## **Preston petty products, brought to another level**

The Off-road business is made of pioneers. Preston Petty is a brand that reminds us all of the importance to innovate and to always reach for something better. So, the connection between the two brands couldn't make more sense.

In 1969 Preston started to produce his own injection molded plastics after learning all the processes involved in plastics production. Almost 50 years later, Preston Petty meets Polisport. The connection between these two plastics pioneers aims to bring Preston Petty Products to another level by taking advantage of all the knowledge Polisport has gathered in the Plastics field during its 40 years in the business.

Now, with the partnership and expertise of Polisport, the goal is clear. Keep the essence and quality Preston is known for and let everyone around the world have access to these fantastic plastics. Most important of all is keeping the plastics as unbreakable as ever and fully guaranteed, just like Preston Petty did during his days at the helm of the brand.

Now that Preston Petty plastics will be produced and distributed by Polisport, the legend continues...
