2020

OUR PASSION FROM WITHIN.

For the third consecutive year, 2019 has been another year that stands out in the history of sports successes, achieved by our brand. We have done it again, double **CHAMPIONS OF THE WORLD** in the two most recognized championships on two wheels:

MOTO GP 2019: CHAMPIONS OF THE WORLD with the **HRC** team and rider **MARC MÁRQUEZ**.

SUPERBIKES 2019: CHAMPIONS OF THE WORLD with the **KRT** team and rider **JONATHAN REA**.

The prolonged technical collaboration that we have carried out with both teams has allowed us to test new materials, shapes and designs that are already being applied in the products of this new catalog throughout the year.

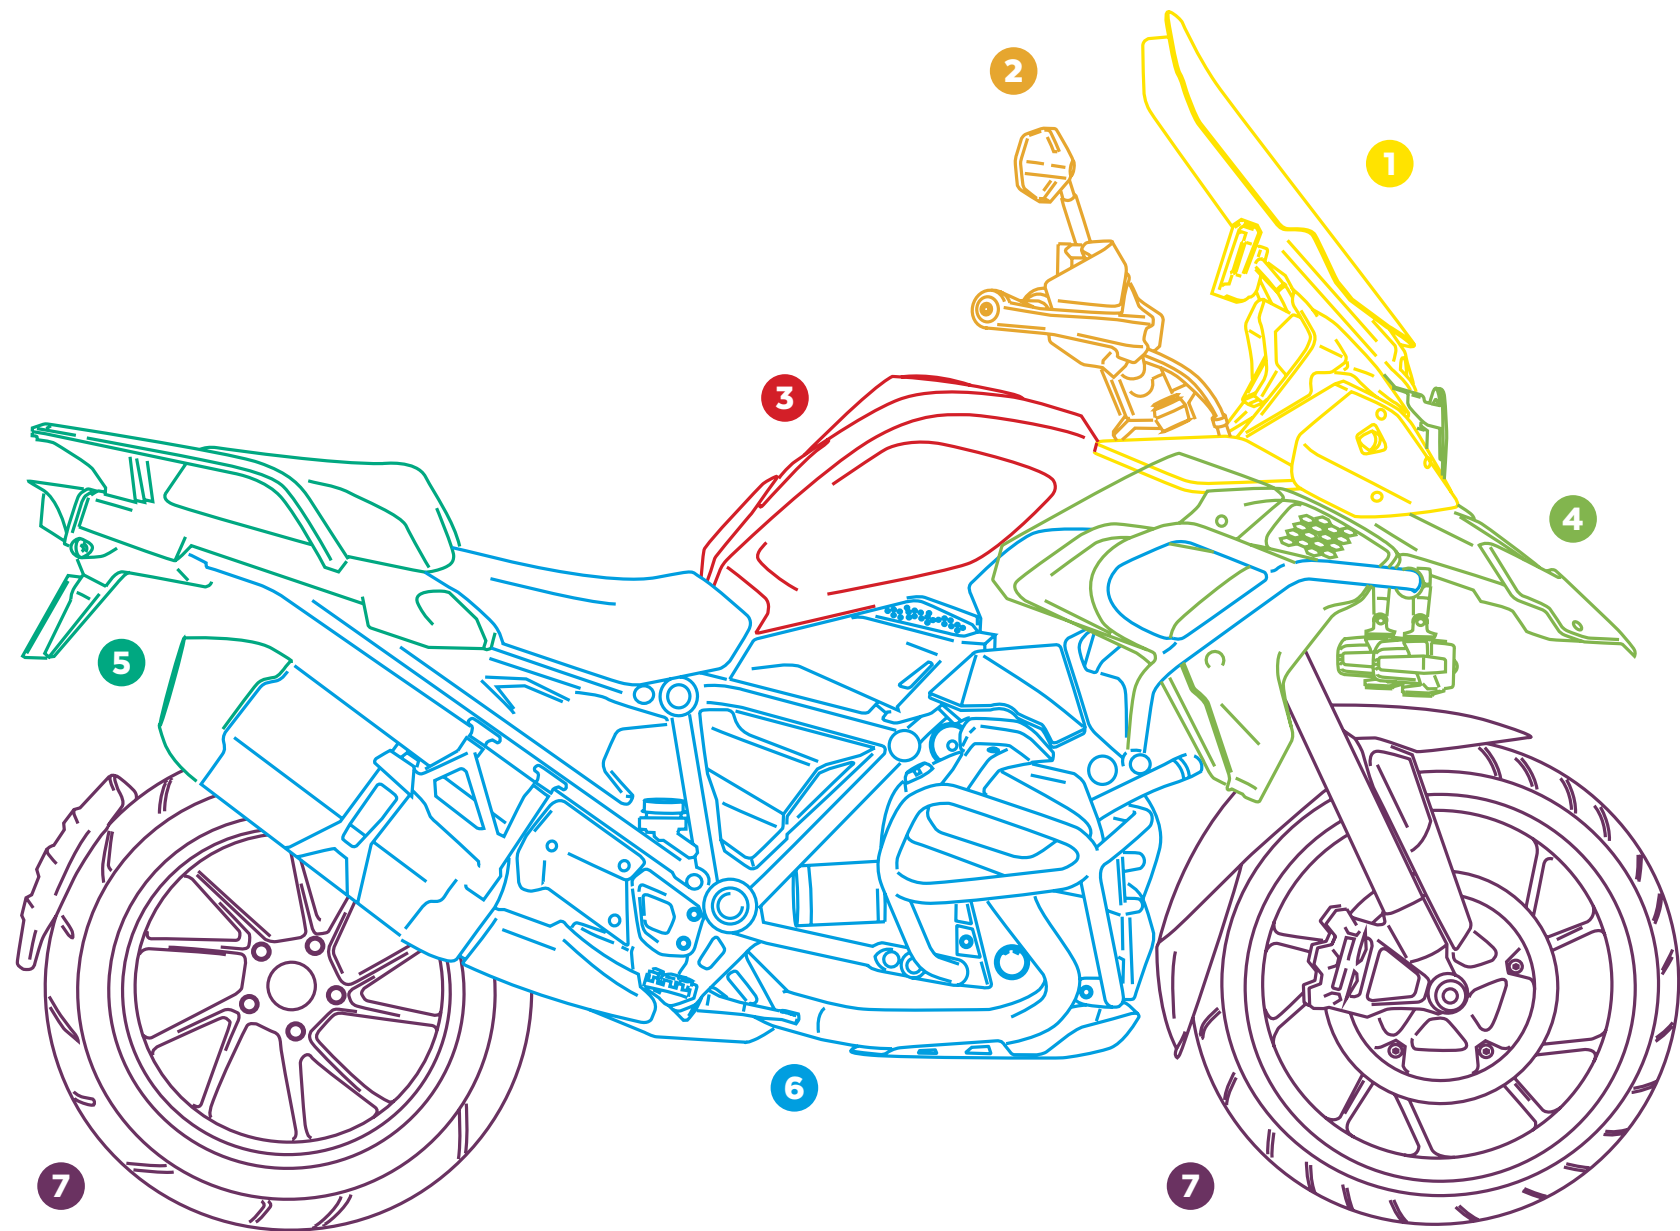

You will notice that we have changed the index of the catalog that you have in your hands, compared to those of previous years. As a result of the increase and disparity of product lines that we offer for the motorcycle, we have considered that we would facilitate your search by organizing the catalog by the parts that make up the motorcycle.

Highlight the following 2020 news that you can find in the catalog:

- **Front upper area:** Adjustable screens in predetermined-fixed or free versions to suit the rider (p. 44-45).
- **Handlebar area:** Handlebar risers (p. 170), Levers 3.0 (p. 172-173), rearview mirror mod. Monaco (p. 232-233), rearview mirror mod.F1.1 (p. 242-247), mobile phone stands (p. 274-277).
- **Deposit area:** Deposit protectors mod. Drei (p. 330).
- **Frame-engine area:** Kickstand bases (p. 432-433), Adhesive kits for BMW luggage (p. 526-527).

Once again we appreciate the trust you place in the brand, which encourages us to keep on pushing to bring this catalog up to date, year after year.

DOWNFORCE SPOILERS

HI-TECH PARTS | TECHNICAL SECTION

