MOTOREX MOTO LINE

TESTED IN RACING, PROVEN IN EVERY-DAY USE.

The continuous success in world class racing is proof of MOTOREX's innovation and development expertise. However, to generate maximum benefit for the bikers all over the world, there is still more needed: the ongoing fine-tuning and improvement of our range based on the insights from the race tracks. The results are products born in racing and proven to deliver maximum performance in everyday use.

Best wishes on your next trip!
Your MOTOREX Team

POWER SYNT 4T

1l, 4l, 20l, 60l, 200l

Fully synthetic high-performance 4-stroke engine oil, specially developed for demanding use in hypersport motorcycles with powerful engines. These lubrications provide engines, gearboxes and clutches with optimum protection over the entire range of applications.

- aggressive power development
- optimum wear protection
- ideal for wet multi-disc clutches (JASO MA2 approval)

SAE 5W/40 JASO MA2 T903:2011; API SM, SL, SJ, SH, SG

SAE 10W/50 JASO MA2 T903:2011; API SM, SL, SJ, SH, SG

SAE 10W/60 JASO MA2 T903:2006; API SJ, SH, SG

CROSS POWER 4T

1l, 4l, 20l, 60l, 200l

Fully synthetic high-performance 4-stroke engine oil, especially developed for Off-Road motorcycles. When this oil was developed, in close cooperation with racing teams and motorcycle manufacturers, attention was paid to the specific requirements of Off-Road use.

- racing quality
- extremely good thermal and shear stability
- ideal for wet multi-disc clutches (JASO MA2 approval)

SAE 5W/40 JASO MA2 T903:2011; API SL, SJ, SH, SG

SAE 10W/50 JASO MA2 T903:2011; API SL, SJ, SH, SG

SAE 10W/60 JASO MA2 T903:2006; API SL, SJ, SH, SG; KTM LC4 2007+

ATV QUAD RACING 4T SAE 10W/50

1l, 20l, 60l

Fully synthetic high-performance engine oil, especially manufactured for sporty 4-stroke ATV/quads. This oil provides the engine with optimum protection, even for the toughest requirements in the field of all-terrain vehicles (ATV).

- optimum engine protection in all operating areas
- extremely good thermal stability
- ideal for wet multi-disc clutches (JASO MA approval)

JASO MA T903:2006; API SL, SJ, SH, SG

SCOOTER FORZA 4T

1l, 20l, 60l, 200l

Modern fully synthetic 4-stroke engine oil for scooters and maxi scooters. Points taken into special account during its development were the high demands placed on scooters in daily use, with frequent cold starts and high operating temperatures. Ideal for models with injection engines and catalytic converters.

- optimum cold-start characteristics
- maximum resistance at high temperatures and maximum shear stability
- ideal for stop-and-go traffic

SAE 0W/30* VW 506 00; VW 506 01; VW 503 00 ACEA A5/B5-04
SAE 5W/40 API SL, SJ, SH, SG

*nur 1l, 20l

TOP SPEED 4T SAE 5W/40 JASO MA2

1l, 4l, 20l, 60l, 200l

Modern synthetic high-performance engine oil for 4-stroke motorcycles. With this MC (Molecular Converted) technology high-quality base oils are refined chemically and achieve a very high level of performance. Meets BMW requirements for the K1200, K1300 and K1600 Series plus the S1000 Series.

- excellent wear protection
- lowers oil consumption
- ideal for wet multi-disc clutches (JASO MA2 approval)

SAE 5W/40 JASO MA2 T903:2011; API SN, SM, SL

TOP SPEED 4T JASO MA2

1l, 4l, 20l, 60l, 200l

Modern synthetic high-performance engine oil for 4-stroke motorcycles. With this MC (Molecular Converted) technology high-quality base oils are refined chemically and achieve a very high level of performance.

- excellent wear protection
- lowers oil consumption
- ideal for wet multi-disc clutches (JASO MA2 approval)

SAE 10W/30 JASO MA2 T903:2011; API SN, SM, SL

SAE 15W/50 JASO MA2 T903:2011; API SN, SM, SL

FORMULA 4T

1l, 4l, 20l, 60l, 200l

Modern synthetic quality engine oil for 4-stroke motorcycles. They provide the engine, gearbox and clutch with good protection in all areas.

