC/Chevy 1500/2500 '02-up Toyota Tundra '05-up

WPS# 57-7621

PYTHON ADJUSTABLE CABLE LOCK

- Cut resistant 6' long, 3/8" diameter vinyl coated braided steel cable
- · Weather Tough aluminum alloy lock, cylinder shutter

Description WPS# Python cable lock 57-7640

QUANTUM ARMORED CABLE LOCK

- 6' long braided steel cable with 1 3/16" O. D. hardened steel sleeve
- · Anti-drill lock cylinder
- · Vinyl coated cable for scratch resistance

WPS# 57-7650

QUANTUM 20 CABLE LOCK

- 5' long 20mm vinyl coated braided steel cable
- Integrated mini U-lock for enhanced security
- · Looped cable end for increased versatility
- Anti-drill lock cylinder

57-7651

TITANIUM SERIES PADLOCKS

- · Reinforced with titanium
- · Hardened steel shackle
- · Ideal with looped cables

WPS# Description 57-7662 Keyed

QUANTUM CABLE LOCK

- 6' long 15mm vinyl coated braided steel cable
- Anti-drill lock cylinder

WPS# 57-7652

TUFF LINKS

- 3' long hardened chain with attached lock
- · Black nylon sleeve protects from scratches

CABLE AND PADLOCK

- 1/4" X 6' self coiling cable
- 1 9/16" wide laminated steel lock with weather proof cover
- · Hardened steel shackle with molded cover

WPS#

57-7665

QUANTUM CUFF AND CAB

- 6' long braided steel, vinyl coated cable
- Super strong cuff type lock assembly
- 3" cuff diameter to fit fork tubes, frames, sign posts, and parking meters

INDEX

STREET CUFF LOCK

- Hardened chrome plated steel resists cutting or prying
- Compact and lightweight, folds in half for easy storage
- 3" diameter to fit fork legs or frames, can be secured to sign posts, parking meters or another bike
- Push button keyless locking
- Pivoting action combined with 22" length provides lockdown versatility

WPS# 57-7601

STREET CUFF HOLSTER

- Full grain leather holster provides storage and easy access for the 57-7601 Street Cuff
- Compact for comfort and convenience
- Heavy duty snap hold securely while riding

WPS#

MINI U-LOCK

- 14mm U-lock shackle
- Inside measurements 3 11/16" long X 1 7/8" wide
- Hardened shackle resists cutting and sawing
- Vinyl coated to prevent scratches

WPS# 57-7620

2" DISC BRAKE LOCK

- Prevent roll-away theft
- 2" throat depth with a 6.3mm shackle
- Push button locking system with high security lock
- Orange in color

WPS#

3" DISC BRAKE LOCK

- · Prevent roll-away theft
- 3" throat depth with a 9.5mm" shackle
- Push button locking system with high security lock

• Orange in color

57-7631

WPS#

Carrying case included

STAINLESS STEEL ROUND PADLOCK

- 2 ¾" wide corrosion resistant stainless steel body
- Fully shielded design minimizes shackle exposure and protects against bolt cutter attacks
- 19mm hardened steel shackle for extra cut resistance

WPS# 57-7663

LAMINATED STEEL PADLOCK

- 1 ¾" wide laminated steel body
- 4 pin cylinder helps prevent picking
- Dual locking levers and hardened steel shackle for extra pry and cut resistance

XZZ6L SERIES ALARM DISC LOCKS

XZZ6L series locks are designed to work on scooters and full sized motorcycles and measure 2 3/4" long x 2 1/2" long

XZZ6L-Y

- · Easy to use push-down locking,
- 1/4" hardened steel pin
- 120 db lithium powered alarm
- Yellow finish hardened steel body

XZZ6L-SS

- Easy to use push-down locking,
- 1/4" hardened steel pin
- 120 db lithium powered alarm
- · Hardened steel body, stainless steel finish

XSU LOCKS

- XENA XSU locks pair the highest-quality materials with top-notch design for rugged build-quality that stays highly resistant to the elements through years of use.
- · Constructed from high-grade stainless and inert gashardened steels.
- XSU69- 16mm Chrome Steel U-Bar

SINGLE WEIGHT ENGINE OIL

- Recommended for pre-Evolution V-twin motorcycles
- Meets or exceeds Harley Davidson warranty criteria
- Made from severely hydrocracked base oils for the ultimate in purity
- Superior film strength resists break down and increases service life
- Meets or exceeds API CI-4/SL service rating
- Sold in quarts (12 per case)

De	Description		WPS #	
50 wt 1 qt 12/case		822-1011		
60 wt	1 qt	12/case	822-1021	

FULL SYNTHETIC ENGINE OIL

- Produced using ultra high grade fully synthetic base oil
- Stable base oil molecules minimize oxidation and premature breakdown
- Engineered specifically as a "multi-fill" lubricant for Harley Davidson engines, transmissions and primaries
- Excellent protection against engine wear and sludge buildup
- Meets or exceeds all Harley Davidson warranty criteria
- Meets or exceeds API CI-4/SL service rating
- Sold in quarts (12 per case) and gallons (6 per case)

Description		WPS #
1 qt	12/case	822-1041
1 gal	6/case	822-1042
	1 qt	1 qt 12/case 1 gal 6/case

TRANSMISSION OIL

- Developed for use in 4, 5 and 6 Speed Harley Davidson transmissions
- Blended for ultra high film strength offering excellent wear protection and durability
- HardDrive's extreme pressure additive package provides smooth shifting across all RPM ranges
- Meets or exceeds API GL-5 classifications
- Sold in quarts (12 per case)

De	scrip	tion	WPS #	
85W140	1 qt	12/case	822-1051	
80W90	1 qt	12/case	822-1052	

BIG TWIN PRIMARY OIL

- Developed for use in all '84 and newer Big Twin Harley Davidson motorcycles equipped with a wet type diaphragm spring clutch
- Blended with extreme pressure additives for outstanding film strength, wear protection and durability
- Specifically formulated for high performance primaries
- Sold in quarts (12 per case)

Desc	criptio	on	WPS #	
Primary Oil	1 qt	12/case	822-1053	

SPORTSTER GEAR/ CHAINCASE OIL

- Developed for use in '71 and newer XR and XL models where transmission and primary chain case share a common lubricant
- Blended with extreme pressure additives for smooth shifting throughout the RPM range
- Specifically blended for high performance gear boxes
- · Meets or exceeds API GL-5 classification
- Sold in quarts (12 per case)

Descript	ion		WPS #	
Gear & Chaincase Oil	1 at	12/case	822-1054	

FORK OIL

- Developed for use in both OEM and aftermarket fork assemblies
- Designed for use in hot or cold climates
- Formulated for consistent damping action and to resist fading or surging
- Meets or exceeds API GL-5 classifications
- Sold in quarts (12 per case)

Descript	ווטוו		WF3#

- Wear and corrosion protection for long chain and sprocket life
- Dries clear
- Anti-wear and anti-foam
- · For chain applications including 'O', 'X', 'Z' ring units and roller chains

Description WPS#	١
175 ml aerosol 12/case 840-0200	
400 ml aerosol 12/case 840-0208	

WATERPROOF GREASE

- Waterproof grease for all bearing and bushing applications
- Corrosion protection (even in salt water)
- Wear protection extends bearing life
- Will not melt or run

Descript	ion	WPS#

SUPER DOT 4 BRAKE FLUID

- Formulated for hydraulic brake systems
- Mixes with all fluids meeting DOT 3 and DOT 4 specifications
- Boiling point: dry 230°C (446°F), wet 155°C (311°F)
- For brake systems and hydraulic clutches, except systems using mineral base fluids

Description		WPS#
55 ml	12/case	840-2701

SILICONE DOT-5 BRAKE FLUID

- Formulated for hydraulic brake systems
- Mixes with all fluids meeting DOT 5 specifications (not compatible with DOT 3 or DOT 4)
- Boiling point: dry 260°C (500°F), wet 185°C (365°F)
- Will not damage paint or absorb moisture
- For brake systems and hydraulic clutches, except systems using mineral base fluids

Desc	ription	WPS#	
355 ml	12/case	840-2500	

FOAM FILTER OIL

- Designed to improve air flow
- Traps microscopic particles to extend engine life
- Waterproof formula prevents clogging when wet

Descript	Description		
400 ml aerosol	12/case	840-3802	
1 lt	12/case	840-0601	

BIKE WASH

- Softens and lifts accumulated dirt and grime without rubbing or brushing
- Easily rinses away with water
- Environmentally friendly, contains no volatile or potentially harmful solvents

Desc	ription	WPS#	
32 oz	12/case	840-2205	

CHAIN CLEANER

- No residue ensures optimum chain performance
- Fast, economical safe for 'O', 'X', 'Z' rings and std chains
- Excellent compliment to BEL-RAY chain lubes

Descript	ion	WPS#	
) ml aerosol	12/case	840-0214	

CONTACT CLEANER

- Aerosol spray applicator allows pinpoint use
- · No messy clean-up
- Suitable for world wide use

Descript	ion	WPS#	
400 ml aerosol	12/case	840-0902	

ALL IN ONE FUEL TREATMENT

- Increases octane for more efficient combustion and increased engine power
- Cleans fuel lines and injectors to ensure smooth fuel delivery into the combustion chamber
- Neutralizes all of the harmful effects ethanol has on gasoline
- · Keeps fuel fresh during storage
- Simple application to fuel with no complicated measuring or mixing

EXCELL - 4 CYCLE

- A premium based multi-viscosity racing oil formulated to protect your engine during the extreme demands of all out competition
- · Contains the latest in EP (Extreme Pressure) and antifriction additives
- High resistance to thermal and foaming break down
- Recommended for all 4-cycle engines, burning alcohol. gasoline and nitro fuels in racing or high performance applications

"GOLD LABEL" 2 OR 4 CYCLE

- · Combination racing castor/octane booster
- Increased RPMs without carburetor modification
- · Blends completely with gasoline or alcohol
- Promotes quick cold weather starting
- · Reduces heat build-up in hot weather

CONVERSION FLUID

- Flushing fluid for 4 cycle lubrication systems when changing from mineral oil to castor oil or vice-versa
- Compatible with either oil and leaves no residue
- Conversion fluid prevents lumping or congealing of lubricants that do not mix

Desc	ription	WPS#	
32 oz	12/case	55-0469	

- 4 CYCLE

RACING CASTOR LUBE

- The ultimate racing lubricant for all 4 stroke engines
- · Reduces wear to vital engine parts in all gasoline/alcohol high performance 4 cycle engines
- Improved ring seal
- Maximum lubrication without exhaust smoke and keeps internal parts like new

Descri	otion	WPS#	
32 oz 45W	12/case	55-0465	

TIRE TRACTION TREATMENT

- · Reinstates chemicals into race tires that are lost when tires are heated
- · Restores original softness

Des	cription	WPS#	
1 qt	12/case	55-0555	

OCTANE BOOSTER

- Increases horsepower by relieving detonation
- Lowers combustion chamber temperatures
- · Blends with pump, racing gas and methanol
- · Controls condensation in fuel tanks without harmful additives

Des	cription	WPS#	
16 oz	12/case	55-0490	

CHAIN LUBE

- · Racing chain lubricant with high film strength and the unique ability to cling to metal without washing off
- · Protects standard and O-ring chains from wear and corrosion

CHAIN AND CHAIN CASE LUBE

- Black formula contains graphite
- · Dramatically reduces friction
- Provides maximum power and performance in extreme conditions
- Unique formula protects chains and sprockets from wear and breakage

Description WPS # 12 oz. 10/case **842-0116**

CHAIN LUBE

- EXTRATAC™ penetrates deeply and dries tacky
- Waterproof formula prevents rust and wash off
- Approved for conventional and "O" ring chains
- Extends chain and sprocket life
- · Loosens stiff chain links
- · Environmentally safe formula

Description WPS # 15.5 oz. 10/case **842-0119**

NITRO RACING ADDITIVE WITH KOOLINAL

- Developed for gasoline, E85, methanol and diesel fuels
- · Oxygenating power additive
- 50% Nitropropane, 50% Koolinal
- Koolinal is a blending agent that resists detonation and pre-ignition
- Extracts maximum HP from stock and modified engines
- Increases low-end torque

Description WPS #16 oz 10/case **842-0130**

HITRATE® RACING GAS CONCENTRATE

- Converts 92 octane pump gasoline to 103-105 octane racing gas
- Unleaded formula
- Provides smoother torque curves for more usable power
- · Cost-effective alternative to race gas
- Blends gasoline and ethanol enriched fuels
- Mix ratio is 1 gallons I Hitrate to 9 gallons of 92 octane gasoline

Description WPS # 1 gal 842-0054

OCTANE BOOSTER AND GAS STABILIZER

- Recommended for gasoline or ethanol enriched fuels
- Increases pump gasoline octane up to 10 numbers
- Tetraethyl lead substitute for added lubricity
- Stabilizes flame front and controls burn speed
- Cleans injectors, carburetors and catalytic converters
- O2 and converter safe
- No MTBE
- Absorbs moisture

Des	cription	WPS #
16 oz	10/case	842-0133
1 gal		842-0134

CONTACT CLEANER AND DEGREASER SHOP SIZE

- · Convenient, fast cleaner and degreaser
- Removes gum, varnish and carbon build-up
- Cleans fouled spark plugs
- Fast evaporation leaves no residue
- Non-conductor, safe for electrical systems
- · Displaces moisture and water
- · Cleans gasket surfaces

Desc	ription	WPS #	
12.5 oz	10/case	842-0146	

FILTER CLEANER

- Removes dirt and oil from filters
- Provides increased airflow and performance
- Environmentally friendly
- Can be used with or without water
- Perfect for use at the track or off-road

Description WPS # 16 oz 10/case **842-0120**

FOAM AIR FILTER OIL

- Blocks out moisture, dirt and water
- For waterproof protection
- · Improves air flow
- Filters out micron-sized particles

Description		WPS #	
15 25 nz	10/case	842-0140	

FABRIC AIR FILTER OIL

- Works great in all fabric type filters
- Will quickly penetrate and saturate fabric
- Straightens turbulent air, improving engine performance

ENGINE OIL

- · Formulated with the highest quality base oils
- Made with exclusive additives
- · Lowers engine oil temperatures
- · Longer engine oil life
- Extends engine component life
- · Reduces engine noise, helps prevent
- Meets JASO specifications

Descri	iption		WPS #	
10W40	1 qt	6/case	58-5240	
20W50	1 qt	6/case	58-5241	
50 W	1 qt	6/case	58-5242	
70 W	1 qt	6/case	58-5243	

PRIMARY CHAIN **CASE OIL**

- · Smooth clutch action, less slippage
- · Extends chain and sprocket life
- Delivers cooler and quieter operation
- Designed for heavy duty, high performance application
- Meets or exceeds all OEM requirements

Desc	ription	WPS#
1 nt	6/0200	58-5203

HEAVY DUTY GEAR OIL

- · Designed for racers
- · Contains special anti-wear and lubricity agents
- · Helps control heat
- Excellent for high performance and heavy-duty applications

Descrip	tion		WPS #	
80W90	1 qt	12/case	58-5200	
85W140	1 qt	12/case	58-5201	

MOTORCYCLE OIL STABILIZER

- 100% PETROLEUM base
- · Reduces engine temperatures and friction
- Extends oil life
- · Increases oil pressure
- Increases power and fuel mileage
- · Will not sludge or varnish
- · Cools and quiets engine and gear boxes

Description		WPS #	
12 oz	12/case	58-5260	

SYNTHETIC **ENGINE OIL**

- · Formulated from the highest quality synthetics
- · Made with exclusive additives
- Lowers engine oil temperatures
- · Longer engine oil life
- Extends engine component life
- · Reduces engine noise, helps prevent
- Meets JASO specifications
- Moly engine oil is not for use in wet clutch applications

V-TWIN GEAR AND TRANSMISSION OIL

- Formulated for cool quiet performance
- · Minimum wear and minimum drag
- · Withstands high power and high temperature
- · Designed especially for V-Twins, high performance or heavy duty
- Meets or exceeds all OEM requirements

Descrip	tion		WPS#	
75W140	1 at	6/case	58-5202	

SYNTHETIC GEAR AND TRANSMISSION OIL

- · Designed to cushion gears and resist "squeezing out"
- · Formulated for high performance and heavy duty applications
- Withstands high temperatures
- · Super slick long lasting lubrication

Descri	otion		WPS #	
75W90	1 qt	12/case	58-5205	
75W140	1 qt	12/case	58-5206	
80W85	1 qt	12/case	58-5207	

ETHANOL FUEL **CONDITIONER**

- Developed to prevent corrosion and degeneration of fuels containing ethanol
- · Cleans injectors, valve seats and combustion chamber while running
- · Works in any alcohol fuel mixes or gasoline
- Great for 2-stroke and 4-stroke engines
- 1 oz treats 5 gallons

Desci	ription	WPS #	
5.25 oz	24/case	58-5281	
16 oz	12/case	58-5280	

FUEL STABILIZER

- Developed to prevent gasoline breakdown during storage
- · Safe for all grades of gasoline
- Excellent for 2-stroke and 4-strokes
- 1 oz treats 1 gallon

UCA5	Des	cription	WPS #
ABIUIZEN	8 oz	12/case	58-5285
	1 qt	12/case	58-5286
Its Fuel Degradates			

FUEL TREATMENT

- · Formulated for use in gasoline, diesel and LPG engines
- Known as tune-up in a bottle
- · Cleans and lubricates the entire fuel system, pumps, injectors or carburetors
- · Neutralizes low sulfur fuel problems
- Increases power and mileage by efficient burning
- 1 oz treats up to 5 gallons of fuel

Description		WPS #
5.25 oz	24/case	58-5288
32 oz	12/case	58-5370

OCTANE BOOSTER

- · A real octane booster
- · Safe for use with turbos, oxygen sensors and catalytic converters
- · Good in carbureted or injected engines
- Promotes cleaner fuel burn resulting in less exhaust emissions
- · Not street legal, for use in 4 stroke engines only
- 15 oz bottle treats up to 25 gallons of fuel

Desc	ription	WPS #	
2 oz	18/case	58-5290	
15 oz	12/case	58-5291	

SYNTHETIC FORK OIL

- · Made from the highest quality SYNTHETIC base oils
- Delivers more responsive handling
- · Prevents foaming
- Reduces thermal expansion
- · Prevents seal hardening
- Prevents static friction and gives great wear protection
- · Compatible use in all suspensions

Description			WPS #	
5 W	16 oz	12/case	58-5250	
10 W	16 oz	12/case	58-5251	
15 W	16 oz	12/case	58-5252	
20 W	16 oz	12/case	58-5253	

CHAIN LUBE

- Designed for deep penetration for the pins and bushings
- Foam facilitates penetration into chain
- · Maintains and excellent corrosion inhibitor and water resister
- Provides a film protection to ensure minimum wear and drag
- · Suitable for all types of chains
- · Minimizes sling off

Desc	ription	WPS #	
11 oz	12/case	58-5272	

ASSEMBLY LUBE

- · Eliminates dry starts
- · Perfect for engine building or rebuilding
- · Prevents seizing, galling or scuffing
- · Compatible with all oils
- Super slick and tacky
- Easy to use

Des	cription	WPS #	
4 oz	12/case	58-5265	
8 oz	12/case	58-5266	

TOOL BOX BUDDY

- Dissolve rust and corrosion without drving
- Provides a very light film to stop rust for up to one year
- Low odor
- · Fortified with anti-seize agents
- Easy to use

Description		WPS #

AIR TOOL OIL

- · Extends air tool life
- Protects under extreme operating temperatures
- · Disperses water
- · Resists blow out
- Excellent for locks

Description WPS # 16 oz 12/case **58-5274**

SLICK MIST SPEED WAX

· Premium paint gloss intensifier

· Great for motorcycles, cars, trucks, boats and airplanes

- Shines and protects in one easy application
- Excellent on chrome, glass and vinyl
- · Use on wet or drv surfaces
- Quick and easy

2 oz 20 pack w/counter display 58-5304
24 oz 12/case 58-5301

FOAM FILTER OIL

- Easy pour on
- · Low solvent
- · Low viscosity
- · Repels moisture
- Penetrates filter easier to trap dirt and dust
- Improve air flow

Des	cription	WPS#
1qt	12/case	58-5277

SYNTHETIC BRAKE FLUID

- Designed for all disc and drum brake systems requiring DOT 3/DOT 4 brake fluid
- Safely mixes with DOT 3 brake fluid
- Minimum wet boiling point is 311° F (155° C)
- Meets FMVSS 116 and SAE J1704 specifications

WPS# Description 12 oz 12/case 58-5320

GUN OIL

- · Protect your guns and equipment with the latest in lubricating technology
- · Super slick formula clings well for easier operation and reduced wear
- Heat and water resistant, environmentally friendly
- · Neutralizes acids caused by contact with human hands and resists drying during long storage periods

Description WPS# 2 oz 18/case **58-5350**

HEAVY DUTY GREASE

- · Last four times longer than regular grease
- · Virtually waterproof
- All temperature stable
- Exceeds Lube for life specifications
- The ultimate grease for high speed bearings

Descripti	on	WPS #
1 lb tub	12/case	58-5295
14.5 oz cartridge	10/case	58-5296

RED 'N' TACKY GREASE

- · Formulated with rust and oxidation inhibitors
- Water resistant
- · Maintains excellent mechanical stability
- · Long storage life
- · Fortified with Anti-Seize compounds
- · Wide variety of applications

Description		WPS#	
1 lb tub	12/case	58-5298	
14.5 oz cartridge	30/case	58-5299	

MARINE GREASE

- · Heavy duty lithium complex
- Designed to provide maximum lubrication under the most severe conditions
- A true marine trailer wheel bearing and chassis grease
- · Long lasting
- · Protects in both salt and fresh water
- Extreme friction reducer

WPS# Description 14 oz 30/case 58-5297

CONTACT **CLEANER**

- Formulated with a unique blend of solvents, cleaning agents and propellants
- · Removes oil, dirt and moisture
- · Non-chlorinated CFC free formula dries quickly and leaves no residue
- Not for use on plastic

Description WPS# 14 oz 12/case 58-5309

LUCAS APPLICATOR

- · Convenient bottle for tool box, range box and tackle hox
- Durable removable metal needle
- · Bottle has writable area for identification of continence
- · Made in the U.S.A.