Designed and developed according to Moto GP's evolution, the Downforce spoilers are track tested in various race circuits with the collaboration of the Kawasaki Racing Team, it has been well demonstrated that the Downforce Spoilers improve the front wheel's performance and stability under braking. They offer better stability on both straights and change of direction, in addition to generating an "antiwheelie" effect under strong acceleration by better hooking the motorcycle to the road.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

STANDARD
Shape that duplicates the stock screen.

RACING
Derived of competition, their double height diminishes the air effect on helmet.

NAKED NEW GENERATION
Designed exclusively for each naked bike model.

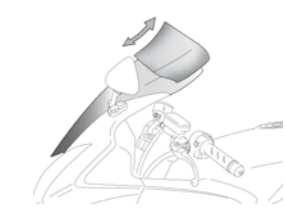

TOURING
Its superior height improves protection and rider comfort.

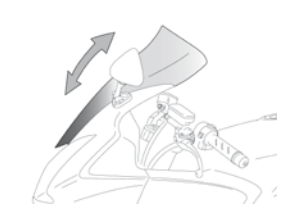

TOURING SCREEN WITH BOLT-ON VISOR
The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

TOURING SCREEN WITH CLIP-ON VISOR
The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

TOURING UP&DOWN
It allows the windscreen to be regulated in various predetermined positions.

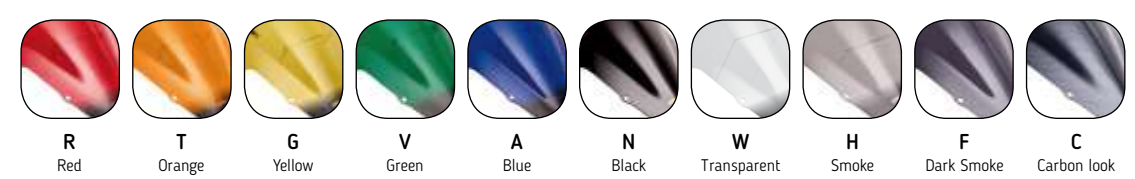

TOURING ADJUSTABLE
It allows the rider to adjust the windscreen at will in the most comfortable position.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

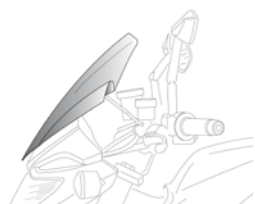

STANDARD

Shape that duplicates the stock screen.

RACING

Derived of competition, their double height diminishes the air effect on helmet.

NAKED NEW GENERATION

Designed exclusively for each naked bike model.

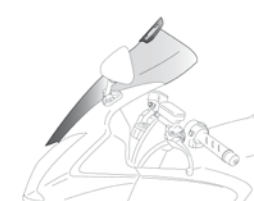

TOURING

Its superior height improves protection and rider comfort.

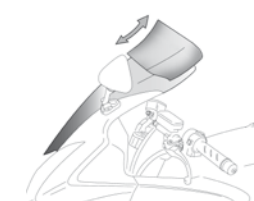

TOURING SCREEN WITH BOLT-ON VISOR

The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

TOURING SCREEN WITH CLIP-ON VISOR

The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

TOURING UP&DOWN

It allows the windscreen to be regulated in various predetermined positions.

