UTV Windshields, Mirrors & Accessories

KimpeX UTV Windshields

Windshields

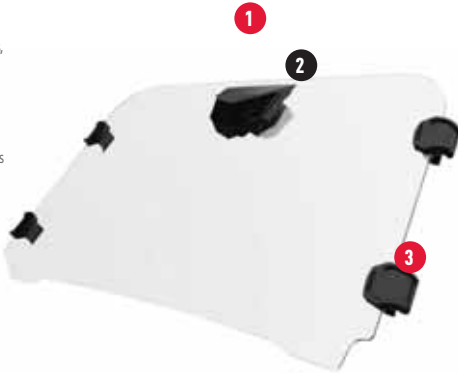

Front :

- Assembly requires no tools and no hardware
- Quick coupling system allows fast and easy installation on the vehicle with simple hand pressure
- Integrated ventilation system composed of automotive-type separate air vents for driver and passenger
- Bottom of windshield sits on a foam cushion that follows the shape of the vehicle and ensures a good seal
- Windshield made of .177" polycarbonate with anti-scratch protection

Rear :

- Assembly requires no tools and no hardware
- Quick coupling system allows fast and easy installation on the vehicle with simple hand pressure
- Bottom of windshield sits on a foam cushion that follows the shape of the vehicle and ensures a good seal
- Windshield made of polycarbonate .177" polycarbonate

** General purpose windshield do not have integrated ventilation system and scratch resistant finish.*

Versa Windshields & Rear Dust Panel

This innovative new system is two windshields in one! Run it with the lower section as a half windshield for open air driving. Run just the upper section for great ventilation while still blocking wind and dust from hitting your face. Use both sections for full windshield protection.

- A full, half, and upper windshield system all in one
- Excellent fit and finish with gaskets in all the right places
- Integrates seamlessly with Seizmik Light Bar kits, Hood Rack, and

The low mass seam minimizes visual distortion and is sealed with a gasket to block water intrusion. Constructed of thick .220" impact resistant optical acrylic.

- Tops (not incl.)
- Easily installs without drilling
- Trailerable up to 65mph

UTV Windshields

Windshields

Opt X Windshields are made of durable .177 uncoated polycarbonate and feature FastClamps for quick and easy install. Half windshields reduce the wind and direct it over the passengers making for a more enjoyable ride.

Folding windshields give you the versatility to have full coverage when you need it or the open air feel of a half windshield, change from one to the other in minutes with hook & loop straps.

UTV Windshield Accessories

Standard Wiper Motor Kits

Stamped Powder Coated Steel/304 Stainless

- Includes a standard wiper motor, an adjustable standard wiper arm (11" - 13") and an 11" blade.
- 12 Volts
- Shaft Dimensions : 2 1/2" x 3/8"

Part No.	Sweep	Volts	Code
782345	110°	12	E
782347	80°	12	E

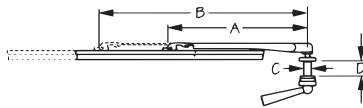

Wiper Motor

Standard wiper motor for interior/protected locations. Sweep angle is preset at 110°, but can be reset to 40°, 50°, 60°, 70°, 80°, 90° or 110°. Corrosion proof powder coated all aluminum housing with stainless steel base plate, shaft, and knurled drive nut. Adjustable right or left-hand park, factory preset for left-hand park. Powers up to a 14" arm and blade combination (21" total length) using standard wiper arms. Fits the same footprint as almost all competitive standard (STD) wiper motors. CE approved. 3-year warranty

Pursuit Mirror with LED Light

The Seizmik Pursuit Side View Mirrors with Dual Mode LED Night Vision come equipped with white and green Cree LED chips which provide peripheral illumination to the mid-forward and side ground areas around the UTV. Night Vision Mode may be used for better visual acuity at lower light levels as the eyes adjust to the surrounding darkness quicker while using green light.

Halo-RA Rearview Mirror

The Seizmik Halo-RA Rearview Mirror features a precision milled, 6061 aircraft grade aluminum bezel with an ABS rear housing creating a strong, lightweight, and high performance mirror. Additional features include:

- Hard anodized aluminum for high performance and durability
- Low profile hinged clamp design geometry avoids interference with other accessories and pivots open for easy installation
- Locks ball joint into position keeping the mirror where you want it during the most extreme rides
- Rust resistant hardware in stainless steel for a premium look and finish
- Laser etched logos on anodized aluminum finish
- Shatter resistant safety glass for maximum safety
- Convex mirror surface for super wide viewing range and image stability
- Styled to compliment all seizuremik® side view mirrors
- The Seizmik Halo-RA Rearview Mirror is easily serviceable.
- The milled aluminum bezel may be removed and the convex safety glass may be replaced without having to replace the whole mirror.
- Mirror is covered under Seizmik's 100% Unlimited Lifetime Mirror Warranty.

Sunvisor

Assault Industries UTV sunvisors were designed to help reduce glare and provide shaded eye line while driving. Similar to those in automobiles, the sunvisor can be stowed away out of sight or easily pulled down when needed. Assault Industries UTV sunvisors quick-adjust cam keeps the visor in position on rough terrain and is a must for any UTV or side by side.

- Will NOT fit Polaris RANGER profile tubing

Side Mirror: 4.125" x 7.75", fits 1-5/8" thru 2" round tubing

Rear Mirror : 4.5" x 8", fits 1-3/8" thru 2" round tubing

Part No.	Description	Code
358139	Mirror Kit	C

Rear/Side Mirror

Another industry first from Kolpin!! Our new Rear/Side UTV Mirror offers versatility and convenience with rear and/or side mounting options! Easy to adjust with the highly engineered quick-pivot design – you can quickly and easily angle the mirror out of the way of branches or out of the way of passengers while in the cab. The clamp design even allows overhead mounting in your UTV with a roof installed. The wide angle, convex lens provides high visibility over rough terrain as the over-molded grips help to reduce vibration.

Part No.	Description	Code
002445	UTV/Rear Side Mirror	C

Ken Sean UTV Mirrors

Mirror Wide Angle

- Compact and clean look
- Rust resistant black powder coated stem
- Stem: 3" length, 3/8" diameter
- 1 3/4" O.D. clamp to fit standard roll bar

Harness Override Plug Connector

On the new Can-Am and Polaris models, the computer system knows when you are not wearing your seatbelt and will interrupt the ignition. This override plug connector bypasses the system, preventing your vehicle from going in limp mode.

- Plug-and-play, direct fit, easy installation
- Allows for use of 4 or 5 point harnesses

Seat Belt Overrides

Most UTV's now have a governor installed to help protect you and your passengers by not allowing you to go more than 10-15 mph unless your factory seat belts are fastened. When you install SuperATV 4 or 5 Point Seat Belts, it is no longer necessary to fasten at the factory seat belt location since they are equipped with harness style fastening. To ensure you can reach top speed on the trail, you'll need to install the SuperATV Seat Belt Override. This is a very easy to use device that is entirely plug and play. No cutting, no splicing or soldering.

Seat Belt Sensor Override

This Seat Belt Sensor Override is a plug-and-play modification that allows full power, regardless if stock seat belts are engaged. A must-have for UTV owners who have installed aftermarket harnesses and no longer requires the use of factory restraints.

Please note that this Override is intended for use with aftermarket safety restraints and should not be used as a way to ride without appropriate safety measures. Riding without restraints is extremely dangerous, and we wholeheartedly advise against doing so

- Plug-and-Play.
- Bypasses Seat Belt Sensor.
- Easily Installed Without Cutting Or Splicing.
- Undetectable Once Removed.
- Hand Assembled In The USA.
- Backed By A Lifetime Warranty

390419	Push Button Plate - Shallow/Flat	(B)

Spline Adapter/Hub Kit

This is the same one that we have been racing and winning with for years. The billet aluminum construction has been precision machined to precisely fit each platform. Black anodizing on the Hub for style and electroless nickel plating on the spline for longevity ensure proper function for years to come. Designed with a 6-lug bolt pattern the hub will fit all of DragonFire's Steering Wheels and most name brand 6 lug wheels. Take control like the pros with DragonFire.

Universal Tube Clamp

Tube Clamps are perfect for attaching parts to tubing when you don't want to weld the bracket directly to the tubing because adjustment or frequent removal of the bracket is needed.

Manufactured from 1020 steel, these tube clamps will not fail even under the most extreme circumstances and offer more versatility.

Sold Individually.

UTV Doors

Half Doors

This accessory is made from thicker polyethylene. This accessory not only compliments your vehicle look but provides an effective barrier from the elements and debris. A great feature for the sun-sensitive!

- Made of strong black HMW haircell polyethylene 0.5" thick
- Cut with superior CNC-5 Axis router all edges are super-smooth
- Custom design for perfect fit
- Latch system operated from the inside of the cab for more security
- Comes complete with all mounting hardware and detailed instructions
- Easy to install

Part No.	Description	Code
175292	Half Doors for UTV Hisun 10-18	C

ADVANCED UTILITY SYSTEMS™

175621

Framed Door Kit

- The only doors that work with any hard top or windshield
- Sturdy 3/4" tubular steel frame and steel door latch
- Durable UV resistant PVC coated heavyweight nylon fabric
- Easy installation, no drilling required, doesn't void any warranties
- Easy installation with Seizmik's innovative Quikfit Tightening System
- Tight all around seal resists water and wind intrusion into the cab
- The whole door comes off in seconds, no tools required
- Upper door covers are easily removable for ventilation
- Extra window on the bottom half of the doors for added visibility to maneuver in tight spots

UTV Roofs, Doors & Cabs

DFK Cabs

Cabs

Modular panel cabs made from the combination of a safety glass and a hard coated polycarbonate give the driver the best visibility in the industry, without exchanging the original rollover protection frame.

Cab panels can be ordered separately or as a full closed cab option. No drilling into the UTV frame is necessary during the entire installation.

- Front panel is made from the safety glass.
- Doors are made from the combination of a safety glass (sliding windows), and a transparent, UV protected, hard coated polycarbonate.
- Both doors are lockable, 180° openable and easy removable. They are hanging on the metal door bases and contain a metal door structure.
- Roof is made from the metal sheet and contains the noise reduction upholstery.
- Rear panel is made from a transparent, UV protected, hard coated polycarbonate.
- Additional hot-water heater kit is available as well, located in the dashboard or between the seats (depending on the UTV model)
- Every cab is supplied including the Spare Parts Catalogue and the Assembly Manual.

*** Wiper, washer and heated sold separately**

Nerf Bars & Rock Slider

A complete bolt-on rock slider for your machine designed with heavy-duty 1.25" tubing to protect the side of your machine from damage and debris. SuperATV's rock sliders add the extra level of protection needed whether you are crawling over rocks or blasting through the trails.

Rocks, sticks and other debris you encounter on the trail won't stand a chance against these sliders!

SuperATV UTV Fenders

Curved Front Fender Protectors

Polaris Ranger Curved Front Fender Protectors

The Ranger is a wide machine and with the introduction of UTVs to ATV trails, like many of us here I am sure you have come close to grazing a tree or two. Ride worry free with our curved front fender protectors. These heavy-duty side guards will protect your machine from whatever you want to put it through.

They are an easy, bolt-on accessory and come complete with all necessary hardware and mounting instructions.

*** You MUST have Super ATV's Front Brush guard to use this product with your Ranger.**

Dragonfire UTV Protection Bars

BackBones Bars

If you want to run at RacePace you're going to need some protection. Front to back protection while racing or driving a UTV is crucial. DragonFire has come up with a budget minded way for you to take your UTV from run of the mill to one of a kind. The new RacePace modular system allows you to build piece by piece or pay check to pay check. The "BackBones" system will not only give you much more style but rigidity as well. This kit will tie in the top rear of your stock cage all the way back to your "Smash" rear bumper, giving you that cool trophy truck look. With the new RacePace modular system you can customize your "BackBones" to be the perfect fit for you. Let her rip and give your UTV some support with "BackBones"!

Features:

- Lightweight & strong steel design
- CNC bent
- 6 bolt clam shell clamps
- Attaches to "Smash" rear bumper & allows for add-on spare tire carrier

Skid Plates

With all its greatness, the machine has one great weakness, the skid plate - or lack of. Directly under the floor board is a wide open plastic piece that leaves you and your machine vulnerable to sticks and rocks that could puncture the hull. With SuperATV's extreme duty 1/2" UHMW (ultra high molecular weight) skid plate you'll get full front to back protection, leaving you worry free when hitting those gnarly trails.

Skid Plates

Pull Plate

The HMF™ IQ Pull Plate is designed to add strength and rigidity to the Rear Frame and Mounting Points of the Radius Rods. Powdercoated black, the plate is built from 3/16" thick steel with the pull hook from 1/4" thick steel. The steel hook gives the ability to pull from the rear and supplies a good tie-down point when trailering. The plate is easy to install utilizing the stock hardware.

- Adds Strength and Rigidity to Rear Frame
- Offers ability to pull from the rear of vehicle
- Offers good tie-down point when trailering.
- 3/16" thick steel plate
- 1/4" thick steel hook
- Powdercoated Black
- Utilizes Stock Hardware
- Easy to Install

RacePace Spare Tire Carrier for BackBones

Flats are not fun, and these UTV's don't come with a spare. Don't get stuck in a bad spot, carry a spare and get out every time. DragonFire makes it easy with two mounting options, Bed Mount and BackBones Mount.

Note: Requires DragonFire BackBones and Rear Bumper for use.

Features:

- 6-bolt cage clamps for easy installation
- Lightweight & strong 1.5" steel design
- Mounts to DragonFire BackBones
- Powder coated to match Can-Am color schemes

Adjustable Cargo/Tire Rack

When you're running at RacePace it's important to make sure you and your YXZ have what you need. The Adjustable Cargo/Tire Rack will provide piece of mind by allowing a safe and sturdy location to store a spare tire when out riding and still have space for storage. RacePace celebrates the high performance nature of the YXZ providing you with a strong but lightweight steel construction. Utilizing factory-mounting points this cargo/tire rack bolts directly onto your car with no cutting or welding needed. Powder coated black for style you get everything you need and nothing that you don't.

Great Day Racks

Spare Tire Carrier

Nothing can be more frustrating than getting stranded in a remote place with a flat tire on your UTV. Great Day's Power-Ride Spare Tire Carrier solves the problem by allowing you to take a spare tire with you. The Power-Ride Carrier works equally well attached to the frame of the UTV top or to the back of the cab. The Great Day Spare Tire Carrier utilizes our patented Power-Ride mounting system that installs in seconds with no drilling or bolting required. The spare tire is held in place with two mounting studs and secured with easy-grip, fluted wing-knobs.

Part No.	Description	Code
022426	Spare Tire Carrier 36"-50"	(B)
020898	Spare Tire Carrier 50"-64"	(B)

Cargo Rail Kit

- 32" long with 30" hole-to-hole bolt-up
- No Drilling required on listed UTV's
- Keeps your cargo in the box while riding rough trails or terrain.
- Great for holding tools, coolers, and gas cans securely in the bed of your Box
- Works better than OEM bed hooks at a fraction of the cost.
- Can be used with Bungee Cords, Tie Downs, Ratchet Straps or Rope
- 100% MADE IN USA
- Constructed of 10ga steel
- Metal bead blasted before they are powder coated for the best possible finish prep.
- Powder coated black for supreme durability
- Complete installation instructions included
- All mounting hardware included
- Satisfaction guaranteed

Safety Flags

Safety Flag

- 100% Oxford polyester orange safety flag mounted on a flexible 3/8" fiberglass rod.
- The colorful PVC shrink tubing protects each rod from sun-splintering and deterioration, in addition to providing increased durability and enhanced color visibility.
- Our special composite blend of fiberglass and resin makes our rod the most durable choice for any safety flag application.
- The 3/8"-24 threaded base is compatible with a large variety of brackets, mounts, springs, quick disconnects and other mounting hardware. Flag is removable and/or replaceable and rotates freely on the rod.
- Strobe Ready: Firestik StrobeStik-Ready safety flags are outfitted with a 1/4"-20 threaded brass adapter that is compatible with the FireStik StrobeStik LED strobe light.

The colorful PVC shrink tubing protects each rod from sun-splintering and deterioration, in addition to providing increased durability and enhanced color visibility. Our special composite blend of fiberglass and resin makes our rod the most durable choice for any safety flag application. The 3/8"-24 threaded base is compatible with a large variety of brackets, mounts, springs, quick disconnects and other mounting hardware. Flag is removable and/or replaceable and rotates freely on the rod. Strobe Ready: Firestik StrobeStik-Ready safety flags are outfitted with a 1/4"-20 threaded brass adapter that is compatible with the FireStik StrobeStik LED strobe light.

Length	Description	Non Strobe Ready	Code	Strobe Ready	Code

5'	5 ft Flagstick with Spring Mount	158208	C	158247	C

StrobStick (for Strobe Ready Firestik)

Firestik LED safety flags utilize a unique multi-purpose strobe light for use in a variety of emergency, safety, signaling or identification applications. The multi-function strobe, called StrobeStik, provides safety lighting for off-road recreation, mining, construction, highway safety, police, search and rescue, camping, hiking, backpacking, hunting, kayaking, boating, personal safety and more. The possible applications are limited only by the imagination. StrobeStik's 1 watt LED is powered by a single "AA" battery. The "AA" is the most recognizable and commercially available battery in the world, allowing for inexpensive and convenient battery replacement. Typical battery life, using the leading discount store alkaline, ranges from 8 to 100 hours depending on the user-selected mode.

The 6 Strobstick modes are:

- MODE 1 :** No light or strobe. Battery saving off-mode.
- MODE 2 :** Solid-on - Stays lit; no strobing action. Continuous operation of 8 hours.
- MODE 3 :** Slow Strobe - One flash per second capable of over 100 hours of continuous operation.
- MODE 4 :** Fast Strobe - 2.7 flashes per second for 25+ hours of continuous operation.
- MODE 5 :** Triple Flash Strobe - 3.8 flashes per second for 20+ hours of continuous operation.
- MODE 6 :** Random mode - 30+ hour run-time; random flash pattern designed to reduce habituation behavior.

ATV Windshields, Mirrors & Acc.

National Cycle ATV Windshields

Windshields

If you love the adventure of riding in extreme environments - the forest, the bush, and in cold weather - this generous 32-inch width is for you. Made from Lexan® polycarbonate with a protective rubber trim edge for maximum durability in all types of terrain, conditions, and climates. It features sturdy, steel mount brackets that are black powder coated to withstand extreme use.

- Lexan® polycarbonate
- Solid bar mount, steel hardware.
- **001660** Specs : H : 20 inches (50.8 cm) from headlight cutout to top; W : 32 inches (81.3 cm)
- **Hardware included**

ATV Windshield

Cobra ProTEK Shield

The new Cobra ProTEK ATV Windshield features an edgy design to match the newer ATV styling. The addition of ribs and contours give the ProTEK windshield added strength. The ProTEK has a universal fit that comes with or without a headlight cutout, and with black graphics. Cobra ATV Shields are made of high quality optical-grade polycarbonate featuring scratch-resistant surface and distortion free optics. Unlike some shields, you don't have to remove a Cobra shield to trailer your ATV (ATV must be facing forward). It has two mounting options; Standard or Rapid Release. Our unique two-point mounting system is universal and makes installation quick and easy. Approximate shield sizes are: 20" h x 36" w (Universal).

Note: The Cobra ProTEK fits most models except for the Honda Rincon, all Bombardier models (except Rally), Kawasaki Prairie and Brute Force.

Mirror

Safely view what or who is behind you on the trail.

Required by many states for road travel, our ATV rear view mirror features a fully adjustable, ultra-clear 4" diameter mirror with a ball & socket swivel design. The innovative, quick attach/detach mounting base (which is interchangeable with Kolpin Rhino Grip XL #002408) accommodates 5/8" to 1" diameter tubing for positioning on ATV racks or handlebar.

Part No.	Description	Code
002471	ATV Mirror	C

Round Black Mirror

Classic old style flat mirror gives you exact rear definition in a slightly shorter attitude. This universal mount mirror with its black housing and 6 inch stem still has appeal today. 10mm universal model fits left or right side.

Ken Sean ATV Mirrors

Universal Dual Sport Folding Mirror

These are the ultimate in Dual Sport Mirrors, completely adjustable for street use, yet conveniently folds out of the way for off road use. They screw into any existing 10 mm perch which makes installation a snap. The ability to fold out of the way also helps prevent mirrors from breaking. When bike falls, the mirror can easily fold out of the way.

Part No.	Description	Code
070848	Left or Right Hand Side; 10mm	E

Deluxe Mirror

Seat Covers

Backrest

What you need to know-helps prevent passenger from sliding forwards, more relaxed seating position for passenger, supports drivers lower back.

Polaris applications: All Polaris sportsman touring
Brp applications: All Brp outlander 2 places 07-13

Part No.	Description	Code
058645	Driver Backrest ATV	E

Universal Adjustable Backrest

Adjustable 3-Position Reclining Seat Back - A real "back-saver" adding comfort when riding an ATV over rough terrain or for long periods of time. This backrest is made of 2 in. heavy-duty polyester and attaches quickly to most metal and plastic ATV racks.

Part No.	Description	Code
912622	Universal Adjustable Backrest	C

Seat Cover

- Universal size fits most ATV's
- Stick and leaf camo print
- Protects ATV seat from rain and dirt

Part No.	Description	Code
159362	ATV Seat Cover	C

Deluxe Seat Cover

- Durable protekx2™ fabric with water-resistant backing and exterior coating for great weather and abrasion protection
- Thick, padded stretch Eva seat top for comfort and durability
- Keeps seat clean and dry
- Protects seat against fading and other sun damage
- Quickly fits to seat with adjustable click-close bottom straps
- Elasticized hem for a quick and close fit
- Machine washable
- Two year limited warranty

Part No.	Description	Color	Code
159204	Fits most ATVs	Black	C

Seat Covers

Gel-Tech™ Seat Cover

- Fits most ATV's
- Gel padding and ergonomic design provides maximum cushioning and temperature control for exceptional riding comfort
- Easy to install with nylon hook and loop straps
- Dimensions: 14" front, 21" back, 30" length

Part No.	Description	Color	Code
002383	Gel-Tech Seat Cover	Black	C

Seat Cover 600 Denier

Protect the seat of your ATV, as well as your own with our rugged seat cover. Constructed of 600 denier, UV-resistant fabric, and PVC-backed for waterproof and abrasion protection, to protect new seats and renew old ones. This cover is a great fit for smaller and intermediate ATV's and features durable nylon web straps that are easy to install, ensuring a secure fit, while the quick-release buckles facilitate effortless seat cover removal.

Part No.	Description	Code
002495	ATV Cover Black	C

Trailtec Rack Pad

- 600 x 600D poly/pvc fabric
- 8 Velcro straps for easy attachment to ATV racks or composite racks
- 3" of open cell foam for comfort
- 1/2 closed cell foam for shock absorption
- Can be folded in half for double the cushioning affect.
- Dimensions : 3" x 38" x 15"

ATV Bumpers, Protection & Racks

KimpeX ATV Bumpers

GEN Front Bumpers & Rear Bumpers

GEN

Its unique part made of lightweight high-density polyethylene not only absorbs shocks; it's central piece won't distort rust or suffer from winch's assaults while offering a great impact resistance

Rear

With its unique lightweight high-density steel design and powder coating, it offers unmatched impact resistance and increased rust protection.

