3-YEAR WARRANTY

Every National Cycle polycarbonate windshield, including the SwitchBlade® and Spartan® lines, is covered by an unprecedented 3-Year Warranty against breakage!

THE BEST HARDWARE

- Chromed steel with polished or black powdercoated stainless steel hardware is used throughout for rock-solid strength, dependability and great looks
- Cushion wheels turn and flex, allowing your SwitchBlade® or Spartan® to securely lock into place
- · Sleek and elegant no exposed fasteners

EXCLUSIVE QUANTUM® HARDCOAT

Cycle applies this crystal clear hard coating to polycarbonate

material. The combined result is the strongest, most scratch

Developed for windshield use by National Cycle, Quantum

hardcoat takes motorcycle windshields a "quantum leap"

forward in abrasion resistance and outdoor life. National

resistant windshield material available worldwide.

Quantum®

Hardcoated

Polycarbonate

GLARE-FREE OPTICS

Straight Forks

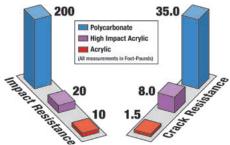

Covered Forks

WHAT ARE THE BENEFITS OF LEXAN® POLYCARBONATE?

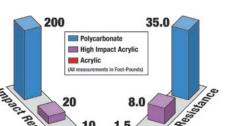

Outstanding impact strength! No other thermoplastic comes close to matching the impact strength of polycarbonate, making it the ideal material for motorcycle windshields. It is 20X more impact resistant than acrylic plastic (Lucite®).

So whether it's birds, bugs, rocks or road debris, for the serious rider, a strong polycarbonate windshield is very important.

QUALITY MANUFACTURING

National Cycle engineers and manufactures the plastic and the mount systems of all their windshields. Replacement parts are readily available for years to come.

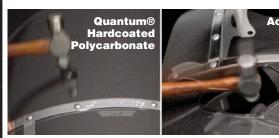

Think about riding into the sun or at oncoming headlights and not having to look through the glare of fine scratches that eventually show up on your screens. Quantum® hardcoating gives your windshield much better optical definition and clarity, and your windshield will stay that way a lot longer.

SUPERIOR SCRATCH RESISTANCE

30X more scratch resistance than typical acrylic wind-shields is saying a lot! Think of it as 30X more miles per windshield. Even compared to FMR coated polycarbonate. Quantum® has 10X better scratch resistance.

Award-Winning Quantum hardcoating is used in many tough applications. It has withstood over one million windshield wipes in tests for the fully enclosed Benelli Adiva Scooter.

POLYCARBONATE STRENGTH

SwitchBlade® and Spartan® Windshields are made from durable 4.0mm thick polycarbonate for 20X more impact resistance than acrylic. This is tough material that you can trust!

NDEX

VStream® Quantum®is an Puantum exclusive product of National Cycle Inc. All VStream® Windscreens are

covered by National

against breakage.

The VStream® gets its name from the unique shape and dimensional contours designed and engineered into the windscreen. The patented "V" profile helps push the turbulent wind out and away from the side of the rider's head, producing a quieter and more comfortable riding experience. This improvement also reduces wind noise and buffeting for the passenger.

- · Constructed from thick, durable hardcoated Lexan® polycarbonate material
- · Coated with National Cycle's exclusive scratch-resistant Quantum® hardcoating
- · Replaces the stock windscreen and uses the OEM mounting hardware
- All VStream® Windscreens are made in the U.S.A. and are covered by National Cycle's exclusive 3-Year Warranty against breakage

REAL WORLD PERFORMANCE

Watch National Cycle's "Polycarbonate vs. Acrylic" video on YouTube™ to see the entire gamut of impact tests.

VStream® Windscreens are offered in Clear, Light Tint, and Dark Tint hardcoated polycarbonate. See application charts for details.

CUSTOM WINDSCREENS

National Cycle brings raw meat to the table for 2014-Up FLHT and FLHX riders. These new custom windscreens have a unique custom personality and a flavor all their own. They are made from tough 4.0mm Quantum® hardcoated polycarbonate. This high quality material, along with state-of-the-art manufacturing techniques, provides outstanding impact strength and scratch resistance unmatched by any windscreen maker worldwide.

Quantum hardcoated polycarbonate is the material of choice for serious motorcycle riders. It is 10X more abrasion resistant than FMR hardcoated polycarbonate, and 30X more than windscreens made from commonly used acrylic or "aircraft plastic".

These windscreens are easy to install and are protected by a 3-Year Warranty against breakage! National Cycle products are made in the U.S.A.

WAVE® WINDSCREENS FOR FLHT/FLHX/FLTR RIDERS

FLTR Wave Windscreens

10.50" (26.7cm) 10.00" (25.4cm) 7.75" (19.7cm) 5.25" (13.3cm) 8.25" (21.0cm) 6.25" (15.9cm)

Windscreens

Wave Windscreens are measured from the top of the fairing in a vertical line level to the top of the screen. Three different sizes means there's a perfect Wave Windscreen for any rider.

National Cycle's Wave® Windscreens are now available for 2013 and earlier FLH and FLTR models.

Quality is evident when you feel the thick gauge, precision cut, smooth radiused edge on these windscreens. Quantum® hardcoated polycarbonate delivers outstanding strength and unbeatable scratch resistance.

It's stylish... sleek... and sexy. It's the new Wave. Ride it!

All FLTR Wave Windscreens include metal

SELECTING THE CORRECT WINDSHIELD & MOUNT KIT FOR YOUR BIKE

- 1. Determine your motorcycle's make, model and year.
- 2. Choose the appropriate SwitchBlade® Mount Kit
- == onoco mo appropriato omicinata modifica
- Determine what style windshield best fits you.Consider your height and saddle position.
 - Determine your riding habits: Daily commutes?
 - Long trips? Weekend rides?Do you want maximum protection? A sporty look? Or a combination?

- **4.** Sit on your bike, measure from a few inches above the headlight to the point horizontally level with the tip of your nose.
- Pick the appropriate size SwitchBlade®, Spartan® or Stinger windshield.

Still can't decide? Get two or more windshields. With the Quick Release SwitchBlade® Mount Kit, you can change your windshield as quickly as you change your mind!

Windshield height is a personal preference, but one recognized standard is to be able to look just over the top of your windshield to see the road at a distance of 50 feet in front of you. Generally, this means that a correctly sized windshield mounted to your bike will have a top edge that is horizontally level with the tip of your nose ,or just slightly below eye level.

ON AND OFF IN LESS THAN FIVE SECONDS... WITHOUT TOOLS!

Height is measured from headlight cutout to top of the shield. Width is measured in a straight line across the back of the shield at the widest point.

WAVE QR® QUICK RELEASE FAIRINGS

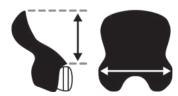

- · Have the hottest bike around with National Cycle's new Wave QR™ – the fairing that defines performance on the edge. Whether it's slammed back or raked up, Wave QR's sculpted polycarbonate body captures the spirit of your Harley- Davidson® motorcycle. Its jetstreamed looks come from National Cycle's attention to aerodynamics and precision forming.
- It's removable in just seconds, without tools –thanks to National Cycle's Quick Release Mount Kit! And, it's rake adjustable!
- The highly regarded Quick Release Mount Kit is the same that's used for the SwitchBlade® and Spartan® Windshields, so you not only have a choice between riding with or without a shield - you also have a choice between completely different styles of quick release shields!
- Made from durable Quantum hardcoated polycarbonate and covered by National Cycle's 3-Year Warranty against breakage.
- · Made in the USA

WAVE QR® FAIRING DIMENSIONS

Wave QR® Fairings are measured from the headlight cutout in a vertical line level to the top of the shield in the fully raked forward position. Width is measured in a straight line across the back of the shield at the widest point.

GLADIATOR® HEIGHT/RAKE ADJUSTABLE WINDSHIELDS

Finally, a custom looking small windshield that's worthy of your bike – the Gladiator® from National Cycle! The custom engineered, fully adjustable DualPivot™ mounting bracket allows a wide range of personalized height and rake positions. There's a perfect setting for any size rider or any weather condition! The Gladiator® is made from FMR hardcoated polycarbonate and is available in Light Tint or Dark Tint. The included mounting hardware comes in brilliant chrome or wrinkle finish black to match your bike's factory finish.

A simple wrench is all that's needed to easily change windshield settings. Adjust for rake angle, screen height, or both!

MOHAWK™ WINDSHIELDS

Continuing the minimalist, sporty tradition of our famous Flyscreen®, the Mohawk[™] features a taller and wider size with a special 'V' profile for added wind management.

 Manufactured from Quantum hardcoated polycarbonate for unbeatable strength and impact resistance

- Linking Arm fork mount system (available in Chrome or Black) with countersunk screws offers a custom fit for almost any motorcycle with open front forks
- All Mohawk™ windshields are Dark Gray tinted, 9.25" tall x 11.75" wide and include all hardware needed
- Made in the USA

If your bike is not listed in the application chart, order by mounting bracket type (universal applications).

REPLACEMENT SCREENS FOR FLHR & FLSTC MODELS

Made from 4mm thick polycarbonate (33% thicker than OEM) with National Cycle's exclusive Quantum® hardcoating.

This replacement windshield plastic fits exactly into the stock hardware of the OEM windshield.

Best of all, you get National Cycle's 3-Year Warranty against breakage!

Height is measured from headlight cutout to top of screen.

| Application | Year | Color | Height | WPS# | List |

| FLSTC | `00-15 | Clear | 20.00" | 562-20202C | |

REPLACEMENT SCREENS FOR FLH MODELS

When you're looking for the hard-to-find FLH Replacement Screen for your early model bagger, count on National Cycle for the best quality and the best deal available. Don't be fooled by acrylic imitations. These FMR hardcoated Lexan® polycarbonate windscreens are CNC routed for a precision fit with a smoothly radiused perimeter edge.

national cycle since

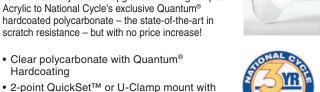

DEFLECTOR SCREEN™

Our original 2-point QuickSet™ mount Deflector Screen™ was first introduced in 1980 and became an instant hit with riders everywhere. It defined the term "universal windshield." We then followed up with the Street Shield™, a larger screen with a 4-point QuickSet mounting system. Now there's a better reason to stock these popular windshields for your customers: They've been upgraded from High Impact Acrylic to National Cycle's exclusive Quantum® hardcoated polycarbonate - the state-of-the-art in scratch resistance – but with no price increase!

• Clear polycarbonate with Quantum®

SWITCHBLADE® HOLDSTER™

- Fits SwitchBlade® 2-Up, Chopped and Shorty windshields
- Handy storage for glasses, cell phones, gloves, etc.
- 12.5" x 5" x 3" deep

Description WPS# Holdster 562-21220

SWITCHBLADE® STORAGE BAG

- Designed to store and protect any of the four SwitchBlade® Windshields, or any other National Cycle windshield
- Soft inner, durable outer, sturdy zipper and convenient handle
- 29" high x 25" wide

Description WPS# 562-21221 Storage Bag

SHIELD WASH[™] AND RAINZIP®

- Shield Wash™ is strong enough to clean spotlessly, mild enough to use as needed
- Safe on all motorcycle windshields, face shields and goggles
- Includes 8oz bottle of Shield Wash, 1oz spray bottle and special microfiber cleaning cloth
- RainZip® rain repellent treatment is formulated for Quantum® hardcoated polycarbonate but is safe for all windshields
- Comes in a 3oz bottle and includes an application cloth and microfiber polishing cloth

| Description | WPS # | List |
|-------------|-----------|------|
| Shield Wash | 562-21100 | |
| RainZip | 562-21101 | |

CLAMSHELL 1/4 FAIRING

- Constructed from heavy duty precision molded ABS
- Black powder coated brackets (application specific fork clamps sold separately)
- Fits Dynas, FXRs and Sportsters
- Includes dark tinted screen and headlight cover

| Description | Application | WPS# | List |
|-----------------------|-------------|-----------|------|
| Clamshell 1/4 Fairing | Universal | 820-55412 | |

TURN SIGNAL CLAMPS

- · Available in chrome or gloss black finish
- Die cast aluminum
- Can be used as clamps for Clamshell Fairing
- Sold in pairs

| Description | Chrome | Black | List |
|-------------|-----------|-----------|------|
| 39mm Clamps | 820-51706 | 820-51709 | |
| 41mm Clamps | 820-51707 | | |
| 49mm Clamps | 820-51708 | 820-51711 | |

FLTR GAUGE HOUSING

- Reproduction of OEM gauge housing
- Works with stock and most aftermarket gauges
- Unpainted ABS from precision molds

| Description | Application | Year | WPS# | List |
|--------------------|------------------|--------|-----------|------|
| Instrument Housing | Fits FLTR Models | `15-UP | 820-55432 | |

BATWING FAIRING COMPONENTS

- Quality ABS reproduction inner and outer vented Batwing fairing components
- Effortlessly match up to OEM and most aftermarket components
- Require minimal prep for paint

| Description | Application | Year | WPS# | List |
|--------------------|---------------------|--------|-----------|------|
| Outer Fairing | Fits Touring Models | `14-Up | 820-55410 | |
| Inner Fairing | Fits Touring Models | `14-Up | 820-55411 | |
| Fairing Side Wings | Fits Touring Models | `14-Up | 820-55420 | |

TOOLS

First thing we noticed when we got our new 2015 Road Glides is that the fairing seemed really high. So we immediately created this super cool kit that allows you to drop your stock fairing a full 1.75" which not only dramatically increases your field of vision, it also gives your Road Glide a truly custom "Muscle Bagger" stance and look!

Our patented CNC machined "Drop Block"* is a direct bolt-on precision part that creates "The Drop". It's created from a solid block of 6061-T6 aircraft Aluminum and then flawlessly Gloss Black powder coated to disappear when it's mounted to your OEM fairing mount.

*US Patent 9,616,957

Included in your kit is our patented Stealth Fairing Support Bar** which hides discreetly inside your fairing providing all the support your fairing needs. This allows you to remove those ugly stock clamp brackets that attach to your engine guard. This part also allows removal of your engine guard if you so choose which is a popular decision during the customizing process..

**US Patents D786,139 and 9,561,831

Our Stealth Fairing Support Bar is precision fixture TIG welded by Arizona craftsmen and assembled from US cold rolled Steel. It's then Gloss Black powder coated. Easy install instructions and hardware are included with your kit.

| Description | Application | Year | WPS# | List |
|------------------------|-------------|--------|-----------|------|
| Fairing Drop Block Kit | FLTR | `15-Up | 834-02011 | |
| Fairing Support Bar | FLTR | `15-Up | 827-05130 | |

FAIRING WEDGE BLOCK

When raking your 2015-later Road Glide, the fairing position will need to be corrected after the frame rake is complete. The angle of the fairing will be pointing up in the air and the fairing will be too high. The Fairing Wedge Block allows you to use your stock fairing and mount bracket while placing the headlights forward instead of up and you'll be able to see over your fairing!

The Fairing Wedge Block is an easy bolt-on part, comes in a Gloss Black powder coat finish and directions and hardware are included. Available as a kit with fairing support bar or without.

U.S. Patent 9,616,957

U.S. Patent D806,613

| Description | Application | Year | WPS# | List |
|-------------------------|--------------------|--------|-----------|------|
| Fairing Wedge Block Kit | FLTR | `15-Up | 827-05131 | |
| Wedge Block ONLY | | | 827-05132 | |

HEADLIGHT RAKE RING

The Rake Ring makes returning your headlight back to its normal position after raking your Bagger easy! Simply remove your headlight from the fairing, insert our Rake Ring and bolt it on!

Your headlight attaches to our Rake Ring in the same fashion it attached to your fairing! The Rake Ring fits batwing fairing models 1992 to present and is a direct bolt-on application.

- Wedge shape corrects headlight angle on Batwing Fairings
- Injection molded ABS plastic (same material as your fairing)
- Comes in a Flat Black finish that virtually disappears when installed
- Works with SRT, 23" or 26" rake applications

| Description | Application | Year | WPS# | List |
|-----------------|------------------|--------|-----------|------|
| Headlight Wedge | Batwing Fairings | `15-Up | 834-02012 | |
| | Batwing Fairings | `92-14 | 827-05160 | |

HEADLIGHT COWL

- Road Glide fans unite! The SCOOWL Fairing Extension will transform the look of your Road Glide and will give your Bagger a vicious and angry stare!
- The SCOOWL is a direct replacement on 1998-2013 Road Glides and can be installed as-is or painted to match your bike.
- *2009 and earlier models need a 2010 and later headlight kit. (HD P/N 67775-10 available at your local Harley-Davidson Dealership).
- US Patent D683,495 S

Application Year WPS# List
Fit's FLTR Models '98-13 **827-05345**

FAIRING FLARES

- These pressure-formed, urethane wings add a really cool accent on the lower edge of the fairing and create a seamless flow between the fairing and fuel tank. The Wing-It Fairing Flares are a must on raked, big-wheel Baggers and they look super cool on your stock Road Glide as well!
- Wing-It Fairing Flares are a direct bolt-on item for Baggers utilizing our NEW Bagger Nation Stealth Fairing Support Bar (which eliminates the stock engine guard) or they can be easily modified to work on Baggers that have the OEM fairing support brackets.
- Wing-It Fairing Flares are sold in pairs and come in a smooth black plastic finish that can be easily painted to match your fairing color.
- · All hardware and easy bolt-on instructions are included.

| Application | Year | Non-Raked | List | Raked | List |
|-------------|--------|-----------|------|-----------|------|
| FLTR | `15-Up | 827-05500 | | 827-05501 | |

ROAD GLIDE FAIRING SUPPORT BRACKETS

- These fairing support bracket kits are precision made from forged aluminum and available in a beautiful Chrome or Vanta-black finish
- Easy to install fairing mounts can be used as direct OEM replacement to form a seamless transition between the engine guard & fairing

AMERICAN V-TWIN PRODUCTS

 Kits include left & right fairing support brackets and matching engine guard clamps & hardware.

SHOW CHROME

FAIRING VENT TRIM & SCREEN

- Improve the look of the new vented Harley batwing fairing
- Customize your look with one or the other, or get them both for a complete chrome conversion
- Chrome fairing vent trim easily replaces the OEM black rubberized vent trim for a custom appearance
- Combine it with the chromed stainless steel honeycomb screen to keep road bugs and grime out of your cockpit
- The honeycomb screen can be mounted with the existing OEM vent trim
- Sold separately or together as a package
- Designed for the 2014-Up batwing fairing vent

| Description | WPS# | List |
|--------------------------------------|------------|------|
| Honeycomb fairing airway shroud | 94-91309 | |
| Chrome fairing vent trim | 94-91308 | |
| Chrome fairing vent trim with shroud | 94-91308WS | |

ULTRA SERIES 6X9" SPEAKERS

- 300W Max Power, 200 RMS Power
- 4 Ohm Impedance
- Full-range, 2-way coaxial speakers
- 3.4" Mounting Depth
- · Marine grade waterproof
- RGB Color Illumination. Works with Aquatic AV RGB Controller and Mobile App (sold separately)
- · Speaker/RGB Wiring Harness included
- Built NOT to overheat!

Description WPS # List 200W Speakers 94-1324

RGB CONTROLLER

- · Works with the Aquatic AV App
- Thousands of color options with 15+ integrated modes
- Featuring Outputs of 5 Amps and 60W
- Connect up to 32 speakers (brightness may vary)
- Measures 3.14"x4.31"x1" with 2 mounting tabs
- · Marine grade waterproof
- Works with Aquatic AV Ultra Series Speakers

WPS # List 94-1325

products with a watertight reputation

6.5" SPEAKERS

- Fit Electra Glide, Street Glide and Road Glide
- '98-13 models require grill & mounting ring (included)
- '14-up models do NOT require grill & mounting ring
- 4 Ohm impedance
- Mounting hole diameter 144mm
- Marine grade
- Full-range, 2-way waterproof speakers

FAIRING ANTENNA

· Universal amplified FM antenna

WPS# Description Application Fairing Antenna Universal 194-01030

USB AUX INPUT

- · Relocates AUX & USB from rear of aftermarket radio
- · Can mount in cigarette lighter socket
- 1 inch diameter mounting hole
- · Charges your device or play music through your stereo

Application WPS# 3.5MM/Aux Universal 194-01035

SPEAKER CLOTH

Water repellent speaker cloth, to protect your speakers without compromising sound quality. Two sheets of 13" x 13" cloth.

Application WPS# 194-01050 Universal

AMP POWER AUDIO

- Amp Power, Hi Lo Converter, changes speaker level output from a factory radio to line level for an external amp input
- Amp Power, Ground Loop Isolator, reduces noise caused by ground loops
- · Amp Power, 3' RCA Cable. Copper conductor, oxygen free cable, high performance, high strand, gold plated tip
- Stock HK Radio Rear Speaker Harness with OEM 35-Pin Connector (Customer will need to have their radio flashed by dealer to activate rear channels in order for this harness to work)

AMPLIFIER INSTALLATION KIT

Sport Amp Kits

- · Designed for motorcycles
- 6' length of red and black T-SPEC® OFC power and ground wire with a T-Spec V8MANL fuse holder and 60 amp fuse protected by a black nylon braid
- Pre-terminated ring terminals make connections to the battery simple
- Two 4' pieces of 16 gauge OFC speaker wire protected by black nylon mesh makes upgrading the factory speaker wires or adding new speakers a smart choice
- Even for those upgrading the Harmon Kardon system, the ST-AK8 comes with (2) 47 ohm 0.5 watt resistors to keep the factory radio outputs active
- All the necessary installation hardware is included along with a 4"x6" hook and loop mounting pad for micro-amplifiers to hold the amplifier in place

Multi-Channel Amp Kits

- Front left/right speaker wires and multi channel RCAs are 10' long with a guick disconnect for easy removal of amplifier
- · Designed for the amplifier to be mounted in the right side saddlebag
- 8 gauge OFC wire
- 6' power and ground with ring terminals terminated
- · Power/ground, speaker wires and RCAs on quick disconnect for easy removal of amplifier
- · Water-resistant fuse holder with (2) 30 amp fuses

REFERENCI INDEX

ROKKER® XXRK EXTREME 800W SPEAKER AND AMP

- This is the new custom 800w 4-speaker/amplifier installation kit
- Fits Touring bikes with the Harley BoomBox 6.5GT Premium or 4.3 standard radio
- 4 channel amplifier rated @ 200w RMS per channel X 4 to provide up to 800w total RMS power!
- The amplifier's settings have been dialed in & optimized for this exact speaker/radio configuration, to provide the on-highway volume, clarity and overall performance
- Included are J&Ms fully weatherproof 6.71" ROKKER XXR fairing speakers featuring a high-tech woven-fiber woofer cone & a massive high-density high-flux strength Neodymium magnet structure with large center & perimeter positioned voice coil cooling vents, to provide for maximum heat dissipation when operating at high volume levels for extended periods
- · The custom designed speaker grills with mounted high-output dome tweeters are also weather-proof and shock-proof for maximum long-term durability
- Included with FLHX and FLTRX kits are 2 5X7" ROKKER XX speakers for the rear saddlebag-lid position, 2 saddlebag lid speaker grills, along with the custom complete saddlebag speaker wiring harness (speaker lids NOT included)
- Included with FLHTU/FLHTK and FLTRU kits are fully weatherproof 6.71' ROKKER XXR rear-pod speakers
- This custom installation KIT has been engineered to be 100% plug-and-play for your convenience during the installation and to maintain the complete integrity of your Harley's internal wiring harness
- In the stage 5 version the amplifier will be custom tuned for use in conjunction with your specially FLASHED Harley Infotainment radio ("J&M Corporation Custom Audio Flash" menu option w/Techno-Research digital technician), to provide THE BEST on-highway volume, clarity and overall performance available, from your music source selections of FM stereo, XM sat radio, Smartphone or USB thumb drive. (Harley Infotainment/BoomBox radio can also be shipped to the J&M factory in Tucson for FLASHING, there is a separate \$75 fee for the "J&M Corporation Custom Audio" Harley radio FLASH).

ROKKER® XXR EXTREME 400W SPEAKER AND AMP

- This is the new J&M Custom 2-speaker & amplifier kit
- Fits '14-Up Batwing or '15-Up Road Glide fairing with the Harley BoomBox 6.5GT Premium or 4.3 standard radio
- 2 channel amplifier rated at 200w RMS per channel X 2 to provide up to 400w total RMS power!
- The amplifier's settings have been dialed in & optimized for this exact speaker/radio configuration, to provide the on-highway volume, clarity and overall performance that most riders only dream about
- Includes fully weatherproof 6.71" ROKKER XXR speakers featuring a high-tech woven-fiber woofer cone & a massive high-density high-flux strength Neodymium magnet structure with large center & perimeter positioned voice coil cooling vents, to provide for maximum heat dissipation when operating at high volume levels for extended periods
- The custom designed speaker grills with mounted high-output dome tweeters are also weather-proof and shock-proof for maximum long-term durability
- This custom installation KIT has been engineered to be 100% plugand-play for your convenience during the installation and to maintain the complete integrity of your Harley's internal wiring harness.
- In the Stage 5 version the amplifier will be custom tuned for use in conjunction with your specially FLASHED Harley Infotainment radio ("J&M Corporation Custom Audio Flash" menu option w/Techno-Research digital technician), to provide THE BEST on-highway volume, clarity and overall performance available, from your music source selections of FM stereo, XM sat radio, Smartphone or USB thumb drive. (Harley Infotainment/BoomBox radio can also be shipped to the J&M factory in Tucson for FLASHING, there is a separate \$75 fee for the "J&M Corporation Custom Audio" Harley radio FLASH).

OKKER® XXR EXTREME 400W BLUETOOTH AMP KIT

- · This exciting new J&M 400w BlueTooth controlled amplifier kit has been designed specifically for use on the 1998-UP Harley® RoadKing.
- · Simply link your SmartPhone to the weatherproof handlebar controller via Bluetooth and control all volume and track up/down music functions direct from the handlebar buttons.
- This is a full range class D audio amplifier and is spec'd at 400w RMS per channel X2 channels, (400w total) driven continuous into a 2-ohm load @ 14.4vdc.
- · Amplifier mounts to the custom made stainless steel bracket system inside the left saddlebag.
- · BlueTooth control mounts to the black-powder coated SS handlebar bracket.
- · Custom made heavy-duty plug-n-play wiring harnesses are all built at the J&M factory in Tucson for this specific application, to allow connection to either 2 or 4 total speakers on the RoadKing.
- Wiring harness system includes waterproof plugs/pins at each location including the left side saddlebag panel connector (like CVO) & Bluetooth control head connections.

Application Year WPS# FI HR 94-1805

- Top quality heavy gauge power/ground wires are used for the fused battery connection, along with all necessary mounting hardware & complete installation/operation instructions.
- Amplifier itself measures: 7 1/4" X 4 3/4" X 1 3/4".

ROKKER® PERFORMANCE SERIES 200W 2-CHANNEL AMP KIT

· Blocks amplifier heat from being transferred to

- · This J&M 2-channel 200w fairing speaker amplifier kit has been design specifically for use on the Road Glide fairing with the stock Harley radio
- · Amplifier mounts to the custom made stainless steel 2-piece bracket system, to provide solid and secure mounting inside the Road Glide fairing
- the radio
- Custom made plug-n-play wiring harnesses are included with this amplifier kit
- All necessary mounting hardware & complete installation/operation instructions included
- Amplifier measures 6 1/2" X 4 ¾" X 1 ¾"

Description Year WPS# FLTR Fairing Speaker Amplifier Kit `15-21 94-1197

ROKKER XXR SERIES 2-CHANNEL AMP KIT

- · 2-channel 400w fairing speaker amplifier kit has been designed specifically for use on the Road Glide with the stock Harley radio
- Amplifier mounts to the custom made stainless steel 2-piece bracket system
- Blocks amplifier heat from being transferred to the radio
- ROKKER XXR series amplifiers come out of the box already dialed in for this specific Road Glide speaker configuration

- · Custom made plug-n-play wiring harnesses are included with this amplifier kit, top quality heavy gauge power/ground wires are used for the fused battery connection, along with all necessary mounting hardware & complete installation/operation instructions
- Amplifier itself measures 7 1/4" X 4 3/4" X

XT SERIES

- The new three-way high-performance speaker set has been designed specifically for the rear pod position on the 2006-2013 FLHTCU/FLHTK
- Spec'd at 2 ohms impedance and 140+ watts max power
- Superior bass response, along with an extended mid/high frequency range
- · Waterproof injection-molded polycarbonate woofer cone
- High-flux strength but light-weight Neodymium magnet
- · High efficiency voice coil
- The latest design grillwork with mounted blacktitanium tweeter and midrange drivers
- Second set of paintable grills also includes
- Plug-and-play installation complete with easy to follow instructions
- Perform extremely well with the stock Harley radio system

XX SERIES

- · Lightweight waterproof one-piece woven-fiber driver cone
- · High-output silk-dome tweeter
- · Super high-density lite-weight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- · High efficiency VENTED voice-coil & magnet structure for improved cooling when operating at high volume levels for extended periods
- · Custom max-flow speaker grills for crystal clear sound at highway speeds
- · Plug-and-play no-modification solution complete with easy to follow installation instructions
- These are THE most powerful speakers you can buy for your Harley and they will perform extremely well when used with a medium to high-powered accessory amplifier

BLUETOOTH AMP

The BPS4B Bluetooth® Amplifier allows your device to be played wirelessly without a head unit. Simply pair and wirelessly stream music directly to the amplifier or use the Aux-In for additional devices. The BPS4B's compact size allows you to install the unit anywhere and in any application that has a 12 volt electrical system. The BPS4B Multi-function Control or "MFC" is a remote control for the amplifier and all sources (Bluetooth®, Aux-In). It functions as a source, volume, track, pairing and On/Off control. Also available as a kit with 2 pairs of 6.5" marine grade dual cone full range speakers.

Description WPS# 4-Channel Amp 63-8163

UNIVERSAL 3" SPEAKER KIT

- Full-Range, Built-In Class D Amplifier for Bluetooth® audio streaming
- Compatible w/audio output of iPod®/iPhone®, smartphone and MP3 players
- Aux-In
- IPX-5 Rated Speakers, weather resistant, not submergible
- · In-line volume control
- · Sold in pairs

SHORTY ANTENNA UPGRADE

- If you are looking for THE Best performing shorty antenna upgrade look no further than J&M
- This new shorty antenna model from J&M comes out of the packaged pre-tuned for all AM/FM CB & WB frequencies, so that you don't need to worry about which side of the tail trunk or rear fender to mount them on

| Application | Year | WPS# | List |
|-------------------|--------|---------|------|
| FLHT/FLT Models | `14-19 | 94-1199 | |
| FLHT/FLT Models | `09-13 | 94-1198 | |
| FLHT/FLT Modeless | `89-08 | 94-1200 | |

- The performance improvement compared to stock Harley is especially significant for the CB radio band transmission distance
- Installation is a snap as you simply unscrew the stock Harley antenna and screw on the new J&M shorty
- Both long and short antenna tip cover options are included, with a total overall length of approximately 17"
- · Sold individually as one antenna per package with extra screw in trunk mounting stud included

50 CAL AMMOTENNA

• Replica .50 Cal antenna mast

· Made of Billet Aluminum

| Description | Carbon Fiber | List | Black/Carbon Fiber | List | Flat Black | List |
|------------------|-----------------|------|-----------------------|------|------------|------|
| 50 Cal Ammotenna | 94-3025 | | 94-3026 | | 94-3027 | |

BIG BIKE PARTS SHORT ANTENNA

- AM/FM only, not for CB's
- · No interference with storage covers

| Decription | Application | WPS# | List |
|----------------------|-----------------------|---------|------|
| Short spiral antenna | Harley Indian Victory | 94-1165 | |

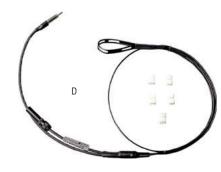

HIDE - A - WAY ANTENNA

- FLEXPOWER hide-a-way is the best way to hide the CB and radio antennas on the market today
- Eliminate the rear mounted antennas on your Harley
- J&M in-fairing antenna is pre-tuned from our factory
- Is designed for the Harley Batwing or Road Glide fairing, with the factory Harley CB and/or radio
- Installation is a snap, as there are no wires to cut or splice and antenna wire lead is secured in the fairing with included double sided tape clips

Helmet Audio MOTION SERIES

...AND EASIER

COMMUNICATION SOUND & SAFETY

The revolutionary **USAFE** uses an advanced accelerometer to detect and measure hard impacts. If you are unresponsive, USAFE can alert your contacts of your situation and GPS location. Requires a connected GPS enabled mobile device.

DYNAMESH: The first ever mesh intercom network combined with Multi-Hop automatic switching. DYNAMESH pairs with mesh and non-mesh units, and auto-reorganizes as group riders change positions. This ensures stable and constant connections over the longest distances allowed by the FCC.

UCommand: Control your Motion Series unit by natural voice connected through Apple Siri or Google Voice. Speech engine accuracy constantly updates through the cloud.

UPrompt: Voice confirmations of user inputs.

Exclusive **GESTURE CONTROL** sends out a sensor beam from your MOTION unit allowing simple hand gestures to command the most common features such as volume and pause/restart music. Winter gloves? No problem!!

UMOVE: Exclusive motion sensor powers your Motion Series unit on and off. Motion is on by the time you put on your helmet, and automatically shuts your Motion off if you forget.

1-touch access to most commonly used advanced features such as group intercom pairing, voice commands, or quick access to Apple Siri or Google Voice. It's E-Z!

U-Pair allows universal device pairing to multiple Bluetooth devices at once. Smart phones, smart watches, tablets, GPS, action cams, OEM systems, and competitors' comm systems.

Advanced features, preference settings, support, and our exclusive wireless firmware updates. Music sharing, music + intercom overlay, noise cancellation settings, etc.

PULSE WIRED DROP IN SPEAKER

Extreme bass and clean sound for those who want a premium wired helmet speaker that plugs into their audio source with a 3.5mm jack. Also serves as a speaker upgrade for most competing comm systems with 3.5mm jacks. The 3' extension allows it to reach from your helmet to your device, but breaks away easily when you remove your helmet or need a shorter cord for use with competitors' comm systems. Not for use with UCLEAR comm systems.

- Gold-plated 3.5mm stereo jack
- 3' extension
- 40mm driver
- Universal fit

MOTORCYCLE COMMUNICATION SYSTEM

Sena Mesh Intercom™ technology is now here and ready to change your ride. Simply press the button on top of the 30K to turn on public mode, and you will be automatically and instantaneously connected to a virtually limitless amount of 30K users within a mile range. Intercom connections are also now more stable than ever with Sena's new Mesh Intercom™ technology. When one of a group's riders goes out of range, the rest of the group remains seamlessly connected while the 30K still intelligently searches for the lost connection and reconnects automatically once back in range. No longer will you have to worry about losing half of your group due to a Bluetooth chain linked connection of the past. With private mode you can invite and communicate with up to 16 riders at a range of up to 2.0 km (1.2 miles), while an endless amount of guests can join to listen in as well. When riding with 5 or more riders, the Mesh Intercom will intelligently keep the group connected at a range of up to 8 km in ideal riding environments (5 miles).

FEATURES

- Mesh Intercom[™]
- Bluetooth 4.1
- · Audio Multitasking
- Voice command
- Intercom 2km / 1.2 miles
- · Multi-way group intercom
- Advance noise control[™]
- FM Radio
- Remote Control
- Sena 30K Utility App and Sena RideConnected App (for iPhone and Android)

MOTORCYCLE COMMUNICATION SYSTEM

(AVAILABLE W/ STANDARD OR SLIM SPEAKER KIT)

The 20S EVO is the next generation of the original 20S, with an updated design and improved intercom functionality and stability to keep up with your ride. The 20S EVO was designed with a fixed type, shark fin antenna as opposed to its predecessor with the flip up antenna. This sleek new antenna design improves upon intercom stability and even secures the intercom distance while updates to the hardware allow for an even more robust general performance updates.

HELMET CLAMP KITS FOR HARLEY DAVIDSON AND UNIVERSAL SLIM SPEAKER KITS

HD SPEAKERS

The 20S Clamp Kit for CB/Audio Systems allows users to communicate through the motorcycles CB radio and listen to the onboard audio system.

FEATURES

- Communicate with the CB radio built into the onboard audio system using the clamp kits microphone. Simply push the PTT button connected to a Harley-Davidson motorcycle to say something through the CB radio.
- All sounds (including CB radio, GPS navigation or FM radio) from the onboard audio system can be mixed with 20S sound sources (intercom, MP3 music, phone etc.) This 20s clamp kit can connect to Harley-Davidson onboard audio system by the adaptor cable.
- You can use the CB/Audio Helmet Clamp with the 20S main module. Without the 20S main module, you can have the helmet clamp with the clamp cover adaptor attached and only use the CB radio and onboard audio system.
- Comes with 2 microphones included (wired boom mic and fixed boom mic)

| Description | WPS# | List |
|--|-----------|------|
| 20S Clamp Kit for CB/Audio for Harley-Davidson | 843-02002 | |
| 20S Clamp kit for CB/Audio for Honda Goldwing | 843-02003 | |

HD SPEAKER KITS

- The same great sound as the new 50 Series speakers now available for most Sena products.
- Easy to replace with the standard Sena connector - Just plug and play
- New features like audio equalizer presets available in the existing phone app
- Firmware update needed, but readily available via the existing utility app and device manager

UPDATE PROCEDURE TO ACTIVATE THE HD SPEAKERS

- Update the firmware via device manager
- Update the corresponding apps (30K Utility app, Sena Utility app) on your phone
- Connect the devices to the corresponding apps
- Activate HD Speakers on the app menu.
- You can select one of presets on Equalizer menu.

SENA 105

HEADSET AND INTERCOM

Bluetooth 4. I

The Sena 10S Motorcycle Bluetooth® Communication System is an upgraded version of the original SMH10 system, which has proven itself roadworthy to motorcyclists everywhere. Now in a slimmer profile, the 10S maximizes the enjoyment factor of your ride by keeping you in touch with up to four riding companions via crystal-clear HD audio, up to 1.6 km (1 mile) away, through the One Touch Group Intercom™, the 10S is the best long range Bluetooth headset. The unit also uses the Universal Intercom™ protocol so it can communicate with all Sena motorcycle Bluetooth headsets and non-Sena Bluetooth headsets on the market.

FEATURES

- Bluetooth 4.1
- Universal 4-way group intercom with ranges up to 1.6km / 1 mile
- · Smartphone app
- Advanced noise control[™]
- · Voice prompts
- · Versatile job dial
- FM Radio

| Description | WPS# | List |

SENA 10R

HEADSET AND INTERCOM

Low profile, yet rich with high-performance features, the Sena 10R lets riders make handsfree phone calls, listen to music, get GPS directions, and have full-duplex intercom conversations with other riders in crystal-clear audio quality through the stereo Bluetooth® headset. Ultra slim and featherlight, it's a particularly good choice for riders who want to concentrate on their riding technique and minimize fuss factor.

FEATURES

- Bluetooth 4.1
- Universal 4-way group intercom with ranges up to 900m / 1/2 mile
- Music sharing
- · Voice prompts
- FM Radio
- Advance noise control[™]
- · Light weight and ultra slim
- Ease of use with or without remote control

INCLUDED:

Bluetooth Handlebar Remote Control.

