TECHNICAL TABLE OF CONTENTS

PISTON PINS (O.E.M. Replacement Pins)

ProX Racing Parts offers a wide range of piston pins in many sizes and specifications. We offer straight wall and tapered wall pistons pins. Our chromed pistons pins are specially designed for the application. Every **ProX** piston pin is machined precisely and treated to get the best hardness and properties to stand the extreme conditions where it is used for.

PISTON CLIPS (O.E.M. Replacement Clips)

ProX Racing Parts offers a wide range of clips for many piston diameters in different styles depending on the application:
- C-style
- G-style

Piston clips are not just a circled wire. They avoid the pin to move in the piston bosses. Do not underestimate the forces on the pin during operation.

PISTON PIN BEARINGS (O.E.M. Replacement Bearings)

ProX offers a complete line of piston pin bearings for the Dirtbike, ATV, PWC and 50cc/scooter segment. The pistons pin bearings are manufactured by the leading Japanese OEM factories. All pistons pin bearings are designed and developed to OEM specifications and are a direct and cost efficient OEM replacement. Full line of piston pin bearings for Dirtbike, ATV, PWC and 50cc/scooter available from ready stock.

ProX Piston Pin Bearing features
- Manufactured by leading Japanese OEM factories.
- Designed to exact OEM specifications to be a direct and cost efficient OEM replacement.
- Complete line for Dirtbike, ATV, PWC and 50cc/scooter available from stock.

CRANKSHAFT ASSEMBLIES (O.E.M. Replacement Crankshaft)

ProX crankshaft assemblies come as complete and are ready for easy installation. The cranks are all engineered, assembled and precision trued after OEM specifications. The high quality forged connecting rodkit, bearings and precision machined crankwebs will meet or exceed the OEM crank in performance and durability. All **ProX** crankshaft assemblies are completely rebuildable with genuine **ProX** connecting rodkits.

CONNECTING ROD KITS

ProX Connecting Rod Kits are manufactured by leading OEM factories in Japan and made out of the toughest alloys available today. The rods are double forged using dedicaded forgings. This process maintains superior strength, durability and dimensional consistency through improved grain flow. A so called barrelling surface treatment smoothly blends the forging surface preventing against microcracks to appear. Our **ProX** oiling slots are precisely located to maximize lower rod oiling and extend bearing life. OEM specifications and tolerances are meticulously maintained, a guarantee for easy installation and trouble free performance. **ProX** Connecting Rod Kits come complete with Crankpin, Big-End Bearing, Small End Bearing and Washers.

ProX Rod Kit Features

- Manufactured by leading Japanese OEM factories.
- Double forged using dedicaded forgings to maintain superior strength and durability.
- Additonal barrelling surface treatment preventing against microcracks to appear.
- Designed to exact OEM specifications to be a direct and cost efficient OEM replacement.
- Complete line for Dirtbike, ATV, PWC and 50cc/scooter available from stock.

BIG END PINS

(O.E.M. Replacement Pins)

Our chromed crank pins are specially designed for the application. Every **ProX** crank pin is machined precisely and treated to get the best hardness and properties to stand the extreme conditions where it is used for. Our 4 stroke crank pins have precision located oil canals to maximize oiling under extreme conditions.

CRANKSHAFT BEARING & SEAL KIT

ProX crankshaft bearings and seals are manufactured by the leading OEM factories in Japan. All the bearings and seals are made to exact OEM specifications to ensure maximum performance and durability. The kits are assembled with all crankshaft bearing and all crankshaft oilseal where aplicable. No need to figure out all the separate parts, just one partnumber for easy ordering. This kit will be the easiest and best replacement when doing a bottom-end rebuild on your dirtbike or ATV.

CRANKSHAFT BEARINGS (O.E.M. Replacement Bearings)

Prox offers a wide range of high quality crankshaft bearings. A careful selection of Japanese OEM style bearings is available for many applications. The range of bearings varies between the standard bearing upto bearings with specific and very dedicated specs for the application. Bearing are all manufactered under very strict tolerances to ensure optimal performance and durability.

CRANKSHAFT OILSEAL SETS (O.E.M. Oilseals)

ProX offers a wide range of crankshaft oil seals for the MX, ATV and PWC segment. The major part of the crankshaft oil seals are manufactured by the OEM factories in Japan. Premium base materials are made to OEM specs and tolerances for steady and guaranteed quality and superior durability! The **ProX** crankshaft oilseals are assembled in sets to be the easy and cost efficient OEM replacement for each application in the MX, ATV or PWC segment.

CAM CHAINS

ProX is offering a wide range of camchains for the MX, ATV and Roadbike market. For the supply of the camchains **ProX** has a successful cooperation with Borg Warner in Japan. Borg Warner is a big name in the industry and is known as one of the main suppliers to many OEM companies worldwide. The quality is proven and the range of products is very wide. Since the cooperation between **ProX** and Borg Warner the product program has increased significantly and a complete line of camchains for MX, ATV and Roadbikes is available from ready stock.

ProX Camchain features

- Manufactured in Japan by Borg Warner.
- Designed to OEM specifications.
- Strong M-type chain which has special heat treated pin plus advanced pin and link connection for maximum performance and durability.

HI-PERFORMANCE CAMSHAFTS

The **ProX** special "torque" camshafts are designed to bring better performance in the area that where you can really use it, the bottom-end and midrange. In average the **ProX** Hi-performance cams gain around 5% on horsepower and around the 4-5% of torque. Next to the extra power the Hi-performance cams will offer improved ride-ability and instant throttle response.
The camshafts are manufactured from high quality premium material. The use of dedicated forgings and precision machining will ensure high performance and maximum durability. The drop-in type cams come complete with high quality bearing and sprocket for easy installation without the need of further engine or head modifications.

ProX Hi-Performance Camshaft features

- Manufactured from high quality premium material.
- Specific heat-treatment to offer very high thermal fatigue resistance.
- Precision machined and polished for reduced friction and maximum durability.
- Special "torque" designs to increase bottom-end and midrange power.
- Drop-in type camshafts without the need for further engine or head modifications.
- All camshafts are dyno and field tested for proven results.
- Camshafts will work with **ProX** as well as OEM valve train components.

ENGINE VALVES (O.E.M. Replacement & High Performance Valves)

ProX offers a complete range of high quality Titanium Valves for MX and ATV segment. The **ProX** Titanium Valves are forged in one piece for extra strength. The use of a special Ti3Al material in combination with a CrN coating will give the valves better material properties under high temperatures offering greater durability over the OEM Titanium Valves.

Titanium Valve Features

- Forged in one piece for extra strength.
- Use of special Ti3Al for better material properties under high temperatures.
- CrN coating for extra hardness and less friction between valves and guides.
- Greater durability than OEM Titanium Valves.
- Full range of products for MX and ATV available from stock.

Next to the Titanium valves **ProX** also offers a complete line of steel valves. The **ProX** steel valves are manufactured of premium grade steel to exact OEM specifications and tolerances. The **ProX** steel valves are made by the leading OEM factories in Japan and are a direct and cost-efficient OEM replacement. **ProX** steel valves can be used in combination with all the OEM valve train components like valve springs, guides, bases and retainers.
A complete line of steel valves is available for Dirtbike and ATV.