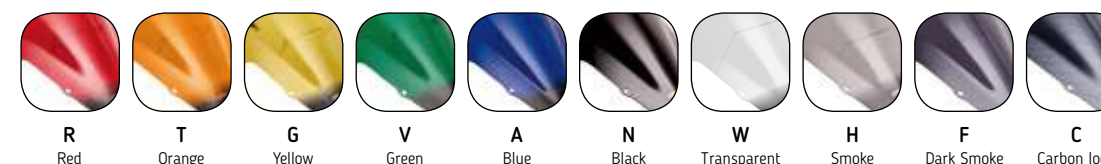

TOURING ADJUSTABLE

It allows the rider to adjust the windscreen at will in the most comfortable position.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

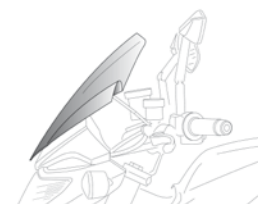

STANDARD

Shape that duplicates the stock screen.

RACING

Derived of competition, their double height diminishes the air effect on helmet.

NAKED NEW GENERATION

Designed exclusively for each naked bike model.

TOURING

Its superior height improves protection and rider comfort.

TOURING SCREEN WITH BOLT-ON VISOR

The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

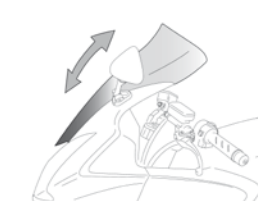

TOURING SCREEN WITH CLIP-ON VISOR

The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

TOURING UP&DOWN

It allows the windscreen to be regulated in various predetermined positions.

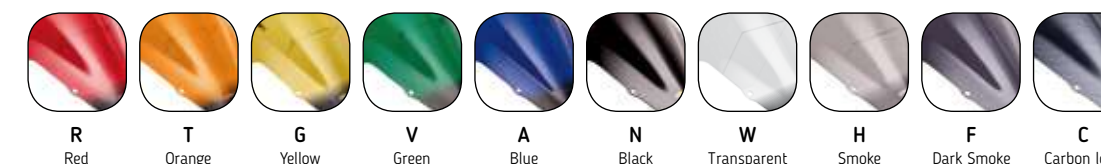

TOURING ADJUSTABLE

It allows the rider to adjust the windscreen at will in the most comfortable position.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

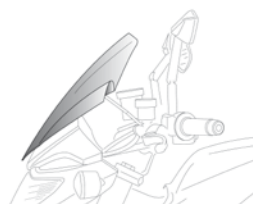

STANDARD

Shape that duplicates the stock screen.

RACING

Derived of competition, their double height diminishes the air effect on helmet.

NAKED NEW GENERATION

Designed exclusively for each naked bike model.

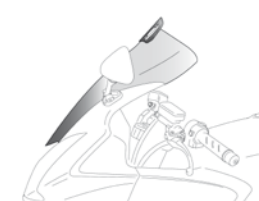

TOURING

Its superior height improves protection and rider comfort.

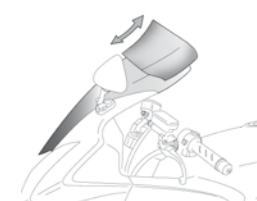

TOURING SCREEN WITH BOLT-ON VISOR

The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

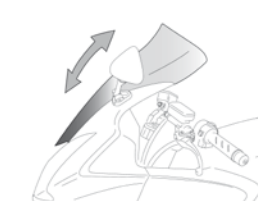

TOURING SCREEN WITH CLIP-ON VISOR

The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

TOURING UP&DOWN

It allows the windscreen to be regulated in various predetermined positions.

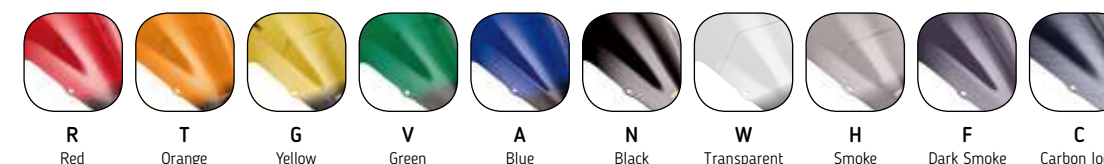

TOURING ADJUSTABLE

It allows the rider to adjust the windscreen at will in the most comfortable position.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

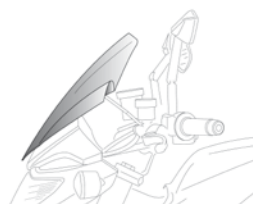

STANDARD
Shape that duplicates the stock screen.

RACING
Derived of competition, their double height diminishes the air effect on helmet.

NAKED NEW GENERATION
Designed exclusively for each naked bike model.

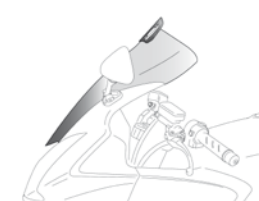

TOURING
Its superior height improves protection and rider comfort.

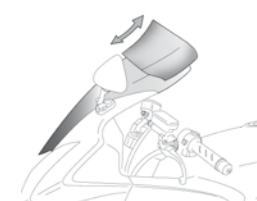

TOURING SCREEN WITH BOLT-ON VISOR
The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

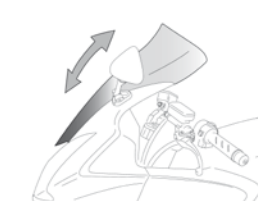

TOURING SCREEN WITH CLIP-ON VISOR
The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

TOURING UP&DOWN
It allows the windscreen to be regulated in various predetermined positions.

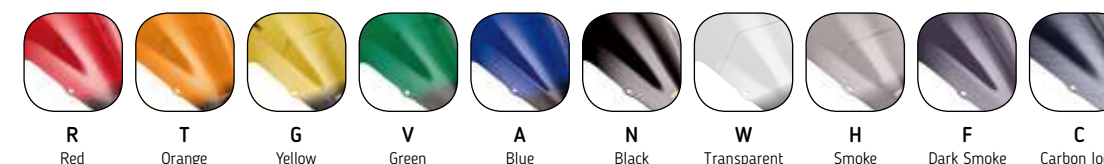

TOURING ADJUSTABLE
It allows the rider to adjust the windscreen at will in the most comfortable position.