The innovative Bluetooth® Handlebar Remote puts the controls where you can easily see and use them with a gloved hand, without interrupting the rhythm and safety of your ride.

SENA 10C-PRO

COMMUNICATION SYSTEM WITH BUILT IN ACTION CAMERA

Equipped with upgraded 2k motorcycle helmet camera specifications, the 10C Pro shoots in crisp QHD (1440p/30fps or 1080p 30/60fps) with a resolution of 3.7 MP (16:9) and an increased 135 degree field of view. The 10C Pro also features Smart Audio Mix™, which mixes audio from the intercom and music from your smartphone straight into your video. Stay in touch with up to three other riders via built-in Bluetooth intercom up to 1.6 km (1.0 mile) away. The 10C Pro motorcycle Bluetooth helmet camera and communication system allows riders to take and make phone calls, listen to music and GPS, connect with onbike entertainment systems, use the built-in FM tuner and more. Integrated voice prompts advise riders on the use of their device with instant status updates of their 10C Pro.

- Bluetooth 4.1
- Advanced noise control
- Universal 4-way intercom with voice prompts
- Smart audio mix, WiFi enabled unibody design
- Quad HD: 1440P 30FPS / Full HD: 1080P 60FPS

ENA 10U HEADSET

🚯 Bluetooth 4. I

MOTORCYCLE COMMUNICATION SYSTEM WITH HANDLEBAR REMOTE CONTROL

Activate the integrated programmable FM tuner or pair it with your Bluetooth®-enabled MP3 player for hours of riding with your favorite soundtrack. This is one of the few motorcycle communication devices that allows you to enjoy fewer dropped signals with a more robust and reliable wireless protocol that enables you to have four-way conversations with your riding companions within a 1.6 km (1 mile) range. With up to 10 hours of talk time, you'll likely run out of gas before your 10U runs out of juice.

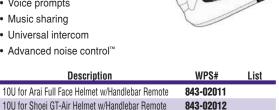

FEATURES

- · Bluetooth 4.1
- · Invisible beauty
- Intercom 1.6 km / 1.0 mi
- · Remote control compatible
- · Four-way intercom
- · Fm radio
- Voice prompts
- · Music sharing
- · Universal intercom
- Advanced noise control[™]

CB AND AUDIO ADAPTER FOR **HARLEY DAVIDSON & HONDA GOLDWING**

With the new FREEWIRE when you connect it to your Harley-Davidson or Honda Gold Wing, you can utilize all the bike's Infotainment features WIRELESSLY! Communicate with the CB radio, hear turn-by-turn directions from the bike's GPS, rock out to your favorite radio stations and so much more - all thru our Bluetooth headset. Use an additional FREEWIRE for your passenger to talk over the motorcycle's internal intercom system. This is the item Harley & Gold Wing riders have been looking for.

*IMPORTANT: This item is compatible with the 20S and 10S models (10R, 10C, and 10U) with current firmware update. (Firmware update coming)

*IMPORTANT: This unit is only compatible with Harley Davidsons that have the 7 Pin Din plug on the tank console or dash. For Harley Davidsons that do not have the 7 Pin Din plug accessible on the front of the bike, a specific Harley Davidson audio/communication cable is required. The Harley Davidson connector cable kit part number is 69200865. This part number is available online or at Harley Davidson

*IMPORTANT: Goldwing kit includes 5 Pin Din Plug

+MESH, BLUETOOTH то MESH INTERCOM ADAPTER

With +Mesh, any Sena headset can now enjoy the benefits of Mesh technology when using the intercom. The +Mesh wireless adapter for Sena headsets allows for seamless communication with other Sena headsets built with Mesh Intercom, rather than connecting over Bluetooth, with a range up to 800 meters (0.5 miles). The easy-to-use +Mesh adapter will turn any headset into a more advanced and flexible communication device with the simple push of a button. Mesh-network technology will instantly connect you to a virtually limitless amount of users and provides a more stable connection by intelligently searching for lost intercom connections and automatically reconnecting them once back within range, while the rest of the group stays together.

- Mesh Intercom[™]
- Bluetooth 4.1
- Intercom 800 Meters / 880 Yards
- · Includes handlebar mount

| Description | WPS# | List |
|---------------------------|-----------|------|
| Mesh to Bluetooth adapter | 843-02020 | |

SPIDER MESH COMMUNICATION SYSTEM

The SPIDER RT1 a three-button version, and SPIDER ST1 a scroll wheel version, this unit is the perfect entry-level device for first-time buyers, as well as for customers seeking to transition from BT into Mesh

- Bluetooth 5.1
- HD Speakers
- Audio Multitasking
- · Mesh Intercom
- Wired or boom mic option
- Open (9 channels) / Group Mesh
- Working distance: up to 2 km (1.2 mi),
- Can extend up to 8.0 km (5.0 miles) between a minimum of 6 riders
- Talk time: up to 11.5 hours
- Sena Motorcycles App

SENA SR10

Includes:

- Bluetooth® Adapter Main Unit
- USB Power Cable
- 3.5mm Audio Jack Cable
- Wired PTT Button
- · Mounting Kit
- · Clip Kit

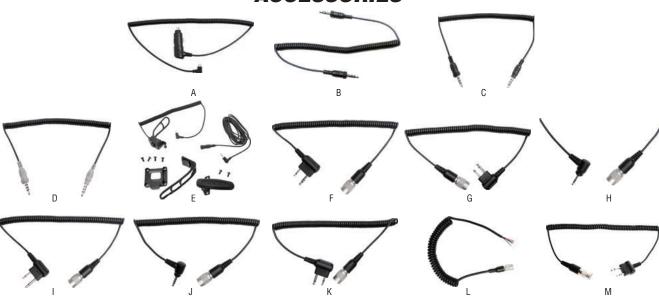

🔀 Bluetooth TWO-WAY RADIO ADAPTER

The SR10 is a Class 1 Bluetooth® Two-way Radio adapter based on Bluetooth® 2.1+EDR technology. You can connect various two-way radio devices in the market by using SR10 and may talk wireless using Bluetooth® headsets in the market. SR10 has two AUX ports that enable you to connect non-Bluetooth® devices such as radar detector or GPS navigation. Along with SR10, you can talk by phone or by two-way radios at the same time, listen to alarm signal from radar detector and listen to the guides from GPS Navigation. The SR10 may cover such various application areas as motorcycle group riding, outdoor sports and activities or security.

- Bluetooth® handsfree adaptor for two-way radios
- Bluetooth® handsfree gateway for mobile phones
- Connect 1 two-way radio and 1 mobile phone simultaneously
- Compatible with standard stereo or mono Bluetooth® headsets
- AUX input for GPS, radar or laser detectors
- · Handlebar mounting and belt clamping
- · Wired PTT button extension for handlebar grip mounting
- Optional 12V bike-powered kit with on/off control by ignition switch
- · Firmware upgradable
- Two-year limited warranty
- Talk time: 12 Hours Standby: 10 Days

ENA Bluetooth 4.1 REMOTES

SENA **RIDE CONNECTED** mobile APP available

A. WRISTBAND REMOTE

You can wear the Sena Wristband Remote control on your wrist or arm and it features glovefriendly buttons and a joystick. It gives you full control over your Sena Bluetooth® communication gear.* The unit charges via the USB port, but with several months of battery life per charge, you won't need to hook it up very often. This intelligent Bluetooth wristband remote safely enhances any ride, riders no longer have to lift their hand to their headset to control it. *With the exclusion of the camera on the 10C.

FEATURES

- Bluetooth 4.1
- Water resistant
- · Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

B. RC3 REMOTE

With three ways to install and the simple control of the three-button design, the RC3 offers the versatility you want and need while riding. Clip the device directly on your right sleeve, or attach it to the body of your motorcycle with either the adhesive type mount or the loop and fastener type mount to have full control of your Sena Bluetooth® communication gear. With a battery life of about 5 months, you'll no longer have to reach to your helmet to intercom, answer calls or change a song again.

FEATURES

- Bluetooth 4.1
- · Water resistant
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

C. RC4 REMOTE

The glove friendly, 4-button design allows for extremely simple operation, and less distraction while riding. Place the device directly onto your bike's handlebars and you're ready to ride. The RC4 features a much more compact design than its predecessor, and fits perfectly on even more types and sizes of handlebars.

FEATURES

- Bluetooth 4.1
- · Water resistant
- CR2016 lithium coin battery (1 included)
- Compatible with other 4.1 Sena models: 30K, 20S, 10U, 10C, 10R, and 10S

ENA S

SF SERIES

Meeting the communication needs of every rider.

The SF Series was designed to give riders the exact features they need for their ideal riding scenario. The SF1 allows for 1 Bluetooth connection to a smartphone, MP3 player, or GPS while both the SF2 and SF4 offer Intercom functionality. All SF models include brand new capabilities such as Audio Overlay™, quick charging, and microphone mute option features. The SF Series boasts a sleek and low profile design that will fit on almost any helmet.

SF1

Bluetooth Connectivity for Those Who Ride Solo

Whether you're commuting to work or primarily ride solo, the SF1 has you covered. The SF1 was created to give solo riders all of the awesome Bluetooth features that they need, without the ones they don't. The SF1 pairs to your phone allowing for music streaming, taking and making phone calls, and hearing turn-by-turn GPS directions. The SF1 also allows VOX Phone commands.

SF2 & SF4

Rider to Passenger or Small Group Communication

For riders looking to communicate with their passenger, the SF2 provides simple Rider to Passenger 2-way intercom communication up to 800 m (880 yards) in open terrain. For those who ride in small groups, the SF4 is equipped with 4-way intercom over 1.2 kilometers (0.8 miles). Both models let riders enjoy smartphone connectivity. Riders can listen to music and use the intercom simultaneously using the Audio Overlay™ feature. Please note that Audio Overlay works best with Android devices, while iOS offers limited functionality.

FEATURES

- Bluetooth 4.1
- Up to 4-way Intercom that extends up to 1.2km (.8 mile) (SF2 and SF4 Models ONLY)
- FM Radio, radio sharing, audio overlay (SF2 and SF4 Models ONLY)
- · Voice prompt
- Sena App for Smartphone

PRO RADAR/LASER DETECTOR

- Superior radar and laser detection performance Ability to turn Radar Detection and GPS functions Angled, backlit, daylight visible liquid
- · Equipped with GPS data points for Red Light Camera and Radar Camera locations
- · Free lifetime monthly GPS data points updates
- · Six selectable detection modes

- on and off
- · Specifically designed for motorcycle use; water, shock, and vibration resistant
- · Detects all radar and laser bands and is certified by Speed Measurement Labs
- · Audio and visual alerts
- Oversize, backlit control buttons, easy to operate even with gloves on
- crystal display
- · 3.5mm auxiliary out jack for integration with other audio or communication systems, including Bluetooth systems with use of TPX Bluetooth Transceiver (sold separately)
- · Optional TPX Wireless Headset for in helmet audio alerts (sold separately)
- Includes Visual Alert, Wiring Harness, Universal Mount Plate Adapter with hardware
- Industry leading 2 year warranty

71-9101

2.0 RADAR/LASER DETECTOR

- Version 2.0 features increased detection sensitivity and 3 additional user modes compared to the original version Adaptiv detectors
- Specifically designed for motorcycle use, water, shock, and vibration resistant
- Detects all radar and laser bands and is certified by Speed Measurement Labs
- Audio and visual alerts
- · Oversize, backlit control buttons, easy to operate, even with gloves on
- · Angled, backlit, daylight visible liquid crystal display
- · 3.5mm auxiliary out jack for integration with other audio or communication systems
- Recommended for use with TPX Wireless Headset and/or TPX visual alert
- · Includes visual alert, wiring harness, universal mount plate adapter with hardware

WPS# 71-9103

BLUETOOTH TRANSMITTER & 12 VOLT POWER SUPPLY

TPX™ BLUETOOTH TRANSMITTER

- · Wirelessly syncs with most any Bluetooth audio device
- · Transmits alerts from the TPX radar detector and laser jammer along with music and sound from any device with a 3.5mm audio-out plug
- Includes AC wall charger

Description List

TPX Bluetooth transmitter 71-9115

TPX™ 12 VOLT **POWER SUPPLY**

- · Power or charges any USB device
- Can also be used in conjunction with the TPX™ Bluetooth adapter, eliminating the need to charge with the AC wall charger

| Description | WPS# | List |
|----------------------|---------|------|
| 12 volt power supply | 71-9116 | |

WIRELESS HEADSET

- For use with the TPX Radar/Laser Detector main console
- Alerts the rider to the detection of radar/laser signals by audio beeps through the earphone
- · Wireless, water resistant design easily attaches to most open or full face helmets
- Can be used in conjunction with the TPX Visual Alert
- Powered by a lithium coin cell battery (included)

71-9102

VISUAL ALERT

- For use with the TPX Radar/Laser Detector main console
- Alerts the rider to the detection of radar/laser signals by flashing 3 ultra bright LEDs
- Water resistant and designed to be mounted most anywhere: gauge cluster, handlebars etc.

• Ideal for riders that don't wear a full or open faced helmet, can be used in conjunction with the TPX Wireless Headset

INDEX

 RAM utilizes a patented rubber ball and socket design which isolates and dampens shock. This design allows user to mount to just about anything, anywhere on your recreational vehicles.

- Mounts are made of marine grade aluminum with a powder coated finish, stainless steel hardware and Nitrile balls.
- Backed by a LIFETIME manufacturer's warranty.

4 STEPS TO CONFIGURING YOUR MOUNTS:

STEP 1
Pick a base

STEP 2

STEP 3
Pick an adapter

STEP 4
Pick a cradle

| | Base Descriptions | RAM # | WPS # |
|----|---|--------------------|---------|
| 4 | 2.5" Composite base that connects to a 1" ball, double-sided adhesive PSA stick pad and sealed alcohol prep pad | RAP-B-378U | 71-7207 |
| 3 | 2.25" x 0.875" base with 11mm hole provides a universal platform to mount on using a 1" diameter rubber ball | RAM-B-252U | 71-7208 |
|) | 1" diameter ball and base with an offset 9mm hole | RAM-B-272U | 71-7209 |
|) | Motorcycle handlebar base designed to mount on rails that are 0.5" to 1.25" in Diameter and provides a 1" diameter rubber ball to mount from | RAM-B-231ZU | 71-7210 |
| | Connects to a handlebar that is from .5" to 1.25" in diameter or the brake/clutch reservoir clamp. Provides a 1" diameter rubber ball to mount off of | RAM-B-309-7U | 71-7212 |
| | Fork stem mounted motorcycle base that fits .5" to 1.10" diameter holes and provides a 1" diameter rubber ball to mount off of | RAM-B-342U | 71-7213 |
| ì | Hardware replaces most M8 size bolts and provides a 1" diameter ball to mount from. Comes with the following bolts, M8 \times 55 bolt (1.25 thread pitch), M8 \times 60 bolt (1.25 thread pitch), M8 \times 65 bolt (1.25 thread pitch) | RAM-B-367U | 71-7214 |
| ł | Steel strap base to fit rails .5" to 3.15" in diameter with a 1" diameter rubber ball to mount off of | RAM-B-231Z-2NUBU | 71-7221 |
| | 3.25" Twist lock suction cup base that is connected to the RAM-B-238U diamond base with 1" rubber ball | RAM-B-224-1U | 71-7216 |
| | Fits over your brake/clutch reservoir cover using the exhisting hardware and comes with the 1" ball offset to mount off of | RAM-B-346U | 71-7218 |
| (| M10 x 1.25 Pitch threaded stud connected to a 1" rubber ball | RAM-B-349U | 71-7242 |
| | Stainless steel double u-bolt base connected to a 1.5" diameter ball. The double u-bolt base will accommodate rails from 1" to 1.25" in diameter | RAM-235U | 71-7222 |
| VI | 1.5" Diameter rubber ball connected to a 2.5" universal AMPS hole pattern | RAM-202U | 71-7223 |
| V | Tough-Claw mount universal clamp w/1" ball, fits rails .625"-1.5" in diameter | RAP-B-400U | 71-7026 |
| | Tough-Claw mount universal clamp w/1" ball, fits rails 1"-2.25" in diameter | RAP-B-401U | 71-7033 |
|) | Medium Tough-Claw w/1" diameter ball | RAP-B-404U | 71-7230 |
|) | 2"x1.7" base w/1" ball and AMPs hole pattern to fit Garmin Zumo, Tom Tom Rider & Urban Rider | RAM-B-347U | 71-7226 |
| | Rectangular base with a 1" ball and 4-hole pattern of 1"x1.5" center to center | RAM-B-202U-152 | 71-7220 |
| J | Rail base w/stainless U-bolt & 1" ball, fits .5" to 1" rails | RAM-B-231U | 71-7211 |
| 7 | Brake/clutch reservoir base with 1" Ball | RAM-B-309-1U | 71-7241 |
| 3 | Brake/clutch reservoir base w/qty. 2 1" balls | RAM-B-309-2U | 71-7240 |
| Γ | Brake/clutch reservoir cover base w/1" centered ball | RAM-B-345U | 71-7229 |
| J | Rail base w/zinc coated U-bolt, ATV/UTV strap & 1" ball for rails to 3.15" in diameter | RAM-B-231Z-2U | 71-7215 |
| / | 1" Ball adapter for brake/clutch reservoir base | RAM-B-309-3U | 71-7243 |
| Ν | 1/4"-20 x 21/4" Threaded stud w/1" ball | RAM-B-273U | 71-7244 |
| (| 3/8" Threaded post w/1" ball | RAM-B-236U | 71-7246 |
| | M10 x 1.5 Threaded stud w/1" ball | RAM-B-349-1U | 71-7252 |
| Y | 1" Tough-Ball™ w/¼"-20 x ¼ " male threaded post | RAP-B-379U-252025U | 71-7248 |
| 7 | Composite rail base w/1" ball for rails from 3/4" to 1" in diameter | RAP-B-231U | 71-7272 |
| AΑ | 1" ball with V-mount, fits rails 1" - 2.1" in diameter | RAM-B-108BU | 71-7227 |
| BB | Torque™ mount w/1"ball, fits rails 3/8" - 5/8" in diameter | RAM-B-408-37-62U | 71-7253 |
| CC | Torque™ mount w/1"ball, fits rails 3/4" - 1" in diameter | RAM-B-408-75-1U | 71-7254 |
| D | Torque™ mount w/1"ball, fits rails 1 1/8" - 1 1/2" | RAM-B-408-112-15U | 71-7255 |
| Ε | Gas tank mount w/1" ball, fits most Honda, Suzuki, KTM, Victory and Yamaha models with 3.5" bolt circle gas cap | RAM-B-410U | 71-7231 |
| F | Gas tank mount w/1" ball, fits most BMW and Kawasaki models with 4" bolt circle gas cap | RAM-B 411U | 71-7232 |

COMPLETE KITS

| | Kit Descriptions | RAM # | WPS # |
|---|--|-----------------------|---------|
| А | EZ-ON/OFF low profile handlebar mount with universal X-Grip phone holder that holds devices up to 3.25" wide. Attaches with zip ties and will fit on almost any handlebar over .5" in diameter | RAP-274-1-UN7 | 71-7021 |
| В | Cup holder w/cozy, connected to a double socket arm with 1" diameter rubber ball and comes with hardware for mounting to rails that are .5" to 1.25" in diameter | RAM-B-132R | 71-7022 |
| С | Cup holder w/cozy, connected to a Tough Claw mount with 1" diameter rubber ball and comes with hardware for mounting to rails that are .625" to 1.5" in diameter | RAM-B-132-400 | 71-7034 |
| D | Level Cup XL™ holder w/cozy (fits cups up to 3.5" wide and 11" tall), connected to a Tough Claw mount with 1" diameter rubber ball, inc. hardware for mounting to rails that are .625" to 1.5" in diameter | RAP-B-417-400U | 71-7047 |
| Ε | Cup holder w/cozy, reservoir mount | RAM-B-132-309 | 71-7028 |
| F | Angle mount (w/9mm hole) with X-Grip (standard phones), short double socket arm | RAM-B-272-A-UN7 | 71-7046 |
| G | Tough Claw mount with X-Grip (standard phones), fits rails .625" to 1.5" in diameter | RAM-HOL-UN7-400 | 71-7035 |
| Н | Tough Claw mount with X-Grip (large phones/Phablets), fits rails .625" to 1.5" in diameter | RAM-HOL-UN10-400 | 71-7038 |
| 1 | Torque mount with X-Grip (standard phones, short arm), fits rails ¾" to 1" in diameter | RAM-B-408-75-1-A-UN7 | 71-7042 |
| J | Torque mount with X-Grip (standard phones, med. arm), fits rails 1 1/8" to 1 1/2" in diameter | RAM-B-408-112-15-UN7 | 71-7043 |
| K | Torque mount with X-Grip (large phones/Phablets, med. arm), fits rails ¾" to 1" in diameter | RAM-B-408-75-1-UN10 | 71-7040 |
| L | Torque mount with X-Grip (large phones/Phablets, med. arm), fits rails 1 1/8" to 1 1/2" in diameter | RAM-B-408-112-15-UN10 | 71-7041 |
| М | Motorcycle U-bolt mount with X-Grip, fits rails .5" to 1.25" in diameter | RAM-B-174-UN7 | 71-7008 |
| N | Motorcycle U-bolt mount with X-Grip (for large phones/phablets), fits rails .5" to 1.25" in diameter | RAM-B-149Z-UN10U | 71-7139 |
| 0 | Motorcycle U-bolt mount with X-Grip, fits rails .5" to 1.25" in diameter | RAM-B-149Z-UN7 | 71-7037 |
| Р | Quick-Grip™ U-bolt mount, fits phones 4.75"-5.75" tall x 2.19"-3.25" wide x up to .72" deep, fits rails .5" to 1.25" in diameter | RAM-B-149Z-A-PD3U | 71-7060 |
| Q | Quick-Grip™ XL U-bolt mount, fits phones 5.75"-8.25" tall x 2.625"-3.625" wide x up to .72" deep, fits rails .5" to 1.25" in diameter | RAM-B-149Z-A-PD4U | 71-7061 |
| R | U-bolt universal holder, fits rails .5" to 1.25" in diameter | RAM-B-174-UN4 | 71-7015 |

COMFORT SEATING SYSTEM

SEAT CUSHIONS

Developed by a pioneer in the medical industry, the technology used in the Airhawk seat cushion was originally developed to prevent pressure injuries of patients who were bed-ridden or confined to a wheelchair. By using interconnected cells, the Airhawk cushion can adapt to the individual contours of the rider, and distribute weight in a way regular seats and pads can't. The non-slip surface on the underside of the pad sits securely on the top of the seat, and also comes with attachment loops for semipermanent mounting and security.

The last mile will feel like the first!!

- Stress Relief design features reduced pressure points on the tail bone, scrotum and prostate areas
- Cell heights on front lowered for better leg passage
- Ergonomically form fitting design allows better conformity to a multitude of seat shapes and sizes
- The cover is a breathable spacer mesh cloth material w/red vinyl accent, non-skid bottom material
- The inner bladder is manufactured out of Polyurethane
- · Airhawk seat cushions have a lifetime warranty

Available in six sizes:

- Cruiser R Small: will fit Sport Touring, Sport Bikes, Dual Sports, Standards, and non-Touring Harleys
- Cruiser R Large: Big Cruisers, H-D Touring models and non-H-D Touring models.
- Medium cruiser: fits Big Cruisers, Sport Touring, Standards, and Non-Touring Harleys
- Cruiser pillion: fits passenger seats of Sport touring, Dual Sport, Standards and Non-Touring Harleys.
- DualSport: fits dual sport bikes as well as hardto-fit seats where the Cruiser and Medium Cruiser are too wide and the Small Cruiser is too long

- Saddlebags with lids accept OEM latches and hardware
- Require minimal prep for paint
- Block off plates available for stretched versions to accommodate custom exhaust
- Stretched bags are stretched 4"

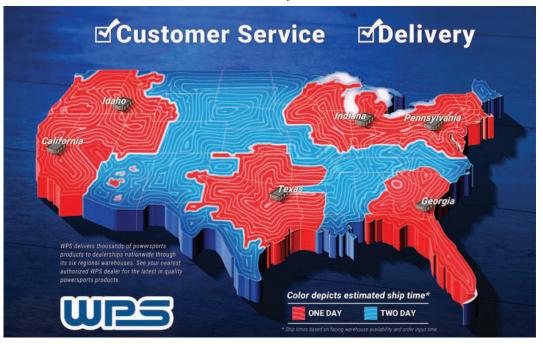

SADDLEBAG SKID PLATES

Avoid those embarrassing skid marks by adding a set of our Bagger Nation Skid Plates to your Bagger Nation Swoop, Chupa or Super Stretch saddlebags! Our easy-to-install plates are precision laser cut from stainless steel and then die bent and high polished for a perfect fit and look. They will protect your valuable custom paint job from getting edge and corner scratches from extreme lean angles, high driveways, speed bumps or whatever unavoidable obstacles you may encounter.

Our high quality Skid Plates are sold in pairs and simply attach with 3M super double-sided tape.

Sporty Sack, Right 811-30202

TOURING LUGGAGE RACK BAG

The Ultragard® luggage rack bag is made with high quality weather resistant materials, durable construction, and a sturdy mounting system. A large main compartment allows for maximum storage, overall size 20" x 10" x 8½". Four additional easy access zippered compartments, and two expandable side pockets add up to 3,320 cubic inches of extra storage space on your bike. Also included are a rain cover and a comfortable shoulder strap.

AMERICAN CLASSIC

- The American Classic brings nostalgic memories with it's chrome studs, genuine roller pin buckles, subdued round conchos with fringe and a box style top
- Reinforced with internal plastic
- All bags feature quick release buckles (except tool pouch)
- Limited Lifetime Warranty

| | Model | Size | WPS# | List |
|---|--------------------|-------------------|----------|------|
| Α | Tool Pouch | 12" X 5" X 2½" | 63-0037 | |
| В | Sissy Bar Bag | 8" x 10" x 4½" | 63-00381 | |
| C | Standard Saddlebag | 14½" x 11½" x 5½" | 63-00351 | |

ACCESSORIES

A. SADDLEBAG HARD MOUNT KIT

- Works with all Willie & Max saddlebags equipped with plastic tube reinforcing
- Can be used with most throw over style bags with reinforced backing
- May require additional hardware depending on application

B. THE "HOOKER"

 Slips easily under the passenger seat and gives you 4 padded "D" ring mounting points

C. HANDLEBAR/WINDSHIELD POUCH

 This convenient pouch mounts to the handlebar with ties or adhesive hook & loop

D. SADDLEBAG COOLER INSERT

GENUINE LEATHER LUGGAGE

The Willie & Max Leather Luggage Series is a classic design, made in Wisconsin with the same premium cow hides that are used to make OEM bags. 100% Genuine Leather designed and made in the USA

NEXT LEVEL SADDLEBAG LEVERS

Next Level will set your two-wheeled creations apart from the mundane. Concentrating on light weight design, quality materials and structural rigidity, Next Level will please the eye with the fusion of our top priority: function.

- Easily replace OEM levers for a more distinct look and feel
- Available in black or black/machine cut finish
- Fit Touring models with hard bags 2014-Up

| Description | WPS# | List |

LID LIFTERS

Introducing the Bagger Nation Speed Freak Saddlebag "Lid Lifters" TM. We lent our classic styling cues to the bag opening levers and holy smokes do they look trick! "Lid Lifters" TM are available brilliantly chrome plated or black anodized and accent cut. Each Lid Lifter TM set is CNC machined from 6061-T6 aluminum. Our innovative installation cams are patent pending.

*Lid Lifters will not work with CVO and Boom Audio applications. Sold in pairs. Hardware and instructions included. Simple bolt-on installation.

SADDLEBAG LATCH COVERS

Need to spice up your factory saddlebag latches with something cool? Our Bagger Nation Saddlebag Latches add serious flavor to your Bagger! Yaffe Saddlebag Latches fit 2013-Earlier HD Touring models. There are no modifications required and our Latches are a direct bolt-on application. Of course, we hid the mounting hardware for that clean Bagger Nation look! Our latches are CNC machined from T-6061 aircraft aluminum. We make them available in a brilliant chrome finish or powder coated in a deep, rich black then accent-cut to bring forward the underlying metal.

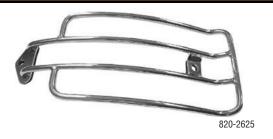

Outfit your Bagger, front to back, with our complete line of Yafterburner or Speed Freak products- Grips, Ignition Switch Covers, Turn Signal Eliminators, Slider Covers, Yaxle Covers, Shift Pegs, Shift Link, Brake Lever Covers, Passenger Pegs, Lid Lifters, Saddlebag Latches and Covers and Exhaust Tips.

firebrand^{*}

LOOSE CANNON SLIP-ON'S FOR TOURING MODELS

Loose Cannon slip ons were created for sound and power, no billet or decorative nonsense. Designed and built for riders, by riders and handcrafted in the heartland of the USA!

- Wake up your exhaust note with the Firebrand louvered open core baffle
- · 4" Body with flash-suppressor end treatment
- · Stainless Steel inner tip visible through cutouts
- · Lustrous Show Chrome finish
- Asphalt Black is fully heat cured and more durable than the competition's chalky black!
- · Fits with most extended saddlebags and skirts
- · Made in the USA

| Application | Year | Chrome | List | Black | List |
|-------------|--------|----------|------|----------|------|

GRAND PRIX SLIP-ON'S FOR TOURING MODELS

We recently updated the Grand Prix slip ons with stainless baffles and high performance packing for the deep, no-drone exhaust note that a touring machine should make. Built by Riders for Riders in the Heartland of the USA!

- Stainless Steel 2.5" perforated core baffle wrapped in high performance composite packing
- · Lustrous Show Chrome finish
- Asphalt Black is fully heat cured and more durable than the competition's chalky black!
- Made in the USA

| Application | Year | Chrome | List | Black | List |

940-1025 940-1007

940-1026

High flow header constructed of durable Stainless Steel and designed to make solid power. Built by Riders for Riders in the Heartland of the USA.

- Full Stainless Steel header with hidden crossover provides the torque building advantage of a 2-1 with classic bagger styling.
- Eliminates failure prone Y pipe OEM design and adds true dual styling
- Full size cross under for maximum flow
- Four Oxygen sensor bungs for easy Air/Fuel Ratio monitoring
- Fully wrapped heat shields included
- · Lustrous Show Chrome finish
- · Asphalt Black is fully heat cured and more durable than the competition's chalky black!
- · Made in the USA!

| Application | Year | Chrome | List | Black | List |

• Stainless steel inner tip visible through cutouts

• Fits with most extended saddlebags and skirts

940-1040

2 IN 1 CONVERSION KITS FOR TOURING MODELS

Looking for increased horsepower, healthy torque and to unleash the joyous sound your motor was designed to make? Our 2 into 1 Conversion Kits cap the low-flow, left side of the OEM header, and route spent gases through a Loose Cannon or Grand Prix Slip-On muffler, creating the trifecta of performance exhaust for your bagger without breaking the bank! Built by Riders for Riders in the Heartland of the USA!

940-1036

Minimalist Aluminum end cap surrounding honeycomb grate • Stainless steel 2.5"" perforated core baffle wrapped in high performance composite packing

2 IN 1 SHORTY PIPE FOR TOURING MODELS

- Designed with performance in mind, for a deadly look and a great sound
- · Classic stepped performance headers 1-3/4" primary to 2" step to allow maximum transfer
- Mandrel bent aircraft quality Stainless Steel tubing
- Hand formed merge collector allows precise flow performance
- All TIG welds performed by hand in our Charlotte, NC manufacturing facility
- Available in Brushed Stainless Steel or Black Ceramic Coated Stainless Steel and Polished

- · Powdercoated billet endcap with laser etched Sawicki logo
- · Billet end cap allows you to tune the sound for your liking, by adding or removing packing
- · Recommend using flat mesh race style exhaust gaskets
- · Accepts 18mm o2 sensors for aftermarket tuners or 12mm sensors with reducers
- `95-08 models will require spacers at the mounting bracket
- · Limited Lifetime Warranty
- · Made in the USA

| Application | Year | Brushed SS | List | Black | List | Polished | List |

2 IN 1 SHORTY BIG INCH FOR TOURING MODELS WITH MID'S

- Designed specifically for M8 and Twin Cam baggers with Mid-Controls
- Works excellent on performance motors with 124" and up displacement
- Mandrel bent aircraft quality 304 Stainless Steel tubing
- 1-3/4" primary, stepped up to a 2" header piper and a 2-1/2" collector to generate more flow
- · Hand formed merge collector allows precise flow performance
- All TIG welds performed by hand in our Charlotte, NC manufacturing facility
- Available in Brushed Stainless Steel
- Powder coated and wrapped in Real Carbon Fiber, billet endcap with laser etched Sawicki logo

- · Removable end cap allows you to tune the sound for your liking, by adding or removing packing
- · Swept-up muffler for enhanced ground clearance
- · Recommend using flat mesh race style exhaust gaskets
- Accepts 18mm o2 sensors for aftermarket tuners or 12mm sensors with reducers
- O2 Sensor extensions may be required (not included)
- Will fit on Pre-08 models with mounting customizations
- · Comes with Heat Shield
- · Limited Lifetime Warranty
- · Made in the USA

Application **Brushed SS**

FLH/FLT with Aftermarket Mid-Controls `09-Up

930-01090 Not legal for use in California on pollution controlled vehicles - check local laws before installation

2 IN 1 SHORTY **CANNON BIG INCH** FOR TOURING MODELS WITH MID'S

- · The ultimate in Sawicki Speed performance dynamics!
- Designed specifically for M8 and Twin Cam baggers with Mid-Controls
- · Works excellent on performance motors with 124" and up displacement
- · Mandrel bent aircraft quality 304 Stainless Steel tubing
- 1-3/4" primary, stepped up to a 2" header piper and a 2-1/2" collector to generate more flow

- Mandrel bent aircraft quality stainless steel tubing, 1-3/4" primary with a 2" outlet collector
- · Hand formed merge collector allows precise flow performance
- All TIG welds performed by hand in our Charlotte, NC manufacturing facility
- Available in Brushed Stainless Steel or Black Ceramic Coated Stainless Steel

- · Powdercoated billet endcap with laser etched Sawicki logo
- Billet end cap allows you to tune the sound for your liking, by adding or removing packing
- · Swept-up muffler for enhanced ground clearance
- · Fits with both forward and mid controls models
- · Must use flat mesh race style exhaust gaskets (not included)
- Accepts 18mm o2 sensors for aftermarket tuners or 12mm sensors with reducers
- · Limited Lifetime Warranty
- Made in the USA

2 IN 1 SHORTY CANNON **FOR DYNA MODELS**

- Designed with performance in mind, for a deadly look and a great sound
- Works excellent on smaller displacement performance motors: 80", 88", 96" and 103"
- Mandrel bent aircraft quality stainless steel tubing, 1-3/4" primary with a 2" outlet collector
- Hand formed merge collector allows precise flow performance
- All TIG welds performed by hand in our Charlotte, NC manufacturing facility

- · Available in Brushed Stainless Steel
- Fully welded Stainless Steel end cap with Sawicki badging
- Swept-up muffler for enhanced ground clearance
- · Fits with both forward and mid controls models
- Must use flat mesh race style exhaust gaskets (not included)
- · Accepts 18mm o2 sensors for aftermarket tuners or 12mm sensors with reducers
- · Limited Lifetime Warranty
- Made in the USA

CULT 45 SLIP-ONS

Introducing The Bagger Nation Cult Forty-Five Performance Pipe. The team has taken their favorite aspects from years of custom and production exhaust system know how and combined them to create the perfect pipe. First, a swedged 4" pipe body provides a seamless flow from header to pipe body. Second, Paul designed a selection of 4.5 inch, CNC machined, dialable billet end caps that not only provide a thunderous, deep exhaust note, they also create a perfect cosmetic balance in both size and shape to complement the rear end of your H-D Touring model. We then focused on the performance aspect of our new pipes. By fitting these pipes with a massive 2.5" glass pack insulated core, we created an incredible tone and terrific horsepower and torque gains throughout the RPM range.

930-02132

COMP-S FULL LENGTH 2IN1 FOR TOURING MODELS

From the engine, the exhaust flows through our 1- ¾" stainless tubing which includes O2 bungs to accommodate both stock and 18mm sensors. From here the exhaust steps up to 1 and 7/8" before dumping into the spring retained collector for increased torque. The exhaust then emerges from the collector into our 4" Touring muffler to deliver an unparalleled sound upon exit.

- Designed to deliver maximum torque
- Race-inspired stainless steel headers shave pounds off the competition to ensure a long lasting, weatherresistant, amazing sounding exhaust
- · Comes complete with heat shields

COMP-S FULL LENGTH 2In1 WITH GHOST PIPE FOR TOURING MODELS

Designed to deliver maximum horsepower, torque and superior sound, the TBR Touring 2-1 w/ghost pipe now has the looks to match the attitude. The race inspired stainless steel headers shave pounds off the competition and are designed to ensure a long lasting, weather-resistant, amazing sounding exhaust.

As always our headers are fabricated to accommodate both stock and 18mm O2 sensors and are finished with color matched heat shields. Headers from this system flow exhaust into our spring retained collector then into our popular 4" Touring muffler which now feature our famous spiral perforated core to deliver an unparalleled sound upon exit. We didn't stop there, we now have added a ghost pipe to the opposing side which utilizes the OEM heat shield and gives the bike the style and balance to match the performance.

930-02150

- Designed to deliver maximum torque
- Race-inspired stainless steel headers shave pounds off the competition to ensure a long lasting, weather-resistant, amazing sounding exhaust
- Comes complete w/heat shields
- 12mm and 18mm O2 sensor compatible
- Dual look with 2-1 performance
- Handcrafted in the USA

HEAT SHIELD LINERS

Heat from a V-twin's exhaust system can become uncomfortable, especially when riding in slow traffic and can be particularly unpleasant for riders with shorter legs. DEI's new Heat Shield Liner Kits insulate outer heat shields without disturbing the looks of the bike. Each piece is CNC precision-cut to fit between the exhaust pipe and the heat shield, blocking heat transfer and lowering surface temperatures of the outer shields. Easy to install with no permanent modifications required, the Heat Shield Liners offer dual-layer construction of aluminum and feature DEI's proprietary Dura 2000TM insulating material, providing a more than 60% reduction in heat. Available for stock and some popular aftermarket head pipes. Made in the USA.

GEN III ONYX HEATSHIELDS

DEI has expanded its award winning Flexible Heat Shields to include additional sizes and premium nishes. Each shield uses our reliable stainless standoff bracket and includes mounting hardware for easy installation.

