CREATED FOR RIDERS BY RIDERS

Our passion for off road allowed us to create an helmets that include everything you need for high performance, without overlooking the details.

YOUR SAFETY IS OUR MISSION

RUI GONCALVES

NECK BRACE **NBFF** FRONT FIT

JUST1 Helmets, in addition to the safety standards offered by current production on the market is launching the exclusivity new: "NBFF" Neck Brace Front Fit. The special design of the helmet's chin incorporates the "NBFF" concept, developed in collaboration with Oasi Bioresearch Foundation, no-profit organization founded by Dr. Alberto Gobbi, with the aim to study and reduce injuries in motorcycles accident and in particular those resulting from Motocross riding. The particular design of the J 12 helmet's chin is not a pure aesthetic factor but incorporate the "NBFF" concept with the spoiler in the lower side of the chin that, in case of bad fall of the rider and an excessive bending of the head forward, lens in a perfect manner (Fit) with the front side if the neck Brace, with the aim of avoiding or reduce the whiplash.

J1ER JUST1 EMERGENCY REMOVE

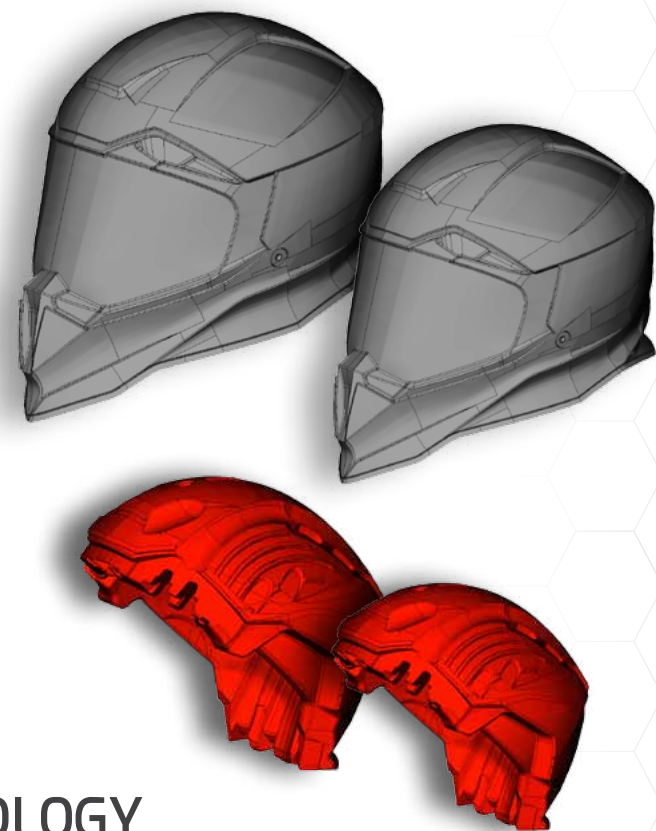

JUST1J helmets fitted with the safety device " J.1.E.R." Just 1 Emergency Remove to remove , in case of need, the cheek pads before removing the helmets from the head of the rider injured. To remove cheek pads put 1-2 fingers into the white tape, using consistent force pull until the cheek pads comes out.