Description WPS# 58-5390 1 oz

V-TWIN FULL SYNTHETIC ENGINE OIL

- Full synthetic, ester-fortified 4-stroke engine oil
- Formulated specifically for V-Twin engines
- Approved for H-D V-Twin engines, transmissions and primaries
- Superior protection and oxidative stability at any temperature
- Excellent clutch feel and clutch protection
- Shear stable, ester-fortified formula maintains oil viscosity and film thickness
- Surface-active chemistry aggressively attaches to engine surfaces and keeps them clean
- Exceeds API SL and JASO MA2 specifications

Description		WPS#		
20W50	1 gt	12/case	78-99920	

V-TWIN MINERAL OIL

WPS PAYS 1/2 FREIGHT ON DRUMS OF OIL

- Mineral based 4-stroke engine oilFormulated specifically for V-Twin
- Formulated specifically for V-Iwir engines
- Superior protection at any temperature
- Excellent clutch feel and clutch protection
- Shear stable formula maintains oil viscosity and film thickness
- Optimizes cleanliness while controlling oxidation and wear
- Exceeds API SL and JASO MA2 specifications

V-TWIN SYNTHETIC PRIMARY OIL

- Full synthetic, ester-based motorcycle gear oil
- Formulated for use in high performance V-Twin transmissions and primary chain cases
- Designed for all 1984 and newer Harley-Davidson® models with wet diaphragm spring clutches
- Shear-stable formula provides superior protection from wear, pitting and spalling
- Ensures optimal clutch engagement, prevents slippage and minimizes wear
- Extends chain life by minimizing stretch and wear

Description WPS#

12/case **78-99928**

V-TWIN PRIMARY OIL

- · Mineral-based motorcycle gear oil
- · Formulated for use in high performance V-Twin transmissions and primary chain cases
- Designed for all 1984 and newer Harley-Davidson® models with wet diaphragm spring clutches
- Shear-stable formula minimizes chain and gear wear
- Ensures optimal clutch engagement, prevents slippage and facilitates smooth shifts
- Extends chain life by minimizing stretch and wear

Description WPS#

12/case 78-99924

V-TWIN SPORTSTER **GEAR / CHAIN CASE OIL**

- · Mineral-based motorcycle gear oil
- Formulated for use in high performance V-Twin Sportster transmissions and primary chain
- Designed for 1971 and newer Harley-Davidson® XR and XL Sportster transmissions and chain cases
- Shear-stable formula minimizes chain and gear wear
- Ensures optimal clutch engagement, facilitating smooth shifts and enabling maximum power
- Extends chain life by minimizing stretch and wear

Description WPS# 1 qt 12/case 78-99923

V-TWIN FORK OIL

- · Mineral based fork oil
- Developed and tested in H-D® Fork Systems
- Lubricinol-fortified formulation reduces overall friction and decreases stiction
- Shear stable, high viscosity index formula maintains film strength and reduces wear
- · Maintains optimal damping performance by minimizing foaming and air entrainment
- Keeps internals clean while eliminating conditionin

CHAIN WAX ULTIMATE CHAIN CARE KIT COMBO 3-PACK

Description

WPS#

17.1/14.5/17.3 fl oz 4/case 78-9949

- Includes Clean-Up 17.1 oz., MPPL 14.5 oz. & Chain Wax 17.3 oz.
- · A clean and well lubricated chain ensures a long lasting drive train
- Safe and effective 3-step system to bring a chain back to life
- Clean & remove dirt and debris from the chain with Clean Up
- · Push out moisture and protect the chain from rust with MPPL
- · Coat the chain with Chain Wax to reduce friction and seal it from the elements
- Safe for use on X. Z and O-Ring chains

SUSPENSION CLEAN

- Specially formulated for the suspension industry professional
- Dries quickly and completely, leaves no residue
- Will not remove most inks or printing
- · Will not harm most rubber materials or bushings
- · Displaces moisture
- No harsh chemical smell

Descri	iption	WPS#	
16.1 fl oz	12/case	78-9946	

CHAIN WAX

- ParaFilm™ wax coats chain from harsh elements
- Excellent where water or high humidity are present
- · Will not fling off
- Safe for X, Z and O-Ring chains
- · Perfect for road and off-road applications

INDEX

100% SYNTHETIC **CHAIN GUARD**

- 100% Synthetic clear chain lube
- Designed to penetrate chain pins and rollers for optimum lubrication
- Fights rust & corrosion and the attraction of dirt
- Resists fling by creating a stringing effect
- · Safe for use on X, Z and O-Ring chains
- For off-road & street use

Descri	ption	WPS#	
7.4 fl oz	20/case	78-9932	
17.3 fl oz	12/case	78-9933	

ASSEMBLY LUBE

- Formulated to protect at startup and facilitate efficient break-in
- 2X Zinc system provides exceptional anti-wear protection at all temperatures
- · Compatible with all mineral, semisynthetic and full synthetic engine oils
- Rust and corrosion protection during extended storage
- · Pleasant cinnamon scent

Description WPS# 4 oz 12/case 78-9970

FAB-1 FABRIC & FOAM FILTER SPRAY

- · Advanced spray-on synthetic air filter treatment
- · Will not plug foam cells or migrate off filter
- Super tacky coating catches dirt and fine dust
- Water-resistant
- Dark blue in color to ensure even coverage

Description WPS# 18.8 fl oz 12/case **78-9928**

CLEAN UP DEGREASER & CHAIN CLEANER

- · Heavy duty, emulsion type cleaner specially designed for chains
- · Removes encrusted chain lube, dirt, sand and other contaminates
- · Safe on aluminum, steel and other metals
- Will not harm O, X or Z-ring chains
- Easy spray on and rinse off application

Description WPS# 17.1 fl oz 12/case 78-9942

MPPL

- Frees rusted & corroded parts
- Displaces moisture
- · Perfect as a light lubricant
- Excellent fogging oil or starting fluid for 2 and 4 stroke engines

Description WPS# 14.5 fl oz 12/case 78-9945

SPEED WAX

- · All-in-one detailer that conditions, shines and protects
- · Cleans and enhances painted surfaces, chrome, anodizing and plastic
- · Soothing wax leaves the surface protected
- Safe on all finishes
- Excellent cleaner between washes

Description WPS# 17.8 fl oz. 12/case 78-9973

CITRUS CONTACT/ BRAKE CLEANER

- · Quickly removes oil, grease and other contaminates from engine electrical components
- · Displaces moisture, non-corrosive and non-staining
- Fast drying cleaner, leaves no residue
- Powerful spray gets hard to reach areas
- · Citrus scented

WPS# Description 17.5 fl oz. 12/case 78-9941

SC1 HIGH GLOSS

- · High gloss coating restores factory shine and color
- Safe on all finishes
- Excellent mud and debris release when left on surface wet
- Leaves a dry, long lasting luster
- · Fresh clean scent
- · New bike in a can

Description WPS# 12/case 78-9944

AIR FILTER MAINTENANCE CARE KIT COMBO 2-PACK

- Includes Air Filter Cleaner 17.1 oz., FAB-1 18.8 fl.oz.
- A clean and perfectly oiled air filter provides maximum airflow and increased horsepower
- · Air Filter Cleaner is a heavy duty emulsion-type cleaner designed to thoroughly remove oil and dirt
- FAB-1 spray-on synthetic air filter oil provides unequalled protection against the elements
- · Takes the guess work out of purchasing individual cans

Des	cription	WPS#	
Cleaner/Fab 1	17.1 fl oz/18.8 fl oz	78-9947	

HI-TEST OCTANE BOOSTER

- · Concentrated octane booster
- · Organic, contains no metal (lead, manganese or phosphorus) compounds
- · Mixes with gasoline, alcohol and nitro mixtures
- · Suppresses detonation and pre-ignition
- · Eliminates pinging and knocking from low quality gasolines

Description WPS# 16 oz. 12/case **78-9950**

BRAKE FLUID

- Available in DOT 4, RACING DOT 4, DOT 5 & DOT 5.1
- DOT 4; for vehicles requiring DOT 3 or DOT 4
- Boiling points, DRY 469 F(243 C) / WET 318 F (159 C)
- RACING DOT 4; mixes with DOT 3 and DOT 4
- Extreme boiling points DRY 622 F (328 C) / WET 399 F (204 C)
- DOT 5; for use in any vehicle requiring DOT 5
- DOT 5.1; mixes with DOT 3, DOT 4 and DOT 5.1
- Boiling points DRY 516 F (269 C) / WET 369 F / (187 C)

DE	escription	ML2 #	
DOT 4	16.9 oz 12/case	78-9964	
DOT 5	16.9 oz 12/case	78-9965	
DOT 5.1	16.9 oz 12/case	78-9963	

FUEL DE-ICER

- · Great for snowmobiles, watercraft, ATVs and motorcycles, 2 or 4 stroke
- · Works like a sponge to eliminate moisture from fuel systems
- Improves fuel flow at extreme low temperatures
- · 4 oz. treats 5 gallons of fuel

Description WPS# 8 oz 12/case 78-9953

AIR FILTER CLEANER

- Specific spray-on foam and fabric air filter cleaner
- Removes heavy oils, greases soil and other FUELSYSTEMS contaminants
- · Will not harm foam, fabric or glued seams
- Emulsion formula contains no caustic chemicals and washes out easily with water

Description		WPS#	
17.1 fl oz	12/case	78-9940	
640z	6/case	78-9976	

CHANGE

FUEL STORAGE STABILIZER

- · Protects your system against ethanol based fuels
- Eliminates the need to drain or dispose of fuel over long storage periods
- Works with both gasoline and diesel fuels
- 1 oz per gal protects system from corrosion due to the use of ethanol based fuels

Description WPS# 1 qt 12/case **78-9972**

WATERPROOF GREASE

- Multi-purpose lithium complex grease
- · Excellent resistance to water washout. Saltwater resistant
- · Clings to metal surfaces under the most severe condition, will not thin out
- Use on all motorcycle, ATV, PWC, trailer and snowmobile components
- · Very high temperature grease suitable for disc brake applications
- NLGI #2 consistency

Desc	ription	WPS#	
	•	78-9948	

BIO WASH

- Professional strength, fast-acting cleaning agents
- 100% biodegradable
- · Tough of dirt yet gentle enough for most surfaces
- Safe on paint, plastic, chrome, anodizing, rubber and carbon fiber
- Advanced micro chemistry protects metal and alloys

Description WPS# 32 oz. 12/case 78-9975 WINDSHIELDS Fairings

INDEX

TWIN 20W50 MOTOR OIL

- Specially formulated, high performance, 100% triple synthetic motorcycle oil with ESTER
- Engineered to handle and protect against high temperatures found in big air-cooled Twins
- Molecular polar bonding technology enables oil to cling to metal parts, providing a protective film to help reduce wear at start-up
- · Exceeds requirements for Twins with separate clutches and primary cases found on Harley-Davidson® models

- Designed to provide outstanding grip on wet clutches to prevent slippage
- High levels of ZDDP extreme pressure additives, combined with anti-oxidant and anti-foam properties
- Recommended for use in H-D Milwaukee 8®, Twin-Cam®, Evolution®, Sportster® engines and primary case.

Description WPS# 12/case 82-2004

TWIN 75W90 GEAR OIL

- · An exceptionally high performance 100% synthetic transmission oil with **ESTER**
- Engineered for use in 4-speed, 5-speed and 6-speed transmissions
- API GL-5 rated, extreme pressure lubricant for helical or straight cut gears
- Ideally made to handle the high shock loads in Big Twin transmissions
- Molecular bonding technology enables the oil to cling to metal parts under extreme conditions
- · Provides a protective film that extends the life of gears and bearings while reducing drag

WPS# Description 1qt 12/case 82-2111

TWIN PRIMARY OIL

- Engineered for use in Big Twin primary drives with wet clutches
- · Provides outstanding grip for wet clutches to help prevent slippage and chatter
- · Features a protective film that reduces wear and extends the life of bearings, chains and sprockets

Description WPS# 82-2112 12/case

TWIN GEAR AND CHAINCASE OIL

- Engineered to handle the combined duties of protecting the primary drive and transmission on Sportsters
- Formulated to reduce drag and provide quieter and smoother shifting while providing outstanding grip for wet clutches, helping prevent slippage and chatter
- · Exceptionally high performance 100% triple synthetic oil with ESTER

Description WPS# 82-2110 12/case

300V ROAD 4T

- Racing 100% Synthetic w/Ester Core Technology
- · Provides extra power by minimizing engine internal friction
- Ensures oil pressure and shear stability
- · Outstanding extreme pressure and anti-wear protection

PROMOTIONAL REFERENCE INDEX

20W50 MOTOR OIL

- Blended with specific friction modifiers that are compatible with wet-clutches, suitable for JASO MA applications
- Extended drain intervals over other brands due to higher quality basestocks and excellent dispersants
- Designed for the latest Big-Twin motorcycle engines that specify 20W50 motor oil, including including Evolution, Twin Cam, and aftermarket engines of similar design
- Superior film strength through the use of ester base stocks for protection and ring seal

Des	cription	WPS#
1 qt	12/case	57-6531
55 gal		57-6537

20W60 MOTOR OIL

- Recommended for V-twins that need more viscosity due to operation in extremely hot climates.
- Popular for Evos and Twin Cam engines with big bore kits, stroker kits or issues with valvetrain noise
- Specifically blended for air-cooled V-Twin engines with traditionally wide clearances like Knuckleheads, Shovelheads and Panheads
- Superior film strength through the use of ester base stocks for protection and ring seal
- Extended drain intervals over other brands due to higher quality base stocks and excellent dispersants

Des	scription	WPS#	
1 qt	12/case	57-6532	
55 gal		57-6538	

WPS PAYS 1/2 FREIGHT ON DRUMS OF OIL

WPS PAYS 1/2 FREIGHT ON DRUMS OF OIL

V-TWIN PRIMARY OIL

- Same fluid as our famous MTL gear oil
- This product is for use in the primary chaincase with wet-diaphragm spring clutches.
- Improves clutch operation while reducing wear and temperature
- For 1984-to-present V-Twin American motorcycle engines, including Evolution, Twin Cam, and aftermarket engines of similar design
- Where most synthetics are too slippery for clutch operation, this frictionbalanced product is balanced to provide less slip, smoother operation, and helps to apply more power in modified engines

Des	cription	WPS#
1 at	12/case	57-6522

FUNNEL

- That funnel that works
- Rotate around to get into those extremely difficult areas
- · Works with all fluids

WPS#	
57-6599	

V-TWIN TRANNY OIL

- This product dampens transmission noise (reducing the notorious shifting clunk found in these gearboxes), dramatically reduces temperature, provides thicker oil films between gear teeth and resists throw-off
- For all aftermarket versions like Baker, JIMS, S&S, etc.
- For all H-D® trans including with Evolution engines, Twin Cam engines, and latest 6-speed Cruise Drive
- Same fluid as our unique Heavy ShockProof® Gear Oil

Description		WPS#	
1 qt	12/case	57-6521	

80W GEAR OIL

- Popular for Sportster V-Twin transmissions
- ShockProof® features microscopic solid medium to provide cushioning between gear teeth, while maintaining lower drag
- Provides consistent shifting and wet-clutch operation

Des	cription	WPS#	
1 qt	12/case	57-6520	

POWERPACKS

- Complete kit for Big Twins with either 10W50, 20W50 or 20W60 motor oil
- Includes 5 quarts of Motorcycle Oil, 1 quart of V-Twin Transmission Oil with ShockProof, 1 quart of Primary Chain Case Oil, 1 bottle of Fuel Injection Cleaner for Motorcycles, a sticker kit, a Red Line Oil embroidered hat, and a versatile funnel

Description	WPS#	
20W50	57-6560	
20W60	57-6561	

SYNTHETIC DOT 4 BRAKE FLUID

- Engineered to maintain viscosity and lubricity at extreme temperatures
- Safeguards against vapor lock and brake fading
- Blends with and meets specifications of DOT 3, DOT 4, DOT 5.1
- 604 degrees Fahrenheit dry, 400 degrees Fahrenheit wet

Description		on	WPS#
DOT 4	16 07	6/case	57-6575

SUSPENSION FLUID

- Superior shear stability over most popular shock oils
- · Allows use of lower viscosities
- Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids
- Eliminates most foaming and provides excellent seal lubricity
- Anti-wear additives assist in longer shock life
- These products can be mixed together to create intermediate viscosities, customized for a dampener's particular characteristics

Description			WPS#
Likewater	16 oz	12/case	57-6550
2.5W	16 oz	12/case	57-6551
5W	16 oz	12/case	57-6552
10W	16 oz	12/case	57-6553
30W	16.07	12/case	57-6554

ASSEMBLY LUBE

- Prepares potential wear surface and prevents metal contact before adequate lubrication can be supplied
- Unlike other assembly lubes, Red Line's will not plug filters after initial engine start-up
- Provides 3x greater film strength than conventional black Molybdenum Disulfide greases
- Excellent rust and corrosion inhibitor, allows for long-term storage
- For use on camshafts, lifters, pushrods, piston skirts, main and rod bearings, and bolt threads
- Do not use on exhaust bolts or other high temperature bolts which require an anti-seize
- Recommended and used by top camshaft and drivetrain manufacturers

Description		WPS#
4 oz 12/case		57-6565
12 oz	6/case	57-6566

FUEL SYSTEM CLEANER

- Concentrated, high-temp detergents clean your carburetors or fuel injectors, fuel lines, tank, intake valves, combustion chambers, fouled plugs
- Improves fuel economy, throttle response, hesitation and stalling
- Compatible with both pump gas and race fuel, pre-mixed or injected twostrokes
- Cleans emission control systems (safe for catalytic converters and sensors)

Des	cription	WPS#	
4 oz	12/case	57-6545

T-4MXR/T-4R SYNTHETIC/ PETROLEUM BLEND

- New generation of MPZ racing oil with an unmatched formula of synthetic and petroleum based oils, polymers and performance additives
- Flows freely in a cold engine and maintains a heat resistant oil film when hot
- Reduces piston scuffing, valve train wear and maintains better ring sealing

* T-4MXR Recommended for Offroad 4-Stroke racing engines

Description				WPS#		
	10W40	1 lt	T-4R	12/case	88-6062	
	20W50	1 lt	T-4R	12/case	88-6063

WPS PAYS 1/2 FREIGHT ON DRUMS OF OIL

ENGINE OIL

- Formulated using highly stable hydrocracked base stocks and our race proven MPZ additive providing better cooling, cleaning, ring scaling, deposit control and wear protection
- Special additive components maintain viscosity and provide thermal stability under high heat environments found in air-cooled V-twin engines

Description			WPS#
20W50	1 lt	12/case	88-6086
50W	1 lt	12/case	88-6087
60W	1 lt	12/case	88-6089

TRANS LUBE

- V-Series Trans Lube is a selective blend of synthetic and petroleum-based oils designed to protect all gear face surfaces and bearing compounds
- Race-proven extreme pressure and anti-friction chemistry promotes the highest degree of protection for extended transmission life
- This shear stable formula also provides smooth shifting and prevents the formation of rust and oxidation

Description		WPS#			
75W90	1 lt	12/case	88-6195		

PRIMARY CHAINCASE LUBRICANT

- V-Series Primary Chaincase Lubricant is a synthetic and petroleum-based fluid designed to protect all critical drive components found in Harley® and aftermarket primary chaincases
- Selective blend of extreme pressure and anti-friction additives provide the highest degree of protection as well as smooth positive clutch operation

De	scription	WPS#
1 lt	12/case	88-6191

MGO HYPOID GEAR OIL

- A blend of the finest synthetic and petroleum base oils and polymers with extreme pressure, anti-wear, anti-foam and anti-oxidant additives
- For use when heat, speed and shear are critical factors

Description			WPS#
80W90	1 lt	12/case	88-6181

RFF RACING FORK FLUID

- Designed to exceed the demands of all cartridge and conventional fork applications
- This high VI synthetic blend formula features the best anti-stiction technology and promotes consistent dampening under the most extreme temperature conditions
- Best protection against foaming, seal swell, oxidation, corrosion, friction and wear

[Descrip	tion	WPS#

WPS PAYS 1/2 FREIGHT ON DRUMS OF OIL

ACCELERATOR RACE FUEL CONCENTRATE

- A blend of components which transforms the make up of premium pump gas to closely resemble race fuel
- Significantly raises the octane of premium fuel (91 octane): 32 oz To 10 gals = 102 octane, 32 oz to 5 gals of fuel = 105 octane!
- Will not harm sensitive O2 sensors or catalytic converters
- Great for motorcycle, ATV, snowmobile, watercraft and automotive use

TITANIUM CHAIN LUBE

- Eliminates "Fling off"
- Formulated with anti-rust chemistry
- Extreme pressure and shear stable formula
- Designed for all standard, O-ring and racing chains

Des	cription	WPS#
5.5 oz	12/case	88-6311
13 oz	12/case	88-6312

BRAKE/CONTACT CLEANER

- Effectively removes brake fluid, oil and greases
- For use on brakes, electrical components and all metal surfaces
- · Quick drying with no residue
- · Noncorrosive and nonstaining

Desc	WPS#	
13 07	12/case	88-6315

MOTO-PREP SILICON SPRAY

- Revives dull faded surfaces to dry shiny finish
- Formulated for use on plastic, painted, fiberglass and metal surfaces providing a long lasting shine
- Highly recommended for the underside

Description		WPS#
12.5 oz	12/case	88-6306

MPZ SPRAY LUBE

- Same qualities as the MPZ engine assembly lube in the convenience of an aerosol spray
- Heat proof, wear proof, rust proof
- Unique high tech multi purpose lubricant that stays put and won't let go

Description		WPS#
5.4 oz	12/case	88-6305

MPZ ENGINE ASSEMBLY LUBE

- Friction proof, wear proof, corrosion proof, water proof
- Excellent lube for engine assembly. Use on wrist pins, bearings, bushings and gears

Desc	WPS#	
4oz tube	12/case	88-6300

MPZ CAM LUBE

- Recommended as a pre-lube for engine assembly
- For coating cams, rocker arms, valves and springs
- Same formula as engine assembly lube in a thicker viscosity

Desc	WPS#	
1oz tube	12/case	88-6308

WATERPROOF GREASE

- Lithium complex grease offers excellent lubricating properties
- Race proven formula is designed to protect against shock loading, extreme pressure and water washout

Desc	WPS#	
8oz tube	12/case	88-6307

BIKER LEATHER CARE

- Cleans and Conditions leather and vinyl with no build up
- Revitalizes dull, dry, faded leathers
- Will not rub off on hands or clothing
- Protects against UV damage
- Inhibits mold and mildew
- Increases strength and flexibility
- No more smelly leathers!

	Description	WPS#
Α	Biker wash 16oz spray	57-6201
В	Biker water repellant 8oz	57-6204
C	Biker finish 8oz	57-6202

BIG BIKE WASH

- Hog Wash Brand Big Bike Wash has got you covered
- This proprietary formula removes grease, bugs, dirt and road grime
- Leaves a shine better than any of the competitors
- With its spray on, rinse off, no scrub formula you will be out cruising
- Safe for all bike surfaces when used as directed
- Non-corrosive and biodegradable

Description	WPS#	
22oz	12/case	80-0280
1gal	4/case	80-0281

SWINE SHINE

- Cleans and shines all surfaces SAFELY and QUICKLY without using water
- Good on painted surfaces, windshields, chrome, aluminum, fiberglass rubber and laminated graphics
- No need for scrubbing, rinsing or drying
- This great smelling formula contains no harsh solvents
- Fortified with Polyseal Protection
- Give your bike a deep rich shine that protects from UV damage
- Protects against acid rain, and water spotting
- Its high lubricating agents encapsulate dirt and grime for easy removal

Description		WPS#	
40Z	12/case	80-0282	
22oz	12/case	80-0283	

WINDSHIELD CLEANER & PROTECTANT

- High tech blend of surfactant cleaners and polymers
- Cleans and protects your windshields in one easy step
- Advanced polymers repels rain, prevent bugs from sticking and eliminate fingerprints
- Leaves a finish unequaled by other products
- Prevents fogging and safely cleans without scratching
- Safe for all windshield surfaces including polycarbonate and Lexan®

- Cleans all matte, denim and carbon fiber surfaces SAFELY and QUICKLY
- No water needed, no scrubbing, rinsing or drying!
- · Contains no harsh solvents
- Fortified with Polyseal, shields surfaces from UV damage
- Protects against acid rain, water spotting and fingerprints
- Just spray on, wipe, and you're done
- Good for all painted surfaces, anodizes, powder coated, chrome, aluminum, fiberglass,plastic, rubber and windshields

Description		WPS#
8.5 oz	12/case	80-0287

MELT MAGIC BURN REMOVER

- A fast and easy answer to removing unsightly burn marks
- Caused by rubber and plastic that has been melted onto exhaust pipes and motors from boots or rain gear
- Safely and effectively removes debris without damaging bike surfaces or chrome pipes

Description		WPS#
40z	12/case	80-0290

METAL POLISH

- Thick no-run formula that stays where you want it
- Cleans, polishes and preserves most metal surfaces
- Good for chrome, aluminum, brass, nickel, stainless steel, bronze, copper, magnesium, platinum
- Contains white jewelers rouge that makes billet aluminum shine like chrome
- Not for use on clear coated or anodized surfaces

Description		WPS#
807	12/case	20-0291

BLACK BACK

- Advanced silicone product that is the perfect finishing touch
- A great melon scented spray quickly brightens, protects and restores
- Good for paint, plastics, vinyl and rubber
- Contains no ozone depleters or chlorinated solvents
- Prevents dirt from adhering to treated surfaces

Description		WPS#
12oz	12/case	80-0292

PIG GREASE

- Retards rust, repels moisture, lubricates and penetrates rust on any metal
- · Harmless to paint, plastics, rubber or fabric
- Does not contain silicones
- Good for motorcycle, automotive, boat and marine equipment
- Ideal for sporting goods or household items
- Dries out wet ignition systems and motors, stops battery corrosion, and loosens rusty bolts
- Use on fishing tackle, guns, tools or any metal item where lubrication or rust and corrosion protection is needed

Description		WPS#
1107	12/case	80-0293

MICROFIBER DETAILING CLOTHS

- 16" x 16"
- Non-electrostatic, super absorbent, hypoallergenic, lint free and non-abrasive
- · Reusable and machine washable

Description		WPS#	
2 Pack	12/case	80-0299

LEATHER CLEANER & PROTECTANT

- A one step advanced formula for cleaning, restoration and protection
- When dry it leaves a transparent, non-slippery, and water repellent gloss coating
- Beautifies and restores surfaces
- UV protection ingredients helps to prevent drying, cracking and fading

Description		WPS#	
40Z	12/case	80-0284	
220z	12/case	80-0285	

COMPLETE FUEL TREATMENT

- · Reduces problems caused by ethanol and non ethanol fuels
- Removes water from fuel
- · Increases horsepower
- · Stabilizes fuel for up to 36 months
- 1 oz treats up to 10 gallons of fuel, boosts octane up to 4 points

Description	WPS#
1oz	80-0296

THE ONLY FUEL ADDITIVE YOU'LL EVER NEED

STREET BIKE CLEANING AND DETAIL KIT

- Attractively packaged in a retail quality box
- A great gift idea

Kit contains:

- 1-32 oz bottle of Street Bike Wash
- 1-14 oz can of Spray Cleaner and Polish
- 1-8 oz bottle of Metal Polish
- 1-2 pack of Micro-fiber detailing cloths

Description		WPS#
Cleaning and detail kit	12/case	80-0240

DETAILING KITS

Quick Detailing Kit contains:

- 1-14 oz can of Spray Cleaner and Polish
- 1-2 pack of Micro-fiber detailing cloths

Description		WPS#	
Quick Detailing Kit	8/case	80-0224	
Roadside Detailing Kit	6/case	80-0225	

Roadside Detailing Kit contains:

- 1-5 oz can of Spray Cleaner and Polish
- 1 Micro-fiber detailing cloth

CLEANER AND POLISH

- Formulated to remove road grime, dirt, grease and bugs on contact
- This roadside detailer with its spray on, wipeoff formula requires no water and leaves a showroom shine
- Protects against sun and ozone damage, safe for all surfaces

STREET WASH

- · Premium street bike wash has got you covered with a secret formula that removes grease, dirt and road grime better than any other competition
- Non-corrosive, biodegradable and safe for all surfaces

Des	cription	WPS#
32 oz	12/case	80-0211
1 gal	4/case	80-0212

CYCLE WASH

- Cycle Wash is a surfactant based formula that lifts dirt from the surface and leaves a shine unequaled by any other cleaner
- Safe for all of today's high tech metal or plastic offroad motorcycle surfaces
- Non-corrosive and biodegradable

Des	cription	WPS#
32 oz	12/case	80-0200
1 gal	4/case	80-0201
5 gal	pail	80-0203

BLACK STREAK REMOVER

- · No-scrub, spray on, wipe off formula
- · Quickly and easily removes those hard to clean black streaks
- · Spray on soiled area and wipe clean with a clean wet cloth or sponge
- · Works great on fiberglass, aluminum and all painted surfaces

Des	cription	WPS#
32 oz	12/case	80-0270
1 gal	4/case	80-0271

RDX RUBBER & ADHESIVE REMOVER

- RDX is an environmentally friendly cleaner
- · Removes adhesive residue, rubber, soils and grease

Description WPS# 15 oz 12/case 80-0233

LP-33 PENETRATING LUBRICANT

- · Retards rust, drives out moisture
- · Lubricates and penetrates rust on any
- Wont harm paint, plastics, rubber or fabric
- Contains no silicones

Description		WPS#
11 oz	12/case	80-0258

CONTACT CLEANER

- Concentrated blend of solvents removes grease, grime, brake fluid and other contaminates from brake components
- · Evaporates instantly and completely, leaving no residue to hinder performance
- VOC compliant

Description		WPS#
14 oz	12/case	80-0230

POLY WAX

- Provides long lasting protection from dirt, road salts, detergents and oxidation
- Easy to use formula delivers a deep, wet-looking high-gloss shine
- No white residue of traditional waxing
- Provides months of protection in one easy step

Description		WPS#
8 oz	12/case	80-0259

PAINT POLISH

- Swirl mark reducer and gloss enhancing polish
- Restores full gloss after compounding or to remove fine scratches, swirl marks or light oxidation
- · Apply by hand or machine
- Contains no silicone, fillers or waxes and is clearcoat safe

Description		WPS#
8 oz	12/case	80-0260

METAL POLISH

- Cleans, polishes and preserves most metal surfaces
- Works great on chrome, aluminum, brass, nickel, stainless steel, bronze, copper, magnesium, platinum and more

Description		WPS#
8 07	12/case	80-0223

MICRO FIBER DETAILING CLOTHS

- Detailing cloths feature a soft surface that is ideal for high quality cleaning and detailing
- Can absorb up to seven times their weight in water
- Perfect for use in drying or polishing any reflective surface

Description		WPS#
2 nor nack	12/0200	8U-U33U

TOPKOTE

- Topkote finishing spray is an advanced silicone product that is finishing tough
- Quickly treats plastics, vinyl, rubber and more
- Helps prevent mud and dirt from sticking to treated surfaces

Description		WPS#
12 oz	12/case	80-0221

TOTAL CYCLE CLEANER

Rider Magazine called it "the Revolution for the Saturday morning wash" and no wonder! A clean bike in 15 minutes with no muss and no fuss.

