ADVANCED LED LIGHTING & TRUCK ACCESSORIES

2024
CATALOG

WWW.PUTCO.COM

A DISTINGUISHED LEGACY

WITH 50+ YEARS OF EXCELLENCE IN AUTOMOTIVE ACCESSORIES

At Putco®, an acronym for Pick Up Truck Company, we proudly present an exceptional collection of premium truck, SUV, and power sports accessories, with emphasis on diversity and uniqueness. Our commitment to superiority is reflected in our exciting Putco® product lineup.

For over 50 years, Putco® has epitomized top-quality products, earning recognition as a trusted brand. We are steadfast in our mission to be your "Complete Accessory Source," and we sincerely thank you for your valued business and support. Our primary objective is to deliver innovative automotive accessories, upholding the highest standards.

In 2013, Putco® built a beautiful, 140,000 sq. ft. facility, symbolizing our dedication to cutting-edge manufacturing. Through substantial investments in automated assembly, advanced equipment, and an in-house LED production line, we have fortified our ability to support and increase the production of American-made products.

We take pride in providing customers with the utmost quality and innovation in automotive accessories, employing top-tier materials and manufacturing techniques. Our full-time, in-house design engineers carefully design products that not only fit seamlessly but also enhance the aesthetic appeal of your vehicle. Our commitment extends to delivering accessories that complement your vehicle with easy and straightforward installation methods.

This accessory catalog outlines our latest and most active trim, top-of-bed, and lighting products in the market. However, we encourage you to stay updated on our website (www.putco.com) as we frequently release new products. Within this catalog, you will find comprehensive information about each product category, including features, benefits, warranty details, and what's included in each accessory kit.

We hope you enjoy our 2024 release and anticipate your excitement as you uncover how our accessories will enhance and elevate your vehicle!

PUTCO®
ADVANCED LED LIGHTING & TRUCK ACCESSORIES

ACCESSORIES

LIGHTING

SKY VIEW™

LOCKER RAILS
STYLE · FUNCTION · PROTECTION

LOCKER RAILS
LOAD IT UP, TIE IT DOWN.

Experience peak quality with our top-rated round tube truck bed rails, showcasing timeless style. Crafted from polished 304 premium stainless steel tubing, these bed rails are sure to get the job done right.

Not just visually striking, our bed rails are equipped with chrome stanchion tie-down ends, holding an collective 500 lb load capacity. Whether you're transporting cargo or gear, these bed rails offer exceptional security.

The die-cast ends not only exude strength but also enhance the overall aesthetic, seamlessly integrating into your pickup stake pocket holes. With a hassle-free installation that requires no drilling, you can enjoy the benefits in minutes.

PATENT NUMBERS:

US 6,231,285 | D495,654 | D497,589

LOCKER RAILS

NO-DRILL INSTALL
Our innovative installation method makes use of the truck's integrated stake pockets, seamlessly securing the locker rails to the bed without the need for drilling.

TIE-DOWN STRENGTH
Upgrade your cargo security with our solid die-cast construction, delivering an exceptional tie-down strength of 500 lbs. Rest assured, your cargo will be firmly and securely fastened.

STAINLESS STEEL TUBES
These corrosion-resistant properties will not only enhance the aesthetic and appeal, but also ensure long-lasting performance.

TONNEAU COMPATIBILITY
Designed with precision to occupy a minimal footprint on the bed walls, ensuring ample clearance for the seamless use of modern tonneau covers.

WARRANTY ASSURANCE
Crafted from premium stainless steel, our locker rails undergo an extensive 44-hour CASS corrosion test. All rails are backed by Putco's NeveRust™ limited lifetime warranty, providing an enduring promise of quality and performance, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

CLASSIC RAILS
DIE CASTED
Classic Rails feature slotted stanchions, offering not only timeless styling but also additional secure tie-down points for your convenience.

BLACK CLASSIC RAILS
INJECTION MOLDED
Black Classic Rails present slotted stanchions, combining timeless style with extra functionality.

SSR LOCKER RAILS
DIE CASTED
SSR Rails offer sturdy stanchion ends, ensuring a sleek and polished appearance.

BLACK SSR RAILS
INJECTION MOLDED
Black SSR Rails boast robust stanchion ends, guaranteeing a refined and sleek aesthetic for your vehicle.

