RACING SINCE 1979

MAXIMA RACING OILS was created for world-class racers, men and women who challenge the limits of possibility. Their demands on equipment drive us to look beyond conventional ideas and to exceed industry standards. It's in our DNA to identify problems, formulate solutions and execute at the highest levels of competition. A simple goal to make things better than ever thought possible.

Maxima believed it could change lubrication and along our 5 decade journey – many others believed in us too. Superior technology transcends sport to enhance the experience of consumers and racers alike. Our market leading products are used in over 50 countries around the globe and include engine oils, suspension fluids, coolants, care products and accessories. These products represent our commitment to excellence and a passion for redefining what is possible.

Maxima is a race-inspired, product driven company. We formulate, develop, manufacture and distribute high performance oils, lubes and ancillary products. The essence of our brand is communicated through hundreds of championships with world class racers, tuners and teams who rely on Maxima for unsurpassed performance in high-stress conditions without fail.

Founded in 1979 and headquartered in Southern California, Maxima is recognized as one of the most coveted brands in the racing industry. Decades of active involvement in professional racing has led to powerful technology and a full array of market leading products. The company continues its heritage by playing an active role in the sport and racing communities. We strive to deliver superior quality for the recreational athlete or World Champion.

SUPPORT YOUR LOCAL ENGINE BUILDER

Improve the local economy. When a small business owner offers its customer a superior product, competitive pricing and great service, they have a customer for life. When this product is not over distributed, they have a repeatable source of revenue to count on.

Know the people behind the product. Maxima Racing Oils, like all other companies, started as a small business and still maintains the passion of one. Like many of our customers, Maxima has complete control over quality, manufacturing and performance.

Better customer service. You can't beat the level of product knowledge you get from dealing directly with the manufacturer of the products you sell. Maxima employs all of its brand champions and does not sub-contract personnel. No rep groups, no oil marketing companies. Just good people making quality products.

More personalized service. Working with a company that makes its products in-house gives you the best level of service and an advantage.

Maxima PSO is compatible with petroleum and synthetic engine oils. PSO is a fully formulated synthetic race oil and does not require the addition of additives or boosters. No special procedures are required when changing to Maxima Racing Oils.

NOT RECOMMENDED FOR STREET USE. MAXIMA PSO race-grade formula has elevated anti-wear additives designed to protect engines in extreme conditions. Elevated anti-wear additives may adversely impact emissions systems on passenger cars.

Available in: 32oz Quarts, 128oz Gallons, 5-Gal Pails & 55-Gal Drums

**PSO
100% SYNTHETIC FULL RACE GRADE OIL
OWT**

Maxima PSO is a 100% ester-based synthetic engine oil. Engineered with exotic, ultra-low viscosity synthetic base oils for maximum horsepower gains without sacrificing the integrity of critical engine components. Advanced formula contains surface active chemistry, drastically reducing friction and offering unsurpassed anti-wear/extreme pressure protection from extreme loads generated by high-performance engines. Ester synthetics resist mechanical break-down and viscosity loss of the oil and special additives offer consistently high vacuum. PSO delivers increased horsepower & torque, superior engine cleanliness, reduces wear on bearings, cams, lifters, crankshafts and extends engine life. High Zinc/Phosphorous formula engineered for use in flat tappet and roller element engines.

- **Ultra-High Zinc Formula**
- **Offers Unsurpassed HP Gains And Consistent Vacuum**
- **Increased Horsepower & Torque**

- MB-Approval 228.3
- Renault RVI RLD-2
- Volvo VDS-3

**HD DIESEL ENGINE OIL
HIGH PERFORMANCE PETROLEUM DIESEL OIL
15W-40**

Maxima HD Diesel is a fully formulated heavy-duty diesel engine oil. Advanced chemistry blended with high-quality petroleum base stocks offer excellent protection from the stresses of heat, soot and acids – preventing wear from deposits and corrosion. Elevated levels of detergent/dispersant help to eliminate the formation of larger combustion particles – minimizing soot-related viscosity increase – allowing for improved drain intervals.

Maxima HD Diesel maintains excellent film strength during high-temperature operation to ensure dependable protection, performance and fuel efficiency. Highly refined petroleum base stocks provide outstanding lubricity and resist oil loss due to oil volatilization.

