LIGHTING

PROCOMP

off-road driven!™

The Explorer Lighting logo is positioned in the lower-left quadrant. It consists of the word 'EXPLORER' in a large, outlined, sans-serif font, with a bright light flare effect behind the letter 'O'. Below 'EXPLORER' is the word 'LIGHTING' in a smaller, spaced-out, outlined font.

The next generation of high performance lighting systems has arrived.

Pro Comp Explorer lights are designed for the off-road enthusiast who demands the best.

After nearly 20 years as a premier source of off road lights, Pro Comp is again lighting your path with the most advance lighting systems ever offered. New LEDs and HIDs join the existing line-up of dependable halogen lights to provide a broad selection from which to choose.

These new lights feature state-of-the-art construction and industry-leading features to handle extreme off-road abuse without a flicker.

Whether you are using your rig for rock crawling, hunting game or pre-running a race, you can explore with confidence. Pro Comp will light your way like never before.

DESCRIPTION

When you need maximum lighting performance, turn to the Explorer LED Double Row Light Bars. Each light bar is comprised of an array of finely tuned LEDs combined into a high-powered, easy-to-mount package. The heat produced by such massive illumination is dissipated by an integrated heat sink system and results in consistent, long lasting performance. Lights are completely waterproof, dustproof and available in a variety of lengths for all your application needs.

FEATURES

- ✓ Cree high output 3W LEDs produce ultra bright light
- ✓ 50,000+ hours of LED life
- ✓ Tuned chrome reflectors engineered to project maximum amount of light
- ✓ 6063 extruded aluminum housing with integral heat-sink provides durable structure and efficient cooling
- ✓ Shockproof, waterproof and UV-shielded to guard against the elements
- ✓ Gore-tex breather
- ✓ Compact low-mass design for easy installation
- ✓ Durable anodized polyester powder coat finish provides protection in any environment
- ✓ Adjustable mounts allows precise setting of beam angle
- ✓ Wiring harness with relay, quick connector and illuminated switch included with every light

DESCRIPTION

When space is limited for your lighting options, look to the Explorer LED Single Row Light Bars for the solution. These high performance LED Light Bars produce an amazing amount of illumination in a sleek low profile design. Each unit houses a combination of spot and flood reflectors to project the maximum amount of light on your path. Easy to adjust side mounts make precise setting of the light angle a snap. Managing the heat produced by the light is the integrated heat-sink for years of long lasting consistent performance.

FEATURES

- ✓ Cree high output 3W LEDs produce ultra bright light
- ✓ 50,000+ hours of LED life
- ✓ Tuned chrome reflectors engineered to project maximum amount of light

DESCRIPTION

The hard-working Explorer LED Sport Lights can be mounted just about anywhere you need illumination. Whether on the trail or at your work site, these high-powered LEDs and precision-tuned optics pack a punch by projecting the maximum amount of light possible. Each unit is completely waterproof and dustproof to handle whatever Mother Nature can dish out. Integrated heat sinks keep heat under control for lasting performance.

FEATURES

- ✓ Cree high output 5W LEDs produce ultra bright light
- ✓ 50,000+ hours of LED life
- ✓ Tuned chrome reflectors engineered to project maximum amount of light
- ✓ Cast aluminum housing with integral heat-sink provides durable structure and efficient cooling
- ✓ Shockproof, waterproof and UV-shielded to guard against the elements
- ✓ Compact low-mass design for easy installation
- ✓ Durable anodized polyester powder coat finish provides protection in any environment
- ✓ Adjustable mounts allows precise setting of beam angle
- ✓ Wiring harness with relay, quick connector and illuminated switch included with every light

Also Available:
Chrome - 9003

SPOT 6"

- ✓ 100-watt light features special shock absorbing rubber gaskets around the lens, plus double rubber anti-vibration mounts
- ✓ Wiring is protected by flexible metal conduit
- ✓ Available in high-gloss black or polished chrome finish, with hard plastic cover
- ✓ Wiring harness sold separate

Height w/ Mount	Width	Depth
5.375"	7.625"	3.375"

SPOT LIGHT BEAM

9002

DRIVING 6x9

- ☑ Bright 100 watt high performance driving light with the versatility of a driving/flood light
- ☑ Available in high-gloss black with hard plastic cover
- ☑ Wiring harness sold separate

Height w/ Mount	Width	Depth
8"	7.125"	2.48"

FLOOD LIGHT BEAM

9200

PAIR PACK

- ☑ Two clear driving lights, complete wiring and switch kit, in one high-performance package
- ☑ Lights are 55-watt quartz/halogen bulbs for enhanced efficiency
- ☑ Multi-position mount facilitates installation and positioning
- ☑ Available with fog light or driving light lenses, in black ABS housings

Height w/ Mount	Width	Depth
9"	8.582"	5.076"

LIGHT BEAM

9101

PRO COMP 100

- ☑ Quartz/halogen 100-watt H3 bulb
- ☑ A high powered light easily adaptable to grill guards, pro-runner front bumpers, and many mount locations
- ☑ Wiring harness sold separate

Height w/ Mount	Width	Depth
5.375"	7.625"	3.375"

FLOOD LIGHT BEAM

9011

HANDHELD SPOTLIGHT

- ☑ 55 watts of lighting power in the palm of your hand – ideal for emergencies
- ☑ Includes 12-foot coiled power cord that plugs into any 12V cigarette lighter receptacle
- ☑ Available in high impact black ABS housing with built-in handle and on/off switch

SPOT LIGHT BEAM

9400 / 9301
DUAL SINGLE

SWITCH KIT

- ☑ Heavy duty switch kits
- ☑ Single or dual

H3 HALOGEN BULBS

- ☑ High quality quartz halogen H3 bulbs
- ☑ Packaged each for individual sale