E.R.S.

HI-TECH PARTS | TECHNICAL SECTION

// E.R.S. (Electronic Regulable System)

E.R.S. (Electronic Regulable System) Easy to assemble Electronic mechanism, which allows the easy movement of the screen by simply operating two buttons even while riding the motorcycle. It is 150 mm in height. To regulate at will of rider, according to his/her height and the meteorological conditions. Improves rider's comfort. It can be mounted with both the Puig screen or the original one.

WINDSHIELDS FOR MAXISCOOTERS

HI-TECH PARTS | TECHNICAL SECTION

// SCREEN TESTED IN THE VIRTUAL WIND TUNNEL

The V-Tech design has been developed through our Virtual Wind Tunnel to improve the OEM aerodynamic penetration.

The angulated shape on its central and side sections eases the wind by redirecting it to both sides of the rider, minimizing turbulences and keeping the radical look of the maxiscooter.

PUIG

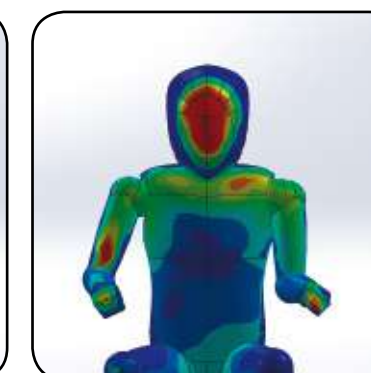

OEM

Improved aerodynamics and wind protection on average +24%.

OFF-ROAD LEVERS

HI-TECH PARTS | TECHNICAL SECTION

FOLDS OUTWARD

Adaptor designed with spring which allows the lever to swing forward to avoid the lever to twist or break.

DESIGN

Exclusive design: Clutch lever length of lever for 4 fingers. Brake lever length for 3 fingers.

REGULATION

The adjustable system allows riders to adjust the position to their needs.

MOTORCYCLE HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

Puig offers a wide range of handguards for those motorcycles that don't come with them. Manufactured in a matte black plastic material. They are light, durable and match your motorcycle's lines.

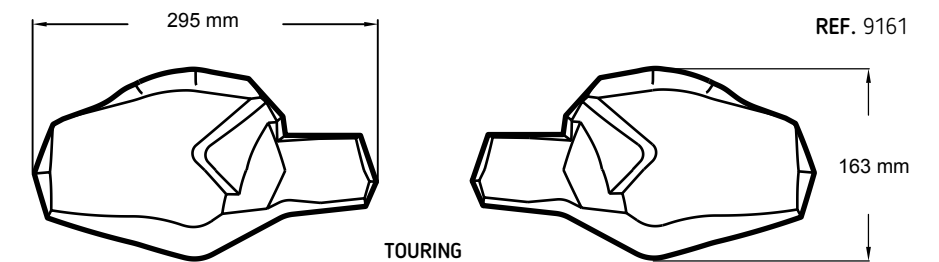

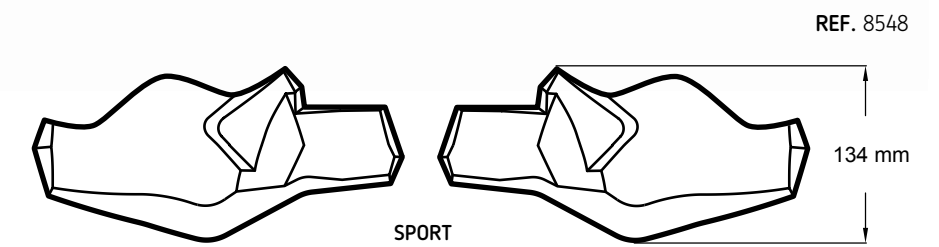

Designed with the best aerodynamic software to protect your hands and arms from the rain, air and possible small impacts from small rocks or insects.

Available in two models according to the protection or style you prefer, sport or touring.

FOR SPECIFIC MODELS SEE PAGE 266.

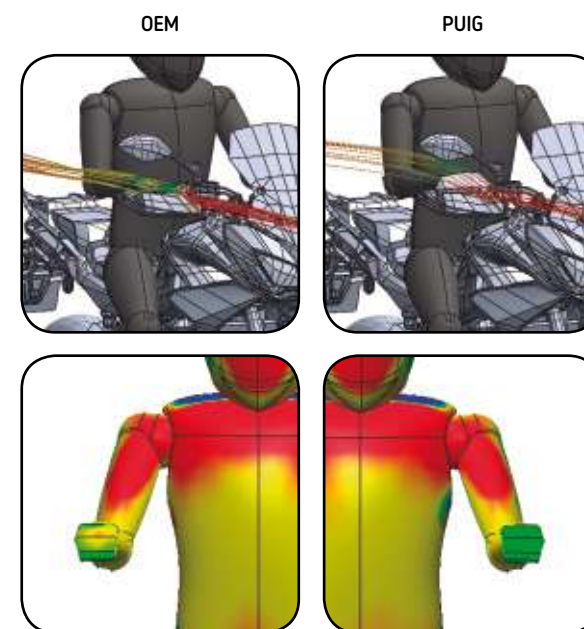

J Matt Black **C** Carbon look

EXTENSION MOTORCYCLE HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

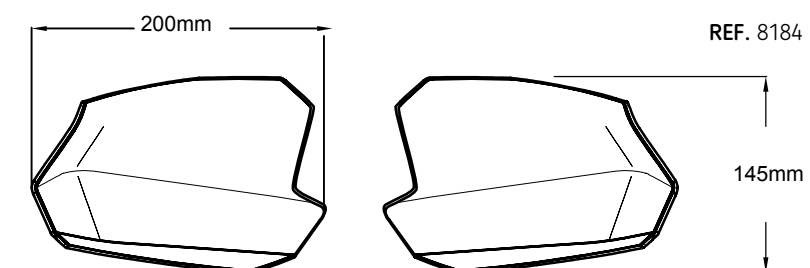

The Puig handguard extension is a product destined to the client that looks for maximum protection or that suffers from the impact of the wind on his arms and shoulders.