Formulated to meet or exceed API CI-4 Plus specifications for heavy-duty diesel applications. HD Diesel is safe for use in modern and older diesel engines. HD Diesel is an excellent choice for light, medium and heavy-duty truck engines for optimum durability.

- API CI-4 Plus
- Meets Or Exceeds OEM specs
- Ultimate Protection Of Critical Engine Components
- Ideal For Use In Duramax, Cummins And Power Stroke Engines

PERFORMANCE BREAK-IN ENGINE OILS
2X ZINC FORMULA REDUCES CRITICAL ENGINE WEAR
5W-16 • 10W-30 • 15W-50

Maxima Performance Break-In Oil is specifically designed for breaking in engines with flat tappet camshafts, roller elements or where elevated levels of anti-wear additives are needed. High Zinc/Phosphorous formula is blended with highly refined, pure petroleum base stocks to provide optimum ring seal.

Dual-Temp Zone 2X Zinc structure protects for an extended temperature range, outperforming conventional break-in oils. By combining two different zinc compounds, Performance Break-In Oil activates at lower temperatures and offers more protection at elevated temperatures.

- For Use In The Break-In Of High Performance Race Engines, Including Off-Road, Circle Track, Late Model, Drag, Grand Am, Etc.
- Proven To Deliver Long-Term Benefits Of Improved Ring Seal, Increased Vacuum And Reduced Oil Temperatures.
- Compatible With Petroleum, Semi-Synthetic And Fully Synthetic Engine Oils.
- Ideal For Use In Race Engines, OEM Rebuilds And Crate Motors.

GEAR ASSEMBLY

ASSEMBLY LUBE

ASSEMBLY LUBE 4oz Bottle

LUBE PART # 69-01904

ASSEMBLY LUBE ADVANCED PROTECTION

Maxima Assembly Lube is specially formulated to protect highly loaded, critical engine components during engine assembly and break-in. Special polymers promote good lube adhesion to metal parts without stringiness. Thick, consistent lube minimizes oil migration during assembly. High levels of anti-wear (zinc) and extreme pressure agents provide excellent protection for all metal surfaces during initial engine break-in. Next generation additives preserve metals from corrosion during storage. Assembly Lube completely dissolves in petroleum and synthetic engine oils.

PRO GEAR

FULL SYNTHETIC HIGH PERFORMANCE ESTER GEAR OIL 75W-90 • 75W-140 • 75W-190 • 250WT

Maxima Pro Gear full synthetic, ester based gear oil offers unsurpassed performance and protection. Regenerative, synthetic polymers resist shearing, mechanical breakdown and viscosity loss of the oil. High viscosity index (VI) formula offers consistent film thickness and performance over a greater operating temperature range.

Technologically advanced formula increases horsepower and delivers superior anti-wear and extreme pressure protection from peak loads and elevated temperatures. Pro Gear's surface active chemistry delivers ultra-high film adhesion on gear faces, enabling higher load carrying capability and protecting critical gear interface areas and contact points. Fully formulated additive system contains anti-foam, rust, corrosion and oxidation protection for high-stress conditions.

Maxima Pro Gear oil is recommended for use in front and rear differentials, manual transmissions and lower gear units of marine engines or anywhere an API GL-5 gear oil is specified. Pro Gear oil is formulated with friction modifiers and is safe for use in hypoid gear systems.

PERFORMANCE GEAR OIL

PETROLEUM BASED HIGH PERFORMANCE GEAR OIL 85W-140 • 250WT

Maxima Performance Gear Oil petroleum based gear oil offers unsurpassed performance and protection. Ultra-pure, high quality base oils and thickeners resist shearing, mechanical breakdown and viscosity loss of the oil. High viscosity index (VI) formula offers consistent film thickness and performance over a greater operating temperature range.

Technologically advanced formula delivers superior anti-wear and extreme pressure protection from peak loads and elevated temperatures. Performance Gear Oil's surface active chemistry delivers ultra-high film adhesion on gear faces, enabling higher load carrying capability and protecting critical gear interface areas and contact points. Fully formulated additive system contains anti-foam, rust, corrosion and oxidation protection for high-stress conditions. 250WT gear oil has been proven in the deserts of Baja and in short course racing throughout the USA.

