

2012 / 13
WATERSPORTS

2012:13 WELCOME

Over the next few pages we will introduce you to the all-new 2012/13 watersports lineup, this year the innovation has reached new heights, the designs and colours are functional and fresh, and the durability of our products has been tested to the limits by our worldwide team.

This season we are bringing you everything you need to get in the water and stay in the water longer, some of our key pieces include our A-Tron series wetsuits with all new 3d patterns and chest zip designs, for our PWC enthusiast we are reissuing the F-20 tigershark suit and vest series from 1990, yesterdays look with today's materials and technology and our C4 PFD features Fire fur technology to help keep you in the water longer.

Jetpilot has been in the watersports game for the past 26 years and in that time we have continually raised the bar on innovation and performance orientated products every single year and this year is no different.

PERFORMANCE
THROUGH
INNOVATION

RIDER PROVEN FOR OVER 25 YEARS

VEST TECH

For 2012/13 we will introduce you to the all new line of vests, this year the innovation has reached new heights and we are excited to bring this line to life. The Black C4 features Segmented construction, Seal skin outer and Fire Fur lining through the lumbar to help you ride longer in those cooler months. The Chris O'Shea vest is our top of the line wake vest and is tried and tested by the best in the business. For the PWC riders we have the top end NIGHTHAWK with its sleek fit, lumbar support and SUPER GRIP handles as well as the F-20 Tigershark series nylon jackets that match back with the retro Tigershark suits.

We have been in the game for the past 26 years and we continue to develop ground breaking rider inspired vests for the watersports market,

Performance through Innovation

SIZE CHART

The size chart is to be used as a guide only. If you are between sizes we suggest going to the next larger size. All suits not available in all sizes - Correct fitting can only be determined by trying on the wetsuit.

2012:13

WETSUIT TECH

For 2012/13 we are introducing an all new lineup in our wetsuits, first off the rank is the A-Tron series which is our performance surf and wake suit, it features a more efficient and water tight chest zip closure, new cuff designs, new 3D patterns and all new graphics, for our PWC line up we are re-issuing the retro F-20 Tigershark series from 1990. Yesterdays look with todays technology and materials, we are super excited to bring this suit back. We also have new colours and looks in our Cause and Apex series suits.

We have been in the game for the past 26 years and we continue to develop ground breaking rider inspired wetsuits for the watersports market.

Enjoy the ride!

SIZE CHART

The size chart is to be used as a guide only. If you are between sizes we suggest going to the next larger size. All suits not available in all sizes - Correct fitting can only be determined by trying on the wetsuit.