- Blocks heat more effectively than stamped metal shields
- Semi-flexible material for easy fitment on almost any exhaust
- Dual layer high-temperature textile materials
- Great Protection for shorter riders
- Available in Titanium Series or ONYX Series
- Available in a 6.5" or 8" lengths

Е

| | Description | WPS# | List |
|---|---|-----------|---------|
| Α | Onyx Universal Heatshield Black/Black 3.5"x6.5" | 790-01201 | \$70.95 |

| F | Onyx Universal Heatshield Brushed/Titanium 4"x8" | 790-01206 | \$59.95 |

TITANIUM FLEXIBLE **HEAT SHIELD**

- More effective than traditional metal heat shields
- Enhanced protection for legs and boots
- · Great custom look

- · Stainless steel hardware
- Standoffs create air gap for maximum heat dissipation

| Description | WPS# | List |
|-------------|-----------|---------|
| 4" X 8" | 790-02453 | \$41.95 |
| 4" X 12" | 790-02454 | \$46.95 |

EXHAUST WRAP KIT

An all in one kit for wrapping one set of motorcycle pipes. Kit includes two rolls of 2"x15ft wrap, one can of silicone coating and stainless steel locking ties.

| Description | WPS# | List |
|---|-----------|---------|
| Motorcycle Exhaust Wrap Kit, Black Wrap/Black Coating | 790-01000 | \$54.95 |
| Motorcycle Exhaust Wrap Kit, Tan Wrap/ Aluminum Coating | 790-01001 | \$54.95 |
| Motorcycle Exhaust Wrap Kit, Tan Wrap/White Coating | 790-01002 | \$54.95 |

EXHAUST WRAP & TIE KITS

• Convenient pack with one roll of 2"x25ft wrap and stainless steel locking ties.

| Description | WPS# | List |
|-----------------------------------|-----------|---------|
| Wrap and Ties Kit, Black | 790-01010 | \$34.95 |
| Wrap and Ties Kit, Tan | 790-01011 | \$32.95 |
| Wrap and Ties Kit, Titanium | 790-01012 | \$43.95 |
| Wrap and Ties Kit, Black Titanium | 790-01013 | \$43.95 |

INDIVIDUAL EXHAUST WRAP ROLLS

- Decreases exhaust density & increases exhaust flow
- Improves horsepower
- Sewn in guide lines for proper overlap
- Tan & black wraps withstand 1200 F direct heat, titanium withstands 1800 F direct heat
- Titanium wrap requires no coating or pre-wetting

| Description | WPS# | List |

TITANIUM EXHAUST SLEEVE KIT

Forget the hassle of wrapping your pipes, simply slip the sleeve over and secure it with ties...done! Same heat protection and great looks of wrapped pipes without the time consuming work trying to get the overlaps straight. Sleeves come in 5 foot lengths. Kit includes wrap ties and tools. Sleeves will fit 1-3/4"-2" pipe diameters.

| Description | WPS# | List |
|------------------|-----------|---------|
| Titanium Exhaust | 790-01050 | \$81.95 |
| Sleeve Kit | | |

EXO EXHAUST WRAP

The EXO Series™ exhaust wrap is a dual-layer design, using a combination of hi-temp fiberglass, covered with a 304 grade stainless steel exoskeleton. The stainless steel exoskeleton hooks together when overlapped, saving time and making installation much easier.

Each kit includes a 1.5"x 20' roll of wrap, stainless steel locking ties, and installation tool.

| Description | WPS# | List |
|----------------|-----------|---------|
| Exo Wrap Tan | 790-01036 | \$69.95 |
| Exo Wrap Black | 790-01037 | \$72.95 |

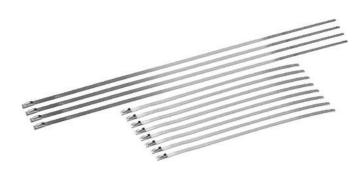

LOCKING TIES

- · Self locking design
- Constructed from high grade 304 stainless steel
- · Capable of withstanding in excess of 2500 F
- 100lb tensile strength

| Description | WPS# | List |
|--|-----------|---------|
| Stainless Steel Locking Ties 8" (8 pack) | 790-01100 | \$14.95 |
| Stainless Steel Locking Ties 14" (4 pack) | 790-01101 | \$8.95 |
| Stainless Steel Locking Ties 20" (10 pack) | 790-01102 | \$25.95 |

LOCKING TIE TOOL

The DEI Locking Tie Tool will fit on the end of any standard 1/4" drive extension so working in tight spaces where your hands don't fit is no problem. The tool works with all the popular styles of stainless ties up to 1/2" wide. Simply engage the tie, and twist. This gets the tie nice and secure, without any hassle.

| Description | WPS# | List |
|------------------|-----------|--------|
| Locking Tie Tool | 790-01105 | \$4.95 |

EXHAUST STUDS

- Kit comes in a 4 pack
- · Made in the USA

| Description | WPS# | List |

SEALS

The Power Vision incorporates a very sophisticated, yet simple touch screen display that DOES NOT require the use of a computer to flash your bike or to use Auto Tune! Simply select the tune, follow the on-screen prompts to download the tune, and if you'd like, edit your tune without ever touching a computer! That's right, you can flash and make changes to your tune without ever getting off your bike.

- Optimize your motorcycle for power, speed or fuel-efficiency
- Flash and remove from bike or leave it and utilize it as an instrument panel to watch fuel-efficiency, air/fuel ratio and more
- High-contrast display for easy viewing in direct sunlight, and weather resistant and shock-resistant exterior
- · Made in the USA

Power Vision downloads and stores the stock calibration, and lets you select up to 8 different tunes that are stored on the device, and can be flashed to your bike. The types of tunes included are:

- Dynojet Preconfigured Tunes Tunes for YOUR bike pre-loaded on the device... ready to go, right out of the box! Power Vision identifies your bike's information and automatically sorts hundreds of applicable dyno proven tunes for you to choose from.
- Custom Tunes loaded by a custom tuning shop, or received via email and loaded on the device.
- Copy of Original or Copy of Current a version of the Original calibration that was saved when the Power Vision was married to the ECM. Or a version of the Current calibration that is currently saved in the ECM.

Power Vision provides insightful, valuable information on how your bike is running:

- Display all J1850 and CAN H-D vehicle data in real time as well as wide band air/fuel ratio and various channels (such as MPG instant and trip MPG)
- AutoTune2 Basic and Pro

 AutoTune is built into the Power Vision
 so you can modify your tune as you ride without using a computer
- · Check and clear diagnostic codes
- · Reset adaptive fuel trims and idle offset (with bike running)

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

TUNING LICENSES

Through a Tuning License, you can unlock the true potential of your Dynojet Power Vision. Your Power Vision will be able to tune the original motorcycle, as well as one additional Harley. Your Power Vision device will remember each license that is applied, essentially multiplying the power of your device. Each license is vehicle specific, not device specific, allowing you to load a Tune License onto any number of Power Vision units you have.

| Description | WPS# | List |

TARGET TUNE FOR POWER VISION

The Target Tune module works as an optional accessory to the Power Vision and not only automatically determines the ideal air/fuel ratio for your ride in real-time but hold onto it. When paired with a Target Tune specific calibration flashed by a Power Vision, your ECM will run closed-loop fuel control based on Wideband O2 sensors to accurately achieve the target AFR.

- Gives you improved fuel efficiency and peak performance
- Does not interfere with dealer diagnostic or service tools
- Includes OEM-style connectors for plug-n-play installation
- Kit includes Bosch Wideband O2 Sensors and Y-adaptor cable
- Made in the USA

Replacement Wideband 02 Sensor 133-4060 \$131.99 for all Target / Auto Tune Systems

AUTO TUNE FOR POWER VISION

For the motorcycle rider who wants ultimate control of their speed, power, and fuel efficiency, Dynojet's Autotune kit is the perfect companion. This kit is designed to be used exclusively with the Dynojet Power Vision and unlike the stock narrow band oxygen sensors, the Bosch wide band sensors are extremely accurate at all operating ranges. The Autotune is a diagnostics tool that uses upgraded Wideband O2 sensors to perform precise real-time data logging. It then takes those results and creates custom tunes based on your ride style.

133-4055

- · Tunes your bike in real time as you ride
- · Set your own target air/fuel ratio
- Kit includes module, two Bosch Wideband O2 Sensors
- · Harley-Davidson plug-n-play connection harnesses
- #133-4055 (MFG#AT-110B) comes with weld-in 18 mm bungs
- · Made in the USA

OPOWER 1510N PV SHOP TUNER KIT

Power Vision Shop Tuner Kit includes the following items:

- Power Vision Unit with cables for J1850 and CAN-BUS
- · Autotune Pro module with two wide band O2 sensors
- · All necessary cables

| Description | WPS# |
|-----------------------------|----------|
| Power Vision Shop Tuner Kit | 133-4056 |
| Power Tuner Cable Kit | 133-4057 |
| Stealth Extraction Kit | 133-4058 |

Power Tuner Cable Kit includes:

- J1850 and CAN-BUS cables
- · All necessary cables to use a Power Vision and Autotune

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

133-4056

Stealth Extraction Kit Case includes:

- · Rivet nut tool, rivet nuts
- Manifold for Dynojet dyno Air/Fuel system hose
- · M10 drill bit, nuts and washers

POWER COMMANDER V

Our Power Commander V fuel tuner seamlessly optimizes your air/fuel ratio without directly changing the ECU, making it effortless to push it to the max. Better than ever (and smaller than ever), the Power Commander V now has a fuel change range of -100/+250%, automatically giving you the best mix of performance and fuel efficiency at all times. This fuel tuner holds two maps at a time for multiple drive options via the Power Commander V Map Switch accessory (sold separately), as well as 10 throttle position columns, so you won't sacrifice comfort for performance.

- · Controls the Fuel and Ignition tables
- Compact design for and plug-n-play installation
- Uninstall to simply revert back to stock settings
- · Vast library of tunes for any combination of aftermarket parts
- · Comes with Power Core Software that connects dyno runs with fuel tuners to unlock your ride's potential
- Upgradeable with additional features such as Auto-Tune
- · Analog input which allows you to install any 0-5 volt sensor and build an adjustment table based on its input such as boost or temperature
- · Easily connects to your computer via USB
- · Each cylinder can be mapped individually and for each gear, giving riders more granular control
- EX Version is 50 State Legal
- · Made in the USA

AUTO TUNE FOR POWER COMMANDER \tag{

No matter what modifications you've made or the elevation you ride in, the AutoTune Module is the PCV accessory that brings it all together. This module is designed to be used in conjunction with the Power Commander V Fuel Tuner. Once installed, the AutoTune kit monitors the air/fuel ratio. It then sends this information to the Power Commander V and automatically corrects it as you ride, letting you feel the changes as they happen. Each map that we offer has preset air/ fuel ratio target values included that we find to be the best overall settings. This lets you simply plug in the unit and let it do the work.

- Plugs directly into the 6-pin or 4-pin diagnostic port
 - Tunes your bike in real-time as you ride
 - Tunes each cylinder independently
 - User adjustable target air/fuel ratio with different targets per gear if desired
 - Kit includes module and two Bosch Wideband O2 Sensors
 - · Made in the USA

| Description | WPS# | List |
|-------------------------------------|----------|----------|
| CAN-BUS models with 6 PIN Connector | 133-4124 | \$461.99 |
| J1850 models with 4 PIN Connector | 133-4123 | \$461.99 |

POWER COMMANDER V MAP SWITCH

- For use with Power Commander V Fuel Tuner
- Easily toggle between two maps saved within the PCV (ie.Full Power and Fuel Economy)
- · Comes with switch and wiring
- Universal type mounting
- Made in the USA

| Description | WPS# | List |

MASTERTUNE SYSTEM FOR V-TWIN

The TTS MasterTune System is designed specifically to tune all 2001 and later Delphi-equipped Harley-Davidson® motorcycles, and includes four powerful Windows®-based programs, including:

MasterTune2-HD:

An ECM calibration development tool that allows you to:

- · Choose from a wide selection of base maps
- Save and Restore current calibration (factory or other)
- · Modify many critical ECM tables and constants
- Graph tables in 2D or 3D
- · Quickly compare changes in tables
- Correct speedometer calibration
- · Change primary ratio

VTune3-HD:

Assists you with:

- · Calibrating VE tables
- · Calibrating spark tables
- · Calibrating EGR correction tables
- · Verifying injector sizing

DataMaster2-HD:

A diagnostic and calibration support tool that allows you to:

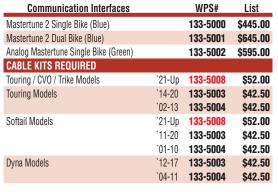

- · Check and Clear diagnostic codes
- Utilize VTune Histogram for tuning development
- View real time engine parameters
- · Playback recorded data
- · Analyze Camshaft settings
- · Analyze IAC warmup settings
- Simulate dyno and 1/4 mile results

Flight Recorder:

Configures a Communications Interface to allow you to:

- · Record data without a computer
- · Record as much as 8 hours of data
- Store up to 64 recordings
- · Automatically start and stop recordings
- All TTS MasterTune software is compatible with 32- and 64- bit versions of Windows 7 and newer
- · Cables sold separately
- · Made in USA

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

TCFI EFI CONTROLLERS

- Fully programmable plug-in replacement for 36 pin Delphi controller with J1850 data bus
- Quickly auto-tune fuel curves for front and rear cylinders on a dyno or on-road with new WEGO IIID dual channel wide-band oxygen sensor interface
- Robust alpha-N (throttle position and RPM based) fuel control eliminates problems with long duration/high overlap camshafts
- · Extended data logging and diagnostics
- DataFLASH memory stores full 60 minutes of operating data at 10 samples/second

- Powerful Windows software for custom programming and data analysis
- Programmable user input for functions (not available in TCFI EX version)
- Programmable user output for functions (not available in TCFI EX version)
- Billet aluminum housing with black anodized finish
- Support for new 6th gear indicator on '07-13 models
- Easy plug-in installation Supports all sensors including theft/security module

The TCFI kit includes the WEGO IIID dual channel wide-band exhaust gas oxygen interface that allows quick auto-tuning on a dyno or on-road during actual riding conditions. The kit includes Bosch LSU 4.2 wide-band sensors for both front and rear cylinders. The TCFI solves tuning problems with highly modified engines. Competitive "band-aid" products that interface to the Delphi® controller still rely on speed-density fuel control. Long duration/high overlap camshafts wreak havoc with manifold pressure - especially at idle and cruise RPM. Speed-density based fuel control simply can't cope.

Not legal for use in California on pollution controlled vehicles - check local laws before installation

ELECTRONIC JET KIT

ELECTRONIC JET KIT

"INSTALL AND RIDE, EFI MADE EASY."

The EJK (Gen 3 Electronic Jet Kit) evolved out of the need to address the ever-increasing complexity of factory fuel injection. For the newcomer to the market or professionals wanting an easier method for tuning fuel injection, the EJK is a customizable solution for the shop that wants to take control of their tuning needs.

- No computer needed
- · No dyno required
- Quick "plug and play" installation, initial settings are all preset based on make/model
- Full range tunability, does not interfere with stock ECU
- Simple push button adjustment interface
- 2 Year Warranty

The GEN 3 is a piggy-back EFI controller because it does not replace the stock ECU, but rather monitors the signals to the injectors and makes fuel adjustments based on the mode settings. The GEN 3 has a push button interface allowing access up to 6 different modes to allow for quick fine tuning by the end user without needing a computer. The GEN 3 also is nitrous oxide compatible, and allows the user to add fuel thru the stock fuel injection when using nitrous oxide.

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

The Twin Tuner allows you to easily adjust your fuel injection to match the requirements of performance parts including camshafts, free flowing exhausts, and low restriction air filters. You can add up to +30% or subtract down to -20% fuel.

You can use the mode and up/down pushbutton switches to make fuel trim adjustments in the RPM and throttle position ranges required by most applications. The fuel trim value is displayed on a bright daylight readable LED display. The Twin Tuner also has an advanced mode, where you can use the optional USB Interface and PC Link Tuner software to make precise fuel adjustments. The USB interface also allows you to make independent adjustments to the front and rear cylinders.

- · Increases horsepower
- · Improves throttle response
- · Easy plug-in installation and setup
- Very compact size only 4" L x 2" W x 1/2" H
- Optional USB interface and PC link tuner software available to make precise fuel adjustments
- Oxygen sensor eliminator kits available separately (model depending) for more precise tuning at idle and partial throttle
- · Low cost

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

* 50 state legal

TWIN TUNER II

The Twin Tuner II has all of the features of the Twin Tuner and also allows retarding of the spark timing up to 10° to help prevent pre-ignition knocking.

The user interface consists of up/down push buttons and a bright daylight readable LED display to select and change the fuel trim and spark retard in the RPM and throttle position ranges required by most applications.

TIER1 FUEL OPTIMIZER FOR HARLEY DAVIDSON

CCT is an acronym for "Consecutive Cycle Tuning". We use CCT to describe our fuel tuning process, which is the measuring of consecutive cycles of power, with unique amounts of fuel to determine which fuel amount provides the best acceleration.

The process, in many ways, is identical to the acceleration measuring procedure used in today's most popular tuning dynamometers, such as, those made by Dynojet and other companies. The important thing to remember is the time between consecutive cycles of power and between fuel adjustments on a dynamometer are measured in minutes and is based on one style of load or acceleration simulation at any given time, while the Tier 1 Tuners innovative +CCT Acceleration Tuner technology has a time between consecutive cycles of power and tuning of fuel that is measured in milliseconds and is based on Real Time/Real Life constant feedback.

The Tier 1 Tuners +CCT Acceleration Tuner can now provide your motorcycle with Real Time fuel adjustments that will optimize acceleration and compensate for the constantly changing Real Life conditions, (i.e. 1up/2up, head winds, tailwinds, uphill, down hills, etc.) which substantially affects the performance mode operations of your motorcycle throughout your normal daily driving.

The +CCT's patented technology adds a "Closed Loop" control system to your bikes fuel injection system.

Almost all motorcycle fuel injection systems in use today are using "open loop" control systems when they are being driven in a performance manner. "Open loop" refers to a control system that does not have feedback to adapt to conditions outside of its current programing, while a "closed loop" control system functions by its ability to take feedback from an engine sensor. For example, the oxygen sensors common on many of today's motorcycles use this type of system in cruise, but not in power mode.

The +CCT Acceleration Tuner unit will add a "closed loop" control system to your current fuel injection system while it is in performance mode. The +CCT Acceleration Tuner adjusts fuel while receiving feedback from the engine's acceleration in Real Time/Real Life. The fuel is changed to whatever is needed to optimize the engine's acceleration while in performance mode.

Tier1Tuners +CCT Acceleration Tuner can provide up to 95% optimization under Real Time/Real Life performance acceleration.

Most motorcycles today that use an "open loop" control system during power mode operation are typically about 70% optimized (because of various Real Time/Real Life road conditions). When optimizing the fuel map to 70%, a 30% margin is created to maintain good drivability over the full range of acceleration rates found in real life performance driving. The +CCT Acceleration Tuner's "closed loop" functionality cuts this margin of error from 30% to only 5% thus giving you up to 95% optimization under Real Time/Real Life performance.

Tier1Tuners new +CCT Acceleration Tuner is a standalone performance product. It requires no other modifications to deliver its performance potential. The +CCT Acceleration Tuner derives its benefit from its Real Time/Real Life "closed loop" functionality, not from making a better or different open loop fuel map.

Not legal for use in California on pollution controlled vehicles - Check local laws before installing

- Real Time Fuel Adjustments
- Up To 95% Optimization Under Real Life Acceleration
- Works On Stock Or Currently Mapped Bikes

02 SENSOR EXTENTIONS & BUNG REDUCERS

NAMZ started to produce our Oxygen Sensor Extensions since many customers had asked how they could fit their custom exhaust system from their 2009 FL onto a new 2010 FL models. The kit also works perfectly for ALL 2012 FXST & Dyna models allowing the use of older style pipes. The new sensors are also in a different location, much further back on the head pipe thus making the need for a longer harness. Our Oxygen Sensor Extensions allows the use of a 2009 header to fit onto 2010-up models and includes 18mm to 12mm bung adapters & a front Plug-n-Play harness extension to allow for easy installation. Our front O2 extension harness kits have been tested and designed by our engineers to work & fit perfectly. Simple installation and are intended to be installed with 2009 headers/exhaust systems & ALL 2012 FXST & Dyna Models.

• Includes bung reducers, installed terminals without connectors

HI-FLOW MATCHED FUEL INJECTORS

- Ten different flow rates with part numbers for 2001 and later models
- Made in the USA using the latest injector technology
- Sold in matched sets (two injectors)
- Detailed test report included with each set
- Not for use in California

'08-16 Touring models

'06-17 Twin Cam (except Touring models)

'01-05 F/I models

CARBURETOR KIT FOR HARLEY DAVIDSON

Lectron has been manufacturing high performance fuel systems in the United States since 1974. Lectron is not only the first metering rod carburetor, but it was also the first flat slide carburetor design. Known for making strong, consistent power, Lectron has dominated sports like two stroke motocross, enduro, and drag racing. We aren't in business to be second best, and have pre-tuned kits that are ready to install ride with minimal adjusting. Simplicity: The metering rod eliminates the need for jets, and automatically compensates for a wide range of elevation and temperature changes using air density and fuel lift. This means less time tuning and more time riding.

- · Harley Carb with our Gen II idle circuit.
- 33" Barnett Throttle Cable to fit Harley style throttles
- 3 Bolt Air Filter Adapter (Universal bolt patterns)
- 2 Bolt Manifold adapter (will also fit stock manifolds)
- Metering Rod Adjustment Tool
- · Shims to adjust spacing
- HD250 For 54-76CI Engines
- HD300 For 76-96CI Engines
- HD400 96+CI Engines
- Throttle cables by Barnett specifically for Lectron Harley carb applications.
- Note: When upgrading from a smaller carburetor to an HD 400 kit, you may need to purchase a larger intake manifold. Bikes swapped with Ultima 120 or similar engines may need to use a push-in Mikuni 48 manifold for fit with the HD 400 kits. Upgrading an S&S 111 from the Super E to the HD 400 Lectron will require swapping to the Super G Manifold OR using a Mikuni 48mm push in manifold.
- This is NOT compatible with an S&S Stealth Air Cleaner System right now.

| Application | Lectron # | WPS# | List |

- # Will not work with stock air box
- Must use HD Screaming Eagle manifold kit
- SE high flow air cleaner
- ‡ Must use with aftermarket performance air filter

Total Kit includes:

- · A special manifold
- · Rubber flange
- · High flow air filter
- (Manifold clamps and seals are not included in kit).

HSR 45/42 TOTAL CARBURETOR KITS FOR BIG TWIN EVO AND TWIN CAM MODELS

- Go for high flow!
- · Total Kits allow fitment of HSR42 or 45mm carburetor to any Big Twin EVO or Twin Cam model
- Our high flow filter supports 100 horsepower with no loss from filter restriction

| Description | Model | Year | Mikuni# | WPS# | List |

40MM CV CARB

- 100% brand-new, not refurbished
- Completely assembled with Cycle Pro® upgrades
- Carburetor comes with assortment of main and pilot jets for full coverage
- Complete instruction sheet included for tuning suggestions
- · Access to idle air mixture screw
- · Upgraded emulsion tube installed
- Upgraded slide spring for better throttle response
- Accurate reproduction of the OEM Keihin CV 40mm carburetor

Not legal for use on pollution controlled vehicles, check local laws before installation

THUNDERSLIDE KIT

These kits incorporate a custom made slide. The unique configuration allows precise control over the slide's range of movement and creates a stronger signal, which improves fuel atomization. This provides more power, increased throttle response and improved fuel economy.

Not legal for sale in California, check local laws before installation.

REFERENCE INDEX

CARB REBUILD KITS · Kits are intended for closed course racing only

• NBR rubber material is used on all O-rings and rubber gaskets. NBR has

excellent resistance to the ethanol used in today's fuels • Components included in the kits are based off of US models and discretion

- must be used when attempting to install the kit on a non US model
- · All gaskets and O-rings including intake gaskets before and after the carburetor
- · Float bowl, carburetor cap, and accelerator pump screws
- · Extended fuel mixture screw with spring, washer, and O-ring
- · Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- · Emulsion tube with slide needle
- 3 main jets and 3 pilot jets that can be used to tune a stock machine or a modified one

NOT FOR USE IN CALIFORNIA

INDEX

CARBURETOR POCKET TUNER

- · Pocket size slide calculator
- Helps determine required jetting changes in carburetors due to temperature and altitude change
- For single & multiple carburetion on 2 & 4 stroke engines
- Comes with a guide for determining rich or lean conditions
- · A must for riders and mechanics that demand maximum performance

WPS# List 13-2430 \$5.95

CARBURETOR LEAK DETECTOR

· Check needle & seat holding pressure, crankshaft seals, crankcase surfaces, & many other critical parts with this simple tool.

| D | escription | WPS# | List |
|---------|---------------|---------|---------|
| 30 psi | MK-BN PMP | 13-2767 | \$64.95 |
| 60 psi | MK-BN PMP-60 | 13-2769 | \$64.95 |
| 100 psi | MK-BN PMP-100 | 13-2768 | \$64.95 |

MIKUNI CARB TOOL KIT

Handy kit includes all tools necessary to completely disassemble carb, change jets, etc.

WPS# List 12-1866 \$24.95

Fuel-Tool.

FUEL SHARING SYSTEM

- No tools required, no modifications or permanent attachments are needed to your bike
- Fits 2001 and newer fuel injected Harley-Davidson models
- · Entire connection and disconnection takes only seconds, transfers fuel at roughly one quart every 20 seconds
- · Will not stall engine while in use
- Small & compact size, stores anywhere, includes storage pouch

CHECK VALVE REBUILD KIT

- Eliminate the need for replacing expensive check valve and fuel line when only a rebuild is needed
- Fits 2001 and newer fuel injected Harley Davidson models
- Long lasting, high quality DuPont Viton O-rings, solid brass nickel plated check valve, stainless steel springs

WPS# List 62-5112 \$14.95

CHECK VALVE REPLACEMENT O-RINGS

- Sold each or in packs of 5
- Eliminate the need for replacing expensive check valve and fuel line when only an O-Ring is needed
- Fits 2001 and newer fuel injected Harley-Davidson models
- · Long lasting, high quality DuPont Viton O-ring

WPS List 62-5110 each 62-5111 5 pack

CHECK VALVE REBUILD TOOL

- Provides for fast and easy professional installation of check valve
 O-ring or rebuild kit without having to remove tank from the bike
- For 2001 and newer fuel injected Harley-Davidson models
- High quality, professional grade

WPS List

62-5101

FUEL PRESSURE GAUGE

- Provides for simple, fast and accurate fuel pressure checks, push button completely releases all fuel through the drain line
- Quickly diagnoses: Loss of power, poor fuel economy, hesitation & stalling
- Fits 2001 and newer fuel injected Harley-Davidson models
- Solid brass adapter and release valve, steel housing (100 psi) gauge, stainless steel springs, Viton O-Rings, O-Ring lubricant and nylon storage pouch

FUEL CROSSOVER LINES

- · Quick disconnect crossover lines feature a high quality quick disconnect valve and durable hose finishers for simple attachment to standard hose barbs
- The braided hoses are compatible with gasoline or ethanol
- The hose finishers feature a stainless gear drive hose clamp for a reliable, long lasting seal
- · Chrome plated quick disconnect features Viton o-rings and stainless shut off valves to eliminate fuel loss during tank removal
- Rated at 250 psi
- Universal design fits most models with split tanks

| Description | WPS# List |

PETCOCKS

The worlds first BALL BEARING petcock with detents for quick, effortless switching from "ON" to "RESERVE" to "OFF". O-Ring seat secure any leak from petcock to carburator, Petcock handle motion is virtually friction free using internal ball bearing which reduce the effort needed to move the lever. The 90 degrees movement between each detent ensures positive transition when riding without a distracting glance at the petcock. The ball bearings completely eliminate traditional rough, sticky or frozen valve action. Constructed from 360 Brass and stainless steel ball bearing, polished and show chromed, built to last a lifetime.

- Large distance between positions "ON" and "RESERVE" (180 Degrees, stop to stop) for safe operation
- · Positioning lever has smooth (ball bearing) motion and firm position detents to prevent accidental shifting by motor vibration
- · Easily rebuildable
- · Limited lifetime warranty
- Ball petcocks available in 22mm, 3/8 NPT

TYGON® GRAY AND BLACK FUEL LINE

- Use with any type of gasoline
- Resists swelling and hardening
- Resistant to direct sunlight, hardening and/or cracking
- Flexible in temperatures from -35F to +165F
- Fuel line stretches easily over fittings or petcocks
- Sold in 25' rolls
- Made in the U.S.A.

| I.D | | | | | Black 25' | | _ | | | |

STEPLESS CLAMP KIT

- Convenient kit includes 80 or 85 pcs of hardware and a convenient fuel line clamp size chart
- 80pc kit includes a Motion Pro Side Jaw Pincer tool
- Warning: not for use with fuel injection systems

STEEL O-CLIPS

- Ideally suited for clamping vinyl or Nitrile fuel line to fittings
- One piece construction assures positive clamping action without damage to the hose
- O-Clip pincer tool is made specifically to install and to remove the clips

| Description | Quantity | WPS# | List | |

PREMIER QUALITY CLAMPS

- Highest quality clamps available
- · Stainless steel throughout including the drive
- Superior in strength, appearance and functionality
- The band's worm drive is raised to give a smooth surface preventing hose damage
- Rolled edges eliminate hose damage found with normal clamps
- Short housing saddle, smooth underside and tapered tail end provide maximum circumference sealing at minimum torque

REFERENCE INDEX GOLAN PRODUCTS ™

HIGH FLOW FUEL FILTERS

Golan Products introduces our USA made, high performance, superior flow filters. The filter element is designed and engineered for the aerospace industry, for rugged high temperatures and extreme filtration environments. Made of pleated 304 stainless steel, 10 micron (.000392"), 1.000"(inch) diameter. It provides maximum flow of 6 gallons per minute with no restriction. Element is washable and reusable indefinitely, cleaned easily with air or soluble rinse.

Bodies: CNC machined from 6061 aluminum, buffed, polished, and show chrome plated. MINI filter length is 1.750"(less fittings), SUPER MINI filter length .875"(less fittings).

COMP-V INTAKE

For the enthusiast who likes their options. Quick change threaded V-Stack for direct air intake or threaded billet cap to bring in air through the high-flow air filter. CNC Machined aluminum with black anodize, all made in the USA. The air cleaner that does it all.

Features:

- Threaded quick change velocity stack
- Threaded end-cap to utilize K&N high-flow filter
- CNC machined aluminum construction
- Taper design for additional knee clearance
- Internal breather to eliminate oil leakage
- · Black anodized, machined accents
- Lightweight, durable components
- Easy bolt-on installation
- Patent Pending
- Made in the USA

AIRCHARGER INTAKE SYSTEMS

K&N® AIRCHARGER® Performance Air Intake Systems increase power by eliminating the restrictive stock OE air cleaner and replacing it with a K&N® complete performance intake system.

Built with a heritage of over 45 years of performance, building horsepower and making motorcycles perform to get you moving down the highway! K&N's AIRCHARGER Intake System will give your motorcycle an aggressive appearance while providing a significant increase in airflow resulting in more horsepower and torque delivered to the rear wheels.

· Cast aluminum high-performance intake tube

PERFORMANCE FILTERS

- Integrated internal velocity stack
- · Built-in breathers replace external OE breathers
- K&N® High-Flow cotton air filter provides outstanding performance and protection
- Fits Harley-Davidson Touring Models, without Lower Fairings

| Application | Year | Black | List | Satin | List |

RK SERIES AIR INTAKE ASSEMBLIES

K&N®'s RK Series Air Cleaner Assemblies are designed to get more horsepower from your Harley-Davison motorcycle. These air cleaner assemblies replace the stock air filter and backplate with an oversized K&N® Air Filter and custom aluminum backing plate. K&N®'s RK Series Air Cleaner Assemblies are designed to give you an increase in power and long service intervals critical for distance rides. This complete assembly fits inside the OE air cleaner cover maintaining stock appearance, while providing outstanding airflow.

- Developed around an oversized K&N® High-Flow Air Filter that is designed to boost performance, filtration and service intervals
- · Dyno-tuned velocity stack directs airflow to engine
- · Aluminum backing plate provides solid mounting surface
- Built-in breathers replace external OE breathers

AIR IS POWER, and Boyesen has channeled that power like never before. With its revolutionary design and ease of installation, adding more power and greater acceleration is now within your reach. Available for all Harley Davidson (FLH) touring models '08-Up. Not for use in California on pollution controlled vehicles.

- · Complete bolt-on kit: backing plate, filter and mounting hardware.
- Patented X-Wing design for more power and acceleration.
- X-Wing Venturi increases air speed for added throttle response.
- Oil free/washable filter media poly-cotton blend.
- XL filter area for increased airflow filters to 40 microns.
- One piece precision casting with internal breather passages.
- Bolt-on o-ring assembly no modification required.
- Available in Polished Silver or Matte Black.
- · Accepts stock filter cover.

| Description | Application | Year | Silver | List | Black | List |

| Repl. Filter Round Air Cleaner | | 820-51502 | \$4.95 |
| Repl. Filter Mesh Air Cleaner | | 820-51506 | \$2.95 |

Not legal for use in California on pollution controlled vehicles-check local laws before installation

820-51503

MINI ED AIR CLEANER

The "Mini Ed" air cleaner measures only 5.5" x 4" x 2 5/8" and has a vintage hot rod look in natural tumbled Cast Aluminum. If you're tired of the typical round filters, tear drops or deflectors, then this is perfect for you. Made in USA by Old-Stf cycle and includes a K&N high flow filter element made in the USA.

| Application | Polished | List | Tumbled | List |
|---|----------|----------|----------|----------|
| S&S Super E and G | 880-2120 | \$274.95 | 880-2121 | \$224.95 |
| CV Carbs. `01-07 EFI (support bracket required) | 880-2122 | \$274.95 | 880-2123 | \$224.95 |

Not legal for use in California on pollution controlled vehicles-check local laws before installation

VORTEX AIR CLEANER

- · Raw performance "racing" air cleaner, classic round design, simplicity at its best, basic and brutal
- Customizable to your taste, chrome it, polish it, powder coat it or engrave it, the possibilities are endless!
- Central porthole in thermoformed Lexan, "venturi" for a better flow intake and also to watch your accelerator pump from time to time
- Manufactured in die cast aluminum then CNC machined
- · Stainless Steel back plate with hardware included
- K&N filter and breather not included, please order separately

AIR CLEANER BRACKETS

COMPLETE KITS

Description

WPS#

List

Year

- · Use these brackets and breather kits when installing an aftermarket air cleaner
- If a custom breather system is used, some support brackets are available without the breather system
- Spacer 820-50525 can be used in conjunction with breather/ bracket kit 820-50512 to mount aftermarket air cleaners with a CV/Delphi EFI bolt pattern to TBW models
- 820-50574 and 820-50575 Allow use of any M8 air cleaner assembly without integrated breather support
- 820-50578 allows use of any 5" round AC outer cover with center bolt (must use with 820-505074 or 820-50575) as well as 90 degree air cleaners

| Twin Cams | `99-`15 | | 812-02070 | 812-02071 | \$79.95 |

812-02071

AIR / OIL SEPARATORS

The Moroso air-oil separator/catch can system keeps the H-D cylinder head breather system fully functional. It filters out crankcase vapors, oil mist & condensation that normally vent to the intake system. This will keep your air filter, throttle body, intake pistons & valves free of excessive oil and carbon build up. Our system is different than others on the market. It separates the vapors breathing from your engine, collecting them in our air-oil separator/ catch can system while clean filtered air re-circulates back into the intake. Once the air oil separator/catch can system fills, it will need to be drained as a service item. This also can be done at oil changes and normal service intervals.

- From the factory, a motorcycle's breather system vents excess crankcase vapors, un-burnt fuel, residual oil and moisture back into the intake which compromises performance and durability.
- The Moroso air-oil separator/catch can system plumbs inline of the breather system and filters the excess crankcase vapors, exhaust vapors, residual oil and moisture before it re-enters the engine, reducing detonation, knock and helps rid deposits in the intake tract including valves and pistons
- The two piece body of the air-oil separator/catch can system unscrews for easy cleaning and service.
- The Moroso air-oil separator/catch can system does not vent to atmosphere like other breather kits on the market, this keeps oil in the canister, off your bike, and more importantly off the ground!
- · Available in multiple finish options to suit your bike.
- · Proudly Made In the U.S.A.

HIGH FLOW AIR FILTER **FOR 58MM THROTTLE BODIES**

The original High-Flow Air Filter™ invented by K&N®. A perfect upgrade for 2-up rides on your V-Twin motorcycle with filled saddle bags, a long life High-Flow Air Filter™ delivers improved performance and excellent protection for the life of your motorcycle.

- · Designed to provide low restriction, resulting in increased airflow and high performance
- · Pleated media provides a large filtration area, delivering high capacity and long service intervals
- Durable Zinc Coated top plates for years of protection without corrosion
- · Pre-oiled and ready to ride
- Made in the USA

HIGH FLOW REPLACEMENT AIR FILTERS

- Designed to provide increased horsepower and torque
- Pleated media provides a large filtration area offering long service intervals
- Multi-Layers of woven cotton gauze media offers excellent filtration
- · Application specific base seal and sealing bead
- Fuel-Management modifications are not required for increased performance
- Washable & reusable, pre-oiled and ready to ride!
- Includes K&N Million-Mile Limited Warranty®
- Made in the USA for over 40 years

CLEANING AND REOILING SUPPLIES:

Recharge your K&N Air Filter with genuine K&N Cleaning Accessories. Cleaning and re-oiling your K&N filters is very simple with the use of K&N's four-step maintenance system designed to recharge your K&N Air Filter. The use of K&N cleaner and filter oil completely restores airflow efficiency so your air filter performs virtually like new.