- good wear protection
- resistance at all temperatures
- for wet multi-disc clutches (JASO MA 2approval)

SAE 10W/40 JASO MA2 T903:2016; API SL, SJ, SH, SG

SAE 15W/50 JASO MA2 T903:2016; API SL, SJ, SH, SG

SAE 20W/50 JASO MA2 T903:2016; API SL, SJ, SH, SG

ATV QUAD 4T SAE 10W/40

1l, 20l, 60l

Modern synthetic quality engine oil for 4-stroke ATV/Quads. This oil provides good shear stability and very rapid lubrication, including at low temperatures.

- excellent wear protection
- very good cold starting characteristics
- for wet multi-disc clutches (JASO MA2 approval)

JASO MA2 T903:2016; API SL, SJ, SH, SG

SCOOTER 4T

1l, 20l, 60l, 200l

Synthetic 4-stroke engine oil for scooters. Points taken into special account during its development were the specific demands placed on scooters in daily use, with frequent cold starts and high operating temperatures. Ideal for models with injection engines and catalytic converters.

- optimum cold starting characteristics
- good wear protection
- ideal for stop-and-go traffic

SAE 10W/40 JASO MA2, API SL, SJ, SH, SG

SAE 10W/30* JASO MB T 903 : 2016; API SL, SJ, SH, SG

*nur 1l, 20l, 60l

LEGEND 4T SAE 20W/50

1l, 20l, 60l, 200l

High-quality mineral-oil-based engine oil for 4-stroke motorcycles with separate engine and gearbox lubrication. Thanks to the selection of base oils and additives specially adapted for this engine type, this engine oil provides optimum protection against wear and high temperature stability.

- high thermal stability
- optimum oil film, even at high temperatures
- ideal for high-capacity two-cylinder engines

API SJ, SG/CF; ACEA A3/B3

SPECIALITIES

KTM RACING 4T SAE 20W/60

1l, 4l, 25l

Fully synthetic high-performance racing engine oil specially designed for KTM racing engines. High-quality base oils enhanced with valuable additives have made it possible to develop this oil of genuine racing quality. The ideal frictional properties guarantee that the wet multi-disc clutch will function perfectly under all operating conditions.

- developed in cooperation with KTM
- tested under the most extreme racing conditions
- optimum frictional properties

recommended by KTM CUSTOMER RACING

CLEMENT DESALLE // MONSTER ENERGY KAWASAKI RACINGTEAM // MXGP

BOXER 4T SAE 5W/40 JASO MA2

1l, 4l, 20l, 60l, 200l

Synthetic high-performance engine oil, specifically for use in water-cooled boxer engines. Guarantees a stable lubricating film and a constantly high oil pressure under all operating conditions and lowers the friction in the engine significantly.

- ideal for water/oil-cooled engines
- reduces oil consumption
- developed in close cooperation with the BMW tuner AC SCHNITZER

JASO MA2 T903:2011; API SN, SM, SL

BOXER 4T SAE 15W/50

1l, 4l, 20l, 60l, 200l

Synthetic high-performance engine oil, specifically for use in 4-stroke boxer engines. Guarantees a stable lubricating film and a constantly high oil pressure under all operating conditions and lowers the friction in the engine significantly.

- ideal for air/oil-cooled engines
- reduces oil consumption
- developed in close cooperation with the BMW tuner AC SCHNITZER

JASO MA T903:2006; API SL, SJ, SH, SG

POWER SYNT 2T

1l, 25l, 60l

Fully synthetic high-performance engine oil for 2-stroke supersport motorcycles. This lubricant offers optimum performance and maximum protection as well as extremely clean combustion.

- optimum protection against wear
- low-smoke formula
- for pre-mix and separate lubrication

JASO FD, API TC, ISO-L-EGD

DOMINIQUE AEGERTER // KIEFER RACING // MOTO 2

CROSS POWER 2T

1l, 4l, 25l, 60l

Fully synthetic high-performance engine oil for 2-stroke Off-Road motorcycles. When this oil was developed – in direct cooperation with racing teams and motorcycle manufacturers – special attention was paid to the specific demands of Off-Road use.

- racing quality
- reduces combustion residues
- for pre-mix and separate lubrication

API TC, ISO-L-EGD, Safety + Performance: JASO FD

SCOOTER FORZA 2T

1l, 25l, 60l, 200l

Modern fully synthetic 2-stroke engine oil for scooters. Points taken into special account during its development were the high demands placed on scooters in daily use, with frequent cold starts and high operating temperatures. Ideal for models with injection engines and catalytic converters.