J12 / J32 OFF ROAD

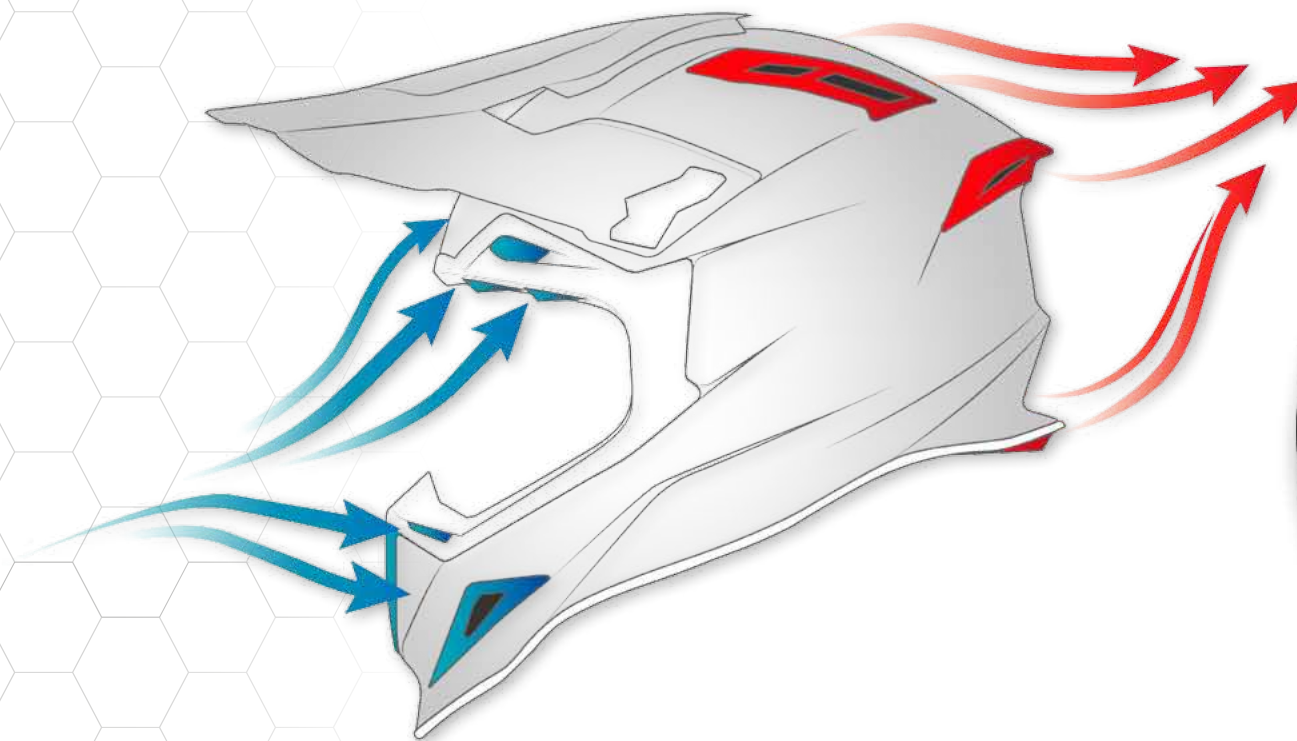

J12 OFF ROAD

J12 PRECISION FIT AND ADVANCED TECHNOLOGY

JUST1J12 helmet was developed and designed with the primary goals of creating the safest and most comfortable motocross helmet for a Rider. Perfect fit is the essential element in helmet performance. The finest and technically advanced materials are used in the production of JUST1 J12 helmets. The external shell is made of full Carbon fiber. This makes the helmet extremely rigid and incredibly light weight. JUST1J12 has two exterior shell sizes ensuring proper fit to weight ratio for safety and stability. The inner shell dimension (EPS foam and lightweight high impact absorption) is scaled to fit every size of the shell, JUST1 has two interior EPS sizes.

ECE HOMOLOGATION - HELMET WEIGHT from 1100 gr +/- 50 gr // DOT/ECE HOMOLOGATION - HELMET WEIGHT from 1250 gr +/- 50 gr

J12 AIR VENTILATION SYSTEM

Ventilation is essential. With mouth and eyebrow massive and multiple air vents system, JUST1J12 is designed to maximize airflow to your head. Tried and tested ventilation that allows for proper Extraction of heat from the helmet, allowing for a cooler ride in even warm weather conditions. Attention was also paid to the metal membrane integrated on the chin air vent, which makes it less likely that rubble and flying debris could penetrate those areas

J12 INNER LINING

The exclusive inner linings of the JUST1 helmets are made with breathable materials that incorporate an anti microbial hygienic treatment. The liner is fully removable and washable. The liner was designed in conjunction with the clavicle flair to make the helmet easy to put on. It allows the user to focus closely on the fit of the crown portion of the helmet first.