These small and discrete parts have been specially designed through a comprehensive aerodynamic study to redirect air flow, water or small impacts to your upper arms and thus offering the best riding comfort.

FOR SPECIFIC MODELS SEE PAGE 266.

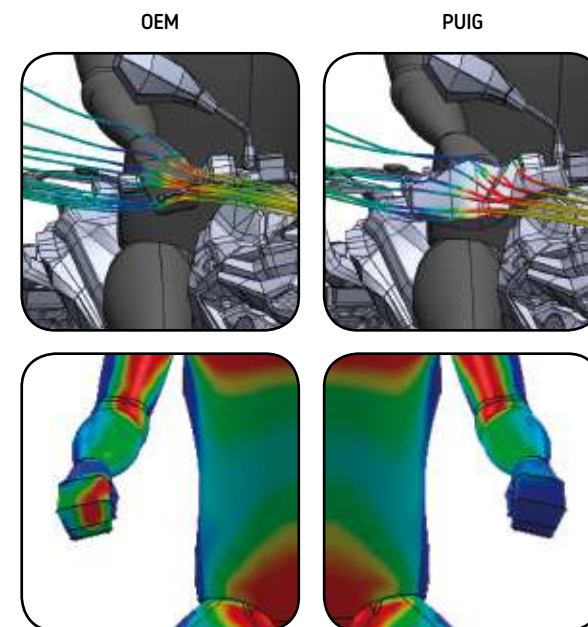

H Smoke F Dark Smoke W Transparent T Orange

MAXISCOOTER HANDGUARDS

HI-TECH PARTS | TECHNICAL SECTION

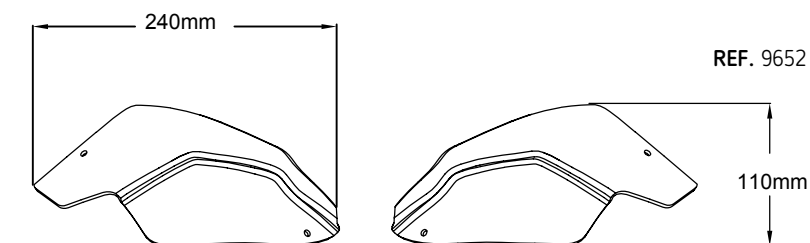

Puig offers a line of handguards for Scooters and Maxiscooters. They are fabricated in very durable material, they are light and made with soft and discrete lines that will match your motorcycle perfectly.

Designed with the best aerodynamic software to protect your hands and arms from the rain, air and possible small impacts from small rocks or insects.

Available in three shades, smoke, dark smoke and transparent.

FOR SPECIFIC MODELS SEE PAGE 266.

MOBILE SUPPORTS

HI-TECH PARTS | TECHNICAL SECTION

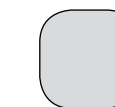

REF. 3570P

// DEVICE HANDLEBAR SUPPORT

Smartphone mount of superior quality, with machined parts in billet aluminium and anodized in silver color. Diameter of the tube is 20mm and 80mm in length which allows the attachment of several products such as GPS, cel phone, etc. It attaches easily and quickly. It is offered with screws in different lengths to adapt it to any motorcycle.

Available for a wide range of models, consult adjustability to the motorcycle model in the web. It requires that you buy the 3534N support. Compatible with Puig Motoplastastic covers for fast application ref. 3530N and 3531N.

HI-TECH PARTS | TECHNICAL SECTION

NEW!

// HANDLEBAR

This element allows you to directly adjust the support for the Smartphone to the handlebar of the motorcycle. It is made out of two halves that adjust to each other with the handlebar in between, while they adjusted through a thumbscrew. We also offer different thickness rubber spacers, so that it ends up perfectly adjusted to the motorcycle.

This part is good for any handlebar that has a diameter of Ø20 until Ø25 mm and just like any of our supports, it is compatible with our cel phone covers.

// REARVIEW MIRROR BASE

// REARVIEW MIRROR ROD

N
Black

NEW!

Support for the rearview mirror base, it is an universal support with complete mobility, 360° and also allows 100% adjustability to guarantee the best view during the ride, so the rider doesn't lose focus of the road.

The support is made of a metal base and a semi-rigid arm that guarantees a perfect attachment to the base of the rearview mirror. This support is good for all those motorcycle models that carry the rearview mirrors over the handlebars and are also compatible with Puig's covers.

REF. 3532N

MODEL	REF.	N
REARVIEW BASE SUPPORT	3532N	(*)

A support of easy and quick application, where the plastic cover hugs the rearview mirror rod and it is attached by a thumbscrew. It is offered with different rubber spacers, of different thickness, to adapt it to the different motorcycles needs.

This support is good for mounting over any rearview mirror with a cylindrical rod of Ø0 until Ø25 and just like the last one it is compatible with our covers.

RACE FUEL CAPS

HI-TECH PARTS | TECHNICAL SECTION

LOCKING

Track homologated closing system.

MATERIAL

Manufactured from billet aluminium.

DETAIL

Rubber section for a perfect closure.

DESIGN

Stylish preserving quality and safety.

WEIGHT

195 grams.

195gr.

WRENCH INCLUDED

RACE FUEL CAPS

AUXILIARY LIGHTS

HI-TECH PARTS | TECHNICAL SECTION

Universal fog lights and aluminium case painted black.

LED technology with low power consumption, avoiding putting the battery in danger due to excessive consumption.

Supplied with instructions on our engine guards. Fit engine guards between 20.5 and 25 mm diameter.

Equipped with a fuse and cables to connect directly to your battery and with a water proof switch to be installed on your handlebars.

ALUMINIUM housing designed to promote heat dissipation.

Optional metallic grill protections for offroad use.