Steel Valve Features

- Manufactured by the leading OEM factories in Japan.
- Made to exact OEM specs and tolerances.
- The steel valves are a direct and cost efficient OEM replacement.
- Complete range for Dirtbike and ATV available from ready stock.

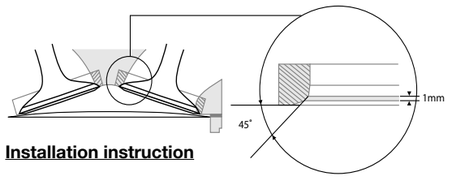
Valve Installation Instructions



ProX Titanium Engine Valves are manufactured in Europe to the highest quality standards and specifications.
By using the latest state of the art Titanium material and coating, the valves have improved properties over the original item.
We would like to support you to achieve maximum durability.
Titanium is a very exotic material which requires you to work after following installation instructions.

Installation instruction

1. Do not touch the valve surface with your bare hands, use gloves or pre lube the valve with engine oil, these precautionary measures will reduce the risk of corroding the coating.
2. Never use a lapping compound on a new valve, take a dummy valve to do this grinding operation.
3. Please take notice; during every rebuild the valve seats must be machined, this to assure a 100 % valve to seat contact and making the seat free from the hardened shell. The width of the contact zone on a valve seat with the valve face should be at least 1mm. In general the angle is 45°, however consult the O.E.M. specification first.
4. New valve seats should be soft, material as Nodular Iron, Bronze, or Beryllium-Copper, all heat treated to Rockwell, RC32 or less. Most of the original valve seats used in combination with titanium valves are made of such an alloy.
   Attention:
   After every rebuild the seat is getting thinner which makes the heat transfer worse, increasing the natural hardening process. The back set position of the valve (Recess) after every time one machines the valve seat, worsening the engine's breathing. Besides of reducing the engine's efficiency this also effects the cooling down effect negatively.
5. Use only original valve springs or ones with forces not exceeding the originals.

STEEL VALVE & SPRING KITS

ProX Steel Intake and Exhaust Valve & Spring Kits. This is offered as an alternative where the OEM application uses Titanium Valves. Titanium is a very exotic material that requires a strict installing procedure to make it work well. The OEM Titanium valve quality in general is rather poor while high-end titanium valves are very expensive. Titanium valves need to be replaced at a regular base, resulting in many expensive rebuilds.

ProX has now developed the Steel Intake and Exhaust Valve & Spring Kits, containing a set of steel intake or exhaust valves plus a set of specially designed stonger valve springs. The **ProX** kit juts replaces the OEM valves & valve springs and can be installed using the OEM retainers, bases and valve seats. The steel valves offer increased durability and easily extends 3 times the lifespan of the OEM Titanium valves. Due to the extra weight of the steel the heavier valve spring must be used!

Steel Valve & Spring Kit Features

- Steel valves for increased durability and less wear under extreme conditions.
- Nitrided valves offer high microhardness while supersmooth surface finish reduces friction between stem and guide.
- Special stronger valve springs deal with the extra weight of the steel valves.
- Spring are made from premium Chrome Vanadium Steel for higher performance and durability under high RPM.
- Fully rebuildable with OEM retainers, bases and seals without the need of any further engine modifications.
- Comes as complete package for quick, easy and cost efficient replacement.

VALVE SHIMS

ProX valve shims are made of premium materials. Specific heat-treatment will ensure hardness of the shims to offer maximum durability and less wear. Next to the specific heat-treatment the shims are precision machined to match exact size.

The **ProX** valve shims are available in complete assortment boxes as well as refill kits. Complete assortment boxes contain a full line of 7.48, 8.90, 9.48 or 10.00 mm shims in thicknesses from 1.20 mm. upto 3.50 mm. with 3 items each size. Refill kits are available for each individual size and are packed per 5 pcs. **ProX** valve shims are the cost efficient and easy replacement for the expensive OEM shims!

ProX Valve Shims features

- Specific heat-treatment ensuring hardness to offer maximum durability and less wear.
- Precision machined to match exact size.
- Available in complete assortment box as well as individual refill kit for all dimensions.
- Cost efficient and easy replacement for expensive OEM shims.
- Will fit wide variety of Dirt Bikes, Road Bikes and ATV's.

CLUTCH BASKETS (O.E.M. Replacemant Clutch Baskets)

ProX offers a complete line of clutch baskets kits for the Dirtbike and ATV segment. The **ProX** clutch baskets are manufactured from Billet 7075 alloy, like the material used in the aircraft and aerospace industry. The use of this material offers improved strength over the OEM die-cast alloy baskets. The **ProX** clutch baskets are machined to exact OEM specifications and tolerances for perfect fit. The complete surface of the baskets is hard anodised for higher mechanical properties and resistance for impact and fatigue. Most clutch baskets come complete with fasteners and damper rubbers for easy installation. The **ProX** baskets will work together with other **ProX** clutch components as well as OEM clutch components. A full line of **ProX** clutch baskets for Dirtbike and ATV models is available from stock.

CLUTCH PLATES

ProX clutch friction and steel plates are manufactured by the leading OEM factories, mainly in Japan. All friction plates are made to exact OEM specifcations and offer maximum performance and durability. Steel plates offer longevity, durability and feel of the OEM. **ProX** clutch plates sets contain a complete pack of friction or steel plates for the application you need and are the easy and best replacement for your clutch. All plates can be used in combination with other **ProX** clutch components like the hard-anodised clutch baskets, Inner Hubs, Pressure plates and the heavy-duty clutch spring kits.

ProX Clutch Plate Set features

- Manufactured by the leading OEM factories.
- Made to exact OEM specifications to offer maximum performance and durability.
- Complete Friction or Steel plate sets per application for easy replacement.
- Can be used in combination with all other **ProX** or OEM clutch components.
- Full program for MX and ATV models available from ready stock.
- The best replacement and the choice for every professional rider.

FRICTION PLATE SETS

ProX clutch friction plates are manufactured by the leading OEM factories in Japan. All friction plates are made to exact OEM specifications and offer maximum performance and durability.

HEAVY DUTY CLUTCH SPRING KITS

ProX Heavy Duty Clutch Spring Kits are approximately 10% stiffer as the OEM spring and will reduce clutch slippage under extreme conditions for maximum control and instant drive.

ProX Heavy Duty Clutch Spring features
- Made from the toughest materials available.
- Pre-set, shotpeened, heat treated and designed to exceed OEM performance and durability.
- 10% stiffer as the OEM springs to reduce clutch slippage under extreme conditions.
- Sold in complete kits for each application.
- Full range of spring kits for MX and ATV models available from ready stock.
- The best replacement and the choice for every professional rider.

CLUTCH REDUCER RODS

You might have well experienced the increasing clutch clearance on the CRF250R and CRF450R bikes when the engine is getting hotter. This additional and annoying clearance is caused by the difference in expansion rate of the alloy crank case and the steel rod that operates the clutch. Many racers tend to adjust their clutch when hot. However, then the problem is a partially operated and slipping clutch when the engine is cold as there now is a "negative clearance". **ProX** is now offering a solution to this problem with the specially developed Clutch Reducer Rod. This Clutch Reducer Rod is designed from different high grade materials using an alloy center of the rod combined with hardened steel rod ends.The alloy rod has an equal thermal expansion as the alloy engine cases so the additional clearance is reduced to a minimum no matter if the engine is cold or warm. As the alloy has weak mechanical properties on wear, the rod has 2 hardened steel tip to eliminate wear and offer superior durability.