ATV Bumpers, Protection & Racks

SuperATV ATV Bumpers

Bumpers

SuperATV's unique and aggressive design is carefully crafted to follow the contour of your vehicle. We provide a sleek and stylish look while giving you ultimate protection for your tail lights, exhaust, and bed. Our rugged bumpers feature a UV-resistant, black powder-coated finish that's long lasting and compliments your vehicle's cage and body. SuperATV offers an assortment of colors to match any machine.

ATV Bumpers, Protection & Racks

Kimpex Fender ATV Guards

Fender Guards

Our Fender Guards are now available without foot pegs for easier inventory management. To order the new Fender Guards, you must order one of each part number in the application.

Example, for Outlander 650 XT-P EFI (2010), you need to order 1 x **473147** & **073899**

for a complete kit.

- Fits rear rack and original foot pegs
- Easy to install
- Replacement end Cap for Fender Protector **173556**
- Diameter: 1 inch (tube)

Kolpin Cargo Racks

Collapsible Flat Basket

- 1 1/2" (38.1mm) steel tubing for perimeter support
- Bolt together design allows for standard UPS shipping
- Powder coated matte black finish
- Welded expanded metal mesh to contain small items
- Includes mounting hardware for easy installation
- Assembled dimensions: 40" x 33" x 6"
- Mounts to front or rear of ATV

Part No.	Description	Code
002352	Collapsible Flat Basket	C

Convertible Rear Drop Rack

It is like getting 3 racks for the price of 1! The convertible welded basket can be used with the rear rack extension in either the dropped or raised position, OR you can use it separately for contained storage on your ATV's front rack. The welded, expanded mesh basket easily transports up to three 5 gallon buckets, tools, and more! The heavy-duty rack is constructed of 1 1/2" dia. tubing for perimeter support and bolts to 1" dia. mesh platform that provides additional space to strap down even more gear! And there is no need to alter your original tubular rack; the universal fit design includes all the mounting hardware you need for easy installation. Perfect for use on the farm, ice fishing, or just about anywhere!

- Welded basket dimensions: 13" x 38" x 7 1/2"
- Total assembled dimensions: 40 1/2" x 27 1/4" x 10", weight 28 lb.

Universal Fast Clamp with Mounting Bracket

No tools required! Lightweight, secure and extremely durable! The Fast Clamp and Mounting Brackets allow you to quickly attach and release mountable accessories to tubing on your ATV, UTV, or one of Hornet Outdoors Racks. The through hole (5/16") allows you to easily secure LED lights, ATV accessories, camping and hunting gear, as well as farm and construction tools. Resistant to vibration, the Fast Clamp and Mounting Bracket works perfectly for heavier weight accessories and Light Bars.

Specifications:

- Fits 1.5" to 1.75" diameter tubing
- No tools required, quick on/off
- Quickly mount accessories to round tubing 5/16" through hole for various mounting fits
- Rubber mounting pad for exact fit sizing
- Durable glass-filled nylon construction

Part No.	Description	Code
163356	Large - Fits Tube diameter 1.5" to 1.75"	(B)
163357	Small - Fits Tube diameter 3/4" to 1"	(B)

Safety Flag

This 6 ft. tall safety flag is great for riding ATV's in hilly terrain, alerting oncoming trail riders that you're heading their way. The 1/4" diameter flexible fiberglass pole is 6 ft. long. There's a 16" neon orange nylon flag on top and 1/2" mounting hardware on the bottom.

Part No.	Description	Code
058647	ATV Safety Flag 6'	C

Safety Flags

Safety Flag

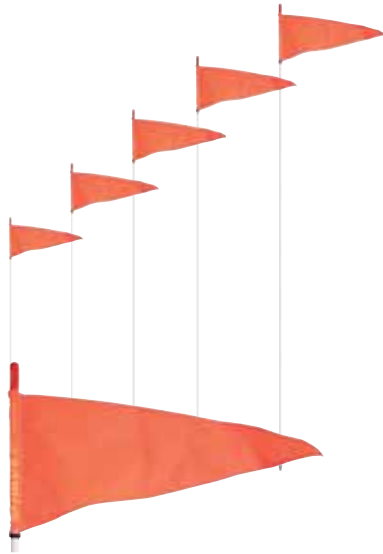

- 100% Oxford polyester orange safety flag mounted on a flexible 3/8" fiberglass rod.
- The colorful PVC shrink tubing protects each rod from sun-splintering and deterioration, in addition to providing increased durability and enhanced color visibility.
- Our special composite blend of fiberglass and resin makes our rod the most durable choice for any safety flag application.
- The 3/8"-24 threaded base is compatible with a large variety of brackets, mounts, springs, quick disconnects and other mounting hardware. Flag is removable and/or replaceable and rotates freely on the rod.
- Strobe Ready: Firestik StrobeStik-Ready safety flags are outfitted with a 1/4"-20 threaded brass adapter that is compatible with the FireStik StrobeStik LED strobe light.

StrobStick (for Strobe Ready Firestik)

Firestik LED safety flags utilize a unique multi-purpose strobe light for use in a variety of emergency, safety, signaling or identification applications. The multi-function strobe, called StrobeStik, provides safety lighting for off-road recreation, mining, construction, highway safety, police, search and rescue, camping, hiking, backpacking, hunting, kayaking, boating, personal safety and more. The possible applications are limited only by the imagination. StrobeStik's 1 watt LED is powered by a single "AA" battery. The "AA" is the most recognizable and commercially available battery in the world, allowing for inexpensive and convenient battery replacement. Typical battery life, using the leading discount store alkaline, ranges from 8 to 100 hours depending on the user-selected mode.

The 6 Strobstick modes are:

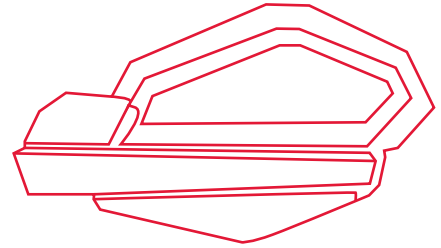

- MODE 1** : No light or strobe. Battery saving off-mode.
- MODE 2** : Solid-on - Stays lit; no strobing action. Continuous operation of 8 hours.
- MODE 3** : Slow Strobe - One flash per second capable of over 100 hours of continuous operation.
- MODE 4** : Fast Strobe - 2.7 flashes per second for 25+ hours of continuous operation.
- MODE 5** : Triple Flash Strobe - 3.8 flashes per second for 20+ hours of continuous operation.
- MODE 6** : Random mode - 30+ hour run-time; random flash pattern designed to reduce habituation behavior.

Powermadd Handguards

Sentinel Handguards

PowerMadd is excited to introduce his latest handguard offering! The Sentinel Handguard is designed to be the most stylish, durable and functional handguard to date. The Sentinel guard is larger compared to the Star Series which in turn gives you more protection. The mounting brackets are 6061 aluminum, while the guard itself is made of two different types of plastic: a stiff two piece spine for durability and a softer colored body for flexibility.

The Sentinel protects your hands from flying debris, rocks, bushes, branches, and mud. Plus it keeps your hands warmer by blocking the wind in cold weather. In the summer, simply snap out the removable vent cover to let air flow through.

Handguard and mounting kit are sold separately.

Part No.	Description	Code

Powermadd Handguards

LED Light Kits

- Simply snap out your vent covers and snap in the LED light kit
- They can be wired directly to your battery by using the included:
 - 12 volt waterproof switch;
 - or they can be tapped into any other 12 volt power source
- These bright LED lights (200 lumens each) provide additional visibility and safety - allowing you to see more and be seen easier
- 4 watts each
- These are a great addition to any ATV, motorcycle or snowmobile
- Sold separately: Sentinel/Star Series Handguards & mount kit

201937	Handguard LED Light - Star Series	C
201938	Handguard LED Light - Sentinel	C
201977	LED Light Cover - Star Series, White	C
201978	LED Light Cover - Sentinel, White	C

Sentinel Mirror Kit

The kit includes two mirrors and all hardware needed to make the mirror fixed or folding. The Mirrors consist of a polypro plastic base and a 2.75" mirror which gives you safety and piece of mind. The mirror has been designed specifically for the Sentinel Handguards and follows the lines and shape of the guard for a clean look and they can fold in when not in use or if you use a cover. Our Sentinel Mirrors attach directly to your Sentinel Handguards with a few simple steps. The mirror kit will work with the Armor, Hand Wrap, Flare and Gauntlet. Note: Armor and Hand Wrap work with fixed mount only.

Part No.	Description	Code
201859	Sentinel Mirror Kit	C

Sentinel Armor

The Sentinel Armor permanently attaches to the PowerMadd Sentinel handguards adding complete 360 degree protection. Utilizing the Sentinels popular style the Sentinel Armor looks good while doubling the amount of protection! The Sentinel Armor is constructed of light weight closed cell molded AEPE foam, which is both waterproof and extremely durable.

PowerX™ Handguards

PowerMadd continues to lead the industry in hand protection with its PowerX™ Series Handguard lighter and 20% smaller than the current Star Series Handguard and is designed for motocross, ATV, mini-MX and mini-ATV riders.

The PowerX guard and FlexMount™ universal mounting system were engineered to work together to dissipate and absorb impact.

This handguard addresses all the key issues MX riders are looking for protection, quick installation or removal, and the ability to endure crashes.

The PowerX Series Handguard comes in 4 basic colors and is sold separately from the Universal FlexMount™. This enables the rider to change colors without having to purchase an entire handguard kit.

Powermadd Handguards

Star Series Handguard System™

The Ultimate in Hand Protection

- Ultimate hand protection for motorcycle, ATV and snowmobile riders
- Engineered to provide the ultimate in hand protection against the elements
- Allows the rider to wear thinner gloves for more control while still keeping rider's hands warm
- Fully adjustable mounting system allows for a variety of positions to fit the rider's needs
- A great way to add that «racer» look while providing excellent wind protection
- A must for all racers to protect hands against roost and flying debris
- Universal mounting kits for fast, simple installation
- Mounting kits consist of aluminum brackets, hardened steel straps and stainless steel hardware
- All brands of ATVs use 200970, all brands of snowmobiles use 200926
- Handguards and mounting kits are sold separately

Star Series Handguard Gauntlet (Pair)

- Keep your hands warm and dry no matter what the conditions, cold, rain, mud, etc.
- Designed to work with our Star Series handguards on snowmobiles, ATVs and motorcycles.
- Unique "stay-open" design makes it easy to grab and see your controls.
- Allows you to ride with thinner gloves giving you a better feel.

Part No.	Description	Code
201098	Star Series Handguard Gauntlet (Pair)	C

Handguard Gauntlet X2 (pair)

The Gauntlet X2 attaches easily to any handguard giving you added warmth and protection from roost, water, snow and mud. The Gauntlet X2 uses your existing handguards for support. The updated X2 features a new look, upgraded attachment mechanism and an improved stay-open design. The stay open design allows the rider to easily see the controls, return a gloved hand to the grips, ride with thinner gloves and gives you better feel and control. Engineered and constructed with a rigid yet flexible bone material for a positive stay open design.

NOTE: Works with the Sentinel, Star Series, Trail Star and most other handguards.

Part No.	Description	Code
201948	Handguard Gauntlet X2 (pair)	C

Tri-Mount Handguard Mount for Star Series and TrailStar

- Powermadd continues to make mounting hadguards as easy as possible
- The new Tri-Mount kit offers another area to mount our handguards – just below the bend in the rise of the bars
- This mount is an ideal choice when space is limited near the controls, especially on utility quads, enduro bikes and some snowmobiles
- Note – only works on 7/8" bars
- **One year warranty**

Part No.	Description	Code
201149	Tri-Mount	C

Powermadd Handguards

Handwrap Attachment

For extra protection in the woods or on the trails, the Hand Wrap Attachment offers the ultimate in protection and flexibility. It attaches to existing Star Series Handguards with just two bolts and features a unique safety bend that provides wrist relief on tight curves. The included mounting hardware fits any diameter steel or aluminum bars. If you want to run without the hand wraps, simply remove the Hand Wrap and use the provided end caps to cover your grip ends.

Part No.	Description	Code
201007	Handwrap Attachment	C

Yamaha Parking Brake Adaptor

Want to run guards on a Yamaha Raptor or Banshee? Now you can and use your parking brake. Handguards get in the way of the parking brake lever and prevent its use. With this simple adaptor you reposition the lever so that it can be used with PowerMadd Star Series guards and most others, as well.

Part No.	Description	Code
201069	Yamaha Parking Brake Adaptor	C

Rider Hold-Tight

- Common sense design allows passenger to hold onto driver safety and securely when riding your snowmobile, ATV, motorcycle, or personal watercraft
- Designed to be worn directly over your clothing, life vest, or snowmobile suit
- Dual position rider handles provide quick and easy handholds
- Ultra comfortable Neoprene handhold tubes remain soft in cold weather
- Constructed of heavy duty nylon webbing, 500 Denier cloth and quick release buckles

Part No.	Description	Code
201040	Rider Hold-Tight	C

Handguard Flare

The ultimate cold weather hand protection!

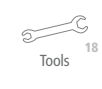

* Handguards are not included

Handguards Flex-Tec GEN2

Available in 11 different colors. Flex-Tec Guards are designed to handle the toughest riding conditions out there. Using a rigid but flexible wbackbone, these guards will bend and flex when necessary - they won't snap off like everyone else's guards. Battle tested by the pros on the ISOC Snowcross Circuit, this is the last set of guards you will buy.

Torc1 Grips

Lock-On Grips

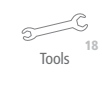

- Overall length: 130mm
- Light weight: 90 grams per set
- Single lock on CNC clamp allows more grip area for added control
- Unique shock absorbing grip design helps reduce rider fatigue
- Soft and durable super tacky compound
- Oversized clamping bolts and left and right specific clamps make for easy installation
- Lock-On grips will also work for watercraft, mountain bike and ATV

Part No.	Description	Code
110913	Lock-On Grips - Black/Black	E
110914	Lock-On Grips - Blue/Black	E
110915	Lock-On Grips - Red/Black	E
110109	Lock-On Grips - Green/Black	E

Enduro Grip

- Dual compound to minimize vibration
- Custom krayton material providing longer wear and tear as well as superior glove traction
- Wire grooves for added safety
- Available colors to blend with every bike and graphic on the market
- Each set comes with 1 tube of grip glue
- ATV grips will also work for watercraft, mountain bike and BMX applications

Part No.	Description	Code

Risk Grips

Fusion 2.0 Grip Tech Bonding Systems –ATV/MTB

- The Fusion Bonding system eliminates glue, wires, and slipping
- The Fusion 2.0 Grips are dual density grips designed to minimize vibration and improve arm pump
- The ergonomic “wave” on the flange of the grip reduces pressure points between the riders thumb and the grip flange
- Easy application: clean your handlebar, apply the bonding strips, shake and spray the catalyst to the exposed bonding strips, quickly apply grips, and you’re done

Part No.	Description	Code
107846	Universal Grip Red	C
107847	Universal Grip Blue	C
107848	Universal Grip Green	C
107850	Universal Grip Orange	C
107851	Universal Grip Yellow	C

Mud Grips

- Makes a slippery, muddy grip feel dry when riding
- Ultra thin design does not affect grip diameter
- Slide over any MX, ATV, MTB, or BMX grip

Part No.	Description	Code
107972	Mud Grips	C

Bar End Plugs

Bar Clamps

Rotating Bar Clamps HS

- New design universal hot starter lever with rotating bar clamp.
- Bolts onto your existing brake master cylinder or clutch perch.
- Re-locates the stock hotstart lever over to the right or left side perch for easy access.
- Includes nylon sleeve to insert between the clamp and your bars allowing the lever perch to rotate upon impact.
- Made of A7009-T6 aluminum.

Part No.	Description	Code
027812	Rotating Bar Clamp HS Titanium	C
027813	Rotating Bar Clamp HS Red	C
028342	Rotating Bar Clamp HS Blue	C

Rotating Bar Clamp UN

- Universal rotating bar clamp. Bolts onto your existing perch.
- Includes nylon sleeve to insert between the clamp and your bars allowing the perch to rotate upon impact.
- Made of A7009-T6 aluminum.
- Titanium color, blue and red anodized finish.

Part No.	Description	Code
027814	Rotating Bar Clamp UN Titanium	C
027815	Rotating Bar Clamp UN Red	C
028341	Rotating Bar Clamp UN Blue	C

Rotating Bar Clamp MH

- Universal rotating bar clamp with mirror hole. Bolts onto your existing perch.
- Includes nylon sleeve to put between the clamp and your bars allowing the perch to rotate upon impact.
- Made of A7009-T6 aluminum.
- Titanium color, blue and red anodized finish.

Part No.	Description	Code
027816	Rotating Bar Clamp MH Titanium	C
027817	Rotating Bar Clamp MH Red	C

Handlebar Risers

Bar Rise Kit

- Universal bar riser kit for stock top tripple clamps
- Provides 19mm higher height bar position than stock bar position
- Usable for dirt bikes and ATVs
- Comes with bar clamp bolts

Part No.	Description	Code
009556	7/8" (22.2mm)	C

PowerRiser 325 Pivoting Riser

- One piece solid aluminum design for superior strength
- 3.25" wide fits 7/8" bar clamps on all snowmobiles and Bombardier and Polaris ATVs
- Provides dual pivot points allowing for bars to be positioned front to back and rotated up or down. 2" rise will work on most snowmobiles with no cable modification, ATVs should check available cable slack.
- Two models - for 7/8" bar clamp using 7/8" bars, and for 7/8" bar clamp using oversize 1 1/8" bars.
- For 3" rise use PM15400

Part No.	Description	Code
201138	PowerRiser 325 2"x3.25" for 7/8" to 1 1/8" Bars	C
201885	PowerRiser 2" x 3.25" for 7/8" to 7/8" Bars	C

PowerRiser 475 Pivoting Riser

- One piece solid aluminum design for superior strength
- 4.75" wide fits 7/8" bar clamps on all ATVs and motorcycles
- Provides dual pivot points allowing for bars to be positioned front to back and rotated up or down.
- Check available cable slack to make sure existing cables will work with the riser.
- Two heights available - 2" and 3"
- Two models - for 7/8" bar clamp using 7/8" bars, and for 7/8" bar clamp using oversize 1 1/8" bars.

Part No.	Description	Code
201198	PowerRiser 475 2.25" x 4.75" for 1-1/8" to 1-1/8" bars	C

Universal Pivot Riser System

- Works on all brands of ATVs, motorcycles and snowmobiles with 7/8" bars and front to back bolt spacing between 1.197" and 1.36" center to center.
- Two models - 1" (25mm) and 1.6" (40mm).
- Standard and metric bolts included (4).

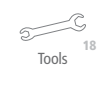

Part No.	Description	Code
201081	Universal 3" Pivot Adaptor / Riser	C

201885

293032

Pivoting Riser

Anti-Vibration Pivoting Handlebar Risers

Anti-Vibe design reduces vibration in bars at high RPM's and provides a shock dampening feature to protect components and rider during harsh impacts.

- **Adjustable** : Dual rotation points makes Rox Handlebar Risers selectively adjustable forward and back, allowing you to fit your handlebars to your preferred riding position.
- **Universal** : With its two pieces design, Rox Riser will install on virtually any clamps to hold the handlebars, making it incredibly universal.
- **Engineered** : Tested for maximum strength and durability. CNC machined from billet 6061 T6 aluminum anodized clear.

Part No.	Description	Code
293032	Rox Anti-Vibration Pivoting Riser - 2" rise Elite Series Natural Aluminum (7/8" and 1/8" Fit)	C

202087

Rox Pivoting Handlebar Risers

Pivoting Snowmobile Bar Risers can make riding your snowmobile much more comfortable. This product not only raises your handlebar but also features dual rotation points providing fore and aft adjustment. This insures proper handlebar position for your position and style of riding. Correctly placed handlebars also eliminate back strain, increasing your enjoyment and endurance.

- **Adjustable**
Dual rotation points makes Rox Risers selectively adjustable forward and back, allowing you to fit your snowmobile handlebars to your preferred riding position.
- **Universal**
With their two pieces design, Rox Pivoting Risers will install on virtually any snowmobile that has clamps to hold the handlebars, making them incredibly universal.
- **Engineered**
Tested for maximum strength and durability. 6061 T6 aluminum **Made in USA**

* Elite Series : Adjustable for 7/8" and/or 1-1/8" Fat bars

Oversize Bar Adaptor

Universal adaptor allows 1 1/8" bars to be clamped to ATVs, motorcycles and snowmobiles with Powermadd Pivot Riser Blocks.

Part No.	Description	Code
200900	Oversize Bar Adaptor	C

Handlebar Accessories

Oversize Handlebar Mount Kit

- Universal mounting kit allows oversized 1 1/8" oversized
- Handlebars to be adapted to snowmobile
- Works on most OEM and aftermarket risers
- Can be mounted to a flat plate style steering post
- Simple bolt on design
- 6061 T-6 Aluminum with a black anodized finish
- Also fits ATV's and Motorcycles
- Available separately or in kits with white or black RSI bar pads

Part No.	Description	Code
202310	Oversized Handlebar Clamp Kit Black	C
202312	Oversized Handlebar Clamp Kit Black with Black Bar Pad	C

Rubber Killer

Solid cones for rubber bar mounted stock triple top clamps Provides direct control and prevents bar twist when falling down Anodized red color Comes in a set (4pcs solid cones)

MATRIX™ Seat Bag

The Matrix Seat Bag offers maximum storage in a compact design with integrated padded, back rest style seat for added comfort. Unique design features multi-piece, detachable gear bags with center Matrix cooler to accommodate anything you need while on the trail. The center Matrix cooler section keeps up to a 12-pack of beverages cold with room for additional goodies. Patented water bottle holder zips out only when you need it, and exterior shock-cord provides even more storage for your items such as gloves and jackets!

Constructed of 600 denier nylon with exclusive Hydro Shield™ coating, prevents dirt and mud from impregnating the fiber while Rhino Armour™ reinforcement in all high wear areas provides extra durability mile after mile on the trails. Easily attach with the web reinforced buckles to any ATV!

- 2.02 cubic feet of accessible storage

Packs

ATV Deluxe Rack Packs

The Deluxe Rack Pack's wrap-around design fits most ATV front and rear racks perfectly. Three spacious padded and lined compartments, each with separate zippers, hold lots of gear. Two of the compartments double as coolers. They're insulated and equipped with leakproof liners and hold a total of 24 - 12 oz. cans. The zippers are covered by storm flaps to keep moisture out and have deluxe quiet-riding zipper pulls. Attaches to ATV racks with 6 pair of hook and loop straps. Constructed of rugged 600-denier polyester water-resistant pack material. Large 3,200 cubic inch storage capacity.

Part No.	Description	Dimensions	Code
058602	Deluxe Rack Pack - Mossy Oak	34" x 16" x 9"	C
058609	Deluxe Rack Pack - Black	34" x 16" x 9"	C

ATV Deluxe Padded Rear Rack Packs

This is a versatile item, contoured to fit the rear rack of your ATV, with a 2" thick closed-cell foam bottom. Three spacious compartments, each with a separate zipper, hold lots of gear. Equipped with storm flaps and deluxe zipper pulls. Quickly and easily attaches to ATV rear racks with 6 pair of hook and loop straps. Constructed of rugged 600-denier polyester pack material with a waterproof coating. Can be removed and used as comfortable seat.