Maxima Performance Gear Oil is recommended for use in front and rear differentials or anywhere an API GL-5 gear oil is specified. Performance Gear Oil is formulated with friction modifiers and is safe for use in hypoid gear systems.

SYN ATF
HIGH PERFORMANCE AUTO TRANS RACING FLUID
10WT • 20WT • 30WT

Maxima SYN ATF is specifically formulated to perform in automatic racing transmissions under high-torque, high-horsepower conditions. SYN ATF is a full synthetic formula with technologically advanced anti-wear and extreme pressure additives, protecting the transmission in high-stress environments. Advanced anti-foam agents minimize air entrapment in the oil and protect critical transmission components at higher speeds seen in racing conditions.

Maxima SYN ATF exhibits excellent wetting properties enabling increased heat transfer and lowering overall operating temperatures. Superior additive package is oxidative and thermally stable – inhibiting the formation of lacquer, varnish and harmful deposits – ensuring clean, trouble-free operation.

No slip formula offers positive shift engagement and reduces clutch drag. Special additives help to minimize clutch burn-in time, aiding in the overall reduction of operating temperatures. Ideal frictional properties help to eliminate wear, while providing smooth, positive shifts in high-stress, high-load environments.

Regenerative, synthetic polymers resist shearing, mechanical breakdown and viscosity loss of the oil. High viscosity index (VI) formula offers consistent film thickness and performance over greater operating temperatures.

TSCO understands the dedication it takes to win one of the most grueling races in the world and relies on Maxima for proven protection to keep their race trucks on course over the 1000 miles of pure evil we've all grown to love and admire...Baja California, Mexico. Few races test equipment harder than the Baja 1000. Thousands of pre-running miles and a year of preparation are never enough to guarantee a top finish at this prestigious race. Insure your equipment against failure by using what the best in the industry use – Maxima Racing Oils. **ENJOY THE RIDE.**

SYNTHETIC RACING SHOCK FLUID (SYN RSF) FULL SYNTHETIC • ZERO FADE FORMULA ULTRA LIGHT 0WT • LIGHT 3WT

Maxima Synthetic Racing Shock Fluid (SYN RSF) is an ester-based, full synthetic race-grade shock fluid formulated to withstand extreme temperatures and loads. SYN RSF is blended to the tight specifications required by racing professionals. Industry leading additive system ensures clean, trouble-free operation over extended usage periods. Regenerative synthetic polymers resist mechanical sheering and viscosity breakdown, offering the ultimate protection and film strength. Extremely high viscosity index over 350+, low pour point and friction reducing additives eliminate seal drag and minimize the rate of viscosity change and volumetric expansion under high temperatures. Active molecular technology offers excellent wear and foam control and unsurpassed performance characteristics. SYN RSF will work equally well in aluminum and steel bodied suspension components. SYN RSF is compatible with petroleum and synthetic suspension fluids.

SYN RSF "LIGHT" 3WT

Available in: 32oz Quarts, 5-Gal Pails & 55-Gal Drums

RACING SHOCK FLUID (RSF) FADE FREE FORMULA LIGHT 3WT • MEDIUM 7WT • HEAVY 10WT

Maxima Racing Shock Fluid (RSF) contain the latest technology additives for today's high performance shock absorbers. Synthetic, regenerative polymer system offers a very high viscosity index (350+ VI) and extremely low pour point, providing consistent performance over a wide temperature range. Formulated with special slippery agents that reduce friction and eliminate stiction. Advanced additive system contains seal conditioners, anti-foam, anti-oxidants and corrosion inhibitors. Improve the feel of your ride and protect your system from runaway temperatures with Maxima RSF.

Compatible with petroleum and synthetic power steering fluids. Used in Off-Road, Trophy Truck, NASCAR, Grand-Am, Sprint Car, Modified and Performance Street applications. Extend the life of your power steering system.