ProX Clutch Reducer Rod features
- Manufactured from high quality premium materials.
- Reduces clutch slip on the weak clutch construction of later model CRF250R and CRF450R.
- Hardened steel rod ends prevent wear and offer superior durability.

CONTROL CABLES

ProX Clutch & Throttle Cables are high quality products that meet or even exceed OEM quality. All cables are equiped with pre-lubricated nylon inner sleeves and tightly coiled inner casings, this combined with a flexible PVC outer jacket and strong steel inner cable offers high durability and smooth control to ensure carefree driving. The cables are easy to assemble due to the appropriate length with all necessary mounting parts. ProX offers a wide range of control cables for an extended range of applications.

TOP END GASKET SETS

ProX gasket sets are manufactured from premium materials and the top-end gasket set is assembled as a set containing all the needed components for a top end rebuild. The base material used for the gaskets exceeds OEM standards and offer excellent seal between the surfaces. Assembled specifically for each and every application makes it very easy to order all the needed components for your rebuild by ordering one partnumber.

ProX Top-End Gasket Set features
- Manufactured from Premium materials for excellent seal between the various surfaces.
- Top-end sets contain all needed components for a top-end rebuild.
- Available for a large selection of Offroad, ATV or PWC applications.
- Can be used in combination with all other **ProX** or OEM clutch components.

SNOW TOP END GASKET SETS

The **Prox** snowmobile top-end gasket sets are manufactured by the leading factories in the industry to exact **ProX** specifications to ensure top quality sealing. Precision engineering and the use of first class materials guarantee the quality you demand from a gasket. The gaskets are complementary to our snowmobile pistons, so we developed a top end gasket kit containing all the needed components for a top-end rebuild on your snowmobile engine.

HEAD & BASE GASKET SET

The **ProX** Head & Base gasket sets gaskets are made of all premium base materials. Each gasket is precision cut for optimal fit and prefect seal. The new **ProX** Head & Base gasket sets just contain 1 head gasket and 1 base gasket. This results in a more cost efficient kit when not all components are being replaced. A full range of Dirtbike Head & Base gasket is available.

ProX Head & Base Gasket Features :

- Manufactured of all premium base materials
- Precision cut for optimal fit and perfect seal
- Cost efficient assembly
- Full range of Dirtbike sets available

DRIVE CHAINS

ProX has developped a premium line of Roller Chains to team up together with the **ProX** front and rear sprockets. The **ProX** Roller Chain is a top quality chain, exclusively manufactured for **ProX** by the reputable and leading OEM factory in Japan.
All **ProX** chains are made using highest grade Japanese steel. The MX chains are assembled out of various different compenent that all have their specific and crucial function to make the chain a high quality product. Pins do feature an exclusive pin treatment providing an extremely hard outside coating, leaving a softer inside to increase strength while reducing overall chain wear. The pins are heavy press fitted and do feature quad staked riveting for ultra strong connection.
The solid bush inside the shot-peened, solid roller and plates are all heat treated to offer an incredible tensile strength in combination with low friction and high wear resistance. Inner plates are designed in a specific shape allowing less material to be used which in combination with the unique lightning holes results in a 3% over-all lighter chain without compromising tensile strength. Specifically for the Offroad, Enduro, ATV and big 4-Stroke Motocross bikes **ProX** also offers a lightweight, narrow type X-Ring chain using a QX-type seal offering 40% less friction and at least 150% increased durability over a standard MX Chain.

All **ProX** chains are pre-stressed and pre-stretched to reduce initial chain stretch and immediate performance and come with a clip type chain link as standard.

ProX Rollerchain features

- Exclusively manufactured for **ProX** by the reputable and leading OEM factory in Japan.
- Pins features special treatment providing an extremely hard coating leaving softer inside to increase strength while reducing overall chain wear.
- Pins are heavy press-fitted and do have quad staked riveting for ultra strong connection.
- Solid type bush, roller and plates are all heat treated for incredible tensile strength in combination with low friction and high wear resistance.
- Inner plates are designed in specific shape and in combination with unique lightning hole resulting in 3% overall lighter chain.
- X-Ring type chain uses QX-type seal offering 40% less friction and at least 150% increased durability over standard MX chain.
- All chains are pre-stressed and pre-stretched to reduce initial chain stretch and immediate performance.
- Chains come with a clip type chain link as standard.
- Separate chain links available for each type of chain.

FRONT SPROCKETS (GROOVED & ULTRALIGHT)

The ProX grooved ultralight front sprockets are the top level quality sprockets. Manufactured from low corrosion SCM435 Ni-Chrome Molybdenum steel featuring a low carbon core to prevent breaking while the case hardened surface offers maximum wear resistance. Precision CNC machining ensure a perfect fit and the lightweight design including lightening holes offer ultimate performance. The sprockets also come with self cleaning dirt grooves to extend chain and sprocket life to the max. The ProX grooved ultralight front sprockets bring the perfect balance between strength, performance and longevity! A full range of Dirtbike front sprockets are available in a wide variety of teeth.

ProX Grooved Ultralight Front Sprocket features

- Manufactured from low corrosion SCM435 Ni-Chrome Molybdenum steel.
- Low carbon core to prevent breaking and case hardened surface for maximum wear resistance.
- Precision CNC machined for perfect fit and lightweight design for ultimate performance.
- Self cleaning dirt grooves to extend chain and sprocket life to the max.
- Offering the perfect balance between strength, performance and longevity.

REAR SPROCKETS (7075-T6 ALLOY)

The ProX alloy rear sprockets are all manufactured from high grade 7075-T6 material, one of the toughest and strongest alloys available. Complete sprocket is precision cut on fully automated CNC machines using strict tolerances which garantees perfect fit. The alloy sprockets do come with self cleaning mud grooves. Unlike many other rear sprockets, the specially designed mud grooves are positioned outside the pressure area of chains and sprocket to significantly increase durability. Mounting holes are all countersunk and cleaned for perfect fit. The alloy sprockets are machined in a lightweight but strong design that brings a prefect balance between strength, performance and durability.

ProX Alloy Rear Sprocket features

- Manufactured from premium 7075-T6 alloy for optimal durability.
- Precision CNC machined for perfect fit and lightweight design for ultimate performance.
- Special design mud grooves increases lifetime of chain and sprocket.
- Offering the perfect balance between strength, performance and longevity.
- Full range of Dirtbike sprockets available in a wide variety of teeth.

REAR SPROCKETS (ULTRALIGHT STEEL)

The ProX ultralight steel rear sprockets are all manufactured from premium quality "Qste 420 & 460" high strength steel and offer superior durability, even under the most extreme riding circumstances. The center holes are precision cut on CNC machines using tight tolerances. The mounting holes are all countersunk and cleaned for perfect fit. Teeth are cut with a special procedure called "Diamond Cut" which keeps tolerances of overall diameter and wobble under 0.2 mm. and will guarantee super smooth running. The sprockets are machined in an ultralight weight but strong design that brings a perfect balance between strength, performance and durability. A full range of ultralight steel Dirt bike sprockets are available in a wide variety of teeth.