Part No.	Description	Dimensions	Code
058614	Deluxe Padded Rear Rack Pack - Black	35" x 19" x 9"	C

Padded Rear Pack

This pack is contoured to fit the rear rack of your ATV and has a 1/2" thick closed-cell foam bottom. Three spacious compartments, each with separate zippers, hold lots of gear. Equipped with storm flaps and deluxe zipper pulls. Quickly and easily attaches to ATV rear racks with 8 pair of durable straps and ladder lock buckles. Constructed of rugged 600-denier polyester pack material with a waterproof coating. Can be removed and used as a comfortable seat.

ATV LOGIC

Packs

ATV Tank Saddlebags

The 2 zippered compartments of these durable saddlebags keep your gear close at hand. To install, simply unscrew the gas cap, drop the bag into place and screw it back on. Self-adhesive hook & loop fasteners are included to optionally secure to the sides of the gas tank. An insulated exterior pocket holds a one liter water bottle. There's a mesh pocket inside for wallets and keys. Equipped with storm flaps and deluxe zipper pulls. The 600-denier polyester pack cloth is coated for water resistance. One size fits most ATV's, motorcycles and snowmobiles.

Part No.	Description	Code
058608	ATV Tank Saddlebag - Mossy Oak	C
058617	ATV Tank Saddlebag - Black	C

ATV Fender Packs

This 2-compartment pack follows the contour of ATV fenders, taking up no rack space. Attaches to front or rear racks and the floorboard with 4 straps and ladder lock buckles. The backs of the compartments are padded and have hook & loop fasteners to keep articles from bouncing around inside. Constructed of rugged 600-denier polyester water-resistant pack material. Equipped with storm flaps and deluxe zipper pulls.

PLASTIC PLOW

THE ONLY PLASTIC PLOW
AVAILABLE IN THE AFTERMARKET!

MORE ON THE *PLASTIC PLOW!* FEATURES

- Very lightweight compared to metal
- Unbreakable: thermoplastic offers the greatest resistance in case of impact
- Resilient material : its ability to absorb shock allows the blade to recover its original shape
- 60" wide x 17" high
- No changes need to be made to the Click'N Go² push frame: uses the same system as ATV Click'N Go²
- No scratches, corrosion or rust

CLICK n GO^{1.5} ATV

PLOW SYSTEM

The push frame accepts many sizes of metal plow (50", 54", 60" and 66") in addition of the plastic plow and the bucket. It has a lifting capacity of 11" from the ground which is comparable to the CnG¹ without articulation. This push frame cannot be used with an extension for tracked vehicles. However, it is possible to have replacement parts for the push frame (listed in the following pages).

CNG^{1.5} PUSH FRAME IS FIXED TO THE CNG² ATTACH.

MORE ON **CLICK N GO^{1.5}**! FEATURES

- Universal mount plate 60% to 75% of ATV
- More compact mount system reduces ground clearance loss
- Manual adjustment for angular rotate system of 25 degrees left and right side
- Clever pedal system avoids leaning over to handle the plow
- Can be easily installed in 15 seconds
- Use with all CNG² blades and brackets
- Do not exceed a speed of 8km/h (5 mph)
- The height to lift is similar to CNG¹

Click n Go¹ System

CLICKnGO¹

The Click n Go¹ System

The Click n Go system allows for easy hook-up and fast removal without having to go under your ATV. Efficient and durable, the Click n Go¹ system is ideal for summer or winter condition.

Characteristics:

- Easy hook-up and fast removal without having to go under your ATV
- Electric winch lift system
- Five positions blade quickly adjust without tools.
Blade is adjustable 25° to either side
- Oversized springs prevent damages to the blade
- Many accessories available to improve your plow performances
- Blade Gauge: 11 gauges (.120 inches)

CLICK N GO EASY STEPS

Step 1 = Choose a Click N Go¹ Frame

Step 2 = Choose a Plow Blade

Step 3 = Select the right mounting plate p. 284 to 285

Plows & Snowblowers

KFI ATV Plow Systems

ATV Plow System

Building your Plow System is a simple 2 step process:

Step 1. Choose your blade: Pro-S (Straight) 48", 54" or 60" or Pro-T (Tapered) 60".

Step 2. Choose your ATV-specific Quick Mount Bracket & Push Tube. The Bracket will attach the Push Tube with Swivel Mount to your machine. Each is made from high-grade American Steel for an absolute rock-solid mounting option you can count on no matter how thick and heavy the snow is.

Plow Blade Chart

Size (in.)	Recommended Plow Length	Size (in.)	Recommended Plow Length
350cc	48" -54"	500cc	54" -60"
400cc	48" -54"	600cc	60"

Important: Do not choose too large a blade. You may not have enough horsepower for heavier snowfall.

You'll also need your own winch to operate the plow up and down. We also have common replacement parts for the particularly high-wear components.

Step #1 – Choose your blade

- Fully-adjustable blade skids with bolt-on brackets
- Heavy duty 3"-diameter grade-50 steel skid plates
- Blade Constructed of 11 ga steel
- 3/16" Grade 50 Ribbing for a strong bolt-up to the Swivel Tube
- Unlike all other Plow competitors our Plows are metal bead blasted before they are powder coated for the best possible finish preparation.
- Powder Coated Metallic Silver for supreme durability
- 2-Sided 3/16" x 3.00" Grade 50 Steel Wear Bar
- Wear Bar attached with Heavy Duty Grade 8 Bolts
- Complete installation instructions included
- All mounting hardware included

CC	Recommended Plow Length
350-499cc	48-54"
500-599cc	54-60"
600cc & Up	60"

Pro-Series Straight Blades

- Pushes snow straight ahead or to the sides up to 25 degrees
- Measures 16" Tall and 48" Wide

Part No.	Description	Code
219002	48" ATV Straight Blade	C
219003	54" ATV Straight Blade	C
219004	60" ATV Straight Blade	C

KFI ATV Plow Systems

Pro-Series Tapered Blades

- Rolls snow off to the side, great for continuous plowing of long driveways and paths
- Includes a 7" high 2-ply top rubber flap
- Pushes snow straight ahead or to the sides up to 25 degrees
- Measures 24.5" tall on the high side, 16.6" tall on the short side and 60" Wide

Part No.	Description	Code
219007	60" Tapered Blade ATV Blade	C

Lightweight Flex Blade

- Lightweight Blade fully assembled at 25lbs
- 50" width Flexible Black Poly Vacuum formed face
- 3/16" and 10 gage Grade 50 Steel Rib and Frame construction
- Shot Blasted and Powder Coated Black
- 2-Sided 3/16" Grade 50 Steel wear bar
- 17" Vertical blade face height
- Works with current KFI No.105000 or 105590 ATV Tube System
- 1/4" thick Adjustable Skids

Part No.	Description	Code
218325	Lightweight Flex Blade	C

Step #2 - Choose your ATV-Specific Quick Mount Bracket & Push Tubes

ATV Plow Mount

- Mid-Mount System
- Plate constructed from 3/16" Grade 50 Steel
- All Pin Tabs are constructed from 1/4" Thick Grade 50 Steel
- All Plow tabs are tapered to help reduce hang-ups while trail riding
- Unlike all other Plow competitors our Mounts are metal bead blasted before they are powder coated for the best possible finish prep.
- Powder Coated Black for supreme durability
- Complete installation instructions included
- All mounting hardware included
- Satisfaction guaranteed
- Can also work with Cycle Country ATV Mid-Mount Tubes, but will require KFI attachment pins #219060

USA

ATV Push Tube HD Kit

- Specifically designed for use with KFI AIV Tubes #219000
- Constructed of 10 gage Grade 50 steel
- Designed to help reinforce the ATV tube system when used with Tracked vehicles or Sport Side X Sides like the Polaris RZR
- All Hardware included
- Added and re-routed Winch attachment points

Part No.	Description	Code
218309	ATV Push Tube HD Kit	C

KFI Plows & Push Tubes

Cycle County ATV Conversion Push Tube

- Designed to mount right up with NO additional brackets or hardware!
- Mid-Mount Design with 40-50% more lift height than our competitors Mid-Mount System
- Heavy Duty 1-1/2" 11 Gage Steel Tubing
- Heavy Duty 1/4" Thick 1-1/2" Diameter Grade 50 Pivot Bushings
- 6" Diameter Zinc Plated Rotator Bushing
- Easy-Pull Pin Blade angle adjustment
- Multi-position Plow Lift Bracket
- 6 five degree blade pitch adjustments
- 5 blade angle positions that rotate the blade up to 25 Degrees
- Unlike all other Plow competitors our tubes are metal bead blasted before they are powder coated for the best possible finish preparation.
- Powder Coated Black for supreme durability
- Complete installation instructions included
- All mounting hardware included

Part No.	Description	Code
218289	Cycle County ATV Conversion Push Tube	C

Cycle County ATV Conversion Plow Cradle

Conversion Cradle Designed to mount Cycle Country Push Tubes to a KFI Plow Blade.

- 1/4" Grade 50 Steel Construction
- Blade Mounting Hardware included
- Unlike the competition, these are shot blasted before they are powder-coated for the best possible finish.
- Powder-Coated Black for supreme durability
- Works with all CC ATV Tubes

Part No.	Description	Code
218301	Cycle County ATV Conversion Plow Cradle	C

Sno-Devil Universal ATV Plow System

- Requires a winch for lifting.
- Includes universal hybrid mount, 48" blade and push tubes.
- Powder coated TOUGH.
- 14ga Steel Blade and 3/16" Grade 50 steel gusseting.
- 2-Sided 3/16" Grade 50 steel wear bar attached with Grade 8 bolts.
- Adjustable HEAVY-DUTY skid pads.
- 48" bolt together blade with 16" of blade height.

KFI Plows & Push Tubes

Hybrid Universal Plow Mount and Tube System Kit

The KFI Hybrid Mount System is a unique mounting system in the fact that it mounts to the frame just behind the wheels, instead of on the front or middle of the machine. This allows the Hybrid Mount to work with 90% of the ATV's on the market.

This Kit includes:

- Hybrid Plow Mount
- The included Push Tubes have the same features as our Standard ATV Tube System
- This tube system is 8.5" Shorter than our Standard ATV Tube System #219000
- **After Purchase of this kit you will need to purchase any KFI Blade from 48" - 60"**
- This kit fits most 1980-present ATVs with round or Square tubing Frames
- This kit is NOT recommended to be used on any Can-Am ATV with the single tube Frame.
- Requires a winch or similar to raise and lower
- Recommended to be used with KFI 48" or 54" Straight Blade (NOT included)

Plows & Snowblowers

KFI UTV Plow Systems

UTV Plow System

Building your Plow System is a simple 2 step process:

Step 1. Choose your blade: UTV Pro-S (Straight) or Pro-T (Tapered).

Step 2. Choose your UTV-specific Quick Mount Bracket & Push Tube. The Bracket will attach the Push Tube with Swivel Mount to your machine. Each is made from high-grade American Steel for an absolute rock-solid mounting option you can count on no matter how thick and heavy the snow is.

You'll also need your own winch to operate the plow up and down. We've also got common replacement parts for the particularly high-wear components.

Step #1 - Choose your Blade

Pro-Series Straight Blades

- Pushes snow straight ahead or to the sides up to 25 degrees
- Added gusseting for the wider width and heavier UTV
- Includes a 7" high 2-ply top rubber flap
- Measures 16" Tall and 66 or 72" Wide
- Fully-adjustable blade skids with bolt-on brackets
- Heavy duty 3"-diameter grade-50 steel skid plates
- Blade Constructed of 11 ga steel
- 3/16" Grade 50 Ribbing for a strong bolt-up to the Swivel Tube
- Unlike all other Plow competitors our Plows are metal bead blasted before they are powder coated for the best possible finish prep.
- Powder Coated Metallic Silver for supreme durability
- 2-Sided 3/16" x 3.00" Grade 50 Steel Wear Bar
- Wear Bar attached with Heavy Duty Grade 8 Bolts
- Complete installation instructions included
- All mounting hardware included

Part No.	Description	Code
219005	66" UTV Straight Blade	C
219006	72" UTV Straight Blade	C

Pro-Poly Straight Blades

- Grade 50 Steel Rib and Structure construction
- Shot Blasted and powder Coated Black
- Black Poly face
- Includes Plow Markers
- 66" and 72" options
- Includes snow flap
- Dual Curvature face for supreme Snow moving
- 21" vertical blade face height with an approximate 27" height with snow flap.
- Works with current #219009 UTV Tube System
- Heavy Duty 1/2" thick Adjustable Skids
- More information to follow

Part No.	Description	Code

KFI UTV Plow Mounts

Step 2 - Choose your UTV-Specific Quick Mount Bracket & Push Tubes

UTV Plow Mount

- Front-Mount System
- Plate constructed from 3/16" Grade 50 Steel
- All Pin Tabs are constructed from 1/4" Thick Grade 50 Steel
- All Plow tabs are tapered to help reduce hang-ups while trail riding
- Unlike all other Plow competitors our Mounts are metal bead blasted before they are powder coated for the best possible finish prep.
- Powder Coated Black for supreme durability
- Complete installation instructions included
- All mounting hardware included

UTV Plow Fixation Tube Kit

Works with KFI UTV Push Tubes #219009

- Kit Hardware
- Pitch Bushing & UTV Plow Pin

Part No.	Description	Code
218310	UTV Plow Fixation Tube Kit	C

Cycle County UTV Conversion Push Tube

Push Tube System Designed to mount a Cycle Country Plow blade to a KFI Push Tube

- Grade 50 Steel Construction
- Blade Mounting Hardware included
- Unlike the competition, these are shot blasted before they are powder-coated for the best possible finish.
- Powder-Coated Black for supreme durability
- Works with all CC UTV Plow Blades
- For CC Front Mount Systems

Part No.	Description	Code
218317	Cycle County UTV Conversion Push Tube	C

Cycle County Conversion UTV Plow Cradle

- Front-Mount System
- Plate constructed from 3/16" Grade 50 Steel
- All Pin Tabs are constructed from 1/4" Thick Grade 50 Steel
- All Plow tabs are tapered to help reduce hang-ups while trail riding
- Powder Coated Black for supreme durability
- Unlike all other Plow competitors our Mounts are metal bead blasted before they are powder coated for the best possible finish prep
- Complete installation instructions included
- All mounting hardware included
- Satisfaction guaranteed

Part No.	Description	Code
218316	Cycle County Conversion UTV Plow Cradle	C

KFI Plow Accessories

UTV Plow Hydraulic System Kit

- Specifically designed for use with KFI UTV Tubes 219009
- Parker Industries Made in the USA Electric (12 volt) over Hydraulic Cylinder
- Complete wiring kit with Carling Technologies Two-Way Dash Rocker Switch
- 1 year Warranty on KFI Manufactured components
- 18 Month Warranty on Parker Hydraulic Actuator based on its manufactured date.
- Rotates up full 25 degrees in both directions
- Does NOT include the Tube System 219009 (Purchase separately)

Part No.	Description	Code
218311	Angle Hydraulic Plow Syst UTV	C
218375	Wire Harness Hydraulic Actuator	C

UTV Plow Lift Kits

- The KFI Plow lift kit is made for machine that have lifts height, oversize tires, and and highlifter editions. This allows you to mount your push tube at the correct hight so the blade is level.
- Will work universally on most Lifted UTV's
- Shot Blasted before powder coating
- Powder Coated Tough - Black

Part No.	Description	Code
218307	UTV Plow Lift Kit 2"	C
218308	UTV Plow Lift Kit 4"	C
218306	UTV Plow Lift Kit 6"	C

UTV Plow Lever Lift

- Repositions lift attach point to help reduce winch and cable strain from lower mounted winches and bad cable angles
- Fully adjustable for multiple angles and attach points
- Designed to work with KFI UTV Push Tubes #219009 Only
- Constructed of Heavy Duty 3/16" Grade 50 Steel
- Shot Blasted before powder coating
- Powder Coated TOUGH - Black
- All Hardware included

Part No.	Description	Code
218381	KFI UTV Plow Lever Lift	C

Manual Lift Pulley Bracket Upgrade

Replace your old, broken, or outdated pulley bracket

- Designed to keep your cable from coming off of the pulley and breaking the cable
- Quick and Easy install
- Powder coated black

Part No.	Description	Code

218226	Plow Skid only	C
218300	Cycle Country Plow Skid only	C

Plow Strap

Replace your Winch Line this plow season with the KFI Plow Strap. Reduces wear and tear on you winch and roller while raising and lowering your plow blade.

- For use with Standard or Wide winches.
- Recommended to be used with roller fairlead.
- Replaces a Steel/Synthetic line during Plow Season.
- 64 Inches of overall length.
- 1-1/4" WIDE Heavy Duty Strap
- 5/16" Synthetic Attachment Line
- Use your existing winch hook.
- Multiple spool attachment options.
- Maximizes winch pulling capacity.
- Eliminates damage to winch by avoiding cable stacking & binding.
- Reduce Wear on fairleads.
- Ideal For Plowing.
- Prolongs life of cable.

Part No.	Description	Code
218262	Plow Strap	C

KFI Plow Accessories

Plow Fairlead (STANDARD)

- For use with STANDARD size winches with a 4.875" bolt up pattern
- Replaces standard winch fairlead during plow season
- Provides larger 2-1/8" Diameter roller for smoother cable movement when plowing compared to standard 7/8" rollers
- Roller has a curved cable groove to help eliminate cable flattening that leads to snapped cables during the plowing season
- Eliminates potential cable kink due to small roller contact and abrupt angle rolls
- Multiple roller positions for different applications and cable angles
- For Steel Cable use ONLY!!!!!!!

Part No.	Description	Code
218123	Wide Fairlead Plow Pulley	C

Plow Fairlead (WIDE)

- For use with WIDE size winches with a 6.60" bolt up pattern
- Replaces standard winch fairlead during plow season
- Provides larger 2-1/8" Diameter roller for smoother cable movement when plowing compared to standard 7/8" rollers
- Roller has a curved cable groove to help eliminate cable flattening that leads to snapped cables during the plowing season
- Eliminates potential cable kink due to small roller contact and abrupt angle rolls
- Multiple roller positions for different applications and cable angles
- For Steel Cable use only
- WIDE Bolt pattern is UTV standard 6.00"

Part No.	Description	Code
219064	Wide Fairlead Plow Pulley	C

Plow Marker

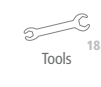

- Increase your blade end visibility for added safety
- Bolts to the side/ends of your blade
- Poly Markers with a steel 89 Degree angled base
- Includes two markers

Part No.	Description	Code
219068	Plow Marker	C

Attachment Pins

- Diameter: 3/8"
- Design for Cycle Country or KFI ATV plow
- Sold by pairs

Part No.	Description	Code
219060	Attachment Pins	C

Plows & Snowblowers

Kolpin Plow Systems

Step #1 - Choose your Blade Plow Blades

- Kolpin Branded 17" height
- Steel Blade is stamped and welded for structural rigidity

Part No.	Description	Code
358023	Plow Blade - 48"	C
198178	Plow Blade - 52"	C
198179	Plow Blade - 60"	C
358024	Plow Blade - 66"	C
358025	Plow Blade - 72"	C

Step #2 - Choose your Mount Kit & Push Tube Storm Chaser

- Heavy-duty square tube steel chassis with strategic reinforcements
- 20" wide blade mounting system
- Reinforced structural Pivot box with 5-position angle adjustment
- Structural Pivot Box assembles in minutes
- Works with manual lift or winch

High Rise

- Integrated Structural Pivot Box is virtually fully assembled from the factory
- Ergonomic Pivot Handle provides improved leverage
- Multi Width Blade mounting system allows current Cycle Country blades and the wider blade support
- Dual Pivoting Articulating Frame provides an impressive lift height
- Heavy Duty Square Tube Steel Chassis with strategic reinforcements
- Wider mount attachment for increased blade stability
- Robust steel tube reinforcement and stamped blade technology
- Fits all CC Mid-mounts from mid 90's through current using 14 1/2" spacing

- 01 UTV Windshields, Mirrors & Acc.

Kolpin Plow Accessories

Manual Quick Lift

- Manually Raise and Lower any ATV Plow System easily from the Driver's Seat
- Attaches to front rack with the included EZ Mount system
- Ratcheting handle allows user to lock blade in any of four positions
- Operates with minimal lifting effort
- Works with most ATV plow systems

Part No.	Description	Code
002791	Manual Quick Lift	C

Switchblade Universal Plow System

- Complete Plow-in-a-Box, minus Winch
- Stamped steel blade technology adjusts to either 60" or 72" width
- Robust square tube steel chassis with strategically placed reinforcements
- 5-position blade angle
- Easy to assemble and install universal under-body mount
- Requires winch (sold separately)
- Assembles in under 1 hour
- Box fits in the back of your vehicle for easy transport

Kolpin Plow Accessories

Plow Marker Kit

- Increases visibility of plow edges for added safety
- Easily bolts to sides of plow blades
- Steel markers have 45° bend base
- Poly makers have 90° bend base
- Sold as a pair

Part No.	Description	Code
002891	Poly Plow Marker - Universal	C
358031	Steel Plow Marker - Fits High Rise	C

Synthetic Plow Lift Rope

- Long lasting durability for repeated, sharp angle heavy plow lifting
- Saves wear and tear on steel cable for plow season
- Shorter length eliminates kinks and prevents melted rope fibers
- 12' or ¼ po diameter heavy duty synthetic rope
- 7050 lb. Breaking strength, greater than steel cable
- Integrated abrasion sheath with stainless steel thimble
- Plow lift application only
- Works with all Kolpin winches

Part No.	Description	Code
358030	Synthetic Plow Lift Rope	C

Skid Shoe Kit

- Factory replacement skid shoe
- Includes pair of skid shoes and hardware
- Easy to install

Part No.	Description	Code
358077	Skid Shoe - 3mm Thick	C
358145	Skid Shoes HD - 7mm Thick	C

Snatch Block Kit

- Greatly enhances plow operation for front mount plow systems
- Doubles the lift capacity of any winch
- Changes the winch cable pull angle for longer winch cable life
- Provides better control of plow height
- Slower winch speed allows for smooth plow operation
- Mandatory for use with front mount plow systems for proper winch operation, cable pull geometry and extended winch cable life

Part No.	Description	Code
358083	Snatch Block Kit	C

Plow Accessories

Plow Marker

- Increased visibility and safety
- Made of flexible 3/8" fiberglass rod
- Measures 25.5 inches
- Can be cut down to desired length
- Sold in pair

Part No.	Description	Code
158241	Plow Marker (Pair)	C

Snowblower Engine

15 HP Engine

These winter gas engines feature a weather resistant cover and fuel prime and choke system for easy starting. Use on snow blowers, augers and other outdoor winter equipment.

- 12V Starter and recoil start
- 420 cc
- 6 liters fuel tank
- Low noise at 72 dB
- Shaft size: 1"
- 3 Amp @ 12V DC charging system
- Warranty: 2 years

Plows & Snowblowers

KIMPEX

Kimpex Snowblowers

66" and 72" Vantage

It'll blow you away!

- And it will certainly blow the snow away... to amazing distances.
- Blowing the snow while taking a ride gives a new meaning to "Joy ride".
- You won't want to stop with this kind of power.
- This snowblower is specially designed for your side by side utility vehicle.
- Perfect for light commercial use.