- Spray on, hose off formula
- More riding time, less cleaning time
- Factory approved and supplied to leading bike manufacturers
- · All surface safe

В

	Description	WPS#
Α	500 ml bottle with sprayer	12/case 59-9300
В	21 oz aerosol	12/case 59-9301
C	Deluxe set with sprayer, sponge and booklet	12/case 59-9302
	1 liter refill for deluxe set	12/case 59-9303
	5 liter canister	59-9304
	100 liter drum	59-9305

ACCESSORIES

SPRAYER FOR 5 LITER CANISTER INCLUDES:

- Heavy duty spray head and cap
- 6 foot hose eases cleaner application
- Perfect for bike prep, shop use

WPS# 59-9330

DRUM PUMP FOR 100 LITER DRUM INCLUDES:

- Thread adapter
- · Pumps approximately
- 1 pint/stroke

WPS# 59-9331

SHINE ENHANCING CLEANSER

- Removes water spots and small swirl marks
- Clear coat safe
- Preps bike for the perfect wax job

Description		WPS#
11.8 oz	12/case	59-9307

CARNAUBA PASTE WAX

- The ultimate in depth of shine
- Easy on, easy off formula
- Does not contain cleaners or abrasives
- Non-powdering; won't stain rubber or plastics

Description		WPS#
6.2 oz	12/case	59-9306

Description

12/case

10 oz aerosol

DETAIL + WAX

59-9311

• Clean and shine in one easy step

• Incredible water-repellent shine

Contains Carnauba

Helps resist damaging UV rays

SPECIAL SURFACES **CLEANER**

- Spray on, wipe off streak-free plastics cleaner
- Removes bugs, rains spots, road film
- Use on helmets, visors, fairings, instruments etc.
- · Safe for all types of plastics

Description		WPS#
10 1 07	12/case	50.0314

WHEEL CLEANER

- · Removes the toughest brake dust
- Non-acid, non-lye based formula
- Safe for all wheels and coatings, even anodized
- Unique gel formulation clings for better cleaning

Description	WPS#
500 ml	59-9308

Special Surfaces

ENGINE BRIGHTENER

- Makes engines look "factory new" again
- Easy spray-on formulation
- High temperature stable
- Detergent resistant

Description		WPS#
4.5 oz aerosol	12/case	59-9312

CORROSION **PROTECTANT**

- Keeps metals corrosion-free during riding season
- Easy spray on formulation
- Salt spray tested at Daytona
- Perfect for winter lay-up

Description		WPS#
7.2 oz aerosol	12/case	59-9309

FINISH RESTORER

- Quickly shines up tarnished metals
- Use on chrome, aluminum, stainless
- · Buffs out easily
- · No ammonia odor

Description	WPS#
3.56 oz	59-9310

CYCLE CARE GIFT SET

- 5 S100 Products in handy organizer: Total Cycle Cleaner, Detail and Wax, Finish Restorer, Corrosion Protectant, sponge and a drying towel
- The ideal holiday gift
- Perfect new bike delivery item

Description		WPS#
Gift Set	4/case	59-9315

POLISHING SOAP

- Easiest polish on the market
- · Applies like a soap; wipe on, hose off
- Shines up aluminum, chrome, stainless
- Unique water-based formula

Description		WPS#
10.6 oz	12/case	59-9313

DETAILING SET

- Ultra soft cloth for dusting, polishing etc.
- USP grade swabs (25 qty) bend 90°
- Clean areas where dirt and corrosion hide

Description	WPS#
Detailing set	59-9320
50 swab replacement set	59-9321

DRYING TOWEL

- Out dries natural chamois
- Won't get brittle when dry
- Lint free, mildew resistant
- Handy storage pouch for saddlebag

Description		WPS#
Towel	12/case	59-9322

brushes

CHAIN CLEANER WITH 360° BRUSH

- Quickly loosens grit and old chain lube from chains, wheels and frames
- Highly effective patented 360° brush included (also available separately)
- Safe on all chains/bodywork etc.
- Contains kerosene (as recommended by leading chain manufacturers)

Description		WPS#	
11 oz aerosol w/360° brush	12/case	58-7800	
360° brush only		58-7820	
360° bruch only POP jar w/25		59.7921	

PLASTIX CLEANER

- Powerful foaming action emulsifies and lifts out contaminants, cleans, polishes and protects
- Ideal for plastics, acrylics, Lexan, plexiglas, fiberglass, painted surfaces, finished metals and most hard surfaces
- Non-scratching water based formula offers anti-static UV protection and is water repellant and bug resistant
- Premium polishing cloth included in the cap

Description		WPS#
18 oz aerosol	12/case	58-7810

CHAIN WAX

- PTFE Teflon infused synthetic no-fling formula which virtually eliminates all friction
- Goes on clean, stays clean and will not attract dirt or road grime
- Keeps chain and sprockets clean and protected
- Safe for all types of powersports chains

Description		WPS#
14.8 oz	12/case	58-7801

CHAIN LUBE

Unique protection that performs

Our BananaSlip Chain Lube has been specifically formulated to perform exceptionally well under intense use in all weather conditions, while providing long lasting protection. Upon application it penetrates deep into all parts of the chain to give optimum coverage. BananaSlip Chain Lube contains a unique combination of properties in order to reduce frictional losses while leaving an anti-fling wet film with a slippery banana-flavored scent to protect against even the harshest environments.

Uses for BananaSlip Chain Lube:

- High performance motorcycles
- · Street, track or race riding
- Regular application of chain oil
- · Aggressive or fast riding
- Frequent gear changes and quickshifting
- 500ML

WPS# 59-2810

CHAIN WAX

Hard wearing, anti-fling Chain Wax

BananaSlip anti-fling PTFE Chain Wax is perfect for motorcycle and motorsport chains that will experience prolonged cycles and high impact environmental conditions.

Our unique formulation penetrates deep into the links of the chain before drying externally to leave a protective layer against water and dirt.

By producing an ultra-long lasting wax, BananaSlip keeps the joints of the chain well lubricated and reduces frictional losses between the chain and the sprocket up to twice as long as traditional chain oils. As a result, BananaSlip Chain Wax not only lubricates and protects but also enhances performance and the life of moving components.

Uses for BananaSlip Chain Wax:

- Touring, Sports Touring
- Off-road riding
- · Commuting & motorway
- · Mixed riding style
- 500ML

WPS# 59-2811

PRIMESHINE CHAIN CLEANER

- Perfectly removes all grease, oil and dirt build up
- Added chain protection
- Highly effective and easy to use
- Suitable for standard O, X and Z-Ring chains
- Reduces friction
- Brilliant for all road, off road and race chains
- 500ML

WPS# 59-2812

PRIMESHINE BRAKE CLEANER

- High powered nozzle blasts away dirt and grime
- Removes all brake dust, oil and grease
- Fast drying action with no residue
- Protects all seals and rubber components
- · Perfect for brakes and clutches
- 500ML

WPS# 59-2814

PRIMESHINE CARB CLEANER

- Cleans and lubricates
- High powered formula for easy cleaning
- Perfectly formulated for cleaning and lubricating carburetors and injectors
- Effectively removes all particles, varnishes, and contaminants for perfect runability
- 500ML

WPS# 59-2815

PRIMESHINE TT78 MULTI-USE SPRAY

- Motorcycle dedicated Multi-Use spray
- Effectively degreases and cleans in one step
- Perfect for high gloss finishes on engines and paint
- Lubricates stiff components
- Effectively prevents rust development
- High water repellant properties
- Perfect for general maintenance and cleaning
- 500ML

WPS#

59-2816

PRIMESHINE BODYWORK FOAM CLEANER

- One spray instant foam cleaner and polish
- Quick, easy and highly effective all in one cleaner
- No water needed, so no water marks!
- Perfect for Bodywork, Chrome, Painted & Plastic parts
- Leaves a highly polished, waxed surface
- Great for indoor cleaning
- 500ML

MIST-N-SHINE

PROFESSIONAL DETAILER

- · Adds a show-winning gloss and slickness to any vehicle
- Brightens all paint, clear coat, fiberglass and chrome
- Perfect to use between complete wax applications
- Great for spot cleaning to remove dust, bugs, fingerprints, etc
- · Safe for show chrome and Lexan
- · Hides swirls
- · Will not scratch or streak, even in direct sun
- Anti-static
- · Contains no wax, solvents or silicone body shop recommended

MYSTIC SPRAY AND WAX SLICK FINISH DETAILER

- Slick Nano Technology Protection
- · Best in class spray wax-detailer-dry wash
- Instant bonding to paint, chrome, glass, fiberglass or any hard surface
- · Relentless water beading wash after wash
- Extremely slick protective finish, adding gloss, depth and clarity with each application
- VOC compliant, contains no petroleum solvents or abrasives
- Pleasing fragrance

WIPE DOWN MATTE PAINT DETAILER

- · Safe for all paint systems
- Quickly cleans matte finishes: suede, denim, satin primer, powder coat and all flat clears
- · Adds no gloss or protection
- · Contains no wax, solvents or silicone
- Removes dust, fingerprints, road grime and oily residue without adding gloss
- Removes streaks and smears from overuse of waxes, glazes, etc.
- · Removes oily residue after buffing

BIKE WASH

COMPLETE BIKE CLEANER

- · Safe for paint, chrome, and plastics
- Foams away road grime, oil, grease, brake dust, and more
- Strong enough to degrease engines and wheels
- · Ease rinse formula cleans without spotting
- Biodegradable, ph controlled, no caustic soda, acids or bleach

SCRATCH REMOVER

SCRATCH REMOVER & PRE-WAX CLEANER

- · Levels minor scratches & swirls
- Removes light fading & blemishes
- Excellent pre-wax cleaner
- Safe on all paint, clears, & most plastics
- Hand or buffer application
- Safe alternative to harsh rubbing compounds

Description	WPS#
80Z	57-6310

BLACK RENEW

ALL COLOR EXTERIOR TRIM TREATMENT

- · Works on all colors of exterior trim
- Instantly removes embedded wax and compound from textured body side moldings
- Cleans and renews faded trim
- Concentrated cream outlasts sprays
- No airborne silicone contaminants

Description	WPS#
807	57-6320

SHINE MASTER

- · Easy on, easy off
- Use as a wax replacement, swirl mark remover or finishing glaze by hand or machine
- No free silicone or wax
- No streaks or smears
- Awesome gloss

Description	WPS#
1607	57-6324

METAL RENEW

ALL METAL LIQUID POLISH

- · Fast cut, high gloss
- Easier to apply and remove
- Brightens and renews aluminum, stainless steel and dull chrome*
- For show chrome use Mist-N-Shine®
- Creamy emulsion does not require constant shaking
- Use by hand or with Metal Buffs Kit

Description	WPS#
80Z	57-6307

WASH CONCENTRATE

- Rich think foam
- Easy cleaning
- Streak free rinsing
- Retains gloss and protection
- Safe for all surfaces

Description	WPS#	
16 oz	57-6223	
1 gal	57-6224	

W. S. C.

POWER

SEAL

MOTORCYCLES

LEATHER CARE PLUS

- Preserves and protects all fine leather, naugahyde and vinyl surfaces
- Contains moisturizers and lanolin oils
- Concentrated cream forms a penetrating leather lotion
- · Use on auto, apparel, luggage and furniture

Description	WPS#
8 fl oz	57-6341

MYSTIC CLAY **SMOOTHS ROUGH SURFACES**

- · Makes paint very smooth
- · Removes all surface contaminants: brake dust, paint over spray, tree sap
- · Safe on all paint/clears, metals, fiberglass and glass
- Made in the USA
- · Will not harden over time
- · Will not damage the finish

Description	WPS#	
120 grams	57-6301	

METAL POLISH MOTORCYCLES

POWER SEAL ALL METAL SEALER

· Environmental shield for all polished metals

- Provides an acrylic barrier to stop air and moisture corrosion
- Super seals and protects against rust and corrosion
- · Provides easy, high gloss maintenance as a micro polish

Description	WPS#
8 fl oz	57-6308

METAL POLISH THE MAGIC IS IN THE CLOTH™

- Fast cutting, highest gloss
- Brightens and protects all metals: aluminum, chrome*, stainless, brass, copper, nickel
- For show chrome use Mist-N-Shine®
- · Removes tarnish corrosion, oxidation, brake dust, and tar

Description	WPS#
30Z	57-6305

METAL BUFFS KIT

- Fast, easy, power polishing, four types of Metal Buffs
- Use with Wizards® Metal Renew™ for fast polishing
- 4 unique sizes and shapes of buffs
- 1/4" shank fits most electric and air drills

Description	WPS#	
Kit	57-6319	

DETAIL CLOTHS

- High Performance, Super Absorbent
- Best choice for use with Mist-N-Shine® and Wipe Down™
- · Guaranteed to absorb faster than any terry towel, cotton cloth or paper towel
- · Will not lint, streak, or scratch surfaces
- · Can be washed by hand or machine hundreds of times with no performance loss

Description	WPS#

FUEL CATALYST YOU EITHER HAVE FITCH OR YOU NEED IT!

- · Insure fuel quality during storage
- Increase gasoline octane or diesel cetane
- Improve engine performance (horsepower and torque)
- Improve fuel economy
- Reduce emissions green house gases
- Reduce engine maintenance
- Improve oil burner efficiency

- One application good for 250,000 miles or 5000 operating hours
- · Sold two capsules per display card
- One capsule is good for up to a 10 gal tank

Description	WPS#	
2/pak	57-1290	

STA-BIL ETHANOL TREATMENT

- A new formula designed to prevent corrosion from moisture and ethanol induced water attraction
- Best ethanol problem fighter with more than four times the fuel system cleaner than regular STA-BIL
- Contains twice the corrosion preventer than STA-BIL, as well as two non-alcohol water removers
- Designed for use with every fill up in all 2-4 stroke marine engines running gasoline, gas-oil mixtures, and ethanol blends
- Can also be used as a safe storage treatment in snowmobiles, motorcycles, motor homes, and all outdoor power equipment including lawn mowers and tractors
- 8 oz treats up to 80 gals and 32 oz treats up to 320 gals

Description	WPS#	
8 oz	57-1109	Π
32 oz	57-1130	

GAS STABILIZER

- Prevents gum, varnish, rust and corrosion in the fuel system and combustion chamber
- Keeps stored gas fresh indefinitely
- For use in all 2-cycle and 4-cycle engines
- Recommended by 20 top engine manufacturers
- · 4 oz treats 10 gals
- 8 oz treats 20 gals
- 32 oz treats 80 gals
- 1 gal treats 320 gals

Description		WPS#
4 oz	24/case	57-1104
10 oz	12/case	57-1108
1 qt	12/case	57-1132
1 gal	4/case	57-1128

FOGGING OIL

- Protects internal engine parts during storage
- Prevents corrosion of surfaces inside engine
- For all 2-cycle & 4-cycle engines

Description		WPS#	
12 oz	6/case	57-1110	

"ISO-HEET" FUEL SYSTEM ANTI-FREEZE

- Prevents gum, varnish, rust and corrosion in the fuel system and combustion chamber
- Keeps stored gas fresh indefinitely
- For use in all 2-cycle and 4-cycle engines
- Recommended by 20 top engine manufacturers
- 4 oz treats 10 gals
- 8 oz treats 20 gals
- 32 oz treats 80 gals
- 1 gal treats 320 gals

Description		WPS#
12 oz	24/case	27-1006

XTREME CLEAN

- Engineered to remove the toughest dirt, grime and greasy stains
- Formulated to clean vinyl, fiberglass, plastic, rubber, metal carpets and more

Description		WPS#
	•	
22 07	12/case	57-1162

BIKE GUARD DETAILER

- Cleans and adds shine to all fiberglass, metal, chrome and painted surfaces
- Removes bug debris, grime, grease, dirt and water spots
- Protective polymers repel UV rays

Description		WPS#	
	22 oz	12/case	57-1163

MATTE FINISH DETAILER

- Silicone and wax free alkaline neutral formula cleans all matte, denim, satin and all other non-glossy finishes and surfaces
- Removes road grime, fingerprints, grease, bug deposits and more
- PTEF polymers leave a protective, invisible, non-glossy, non-sticky barrier to repel damaging UV rays and dirt
- Formulated for use on all metal, fiberglass, plastic, wrapped and printed surfaces, helmets, fuel tanks, chrome, bags and more

Description		WPS#
22 oz	12/case	57-1164

WATERSPOT REMOVER

- Instantly removes stubborn waterspots
- Works on fiberglass, metal and painted surfaces
- Spray on, wipe off formula, non toxic and non abrasive

Description		WPS#
22 oz	12/case	57-1160

- Contains Cerflon® for unsurpassed lubrication and Lanolin to coat surfaces and repel dirt and water
- Forms a micro-thin film that seals the treated surface for long-lasting lubrication and protection against corrosion
- Cerflon® nanoparticles bond to treated surfaces for long-lasting lubricity of all metal moving parts
- Dielectric formula is ideal for forming a barrier against moisture and corrosion on battery terminals, junction blocks and wiring
- Deep-penetrates to loosen frozen bolts; displaces moisture; prevents further corrosion of rusted surfaces

Description		WPS#
11.75 oz aerosol	12/case	57-1180
22 oz Spray bottle	6/case	57-1181

CORROSION BLOCKER

- Provides and invisible, long lasting, non-sticky barrier to corrosion
- Protects engines, wiring terminals, metal hardware and more
- Safe for all metal surfaces, displaces moisture and provides a non-conductive dielectric coating

Description		WPS#
22 oz	12/case	57-1161

CLEANER DISPLAY

Countertop display includes 6 bottles each of the following:

- Bike Guard Detailer (WPS# 57-1163)
- Matte Finish Detailer (WPS# 56-1164)
- Waterspot Remover (WPS# 56-1160)
- Xtreme Clean (WPS# 56-1162)

Description

Display with product

SYNTHETIC ENGINE COOLANT

- Utilizes Star Brite's revolutionary PCT additive package which is designed to maintain an engine's optimum operating temperature in order to develop maximum horsepower
- Allows engines to quickly reach and maintain proper temperature and reduce operating temperatures faster than other coolants
- Formulated to meet or exceed all OEM and appropriate ASTM
- · Non-toxic propylene glycol formula, does not contain nitrates, amines, phosphates, silicates, borates or other ingredients that can clog radiators
- Formulated to seal pinhole leaks and fissures
- Ready to use, protects against freezing down to -26°F and boilover to 265° F

Description	WPS#
64 oz 4/case	57-1155

LIQUID ELECTRICAL TAPE

- · Forms a protective, waterproof, UV resistant dielectric coating
- · Prevents corrosion on wires and terminals
- Flexible and fire resistant
- Patented UL® tested fast drying formula
- Dries to the touch in 10 minutes, fully cures in 24 hours

Description		Black	Red
1 oz	12/case	57-1176	57-1178
4 oz	12/case	57-1170	57-1177

PRO STAR HIGH PERFORMANCE GREASE

- High-tech formulation significantly outperforms traditional greases
- Provides unsurpassed protection against wear. corrosion and heat
- Highly resistant to water washout
- · Environmentally responsible formula is bio-renewable and biodegradable
- Fits most standard grease guns

Description		WPS#
14 07	10/case	57-1168

WHEEL BEARING GREASE

- Excellent corrosion protection from salt water and atmospheric chemicals
- Water insoluble formula resists water wash out
- Highly recommended for all marine applications, trailer wheel bearings and most all other applications a high quality grease is needed
- · Fits most standard grease guns

Description		WPS#
14 oz	10/case	57-1167

WHITE LITHIUM GREASE

- · Ideal for use marine, powersport and automotive applications
- · Can be used to lubricate plastic components
- Helps prevent corrosion
- Fits most standard grease guns

Description		WPS#
14 07	10/case	57-1169

LITHIUM GREASE

- Ideal for powersports, marine, automotive and general shop **lubrication**
- Excellent adhesion for maximum protection, provides effective moisture protection
- Fits most standard grease guns

Description		WPS#
14 07	10/case	57-1166

GREASE GUNS

- · Available in lever and pistol style
- · Ideal for most all lubrication tasks
- Corrosion resistant finish
- Fits standard zerk fittings
- Accepts all 14 oz grease cartridges
- · Flexible extension hoses available separately

	Description	WPS#

GASKET SEALER

GASGACINCH CONTAINS NO HEAT RETAINING METAL POWDERS SOLIDS ARE OF HEAT RESISTING FORMULA COMPOUNDS

· Grip belt dressing

• Preventing rim leaks on new and used tubeless tires

UNLIMITED USES

Because of its special composition, Gasgacinch

has many more uses than just a gasket

sealer. Due to the flexible bonding powers of

Gasgacinch, it can also be used for the following:

Tire boot patches

· Head gasket seal

Description	WPS#

CABLE LUBER

- Injects lubricants into cable with a minimum of mess
- · Makes cables work as good as new
- Inexpensive

Description	WPS#	
Cable Luber	57-8182	
Cable Lube	57-0002	

FIRE POWER.

CABLE LUBER

WPS# 27-4820

PETROCHEM CABLE CARE KIT

PREVENTS THROTTLE FREEZE OR HANG UP

The easy way to lubricate the cables on your motorcycle. Lubricates completely in five seconds! The CABLE LUBER power injects Petrochem CABLE LIFE into the cable with no spill-over or mess. Just attach the CABLE LUBER to either end of the cable. insert the snorkel and press the button. The cable will be cleaned out while being recharged with fresh lubricant. Cables need not be removed from the machine. Aids in preventing throttle from freezing in the open position. Good to -70°F. Lubricates and rust proofs.

ENZYME FUEL TREATMENT

CURES AND PREVENTS ETHANOL FUEL PROBLEMS

Unique enzyme formula prevents phase separation and fuel gelling by breaking down water and sludge to sub-micron size particles allowing it to be safely burned away during normal engine operation, eliminating ethanol fuel problems.

- Safe for all 2 and 4 cycle engines
- Stabilizes fuel for up to 2
- Rejuvenates old fuel
- · Removes carbon and varnish
- · Improves fuel economy
- · Cannot be overdosed
- 8 oz bottle treats up to 48 gallons of gasoline
- 8 oz high concentrate bottle treats up to 128 gallons
- 16 oz bottle (highly concentrated) treats up 256 gallons of gasolines
- 8 oz diesel formula treats up to 128 gallons of diesel

Metal Rescue

METAL RESCUE™ RUST REMOVER BATH

• De-rust your motorcycle/ATV gas tank and all vehicle parts in one easy step!