Sells separately (Part# 9785N)

TECHNICAL CHARACTERISTICS:

Low consumption: 40W (20W per light)

Voltage: DC 12-24V

Lumens: 4000L M(2000L M/light)

Material: PC Lenses / ALUMINIUM housing

MOUNTING: To mount the auxiliary lights on the Puig engine guards use only one of the two spacers that carries the support and the allen screw M6x50.

RESISTOR SET FOR LEDS TURN SIGNALS AND FLASHER RELAYS

HI-TECH PARTS

// TECHNICAL INFO TURN SIGNALS CONNECTIONS:

Most of the bikes use bi-metallic relays. Its frequency (which is the one that sets the pace of the turn signals) depend on the amperage circulating through the circuit. When replacing the turn signals from OEM to aftermarket ones which carry a difference power, consequently they vary the amperage circulation through the circuit that causes a change on the frequency of the turn signals rhythm. If otherwise, the motorcycle uses electronic relay (which frequency works independently from the amperage circulating through the circuit) the change of turn signals from OEM to aftermarket, should not affect the frequency of the turn signals rhythm.

Note: In case of doubt of what type of relay the motorcycle uses, we recommend to check the turn signal rhythm after switching from OEM to aftermarket.

If the OEM turn signals are replaced by aftermarket ones that use incandescent bulbs, we need to check they use the same power. In case it is different, we need to replace the turn signals bulbs for others that use the same power as OEM ones. On our catalog, we have available bulbs of different power.

If the OEM turn signals are replaced by LED ones (of much less power than incandescent bulbs), we have two options to balance the frequency of rhythm:

1. Incorporate a parallel relay in the right circuit and the other on the left circuit. If we replace four turn signals, we need to use a resistance Part# 42980. If otherwise, only two turn signals are replaced (one on each side), we need to use a resistance Part# 42980. The resistances are supplied with a scheme for a parallel connection.

Note: On most of the bikes, the warning function of the bike is disabled if the resistance is used.

2. Identify the intermittent relay of the motorcycle (location and number of pins) and replace it for its corresponding from the list supplied on most of the bikes, the warning functions work correctly when the relay is replaced.

Note: we can find some motorcycles in the market that do not have an intermittent relay, obviously in this case it cannot be replaced. Moreover, if on the blinking function intervenes more than one relay, it is possible that replacing only one relay does not solve the problem.

PLUG-OIL CAPS

HI-TECH PARTS | TECHNICAL SECTION

FIXATION
Secure with allen wrench to prevent theft.

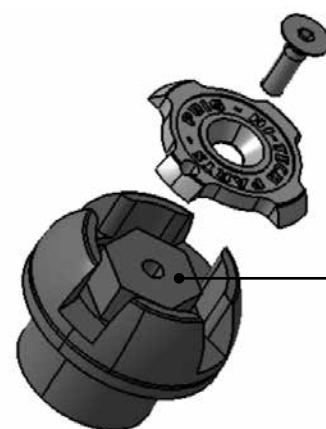

MATERIAL
Manufactured from billet aluminium.

SAFETY
Security system for track. Wire is not supplied.