J14 / J34 ADVENTURE

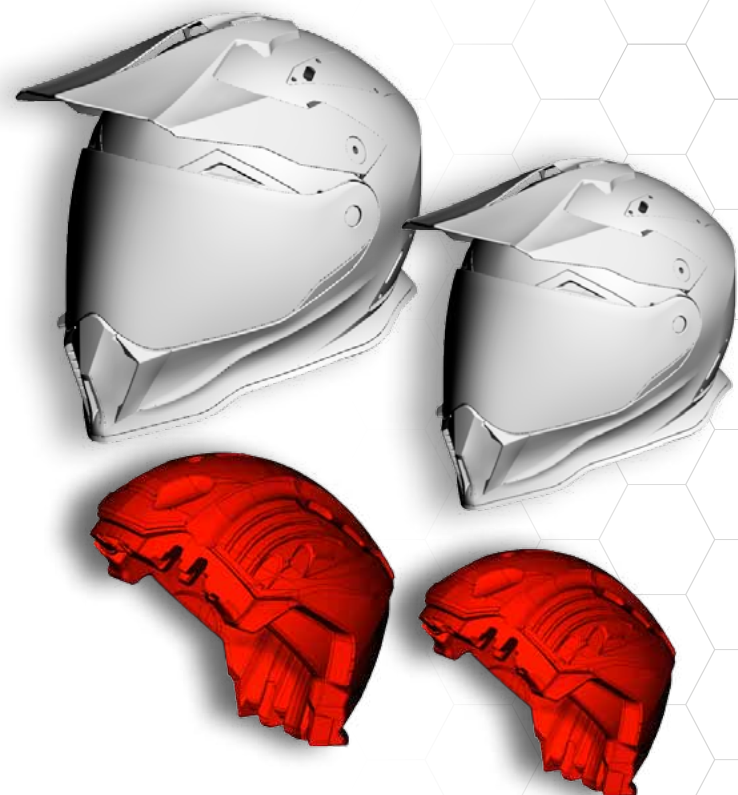

J14 DS ADVENTURE

J14 PRECISION FIT AND ADVANCED TECHNOLOGY

Just1 expands into the adventure market with the new J14 model. The project began from race experience in the most challenging off-road environments. It is the perfect helmet for all conditions, from long-distance travels to off-road adventures, it combines the comfort and protection of a full-face helmet with functionality, light weight, and air ventilation typical of off-road helmets. It can even be used in snow with the optional dual heated dual pane shields. J14 DS is deeply rooted in off-road, characterized by a wide field of view that allows to use it with mx-goggles Main Features: High visibility Visor, also available in dual pane and dual pane with heating element (accessory both sold separately).

J14 TECHNICAL FEATURES

- FULL CARBON EXTERNAL SHELL
- 2 SHELL SIZES
- 2 EPS SIZES
- ECE HOMOLOGATION - HELMET WEIGHT from 1300 gr +/- 50 gr
- DOT/ECE HOMOLOGATION - HELMET WEIGHT from 1500 gr +/- 50 gr
- SIZES:
SMALL SHELL (XS / S / M) DA 54 A 58
BIG SHELL (L / XL / XXL) DA 59 A 63
- J.I.E.R. emergency cheek pad removal system
- HIGH VISIBILITY VISOR
- DOUBLE D RETENTION SYSTEM

