# Koso's philosophy

---

Koso, a synonym for quality and performance. With more than 35 years of experience designing and manufacturing high quality products, Koso has become well known across the powersports and OEM industries for its good reputation for reliability, innovation and capability. Whether we are manufacturing a product under private label, OEM or aftermarket products quality always remains our top priority. Innovation and creating new technologies are the keys to Koso's philosophy and drives us to continue pushing the limit further.

For several years now, Koso has had the opportunity to work with an outstanding team of engineers. Along with our state of the art testing equipment and production facilities, Koso has remained a leader in analog and digital technology. Koso produces a wide range of quality gauges/meters, heated equipment, LED indicators taillights and headlights as well as mirrors and engine parts. Koso is proud to offer a complete line of quality products for serious riders.

## LCD gear display

Always wondering in which gear you're in? Avoid this question by using our plug & play gear indicator. Lightweight, compact, easy to use and to install, this meter will quickly tell you which gear you've selected. Its big digits and blue backlight make it easy to read during day or night riding. Made to fit the Honda Grom® models, this meter is a great addition for serious riders.

# Gear indicator

## Mini 3 air/fuel ratio & temperature meters

The Mini 3 series has been developed with the best components and latest technology. Compact, lightweight and easy to connect, the Mini 3 meters are a must have.

### Specifications (R = Range U= Unit)

- Effective temperature range  
14 ~ 140 °F (-10 ~ 60 °C)
- Power DC 12V

## Air/fuel ratio meter

Our Mini 3 air/fuel ratio meter was especially designed to help you tune your engine. This meter can be easily installed by plugin it to your OEM oxygen sensor and connecting the instrument to a DC 12 V source of power, and you're ready to go!

### Specifications

- Air/fuel ratio meter  
R: 12.2 ~ 17.2 | U: 0.1
- Display  
L: if A/F > 17.2 | A: if A/F < 12.2
- \*fits Grom® only

## Cylinder head temp.

This compact and lightweight Mini 3 engine temperature meter is especially designed for Honda Grom®. This meter is the perfect addition to monitor your ride, it's peak recall function allows you to see the maximum temperature reached..

### Specifications

- Temperature & Max temp record  
R: t-1: -4 ~ 392 °F (-20 ~ 200 °C)  
t-2: -40 ~ 365 °F (-40 ~ 185 °C)  
t-3: -4 ~ 428 °F (-20 ~ 220 °C)  
t-4: -4 ~ 392 °F (-20 ~ 200 °C)  
t-5: -4 ~ 248 °F (-20 ~ 120 °C)  
U: 0.1 °F or °C (alternative)
- \*fits Grom® only

## Top clamp

This useful top clamp will help you get a clean look even with an additional meter. Whether you choose one of our plug-in meter for Honda Grom® or one of the Mini 3 series, this Top clamp is the perfect compliment.

- \*fits Grom® only

# Hurricane Air Filter

part

**A DK623000**

Honda Grom®

**B DK633000**

Honda Monkey®

new

## Specifications

### ■ Connecting tube

Our air box connecting tube has been developed to link the Koso's 34 mm throttle body and the actual air box.

### ■ Rubber intake

The main function of this intake is to meet the demand of a larger cylinder and therefore improve air intake volume for a better efficiency, \*\*fits Grom® only.

## Hurricane racing air filter

Want better performance with a simple change? Using the Hurricane multi air filter intake will increase the airflow, improve filtering efficiency and raise the engine output performance. These high-quality foam filter is easy to assemble and disassemble and suitable for long-term use with repetitive cleaning

# Ignition Coil

new

part

**KU623100**

## Specifications

- High power ignition coil
- Built using high quality materials
- Direct fit For Honda® Grom & Honda® Monkey

## Ignition Coil

Koso's high performance ignition coils are designed using the most advanced materials on the market today. Providing a stronger spark and more horsepower, the koso ignition coil also provides smoother idling and acceleration.

## NGK spark plug

This spark plug is the best one to fit your newly modified Honda Grom® or Honda Monkey® with the Koso 170cc big bore kit. It is designed to give you a more powerful spark and enhance your bike performance.

# Spark plug

part

**NGK-ER9EH**

# Throttle body

part

**DY623013**

■ fits Grom® and Monkey®

## 34mm Throttle body

The throttle body and intake manifold are used to control the amount of air flowing to the engine's combustion chamber, they are important elements of the admission system. Using our Koso's 34 mm throttle body in conjunction with our 30.5 to 34mm intake manifold will allow a better air/fuel mixtures for a quicker throttle response.

## Performance intake manifold

The throttle body and intake manifold are used to control the amount of air flowing to the engine's combustion chamber, they are important elements of the admission system. Using our Koso's 34 mm throttle body in conjunction with our 30.5 to 34mm intake manifold will allow a better air/fuel mixtures for a quicker throttle response.