- No messy creams or acids
- · Safe, water-based formula is designed to remove rust from iron and steel
- Metal Rescue is non-toxic, easy to dispose of, biodegradable and re-usable
- Metal Rescue[™] will not harm, paint, seals, gaskets, plastic, rubber, and is safe on bare
- Works well in all rust-removal applications such as chrome, wheels, mirrors, handle bars, kick stands
- For optimal results in fuel tank de-rusting, fill tank to its entirety with Metal Rescue™

Description	WPS#
1 quart bottle	27-4852
14 oz concentrate (makes 1 gallon)	27-4853
5 gal bucket	27-4851

Metal Rescu

RUST REMOVER BATH

DRY COAT™ RUST PREVENTATIVE SPRAY

- Rust protection for your powersports vehicle during indoor storage or restoration projects.
- Safe, water-based formula prevents rust on iron and steel
- · Quick and easy spray application
- Unique, non-sticky formula dries to the touch-not attracting dirt or dust
- Forms barrier coating to protect metal from rust formation
- Provides rust protection for up to 1 year of indoor storage
- Easily removed for paint or powder coat application

Description	WPS#	
16 oz bottle	27-4862	

COMBO PACK™

Contains 1 pint Fuel Tank Liner, 1 pint Tank Prep A, 1/2 pint Tank Prep B. Enough for complete treatment of average size tanks. Shrink wrapped for convenience.

TANK-PREP™

Contains 1 pint Prep A, 1/2 pint Prep B. Prep A is a concentrated cleaner that dissolves rust and etches the tank surface. Prep B is a final rinse and conditioner to prepare the tank for KREEM liner.

FUEL TANK LINER

1 pint. Sold each. Produces a "tank within a tank", a tough lining that protects from rust and corrosion.

Approximately 1 pint is required per three gals of tank capacity.

TANK-MASK

Contains 1/2 pint of protective coating to be used on the outside painted surface of fuel tank while using Kreem tank liner. Washes off easily with soap and water.

• 1 - 8 oz. Squeeze Oil and Service Decal

RECHARGER

FILTER CARE SERVICE KIT

A six-step maintenance system designed to recharge your K&N Filtercharger® Air Filter. Completely restores air flow efficiency so your Filtercharger® performs like new!

KIT "A" CONTAINS:		Size	WPS#
• 1 - 12 oz. Air Filter Cleaner Spray Bottle	Α	12/case	62-1514
	_		

KIT "B" **CONTAINS:**

- 1 12 oz. Air Filter Cleaner Spray Bottle
- 1 6.5 oz. Air Filter Oil Aerosol

AIR FILTER OIL

Specially formulated to work in combination with the cotton fabric in K&N air filter elements providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats where it remains suspended in the cotton fabric. Saturation is maintained until the element is eventually cleaned with K&N Air Filter Cleaner and Degreaser.

E Liquid gasket #1184: Excellent padding properties make this semi-drying sealer perfect for joint surfaces with large clearance. The synthetic rubber absorbs vibrations and impacts without failure, especially when coolants are

involved.

F
Silicone liquid gasket #1211:
Silicone rubber. Perfect for sealing complex 3-point surfaces. 100% effective for temperature ranges of -60° to

G Synthetic Rubber Adhesive #1521: Rubber-based contact cement for flexible hold to bond rubber, plastic, vinyl, metal, leather, wood, ceramic etc. Sets up in 5-10 min. Waterproof.

Super Glue #1742-B: Attains practical use strength in seconds. No evaporative elements and no shrinkage to weaken bonding. Excellent for nonporous materials.

RTV Sealant (grey): For sealing against oil and coolant leaks. Highly resistant to heat and cold. OEM specified for use on Motorcycles, ATV, UTV and Snowmobiles.

LIQUID GASKET
Licenses faire flye

1 2078

ThreeBond

Section of the section of t

Gasket-Maker (black): High viscosity, high performance, high heat. OEM specified, non-slumping paste highly resistant to oils, chemicals and coolant. Effective in vibrating conditions, containing strong adhesion properties.

Liquid Gasket (grey) Solventless silicone sag type. Use in case to case Where NO GASKET is used.

L Formed-In-PLace (dark grey) Engine RTV, formulated as a high performance temperature vulcanized silicone.

M Grip Lock #1501CT100:

A high strength adhesive specially formulated to keep grips in place without damaging the rubber. Ideal for Snowmobile, Motorcycle, ATV and Personal Watercraft.

HIGH TACK™ GASKET SEALANT

- Fast drying, all purpose sealant dries to a tacky, non-brittle film
- Resists gasoline, oil, antifreeze, diesel, kerosene, propane and butane
- Temperature range -65° F to 500° F

Description	WPS#
4 oz brush top can	59-9189
4.75 oz aerosol	59-9190

MOTOSEAL™

- · Solvent-based bond fully seals within 20 minutes
- · Resists gasoline and other damaging fluids
- · Flexible bond that is highly effective on irregular and uneven joint surfaces
- · Ideal for use on frequently disassembled engines

Description		WI OT
2.7 oz tube	6/case	59-9183

Deceription

ULTRA BLACK HI-TEMP RTV SILICONE

- Fast-curing formula, sensor safe, low odor, noncorrosive
- · Meets performance specs of OE silicone gaskets
- · Retains high flexibility, oil resistance properties
- Temperature range -65°F to 550°F intermittent

Description		WPS#
3.35 oz	12/case	59-9219

COPPER SPRAY-A-GASKET®

- Fast drying, metallic copper sealant helps dissipate heat, prevents gasket burnout, and improves heat transfer
- · Fills minor surface irregularities, seals instantly
- Temperature range -50° F to 500° F, resists all types of automotive fluids, especially gasoline

Description WPS# 9 oz aerosol 12/case **59-9194**

HIGH TEMP RTV SILICONE

- Recommended for valve covers, oil pans, timing covers, thermostat housings and transmission covers
- Temperature range -75° to 650°F

Description		WPS#
3 oz tube	12/case	59-9185

BLUE RTV SILICONE

- Recommended for valve covers, oil pans, timing covers, thermostat housings and transmission covers
- Temperature range -65° to 500°F

Desci	WP5#	
3 oz tube	12/case	59-9184

RIGHT STUFF™ POWERBEAD™ GASKET MAKER

- Elastomeric rubber gasket rubber gasket technology is blowout resistant and out performs pre-cut gaskets
- Protects against leaks caused by vibration and thermal expansion, sensor safe
- Temperature range -75° F to 450° F continuous, 500° F intermittent
- 7.5 oz size in a PowerBead™ pressurized can

Descri	ption	WPS#	
7.5 oz can	6/case	59-9193	
3 oz can	6/case	59-9203	

ULTRA COPPER® SILICONE GASKET SEALANT

- The most advanced RTV silicone gasket available
- · Three times more oil resistant than conventional silicones. eight times more flexible than cut gaskets
- Temperature range -65° F to 700° F

Description		WPS#
3 oz tube	12/case	59-9192

GASKET REMOVER

- Quickly removes solvent based gasket adhesives and sealants, even baked on gaskets
- Eliminates scraping and potential damage to flanged surfaces
- Prepares surfaces for new gaskets
- Not for use with silicone sealants

Description		WPS#
4 oz aerosol	6/case	59-9195

ANAEROBIC GASKET MAKER

- Non-corrosive gasket material designed for use on aluminum, iron and steel flanged mating surfaces
- Fills gaps up to .015" and cures to a solvent resistant that will not tear or decay during service
- Allows for easy disassembly, old gasket material can be removed with a putty knife
- Great for split crank cases, water pumps, chain cases and transmission cases

Description		WPS#
50 ml tube	6/case	59-9191

WEATHER STRIP ADHESIVE

- A superior adhesive ideal for many applications including rubber, metal, auto or van carpeting and fabric-backed vinyl upholstery and automotive gaskets
- Allows for repositioning parts after contact is made
- Withstands extreme temperatures is waterproof and resists gasoline, kerosene, antifreeze and most solvents
- Also works great as a grip glue

Description		WPS#
2 oz tuhe	12 /case	50-0120

ANTI-SEIZE LUBRICANT

- A highly refined blend of aluminum, copper and graphite lubricants
- Prevents galling, corrosion and seizing
- Great for spark plugs, cylinder head bolts and exhaust bolts
- Temperature range -60° F to 1600° F

Descr	iption	WPS#
1 oz tube	12/case	59-9196
4 oz bottle	12/case	59-9197

COLD WELD BONDING COMPOUND

- A 15 minute, two-part adhesive and filler system that hardens like steel
- It can be drilled, sanded, painted and filed
- Resists most automotive, shop and cleaning fluids
- Withstands temperatures to 300° F

Description		WPS#
Two 1 oz tubes	12/case	59-9200

GENERAL PURPOSE EPOXY

- Versatile, easy to use, general purpose epoxy
- Works for ceramic, chrome, fabric, fiberglass, glass, hard plastic, rubber and metal
- · Resists most liquids.
- Convenient 2-part dispensing syringe
- Fills gaps and bonds trim
- Crystal clear appearance
- Resists temperatures up to 180° F.

DIELECTRIC **GREASE**

- · Protects electrical connections and wiring from salt, dirt and corrosion
- Prevents voltage leakage around any electrical connection
- Keeps spark plugs from fusing to boots

Description		WPS#
3 oz tube	12/case	59-9199

MULTI-METAL EPOXY

- · Versatile, easy-to-use, multi-metal epoxy adhesive is two-part adhesive and filler
- Eliminates the need for welding or brazing
- Sets in four minutes with no clamping needed
- Fills gaps and will not shrink
- When cured, can be drilled, sanded, threaded or filed
- · Resistant to water and solvents
- Temperature range -60°F to 300°F (-51°C to 149°C)
- Permanent strength up to 4500 PSI

Description		WPS#
.84 fl oz	12/case	59-9224

VALVE GRINDING COMPOUND

- · Aids in valve grinding and seating operations
- · Can be used for lapping and grinding chromium
- · Mixes with water to form an easy to use paste

Description		WPS#
3 oz tube	12/case	59-9198

FUEL TANK REPAIR KIT

- · Permanent repair
- Easy-to-use complete kit
- · Repairs all types of metal tanks

Description		WPS#
Kit	6/0200	E0_0191

PENETRATING THREADLOCKER

- · Low viscosity thread locking liquid which always it to wick down the threads of assembled fasteners
- This allows preventive maintenance procedures to be greatly simplified
- · Recommended for fasteners from #2 to 1/2

Description		WPS#	
Green Threadlocker 6ml	6/case	59-9216	
Green Threadlocker 36ml	6/case	59-9217	

HIGH TEMPERATURE THREAD SEALANT

- Locks and seals threaded fittings, great for fuel, cooling and hydraulic
- · Resists leakage, vibration loosening and moisture
- · Won't shred or wear like thread sealing tape
- Temperature range -65° F to 400° F

Descr	ription	WPS#
6 ml tube	12/case	59-9187
50 ml tube	6/case	59-9188

GEL THREADLOCKER

- Gel formula provides "liquid-reliability" without drips, globs, mess or waste
- Available in blue (medium strength) and red (high strength) formulas in a 5 gram tube and 10 gram twist applicator

Description		WPS#
Blue Threadlocker 5gr	6/case	59-9172
Blue Threadlocker 10gr	6/case	59-9173
Red Threadlocker 5gr	6/case	59-9174

ENGINE ASSEMBLY LUBE

- Gives proper lubrication of metal mating surfaces prior to starting a new or rebuilt engine
- Adheres to component surfaces to prevent scuffing and galling during initial start-up
- This high quality formulation meets or exceeds OEM performance specs for engine assembly lubricants

Description		WPS#	
40z	12/case	59-9218	

LIQUID ELECTRICAL TAPE

- Weatherproof protectant for wiring and electrical connections
- Goes on as a liquid and dries to a vinyl polymer that resists dirt, dust, chemicals and moisture
- Brush top applicator allows coverage without gaps and enables access to tight spaces that roll tape and shrink tubing can't get to

Descri	ption	WPS#	
4 oz Bottle	6/case	59-9178	

LIQUID THREADLOCKER

- Liquid formula is the standard in the industry, give the protection of security with out the use of lock washers or lock nuts.
- Available in blue (medium strength) and red (high strength) formulas in convenient sizes.

Description		WPS#	
Blue Threadlocker 6ml	6/case	59-9212	
Blue Threadlocker 36ml	6/case	59-9213	
Red Threadlocker 6ml	6/case	59-9214	
Red Threadlocker 36ml	6/case	59-9215	

DECAL AND ADHESIVE REMOVER

- Fast-acting formula quickly removes adhesive residue, decals, bumper & window stickers, tape, tar, sap, bugs, grease, and other sticky substances
- Contains no acetone and is safe for use on virtually any surface including windows, auto body paint, bumpers, vinyl, leather, fabric, metal, plastic, and wood
- Safe for indoor use, great for removing dirt bike graphics

Description		WPS#	
5 oz Aerosol	12/case	59-9176	

GREZ OFF™ DEGREASER

- A biodegradable, water based, heavy-duty degreaser that effectively removes grease and dirt
- Works as well as traditional solvents, is non-flammable and VOC compliant in all 50 states

Descri	ption	WPS#	
32 oz bottle	12/case	59-9179

BLACK NITRILE GLOVES

- 100% synthetic rubber that provides superior resistance to a wide range of solvents and hazardous chemicals
- They feature textured fingers that provide a secure grip on dirty parts and tools.
- These powder-free 5 mil thick gloves provide increased durability and protection and are suitable for users with latex sensitivity

De	scription	WPS#	
L	10/case	59-9211L	
XL	10/case	59-9211X	

HAND CLEANER

- Biodegradable, waterless, petroleum solvent free hand cleaner
- · Contains no harsh chemicals, mineral oils or ammonia
- Citrus cleaning power with fine pumice, fortified with lanolin, glycerin, and other skin conditioners

Description		WPS#
1 gal bottle w/pump	4/case	59-9202

HAND WIPES

- Removes the toughest grease, tar, grime, ink, paints, sealants, adhesives and other difficult soils
- Each pre-moistened wipe has a textured surface on one side that is ideal for cleaning heavy-duty soils from hands, tools and work areas

Descri	ption	WPS#
25 ct tube	8/case	59-9206

SERIAL DIAGNOSTIC SYSTEM

Professional diagnostic tool for Harley Davidson & Buell workshops and tuning centers. Diagnoses electronic fuel injection module (EFI) and others (Security modules, ABS, etc.) though the diagnostic connector. The system consists of a communication interface with Harley-Davidson adapter, USB cable for connection to your Laptop (PC) and software (SOLD SEPARATELY) compatible with Windows XP, Vista, 7, 8 and 10. A wireless Bluetooth version of the interface is also available. An adapter for CAN-BUS models is included. The system performs the following functions and more. Software for Indian and Victory is also available.

OVERVIEW OF CONTROL UNITS THAT CAN BE DIAGNOSED ON HARLEY DAVIDSONS

- · Ignition Module
- EFI (Electronic Fuel Injection Module) - All models
- TSSM (Turn Signal Security Module)..... Key FOB with button
- HFSM (Hands Free Security Module)..... Key FOB without button
- BCM (Body Control Module).....Key FOB without button
- Gauges (Speedo, Tach and Instrument Module) -All models

- ABS Module (Delphi + CAN models) All models
- Radio and Audio all models
- Thunder MAX EFI
- Read and Clear Diagnostic Trouble Codes.....All models
- Read Identification data (part numbers, VIN number).....All models
- Monitoring real-time data (throttle position, temperature, oxygen sensors, turn signals etc.)
- Test actuators (injectors, coils, main relay, fuel pump, idle, turn signals, tachometer, lamps etc.)
- Buell diagnostics are incorporated in Harley-Davidson diagnostics
- Unit of measure selection metric/standard
- Communication interface is CAN ready (models with 6-pin connector)

MOTORCYCLE REPORT

Search for and identify all embedded control units, read fault code memory + generate and print a diagnostic report with odometer reading

TOOLBOX (special functions that can be performed)

- ABS Service (Bleeding and configuration, Delphi + CAN models) - All models
- ACR (Automatic compression release during starting)
- Cruise Control, Exhaust actuator, EITMS..... enable/disable
- Side Stand Switch Configuration - All Models
- Intake Solenoid Valve Configuration on CAN Models
- Radio customizationregion code and speaker configuration, radio pairing

- J&M Audio Configuration
- ABS Telltale Configuration on CAN Models
- Idle speed adjustment 800 - 1200 rpm (models with Delphi Electronic Fuel Injection Module)
- TSSM Customization...... PIN read/change, Auto arming disable/enable etc.
- HFSM Customization...... Key FOB assignment/ replacement, Auto arming disable/enable, PIN read/change, Side car and Service Mode (disable/enable)
- BCM Customization.......
 Key FOB assignment/
 replacement, Auto
 arming disable/enable,

- PIN read/change, Lights configuration, keyless ignition
- Disarming (HFSM/ BCM module)......PIN read/FOB assignment on armed bike (for BCM modules a CAN disarming cable is needed)
- Buell TPS adjustment
- Datalogging
- ABS Module (embedded/ not embedded)
- Speedo module pairing
- Wheel size adjustment (Speedo calibration)
- Odometer unit setting

PARALLEL DIAGNOSTIC SYSTEM

Parallel diagnostics are designed for measuring input and output signals from the electronic fuel injection module (EFI) and other modules. Measurements can be made on running engines. The system consists of a wiring harness adapter and breakout box. The breakout box is inserted between EFI module and motorcycle's wiring harness so that the system continues to function as normal. Monitoring points for all connector pins of the EFI module are clearly arranged on the breakout box. It is possible to measure signals and waveforms from all systems and actuators. Disconnecting the ECU from the breakout box allows quick and reliable check of the integrity of the wiring harness in respect to continuity, and leakage currents. Universal connector kit includes common adapters (73 connectors) for non-destructive diagnostic operations on the wiring harness.

	Description	WPS#
Α	Breakout Box	867-02022

DIAGNOSTIC SCAN TOOLS

A. TWIN SCAN 4 COMPLETE KIT

Includes both Twin Scan II ABS and Twin Scan 4 ABS units,

WEGO IIID Interface

- Two Bosch LSU 4.2 wide-band oxygen sensors
- Two 18 x 1.5 mm weld nuts, two 18 x 1.5 mm hex socket plugs,

USB cable, probe kit, and software on CDROM

B. TWIN SCAN II ABS

- Compatible with 2003-2006 carbureted models with new 12 pin ignition module
- Anti-Skid Brake System (ABS) brake bleeding functions for 2008-2013 Touring models
- Support for 2006-2013 closed loop fuel injection systems
- Real time display of engine data on instrument panel type display
- Uses laptop PC for display, includes Windows software

C. TWIN SCAN 4 ABS

- Compatible with 2011-2018 Softail®, 2012-2017 Dyna® and 2014+ Sportster® and 2014+ Touring models with CAN data bus (all models with a 6-pin diagnostics connector)
- Real time display of engine data on instrument panel type display
- Includes two analog inputs with 0-20V or +200V range
- Features two channel scopemeter capability for waveform display
- · Analog inputs can also be used for air/fuel ratio
- Uses laptop PC for display, includes Windows software

D. TWIN SCAN PROBE KIT

- For scopemeter feature
- Two insulation piercing probes
- 12 volt power adapter

E. TWIN SCAN WEGO UPGRADE KIT

- For customers with any Twin Scan II or 3 version
- Includes WEGO IIID Interface
- Two Bosch LSU 4.2 wide-band oxygen sensors, two 18 x 1.5 mm weld nuts, and two 18 x 1.5 mm hex socket plugs

STUD REMOVER/INSTALLER

- Removes studs from 1/4" to 3/4" in diameter
- Knurled roller uses cam action to grasp stud firmly while minimizing damage
- 1/2" drive ratchet required for use (not included)
- · Lifetime warranty

Description	WPS#
Stud remover	117-1094

40 PC TAP AND DIE SETS

Includes: 17 taps and 17 dies (course/fine thread and NPT), T-handle tap wrench, tap/die holders, screw driver, pitch gauge and storage case.

Boodingtion	111 0#
SAE tap and die set	117-1083
Metric tap and die set	117-1084

IGNITION POINT FILE

- High grade steel construction
- · Quickly cleans ignition point contact surfaces
- Precise double cut file pattern
- Doubles as a light duty general purpose file
- Lifetime warranty

Description	WPS#	
Ignition point file	117-1115	

7 PC CHISEL AND PUNCH SET

- Hardened and tempered high carbon steel construction
- Vinyl covered shank absorbs shock and reduces vibration
- Includes storage pouch
- Lifetime warranty
- Includes: 3/16" x 6" pin punch, 1/8" x 6" and 3/16" x 6" taper punches, 3/8" center punch, 3/8", 1/2" and 5/8" cold chisels

Description	WPS#	
Chisel and punch set	117-1091	

SELF POWERED TIMING LIGHT

- Designed for use with all gasoline powered engines
- Detachable inductive pickup
- Powered by 2 D cell batteries (not included)

Description	WPS#	
Timing light	117-1093	

5 PC SCREW EXTRACTOR SET

 Removes damaged screws, broken studs, set screws and pipe fittings

- For screws/bolts/fittings 5/32" thru 3/4"
- Chrome Moly steel construction
- Includes storage case
- Lifetime warranty

Description	WPS#
5 pc screw extractor set	117-1043

6 PC FILE SET

- Heat treated carbon steel files
- Durable black rubber handles with plastic inserts
- Lifetime warranty
- Includes: 6" mill file, 8" mill file, 6" taper file, 8" half round file and 2 handles

2 pc valve lapper set	117-1033	

5 QT FLEX SPOUT DISPENSER

- 5 Quart capacity, 14" flexible metal spout
- Designed for one handed operation
- Thumb operated control
- Rolled edge top helps prevent oil spillage
- Lifetime warranty

ANTI-FATIGUE FLOOR MATS

- Pack includes 12 interlocking 12" x 12" mats with borders, covers 12 square feet
- Durable, lightweight and water resistant 12mm thick EVA foam
- Connect multiple packs for extended floor coverage

Description	WPS#	
Floor mats 12/pk	117-1112	Ī

PISTON RING INSTALLER

- Installs and removes piston rings from 3/64" thru 1/4" thick
- Vinyl grip handles
- Lifetime warranty

Description	WPS#
Piston ring installer	117-1123

PISTON RING **COMPRESSOR SET**

- · Includes 6 sizes of bands for multiple applications
- Fits pistons 2 7/8" (73 mm) thru 4 3/8" (110 mm) in diameter
- Lifetime warranty

Description 117-1096 Piston ring compressor set

COOLING SYSTEM PRESSURE TEST KIT

Detects internal engine cooling system leaks

Quickly reveals external cooling system leaks

 Kit includes hand pump with pressure gauge, 12 adapters to fit most powersport/automotive applications and storage case

Description WPS#
Pressure test kit 117-1056

120 VOLT LED §
DROP LIGHT

- Produces over 1000 lumens of bright white light
- Impact resistant handle with nonslip rubber grip
- Powder coated metal lamp shield with swivel hang hook
- 25', 18 Gauge grounded cord with built-in 120 volt outlet

Description	WPS#
LED Drop light	117-1136

CABLE TIES

- High strength cable ties
- Resealable packaging
- Sold 100/pack

Description	WPS#	
4" Cable ties	117-1139	
8" Cable ties	117-1140	
12" Cable ties	117-1141	

VARIABLE SPEED BLOWER

- Amazing blowing power in a compact, easy to handle size
- Variable speed feature allows you to select just the right amount of power
- Two piece nozzle can be used at 9 inches or 18 inches
- · Comfortable handle with oversized lockable trigger
- Great for touch-less drying of powersport vehicles and autos, or use as an electric broom for garage floor, sidewalks etc.
- Specs: 120 volt AC, 60 Hz, 700 watt, 5.8 amps, 17,000 max RPM, 90 mph air speed, 100 cfm, 3.3 lbs (1.5Kg)

BRAKE ROTOR HONE

- Use to de-glaze and score a cross hatch pattern on the surface of brake rotors
- ¼" Mandrel, use with most hand drills (500 to 600 working RPM)
- 2½" diameter, 120 grit flexible ball stones.

Description	WPS#
Brake rotor hone	117-1128

3.7V RECHARGEABLE LITHIUM ION BATTERY AND CHARGER

18650 Lithium Ion Battery

- High capacity replacement batteries for ATAK™ brand (and many other) rechargeable flashlights
- No memory effect recharge up to 1200 times whether fully or partially drained
- Built-in circuit protection to ensure proper venting, prevent overcharge or discharge
- Capacity: 2600mAh; Voltage: 3.7V; Battery Size: 2.62" x .72" (69.2mm x 18.3mm)

18650 Battery Charger

- Home and travel charger for standard 18650 model lithium ion batteries
- Designed to charge either 1 or 2 batteries quickly and safely
- Automatically stops when charging is complete
- Includes 39 inch (1M) USB/Micro USB charging cable

ECONOKITS

Cruz TOOLS'

H1

WPS# 57-00210

- Five combination wrenches cover most fasteners, and an eight-inch adjustable wrench handles the rest, including most axle nuts
- Locking pliers, tire gauge, hex and star keys, and much more
- The double-panel 600-denier polyester pouch is designed to last

SPEEDKIT FOR HD

- Our new SPEEDKIT tool kit series provides a new standard for capability and compactness
- Developed to cover the most common needs for all Harley-Davidson models except the V-Rod
- With wrenches, nut drivers, star bits, hex keys, screwdriver, pliers, 2-in-1 spark plug socket, and tire pressure gauge
- Everything fits into a rugged pouch that measures only 7" x 2" x 2"

ROADTECH TEARDROP

- The RoadTech tool kit series combines road-proven EconoKIT content with a mini ratchet and socket set
- RoadTech Teardrop packs virtually everything from the RoadTech H3 into a compact pouch designed to fit genuine and aftermarket teardrop tool boxes
- While the pouch is designed for teardrop boxes, the tool set is equally applicable to all air-cooled models

WPS#

57-00223

H2

- Five combination wrenches, plus a stout 6-in-1 screwdriver, tire gauge, hex and star keys, 2-in-1 spark plug socket, and more
- The rugged pouch, with self-healing zippers, won't let you down

WPS# 57-00211

ROADTECH H3

- We've combined the road-proven EconoKIT H1 with the best of our MiniSet[™] for this super charged roadside solution
- Includes our top-grade combination wrenches, adjustable wrench, locking pliers, tire gauge, hex and star keys, screwdriver and more
- But you'll also love the mini ratchet and socket set, making this the last tool kit you'll ever need to buy

SOCKET BIT SETS

- Our three new sets are professional tool quality
- Socket bodies are polished chrome, and bits made of a heat treated chrome vanadium alloy that exceed ANSI standards
- All sockets are 3/8" drive so you only need one ratchet or T-handle for all sizes
- A reverse laser imprint provides for easy size identification
- To help keep your socket drawer organized, each set ships on a rail with handle
- Tools are lifetime guaranteed.