Features	Benefits
Controls at your fingertips	All from the comfort of your seat: Start the snowblower. Turn and adjust the chute. Emergency shutdown.
Dependable	Made of thick gauge steel and other high performance components & design.
Comes Complete	Includes universal mounting hardware, motor, gas tank and electric controls.
Easy Installation	Quick hitch in under 4 minutes: Drop the hitch onto your vehicle's rear ball hitch. Attach the straps or brackets (brackets stay on permanently) to your front axles.
Extensible Frame	4.75" wide frame is adjustable to different lengths: 73" to 112".
Easy Storage	Parking stand to facilitate storage.
Electric Lift	Uses the vehicle's winch (not included).

Part No.	Description	Code
458027	66" Snowblower for UTV with 25HP EPA Kohler Engine (see note 1)	A
658031	66" Snowblower for UTV with 22HP EPA Honda Engine (see note 1)	A

089149	Snow drift cutter	(B)

****158126: Casing & rack with wiring to install separate battery on snowblower.**
Note 1 : Some UTV's may require a subframe extension No. 158123. Ex.: Arctic Cat Prowler does need one.

Kimpex Snowblowers

Versatile "Plus" 48" & 54" Snowblowers (for Engines Honda 20-24HP, Silencer 089269 is required)

- Motor (sold separately) is installed in the middle for a perfect balance (requires motor between 13HP to 23HP with horizontal crankshaft of 1").
- Blower opening: 54" or 48" wide x 21" high.
- The sub frame attaches to the rear of the ATV/UTV on the hitch ball.
- Universal sub frame fits majority of ATVs and small UTVs. Standard length is 120".
- Weight may be transferred to the suspension of the vehicle for better manoeuvrability.
- Electrical control box included: adjust chute, engage clutch, and stop your engine, all from your seat.
- 3 shear bolt safety system.
- Reduction: single belt system (type "BX 55" belt) assures a long life span.
- Electric clutch engages snowblower instantly.
- Weight: 245 lbs without motor.
- Warranty: Residential 1 year, commercial 90 days.

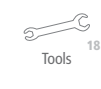

NOTE: The Versatile Plus comes with a clutch for a 1" output engine shaft. If you need it for a 1 1/8" shaft, you must order separately part # 089198. If the 1" shaft clutch (#089197) is not needed, please call for a return authorization #.

COMMANDER **WS4** L-RATIO

BUILT FOR WORKING WITHOUT COMPROMISE ON AGILITY AND CONTROL

For those who see a track kit more as a working tool than a recreational accessory, here's the New Commander WS4 L-Ratio. Equipped with our 13 inch sprocket, allowing more power to the track, the commander WS4 L-Ratio will help you achieve your hardest job without compromising agility and control.

WS4 LOW RATIO SPECIFICATIONS	
Width	292 mm / 11.5" front, 303.2 mm / 13" rear
Length	2460 mm / 97" front, 2540 mm / 100" rear
Weight (without mount kit)	32 kg / 72 lb. front, 34 kg / 75 lb. rear
Frame	Steel
Lug height	25 mm / 1.00" front, 32 mm / 1.25" rear
Drive type	Internal
Flotation surface	1.32 m ² / 2045 in ² (total = 0.61 m ² / 945 in ² front & 0.71 m ² / 1100 in ² rear)
Ground clearance	Increase of 125 mm / 5"
Speed loss	45%
Initial installation time	1,5 hours
Subsequent installation time	30 minutes
Applications	ATV only

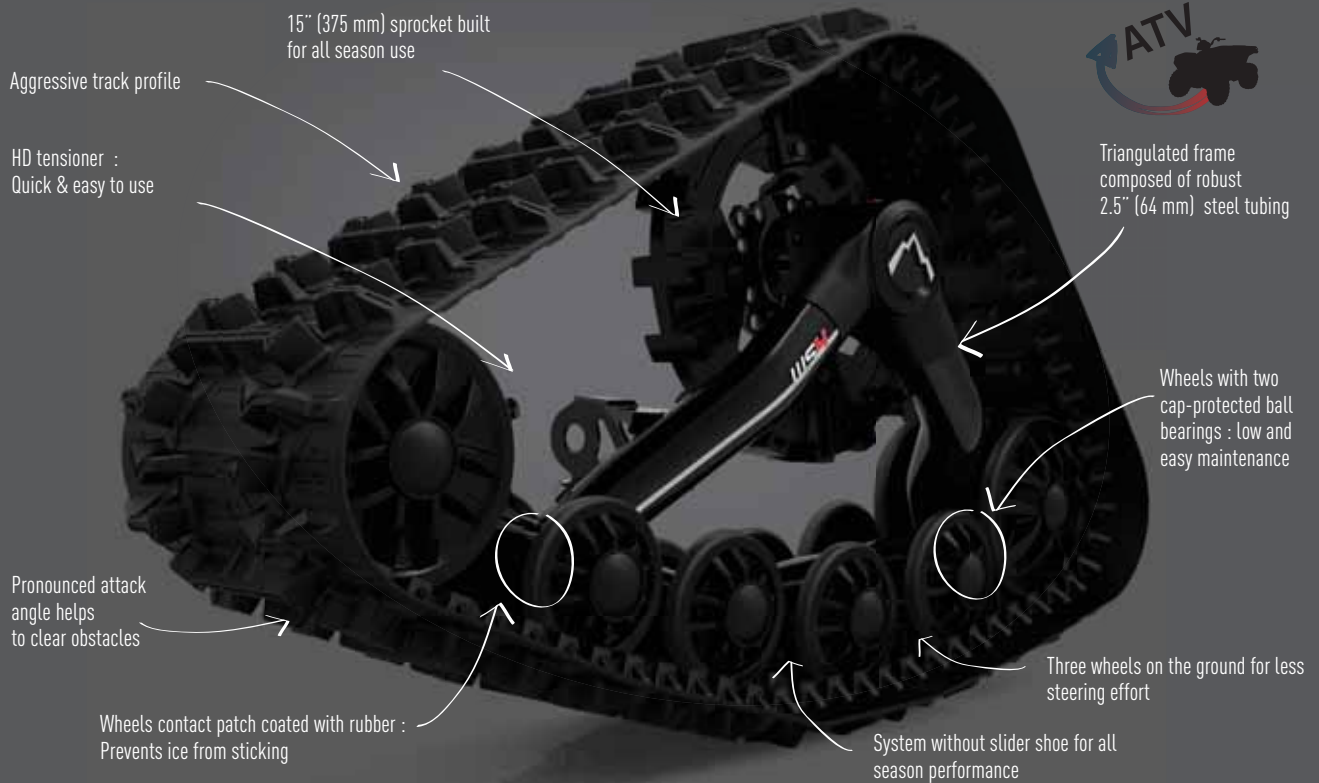

***** Optimum usage * Non-recommended usage

COMMANDER **WS4**

THE «COMMANDER» IN CHIEF

REDEFINE AGILITY & CONTROL

The WS4 is the logical continuation of our "Commander" series, with reduced driving effort, decreased vibration and same traction capability as always for the best performance in all 4 seasons. Of course, the same sturdiness is maintained through a 2.5" tubular frame and an overall lightweight necessary to surf on snow.

Why limit yourself when you could drive a WS4 "Commander"!

WS4 SPECIFICATIONS	
Width	292 mm / 11.5" front, 303.2 mm / 13" rear

COMMANDER WSS4

THE «COMMANDER» IN CHIEF

REDEFINE AGILITY & CONTROL

You're driving your UTV and wish you could cross over this white snowbank alongside the path in the winter? Stop limiting yourself; drive a WSS4 "Commander"!
 No more boundaries, no more fear; the WSS4 will take you wherever you want with your friends or your equipment with an adrenalin bonus!

The well-thought out design and robust construction, combined with tracks designed for optimal traction, make the WSS4 "THE" UTV Kit for all seasons.

WSS4 SPECIFICATIONS

Width	318 mm / 12.5" front, 356 mm / 14" rear
Length	2460 mm / 97" front, 2970 mm / 117" rear

Part No.	Description	Code
205202	Apollo Heated Grips - 7/8" + 1" Handlebar	(C)

Heated Grips

Multi Adjustment Heated Grips

The Multi Adjustment LED indicator control box will help you get the right heat adjustment! In order to get enough power to start your engine, our technology with "Low voltage warning" will automatically shut-off the heated grips in case the voltage goes under 12V. Also, the "Short circuit protection" will help avoid damages to the control by cutting-off power to the grips in case of short circuit. Available in twist throttle for your sport bike, cruiser or scooter; or thumb throttle for your ATV or snowmobile; those heated grips will keep your hands warm whatever the outside temperature!

Part No.	Description	Code
Twist Throttle		
205198	Multi Adjustment Heated Grips - 7/8" + 1" Handlebar	(C)
205199	Multi Adjustment Heated Grips - 1" + 1-1/8" Handlebar	(C)
Thumb Throttle		
205155	Multi Adjustment Heated Grips - 7/8" + 7/8" Handlebar	(C)

Heated Grip 5 Levels

- The heated grips will automatically turn off if ever the voltage goes under 12V in order avoid draining the battery.
- Provide an internal memory that will allow them to heat up quickly to the previous level, which will warm your hands in no time.

Foot Warmer Insoles

- The Heat Factory Footwarmer Insole is a soft, light-weight pouch containing an inert mixture of iron powder, charcoal, salt, water and vermiculite.
- When exposed to air, a natural exmic reaction generates consistent and prolonged heat.
- The insole pouch is made of soft cloth lined with a very thin layer of porous plastic for maximum durability.
- Peel back the adhesive backing and press warmer to outside of sock underneath foot.
- Sold as Pair.

- All steel, 3-stage planetary gear train for reliability/smooth operation
- Weather resistant sealed drums and motor
- Ergonomic dial for free spooling-to-clutch engagement
- Automatic mechanical cable drum brake
- Pre-wound with 50' synthetic rope
- Heavy-duty load relay to protect motor
- Heavy duty 6 gauge wiring
- Color-coded quick connect wiring harness
- Premium handlebar mount controls with wiring harness
- Roller fairlead, mounting plate and hardware included
- Industry common 4-bolt mounting pattern
- 5-Year Mechanical Warranty and 3-Year Electrical

Part No.	Description	Code
358164	Winch 2500 w/Synthetic Rope	C
358165	Winch 4500 w/Synthetic Rope	C

Fully-Featured Winch

- Center-spool design
- Internal gearing specifically designed for plowing
- All steel, 23-stage planetary gear train for reliability/smooth operation
- Weather resistant sealed drums and motor
- Ergonomic dial for free spooling-to-clutch engagement
- Automatic mechanical cable drum brake
- Pre-wound with 50' synthetic rope
- Heavy duty load replay protect motor
- Heavy duty 6 gauge wiring
- Color-coded quick connect wiring harness
- Premium handlebar mount controls with wiring harness
- 4-way roller fair-lead, mounting plate and hardware included

Fairlead Bracket for wide winch

"KFI" WIDE Fairlead Converter that works with mount #101350

This WIDE Fairlead bracket is made to replace the standard Fairlead Bracket that came with the #101350 if you are choosing to mount a WIDE winch.

Part No.	Description	Code
218229	Fairlead Bracket for wide winch	C

Fairlead bracket Warn axon/Vrx

- WARN: VRX 25 / VRX 25-S / VRX 35 / VRX 35-S / AXON 35 / AXON 35-S / AXON 45RC
- Constructed of 3/16" steel
- Unlike all other mount competitors; our mounts are metal bead blasted before they are powder coated for the best possible finish prep
- Powder coated black for supreme durability
- Satisfaction guaranteed
- Roller fairlead and winch not included

Part No.	Description	Code
218371	Fairlead bracket Warn Axon/VRX	C

Roller Fairlead Mounts

- 100% MADE IN USA
- Constructed of 3/16" steel
- Unlike all other mount competitors our mounts are metal bead blasted before they are powder coated for the best possible finish prep.
- Powder coated black for supreme durability
- Satisfaction guaranteed
- Roller fairlead and winch not included

Part No.	Description	Code
218121	Roller Fairlead Mount Standard	C

Plow Roller Fairlead

- Replaces standard winch fairlead during plow season
- Provides larger 2-1/8" Diameter roller for smoother cable movement when plowing compared to standard 7/8" rollers
- Roller has a curved cable groove to help eliminate cable flattening during the plowing season
- Eliminates potential cable kink due to small roller contact and abrupt angle rolls
- Multiple roller positions for different applications and cable angles
- For Steel Cable use only

Part No.	Description	Code
218123	Plow Roller Fairlead	C

Winch Accessories

IQ UTV Fair Lead

- Constructed from 5/8" 6061 aluminum
- IQ Logo engraved
- Standard 6" Hole spacing for UTVs
- For use with synthetic winch rope only

Designed for use on:
 Polaris, RZR 1000
 Can Am, Commander 1000
 Can Am, Commander 800
 Polaris, RZR U4 Front Bumper

Part No.	Description	Code
090849	IQ UTV Fair Lead - Large	(A)

Fairlead Bracket

The Fairlead Bracket is used to mount your (6" hole spacing) hawse or roller fairlead when there is nothing else in front of the winch to mount the fairlead to. Polaris General owners whos machines came with an OEM winch mounted over the front differential will want to purchase this bracket when relocating the winch to the HMF/IQ Polaris General front bumper.

- Made of steel, powder coated black
- Can be used with most wide spool ATV/UTV winches.

Part No.	Description	Code
090855	Fairlead Bracket	(A)

Snatch Block of 16,000 lb. Capacity

- 3/16 Material
- Doubles your winches lb. rating
- 8,000 lb. rating (turns your 8,000 lb. into 16,000 lb.)
- Powder Coated
- 1-1/2" Diameter Holes for hooking onto
- Overall Size: 3.00" Width x 5.75" Length x 1.375" Thickness

Part No.	Description	Code
218087	Snatch Block of 16,000 lb. Capacity	C

Winch Split Cable Hook Stopper

This Split Cable Hook Stopper is for the ATV and UTV Winch. It weighs 4 Oz. It is 2 5/8 inches wide and 1 3/4 inches thick. This KFI Split Cable Hook Stopper will fit between the two outside rollers on an ATV or UTV winch fairlead. It also works great with the synthetic rope and or the slot fairlead.

- Eliminates wear and tear on your rollers from the hook.
- Eliminates hook clatter from going down the trail.
- Protects the winch motor and gears from pulling the cable in to far and bottoming out on the rollers.
- Keeps tension on the hook to eliminate the cable becoming loose.
- Looks great.
- Once you have one, everyone else that you ride, with will want one!

218075

Winch Accessories

Rocker Switch for Winch

Kit Includes:

- Rocker Switch to control your electric winch.
- Complete Wire Harness with Plug

Specifications:

- Easy wiring installation.
- Will work with most brands of ATV and UTV winches on the market with the standard electrical contractor.
- Blue LED illuminated when your key is turned on to allow you to see at night.
- Circuit Type (ON)-OFF-(ON).
- Double pole switch. This means two contact points instead of just one for better repeatability operation.
- Requires mounting hole 0.830" x 1.450". (Standard on most UTV's)
- Works with panel thickness ranging from .030" to .250" thick.
- Max current rating: 20A 12VDC & 15A 24VDC.
- Silver plated terminals.
- Requires standard ATV winch contactor to control winch.

Part No.	Description	Code
218254	Rocker Switch for Winch	C
218346	Replacement Switch	C

Mini-Rocker Handlebar Switch

- Mounts to your Handlebars with included mounting hardware
- Can be surface mounted for use on UTV's and Side X Sides
- Requires Standard ATV Winch Contactor to control Winch

Winch Accessories

UTV Wire Extension Kit

(2x) 11 foot, 6 Gauge Battery Cables

This kit has been created for the following UTV's that have two rows of seats and the battery is located in the rear row of seating. This kit is required because most standard ATV and UTV winches will come with 8 foot cables and they are not long enough to reach the battery.

- Polaris RZR-4 800 / 900 / 1000
- Polaris Ranger 500 Crew / 570 Crew / 800 Crew (2014) / 900 Crew
- Kawasaki Mule Pro FXT

Part No.	Description	Code
218107	Wire Extension Kit UTV	C

Quick Battery Cables

- Connects to the Battery/Contactor end
- Eyelet ends
- Dust and mud cap
- Rubber end connector covers
- Satisfaction guaranteed

Solenoid 200 Amp with Silver Contact

Part No.	Description	Code
068725	Solenoid 200 Amp	C

Winch

Assault Plug N Play Winch

Our Polaris Plug-N-Play winch kits come completely assembled and ready to install. Kits include a variety of accessories, such as, Handlebar Mini-Rocker Switch, Electrical Contactor and Cable Hook Stopper.

Our electrical contactor will come pre-assembled on the rear of the mount. Please refer to the application chart for models that will require relocation of the contactor to the side of the mount. This will require two bolts to be relocated.

Most newer Polaris ATV's come with the pre- installed OEM #4015094 wire harness. This wire harness is for connecting the handlebar remote to the contactor. Please refer to the application chart for the model specific machines that require the additional purchase of this Polaris OEM part #4015094.

Portable Winches

Gas-Powered Pulling/Lifting Winch - PCH1000

This gas (petrol) powered pulling/lifting winch is ideal for pulling wire thru conduits or lifting equipment such as transformers, scaffolding, bricks, antennas, etc. Its rope grabbing system will hold a load in position allowing the operator to work safely. The centrifugal clutch is activated simply by pulling on the rope. As soon as the operator stops pulling, the throttle goes back down, the drum stops turning (preventing rope damage) and the rope grabbing systems holds the load in position. This system allows lifting and lowering of loads. Find out more by downloading the user manual below.

Part No.	Description	Code
078248	Gas-Powered Pulling/Lifting Winch	(A)
078271	Winch Drum Capstan 85mm	(A)

Electric-Powered Pulling/Lifting Winch - PCT1800-50Hz-P-230V

This electric winch is ideal for works carried out indoors such as pulling electric cables through conduits or lifting equipment. It can lift a load of 250 kg with a single line and a pulley system doubles the strength to 500 kg. For lifting applications, the winch is equipped with a rope retention system which can hold a load in position allowing the operator to work safely. The PCT1800 is recommended for situations where the use of gasoline is impossible and is also an interesting alternative when noise is a consideration.

*** Note : One (1) anchor polyester sling 60 mm x 2 m is always included with every winch.**

Gas-Powered Pulling Winch - PCH2000

For maximum lifting capacity!

The PCH2000 is equipped with a Honda GX-160 cc engine which offers superior performances in a wide variety of tasks such as erecting towers, lifting antennas, replacing insulators, cable pulling and other arduous tasks. This winch can lift a load of up to 450 kg with a single line and a pulley system doubles the strength to 900 kg. The integrated rope grabbing system allows the operator to work safely and the start/stop mechanism means he can focus on the task required. This system can be used to lift or lower a load. A wide of accessories are available to simplify the installation process and anchor the winch at various anchoring points such as a vehicle, a post, a pylon and more.

*** Note : One (1) anchor polyester sling 60 mm x 2 m is always included with every winch.**

PCW3000 Winch with Hunting Kit and Backpack

If you're hunting, this kit is a great alternative to the PCW3000-HK.

Instead of having the winch in the transport case and the rope in the rope bag, you can put all the items in the XXL carry all bag (50 L.). With this kit, you can carry your PCW3000 easily on your back and retrieve your game from anywhere when the winch needs to be carried over long distances.

The bag is firmly attached to the pack frame (PCA-0104) and allows you to keep your hands free while walking in the bush.

***Note: One (1) anchor polyester sling 60 mm x 2 m is always included with every winch.**

Portable Winches

Gas-Powered Portable Capstan Winch - PCW3000

The gas-powered portable capstan winch offers 700 kg (1550 lb) of power. It is the ideal winch for hunters, boaters, snowmobilers or quad riders and other applications requiring a winch more compact and portable. Powered by the reliable Honda's full 360o "any-side-up" 4-stroke engine (GX-35)!

Thanks to the capstan principle, there is no limit to the rope length. You'll be able to pull what you want, where you want. Also, unlike conventional winches, it offers a constant pulling power. The rope is tied to the load and the other end is wrapped 3 or 4 turns on the capstan drum. When the engine is running, the capstan drum is automatically turning. You simply have to pull on the rope to apply friction on the drum to pull the load.

Part No.	Description	Code
118047	Pulling Accessory Kit	(A)

Skidding Cone Kit

The skidding cone assortment is a great solution for pulling logs with a small tractor or an ATV (QUAD). As you know, there are no real anchor points on an ATV (QUAD). The pulling plate (**078022**) is the perfect solution since you can attach a rope, a choker or any tipe of slings. Of course, our skidding cone will allow the driver to look where he is going instead of wondering if the log will get jammed on an obstacle. The open face corner block used with the automatic release is also a great combination. See how it works by clicking on the video link below! A very efficient and affordable assortment!

The assortment includes:

- 1x 078024:** Skidding cone for logs up to 50 cm (20") diameter.
- 1x 078004:** Double braided polyester rope - 12 mm x 50 m (1/2" x 164').
- 1x 078005:** Small rope bag. Holds 50 m x 12 mm (164' x 1/2").
- 1x 078022:** Pulling plate for ball hitch up to 50 mm (2") diameter
- 1x 078016:** Open face corner block. 1 steel sheave 100 mm (3") diameter
- 1x 078017:** Automatic release for open face corner block (078016).
- 1x 078023:** Choker chain 6 mm x 2.1 m (1/4" x 7') with C-Hook and steel rod.
- 1x 078011:** Polyester sling - 50 mm x 1,83 m [2" x 6'].
- 1x 078018:** Grab hook 7 mm (5/16") with latch and 3 chain links.

Part No.	Description	Code
078028	Skidding Cone Kit	(A)

Skidding Cone for Logs up to 50 cm (20") Diameter

The skidding cone will prevent logs from being stopped by roots, stumps or residual trees. It also protects your valuable trees along the skid path from being damaged. Made of high-performance polymer plastic, the skidding cone is strong, yet flexible. Its 51 cm (20") opening allows you to haul large logs or bunches of smaller logs or brush. Use it year round, down to temperatures of -30°C (-22°F).

Part No.	Description	Code
078024	Skidding Cone for Logs	(A)

Portable Winch Accessories

Double Braided Polyester Ropes (PDT)

Its double braid construction makes it a durable and low-elastic cord for added safety. Its low cost and abrasion resistance make it a good choice for use with Portable winches where it is subject to friction and intense heat. For best performance, use the Portable Winch Co. strings with winch **078001**.

Extension for Dyneema Cable ATV Winchlines

Extension with splice at each end
 Diameter : 6mm (1/4")
 Length : 15m (50')

Part No.	Description	Code
078047	Extension for Dyneema Cable	(A)

Polyester Slings

The slings fasten winches or snatch blocks to an anchor. They will not stretch. Very useful for lifting or used as a choker. Safe working load is 2900 kg (6390 lb.) when used basket style (i.e. when anchoring the winch), or 2180 kg (4805 lb.) in choker style.

Part No.	Description	Code
078008	Polyester Sling - 3 m	(A)
078010	Polyester Sling - 2.5 m	(A)
078011	Polyester Sling - 2 m	(A)

Tree Mount Winch Anchor with Strap

This winch support is ideal to anchor the winch to a tree or a post. The winch can therefore be installed at a more comfortable height and the pivoting support aligns the winch automatically with the load. This makes it easier for working from one point for extended periods of time.

Part No.	Description	Code
078267	Tree Mount Winch Anchor with Strap	(A)

Vertical Pull Winch PCH2000 Support

Made for the PCH2000 lifting winch, this accessory has been especially designed for lifting operations. It offers solid support while its pulley directs the rope vertically with an angle, which means sections of the tower or pylon far from the centre can be reached. The PCA-2264 is compatible with many anchoring systems. For example, its 50.8 mm (2") square tube can be installed on square tubes (PCA-1267 and PCA-1501).