ProX Ultralight Steel Rear Sprocket Features

- Manufactured from premium "Qste 420 & 460" high strength steel for superior durability.
- Precision CNC machined for perfect fit and lightweight design for ultimate performance.
- Offering the perfect balance between strength, performance and longevity.
- Full range of ultralight steel Dirt bike sprockets available in a wide variety of teeth.

REAR SPROCKET BOLTS SETS

Together with the 7075-T6 Alloy and Ultralight Steel rear sprockets in the range ProX also offers the rear sprocket bolt sets. Whenever changing your rear sprocket it is never recommended to re-use the old bolts and nuts again. The old bolts are usually stretched stripped while used lock nuts are worn and can loosen up very quickly giving a severe chance of chewing your hub or swingarm resulting in a possible crash and expensive repair bill.

ProX rear sprocket bolt sets contain 6 pieces of M8x25 bolts and 6 pieces of flanged nylon lock nuts. Bolts are made out of grade 12.9 high strength steel and feature a chromed surface for anti corrosion. Using a large M8 socket head wrench it strongly grabs the tool for easy installation and removal without spinning and ruining the bolt heads. The nuts are flanged and do feature a nylon lock ring preventing the nuts and bolts coming loose. The tapered heads do fit most common Japanese and European MX and Dirtbikes.

One partnumber : 07.SBSM825

ProX Rear Sprocket Bolt features

- Comes in complete set of 6 pieces bolt and nuts.
- Bolts are manufactured from grade 12.9 high strength steel featuring chromed surface for anti corrosion.
- Large M8 socket head for easy installation and removal.
- Flanged nuts feature nylon lock ring preventing nut and bolt coming loose.
- Tapered heads do fit most common Japanese and European MX and Dirtbikes.

COUNTERSHAFT SEAL KITS

The ProX countershaft seal kits are developed as an upgrade replacement for the OEM parts. The kits are supplied as complete package, consisting of an upgraded seal, a hardened bushing plus o-ring, snap ring or lock washer where applicable.
A full range of Dirtbike and ATV kits are available.

ProX Countershaft Seal Kit features
- Complete package developed as upgrade replacement.
- Upgraded oilseal.
- Hardened steel bushing.
- O-rings, snap ring or lock washer supplied where applicable.

CHAIN ROLLERS

ProX has taken up another new line in their range, the ProX chain rollers. This is a complete line of OEM replacement and universal chain roller for our Dirtbike program. Special Polyurethane material used in the universal chain rollers offers superior hardness to guarantee long life while the sealed precision bearings have 2 additonal outer seals to protect the bearing against water and dirt. These chain rollers are one of the longest lasting chain rollers available on the market!
The hi-performance self lubricating nylon OEM replacement chain rollers will fit directly to the frame boss.

ProX Chain Roller features
- Made from Hi-performance self lubricating nylon for guaranteed long life
- Heavy duty chain roller have additional seals to increase bearing life
- Universal 34, 38 and 43 mm. chain rollers are designed to be an OEM replacement
- Full line of Dirtbike models available

BRAKE PADS

The ProX brake pads are produced under a very strict sintering process. In this sintering process metalic particles are fused together in combination with heat and pressure. Sintered brake pads in general have superior material properties which very well resist high temperatues during heavy braking and offer greater durability over organic brake pads. The ProX sintered brake pads offer strong controlable brake power in combination with long life. The pads are designed to come as a softer compound front pad and little harder compound for the rear pads. A complete range of sintered brake pads for MX, Dirtbike and ATV is available from ready stock!

ProX Sintered Brake Pad Features

- Sintered brake pads for strong, controlable power and long life.
- Complete range of sintered brake pads for MX, Dirtbike and ATV available from ready stock.

WHEEL BEARING & SEAL KITS

The **ProX** wheel bearing and seal kits are a nice assembly complete with all needed wheel bearings and dustseals to rebuild the complete front or rear wheel of your bike. The bearings are manufactured to strict tolerances for optimal performance while the increased sealing of the dustseals will keep water and dirt out to ensure maximum durability. With ordering only just one partnumber the **ProX** wheel bearing & seal kits are a simple and cost-efficient solution for replacing your worn wheel bearings.

WHEEL SPACER KITS

ProX offers a line of Wheel Spacer Kits. Being used in MX and Offroad the OEM wheel spacers often see water and dirt. During riding the water and dirt are grinding the spacers and will cause significant wear. Wheel spacer should therefor be checked and, if necessary, replaced during every wheel bearing service.
The **ProX** Wheel Spacer Kit is a complete and direct replacement for the OEM parts. The **ProX** alloy spacers feature a hardened steel shell pressed over the alloy providing a superior wear surface and resulting in longer wheel spacer and bearing life. Black anodising on the alloy spacers give a great corrosion resistance and appearance. These alloy spacers come with the wear properties of hardened steel but at the light weight of alloy.

The **ProX** Wheel Spacer Kit is the perfect replacement that extensively outlasts the OEM spacers!

ProX Wheel Spacer Kit features
- Complete and direct replacement that extensively outlast the OEM parts.
- Alloy spacers feature a hardened steel shell providing superior wear surface.
- Showing wear properties of hardened steel while keeping the light weight of alloy.

30 x 51 x 15	24.1010
30 x 52 x 16	24.1032
30 x 55 x 17.5	24.1043
30 x 55 x 19	24.1041

STEERING BEARING KITS

The **ProX** steering bearing kits are a nice assembly complete with upper and lower steering bearings plus dustseals to replace the worn out parts on your bike or ATV. The tapered bearings are manufactured to strict tolerances for optimal performace while the increased sealing of the dustseals will keep water and dirt out to ensure maximum durability. With ordering only just one partnumber the **ProX** steering bearing kits are a simple and cost-efficient solution for replacing your worn steering bearings.

FRONTFORK OIL SEALS & DUST SEALS

(O.E.M. Replacement oiseals & dustseals)

ProX offer a wide range of frontfork oilseals and dustseals for the MX and Dirtbike segment. Most of the seals are manufactured by the leading OEM factories in Japan such as NOK. The seals are all manufactered from high quality base materials and are made to OEM specs and tolerances to guarantee quality and superior durability. Forkseals and dustseals are available in sets of 2 oilseals or 2 dustseals, in bulk packaging of 10 oilseals or 10 dustseals and also in sets of 2 oilseals plus 2 dustseals for a complete frontfork rebuild.

ProX Fronfork Oilseals and Dustseals features

- Manufactured by the leading OEM factories in Japan such as NOK.
- High quality base materials made to OEM specifications and tolerances for guaranteed quality and superior durability.
- Available separately or in sets to be a simple and cost efficient OEM replacement.
- Full range of oilseals and dustseals for MX and Dirtbike available from ready stock.

FRONTFORK BUSHING KITS

ProX frontfork bushing kits come as complete replacement kits including guide & slide bushings, copper washers and fork seal snap rings. The bushings are fully teflon coated resulting in less friction and maximum durability. The kits have been tested dynamically on durability and performance and is available for many Dirt bike applications.