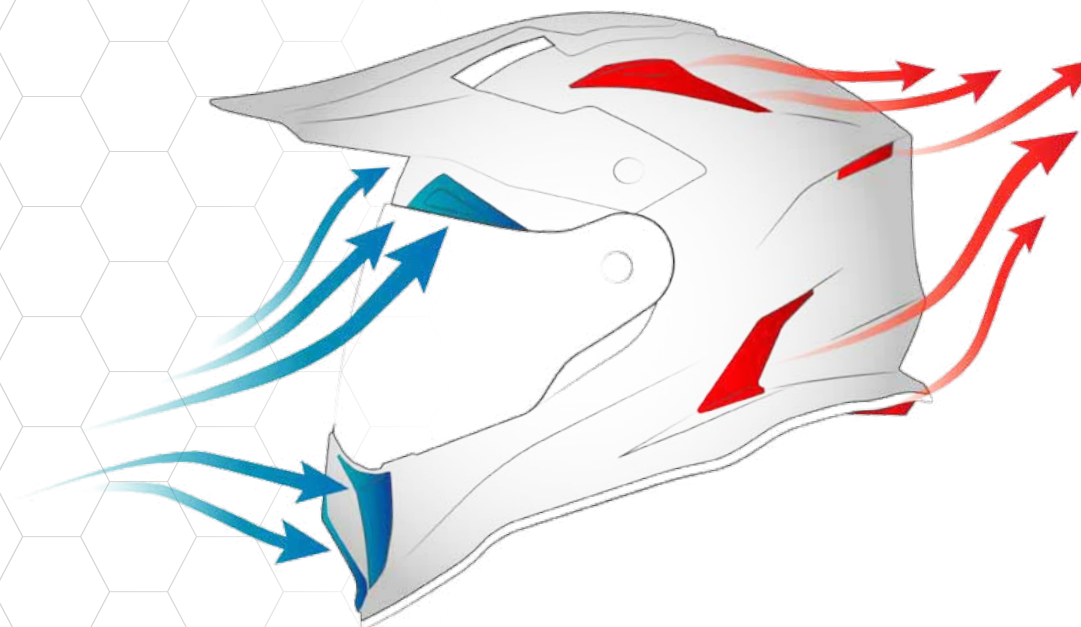

J14 INNER LINING

The exclusive inner linings of the JUST1 helmets are made with breathable materials that incorporate an anti microbial hygienic treatment. The liner is fully removable and washable. The liner was designed in conjunction with the clavicle flair to make the helmet easy to put on. It allows the user to focus closely on the fit of the crown portion of the helmet first.

J14 AIR VENTILATION SYSTEM

Ventilation is essential. With mouth and eyebrow massive and multiple air vents system, JUST1J12 is designed to maximize airflow to your head. Tried and tested ventilation that allows for proper Extraction of heat from the helmet, allowing for a cooler ride in even warm weather conditions. Attention was also paid to the metal membrane integrated on the chin air vent, which makes it less likely that rubble and flying debris could penetrate those areas

ALL IN ONE

OFF ROAD ATTITUDE
you can remove the visor, cover the visor mechanism with a special cover and wear it with mx goggles

STREET ATTITUDE
you can remove the peak to be more aerodynamic during long regular trip

ADVENTURE ATTITUDE
perfect setting for every kind of adventure trip

J34 PRECISION FIT AND ADVANCED TECHNOLOGY

Just1 expands into the adventure market with the new J14 model.

The project began from race experience in the most challenging off-road environments.

It is the perfect helmet for all conditions, from long-distance travels to off-road adventures, it combines the comfort and protection of a full-face helmet with functionality, light weight, and air ventilation typical of off-road helmets.

It can even be used in snow with the optional dual heated dual pane shields.

J14_DS is deeply rooted in off-road, characterized by a wide field of view that allows to use it with mx-goggles Main Features:

High visibility Visor, also available in dual pane and dual pane with heating element (accessory both sold separately).

J34 TECHNICAL FEATURES

- HIGH RESISTENCE THERMOPLASTIC RESIN EXTERNAL SHELL
- INTEGRATED SUNVISOR
- I SHELL SIZE
- I EPS SIZE
- ECE HOMOLOGATION - HELMET WEIGHT from 1530 gr +/- 50 gr
- DOT/ECE HOMOLOGATION - HELMET WEIGHT from 1750 gr +/- 50 gr
- SIZES:XS / S / M / L / XL - FROM 53 TO 61
- "J.I.E.R." emergency cheek pad removal system
- DOUBLE D RETENTION SYSTEM

J34 INNER LINING

The exclusive inner linings of the JUST1 helmets are made with breathable materials that incorporate an anti microbial hygienic treatment.

The liner is fully removable and washable

The liner was designed in conjunction with the clavicle flair to make the helmet easy to put on. It allows the user to focus closely on the fit of the crown portion of the helmet first.

J34 AIR VENTILATION SYSTEM

Ventilation is essential. With mouth and eyebrow massive and multiple air vents system, JUST1 J34 is designed to maximize airflow to your head.

Tried and tested ventilation that allows for proper Extraction of heat from the helmet, allowing for a cooler ride in even warm weather conditions. Attention was also paid to the metal membrane integrated on the chin air vent, which makes it less likely that rubble and flying debris could penetrate those areas

MX GOGGLES

IRIS Just1 IRIS comes from race experience in the most challenging off-road environments. Our intention is to create a mask with cutting-edge design, accurate eye port integration and technical specifications.

TECHNICAL FEATURES

- engineered to adapt to all helmets shapes and sizes,
- Just1's outrigger systems distributes pressure evenly for the best possible fit.
- Just1's variable density face foams utilizes moisture wicking fleece that provides a perfect goggle-to-face fit, sealing out the elements while providing hours of riding comfort.
- protection and perfect fit for those who wear glasses.
- removable nose guard which integrates with the frame to guarantee stability and protection in all conditions.
- anti-fog, anti-uv and scratch resistant lenses for superior optics.
- quick and easy lens interchangeability.
- lens designed to fit roll off system.
- 45mm wide strap, silicon coated strap to eliminate slippage.