Available in: 32oz Quarts, 5-Gal Pails & 55-Gal Drums

SYN PSF
SYNTHETIC POWER STEERING FLUID

Maxima SYN PSF is a high-performance oil engineered to perform under the severe stresses found in modern day racing power steering systems. Racing power steering systems operate under increased loads and elevated temperatures when compared to on-highway systems. Maxima SYN PSF uses technologically advanced additives to prevent wear, thermal breakdown and oxidation – offering unsurpassed protection to pumps, cylinders, valves and gears. Special conditioners keep seals and O-rings pliable under extreme conditions.

Maxima SYN PSF offers smooth, quiet, trouble-free operation. Full synthetic formula delivers consistent steering response and exhibits excellent flow at low temperatures. Lightweight formula reduces initial drag on pump avoiding power losses. High viscosity index fluid offers greater high-temp viscosity than many petroleum based fluids. Advanced ester based synthetics eliminate fading and boil over and exhibit exceptional antifoam characteristics in high-performance, high-temperature environments.

- High-Temperature / Thermally Stable Formula
- Delivers Consistent Steering Response
- Improved Wear Protection
- Lightweight, High VI Fluid Equals Increased HP & Zero Fade
- Unsurpassed Anti-Foam Characteristics
- Compatible With Petroleum And Synthetic Fluids

MAXIMA KART SPEC 2-STROKE HERITAGE

Maxima revolutionized the industry by introducing Castor 927 in the 70's. 927 is still the #1 selling performance 2-stroke oil in most markets around the world. Proven performance, unbeatable protection and the greatest smelling 2-stroke oil on the planet!

MAXIMA ADVANCED FORMULAS Maxima uses the cleanest, strongest components to blend an industry leading line-up of 2-stroke oils. Surface active esters, pure base oils and clean burn technology work in harmony to increase horsepower, reduce wear and to offer smooth, clean, trouble-free operation in high stress operating conditions.

"We don't build oils with a budget in mind, we build them with the racer in mind."

- **DICK LECHIEN** FOUNDER MAXIMA RACING OILS

FORMULA K2 100% ESTER SYNTHETIC

100% synthetic, polyol ester based high-performance 2-cycle lubricant. High film strength provides superior protection for pistons, cylinder walls, cranks and bearings. Advanced additive system eliminates ring sticking, reduces carbon build-up, prevents rust & oxidation and minimizes power valve maintenance. Suitable for all forms of competition. Safe to use with leaded or unleaded gasoline. Premix only.

Available In: 16oz, Liter, 64oz, 5-Gal Pails & 55-Gal Drums

CASTOR 927 PRO SERIES 2T

The ultimate racing 2-cycle lubricant. Biodegradable formula is fortified with clean-burning additives to reduce power valve maintenance, prevents rust & oxidation, eliminates ring sticking and reduces carbon build-up. Generate more horsepower with improved ring seal and significantly lower friction. Premix only.

Available In: 16oz, Liter, 64oz, 5-Gal Pails & 55-Gal Drums

MTL TRANS LUBE CLUTCH SAVER FORMULA XL - 75WT

Designed for use in high-performance 2-cycle kart transmissions. Helps prevent clutch slippage and keeps wear to an absolute minimum. MTL's special formulation provides exceptional lubrication and wear protection to all critical clutch and transmission components. Safe for use on both aluminum and steel clutch plates.

Available in: Liter, 5-Gal Pails & 55-Gal Drums

QUICK 2 MIX YOUR LIFE JUST GOT A LITTLE EASIER.

This tough polypropylene graduated cylinder takes the work out of premixing. Convenient design allows for ease of measuring at various ratios. Provides gallon, liter, ounce and cc markings for accurate measurements.

Quick 2 Mix comes complete with lid to aid in keeping your next mix dust and contaminant free.

Available in: 20oz

SC1 HIGH GLOSS CLEAR COAT

SC1 High Gloss is specifically formulated to protect and beautify multiple surfaces including plastic, vinyl and carbon fiber. Safe for use on plastic, gloss or matte finishes. Excellent for use on plastic fenders, wheel wells and components. SC1 is an outstanding mud and rubber deflector, making the clean-up process easier. Can be applied to surface and left untouched or allowed to setup and buffed to a dry sheen leaving a long-lasting luster without attracting dirt and road debris. Do not use near items ready to be painted. Water resistant.