- low-smoke formula
- reduces combustion residues
- for pre-mix and separate lubrication

JASO FD, API TC, ISO-L-EGD, Safety + Performance: PIAGGIO HEXAGON

FORMULA 2T

1l, 25l, 60l

Modern synthetic engine oil for 2-stroke motorcycles. It offers the engine good protection in all areas of use.

- minimal combustion residues
- especially low smoke
- for pre-mix and separate lubrication

JASO FC, API TC, ISO-L-EGC

SCOOTER 2T

1l, 4l, 25l, 60l, 200l

Synthetic 2-stroke engine oil for scooters. Points taken into special account during its development were the specific demands placed on scooters in daily use, with frequent cold starts and high operating temperatures.

- low-smoke formula
- ideal for stop-and-go traffic
- for pre-mix and separate lubrication

JASO FC, API TC, ISO-L-EGC

MANUEL LETTENBICHLER // ERZBERGRODEO 2018

TRANSMISSION OILS

GEAR OIL SAE 10W/30 (SAE 80W/85)

1l, 4l, 25l, 60l

Synthetic performance. Special transmission oil for separately lubricated gearboxes in 2-stroke motorcycles. Also excellently suited for Vespas. Makes for a clean separation of clutch discs. Reduces the effort required to select gears.

API GL-4

GEAR OIL HYPOID SAE 80W/90

1l, 4l, 25l, 60l

Peak-pressure transmission oil for motorcycle gear and universal joint lubrication.

API GL-5

PRISMA ZX SAE 75W/90

1l, 4l, 25l, 60l, 200l

Special synthetic gear oil. Provides an excellent gear-changing performance. For motorcycles with separately lubricated gearboxes and for universal joint transmissions and hypoid gears.

API GL 4+5

ATF DEXRON III

1l, 4l, 25l, 60l, 200l

Automatic transmission fluid. Excellent performance in cold conditions and in respect of ageing.

SCOOTER GEAR OIL ZX SAE 80W/90

130ml

Semi-synthetic scooter gear oil. Developed especially for a variable transmission drive in scooters. Optimum friction coefficient.

API GL 4+5

MIGUEL OLIVEIRA // RED BULL KTM AJO RACING TEAM // MOTO 2

SUSPENSION OILS

RACING FORK OIL SAE 2.5W | 4W | 5W | 7.5W | 10W | 15W

1l, 25l, 60l

RACING FORK OIL with the new «3D RESPONSE TECHNOLOGY». The technology enables a new innovative damping behavior by the special molecular structure. This means that tractive and impact forces are no longer diverted along a zig-zag path like an accordion, but through a multi-level grid structure instead. The three-dimensional structure of the new molecular composition forms the basis of the 3D RESPONSE TECHNOLOGY.

2.5W / 4W / 5W / 7.5W / 10W / 15W (viscosities are miscible)

FORK OIL SAE 10W/30

1l, 25l

Multigrade fork oil, for optimum damping at all temperatures. Prevents the formation of foam and inhibits corrosion. With care additive for seals.

RACING SD1

5l

Shock absorber oil for racing with a high viscosity index. Provides optimum damping even under extreme conditions. Prevents the formation of foam and inhibits corrosion.

AIR FILTER

AIR FILTER

Developed in collaboration with a prestigious European manufacturer MOTOREX now offers an extensive air filter program. They can be used as direct replacements for genuine filters without further modifications. Whether for Enduro or Moto Cross, MOTOREX has the right filter for a wide range of models fitted with foam filters.

AIR FILTER MAINTENANCE

AIR FILTER CLEANER

1l, 4l

Cleaner for foam air filter elements. Free of solvents, biodegradable and non-combustible. Ready to use.

AIR FILTER OIL 206

1l, 5l

Specially developed air filter oil for foam air filter elements with good adhesion. Keeps out sand, dust and water. Guaranteed optimal air flow. Very good adhesion.

AIR FILTER OIL

750 ml

Specially developed air filter oil spray for foam air filter elements. Keeps out sand, dust and water. Guaranteed optimal air flow. Very good adhesion.

AIR FILTER CLEANING KIT

Complete air filter cleaning kit, essential equipment for all-terrain use. Simple, practical and effective.

