THE STORY

(FOUNDER: Jim O'Neal)

In the early 1960's Jim O'Neal was a young teenager living in the foothills outside of Los Angeles, California. Jim's early passion for riding motorcycles quickly became an obsession and in 1961 the 15 year old borrowed a friend's '57 Frances Barnett to race Rough Scrambles in Acton, California. Soon enough, the young man was hooked on racing, taking his bike out across the golden state.

A few years later the Europeans traveled to the US to race against the Top TT American racers at the famed Corriganville Movie Ranch (Hopetown) near Jim's home. As racing progressed Jim realized the need for better parts, apparel and accessories to withstand the demands of what would become American Motocross. Soon thereafter, an American Company was born.

A large, dense crowd of spectators is gathered at night for an event. The scene is illuminated by blue and white lights, creating a vibrant atmosphere. In the foreground, a dirt ramp is visible, and a portion of a motorcycle wheel is seen on the right side. The crowd is diverse in age and appearance, with many people looking towards the camera or the event area.

A close-up photograph of a person's arm, wearing a dark blue uniform sleeve, resting on a black steering wheel. The person is sitting in the driver's seat of a vehicle, with the interior dashboard and windows visible in the background. The lighting is soft and natural, coming from the windows. The overall tone is professional and focused.

DEANO

(Dean Wilson)

It's now 50 years later. The office is just a few miles from the old Hopetown track. Today you can still find the same passion in every single product O'NEAL produces. You can also find Jim racing and riding around Southern California every chance he gets. Jim still races Baja and his drive, grit and determination has led him to the most class Baja wins in history. Jim's obsession pioneered a brand that will forever be embedded in the history of American Motocross.

FEATURES:

- Breathable, moisture-wicking material
- Jersey weight 8.0 (size L)
- Sublimated graphics
- Extended tail that keeps jersey tucked in
- Clear silicone printing on lower back to help keep jersey tucked in
- V-Neck collar

MAYHEM SAVAGE - PANT

Graphic: SAVAGE	Part No.	28	30	32	34	36	38	40	42
MULTI	M010-2**	28	30	32	34	36	38	40	42

FEATURES: PANT

- Streamlined and lightweight design for the serious racer
- No rubber thigh patches for reduced weight and increased mobility
- Durable denier fabrics with triple stitching in critical areas
- Heat resistant panels in the knee area
- Reinforced and adjustable elastic waist system with hook-and-loop closure for a precise fit
- Double snaps at waist closure, reinforced with hook and loop to stay secure and keep the zipper in its place
- More durable, wear resistant panels on: seat, inside of legs, and knees
- Lighter weight, more breathable panels, positioned away from bike contact points
- Stretch panels in key points on: front, back, and knees for great freedom of movement
- Vented mesh liner
- Tapered lower leg to prevent bunching in boot

RDX 2.2

O'NEAL ELEMENT

RIDER

SIERRA

RMX

RIDER SHORTY

One Step Above.

The RDX 2.2 comes complete with safety and comfort features that are second to none! Constructed with a Full Tilt RDX Pivot system, the 2.2 allows for the natural flexibility of your feet and lower legs all while maintaining rigid lateral form. Each buckle on the RDX is constructed of alloy aluminum and features a double pin locking system for a secure closure every time you ride. The soles of your feet are covered with a full, "Army Rubber" bonded sole carrying an interior full steel shank for added rigidity, protection and strength. Comfort is kept key as you slip into the RDX. Ergonomically placed interior gel aided by foam pillow ankle support keeps your feet firmly in place without pinching, binding or causing discomfort. The RDX features removable and replaceable parts including the Sole, Straps, Buckles, Footbed and upper Body so that you can rebuild or replace portions of your boot if need be.

The RDX 2.2 - Where Engineering, design, and comfort come together in perfect form!

RDX 2.2 BOOT

Color:	Part No.	7	8	9	10	10.5	11	12	13

JERSEY PRINTING

Our exclusive custom One-Piece jersey Name & Number lettering and Sponsor logos once only available to Pro Riders, are now available to everyone! Working with our top riders, such as Justin Hill and Phil Nicoletti, we have perfected our printing materials to maximize visibility while maintaining a durable print that will go the distance through every moto and every wash! You can now get your jersey lettering and sponsor logos applied to your jersey and done by a professional O'Neal designer to get that factory look!

We offer two fonts (Rally & Depot) in either Black or White allowing you to customize the look of your jersey. Can't decide which color will look best? No problem, you can allow a professional O'Neal Designer to choose which color will look best on your particular jersey.

Want to represent your personal sponsors on the track in style? We are here to help you get that professional look! O'Neal artists have hundreds of major motocross and bicycle company logos on file ready for your jersey. If you should need a custom logo (IE Non Moto Company, Local Shop Logo) an O'Neal Designer can convert your logo into a printable jersey transfer.

Step 1. Choose your jersey | Step 2. Add your name and number | Step 3. Choose a color | Step 4. Add your sponsor logos

FAIR

ATV RACING APPAREL

ONE OF US

Every day for nearly 50 years one of us is out riding. Be it professionals, family, friends, or staff, each one of you allows us the make O'Neal happen, and as a team, we cannot be stopped. The continued contribution, feedback, and support are most sincerely appreciated. For those of you we were lucky enough to capture here as well as those that are camera shy, we thank you for taking the ride with us as this journey continues...
