KRIEGA RANGE GUIDE 2019

# OUR STORY

Kriega was born in 2000 when two British product designers and keen motorcyclists became frustrated by the lack of functional, well designed luggage specifically designed and built for motorcycles and riders. They decided to change that...

They started with one backpack, an instant hit with motorcycle journalists and built the brand from there. Nearly 20 years on, Kriega is now known throughout the world for high quality design, performance and innovation.

Based in North Wales the company is ideally located with some of the most demanding roads and off-road trails anywhere in the UK right on the doorstep.

We personally design, test and use all our products in all weather conditions right here in the UK. As well as travelling and testing our products all over the world to better understand how they perform in different climates and riding conditions. We never stop innovating, seeking to improve or compromising on the quality of our products.

The result is that every single piece of Kriega kit is designed to maximise the riding experience, whether that be the daily commute, an eight-hour enduro, a multi-day trip or an epic tour around the world.

## PATENTED ADJUSTER

Our unique CNC manufactured 3-bar buckle. Easily adjusted leaving no loose strap-ends. This is a key design feature on our QUADLOC™ harness system.

## WHITE LINERS

The first manufacturer to use white waterproof liners, which makes finding kit easy.

## QUADLOC™ LITE HARNESS

Single quick-release version of the QUADLOC™ concept. Designed for ultimate comfort with no under-arm restriction.

2005

1999

## QUADLOC™ HARNESS

A true innovation in long-distance rider comfort. Designed to transfer weight from the shoulders to the chest and body with no under-arm restriction. 20 years old this year and still considered the benchmark in motorcycle backpack design.

## UNIVERSAL DRYPACK SYSTEM

The first waterproof packs that can be used individually or hooked together in various combinations to form a modular luggage system.

# 20 YEARS OF INNOVATION

## FORK SEALS

The first 'easy-fit' (hook & loop) fork seal savers. A simple but very effective design.

## RACK LOOPS

A new way to attach packs to off-road bikes without the need for a metal rack.

## DOUBLE HOOK

Innovative carabiner-style hook that is easily removed but is 100% secure.

2012

2009

## HAUL-LOOPS

The first 'self supporting' grab straps for the new sport of extreme enduro.

## OVERLANDER

The first platform based modular ADV luggage system.

2019

## OS-BASE

Unique hook-on modular pannier system. Easy on and off the bike without the need for metal support frames.

# DRY PACK

ALL KRIEGA PACKS  
WITH THIS LABEL  
ARE GUARANTEED  
WATERPROOF

Kriega's goal from day one was to build a reputation for the best quality products on the market, offering the highest standards of functionality and craftsmanship.

Kriega packs are constructed from some of the most technical fabrics available today. Add to that a strict attention to detail in the design and production process and you can be sure that Kriega products will exceed expectations.

The whole Kriega range is built to perform without exception. As a commitment to quality all packs are Guaranteed for 10 years against defects in materials and manufacture.

# LOSE THE WEIGHT

Kriega's ground breaking Quadloc™ harness has set the standard for motorcycle backpacks for nearly 20 years.

The innovative design transfers weight from the shoulders to the chest and body, giving all-day riding comfort, even with heavy loads.

Ergonomically designed specifically for motorcycle riding to allow unrestricted arm movement.

Once size-set, simply click-in, click-out.

# BACKPACKS R35

**The ultimate touring pack incorporating the unique zip-in Quadloc™ harness, the ground breaking R35 enables a rider to carry bulky, heavy kit in long distance comfort.**

- The Quadloc™ harness transfers weight from the shoulders to the chest and body, reducing fatigue to the neck.
- The 'zip-in' harness opens fully making it easy to put on even with bulky riding gear.
- Kriega's signature alloy adjusters set the waist tension in seconds and eradicate loose strap ends, giving a clean, uncluttered harness design.
- 2 concealed pockets built into the front harness provide quick access to money, cards & passport.
- An inner sleeve pocket is ideal to store a laptop and is compatible with a hydration reservoir and/or a back protector.
- Large reflective panels front and rear add a level of safety for night riding.
- Six compression straps keep the load stable.
- 2 quick-access side pockets, a top mesh pocket and a shock-cord on the rear give versatile storage options for smaller items.
- A reinforced handle gives comfortable hand carry.
- Add additional waterproof storage with hook-on points for a US-Drypack.