KIT "A" CONTAINS:

- 1 12 oz. Air Filter Cleaner Spray Bottle
- 1 6.5 oz. Air Filter Oil Aerosol

| | Size | WPS# | List | |
|---|---------|---------|---------|----|
| Α | 12/case | 62-1514 | \$25.99 | ea |
| В | 12/case | 62-1515 | \$16.99 | ea |

NOTE: Use of other cleaning or oiling methods, cleaners or oils could damage the filter and void K&N Warranty

KIT "B" CONTAINS:

- 1 12 oz. Air Filter Cleaner Spray Bottle
- 1 8 oz. Squeeze Oil and Service Decal

POWER KLEEN™

• Air filter cleaner/degreaser dissolves dirt build-up and old filter oil

| Size | | WPS# | List | |

FLO® REUSABLE OIL FILTERS

- Reusable filters made from type 304 stainless steel micronic filter cloth
- Rare earth magnet is attached to the top of the element for pre-filtering the oil
- Sophisticated bypass system is engineered for greater oil filtration and proper bypass pressures
- Anodized aluminum housing looks great and helps dissipate heat

SYNTHETIC MEDIA FILTERS

- Media enhancement by M-Pleating, increases Dust Holding Capacity (D.H.C) and reduces pressure drop
- The zigzag pleating pattern provides more filtration area allowing more dust holding capacity (DHC)
- Additional filtration area gives the oil more room to flow, resulting in lower pressure drop
- Forming tapped thread for easy installation and spin-on
- The synthetic media is resinimpregnated to ensure structural integrity during its operation under pressure and temperature spikes
- · Pre-lubricated gasket
- The gasket is lubed from the factory to aid installation
- The base plate is covered with shrink film to ensure that the lube stays there until the time of usage and dust protection

| Application | | | Chrome | | | Black | |
|--------------------------------------|--------|-----------|----------|---------|-----------|----------|--------|
| All Touring models | `99-21 | 63798-99A | 820-0734 | \$11.95 | 63731-99A | 820-0735 | \$9.95 |

PREMIUM OIL FILTERS

Standard version Features

- Media enhancement by M-Pleating, increases Dust Holding Capacity (D.H.C) and reduces pressure drop
- The zigzag pleating pattern provides more filtration area allowing more dust holding capacity (DHC)
- Additional filtration area gives the oil more room to flow, resulting in lower pressure drop
- The media is resin-impregnated to ensure structural integrity during its operation under pressure and temperature spikes
- Forming tapped thread for easy installation and spin-on
- · Pre-lubricated gasket
 - The gasket is lubed from the factory to aid installation
- The base plate is covered with shrink film to ensure that the lube stays there until the time of usage and dust protection

Performance version Features

- · Standard features plus the following:
- Heat-resistant Anti-Drainback valve (ADBV)
- Unlike standard nitrile rubber, silicone rubber has a higher heat-resistance
- The enhanced ADBV will prevent dry starts and provides durability throughout the extended life of the filter
- 17mm Hex Nut
 - Easy for service and removal after prolonged usage
 - The nut is designed for safety wire attachment if needed
- 16 Weld spots for higher nut fatigue strength
- +30% Gauge thickness for higher burst strength
- Oval inlet hole for even lower flow resistance

| Socket Drive Wrench for Twin Cams & Later (OEM 44067) | 820-71202 | \$9.95 |

OIL FILTERS

- Provides unbeatable performance and exceptional value, Hiflo filters are the best-selling brand of aftermarket filters for motorcycles worldwide
- To achieve our high quality and to ensure the consistency of our products, we use only premium raw materials from well known manufacturers
- Every oil filter goes through 16 individual quality control checks before it is ready to leave the factory. The whole manufacturing process, including the checking of raw materials and individual filter testing, is regularly audited and verified independently
- Race filters have a welded-on 5/8"/17mm nut with safety wire provisions to make installation and removal easier

OIL FILTERS

WRENCH-OFF™ PERFORMANCE OIL FILTERS:

Built to withstand racing conditions, K&N delivers a high-quality Oil Filter which is built with a Synthetic Media specifically designed to withstand the high concentrates of Synthetic Racing Oils. A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth. K&N Oil Filters deliver performance and confidence!

- Pressure relief valve & anti-drain back valve (where applicable)
- TUV production monitored and endorsed ensures the highest quality filters available
- Pre-Lubed base gasket for optimum seal
- Available in chrome or black depending on application
- K&N Limited Warranty®

SPIN ON OIL FILTER **CONVERSION KIT**

A high-tech replacement to your canister type oil filters. It's approximately the same size as the stock unit and accepts OEM style chrome spin-on oil filter to eliminate leaks. Model specific mounting brackets available separately.

| Description | WPS# | List |
|-------------------------------|----------|---------|
| Spin-on Filter Conversion Kit | 820-0711 | \$73.95 |
| 4-Speed Frame Bracket `65-86 | 820-0714 | \$19.95 |
| Swingarm Frame Bracket `58-64 | 820-0713 | \$19.95 |
| Rigid Frame Bracket `40-57 | 820-0712 | \$19.95 |

CHROME REMOTE OIL FILTER MOUNT

Fits most '70-99 Big Twin and many custom applications (excl. Twin Cam) between the engine bolts of the front motor mount. Kit includes bracket, oil line, hardware and oil filter. Accepts

OEM style chrome spin-on oil filter.

| Description | WPS# | List |
|-----------------------------|----------|---------|
| Remote Oil Filter Mount Kit | 820-0706 | \$56.95 |
| Bracket only | 820-0707 | \$35.95 |

REGULATOR OIL FILTER MOUNT

Chrome bracket attaches to the front motor mount on `70-99 Big Twins and provides a clean mount for oil filter and regulator. Kit includes chrome bracket, oil line fittings, spin on oil filter and hardware.

| Description | WP3# | LISI | |
|------------------------|----------|---------|--|
| Regulator Filter Mount | 820-0715 | \$99.95 | |

OIL FILTER HOUSING

· Accepts all EVO style oil filters

| Description | Application | OEM# | WPS# | List |
|------------------------------|-------------|-----------|----------|---------|

STAINLESS STEEL BRAIDED HOSE

- Braided stainless steel oil/fuel line
- Silver finish
- Do not use with E85 fuels

| Description | Length | WPS# | List |
|---------------------------------------|--------|-----------|----------|
| Stainless Braided Oil/Fuel Line 5/16" | 25' | 820-70243 | \$167.95 |
| | 6' | 820-70244 | \$39.95 |
| | 3' | 820-70245 | \$23.95 |
| Stainless Braided Oil/Fuel Line 3/8" | 25' | 820-70246 | \$189.95 |
| | 6' | 820-70247 | \$52.95 |
| | 3' | 820-70248 | \$26.95 |

FUEL / OIL LINE

- OEM look and performance
- · Black rubber, multilayer (5 layer) extrusion, to handle any fuel, hot oil and other harsh fluids.
- Meets SAE, EPA, & CARB standards for all powersports/motorcycles
- Safe for all types of fuel and oil: pure gas, diesel, E-10, E-15, E-85
- · SAE 30R9 rated for fuel injection.

| Description | Length | WPS# | List |
|-----------------------------|--------|---------|---------|
| OE Style Fuel/Oil Line 3/8" | 3' | 22-0056 | \$28.95 |
| | 10' | 22-0057 | \$95.95 |

OIL FILTER MAGNET

- · Easy to install, just attach to base of standard oil filter
- · Standard oil filters only trap particles down to 20 microns, leaving the most harmful 5 to 20 micron particles to circulate through your engine
- · Powerful six point magnet traps harmful, abrasive hard metal particles down to 1 micron that regular oil filters don't
- · No gimmick, these things really work to reduce wear, and significantly increase engine life
- · Makes any oil filter better than a high performance oil filter
- · Reusable for up to 5 oil filter changes

| Description | WPS# | List | |
|-------------------------------------|----------|--------|--|
| Fits 23.8mm and 15/16" hole filters | 57-10083 | \$5.99 | |

STRAP WRENCH

- · Fits all spin-on type oil filters
- Use with 3/8" drive ratchet handle
- · Easily loosens tight filters
- · Fits into hard to reach locations
- Can be used to loosen or tighten cylindrical shaped parts

Application WPS# Cloth Strap 57-8000 \$19.99

M8 ROCKER COVERS

- Dress up your M8 to set it apart from the rest, choose between classic ribbed or shovel design
- Available in raw or black finish
- · Gaskets sold separately

| Application | Description | WPS# | List |
|----------------|---------------------------|-----------|----------|
| Fits `17-Up M8 | Ribbed Rocker Cover Raw | 866-05031 | \$499.95 |
| | Ribbed Rocker Cover Black | 866-05032 | \$539.95 |
| | Shovel Rocker Cover Raw | 866-05033 | \$499.95 |
| | Shovel Rocker Cover Black | 866-05034 | \$539.95 |

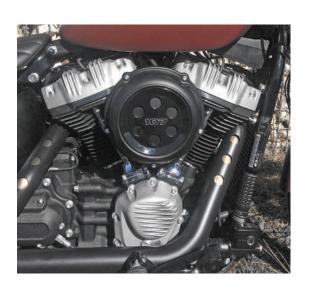

866-05031

M8 CAM COVERS

- Manufactured in die cast aluminum, CNC milled gasket surface
- OEM Mounting Hardware reusable
- Gaskets not included, please order separately
- · Available in raw cast or black powder coated finish, ribs can be accented or polished

| Application | Description | WPS# | List |
|----------------|------------------------|-----------|----------|
| Fits `17-Up M8 | Ribbed Cam Cover Raw | 866-05007 | \$310.95 |
| | Ribbed Cam Cover Black | 866-05008 | \$330.95 |

SHOVEL ROCKER ARMS

- · Rocker arms and shafts for Big Twins '66-84
- Rocker arms include bushings

| Description | WPS# | List |
|-------------------------------|-----------|---------|
| Rocker Arm Rear Exh/Front Int | 820-51575 | \$34.95 |
| Rocker Arm Front Exh/Rear Int | 820-51576 | \$34.95 |
| Rocker Shaft | 820-51577 | \$19.95 |

BRASS ROCKER BOX OIL LINES

- No hassle kit for Shovelheads 1966-84. Heavy 1/4" Brass oil lines are pre bent with all necessary fittings. These lines will eliminate the problem of the "starving front head"
- All compression fittings are pre tightened, thread sealant is provided for the npt to case and rockers. A stainless allen plug is provided for the rear rocker when installed is flush and unseen.
- Made in the USA.

| | Description | Application | WPS# | List |
|---|---------------------------|----------------------|----------|---------|
| F | Rocker Box Split Oil Line | Shovel Heads `66-84 | 880-2110 | \$78.95 |
| F | Rocker Box Oil Line | Iron Head Sportsters | 880-2111 | \$58.95 |

PAN ROCKER COVERS

· Covers are chrome plated stamped steel and sold in pairs. Sockethead screw sets come in packs of 24.

| Description | WPS # | List |
|--|----------|----------|
| Panhead Rocker Arm Covers Smooth | 830-3200 | \$198.95 |
| Panhead Rocker Arm Covers Ribbed | 830-3201 | \$198.95 |
| Rocker Cover Screws `48-54 (10-24 X 3/4) | 830-3202 | \$27.95 |
| Rocker Cover Screws `55-65 (10-24 X 1-1/4) | 830-3203 | \$27.95 |

930-1112

ROCKER SHAFT END PLUG AND CAP KIT

- Meets or exceeds OEM specifications
- Made in the USA!
- · Chrome plated allen style

| Application | Year | WPS# | List |

ROCKER ARM BUSHING

- Our bronze rocker bushing material meets the high standards we set for success
- KPMI® tested and analyzed several bearing-bronze materials for anti friction qualities, hardness, and resistance to deformation under high loads
- KPMI® Rocker arm bushings are held to tight dimensional tolerances, have an excellent surface finish, machine well, and have a tapered lead on each end to ease installation
- · Made from US mill certified SAE 660 bearing bronze bar stock

| Description | Application | WPS# | List |
|-----------------------|---|-----------|---------|
| 0.6795" O.D. (8 Pack) | Evo Big Twin `84-99. Evo Sporster `86-20. and Shovelhead `66-83 | 191-57088 | \$33.95 |

H.T. STEEL ROCKER ARM TOWER STUD KIT AND H.T. STEEL NUTS

- KPMI® Studs are made from 180,000 psi yield strength, fine grain, heat treated, aircraft grade alloy steel. When you want a stud that meets proofstress and maximizes clamping force, look no further. KPMI® "rolls" the threads, heat treats and then centerless grinds the entire body of the stud. Rolling the threads creates the toughest and strongest thread possible and centerless grinding removes notch sensitivity. The final process for all KPMI® Studs is to encase the entire stud with premium corrosion resistant treatment of Black Oxide. Congratulations on your choice to purchase a stud that meets and exceeds your stock-replacement high-performance needs!
- · These nuts are manufactured from a high tensile premium steel that promotes excellent surface finish and tight tolerances, two critical factors for achieving correct fit and torque. After machining, the nuts are roll tapped and heat treated to a specific depth. This creates hard, wear resistant working surfaces, while retaining a ductile core to prevent cracking under load. The premium black oxide treatment provides an excellent corrosion resistance.

| Description | Application | WPS# | |
|--------------------------------------|-------------|-----------|----------|
| H.T. Steel Rocker Arm Tower Stud Kit | Milwaukee 8 | 191-58016 | \$102.95 |

OCKERS OCKERS

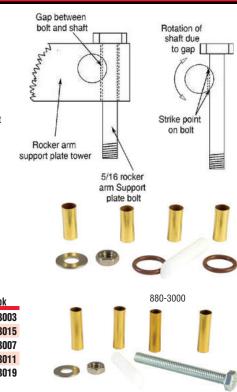

TOP END NOISE REDUCTION KITS

Eliminate top end ticking noise in Twin Cam, Evo and Sportster motors. Each kit contains all hardware necessary for installation.

Kits include the following and more depending on application:

- Includes 4 brass precision tapered bushings
- Includes washer & nut for installation (not included in bulk kits)
- Includes teflon centering tool (not included in bulk kits)
- · Locks the rocker arm shafts
- Centers the rocker arm support plates on Twin Cams and center rocker cover on Sportsters
- Eliminates ticking from rocker arm shaft hitting plate bolts
- Includes step-by-step installation instructions

| Application | WPS# | List | 10pk | 25pk | 50pk |
|--|----------|---------|----------|----------|----------|
| Twin Cams `99-17 | 880-3000 | \$24.95 | 880-3001 | 880-3002 | 880-3003 |

HYPEREUTECTIC CAST PISTONS

KB Hypereutectic alloy pistons are cast with a 16% high silicon content that has very high thermal barrier properties along with a low thermal expansion rate, allowing tight piston to cylinder wall clearances. This makes them ideal for air-cooled engines, offering optimal ring seal, quieter engine running and reduced wear. Hypereutectics are best suited for stock or mild compression ratios up to 10.5:1 running on pump fuel.

FORGED ALLOY PISTONS

KB forged pistons are made from 4032 forged alloy with an 11% silicon content, formed in a forging press and then fully machined. Due to the material and manufacturing process these pistons have superior crack resistance under detonation or pre-ignition. They are suited for Street or Race applications with power adders such as NOS or boost. All Twin Cam and Sportster application feature coated skirts.

TRACKER PISTONS

- Forged piston crown with generous valve pockets for big valves
- · Precision fit rings for ultimate sealing
- Force fed pin oiling for enhanced lubrication of the piston pin
- Value packaged
- · ArmorGlide skirt coating for reduced friction, quieter operation and improved scuff resistance
- · Gasket kits sold separately
- Made In The USA

BLACK EDITION PISTONS FOR TWIN CAMS

- Premium compression ring for ultimate ring seal
- Napier second ring, taper face with underhook improves oil control
- 3mm oil ring design for higher tension and enhanced oil control
- · Armor X piston coating for reduced wear
- ArmorGlide skirt coating for reduced friction, quieter operation and improved scuff resistance
- Work with OEM and Screamin' Eagle heads

WHY USE IT WISELD?

FORGED
Interwoven grain structure
for superior strength

Note: Some piston kits change displacement, compression ratio, etc. and may be illegal for use on pollution controlled vehicles, check your local laws before installation.

Note: Replacement Rings and Circlips sold per piston

1) FORGED

All Wiseco Pistons are forged from high silicon, low expansion aluminum which offerssuperior strength, reduced weight, improved heat transfer, and longer life.

2) ADVANCED MANUFACTURING TECHNIQUES

Diamond turned finish from one of the many CNC computer controlled turning centersguarantees you a perfect finish with no size variation. Wiseco pistons can be installed inany of today's cylinder bore compositions (cast iron, chrome, nikasil and boroncomposite) with confidence.

3) OVERSIZE OPTIONS

Wiseco's wide range of oversize pistons increase the life of cast iron lined cylinders. With the availability of replacement cylinder sleeves, chrome, nikasil and boron composite cylinders can be re-sleeved to accept Wiseco's oversized.

4) COMPUTERIZED

Wiseco's state-of-the-art computerized manufacturing facility is dedicated to supplying both the high-performance racer and recreational enthusiast with the finest forged piston available in today's market place.

Made in the USA.

WRIST PIN BUSHING

- Designed and manufactured by KPMI® to original OEM dimensions with Kibblewhite® Quality and Precision
- These bushings have excellent anti friction qualities, good hardness, and resistance to wear and deformation under high loads
- Held to tight dimensional tolerances, offer excellent machinability, so the optimum surface finish may be obtained, and have a tapered lead on each end to ease installation

BIG BORE CYLINDER KITS

'There is no replacement for displacement' is the mindset we have lived by for over 25 years in the V-Twin industry. Rocket Cams is proud to introduce their high quality and durable Cylinder and Piston Big Bore Kits, with all components made right here, in the USA! The cylinders are casted from premium materials and perfectly fitted and matched to their paired up Wiseco pistons sets. Rocket Cams Cylinders come power coated textured black with machine fins, for a perfect blend to an OE Harley motor. All kits come with Cometic head and base gaskets and are ready for install. This ultimate combination of industry leading manufacturers and experienced racers, will bring bolt on horsepower to a new level. See the chart below for our cam and component suggestions to get the best results and customer satisfaction.

M8 128" CYLINDER KIT

- Brings stock M8 114" and 117" motors to 128"
- 4.5" Stroke and 11:1 Compression
- · Wiseco forged pistons with coated skirts
- · .040 head gasket set

M8 124" CYLINDER KIT

- Brings stock M8 107" motors to 124"
- 4.375" Stroke and 11:1 Compression
- · Wiseco forged pistons with coated skirts
- .030 head gasket set

TWIN CAM 110" CYLINDER KIT

- Brings 07-16 stock 96" and 103" motors to 110"
- 4.375" Stroke and 10.5:1 Compression
- · Wiseco forged pistons

COMPRESSION RELEASES

- KPMI® Compression release valves are state of the art
- Designed to reduce "hot start" issues and starter/battery loads
- 5-7 Newton's of closing force resistance, for high demand applications
- Custom molded knobs ensure a cool touch and easy operation
- Embossed with the KPMI® brand so you know you have purchased a quality product
- M10 x 1 thread pitch, sold in pairs

| Application | Thread Length | | WPS# | List |

INTAKE AND EXHAUST VALVES Black Diamond® Valves:

All KPMI Black Diamond® stainless steel valves are impregnated by a special German process to a depth of .002", with a surface build up of .0002". This "Black Diamond®" process improves wear properties, reduces friction, and provides resistance to corrosion and wear that is superior to chrome and nickel electrolysis plating. Black Diamond® Valves are light, strong, one-piece forgings with profiles that provide excellent flow characteristics.

VALVE SEATS

Kibblewhite's proprietary seat material is compatible with leaded and unleaded fuels including methanol and ethanol fuel blends. This material offers excellent thermal characteristics and resists microwelding that leads to seat and valve face recession. Leading edge has generous radius to ease installation.

KPMI Valve Springs:

Wound from Premium Kobe Super-Clean Chrome Silicon Wire. KPMI valve springs are heat-treated, stress relieved and shot peened to insure maximum performance and life.

Springs are engineered for each specific application using proprietary advanced spring design simulation, and analysis software. Engineers pay special attention to cam and spring harmonics, stress, mass and operating rpm.

- Part numbers ending with (S) use steel retainers
- Part numbers ending with (T) use titanium retainers

SPRING KITS

Valve Spring Kits for Twin Cam big twins and Sportster valve stems. Works well with cams up to .650" lift. Manufactured from ultra clean high silicon Kobe alloy wire then micro shot peened and nitrided. CNC machined 9° locks. High performance conical single wire spring. Chromoly forged retainers. Kit contains: Valve keepers, Top & Bottom collars, Springs, Shims.

Valve Spring Kits for Milwaukee 8® big twins work well with cams up to .600" lift. Manufactured from ultra clean high silicon Kobe alloy wire then micro shot peened and nitrided. High performance conical single wire spring. Chromoly forged retainers. Kit contains: Valve keepers, Top & Bottom collars, Springs, Seals.

VALVE SPRING KITS

- Lunati valve spring kits were designed to get the most power out of Harley upgrades and are a perfect match for a Lunati Harley cam.
- Wach kit contains (4) each of the following items: valve springs, retainers, locks and locators.
- Valve locks are manufactured from fatigue-proof steel and then heat treated for hardness and to reduce wear and distortion, while our locators are engineered from a high-strength steel alloy that holds the spring in place and requires no machining.
- Steel retainers are constructed from 4140 chrome moly steel, which is stronger and harder than standard 1020 steel. This increased strength to weight ratio results in a stronger yet lighter retainer. All steel retainers from Lunati are black oxide coated for corrosion resistance.

VALVE GUIDES AND VALVE STEM SEALS

KPMI Bronze Valve Guides:

We choose to use C630 nickel bronze as a material to make valve guides because of its ideal characteristics for the application. The 4-5 percent nickel content provides superior resistance to wear, and the approximately 80 percent copper content delivers outstanding heat conductivity. Guide profiles are designed to have minimal effect on the airstream while maintaining critical cross sectional thickness in high temperature areas, promoting high performance and endurance. The top portion of the guides are shortened when cam lift information available at the time of design shows that additional retainer to seal clearance is required.

KPMI Cast Iron Valve Guides:

KPMI R&D has produced a proprietary cast iron blend that thrives in the tough operating conditions of today's engines. KMPI's certified cast iron provides excellent wear resistance and a superior guide bore finish that is easy on valve stems.

KPMI Valve Stem Seals "The Red Ones":

KPMI Red Viton® valve stem seals are designed to have optimum fitment, allow for maximum lift, and to give maximum lift. KPMI Red valve stem seals are resistant to high temperatures, petroleum products and by-products of combustion. They retain their ability to seal in situations where other materials could allow oil to enter the combustion chamber causing detonation, carbon build up and a loss of power. The Red Ones are truly the racer's choice.

ADJUSTABLE PUSH RODS

These Speedy pushrods can be both installed and removed easilv. The Rocket Cams design permits a simple, trouble free installation that does not require removal of the gas tank, rocker assemblies, or even the rocker box cover! The threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod. making installation or removal a snap. Super strong chromoly steel reduces pushrod flex. Works with stock and aftermarket cams.

| Description | Application | Year | WPS# | List |
|-------------------|--------------|--------|-----------|----------|
| Pushrods w/Covers | M8 Models | `18-Up | 276-02054 | \$284.95 |

| Pushrods w/Covers | | `84-99 | 276-02051 | \$299.95 |

FAST INSTALL PUSH RODS

FEULING® push rods can be used with the factory push rod tubes and are the longest fast install push rods available on the market. FEULING® push rods use separate lengths for intake and exhaust which keeps the adjustment area to a minimum creating a fast install push rod with maximum rigidity promoting maximum valve lift.

Tapered 7/16 0.095 Wall thickness, Individual length, Install WITHOUT the removal of rocker covers, REQUIRE QUICK INSTALL TUBES

| Application | Year | WPS# | List |
|--------------|--------|-----------|----------|
| Twin Cam | `99-17 | 811-04096 | \$199.95 |
| Evo Big Twin | `85-99 | 811-04091 | \$239.95 |

- · Maintain maximum valve lift!
- Increased stiffness and column rigidity maximizing valve-train stability. increasing engine RPM horsepower and torque output.
- Tapered 7/16 4130 chrome moly adjustable pushrods, use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods.
- · Individual length intake & exhaust pushrods keep the adjustment extension to a minimum
- · Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear.
- · CNC machined with 32 thread per inch adjustment, Double jam nut lock system, RACE SERIES® wall thickness .120- recommended when extreme spring pressures are used
- Designed for use with hydraulic or solid lifters and street or race engines
- These pushrods require removal of rocker covers and rocker arm supports

| Application | Year | WPS# | List |
|--------------|--------|-----------|----------|
| Twin Cam | `99-17 | 811-04070 | \$199.95 |
| EVO Big Twin | `85-99 | 811-04080 | \$219.95 |

LIFTERS

- OEM Replacement and High RPM.
- OEM Replacement Lifters are designed to exceed the specifications
- · of your OEM lifters
- High RPM Lifters were specially designed to handle
- applications producing over 6500 RPM to avoid horsepower-robbing valve float
- · and serious engine damage.
- · Sold as 4 pack

INDEX

- · Performance hydraulic roller lifters
- Optimized oil flow to top end valves, springs, rockers, shafts & valve guides
- · Cooler oil and reduced wear
- Extends life of top end valve gear
- CNC machined and precision ground
- · Drop in replacement for stock lifters
- · Dyno developed and track tested
- Recommended for use with the Feuling® Oil Pump or comparable high volume oil pump
- Sold in pack of 4
- Not for M8's with high lift cams
- · Made in the U.S.A.

- Feuling® Race Series® full travel hydraulic lifters are machined from a steel body and designed to exceed the needs of large lift camshafts and higher valve spring pressures with a slower bleed down rate. Race Series® lifters maintain proper oil flow to the top end, increase engine RPM, valve-train stability, decreasing valve float promoting maximum valve lift.
- Feuling® recommends Race Series® lifters for engines running higher than 18lb valve spring seat pressure. FEULING recommends the use of a high volume oil pump which will result in quieter, better performing lifters. Race Series® lifters are compatible with either FEULING® HP+® or Race Series® oil pumps and are designed for use with both street and strip engines. Spin-Tron dyno developed and track proven.
- Available in oversized diameters Case Savers!
- Recommended for both strip and performance street engines
- Sold as 4 pack
- Made in the U.S.A.

CAMSHAFTS FOR H-D® V-TWIN

WPS#

List

- TTS Camshafts are designed to provide smooth power delivery throughout your engine's entire operating range. The various grinds allow you to select a cam that optimizes torque in the RPM range you require without compromising performance elsewhere.
- TTS-100: Designed to increase torque in the 1000-4000 RPM range with smooth power to 5500 RPM. Developed for 88-117 CID with stock heads and pistons. Not recommended for compression over: 10.2:1 Twin Cam or 10.5:1 Milwaukee-Eight®. Ideal for heavy bikes like baggers or trikes. Bolt-in design utilizes stock springs and pushrods.
- TTS-150: Designed to increase torque in the 2200-5200 RPM range. Developed for 88-117 CID with stock heads and pistons. Not recommended for compression over 10.5:1. Bolt-in design utilizes stock springs and pushrods.
- TTS-175: True bolt in cam, designed to increase torque at 2500 - 5500 RPM and has a slight lope up to ~ 1750 RPM, above that it has settled in smooth. This camshaft works very well in the aftermarket larger displacement engines and as the compression ratio and displacement increases the idle lope decreases and the smoothness RPM drops down to about 1500 RPM.

- TTS-200: Designed to increase torque over a broad RPM range (1800-5500 RPM). Developed for Milwaukee-Eight® engines with modified heads and pistons. Ideal for Stage III or IV kits. Not recommended for compression over 11.0:1. Requires use of high lift valve springs and modified valve reliefs in pistons.
- TTS-250: Designed to increase torque in the 2500-6000 RPM range. Developed for Milwaukee-Eight® engines with modified heads and pistons. Ideal for Stage III or IV kits. Not recommended for compression over 12.0:1. Requires use of high lift valve springs and modified valve reliefs in pistons.

CHRIS RIVAS' ROCKET CAMS FOR MILWAUKEE 8 BIG TWINS!

4 Valves are better than 2!! The next progression of Harley-Davidson power is happening through four valves which have different requirements for the camshaft. Chris has come up with 4 new cam lobe profiles to squeeze the performance out of the smaller multi-valve ports. Low lift 444, 464 and 474 cams are a direct bolt in application delivering the power where you expect it to be for your personal riding style. 544 cam is for the builder that wants the best possible power in his big inch motor. As with all cam changes, a performance intake, exhaust system, and EFI tuning are a must to get the full benefit from the cams. Many World Champions and speed record holders have trusted Chris for their power so when you want to explore the performance possibilities of your new Milwaukee 8 engine, who better to trust.

NOT FOR USE IN CALIFORNIA

444

Bolt-in cam with increased power over stock configuration with excellent low end power and great acceleration. Power from Idle to 5500.

464

Bolt-in improved acceleration, works great for big torque in 107 and 114 displacement engines. Allows engine to make big power through the midrange RPM. Power from 1500 to 5800.

Bolt-in outrageous torque and power for bigger engines with added compression 114 cubic inch and higher engines. Power from 1800 to 6000.

544

This aggressive lobe profile is intended for 114 and larger engines. Torque comes on later in the RPM range and horsepower extends further. Perfect cam for those big builds when using high compression pistons and ported heads. High lift valve springs are necessary. Power from 2000 to 6200.

High performance only application, suggest 124+ cubic inch... When you are looking to have the highest power in your pack of friends this is your cam! Designed specifically for that thrilling top end pull. 11:1+ compression ratio, ported heads, high lift springs, free-flowing intake and exhaust are a must. Range: 2200 to 6400 RPM.

The first Rocket Cam was created in 1996 for a race bike that accomplished several titles and championships. In Chris Rivas' career he has not only raced at the highest level in drag racing and land speed racing but has been very successful at both, setting and holding multiple records along the way. He currently owns the world's only 200 MPH Bagger with a top speed of 204 MPH. He also owns the world's fastest Dyna with a top speed of 244 MPH. His Rocket Cams technology has gone into every one of these bikes making them perform at the highest level that no other racer or manufacturer has been able to top. This is the same technology that goes into the street cams offered through Rocket Cams for the local performance shops in your area.

NOT FOR USE IN CALIFORNIA

514 CHAIN DRIVE CAMS:

Best power with free-flow air cleaner and performance exhaust. Cruising hi-torque bolt-in cams. Incredible low rpm pulling power recommended for heavier bikes with stock compression ratio or up to 9.5:1. Peak performance at 1500 to 5000 rpm. Use stock valve springs. Very easy on valve train parts

554 CHAIN DRIVE CAMS:

Peak performance at 1500 to 5800 rpm. Stock compression ratio or up to 10:1. Best power with free-flow air cleaner and performance exhaust. Powerful cruising bolt-in cam. Uses stock valve springs. Recommended engine sizes 88" to 107" above average mid-range passing power.

574 CHAIN DRIVE CAMS:

Powerful Street and Cruising bolt-in cam with .574" lift. 96" to 107" above average mid range passing power. Stock compression ratio or up to 10:1. Best power with free-flow air cleaner and performance exhaust. Uses stock valve springs. Range: 1,500 to 5,800 rpm. Available with S&S Cycle patented Easy Start compression release system.

584 CHAIN DRIVE CAMS:

Hot .584" lift cam for upgraded engines 103" to 107" Cubic Inch. Ported heads with minimum 10:1 compression recommended. Delivers constant power while reducing detonation. Free-flowing air cleaner and performance exhaust recommended. Uses stock valve springs. Range: 2,000 to 6,000 rpm. Available with S&S Cycle patented Easy Start compression release system.

594 CHAIN DRIVE CAMS:

High performance only application, suggest 107+ cubic inch... When you are looking to have the highest power in your pack of friends this is your cam! Designed specifically for that thrilling top end pull. 10.5:1+ compression ratio, ported heads, high lift springs, free-flowing intake and exhaust are a must. Range: 2200 to 6400 RPM With S&S Cycle patented Easy Start compression release system.

LUNATI VOODOO CAMS

Voodoo Camshafts for Harley Davidson applications deliver more area under the curve than any other series of cams for these engines. This means more throttle response, quicker acceleration, more vacuum and better efficiency. These factors, combined with maximum horsepower and torque, make Voodoo Camshafts the perfect choice for your Harley.

CHAIN DRIVE CAMS FOR 07-17 TWIN CAMS

Cam and Lifter Kits include the camshaft of choice with the matching replacement lifters recommended by Lunati. High RPM or stock replacement type lifters also available separately. All cams with 0.510 lift will work with stock valve springs.

Not legal for use on pollution controlled vehicles, check local laws before installation. NOT legal for sale in California

| Description | Lift | RPM Range | Cams only # | List | Cam & Lifters # | List |
|--|-------|--------------|----------------|----------|--------------------|----------|
| Maximum torque for heavy bikes and passenger riding with stock heads. Strong low end & mid range power. | 0.510 | Idle - 5100 | 276-01040 | \$424.95 | 276-01080 | \$483.95 |
| Potent mid range power for both light and heavy bikes. Very effective for compression ratios up to 9.5:1. | 0.510 | 1500 - 5500 | 276-01041 | \$424.95 | 276-01081 | \$483.95 |

CAM INSTALL KITS

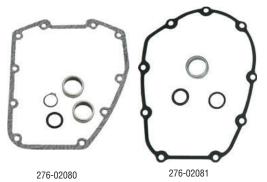

FEULING® Quick Change Camshaft installation kits for Twin Cam® engines include Timken® camplate roller bearings, KOYO® Torrington® full roller needle inner cam bearings, 12 point ARP® camshaft and crankshaft bolts with hardened washers and camshaft retaining clip. Gaskets include cam cover, lifter blocks, exhaust, pushrod tube and camplate o-rings, ARP fastener moly paste, and Loctite thread compound.

FEULING® Quick Change + Top End kits also include rocker box cover and breather assembly gaskets, breather elements, breather umbrella valves and rocker support O-rings.

CAM CHAIN ACCESSORIES

- · Heavy duty cam chain and long life cam chain tensioners kit for Twin Cam 88 motors
- Replacement inner and outer hydraulic cam chain tensioners for Twin Cam 96/103 motors
- Cam chain tensioner wear differently depending on usage, oil change frequency and many other factors. We recommend inspection for wear frequently to avoid any engine damage.
- · Cam chain guide also available
- · Sold individually

OILING SYSTEM KIT

- FEULING® oiling system kits combine all the needed components to finish your T/C® engines oiling system under 1 Part #, available in HP+® or RACE SERIES® kits. FEULING® oiling system kits increase oil pressure, oil volume, engine oil flow and return oil scavenging, eliminating wet sumping and oily air cleaners. Test results show 25-35 degree cooler engine temperatures, 15-30 degree cooler oil temperatures, 15-30 more pounds of oil pressure and guieter smoother engine operation. Results also show a substantial increase of oil pressure and 3 H.P. and 4 Ft. Lbs of T.Q to the rear wheel.
- Both HP+® and RACE SERIES® kits include FEULINGS® HIGH FLOW billet camplate made from 7075 aluminum which is 50% harder and stronger than the factory, SE® and other aftermarket camplates. FEULING® increases oil flow and volume by enlarging the oil pump reservoirs and critical oil passages including matching the oil port holes throughout the camplate to the port holes in the engine case which increases engine oil flow to the lifters, piston cooling jets, crankshaft and rod bearings.
- HP+® SERIES Kits include a billet 6061 aluminum high volume oil pump, FEULING® HIGH FLOW camplate, HP+® Hydraulic roller lifters, gaskets and o-ring kit.
- RACE SERIES® Kits include a billet 7075 hard anodized oil pump which is 50% harder and stronger than the factory pump holding tighter tolerances under temperature. RACE SERIES® hydraulic lifters have a full .200 of total travel designed with a slower bleed down rate to handle heavy valve spring pressures, increase engine RPM before valve float and feature increased roller clearance for steep ramped camshafts. Kits include a RACE SERIES® oil pump, RACE SERIES® lifters, HIGH FLOW camplate, gaskets and o-rings.
- *CONVERSION CAMPLATE Kits #811-07076 & #811-07077 utilize the early style 99-06 camshafts and upgrade the cam chain system to use the late style 07-16 hydraulic tensioner system. Factory sprockets, tensioners, chain and hardware must be purchased separately.

OIL PUMPS

- Billet 6061 aluminum -High Volume oil pump
- Increases oil pressure -Cooler oil & engine temperatures
- No more oily air cleaners -40% more pressure volume than stock
- Eliminates blow-by & wet sumping -60% more scavenge (return) volume than stock
- More HP and Torque to the rear wheel -Stock replacement
- Fits both A and B Twin Cam engines -Feuling® design, tolerances & material
- High Flow 2 Chrome Moly gerotor gears -Made in the U.S.A.

| Application | Year | WPS # | List |
|-------------------------|--|---|---|
| Twin Cam (Inc.`06 Dyna) | `07-17 | 811-07060 | \$399.95 |

OIL PUMPS

- 7075 Billet aluminum with military spec hard anodized, blue printed and designed for the racer!
- The 7075 alloy is 50% harder and stronger than 6061 aluminum and holds tighter tolerance under temperature
- More pressure volume and more oil pressure
- More scavenge volume eliminating power robbing wet sumping, blow-bye and oily air cleaners
- Cooler oil and engine temperatures
- More horsepower, more torque, more oil pressure, more return volume
- High Flow 4140 heat treated Chrome Moly gerotor gears
- When combined with the Feuling® Camplate test results show 3 Horsepower gain and 4 ft/lbs of Torque gain to the rear wheel, while lowering engine & oil temperature. Feuling® camplate NOT required.
- Stock replacement for Twin Cam® engines, recommended for both strip & performance street engines
- Made in the U.S.A.

BILLET OIL PUMPS

Harddrive oil pumps are made from cast aluminum that is CNC machined to close tolerances and then polished to a high gloss finish. Great value for small dollars! Surplus oil is routed back to the main passage rather than the return to avoid unnecessary filtering and offer the opportunity to upgrade earlier engines to the 81-up oiling system. This oiling system splits bottom and top end oil supply which increases oil pressure to the hydraulic lifters and and top end. They come with gaskets, drive shaft with with keys and snap ring, mounting hardware, check ball and pressure relief valve assemblies.

NOTE: Cases from '70-80 require drilling fixture tool HD# 94461-81 or equivalent

PSI TESTER

- This pressure test tool is a must for any H-D® Twin Cam engine builder. Bench test each camplate before installation, cycle the pressure relief valve, testing operation and assuring the valve moves freely, seats and seals each time, any leakage at the relief valve will reduce oil pressure.
- This tool allows the engine builder to know what PSI the relief valve opens; the spring tension can be adjusted to achieve the desired pop off PSI. Tool includes: air regulator, 0 - 100 psi pressure gauge, gasket & needed hardware, fits all Twin Cam engine camplates. Feuling® recommends the camplate valve be seated 0-30 psi with full pop off at 55-60 psi. Made in the U.S.A.

Description WPS# Camplate PSI tester for Twin Cam 811-09010 \$199.95

M8 CAM COVERS

- Manufactured in die cast aluminum, CNC milled gasket surface
- OEM Mounting Hardware reusable
- Gaskets not included, please order separately
- Available in raw cast or black powder coated finish, ribs can be accented or polished

| Application | Description | WPS# | List |
|----------------|------------------------|-----------|----------|
| Fits `17-Up M8 | Ribbed Cam Cover Raw | 866-05007 | \$310.95 |
| | Ribbed Cam Cover Black | 866-05008 | \$330.95 |

SPORTSTER CAM COVERS

Featuring a raised rib design, this cast aluminum 'second skin' cam cover trim fits over your OEM cam cover. It is held in place with three supplied Allen bolts and spacers. The EMD cam cover trim can be notched at the upper front to make room for your OEM breather. You can also opt to relocate the breather to a lower position, especially if you're cutting the OEM cam cover up to visually 'split' the motor from the transmission. These covers are available in two styles, the classic ribster and the knuckle style with raised ribs and a smooth front section.

| Description | Year | WPS# | List |

CYLINDER STUDS

- These High Performance Cylinder studs are made from 180,000 psi yield strength, fine grain, heat treated, premium grade 8740 material
- Threads are rolled after heat treating to insure maximum compressive stresses are retained, insuring maximum strength, and the longest fatigue life possible
- The case end threads are designed to have a slight interference fit to maintain good thread contact at high temperature
- Studs are center less ground to insure concentricity, and finished with a premium black oxide treatment, excellent appearance

CYLINDER STUD & HEAD BOLT KIT

- · The strongest studs & bolts available!
- Top engine builders demand quality fasteners! Secure your engine with complete confidence
- Superior in strength and performance to any other cylinder stud head bolt kit on the market, this kit is designed to exceed the needs of high performance engines.
- · Dont Risk Head Gasket Failure!
- · Stock Cylinder studs are designed as a stretch to torque stud with a one time use only lifespan
- Feuling® studs are installed to a torque spec can be reused and carry a lifetime warranty
- · Heat-treated 8740 chrome moly steel studs
- · Precision j-form threads for optimum engagement, to prevent galling and promote more consistent torque loading.
- Special alloyed stainless steel head bolts
- Manufactured by ARP® to Feulings® exact specifications
- · Recommended for all V-Twin engines
- · Stock replacement
- Kit includes 8 cylinder studs, 8 head bolts, moly assembly lubricant and thread sealant
- · Made in the U.S.A.