CHAIN CARE

CHAIN CLEAN DEGREASER

Spray: 500ml

Extremely effective chain degreaser, for all types of motorcycles. Tested for O-rings, X-rings and Z-rings. Effective removal of encrusted oil and grease deposits, etc. Regular use considerably extends the working life of the chain kit! Finally spray with MOTOREX CHAINLUBE.

CHAIN LUBE ADVENTURE

Spray: 500ml

White chain lubricant specifically adapted to the requirements of modern travel enduro bikes. Excellent running performance with low dirt and dust attraction. O-ring and X-ring tested. Extremely resistant to high pressure with ultra-adhesive lubricating film.

LYNDON POSKITT // RALLYE-DAKAR // ADVENTURE RIDER

CHAIN LUBE RACING

Spray: 56ml, 500ml

White high-performance chain lubricant containing PTFE. Ideal for sports and racing motorcycles. Tested for O-rings, X-rings and Z-rings. Reduces wear, extremely good adhesion. Extends the working life of the chain kit. Also available in a refillable 56ml minican.

CHAIN LUBE ROAD STRONG

Spray: 56ml, 500ml

White chain lubricant. Especially formulated for road-going motorcycles. Tested for O-rings, X-rings and Z-rings. Extremely good adhesion, resistant to water. Extends the working life of the chain kit. Also available in a refillable 56ml minican.

CHAIN LUBE OFF ROAD

Spray: 56ml, 500ml

Fully synthetic chain lubricant. Especially formulated for off-road motorcycles. Tested for O-rings, X-rings and Z-rings. Excellent lubricating properties, deep penetration, resistant to water. Extends the working life of the chain kit. Also available in a refillable 56ml minican.

MARCO NEKVASIL // HRT 100 DUCATI // FIM ENDURANCE WORLD CHAMPIONSHIP

CLEAN & CARE

MOTO CLEAN (360°)

1l, 5l, 25l, 200l

Motorcycle cleaner

New formulation with more power and reduced pH-value. Quick, clean and completely biodegradable. Penetrates well and works against corrosion. Perfect compatibility with rubber, plastic or painted parts.

MOTO CLEANING KIT

Kit containing:

1 MOTO CLEAN (1l), 1 MOTO PROTECT (500ml), 1 sponge, 1 cloth and a practical tub for cleaning and storage.

VISO-CLEAN

Box à 12 x 6 Sets

Visor and helmet cleaning cloths.

VISO-CLEAN quickly and effectively loosens and removes dirt, bugs, oil and soot. Better safety thanks to a smudge-free, clear view and protection with anti-fogging treatment.

HELMET CARE

Spray: 200ml

Helmet spray

Active foam for cleaning and care the inner padding. Fast and effective, antibacterial. Has deodorising and freshening effect.

QUICK CLEANER (360°)

Spray: 60ml, 500ml | Fluid: 5l, 25l

Quick cleaner with water-beading effect.

Cleans plastics, visors, windscreens, paint and metal without adding water. Removes stubborn stain by insects as well as dirt, dust, etc. Fast and simple cleaning and perfect for traveling.

MOTO SHINE

Spray: 500ml | Fluid: 5l

Gloss spray with colour refresher

Special gloss spray for a perfect finish after cleaning. For lasting shine on paint, plastic, chrome etc. and creates a protective antistatic film with drop-repellent effect. Outstanding also trade fair and showroom vehicles.

MOTO PROTECT (360°)

Spray: 500ml

Maintenance and protective spray

To preserve if not used for a long time. For painted surfaces as well as for chromium and all metal parts. Excellent corrosion protection thanks to a slight oil film. Protects against dust and dirt. Ideal for a everlasting winter protection.

CHROME POLISH

200ml

High gloss polish

For aluminium, chrome and stainless steel. This product cleans, polishes and protects the surface area. Clean the 'burnt on road tar' from your exhaust.

PROTEX SPRAY

Spray: 500ml

Water and oil protectant

Textile and leather waterproofing. Highly effective and long-lasting protection against moisture and oil. Suitable for leather, textiles and microfibres (e.g. GORE-TEX®), allows the fabric to breathe naturally. Ideal for shoes, skiwear, protective gear for motorcyclists and bikers, convertible hoods and other sports and leisure items.