In certain situations, you can use it to pull horizontally. In this case, you can use it in combination with pivoting anchor PCA-1332 (sold separately).

- Material : Powder coated steel
- Weight (metric) : 12,30 kg
- Length (metric) : 61 cm
- Width (metric) : 26 cm
- Warranty : 1 year
- Equipped with a solid swivel pulley
- Rope diameter when used for PULLING = 6 mm to 16 mm (1/4" to 5/8")
- Rope diameter when used for LIFTING = 12 mm to 13 mm (1/2")

NOTE: Compatible with the PCH2000 only.

Part No.	Description	Code
118109	Vertical Pull Winch PCH2000 Support	[A]
078264	Square Tubing 2" with Bent Pin - 2"x12"	[A]
078265	Square Tubing 2" with Bent Pin - 2"x18"	[A]

078264

Square Tubing 2" with Bent Pin

- This 50 mm square tubing fits perfectly in Category III hitch receivers.
- Designed to attach the winch support plate (Kimpex Number: 078266) or vertical pull winch support (Kimpex Number: 078263) to a vehicle.

Part No.	Description	Code
078264	Square Tubing 2" x 12" with Bent Pin	[A]
078265	Square Tubing 2" x 18" with Bent Pin	[A]

Winch Support Plate

This winch support plate is ideal to attach a winch to a vehicle or tree/pole mount (PCA-1263). Cushioned, it pivots 45 degrees on either side, making the winch stable and self-aligning with the load. Ideal for working from the same point for a long period of time. (Use with the PCA-1267, PCA-1265 or PCA-1263).

Part No.	Description	Code
078266	Winch Support Plate	[A]

Portable Winch Accessories

Hitch Plate Winch Anchor

Fits towing balls up to 50 mm (2") diameter

The hitch plate turns any vehicle into a pulling anchor for the **078001** winch. Simply hook the winch to the plate using the safety hooks and slide the key-hole shape over your ball hitch and you're ready to pull.

Part No.	Description	Code
078012	Hitch Plate Winch Anchor	(A)

Pulling Plate For Ball Hitch

Up to 50 mm (2") diameter

On a QUAD (ATV) or other vehicle, there are no good anchor points. The pulling plate is the ideal hitch anchor for rope or chain. It fits towing balls up to 50 mm (2") diameter.

Makes it easy to attach a polyester rope or a chain-choker to a QUAD (ATV) or other vehicle. Fits over 47 mm to 50 mm (1-7/8" to 2") ball hitch. Slide the pulling plate over your ball hitch, and fasten your load to it quickly and securely. Attach your rope to the 2" (50 mm) post or insert a link of chain into the slotted plate to pull your load. Pulling from the axle level provides the safest pulling point on your QUAD (ATV). Use the capstan knot to do it. Also useful to pull from a 4x4!

Part No.	Description	Code
078022	Pulling Plate For Ball Hitch	(A)

Safety Hook

Install on your rope or at the load when using the snatch block; the hook has a spring-loaded safety clasp which will prevent the hook from slipping off.

Working load limit : 3/4 ton

Part No.	Description	Code
078021	Safety Hook	(A)

Grab Hook 7 mm (5/16") with Latch & 3 Chain Links

Its unique latch prevents the chain from slipping out of the hook when tension is not applied on the rope. This grab hook will fit either 6 mm (1/4") or 7 mm (5/16") chain. Equipped with 3 links of 7 mm (5/16") chain, it can be attached to any 12 mm (1/2") rope or smaller. Attach the hook to the rope using the bowline knot. The bowline knot provides a secure connection, and can be untied if required.

Minimum break strength : 20 kN (4497 lb)

Part No.	Description	Code
078018	Grab Hook 7mm with Latch & Chain (3 Links)	(A)
078243	Grab Hook "C" Chain 6-7mm (1/4-5/16")	(A)

Portable Winch Accessories

Choker Chain 6 mm x 2.1 M (1/4" X 7') with C-Hook & Steel Rod

Made of 6 mm (1/4"), grade 70 steel, the choker chain is equipped with a special C-hook for quick, secure installation and removal and a 30 cm (12") long steel rod letting you slide it easily under logs or through the skidding cone.

Length: 2.1 m (7')

Weight: 2.8 kg (6 lb)

Minimum break strength : 55 kN (12 600 lb)

Part No.	Description	Code
078023	Choker Chain with C-Hook & Steel Rod	[A]

Steel Oval Locking Carabiner

Use this locking carabiner to attach swing side snatch blocks, slings or rope end accessories. Zinc plated with anodized aluminum screw gate lock.

078013 : Swivel gate with 17 mm (0.67") opening
Minimum break strength: 25 kN (5500 lb)

078038 : Swivel gate opening : 20.5 mm (13/16")
Minimum break strength : 50 kN (11250 lb)

Part No.	Description	Code
078013	Steel Carabiner 25 kN	[A]
078038	Steel Carabiner 50 kN	[A]
078239	Steel Carabiner 70 kN	[A]

Side Swing Aluminum Pulley

The swing-side aluminum has plates that swing open to install rope. Particularly useful for use when doubling the line, the rope cannot accidentally come out of the block. Use the steel locking carabiners or shackles to anchor to a polyester sling. The 63 mm (2-1/2") diameter aluminium pulley is mounted on self-lubricating bushing and stainless steel axle. The swing sides are also made of anodized aluminum.

Part No.	Description	Code
078258	Side swing Aluminum Pulley	[A]

Swing Self-blocking Pulleys

The self-locking pulley was especially designed for rescue operations. However, it most certainly can be used in forestry, hunting or industrial applications as well. It features a brake cam system which allows the rope to go through freely in one direction and blocks it in the other direction. The spring-loaded cam can be disengaged by pulling a release cord. The 62 mm diameter aluminum pulley is mounted on self-lubricating bushing and stainless steel axle. The swing sides are also made of anodized aluminum. This pulley can also be used as a regular pulley. You simply have to lock the brake cam in the open position using the provided pin. Use one of our carabiners (**078239** or **078038**) to attach it.

Ideal rope diameter: 12 mm.

Part No.	Description	Code
078257	Double Swing Self-Blocking Pulley	[A]
078246	Single Swing Self-Blocking Pulley	[A]

Portable Winch Accessories

Stainless Steel Swing Side Snatch Block

The swing-side snatch block features a lightweight diameter deep groove aluminum sheave, with stainless steel plates that swing open to install rope. Sintered bronze bushing on stainless steel shaft provides 98% efficiency. Particularly useful for use when doubling the line, the rope cannot accidentally come out of the block.

Part No.	Description	Code
078014	Swing Side Snatch Block 100mm Diameter - 10000 lb.	(A)
078015	Swing Side Snatch Block 76mm Diameter - 5000 lb	(A)

Double Swing Side Snath Block

This swing-side pulley opens to install rope and keep it from going out. An excellent pulley, robust and durable. A hole at the bottom of the center plate allows to attach the end of the rope with a carabiner when needed. Use 50kN carabiners (PCA-1702) or 70kN (PCA-1701) to attach the pulley to a polyester sling.

When using this pulley along with the single pulley PCA-1275, you can quadruple the pulling strength. With 2 of these double pulleys, 5 tons of pulling power will be generated when using the PCW3000-Li.

- Working Load Limit (metric) : 32 kN (3263 kg)
- Material : Sides in stainless steel and sheaves in aluminum
- Ideal rope diameter: 10 mm
- Warranty: 1 year

Part No.	Description	Code
118098	Double Swing Side Snath Block	(A)
078038	50kN Carabiners	(A)
078239	70kN Carabiners	(A)

Double Swing Side Snatch Block

For extra heavy loads, you can multiply the winches' power using pulleys. This double pulley features the same aluminum and stainless steel construction as our stainless steel swing side snatch block (PCA-1274) but with two 100 mm (4") diameter deep groove aluminum sheaves. Using one double pulley (positioned at the load) with a single pulley, you can triple the pulling power of the winches. With two double pulleys, an amazing 4 tons of force can be exerted on a load (using the PCW5000)!

Rope:

- Minimum diameter: 6 mm (1/4")
- Maximum diameter: 13 mm (1/2")

Portable Winch Accessories

Open Face Corner Block

The corner block lets you change the line pull direction of a log to avoid obstacles or to position it parallel to the trail. The corner block is therefore very useful with an ATV (QUAD) or our Portable Winch to get some lift on the rope or to double your line (and power). Use it with the pulley facing down for best results since it will prevent the rope from jumping out of the block when there is a slack and will jump easier of it when used in combination with the automatic release (PCA-1291). Minimum break strength: 20 kN (4400 lb)

Part No.	Description	Code
078016	Open Face Corner Block	(A)
078017	Automatic Release for 078016	(A)

Vinyl Rope Bag

Made of resistant vinyl, this rope bag is designed to be attached to the molded backpack (**078026**). Ideal to store and carry your rope without tangling! You can store up to 50 m of 10 mm rope (164' x 3/8").

Capacity : 50 m x 10 mm (3/8" x 164')
Weight : 550 g (1.21 lb)

Part No.	Description	Code
078007	Vinyl Rope Bag - Capacity: 50 m x 10mm	(A)

Rope Bag

Ideal to carry/store your ropes and small accessories around the woodlot or any location and prevent tangling. Made from durable nylon fabric, this bag will store up to 150 m (492') of 12 mm (1/2") rope. Use a carabiner on your belt to push the rope in it. Fast and easy to do!

Part No.	Description	Code

MTX Audio Systems

Bluetooth Overhead Audio Systems

The MTX MUDSYS31 Bluetooth sound bar is designed to deliver unbeatable high quality audio to UTV's that include mounting accessible roll cages with diameters between 1.75" and 2". This all weather system includes four 6.5" coaxial speakers that work in conjunction with an integrated 280-watt power amplifier. MUDSYS31 Bluetooth Sound Bar fits Cages with Inside Measurement 32.25" to 38.75" .

Features

- (4) 6.5" All-Weather Speakers
- Integrated 4-Channel Amplifier
- Designed for Use with Factory Roll Cages
- Source Unit with Bluetooth 2.0 Receiver, AM/FM Radio with RDS, 3.5mm Aux Input and USB Charging
- Includes Installation Wiring for Connection to Power Source
- LED Dome Light Included
- Resists the vibration of your wildest rides
- IP66 rated to be sealed to dust/debris and water resistant
- Versatile Rollbar Mount (1.75" - 2")

MTX Amplifiers

MUD Series Compact Sports Amplifier

The MTX MUD Series is the most compact amplifier that MTX has ever made. This unit features full range class D topology that delivers exceptional sound quality and excellent thermal efficiency. The unit includes 2 or 4 channels that are capable of delivering 50 or 100 watts of RMS power per channel. More than enough power to drive a single or dual full range speakers per channel.

Features:

- Compact Design Enables Installation Anywhere
- Conformal Coated Printed Circuit Board that Resists Moisture
- Fixed Crossovers, High and Low Pass Allow Use with Full Range Speakers or Subwoofers
- IP66 Water Resistant

Amplified Universal Enclosures

The 250768 is an 8" vented enclosure that includes a 120 watts RMS amplifier in a wedge, carpeted MDF enclosure.

The 250769 is an 8" vented bass tube that includes a 120 watts RMS amplifier and external bass control for user convenience

Part No.	Description	Code
250768	8" 120W RMS amplified vented subwoofer enclosure	(A)
250769	8" 120W RMS amplified vented subwoofer tube	(A)
250771	External bass control	(A)

Amplified Subwoofer Enclosures

MTX is proud to offer a selection of vehicle specific subwoofer enclosures designed to fit the most popular side by side models in the market today. Each unit includes a highly efficient 10" subwoofer with integrated amplifier making it easy to install and connect. All models are rotationally molded and are designed to fit in unused space in the machine, like under the dashboard. Their lightweight design makes them the perfect way to add bass to your UTV's audio system.

Does not fit vehicles with added heater accessory.

Weatherproof Speakers

- Bluetooth Connectivity for wireless integration with over 30' of range
- AM/FM tuner
- High power Class D Amplifier with increased efficiency
- New SSV Works speakers with increased power handling
- New hyper-white LED dome light

The Best Just Got Better AND Louder SSV Works new iPod Weather Proof audio system provides Hi-Def stereo sound. Installs in 15 minutes with a simple 2 wire hook up and is totally weather proof. No more radios. Simply connect your Smartphone or MP3 player wirelessly via Bluetooth. System features a built-in 50 watt x4 ultra-efficient low power consumption digital amp designed around UTV's charging system, waterproof speakers, includes AM/FM tuner for local radio reception with internal antenna. Like all SSV Works systems, the enclosure is constructed of fiberglass for maximum durability and the best sound quality. All systems include wiring, mounting hardware and step-by-step instructions.

Add-on AUX Input and 2.1a USB Charge Port:

Want to add an aux 3.5mm input to your WP Overhead Stereo System or charge your media player? We've got you covered with an aux input and USB charge port. Mount it in the glovebox or replace your dash power port. It simply plugs into your WP system and wires to accessory power. At only 1.5" wide, it can go anywhere you need it!

SSV Works Audio Systems

Weather-Proof Audio System

All systems include:

- Wiring, mounting hardware, and step-by-step instructions
- Bluetooth Connectivity for wireless integration with over 30' of range

A6 Powerport Speakers

Get louder, cleaner sound even in the dirt and mud. Engineered specifically for Powersports, the new WP-A6 WeatherProof speaker brings audiophile grade components to the outdoors. The 25mm Ti- tweeter creates crisp brilliant highs engineered to be heard outdoors, even in a helmet...over the motor...haulin' down the trails. The grille mounted tweeter allows for peak cone travel creating maximum output while providing a low profile with optimal weatherproofing.

Marine speakers are great for boats; however boat speakers don't get as wet, dirty or muddy as you do in a Side X Side. WP-A6 speakers feature an EPDM duo lock gasket surrounding the speaker to keep the water out and the sound pressure in. EPDM conforms to the surface and seals tight no matter where you ride, in direct UV, extreme heat, or in freezing temps. Reliability meets control with the Santoprene surround; a 30% lighter thermoplastic elastomer surrounding the polypropylene cone for exceptional volume and clarity in the harshest conditions.

The SSV Works WP-A6 speaker features a unique positive lock connector to prevent speaker wire detachment inside the enclosure. No matter how hard you drive, your speakers will keep on rockin' with 4ohms and 60w RMS/120W peak power.

Kicker KM Marine Speakers

Spectacular highs and midrange sounds provide full-range audio specifically for a marine environment

- 195 watt (65w RMS)
- 2-way coaxial speakers.

Unloaded - Without speakers

Already have speakers? This is for you.

Plug-&-Play Extension Harness

Spend less time installing by using our Plug-&-Play Extension Harness with this speaker pod set. Simply plug one end into the speaker, and the other end into our MRB3 controller. That's it!

SSV Works Speakers

Cage Mount Speaker

SSV Works custom molded front Cage Mount Pods are designed for 6.5" speakers and can be used when you need more sound in your Side by Side.

- Unlike wakeboard towers, our mini pods are designed to provide sound to the passengers without blocking visibility.
- They are 100% fiberglass for the best sound quality and bass response.
- They are finished in a black texture coat to match factory interior textures and can be custom painted to match your color scheme.
- Includes the versatility of Axia Alloys patented clamping system, stainless mounting hardware, and step-by-step installation instructions.

SSV Works Speakers

Dash Speaker

- Molded dash pods are designed to kit a kicker 4" speaker and easily installs in the factory speaker space in the Maverick X3 Dash
- No drilling or cutting required
- The 4" full range speaker fits in the space where a factory 1" speaker normally fits
- An acoustic lens is included for focused audio imaging - basically it redirects your music so it fires directly at you instead of up in the air
- Fully plug & play connection means with the use of an SSV Works harness - you'll be ready to rock in no time
- They are 100% fiberglass for the best sound quality and bass response

Model	Year	Part No.	Code
Can-Am			
Maverick X3 / Maverick X3 Max	16-19	152897	(A)

Door Speaker

- Molded door pods are designed to fit a kicker 4" speaker and easily installs on to the factory door of the Maverick X3 dash
- No drilling or cutting required
- The best thing about these pods is they are able to install with or without the factory lower door
- Fully plug & play connection means with the use of an SSV Works harness - you'll be ready to rock in no time
- They are 100% fiberglass for the best sound quality and bass response

Audio System

External Navigation Box (Android OS)

- Compatible with DXU1100DVR & DXP1001DVR
- Navigate with maps and tools tailored specifically for off-road use
- Record off-road trails and waypoints and share them with friends who can view on their PC, phones, or navigate to them using their own NavAtlas navigation.
- Location Management System allows you to save and organize your favorite locations so that you can return to them later using NavAtlas Expedition's maps or its specialized location finding tools.
- GPX file import/export for trails and waypoints on Android devices using NavAtlas Utilities, available on Google Play Store, is required.
- Reports Navigational compass and GPS information in real-time
- Waypoint creation tools: Enter coordinates, drop a pin on the map, save your current position.
- Search by map coordinates
- GPS Satellites graph and position charts
- Sunrise/Sunset time indicator
- Pairs with NAV160 Bluetooth GPS booster, available at your local NavAtlas dealer. GPS receiver is recommended in areas that have excessive interference or poor GPS reception in order to get a faster GPS lock

Combo ATV/UTV LED Bars

KimpeX's LED light bars use CREE LEDs that meet the highest standards in the industry compared to other LED types. They are recognized for their longevity and efficiency, with high lumens output per watt.

- Combo lighting: spot beams in the middle and flood beams at the ends to increase visibility
- Waterproof and high impact resistance for use in the roughest conditions
- White 6000K color temperature similar to daylight
- Estimated lifetime of 50 000 hours
- Wiring harness is supplied including a lighted dash-mounted switch, a relay and a fuse

** Additional mounting clamps may be required depending on installation type*

Ultra ARC Blackout Series

- Ultra Blackout Beam: Combo (Spot and Flood)
- New 3D Reflector Design
- LEDs: 3 Watt CREE
- Operating Temp: -40°F~140°F
- Waterproof Rating: IP67
- Material: Diecast Aluminum

- Operating Voltage: 10-30V DC
- Lens: Polycarbonate
- Estimated Lifetime: 50 000 Hours
- 150 Deg. Adjustable Side Bracket

175669	Light Bar Mounting Kit - RZR 900S/1000	C

Light Bar Mounting Brackets

SuperATV's Light Bar Mounting Brackets allow you to quickly install your 6", 12" or 30" light bar. The universal style, heavy duty design makes it easy to position them to match your riding style - to the front or rear of your machine. Each set comes complete with all necessary installation hardware. Powder coated black for extreme durability.

Part No.	Description
313276	Light Bar Mounting Brackets

Kimpex Work Lights

WIRE HARNESS NOT INCLUDED

LED Work Lights

Kimpex's LED light bars use CREE LEDs that meet the highest standards in the industry compared to other LED types. They are recognized for their longevity and efficiency, with high lumens output per watt.

- Spot beams to increase visibility
- Waterproof and high impact resistance for use in the roughest conditions
- White 6000K color temperature similar to daylight
- Estimated lifetime of 50 000 hours
- **Wiring is sold separately**

**Additional mounting clamps may be required depending on installation type*

LED Flood Light Kit

Kit includes: 2 x 18w LED Flood Lights, harness and switch

Light Fixture Features:

- Total Op. Voltage: 20-60V DC (both lights)
- Total Current Draw: 2.25A @ 12v / 1.17A @ 24v (both lights)
- Housing Material: Heavy Duty Die Cast Aluminum
- Mounting bracket: Stainless steel
- Waterproof rate: 1 meter (IP 67)
- Color Temp: 6000k
- Waterproof Enclosure: Custom molded silicon seal for 100% waterproof enclosure
- Polycarbonate Lens: Abrasion & Shatter resistant, optically clear polycarbonate lens, Bayer Germany
- Super Efficient LED POWER: Super efficient LED Driver circuitry passes 90% of the power directly to the LEDs
- Cree® High Intensity LEDs: Provide over 30,000 hours of useful light
- Oversized Heat Sink: Custom designed to keep LEDs running cooler and brighter while lasting longer
- Multi-Volt Operation: Operating voltage from 11-24V D
- Multi-position Mounting Brackets: Designed to provide a broad range of mounting options.
- Sealed DT Connectors: Easy and secure quick-snap connectors are gasket sealed for maximum weather protection
- Professional Plug & Play Wiring Harness with On/Off Switch: Designed for ease of installation and comes with detailed step-by-step instructions

Spotlights

Bullitt LED Light

- Single 10 W Cree LED produces 900 Lumens.
- Draws less than 1 Amp.
- IP68 dust and water intrusion rated.
- Cast aluminum housing.
- 50,000 hour life span.
- Wire harness included.
- Single M6 Mounting Stud.
- Dimensions: 2.25" diameter.

Part No.	Description	Code
002870	Bullitt LED Light	C

Dually Light

- 4 LED per light in a compact package.
- Unlimited use for trucks, ATVs, UTV's, trailers, toy haulers, RV's, boats, etc.
- 1080 Lumens, less than 1 Amp draw.
- No warm up, instant on/off.
- No hot spots, vibration or bouncing beams.
- Waterproof.
- Off-road use only.
- Works great for backup applications.
- Switch, wire harness and base mounts included.

Part No.	Description	Code

Light Switches

Side-x-Side Switches

When running accessories on a Side-X-Side most people will put them on a switch so they can save the battery when not in use. DragonFire has developed a line of switches that are perfect for off road abuse and they look cool too! Several different styles to choose from and a universal size setup makes these switches the best possible fit for your Side-X-Side.

Light Switches

210608

210609

Switch Panels from IQ

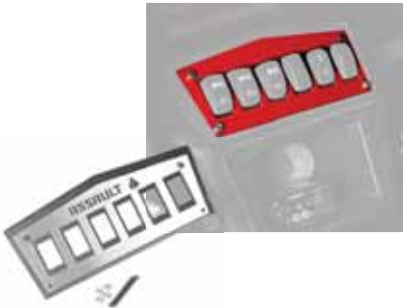

The Switch Panel from IQ installs over the current dash panel on the Yamaha YXZ 1000R. The IQ Switch Panel can hold 6 switches for lights and auxiliaries, or 4 switches with a 2" hole that can be used for an AFR+ Fuel tuner or other standard gauges. The aluminum dash panel also keeps the stock glove box in tact so no functionality is lost. Available in Black powder coat, the IQ Switch Panel adds functionality to the YXZ 1000R and gives it an intense look.

Model	Year	Description	Part No.	Code
Yamaha				
YXZ 1000R	16-18	Switch Panels - 4 Switches	210608	(A)
YXZ 1000R	16-18	Switch Panels - 6 Switches	210609	(A)

Wiring and Electrical Parts

Light Extension Wire

- Number of outputs: 2
- Light type: LED
- Cable length: 18 inches
- Plug: 12 and 24 volts
- Intensity: 30 amp

Part No.	Description	Code
175655	Light Extension Wire	E

Universal Wire Harness

- Waterproof
- One 40 amp inline relay
- 30 amp Inline Fuse with Holder
- Heavy duty toggle switch
- Operating voltage of 12V and 24V
- 50,000 hour+ life time

Part No.	Description	Code
222079	Universal Wire Harness	(A)

Pro Wire Harness

- Waterproof
- Two 40 amp inline relays
- Operating voltage of 12V and 24V
- 50,000 hour+ life time
- Back Lit Rocker Switch
- Inline 30 amp fuse and holder
- Waterproof connection points

Part No.	Description	Code
222080	Pro Wire Harness	(A)

Dual Color Wire Harness

- Heavy Duty 14 Gauge Wires
- Inline 30 Amp Fuse
- Two 40amp 12VDC relays
- In-Line Rocker Switch
- 10+ Foot Wires to Connect Dual -
- Color Light Bar

Part No.	Description	Code
222712	Dual Color Wire Harness	(A)

Wiring and Electrical Parts

Block Terminal Connector

With this Connector, you can plug accessories into a Polaris Pulse Bar. Black is Ground. Yellow is Key Power. Red is Constant Power.