REAR SHOCK SEAL HEAD KITS

The **ProX** rear shock seal head kits are designed to be an upgraded replacement for the OEM parts. The rear shock seal kits are supplied as a complete assembly which is ready for installation into the rear shock body. The rear shock seal heads are manufactured from a 6061-T6 Alloy body and contain an internal guide bushing, oil seal, dust seal, o-ring and snap ring.
The redesigned seals offer superior sealing and is a major upgrade over the OEM seals.
A complete and competitively priced range of rear shock seal head kits for MX and Offroad bikes are available from stock.

SUSPENSION BEARING KITS

ProX swingarm bearing kits and swingarm linkage bearing kits are available for a huge selection of Dirtbike applications. The complete rebuild kits come with all necessary parts you need to completely rebuild your swing arm. The bushings are case hardened and plated to prevent wear and corrosion while pins are through hardened and precision ground. The washers are made from Teflon for increased service life. **ProX** also offer each individual upper and lower shock bearing in case there's only need to replace the shock bearing.
Please note, all linkage bearing kits do include the lower shock bearing kits.

ATV BEARING & SEAL KITS

ProX offers a wide range of different bearing kits for the ATV market. A complete listing of ATV wheel bearing kits, ATV swingarm bearing kits, ATV Linkage Bearing kits, ATV upper and lower A-arm bearing kits as well as ATV front and rear shock bushing kits. The complete rebuild kits come with all necessary components you need to replace the worn out parts on your swingarm, A-arm or suspension of your ATV. Bushings are case hardened and plated to prevent wear and corrosion while pins are through hardened and precision ground. Washers are made from Teflon for increased service life. **ProX** also offer each individual upper and lower shock bearing in case there's only need to replace the shock bearing.
Please note, all linkage bearing kits do include the lower shock bearing kits.

SWINGARM BEARINGS

(O.E.M. Replacement Bearings)

Maintain your swingarm with Genuine swingarm bearings offered by **ProX**. The highest quality, Japanese OEM style bearings are produced according strict OEM tolerance and will bring the very best performance and durability.

TIE ROD END KIT

Tie rod ends play an important role in the control and stability of the vehicle. The ball joints wear out significantly due the influence of inordinate movement by driving on rough terrain. Excessive play in the steering system will occur with worsened control as a result.
ProX offers a highly durable replacement made to exact OEM specifications to ensure maximum reliability. The ProX Tie Rod End Kit contain all needed mounting parts and will be the easiest and best choice for every professional user.

AIR FILTERS

ProX Air Filters are high quality filters manufactured from the finest materials only. Premium dual stage bonded foam is used to filter out even the smallest dirt particles and at the same time offers optimal airflow. A thick, flat foam sealing ring provides a perfect seat against the airbox, protecting against dirt and sand even in the most extreme riding conditions. The exclusive design and special production process brings the perfect combination of protection and performance!

ProX Air Filters are available for a wide range of Dirtbike and ATV model!

ProX Air Filter features

- High quality filters manufactured from the finest materials only.
- Premium dual stage bonded foam filters all dirt and offer optimal airflow.
- Thick, flat foam provides perfect seat against airbox for maximum protection.
- Exclusive design and production process bring the perfect combination of protection and performance.

ELECTRONIC FUEL INJECTION CONTROLLER

More and more technology is being added to modern day engines. Many of the new Dirtbikes and ATV have their carburettors changed with Electronic Fuel Injection. For many people Electronic Fuel Injection is a high-tech feature that is not very simple to adjust. ProX is introducing a new line of Electronic Fuel Injection Controllers that will make it very simple and easy to adjust your motor's characteristics. The ProX EFI Controller is very easy to use as it is all plug 'n play!

The ProX EFI controller easily plugs into the injectors of the engine and works from the ECU. It gives you three basic zones that can be adjusted, actually similar to a carburettor. One zone sets your "pilot jet" for idle and cruise, another zone sets your "needle jet" for acceleration and a third zone set your "main jet" for heavy loading and wide open throttle. A big benefit of the ProX EFI Controller is that for using the product no computer or dyno is needed. With the push of a button you can easily adjust fuel flow and fine tune for modifications such as high compression pistons, cams, intake mods an d exhaust.

ProX EFI Controller features
- Simple plug 'n play installation.
- Easy control by the push of a button.
- No computer or Dyno needed, easily to adjust between riding sessions.
- 3 zones to adjust, similar to a carburettor, for simple fine tuning in the preffered area.

VELOCITY STACKS

ProX Velocity Stack features
- Manufactured from high quality alloy with supersmooth finish for high flow.
- Adjusts flow offering significantly improved drivability and increased torque in the lower rev range.
- No need to adjust ECU.

HOUR METERS

WIRED HOUR METERS
ProX offer two different wired meters. The Hour Meter, which shows the hours the engine has ran and the Hour/Tach meter that displays the engine running hours and RPM as well when the engine is running. When the engine is off the meter shows total hours accumulated. Both meters' display can be read at all times, with engine off or on. There is no clicking like mechanical meters. Also the encapsuled epoxy case is water resistant and shock proof.

ProX Hour/Tach Meter Features :

- Works on all 2/4 stroke gasoline engines up to 2 cylinder including newer FI bikes.
- Easy installation, no wiring necessary just plug and play.
- Adjustable RPM input for dual or single spark ignition systems.
- Real time reading of tach upto 20.000 rpm.
- All flash alerts count down the last 10 hours left before service.
- All flash alerts are easily reset with a touch of a button.
- Meter also includes timer mode to record individual riding sessions.
- Total hours accumulated is not re-settable and cannot be erased.
- No power required, includes a 10 year battery sealed inside.
- 100% epoxy encapsuled casing is water restistant and shock-proof.

WIRELESS HOUR METER
ProX now has a state of art Wireless Hour Meter! Unique by eliminating wires the **ProX** Wireless Hour Meter is a surface mounted vibration activated hour meter, which provides what today's Powersports user needs and expect from hour meters.

Motorcycle engines have strict maintenance schedules that must be followed to honor the service life of components and secure reliability of the engine. Knowing what to service and when, is key to a successful preventative maintenance program for your motorcycle, ATV, PWC, boat or snowmobile.

Installation is easy without needing to install a wire. Solid state electronics, modern LCD, superb environmental durability and enhanced functionality offer the best of all possibilities without sacrifice to performance, operation or budget.

The wireless hour meter display can be read at all times, with engine off or on. The encapsulate epoxy case is water resistant and shock proof.

With the **ProX** Wireless Hour Meter you can measure your hours for hours!

ProX Wireless Hour Meter Features :
- Easy installation, no battery and wiring required.
- Sensitivity can be set to high or low.
- Partial hours can be reset to zero.
- Works on all 2/4 stroke gasoline engines.
- 100% epoxy encapsulated casing is water resistant and shock-proof.
- Automatic Roll over.
- Records and Displays to 99999 hours,
- Stand-by time up to over 45.000 hours.

FORK PROTECTORS

The ProX neoprene fork seal protector is a great and simple product to prevent blown fork seals from dirt getting stuck in the seal lips. Simply sliding down the neoprene sleeve to your fork leg, covering the seals and you're good to go. The sleeve will be kept in place with zip ties provided.