PRO TORQUE T-HANDLE

- The speed of a ¹/4" or ³/8" T-handle driver with the accuracy of a precision torque wrench
- Quickly and accurately torque's those important fasteners
 Constructed of high grade
- stainless steel and 6061 anodized aluminum

 Choice of measurement range
- Choice of measurement range 4-20 FT*LBS or 6-27 Newton Meters
- Laser etched markings
- Hardened 3/8 or 1/4 socket end
- No setting of torque, No need for re-calibration
- Calibration certificate specific to each driver insuring exacting accuracy
- As with all torque wrenches, THEY ARE INTENDED FOR TORQUE ONLY they are NOT for loosening
- Includes a padded tool box insert for years of safe storage
- MADE IN THE USA

Description		WPS#
1/4 in Torque T FT* LBS	4lbs to 20lbs	57-0046
1/4 in Torque T N*M	6 to 27 N* M	57-0047
3/8 in Torque T FT* LBS	4lbs to 20lbs	57-0044
3/8 in Torque T N*M	6 to 27 N*M	57-0045

- T-handle socket drivers allow optional ways to use any 1/4" or 3/8" drive attachments such as sockets, hex drives, crow's foot or swivels
- Manufactured from chrome vanadium tool steel with carbon steel T-Handles
- · Hard nickel pewter finish
- · Lifetime warranty

Size	WPS#

INDEX

11-SLOT T-HANDLE RACK

- Easily hangs on the side of most tool boxes
- · Keeps T-handles ready for action

DUAL DRIVE MINI T-HANDLES

- · Use T-Handle drive to tighten/loosen fasteners and shaft drive for quick installation/removal of fasteners
- 1/4" drive has a compact 61/2" drive shaft length
- 3/8" drive has a compact 73/4" drive shaft length
- For tight access and easy transport
- Use with 1/4" or 3/8" drive sockets, hex drives, swivels, etc.
- · Chrome-vanadium tool steel shaft and T-Handle

· Durable nickel pewter finish · Lifetime replacement warranty

TRI-DRIVE MINI T-HANDLES

Use T-handle drive to tighten/loosen fasteners and shaft drive for quick installation/removal of fasteners

- 1/4" drive has a compact 6" drive shaft length
- Compact size for use in tight spaces & easy to carry
- Includes 8mm, 10mm, 12mm and 13mm sockets
- Use with 1/4" drive sockets, hex drives, crow's foot, swivels, etc.
- Chrome-vanadium tool steel shaft and T-Handle
- Durable nickel pewter finish
- · Lifetime replacement warranty

1/4" SLIDING "T" DRIVER

- T-handles are extremely useful for all sorts of applications
- At about 7", it can be easily carried on your bike and likely to become a staple in your tool box as well

• Unique sliding "T" feature and a polished chrome finish

DUAL DRIVE L-HANDLES

- Impact resistant ergonomic molded handle reduces hand fatigue
- Use drive side to tighten/loosen fasteners and shaft side for quick installation/removal of fasteners
- Durable nickel pewter finish
- · Lifetime replacement warranty

SPINNER T-HANDLE

- · Knurled bearing mounted spinner provides faster and easier removal and installation of nuts and bolts
- · Padded grip handle
- · Lifetime replacement warranty

Description	WPS#	
1/4" spinner T-handle	57-8563	
3/8" spinner T-handle	57-8562	

COMBO Y-DRIVE WRENCH

- Innovative dual-use design combines 6 tools into one
- 8 mm, 10 mm and 12 mm hex socket
- 4 mm, 5 mm and 8 mm hex drive
- Padded Y-shape for excellent grip and leverage
- · Compact design is ideal for trail tool packs
- Chrome-Vanadium tool steel
- · Limited lifetime warranty

Description WPS# Y-Drive wrench 57-8547

MAGNETIC NUT DRIVER SETS

- High quality 9 pc. 1/4 inch hex-drive metric-socket bit set
- Includes sizes 5, 5.5, 6, 7, 8, 9, 10, 12 & 13mm
- Sockets are constructed from Chrome-Vanadium (CR-V) alloy steel for excellent strength and durability
- Magnet inside sockets retains bolt head or nut in socket
- Includes convenient holder to keep bits organized

BITS FOR 5/16" AND 8MM DEEP WELL T-HANDLE

- Hard nickel pewter finish
- Sold individually

Description	WPS#
Spinner T-Handle Bit Driver	57-8556
T-Handle Bit Driver w/#1,2,3 JIS bits	57-8557

DELUXE TOOL POUCH

- Made from heavy duty Cordura[™] nylon
- 6 pockets for pliers, screw drivers, etc.
- Zippered compartment for smaller sockets, bolts, spark plugs, etc.
- hook and loop fastenerclosure keeps pouch rolled up

Color	WPS#	
Black	12-1858	

ECONOMY TOOL KIT

- 5" slipjoint pliers
- 3 open end wrenches (8x10mm, 10x12mm, 14x17mm)
- Spark plug wrench (21x24mm)
- Screw driver set (#2 & #3 Phillips, Flat Driver)
- Carrying pouch

Color	WPS#	
Black	12-1867	

RATIO

PERFECT GAS - OIL MIXTURE

Get a perfect mix every time. Fill your polypropylene Ratio Rite™ to the precalibrated ratio mark and pour into gas. Ratios are from 16:1 to 70:1 for 1, 1½, 2, 2½ gallons. Calibrations also include oz., c.c.'s and pints on the opposite side for transmission oil, fork oil, etc. Total capacity 24 oz.

Description	WPS#
Ratio Rite measuring cup	s 28-1111
Lid for Ratio Rite curs	28-1115

- No Figuring
- No Guessing
- No Mistakes

DRIP FREE OIL FILTER FUNNEL

- For '85 and up Harley Davidson Evo and Twin Cam models with forward mounted oil filter
- Eliminates the mess of oil filter changes, no more oil all over the front of the engine

WPS # 57-9996

FUNNEL PRE-FILTERS

- Water repellant pre-filter prevents moisture from entering fuel tank by catching and holding water
- Also filters out wind-blown sand and dirt as small as .005 in diameter keeping fuel systems clean
- A must when you are at the dunes
- Color red

Size	WPS#	
2 quart	28-1019	
6 quart	28-1020	

HEAVY DUTY POLYETHYLENE FUNNELS

- Polyethylene plastic remains flexible in all temperatures
- Heavy construction assures a long life
- Funnels incorporate a fine mesh brass screen and a hang tab for easy storage
- Ideal for marine use It floats!

Size	WPS#	
2 quart	28-1009	
6 quart	28-1010	

FUNNEL

- That funnel that works
- Rotate around to get into those extremely difficult areas
- · Works with all fluids

DRAIN PANS AND FUNNELS

- Made from durable, high density polyethylene
- Petroleum resistant
- Easy to use
- Easy to store
- MADE IN AMERICA

	Description	WPS#
Α	7 1/2 qt triangle drain pan	28-1340
В	9 qt closed top drain pan	28-1341
C	3 pc funnel set	28-1346
D	flexible funnel	28-1347
А		

PRO FUNNEL

 Integrated shutoff valve allows precise amount of liquid to be dispensed

С

- Graduation marks for cubic centimeters, fluid ounces and premix ratio
- One liter capacity
- Easy to understand premix ratio graduations for 32:1, 40:1, 50:1, and 60:1 for 1 to 3 gallons
- Adjustable ball-pivot spout allows easy, spill-free filling
- Top cover keeps dust and dirt out when not in use
- Magnet allows funnel to be stored conveniently on the side of your tool box
- Tip size can be trimmed to fit your application

MOTORCYCLE DRYER

The Metro Air Force Blaster motorcycle dryer was specifically designed for cleaning and drying motorcycles with dry, filtered warm air (about 20-25 degrees above ambient temperature). The Metro Air Force Blaster will cut cleaning time by 80%! The Air Force Blaster is the quickest and most efficient method to dry motorcycles thoroughly and eliminate water spots. Five to seven minutes is all it takes to quickly and effectively dry motorcycles.

Description	WPS#
Blaster Dryer	57-8203
ACCESSORIES	
10' extension hose kit with coupler	57-8205
Wall/table mount kit with 10' extension hose	57-8204
4 wheel dolly	57-8207

- 4.0 peak horsepower (29,000 fpm) motor
- Rugged all steel construction
- 10 foot heavy duty hose
- Heavy duty neoprene blower nozzle
- Proudly made in the USA
- Completely safe for all paint and chrome finishes

- 8 peak horsepower dryer unit on wheels
- 12 foot cord
- Rugged all steel construction
- Heavy duty neoprene blower nozzle
- 10 foot heavy duty hose
- Air concentrator nozzle
- · Air stream tool
- Proudly made in the USA
- The ideal unit for use in motorcycle dealer service departments

MASTER BLASTER MOTORCYCLE DRYER

The Air Force Master Blaster Motorcycle Dryer features a total of 8 peak horsepower. Two twin fan, 4.0 peak horsepower motors deliver up to 58,500 feet per minute of clean, filtered, warm airflow. Two switches allow users to set the airflow and temperature at 3 different levels. Use either motor (front or rear) independently or both simultaneously for maximum power. Different nozzles enable users to position airflow where desired and eliminate water spots.

Description	WPS#
Master Blaster Dryer	57-8201

TIRE STATION

- · Combine with your air tank to make the ultimate tire changing station
- · Forms a cage around your air tank and protects it from damage
- · Works best with 11 gallon air tanks
- Can be used with or without air tank installed
- Durable steel construction
- · Long lasting powder coat finish
- The perfect pit accessory

57-8477

ROLLSTAND®

- · Allows you to easily clean front and rear tires/rims
- · Sealed bearings, powder coated finish
- One person operation, just roll the front or rear tire onto the Rollastand® and place the bike on the sidestand
- · Great for tire inspection, chain maintenance and checking air pressure
- Sportbike and Cruiser/Harley Davidson® models available (cruiser works on all motorcycles)

Description	WPS#
Sportbike	25-2020
Cruiser/Harley Davidson®	25-2021

ARMOR RIM STRIP TAPE

- · Ultra tough and durable material protects tubes
- · Won't shift or move like rubber rim strips
- Self-adhesive backed for easy no mess installation
- Pre cut hole for valve
- Protects inner tube like no other rim strip

(MC680 with Strongarm II pictured)

MC680 TIRE CHANGER

• Specially designed for motorcycle/ATV tire changing

- Affordable solution to shops requiring a powered tire machine
- Available with optional air operated Strongarm II which aids in the mounting and removal of stiff sidewall tires
- One year parts warranty, replacement parts available by special order

Specifications:

Description K & L # WPS # Motor: 1.5 H.P. Air Requirements: 115-145 PSI 6"-24" · Wheel diameter: • Tire width: 2"-10"

MC205 WHEEL BALANCER

- The K&L MC205 Wheel Balancer incorporates the latest advancements. in state of the art motorcycle wheel balancing
- This balancer features a spring loaded "Quick Clamp" wheel-mounting package and offers static (single plane) balancing.
- Keypad data entry, in house calibration, and a choice of display modes (gram or ounce) all make this machine technician friendly.
- Standard equipment includes: Universal motorcycle clamp, tapered mounting cones, rim width gauge, spanner wrench, and calibration weight.
- Accuracy is greatly enhanced with the optional sleeve kit (135-0941).
- BMW/Honda 5-lug wheel adapter available separately (135-6631).

Specifications:

• Accuracy: 5g or 0.25oz. • Rim Diameter: 10"-24"

• Power Requirement: 110 Volt 60 Hz 1 Phase

· Data Entry: Keypad • Rim Width 1.5" - 16" • Shipping Weight: 359 lbs

• Motor: 1/2 H.P.

• Tire Diameter: Up to 30"

TIRE IRONS

A. FORGED STEEL

- 8 ¹/₂" long zinc plated tire irons
- One curved end, one straight end
- · Reduces marring of alloy rims
- · Sold with ten irons on a display

C/D. SPOON/PAIR

- Unique "spoon" shape on the end of this tire iron makes tire mounting and removal a breeze
- · Large curved end fits securely in the hand
- · Heavy duty silver zinc plated finish
- Small enough to fit in most fanny packs
- · Spoon set includes a handy vinyl carrying pouch

F. 11" PAIR

• Skin packed kit includes 1 pr 11" Tire irons

	Description	Sold	WPS#
Α	8½" forged steel	10/cd	57-5503
	8½" forged steel	Each	57-5500
В	Assorted	3/pk	57-8049
C	10" Spoon tire iron	Each	57-8115

B. **ASSORTED SET**

E. 8¹/₂" **FORGED**

- · Originally designed for professional Six Day Enduro riders
- Hot forged chrome vanadium steel
- 81/2" long, lightweight 4½"oz.
- Extremely easy to use

G. 15" CURVED TIRE IRON/EACH

- · Special design for easier tire changing
- Installation end will not abuse tire bead
- · Less risk of damaging tube or rim
- · Drop forged steel
- · Special removal end will force bead down into rim drop center
- An absolute must for manual tire changing

	Description	Sold	WPS#	
D	10" Spoon tire iron	Pair	57-8409

SAFETY WIRE PLIERS KIT

- 6" wire twisting pliers with return spring mechanism for easy safety wire twisting
- A must have for safety wiring your grips
- . Comes with 25' of .032 stainless wire

ERGO SPOKE WRENCHES

- Unique combination wrench design has 3-sided open end and semi-closed end
- Use open end for quick adjustment of spoke nipples and semi-closed end for those hard to turn nipples that require more torque
- Specially designed ergonomic handle allows larger turning radius and excellent grip and feel
- · Polished finish with laser engraved logo and size markings
- Limited life time warranty
- Patent pending

Description	WPS#	Description	WPS#
Set of 6	57-8526	6.5mm	57-8523
5.0mm	57-8520	6.8mm	57-8524
6.0mm	57-8521	7.0mm	57-8525
6.3mm	57-8522	Spline Drive	57-8580

RIM PROTECTOR

 Protects your wheel from scratches and dings caused by tire changing tools

 Retrieval cords are included for easy use

WPS# 57-0357

SPOKE WRENCH

- Features unique square end openings which grip the spoke nipple on all four sides instead of just two, assuring that the nipple corners are not rounded off during tightening
- With many nipples being made from aluminum or brass, this square tool is important
- Sizes are 6mm and 6.3mm which will fit most Japanese dirt bikes and many street models

TIRE BEAD STARTER

Solid

- All-in-one safe and effective answer to stubborn to seat street and ATV tires
- Works great on the largest ATV tires and up to 300mm street tires
- The expandable linked straps apply even seating pressure to tire beads without compressed air so it can be used in the shop or "out in the field"

WHEEL TRUING STAND

- TS-7M is constructed from heavy gauge steel
- Allows for extremely accurate and reliable wheel truing at an economical price
- For wheels up to 180mm wide and 740mm in diameter
- Uses axle

Description	WPS#	
Truing Stand	57-00730	
Axle Adaptor	57-00734	

MC310 3 IN 1 TRUING STAND

- The three-in-one truing stand from K&L Supply helps you make the most of your workspace. This tool allows you to perform the following:
 - Build and true spoke wheels
 - Check for runout on crankshafts, wheels and fork tubes
 - Balance spoke and mag wheels
- The MC310 features rugged construction throughout with ease of use being given priority.
- Note: Does not include Dial Indicator.

Description	WPS #
MC310 Truing Stand	235-9573
Indicator Arm Assembly	235-9577
Dial indicator w/ Magnet Mount	235-8421

MC305 WHEEL TRUING & **BALANCE STAND**

This portable wheel truing stand from K&L Supply works on all motorcycle wheel sizes from 14" to 21" wheels. Wheel can be mounted on adjustable centering cones or ball bearings (using axle) for truing and static balancing of wheels. Frame rails can be adjusted for wide rims/wheels. Lightweight, zinc plated press steel frame.

Economy stand available (includes rollers only).

Description	WPS #
MC305 Truing Stand	235-8621
Economy Truing Stand	235-8255
Ontional Ralance Shaft w/Tanered Cones	232-2479

PROFESSIONAL TIRE PRESSURE GAUGES

- Liquid glycerin filled gauge gives consistent readings regardless or temperature or elevation
- Pressure range of 0-60 psi for checking sport bike tire
- Liquid filled 2.5 inch dial gauge with protective rubber boot
- Blue anodized 6061 T-6 body with pressure relief valve
- High pressure hose with dual swivels and brass ball type air check

Description	WPS#	
0-60 psi	57-8402	
0-30 psi	57-8258	
0-60 psi (Digital)	57-8684	
Gauge Holder	57-8475	

Cruz (OOLS)

TIREPRO DIGITAL TIRE GAUGE

- Ideal for motorcycle and ATV use
- Large display, readings are shown to 0.1 psi levels, with bar, Kpa and Kg-cm2 scales also provided
- Reads up to 99 psi
- An ergonomic shape fits nicely in your hand

WPS#

TIREPRO GAUGE

- 12" flexible hose makes even hard-to-get-to valves an easy endeavor
- Built-in valve lets you "bleed" down to desired pressure
- Readings are in psi and Kpa (up to 60 psi)
- Dial is protected by a rubber boot

FIRE POWER.

TIRE VALVE REPAIR TOOL

- Inserts & removes valve cores & cores with broken swivels
- Cleans & recuts threads on both inside and outside of valve

WPS# 85-4106

AIR HOSES

Abrasion resistant with permanent "recoil memory". Swivel fittings ensure twist free action. Impervious to paint, solvents, and most chemicals. Withstands up to 200 psi and extends 20 times its stored length. Fitted with 1/4" male couplings at each end. Fittings sold separately.

AIR LINE FITTINGS

		WPS#
Α	Male adapter*	85-6153
В	Female adapter*	85-6159
С	Female coupler*	85-6152

* Above fittings are not interchangeable with other styles. Whenever ordering these fittings to match existing fittings, check this profile to make sure that you have the same style.

Male Adapter-1/4" male thread screws into blow gun, tire chuck, air wrenches, and many other air tools for quick disconnect when changing air tools on the same hose.

Female Adapter-1/4" female thead screws onto male threads commonly found on extension air hoses. Allows quick disconnect from coupler for use of air hose at another work station.

Female Coupler-1/4" female thread screws onto compressor or extension hoses. Coupler automatically shuts off air flow whenever adapters are not inserted.

WPS# 85-5112

BLOW GUN

This simple, rugged blow gun is reliable and efficient and will provide many years of service. The contoured design is comfortable in the hand. Note the handy hang-up hook. Has 1/4" NPT female thread. Male adapter sold separately.

TIRE CHUCK

Ball type air chuck fits standard bore valves. Has 1/4" NPT female thread. Male adapter sold separately.

	Description	WPS#	
Α	Standard chuck	85-5062	
В	Chuck w/lock clip	117-1113	

PRO FILL AIR CHUCK

- Pivoting angled head design allows access to difficult to reach tire valves
- Unique design provides added hand clearance between filler and hot brake rotors
- Billet aluminum construction for light weight and precise fit and function
- 1/4" NPT female inlet allows use of common air hose couplings and fittings
- Blue anodized finish with laser engraved Motion Pro logo
- Perfect complement for Motion Pro air gauges
- Patent pending

WPS# 57-8602

MVP PRO-TECH FOOT PUMP WITH GAUGE

 Equipped with a pressure gauge and durable air hose

 Multi-purpose: Inflates tires, toys, sporting goods and more

Compact design makes toting and storage easy

Cruz Tools

OUTBACK'R H13 FOR HARLEY-DAVIDSONS

The Outback'r H13 is a powerhouse of functionality. Included are three hex keys (5/32", 3/16", 1/4"), two Torx keys (T25, T27), slotted and Phillips screwdrivers, a socket driver with 3/8", 7/16", and 1/2" sockets, 10mm box and 9/16" open-end wrenches, plus a spoke wrench. At only 10 ounces and 3.5" long, even chopper riders won't have trouble carrying it.

FOLDING HEX/TORX KEY SET FOR H-D

Harley-Davidsons make regular use of hex and Torx fasteners, so we've assembled the most common sizes (5/32", 3/16", 1/4", 5/16", T25, T27, T40) into a compact fold-up unit. Forged from heat-treated chrome vanadium alloy and housed in a tough handle that allows multiple angles of use, even those hard-to-get-to fasteners shouldn't pose any problems.

WPS# 57-0008

MINI CHAIN PRESS TOOL

Inexpensive and toolbox sized

• Fits 520, 525 and 530

 Presses on side plates on standard and O-Ring chains

WPS# 57-8070

Pr

Description	WPS#

ess Plates Only	57-8067

MASTER LINK PLIERS

- Designed to simplify installation and removal of clip-type masterlinks
- One tip is shorter and notched to be placed on the pin while the other is longer to easily push the clip

57-8230

CHAIN ALIGNMENT TOOL

Tool aids in visual alignment of sprockets allowing accurate wheel alignment when adjusting rear chain. Tool body clamps to rear sprocket with alignment rod pointing directly to front sprocket, simply sight down alignment rod and move rear wheel until sprockets align.

WPS# 57-8048

PROFESSIONAL CHAIN TOOL

- · Machined from a solid billet of hardened steel
- Designed to withstand the rigors of a service department
- · Drives out pins and presses master links together

WPS# 69-9935

Description	WPS#
MODEL A - 520/52	5/530/630 CHAIN
Chain Breaker	57-5490
Replacement Punch	57-5491

Description	WPS#	
MODEL B - 420/42	8/520/525/530 CHAI	N
Chain Breaker	57-5495	
Replacement Punch	57-5496	

CHAIN•A•PART CHAIN **BREAKERS**

- Long, hardened-steel punch forces pin all the way out
- So precise it never harms adjacent links
- The secret is Smith Tool's patented clamping cylinder for perfect alignment
- Two models so there is a Chain-A-Part to fit all roller chain series from 420 to 630 chain
- Best buy in roller chain tools in America!
- Packed in a rugged hangable display case with instructions
- Heavy Duty/Shop Quality

JUMBO CHAIN TOOL

- Designed to break roller chain up to #630 (Fits all standard & O-ring chain sizes #520 to #630)
- Designed to rivet chain up to #530 (not #630)
- · Master link side plate press kit included to press on side plates up to #530 (not #630)
- · Screws and attachments are made from 86L20 steel and then heat treated for strength and durability

- · Extractor pin is firmly guided by removable guide, ensuring long pin life
- May be bolted to work bench, supported in vise or held by handle
- Bolted to solid surface, air or electric wrenches may be used to break chain
- Recommended for heavy-duty use
- Made in the U.S.A.
- Great for use with the 57-8142 Quad stake rivet kit

Description	WPS#	
Jumbo Chain Tool	57-8135	
Replacement Pin	57-8035	
OPTIONAL RIVET TO	OOL KIT	
Rivet tool	57-8142	

PBR (PRESS, BREAK, RIVET) CHAIN BREAKER

- Innovative design will Press, Break & Rivet 520, 525, & 530 chains with one convenient tool
- Versatile design will remove chain pins, press masterlink plates and rivet hollow nose & soft nose (quad stake) master link pins on O-ring and non O-ring type chains
- Easy to use design allows you to change tool functions by simply moving the position of the anvil block
- Indexing letters on movable anvil and body insures correct tool configuration. Simply line up the letter on the anvil to the letter on the body to get the configuration you need!
- All components conveniently store on tool when not in use
- All steel construction with heat treated components for strength and durability

Description	WPS#	
PBR Press	57-8470	
Replacement Pin	57-8470C	

OPTIONAL QUAD STAKE RIVET **TOOL KIT FOR JUMBO CHAIN TOOL**

- The perfect compliment to the 57-8135 Jumbo Chain Tool
- · Retain that factory quad-stake look
- Safely and properly peens soft-nose-type master link pin tip

FORK ALIGN TOOL

- Quick and easy to use tool for aligning front forks to ensure they are parallel from top to bottom
- Proper alignment reduces sticking, enhancing fork performance
- Knurled adjustment screws for easy setup
- · Reduces seal and bushing wear
- Will work on 27mm 62mm fork legs and tubes
- Works on forks that are 140mm to 220mm on center
- Patent pending

CHAIN MONKEY

Chain Monkey is the world's first tool designed to help you set the tension on your motorcycle's drive chain. The task of tensioning a chain can be a tedious and time consuming task, especially on motorcycles. But not anymore.