Application Year WPS# `99-17 **811-03000 \$349.95**

CRANKCASE VENTING SYSTEM

- · Prevents blown or weeping gaskets
- Produces the proper amount of vacuum in the crankcase, at all RPM ranges
- Your engine gains quicker throttle response
- You'll gain 2-8% of usable rear wheel horsepower
- It snaps open for easy cleaning, and is light weight, compact and not restricted to position to fit all H-D models

Year WPS# Application Big Twins/Sportsters All 39-1206 \$124.95

THE 'OIL' FIX

- · Fixes problem leaks associated with the base gasket
- With the oil control jet installed into the crankcase, the oil doesn't touch the gasket, thereby no leaking through the base gasket
- · Oil Fix control jets control the oil coming from the head through

HORIZONTAL OIL COOLERS

- The Jagg 6-row LowMount oil cooler keeps a low profile and beats the heat
- · Designed especially for Softail models (without ABS)
- LowMount oil cooler mounts in the lowest possible position, yet still above the bottom of the frame
- · Special in-line turbulators add to the cooler's efficiency with minimal oil pressure loss or restriction
- The Jagg 10-row LowMount oil cooler system was designed to deliver and keep a low-profile
- This mounting position is particularly suited to touring models with lower fairings
- Extreme performance in a compact package

Slimline

VERTICAL FRAME MOUNT OIL COOLERS

Quality, Style, Performance: The Jagg SlimLine was designed for applications that demand exceptional performance and a stealthy, appearance.

- 6-row, 2-pass Jagg oil cooler design
- Powder coated gloss black to virtually disappear when mounted on the frame tube
- High-flow oil filter adapter (included!) features an automatic thermal by-pass – only cools oil when it's hot
- Designed with HyperFlow Technology: the engineered balance between performance & flow
- Includes everything for a quick and easy installation

VERTICAL FRONT MOUNT WIDELINE OIL COOLERS

Extreme performance in a compact package, the Jagg WideLine oil cooler was designed to exceed the cooling demands of the modern V-Twin motorcycle—and look good doing it. An unmatched 10-rows of cooling potential will end the discussion about heat.

- Integrated Jagg WeatherTek Fan pulls wind through the oil cooler when low vehicle speeds demand more airflow
- High-flow oil filter adapter (included!) features an automatic thermal by-pass – only cools oil when it's hot
- Designed with HyperFlow Technology: the engineered balance between performance & flow
- · Includes everything for a quick and easy installation

DELUXE DIAMOND CUT OIL COOLER SYSTEM

Available as a limited edition, the Jagg Deluxe Diamond Cut oil cooler kit features precisely machined end-caps with hundreds of angled cuts that reflect light and dress up any bike.

Quality, Style, Performance: The Jagg Deluxe oil cooler was the first Jagg oil cooler. Designed with the brushed air fins of the Harley-Davidson engine in mind, this stylish item mounts in the direct airflow as a functional solution for any H-D application.

- · 6-row, 2-pass Jagg oil cooler design
- · End caps feature Diamond Cut fins to complement brushed cylinder fins
- · Unique, highly-durable, Uralite clamps mount cooler in the direct airflow for great performance
- · High-flow oil filter adapter (included!) features an automatic thermal by-pass - only cools oil when it's hot.

| Designed with Hyper Flow Technology: the |
|--|
| engineered balance between performance & flow |

- · Includes everything for a quick and easy installation
- Installation time measured in minutes extra riding time measured in years!
- * Vertical frame-mount oil coolers may not fit models with lower fairings. Does not fit watercooled models.

OIL FILTER ADAPTER WITHERMOSTAT

Built for reliable performance and easy installation, the Jagg part # 4550 oil filter adapter features a unique built-in oil by-pass valve and includes Pro Line swivel fittings for easy oil plumbing.

Installs between the oil filter landing and the oil filter for easy access to the oil supply to install an oil cooler. Built-in thermostatic oil valve allows oil to by-pass the oil cooler until reaching operating temperature for faster vehicle warmup times.

- · Easy access to oil supply for the installation of an oil cooler
- · Automatic thermostatic oil by-pass valve
- · Flows oil through the filter first, for better flow
- · Big-Twin carbureted EVO's with front-mount spin-on oil filters
- · XL Sportsters, Buells
- The #4550 is required for oil cooler installation on '04-Up Sportsters

| Description | Application | WPS # | List |

FEATURED TECHNOLOGY

EXP

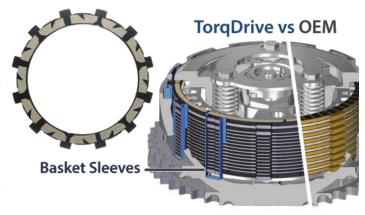

AUTO CLUTCH TECHNOLOGY

Using principles of centrifugal force, EXP technology automatically engages and disengages the clutch based on engine RPM to eliminate stalling. With EXP, riders can start and stop without touching the clutch lever. By eliminating engine stalling and optimizing power delivery, we provide riders an enriched riding experience, increased clutch life, and convenient navigation through stop-and-go traffic, while maintaining a fully functional clutch lever at all times.

TorqDrive CLUTCH DISK TECHNOLOGY

Our TorgDrive friction disk technology provides riders with added durability, a highly responsive feel and the torque capacity required to access the motor's full potential. TorqDrive disks feature a high strength steel core and friction material with unmatched energy capacity. TorqDrive delivers next level clutch control and consistency. Rekluse steel basket lining sleeves provide protection against basket wear and notching.

(Applicable to Harley-Davidson® Sportster® models only)

BILLET ALUMINUM COMPONENTS

Our Core technology is the foundation of Core EXP 3.0. Engineered and made from aerospace quality billet aluminum, Core components optimize oil flow, last longer and reduce temperatures to maintain consistent performance even in extreme conditions.

RADIUSX

RadiusX is a high-performance auto clutch combining TorqDrive® friction technolog with our flagship automatic EXP disk, all within an OEM clutch footprint.

FEATURES AND BENEFITS

- · Take off and stop in gear without using clutch lever no more stalls
- · Confidently navigate traffic and slow speed conditions
- TorqDrive® friction disks deliver increased torque capacity and power transfer
- Standard clutch lever function with full override capability

TorqDrive

Unlock more power without compromising reliability. TorqDrive provides more disks in less space, allowing us to add up to 6 additional friction disks to the clutch pack over stock. More frictions = more torque capacity and less slip thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock up device.

MANUAL

FEATURES AND BENEFITS

- Plus 6 friction disks offers up to 50% stronger clutch engagement with no increase in lever effort
- Smoother shifting
- · Improved lever feel
- Engineered to eliminate slip and tunable to handle high horsepower engines
- Steel core friction disks for improved heat dissipation and longer clutch life

er engines artch life

CoreEXP 3.0

Available exclusively for Harley-Davidson® Sportster®

Core EXP 3.0 is a centrifugal auto clutch featuring Rekluse's EXP technology. Full clutch control and use of the lever is retained for a no-compromise riding experience. Core EXP 3.0 offers dead-on clutch engagement every time. Rekluse's billet center hub and pressure plate convert the clutch to six coil springs which improves lever feel, clutch performance, and durability.

FEATURES AND BENEFITS

- · Take off and stop in gear without using clutch lever no more stalls
- · Confidently navigate traffic and slow speed conditions
- Billet center hub and pressure plate converts clutch to 6 coil springs
 -Improves lever feel, clutch performance, and durability
- Increased oil flow through center hub and pressure plate
 Decreases operating temperatures, increases clutch life
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)

RADIUSX AUTO CLUTCHES

RadiusX is a high performance centrifugal auto clutch combining our TorqDrive and EXP technologies. TorqDrive provides more clutch disks in less space, allowing for maximum performance within your bike's existing clutch footprint. You retain full control of shifting and use of your clutch lever with no compromise in power delivery.

- · Dead-on clutch engagement every time
- Take off and stop in gear without using clutch lever no more stalls
- Experience maximum power delivery
- · Confidently navigate traffic and slow speed conditions
- TorqDrive® clutch pack delivers higher torque capacity and increased power
- · Rekluse sleeves eliminate basket wear and notching
- · Standard clutch lever function with full override
- No modification to stock components
- · Shifting transmission remains unchanged (clutch lever use is recommended for shifting)

CORE EXP 3.0 CLUTCH FOR SPORTSTERS

Ever wish you could just let go of the clutch lever when stopped and not worry about a stall? Now you can with the Rekluse Core EXP centrifugal clutch. With this clutch pack replacement, you can now come to a complete stop in gear and accelerate using only throttle.

- · Take off and stop in gear without using clutch lever
- · Centrifugally activated technology automatically prevents engine stalls
- Cruise through traffic like you're on the open road You don't have to hold the clutch in at a red lights or in heavy traffic anymore
- · Effortless low speed maneuverability
- · Cooler operating temperatures extend clutch pack life
- Standard clutch lever function with full override
- Shifting transmission remains unchanged (clutch lever use is recommended for shifting)
- · No modification to stock components

Application Years Rekluse # WPS# 98-21 RMS-6206 **156-9000 \$949.00**

* Converts stock diaphragm spring to six coil springs. Billet pressure plate and center clutch included.

TORQDRIVE CLUTCH

Unlock more power! TorqDrive provides more disks in less space, allowing us to add up to 6 additional frictions disks to the clutch pack over stock. More frictions = more torque capacity thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock up device. Proven in racing at the highest levels, it's not just good, it's rEvolutionary.

- Plus 6 friction disks offers up to 50% stronger clutch engagement with no increase in lever effort
- · Smoother shifting
- · Improved lever feel
- Engineered to eliminate slip and tunable to handle high horsepower engines
- Steel core friction disks for improved heat dissipation and longer clutch life
- · Rekluse sleeves eliminate basket wear and notching
- Rekluse clutches are designed to be used with OEM or Rekluse outer baskets
- · Compatibility with other aftermarket baskets is not guaranteed

CORE MANUAL TORQUE DRIVE CLUTCH

Core Manual TorqDrive delivers unprecedented performance and durability within your OEM clutch footprint. TorqDrive provides more disks in less space, allowing us to add 4 additional frictions disks over stock. More frictions equals more torque capacity thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device. The clutch is converted from a diaphragm spring to 6 coil springs, allowing for increased tuning options and improved lever feel. The billet center hub and pressure plate work together to move more oil through the clutch, decreasing operating temperatures and increasing clutch pack life. Core Manual TorqDrive increases torque capacity by 20 percent while decreasing lever pull by 10 percent.

USE[®]

- · Constructed from billet aluminum and hard anodized to deliver enhanced clutch modulation, resistance to notching and extended clutch life.
- Tightly controlled tolerances ensure smooth operation, less drag and reduced clutch noise.
- Increased basket durability eliminated breakage caused by engine power transfer and stress.

Year

Rekluse # Fits All M8 Motors `17-`21 RMS-4115005 **156-9210 \$429.00**

- Handles 200+ FT-LBS of torque.
- Custom hardware unique to the Rekluse design that does not require the drilling of the OEM ring gear.
- · Designed for use with the OEM ring gear.
- Designed to pair with Rekluse TorqDrive products for the highest level of performance.
- · Machined to provide a trued rotation, resulting in less clutch drag.
- Engineered smarter to have less rotating mass, resulting in a better, smoother throttle response.

SLAVE CYLINDER ASSEMBLY

The Rekluse slave cylinder was designed to create a mechanical advantage which reduces lever pull by over 30%, widening the friction zone while moving the modulation point closer to the handlebars. The hard anodized billet aluminum construction provides enhanced sealing and maximum durability. Rekluse has years of experience engineering and manufacturing high performance billet slave cylinders for motorcycle applications, making this a proven solution you can trust. The Rekluse slave cylinder is a direct bolt-on OE replacement product.

PERFORMANCE CLUTCHES

All clutch plates are made of either 6061 T6 or high-tempered steel with our own race proven friction material. Each plate design was tested so that maximum performance is achieved. Different groove patterns were designed for maximum oil circulation and heat dissipation. The steady flow of lubricant will cool and determine the longevity of your clutch.

A

- Kit Includes 5 friction plates with tempered steel cores
- Maximum groove pattern for excellent heat dissipation & oil circulation (run wet or dry)
- · Steel plates not included
- Made in the USA

В

- Includes five friction plates (6061 T6 aluminum core)
- With maximum depth groove pattern for efficient heat dissipation and oil circulation
- Included are four tempered steel drive plates
- Made in the USA

- High performance extra plate kit
- Includes 6 friction plates with 6061 T6 aluminum cores, 5 tempered steel drive plates and 10 Zero crush coil type clutch springs
- Stack height is preset for easy, accurate installation (run wet or dry)

D

- Includes six friction plates with tempered steel cores and seven tempered steel drive plates
- 25% wider than OEM clutch plates for a significant increase in clutch area
- Stack height is preset for easy installation (run wet or dry)

E

- High Performance Extra Plate Kit
- Includes nine friction plates on tempered steel cores, eight tempered steel drive plates and 15% stronger diaphragm spring
- Starburst groove pattern for maximum heat dissipation and oil circulation
- Preset stack height for easy installation
- 15% more clutch area for high performance strokers
- Remove OEM rivet plate!

NDEX

Carbonite High Performance Clutch Kits are designed and engineered for maximum performance and durability in the most demanding performance applications.

Carbon Carbonite® based friction material:

- Carbon offers superior coefficient of friction
- · Carbon provides higher temperature capacity

available and comes with a Lifetime Warranty.

· Decreases wear while increasing durability

Single side extra capacity clutches reduce heat:

- · Additional friction element increases surface area
- Additional steel elements increase conductivity
- Balanced temperature and rapid heat dissipation

820-52605

HIGH PERFORMANCE COMPENSATOR SPROCKET

- Engineered with heavier springs and increased travel to support the high torque output
- Designed to outperform the Original Equipment compensator
- Protects the engine and driveline components
- Compensator features improved oil passages and a needle bearing thrust washer that improves the overall operation of the components

| Application | OEM# | WPS# | List |
|---|-----------|-----------|----------|
| `18-Up M8 models | 40100076 | 820-52653 | \$379.95 |
| `12-13 Dyna models, `12-13 Softail models (except FXSB/SE), `11-13 Touring models, `09-13 Trike models | 42200064A | 820-54670 | \$274.95 |
| HP Compensator spring pack | | 820-54660 | \$86.95 |

COMPENSATOR ELIMINATOR SPROCKETS

- Much guieter than stock diaphragm spring style compensator
- Available in 32 and 34 tooth sprocket
- · Improves starting and starter life
- Easy to install, no other parts needed
- 2008-2010 models will need 2007 rotor
- 32 tooth sprocket requires the use of chain tensioner shoe adapter (included)
- Changing the primary gear ratio may affect the function of the 6th gear indicator light, some tuners can eliminate this issue

PRIMARY CHAIN TENSIONER

- · Avoid overtightened primary chain engine issues
- Machined from high quality billet T6061 Aluminum
- · Quick and easy installation and adjustments
- · Heavy duty components
- Mounts with OEM hardware
- For use with 34T sprocket only

NOTE: The M8 application will retro fit to the `07-16 FLT yet not the ST / FXD even though the OEM is the same

PRIMARY CHAIN TENSIONERS

- Makes for a smoother ride by reducing vibration and maintaining constant and correct tension at all times
- Automatically adjust primary chain tension
- Assures proper chain tension during acceleration and deceleration
- Smoother shifting, transmission will "click" instead of "clunk"
- Improves shifting performance while extending the life of the primary chain

MANUAL PRIMARY **CHAIN ADJUSTER**

- · Permits manual selection of primary chain tension and is a direct replacement for the original equipment automatic version
- · Eliminates the common issues of over tightening of the primary chain from the auto adjuster
- Takes the added pressure off of the bearings and seals from over tightened chain
- The anodized Billet Aluminum adjuster allows you to fine tune & lock settings
- The manual adjustment locks the chain tension in place to prevent free play during severe shifting

BIG TWIN PRIMARY COVERS

The EMD/Billy Boy primary cover is directly inspired by the design of the Panhead/ Knucklehead tin primary cover housings from the Forties. The Snatch primary cover design is inspired by the finned primary covers from the golden age of choppers. They install in place of your OEM primary cover and will bring the ultimate vintage, bobber and chopper look to your project!

Manufactured in die cast aluminum, CNC milled gasket surface

- OEM mounting hardware reusable
- Derby cover hardware included (chrome)
- · Seal kit not included, please order separately
- Billy Boy cover available in "Raw" with chrome derby cover or "Black" with chrome derby cover

| Description | Application | Year | Raw | List | Black | List | Black Cut | List |

SPORTSTER PRIMARY COVERS

Add a classic custom look to your ride with these EMD outer primary covers. They are made of cast aluminum and then CNC machined for precise, leak free fitment.

- · Available in raw cast or black powder coat finish
- Add your personal touch by polishing or accenting the ribs or the entire piece
- Ribbed design is directly inspired by the finned primary covers from the golden age of Choppers!
- EMD/RIBSTER primary cover replaces your OEM primary cover and will radically change the look of your engine
- OEM mounting hardware reusable
- Gasket kit NOT SUPPLIED please order separately

TRANSMISSION BEARING SUPPORT

Supports the transmission main/shaft when the inner primary was discarded for an open belt. Our transmission main/shaft bearing support is cast from 356 T6 high strength aluminum with an automotive style sealed ball bearing to fully support the main/shaft with all the weight of the clutch basket and associated parts.

Fits 1965-up Big Twin 4-Speeds w/rear chain only. Will not work with super nut. Must use stock main/shaft nut.

| Description | WPS# | List |

ELECTRICAL KICKER COVERS

Designed to fit '91-Up Sportsters, the EMD Electric Kick and Sprocket cover combo allows the activation of your electric start with a traditional kicker. It must be wired to your wiring harness. The kit comes with a sprocket cover, 4-speed-style transmission case end, kicker arm and pedal and an integrated microswitch.

| Description | Application | Year | WPS# | List |
|------------------------------------|-------------------|--------|-----------|----------|
| Electric Kicker Sprocket Cover Raw | 5-Speed Big Twins | `04-21 | 866-05086 | \$494.95 |
| Electric Kicker Sprocket Cover Raw | | `91-03 | 866-05085 | \$494.95 |

SPORTSTER SPROCKET COVERS

Featuring a raised rib design to match the EMD Cam Cover Trim, the EMD Sprocket Cover provides a much-needed finishing touch to any custom Sportster for that 'split transmission' look. The Sprocket Cover is a direct bolt-on for Sportsters with forward controls and forward-mounted master cylinder.

Sportsters with mid-mount controls will require custom modifications.

| Application | Description | WPS# | List |
|-----------------------|------------------------------|-----------|----------|
| Fits `04-Up XL Models | Ribster Sprocket Cover Raw | 866-05080 | \$219.95 |
| | Ribster Sprocket Cover Black | 866-05081 | \$230.95 |
| Fits `91-03 XL Models | Ribster Sprocket Cover Raw | 866-05082 | \$219.95 |
| | Ribster Sprocket Cover Black | 866-05083 | \$230.95 |

KICKER ARMS

Early and late style kicker arms for most applications including versions with offset to clear most custom exhausts. Kicker pedals sold separately unless otherwise noted.

| Description | WPS# | List |
|---|-----------|---------|
| Kickarm w/Offset (OE 33057-72) | 820-53008 | \$28.95 |
| Kickarm w/Offset (OE 33057-72) Heavy Duty | 820-53009 | \$28.95 |
| Kickarm w/Offset `36-Up Big Twin `57-Up XL | 820-53010 | \$58.95 |
| Kickarm w/Offset `54-Up Big Twins (OE 33068-54) | 820-53011 | \$28.95 |

7-SPEED DIRECT DRIVE BUILDERS KIT

- Shorter first gear ratio (numerically higher) to help with the off the light get up and go, as well as slow speed maneuvering around the bar parking lot
- · Fully assembled gear set and shift system. No adjustments needed for installation
- The DD7 re-uses the stock shifter pawl and includes a new main drive gear bearing and seal, door, top and side cover
- · Compatible will all types of aftermarket hydraulic side covers, as well as the stock Screaming Eagle versions
- · Direct slide in installation. No case modifications needed. Clears all exhaust and works with all after market clutches

| Includes a new transmission top |
|---|
| cover that holds the linear, roller |
| bearing mounted, shift detent |

- · Easy to find neutral, every time. Smooth shifting without the the stock clunks or 'jerks' when engaging
- Upgraded ARP 12 pt stainless steel bolts included. For transmission top and side cover as
- Included BAKER Direct Drive 7 Speed Stock Side Cover emblem
- Backed by a 5 year limited warranty

6-SPEED DIRECT DRIVE BUILDERS KIT

- · Pre-assembled gearset, ready to easily install, featuring helical cut 4th, 5th, and 6th gears for noise reduction, and straight cut gears in 1st - 3rd for strength in the torque ranges
- 28 tooth compensating sprocket necessary for maintaining the stock 1st -5th ratios included. Overdrive is obtained through the primary, reducing the overall rpm in 6th gear by 400-500rpm depending on the application
- Roller detent shift drum with fixed spindle, eliminates shimming and misalignment. Finding neutral is very easy with a redundant neutral detent
- · Shifter pawl assembly with improved

- geometry for a perfect response. Includes a built in over-shift protection for smooth precise shifting
- Gears are manufactured with 8620 hardened gear steel for long life and dependability
- 120 ft-lb torque capacity, applications that exceed this rating should use the Overdrive 6-speed rated at 165 ft-lb torque capacity
- · Available with 3.24 1st gear, or 2.94 1st gear
- · Backed by a 5 year limited warranty

OVERDRIVE 6-SPEED BUILDERS KIT

THE ORIGINAL 6-SPEED TRANSMISSION

This is the ORIGINAL 6-speed design that revolutionized the American V-Twin industry. Yet, it's still the best overdrive 6-speed built to this day... hands down. Our OD6 is built to comfortably handle the power from todays big-inch motors. This transmission is rated for motors putting out up to 165ft/lbs of continuous use. It is available as a complete transmission with a wide variety of case options and configurations, or as a builder's kit for your stock case application, which requires little to no modification. The BAKER OD6 is available with many optional gear ratios to match your engine torque and riding style.

· Billet 6061-T6 bearing door

• 1/8" thick bearing retainer plate

• Redundant Neutral smooth shift system

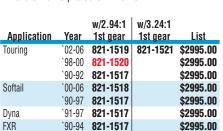

· Hard chrome plated shift forks

| • [| Diamond | cut gea | ırset ma | de out | of 862 | 20 steel |
|-----|---------|---------|----------|--------|--------|----------|
|-----|---------|---------|----------|--------|--------|----------|

Optional Gear Ratios

· All transmission seals, gaskets and hardware

• 5 year limited warranty

TRANSMISSION REBUILD KIT

- Transmission rebuild kit is an all inclusive kit designed to freshen up those high mileage bikes
- Developed to work specifically with our OD6, DD6, DD5 and OEM5 left side drive transmissions

Includes:

- Transmission Case Bearings
- Transmission Case Snap Rings
- Transmission Trap Door Bearings
- Gearset Bearings
- Gearset Snap Rings and Thrust Washers
- · Transmission Assembly Gaskets
- Transmission Assembly Seals

5-SPEED ROLLER SHIFT KIT

- Our 5-speed drum is a direct replacement for all existing stock H-D 5-speeds, but features improvements for smoother shifting
- The pillow blocks included with the kit are machined from our 6061-T6 extrusion stock for a significant increase in strength over stock
- Made in the U.S.A.

| Application | Year | WPS # | List |
|--------------|--------|----------|----------|
| Big Twin All | `80-06 | 821-1060 | \$265.00 |

BILLET STEEL SHIFT FORKS

- Our Shift Fork Kits include all three forks and are a direct replacement for the standard O.E.
- Cross section is three times thicker than stock
- These billet steel forks are hard chrome plated like a fine American made tool

| Application | Year | WPS # | List | |
|------------------|--------|----------|----------|--|
| 5-speed Big Twin | `87-06 | 821-1063 | \$249.00 | |

TRANSMISSION DIPSTICK

- Our dipstick is made of billet aluminum and is showchrome plated
- Redesigned dipstick with the largest radius possible for added strength
- Made in the U.S.A.

| Application | WPS # | List |
|---------------------------------|----------|---------|
| `87-06 Rig Twin Except `06 Dyna | 821-1506 | \$29 00 |

TRANSMISSION DIPSTICK

These Knurled dipsticks replace the OEM # 37065-06 item and really clean up the look of the transmission. Our Knurled transmission dipsticks are machined from 6061 T6 billet aluminum and are brilliantly chrome plated or anodized black with machined accents.

| Big Twins `93-06 except `06 Dynas (Repl. OEM 40251-92A) | 820-53210 | \$6.95 |

PULLEY SPACERS

- These aluminum spacers are ideal for lining up pulleys and sprockets
- The spacers can easily be machined down to the next size under, without having to worry about the spigot alignment, when you machine the face of the spacer down to the desired thickness
- They are drilled for up to 7/16" bolts
- · Can also be used as disc spacers

SPROCKETS

Lyndall Sprockets are American-made and forged with 7075 T6 aluminum. 7075 T6 aluminum is often referred to as the strongest aluminum grade and is commonly used in the aerospace industry. It has the strength of many steels, while retaining aluminum's lightweight qualities. Lyndall one-piece sprockets are laser cut to exacting tolerances.

| Description | Size | Finish | B-52 | List |

576-07356 576-07357

REAR SPROCKETS

All sprockets are heat-treated one-piece construction, machined on computer controlled lathes to assure the highest quality and longest wear available. Remember, when you buy PBI sprockets, you are buying an unbeatable combination of guaranteed quality, experience, competitiveness and availability. Ask for PBI sprockets by name.

Made in the USA by the Pros for the Pros!

- CNC Manufactured from 7075 T6-51 aluminum
- Stronger then steel sprockets in tensil, Yield and sherar strength
- Far lighter the steel for less unsprung weight

STEALTH SPROCKETS

Supersprox-stealth is about longer life, without compromising weight. Primary goal, to last 3 times longer than an all aluminum sprocket and remain as light as possible. It's about performance and function first and last. Supersprox-stealth is infinitely better than steel! You just can't achieve this level of strength on a steel sprocket with the same weight. Sure, there are light steel sprockets out there, but they can't handle the torque. Pound (lb) for foot pound (ft/lbs), Supersprox-stealth is the best.

Stealth sprockets feature an aluminum carrier, available in silver or black, with a black steel tooth ring.

HARLEY DAVIDSON SPROCKETS

TOP QUALITY AT ECONOMICAL PRICES

- Made exclusively from the finest Japanese 545C high carbon steel
- Heat treated and hand finished to meet or exceed O.E.M. standards
- Outlasts any mild steel or surface hardened sprocket as much as two or three times over
- OEM gearing is 48 Tooth rear 21 Tooth front
- All sprockets have 530 chain pitch

| Application | Year | Front Sprockets | | Rear Sprockets | List |
|-------------------|--------|--------------------|---------|-------------------|---------|

COUNTERSHAFT SPROCKETS

OEM REPLACEMENT

- CNC Machined from solid high grade 8620 alloy steel
- Heat-treated for long life and extended ware resistance
- · Maximum spline -to-shaft contact providing optimum load bearing
- Finished with an electroless nickel plating for corrosion, wear resistance and lubricity
- Made in the USA
- *Chain Pitch for all sprockets is 530

PULLEY / SPROCKET SPACERS

If you are a seasoned technician, you have seen a severely worn sprocket spacer. Over time and miles with dirt and grit, the stock spacer is too soft and it gets gouged by the seal that rides against it. As the spacer gets gouged, the seal relaxes. When the seal relaxes, the leaks begin. For the '85-93 spacer we changed to OD to work with the more commonly found PN12067B seal. Our sprocket spacer is a direct replacement for the stock spacer except ours is case hardened steel that has a Rockwell 'C' hardness of 55. No more gouging, no more leaks.

X-RING ZVMX SERIES CHAIN

D.I.D's ZVM-X Series has greater strength than the VX Series and is designed for heavyweight motorcycles with Tremendous Torque and Horsepower.

LONGEST WEAR LIFE

The twisting action of the X-Ring® increases its sealing performance and its four contact points minimize power loss.

MVXZ2 CHAIN

- Friction reducing QUADRA-X Rings
- X-Rings have greater sealing surface and less friction than O-ring chains
- Larger pin diameter than standard chains make chains stronger and last longer
- Rivet style master link included

3D CHAIN

EK ThreeD (3D) Premium motorcycle chain is Elegant, Strong, Detailed and Magnificent. It offers the ultimate shape with flexibility and strength. EK Chain set out to produce a premium chain that was as beautiful as it is strong. An impressive outer plate shape that offers a curved form to reduce weight and increase appeal is connected together with inner plates and pins that feature lightening holes to further reduce mass. QX2 X-Rings have a better wear-resistance and performance than standard QX-Rings by 30% resulting in a chain that puts 1% more power to the rear tire.

ZVX3 CHAIN

ZVX3 IS THE PINNACLE OF CHAIN TECHNOLOGY

- Ultra strong: ZVX3 series chains easily surpass every other brand with a tensile strength of 11,100lbs.
- New NX-ring lasts 15% longer than ZVX series
- Minimizing the clearance between the plates for improved stiffness and weight
- · Available in metallic colors and natural finish

RTG SEALED CHAIN

- Utilizes Sunstar's exclusive TG-ring (TripleGuard) where the ring seals with 3 lips per side for the ultimate in heat prevention and keeping the chain lubricated even in extremely harsh conditions
- With a tensile strength of 9900 lbs, the 530RTG1 is intended for the large displacement machines
- · Color option: Gold
- Uses rivet type connecting link

| Chain Length | WPS# | List |

MILWAUKEE 8 GASKETS AND SEALS

- · At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

All individual gaskets are priced each

TWIN CAM GASKETS & SEALS

- · At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals
 and AFM material

EVO BIG TWIN GASKETS & SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST "Extreme Sealing Technology" kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

PANHEAD & SHOVELHEAD GASKETS & SEALS

- · At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- Cometic Gasket Kits for Harley Davidson models include every gasket, seal, washer, and o-ring needed for a complete overhaul
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- EST kits are available in Complete Motor Kits and Top End Kits
- Harley-Davidson® EST Gasket Kits contain MLS Head Gaskets, Steel Viton coated Base Gaskets, blue Viton Valve Stem Seals and AFM material

IRONHEAD SPORTSTER GASKETS & SEALS

- At Cometic Gasket, our goal is to offer the latest in gasket technology
- Materials, manufacturing processes and gasket designs are constantly improving to match the higher level of performance for today's powerful V-Twin engines
- When purchasing a Cometic gasket kit, you can rest assured that every component will be the best solution for your application
- Low Compression, .063" Head Gaskets
- Head Gaskets are .032" copper except where noted and Base Gaskets are .031"
- Kit contains all of the necessary gaskets, seals and o-rings to rebuild the motor from the cylinder base up

All individual gaskets are priced each

V-ROD GASKETS & SEALS

- Provide maximum sealing performance for today's high output engines and require no sealants
- Ideal for aluminum heads to aluminum blocks and aluminum heads to cast iron blocks withstanding the shearing force created by the two
- No need to re-torque, the embossing design of the MLS gasket promotes an even clamp load across the sealing surface allowing for measurable reduced bore distortion

All individual gaskets are priced each

MILWAUKEE 8 GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

All individual gaskets are priced each

EVOLUTION BIG TWIN GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

PANHEAD GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

EVOLUTION SPORTSTER GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are available
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- · Made in the U.S.A.

All individual gaskets are priced each

'57-85 SPORTSTER GASKETS & SEALS

- Genuine James Gaskets uses state of the art materials and production methods to make the best gaskets available
- Comprehensive gasket kits for many applications as well as individual gaskets are
- Various material choices available depending on application
- FOAMET foam covered metal
- MLS multi layered steel
- RCM rubber covered metal
- Micropore paper gaskets with or without elastomer bead (Nitrile or Silicone)
- Made in the U.S.A.

TWIN CAM

Small Stocking kit includes 1 package of each

- 681-4002 (motor kit w/ .046 head gasket)
- 681-4306 (5pk trans oil pan gaskets for Touring models)
- 681-4028 (trans gasket kit Dyna 6speed)
- 681-4033 (primary cover kit Touring 6speed)
- 681-4037 (primary cover kit Dyna/Softail 6speed)

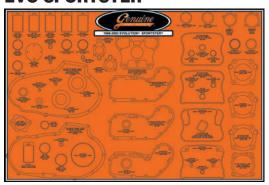

EVO BIG TWIN

Small Stocking kit includes 1 package of each

- 681-4383 (motor kit w/ metal base gaskets '84-91)
- 681-4381 (motor kit w/ metal base gaskets '92-99)

EVO SPORTSTER

Small Stocking kit includes 1 package of each

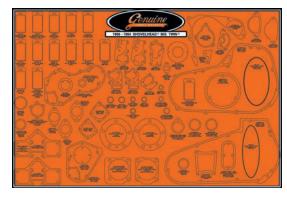

- 681-5215 (motor kit w/ metal base gaskets)
- 681-5213 (motor kit w/ rubber rocker cover gasket)

Genuine

GASKET BOARDS

- · Sturdy four-color gasket display boards
- 32" tall x 48" wide
- Come ready to mount 1/8" or 1/4" peg board
- · Peg board hooks included
- Made from durable 20-mil stay flat vinyl
- · Water and oil proof
- Large Stocking Kits include 1 package of each gasket seal and O-ring

SHOVELHEAD

Small Stocking kit includes 1 package of each

- 681-4740 (motor kit w/ beaded chain cover)
- 681-4407 (primary cover gasket kit FXR/FLT)
- 681-4763 (primary cover gasket kit FL/FLH/FXS)

KNUCKLEHEAD/ PANHEAD

Small Stocking kit includes 1 package of each

- JG# 17028-36 (motor gasket kit '36-47)
- 681-5051 (copper embossed head gaskets, Knucklehead)
- 681-5055 (primary cover seal kit)

DELPHI WEATHERPACK

Our Delphi – Packard Connectors are an environmentally sealed connection system made to withstand exposure to extreme temperatures, moisture and chemicals with superior performance. They are a less expensive alternative than other watertight connectors although, they are larger in size. Terminals will accommodate #16-#18 wire sizes.

JST CONNECTOR SERIES

If space is a premium, our JST Mini Connectors are a perfect choice. They are found on Big Dog, Victory and HD Motorcycles. They are the smallest watertight connectors available and come in 2, 3, 4, 6 and 8-position. Terminals are stamped and sold in 100-packs and our NJC-990120 crimp tool is a must. NOTE: 22-gauge wire is rated for a maximum of 5-Amps.

AMP/DELPHI EFI & COMPONENT CONNECTORS

Our AMP & Delphi OEM Connectors & Mating Connectors fit a variety of different bikes. The Mini-MCL connectors are found on throttle-by-wire models beginning in 2008 through 2015. A common failure, this connector kit is a must have for repairs down the road. The Superseal series was introduced in 2005, on the oxygen sensors, and the larger 5-position in 2007, on the Active Exhaust Sensor. Terminals crimp with the wire seal in place. NAMZ has the most complete collection of AMP & Delphi OEM Connectors & Mating Connectors in the industry. NAMZ is the only supplier where you can find mating connectors for many of them! All of our Delphi connectors come with terminals, TPA locks and wire seals for easy installation. OEM part numbers are provided for quick reference.

JAE CONNECTOR SERIES

The JAE MX-1900 Series Connectors were introduced in 2011 and first used on Softail models with the start of CAN/Bus technology. Being very small and watertight, these connectors attached handlebar switch wiring to the BCM or Body Control Module. Available only in 2 and 4-position, male and female and stamped crimp terminals. Direct OEM replacement.

PROMOTIONAL REFERENCE INDEX

WIRING HARNESS FOR SPLIT TANKS

Great for custom builds that are set up for split tanks or '84-95 Harleys that need to be rewired. Pro-One wire harness comes complete with flashers, relays, bulbs, and a new key switch with 2 keys. Color-coded instructions included.

| Application | WPS# | LIST |
|--|-----------|----------|
| Models with Split Tanks and Cast Dash `84-95 | 812-02080 | \$209.95 |

THROTTLE BY WIRE EXTENSIONS

- Replacement electrical harness for HD models that use the Throttle by Wire system
- · Lower connector body is not installed, to facilitate routing the harness through the handlebar during installation
- All wires are finished with the proper terminals, just plug into connector after harness is installed in handlebar, no soldering or crimping is necessary
- · Harness length is 46"
- Excess length can be hidden inside handlebar, or behind a body panel if necessary

| Description | Application | WPS# | List |
|---------------|----------------|----------|---------|
| TBW Extension | `14-18 Touring | 70-10101 | \$49.99 |
| | `08-13 Touring | 70-10100 | \$49.99 |

THROTTLE-BY-WIRE EXTENSION HARNESS KITS

If you thought about changing your handlebars on your 2008 Bagger, you'll need one of our Throttle-by-Wire Extension Harness Kits. It's not that easy anymore with the introduction of throttle-by-wire. There may not be throttle cables to deal with but it can become a wiring headache, but not anymore with the introduction of this kit!

Our Throttle-by-Wire Extension Harness Kits have been tested and designed by our engineers to work perfectly WITHOUT causing any harm or interference to the motorcycles computer. *NOTE, extensions MUST be

used on ALL CVO & Screaming Eagle models due to the hard-wired twist grip assembly.

Our NEW Throttle-by-Wire "Plug-n-Play" wiring harness is a no brainer when adding taller handlebars. Longer than stock, one size fits ALL handlebars, simply remove OEM harness, plug ours in. Comes complete with OEM connectors. *NOTE, will NOT fit CVO or Screaming Eagle models.

HANDLEBAR SWITCH **EXTENSIONS**

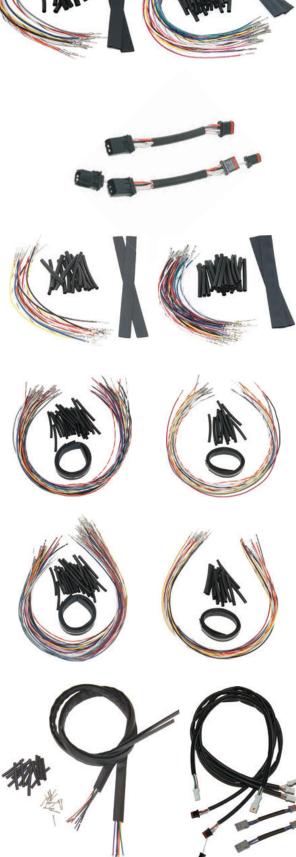

Since changing handlebars is one of the first things riders want to change on their bikes, NAMZ decided to help you out a little bit. If you go to a "T-Bar" or a set of "Apes" our handlebar wiring extension harnesses will help you to get the job done right. Made right here in our shop and available for ALL factory models from 1996 to 2006, baggers included!