# BACKPACKS R20

The R20 is the perfect fit for many riders around the world, 'not too big but big enough'. Whether you need to carry a 13" laptop plus everyday essentials on your daily commute or tools, waterproofs and hydration for an off-road adventure, the R20 is the master of versatility and the king of super-tough and reliable backpacks.

- The Quadloc-lite™ harness transfers weight from the shoulders to the chest and body, giving all-day riding comfort.
- The innovative harness is angled away from under the arms giving total freedom of movement.
- Once the harness is size-set simply click-in, click-out, no need to re-adjust.
- The main compartment with YKK® water-resistant zip opens fully to provide flexible storage space that includes a zipped mesh pocket for small loose items.
- A zipped side/front pocket gives separate storage for easy-access items.
- An optional waist strap is included for the extra demands of riding off-road.
- Reflective panels on the front and reflective print on the rear add a level of safety for night riding.
- Four compression straps keep the load stable even in off-road conditions.
- The inner sleeve pocket with compression strap is compatible with a hydration reservoir and/or a back protector.
- Add additional waterproof storage with hook-on points for a US-Drypack.

## URBAN EDC

However you commute: motorcycle, train or plane the ultra-durable URBAN 'Every Day Carry' is one pack that excels for all. Inside a hard-wearing Hypalon and Cordura® body lies enough padded compartments to secure and organize your daily essentials from a 17" laptop to the smallest memory card. All packaged with Kriega's well designed, utilitarian style that is made to last.

- Padded reversible shoulder strap for left or right shoulder carry.
- Easy on/off over a helmet and fast strap tensioning with Kriega's innovative alloy strap adjuster allowing access to the bag contents whilst wearing.
- Two main padded compartments with heavy-duty YKK® zips have the capacity for a 17" laptop, plus cables/chargers and a change of clothes.
- The larger main pocket can still be accessed even when the main flap is closed.
- One front pocket with an internal mesh pocket for small loose items & elastic loops for pens/cables.
- The second front pocket has an internal organizer sleeve pocket and key clip.
- A large zipped mesh pocket on the underside of the flap is ideal storage for paperwork.
- Grip fabric on the back helps keep the pack in place when riding.
- Removable waist strap is also included for extra pack stability at high speeds.
- A reinforced handle gives comfortable hand carry.

# BIKE PACKS US-DRYPACKS

## THE BEST JUST GOT BETTER

Kriega's best selling US-Drypack System has led the way for universal fit, waterproof carrying on a motorcycle for over 15 years. For 2019 the classic design is further enhanced with the introduction of CORDURA® Lite fabrics for the main body construction.

Woven with high tenacity nylon 6,6 filament yarns CORDURA® 420D Lite fabric offers increased durability with advanced tear strength and abrasion resistance.

# BIKE PACKS US-DRYPACKS

UNIVERSAL FIT TO ANY TYPE OF MOTORCYCLE

# BIKE PACKS SADDLEBAGS

## **TIMELESS DESIGN - MODERN PERFORMANCE**

Kriega Saddlebags are available in either SOLO or DUO options, designed to universally-fit\* modern retro-styled bikes.

100% WATERPROOF and constructed from super-tough abrasion resistant Hypalon + 1000D Cordura®.

A roll-top closure guarantees total weather protection and the white liner makes it easy to find your kit and is removable for cleaning.

Aircraft grade anodized alloy strap connectors and heavy-duty cam buckles hold the bags firmly in position.

Mounting straps are included for single or double bag set-up, plus an adjustable shoulder strap for use off the bike.

*\*Requires saddlebag supports fitting to the bike. Not included.*

OS-32

OS-22

NEW  
FOR 2019

## OS-PANNIERS

The OS-32 and OS-22 are at the core of the OS range and share many of the features of traditional ADV hard luggage with the added benefits of durability and safety for riding in demanding environments where there will be the inevitable scrape with the terrain.