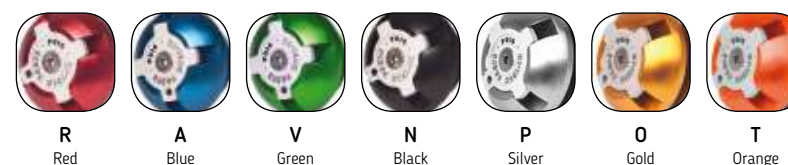

WEIGHT
60 grams

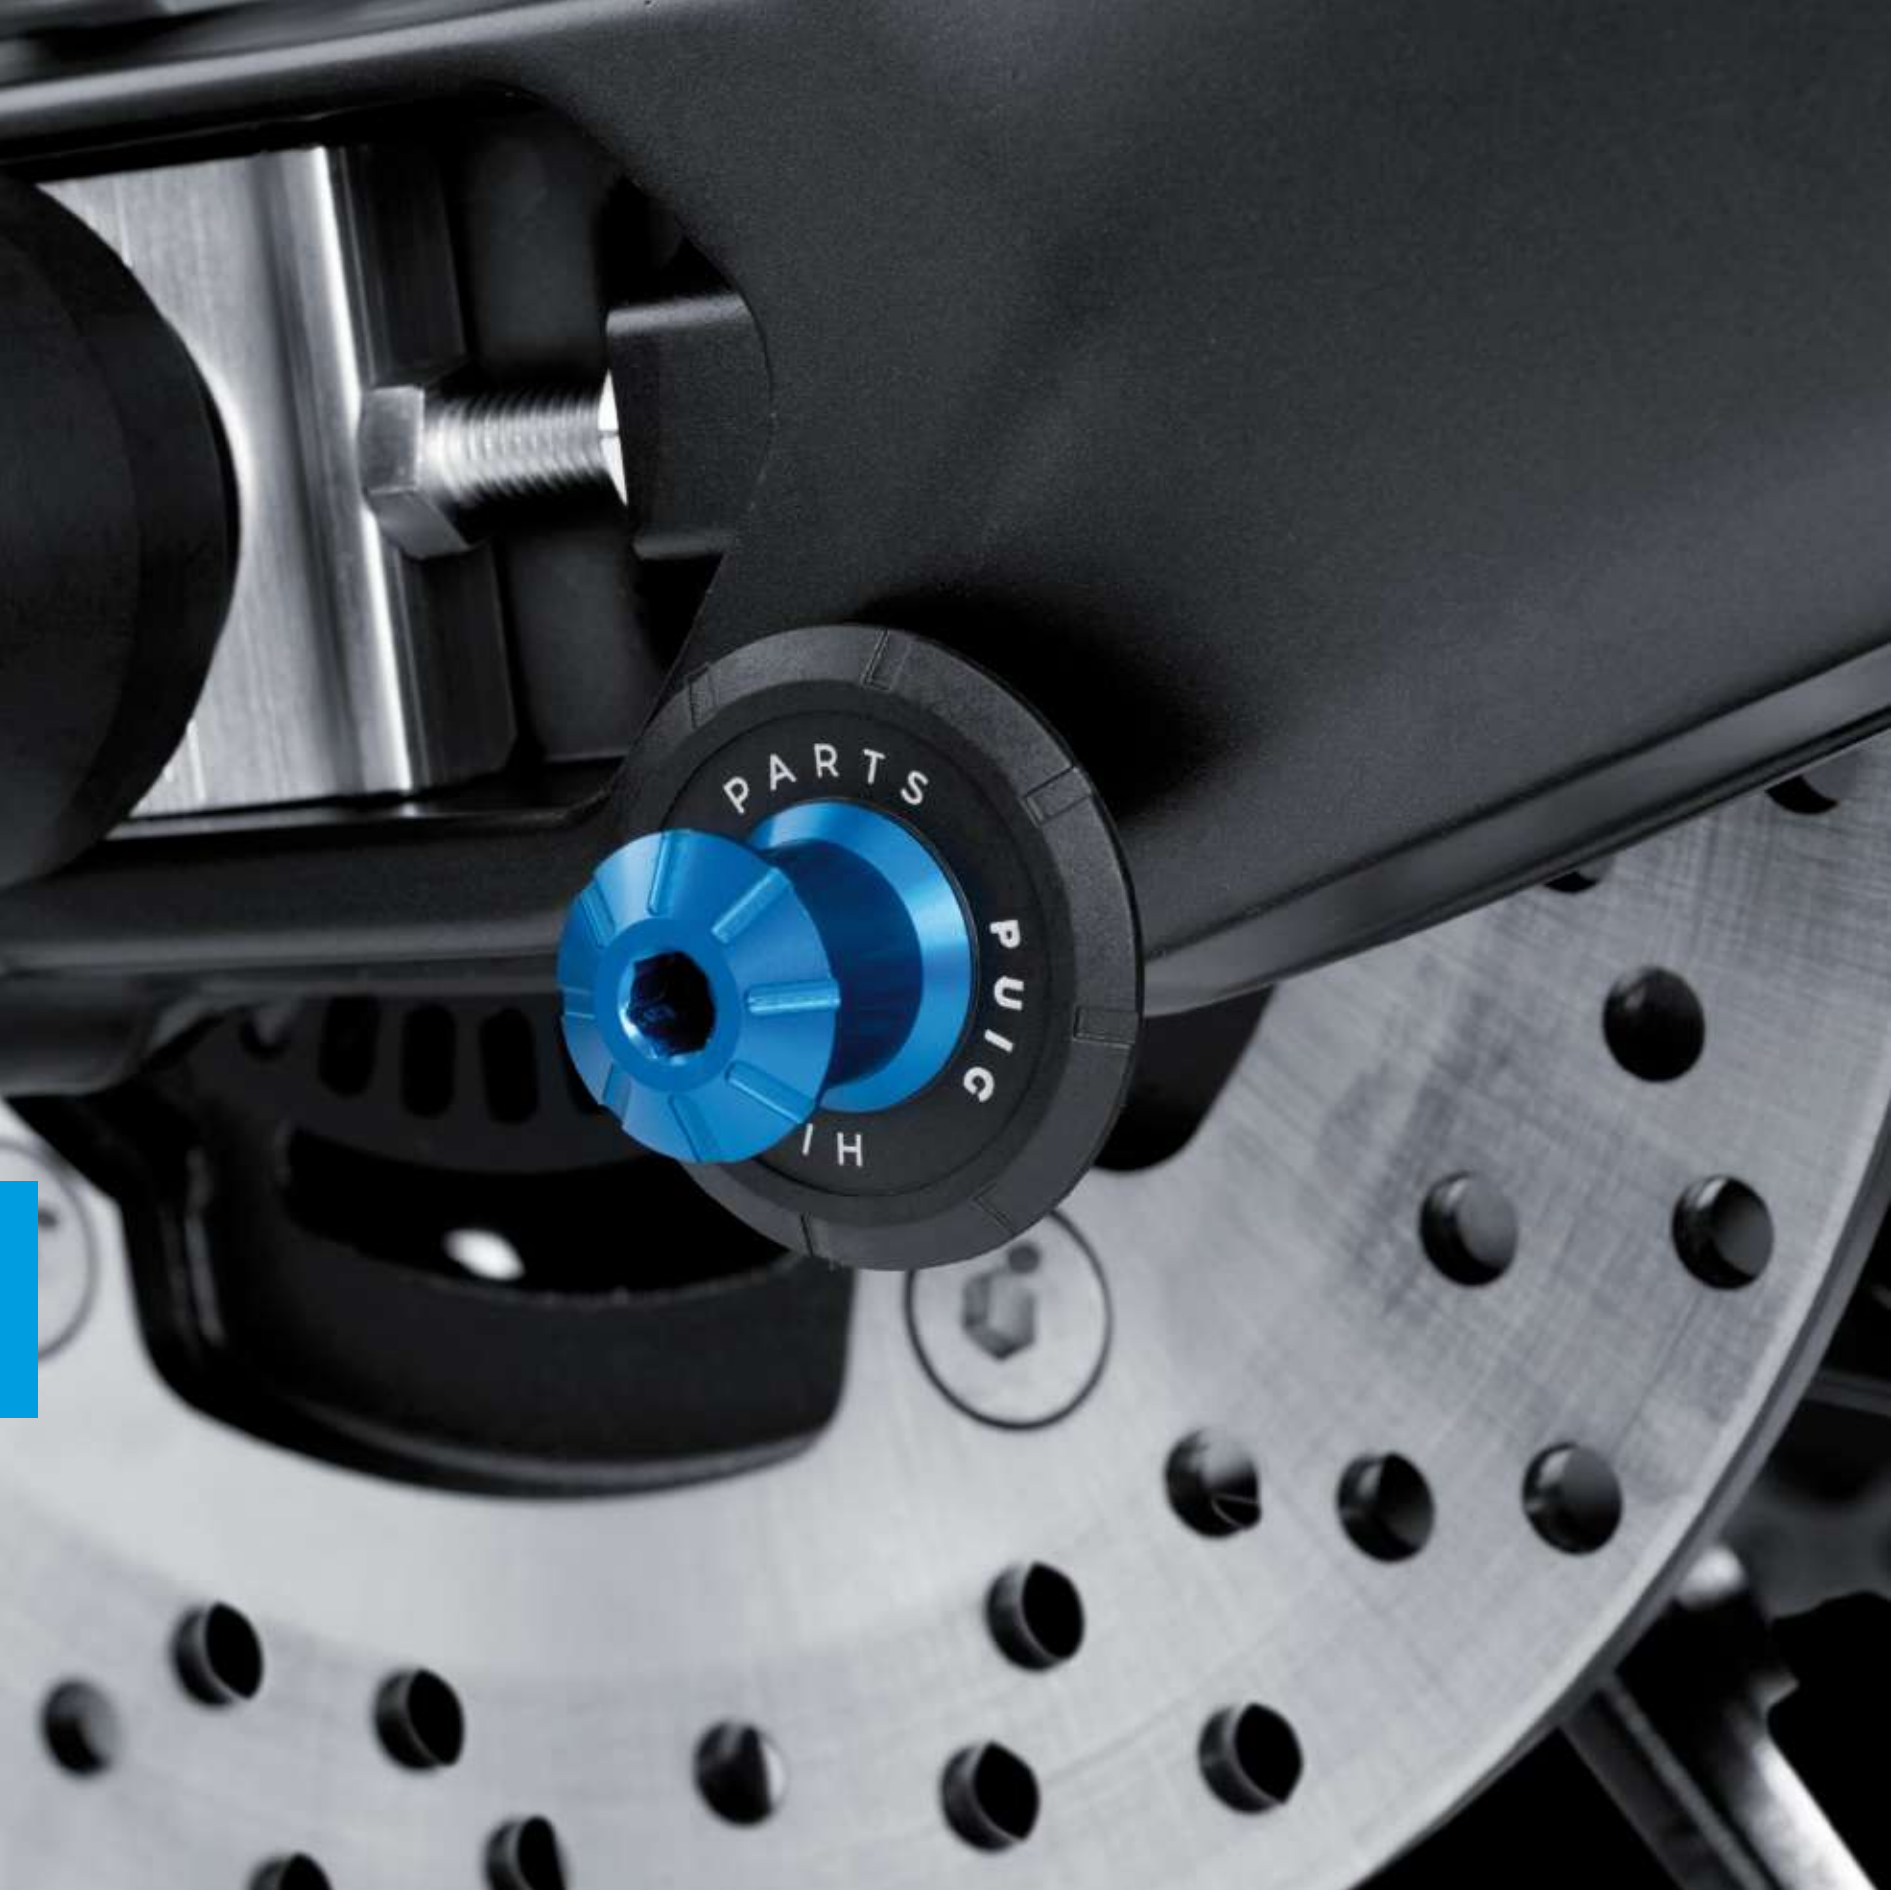

TIGHTEN AND LOOSEN WITH 10 mm. SOCKET WRENCH.

REF. 6156A

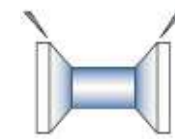

R Red **A** Blue **V** Green **N** Black **P** Silver **O** Gold **T** Orange

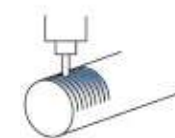

SPOOLS

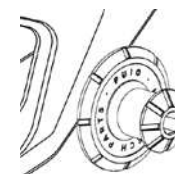

HI-TECH PARTS | TECHNICAL SECTION

FIXATION
Fitting guide for stand support to lift up motorcycles quick and easy.

MATERIAL
Manufactured through billet aluminium and CNC machined to increase robustness.

PROTECTION
The swing arm gets protected with the nylon washer added.

DESIGN
Spool and thread machined together to ease the assembly into the bike.

WEIGHT
SPOOL SLIDER
22 grams

WEIGHT
SPOOL

ENGINE PROTECTIVE COVERS

HI-TECH PARTS | TECHNICAL SECTION

MATERIAL

Manufactured in 4mm thick polypropylene for strength, durability and good appearance. The covers are simply bolt-on on the oem engine case.