PLEASE NOTE, OUR KITS ARE 100% COMPLETE FOR ALL MODELS. All of our competitors require you to purchase (2) kits for most bagger models & cost twice as much!

TURN SIGNAL EXTENSIONS

NAMZ Custom Cycle Produc

Our Front Turn Signal Extensions are perfect for installing taller bars and if you're installing them on a Softail, Dyna or XL with switch housing mounted turn signals. Available in 4", 8", 12", and 15" long, Our Front Turn Signal Extensions come with color matching wires with pre-crimped terminals and all the heat shrink needed to complete the job.

Now if you're going to install taller bars on a 2011-Up Softail, 2012-Up Dyna or a 2014-Up XL model and you want to move the front turn signals off of the switch housings, you will need our

850-08741/850-08742 front turn signal relocation harness in order to complete the job. Kits comes with color matching wire, preterminated with an installed factory connector and all of the heat shrink you will need to complete the job.

WIRE EXTENSIONS FOR HEATED GRIPS

Heated Grip Extensions were a product of focusing all our time and energy on switch extensions, throttle-by-wire extensions & harnesses and failing to create something for those of you with heated grips. Needless to say, we were asked to help and we did. Very simple & inexpensive, these DIY extensions will allow you to safely extend your heated grip wiring with minimal expertise needed! Cut, strip & crimp, that's all there is to it. Fits 1996 through 2007 models & 2008 – Up models. Simple installation, requires a basic terminal crimp tool. Due to the connectors the factory uses, we were unable to make these extensions "Plug-n-Play".

| Description | Application | Year | WPS # | List |

POWER CABLES / Y-ADAPTORS / USB EXTENSIONS

- · If it's power you're looking for, we have you covered with our On-Board Power Ports & Y-Adapters.
- Our On-Board Power Ports & Y-Adapters are both 100% Plug-n-Play & give you two different power options. The NOBD-PYH or Power "Y" Harness gives you 2 available ports to tap for 12-volt switched power. This is great for testing using the OBDP & keeping your optional accessory plug in at the same time.
- The second, NOB-PP01 or On Board Power Port acts like a cigarette lighter port in your automobile. Works great for iPhone chargers, cell phone chargers or GPS power cords.
- Used for Heated Grips & seats, amp and speaker system, GPS, Garage door opener, and Decorative Lighting

O2 SENSOR EXTENSIONS & BUNG REDUCERS

NAMZ started to produce our Oxygen Sensor Extensions since many customers had asked how they could fit their custom exhaust system from their 2009 FL onto a new 2010 FL models. The kit also works perfectly for ALL 2012 FXST & Dyna models allowing the use of older style pipes. The new sensors are also in a different location, much further back on the head pipe thus making the need for a longer harness. Our Oxygen Sensor Extensions allows the use of a 2009 header to fit onto 2010-up models and includes 18mm to 12mm bung adapters & a front Plug-n-Play harness extension to allow for easy installation. Our front O2 extension harness kits have been tested and designed by our engineers to work & fit perfectly. Simple installation and are intended to be installed with 2009 headers/exhaust systems & ALL 2012 FXST & Dyna Models.

• Includes bung reducers, installed terminals without connectors

| Description | WPS # | List |
|---|-----------|---------|
| FLT `09 pipes installed on a `10 FLT | 850-08783 | \$33.95 |

HOT BOX HARNESS

When we came out with the Hot Box Line of Wiring Harnesses combinations, our intent was to provide easy to install solutions for lighting customizing. These kits not only make it simple but they also take all of the guess work out of wiring up your custom bagger. Load Equalization, Run, Brake & Turn signal combinations, plug-n-play saddlebag pigtails, endless possibilities.

PLUG-N-PLAY TOURPACK **WIRING HARNESS**

Meant to install under the seat or side cover of most Harley Davidson big twin models, our Quick Disconnect Harnesses plug in-between the rear fender connection while providing a loomed harness that routes up to the seat bolt. Here, you will find a OEM connector that will have a mating connector and harness that will go into and connect to the tour pack lighting. When you want to remove it, release the tour pack mount and press the tab on the connector for painless removal without taking off your seat!

• 100% Plug-N-Play

· Easy Removal

SPEED SENSOR CALIBRATION UNIT

Back in late 2006 both Dakota Digital and NAMZ started receiving calls from customers with new 2007 Harley models asking how the new speed sensors operate. The connectors were different from years previous but specifically, how can a customer modify their motorcycle and keep the correct speed? Dakota's SIM-1 was the answer and NAMZ had the connectors to make it all come together. Since the new speed sensor had it's mating connector molded into itself, we made our own version of the mating connector allowing installation to be 100% plug-n-play.

| Description | Application | WPS # | List |

TRAILER ISOLATORS

Although some would argue that a trailer isolator is not needed, we beg to differ. The NAMZ Trailer Isolator takes power directly from the battery and grabs the signal from from your brakes, running light and both turn signals. This process sends those signals through a bank of 4 relays before it sends it off to the trailer. The relays draw power from the battery and NOT your OEM turn signal module, thus preventing premature module failure. A factory turn signal module is a few hundred dollars making our isolators a worth while investment.

RED, BLUE & YELLOW TERMINALS

If you work on your own ride or bring it to a custom shop or a dealership, chances are you you will want the right parts for the job. This is why NAMZ wants to provide the very best OEM replacement installation supplies. It's important to use the factory recommended parts & accessories when fixing or upgrading your ride. Never use the wrong rated fuse, circuit breaker or wrong gauge wire. This will only cause you more trouble in the long run. If you're not sure what your bike requires, always check in your service manual before you get started.

STAINLESS BRAIDED HARNESSES & COVERS

The NAMZ Easy to use - Do it Yourself Stainless Braiding Kits were one of the very first products we offered back in 1999. They are a great way to clean up ugly wiring while matching braiding cables and hoses. Below you will find our complete line of DIY kits for handlebar switch harnesses, ignition harnesses, regulator wiring and our oil sending harness cover.

| Description | WPS# | List |
|---|-----------|---------|
| Internal Handlebar "DIY" Kit, (2) Stainless Braided Sections, (2) Clear & (2) Blk Heat Shrink. | 850-08970 | \$42.95 |
| External Handlebar "DIY" Kit, (2) Stainless Braided Sections, (2) Clear & (2) Blk Heat Shrink. | 850-08971 | \$55.95 |
| 24" Turn Signal Harness Stainless Braided & Clear Coated for Triple Tree Mounted Signals. | 850-08972 | \$60.95 |
| 36" Turn Signal Harness Stainless Braided & Clear Coated for Switch Housing Mounted Signals. | 850-08973 | \$71.95 |
| Headlight Harness, Stainless Braided and Clear Coated, Stock Length, Universal Fittment | 850-08974 | \$37.95 |
| Oil Sending Harness Cover, Stainless Braided and Clear Coated, Stock Length, Universal Fittment | 850-08975 | \$27.95 |
| Brake Siwtch Harness, Stainless Braided and Clear Coated, Universal Fittment | 850-08976 | \$42.95 |
| Ignition Harness "DIY" Kit fits ALL Ignitions. (1) Stainless Braid, (1) Clear Heat Shrink. | 850-08977 | \$42.95 |
| Regulator Harness "DIY" Kit fits ALL Regulators. (1) Stainless Braid, (1) Clear Heat Shrink. | 850-08978 | \$42.95 |
| Tachometer Harness Stainless Braided & Clear Coated, Universal Fittment | 850-08979 | \$42.95 |

NEUTRAL SWITCH ELIMINATOR

Our Neutral Switch Eliminator is a highly polished, stainless steel option for customizers of all types. The blind allen-head design uses an o-ring to seal once tightened from the inside of the trans top cover. Fits 1984 through 2005 big twin models and cleans up the look while eliminating excess wiring. (Neutral indicator light will no longer function once installed.)

| Description | Application | WPS # | List |

| Dual hole mount for `36-84 Big twin trans | 820-2677 | \$12.95 |
| Single hole mount w/ 7/8" hole | 820-2678 | \$9.95 |
| Single hole mount w/ 3/4" hole | 820-2679 | \$9.95 |

IGGY NUT

- · CNC-machined stainless steel
- Proudly made in the USA!

| Description | WPS# | List | |
|-------------|--------------------|--------|--|
| Iaav Nut | 827-0 <i>4</i> 060 | ¢26 05 | |

The "Iggy Nut" solves a problem that has plagued the motorcycle industry for years. Many replacement 3 wire ignition switches come with a chrome "locking" ring that hold the keyed switch into place, but are impossible to tighten with a trusty set of Channel-Lock© pliers! Problem solved! Using either a 15/16", (or 24mm), wrench or socket, the trusty Iggy Nut will lock down that ignition switch for good!

SIDE HINGE IGNITION SWITCHES

- Late style switches are available with or without matching fork lock
- Chrome or gloss black versions available

| Description | Application | Chrome | Black | List |
|--|--|-----------|-----------|---------|

IGNITION SWITCH COVERS

Paul continues to create innovative products to stylize your Bagger. Check out our Yafterburner and Speed Freak Ignition Switch Cover!

Our Ignition Switch Cover is available for model years 2006-Up and is easy

Our Yafterburner and Speed Freak styles create a killer contrast look that defines your unique Bagger. First, they are CNC machined from T-6061 aircraft aluminum. We make them available in a brilliant chrome finish, or powdercoated in a deep, rich black - then accent-cut to bring forward the underlying metal.

| Application FITS `14-UP | FLH/FLT | | Chrome | List |

VACUUM OPERATED **ELECTRIC SWITCHES**

Standard Motor Products $^{\odot}$ Vacuum Operated Electrical Switches (VOES) are produced from high tech engineered thermoplastics and are 100% calibrated and vacuum tested to assure the accuracy and reliability of each part. Our self assembly kits allow the user to select a part from various preset levels of calibration for their specific tuning needs. Kits come complete with bracket, crimp terminals and instructions for easy installation.

HEADLIGHT CONNECTORS

- Replacement and retrofit headlight connectors for H4 bulbs in both male and female versions
- Female version is a complete replacement for the OE socket, terminals and wires
- Temperature thermoplastic withstands temperatures in the confined space of the headlight housing for long term use and reliability
- Male version is for off-road applications and can be used when converting to an LED headlight without the need to alter your factory wiring

| Description | WPS# | List |
|--|-------------|---------|
| Complete replacement for OE socket, female version | 275-01140 | \$10.50 |
| LED headlight conversion connector, male version | 275-01141 * | \$11.50 |

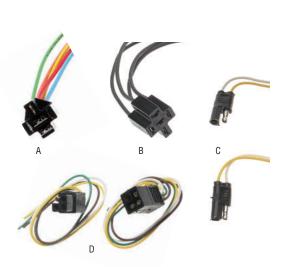

*Not DOT approved. For aftermarket LED headlight assemblies

CONNECTOR ASSEMBLIES

These relay connector assemblies come pre-wired and are ready to install, making the life of the custom bike builder and the mechanic much easier

| | Description | WPS# | List |

| D | Square type 4 pole neoprene molded w/ 12" 18 gauge wire | 275-01131 | \$7.50 |

ALTERNATOR KITS

- Cycle Electric alternator kits combine our state of the art stator with our legendary bullet proof rectifying regulator and a stock Harley rotor
- · Better low speed output

- Smoother charge to the battery for crisper starting and longer battery life
- Durable and longer lasting system
- Full two year guarantee and are 100% American made

Note 1: These kits include the Screamin Eagle® Big Twin Compensator upgrade. Starting on the 2006 & later Dyna®, 2007-2010 Touring and 2007 & later Softail® models (except FXCW, FXCWC and FXSTSEE3) the compensator spring cup is built in to the alternator rotor.

Note 2: Not recommended for use with oil coolers that mount in front of the regulator. Cycle Electric Inc. does not recommend installing an oil cooler in front of any regulator.

Note 3: Will not fit with low mount oil cooler.

(L) = Low volt for use with battery in a horse shoe oil tank

(P) = Pass through Wiring

(NB) = No battery, requires a magneto for the ignition

40A 3 PHASE CHARGING SYSTEM

- This system produces 25 AMP at idle with 40 AMP above 2800 rpm
- Fitments include Softail, Dyna and FLT with OEM primary due to the rotor and stators narrow profile
- The vented rotor helps with heat dissipation, keeping the stator cooler allowing for maximum output
- High output voltage regulator (14.25 V from idle)
- Replacement parts proprietary to this kit only
- Made in the USA

| Description | Application | Year | WPS# | List |
|------------------|----------------------------|--------|-----------|----------|
| Vented Rotor | Twin Cam (except `06 Dyna) | `03-06 | 139-10022 | \$471.95 |
| Vented Rotor | Twin Cam | `99-02 | 139-10023 | \$471.95 |
| Non-Vented Rotor | Twin Cam | `99-02 | 139-10025 | \$471.95 |
| Vented Rotor | BT/EVO | `84-99 | 139-10021 | \$471.95 |
| Non-Vented Rotor | BT/EVO | `84-99 | 139-10024 | \$471.95 |
| REPLACEMENT F | PARTS | | | |
| Stator | Twin Cam Models | `99-06 | 139-10015 | \$199.95 |
| Stator | EVO Models | `84-99 | 139-10014 | \$199.95 |
| Vented 40A Rotor | Compu-Fire Phase 3 system | | 139-10016 | \$140.95 |

CHARGING SYSTEM

- For 22 and 32A charging systems.
- · Not for EFI applications
- Made in the USA

| Description | Application | WPS# | List |
|-----------------------|----------------------------|-----------|----------|
| 32A Charging System | `99-03 Twin Cam Carbureted | 139-10018 | \$574.95 |
| 32A Charging System | `81-99 Big Twin Carbureted | 139-10017 | \$295.95 |
| 32A Repl. Stator Only | `99-03 Twin Cam Carbureted | 139-10020 | \$217.95 |
| 32A Repl. Stator Only | `81-99 Big Twin Carbureted | 139-10019 | \$105.95 |

ELECTRICAL ROTOR

- Designed to work with 32A charging systems
- 139-10027 designed for aftermarket EVO motors
- Made in the USA

| Description | Application | WPS# | List |
|-----------------------|--|-----------|----------|
| Rotor, Non Vented | `81-99 BT/EVO (OEM 29957-81B) | 139-10026 | \$128.95 |
| Rotor 32A. Non Vented | Replacement for Aftermarket EVO Motors | 139-10027 | \$128.95 |

ELECTRIC CHARGING SYSTEM KITS

- · High quality ACCEL stator, rotor, and regulator in one complete kit
- Perfect for OE replacement or to upgrade earlier systems
- Features ACCEL's famous lifetime replacement warranty

| Application | Notes | Year | WPS# | List |
|-----------------------------|----------------------------|--------|----------|----------|
| Twin Cam Softails | 38 Amp 3 phase | `01-06 | 274-0073 | \$621.95 |
| Evolution Softail and Dynas | 32 Amp (not for Twin Cams) | `91-99 | 274-0072 | \$518.95 |
| Shovelhead and Evo Big Twin | 32 Amp upgrade | `70-84 | 274-0072 | \$518.95 |

ELECTRIC ROTORS

274-0071

- · Heavy duty replacement rotors
- · High quality magnets enclosed by stainless steel
- · Reinforced housing and splines for the ultimate in durability
- · Perfect compliment to our Lectric Stators

| Application | Year | OEM# | WPS# | List |
|-------------|--------|----------|----------|----------|
| Touring | `00-05 | 29981-95 | 274-0071 | \$181.95 |
| Softails | `01-06 | 29981-95 | 274-0071 | \$181.95 |
| Softails | `91-00 | 29957-81 | 274-0070 | \$271.95 |
| Dynas | `04-05 | 29981-95 | 274-0071 | \$181.95 |
| Dynas | `00-03 | 29957-81 | 274-0070 | \$271.95 |
| Dynas | `91-99 | 29957-81 | 274-0070 | \$271.95 |

STATORS

- Insulation able to withstand temperatures of 600° F to eliminate stator burn out
- Better low speed output to reduce battery discharge at an idle
- Lower operating temperature for longer service life
- Improved plugs that will not swell or separate

^{*} Not recommended with low mount oil cooler

- Meet / Exceed Original Equipment specifications
- High Power and quality SCR (Silicon Controlled Rectifier) utilized to allow a cooler operation
- High temperature and environmentally protected (sealed) encapsulation
- High temperature Late technology circuit board utilized on higher watt-density surface mount applications where heat issues are a major concern. This approach minimizes thermal impedance and conducts heat more effectively and efficiently than standard printed wiring boards that are used on products available through OEM or other manufacturers.
- High temperate and voltage OEM grade wiring harness

GENERATOR

- Cycle Electric Inc. manufacturers the model 65A 12V and model 61 6V generators to Harley-Davidson specifications for restoration purposes
- The model 65A is rated at 10 amps and the model 61 at 15 amps They are both capable of producing 20-30 amps. For this reason it is very important to have a properly working current limiting regulator to restrict amperage draw on the generator to (10 amps on the 65A, 15 amps on the 61 model). Improper regulation may cause generator damage not covered under warranty
- · Complete charging system for generator bikes
- It features simplified wiring, higher output, longer service life
- This is the last generator you will have to buy for your bike.

| Harley Davidson | OEM# | WPS# | List | Rep. Regulator | List |
|--|-----------|----------|----------|-------------------|----------|
| (model 65A) 12V OEM replacement for `65-81 models with Generators | 29975-65A | 273-1451 | \$436.95 | 273-1237 | \$194.95 |

HIGH TORQUE STARTERS

- ALL BALLS starter motors are manufactured with all new components that have been fine-tuned for starting the H-D V-Twin engine
- All starters are supplied with a 10/32 threaded output shaft, and a conversion bolt for the earlier 1/4-20 threaded output shafts to cover all Big Twins from 1989 thru 2005

280-1150

• Idler gears are manufactured from cold-heated steel

- End frames are cold-chamber die cast and machined on precision fixtures
- Armature hairpins are resistance-fused to the commutator
- Our clutches utilize 20% oversize rollers
- Hitachi Starter is 5.25" overall length.
- Prestolite Starter is 6" overall length.
- · Limited Lifetime Warranty

STARTER CLUTCHES

- · Clutches come with heavy duty bearings and hardened intermediate gear
- These newly developed clutches are by far the most durable high quality clutches in today's marketplace
- They were developed by MES using special metals, high temperature springs, and special hardness coated cam and rollers
- · Economy starter clutches are delivered without bearing, slipper mechanism only
- · Limited Lifetime Warranty

^{*}Conversion requires 66 tooth ring gear

JACKSHAFT KITS

- · Jackshaft Kits include jackshaft, sleeve, pinion gear, collar, bolt and all springs, snap rings and lock tabs.
- · Replacement for OEM starter jackshaft assemblies.
- · Repair Kit includes the bolt, all snap rings, lock tabs and springs needed to rebuild.

820-50972

EASY START KITS

These kits improve starting on high compression engines through improved starter to clutch basket gear ratio. Complete kit includes a clutch basket with bearing, a 66T starter ring and a 9T starter pinion.

SERIAL DIAGNOSTIC SYSTEM

Professional diagnostic and tuning capable tool offered for Harley Davidson/Buell, as well as Indian/Victory. The Serial Diagnostic System Kit diagnoses the Electronic Fuel Injection Module (EFI) and others (Security Modules, ABS, etc.) through the diagnostic connector. The system consists of a communication interface with Harley-Davidson or Indian adapters, USB cable for connection to your Laptop (PC) and the downloadable software is compatible with Windows 7, 8 and 10. A wireless Bluetooth Diagnostic Kit is also available for Windows based tablets. Internet connection is always required while tool is in use. Additional adapters for the 2021-Up Harley models and CAN-BUS models are included in the Harley kits. The system performs the following functions and more:

OVERVIEW OF CONTROL UNITS THAT CAN BE DIAGNOSED ON HARLEY DAVIDSON AND BUELL MODELS:

- All models since 1995: Delphi, Magneti Marelli, VDO IGN and Thunder Max EFI
- · Ignition Module
- EFI (Electronic Fuel Injection Module) All models
- TSSM (Turn Signal Security Module) Key FOB with button
- HFSM (Hands Free Security Module) Key FOB without button
- BCM (Body Control Module) Key FOB without button
- SCM (Security Control Module)
- Gauges (Speedo, Tach and Instrument Module) All models
- ABS Module (Delphi + CAN models) All models
- Radio, Thunder MAX EFI (models with 4-pin Datalink connector)
- · Read and Clear Diagnostic Trouble Codes All models, updated trouble codes, parameters and texts.
- Limits of Measured Parameters
- LHCM and RHCM (Left/Right Hand Control Modules) Parameters and Special Functions

- · Read Identification Data (part numbers, VIN number) All models
- Monitoring Real-Time Data (throttle position, temperature, oxygen sensors, turn signals etc.)
- Test Actuators (injectors, coils, main relay, fuel pump, idle, turn signals, tachometer, lamps, alarm etc.)
- Service Information and links to Owners Manuals, Wiring Diagrams and Parts Catalog.
- Buell diagnostics is incorporated in Harley-Davidson diagnostics
- Unit of Measure Selection Metric/Standard
- Communication Interface is CAN ready (models with 6-pin Datalink connector)

MOTORCYCLE REPORT

Search for and identify all embedded control units, read fault code memory and erase fault code memory by one button. Generate and print into a PDF file, a before and after motorcycle report with odometer reading.

TOOLBOX

- Special functions in one place with description of the function:
- Speedo Module: Parking Brake, Instrument External Indicator Bar, Traction Control Telltale (two wheels / trike), instrument TPMS option (disable/enable)
- · VSS Vehicle Speed Sensor calibration
- TSSM, HFSM, BCM Module replacement
- ABS Service (bleeding and configuration, Delphi and CAN models)
- · ACR Automatic Compression Release during starting
- EITMS Exhaust Actuator and Cruise Control (disable/enable)
- · Side Stand Switch configuration All Models
- · Intake Solenoid Valve configuration on CAN Models with 6-pin Datalink connector
- Chassis Fan Cooler configuration and Oil Cooler Fan (disable/
- Radio Customization All models including: RADIO BOOM!, BOX GTS 2019 - Speaker configuration, Radio region code, Digital Audio Broadcast, Rear Speaker switch installed, Navigation, TPMS (Tire Pressure Monitoring System), Audio input 1 2 and 3, CB Radio and Frequency, Intercom, WHIM (Wireless Headset Interface Module) Bluetooth, Apple CarPlay Mic Type, Apple Siri, SMS Text Messaging, Front and Rear Audio Output
- Custom Audio Flash J&M Corporation (Audio Flash Stage 5)
- · ABS Telltale configuration on CAN Models
- Radio Pairing, Buell TPS Adjustment, Speedo Pairing CAN Models Direct link within software to On-Line Help (www.doc4bike.eu)
- Reset AFV -Air Fuel Values on all HD models and Buell

- TCU Telematic Control Unit Module (installed / not installed)
- Exchange PTT and Cruise Control on Hand Control Modules
- Idle Speed Adjustment 800 1200 rpm. (models with Delphi EFI Module up to 2017, for models 2018-2021 idle speed adjustment is available in Advanced Tuning)
- TSSM Customization PIN (read/change), Auto Arming (disable/ enable), Key FOB assignment instruction
- HFSM Customization Key FOB (assignment/replacement), PIN (read/change), Auto Arming, Side Car and Service Mode (disable/
- BCM Customization Key FOB (assignment/replacement), PIN (read/change). Auto Arming, Sidecar, Service mode and Lights (disable/enable), Keyless Ignition, BCM Customization and Stealth Mode (disable/enable). Rider Assistance, ABS and Traction Control configuration. Fork Lock Switch configuration. TPMS Valve Assignment. Front and Rear Turn Signal (LED/Incandescent). EBAS - External Bank Angle Sensor (no EBAS, FLHTCUTG / FLRT). Power Lock Switch for saddlebags and trunk (disable/
- Disarming (HFSM/BCM module) PIN read/FOB assignment on armed bike (for BCM modules a CAN disarming cable is needed)
- TPMS configuration (disable/enable)
- Odometer Units Setting MIL/KM All Models
- Wheel Size Adjustment (Speedo calibration)

DIAG4® PARALLEL DIAGNOSTIC SYSTEM

Parallel diagnostics are designed for measuring input and output signals from the electronic fuel injection module (EFI) and other modules. Measurements can be made on running engines. The system consists of a wiring harness adapter and breakout box. The breakout box is inserted between EFI module and motorcycle's wiring harness so that the system continues to function as normal. Monitoring points for all connector pins of the EFI module are clearly arranged on the breakout box. It is possible to measure signals and waveforms from all systems and actuators. Disconnecting the ECU from the breakout box allows quick and reliable check of the integrity of the wiring harness in respect to continuity, and leakage currents. Universal connector kit includes common adapters (73 connectors) for non-destructive diagnostic operations on the wiring harness.

| Description | WPS# | List |
|--|-----------|----------|
| Breakout Box | 867-02022 | \$244.95 |
| 36 Pin Delphi EFI Adapter | 867-02023 | \$525.95 |
| 73 Pin Delphi EFI Adapter | 867-02024 | \$629.95 |
| 35 Pin Magnetti and Bosch EFI Adapter | 867-02025 | \$469.95 |
| 12/4 Pin Security Module Adapter | 867-02026 | \$224.95 |
| 18/18 Pin CAN BUS Delphi EFI Adapater | 867-02027 | \$509.95 |

ENGINE TUNING

- The tuning functionality is solely accessible through the DIAG4BIKE Serial Diagnostic Software and Interface.
- The tuning software, DIAG4TUNE, is included in the diagnostic software as an additional feature. To tune Harley and Indian motorcycles, a special hardware key MULTI-DONGLE must be purchased to use in conjunction with an additionally purchased tuning license.
- Software version 21.1 or higher and a full-time connection to the internet is required to use the MULTI DONGLE functions.
- The MULTI-DONGLE serves as a carrier of the electronic tuning licenses which are purchased online via the shopping cart inside the DIAG4TUNE program.

867-02054

• The tuning process does not require the installation of additional component(s) or any motorcycle harness modification. Tuning is based on the modification of EFI Calibrations (software modifications/reflash), exclusively via the diagnostic connector.

- Original calibrations read from the motorcycle are captured and stored on the Diag4Bike server which is secured at a professional level against data loss.
- The tuning process is used to optimize Fuel Maps in case of any changes to the configuration of engine components or accessories (exhaust, intake or cams, etc.). Pre-set tuning calibrations are available as well as customizable tuning and timing functions.

| Description | WPS# | List |
|----------------------------|-----------|-----------|
| Tuning Device Multi-Dongle | 867-02054 | \$74.00 |
| AFR Tuning Monitor | 867-02070 | \$474.95 |
| Lambda Installation Kit | 867-02071 | \$1425.95 |
| Lambda Install Kit Mini | 867-02072 | \$460.95 |

BLANK ECM FLASH FOR HARLEY

• This function is used to flash a new blank ECM from the manufacturer. By this function you can set a VIN number and after, flash the selected calibration according to that VIN number. It can also be facilitated with a used ECM. If this function is successful, you can continue into the DIAG4TUNE and its full range of functions. A tuning license is required for this function.

AFR TUNING MONITOR

• The AFR Tuning Monitor is used for the advanced tuning mode and consists of two wideband Air/Fuel ratio sensors and a compact electronic unit. It is an option for the DIAG4BIKE communication interface and can be used with a roller station or on road tests to develop custom VE (volume efficiency) fuel maps.

LAMBDA INSTALLATION KIT

• This set is an option to the AFR Tuning Monitor. It allows you to install a pair of wide band sensors on all exhausts where it is not possible to simply replace the installed O2 sensors (18mm thread). The set contains a powerful double pump. which ensures high accuracy and measurement speed of the actual AFR in each cylinder. The pump is powered by a 12V supply and can therefore also be used for road testing. An open pipe adapter is available to extract undiluted exhaust gas farther up the pipe.

INSTALLATION SET LAMBDA MINI

• This set is an option to AFR Tuning Monitor. It allows you to install a pair of wide band lambda sensors on all exhausts where it is not possible to simply replace the installed lambda sensors (18mm thread).

DIAGNOSTIC SCAN TOOLS

A. TWIN SCAN 4 COMPLETE KIT

- Includes both Twin Scan II ABS and Twin Scan 4 ABS units
- WEGO IIID Interface
- Two Bosch LSU 4.2 wide-band oxygen sensors
- Two 18 x 1.5 mm weld nuts, two 18 x 1.5 mm hex socket plugs
- · USB cable, probe kit, and software on CDROM

B. TWIN SCAN II ABS

- Compatible with 2003-2006 carbureted models with new 12 pin ignition module
- Anti-Skid Brake System (ABS) brake bleeding functions for 2008-2013 Touring models
- Support for 2006-2013 closed loop fuel injection systems
- · Real time display of engine data on instrument panel type display
- Uses laptop PC for display, includes Windows software

C. TWIN SCAN 4 ABS KIT

- Compatible with 2011-2018 Softail[®], 2012-2017 Dyna[®] and 2014+ Sportster® and 2014+ Touring models with CAN data bus (all models with a 6-pin diagnostics connector)
- Real time display of engine data on instrument panel type display
- Includes two analog inputs with 0-20V or +200V range
- Features two channel scopemeter capability for waveform display
- Analog inputs can also be used for air/fuel ratio
- Uses laptop PC for display, includes Windows software

D. TWIN SCAN PROBE KIT

- For scopemeter feature
- Two insulation piercing probes
- · 12 volt power adapter

E. TWIN SCAN WEGO UPGRADE KIT

- For customers with any Twin Scan II or 3 version
- Includes WEGO IIID Interface
- Two Bosch LSU 4.2 wide-band oxygen sensors, two 18 x 1.5 mm weld nuts, and two 18 x 1.5 mm hex socket plugs

| | Application | WPS# | List |

| G | Weld Nut for O2 Sensor | 132-7061 | \$8.40 |
| Н | Hex Plug for O2 Sensor Weld Nut | 132-7063 | \$8.40 |

*Compatible with 2001-2013 HD fuel injected models using the Delphi system (including V-Rod) with J1850 data bus.

Not compatible with 2011-2014 Softail and 2012-2014 Dyna models with CAN data bus

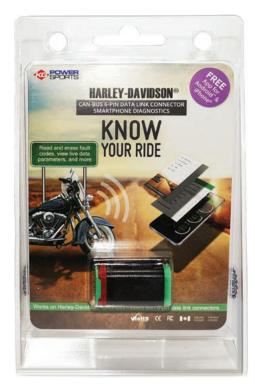

POWER SPORTS

MOTOLINK

SMARTPHONE DIAGNOSTIC TOOL FOR FUEL-INJECTED HARLEY-DAVIDSON® MOTORCYCLES

KG Powersports MotoLink[™] plug-and-leave adapter turns your smartphone into a powerful diagnostic tool! Save time and money on unnecessary shop visits when your check engine light comes on. Scan your Harley-Davidson bike's systems, including ignition, injection, immobilizer, dashboard, ABS, and radio. KG Powersports MotoLink adapter fits snugly into the bike's DLC diagnostic port. It connects to your smartphone via Bluetooth in seconds. No wires needed. Install free MotoLink app for Android or iOS and start monitoring your bike's health right away!

FEATURES

- Read and Erase Fault Codes: Diagnose your Harley-Davidson bike yourself. You
 can read diagnostic trouble codes (DTCs), also known as fault codes or error
 codes, with detailed descriptions. MotoLink reads all fault codes that are stored in
 your bike's electronic control unit (ECU). You can run a global search or choose
 individual systems, such as Dashboard or Immobilizer to check for errors.
- Save and Share Reports: You just caught an intermittent problem and want to show it to your mechanic? It's easy. Save the report and send it to your mechanic for faster turnaround on needed services. You can store and share multiple diagnostic reports from the MotoLink app.
- View Live Data Parameters and Visualize Engine Data: Get a real-time view of all important parameters, including engine temperature, pressure, battery voltage, and more. Easily look up your bike's VIN number and electronic control module's specs. Use MotoLink app's virtual dashboard to see live parameters displayed live on your smartphone.
- What's Included: Plug-in adapter, quick start guide, free app for Android and iPhone.

COMPATIBILITY

- The 6-pin adapter works on the following fuel-injected models with factory-installed Delphi® electronic control modules (ECMs) and 6-pin OBD data link connectors (DLCs) that support CAN bus protocol:
- 2012-2017 Dyna®
- 2011-2020 Softail®/Cruiser
- 2014-2020 Sportster®
- 2014-2020 Street®
- 2014-2020 Touring
- 2014-2020 Trike

The 4-pin adapter works on the following fuel-injected models with factory-installed Delphi® electronic control modules (ECMs) and 4-pin OBD data link connectors (DLCs) that support J1850 VPW protocol:

- 2004-2011 Dyna®
- 2004-2010 Softail®/Cruiser
- 2007-2013 Sportster®
- 2004-2013 Touring
- 2010-2013 Trike
- 2004-2017 V-Rod®

| Description | WPS# | List |

2000i 2KI PROGRAMMABLE IN CONE IGNITION

The Dyna 2Ki Programmable Ignition is the newest addition to the successful line of Dyna 2000 ignition systems. The 2Ki not only adds to, but extends many features of the best selling Dyna 2000 module out of sight in a completely new design that fits in the cone of Shovelhead and Evolution engines. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

- FOR CARBURETED MODELS.
- Single Fire operation down to zero rpm for easier cranking
- 8 advance curves to cover a broad range of engine builds and riding styles.

WPS#

133-3014

List

\$279.95

- Engine over rev protection adjustable from 6000 to 7500 rpm.
- · Adjustable timing retard for nitrous and turbo applications.

Description

Ignition Module Only `98-03 Sportster (Except XL1200S) Big Twins `70-98

- · Active Dwell Control.
- KIT'S COME WITH IGNITION AND COIL.

DYNA 2000 IGNITION MODULE

The Dyna 2000 Digital Ignition System for Harley-Davidson Motorcycles, which has become the standard for performance and versatility in the Harley aftermarket, has been enhanced to include even more features. Including expanded advance curve functionality, vacuum advance compensation, and a special Retard Mode for use with turbocharged and nitrous bikes. The Dyna 2000 allows selection between four different advance curves and four independent rev limiter settings from 6000 to 7500 rpm. Dyna 2000 ignition modules use the stock factory pick-up and simply plug into the existing factory wiring harness on 1991-1998 model bikes. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

• Ignition kits include the appropriate performance ignition coil

DYNA S IGNITION SYSTEM

The Dyna S High Performance Ignition System, designed for Harleys, is a complete self-contained electronic ignition system built with the latest state-of-the-art engineering. This is the same ignition used by top racers over the past 2 decades. The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, so the factory advance curve is maintained. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

Note: Must be used with 5 ohm coils for street operation

| Description | WPS# | List |
|----------------------------|----------|----------|
| 1970 & Later (Dual Fire) | 133-3001 | \$109.99 |
| 1970 & Later (Single Fire) | 133-3002 | \$182.95 |

DYNA S IGNITION KIT

The Dyna S High Performance Ignition System, designed for Harleys, is a complete self-contained electronic ignition system built with the latest state-of-the-art engineering. This is the same ignition used by top racers over the past 2 decades. The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, so the factory advance curve is maintained. Dyna high tech coils for Harley-Davidson Big Twins and Sportsters are American made, top quality performance coils . Tested and proven on street, racing, and touring motorcycles for over fourteen years. Dyna coils produce spark voltages in excess of 30,000 volts and spark energies second to none. All Dyna Coils are guaranteed against defects in materials and workmanship. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

- The 133-3003 Dyna S and coil system includes a 133-1086 high energy coil
- The 133-3004 Dyna S and coil system is designed for single-fire applications; includes two Dyna coils

| Application | WPS# | List |

| 1970 & Later (Dual Fire) | 133-3003 | \$214.95 |
| 1970 & Later (Single Fire) | 133-3004 | \$319.95 |

DYNA 2000 TC IGNITION

Dynatek's TC88 Digital Performance Ignition signals a new era in Twin Cam ignition power and capability. The TC88 enhances the power of the Single Fire ignition by allowing selection between 16 programmable advance curves, covering the entire range of engine modifications. From stock to insanely modified engines, the TC88 provides the widest range and highest level of advance curve functionality for Twin Cam available in today's market. There are also eight different rev limiter settings from 5750-7250 rpm. All TC88 functions have full digital accuracy to insure maximum performance with unparalleled quality. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

DYNA COILS

Dyna Performance Replacement Coils are high tech, top quality coils, designed for maximum performance. They produce spark voltages in excess of 30,000 volts and spark energies second to none. Dynatek coils are available in a wide variety of resistances and output configurations to allow easy replacement of stock coils. Dynatek coils work with factory electronic ignitions, points, and aftermarket ignitions. Choose from four body styles and five different primary resistance ranges to match your ignition needs. Advanced magnetic core technology of the Dynatek Mini Series Coils delivers high output in one of the smallest packages available. Great for customs where coils need to be hidden.

Before selecting a coil, check the coil primary resistance requirements as specified by the manufacturer of the ignition being used.

The Dyna Twin Fire coil is the new standard for performance and packaging efficiency for single fire ignition installations on Harley-Davidson Motorcycles. The Twin Fire coil incorporates two individual performance ignition coils into one easy to mount package. This solves the problem of trying to mount two ignition coils on Harleys when installing single fire ignition systems. The Twin Fire coil is only slightly larger than the stock Harley coil and uses the stock mounting bracket. The Twin Fire coil will fit under the tank on XL AND FLH models as well as in the stock location on the side of the motor for FXR models or rear of the motor for Dyna and Softail models. The DC6-4 is used for all dual spark plug head applications. The Dyna Twin Fire coil can be used with any electronic advance ignition system that incorporates dwell control, but cannot be used with the DS6-2 Dyna S or similar ignitions. Not legal for use in California on pollution controlled vehicles - Check local laws before installing.

V-TWIN IGNITION SYSTEM

- Precise digitally set RPM limiter (200 RPM steps from 5200 to 7200 RPM)
- · Status LED for easy static timing
- Electronic dwell control for maximum ignition energy at high RPM and reduced current draw at low RPM
- · Simple two wire hookup to coil for easy installation, dual fire only
- Operates down to below 6 volts for reliable starting under all conditions, including kick start
- Fully encapsulated construction using surface mount electronics
- · Waterproof and highly resistant to vibration and shock

| Application | WPS# | | List |
|--|----------|------|--------|
| `70-99 Big Twin Models, `71-97 XL Models | 132-7017 | * \$ | 158.55 |

COMP MASTER IGNITION ADVANCE ASSEMBLY

The Comp Master™ advance assembly kit is made from a high grade stainless steel so it won't rust. The weights are completely saturated with a specially formulated polymer coating that protects it from heat saturation, reduces friction, strengthens the component and makes it more efficient. The kit includes the center bolt. The Comp Master $^{\text{TM}}$ advance unit was created to not only upgrade a points style ignition, but also to enhance the early electronic ignitions and to convert electronic ignitions back to the simplicity of a points ignition.