# Injector

part  
**DB008160**  
high flow injector

**DB623000**  
injector adaptor

■ fits Grom® and Monkey®

## High flow injector & injector adaptor

Your need for speed pushed you to install our 170cc Big Bore kit and 4 valves head? Unleash the full power of that transformation by using our high-flow injector. A small upgrade for better performance!

# Camshaft

## Performance camshaft

Our 240 degrees performance camshaft will give you great results at high RPM. This camshaft can be used with a stock engine, but will even give better results with the Koso 170cc big bore kit. Made from quality material for longer durability, the Koso GROM camshaft is a clever choice.

part  
**MM623002**

### Specifications

- Duration at 1mm  
In: 260 Ex: 265
- Valve lift  
In: 8.5mm Ex: 8.5mm
- Running clearance  
In: 0.10mm Ex: 0.17mm
- fits Grom® and Monkey®

# Oil pump

part

**NF623000**

■ fits Grom® and Monkey®

## High-flow oil pump

Our Koso's High-flow oil pump for Honda Grom® is strongly recommended for those who upgraded their engine with our 170cc Big Bore kit and 4v Cylinder head. The addition of this high quality part will increase the oil flow by 40%; which is a very effective modification that will help prevent engine failure. Keeping the engine lubricated and cool is very important; whether you ride for fun or for races.

## Hi-performance clutch kit

When it comes time to transferring the power of your engine to the ground, the clutch components are one of the important keys. Using our hi-tension clutch springs along with the hi-performance clutch discs will help improve the axial force and reducing the risk of clutch slipping.

# Clutch kit

part

**FA623002**

full kit

- fits Grom® and Monkey®
- includes 6 hi-tension clutch springs
- includes hi-performance clutch discs & clutch plates

# Clutch lifter plate

part

**FA623K00**

■ fits Grom® and Monkey®

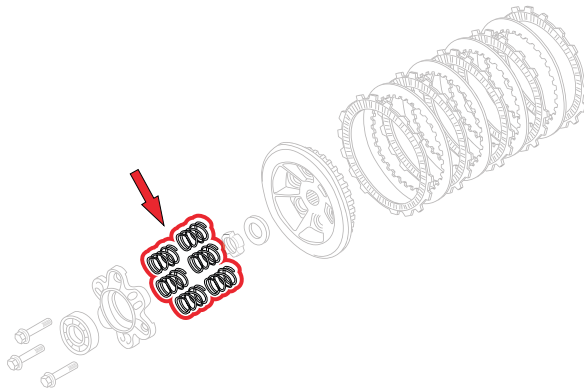

## Clutch enhanced lifter plate

The main difference between our Koso clutch enhanced lifter plate and the stock one is strength. Our CNC lifter plate is stronger to provide better durability and stability to the clutch during replacement, installation and shifting gears during high speed movement.

## Hi-tension clutch springs

Your clutch springs may be the weak spot in the powertrain. These springs are 60% stiffer than the stock ones and are intended as a direct replacement. The springs will offer stronger grip of the clutch system when shifting gears. They are sold as a six pieces kit.

# Clutch springs

part

**KD006030**

LED flasher relay

**BO623K02**

indicator light adaptor kit

## LED flasher relay

Once you replace your regular bulbs by LED indicators, the resistance is very small compare to the original flashers. Therefore, the bike couldn't identify whether the flashers are installed or not so they will not flash normally. Avoid this problem by using our simple flasher relay. Install only one Koso relay for all 4 LED indicator lights.

## Indicator light adaptor kit

This kit allow you to conveniently install any of our LED indicator lights to your Grom. Sold as a pair, they fit front or back (2 pairs required if you change all 4 flashers)

# Apollo

part

**AM111010**

120 mm

## Specifications

- Integrated temperature level thumb switch
- Universal fitment (120mm or 130mm)
- 5 temperature levels to choose from indicated by multi-color LED
- Low battery cut off protection
- Internal memory that allows grips to power on at previous heat level
- Fits L:7/8" – R:1" handlebar for twist throttle applications

## Heated grips universal fit

The Apollo heated grips are a prime example of koso's ability to innovate. Finished are the days of cluttering your handlebars with control boxes and switches. The Apollo heated grips feature koso's exclusive integrated thumb switch which provides you with the ability to power on and off the grips as well as rotate between the 5 levels of temperature.

# X-Claws

new

## Heated Clip-On with Lo Hi switch (for 12V power source)

These new heated devices are for the user that does not want to commit to changing their grips but still want to maintain the comfort of heated grips. The fitment is intended to fit all sorts of handlebar sizes. They can be installed and removed in a matter of seconds and kept in any sport bag when not in use. The power source requires a 12V connection. There is 5 levels of heat offered to suit your preference.

part

## AX1200M0