Compact for a maximum distance to the ground, matt finished, and protecting one of the most vulnerable areas of the machine.

Manufactured in ABS material. It attaches through adhesive and mechanical processes and plastic rivets.

(*) Fixation with glue.

(†) Bigger extension. Check image on our site.

(*) Check price with your distributor.

IMPORTANT: Indicate code color after part#. Example: 0973A.

AXLE SLIDERS PHB19

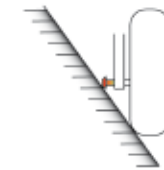

HI-TECH PARTS | TECHNICAL SECTION

WEIGHT
Reduced weight
265 grams.

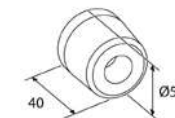

DESIGN
Racing look for your
motorcycle.

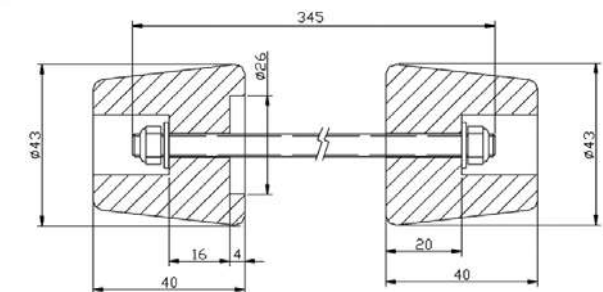

COMPLETE PROTECTION
Fork and swing arm
protection.

MATERIAL
Manufactured through a
nylon block.

DIMENSIONS

The set of anodized aluminium rings must be ordered separately from the sliders, depending on the color of the bike.