TTO Digital Gauges

TTO Digital Gauges

TTO comes in a wide variety of flavors to fit the specific needs of the rider. Whether you are looking for a Tach-Hour, Volt, Temperature Meter TTO has you covered.

The TTO Digital Temperature Gauge allows you to easily monitor your engine's temperature -40°-300°C/575°F ensuring you that your engine is not overheating. Trail Tech's TTO Temperature Gauge offers features that include an easy to read LCD display, and an ultra-thin design. The LCD display lets you to easily view all gauge readings regardless of the angle or lighting conditions.

The TTO Digital Tach/Hour Gauge with Maintenance is full of features. Large readable display allows you to easily monitor your engine's running hours up to 99,999 total hours ensuring that you perform proper maintenance on your engine. The LCD display lets you to easily view all gauge readings regardless of the angle or lighting conditions.

The TTO Digital Voltage Gauge allows easily monitoring of vehicle voltage 0.0V - 63.6V ensuring the battery is not being drained or over-charged. In the case of a charging issue, TTO will flash the backlight on and off to alert the rider to potential issues. TTO is a must for any vehicle with added electrical accessories.

TTO shown mounted to handlebars using plastic handlebar mounting hardware.

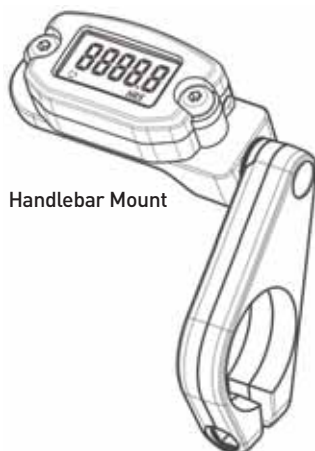

TTO shown custom mounted in bar pad. Use a knife to carefully carve out the recess for TTO to fit in. Use spray adhesive to hold the pad cover down tightly. This is a custom application, bar pads not available from Trail Tech.

TTO shown mounted with universal mount at top of gas tank to Honda CRF450R 2009.

TTO shown mounted on the neck behind the forks on a 2008 KTM. This is a preferred mounting location for many installations. Mounted using the included 3M VHB tape, no drilling was required.

TTO Digital Gauges

TTO Temperature Meter (Fin Sensor)

- Temperature Sensor: Radiator Fin, 7mm, 8mm & 10mm wide
- No cutting of fluid lines, or draining radiator
- Easy install

Part No.	Description	Code
223008	7mm Fin Sensor - Black	(A)

223019

223020

Digital Gauges - Panel Mount

- Panel mount for easy install in a dash or instrument panel
- Customizable warnings and maintenance reminders with flash alert service alarms
- Functions on key switch for external power if battery dies

Part No.	Description	Code
223019	TTO Tach/Hour Meter - Pulse Sensor - Black	(A)

TTO - CVT Belt Temp Sensor - Panel Mount

The TTO Digital Temperature Gauge allows you to easily monitor your CVT Belt Temperature 30-500°F (0-270°C) on all UTV and ATV applications which incorporate a CVT type transmission ensuring that your CVT belt is not overheating extending belt life and preventing failure. Trail Tech's TTO Temperature Gauge offers features that include an easy to read LCD display, and an ultra-thin design. The LCD display lets you to easily view all gauge readings regardless of the angle or lighting conditions. This is a complete kit with our TTO temp gauge, temperature probe, and sensor extension for simple installation.

Part No.	Description	Code
223056	TTO -CVT Belt Temp Sensor - Panel Mount	(A)

Trail Tech Computer Kits

The Connected Rider's GPS

The next evolution of Trail Tech's most popular off-road GPS. Featuring patent pending Buddy Tracking (Ride group visible on map), Bluetooth for phone and media connection, 4" color touchscreen and full vehicle integration. See the data that matters to you. Cellular service not required.

The Trail Rider's GPS

The voyager GPS is designed specifically to meet the needs of off-road enthusiasts. Download, record and share maps while monitoring vital engine data. The 2.7" transfective backlit display is ideal for the outdoors and direct sunlight. Never get lost again with the Trail Tech Voyager GPS.

Stay Informed

The Vapor speedometer/tachometer is a popular choice for both on and off-road enthusiasts. Vapor's large digital tachometer bar graph is easy to read and the programmable LED lights will blink letting you know exactly when to shift gear.

Knowledge is power

Don't get stuck on the trail not knowing if your vehicle will be able to start again. The Striker digital gauge with speedometer and volt meter displays your vehicle's battery voltage and has programmable LED indicator lights to warn you when the charging system is overwhelmed.

Keeping it simple

The trail Tech Endurance II digital gauge offers speedometer with distance and time, boasting a clean, simple design with the most essential riding information. The Endurance II features two independent odometers and records accumulated ride time and trip time, along with maximum and average speeds.

Koso Meters

RXF Multifunction Speedometer

If you're seeking for the latest and greatest in meter technology, then feast your eyes on our RXF meter. Using the most recent TFT technology, this meter will amaze you for its versatile settings and vibrant colours. The TFT screen's great display features a tremendous amount of functions such as : speed, tachometer, gear indicator, temperature, fuel level, voltage, lean angle and more... With its fast response rate, wide viewing angle and sharp details, get ready for the future with our most advanced meter yet!

Part No.	Description	Code
205273	RXF Multifunction Speedometer	(C)

RX-1N GP Style Speedometer

Just the right size & shape designed for ATV and motorcycle, with the up to 15000 RPM tachometer & the illuminated needle. You could read the information easily even in the night. With the max power test, you could check the top speed your machine could reach and the time & distance you need to reach it. The target distance test provides you the chance to see how fast you are and how much time you need to reach at a limited distance. The target speed test provides you the information of how much distance you need to reach the speed you set and how long it takes. It is just like you have a dyno on your machine for you to adjust your machine. Are you ready to join the race?

Material Included:

- Speed sensor, bracket and magnet
- Water temperature sensor
- Oil T° sensor

Part No.	Description	Code
205047	RX-1N GP Style White Dial Face	(C)

RX-2 GP STYLE SPEEDOMETER

With this unique lighted tachometer, the RPM is much easier to read at night. It's special lighted points show the maximum RPM reach. The backlight can be change to five different colors very easily. This unit cover basics functions such as: speed, tachometer and indicator lights, bu it also features great functions such as: shift light, top speed record, max RPM and more. Are you ready to join this race?

Koso Meters

Mini-Engine Hour Meter

This gauge is the best tool for the maintenance of your engine. This unit tells how many hours the engine run. It gives precious information on when to do the oil changes, or when to rebuild the engine for race motors. With the total memory time and the two resettable time it makes it easy to work with.

Part No.	Description
205080	Mini-Engine Hour Meter

Mini Air/Fuel Ratio Meter (White Back Light)

This gauge is specially made to help you tune your carburetor or fuel injection system on 4 stroke engine. Its internal battery makes it easy to switch from one engine to the other without disconnecting any wires. If the instrument is installed permanently on an engine, just connect the power to the gauge and you will get a nice backlight. This new mini Air/Fuel ratio gauge is the perfect tool for serious tuner!

Part No.	Description
205106	A/F Ratio Mini-Meter

X-1- Boost Gauge

Today, many horsepower enthusiast are upgrading their engine with Turbo or Supercharger. For this reason, we came up with this basic boost gauge with warning and peak functions.

Made to resist cold temperature, water or dust, this gauge can be adapted to any engines with turbo or supercharger. The changeable scale from 15 to 30 psi, the warning and peak recall function makes it a great tool.

Applications: ATV, Motocross, Scooter, Snowmobile

Part No.	Description

Koso Meters

Wideband Air/Fuel Ratio Meter

This nice back lighted Wideband Air/Fuel Ratio Gauge will give you precious information on your engine. It will allow you to tune more precisely your engine. It's warning could even save your engine from bad damage! It's programmable warning will tell if your engine run too Lean or too Rich.

Part No.	Description
205129	Wideband Meter Kit
205094	Adaptor for 2 Stroke Engine (not included in kit)
205095	Bung Cap
205096	Weld on Bung
205097	Bosch Oxygen Sensor
205098	Gauge Bracket Kit

Air Density Meter

This is a great tool for serious engine tuners. Our air density meter allow to see if the air density has changed. It could help you determine if the jetting or fuel mapping should be adjusted. Altitude, temperature and atmospheric pressure can affect quickly the performance of the engine. Our meter will instantly tell you if the condition has change so the proper changes can be made on the engine. This is a must for performance enthusiasts since it will help get the extra horsepower out of the engine or it could even save the engine from bad damages.

Part No.	Description
205140	Air Density Meter

EFI Tachometer

Following customer requests, we came up with this useful EFI tachometer that has 2 temperature readings and optional air/fuel ratio function. This instrument has a large graph bar and RPM digits, which makes it very easy to read, even at high speed. The adjustable scale for 10 000, 15 000 or 20 000 RPM allows this meter to adapt to almost any type of engine. Other than its RPM and 2 temperature readings, this meter also features voltage and clock functions. Its programmable shift light and temperature warning lights will help you monitor your engine and make it the perfect racing tool !

Infrared Belt Temp Gauge - 3.0 Edition

The 3.0 Edition Gauge is the latest & greatest version of our patented infrared belt temperature gauge design. This gauge allows for real-time monitoring of belt surface temperature, and features multicolor LED temperature alerts. On the anti-glare LCD screen you'll be able to easily monitor current, average, and high belt temperatures. LCD Screen - Easy to see, even when the sun is bearing down overhead.

- LED Alerts - The incorporated LED has been programmed to change colors as your belt reaches certain temperatures. Default settings are Green at less than 200 F. Yellow at 200 F. Red at 225 F. Red Strobe at 245 F. Fast Red Strobe at greater than 260 F. For maximum belt life, try to avoid temperatures in excess of 200-225 F.
- Machined from steel and aluminum. Not plastic.
- Waterproof sensor. Waterproof connections.
- Quick-Release Sensor

Hardline Meters

Functions Common with all Hour Meters

- Works on new pencil/stick type coils and earlier generation ignitions
- Track the service life of your vehicle – oil changes, valve adjustments, spark plugs etc...
- No power or ground wires required
- Works for any gasoline engine 2 or 4 stroke
- Encapsulated case water resistant
- Easy installation – peel & stick, no wiring necessary, or attach with enclosed hardware
- Pick up wire just wraps around spark plug wire or coil
- No battery required
- Works on any gas engine
- Records & displays to 9,999.9 hours
- Hour glass symbol appears & flashes on/off to indicate counting time
- Automatic roll over
- Resolution 0.1 hour
- 100% epoxy encapsulated
- Limited warranty

058627

Hour Meter

- Use on any gasoline engine 2/4 stroke
- Displays total hours accumulated

Part No.	Description	Code
058627	Hour Meter	E

058628

Hour Meter / Tachometer

- Use on any gasoline engine 2/4 stroke 2 cyl. or less
- Tach function when engine is running
- Displays total hours accumulated when engine is off
- Firing pattern 1 spark = 1 RPM up to 9000rpms
- Resolution 10RPM

Part No.	Description	Code
058628	Hour Meter/Tachometer	E

Re-Settable Hour Meter

- Use on any gasoline engine 2/4 stroke
- Flashes "clean air filter" at 5 hours
- Flashes "change oil" every 10 hours
- Flashes "valve service" every 20 hours
- All services count down the last 10 hours
- All services are easily reset with a touch of a button
- Timer mode allows you to record individual sessions
- Total hours accumulated is not resettable

058629

Part No.	Description	Code
058629	Re-Settable Hour Meter	E

Digital Thermometer

This Digital thermometer is perfect for power sports vehicles and vessels. Get accurate temperature readings from your engine to prevent overheating and other damage.

- Universal - Fits any motor with spark plug or radiator.
- Includes two ways to pick up temperature. Spark plug mount or radiator wedge.
- Easy install. No massive disassembly or plumbing required.
- Includes replaceable sealed battery.
- Temperature range 32-482 F (0-250 C)
- Settable Fahrenheit or Celsius unit.
- Waterproof with IP68 rating.
- Large 1/2" X 1 1/4 LCD Display.
- Green backlit display.
- Battery Life display on screen.
- Made with Marine Grade Polymer material.
- One year warranty.

Part No.	Description	Code
058966	Digital Thermometer	E

Meters

iMeter™ Wireless Hour Meter

The most advanced, accurate, reliable hour meter made, and the easiest to install!

No connections required, just peel and stick! Automatically starts and stops from the running of your engine by sensing the resonance (vibration) of the engine. Works on any motorcycles, ATV, UTV or PWC automatically. For 2 or 4 stroke.

Part No.	Description
058963	iMeter Wireless Hour Meter

Steering Stem Hour Meter Bracket

- For Re-Settable Hour Meters only
- Easy assembly
- Does not interfere with turning radius
- Fits 125's, 250's and larger
- Corrosion resistant

*** Do not use with Pro-Taper™ bars**

Part No.	Description
058630	Steering Stem Hour Meter Bracket

Instrument Style Hour Meter Bracket

- Mounts on your OEM gas tank or frame bolt hole
- Made from aluminum
- Will not corrode
- Works on any Hardline Meter housing (old design or New Generation)

Part No.	Description	Code

MobNetic Claw Mount

- The MobNetic is a strongest magnetic smartphone mount, that now uses a grab anything, mount anywhere bar clamp.
- The MobNetic Claw features a wide range of motion that allows you to securely grab any tube from 2" roll cages down to near zero diameter bars and tubes.
- The Claw has three talons that close securely onto box shapes, grab handles, roll cages, and other interior features.
- This product features a full 360-degree rotation for the phone and a 25-degree tilt motion for adjusting the viewing angle.

Part No.	Description	Code
366335	MobNetic Claw Mount	C

MobNetic Mount Plate

- Allows you to attach your phone to a magnetic mount regardless of your case material
- Thin profile can fit inside phone cases without changing the look or feel of the device
- These ferrous metal plates will work with any magnetic mount
- Securely attaches to phone or phone case with 3M adhesive
- Easily attach your phone to your magnetic mount with one hand

Part No.	Description	Code
366336	MobNetic Mount Plate	C

Mob Mount

The mob mount was created to perform in unforgiving terrains. it is the most capable phone mount on earth. manufactured with aircraft-grade metal and industrial materials, this is the mount built for your next adventure.

Mob Mount Switch Marball

The Marball mounting option allows you to use the Mob Armor Switch phone cradle with your existing 1" ball mount.

*The Marball does not include a 1" ball clamping arm or other related accessories.

- Made from 5052 aluminum alloy with a durable powder coated finish
- Adjustable slide to accommodate phones with or without a case
- Attachment bracket to allows for switching between different mounting options
- High density closed-cell EVA foam protects from shock & vibration
- Easy to install: unscrew and remove the cradle on your existing 1" ball mount, insert the Marball cradle and tighten the ball mount base.

The Large Mount is compatible with the following phones:

iPhone 6 Plus/6S Plus/7 Plus/8 Plus, LG G3/G4, Moto X (2nd Gen), Moto G (2nd Gen), Nexus 6, OnePlus One, Sony Xperia Z3, HTC 612/One M8 and Samsung S3/S4/S5/S6/S6 Edge/Note 3/Note 4/Note 5/Note 5 Edge/Note 7.

The Small Mount is compatible with the following phones:

iPhone 5, 5C, 6, 6S, SE, 7, 8, Google Pixel, Pixel 2, LG G2, LG Nexus 5, HTC One M7, M8, X, Blackberry Classic, Curve 9320, Bold 9790, Z10, Leap.

Smart Phone & GPS Brackets

SHAD

Discover the Advantages of Brackets for Smart Phones and GPS

Smart Phones & GPS Holders

- Handlebar or Mirror Bracket
- Adjustable Internal Shims
- Waterproof case and zip
- Maximum protection
- Hole for battery charger cable
- Crystal film for touch screens
- Quick assembly

Waterproof Smart Phone & GPS holders for motorcycles universal holder. A perfect accessory for bikers that enjoy long trips or just going around the city.

Your Smart Phone or GPS is carried in an extremely sturdy, practical case whose interior is lined with knock-proof material. The holder can be fixed either to the handlebar or the mirror simply and quickly, thanks to a practical, adjustable bracket. Since the base can be rotated 360°, you can position the screen at the visual angle that is just right for you. The waterproof case and zips enable the case to be used in any weather, and your touch screen display is completely functional through the special crystal film window.

It offers the maximum protection for the Smart Phone or GPS, as it includes a safety strap. Mounting it is easy and fast.

Electronic Device Brackets

Action Camera Mount Systems

POV Action Camera Universal Mount

The Fast Clamp base attaches to the Hornet Quick-Adjust arm. This unique ALL STAINLESS STEEL arm has a unique feature where a simple twist of the elbow knob loosens the entire arms AND both ball sockets on the ends so you just loosen, adjust to the desired position, and lock it in place with a simple half turn of the knob.

*** This mount is ideal for attaching your Action Camera to your roll bar or bumper. Also ideal for Rock Crawlers or any outdoor equipment with 1 1/2" - 1 3/4" Round Tube.**

Part No.	Description	Code
163360*	UTV Mount Camera 1 1/2" to 1 3/4"	(B)
163362	Universal Mount Camera 1/2" to 1 1/2"	(B)
163371	Arm Extension for Camera Mounts	(B)

Universal Cell Phone Holder

The Hornet Smart Phone Mount comes complete with a SOLID Crab Clamp that can attach to any square, round, or oval tube up to 1 1/4" diameter (tool less installation). The phone holder attaches via standard SAE 1/4" thread so you can also use it to hold your Go Pro or other action camera.

Part No.	Description
163373	Universal Cell Phone Holder

Smart Phone Holder

Comes complete with a solid machined (black) aluminum base mount that attaches to round 1 3/4" to 2" tube.

This unique arm has a unique mechanical design where a simple twist of the elbow knob loosens the entire arms AND both ball sockets on the ends so you just loosen, adjust to the desired position, and lock it in place with a simple half turn of the knob.

Includes the Base Mount for attaching to Roll Bar, Smart Phone adjustable holder, 11" adjustable arm.

Black Boar Cultivator Accessories

Scrape Blade

- The addition of weight on the implement bar provides more downward force on the implement, driving it deeper into the ground
- Designed to fit two cinderblocks and has mounting holes to accept tie down straps
- Made of durable, black powder-coated steel
- Mounting hardware included

Part No.	Description	Code
335012	Scrape Blade	(B)

Plugger Implement

The Black Boar Plugger helps aerate your land by removing plugs of dirt, allowing for increased air flow, water flow, and nutrient absorption. Seasonal aeration is essential for maintaining the health and appearance of your lawn and land. For use with Black Boar Implement Lift.

Part No.	Description	Code
335015	Plugger Implement	(B)

Disc Harrow Implement

- Each side adjusts 0, 15 or 30 degrees in both directions to help break up tough ground
- Parallel linkage design maintains proper implement angle as it is lowered
- Lightweight design is easy to install with one person and minimizes interference with maneuvering
- Superior range of motion without having to move pins or manually drop the hitch
- Made of durable steel with a streamlined, minimalist design

Part No.	Description	Code
335001	Disc Harrow Implement	(B)

Implements, Utility Trailers & Hitches

Black Boar Hitch Accessories

Weight Basket

- Great for re-tilling and for newer, softer ground
- Parallel linkage design maintains proper implement angle as it is lowered
- Lightweight design is easy to install with one person and minimizes interference with maneuvering
- Superior range of motion without having to move pins or manually drop the hitch
- Made of durable steel with a streamlined, minimalist design

Part No.	Description	Code
335013	Weight Basket	(B)

Manual Implement Lift

- Strong, durable snow plow mounts to ATV chassis to easily clear snow and fits most models of ATV with round or square tubular frames
- Straight blade is 48 inches long, 2mm thick with reversible wear blade for extended life
- Adjustable blade angles of 0, 7.5, 22.5, and 30 degrees in both the right & left direction plus adjustable skid pads for proper blade height setting
- Blade can be quickly installed or removed from the mounting bracket via two quick pins
- Constructed of durable, black powder-coated steel. Winch required for use- not included

Part No.	Description	Code
335017	Manual Implement Lift	(B)

Motorized Implement Lift

- The Implement Lift is 50 inches long and allows for you to switch between implements with ease
- Allows for quick implement change; compatible with all Black Boar Implements
- Parallel linkage design maintains correct implement angle as it is lowered
- Lightweight design is easy to install with one person and minimizes interference with maneuvering
- Superior range of motion without having to move pins or manually drop the hitch
- Made of durable steel with a streamlined, minimalist design

Part No.	Description	Code
335000	Motorized Implement Lift	(B)

Implements, Utility Trailers & Hitches

Hitch Accessories

Lawnmower Hitch Receiver

Riding Lawnmowers have the power and the low center of gravity to be natural towing machines. With the Hi-Hitch, a regular riding mower can be transformed into one of the handiest tools ever for pulling small trailers. Whether you're hauling off trash on a utility trailer, bringing up firewood or just positioning your ski boat in your garage, the Hi-Hitch gets the job done!

The Hi-Hitch is braced and positioned perfectly at just the right height to keep trailers level and well-balanced. With super-strong aircraft aluminum construction, the Hi-Hitch provides a lot of "horsepower" with very little weight added to the machine. Installs in easily and accepts all conventional trailer-hitch balls.

The Hi-Hitch mounts to all conventional riding lawn mowers with a minimum of drilling or modifications.

NOTE: Trailer hitch ball not included.

Part No.	Description	Code
022424	Lawnmower Hitch Receiver	(B)

Sprayers

Complete Spreader System

- 125 lb. Hopper
- 12V / 3400 RPM Motor
- Adjustable Speed Control
- 5 Position Gate
- Adjustable deflector shields
- Easy on/off
- Built in agitator
- Rotomolded hopper and lids to keep moisture out
- Motor located inside hopper
- Plug and Play Wiring
- Unique spinner for even spreading
- Can be used with salt or seed

Part No.	Description	Code
358178	Complete Spreader System	C
358179	Mount Kit for Polaris ATV Spreader	C

Super-Spot Sprayer Kit

Ideal for around the farm, home or hunting lease. Super-Spot sprayers are available in 25 and 40 gallon models. All sprayers are designed to conveniently strap to ATV rear racks or UTV beds without need of hardware or wrenches. Tanks are corrosion-proof polyethylene and come equipped with a 12-volt 60 PSI or 45 PSI pump.

A handwand spray nozzle with 6 feet of hose, splash-proof vented lid, a toggle cut-off switch, large 15" fill well and a drain valve come standard on all models.

The Super-Spot handwand can be set to deliver a fine mist for delicate, controlled applications or adjusted to reach out to 25 ft.