- The structured box shape allows for effortless packing and load control.
- The 100% waterproof roll-top closure and removable white liner guarantee pack contents remain protected from the elements.
- Mounting and dismounting the OS-Panniers to the bike takes less than a minute with two quick release straps and buckles.
- The same straps compress the pack firmly in position. No extra tie-down straps are required.
- Constructed from the highest quality materials including ultra-abrasion resistant Hypalon + 1000D Cordura®, with military grade made with Kevlar® webbing and aircraft grade alloy buckles.
- Offering two easy fit options, either traditional 'over the seat' saddlebag format using **OS-STRAPS** (page 74) or as a single pannier by hooking-on to a specially designed **OS-PLATFORM**. (page 73) (both sold separately)

OS-32 and OS-22 Soft Panniers require pannier frames to be fitted to the bike.

These are model specific, available as accessories from bike manufacturers or other after market suppliers.

### TECH-SPECS

- 100% waterproof liner.
- Roll-top closure.
- HYPALON + 1000D Cordura®.
- Reinforced carry handle.
- Aircraft grade alloy buckles.
- made with KEVLAR® webbing.
- Security cable block.
- Hi-Vis details.
- 16 hook-on points.
- Shoulder strap loops.

# BIKE PACKS OVERLANDER-S

**OS-ADVENTURE PACKS** are specifically designed for riding in the most demanding of environments. Use as single stand alone pack or as a multi-pack storage system with the addition of other packs in the OS range.

The 100% waterproof roll-top closure (removable white liner) guarantees pack contents remain protected from the elements.

Constructed from the highest quality materials including ultra-abrasion resistant Hypalon + 1000D Cordura® and aircraft grade alloy hooks.

A semi rigid SureGrip rubberised base with integrated hook loops and straps enable the pack to be mounted directly to most popular racks and pannier frames.

Add an **OS-BASE** and they can be mounted in any combination to virtually any trail, enduro or dual-sport bike, without the need for pannier frames.

## OS-18

# BIKE PACKS OVERLANDER-S

## OS-BASE

**An innovative modular pannier system that fits virtually any trail, enduro or dual sport bike without the need for metal pannier frames.**

- The OS-BASE is an 'over the seat harness' which allows OS-6, OS-12 or OS-18 ADVENTURE PACKS to be mounted as panniers.
- The modular design enables you to modify your luggage set-up to suit your ride - from a day's single track to longer adventure trips.
- By adding an additional OS-ADVENTURE PACK as a top bag, you have a possible 100% waterproof, highly durable carrying capacity of up to 54 litres.
- The flexible design of the OS-BASE also enables you to mount earlier model Overlander 15 packs as panniers, US-DRYPACKS as top bags and includes 'Loop Mounts' to attach a tent or sleeping mat.
- After the initial set-up, it's quick and easy to put on and take off and the heavy-duty hypalon construction with a semi rigid polypropylene core is very stable and lightweight.
- The unique OS-RACK LOOP mounting system,\* provides a very tough and reliable solution to the demands of off-road riding.

*\*Includes 2 x OS-RACK LOOPS which require 2 x 6mm holes drilled in the rear fender for fitting.*

### TECH-SPECS

- Carrying capacity from 12 to 54 Litres.
- with centre pack mounting option.
- Heavy-duty Hypalon construction.
- Quick & easy to put on/take off.
- Reinforced stitching on all stress points.
- Aircraft grade alloy hooks.
- Non-slip cam buckles.
- 2 x OS-RACK LOOPS included.

## TRAVEL BAG KS40

### BOX PANNIER LINER & CARRY-ON FLIGHT BAG

This versatile travel bag is designed to fit inside most makes of alloy adventure panniers. Featuring expandable sides the storage capacity can be increased in two stages from 30 up to 40 litres, ideal for 31, 38 and 45 litre panniers. With Hypalon abrasion resistant reinforcement these bags provide hard wearing, padded protection for your gear, on and off the bike and easily cope with the rough and tumble world of adventure motorcycle touring. Once off the bike a rigid carry handle and clip-on padded shoulder strap ease the strain of carrying a heavy load. Set at 30 litre size, the KS40 dimensions comply with all airline carry-on size regulations, some may allow the 40 litre size setting. (please check with your airline) A large zipped inner sleeve pocket is ideal for storing a tablet, magazines, maps etc. plus two zipped coated mesh pockets are perfect for keeping charger cables and other smaller items organized.

#### DIMENSIONS

30L: 370(h) x 420(w) x 180(d) mm / 14.6"(h) x 16.5"(w) x 7.1"(d)