SPEED WAX PROFESSIONAL FORMULA

Speed Wax is a specialized detailer. An all-in-one detailer that conditions, shines and protects painted surfaces, chrome, anodizing, carbon fiber, windscreens and plastic. Advanced formula blends conditioners with color enhancers to produce a brilliant shine. Easy application and removal – Speed Wax is designed to minimize effort and maximize shine and is the quickest way to detail your ride. Soothing wax sets up quickly and easily wipes from smooth surfaces. A single application is all it takes.

MAXIMA RACING OILS LEADS THE INDUSTRY WITH ITS AEROSOL LINE

With top selling products in all categories, it's hard to overlook the strength of Maxima's aerosol line. Our aerosol product line offers award winning SC1 Clear Coat, with seemingly endless possibilities. SC1 is an addiction. Once you experience the power and luster that SC1 offers, you'll never go without. Our newest offering is destined to become a Top 10 Maxima product, try our new Speed Wax on all your precious equipment. Top tier products for professional tuners, racers and weekend warriors!

CHAIN WAX #1 SELLING CHAIN LUBE

Often imitated - Never duplicated. America's #1 chain lubricant. High-performance chain lubricant for X, Z and O-ring chains. Exclusive Parafilm™ formula sprays on as a liquid, penetrates and then sets up as a soft waxy film, creating an excellent lube that protects the chain from the elements. Outstanding rust & corrosion protectant. Will not fling-off or attract dirt. For street & off-road use.

CHAIN WAX #1 SELLING CHAIN LUBE

CHAIN WAX **Small**
CHAIN WAX PART # 74908

CHAIN WAX **Large**
CHAIN WAX PART # 74920

Available in: 7.4oz & 18.1oz Aerosol

SYNTHETIC CHAIN GUARD CRYSTAL CLEAR FORMULA

100% synthetic chain lube. Special crystal clear formula resists fling-off. Advanced technology allows lube to penetrate critical inner pins and rollers, lubricating and protecting them from friction, shock load and high temperatures. Protective boundary guards chain against rust & corrosion while super clean formula minimizes the attraction of dirt. For street & off-road use. Safe for use on X, Z and O-ring chains.

FFT FOAM FILTER TREATMENT

Race proven synthetic foam filter treatment provides unequalled protection against the elements. Unlike other foam filter oils, FFT's time proven formula will not plug foam cells or migrate off of filters. FFT's protective coating catches dirt and fine dust without restricting airflow. Dyed dark blue to ensure even coverage on all surface areas inside and out. Resists washout from carburetor fogging. Water-resistant. The ultimate air filter oil.

OFF-ROAD ULTRA COOLANT
HI-PERFORMANCE COOLANT

Optimized formula helps reduce and maintain lower overall operating temperatures. Off-Road Ultra Coolant has been tested and proven in extreme forms of off-road racing and is used by top Trophy Truck and Class racers. Synergistic blend of additives provide protection against cavitation, foaming, rust, corrosion and provide lubrication to the water pump and seals. Specially designed formula for use in steel, aluminum and magnesium engines.

HI TEST OCTANE BOOSTER

Eliminates knocks and pings and safeguards your engine against their potentially destructive results. One ounce per gallon effectively raises octane approximately 2 to 4 points. Legal for all racing applications. Will not discolor plastic gas tanks. Sold in special child-resistant packaging.

BIOWASH BIODEGRADABLE FORMULA

Maxima BIO Wash is a unique, biodegradable all-purpose cleaner. Fast-acting cleaning agents lift away dirt while scrubbing grime and oil based deposits. Specially engineered surfactants, lower surface tension allowing better penetration and wetting of soils. Tough on dirt, yet BIO Wash is gentle enough to use on delicate surfaces including paint, plastic, chrome, anodizing, rubber, carbon fiber and almost anything you throw at it. Safely and easily clean your equipment.

Advanced micro chemistry protects aluminum, magnesium and other alloys. Contains no harmful acids, CFC's or solvents. 50 State VOC compliant.

User friendly formula cleanly washes from the surface. Be a responsible downstream user – Eco friendly formula is non-toxic and biodegradable.