Hitches

2" Bolt On Receiver Hitch

- Unique design enables dual towing capability with the ball mount or pin mount
- Heavy-duty 2" receiver mount for additional ball mount inserts
- Reversible for trailer hitch height adjustment
- 3/4" hitch ball mounting hole
- Fits most ATV's with factory hitch
- For off-road use only

Part No.	Description	Code
005820	2" Bolt On Receiver Hitch	C

Short Adjustable Hitch Receiver

- Adjustable both vertically and Horizontally
- Curved Bottom negates ground hang-up over rough terrain
- All Steel Welded
- Powder coated for durability
- Includes 5/8" Hitch Pin
- Ideal for carrier baskets, cultivators, feeders, spreaders
- Fits all 2" receivers
- For Off road ATV/UTV use
- 5" Hitch Extension plus 3" additional horizontal adjustment
- Vertical Rise plus 6" additional vertical adjustment

Part No.	Description	Code
163374	Short Adjustable Hitch Receiver	(B)

Receiver Hitch

The Hornet adjustable hitch makes a simple to adjust the receiver both vertically and horizontally to accommodate uses for their receiver that include towing but much more, opening up the possibilities for expanded uses of your ATV or UTV that often require receiver adjustment horizontally or vertically so the load is up away from the exhaust and mud. FITS ALL ATV'S AND UTV'S WITH 2" RECEIVER.

Part No.	Description
163363	Quick Adjust Receiver Hitch
163364	Receiver Hitch Riser U

Hitch Receiver Extension

The Hornet Receiver Hitch Riser/Extender was designed specially for ATV/UTV off road use where you need a SHORT extension.

The distance from the center of the front hitch pin hole to the rear hitch pin hole is only 4 1/2". Standard 5/8" Hitch pin hole.

Part No.	Description
163379	Hitch Receiver Extender 4.5"

Hitches

Hitch Receiver Extension Piggyback

The Hornet Receiver Hitch Piggyback Extender was designed specially for ATV/UTV off road use where you need a SHORT extension and still want the receiver available for other purposes.

The distance from the center of the front hitch pin hole to the rear hitch pin hole is only 7" on the bottom hole and 5" from the top hole to the rear hole. Standard 5/8" Hitch pin holes.

Part No.	Description	Code
163380	Hitch Receiver Extender 7"	(B)

Hitch Receiver Adaptor

If you own a RZR or other ATV/UTV with a 1 1/4" Receiver you probably discovered that the adapters on the market are far too long. The Hornet Adaptor was designed specifically for ATV/UTV use and it's short; extension is only 4 1/2".

The Hornet Receiver Hitch adaptor makes is easy to insert 2" implements in to your 1 1/4" Receivers. Male end fits 1 1/4" female ATV/UTV Receivers and has 1/2" Hitch in hole. Female end fits all standard 2" Receiver accessories and has 5/8" standard hitch pin hole.

RHINO

Hitch Accessories

Flipper Hitch Adapter

The Rhino Flipper Hitch Adapter installs onto your existing Ball Mount receiver allowing use of a pin-style hitch attachment without interfering with the existing ball mount. Designed to utilize your existing receiver and ball for attachment. Side tabs prevent Hitch from twisting. For ATV and UTV use only.

Fits: 1 Inch and 3/4 Inch ball shank diameter with included adapter ring.
Fits: Most ball mounts up to 2 5/8" wide.

Part No.	Description	Code
034022	Flipper Hitch Adapter	C

Double Duty Hitch Adaptor

- Constructed of heavy aircraft aluminum
- Provides the strength to handle 100 lbs. of tongue weight and the maximum towing limits of most vehicles
- Works with all 2" receivers and also can be attached to hitch pin mounts.

Part No.	Description	Code
020850	Double Duty Hitch Adaptor	(B)

Hitch Extender

- Constructed of aircraft aluminum
- Installs easily
- Designed to fit into factory hitch receivers

TAILWATER II™ Wading Shoes

The Tailwater II wading shoe with LSG (Locking Stud Grip) is the style of functional and durable wading shoes from Compass 360. Constructed with a non-shrink nylon and PU upper. Forget losing your studs with the LSG outsole, with recessed stud placement points. Your steel wading studs will stay in place mile after mile. Designed to be worn with 3.5mm or 4mm neoprene booties there is no need to go up a size with the Tailwater II.

- LSG (Locking Stud Grip) recessed stud placement points
- Reinforced toe and heel cap
- Locking lace hooks
- Padded collar for added comfort
- XL webbing heel pull for easy road or stream side on and off

Facemask & Headwear

Spando-Flage Facemasks

- No straps, no snaps, no wires or no strings
- Versatile and effective
- Form to the face for perfect camouflaged cover
- "Breathe" to keep you comfortable in warm weather and they hug your face to protect you against cold conditions

Part No.	Description	Code
020938	Facemask - Mossy Oak	(B)

Spando-Flage Headwears

- Eyeholes can be cut to the preferred size without raveling.
- Allusion Headnets can and should be washed regularly to eliminate human scent.
- Washing does not cause shrinkage or loss of shape.
- Allusion Headnets are available in most popular camo patterns and can be matched perfectly to hunting apparel.
- Provides warmth enough to cut the early morning chill, but is ventilated to be comfortable on the warm days.

Gun Racks

Gun Rack Adaptor Plate - Ranger Mid Size

Adapts UTV Gun Rack (Kimpex No.: **002357** - sold separately) to Polaris Ranger Mid-Size

Applications:

- Ranger 400cc (2010-current)
- Ranger 500cc (2011-current)
- Ranger EV (2010-current)

Mounts securely to existing location on floor.

* No adapter needed for 2010-current full size Ranger

* Will NOT work on the new 2012-current 800 Mid-Size Ranger

Part No.	Description	Code
005885	Adaptor Plate	C

Gun Rack Mount

- Riser plate is required to mount UTV Gun Rack (**002357**) to any UTV with a center hump
- Provides secure fit for UTV Gun Rack to center hump, preventing vibration and movement

Part No.	Description	Code
002358	UTV Gun Rack Mount (Universal) Round	C

Overhead Gun Rack

- Cast aluminum support bracket
- Telescoping arms with tightening bolts ensures fit for a wide range of vehicles
- Thick plate and cast steel brackets mount rack solidly and securely
- Glass filled nylon housing
- Multiple settings to hold jaws securely shut around gun
- Tough but soft rubber jaw grips conform to gun stock and barrel, holding firearm securely in place

Fitment:

177207: 1.75" round tube clamps and 8 shims fit 1.75" tubes (round tube Rangers, others), 1.625" tubes (Pioneer 700, others), and 1.5" tubes (Yamahas, others)

177208: 2" round tube clamps and 8 shims fit 2" tubes (Can Am, Kubota) and 1.875" tubes (Mules, Pioneer 1000, others)

177209: 2013-16 Full Size Polaris Rangers with Pro Fit Roll Cages

Universal Gun case

- Case lid cut design provides superior access to Shotguns, Rifles, and ARs
- Foam Gun Cushions can be custom positioned according to weapon for maximum stability
- Universal fit for X Rack

Part No.	Description	Code
177200	Universal Gun case	(B)

Gun Racks

Armory R1 Case Gun Rack

The Armory R1 Rack works in tandem with the Armory SST gun case to store and transport a weapon (requires one Armory SST case and one Armory R1 Rack). The design of the system positions the case over the rear roof line of the RZR. With the case locked in place on the rack, the gun is always pointed up and away for superior muzzle control.

- Rack holds 1 gun case (sold separately)
- Heavy gauge steel frame holds gun cases steady under tough conditions
- Spring loaded binding for quick and secure case load and release
- Thick steel mounting plate installs quickly and easily
- Designed specifically for the RZR with safety in mind—gun barrel is kept facing up and away from users

Model	Year

Great Day Racks

Quick-Draw Overhead Racks

Here's the perfect way to safely keep your weapons at your fingertips – and, to keep them totally protected.

Notice: The designs and dimensions of some brands and models of utility vehicles are constantly changing. The most accurate method of matching the correct QuickDraw Overhead Gun or Bow Rack with a particular brand, year and model is to measure the distance between the front and back horizontal frame bars (inside to inside). Note that some newer model Polaris Ranger UTV's requiring a side to side measurement. Please note that guns may extend out further than the rollcage on some smaller UTV's.

* Never transport a loaded gun in the Quick Draw Overhead Gun Rack!

Model	Year	Roll Cage	Size	Notes	Center-Lok Case Rack	Gun Rack	Bow Rack

Great Day Racks

Quick Draw Gun Racks

- The Quick-Draw holds two guns (shotgun, rifle or muzzleloader) securely and protected in a soft, cushioned cradle.
- Our unique Velcro straps form and fit the holding cradles to the exact size of the stock or forearm of the gun it is holding
- Comes complete with all necessary hardware for quick and easy installation.

Part No.	Description
020864	Quick-Draw Gun Rack
020865	Quick-Draw Supreme Gun Rack

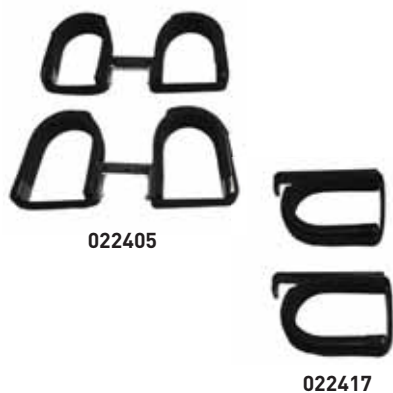

QuickDraw Vertical Gun Case Rack

Great Day's QuickDraw Vertical Gun Rack has become one of the most popular gun racks in America---for UTV's, golf cart-type vehicles, Jeeps, trucks and autos. Because some states and Canada have laws requiring firearms to be transported in soft cases, Great Day introduces the QuickDraw Vertical Gun Case Rack. It holds two regular firearms in soft cases mounted vertically in the floor of the vehicle. (Soft cases not included) The cases are held in place in cushioned cradles and held securely with Velcro straps.

The QuickDraw Vertical Gun Case Rack mounts directly to the floor of most vehicles. UTV's with an elevated center ridge may require a special mounting plate. (Refer to Great Day's fitment chart for more details.) The QuickDraw Vertical Gun Case Rack allows the angle of the rack to be adjusted for the user's preference. The frame is constructed of aircraft aluminum and finished with super-tough black powder-coat enamel.

NOTE: Cases are NOT included

Part No.	Description
022404	QuickDraw Vertical Gun Case Rack

Rack Conversion Kit

Part No.	Description
022405	Converts a 2 gun rack into a 2 soft case gun rack
022417	Converts the Center-Lok gun racks into a 2 gun rack

022438	Converts single bar gun racks into bow rack
022443	Converts single bar bow or case racks into gun rack
022444	Conv. the Center-Lok bow racks into Center-Lok Tactical Gun Rack

Great Day Racks

Quick-Draw Locking Gun Rack

Great Day's QuickDraw Locking Gun Rack is the most functional and secure means of transporting a firearm ever. The "stand-up" design puts the firearm right at the user's fingertips and the locking mechanism makes it accessible only to its owner.

Part No.	Description
022432	Quick Draw Locking Gun Rack

Sporting Clays UTV Gun Rack

- It attaches securely to the sides of the cargo bed and positions gun holders for two firearms on each side.
- Is framed in heavy-duty aircraft aluminum and includes cushioned gun clips that can be set at different heights and are moldable to conform to size of the firearms.

Part No.	Description	Code
020885	Sporting Clays Gun Rack	

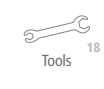

Power-Ride Double Gun Rack

Great Day's patented Power-Ride Gun Rack for UTV's and golf cart-style vehicles is one of the most versatile accessories ever. No matter the width or design of the vehicle, there is a Power-Ride model that will fit it. Now, Great Day is offering Power-Ride models that are designed to transport two firearms in soft gun cases. (Soft cases not included)

Part No.	Description
022435	Rack gun power-ride 50"-64"
022439	Rack gun double 42"-53"

022435

Great Day Racks

Quick-Draw Triple Wall Rack

The Quick-Draw Triple Wall Rack mounts to any flat wall and is a no-nonsense, fail-proof system for storing three firearms or other items such as fishing rods, tools, etc.. The Triple Rack can be positioned at different widths to accommodate different firearms. The cushioned gun clips are moldable and hold firearms securely as well as protecting the wood and metal finishes. Comes complete with attachment screws.

Hunting Accessories

Quick-Draw Tree Rack

The Quick-Draw Tree Rack is an extremely versatile gun rack designed for hunting from the ground or in a tree stand. The Tree Rack weighs only 5 lbs. and attaches to the tree quickly and securely with two straps. It includes a cushioned, moldable top clip with a Velcro strap closure and a cushioned base cradle for the butt of the gun. The Tree Rack also features utility hook on the side of the rack that is ideal for hang backpacks, shell bags, etc.

Part No.	Description	Code
022441	Quick-Draw Tree Rack	(B)

Quick-Draw UTV Shooting Rail

One of the quickest hunting setups on large green fields or cutovers is to back a UTV into the edge of the trees or brush, use the natural camouflage or throw a piece of camo material over the front and you are ready for action. Great Day's UTV Shooting Rail mounted between the front vertical frame bars provides the perfect shooting rest for making long, accurate shots! The Shooting Rail fits all utility vehicles and golf cart style vehicles that do not have windshields installed. Using Great Day's patented "Opposing Forces" technology, the UTV Shooting Rail expands from 42" to 62" and installs in just minutes with no special tools needed. It is constructed of heavy-duty aircraft aluminum with deep-cushioned camo padding for protection of the firearm.

Note: The UTV Shooting Rail is not designed to use while the vehicle is running or moving

Part No.	Description	Code
022431	Quick Draw Shooting Rail	(B)

Saws 7 and 12"

Our saws are lightweight, tough, and backed by a lifetime warranty. The saw features a large comfortable non-slip handle. This is perfect for protecting your fingers from the very sharp cutting teeth when you are using it, and eliminates any damage that can be caused by an accidental opening when being stored. Because of the saws ergonomic and rugged design, you will have no problem cutting through thick branches that you may have become entangled in, or even a track that must be cut off a sled.

Weight 7" : 226 gr/8 oz

Its blade locks into both the open and closed position.

Part No.	Description	Code
200635	Folding Saw 7"	(B)

Weight 12" : 210 gr/7,5 oz or 310 gr/13,3 oz with sheath

Its blade fits snugly into its protective sheath.

Part No.	Description	Code
200636	Saw 12"	(B)

Folding Saw

- 6 3/4" steel blade
- Rubber handle
- Length of 9" closed and 15" opened
- Locked when opened

Part No.	Description	Code
032228	Folding Saw	C

Steel Handle Saw

Have you ever hooked a ski under a tree limb or wanted to trim the limbs out of the tree you just parked in? It is 9" long when closed and opens to 17" with an 8" blade made of high carbon steel with two rows of razor-sharp, multi-beveled teeth.

Product Specifications :

- Very aggressive design
- Light-weight and compact,
- Soft rubber handle,
- 3 locking positions,
- Thumb latch release for safety

Pick-Of-Life

The Pick-of-Life self-rescue ice awls are a lifesaving tool for anyone venturing out onto the ice. The Picks provide solid hand holds enabling a victim to climb out of a hole in the ice. The patented design features retractable pick covers and unsinkable materials. An extra-long lanyard (6' long) now includes GloCord, a reflective cord which is highly visible in low-light situations. The light from a flashlight will reflect strongly when the beam hits the GloCord. An Ice Safety Guide is located on the inside of each package header card.

Part No.	Description	Code
301019	PICK-OF-LIFE	E

**Hazardous Goods Surcharge
\$17.50 per shipment**

Mixed Flare Kits

These signals are a must for everyone who quads or dirt bikes in heavy bear country. Our audible signals fly about 100 feet then explode to make a "shot-gun blast" sound. These units are very effective against scaring bears off if they are in the area or following you at a distance. For us, not only does it ward off bears, but one fired straight up gets high enough and is loud enough to alert others when separated or stranded.

Our flare kits are made with safety and reliability in mind. Our waterproof carrying case includes a pen style launcher, four bangers/audible signals, and instructions. Our hard case can clip onto your belt via the large belt clip, or be attached to your gear by the included carabineer. Not only that

Part No.	Description

200627	Launcher, 3 Visual and 2 Audio Signals

**Hazardous Goods Surcharge
\$17.50 per shipment**

Flare Kits

These launchers are a must for everyone who quads or sleds. When a visual flare is fired, the red distress flare will reach a height in excess of 150 feet and shine with more than 15,000 candle power. The height and visibility allow the flare to alert individuals and/or rescue teams when separated or stranded.

Our flare kits are made with safety and reliability in mind. Our waterproof carrying case includes a pen style launcher, six red distress trailing flares, and instructions. Our hard case can clip onto your belt via the large belt clip, or be attached to your gear by the included carabineer.

ATV Covers

ATV Covers XXL

All ATV Logic covers are constructed of rugged, water-repellent and UV-resistant 210-denier polyurethane-coated nylon. All seams are double-stitched and interlocked for strength and water resistance. There's a heavy-duty elastic cord on the bottom for a snug and secure fit. A nylon storage case with a drawstring and cord lock is sewn right to the cover for easy stowing. These XXL ATV covers are oversized to completely cover and protect ATV's equipped with rack extensions, snow plows, windshields, spreaders, rack luggage, game carriers, you name it.

Part No.	Description	Code
058600	ATV XXL Black	C

Tire Tools

Bead Holder

- Convenient tool to keep the bead pushed down when assembling tires
- Handle type with easy insertion

Part No.	Description	Code
364158	Bead Holder	C

Tool Tire Breaker Compact

- Compact size bead breaker, saves space in the garage and is easy to carry
- Long operation handle make bead breaker easy
- Can be used for tire sizes up to 18 inches

Part No.	Description	Code
364066	Tool Tire Breaker Compact - Black	C

Tread Doctor™ Knobby Cutting Tool

New Traction on Worn Tires!

- This lightweight hand tool refreshes your tire before putting new tire on.
- It uses a specially designed heated carbide cutting blade to trim your knobby tire.
- Tread Doctor™ is CE and ROHS Certified. All components used exceed industry standard for durability and enhanced functionality.
- Unit includes On/Off Switch and Holding Stand.
- Can also be used on snowmobiles. It can easily cut new edge on the lugs of snowmobile tracks.

Part No.	Description	Code
058640	Cutting Tool for Tire	E

Tire Accessories

Bead Cream

- Compact Bead Cream fits any tool box.
- Comes in a compact plastic case. (Net : 40g)
- Ships per dozen with good looking display box.
- Includes application sponge.

Part No.	Description	Code
022727	Bead Cream DRC (12)	C

Ultimate Mud Remover

- Cleaning surfaces for spoke, flat surfaces and tight crevices
- Built in 8, 10 and 12 mm tool
- Holes to hang the mud remover on the Tool Storage Wall
- Curved edges won't graze the motorcycle
- Use it before power washing

Part No.	Description	Code
243479	Ultimate Mud Remover	C

Mud Axe

- The head of the Mud Axe is shaped to make swift work of fenders as well as hubs and wheels, which is important in reducing rotating mass
- The pick is perfect for clearing foot pegs, brake pedals, engine bays, suspension linkages, and any other tight spot that mud finds its way into. The ergonomic "arched" design of the body is great for scraping the inside of your fender while keeping your hand out of the muck
- The overmolded rubber handle on this tool ensures a firm and comfortable grip
- The Mud Axe is a robust tool constructed of a heat resistant glass reinforced plastic composite. This makes it extremely durable and safe to use on hot engines and exhaust.

Part No.	Description	Code
107971	Mud Axe	C

Bearing Tools

EZ Greaser 30

- Designed to allow servicing of Can-Am 30MM ID wheel bearings
- Works with Can-Am Bearings 293350040 and 293350118, EPI Bearing WE301411 or equivalent
- High quality CNC machined with precision drilled grease channel and dual O-ring seals
- Remove the wheel, brake caliper, hub and spindle or the wheel shaft. Insert greaser tool and use your grease gun to pack your wheel bearings
- Quick and easy way to extend the life of your wheel bearings

This part will not fit over the wheel shaft. On some models the spindle or the wheel shaft will need to be removed to gain access to the bearing

Part No.	Description	Code
394245	EZ Greaser 30	[B]

EZ Greaser 39

- Designed to allow servicing of the Can-Am 39MM ID wheel bearings without removing the wheel shaft
- Works with Can-Am bearing 293350109, EPI Bearing (TBA) or any equivalent
- High quality CNC machined with precision drilled grease channel and O-ring seals
- Simply remove the wheel, brake caliper and hub. Insert the greaser tool and use your grease gun to pack your wheel bearings
- Quick and easy way to extend the life of your wheel bearings

Part No.	Description	Code
394246	EZ Greaser 39	[B]

EZ Greaser 40

- Designed to allow servicing of Polaris 40 mm ID wheel bearings without removing the wheelshaft
- Works with Polaris bearings 3514635 & 3585502 , EPI bearing WE301016 and WE305502 or any equivalent
- High quality CNC machined with precision drilled grease channel and dual o-ring seals
- Simply remove the wheel, brake caliper and hub. Insert Greaser Tool and use your grease gun to pack your wheel bearings
- Quick and easy way to extend the life of your wheel bearings

Part No.	Description	Code
394160	EZ Greaser 40	[B]

EZ Greaser 44

- Designed to allow servicing of Polaris 44mm ID wheel bearings without removing the wheelshaft
- Works with Polaris bearings 3514822, 3514699 & 3514627, EPI bearing WE301438 or any equivalent
- High quality CNC machined with precision drilled grease channel and dual o-ring seals
- Simply remove the wheel, brake caliper and hub. Insert Greaser Tool and use your grease gun to pack your wheel bearings
- Quick and easy way to extend the life of your wheel bearings

Part No.	Description	Code
394159	EZ Greaser 44	[B]

Bearing Tools

Bearing removal tool

- Impact bearing remover, great to use when removing motorcycle wheel bearings
- Hammer will not hurt your hand, because of its offset handle design
- Offset bearing hammer head for secure bearing hammering

Part No.	Description	Code
364156	Bearing removal tool	C

Chain Tools

Chain Cutter and Riveting Tool

- To break #35 to #630 chains
- Ideal for bike, Motorcycle and ATV chains
- Can also be used on driven chains and some cam chains
- You may have to grind the head pin of the #520 chains and upper
- Included 3 axis dimensions to suit most chains (2 mm, 3 mm, 4 mm)
- All kit components have been molded and hardened to offer better resistance.

Part No.	Description	Code
000809	Chain Cutter and Riveting Tool	E

Chain Tool

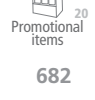

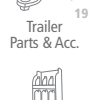

Chain Breaker & Riveting Tool An all in one chain tool which makes changing your chain a simple and less expensive task. Designed to break chains, press fit connecting link plates, and rivet pin heads.

Contents Chain tool, Anvil & Flare pin

Chain Tools

Chain Cutting and Riveting Tool

- Designed to cut chains, to press on connecting plates, and to rivet pinheads using a single easy-to-use tool
- Small, compact design
- Designed to cut 520, 525, 530) or 532 size chains
- To be used with D.I.D ZJ rivet joint only
- Replacement pins for the cutting tool sold separately

Part No	Description	Code
504033	Chain Cutting & Riveting Tool	E

Pro Chain Tool

- Designed to break, press side plates and rivet most 420, 428, 520,525 and 530 standard and O-ring chains.
- Light weight aluminum body.
- Straight forward part construction.
- Conveniently stores headpin in the handle. Fits nicely in the tool box and no loose parts.
- Replacement chain cut pins available.