GAUTIER PAULIN // ROCKSTAR ENERGY HUSOVARNA FACTORY RACING TEAM // MXGP

WORKSHOP

REX-REINIGER

5l, 25l, 60l, 200l

Cleaner for small parts

Fragrant cleaner to effectively degrease small metal and plastic components.

OPAL 5000

5l, 25l, 60l, 200l

Universal cleaner

Low-odour universal cleaner, particularly suitable for degreasing and cleaning parts in the service and repair sector. Due to its relatively slow drying rate, parts are temporarily protected from corrosion.

TYRE MOUNTING FLUID

1l, 5l

Tyre mounting fluid

Special, fast-drying and economical tyre mounting fluid for effortless mounting and removal of all conventional tyres. Tested for tyre pressure monitoring systems (TPMS). Does not leave any visible residues after mounting. The TMF Dispenser 300ml is available as accessory.

CARBURETOR CLEAN FLUID

1l

Carburetor Cleaner

Carburetor cleaner to ensure trouble-free cleaning of residue and impurities from carburetors. Cleans air passages, inlet flaps, Venturi tubes, adjustment screw seats and carburetor housings. Ideally suited for use in overhauls of older vehicles or those that have been laid up for a relatively long time.

FETT 3000

850g

High-pressure grease

State-of-the-art multi-purpose grease, highly resistant to pressure, for extreme stress, for use over a wide temperature range, ideally suited to roller bearing lubrication. Range of application -30 °C to +150 °C. NLGI 2.

COPPER PASTE

100g, 850g

Copper compound

For use at temperatures from -40 °C (-40 °F) and +1200 °C (+2192 °F). Prevents threaded studs and nuts from seizing. Resistant to fretting corrosion and vibration. NLGI 2.

BIKE GREASE 2000 (Fett 2000)

100g, 850g

Long-term grease

Ultimate-performance long-life grease for optimum lubrication. Maximum adhesion and total resistance to water. Optimum protection against corrosion and wear even under extreme conditions. Excellent pressure bearing capacity. Extends lubrication intervals. Calcium grease NLGI 2.

WHITE GREASE (Fett 628)

100g, 850g

White grease for bikes

This special white lubricating grease for all two-wheeled vehicles resists ageing and has good adhesion properties. Lithium grease, NLGI 2.

GREASE GUN

no contents

Grease gun

Ideal for workshops. Makes it easy to apply grease to inaccessible spots. Fast and easy refills with the GREASE 2000 grease tin (850 g).

HYDRAULIC FLUID 75

100ml, 1l

Special oil for hydraulic clutch systems

Excellent age resistance. Ideal viscosity at both high and low temperatures. High seal compatibility. Area of application: Whenever the manufacturer recommends a mineral oil based fluid.

TEAM BOLLIGER SWITZERLAND // FIM ENDURANCE WORLD CHAMPIONSHIP

HI-TECH SPRAYS

ACCU PROTECT

Spray: 200ml

Battery protectant

Protects battery terminals, electrical connections and jump leads. Prevents corrosion and oxidation. Provides a long-lasting, wax-like protective film.

ANTIRUST SPRAY

Spray: 500ml | **Fluid:** 5l, 200l

Screw releasing

Rust remover and screw releasing agent with outstanding penetration. Releases metal parts that are seized with rust. Protects against corrosion and keeps out moisture. Removes rust, repels water, lubricates.

CARBURETOR CLEAN

Spray: 500ml

Carburetor cleaner

Carburetor cleans air passages, intake valve, venturi tube, seats of regulating screws and carburetor casing. Suited for all carburetor types. Tested with catalytic converters.

COPPER SPRAY

Spray: 300ml

Special lubricant

Is a special copper spray to prevent mechanical parts exposed to high temperatures such as exhaust manifold bolts, spark plugs, brake pads and heat exchangers from seizing as a result of heat. Silencing properties, resists oxidation, protection against corrosion, good adhesion, resistant to salt water, extremely good thermal stability. Suitable for use between -40 °C (-40 °F) and +1200 °C (+2192 °F).

EASY CUT PUMPSPRAY

Pumpspray: 250ml

Drilling and cutting Pumpspray

Oil spray for use when drilling and cutting all high-alloy steel grades as well as non-ferrous metals and aluminium. For drilling, thread-cutting, sawing, turning, milling, stamping. Optimum cooling and lubrication properties. Non-water miscible. Spray metering capability.