The stretchy and durable neoprene material protects the fork tube and fork seal from sand, rocks and other dirt while it does not deteriorate from fork oil.

ProX fork seal Protectors are sold in pairs and do fit various diameter of fork legs from 44 mm. up to 50 mm. Also each set is available in 2 lengths, a 360 mm length will cover the entire fork tube and a 130 mm length will cover the fork seal and short part of the fork tube. The full length 360 mm. can be used for bikes using open type fork leg guards and the shorter 130 mm. type can be used for most bikes using closed type fork leg guards.

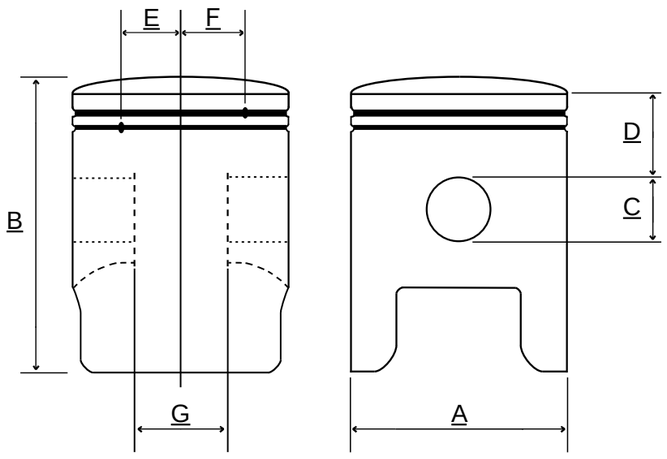
ProX Racing Parts neoprene fork seal protector features :

- Ultimate protection against sand, rocks or dirt
- Available in different length for optimal fit
- Simple and easy fit
- Sold in pairs including zip ties

Partnumbers	Description
40.FSP1304450	ProX Neoprene Forkseal Protector 130 x 44-50 mm.
40.FSP3604450	ProX Neoprene Forkseal Protector 360 x 44-50 mm.

PISTON DIMENSIONS

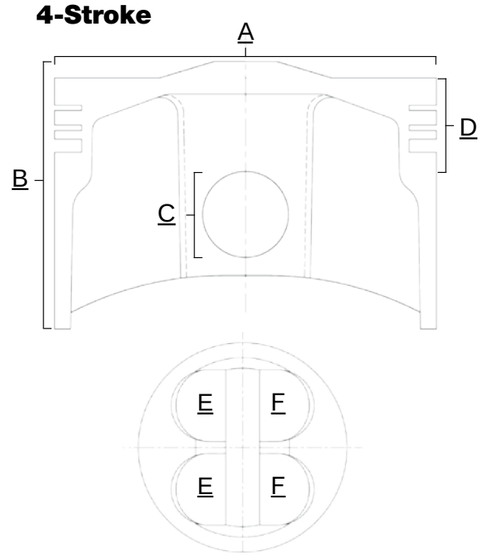
2-Stroke



A = Diameter *
B = Total height
C = Pinhole diameter
D = Compression height
E = Ring location pin position from center
F = Ring location pin position from center
G = Pin boss spacing

All dimensions in mm.
* In case of cast iron cylinder, piston bore diameter is mentioned
* In case of nicasil cylinder, actual piston diameter is mentioned

4-Stroke



A = Diameter *
B = Total height
C = Pinhole diameter
D = Compression height
E = Intake valve pocket diameter
F = Exhaust valve pocket diameter

All dimensions in mm.
* In case of cast iron cylinder, piston bore diameter is mentioned
* In case of nicasil cylinder, actual piston diameter is mentioned

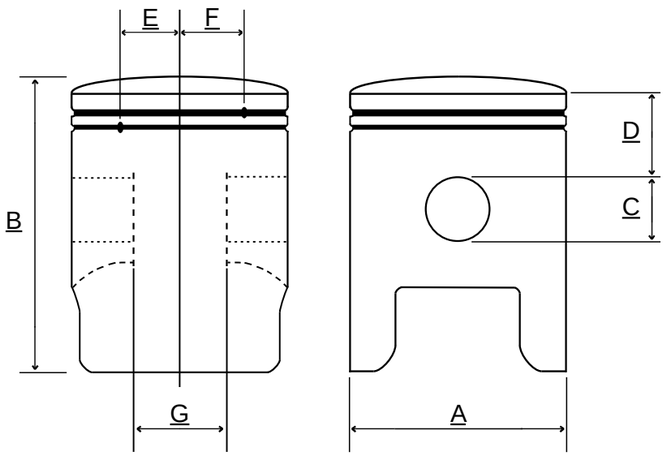
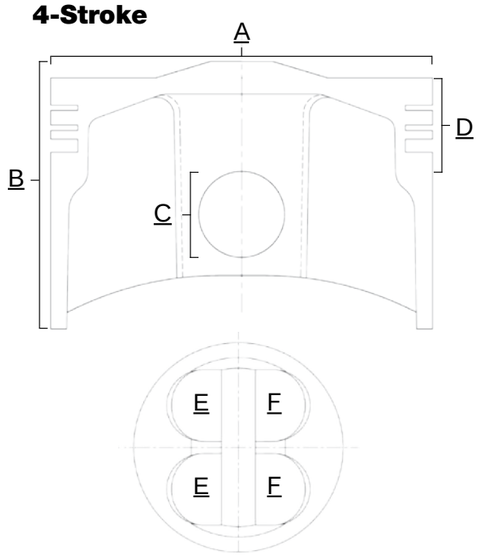
2-Stroke



A = Diameter *
B = Total height
C = Pinhole diameter
D = Compression height
E = Ring location pin position from center
F = Ring location pin position from center
G = Pin boss spacing

All dimensions in mm.
* In case of cast iron cylinder, piston bore diameter is mentioned
* In case of nicasil cylinder, actual piston diameter is mentioned

4-Stroke



A = Diameter *
B = Total height
C = Pinhole diameter
D = Compression height
E = Intake valve pocket diameter
F = Exhaust valve pocket diameter

All dimensions in mm.
* In case of cast iron cylinder, piston bore diameter is mentioned
* In case of nicasil cylinder, actual piston diameter is mentioned

GENERAL TERMS AND CONDITIONS OF PMI EUROPE B.V., whose corporate seat is in Nieuw Vennep, The Netherlands.

1. DEFINITIONS
'The Purchaser' means any individual or legal entity that has placed the order; 'the Seller' means the legal entity that has accepted the order. The Seller using these conditions is: PMI Europe B.V.

2. APPLICABILITY OF THESE TERMS AND CONDITIONS
2.1. These terms and conditions shall apply to all offers and all agreements between the Seller and the Purchaser.
2.2. These terms and conditions shall also apply to all agreements with the Seller for the execution of which third parties have to be engaged.

3. QUOTATIONS
3.1. The Seller's quotations are free of commitments and lapse fourteen (14) days after the quotation date at the latest.
3.2. Delivery dates and other time-limits in respect of services to be performed by the Seller that are mentioned in the Seller's quotations are meant to give information only: if they are exceeded, the potential Purchaser will not be entitled to any compensation or to dissolution of the agreement.
3.3. Price quotations by the Seller are, unless stated differently, based on work carried out during regular working hours and exclusive of transport, packaging, delivery and installation costs, VAT and other government levies.
3.4. A composite quotation does not obligate the Seller to deliver part of the goods included in the offer at a corresponding price, nor does this offer automatically apply to repeat orders.
3.5. The Seller shall be bound by its offer only in the event that the acceptance thereof by the potential Purchaser is confirmed in writing within 14 days.