Fits all models up to the introduction of the Twin Cam models.

| Description | WPS# | List |
|--------------------------------|-----------|---------|
| Ignition Advance Unit Assembly | 827-07100 | \$79.95 |
| Timing Screw | 827-07101 | \$9.00 |
| Ignition Advance Rebuild Kit | 827-07102 | \$29.95 |
| Advance Unit Springs | 827-07103 | \$17.95 |
| | | |

HIGH OUTPUT IGNITION COILS

- Designed for aftermarket and OE ignitions
- Fuel injected and Carbureted applications
- Daytona Twin Tec ignition coils exceed OE specifications
- Not legal for use in California on pollution controlled vehicles Check local laws before installing

| Application | WPS# | List |
|---|----------|----------|
| `70-99 Carbureted Evo and `71-97 Carbureted Sportster Models ARB E.O. No. D-641-2 | 132-7019 | \$115.50 |
| `99-06 Carbureted Big Twin and `04-06 Carbureted Sportster Models | 132-7020 | \$112.35 |
| `01-07 Twin Cam Models with Delphi System (Except 2006 Dyna) | 132-7021 | \$118.65 |

MINI IGNITION COIL

- 3 ohm mini coils are 50 states street legal
- Do not use the 3 ohm mini coils for any breaker points, Dyna-S series, Harley-Davidson Twin Cam applications or for any Japanese/European motorcycles with CDI type ignition requiring low resistance coils.

| Application | WPS# | List |
|---|----------|----------|
| `84-99 Evo Big Twin Models, `86-93 XLH 883 and `86-87 XLH 1100 | 132-7040 | \$70.35 |
| Coil Kit (Includes Two Coils and Universal Spark Plug Wire Set) | 132-7038 | \$140.70 |

SPITFIRE COILS

- High-quality performance coils designed to provide spark voltages in excess of 35,000V
- 3 Ohm
- Angled output
- For single fire, dual or single plug heads
- Additional brackets required for installation
- Sold individually

| Application | WPS# | List |
|-----------------------------------|----------|----------|
| For Single Fire Dual Plug Heads | 132-7200 | \$115.50 |
| For Single Fire Single Plug Heads | 132-7201 | \$115.50 |

IGNITION POWER RELAY KIT

- Recommended when converting high compression and large displacement engines to single fire
- · Hard start assist
- Improves or eliminates the voltage drop

| Description | WPS# | List | |
|--------------------------|----------|---------|--|
| Ignition Power Relay Kit | 132-7018 | \$22.05 | |

139-10013

COILS

- 3 OHM, 50,000 volts
- Not for EFI models
- Not for use on Dyna S, or points style ignitions
- 139-10012 for aftermarket ignitions
- Sold Each

139-10012

• Made in the USA

| Description | Application | WPS# | List |
|-------------|------------------------|-----------|----------|
| Single Fire | `70-98 BT, `72-01 XL | 139-10012 | \$108.95 |
| Dual Fire | `80-02 BT (except EFI) | 139-10013 | \$81.95 |

ACCEL SUPER COILS

- The standard by which other coils are measured
- Faster rise times, higher voltage, and maximum spark energy to the plug
- Delivers up to 45% more voltage than OE coils
- Available for both electronic and points triggered ignitions
- Designed to fit in stock locations and under most coil covers
- Covered by ACCEL's famous limited Lifetime Replacement Warranty
- Not legal for use in California on pollution controlled vehicles Check local laws before installing

STEALTH SUPERCOILS

The all new ACCEL Stealth SuperCoil is the hottest looking and best performing ignition coil on the market. The ACCEL Stealth SuperCoil eliminates the need for ignition wires forever by mounting the coil directly to the spark plug. A beautiful cast aluminum cover holds the coil in place and acts as a functional heat sink to pull heat away from the cylinder head. All wiring is hidden in the fins of the head for a clean and custom look. Like all of our SuperCoils, the Stealth SuperCoils are covered by ACCEL's famous limited lifetime warranty.

274-0061

Features

- Mounts the coil directly to the spark plug
- · Custom, clean, wireless appearance
- Proven automotive technology for your air cooled Twin
- · Maximum spark energy to the plugs
- · Limited Lifetime Warranty

WIRES FOR COIL RELOCATION KITS

- 409 PRO RACE wires provide continuous heat protection up to 600 degrees fahrenheit
- The 10.4mm wires deliver 102,000 volts dielectric strength
- Spiral-Wound core with 350 ohms per foot resistance for EMI and RFI suppression delivers the maximum fire power without radio interference
- Designed for use with electronic ignition systems found on Harley-Davidsons. They are 100% compatible with the Ion Sensing Knock Retard System used by Harley-Davidson
- Low Profile 100% silicone PRO BOOTS feature vibration proof double spring locking spark plug terminals.
- · Available in red and black
- · Perfect for DK Custom coil and v-coil relocation kits

HIGH PERFORMANCE IGNITION WIRE

All Moroso spark plug wires feature silicone plug boots that withstand high temperatures (up to 600°), and have a silicone jacket to reduce heat and chafing. Locking stainless steel terminals that stay connected under high vibration and are fully compatible with the Harley-Davidson® ION sensing coils used on virtually all late model bikes. Moroso High Performance Ignition wire combines state of the art engineering with the Finest "Made In the USA" workmanship and the very highest standards of quality control available.

SEALS

- 2000-4000 ohms per foot
- Excellent choice for tune ups and OEM replacement.
- · Perfect for stock engines
- Works well with OEM Ignition Coils and electronics
- Inner silicone insulation Outer EPDM insulation Jacket
- MADE IN THE U.S.A.

Spiral Core

- 800 ohms per foot
- Compatible with H-D Ion Knock Sense Ignition Coils
- Great Performance Upgrade for Stage 1 bikes
- An Excellent Performance upgrade from OEM/ Suppression Wire
- Works great with High Performance Aftermarket Coils
- Dual Layer EPDM and Silicone Insulation jackets
- . MADE IN THE U.S.A.

Ultra 40

- · 40 ohms per foot
- Compatible with H-D Ion Knock Sense Ignition Coils
- The Ultimate High Performance Ignition Wire Upgrade for your Build
- Excellent choice for Stage 2/3/4 Bikes
- Designed for Ultra spark transmission on High Compression and High Energy Ignition Systems
- Excellent EMI/RFI insulation to protect from Radio, GPS, and Electronics Interference and feedback found when installing High voltage Ignition coils
- Dual Layer EPDM and Silicone Insulation jacketsstrength
- MADE IN THE U.S.A.

8.8_{MM} UNIVERSAL WIRE SETS

- Premium quality ACCEL 8.8mm ignition wire in universal kits
- Available for 2 and 4 plug applications for electronic and points type ignitions
- Pre terminated with either a 90 deg or variangle heavy duty spark plug boots
- 2 plug kits contain one 42" wire, brass terminals, coil boots and instructions
- 4 plug kits contain two 42" wires, brass terminals, coil boots and instructions
- The ultimate in performance and reliability for street and racing use

RACING CABLE

Designed to deliver maximum spark energy for today's extreme performance applications.

- High performance RED SILICONE outer shell for maximum heat resistance and durability
- High quality ceramic resistor (5k ohm) enhances protection against RFI (radio frequency interference) which can disrupt electronic ignition performance and lead to misfire
- Molded cap design keeps water out, giving you the confidence needed to win races
- Solid copper wire strand inner core
- Resistor covers in either straight or 90 (degree) configurations
- Fits most applications for watercraft, snowmobiles, motorcycles and karts
- In-line wire connector provides a hassle free watertight connection – sold separately

LIGHTED SPARK PLUG CAPS

- Lights up to show electrical current
- · Easily threads into spark plug wire

| Description | Color | WPS# | List | |

NICKEL

These spark plugs feature a specially designed v-groove center electrode.

- · Increased heat dissipation for more reliable starts and reduced risk of overheating.
- · Cold-rolled threads prevent cross-threading and damage to cylinder heads

Year | OEM # | Standard

- Trivalent plating eliminates need for anti-seize
- · High-grade alumina silicate ceramic
- NGK is OEM supplier to most major manufacturers
- · Spark plugs come pre-gapped
- Made in Japan

SPARK PLUGS

IRIDIUM

The improved throttle response, superior anti-fouling and highignitability makes Iridium ideal for the performance enthusiast.

- Iridium's extremely high melting point is perfectly suited to today's high-temperature engines
- Fine iridium tip ensures high durability and a consistently stable spark
- Trivalent metal plating for superior anti-corrosion and antiseizing properties
- · Outstanding acceleration, high fuel efficiency and durability

• Spark plugs come pre-gapped

· Made in Japan

List

HIGH PERFORMANCE PLATINUM SPARK PLUGS

- · Made from the finest materials available to ensure long trouble free operation
- · Premium quality platinum tip is more durable than other plug material
- Maintains proper gap much longer than standard plugs
- · Pure copper center electrode for reduced fouling
- · Enjoy easier starting, smooth idling and increased performance
- Sold in packs of 2

HIGH PERFORMANCE U-GROOVE SPARK PLUGS

- Patented U shaped ground electrode produces a wider, hotter spark
- Heavy duty 5 rib insulators prevent flashover
- High quality copper/nickel alloy electrode
- Highly foul resistant and dissipates heat better than any other material
- Improves engine efficiency and reduces emissions
- · Increases throttle response

INDEX

All Autolite Spark Plugs sold in BOX quantities of 4, priced each

COPPER CORE2

- Copper-glass seal bonds insulator, terminal post center electrode together; assures full required voltage at spark gap; gas-tight seal (100% leak proof)
- Multi-rib insulator reduces danger of "flash-over"
- One-piece terminal post adds strength
- Resistor reduces radio frequency interference (RFI) and electrode erosion
- Cold-formed steel shell precision rolled threads
- Full copper core electrode provides better performance in all conditions
- Verify all cross reference listings before purchase

All Autolite Spark Plugs sold in BOX quantities of 4, priced each

EXTREME SPORT IRIDIUM

- Engineered to meet or exceed OE designs and withstand the extreme operating temperatures experienced during a power sports engine's combustion
- Iridium-enhanced 0.6mm fine wire design for improved ignitability, faster fuel combustion and a more focused ignition versus standard plugs
- Up to 26 percent quicker starts compared to that of standard plugs and as much as 21 percent less hydrocarbon emissions than standard plugs, which promotes better fuel efficiency and horsepower
- Verify all cross reference listings before purchase

PREMIUM FACTORY ACTIVATED BATTERIES

- · Higher CCA rating compared to same series standard factory activated batteries (GYZ32HL boasts 32 amp hours and 500 CCA)
- Non-spillable design
- · AGM separators
- · Heavy duty terminals
- · Made in the USA!
- 1 Year warranty

| Battery Model Number | Cranking Amps | WPS# | List |
|----------------------------|------------------|----------|----------|
| YTX14L / GYZ16HL | 240 | 490-2658 | \$120.95 |
| YTX20 / YTX20H / GYZ20H | 320 | 490-2656 | \$140.95 |
| YTX20L / YTX20HL / GYZ20HL | 320 | 490-2657 | \$140.95 |
| YIX30L / GYZ32HL | 500 | 490-2655 | \$194.95 |

Batteries require full charge prior to installation.

FACTORY ACTIVATED SEALED BATTERIES

- Designed for American V-Twin motorcycles
- · Heavy duty brass terminals
- · Activated and sealed at the factory (freshening charge is recommended prior to installation)
- Calcium alloy technology: Improves cranking power and helps give the battery longer life
- · Valve regulated lead acid design: Sealed nonspillable design eliminates leakage
- · Safety valve flame arrestor: Safely regulates internal pressure
- Tight-pack absorbed glass mat separators: Absorbs acid & reduces damage due to vibration
- · Spill-proof sealed battery: Sonically sealed cover allows for angled battery mounting if needed for more mounting options
- 1 Year warranty

Batteries require full charge prior to installation.

| | Cranking | | |
|----------------------|----------|----------|----------|
| Battery Model Number | Amps | WPS# | List |
| YTX14L | 220 | 490-2653 | \$97.95 |
| YTX20L/YTX20HL | 325 | 490-2651 | \$128.95 |
| YIX30L/YB30L-B | 400 | 490-2652 | \$161.95 |

RESTART LITHIUM ION BATTERIES

- The Antigravity Restart lithium battery is the first battery manufactured with built-in jump-starting technology, so you won't ever get stranded with a dead battery again! This compact, lightweight lithium-ion battery directly replaces many OEM powersport batteries and can also be used in custom applications
- The Restart batteries features include a BMS (battery management system) with over and under voltage and thermal protection along with real time lithium ion cell balancing
- For custom/high performance applications, make sure to match the cranking amps needed for the application to the appropriate battery
- Antigravity only recommends the use of a powersports specific lithium battery charger.

Restart batteries include a 3 year pro-rated, nontransferable warranty (registration of the battery with the manufacturer is required within 30 days of purchase by the retail customer). All warranties are to go back through

Restart batteries are not for use with internally modified V-Twin engines or V-Twin engines 103 cubic inches (1680cc) or larger, warranty will be void if used in these applications. Not for use in watercraft applications.

MAINTENANCE FREE 12 VOLT BATTERIES

- · Absorbed Glass Mat (AGM) technology
- · Sealed impact resistant polypropylene case
- · A must for motorcycles and ATVs that require a sealed
- 1/2 the price of an OEM sealed battery
- Must be mounted in upright position
- · Comes with pre-measured acid pack

SEALED FACTORY ACTIVATED BATTERIES

- · Advanced Absorbed Glass Mat (AGM) technology
- · Sealed maintenance free design
- 1 Year free replacement warranty
- · Battery comes filled and pre-charged from the manufacturer (freshening charge recommended before installation)

GYZ SEALED

- · Highest CCA rating compared to the same series lead acid batteries
- · AGM separators, Non-Spillable design
- · Heavy duty flush terminals
- 1 year warranty
- · Factory filled and sealed

GRT SEALED

- Once filled and permanently sealed "Install it and forget it"
- · Easily meets or exceeds all OEM requirements
- Will hold a specific gravity 3 times longer than a conventional battery
- Contains sulfate stop to retard sulfation on plates
- 1 year warranty
- · Comes with pre-measured acid pack

YTZ MAINTENANCE FREE

- 12 Month Warranty
- · Longer life than conventional batteries
- Spill-proof design
- · No additional hazardous shipping fees
- · Discharges less in storage for longer life
- 1 year warranty
- · Factory filled and sealed

VINTAGE BATTERY CHART

Firepower Standard Battery With Acid Pack

- Meets or exceeds OEM specifications
- Extremely strong polypropylene cases to withstand impacts and vibration
- 1 year warranty on all batteries if properly pre-serviced and charged
- · Anti-Sulfate treated for longer life
- Shelf-life almost infinite due to dry-charged plates
- Designed for higher cold cranking AMP capacity
- Comes with pre-measured acid pack

Yuasa Standard Battery

- Special thin separators allow two extra plates per cell to be installed, for a 30% improvement in cranking performance
- Engineered to protect against corrosion, withstand vibration, and deliver high cranking power
- 1 Year warranty
- Must purchase acid pack separately

BATTERY CABLE KITS

- All Balls battery cables are manufactured with pure electrolytic grade, 36 gauge copper wire strands
- Increase starter performance by reducing voltage losses from undersized battery cables
- The 7 over 7 bundling of the copper strands maximizes current flow and flexibility of the cable
- The outer jacket material is rated for 257°F and is oil and gas resistant
- Cables are available in individual lengths, application specific cable kits, and 25ft custom cable kit allowing for custom build lengths

BATTERY CABLES

- Stranded copper extends the entire length in the flattened lug
- PVC insulation with heat-shrunk ends, .39" terminal lug hole

RELAY / FLASHER CONNECTOR

- Connects either 4 or 5 terminal relays or flashers
- 14 Gauge wires
- 12 volt, 40 amp relay capacity

Cable Lugs

Terminal Crimping Tool

BULK BATTERY CABLE AND LUGS

- 100% Copper cable with CPE insulation, available in 4 and 6 gauge sizes, rated at up to 60 volts
- · Battery cable meets all SAE codes and J1127 specifications
- Tin plated copper tube lugs, 1/4" terminal hole
- · Lugs can be either soldered or crimped

DIGITAL BATTERY TESTER

- Tests cold cranking amps (CCA) on all 12 volt lead acid, lead gel and lithium hatteries
- Works with powersport and automotive batteries
- · 2000 CCA test capacity
- · Shows, voltage, state of charge and

state of health of the battery

- · Adjustable backlight display, can be used in varying light conditions
- · Also capable of testing most automotive and some powersport vehicle charging systems*
- Includes storage case

CCA capacity of the battery will need to be known for proper testing, CCA list is included with the instructions. Contact WPS if your powersport battery is not listed.

*The primary intention for this tester is to analyze a batteries condition, if it does not analyze a charging systems condition properly, it does not mean that the tester is at fault.

| Description | WPS# | List |
|------------------------|----------|----------|
| Digital battery tester | 490-9951 | \$199.95 |

12 VOLT/2 AMP BATTERY CHARGER

Charges and maintains all 12 volt lead acid, gel and lithium iron phosphate (LiFePO4)/lithium ion polymer powersport batteries.

- CONSTANT CURRENT CHARGE If the battery voltage is over 10 volts, the charger will deliver a 2 amp charge until the battery reaches 14.2 volts
- MAINTENANCE CHARGE When the battery reaches 14.2 volts, the charger will automatically convert to maintenance mode. The charger will revert to charge mode when the voltage drops below a specified voltage
- LOW VOLTAGE RECOVERY If battery voltage is below 8 volts, the charger will apply a .2 amp charge to recover the battery, once the battery reaches 8 volts, the charger will apply a .5 amp charge, at 10 volts a full 2 amp charge is applied until the battery is fully charged
- AUTOMATIC VERIFICATION STAGE Charger automatically stops charging if the battery does not reach at least 10 volts after 2 hours of charging
- · SAFETY Power is not passed thru the charging leads unless they are connected to a battery
- LED indicator light shows charging status
- · Includes heavy duty clamps and fused ring terminal SAE adapter

| WPS# | List | |
|----------|---------|--|
| 490-9950 | \$69.95 | |

6 AND 12 VOLT BATTERY CHARGER

- · Converts from 6 to 12 volts at the flick of a switch
- · Snap-cord style leads
- Economically priced

| Description | WPS# | List |
|---------------------------|---------|---------|
| Charger | 56-1111 | \$28.95 |
| Replacement Battery Leads | 56-1110 | \$3.75 |

6/12 VOLT, 4 AMP SELECTABLE BATTERY CHARGER

- · 6/12 Volt/4 amp battery charger/
- Selectable for AGM/conventional/gel or lithium (LiFePO4) batteries (12 volt only
- ISM™ (Infinite Sequential Monitoring) of the fully automatic 4-step charge process: qualification/bulk charge/ absorption/float

Description 6/12 Volt, 4 amp **56-1120**

- · Microprocessor controlled
- · Spark proof, short circuit and reverse polarity protected
- · State of charge LED indicators
- · Includes alligator clips and ring terminals
- · Listed in the California Appliance Efficiency database
- 5 Year warranty

12 VOLT, 1.25 AMP SELECTABLE BATTERY CHARGER

- 6/12 Volt/1.25 amp battery charger/ maintainer
- · Perfect for all lead-acid, flooded (conventional) and sealed maintenance free batteries (AGM and gel cell)
- Complete 4-step charging program: initialization/bulk charge/absorption

Description WPS# 6/12 Volt. 1.25 amp **56-1115 \$77.95** mode/float mode

- · Spark proof, short circuit and reverse polarity protected
- · Includes alligator clips and ring terminals
- · Listed in the California Appliance Efficiency database
- 5 Year warranty

12 VOLT, 800 MA SELECTABLE BATTERY CHARGER

- 12 Volt/800 mA (.8 amp) battery charger/ maintainer
- Selectable for powersport AGM, flooded, GEL or lithium (LiFePO4) batteries
- ISM™ microcontroller constantly updates charge sequence for smooth transitions between charging steps

Junior 12 volt, .8 amp 56-1119 \$46.95

Description

WPS#

- · Spark proof, short circuit and reverse polarity protected
- · Plugs directly into the wall
- · Includes alligator clips and ring terminals
- · Listed in the California Appliance Efficiency database
- 5 Year warranty

12 VOLT. 800 MA WEATHERPROOF BATTERY CHARGER

- Weatherproof 12 volt, 800 mA (.8 amp) battery charger/maintainer with "SuperSmart" technology
- Constantly monitors, charges and maintains batteries
- Perfect for all powersport lead-acid,

Description 12 volt weatherproof **56-1131 \$59.95** flooded or sealed maintenance free batteries (AGM and gel cell)

- · Spark proof, short circuit and reverse polarity protected
- · Includes alligator clips and ring terminals
- · 3 Year warranty

PLUS

Bellioy Concley

SAFE, RELIABLE, TROUBLE FREE BATTERY CARE!

Developed to maintain batteries in vehicles not in constant use and stored over lengthy periods of time.

FULLY AUTOMATIC CHARGER

 Automatically switches after fully charging to storage charge; constantly monitors the battery without the damaging effects of trickle charging

These chargers do NOT meet California/

 After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts • Improved circuit design provides better absorption for sealed batteries

• Five year warranty

ALUMINUM CONSTRUCTION Equipped with 6' power cord, 6" output cord with clamps, and 6" quick disconnect output cord.

| Description | WPS# | List |
|--------------------------|---------|---------|
| 12 Volt. 1.25 amp "Plus" | 56-1130 | \$76.95 |

Oregon appliance efficiency standards.

MULTIPLE BANK PLUS

The multiple bank Battery Tender Charging Stations have two or four encased 1.25 amp battery chargers designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. This charger will operate anywhere in the world!

- 2 or 4 independent charging stations
- 12 volts @ 1.25 amps per station
- Operates anywhere in the world, 100-240 VAC 50/60 Hz
- Microprocessor controlled constant current charging

These chargers do NOT meet California/Oregon appliance efficiency standards.

- Reverse polarity protected, spark proof
- Perfect for all AGM (absorbed glass mat), sealed maintenance free and flooded batteries
- Complies with US and international safety standards (UL/CE)
- 2 year warranty

BATTERY MANAGEMENT SYSTEMS

- Charges/maintains up to 5 or 10 batteries simultaneously, 6 or 12 volts @ 4 amps
- AGM/Standard or GEL/Lithium 12V switchable
- To avoid dangerous dead-short sparking, microchip circuitry will not activate output voltage until clips are correctly connected to battery
- · Maintains batteries at full charge

- 4 amps per output charging current
- Clamps included
- · Safety timer: 25 hrs.
- AC power cord length: 6 ft. - 16 AWG
- DC output cord length: 10 in. - 16 AWG
- · 3 Year limited warranty

SEAL!

- Compact size, 5" x 2.8" x .875", weighs just 9.75 oz
- · Enough power to start up to a 5 liter non-modified gas engine
- · Charges/powers most all personal electronic devices (except laptops)
- · Built-in LED flashlight with 3 beam modes
- · Recharges from any standard USB power port

INCLUDES:

- · Micro-Start Sport PPS
- · Nylon carry case, holds and keeps all parts neatly organized
- · Smart mini jumper clamps with multiple safety protections built-in (prevents reverse polarity connection, over-charge, over-discharge, short-circuit,

back-charge)

· Universal 4-into-1 USB cable (Tips:

WPS#

Mini USB, Micro USB, Type C USB, Apple 8-pin)

List

\$99.99

· Instruction manual

Not for use with diesel or large displacement V-Twin engines

• Power: 150 continuous/300 peak amps

SPECIFICATIONS:

• Capacity: 7,500 mAh

. Charging port: USB 5V

• Flashlight: 70 Lumen LED

XP-1

FEATURES:

- Dimensions: 6.75" x 3.25" x 1", weighs 15.25 oz
- · Enough power to start up to a 6 liter nonmodified gas engine
- · Charges/powers most all personal electronic devices including 19 volt laptops (not compatible with 16 volt Apple)
- · Built-in LED flashlight with 3 beam modes
- · Recharges from any standard USB power port, cigarette lighter outlet or included wall charger

| Description | WPS# | List |
|------------------|---------|----------|
| Micro-Start XP-1 | 58-7102 | \$149.99 |

INCLUDES:

- Micro-Start XP-1 PPS
- · Leatherette carry case, holds and keeps all parts neatly organized
- · Smart mini jumper clamps with multiple safety protections built-in (thermal protections & multiple safety features: prevents reverse polarity connection, over-charge, over-discharge,

short-circuit, back-charge)

- · Universal DC cable for most all 12V accessories & 8 detachable laptop tips (fits many but not every laptop charging port. Fits: Apple, Acer, Dell, HP, Asus, more)
- Universal 4-into-1 USB cable (Tips: Mini USB, Micro USB, Type C USB, Apple 8-pin)
- · Mobile charger (plugs into cigarette lighter
- · Home charger (plugs into wall outlet)
- Instruction manual

SPECIFICATIONS:

- Power: 200 continuous/400 peak amps
- Capacity: 12,000 mAh
- Ports:19V + 12V + two USB 5V
- Flashlight: 110 Lumen LED

MICRO-START JUMP START PACKS

XP-3

FEATURES:

- Dimensions: 6" x 3" x 1", weighs 15 oz
- Enough power to start up to a 5.7 liter nonmodified gas engine
- Charges/powers most all personal electronic devices (except laptops)
- Built-in LED flashlight with 3 beam modes
- Recharges from any standard USB power port, cigarette lighter outlet or included wall charger

SPECIFICATIONS:

- Power: 200 continuous/400 peak amps
- · Capacity: 8000 mAh
- Ports: Two USB 5V
- Flashlight: 110 Lumen LED

INCLUDES:

- Micro-Start XP-3 PPS
- Nylon carry case, holds and keeps all parts neatly organized
- Smart mini jumper clamps with multiple safety protections built-in (thermal protections & multiple safety features: prevents reverse polarity connection, over-charge, over-discharge, short-circuit, back-charge)

PS-45 PORTABLE POWER STATION

The Antigravity PS-45 is an extremely compact, lightweight lithium-ion portable power station that offers a best in class 45,000mAh of capacity and wide variety of output ports. Charge and power phones, tablets, GPS units, cameras, laptop computers, camp lighting and much more.

- Five power outputs: (2) 12 volt DC (9-12.5 volt/10 amp max./5.5mm port), (2) USB (QC3.0 support, 5 volt/9 volt/2.1 amp), (1) 110 volt AC (100 watt continuous/200 watt peak)
- Built in LED light (1 watt, up to 166 hour run time)
- Battery indicator: 4 LED display (25%-100%)
- Battery Management System (BMS): overload, overvoltage, overcharge, overcurrent, overpower, and short-circuit protections
- Includes wall charger (6-8 hour charge time)

Battery capacity: 45000mAh/3.7 volt, 166 watt hour Weight: 2.86 lbs.

Dimensions: 6" long x 3" wide x 6.3" tall

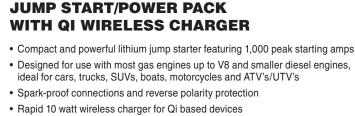

JUMPSTART PACKS

- Hapid 10 watt wireless charger for QI based devices
 Repharms parsonal devices on the go via LISP cable; smartphone
- Recharges personal devices on the go via USB cable: smartphones, tablets, e-watches and more
- Ultra-bright LED flashlight with emergency strobe
- Hot and cold LED indicators of the internal battery operating temperatures to protect your batteries and devices
- 1 Year warranty and free lifetime customer support

WPS# List 56-1196 \$168.95

JUMP START/POWER PACK

- Compact and powerful lithium jump starter featuring 800 peak starting amps
- Designed for gas engines up to V6 and smaller diesel engines, ideal for cars, light trucks, SUVs, boats, motorcycles and ATV's/UTV's
- Spark-proof connections and reverse polarity protection
- Recharges personal devices on the go via USB cable: smartphones, tablets, e-watches and more
- Ultra-bright LED flashlight with emergency strobe
- Hot and cold LED indicators of the internal battery operating temperatures to protect your batteries and devices
- 1 Year warranty and free lifetime customer support

WPS# List 56-1195 \$128.95

JUMPSTARTER MINI

- 6,000 mAh battery provides 360 amps peak/200 amps continuous power
- Capable of starting most gas engines up to 2,000 cc's
- Smart jumper cables with built in jump pack protection guards against overvoltage and accidental reverse polarity hook-up
- Built-in LED flashlight, includes hard shell storage case
- Two USB outputs (2.1 and 1 amp) for charging personal devices
- Includes 3-in-1 USB charging cable (micro USB/USB C/iPhone), allows for charging of jump pack or charging of other devices
- Dimensions: 5.25" x 2.6" x .65", weight: 6.25 ounces
- 1 Year warranty

7" ADAPTIVE LED HEADLIGHTS

The Adaptive 2 Series headlights have been improved to feature Adaptive technology when using the high beam, in addition to the low beam. Providing ditch-to-ditch lighting to eliminate dark corners on sharp turns and a punch of light 1,500 feet down the road to give you a safer and more confident ride to master the corners.

- · Improved to feature adaptive technology with the high beam, in addition to the low beam
- On-board intelligence senses leaning angles when cornering to control light
- · Dynamically fills in dark areas while turning
- · Breakthrough improvement in visibility and safety
- Plug & play solution for 7" round (also known as PAR56) motorcycle headlight buckets
- DOT & ECE dual-compliant headlight
- Dual Burn™ high & low beam optics for extra punch of light
- ComfortLite™ high beams
- · Some models may require an adapter ring for installation (sold separately)
- Made in the USA, limited 5 year warranty!

7" Premium LED Headlight and

7" Premium Wide-Array LED

Headlight with Full-HALO and

Passing Lamps

Passing Lamps

BEAST 2 HEADLIGHT 7"

Built in Daytime Running Light (DRL) will add more visibility and style to the headlight. For vehicles without DRL wiring, they can be wired directly with the low beam (normally white wire) without usage of external relays. Another option is wired directly to accessory switch to be able to turn on DRL as an accent light with the motor off.

- · Long throw low beam
- · Superior color contrast in all road conditions
- · DIY installation
- · Wide operating voltage
- · Installs in minutes on most bikes
- · Remains bright regardless of battery condition
- · Hi/Lo dual beam
- Daytime Running Light (DRL) connections (except Pitch Black)
- · DOT compliant
- 105 Watts
- 4800 Lumens

Package includes H4 to H13 and H4 to Harley 4-pin adapters. Harley models with dual headlight bulbs can use the 4-pin to H4 adapter, except Roadking 2016+ with dual bulbs which will need 226-0204. Consult your vehicle user manual for type of bulb and the fittings. 2 years manufacturer warranty.

Batwing Fairing and Nacelle buckets that currently do not have stock LED daymakers require 227-0003 trim ring bracket for the proper alignment of the headlight beam. Use WPS# 226-0033 for black trim ring bracket.

URBAN 7" HEADLIGHTS

The new generation of Cyron 7" "Urban", now with 20% more power, is a wide angle headlight designed for city street riding. Perfect headlight when passing/fog lamps are not being used. Lights have built in white and amber Daytime Running Lights behind two ultra clear lenses. Dedicated DRL wires for amber and white light make it possible to turn on DRL lights independent of the headlight. They can be connected directly to the ignition or spliced in with low beam wire.

HIGH DEFINITION 7" LED HEADLIGHTS

226-0046

Projector Design: the light source behind a projector is much more intense and the projector lens helps project the light source further and wider down the road. This is why higher end vehicles use projectors and not reflectors in their headlight system.

- · Better visibility day or night
- Impact resistant Polycarbonate Lens
- Dia-Cast aluminum
- Color Temp: 6000k
- 2400LM low beam and 3200LM high beam
- '14-Up Touring models require LED adapter 226-0036 sold separately (not required for '16 Freewheeler)
- Adapter ring required for Touring models with Batwing faring or Nacelle 226-0033 (sold separately)

HORIZONTAL/VERTICAL **LICENSE MOUNT**

Accutronix "horizontal" and "vertical" side mount license plate kits will really clean up the back of your Sportster. They mount to the left side of the swing arm and are secured with the axle nut. Installation instructions and mounting hardware are included as required. Depending on how you assemble it, your license plate will sit "horizontal" or "vertical". Machined from 6061 T-6 Billet Aluminum.

| Curved LED License Plate Kit | 880-4080 | 880-4081 | \$149.99 |

LED LICENSE PLATE FRAMES

- These dual intensity LED License Plate Frames have been designed to give greater visibility and conspicuity to your motorcycle
- Engineered to function in both high and low intensity brightness for a multitude of applications
- Because many motorcycles have only one brake/running light bulb, these units can easily be used as back-up brake, and running lights, providing you a greater degree of safety and added visibility
- Some models feature 3 amber LEDs on both sides of the light bars that function as auxiliary turning signals
- Mount and install this beautifully crafted license plate frame and give your bike an excellent finished appearance compared to an otherwise obtrusive license plate

| | Description | WPS# | List |

STEALTH III LICENSE PLATE KITS

- Cleans up the look of your CVO and does away with the ugly light box
- Hidden LED's in the frame illuminate the license plate
- True plug-n-play direct bolt-on installation (for CVO models)
- Can universally fit any curved fender by drilling two holes

| Application | Black | Chrome | List |
|-------------------------------|-----------|-----------|----------|
| CVO FLH/FLT `09-Up | 827-05460 | 827-05461 | \$164.95 |
| FLHX/FLTR `10-Up FLTRS `14-UP | 827-05730 | 827-05731 | \$189.95 |

STEALTH II LICENSE PLATE FRAME

The Stealth 2 License Plate Frame is a billet frame that's perfect for frenched rear fenders with plate boxes, or any license plate application when no back plate is required. It has a hidden LED strip to illuminate your license plate.

| Application | Black | Chrome | List |
|-------------|-----------|-----------|----------|
| Universal | 827-05350 | 827-05351 | \$149.95 |

BAG LIGHTS

These LED turn signals fit nicely between the saddlebag & fender on a custom FLH or on any flat surface. They are a great solution for adding rear lights to custom baggers. The LED unit is a 3-wire light & can be used as a running, turn and/or brake light. A load equalizer or turn signal controller may be needed for your application. The billet housing is 8-3/8" Long & 1-1/2" Wide. The LED unit has 10 LED's & is 5-1/4" Long & ½" Wide. Approximately ¾" of clearance is needed behind the surface. Machined from 6061 T6 billet aluminum. They are available in a chrome plated finish or our "Night Series", brilliantly Black Anodized, then areas are machined again for a contrast of a black anodized & a raw aluminum finish. Sold in pairs.

| Description | Chrome | Black | List |
|-------------------------|-----------|-----------|----------|
| Tribal Light Red Lens | 811-20018 | 811-20020 | \$180.95 |
| Tribal Light Amber Lens | 811-20019 | 811-20021 | \$180.95 |

- Bagger Dagger LEDs are designed to fit our 2009 and later Chupa, Swoop and Super Stretch Fenders. Our billet bezels are CNC machined from 6061-T6 aluminum, then brilliantly chrome plated or black anodized with an accent-cut perimeter edge. We then add four of our super-bright LED boxes for incredibly bright brake light, Taillight and turn signal functions.
- Each Bagger Dagger Taillight Kit includes: bezels, lenses, LED boxes, wiring instructions and stick-on templates to make drilling and cutting for install a snap!
- Bagger Daggers measure 16" long by 2.75" at it's widest point.

| Description | Black | Chrome | List | |

WEDGY LIGHTS

- Our world famous Wedgy Lights have been an industry standard for years! They can be surface mounted or frenched with our exclusive Frenchy Boxes that are now included with every pair. They feature super-bright LEDs that function as taillights, turn signals and brake lights - and increase your visibility over 50%!
- Our Wedgy Lights are machined from 6061-T6 billet aluminum then brilliantly chrome plated or black anodized, making your Bagger look 100% cooler!

| Application | Black | Chrome | List |
|--------------------|-----------|-----------|----------|
| Universal | 827-05472 | 827-05473 | \$199.95 |

BULLET TURN SIGNALS FOR ROAD GLIDES

- Paul literally stood in the shop one day and said, "Let's put a light in our Eliminator!" We got on it and stuck one of our Super Bright LEDs inside a slightly reshaped Turn Signal Eliminator and BAM! Now you have the sleek styling cues Bagger Nation is known for with the added visibility of our Super Bright LEDs! Just another trick little accessory to set your Bagger apart from the crowd.
- Available in brilliant chrome or gloss black. Easy installation instructions included. 3/4" x 3/4" x 3".

| Application | Year | Black | Chrome | List |
|-------------|--------|-----------|-----------|----------|
| FLTR | `98-13 | 827-05440 | 827-05441 | \$198.95 |

- When customizing a Road Glide, one of the first things Paul does is remove the stock turn signals. Well, that leaves ugly holes in the fairing... so Paul created these bitchin turn signal eliminators for Road Glides!
- Bagger Nation turn signal eliminators for 2013-earlier models are machined from 6061-T6 aluminum, then beautifully chrome plated or black anodized.
- Our wedgy shaped 2015-Up Road Glide Turn Signal Eliminators are made from injection molded urethane and come in a natural black finish. They are sold in pairs and can be easily painted to match your ride. Installation is simple and allows for custom relocation or simple removal of your stock signals.

| Application | Year | Raw Finish | Black | Chrome | List |
|-------------|---------|------------|-----------|-----------|----------|
| FLTR Models | `15-UP | 827-05444 | 827-05451 | 827-05452 | \$79.95 |
| FLTR Models | `98-`13 | | 827-05442 | 827-05443 | \$134.95 |

TURN SIGNAL ELIMINATORS FOR STREET GLIDES

- When customizing a Street Glide, one of the first things Paul does is remove the stock turn signals. Well, that leaves ugly holes in the lower fairing...so Paul created these bitchin' Turn Signal Eliminators for Street Glides!
- Turn Signal Eliminators are a super cool and quick way to dress up the front end
 of your Street Glide. They create a killer contrast look that defines your unique
 Bagger. We make them available in a brilliant chrome finish or powder coated in
 a deep, rich black then accent-cut to bring forward the underlying metal.
- Each Street Glide Turn Signal Eliminator includes: (2) covers, hardware, and instructions.

LIGHTNING BULLETS FOR FXFB MODELS AND CUSTOM APPLICATIONS

Our new small yet incredibly bright Lightning Bullets are direct bolt-on replacement taillights for M8 Softail Fat Bob models front turn signals.

While they are the perfect complement to our M8 Fat Bob Light and License Kit, they also can be used in a multitude of custom applications. They are available with chrome or gloss black bodies. You can choose your Lightning Bullets equipped with amber/amber lights (signal functions) or our latest white daytime running lights that drop to an amber turn signal function when your turn signals are activated!

| Description | Application | Chrome | Black | List |
|--------------------------------|-----------------------------------|-----------|-----------|----------|
| Amber Turnsignal only | Fits FXFB and Custom Applications | 827-05700 | 827-05701 | \$179.95 |
| Switchback Running Lights | | 827-05702 | 827-05703 | \$179.95 |
| Rear Red Tail/Brake/Turnsignal | | 827-05704 | 827-05705 | \$179.95 |

PRO MOUNT LIGHTNING BULLETS

Bagger Nation Pro-Mount Lightning Bullets create a super low profile custom mounting application for our killer, laser bright running lights & signals!

