As if it were yesterday, in 2016 CKX revolutionized the snowmobile industry with the Titan, a helmet that broke with tradition. Combining backcountry styling with the functionality of a modular, the Titan helmet remains to this day the only one of its kind.

## UNIQUE.

The one and only backcountry style helmet equipped with a removable muzzle and the 210° goggles that offer a wider field of view.

## BOLD.

A helmet that combines both comfort and style, with a design reflecting the spirit of those who break the rules to reinvent them.

## VERSATILE.

A helmet that best suits your needs with several possible configurations tailored to the type of ride and the intensity level of your activity.

## NEW TRAIL

The Titan is now set for **TRAIL** riding. As soon as you take it out of the box, it is ready to take on the tracks. Providing you with maximum insulation, it incorporates a goggles frame optimized for trail riding.

Ride in cold weather for long periods of time at high speed without compromising on the comfort.
