

BIKES 2018

BIKES 2018

Relying on the most advanced technology to develop and produce products manufactured in plastic and metal, PUIG produces a wide variety of items that allows the rider to personalize his/her motorcycle and make it unique.

In this book, we showcase the eight best-sellers bikes around the globe on 2018 with all the PUIG products available for them.

A basic kit is suggested, although it may be configured depending on the rider's taste.

Our passion from within.
