**POWERFUL AIR-FLOW
VENTILATION AND
EXHAUST**

Sufficient air intake and maximized circulation through 7 intake vents and 2 exhaust vents. Keep your head cool with the air channel system interior.

**ULTRA-QUICK
RATCHET SYSTEM**

Ultra-quick, simple and secure shield ratchet system.

**SUN VISOR WITH
WIDER-VISION**

Longer and wider sun visor increases peripheral vision and reduces eye strain with excellent sun light eye protection. Anti-Fog and Anti-Scratch.

**HJ-31 SHIELD WITH
WIDE VISION**

Vision Plus (+10mm) Wide Shield provides great visibility

ONE-TOUCH LOCKING SYSTEM

New center shield locking system with upgraded durability.

i70

ICONIC / INNOVATIVE

HJC Helmets launches a brand new, full-face helmet at a competitive price. The i 70 design is smooth and stylish with lines like a high-end sports car. The sport touring model is surprisingly compact and lightweight; it provides an excellent fit. This new product's primary feature is the internal, anti-scratch sun-visor, operated by a lower wire-lever.

The i 70 will take place of the popular IS-17. A number of upgrades have been introduced to improve the model with advanced features and protection technology, as well as a modern design. New features include reflective patches for added visibility on the roads, and a new, waterproof center locking system with upgraded intensity. The i 70 has 7 intake vents and 2 exhaust events in the spoiler, which allow for optimum airflow to keep a rider cool and comfortable.

This new model is available in black, white, semi-flat anthracite, semi-flat titanium and semi-flat black, as well as two new graphics that are each offered in four color versions.

**SLID PROTECTION SYSTEM
SLIDING LAYER IMPACT DISTRIBUTION**

NEW Sliding Layer Impact Distribution technology to help redirect impact in an accident.

**PERFECT GOGGLE FIT
SHELL**

Wide eye port and dual-position goggle strap fitment.

**FUNCTIONALLY
DESIGNED VISOR**

Longer visor to block sunlight, keep dirt off effectively and protect riders from debris.

SUPERIOR VENTILATION

13 Vent holes help riders riding cool and comfortable.

i50

ICONIC / INNOVATIVE

HJC Helmets introduces a new off road model with a leading-edge design, the i 50. This ultra-lightweight and aggressive helmet will charge through dirt, mud, sand and any obstacle that may cross your path.

The most exciting new feature in the i 50 is the debut of SLID from HJC. SLID is a gel material that may help to redirect energy-exerted impact on the brain by potentially reducing rotational acceleration caused by oblique shock accidents. This technology provides a multi-directional range of motion and additional comfort in the helmet interior, without interfering with sweat absorption.

New product features include an extended length visor for more sunlight coverage and debris protection, and dual positioning for goggle band placement which allows for the perfect fit, depending on rider preference. The optimized eye-port provides enhanced visibility, safety and superior goggle fit. To keep riders cool and comfortable, the i 50 has 9 intake vents and 4 exhaust vents, which increases the airflow tremendously.

RPHA 90

PREMIUM INTEGRATED MATRIX / P.I.M PLUS

Reinforcement materials, including Carbon and Carbon-Glass Hybrid fabric, provide enhanced Shock-Resistant performance for more comfort and lightness in the helmet.

RAPIDFIRE™ 3 SHIELD REPLACEMENT SYSTEM

Ultra-quick, simple and secure shield ratchet system.

FEEL IT FOR YOURSELF.

IF YOU'RE THROUGH WITH HEAVY, BULKY MODULAR HELMETS, THE RPHA90 IS THE LIGHTEST AND MOST COMPACT MODULAR HELMET IN ITS CLASS.

SUN VISOR WITH WIDER-VISION

Longer and wider sun visor increases peripheral vision and reduces eye strain with excellent sun light eye protection. Anti-Fog and Anti-Scratch.

HJ-29 SHIELD WITH WIDE VISION

Vision Plus (+10mm) Wide Shield provides great visibility.

ONE-TOUCH LOCKING SYSTEM

New center shield locking system with upgraded durability.