By using Chain Monkey, anyone can set their chain tension quickly, easily and with minimal knowledge required. From new riders through to experienced mechanics, Chain Monkey will simplify the task, optimize performance and save you money through its revolutionary, patented design.

Description WPS#
Chain Monkey 59-2801

BELT MONKEY

Belt driven motorcycles require the correct drive belt tension to ensure moving components are not over stressed, while providing a smooth and comfortable ride. Achieving the correct tension setting can often take numerous measurements and adjustments while taking up a lot of time.

Belt Monkey has been designed to eliminate the need for countless measurements and adjustments by achieving the correct belt tension first time, every time. Our tool enables riders to tension their belt quickly and with ease.

The simplicity of our product means that you are comfortable maintaining your bike yourself, regardless of experience.

MUCK MONKEY

With four brushed faces you can work dirt loose on every surface of your chain, even in those hard to reach places. The Muck Monkey is designed for regular use with a mixture of short and long durable bristles to remove even the toughest dirt.width.

- · Keeping your chain clean also:
- Prolongs the life of your chain and sprockets
- Increases performance by preventing dirt build up
- Keeps your bike looking fresh
- · Suitable for the majority of motorcycle chain makes and

WPS# 59-2804

CHAIN MONKEY LASER ALIGNMENT TOOL

Align Your Wheel and Sprocket Seamlessly with Laser Monkey.

The unique Laser Monkey alignment tool enhances the way in which wheel alignment and chain/ belt adjustment is conducted. Perfect for the every day rider, new riders and professional mechanics alike. A must have for any toolbox.

Adjusting the wheel using the markers on the swingarm is often time consuming and highly inaccurate as most swingarms are constructed using fabricated components. By using Laser Monkey, anyone can set their wheel alignment guickly, easily and with minimal knowledge of mechanics. From new riders through to experienced mechanics, Laser Monkey will simplify the task, improve performance and save you money through its revolutionary, patented design.

Laser Monkey provides precise wheel alignment for both chain and belt driven motorcycles, of any make and model, regardless of sprocket or pulley material. Suitable for on road and off-road motorcycles and belt drives up to 1.5 inches in width.

WPS# 59-2803

BRAKE CALIPER PISTON TOOL

WPS# 57-8591

MASTER CYLINDER SNAP-RING PLIERS

- Allows removal of internal snap rings used in hydraulic master cylinders
- Replaces 07914-SA50001 and AKS-316-2010
- Can be used to remove and replace small to medium internal snap rings up to 50mm deep, including those used for transmission gear locating, bearing retention, and seal retention
- Applicable to some fork seal retaining rings

57-8279

REVERSE BRAKE BLEEDER

- The tool that makes brake or clutch bleeding fast, precise and easy
- The patented Reverse Bleed Technology is what makes this tool so unique
- Removes more trapped air than any other bleeder
- The only system for those tough ABS units without a scan tool
- Allows you to refill and bleed a complete dry clutch or brake system
- Can be used on the machine or pre bleed on a bench
- The V-5 Bleeder is compatible with DOT 3,4 and 5.1
- The easiest one person tool ever used

ADJUSTABLE FORK SEAL DRIVER

 Adjustable fork seal driver, fits 38mm to 52mm fork seals.

RINGER FORK SEAL DRIVER

- Innovative design makes tool easier and safer to use than old fashioned pin aligned drivers
- Anodized aluminum locking ring features knurled finish for secure no-slip grip and positively locks body halves together during use
- No more worrying about part of the tool falling off and damaging the fork leg or hitting your feet
- Perfectly weighted to drive seals
- Body halves are machined from durable carbon steel and feature high quality protective black e-coat with laser engraved markings

Patent pending

FORK SEAL BULLET SET

- Protects the fork seal and wiper of inverted forks from damage by the bushing groove during installation
- Saves time by eliminating the need to wrap the fork tube with tape
- · Set includes all seven sizes
- · Each size is a different color
- Also available separately

Description	WPS#	
Set of 7	57-8282	
36mm red	57-8283	
41mm blue	57-8284	
43mm green	57-8285	
45mm yellow	57-8286	
46mm black	57-8287	
47mm white	57-8288	
48mm	57-0332	

FORK CAP NUT SOCKET FOR H-D®

- Use for removal and installation of the fork cap nut
- Fits most Big Twin, Sportster, and other models w/39mm or 41mm forks
- O-ring insert to help protect the top of the cap

Description	WPS#	
39mm forks	57-8139	
41mm forks	57-80305	

FORK SPRING TOOL FOR SPRINGER FORKS

- Assists in the disassembly and assembly of springer-type front forks on Harley-Davidson motorcycles
- Made in the USA

FORK OIL LEVEL GAUGE

- The perfect tool for checking or adjusting fork oil levels
- Works on any conventional or inverted fork
- Aluminum adjusting ring will measure from 0-300mm
- Syringe has a capacity of approximately 60ml

H-D® FORK SPRING COMPRESSION TOOLS

 Designed to install fork caps on forks with a large amount of spring pre-load

 Will work on most 39mm and 41mm Harley-Davidson forks

Docovintion

Reduces risk of damage to fork caps during installation

Description	WP5#	
39mm/41mm kit	57-8299	
39mm kit	57-80300	
41mm kit	57-80301	
REPLACEMENT PARTS		
Jackscrew	57-80302	
39mm adapter	57-80303	
41mm adapter	57-80304	
39mm fork cap socket	57-8139	
41mm fork cap socket	57-80305	

36MM AXLE SOCKET

 Facilitates loosening and tightening of hard to reach rear axle nut on H-D[®] baggers

• Fits 36 mm axle nuts

- Captive swivel extension with ½ inch drive
- Rated for up to 175 foot pounds of torque
- Durable plastic sleeve protects exhaust system
- · Lifetime limited warranty

Description	WPS#
de Socket 36mm	57-8635

INDEX

TEERING STEM TOOL FOR H-D

- · Removes and installs tapered roller bearing at base of steering stem
- Fits most Harley Davidson motorcycles with tapered roller bearing at base of steering stem
- · Durable black oxide finish with laser engraved logo
- Compact design to fit with steering stops on lower triple
- · Removal process requires cutting outer sheet metal cage from tapered roller bearing unit
- · Removes bearing without damaging steering stem
- · Bearing driver adapter installs new bearing without damage to bearing or steering stem

WPS# 57-8558

STEERING RACE REMOVER

- Makes head tube bearing race removal easy
- Tool is pulled through the steering tube until the flared ends snap in behind the race. A blow on the tool head removes the
- Tool fits most brands with 35-55 mm bearing races

Description	WPS#	
35-38mm	57-00726	
25-31mm	57-00727	

STEERING RACE PRESS

- HHP-2M easily and accurately presses steering head tube races, eliminating damaged or misaligned bearing races and helps prevent dented and chipped frames
- Unique design permits quick tool installation and release after races are seated
- Heat-treated bushing (included) provide a precise fit and alignment for most brands

STEERING TUBE BEARING INSTALLER

- · New safe approach to lower bearing installation
- Unique system utilizes specially designed aluminum inserts to guickly and accurately install nearly any lower bearing
- · Includes three specifically shaped aluminum inserts (1",1 1/8",1 3/8") and a heat treated, universal setting driver

57-00728

WORK STAND

- Designed to safely and securely hold round or odd shaped components
- 360° rotation of the clamp
- Two models bench mount and wall mount

Description	WPS#	
Bench mount	57-00702	
Wall mount	57-00703	
Repl. Jaw cover	57-00705	

PRESSURIZING SHOCK GAUGES

Brand	Description	WPS#
Motion Pro	Schrader valve type w/gauge	54-1560
Motion Pro	Needle adapter for Schrader type	54-1561
Motion Pro	Replacement Needle	54-1561RN

ALUMINUM VISE INSERT

- · Safe way to hold suspension shafts
- Holds from 7mm to 15mm shafts
- · Magnetic strips attach to vise iaws for easy. trouble free use

WPS# 57-00716

FIRE POWER.

MOTORCYCLE SHOCK SPRING INSTALLER

• Install shock springs in less than 30 seconds

· Dual shoe will work on right and left hand wound springs

· Heavy duty, shop quality

JET CLEANING TOOL

- · Priceless item to clean carb jets and small holes
- · Compact enough to keep in your toolbox.
- Ten pin sizes to clean most common jet sizes

WPS# 14-0020

Cruz Tools

SPRING PULLER

Tired of skinned up knuckles? Every mechanic or enthusiast/tuner should have at least one of these.

PROMOTIONAL REFERENCE INDEX

ELUXE PISTON PIN PULLER

- Interchangeable piston adapters for use on both long skirt and short skirt (slipper) pistons
- Fits all piston pins from 12 mm (1/2") to 24 mm (1")
- Made of 6061 aluminum with non-marring aluminum Short skirt adapter for (slipper) pistons adapters and durable blue anodized finish
- Patent pending

WPS# 57-8472

ADJUSTABLE TORQUE **WRENCH ADAPTER**

- Will work with 6mm (1/4") through 19mm (3/4") combination wrenches
- Heat treated steel with black oxide finish
- 3/8" square drive is rated for a maximum torque of 90 ft-lbs.

57-8380

AUXILARY TANK

For shop use when tuning with gas tank off bike; takes place of regular gas tank while running machine. Includes 4 feet of 1/4" fuel line and in line petcock. If using with fuel injected bike use a T-fitting and second fuel valve for return fuel.

WPS# 57-8032

NYLON FLEXHONE BRUSH

- · Ideal for high-performance engine building
- · Abrasive impregnated nylon bristles
- Does not enlarge more, but removes microscopic peaks and scuffs left after honing
- · Gives a superior plateau finish
- · Safe for use in 2-cycle engines
- · Designed for plated, cast iron bores
- Full range of bore size available

Description	WPS#	
45-57mm	39-6075	
57-70mm	39-6076	
63-76mm	39-6077	
76-89mm	39-6078	
89-102mm	39-6079	

PISTON PIN PULLER

Universal Piston Pin Puller easily removes all sizes of piston pins without any damage to pistons.

WPS# 12-1026

ALIGNMENT TOOL

· Used for tappet block and oil pump alignment (2 required)

• 1/4"-20 thread

Repl. 0EM 33443

Description Alignment Tool (ea) 820-53500

CARBURETOR LEAK DETECTOR

- · Check needle and seat holding pressure
- Track down leaking crankshaft seals and imperfections in crankcase surfaces

WDO

• This tool should be in every service department

Description		WF3#	_
30 psi	Mikuni	13-2767	_
100 psi	Mikuni	13-2768	
		16.1	

FIRE POWER.

VALVE SPRING COMPRESSOR

 Heavy-duty construction, economical price

 Comes with 19mm, 23mm, 25mm collars

Carrying case included

WPS# 57-8011

STETHOSCOPE

- · Helps to diagnose engine and bearing noises
- · Comes with extension

STONE-TYPE GLAZE BREAKER

- Full 2" to 7" range (50.8 177.8 mm)
 Controlled pressure assures positive, adjustable contact through full range
- 3 stones provide more cutting surface and assures quick removal of cylinder glaze
- Adjustable stop-collar permits quick selection of two range settings, from 2" to 4" and from 4" to 7", and serves as safety stop if tool is extracted from cylinder while turning
- · Operates with any electric drill
- Easily compressed with one hand to eliminate vertical scratches which might spoil the diamond cross-hatch pattern when removing tool from cylinder
- Furnished with 220 grit stones

Description	WPS#	
Glaze Breaker	39-1030	
3/PK Repl. Stone 280 Grit	39-1038	

VALVE SPRING COMPRESSOR

- Improved quick action design
- Replaces 07757-0010000 and AKS-215-1010 OEM tools
- Accepts Motion Pro adapters as well as OEM adapters 07GME-KT70200, 07JME-KY20100, and 07959-KM30101 for use in "shim under bucket" and small diameter valve spring keeper application
- Both cup-type and ball-type tips are included

DEGREE WHEEL

Manufactured from .052" thick with a 6¾" outside diameter and a 6mm center hole. The black anodized finish allows for easy to read increments. This degree wheel can be used on all 2 cycle engines to check or setup the port timing or ignition timing. May be used on 4 cycle engines to check or adjust cam timing or ignition timing.

WPS# 57-8092

CAM INSTALLATION KIT

Includes degree wheel, dial indicator, adjustable magnetic stand, three positive stops (10mm, 12mm, 14mm threads) in a wooden case

Motion Pro

COMPRESSION TESTER

10, 12, 14 and 18mm screw-in adapters on a 12" flexible hose and air release quick-coupler make this tester fast and easy to use in testing snowmobiles, motorcycles, chain-saws, lawn mowers and outboards.

WPS# 57-8188

4-STROKE LEAK DOWN TESTER

- Designed to check the amount of cylinder leakage in a 4-stroke engine
- With an air source of 70 to 160 psi. this system will pressurize the cylinder with 60 psi. of air
- Gauge will register the total percentage of leakage past the rings, head gasket, intake and exhaust valves
- 10, 12, & 14mm spark plug thread hoses, regulator and gauge included
- Speeds up troubleshooting and helps to isolate bad components
- Made in the U.S.A.
- · Packed in a convenient carry box, complete with instructions

Description	WPS#
4-Stroke leak down tester	57-8126
Replacement 10mm Hose	57-8126X
Replacement 12mm Hose	57-8126Y
Replacement 14mm Hose	57-8126 Z

OIL FILTER MAGNET

- · Easy to install, just attach to base of standard oil filter
- Standard oil filters only trap particles down to 20 microns, leaving the most harmful 5 to 20 micron particles to circulate through your engine
- Powerful six point magnet traps harmful, abrasive hard metal particles down to 1 micron that regular oil filters don't
- No gimmick, these things really work to reduce wear, and significantly increase engine life
- Makes any oil filter better than a high performance oil filter
- · Reusable for up to 5 oil filter changes

Description	WPS#
Fits 23.8mm and 15/16" hole filters	57-10083

SNAP RING PLIERS

- Economical pliers that easily work on both inside and outside opening snap rings or clips
- Includes 3 extra sets of tips, 1 additional straight tip and 2 offset or angled tips

OIL FILTER STRAP WRENCH

- · Fits all spin-on type oil filters
- Use with 3/8" drive ratchet handle
- · Easily loosens tight filters
- · Fits into hard to reach locations
- Can be used to loosen or tighten cylindrical shaped parts

Application WPS# Cloth Strap 57-8000

ROCKER BOX COVER WRENCH

- Designed to reach hard to get 3/16 in. allen on the rocker boxes of Big Twin, Sportster & Buell motorcycles
- Features a 3/8" drive for use with torque wrench
- · Vinyl cover offers comfort and minimizes chances of damage to finished surfaces

H-D® PUSHROD TOOL

- · Designed to remove and install the clip on Harley-Davidson collapsible push rod tubes
- Flat portion of tool fits under the cylinder head while cupped end fits over the bell in the tube and then compresses the spring allowing for easy access to the spring cap retainer
- No more cut knuckles & scratched engine parts from using a screwdriver between the fins

PRO CLUTCH ADJUSTER TOOL FOR H-D

- For use on all 1998 and later models excluding applications with hydraulic
- Deep socket allows tool to recess into clutch basket and can be driven with 11/16" combination wrench or adjustable wrench
- Through hole allows access with hex wrench to hold clutch adjuster screw while simultaneously tightening the adjuster lock-nut
- · Compact design fits easily in the saddle bag or tool wrap

57-8548

CLUTCH HOLDING TOOL

Designed to hold clutch baskets, flywheels, gears, sprockets, etc. Jaws open to 5 inches wide. Made of medium carbon steel with hardened jaws. A very useful tool for holding any kind of mechanical work.

SIDE CASE COVER PULLER FOR H-D®

- Used to remove the right side-case cover
- · Will fit late model Harley-Davidson motorcycles, including all 1970 and later Big Twin models and 1990 and later Sportster models
- · Includes bracket, puller bolt and set screws
- · Made in the USA

57-8153

TAPPET TOOL FOR H-D®

- For use on big twin (excluding twin cam) with slotted screw tappet oil filter screen cover
- Designed for use with 7/16" combination wrench to allow for maximum rotation without touching engine cases
- · O-ring design retains the tool in wrench or socket
- · Flange design allows downward force to be applied to tool
- · Can be used without removing exhaust pipes on most bikes
- · Tappets should be serviced every oil change

BAKER TOOLS

MAINDRIVE GEAR AND BEARING SERVICE KIT

- This kit is required for removing the old maindrive gear and bearing and installing the new ones
- The designs of these tools are based on the standard Harley tools but adapted to service left side drive 5 & 6 speeds and right side drive 5 & 6 speeds
- The steel components of this service kit are hard chrome plated and polished
- The aluminum components are anodized candy apple red. Includes very detailed tool sequence instruction sheets.

PULLEY NUT LOCKING TOOL

- The pulley locking tool is clamped to the pulley as shown and prevents pulley rotation while torqueing the 1-7/8" pulley nut to the proper factory spec. of 50ft-lbs + 35 degrees
- · Anodized candy apple red, works on 29-34 tooth pulley's

INNER PRIMARY RACE SERVICE KIT

- This kit is required for removing and installing the inner primary bearing racel
- Big Twin models from late 1984-up
- The inner race must be removed to slide the gearset out of the case
- This tool is based on the standard Harley tool but adapted to service left side drive 5 & 6 speeds and right side drive 5 & 6 speeds

PULLEY NUT SOCKET

- The mother of all pulley nut socket wrenches
- Its made from one piece of bar stock and hard chrome plated for a super tough finish
- The throat of our wrench is deeper than other wrenches to enable service work on Right Side Drive 5-Speed and 6-Speed transmissions

Description	Application	WPS #
Maindrive gear and bearing service kit	`87-06 Big Twin (exc. `06 Dyna)	821-1112

CLUTCH SPRING TOOL FOR H-D®

• Fits most Harley-Davidson Big Twin models from '90-07 and all XL 883cc

- XL 1200cc models from 91-01 & all Buell models 95-01
- · Sold as a kit
- Replaces H-D OEM number HD-38515A

WPS# 57-8137

BELT TENSION GAUGE

- · Compact design
- Scale for easy reference
- Designed to work with all belt drive models with a 10 lb. specification
- Replaces H-D® OEM #40006-85
- · L shaped pad fits all belt sizes

57-80350

MAGNETIC FINGER GLOVE

- · Holds small metal objects
- · Great for starting or removing fasteners in hard to reach places
- · 2-way stretch spandex
- · Leatherette bottom and fingertip
- · Stretch finger panels

Description	Sold	WPS#
Magnetic finger glove	ea	57-10016
Magnetic finger glove	6/card	57-10015

REAR WHEEL ALIGNMENT **TOOL FOR H-D®**

- · For use on Softail, Sportster, and Dyna
- Designed to help set rear wheel alignment
- · Fast, accurate and easy to use
- Eliminates the need to use a tape measure
- Proper wheel alignment extends chain/ sprocket and belt life

WPS# 57-8368

- Bendable housing retains its shape to access hard to reach
- Powerful magnet

areas

- Low profile tip fits in tight spaces
- 18 inches long
- Protective rubber coating won't scratch aluminum or plastic surfaces

WPS# 57-8652

ROLL-UP POUCH

A very rugged roll-up pouch constructed of Ballistic nylon, with eighteen pockets of varying width at two heights to accommodate a wide range of contents. Two lower pockets have a mesh cover with a hook and loop fastener closure to hold small or loose items in place. A strip of reflective material is sewn into the back in case you're stuck on the road at night. About 9.5" high by 16" wide when open.

 Convenient kit includes 80 or 85 pcs of hardware and a convenient fuel line clamp size chart

- 80pc kit includes a Motion Pro Side Jaw Pincer tool
- Warning: not for use with fuel injection systems
- Kit includes following items packed in a convenient storage box:

STEEL O-CLIPS

- Ideally suited for clamping vinyl or Nitrile fuel line to fittings
- One piece construction assures positive clamping action without damage to the hose
- O-Clip pincer tool is made specifically to install and to remove the clips

STAINLESS STEEL HOSE CLAMPS

- Made of corrosion-resistant stainless steel
- Conventional-type worm drive hose clamps
- 1/4" hex head with screwdriver slot
- Sold in packs of 10

Description	Pack	WPS#
For 1/4"- 5/8" hose	10/pk	12-0022
For 7/16"- 25/32" hose	10/nk	12-0023

The state of the s

FUEL LINE CLAMPING PLIERS

- Clamps fuel and vacuum lines 1/8" to 3/8"
- Specially designed jaws will not damage internal hose lining

*Adhesive lined heat shrink tubing is ideal for producing a strong, weather tight seal. The inner adhesive wall melts and flows, creating an adhesion layer that ensures a snug fit and seal.

SAW GUIDE

- Ensures a straight, clean cut on handlebars and tubing from 1" to 11/4"
- Simply clamp onto the tube and cut, letting the Saw Guide guide the hacksaw blade
- Built with a non-scratching body and heat-treated steel cutting plates to withstand the rigors of daily shop use

WPS# 57-00715

DELUXE TEAR DOWN TABLE

This steel workbench is great for the home or business. The 14 gauge top has a 3/4" rim to contain liquids and capture leaking fluids when working on hydraulic systems and transmissions. Fluids drain into the removable polyethylene drawer for easy dispensing.

The convenient adjustable lower shelf organizes your tool storage. The drawer features a cylinder key locking system with full-extension ball bearing sliders to keep your valuables safe. Tough powder-coat finish resists rust, chips, and scratches. Made in USA.

- Adjustable working height of 37" to 41"
- Heavy duty 4" casters (2 rigid & 2 locking swivel)
- 14 gauge 48" x 28" table top with 3/4" rim
- Removable 20" x 12" x 6" polyethylene drawer
- · Adjustable lower shelf
- Heavy duty 24" x 18" x 5-1/2" locked drawer
- Weight 180 lbs

To order Handy drop-ship items:

- 1.) Call toll-free order line and request freight quote
- 2.) Form with freight quote will be faxed to dealer
- Sign freight quote form and return to WPS (use toll-free order entry fax line 800-326-3813), order will be placed and drop-shipped
- 4.) These items are not included in free freight policy, freight will be added to billing
- 5.) Dealer will be billed when WPS receives mfg's invoice
- COD dealers must prepay or use credit card before ordered from mfg. Freight will be billed separately
- 7.) These are special order items and cannot be cancelled

Tear Down Table	27-1150

NOT INCLUDED IN OUR FREE FREIGHT PROGRAM

F.O.B. lowa factory. Shipped direct.

PORTABLE WORKBENCH

- Folds for easy transport and storage
- Perfect for races or the garage
- Features a large work surface (91.5cm x 58.5cm) with specialty slots, holes, and recesses to hold tools, lubes, beverages and whatever you can think of
- Folding steel legs provide a solid base for a toolbox and supplies
- Dolly kit converts the work bench into a two wheeled hand truck

STRIKER GARAGE LIGHT

- Installation is as easy as screwing in a light bulb
- 3000 lumens 3.8 times the brightness of a 60 watt bulb
- Light source is adjustable to focus light where you need it
- Only draws 25 watts of power
- Motion activated

DROP LIGHT

Quickly transform from a 360 degree drop light, into an omni-directional shop light, and any light pattern in-between. This adaptability offers a wider variety of more useful light arrays in comparison to traditional lighting.

- Up to 360° lighting
- 3000 True lumens
- Low 24 watt power consumption
- Durable Survives drop test on concrete
- Average life +50,000 hours of light or bulb

Description WPS#

Drop Light 05-1074

ROVER MINI TASK LIGHT

The Rover is a rechargeable mobile task light that is designed to be lightweight, durable, easily packed, and flood a room, work area, or campsite with usable hands-free light

- 1200 lumen, Dual focus lens
- Micro-USB Rechargeable, Dual Lithium-ion battery technology
- 4 light modes (high, medium, low, strobe)
- Battery level indication, via button when ROVER is turned off
- Adjustable Aluminum Head with Steel ExoSkeleton
- Hanging Hooks, and Universal camera tripod mount

4" x 7.5' rubberized Clear	10-2313
4" x 7.5' rubberized Black	10-2313BK

· Great for steps, ramps, running boards and more

Rubberized Clear

· Rubberized version works great for dirt bike applications - will not tear up clothing and boots

SURFACE GUARD TAPE

- Clear protective 8 mil thick urethane tape with a release liner
- Protects surfaces prone to scratching, chipping, and weathering
- · Great for fenders, hoods, tailgates, frames, and most any other surface
- · Attractively packaged for retail sale

Description	WPS#
2" x 10'	10-2330
4" x 10'	10-2331

BARRICADE TAPE

- · Non-adhesive checkerboard design is great for marking off pit areas
- · No more trash cans or folding chairs to save your spot

Description	WPS#	
3" x 1000'	10-2320	

X-TREME TAPE

Bluhm Enterprises has another great motor sports accessory (tool). This product was researched and is made for NASA. It is now perfected as a great emergency repair option. Each roll of X-treme tape is a high strength polimer plastic that fuses to itself-NO adhesive, so it is not sensitive to cold, heat, or rain. This is NOT electrical tape!

- 10 foot roll, has 3:1 stretch ratio
- 1" wide 20 mil thick
- Withstands heat up to 500°F(260°C)
- Flexible down to -60°F(-54°C)
- Tensile strength of 600psi
- Insulates up to 400 Volts/Mil
- MADE IN USA!!!