GREASE SPRAY

Spray: 500ml

Grease

Viscous grease spray with good adhesion, as an alternative to brushing application. Resistant to water and saline solution. Good protection against corrosion and wear.

INTACT MX 50

Spray: 200ml, 500ml | **Fluid:** 5l, 60l

Universal Spray

Indispensable for industry, trade, workshops and service stations. Lubricates all moving parts. Perfect for protecting metal surfaces and preserving tools. Stops squeaking. Leaves behind a very effective protective film. Repels and undermines water, thus preventing corrosion.

JOKER 440 SYNTHETIC

Spray: 500ml | **Fluid:** 5l, 25l, 200l

Universal Spray

Indispensable for industry, trade, workshops, service stations, households, gardens, sport and leisure activities. Lubricates all moving parts, stops squeaking, undermines water, protects against corrosion, has a dielectric effect, cleans and cares for metals and plastics. Fully synthetic.

SPRAY WITH PTFE

Spray: 200ml

Dry Lubricant

Spray with PTFE is a dry lubricant, suitable as an anti-seize and release agent, which does not leave behind any oily marks. The extremely thin PTFE layer with a particle size of 5 µm prevents parts sticking to moulds and stops mounted parts becoming seized on machine tools. Almost unlimited chemical resistance and suitable for use over a very wide range of temperatures (+265 °C/+509 °F). Antistatic.

POWER BRAKE CLEAN

Spray: 750ml | Fluid: 5l, 25l, 60l, 200l

Brake clean Spray

Cleans and degreases all brake and clutch components. Prevents whirling-up of wear residues from linings. Removes oil, grease, brake fluid, tar, bitumen, etc. Also suited for cleaning machines, electric motors and precision instruments. Exceptionally high spray pressure. Does not affect rubber, plastic or paint.

SILICONE SPRAY

Spray: 500ml | Fluid: 5l, 25l

Silicone Oil

Lubricates, cares for and protects rubber, plastic and all metal parts. Plastic components are given a high gloss; rubber items receive care and protection. Thermal stability from -50 °C (-58 °F) to +200 °C (+392 °F). Antistatic, water-repellent, guards against oxidation.

MOTOR START

Spray: 500ml

Starting aid

Dependable, highly effective, starting aid for petrol and diesel engines. Friction-reducing lubricating additive reduces engine wear at start-up.

POWER CLEAN

Spray: 500ml

Cleaner

Degreases and cleans even the most stubborn dirt. Removes oil, grease, tar, etc. Does not harm rubber, plastic and paint.

SPRAY 2000

Spray: 500ml

Lubricant adhesive

Fully-synthetic, high-pressure-resistant lubricant with long-term effect for universal application. Penetrates rapidly and protects from corrosion. Thermally stable from -30 °C (-22 °F) to +200 °C (+392 °F). Adhesive, water-resistant, silicone-free, pressure and impact resistant, colourless.

ALSO AVAILABLE

Various workshop sprays, Oil Spray, Zinc Spray, Silver Spray, Black Spray and more. Ask for our spray brochure.

ADDITIVES

SYSTEM GUARD

125ml, 5l, 25l

Protects fuel systems

Cleans and dissolves deposits throughout the entire injection system. Improves corrosion protection, binds water. For petrol and diesel injection systems. Mixing ratios: 1l:250l.

FUEL STABILIZER

125ml, 25l

Keeps fuel in good condition

Fuel system additive stabilizes fuel during long periods of storage. FUEL STABILIZER prevents the gummy build up in the fuel system associated with oxidation and ensures a smooth start after long periods of storage. For all 2-stroke and 4-stroke engines with or without catalytic converters. Mixing ratios: 1l:250l.

VALVE GUARD

250ml

Lead substitute

For unleaded and super unleaded petrol, replaces the lubricating effect of lead. VALVE GUARD protects valve seats and cleans the entire fuel delivery system. Mixing ratios: 10ml:10l.

ETHANOL TREATMENT

250 ml

Biochemical fuel improver

Improves the properties of all 2- and 4-stroke fuels (e.g. E10-E85) blended with ethanol. ETHANOL TREATMENT reduces phase separation, optimises combustion, improves fuel efficiency and reduces corrosion

BRAKE FLUID

BRAKE FLUID DOT 4

250ml, 1l, 5l, 30l

High-performance brake fluid with a wet boiling point of more than 165 °C (329 °F). Prevents the formation of vapour even at extreme braking loads. Provides optimum braking performance and responsive braking.