4. DELIVERY AND PARTIAL DELIVERY
4.1. Unless otherwise agreed, deliveries, in all countries of the world, will be ex store, ex factory or ex depot. If the delivery is subject to one of the 'Incoterms', the 'Incoterms' in force at the moment the agreement is concluded shall be applicable.
4.2. The Purchaser is obligated to take possession of the purchased goods at the time of delivery or at the time the goods are to be made available to him as specified in the agreement.
4.3. If the Purchaser refuses to take possession of the goods, or fails to provide information or instructions that are essential to delivery, the goods will be stored at the cost and risk of the Purchaser. In that case, the Purchaser shall bear any additional costs, including, in any event, storage costs.
4.4. The Seller is allowed, after informing the Purchaser thereof in writing, to deliver the goods sold in parts. The foregoing does not apply if a partial delivery does not have any independent value. If the goods are delivered in parts, the user is entitled to invoice each part separately.
4.5. Packaging, if necessary, which is to be judged by the Seller, is calculated at cost price and will not be taken back.
4.6. As from the time that the goods leave the Seller's warehouse, factory or depot, the risk in the goods shall be with the Purchaser, also in the event of carriage-paid delivery. At the request of the Purchaser, the Seller will take out a transport insurance policy with respect to a delivery. This transport insurance policy will be taken out following the receipt of the Purchaser's request in writing only. The Purchaser shall bear the costs of the transport insurance concerned.

5. PERIOD OF DELIVERY
5.1 Delivery dates indicated by the Seller are approximate only and are never firm dates that must be observed on penalty of forfeiture of rights.
5.2 Accordingly, if the Seller fails to deliver in time, the Purchaser shall give notice of default to the Seller and grant the latter a reasonable period of time to fulfil its obligations after all.
5.3 The period of delivery mentioned by the Seller commences after the receipt of all necessary information and means of payment. If the order is changed prior to the date of delivery, the period of delivery will be extended accordingly.

6. TECHNICAL REQUIREMENTS ETC.
6.1. If the goods to be delivered in the Netherlands have to be used abroad, the Seller cannot be held liable for non-compliance with technical requirements, standards and/or rules prescribed by acts or regulations in the country where the goods have to be used.
6.2. At the time the contract of sale is concluded the Purchaser shall expressly mention in writing any other technical requirements set by the Purchaser with respect to the goods to be delivered and which deviate from the usual requirements.

7. SAMPLES, MODELS AND EXAMPLES
7.1. Models, samples or examples that are shown or provided by the Seller to the Purchaser, are supposed to give an indication only: the qualities of the goods to be delivered can deviate from the model, sample or example, unless it was expressly stated that the good to be delivered would be in accordance with the model, sample or example shown or provided.

8. DISSOLUTION OF THE AGREEMENT
8.1 An agreement concluded between the Seller and the Purchaser may be dissolved forthwith by the Seller in the following cases: a. if, after the agreement has been concluded, the Seller learns of circumstances that give him reason to fear that the Purchaser will not be able to meet its obligations vis-à-vis the Seller; b. if the Seller, at the time the agreement has been concluded, asked the Purchaser to provide security for the performance of his obligations and the Purchaser fails to comply herewith or complies herewith insufficiently, despite a demand letter. In the aforementioned cases the Seller may postpone its performance of the contract of sale, or to dissolve the same, without prejudice to the Seller's right to claim compensation.
8.2 In the event that there are circumstances with respect to persons and/or materials that the Seller uses or tends to use in carrying out the agreement, which are of such a nature that they make the execution of the agreement impossible or so problematic and/or disproportionately costly that the Seller cannot reasonably be expected to perform the agreement, the Seller is entitled to dissolve the agreement.

9. WARRANTY
9.1.There is a one-month warranty period effective from the invoice date. The warranty is limited to the delivery of a replacement article. The warranty does not include labour cost or any other costs arising from the replacement of the article. The warranty referred to will not apply if the article is used for racing purposes, or has been subject to misuse, abuse, faulty and/or wrong applications, neglect (including but not limited to improper and/or defective maintenance), accidents, wrong installation, modifications (including but not limited to the use of improper components) or adjustments or repair work carried out by incompetent persons.
9.2. Immediately after receipt, the Purchaser shall check all products delivered by the Seller for defects and/or imperfections, as referred to under clause 12 of the General Terms and Conditions.
9.3. If the warranty pertains to a product manufactured by a third party, the warranty shall be limited to the warranty provided by the producer concerned with respect to the product involved.

10. LIABILITY
1. The Seller is liable only for damage or loss sustained by the Purchaser that is the direct and exclusive result of any shortcoming in the performance imputable to the Seller, on the understanding that any compensation is limited to the Seller's sum insured or the sum for which the Seller reasonably ought to have been covered in view of common practice in the relevant industry sector, subject to the following restrictions: (a) the Seller is never liable for any direct or indirect damage or loss in connection with the use of articles of the Seller; (b) the Seller is never liable for any damage to or loss of goods; c. the Seller is never liable for any damage or loss incurred as a result of any failure to deliver articles or to deliver them in a timely fashion; d. the Seller is never liable for damage or loss incurred as a result of any advice rendered by employees of the Seller in respect of quality, design standards, dimensions, applications, or any other advice; e. the Seller is never liable for any consequential loss (including loss of profits) suffered by the Purchaser or third parties.
2. The Purchaser indemnifies the Seller against all damage claims of third parties vis-à-vis the Seller in connection with the use of the articles, models, samples etc., or other goods or data delivered by the Seller, and is liable for all costs that may arise thereunder.

11. RETENTION OF TITLE AND RIGHT OF RETENTION
11.1.Title to goods delivered by the Seller shall not pass to the Purchaser until the latter has fulfilled all obligations arising from any sales contract concluded between the Seller and the Purchaser.
11.2. Goods that are delivered by the Seller and that are subject to retention of title, as set out under clause 11, subclause 1, may be resold in the ordinary course of business only and may never be used as a means of payment.
11.3. The Purchaser may not pledge the goods that are subject to retention of title nor encumber them in any other manner.
11.4. The Purchaser shall give the Seller or a third person to be appointed by the Seller its unconditional and irrevocable consent to enter upon all places where the Seller's goods can be found to repossess the same, in all cases that the Seller wants to exercise its proprietary rights.
11.5. If third parties seize delivered goods that are subject to retention of title or wish to establish or enforce rights on the same, the Purchaser is obligated to notify the Seller thereof as soon as may reasonably be expected.
11.6. The Purchaser shall insure the goods delivered subject to retention of title and keep them insured against fire, flood damage or damage caused by explosion, as well as theft and to submit the insurance policy for inspection upon first request.
11.7. Without prejudice to the statutory right of retention, the Seller is entitled to retain any of the Purchaser's goods that have been put at its disposal, irrespective of the legal basis for transfer, until the full settlement of all debts owed by the Purchaser to the Seller, for whatever reason, unless the Purchaser has provided sufficient security in respect of the debt concerned. The Seller also has a right of retention in the event that the customer goes bankrupt.