WPS# 10-2336

APRON

- Specially designed for the professional mechanic!
- Offers greater convenience and added protection
- Wrap around design protects clothes better
- Made from 1000 Denier Belcor fabric
- Genuine hook and loop fastener pocket closures and adjustable

1-inch wide neck plus waist straps with buckles

• Machine washable

Mens	27-1384

ORIGINAL HIGH ABRASION GLOVE

Improved Design. When you need sturdy, you need our redesigned Original Plus Glove. We started by improving traction with a raised pattern to maximize the thumb and finger grip. From there we added a two-way, form-fitting Spandex back and stretch insert panels between the fingers for comfort, and an index finger knuckle reinforcement band for protection. Finally we integrated an improved cuff and thumb fit to provide for easy entry and increased flexibility.

ORIGINAL BAR - HARNESS

Not for use on high rise or rubber mounted bars

- Eliminates the use of hooks on the motorcycle while transporting
- Made from 5,500 lb and 12,000 lb test nylon webbing
- Slip nylon cuffs over grips, tug on cross straps and hook into loops
- Cross straps are covered with a sleeve of soft polar fleece to protect the tank from chafing
- The patented Bar harness is the safest way to tie down motorcycles securely without using hooks directly on the bike
- Short fits bars up to 28" wide, Standard: up to 32" wide and Wide: up to 34" wide

TOW AND STOW KITS

Our new TOW & STOW Anti-theft Lock Kit is an all-in-one towing solution. Imagine using one key to lock your hitch and trailer when towing and storing. Security and convenience in one package. Plus, it's a great value. Two models to choose from. Made in USA.

Model 57-9681 for 1-7/8" & 2" couplers includes:

- TCL1-AS BLOCKHEAD Trailer Coupler Lock for unattended trailers; Fits 1-7/8" & 2" flat lip couplers (3-3/4" max width)
- RC1 Adjustable Trailer Coupler Latch Lock. Adjusts from 1/2" to 2-1/2" opening
- RH3 Receiver Hitch Lock. 5/8" diameter. Fits all Class III and IV hitches
- Two keys

Description	WPS#	
Tow & Stow Kit 1-7/8" and 2"	57-9681	

Model 57-9862 for 2" & 2-5/16" couplers includes:

- TCL3-AS BLOCKHEAD Trailer Coupler Lock for unattended trailers; Fits 2" & 2-5/16" flat lip couplers (4-1/2" max width)
- RC1 Adjustable Trailer Coupler Latch Lock. Adjusts from 1/2" to 2-1/2" opening
- RH3 Receiver Hitch Lock. 5/8" diameter. Fits all Class III and IV hitches
- Two Keys

Description	WPS#	
Tow & Stow Kit 2" and 2-5/16"	57-9682	

UTILITY TRAILER

The K&L Universal Transportation/Utility Trailer is the perfect solution for transporting motorcycles, ATV's, wide UTV's, Golf Carts and more. The unique air bag system raises and lowers the trailer bed to prevent vehicles from high centering.

- Stand & roll design for easy storage
- Automatic lifting deck for loading & unloading
- Built in air compressor for trailer height adjustment and tire inflation
- Adjustable/removable wheel chocks
- Transport up to 3 motorcycles, 2 ATV's or 1 UTV
- Wide base to fit the largest UTV's and golf carts
- Deck dimensions: 103" long x 69" wide
- 2,500 lb capacity

Shipped direct from K & L warehouse in California, NOT INCLUDED IN OUR FREE FREIGHT PROGRAM

DRIVE IN TRANSPORT SYSTEM

• Drive in - strap down - drive away

- The safest system
- The easiest to use system
- Simple one person application
 - Trailer or pick up use

Description		WPS#
Offroad / Bicycle	Α	52-2648
Road Bike Complete Kit inc. B&D	В	52-2649
Road Bike Front	C	52-2640
Rear Tie-Downs	D	52-2646
Replacement Front Strap		52-2642

PIT STOP WHEEL CHOCK

Make your life easier with the Pit Stop/Trailer Stop. Just place it in your garage, and ride your bike right into it - no kickstand required. Now the bike takes up less room in your garage because it sits upright, and you can check the fluids, service it, or use it outside to wash and detail your

When the time comes to trailer your motorcycle, the Pit Stop/Trailer Stop simply snaps into the Trailer Adaptor Kit (290-01002) that mounts to the floor of your trailer, and you're ready to secure your motorcycle for safe transporting. The chock will hold your motorcycle so securely, only one person is needed to load and unload any bike, and only two tie-down straps are required. And you won't damage your sensitive suspension parts because you never need to overtighten your straps. If you are transporting your bike in the back of a pick-up truck, you don't even need our adaptor kit. Just place the chock up against the front of the bed, and simply tie the bike from its mid-point towards the front of the truck bed, and you're good to go.

The patented adjustable cradle fits ALL bikes from dirt bikes and sportbikes, to cruisers and heavy touring bikes, and anything in between, up to 3,000 lbs. It will work on front and rear tires from 14" to 22" and 80mm to 230mm. The Pit Stop is also perfect for racers and track day riders, since you can haul your bike to the track in the chock, and then take the Pit Stop out of the trailer and use it as a track stand.

The Scooter Pit Stop/Trailer Stop works with scooters and smaller motorcycles with wheel diameters ranging from 8" to 16" and tire widths from 80mm to 120mm.

The CONDOR® Pit-Stop/Trailer-Stop is made of light weight aluminum, weighing only 30 lbs., and folds down for easy storage.

3 FT. AERO TRACK KIT

AERO-TRACK is the all new anchoring system from Powertye. It offers a clean, finished look that works great in trailers and truck beds.

- Great for both trailers and truck beds
- Curved profile for easy roll-over
- High-Strength Aluminum Construction
- Sleek, finished look

Pack includes:

- 2 X 3ft Aero-Tracks
- 2 X Aero-Track Standard Connectors
- Mounting Hardware (8 pcs 1" Screw & Nut)

Description		Description	WPS#
	3ft	Aero Track Kit	29-3081

5 FT. AERO TRACK KIT

- This special Heavy Duty Pack comes with TWO 5ft Aero-Tracks, FOUR Aero-Track Heavy Duty Connector Rings and Mounting Hardware.
- · Pack includes:
- 2 X 5ft Aero-Tracks
- 4 X Aero-Track Heavy Duty Connectors
- Mounting Hardware (14 pcs 11/4" x 1/4" Metal Bolt + Nut)

Description	WPS#
5 ft. Aero track kit	29-3080

- Quick-Release system with Extra-Wide Thumb Grips for easy one-handed mounting
- Compatible with all Aero-Track mounting points
- 11/4" Diameter O-Ring
- 500 lb. Load Rating
- H-D Aero Connectors
- · Extra-wide release lever for easy adjustment
- Compatible with 3ft and 5ft Aero-Track mounting points
- 11/2" Diamter O-Ring
- 1,000 lb. Load Rating

E-TRACK KITS

E-Track is a heavy-duty modular anchoring system. great for anchoring larger loads like motorcycles and other vehicles.

- Made of High-Strength 12-Gauge Steel
- Silver Zinc-Plated
- Compatible with all E-Track Fittings
- Great for personal or commercial trailers
- 5" wide

This **E-Track Plate** is a great addition for any existing E-Track setup. Offers 2 extra E-Track mounting points wherever you need them!

- Fits Standard and Heavy Duty E-Track Clips
- Sloped Edges for Easy Rollover
- High-Strength Steel Construction

Kit Includes:

- 1 x E-Track Floor Plate
- 1 x Optional Rubber Spacer
- 4 x Carriage Bolts, 2" x 3/8"
- 4 x Large Washers, 21/2" wide

Our E-Track Clips w/D-Rings are perfect for securing everyday cargo into the E-Track system

- 3,000 lbs. Heavy Duty Rating
- Compatible with all E-Track mounting points
- · Quick release mechanism allows for easy adjustment

Our E-Track Heavy Duty O-Ring is perfect for securing heavier cargo into the E-Track system.

- 6,000 lbs. Heavy Duty Rating
- Compatible with all E-Track mounting points
- · Quick release mechanism allows for easy adjustment
- 11/2" Diameter O-Ring

E-Track Rubber End Caps protect your E-Track ends in style. Fits all Horizontal-style E-Tracks

- Made of durable, high-impact rubber
- Fits Horizontal E-Tracks
- Prevents things getting caught underneath
- · Gives your E-Track a clean, professional look

INDEX

TREKKER

STANDARD

ECE/DOT approved

CONSTRUCTION

- · Durable and lightweight polymer shell
- · Dual-density EPS (Expanded Polystyrene) liner
- · Two shell sizes

VISION

- Optically superior clear face shield with a durable hard coating for scratch resistance
- · 100% UVA/B protection up to 400 nanometers

SHIELD LOCK

- Visor and shield integration places the shield out of the line-ofsight in the raised position
- Shield is designed to accommodate goggles and goggle straps when in the closed position

Easy shield changes: quick, secure and tool-less removal and installation

COMFORT / LINER

- Removable and washable interior Qwick-Dry® comfort liner and cheeks pads
- · Hydrophilic liner absorbs sweat and is perforated to provide plenty of ventilation

VENTILATION

• All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

INCLUDED ACCESSORIES

- Highly visible 3M reflective stickers for increased visibility
- Side-plate covers included for street helmet configuration with the visor removed
- · Soft fleece helmet bag

See page 1150-1156 for helmet replacement parts

TOURIST

STANDARD

· D.O.T. approved

CONSTRUCTION

- · Durable and lightweight poly alloy shell.
- · Removable clip-in jaw piece.
- · 2 shell sizes.

VISION

- Optically superior clear face shield with Anti fog coating and durable hard coating for scratch resistance. 100% UVA/B protection up to 400 nanometers.
- Large eye port for improved range of vision.
- Easy shield and peak changes - quick, secure and tool - less removal and installation.

COMFORT / LINER

- Coolmax® comfort liner and cheek pads move moisture away from your head and the fabric dries quickly.
- Removable and washable interior.
- Removable chin curtain and breath box.
- Deluxe oversized ear cavities that include integrated speaker pockets for communications systems.

· High-Flow ventilation system. 2 adjustable intake vents. 2 passive intake vents. 2 adjustable exhaust vents. 4 passive exhaust

INCLUDED

- BONUS tinted shield with Anti fog coating and durable hard coating for scratch resistance. 100% UVA/B protection up to
- BONUS peak visor for use
- Soft fleece helmet bag.

ACCESSORIES

- Optional clear double lens shield available for extreme cold weather use. P/N - 73-88605

INDEX

FF-49

With it's aggressive styling and super light weight, the FF-49 proves that great quality doesn't have to come at a high price. The FF-49 comes with many features you would expect on more expensive helmets. Such as a comfortable Coolmax interior, 100% UV400 Protection shield and effective ventilation system.

DOT Approved

- DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® fabric wicks moisture away from your body and dries quickly
- Removable, adjustable and washable Coolmax® interior allows for easy cleaning and custom fitting
- Intake and Exhaust vents aligned with superior channeling to maintain a constant airflow to help pull in fresh air and removed hot air.
- 100% UV400 protection from the anti-scratch face shield which is hard coated for a longer lasting clear view
- Large eyeport for improved range of vision
- Lightweight Poly Alloy shell- only 3.2 lbs. in medium shell
- Intercom Compatible

REFERENCE

FF-88

From the outset, the FF-88 was designed for the performance enthusiast. With its aerodynamic shape, SpaSoft Coolmax® interior, and lightweight shell, GMAX gives you the perfect helmet for taking on your favorite back road. The ECE rating gives you the assurance that this helmet has been certified by the leader in "world standard" safety equipment testing.

• ECE / DOT Approved

- SpaSoft® DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable and washable Spa Soft Coolmax® interior allows for easy cleaning and custom fitting
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce temperature by allowing hot air to escape from the top of the helmet
- Low profile intake and exhaust vents
- Vents securely close to completely seal out the cold
- Lightweight Poly Alloy shell. Large size is only 3.3lbs.
- UV400 100% protection from the anti-scratch, hard coated face shield for a longer lasting clear view
- Breath deflector and chin curtain included
- Intercom Compatible

GM-38

The GM-38 proves that quality doesn't have to break the bank. With standard features like a quick change shield, snap in chin curtain, and GMAX's D.E.V.S. anti-fog system, the GM-38 is the best bang for your buck in the GMAX line.

DOT Approved

- Large eyeport opening for greater visibility
- Optional outer flip tint sun lens
- Quick change shield
- GMAX reduced noise design; specially designed cheek pads, neck curtain, optimal shield sealing and deluxe venting reduce unwanted noise
- D.E.V.S. GMAX anti-fog system, "Dual Exhaust Venting System" side intake and exhaust vents draw heat and moisture away from the shield area out of the helmet
- Adjustable chin vents direct air upwards across the inside of the shield to help reduce fogging
- Deluxe ear pockets for better fit and speaker installation
- Intercom Compatible

GM-49Y YOUTH

Kids know riding is fun and GMAX makes it even more fun with the GM-49Y. With the availability of three interchangeable interior sizes, the helmet can be custom fit to make the child safe and comfortable. Parents will be happy knowing that their little one is protected in a light weight, DOT approved helmet that they will love wearing.

DOT Approved

- One shell can be adjusted to three different sizes so the helmet can grow as your child grows
- Removable, adjustable interior and cheek pads allow for custom fitting and easy cleaning
- Snap-in removable chin curtain
- · Intake and Exhaust vents aligned with superior channeling to main a constant airflow to help pull in fresh air and removed hot air
- Quick change "Maximum Seal" shields available in single and anti-fog dual lens
- Large eyeport for improved range of vision
- Lightweight Poly Alloy shell less than 3 pounds
- Intercom Compatible

MD-01

GMAX's New MD-01 Modular is the perfect helmet for cross-country adventures. With eleven vents and a Coolmax liner, you are sure to be comfortable even on the hottest of days. The integrated LED light helps to insure you are seen by traffic. The ECE rating on the MD-01 gives you assurance that this helmet has been certified by the leader in "world standard" safety equipment testing.

MD-04

The MD-04 Modular is the perfect lightweight helmet for cross-country adventures. The MD-04 has all the essentials, including a list of standard GMAX features normally only found on more expensive helmets.

DOT Approved

- DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly
- Removable, adjustable and washable Coolmax® interior allows for easy cleaning and custom fitting
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce temperature by allowing hot air to escape from the top of the helmet
- · Vents close to completely seal out the cold
- Adjustable mouth vent directs air upward across the inside the shield to help reduce fogging
- Lightweight Poly Alloy shell. Large size only 4 lbs.
- Easy to use chin bar with push to open mechanism designed for use with gloves
- 100% UV400 protection face shield that comes antiscratch hard coated for a longer lasting clear view
- Intercom Compatible

OF-77

The OF-77 features the all new SpaSoft Coolmax interior which combines the moisture wicking properties of Coolmax® with the anti-microbial properties of bamboo. The OF-77 is like having two helmets in one. It offers the comfort of an open face helmet with the ability to quickly and easily convert into a full face helmet with the installation of the optional snap-in jaw piece.

DOT Approved

- SpaSoft® DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable, washable Spa Soft Coolmax[®] interior allows for easy cleaning and custom fitting
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce temperature by allowing hot air to escape from the top of the helmet
- Vents close to completely seal out the cold
- 100% UV400 protection from the anti-scratch hard coated face shield for a longer lasting clear view
- Tinted inner sun shade with anti-fog coating
- Lightweight Poly Alloy shell. Large size only 3.2 lbs
- Speaker pockets for communication systems

REFERENCE INDEX

GM-45

The GM-45 is our bare knuckled no frills helmet. We dropped the extras of the GM-65 without leaving out what really matters. All of the quality of our premium half helmets in a lightweight low profile package.

DOT Approved

- Removable, washable Coolmax® interior allows for easy cleaning
- · Comfort liner, shell and EPS designed for maximum venting without reducing the integrity of the helmet

GM-35

With its three snap visor, the GM35 is one of our most versatile helmets. You can choose between a traditional cruiser look with its included sun visor and neck curtain or opt for the naked look by removing both. The three snap gives you the option of installing a variety of shields and visors to suite your personal style and riding conditions.

DOT approved

- DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly
- · Adjustable forehead vent for increased ventilation
- · Removable neck curtain for cold days also has pockets for intercom
- Snap on sun visor allows for a variety of shields and visors to be installed

EXO-R2000

Featuring Scorpion's TCT® composite shell construction, the lightweight EXO-R2000 was engineered with input from MotoGP™ riders, tested both on the track and the lab. This is our top of the line helmet and includes the Ellip-Tec™ ratchet system that ensures a tight seal around the face shield while the aero-tuned ventilation system enhances airflow throughout the helmet. the aerodynamic shell design minimizes high-speed buffeting, six EPS shell sizes and the Airfit® cheek pad system delivers a customizable snug fit. The EXO-R2000 is also equipped with quick release cheek pad system and an Everclear® no-fog coated face shield. Pinlock® Maxvision® flat shields with tear off posts are also available as an accessory for the track.

Score K

- 5 Year warranty
- DOT/Snell Certified
- TCT lightweight composite shell with dual density EPS
- Aero-tuned ventilation
- Everclear® No-fog face shield w/ vent/lock lever and Ellip-Tec™ ratchet system

SOURIE D

By combining state-of-the-art engineering, manufacturing, and materials into a sleek aerodynamic chassis, the EXO-ST1400 is one of the lightest helmets in its class, weighing in at 1,383 grams (3.05 lbs). The ST1400 also offers the ride-specific versatility of an integrated SpeedView® Sun Visor, AirFit® Custom Fit System, Comm-Ready convenience, and Aero-Tuned Ventilation.

• ECE/DOT Approved

- Resin-infused TCT-U[™] 3K carbon fiber composite weave shell
- Refined aerodynamics resulting in a streamlined and balanced profile
- Adjustable, venturieffect ventilation system. Airfit® custom fit liner inflation system
- Comm-ready speaker pockets for installation of BlueTooth® communication system speakers
- KwikFit® 3D sculpted cheek pads accommodate eyeglasses
- Washable and replaceable Kwikwick® III anti-microbial interior

- Emergency quickrelease cheek pad system with integrated reflective piping
- Everclear® no-fog treated, Speedview® internal sun visor
- Everclear® no-fog treated face shield with center locking mechanism
- Additional Pinlock® MaxVision shield and Pinlock® anti-fog insert included
- 2-axis, Ellip-Tec[®]
 Il ratchet system
 with integrated "City
 Position"
- Weight: ± 1,383 grams / 3.05 lbs. (size large)
- 5-Year warranty

EXO-T1200

Combining MotoGPTM inspired technology with the demands of long-distance riders, the EXO-T1200 is an ideal solution for touring riders who demand premium features in a full-coverage helmet, starting with an aerodynamic profile for stability at speeds, the VSVTM ventilation system is designed for maximum airflow and is the reason the T-1200 has gained a reputation as the best ventilated helmet on the market. The external shell is made of our proprietary TCT® composite fiber for strength, the interior liner features our Airfit® cheek pad inflation system for custom fit and comfort, the internal Everclear® Speedview® drop-down sun visor is convenient when riding in bright sunlight, for long distance, all day touring, the T-1200 is an excellent choice. Clear face shield included, dark smoke and other face shield options are sold separately. Pinlock® Maxvision® flat shields with tear off posts are also available as an accessory for the track.

- 5 Year warranty
- DOT Certified
- TCT lightweight composite shell with dual density EPS
- 3-Step Everclear® Speedview® drop down sun visor
- Everclear® No-fog face shield with vent/lock lever and Ellip-Tec™ ratchet system
- Quick release cheek pad system
- Communication speaker pockets
- VSV[™] (Venturi super vent) ventilation system
- Kwikwick® III washable antimicrobial comfort liner
- Kwikfit® cheek pads accommodate eyeglasses and Airfit® inflation system

EXO-R420

The EXO-R420 helmet continues to set a new standard for Scorpion EXO®'s full face street helmets at a very competitive price point. An all new shell is more aerodynamic and smaller resulting in an ultra-lightweight Snell-approved helmet. The ventilation system uses a large top vent and mouth vents engineered to allow more airflow to the rider's head while maintaining low noise levels. The EXO-R420 now features our new Ellip-tec™ II face shield with a latching shield locking mechanism located in the lower center of the shield. This makes the face shield more secure and provides a tighter seal against the gasket. The face shield can easily be removed without tools. Shown with dark shield (sold separate)

• DOT/Snell Certified

- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Ellip-tec[™]II face shield w/ Everclear[®] no-fog coating
- Kwikwick® II washable anti-microbial comfort liner
- Kwikfit® cheek pads accommodate eyeglasses
- 3X and 4X sizes are DOT Certified only
- COMES WITH CLEAR FACE SHIELD

REFERENCE INDEX

EXO-GT3000

According to the experts the EXO-GT3000 is in a class by itself in the highly competitive fiberglass modular helmet category. It's impressive list of features starts with the shell that offers light weight combined with an extremely aerodynamic profile. Also included are features such as Scorpion EXO®'s Airfit® liner inflation system for a customizable fit, drop-down sun visor for different light conditions, and face shield. Additionally, the helmet easily accommodates most bluetooth communications systems including the new BMW systems. Easy one handed operation of the chin bar and face shield, results in ease of opening and a positive lock upon closure. From top to bottom, the EXO-GT3000 provides premium comfort, protection and function. Shown with dark shield (sold separate)

DOT Certified

- TCT Ultra pre-preg lightweight shell
- · Aero-tuned ventilation system
- Everclear® no-fog Speedview® drop down sunvisor
- Kwikwick® III washable anti-microbial comfort liner w/ 3D contoured cheek pads
- Kwikfit® cheek pads accommodate eyeglasses and Airfit® inflation system
- COMES WITH CLEAR FACE SHIELD

COVERT

Meant to disrupt the norm, this radical design can be converted to work with any type of bike. We started with a half helmet and added an integrated drop-down sun visor for protection from sunlight. A rear comfort sleeve allows you to convert the helmet to a ¾ open-face and then attach the included front mask and you've got one, aggressive looking full face helmet.

DOT Certified

- Versatile 3-in-1 road helmet
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable antimicrobial comfort liner
- Everclear® Speedview® drop down sun visor

BELFAST

Full features are now found in a 3/4 helmet. The Belfast design pays homage to the heritage of the classic 3/4 open face helmet melded with contemporary technology such as the drop-down sun visor and Nappa leather liner. The Belfast is a perfect balance of retro style, modern comfort and state-of-the-art technology.

• DOT Certified

- Hand-laid fiberglass shell
- 3 button snaps
- Hand stitched comfort liner with premium Nappa leather accents
- Speedview® drop down sun visor

CT220

The EXO-CT220 is designed to offer a modern, protective, comfortable and functional product for riders that need more than a traditional open-face helmet. The versatile EXO-CT220 can be configured with a face shield for blocking head winds, or switch the shield for a sun-blocking visor for more of that wind-in-your-face feel. The face shield is specially designed to reduce turbulence inside the helmet by re-directing the air flow under the helmet instead of the interior.

DOT Certified

- Removable peak visor
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner
- 3-step Everclear® Speedview® drop down sun visor
- Communication system speaker pockets
- Kwikfit® cheek pads accommodate eyeglasses
- COMES WITH CLEAR FACE SHIELD

EXO-C110

The EXO-C110 is ScorpionEXO®'s next-generation take on the classic half helmet. Combining subtle modern lines with an advanced ventilation system it not only looks cool, but it cools the head during long rides. A dual-density eps liner that extends down to protect the lower rear skull and an improved sun visor mechanism provides premium touches while maintaining the classic half helmet look and fit. Additionally, a unique chin strap retention design prevents it from rolling forward off of your head.

Since 1996, Bobster® has specialized in designing performance eyewear for active lifestyles and extreme activities. We have built our reputation on durable, functional sunglasses and goggles that stand up to any challenge. Every Bobster® eyewear comes standard with the following features:

- Backed by a No Hassle Lifetime Warranty
- 100% UVA/UVB protection

- Polycarbonate shatter resistant lenses
- Adheres to the American National Standards Institute's Z80.3 standards and specifications

EYEWEAR CATEGORIES

CONVERTIBLE	<u>1174-1178</u>	Convertibles switch easily from glasses to goggles and back, eliminating the need for multiple pairs of eyewear
PHOTOCHROMIC	<u>1179-1180</u>	Photochromic lenses automatically adjust so you can wear your glasses from morning to night
INTERCHANGABLE	<u>1181</u>	Interchangable models feature quick change lenses to suit your riding conditions

GUNNER

The Gunner merges fashion with functionality by combining the most desired aspects and features of any eyewear available. The wrap-around Grilamid TR90 frame can be worn either with smooth temples as a sunglass or with a detachable, adjustable strap as a goggle. Vented removable closed cell foam prevents lens fogging and keeps wind and debris from distorting vision. Photochromic lenses that change with altering light allow for greater clarity, while rubber nose pieces create a lightweight, comfortable set of eyewear that allow you to truly enjoy the outdoor excursion of your choice. For night riding the Gunner comes with a set of clear lenses.

GOGGLES

TOURING II

Test the limits while on the road with these durable and flexible goggles, which allow continuous clarity and comfort. Made of polymer elastomer material, the frame is shock-resistant, non-allergenic and lightweight. Airflow is regulated through vented slots on the frame front which prevent fogging. Open cell foam absorbs sweat and retains vision clarity by excluding dust and debris.