Part No.	Description	Code
029009	Pro chain tool	C
022282	DRC Pro Chain Rivet Pin Tool	C
022775	Replacement Anvil Set	C
022230	DRC Pro Chain Pin Tool Set	C

Chain Checker

- Chain extension ratio checker. Very easy to check chain extension on your bike
- Chain sizes from 420,428,520,525 and 530 can be checked
- Chain play gauge in printed on the body

Part No	Description	Code
024187	Chain Checker	C

Aluminum Chain Cutter

- Very compact chain cutter for 420 to 520 size chains.
- Compact design for easy storage.
- Chain cutter body is made of light weight aluminum.
- Cutting pin is made of durable Cromoly.
- Available in 3 anodized colors, silver, black and blue.

Part No.	Description	Code
027822	DRC Aluminum Chain Cutter (Black)	C

Chain Tools

Chain Brushes

- Cleaning brush for drive chain.
- «L» shaped brush clean the chain easily.
- Aluminum tube handle designed for comfort operation.
- Available blue, red and titanium anodized handle colors.
- Available replacement brushes.

023424	Replacement Brush (2 pcs)	C

Chain Brush

- Multi faced brush for faster cleaning
- Long bristles for heavily soiled chains
- Can prevent premature wear and tear to chain with regular use
- Suitable for most chain sizes

Part No.	Description	Code
469181	Chain Brush	C

Tire Chain Pliers

- Designed to make the job of repairing, replacing and adding cross chains easier and simpler.
- Engineered exclusively for cold weather usage and have features that make it both durable and functional in harsh winter environments.
- Ergonomically designed handgrips made of lightweight, non-toxic thermo plasticized rubber (TPR); resistant to weather, ozone and many chemicals.
- The TPR material is durable and is easy to grip, even with gloves on, because it is formulated to remain flexible, even at low temperatures.
- The pliers are constructed of rugged forged steel, coated with a thick layer of corrosion-resistant paint.
- The design enables the user to easily open chain connectors with the pliers' rear jaw and to close them again with its front jaw.
- Weight only 4 kg
- The device measures 83 cm

Part No.	Description	Code
914000	Tire Chain Pliers	B

PRODUCT SPECIFICATIONS

SIZE :	6,5" X 3" X 1.5"
WEIGHT :	385G
INPUT:	12V/1A
OUTPUT:	USB 5V CLAMP: 12V/16V/19V AUX: 12V
STARTING CURRENT:	300A
PEAK CURRENT:	600A
CYCLE LIFE:	3000 TIMES
USE TEMPERATURE:	-30°C- 60°C
BATTERY CAPACITY:	12000 mAh

Booster Packs

300 Amp. Booster Pack

Kit includes :

- Booster pack 300A
- Booster pack cables with clamps for connect to batterie pole
- 12V Output to plug electronic accesories for Apple and Samsung (cell phones, computers, tablets, etc.)
- USB cable with adaptors compatible with most 5V USB chargeable electronics
- Home charger cable
- Car adaptor
- Integrated Flash light (3 LED lights)
- Intensity light to know the charge indication
- Can boost diesel vehicules
- Integrated emergency light

Part No.	Description	Code
900698	Booster Pack 300 Amp.	C

Boostr Premium

- Battery: Lithium-ion
- Capacity: 8000 mAh
- Color: Matte black
- Material: Aluminum
- Input: 5V / 1A
- Output: 5V / 2A, 12V jump starting
- Starting current: 180-350A
- PREMIUM charging time: 120V, charging to full capacity in 2 hours; USB charging to full capacity in 8 hours
- Battery lifespan: 1000 cycles
- Dimensions: 142 x 78 x 17,7 mm
- Weight: 350 g

Part No.	Description	Code
036000	Jump Starter Lithium 8000 mAh	C

Booster Packs

Boostr Platinum

- Battery: Lithium-ion
- Capacity: 18,000 mAh
- Color: Matte black
- Material: Aluminum
- Input: 15V / 1A
- Output: 12V / 10A, 5V / 2,5A; 5V / 1A; 19V / 3.5A 12V
- Starting current: 300-600A
- Operating temperature: -20°C – 60°C
- PLATINUM charging time: 120V, charging to full capacity in 3 hours
- Battery lifespan: 1000 cycles
- Dimensions: 220 x 68 x 29 mm
- Weight: 780 g

Part No.	Description	Code
036017	Jump Starter Lithium 18,000 mAh	C

Jumplight Booster Pack

Jumpstart any type of vehicle gasoline or diesel engine of 4L or less

- Battery: Lithium ion
- Battery capacity: 6000mAh
- Material: Aluminium
- Input: 14V - 1A
- Output: 5V - 2A, 12V
- Starting current: 150-300A
- Type of engine (voltage): 12V gasoline and diesel (300CC or less)
- Lifespan: 1000 cycles
- Dimensions: 52 x 218 mm
- Weight: 550g
- Jumpstart up to 10 X a car with only one charge
- Recharge up to 5 X a cell phone
- Recharge all of your micro USB devices
- Maintains its full charge for 1 YEAR
- Recharge in less than 2 HOURS

Part No.	Description	Code
036101	Booster Pack Jumplight	C

Solar Panel Chargers

Kick 1 Solar Panel

Capture the sun's energy using these portable solar panels and charge any type of connected device.

APPLICATIONS

- Cell phone
- Tablet
- Laptop
- All 5V USB devices
- All small 18V solar-powered appliances
- Solar lamps

SPECIFICATIONS

- Rated solar capacity: 36W (34-38V)
- Size when opened: 1145 X 280 X 20 mm
- Size when closed: 280 X 163 X 50 mm
- Weight: 1100g
- Material: Waterproof PVC
- Input: 21V - 2A
- Output: 5V - 2A, 12.6V - 1A, 18V - 2A
- Approximate charging time: 2 hours

Electrical Tools

Spark Plug Wrench

- B type plug wrench for 2 stroke water cooled bikes
- Easy to use around a narrow engine head
- Bend angle of 100° available on both ends
- Equipped with frequently used 12 mm

Part No.	Description	Code
364185	Spark Plug Wrench	C

Shrink Tubes for Spark Plug Wire or Boot

- 3:1 shrink ratio
- Offers a clean & professional under hood look
- 25 tubes to a package
- Easy to install with ordinary heat gun

Part No.	Description	Code
086058	Shrink Tubes 18mm x 1.5" Black	E
086059	Shrink Tubes 18mm x 1.5" Red	E

086059

Timing Plug Wrench

- Wrench can be used for most motorcycle engine plugs.
- Comes with 4 different wrench sizes.
- Made of durable steel with black electro coating finish for less corrosion.
- Can be used for helmet viser screws.
- Size: W 76 mm x H 70 mm

Part No.	Description	Code
022234	Timing Plug Wrench	C

Steel Oiler

- Pump oiler comes with straight nozzle
- Great to use for engine, front fork assembling etc.
- Container made of steel

Part No.	Description	Code
364197	Steel Oiler	C

Brake Bleeding Kit

- Single-person Brake Bleeding Kit
- Universal fitment with securing clips included
- A quick & easy method to bleed your brake system
- Clear tubing to see air bubbles leaving the master cylinder
- One way alloy valve prevents air being drawn into the system
- Easy to clean; simply uncrew the alloy casing

Part No.	Description	Code
370531	Brake Bleeding Kit	C

Suspension Tools

Adjustment Suspension Shock Key

Applications: All Kimpex or OEM gas suspension shocks.
With 65mm O.D. nuts.

Part No.	Description	Code
300264	Adjustment Suspension Shock Key	E

Suspension Tools

Shock Spanner Wrench

- Wrench for steering stem nut
- Can be used for all off-road and road bikes
- Precision laser cut for accurate fit on most steering stem nut
- 6mm thickness to access stem nut without removing top triple clamp
- Stem wrench to use with 3/8 drive ratchet wrench available

Part No.	Description	Code
364171	Shock Spanner Wrench 72 mm 3/8 drive	C
364172	Shock Spanner Wrench 82 mm 3/8 drive	C
364173	Shock Spanner Wrench 72 mm	C

Exhaust Tools

Suspension Prop bar

- Installed as an alternative during rear suspension overhaul
- Movable without rear suspension
- Range length 320 mm to 480 mm without notched increments
- Loop type and bracket type

Part No.	Description	Code
364151	Suspension Prop bar - Bracket Type	C
364152	Suspension Prop bar - Loop Type	C

Suspension Adjustment Tool

- Hammering rod to loosen or tighten suspension preload adjuster
- Designed for easy to access / hit preload adjuster

Part No.	Description	Code
364190	Suspension Adjustment Tool	C

Exhaust Spring Tool

- Push/pull style exhaust spring tool
- For use on ATV, UTV and Snowmobile exhaust systems
- This is the best tool The Clutch Guys have used for removing and installing exhaust system springs
- Heavy duty design with rubber coated handle for durability

Part No.	Description	Code
394436	Exhaust Spring Tool	

Spring Hook

- Makes exhaust spring removal easy!
- Excellent grip with PVC coated handle!

Part No.	Description
023311	Spring Hook Black

Exhaust Tools

Spring Hook

- Make your exhaust spring removal easy
- Body is made of durable stainless steel, and does not rust
- Rubber coated handle provide better grip of secure operation
- Available S and L size

Part No.	Description	Code
364186	Spring Hook S type	C
364187	Spring Hook L type	C

Under-Tank Heat Reflection Kit

Can reduce fuel temps by up to 30%. Installation is easy, the material can be cut with scissors and lays down well to cover irregular shapes. This kit can be used with all tanks including metal, plastic and fiberglass.

- Reflects Radiant Heat
- Reduce Fuel Temperature
- Lower Stress on Fuel Pump
- Reflect-A-Cool™ withstands temperatures up to 400° F
- Reflect-A-GOLD™ withstands temperatures up to 850° F

Includes a 24"x24" sheet of material along with a 1 1/2"X 15ft. roll of tape to help cover seams and irregular shapes.

Part No.	Description	Code
086035	Under-Tank Heat Reflection Kit Reflect-A-GOLD	E

Tape Roll Reflect-A-GOLD

Highly conformable material that has a pressure sensitive adhesive backing

- Easy to apply and remove
- Common uses include wrapping wire bundles, fuel lines, engine covers

Part No.	Description	Code
086042	Heat Protection for Exhaust Reflect-A-GOLD 2" x 15'	E

Exhaust Tools

Extreme Heat Line & Hose Protection Ultra Sheath MA

Designed to be the ultimate protection for your cables, lines, wire or hoses.

- Easy to trim to desired length
- Direct heat to 1100°F
- Tightly woven fibers impregnated by molten aluminum give it's highly reflective properties

Part No.	Description	Code
086045	Ultra Sheath MA - 0.5" x 3'	E

Heat Screen with Adhesive Backing

- Backed with high temp pressure sensitive adhesive
- Excellent protection for painted surfaces
- Trim to desired size
- Peel & Stick
- Made in USA

Part No.	Description	Code
086043	Heat Screen with Adhesive Backing - 36" x 20"	E

Quick Fix Tapes

- Withstands temperatures from -60 degrees F (-54°C) to 500 degrees F (260°C)
- Seal ends of hoses, bundle & wrap wires, weatherproof connections & more
- Can be applied to wet surfaces
- Corrosion & moisture resistant
- Permanent air / liquid tight seal
- Resists solvents, oils, fuel, acids & chemical spills

Part No.	Description	Dimension	Code
086052	Quick Fix Tape - Black	1" x 12'	E

Titanium Protect-A-Sleeve

Best protection sleeve on the market

- Capable of withstanding temperatures up to 1800 Fahrenheit direct heat
- 2500 Fahrenheit radiant heat
- Protects your wires, lines, and cables from damage

Part No.	Description	Code
086049	Titanium Protect-A-Sleeve - 0.5" x 4'	E
086050	Titanium Protect-A-Sleeve - 1" x 4'	E

Vulcan Tape

- Withstands 475°F direct continuous heat
- Self-bonding and self-curing
- Does not harden - remains flexible
- Excellent insulating alternative to vinyl tapes and wraps

Part No.	Description	Code
086051	Vulcan Tape 1" x 36'	E

Engine Tools

Gear Puller

- Tool for easily removing rusted and fixed kick arm, clutch arm, shift pedal, etc.

Part No.	Description	Code
364195	Gear Puller 70mm	C

Maintenance & Tune-up Tools

Magnetic "Light-Mine"

Though not much smaller than a golf ball, the new Risk Racing® Magnetic "Light-Mine" is a powerful task light that can be used almost anywhere you need illumination.

- Get light into tight spaces with the Striker Light Mine
- 12 Very Powerful Rare-Earth magnets allow you to aim in any direction
- Lumen Tech™ High output, wide angle, intensely bright LED
- The legs act as tripods to aim the light if there is no metal to stick to
- LR44 batteries are included

Part No.	Description	Code
107974	Magnetic Light-Mine	C

"Light-Mine" Professional

Risk Racing® is proud to announce the next evolution phase in innovative task lighting. Based on the hugely successful original, the Magnetic Light Mine, Risk Racing® has created a bigger, brighter, and more powerful version called the Light Mine Professional. About the size of a baseball with the same underwater naval mine appearance, the new Light Mine Professional is 8 times brighter, lasts 4 times longer, includes a signal beacon, and red night vision light.

- 11 Neodymium (Rare Earth) Magnets used to attach and aim light hands-free
- Use posts as tripods/quad-pods creating a freestanding 360 degree aim-able light
- 4 Electronic Light Functions: low power, high output, red night vision, blinking red signal
- Lumen Tech™ High output, wide angle, intensely bright Light Emitting Diodes (LED)
- "AAA" Batteries are included

Part No.	Description	Code
107969	Light-Mine Professional	C

Flexit Light

Risk Racing® is proud to announce one of the most unique innovative task lights ever created. Imagine having a light you could bend like a sheet of paper to focus or spread light all around. A light that would be able to wrap around tubes, bend into tight corners, and magnetically fasten securely to metal objects. A flood light that you could hold in your hand to illuminate a dark path or set on a coffee table to light up an entire room during a power outage.

- Ultra-thin, Flexible, Silicone body allows an unlimited amount of light projections
- Attach FLEXiT to metal objects using the neodymium magnets
- Lumen Tech™ High output, wide angle, intensely bright Light Emitting Diodes (LED)
- "AA" batteries are included

Part No.	Description	Code
107981	FLEXiT Light	C

TRiLIGHT Motion Activated Ceiling Light

The TRiLIGHT boasts an impressive 3000 lumens of light output. Compared to a traditional 60 watt bulb producing 800 lumens of light, the TRiLIGHT is a powerhouse. Additionally, The TRiLIGHT only draws 25 watts of power. This is not only environmentally friendly; it will save money on the power bill every month.

The TRiLIGHT also features an ultra-sensitive motion sensor, which will detect your presence when you enter the room, or detect the motion of the garage door when you drive home at night. The TRiLIGHT produces 3.8 times the illumination of a traditional garage door opener light, ensuring that garages are well lit when drivers arrive home at night. The TRiLIGHT automatically turns off when no motion is detected.

- Installation is as easy as screwing in a light bulb!
- 3000 lumens!
- 3.8 times the brightness of a 60 watt bulb!
- Only draws 25 watts of power
- Motion Activated!
- Adjustable aluminum LED heads

147018

Part No.	Description	Code
147027	TRiLIGHT Ceiling Light (Light Source)	C
147018	TRiLIGHT Ceiling Light (Battery)	C

RUSH Packable Ramp

THE FIRST TRULY "PACKABLE" RAMPS! - Ordinary folding ramps, even when folded, present a storage problem when not in use. They may not fit in your trailer, they likely won't fit in the bed of your truck and they almost certainly won't fit inside your truck (where they are safe from theft). RUSH Packable Ramps, thanks to patented Double-Joint Technology, will fit where ordinary folding ramps won't!

Part No.	Style	Opened Dimensions	Closed Dimensions	Capacity	Weight	Code
912608	RUSH Double-Jointed Ramp Pair	15.3" x 76"	5.25" x 51.5"	2000 lb/Pair	41.6 lb/Pair	C

XL Arch Ramps

YUTRAX Arch Ramps are designed for easy loading of vehicles with lower clearance. The gradual arch design keeps these vehicles from bottoming-out or scraping on the edge of your tailgate. Our ramps are available in various lengths and hinged or unhinged designs.

- Exclusive high-traction mesh surface makes loading easy
- Rubber coated tabs protect your tailgate from scratches
- Adjustable straps or chains secure ramps in place

Part No.	Style	Opened Dimensions	Closed Dimensions	Capacity	Weight	Code
912614	Aluminum XL Folding Arch Ramp	12" x 89"	12" x 44.5"	750 lb	19 lb	C

912605	Aluminum XL Solid Arch Ramp - Pair	12" x 89"	-	1500 lb/Pair	34 lb/Pair	C

Extreme Duty XL Arch Ramp

The extremely high load capacity of the TX138 Extreme Duty Aluminum Arch Ramp makes tackling even the heaviest of ATVs, UTVs or lawn and garden equipment no hassle.

- Arched design for loading items with low clearance
- Lightweight, fully-welded aluminum construction
- The ramp's extruded rectangular side rails resist bending; the taller rectangular cross section supports more weight
- Exclusive high-traction mesh surface makes loading easy
- Heavy-duty joints are welded, not riveted, for added peace of mind
- Rubber coated tabs protect your tailgate from scratches
- Adjustable straps secure ramps in place

Part No.	Style	Opened Dimensions	Capacity	Weight	Code

Loading Ramps

Steel Arch Ramps

YUTRAX Arch Ramps are designed for easy loading of vehicles with lower clearance. The gradual arch design keeps these vehicles from bottoming-out or scraping on the edge of your tailgate.

- Steel construction: each ramp has a weight capacity of 750 lb. perfect for use with ATV, UTV and motor bikes
- Heavy-duty hinges with the heavy-duty hinges, folding the ramp keeps it sturdy and compact
- Rubber-coated tabs keep your tailgate safe from scratches and knocks
- High traction mesh raised steel mesh to provide traction while loading and unloading

Part No.	Style	Opened Dimensions	Closed Dimensions	Capacity	Weight	Code
912616	Steel Folding Arch Ramps - Pair	12" x 79"	12" x 39,5"	1500 lb/Pair	52 lb/Pair	C

Bi-Fold & Tri-Fold Ramps

Our bi-fold and tri-fold ramps offer the stability and strength of a full-width ramp, but also fold up for easier storage and transportation. Their fully-welded construction and rectangular components make them highly durable, giving you peace of mind when loading and unloading your vehicle.

- Aluminum Ramps only:
- Heavy-duty joints and hinges are welded, not riveted, for peace of mind
 - Rubber coated tabs protect your tailgate from scratches
 - Includes adjustable straps to secure ramps in place

Part No.	Style	Opened Dimensions	Closed Dimensions	Capacity	Weight	Code
912602	Aluminum Bi-Fold Ramp	48" x 69"	24" x 69"	1250 lb	20 lb	C

Universal Ramp Snow & ATV

- Magnetic Autolock Closure
- Ramp Grip for Great Stud Traction and Protection
- Integrated Grip Feet for All Surfaces
- Self Retracting Strap Included
- Innovative grip design provides superior traction for all wheel vehicles.
- Incorporates Caliber's proven friction-reducing Snowmobile Carbide glide technology.
- Low Pro Grip Glides provides the markets safest walk (up and down the ramp).
- Slotted fastening system allows for expansion and contraction, preventing warp.
- Universal Design accommodates almost all Snowmobile and ATV stances.
- Includes Caliber's Self-Retracting strap for easy mounting to your Vehicle.
- 52" wide x 90" long makes for a comfortable loading angle.
- 1500lb. rating Includes Caliber's lifetime warranty.- 52" width accommodates all skis, ski stances, and ATV/UTV tires

Part No.	Description	Code
200059	Universal Ramp Snow & ATV	C

Ramp Grips

- These grips let you drive your sled right up the ski guides
- Trailer Grips are 15 in. long by about 11 1/16 in. high; sold in packs of six
- Black only

Includes :

- (6) 15" grips
- (37) 1" galvanized self-drilling fasteners
- (1) Instruction sheet

Part No.	Description	Code
200980	Caliber Ramp Grips - Black	C

Ramp Protection Grip Glides

Now you can add Grip Glides to open-frame ramps used on flatbed trailers. Sold in a set of 16 pieces (for one side of a ramp).

Included Items:

- [16] Ramp Grip Glides (each accepts up to 3 screws)
- [33] Stainless Sheet Metal Screws 1 in. long
- Length: 8-1/2 in.
- Width: 3 in.
- Thread Depth: 1/2 in.
- Installed Height: 3/4 in.

Fits 1 in. square tubes

Note: A 11/64 in. drill bit and drill are required to install these onto aluminum or steel bars (bit not included).

Part No.	Description	Code
201101	Ramp protection Grip Glides	C

Tires

Sport Trail Tire & Rim Assembly Galvanized

A good performer with bias-ply construction and radial tire looks.

Bias-ply tire for boat, cargo, horse, stock, construction, utility and other trailer applications where durable performance is required. Tread design and compound formulation offers lower rolling resistance. Substantially exceeds D.O.T. requirements.

Radial Trail RH Tire & Rim Assembly White

NEW. Carlisle's newest and best performing radial trailer tire.

A best-in-class trailer tire, radial construction and variable pitch design promotes tire stability and reduces excessive heat build-up, increasing tire life. Tire profile and tread compound formulation create lower rolling resistance and increased fuel mileage. Equipped with the DuraTrail high strength belt package and HeatShield heat resistant compounding technologies. A proven leader both in field tests and by independent laboratory testing.

Tires

Sport Trail LH Tire

New & Improved, Durable & Affordable

The Carlisle Sport Trail LH Bias Ply Trailer Tire, a long-time value leader in the trailer tire industry, has been redesigned with an innovative, modern tread design, reduced rolling resistance, and improved contour, for extended tire life, consistent tire wear and optimized performance. The bias ply construction of the Sport Trail LH is optimal where rugged performance and sidewall puncture resistance is required - trailers for construction, utility, agriculture, light marine, light travel, cargo and sports.

The improved, wider shoulder provides improved contact under loaded conditions and serves to resist lateral scrubbing. Laboratory and field testing results confirm a smoother ride, more consistent wear, stability at highway speeds and enhanced security for your towed vehicle

GO BEYOND FRONTIERS

WS4

REDEFINE AGILITY & CONTROL

LESS EFFORT, BETTER AGILITY AND COMFORT

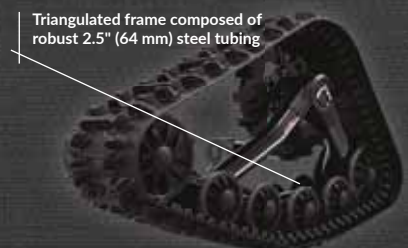

Stop limiting yourself; drive a WSS4 «Commander»! No more boundaries, no more fear; the WSS4 will take you wherever you want with your friends or your equipment with an adrenalin bonus. The well-thought out design and robust construction, combined with tracks designed for optimal traction, make the WSS4 «THE» UTV Kit for all seasons.

Tracks designed for work

Designed for all-season use

Triangulated frame composed of robust 2.5" (64 mm) steel tubing

Pronounced attack angle helps to clear obstacles

Three wheels on the ground for less steering effort

KIMPEX