DOUBLE D-RING CHIN STRAP

HJC Helmets titled its third MotoGP event on May 18-20, 2018 and it was nothing short of spectacular with over 206,000 race fans in attendance. In 2016, HJC became the first helmet company to Title Sponsor a GP event with the HJC Helmets Grand Prix Ceske Republiky. Two successful GP events followed in 2017 and 2018 at the legendary Bugatti Circuit, Le Mans.

HJC launched new, exciting graphics with the helmet of sponsored riders in all three FIM classes, including Andrea Iannone, Xavi Vierge, Jorge Navarro, Danny Kent, Marcel Schroetter, Marcos Ramirez, Albert Arenas and Philipp Oettl. Moto3 rider Albert Arenas celebrated his first professional race win while wearing the eye-catching Mike Wazowski graphic.

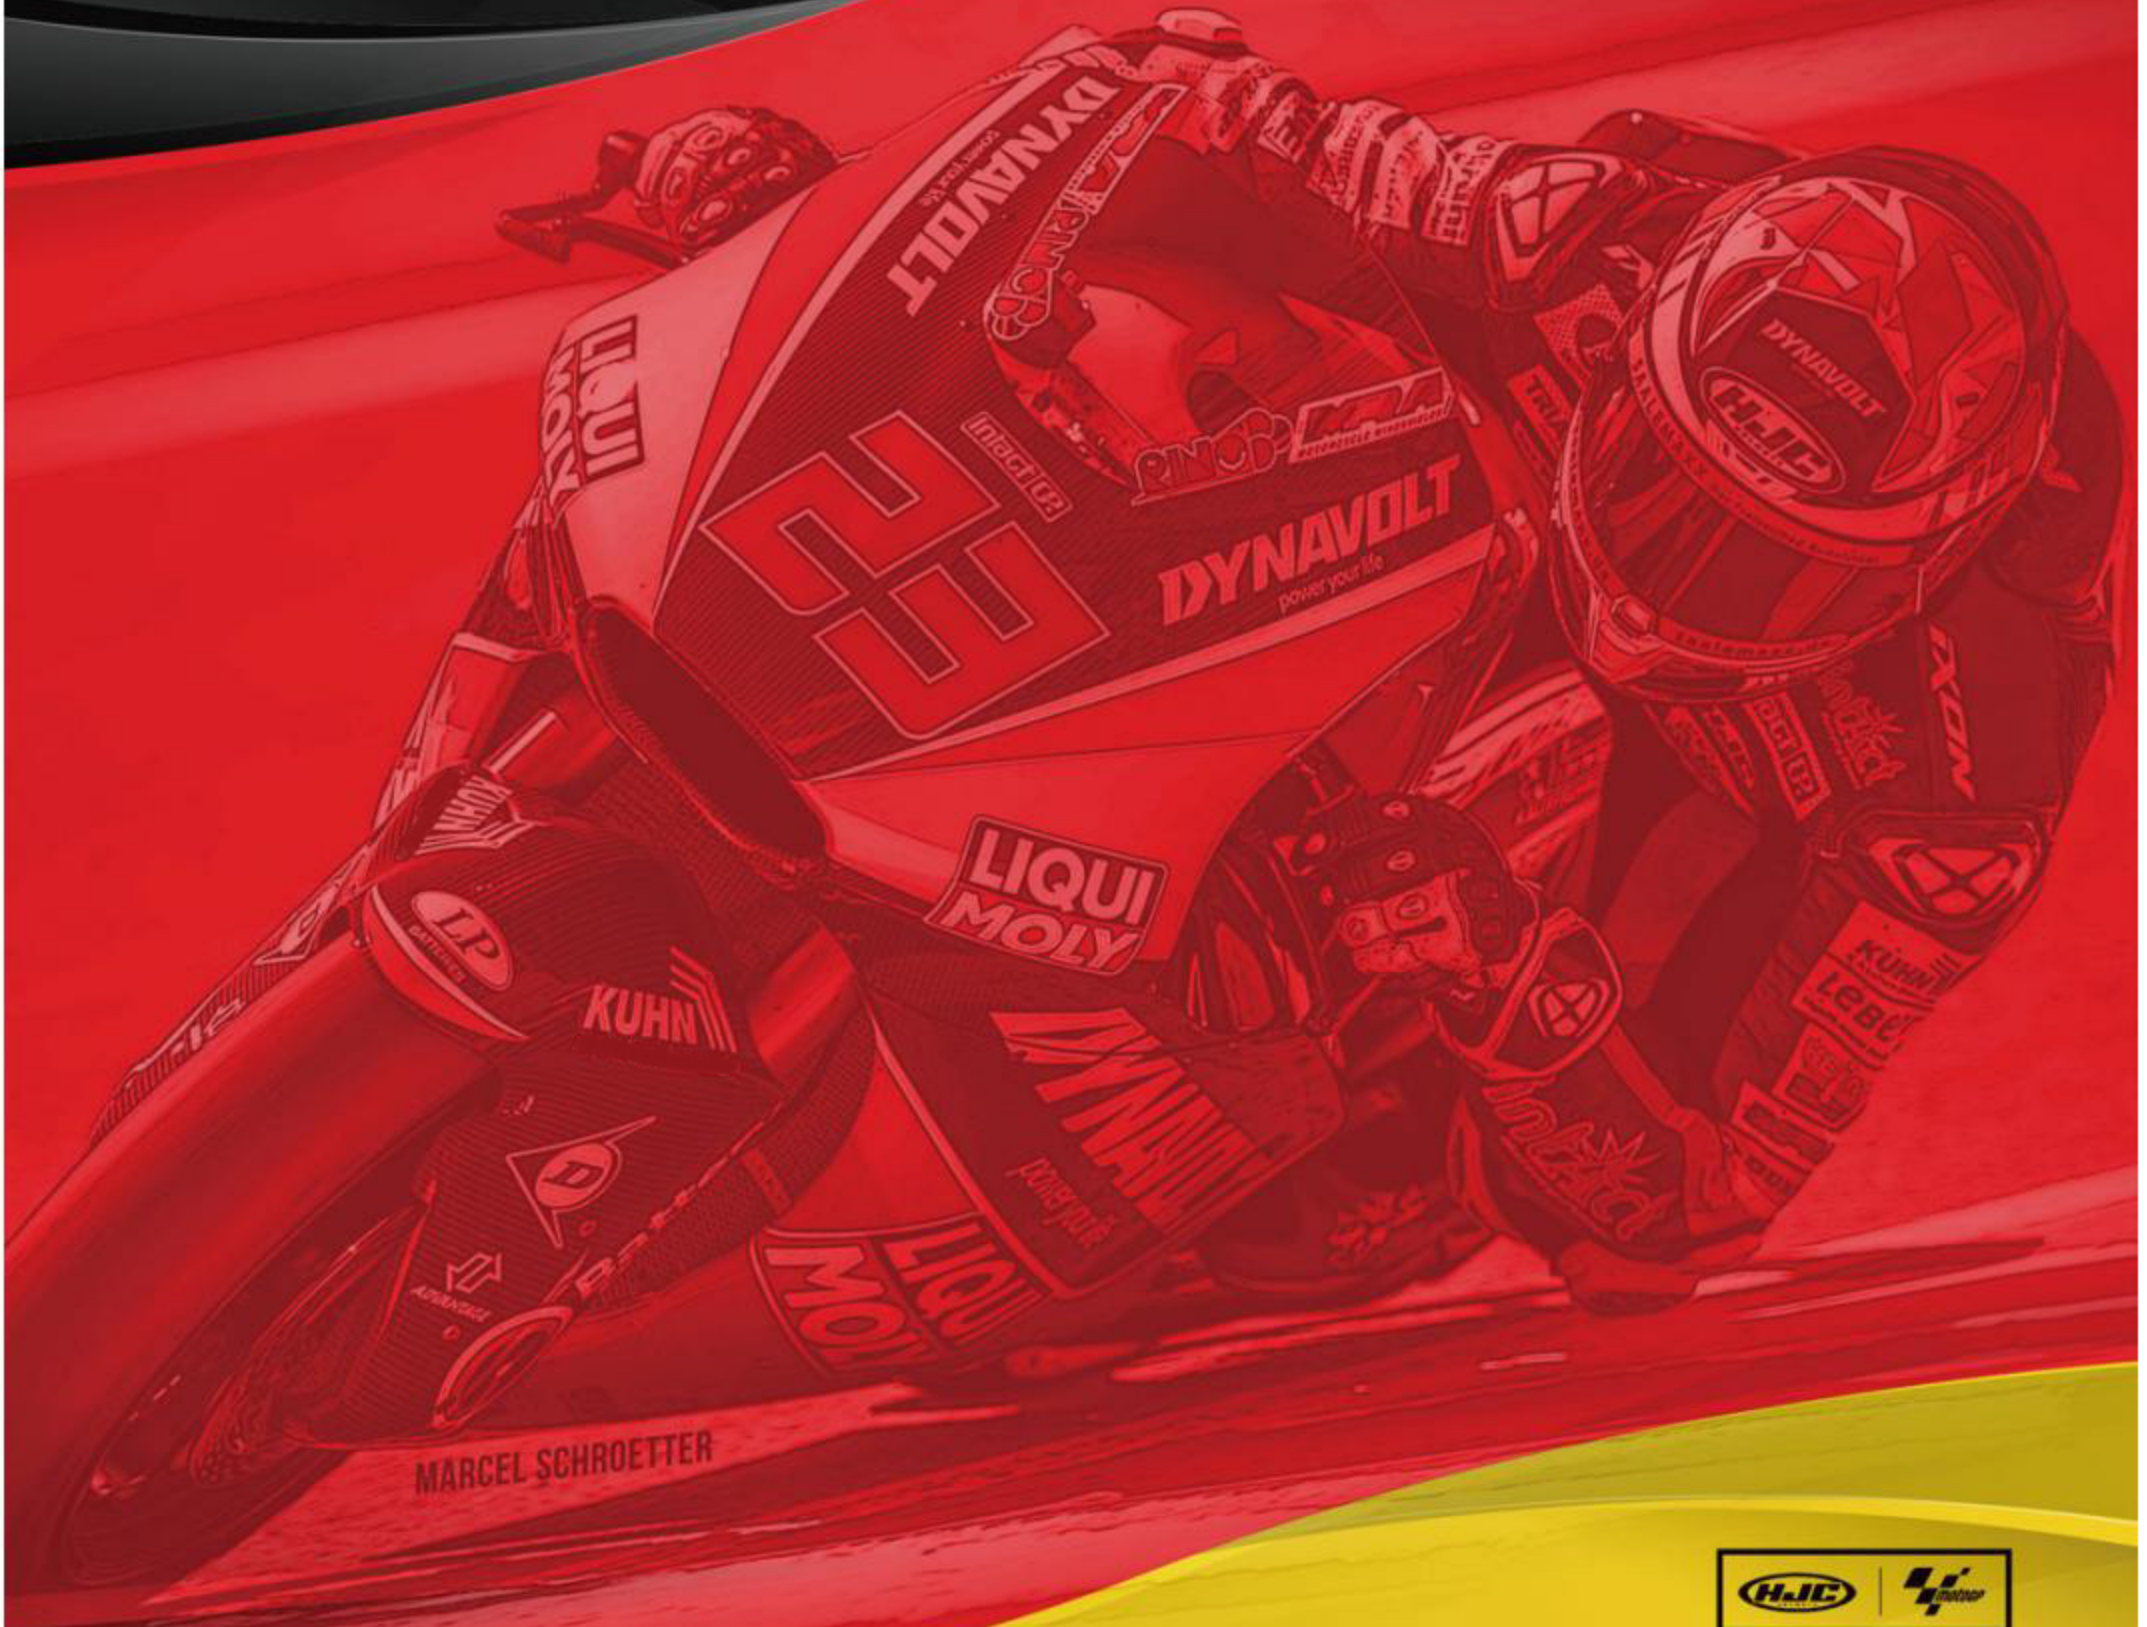

The #1 helmet manufacturer is already planning for 2019 as HJC announces their move to sponsor another world famous track at Sachsenring, Germany.

HJC Helmets is proud to partner with Dorna Sports and support the most competitive level of motorcycle racing.

MOTO GP

The motorcycle race season is over half way through for 2018, with only a couple of months to go. It has been an incredibly exciting year for HJC riders so far, but the season is not over yet.

MotoGP rider Andrea Iannone has put himself on the podium twice, once at Circuit of the Americas in Texas and another time at Jerez, the Spanish GP. Iannone has been a pleasure to work with in the first year as a sponsored HJC rider; he even sported the RPHA 11 Deadpool during the the HJC Helmets Grand Prix de France.

