SADDLE TRAMP

Saddle Tramp and Metra PowerSport's line of high-quality motorcycle accessories will enhance your riding experience! All products are manufactured from durable, weather-resistant materials designed to last season after season. Vehicle-specific accessories for a wide range of models by Harley-Davidson®, Indian Motorcycles®, and Victory Motorcycles® are designed with the OEM's signature style in mind, and look just as good as they perform. Additionally, our universal products allow installers to enhance almost any system.

Our collection of radio dash kits fitted for Harley-Davidson® are made from durable ABS plastics and can be painted to match any color. We have a variety of smart innovations that include built-in electronic antennas, handlebar audio controls, LCD screen displays, water-resistant face covers and so much more. These kits let you customize your bike for a personalized look and sound. Complete your motorcycle's aftermarket audio system with handlebar radio controls, replacement antenna masts, speaker adapters and covers, audio woofer mount kits, amplifiers, a water-resistant digital signal processor and more.

Metra PowerSports also offers a selection of universal accessories such as amp kits, micro-amplifiers, LED lights and even an outdoor camera system with a built-in DVR! Saddle Tramp and Metra PowerSports are proud to be your choice for motorcycle accessories that will have you hitting the open road in style.

ONE TOUGH BATTERY

Shuriken® offers batteries for powersports, motorcycle, ATV, marine and RV applications. These batteries are designed to fit all of the most popular applications based on today's BCI and JIS fitment standards. Perfect for replacing factory batteries in most motorcycle applications.

The power cells are extremely resistant to excessive heat and strong vibration. With super-low ESR and closely packed pure lead plates, each power cell packs a punch. Shuriken® power cells are designed to deliver the constant voltage needed for optimum performance. These batteries all use absorbed glass mat (AGM) technology and are fully charged, ready to use direct from the factory. They are non-spillable and maintenance free. Because of the AGM design, they can be discharged and recharged hundreds of times and come with a one-year replacement warranty.