Our direct bolt-on bullet shaped turn signals are as small as a dime yet incredibly powerful. Each kit includes a pair of our super sexy billet Lighting Bullets and our Pro-Mount low profile mount pads. The Pro-Mounts eliminate the bulky stock signal mounts and discreetly tuck our Lighting Bullets right up under your switch housings. Pro-Mount Lightning Bullets will fit on almost any model and bolt right up to your mirror mount! Lightning Bullets feature our laser bright daytime running lights that create incredible visibility and then change to amber during signal function. Once the signal cycle ends the automatically "Switchback" to our intense white daytime running lights. Lighting Bullets are made in the USA from 6061-T6 billet aluminum, then hand polished and available beautifully chrome plated or gloss black anodized. All needed hardware is included along with custom install tips and instructions. Sold in pairs.

| Description | Application | Black | Chrome | List |
|---------------------------|------------------------------|-----------|-----------|----------|
| Amber Turnsignal only | Universal/Most Mirror Mounts | 827-05716 | 827-05717 | \$229.95 |
| Switchback Running Lights | | 827-05718 | 827-05719 | \$229.95 |

LIGHTNING BULLETS FOR FLTR MODELS

Bagger Nations New Lightning Bullet Kit for Road Glide's creates a totally low profile custom look and increases visibility!

Our direct bolt-on bullet shaped turn signals are as small as a dime yet incredibly powerful. Bagger Nations "Switchback" technology transforms your bulky, mundane stock units into laser bright daytime running lights that change to an unbelievably bright amber turn signal and then "Switchback" to daytime running lights when signal cycle ceases. Each kit is available in chrome or satin black. Simple instructions and mounting hardware included.

| Description | Application | Year | Black | Chrome | List |
|---------------------------|------------------|--------|-----------|-----------|----------|

ELYPSE FRONT **TURN SIGNALS**

Engineered in Germany to be very small but extremely bright. They mount almost unseen under the hand control perch at the mirror stem. Amber turn signal with smoked lenses featuring the latest in SMD-LED technology. The housing is CNC machined from billet aluminum and is available in chrome and black finishes. Some applications may require the use of a load equalizer. To add the running light function (dual-function) to the Kodlin turn signals we suggest using Badlands part number 850-09007. Available as universal fit or direct bolt-on for M8 Softails. Sold in pairs.

| Description | Application | Year | Black | Chrome | List |

ELYPSE TURN SIGNALS FOR ROAD GLIDES

Kodlin Elypse mini turn signals are specifically designed for all HD Road Glide models from 2015-up. Extremely bright SMD-LED technology, for increased safety, engineered in Germany. Available in black or chromed housings.

Great replacement for the bulky stock turn signals on a Road Glide. They use the stock bracket for installation. Some applications may require the use of a load equalizer. To add the running light function to the Kodlin turn signals (dual-function), we suggest using Badlands part number 850-09007 dual function module. Sold in pairs.

ELYPSE TURN SIGNALS FOR TOURING MODELS These billet aluminum CNC machined turn signals come in a show

chrome plated, black contrast or all black finish to replace the ugly stock applications. Small but extremely bright amber turn signal with German engineered SMD-LED technology and smoked lenses. Easy installation on HD Touring models with a Batwing Fairing (Street Glide, Electra Glide) and Road Kings. Some applications may require the use of a load equalizer. To add the running light function to the Kodlin turn signals (dual-function), we suggest using Badlands part number 850-09007. Sold in pairs.

FENDER STRUT MARKER LIGHTS

CNC machined from solid billet aluminum, carefully polished, then hit with a super-durable black anodized or chrome finish that will never fade or flake off. Includes smoked lenses. LEDs are single function but can be converted to multifunction brake, turn signal, running lights, etc., by installing an optional conversion module. Fit '06-16 Dynas except FLD, FXDF, FXDB and FXDWG. Sold in pairs.

| Description | Application | Year | Chrome | List | Black | List |
|-------------|--------------------|--------|-----------|----------|-----------|----------|
| Amber | FXD | `06-17 | 812-02098 | \$139.95 | 812-02099 | \$134.95 |
| Red | | | 812-02101 | \$139.95 | 812-02100 | \$134.95 |

TURN SIGNAL BARS

Pro One turn signal bars fit between the forks and mount to the headlight mounting bolt. Machined from billet aluminum. Come with elliptical amber lenses. Wide Glide version measures 8-1/8" x 3/4" x 1-1/2. Narrow Glide version measures 5-1/4" x 3/4" x 1-1/2. Load equalizer required to properly control the signal action on most models.

| Application | Chrome | List | Black | List |

LIGHTNING BOLTS LED LIGHTS

- Introducing Daytime Lightning BoltZ, Bagger Nation's newest Super Bright LED's. The latest in our Super Bright LED technology, the NEW Daytime Lightning BoltZ are selfcontained, bolt-in, flush-mounted and crazy bright!
- Taillights, brake lights and turn signals all in one incredibly small package. The NEW Daytime Lightning BoltZ measure 15mm (19/32") in diameter and you simply drill a hole, bolt them in and wire them up. It's that easy!
- You can also create your own custom taillight design with the original Lightning BoltZ, the only limitation being your imagination!
- Daytime Lightning BoltZ Super Bright LED's are sold in pairs and come in gloss black or silver finish.

SUPER BRIGHT LEDS

- · You've seen these on our wildest custom Baggers and in our Road Glide windshield trims. Now Bagger Nation offers our Super Bright LEDs in kit form so you can create your own custom look!
- These insanely bright LEDs are easy to install...just drill a hole, silicone them in place and wire them up!
- Available in red or amber.

FLAT LENS TURN SIGNAL LED INSERTS

- Flat to Bullet Conversion Kit will retro-fit our 2" Bullet LED Inserts into your stock 3" Flat Lens Style Turn Signal
- Flat lens style for 3" turn signals in Red or Amber, 1156 and 1157 sockets
- Standard™ Flat lens style is built in a heavy conformal coated circuit board
- Premium™ 3" Flat lens with Chrome or Black Bezels with either White Halo SWITCHBACKS™ or Red Halo. Smoke lenses also included
- Fits 1986-2018 HD Models Electra Glide, Road King, Heritage Softail and '99-03 Road Glide only.
- 100% Plug-N-Play
- Sold in Pairs
- Lifetime LED Warranty

TURN SIGNALS

Unlike other lights in the market that have narrow angles of light using old technology LEDs, AC11 series use 120 degrees ultra wide viewing angle SMD LEDs. Offering such a wide viewing angle makes this turn signal visible from adjacent road lanes, where it counts the most. When turning or changing lanes normally vehicles and pedestrians in 30 or 45 degrees off axis are most important to be alerted. More than 3 times more effective light in such angles makes AC11 series a clear winner.

H-D TURN SIGNAL LED RETRO FIT KITS

- Convert your Harley Davidson deuce style marker/turn signal lights from incandescent bulbs to ultra-bright LED lights
- LEDs can last up to 100 times longer than incandescent bulbs. They draw 10 times less amperage and turn on significantly faster than standard factory bulbs, and because they are solid state, there is no filament to burn out or be damaged by vibration.

Each Kit Contains:

- Two (2) Clear Polycarbonate Outer Bullet Light Lenses (specific for 'deuce' style bullet lights)
- Two (2) Harley Davidson Deuce Marker/Turn Signal LED Light boards
- Two (2) Amber or Red Inner Lens/Disc to be placed on the LED light board
- Six (6) male connectors for simple wire splicing
- Six (6) female connectors for simple wire connection
- Two (2) Jumper wires (Black, Blue and Purple to match stock HD wiring)
- One (1) DUAL LOAD EQUALIZER

AUTOMATIC TURN SIGNAL CANCELING MODULES

All Badlands Automatic Turn Signal Canceling, ATS-03, Modules are designed to provide a less expensive alternative to the factory flasher module. The Badlands Automatic Turn Signal Canceling module not only has a built in 11-second flasher but it also is a Load Equalizer which allows you to use small incandescent bulbs, halogen bulbs or LED's without any rapid-flashing issues. The ATS-03 also has a 4-way flasher feature for safety or parade mode just like the factory flasher unit. Whether you have a Plug-n-Play module or the hard-wired version, ATS-03 Modules all work the same.

- · Made in the USA
- Each kit comes with appropriate male/female connectors
- 850-09004 for AFTER-MARKET **IGNITION MODULES ONLY**

DUAL FUNCTION INTENSIFIER MODULES

All Badlands Intensifiers™ High/Low Modules are designed to provide an inexpensive method to convert a (1) wire incandescent, Halogen or LED light into a dual function or HI/LOW light. Example, if you are installing an old school tail light that has only (1) wire for illumination and (1) wire for ground you would need our Badlands Intensifiers™, IHL-01, Module.

This module will allow you to have running and brake light illumination on that (1) single wire! If you purchased a new pair of turn signals and they only have (1) wire for illumination and (1) wire for ground, you would need our IHL-02 Module. You would install this module to the front or rear turn signal output wires and a protected switched 12+ power source. Then the output of our module would feature turn signal and running light functions on (1) wire per side. If room is an issue, (custom bike application) our IHL-03 Intensifier will perform the same functions of our IHL-02 but are only rated for 500-milliamps maximum.

Universal Fitment

| Description | WPS # | List |
|--|-----------|---------|
| Hard Wire Intensifier Module, 1 power-wire light to dual-function 1157-style light | 850-09005 | \$62.95 |

| Hard Wire Intensifier Module, pair of 500-milliamps or less 1 power-wire LED to dual-function 1157-style LED's | 850-09007 | \$20.95 |

850-09006

BRAKE LIGHT ELIMINATOR MODULES

All Badlands Eliminators™ are designed to remove the brake light function from rear turn signals on ALL HD CAN/Bus motorcycles without center taillights. (Softail 2011-Up, Dyna 2012-Up and ALL 2014-Up models except VRod.) If you decided to add a center taillight, you want to use amber turn signals or you want to pull a trailer, Badlands Eliminators™ are the answer! Made in the USÁ, 100% solid-state and driven by Badlands trademarked pic-chip technology and like ALL Badlands modules offer a LIFETIME WARRANTY. Badlands Eliminator modules are 100% Plug-n-Play.

 Kit comes complete with new rear fender harness that replaces the stock version and it MUST bes used with this module

RUN, BRAKE & TURN SIGNAL MODULES WITH EQUALIZER

All Badlands Illuminators[™] are designed to provide you running light, brake light and turn signal functions to each rear turn signal all on (1) wire per side. Whether you have a Plug-n-Play module or the hard-wired version, Badlands Illuminators[™] all work the same. These modules also have a built-in Load Equalizer which is perfect when switching out factory turn signals to Halogen or LED versions. This feature will prevent a "rapid-flash" which is caused by the factory turn signal module not seeing the specific amperage draw that the factory 1156/1157 bulbs provided.

Converts stock rear Amber turn signals into running lights, brake lights and turn signals with use of red lens or red LED.

BADLAND

BADLANDS RUN. BRAKE & TURN SIGNAL MODULES WITH EQUALIZER FOR CAN/BUS MODELS

Once the factory went to CAN/Bus beginning in 2011 on Softail models, the Badlands CAN - Bus Modules were born. These Badlands CAN - Bus Modules posed a challenge in many ways and now, a year later, we're happy to have a full-line of Load Equalizers™, Illuminators™ and a brake Eliminator™. There are some important facts to understand before purchasing a Load Equalizer module.

The ONLY time a Load Equalizer is needed is when you install aftermarket turn signals on a 2011-Up FXST, 2012-Up Dyna or ANY 2014-Up model and you have rapid flashing turn signal indicator lights. Your bike will also throw a trouble code, see your user manual for more information on codes and how to reset them. Unlike earlier equalizer modules, CAN/Bus bikes require (1) module for front and (1) module for the rear turn signals. Many LED's produced today are CAN/Bus compliant and do NOT require the use of Load Equalizers

Converts stock rear Amber turn signals into running lights, brake lights and turn signals with use of red lens or red LED

SELF CANCELING-RUN, BRAKE & TURN SIGNAL MODULE

All Badlands Illuminator™ Pro-III Modules are designed to provide you running light and turn signal functions to each of the front turn signals, running light, brake light and turn signal functions to each rear turn signal all on (1) wire per signal. The Badlands Illuminator™ Pro-III also has left and right indicator light outputs for factory or custom turn signal indicator options.

These modules are designed with a built-in 11-second Self Canceling feature which is perfect for all custom applications. Lastly, you do not need a Load Equalizer when using small incandescent bulbs, Halogen or LED turn signals (up to 50-watts per bulb or 200-watts total) since the ILL-PRO-III operates all lighting styles.

SEQUENTIAL TURN SIGNAL MODULE WITH RUN, BRAKE & TURN & LOAD EQUALIZER FEATURES

- Converts (3-left & 3-right) Red LED turn signals into running lights, brake lights and sequential turn signals.
- · STATIC: Once turn signal is pressed, each LED on that side will flash from running light state to brighter, turn signal state before starting the sequence over.
- DYNAMIC: Once turn signal is pressed, the LED's running lights on that side will shut off, then begin to flash from off state to bright, turn signal state before starting the sequence over.
- Includes new fender harness if applicable

850-09036

850-09040

LOAD EQUALIZERS

- Economy load equalizer is ceramic block style for early model bikes that have NO 4-way flasher function (no warranty)
- Premium load equalizer is a circuit board style controller that will prevent rapid flashing, however does not offer thermal protection, so should not be used with four-way flashers for a prolonged period of time to prevent heat buildup (1-year warranty)
- Super load equalizer is designed to prevent rapid flashing and with its 100% solid state construction with thermal protection it produces virtually zero heat (Badlands lifetime warranty)
- All models prevent rapid-flashing front and rear turn signals with one module
- · Made in the USA

LED BULBS

- Elite series bulbs feature "C4" LED technology which reduces the physical size of the LED light source to closely resemble a halogen filament, resulting in a 90% accurate light pattern
- Standard series bulbs feature COB LED chips which have a smaller size and higher output power compared to most LED bulbs
- All bulbs have an active heat management system which is specifically designed for use in confined spaces, this system monitors and maintains the bulb at the proper temperature, preventing overheating and greatly extending the bulb life

| Description | Lumens | WPS# | List | |

| 881 Fog/drive bulbs 881 | 400 | 227-0019 | \$59.95 | pr |

ELITE 2 SERIES LED BULBS

CyronMotor 2nd generation Elite bulbs take the LED bulb technology to new limits. High precision beam pattern enhance will greatly enhance your visibility without causing any glare for other drivers. That means added safety for you and all others on the road.

Zero EMI noise. Unlike most other LED bulbs, Elite-II will not interfere with your AM/FM/CB/Elog reception.

Active heat management with ultra quiet Japanese fan offers smoother operation and longer life. Double layers of copper circuit boards increase heat transfer efficiency. External driver makes the light shorter in length allowing for easier installation in 90% of applications.

D-SERIES MINI LED BULBS

If physical fitment is an issue for your car/truck/motorcycle, then this is the answer for you. Small body size makes this bulb fit in more than 90% of housings.

No mechanical fans

No external drivers

No bulky heat sinks

Idea behind design of this light was to sacrifice a bit of power but instead give an LED option to installations that would not be possible with traditional LED bulbs having mechanical cooling systems. Smaller body size makes for easier fitment in DIY installations.

TURN SIGNAL AND TAILLIGHT BULBS

Ultra high power 6W LED automotive light bulb. Brighter than 21W standard bulbs. Omni directional design fills in the reflector housings. Standard fitting for almost all automotive and motorcycle applications using 1157 bulbs. Specifically designed to work in all Harley Davidson™ housings. Not DOT approved. Pricing is for a pair of bulbs.

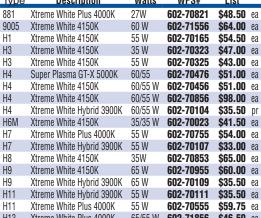

OEM STYLE REPLACEMENT BULBS

GREATER PERFORMANCE: PIAA bulbs are engineered with XTRA Technology for greater performance per watt than any other bulb on the road. (XTRA is a term coined by PIAA to designate a high-efficiency bulb that is designed to produce greater light output than its rated power consumption, i.e. 55W = 85W of light output.) Greatly enhance your ability to see and be seen. A metal bond holds the heat-resistant glass tube securely to prevent cracks and leaks. A welded focus ring and one-piece filament support assures proper positioning.

BRILLIANT COLOR: Beam color affects visibility and eye strain over long periods. The brilliant white/blue light allows comfortable night driving over extended periods of time. PIAA bulbs are both a performance upgrade and an aesthetic enhancement. You will see the difference even in the daytime.

Xtreme White / Xtreme White Plus / Xtreme Plus Hybrid - The Xtreme White Series of bulbs have a cool white light output that gives the driver better color recognition on depth perception and better contrast than stock halogen lamps. The blue top coat on this series of bulbs adds a slight blue tint to a lamp with no loss of performance.

TNT TACHOMETER

Built with the best components and strongest stepper motor on the market, this TNT tachometer is the perfect addition for all Harley Davidson® Motorcycles. Its large dial face and backlight makes it easy to read all day long.

- Tachometer Display range: 0-8,000 RPM
- Display internal < 0.5 second
- RPM input signal number setting range 0.5, 1-6
- RPM input pulse setting range: HI (Positive wave pulse)
- Lo (Negative wave pulse)
- Backlight brightness setting range: 5 different levels available
- Setting unit: Each level represents 20%
- Effective voltage DC 12V
- Effective temperature range 14°F 140°F
- Meter standard JIS D 0203 S2
- Measure 3" diameter (without bezel), 3.4" with bezel x 1.75" deep (without bezel)
- · Meter weight around 6oz.

Description Chrome casing White face Tach 8,000 RPM 27-5783 \$177.95

GEAR INDICATOR

- Plug-n-play gear indicator for Harley Davidson®
- · Lightweight, compact, easy to use and to install
- Its big digits and blue back light makes it easy to read during day or night riding
- Made to fit most of the Harley Davidson® models
- Gear Display range: N, 1, 2, 3, 4, 5, 6
- Effective voltage DC 12V
- Effective temperature range 14° 140°F
- Meter standard JIS D0203
- Meter size 1.5 x 2 x 0.5 inches
- Meter weight around 2oz

H-D TACH

To make the needle stable for the high vibrations, a stepper motor is used. With the auto-scan function, the meter will scan when the engine is turned on. This Tachometer with illuminated needle is very easy to read at night and features an integrated oil pressure indicator. Gauges will fit the optional bullet housing or the optional one bolt mounting bracket (27-5773).

- Tachometer 0 ~9000 RPM
- Oil Pressure 0~75 PSI

GAUGE MOUNT FOR T-BARS

Accutronix Gauge mount adapter's give you a place to mount your gauge bracket after you switch to T-Bar handle bars. These Gauge mount adapters are machined from 6061 T-6 Billet Aluminum and brilliantly Chrome plated or Black Anodized. Our Gauge Mount Adapters are designed to adapt FXD & XL OEM gauge mounts that normally bolt to your top riser clamp to a 1" or a 1-1/4" T-Bar handle bar.

| Description | Bar Diameter | Chrome | List | Black | List |
|-------------------|--------------|-----------|----------|-----------|----------|
| T-Bar Gauge Mount | 1" | 811-20040 | \$131.95 | 811-20043 | \$131.95 |
| | 1-1/4" | 811-20041 | \$131.95 | 811-20044 | \$131.95 |

Note: The late model DYNA and SPORTSTER Gauge Mount is also the top riser clamp. You will need an early H-D Gaugemount as well as our gauge mount adapter.

DUAL GAUGE MOUNT BRACKET KIT

- These dual gauge mount kits have a steel construction
- Available in chrome or black
- Allows mounting of the Speedo & Tachometer easily
- Comes with backing plates and hardware as shown
- Sold as a kit

| Application | Year | Chrome | Black | List |
|-------------------|--------|-----------|-----------|----------|
| FXD and XL models | `95-05 | 820-52380 | 820-52381 | \$137.95 |

NEXT LEVEL FLOORBOARDS

Next Level will set your two-wheeled creations apart from the mundane. Concentrating on light weight design, quality materials and structural rigidity, Next Level will please the eye with the fusion of our top priority: function.

Take a breath, take a solid look at our designs, set yourself apart, invest in quality. As always, Details Create Style.

These floorboards have been tested thoroughly on Ken's personal FLTRX and several other shop bikes. Mounting points, grip, comfort of footing, all aspects that are taken into consideration.

Available in Black or Black Contrast Cut L: 14.37' W: 5"

Thickness: .79"

WEDGY FLOORBOARDS

- Our Wedgy Classic Footboards are BADASS! Paul's been dreaming up products like this since he designed the Power Mirrors on "Sliver", the industry defining 1999 Oakland Roadster Show Champion.
- Wedgy Classic Footboards are CNC machined from 6061-T6 aluminum and brilliantly chrome plated or black powder coated.
- Our Wedgy Classic Footboards are a direct bolt-on application to all H-D models equipped with OEM foot boards.
- Bagger Nation Wedgy Footboards measure 18.5" x 5.25"
- And since our Classic Wedgy design is so stylish, Paul created a wide selection
 of Wedgy accessories for your Bagger! The Wedgy Line includes Footboards,
 Passenger Footboards and Pegs, Shift Pegs, Brake Pedals and Power Mirrors.

WEDGY PEGS

We removed the rubber inserts and machined a brilliant diamond pattern right into the Aluminium surface. This adds a whole new level of sparkling detail to our Wedgy Line. All Super Bling Wedgy Passenger Pegs are CNC machined from 6061-T6 Aluminum and brilliantly Chrome plated or Black Powder Coated.

Simply remove the factory peg body and our Classic Wedgy Pegs slip right on!

The Super Bling Wedgy Line includes Foot Boards, Passenger Foot Boards and Pegs, Shift Pegs and Brake Pedals.

I-BEAM BRAKE LEVER

The I-Beam Brake Lever accepts OEM toe pegs, Bagger Nation toe pegs, and the most popular toe peg styles. It comes with a spacer that allows for extended peg reach if you choose. The Brake Lever has a fully adjustable peg position when extended reach is desired. It also reduces the brake lever profile to allow your legs to be fully extended! I-Beam Brake Lever comes in brilliant Chrome or Black anodized finishes.

- Solid 6061-T6 Billet Aluminum construction and all business industrial style.
- The perfect match for our Stealth Heel Lever
- Available solo as toe only or available in pairs to create a classic heel / toe configuration
- · Choose flawless Chrome or Black Anodize finishes
- · Accepts OEM and most popular toe pegs
- · Toe peg not included

| Application | Year | Black | List | Chrome | List |
|-------------|---------|-----------|----------|-----------|----------|

HEEL SHIFT ELIMINATOR

- Many riders don't like the rear-heel shift lever that comes stock on H-D touring models with factory floorboards. When you remove the lever it leaves unattractive, exposed splines.
- Paul designed this neat billet adapter that allows you to remove the unwanted lever, scoot the front lever out to the end of the shaft and the Bagger Nation Heel Lever Eliminator will fill the space!
- Machined from 6061-T6 Aluminum, then brilliantly Chrome Plated or Black Anodized.

1 1/8" FORBIDDEN MOTO STYLE BARS

These moto style bars are designed by Forbidden Motorcycles and made by Fly Racing! They feature the moto typical 1-1/8" clamping area but taper down to 1" to accommodate stock Harley hand controls, eliminating the need to sleeve them. They are pre drilled for internal wiring, including the holes to run wires through the FM risers. Bars are 32" wide, pullback is 3" and rise is 2.5"

Ond

V-TWIN MOTO BARS

206-40020 PRODUCT FEATURES:

- ODI Motocross Technology in a V-Twin Handlebar
- High-strength seamless double-butted 2014-T6 alloy
- · Vibration Dampening Technology
- · Shot-peened and hard Anodized Black for improved durability
- · Slotted for Internal Wiring and notched for Throttle-by-Wire
- Oversized 1-1/8" Clamp Diameter improves Bar/Clamp Grip (requires "oversized" 1-1/8" handlebar mounts or Risers)
- Knurled clutch slide for improved adhesion with use of Slip-On Moto Grips
- ODI Lazer Etched Logos

206-40021 PRODUCT FEATURES:

- ODI Motocross Technology in a V-Twin Handlebar
- 7075-T6 alloy for improved strength
- Vibration Dampening Technology
- · Shot-peened and hard anodized black for improved durability
- · Slotted for Internal Wiring and notched for Throttle-by-Wire
- 1" diameter throughout direct replacement for OEM
- Knurled clutch slide for improved adhesion with use of Slip-On Moto Grips
- ODI Lazer Etched Logos

ORIGINAL MONKEY BARS

ORIGINAL MONKEY BARS 101:

All of our customers RAVE about how comfortable our Monkey Bars are and how installing them has changed their riding experience! That's because they were designed by a rider for riding!

That's one aspect of our Original Monkey Bars that all of the copiers have been unable to duplicate! Our only goal when creating our Monkey Bars was to offer the highest quality product...period!

Here are a few details you'll ONLY find with our Original Monkey Bars:

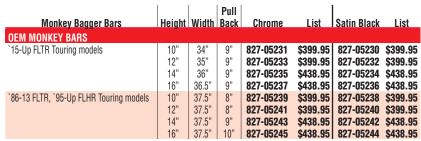

- Width: Our bars a several inches narrower than the other because we utilize a more labor intensive process of assembling the grip post areas. Swedging is cheaper, but it adds 2"of width to each side of the bar!
- Natural Grip Angle: Our bars were painstakingly engineered to provide a natural, relaxed grip angle. They don't force your hand or wrists into an uncomfortable position. Non-riders would never think of this.
- Adjustability: Our bars are designed to allow maximum rotation in regards to your hand control positioning. Everyone has a different taste and comfort zone here, so it's important to be able to put em' where you want em'!
- Pull Back: Our bars are specifically designed to provide excellent pullback (9") if so desired for optimum back comfort.

MONKEY SPORT BARS

- We realize that you have a choice when choosing the correct set of handlebars for your bike. We are absolutely positive that we offer the best designs and quality available. So when choosing a bar, remember, all bars are definitely NOT created equal.
- Bagger Nation fans asked us for a low slung bar for their Road Glides and Road Kings, and they also wanted more pullback so they weren't left stretching forward to reach traditional drag bars.
 So, we combined the classic style of our OEM Monkey Bars with our signature tightly bent uprights with good pullback and BAM, the Monkey Sport Bar is born!
- These high-style bars have tons of attitude and all the comfort that our original OEM Monkey Bars are famous for. They feature the exact same natural hand position as our OEM bars, they are 33 inches wide, with a 6" rise and over 9" of pull back! So if it's a low slung profile you crave, our Monkey Sport Bars deliver!
- Available in Gloss Black powder coat or brilliantly Chrome plated.
- OEM Monkey Bars require spacer kit 827-05375 for installation on FLHR and FLHRC models `14-UP.

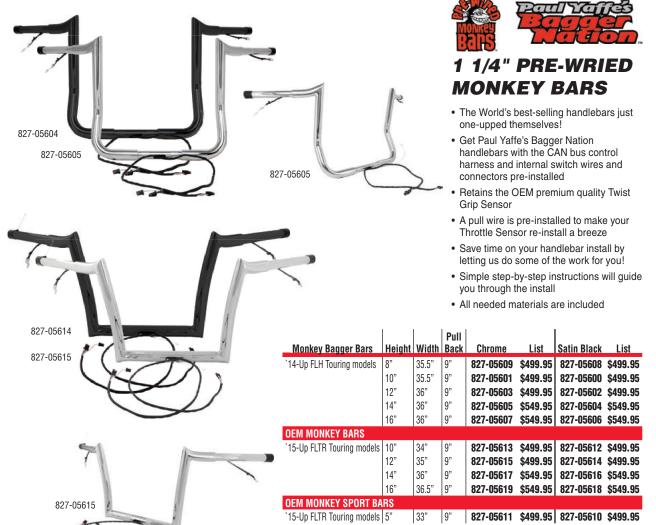

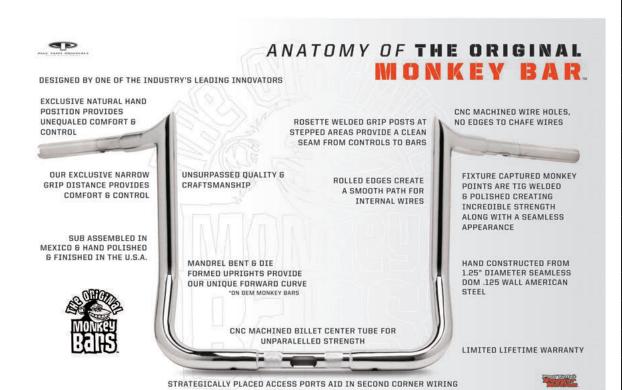

| Monkey Bagger Bars OEM MONKEY SPORT BARS | Height | Width | Pull Back | Chrome | List | Satin Black | List |

1" GIMP HANGERS

Get the Gimps! Nash Motorcycle Company features Gimp Hanger Handlebars. These bars are perfect for squaring up your front end and giving your bike a unique look. Made from one inch steel tubing, NMC reinforces the corners for extra added strength. Drilled, dimpled and knurled.. Made in the USA.

| Height | Width | Pull Back | Chrome | List | Satin Black | List |
|--------|-------|--------------|-----------|----------|----------------|----------|
| 12" | 33" | 5" | 811-30001 | \$244.95 | 811-30000 | \$199.95 |
| 14" | 33" | 5" | 811-30003 | \$244.95 | 811-30002 | \$199.95 |
| 16" | 33" | 5" | 811-30005 | \$244.95 | 811-30004 | \$199.95 |

1" MIDGET GIMPS

Smaller version of the Gimp Hangers, available in 12", 14" and 16" heights, in Chrome or Black finish. Midget Gimps featuring a 9.5" base for narrow glide front ends. Dimpled, drilled and knurled. Made in the USA.

| Height | | Pull Back | Chrome | List | Satin Black | List |
|--------|-----|--------------|-----------|----------|----------------|----------|
| 12" | 31" | 5" | 811-30007 | \$244.95 | 811-30006 | \$199.95 |
| 14" | 31" | 5" | 811-30009 | \$244.95 | 811-30008 | \$199.95 |
| 16" | 31" | 5" | 811-30011 | \$244.95 | 811-30010 | \$199.95 |

1 1/4" PUDGY GIMPS

Get the Pudge! It's sad to say but too many nights with cookies and milk and the Gimp has gained some weight. Nash Motorcycle Co. is now featuring their 1 ¼" Gimp Hangers Dimpled and Knurled.

| Height | | Pull Back | Chrome | List | Satin Black | List |
|--------|-----|--------------|-----------|----------|----------------|----------|
| 12" | 35" | | | | 811-30026 | |
| 14" | 35" | 5" | 811-30029 | \$406.95 | 811-30028 | \$359.95 |
| 16" | 35" | | | | 811-30030 | |

1" SMART GIMPS

No one knew the Gimps would eventually grow rounded corners! Check out the Smart Gimps, the newly designed Gimp Hanger, with a new flare to them. These gimps go off the same shape and feel you get with the traditional gimp hangers but they have rounded corners like an original ape hanger.

Dimpled and Knurled

| | | | Pull | | | | |
|---------------------|--------|-------|------|-----------|----------|-------------|----------|

1 1/8" MOTO BAR RISERS

Forbidden Motorcycles risers feature a 1-1/8" clamping area for MX style bars. They come in 9" and 11" heights and raw or black anodized finishes. The top clamp is a one piece construction for extreme stability and durability. The FM logo is machined into the T 6061 aluminum. The risers are pre-drilled for internal wiring for a super clean assembly, we also offer FM moto bars by Fly Racing with 1" ends for HD controls and pre-drilled holes for internal wiring to bolt directly onto these risers!

| Risers | Raw | List | Black | List | | | | | |

825-05001

1" OG SLIMS RISERS

- Forbidden Motorcycles introduces their NEW OG Slims risers.
- Still sporting that no non-sense, aggressive look and feel, available in both 9" or 11" rise and your choice of Black anodize or Raw finish.
- The new OG's are made from super strong T6061 Aluminum with the famous FM one piece top clamp for extreme stability. You asked and Forbidden listened, the OG's are now designed so you can run your favorite MX style bar with a 1" clamping area and OG's use the OEM bolt pattern on the top clamp so you can run the stock Dyna and Sportster gauge mounts.

| Height | Raw | List | 2.00.0 | List |

1 1/8" HUD RISERS FOR STREET BOB MODELS

The newest addition to the Forbidden Motorcycles range of risers has the same trick look as the original risers but they accept the digital gauge that's on the new M8 Softail Street Bob. No need to relocate or find a different gauge option to get the classic Forbidden look on your new Street Bob. Of course they accept our 1-1/8" moto style bars!

Note: The 9" and 11" versions may require extending the gauge wiring harness.

BREAKOUT SHORT LOWER RISERS

The Kodlin lower risers are a stylish 'must' for a Breakout, especially when doing a handlebar conversion that doesn't look right with the stock pullback riser. They work with the stock upper clamp and speedometer housing. They are made from forged aluminum for durability and strength and come in black or chrome finishes. Easy installation, instructions included. Fits all 2018-up Breakout FXBR/S models. Sold in pairs.

RISER SPACER KIT

Used on `14-Up FLHR and FLHRC models to create clearance for the lower points on OEM Monkey bars.

WPS# Application Year 14-UP **827-05375 \$30.95** FLHR/C

SUPER CLAMP

Additionally, 2007-Earlier HD Touring models have a 2-piece top clamp system that can create a safety problem when handlebars are used with internal wiring. A large wiring exit hole is required on handlebars designed for internal wiring. This design factor can create a stress riser or breakage point where the handlebar is weakest at a point where the leverage is greatest at the same time. Without the use of our Super Riser Clamp you have created a recipe for potential disaster! The one piece, solid carved from billet design of our clamp completely eliminates this stress area and makes the wire exit of the handlebar the strongest not the weakest point!

Last but not least, The Bagger Nation Super Riser Clamp and its 1-piece design with bar-locking set screws machined into the clamp will prevent inferior handlebars with poor knurling from slipping. Our Super Riser Clamp has a wire relief incorporated into its design specifically for internal wiring applications. The 1-piece design displaces pressure off of the center of the handlebar making the handlebar stronger and more secure. This becomes especially important when using 1" handlebar styles and internal wiring.

NEW! We now offer 2 sizes of The Bagger Nation Super Riser Clamp, our original 1" clamp and the new 1.25" clamp for 2015-Later Road Glides and other models using 1.25" handlebars.

The Super Riser Clamp is CNC machined in-house from 6061-T6 aircraft aluminum, and is the highest quality, problem solving, bad-ass clamp available!

*Bagger Nation STRONGLY recommends installing our 1-piece Super Riser Clamp on 2007-Earlier HD Touring models. Failure to use a one piece clamp when installing Monkey Bars will VOID the Bagger Nation warranty.

The Bagger Nation Super Riser Clamp is a must when installing internally wired custom handlebars. Our incredibly strong design is CNC machined from a solid block of 6061-T6 aircraft aluminum. The innovative design incorporates a series of three locking screws that virtually lock the ever popular tall Monkey Bars in place. The Super Riser Clamp all but eliminates the potential for handlebar slippage that is common with tall bars and big riders. Simply put, a 10" or higher bar and a 200+ lb. rider creates an increased leverage that was never considered by factory engineers! Especially when you're suddenly pulling yourself up off your seat in an "emergency unseen pot hole, trying not to bust your butt" situation...riders know exactly what we mean!

Application WPS# List All Models w/1" Bars 827-05370 \$79.95 `15-Up FLTR Models 827-05371 \$79.95

WELD WING SUPER CLAMP • The Weld Wing No-Slip Super Clamp covers the unsightly welds and steps on 1.25" handlebars. Our "Super Clamp" design eliminates bar slippage and is an easy bolt-on application.

- The sport styling of the Weld Wing No-Slip Super Clamp looks
- great on Dyna's FXR's and Sportsters! You can choose from two finishes: Chrome or black with accent cut.
- Our Weld Wing No-Slip Super Clamp is Made in the U.S.A. right here in our shop!

PIVOTING HANDLEBAR RISERS

Rox unique patented riser design allows you to pivot the riser in the original clamps and pivot the bar orientation in the top clamps of the riser. This provides an incredible amount of bar positions for you to find the right height and pull-back for your riding position and stature. Rox Risers are incredibly universal with their 2 piece design; clamped into virtually any 1" diameter clamps and then reclamping the bar directly above that, on its original clamping area.

- Machined from 6061-T6 billet aluminum, made for 1" diameter handlebars
- Available in chrome or anodized black

44-8460C

· Universal (2-piece) design attaches to nearly any bar or clamping area with a 1" diameter

44-8460BK

- Chrome risers come standard with chrome bolt head buttons
- Re-routing of stock lines and cables or longer lines and cables may be necessary on certain bikes
- 2" center to center height, sold in pairs
- Made in the U.S.A.

INDEX

1.25" RISER ADAPTERS

- Use for models with factory 1 1/4" bars and risers when changing to aftermarket 1 1/4" bars like Wild 1 Chubby bars.
- · Available in Chrome and Satin Black

| Black | | Chrome | |
|-----------|---------|----------|---------|
| 830-0806B | \$72.95 | 830-0806 | \$72.95 |

INTERNAL THROTTLE

Fully machined out of mild steel and covered with a black oxide coating to prevent rusting. Both bearings inside the throttle are stainless steel. Three features of our sticky throttle make it a cut above the rest, # 1 being the fact that it's made by Nash Motorcycle Company right here in the good Ol' USA. # 2 being the fact that there is no other throttle on the market that you can actually have cruise control with. This internal throttle can also be run without the cruise control option, by removing the nylon insert. # 3 ease of installation. Our throttle can be installed by anyone that has a saw and a couple Allen wrenches. Please read installation instructions for more details on how to install. The cable offered has a 83" overall length and 69" housing length for anything from drag bars to gimp hangers.

| Description | WPS# | List |
|-------------------------|-----------|----------|
| Internal Throttle Right | 811-30110 | \$219.95 |
| Internal Throttle Left | 811-30111 | \$219.95 |

PULLBACK ADAPTER

Our adapter plate allows you to mount FM risers and moto style bars to a `15-Up Road Glide (except CVO models) without relocating the gauges. It moves the risers 1.5" towards the rider and 2" up. It can also be used to relocate the same bar setup on M8 Softails to create a more comfortable riding position. Road Glide models will lose the fork lock function and accessory position of the ignition switch when this adapter is installed and holes must be drilled in the gauge shroud (template included).

| Application | WPS# | List |
|---|----------|----------|
| All FLTR `15-Up (ex CVO) and M8 Softail | 820-1335 | \$119.95 |

HANDLEBAR DAMPER KITS

- Handlebar damper kit come with isolators. Steel spacer sleeves and Chrome cap washers
- Available in Rubber and Polyurethane

| ı | Description | Application | OEM# | WPS# | List | |

LOCK-ON GRIPS

- Moto-Inspired grip system specifically designed for your performance V-Twin
- Full-Waffle Moto-Pattern reduces vibration transfer to your hands and provides improved grip in all conditions
- · Heavily knurled base-pattern delivers solid traction and control
- Proprietary Medium-Compound Materials which provides excellent durability and comfort
- Billet-aluminum clutch-side clamp eliminates the need for set-screws or grip-glue while ensuring 100% slip-free performance.
- T15 Torx bolts included, enabling higher torque levels for solid, twist-free mounting
- · Proudly made in the USA