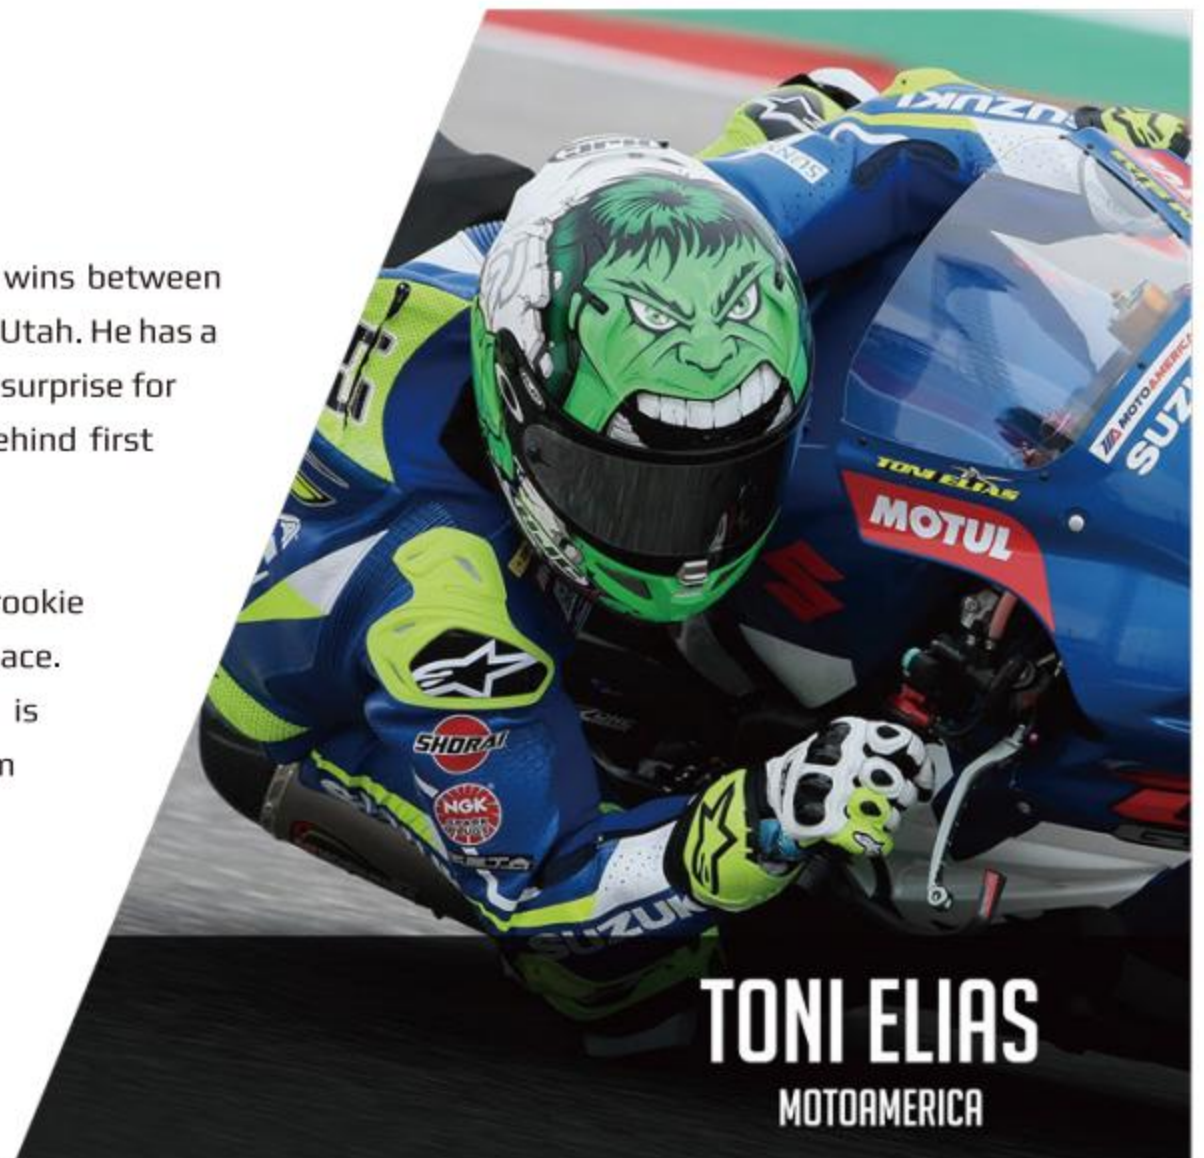

In other FIM classes, Albert Arenas claimed his first Moto3 victory wearing the new RPHA 11 Mike Wazowski at the HJC's titled Le Mans race. Moto 3 rider Marcos Ramirez finished 3rd in back-to-back races at the Jerez and Le Mans circuits.

MOTOAMERICA

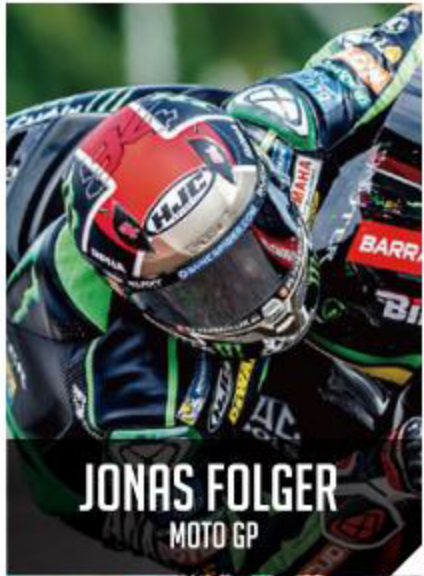

In MotoAmerica, Superbike rider Toni Elias has collected 6 wins between the doubleheader rounds at RoadAtlanta, COTA, Virginia and Utah. He has a total of 9 podiums out of the 14 rounds to date, which is no surprise for the 2017 Champion. Toni Elias is just a couple of wins behind first place in the standings.

Garrett Gerloff has finished on the podium four times in his rookie Superbike season; the Texan currently stands in 5th place. Ashton Yates, a your rider in the Liqui Moly Junior Cup, is currently second in the standings, just 23 points away from the lead, with 6 podiums out of ten races.

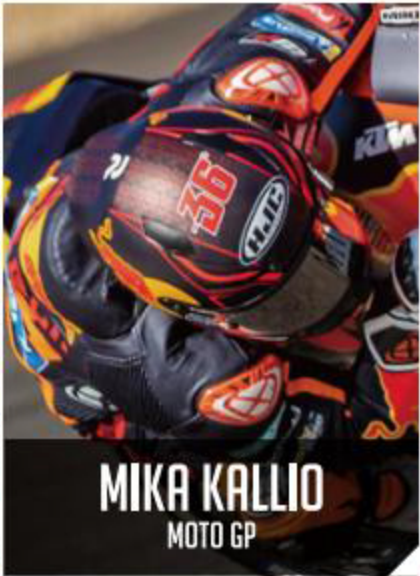

HJC is proud to support all of the riders in this newsletter, plus many more around the world!

IANNONE 29 REPLICA

RPHA 11 PRO

HJC Helmets is excited to make Andrea Iannone's signature graphic available to motorcyclists around the world with two new RPHA 11 (Pro) Iannone 29 Replica helmets. The Italian rider launched his exclusive designs on the track early in the 2018 MotoGP season. Iannone previewed the black version of his graphic at the Sepang test and introduced the yellow version in Qatar.

IANNONE 29 REPLICA BLACK

RPHA 11 PRO

The Iannone 29 replicas will be featured on the RPHA 11 (Pro), HJC's leading sport helmet. The helmet is constructed of HJC's Advanced PIM+ materials to achieve an extremely light weight while maintaining superior shock absorption. Race fans have already seen Andrea Iannone on the podium twice this season, with two other close finishes in 4th place. The remainder of 2018 will surely be full of excitement.

RPHA 11 PRO

HJC Helmets reveals a new graphic in the summer of 2018. This matte black graphic was designed for the track, specifically for MotoGP rider Jonas Folger. Although it appears to be simple artwork, a close look will expose layered detail of a digital camouflage pattern. The graphic also features a subtle race number "94" on top and the "JF" logo on the rear.