BRAKE FLUID DOT 5.1

250ml, 1l, 5l, 30l

High-performance brake fluid for hydraulic brakes. Extremely high wet boiling point of more than 180°C (356° F). Prevents the formation of vapour bubbles even at extreme braking loads. Provides powerful and responsive braking.

JASON ANDERSON // ROCKSTAR ENERGY HUSQVARNA FACTORY RACING TEAM

COOLANT

COOLANT M3.0 OAT-TECHNOLOGY

Concentrate: 4l, 25l, 60l, 200l | **Ready to use:** 1l, 4l, 25l, 60l, 200l

Coolant based on ethylene glycol provides excellent protection for all modern engines but particularly aluminium engines operating under high loads. Free of silicates, nitrates, amines and phosphates (OAT technology). Colour pink. Available as concentrate or as ready to use.

COOLANT M5.0 HYBRID-TECHNOLOGY

Concentrate: 4l, 25l, 60l, 200l | **Ready to use:** 1l, 4l, 25l, 60l, 200l

Coolant based on ethylene glycol. It meets the strictest requirements of various manufacturers. Free of nitrates, amines and phosphates. Colour turquoise. Available as concentrate or as ready to use.

RACING LINE | DEVELOPED BY MOTOREX RACING LAB

The Motorex Racing Lab is responsible for supporting and developing the latest racing products that are demanded by racing teams around the world. The MOTOREX Racing Lab has been recognized as the most well established racing specialists among racing teams.

RACING PRO 4T SAE 0W/40

1l, 4l, 25l

Fully synthetic high-performance engine oil for 4-stroke motorcycles. Special development for 4-cylinder motors; Superbike, Supersport. Reduces coefficient of friction. Enhances performance.

RACING PRO 4T SAE 15W/50

1l, 4l, 25l

Fully synthetic high-performance engine oil for 4-stroke motorcycles. Special development for European 2 and 3-cylinder motors. Reduces coefficient of friction. Enhances performance.

RACING PRO 4T SAE 5W/30

1l, 4l, 25l

Semi-synthetic extreme high-performance engine oil for Off-Road 4-stroke motorcycles. Provides ultimate clutch protection. Reduces coefficient of friction. Enhances performance.

RACING PRO 4T CROSS SAE 10W/40

1l, 4l, 25l, 200l

MOTOREX RACING PRO 4T 10W/40 CROSS engine oil is a high-performance speciality product specially developed for MOTOREX Racing Support and its participation at the highest level of racing. It offers exceptionally good high-temperature stability and shear strength and effectively reduces friction in engines.

RACING FORK OIL SAE 2.5W | 4W | 5W | 7.5W | 10W | 15W

1l, 25l, 60l

RACING FORK OIL with the new «3D RESPONSE TECHNOLOGY». The technology enables a new innovative damping behavior by the special molecular structure. This means that tractive and impact forces are no longer diverted along a zig-zag path like an accordion, but through a multi-level grid structure instead. The three-dimensional structure of the new molecular composition forms the basis of the 3D RESPONSE TECHNOLOGY.

2.5W / 4W / 5W / 7.5W / 10W / 15W (viscosities are miscible)

RACING GEAR OIL SAE 10W/40

1l, 25l

High-performance gear oil. Extremely good resistance to pressure. For separately lubricated gearboxes and clutches. Is highly efficient against clutch wear.

RACING BIO DIRT REMOVER

900g

Developed in close collaboration with Twin Air. MOTOREX RACING BIO DIRT REMOVER is a specially developed powder cleaner for off-road motorcycles and quads (ATV) which are fitted with reusable foam air filters.

RACING BIO LIQUID POWER

1l

Developed in close co-operation with Twin Air. MOTOREX RACING BIO LIQUID POWER is an air filter oil that has been specially developed for off-road motorcycles and quads (ATV) equipped with reusable foam air filters. This special, biodegradable oil can absorb very large amounts of dust and dirt.

RACING BRAKE FLUID

500ml

High-performance brake fluid. Extremely high dry and wet boiling points (563°F/383°F, 295°C/195°C). Easily exceeds DOT 4 specifications.