SUNGLASSES WITH FOAM

FOAMERZ II

An updated version of our extremely popular Foamerz, these wrap around sunglasses are available in smoked, clear or amber anti-fog polycarbonate lenses. Closed cell foam allows ventilation while providing a cushioned lining to protect the eyes from wind and dust while flying down the road. The flexible, polycarbonate frame wraps securely around the face while rubber strips at the tip of each temple keeps the eyewear in place. For effortless transport, a microfiber pouch is also included.

Features:

• Temple to Temple: 126mm

- Polycarbonate Frame
- Anti-Fog Lenses
- Closed Cell Foam
- · They Float!
- ANŚI Z87.1-2003 Approved
- Frame size: Medium
- 100% UV Protection
- Impact Resistant Polycarbonate Lenses

Accessories Included:

Microfiber Pouch

SUNGLASSES WITH FOAM

CHAMBER

The Chamber sunglasses offer function and style in one. It features removable closed cell foam and anti-fog lenses that provide 100% UV protection. With the nose bridge being narrow and deeper than most other glasses these are great for those looking for "asian fit" glasses. The lenses also sit higher on the face to avoid the bottom of the lenses resting on your cheeks. Overall these are one great piece of eyewear everyone will appreciate.

Features:

- Removable Closed-cell Foam
- Anti-fog, 100% UV Protection
- Polycarbonate lenses

SEALS

Step into the past with this classic throwback sunglass that features stylish oversized frames with metal accents. Polycarbonate lenses provide 100% UV & shatter resistant protection. Available in five color ways and a variety of lens options.

NVS

Hit the road with an iconic sunglass that will take you from ordinary to extraordinary. With a rounded frame, this classic pair comes in four different color ways and a variety of lens options.

TRENDSETTER

This throwback style eyewear showcases a combination of class and style reminiscent of the 1960's. Mixing the old with the new, we have created a retro and modern sunglass with a small square frame that comes in four different color ways and a variety of lens options.

WINNA

This pair of vintage shades is a must have piece featuring a mix of both classic and trendy styling. This eyewear is not only comfortable to wear, but boasts a design that highlights any lifestyle. Polycarbonate lenses provide 100% UV & shatter resistant protection. Available in five colorways and a variety of lens options

GASSER JACKET

YKK

HYDRAGUARD

CE

The Gasser jacket was inspired by the days of pure adrenaline, the era when riders lived for weekend races. Whether racing board track, dirt track, or road circuits, they all shared one common goal; striving to be the best and accepting their fate while doing so. Riding in today's world has changed, and so has technology. If you're looking for a vintage jacket that takes you back in the past but protects your future, look no further.

HIGHWAY 21 PRIMER JACKET

Here at Highway 21 we believe the early days of America are nostalgic. So, we decided to emboss that reminiscent sentiment into the very grain of our designs. Our Primer jacket has a timeless vintage style that will take your mind and wallet back to an era of simplicity. If you're looking for a classic style that never ages and won't break the bank, then it's time to try on the Highway 21 Primer jacket.

EXHAUST

Bringing together technical ability and strength, the Gearhead jacket was developed with the inner mechanic in mind. Hard work is in our blood, and the results are a reflection of what we are willing to sacrifice to get there. Whether you're changing oil, rebuilding an engine, or just pounding pavement, the Gearhead jacket is always the right fix.

PROTECTION

See page 1327 for size chart

TURBINE MESH JACKET

Riding seasons can be limited by weather; don't let summer be one of them. The Turbine jacket was created to escape the days when the sun is overbearing and the pavement is melting your tires. The full bore air mesh and protection creates a perfect combination of comfort and safety. Maximize your warm weather riding by slipping into a Turbine

HIGHWAY 21) WOMEN'S AIRA JACKET

PROTECTION **HYDRAGUARD**

Escape the days when the sun is overbearing and the pavement is melting your tires. The Aira jacket is designed to evade the summer heat. The mesh and CE-protection creates the perfect combination of comfort and safety. Ride into the next era with your new Aira.

HIGHWAY 21 INDUSTRY HOODIE

Despite the fact that they don't offer the protections we need while we're pounding the pavement, sometimes hoodies are just what we're in the mood for. In order to keep the good ol' days close to our heart, and keep injuries part of the past, we created the heavyweight of the hoodie class. Designed to be as comfortable as your favorite hoodie, but safe enough for the ride, the Industry Hoodie has never been more ready for the road.

HIGHWAY (21)

IRON SIGHTS DENIM VEST

Dating back to the early 1970s, the vintage denim vest is one of America's most iconic pieces of motorcycle apparel. We kept this tried and true original platform with the Highway 21 Iron Sights Denim Vest and simply added a modern twist of functionality. Put on your vest and don your badges with this timeless style.

HIGHWAY 21) MAGNUM VEST

GENUINE LEATHER

The Magnum vest packs a huge punch and makes an impact at every stop light. Its fit and features do all the talking. With 100% genuine leather, concealed carry pocket, and such bold styling, this silent threat is one not to be reckoned with. If you're looking for the largest caliber in core protection, the Magnum has your back.

the door and burn down the pavement.

The Blockade vest takes on a new angle with core protection. In this case offense is the best defense; so prepare for the streets like a swat team prepares for their next take down. This tac vest is fully suited in premium leather, adjustable side straps, and a style that ensures you won't be tread on. Put on the Blockade vest, kick down

HIGHWAY 21 12 GAUGE VEST

The 12-Gauge vest was built to adapt and overcome everyday obstacles. The 6-point side panel adjustment system allows for multiple set-ups, guaranteeing the perfect fit. Its concealed carry pocket and drop tail add to the 12-Gauge's functionality, while its 100% genuine leather and YKK® zippers ensures the vest will last a lifetime.

HIGHWAY 21 SIX SHOOTER VEST

The Six Shooter vest is as traditional as its name. Since the 19th century horsemen spent most of their time on the range, the vest or "office in the saddle" was invented to create storage and added warmth to these lengthy and tough trips. Determined not to leave its roots, we built a vest that looks as good as the original but meets all 20th century standards.

HIGHWAY 21 Z MAVERICK CHAP

The Maverick chap is designed with America's rich history in mind. Dating back to the 1870's, chaps started finding their way onto horsemen, and over a century later they are still being widely used by horsemen and iron horsemen alike. Put on a pair of Maverick chaps and step into the past to protect your future.

1909 VINTAGE JACKET

The 1909 vintage leather jacket is made from premium leather that is distressed by hand for a unique soft vintage feel and look. The pattering and fit has been optimized for comfort in the riding position. All critical seams have our EXO-Stitch® internal safety stitching making this a real motorcycle jacket. This antique looking jacket offers excellent protection from the elements and abrasion, and protects against impacts with the removable SAS-Tec® armor at elbows and shoulders. This is an extremely luxurious jacket that will be enjoyed for generations.

 Soft distressed 1.4mm top grain leather and YKK zippers
 Reinforced EXO-Stitch® safety stitching on all critical seams

- Shoulder and elbow SAS-Tec[®] body armor included
- · Leather overlays at elbows
- Perforated inner arm and torso panels
- Removable Everheat® thermal liner
- Four external pockets and two internal pockets

WOMEN'S CATALINA JACKET

We see a lot of people riding around in leather jackets that are not designed for use on motorcycles. Sure they may look nice, but if the materials and construction are not up to the job, the jacket if not going to hold up when you need it most. We've taken extra care when we made the Catalina jacket to use high quality leather, our EXO-Stitch internal safety seam construction, careful patterning and reinforcements, and CE certified SAS-Tec® armor to create a jacket that flatters the female form, and protects the rider.

- Soft distressed 1.2mm top grain leather and YKK[®] zippers
- Reinforced safety stitching on all critical seams
- Shoulder and elbow SAS-Tec® body armor included
- Leather overlays at elbows
- Two zippered shoulder and two rear exhaust vents
- Removable Everheat® thermal vest liner
- Four external pockets and two internal pockets

BIRMINGHAM JACKETS

This is not just another waxed cotton jacket. We've taken the classic waxed cotton jacket and made it better. We strengthened the outer material by combining abrasion resistant nylon into the weave of the fabric. Then we laminated a waterproof / breathable membrane to the back of it, and seam taped every seam. Then we applied a fine waxed coating for the vintage look and to prevent the fabric from absorbing water. Now you have a 100% waterproof garment that has classic looks and 21st century technology. The collar and inner lapel is leather lined, as well as the two large internal pockets. A cotton plaid lining adds to the vintage look. Because this is a motorcycle jacket, we included SAS-Tec® armor at the elbows and shoulders. There is a pocket for an optional back protector.

- Abrasion resistant cotton / nylon blend fabric
- 100% waterproof / breathable seam taped
- Reinforced fabrics on elbows/ shoulders
- Reinforced EXO-Stitch® safety stitching on all critical seams
- Shoulder and elbow SAS-Tec® body armor included
- Leather trim at collar and inner lapel
- Traditional cotton plaid lining
- Antique brass YKK® zippers and
- Four exterior pockets, two large leather lined inner pockets and rear storage pocket

BIRMINGHAM PANTS

These classic pants are equally comfortable at home walking around town and around the campsite, as they are when worn for long days in the saddle. When combined with the Birmingham jacket you have a traditional looking riding suit that is 100% waterproof, or you can use these riding pants with your current favorite jacket. The included SAS-Tec® armor is easily removed from the knees, without having to take the pants off.

- Abrasion resistant cotton / nylon blend fabric
- 100% waterproof / breathable seam taped
- Reinforced fabrics on knees, shins and seat
- Reinforced EXO-Stitch® safety stitching on all critical seams
- Knee and hip SAS-Tec® body protection systems included
- Antique brass YKK® zippers and snaps
- Four pockets and two large cargo pockets

COVERT WAX RIDING SHIRT

When you don't want to wear a heavy riding jacket, but need more than just a t-shirt; that's where the covert waxed riding shirt comes in. We infused 12oz denim with a unique mixture of micro and technical waxes to make a riding shirt that looks and feels like a classic work shirt, but protects against wind, water, and abrasion. Additionally, it is fully lined with 165g DuPont™ Kevlar® fiber to resist tearing and add strength. EXO-Stitch® safety seams and mesh armor pockets at the elbows. shoulders, and back (for optional SAS-Tec® armor) enable you to add protection from impact. Scorpion has combined the best of old and new technologies to deliver style, comfort, and safety.

- 12oz denim with paraffin waxed coating
- 165 GSM DuPont™ Kevlar® lining
- Polyester mesh lining
- Mesh pockets on elbows, shoulders and back for optional SAS-Tec® CE armor
- YKK® center front zipper as well as snaps
- Two upper chest external pockets

Color	SM	MD	LG	XL	2X	3X	l

COVERT MOTO FLANNEL

We didn't just take a cotton shirt add some Kevlar thread and call it a protective garment. We've been making protective riding apparel for over ten years and want our customers to be safe. The Covert flannel was designed from the very beginning to be a protective garment. The entire shirt is based on a chassis made with 165g DuPont™ Kevlar® lining to protect from tear and abrasion. then we sew a cotton flannel fabric onto the chassis, and add a comfortable mesh liner. Additionally, we have pockets for optional SAS-Tec® CE certified armor at the elbows, shoulders and back. So sure, it looks like your favorite flannel shirt, but inside it has a heart of Kevlar® gold.

- · Cotton flannel outer fabric
- 165g DuPont™ Kevlar® lining
- · Mesh pockets in elbows, shoulders and back for optional SAS-Tec® CE certified armor
- Two upper chest pockets, and one internal pocket

SAS-TEC ARMOR

- Viscoelastic memory foam: after an impact or deformation of the foam, the protector will quickly revert to its original shape
- Multiple impact compliance: even if the same area of the protector receives repeated impacts, the protector maintains if fully functional capability
- Adaptive absorption: the air within the cells of the protector allow progressive absorption of energy as the material becomes more firm as it compresses
- Climate stability: SAS-Tec® Viscoelastic foam does not break down under high temperatures and can withstand up to 212 degrees Fahrenheit
- Environmentally conscience: partially made of recyclable materials

 Sold as ONE PAIR (except back protectors) certain armor doubles for multiple abrasion zones i.e. elbow, knee means that armor works for both elbow and knees

FROGG LEGGS®

These heavy duty 17" leggings fit over shoes and boots. Constructed of durable, waterproof 600 denier rubberized nylon, Frogg Leggs® feature adjustable calf and ankle straps, a custom fit calf wrap with top cinch draw cord/cord lock, and a slip-free ripple rubber out-sole for dry walking and riding in rain or snow. The adjustable upper provides leak and burn-free protection for your clothing and shoes. They're ultra-packable, and easily store in a briefcase, backpack or saddlebag.

COOLING VEST

MATERIALS: Polymer embedded fabric holds the water and keeps you cool as the water evaporates. Remains hydrated for several hours.

FEATURES: Evaporative cooling system helps keep you cool even through the hottest summer ride. Only requires two minutes of soaking in water to activate. Outperforms the competition by having an increased evaporative surface area, keeping you cooler.

12V GRAND TOURING HEATED MOTORCYCLE SOFT SHELLS

VentureHeat's 12V Heated Grand Touring Motorcycle Vest

is the complete package, and one of the most versatile vests on the market. This heated vest features 4 heating panels in order to keep your entire core warm. A built-in temperature controller allows you to adjust the heat settings while you are on the go.

You may purchase a wireless remote kit to attach to your handlebars so that you can change the temperature without taking your eyes off of the road.

The vest is constructed with a windproof, stretchable soft shell material to keep you protected from the elements. Pre-wired glove connectors also give you the option to plug-in a set of our heated motorcycle gloves to help minimize the amount of cable and maximize your comfort while out riding.

Description	SM	MD	LG	XL	2X	
SOFT SHELL V	EST					
Black	472-4012S	472-4012M	472-4012L	472-4012X	472-40122X	

Venture 12V Heated Pant Liners

Perfect for taking on the elements and riding in comfort. These heated pant liners are constructed with a wind blocking soft shell on the front, and a stretchable back to help fit comfortably underneath your regular riding pants.

- Built-In Temperature Controller
- Optional Wireless Remote
- Pre-wired Glove Connectors

Description	XS	SM	MD	LG	XL	2X	
SOFT SHELL P	ANT LINER						
Black	472-4013XS	472-4013S	472-4013M	472-4013L	472-4013X	472-40132X	

12V HYBRID SOFT SHELL HEATED VEST

The 12V Duo Hybrid Heated Vest has versatile capabilities that is designed to work with small to medium size bikes, snowmobiles, ATVs, and older vehicles with limited available power. Although this heated vest draws less than 1.5 amps, it still powers the 4 heating panels located on the collar, chests, and back.

The Duo Hybrid heated vest can be powered by your vehicle's battery via battery harness or by an optional 12V battery. Use the lightweight 12V battery and extend your warm after a long bike ride.

The exterior shell is both water and wind resistant, which keeps you warm and dry on your adventures.

Quad-Zone Quick Heat

With heat on demand in under 10 second, the Duo Hybrid Heated Vest features a heating element on the back, 1 on each chest, and even the collar is heated.

Windproof Membrane

The 4-way stretch outer shell is both wind and water resistant to maximize your comfort at all times.

12V HEATED MOTORCYCLE JACKET LINER WITH WIRELESS REMOTE

The Most Comfortable Heated Jacket Liner

Venture Heat's 12V Heated Jacket Liner is a dream come true for any motorcycle rider taking on the elements. This lightweight jacket is windproof and water blocking to help protect you from the cold weather. Its slim design, and form-fitting construction allow you to wear this jacket liner underneath your regular riding jacket.

With a built-in temperature controller, you can adjust the heat to 3 different heat settings with just the touch of a button. This heated jacket also features a wireless remote which can be attached to your handlebars so that you can control the heat without ever having to take your eyes off of the road.

Pick up your 12V heated jacket liner today and start enjoying your rides even more!

- Wireless Remote Included
- Pre-Wired Glove Connectors
- Slim, Form-Fitting Design

Multi-Zone Heating

The heaters are strategically located on the front, back, sleeves and collar of the jacket to create the most effective heating performance.

Color	XS	SM	MD	LG	XL	2X	3X	
Black	472-4016XS	472-4016S	472-4016M	472-4016L	472-4016X	472-40162X	472-40163X	

12V HEATED JACKET LINER LITE

Warm up your next ride with the Heated Motorcycle Liner Lite. Enjoy top-quality warmth similar to the regular Heated Jacket Liner, but for small or medium sized vehicles.

Each heated jacket liner includes a built-in temperature controller that allows heat on-demand. Choose from three temperature settings: hot, medium, and low.

The travel friendly design allows you to roll up the heated jacket liner into its self-contained map pocket. Once it's rolled up, store it away without taking up valuable space.

Full heat coverage

Even with the smaller amperage, the heated motorcycle jacket liner lite will keep the upper body warm. Enjoy warmth from the heating panel located on the collar, arms, chest, and back.

3.5 amp draw

The lesser amp draw is designed for smaller vehicles or vintage bikes with limited amp power. Consult vehicle dealership or instructional manual for full battery draw availability.

Color	XXS	XS	SM	MD	LG	XL	2X	3X	
Black	472-4001XXS	472-4001XS	472-4001S	472-4001M	472-4001L	472-4001X	472-40012X	472-40013X	

12V HEATED INSOLES

Tired of cold feet while riding, here is your solution. The heating elements are positioned throughout the entire insole which allows warmth to be circulated within your foot to give the comfort and protection you need. The polyurethane foam absorbs shock to make bumpier roads more comfortable. The contoured shape follows your foot's anatomical form for maximum support, flexibility, and comfort.

AURORA GLOVES

MATERIALS: Fully insulated 115g Thinsulate™ cold weather glove. 20g Thinsulate™ in palm for easier use of your controls. Hipora® waterproof, windproof, breathable membrane keeps you dry and warm all day. High grade genuine leather palm and finger tips for years of durability. Additional leather strip between thumb and index finger provides reinforcement in high use-area of glove

FEATURES: Touch screen compatible. Extended neoprene cuff eliminates open exposed area between gloves and jacket. Cinch cord cuff may be tightened around jacket sleeve for additional protection from the elements. Wrist strap offers additional adjustment to ensure a custom fit. Reflective safety piping offers added visibility in all riding conditions

12V ALL LEATHER GLOVES

Many riders ask for heated motorcycles gloves that can extend its warming capabilities beyond the bike. Designed from the ground up, the Hybrid Heated Motorcycle Gloves can stay powered by a wired connection to the vehicle's battery, or by an optional rechargeable power pack.

With the optional 12 volt battery, feel free to explore the great outdoors, stroll through town, or even catch a ball game without the fear of cold hands.

With it's built-in temperature controller, yours hands can stay warm with its 3 heat settings. Plus, the leather material is a natural insulator that helps retain the heated glove's warmth.

Designed as one of the most comfortable heating gloves for riding, the Hybrid Heated Motorcycle Gloves are guaranteed to provide maximum comfort. Each pair is made with premium Nappa leather that is soft to touch, but offers much needed durable and weather protection.

Both the palm and fingers have reinforced leather to prevent wear-and-tear. The sleek, flexible design contours to your natural riding position.

Color	XS	SM	MD	LG	XL	2X
Black	472-4063XS	472-4063S	472-4063M	472-4063L	472-4063X	472-40632X

12V HEATED GLOVE LINERS

Every rider is unique. Some look for a supplement heat source in addition to their favorite motorcycle gloves, while others simply need a thinner glove with heating capabilities. The 12V Heated Glove Liners allow each rider to enjoy their own motorcycle glove without the sacrifice of heat performance. The heated glove liner's thin material contours to the hand, which allows the heated glove liner to comfortably fit under the rider's outer motorcycle glove.

If two glove layers is too much, feel free to wear the heated glove liners on their own and still enjoy top-quality warmth.

- Touchsceen friendly! Keep the glove liner on and navigate through any smartphone, tablet, or GPS system
- Built in temperature controller! At the push of a button, manage the heat setting at ease. Choose from hot, medium, or low

The thermal protection circuit located in the heated glove liner and the fuse kit provides dual protection from overheating. Riders are safe to use them in rain or shine.

• Made to comfortably fit under any motorcycle glove

JACKET VENT

Ventz is a clever product that attaches easily to your jacket and helps to cool you down.

USA Design Registered, Patented, Proven, Shatter Proof, Insect Proof

When riding in warm weather an invisible layer of hot air, trapped in your jacket, raises your core body temperature to uncomfortable levels, which can cause a dangerous loss of concentration. Ventz creates a flow of soothing air that removes the trapped heat, making your journey cooler and more comfortable. Safe and comfortable to wear, Ventz is effective for both the rider and passenger.

- Protect your boots from shifter damage
- Custom made with durable leather
- 26-7211 Fits all shifters from 1"-11/2" wide to 21/2"-3" long (Harley Davidson, Yamaha and others)
- The V-Twin Skin Display Rack with header card fits up to twelve products, contact your WPS sales rep. for details.

Description WPS# 26-7211

PRIMARY ENGINEER BOOT

MATERIAL: 100% top quality full grain leather. Water-resistant oiled leather. PROTECTION: Goodyear® welt construction for durability (can be re-soled).

FEATURES: HiPora® waterproof lining throughout. Removable insole. Full length cushioned sock lining. Pull loop for easy-on wearability. 2-year manufacturer's warranty

Fabric transfers moisture away from the skin & evaporates quickly, to keep you warm & dry.

Treatment of fabric inhibits growth of odor causing bacteria.

Provides ultraviolet radiation protection of 50+ UPF (Ultraviolet Protection Factor).

	Description	WPS #	
Α	Black	26-4009	
В	Blue	26-4011	
C	Fuchsia	26-4010	

POLYESTER BALACLAVA

- Polyester Balaclava offers optimal protection from the elements by providing coverage of the head, neck and face
- Constructed of 100% stretchy polyester
- Allows for a snug, yet comfortable fit.
- Also features two smooth seams that are strategically placed to eliminate an irritating pressure point when worn under a helmet
- Boasts vibrant graphics and its contoured design mitigates uncomfortable bunching

	Description	WPS#

THE SIZING CHART IS SIMPLY A STARTING GUIDE, AS HEAD SHAPES VARY. FOR THE BEST FIT, HELMETS SHOULD BE FITTED TO YOU BY AN AUTHORIZED DEALER.

HELMET MEASUREMENT

Start by measuring the circumference around your head at the temple, just above the eyebrow line approximately one inch above eyebrows) using a soft tape measure.

hen select the helmet size that is closest to your head from the Size Chart below. If your head falls between wo helmet sizes, first start by trying on the smaller of the two sizes.

PROPER FITMENT

o help maximize head protection, your helmet must fit properly and be securely fastened under your chin. Your nelmet should fit snug all the way around your head with no pressure points or shake. Consult your authorized

TRACKER PISTONS

- Forged piston crown with generous valve pockets for big valves
- Precision fit rings for ultimate sealing
- Force fed pin oiling for enhanced lubrication of the piston pin
- Value packaged
- ArmorGlide skirt coating for reduced friction, quieter operation and improved scuff resistance
- Gasket kits sold separately

BLACK EDITION PISTONS

- Premium compression ring for ultimate ring seal
- Napier second ring, taper face with underhook improves oil control
- 3mm Oil ring design for higher tension and enhanced oil control
- Armor X piston coating for reduced wear
- ArmorGlide skirt coating for reduced friction, quieter operation and improved scuff resistance
- Work with OEM and Screamin' Eagle heads
- Higher 11:1 compression for added performance

STEALTH SPROCKETS

Supersprox-stealth is about longer life, without compromising weight. Primary goal, to last 3 times longer than an all aluminum sprocket and remain as light as possible. It's about performance and function first and last. Supersprox-stealth is infinitely better than steel! You just can't achieve this level of strength on a steel sprocket with the same weight. Sure, there are light steel sprockets out there, but they can't handle the torque. Pound (lb) for foot pound (ft/lbs), Supersprox-stealth is the best.

Stealth sprockets feature an aluminum carrier, available in silver or black, with a black steel tooth ring.

HEADLIGHTS

The new generation of Cyron 7" "Urban", now with 20% more power, is a wide angle headlight designed for city street riding. Perfect headlight when passing/fog lamps are not being used. Lights have built in white and amber Daytime Running Lights behind two ultra clear lenses. Dedicated DRL wires for amber and white light make it possible to turn on DRL lights independent of the headlight. They can be connected directly to the ignition or spliced in with low beam wire.

ABFT100 ACTIVE DIGITAL FILTERS

Cyron ABFT100 active digital filters greatly improve, and in most cases completely eliminate noise, flickering, loss of radio reception and interference with ELOG and FM. Simple plug and play installation. Can be hardwired by removing the male/female plugs. Sold in units of one for each light.

Description	WPS#	ı
CANBUS and EMI Digital Filter, 12V H4	227-0018	

LED PASSING LAMPS

Integrated LED passing lamps with improved beam pattern for all road conditions. Matching bright white beam to all Cyron LED headlights. It replaces the entire stock glass+bulb combination. Powered with Cree LED chips. Available in chrome and black.

LIGHTING / GAUGES

DF SERIES

- The DF Series Plug N Play LEDs replace stock bulbs from a wide variety of applications
- These DOT compliant bulbs offer improved bright white beam pattern with LED design innovations
- They are brighter and draw less than 1/3 the amperage compared to halogen bulbs

LED BULBS

Cyron offers the best value and performance in an LED bulb by using new and improved COB LED chips in it's new Standard Series headlight bulb. The smaller size and higher output power of the new COB LEDs have made it possible to improve the accuracy of light beam to 70% while increasing the total output by 50%. The high beam output has been refined to put the light farther and brighter. Smaller body size makes for easier fitment for DIY installations.
