History

Bob's "career" started at the ripe old age of 12. In the 50s, his parents would often bring him down to their leather goods shop in Downtown L.A. where he learned to make detailed watchbands, belts and wallets. It was here that he would learn the skills of a true artisan.

As a teen, Bob's passion, like so many kids of the 50s and 60s, turned to cars. He started tinkering with the inside of his family's beloved Studebakers. When he reimagined the interior of his personal supercharged Lark, friends and locals at his favorite hangout (the original Bob's Big Boy in Glendale, CA) took notice. Word spread fast and he began a grass roots upholstery business out of his parent's garage. After a few weeks, customers were lined up to get a custom interior. From Mercedes to Hot Rods, Bob could do it all. From this garage, in 1961, Bob's first motorcycle seat was commissioned, a diamond pleated Cobra with buttons.

His talents then landed him a full time gig working alongside Tony Nancy, world famous drag racer and upholsterer specializing in dragsters, exotic cars and the occasional custom motorcycle. It was during this time Bob's skills were refined and perfected. He worked on several amazing projects while working with Tony. One of the most memorable had him leather wrapping and hand lacing the steering wheel for Steve McQueen's Mustang in the movie Bullitt. After rubbing elbows and upholstering cars for some of the biggest names in Drag Racing and Hollywood, Bob was itching to get back out on his own.

With the exploding chopper scene of the early 70s, Bob began making more and more custom motorcycle seats and relished every opportunity to show how good a custom seat could be. Bob's attention to detail and pride in his craft would become the foundation of LePera and in 1972, LePera Enterprises was born.

LePera has been one of the most respected names in the industry for over 45 years. Bob Jr., head of design and marketing, and Christine LePera, head of sales and the Dealer/Distributor network, continue the family legacy. The second generation, along with the dedicated craftsmen and women who make up the entire LePera team, are committed to making custom seats that we are proud to put our name on. Bob's spirit and passion is evident in every seat that passes through our doors.

The LePera Way

We are always asked what makes a LePera seat a LePera.

Well here it is in a nut shell:

HISTORY

- As you read from above over 45 Years!

TRADITION

- By Hand - There is so much handwork in each of our seats it is astonishing. From our base plates, to the individually hand cut cover, everything is done by hand, it is the way we have always done it.
- Steel - You read right: steel ~ 16 gauge to be exact. Every seat features these black powder coated gems.
- Made in the USA - Always has been, always will be!
- Family Owned and Operated - And damn proud of it!

DESIGN

- One word - Trendsetting!
- The Silhouette, Villain, the Stubs are just a few of our styles that take design one step further.

COMFORT

- Marathon foam - Tried and true, poured and formulated for maximum comfort, not too firm not too soft: just right.
- Biker Gel - Do you spend all day on the road? This option maybe your calling. Cuts down on vibration and fatigue, it is firmer than our Marathon foam.

Customize - Material Options

What you see before you represents, not all, but some of our popular vinyl, leather, embossed, and sport cover options. Our leather, made in Italy, can be ordered two ways: leather seating area only or full leather! Due to its strength, the embossed options (beautifully finished leather

made in Italy) are available in the seating area only. In the sport category don't overlook the Italian Alcantara option: you will find this option in every high end, exotic sports car.

EXOTIC EMBOSSED VINYL

More Vinyl Color Options

We've tried to duplicate these colors as close to the original colors as possible. Before ordering a custom color, we suggest you get a sample from us to ensure correct color.

Other colors available upon request.

	Black Cherry		Chocolate		Purple Iris
	Pink Ice		Emerald Green		Deep Lilac
	Lemon Peel		China Green		Charcoal
	Navy Blue		Med. Titanium