12. DEFECTS, COMPLAINTS PERIODS AND PRODUCT RETURNS
12.1 The Purchaser shall examine the purchased goods (or have them examined) at the time of delivery or as soon as possible thereafter. The Purchaser shall check if the delivered goods correspond with what had been agreed upon, to wit: a. if the proper goods have been delivered; b. if the quantity (for example, the amount and the number) of the delivered goods correspond with what had been agreed upon; c. if the delivered goods meet the agreed quality requirements or, in the absence thereof, the requirements relating to normal use and/or commercial purposes. The use of engine components specifically for the purpose of racing shall not be regarded as 'normal' use, but as 'specific' use. The nature of the components entails that these have been specially developed for motorcycle racing. The products are lightweight and high-tech in order to enable them to ensure high performance. This may result in high levels of wear and tear, as well as the increased likelihood of breakage and defects in extreme conditions.
12.2 If visible defects or shortages in quantity are discovered, the Purchaser shall notify these to the Seller within three (3) days of the date of delivery.
12.3 The Purchaser shall notify invisible defects to the Seller in writing within three (3) days of discovery but in any case, within 14 days of the date of delivery at the latest.
12.4 Even if the other party submits a claim in time, such party continues to be obligated to fully pay and purchase the orders placed in accordance with the terms of payment fixed.
12.5 Goods can be returned only following the Seller's previous consent in writing.
12.6 Goods that have been ordered by mistake must be sent back to the Seller in the original
packaging material and must be in a perfect and complete state. These goods must be sent, carriage paid, to the Seller's address within four (4) weeks, accompanied by a copy of the original invoice and a brief explanatory note.

13. PRICES - PRICE INCREASES
13.1 Unless otherwise expressly stated, our prices are quoted:
- in Euro currency
- exclusive of VAT
- exclusive of transport costs
- ex works, ex store, ex depot
- if the payment terms have been complied with.

13.2. If the Seller and the Purchaser have agreed on a specific price, the Seller will nevertheless be entitled to increase the price, if the Seller is able to prove that there have been significant changes in the prices of raw materials, in currencies and/or wages or in other circumstances that could not have been anticipated between the time of the offer and the time of delivery.
13.3. If the price increase exceeds 10%, the Purchaser is entitled to dissolve the agreement.

14. PAYMENTS AND DEBT COLLECTION CHARGES
14.1. Payments must be effected cash on delivery, through automatic debt collection or in advance through SWIFT, unless otherwise expressly agreed in writing.
14.2. If goods are delivered on account, payment must be effected within 30 days of the invoice date in a manner to be indicated by the Seller and in the currency used in the invoice.
14.3. After the expiry of 30 days from the invoice date, the Purchaser is in default by operation of law; with effect from the date on which said default commences, the Purchaser shall owe interest at the rate of 1% per month in respect of the amount due and payable, unless the statutory interest rate is higher, in which case, the latter rate shall apply.
14.4. In the event of liquidation, bankruptcy or suspension of payments of the Purchaser, the Seller's claims and the Purchaser's debts owed to the Seller shall be immediately due and payable.
14.5. Payment must be effected without any discounts or set-off.
14.6. Any payments effected by the Purchaser shall serve to settle: firstly, all owed interest and costs, secondly, all exigible invoices that are outstanding for the longest time, even if the Purchaser states that the settlement pertains to a later invoice.
14.7. If the Purchaser fails to perform any of his obligations, all judicial and extrajudicial costs incurred for the purpose of enforcing payment are chargeable to the Purchaser, subject to a minimum amount of EUR 30.
In the event that the Purchaser fails to perform any contractual or other obligation, all judicial and extra-judicial costs incurred in order to obtain payment from the Purchaser shall be chargeable to the Purchaser's account. The extra-judicial collection costs are fixed at 15% of the principal with a minimum of EUR 30.
14.8. If the Seller is able to prove that it has incurred higher costs, which, in fairness, it was obliged to incur, the additional costs also qualify for compensation.

15. FORCE MAJEURE
15.1. If the Seller by reason of circumstances or events beyond the Seller's control is hindered from performing its contractual obligations, the Seller is entitled, without judicial intervention being necessary and without prejudice to the Seller's other rights, to suspend the execution of the agreement or to declare that the agreement is terminated, wholly or partly, without being liable to pay any compensation.
15.2. Force majeure includes, inter alia: illness of employees, business interruption, defective materials, shortage of raw materials, transport difficulties, rioting, strikes, lock-outs, measures arising from mobilisation, war risk, acts of war, government measures. The foregoing also applies in the event that the manufacturer or third party with which we placed the order concerned faces these difficulties.
15.3. In the event that the Seller, in the aforementioned circumstances or events, has already fulfilled some of its contractual obligations, or is able to meet the contractual obligations in part only, the Seller is entitled to invoice the delivered and/or deliverable part separately and the Purchaser shall pay this invoice as if it pertained to a separate agreement.

16. ANTI-CORRUPTION
16.1 As part of the agreement Purchaser shall guarantee Seller that it shall act according to ethical criteria and refrain from bribery and money laundering in each country in which Purchaser and Seller conduct trade.
16.2. Purchaser shall guarantee that products, software or technology shall not be (re) sold or exported in violation with the following laws: the U.S. Export Administration Regulations, the U.S. International Traffic in Arms Regulations (ITAR), the provisions of the Chemical Weapons Convention, US, sanctions and embargoes administered by the U.S. department of Treasury and Non- U.S. export control laws and regulations.
16.3. Purchaser shall guarantee that the products obtained from Seller shall not be applied for nuclear explosive activities.
16.4. Purchaser shall recognise that Seller shall refrain from participation in or support to international boycotts of certain countries, if they have not been approved by the government of the U.S. and/or The Netherlands.
16.5. Purchaser – and also his employees – shall guarantee that no payments and/or gifts are made to government bodies as part of the agreement in order to exert influence and/or obtain benefits.

17. SETTLEMENT OF DISPUTES
The District Court of the place where the Seller has its corporate seat has exclusive jurisdiction to hear actions, except in the event that the Subdistrict Court (kantongerecht) has jurisdiction. Nevertheless, the Seller is entitled to summon the other party to appear before the District or Subdistrict Court that, in accordance with the law, has jurisdiction to hear the case.

18. APPLICABLE LAW
Any agreement concluded between the Seller and the Purchaser shall be governed by the Laws of the Netherlands. The Vienna Sales Convention (CISG) is explicitly excluded.

19. GENERAL TERMS AND CONDITIONS OF SALE
These general terms and conditions of sale take precedence over the general terms and conditions used by the Purchaser; alterations with respect to these terms and conditions must be agreed upon in writing.

20. FINAL STIPULATION
By the placement of an order, the Purchaser agrees to these terms and conditions of sale.

21. AMENDMENTS AND LOCATION OF THE TERMS AND CONDITIONS
These terms and conditions have been filed under number 34044331 with the Chamber of Commerce for AMSTERDAM, The Netherlands.
The latest version that has been filed, or the version in force at the time when a particular transaction is entered into, shall always apply.