Explore our latest innovations and comprehensive fitment guides at www.putco.com

LOCKER RAILS

BOSS™ RAILS

DIE CASTED

When the standard-sized locker rail falls short, Boss™ Rails present a "bigger is better" alternative to the classic rail, providing ample space and functionality.

POP-UP RAILS

DIE CASTED

Pop-Up Rails combine the best of both worlds, offering sleek styling alongside manual push up tie-down points for added functionality.

NYLON BOSS™ RAILS

INJECTION MOLDED

An affordable alternative to the Boss™ Rails, featuring larger stanchions with a matte black finish, providing both value and style.

NYLON SSR RAILS

INJECTION MOLDED

A budget-friendly alternative to the SSR Rails, offering solid stanchion ends for a clean aesthetic, paired with matte black-finished stanchions for added style and affordability.

NYLON CLASSIC RAILS

INJECTION MOLDED

A budget-friendly alternative to Classic Rails, featuring slotted stanchions for enhanced tie-down points and finished with a matte black coating for a sleek look.

NYLON OVAL RAILS

INJECTION MOLDED

Nylon Oval Rails offer a wider, oval-shaped cross-section compared to the Classic Rail, complemented by matte black-finished stanchions for a stylish and durable design.

NYLON BLACK RAILS

INJECTION MOLDED

The Nylon version of the Classic Rails features a full matte black finish spanning the entire rail, offering a sleek and uniform appearance.

NYLON BLACK BOSS™ RAILS

INJECTION MOLDED

An affordable alternative to the Boss™ Rails, featuring large slotted stanchions with a matte black finish, providing both value and style.

PUTCO
TEC RAIL™

TEC RAIL
HEAVY DUTY PERFORMANCE.

A perfect blend of firm and heavy-duty performance. Crafted from robust textured black aluminum, these oversized truck bed rails boast dual t-slot channels and integrated tie-downs, providing a sleek look while offering versatility for mounting gear, rack accessories, and securing your cargo.

The nylon injection-molded side rail ends ensure secure tie-downs, supporting up to an impressive 500 lbs. The innovative double t-slot channel design facilitates the mounting of elevated cross rail bars and extra tie-downs, perfectly aligning with Venture TEC™ overlanding gear and rack accessories. Seamless installation into your truck's stake pocket holes eliminates the need for drilling, with all mounting hardware included in the package.

Designed for compatibility, these rails seamlessly integrate with most inside-the-bed rail mount tonneaus, Putco Boss™ headache racks, and Blade® LED light bars. The enduring textured black aluminum not only looks great but ensures lasting functionality. Explore optional accessories, from a center sanction for increased load capacity to adjustable tie-downs, and enhance your truck bed experience.

VENTURE TEC™
WHERE YOUR ADVENTURE BEGINS.

Putco Venture TEC™ — Crafted from lightweight 6061 T6 aluminum, this bed rack exudes modern styling with its sleek black powder-coat finish, possessing a top-of-the-class weight capacity, supporting 1,000 lbs static, 600 lbs dynamic, and 300 lbs off-road dynamic. Its tonneau compatibility is a game changer, seamlessly integrating with inside-of-the-rail mount roll-up tonneau covers, providing a practical solution for all your storage needs.

Designed with precision using computerized machine (CNC) bending technology, this direct-fit bed rack perfectly contours to your cab's shape. The clean and easy, no-drill installation into stake pocket holes ensures a hassle-free setup. Putco's commitment to quality and design is evident in the NeveRust™ limited lifetime warranty, offering assurance of long-lasting performance.

As an added bonus, the Venture TEC™ Modular Cargo System includes tent mounting brackets, providing an extra layer of convenience for your outdoor adventures.

PATENT NUMBER:

US D922,673

VENTURE TEC™

EZ-TEC ACCESS SLOTS

Easily place or remove TEC channel compatible products for customizing your cargo load.

TEC CHANNEL SYSTEM

Your versatile solution for seamlessly securing all Venture TEC™ accessories to your rack with utmost reliability.

BLADE GROOVE

Seamlessly crafted to perfectly accommodate every Putco patented Blade® LED light bar.
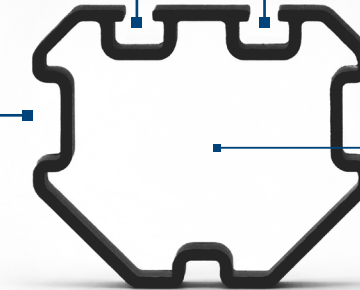

CoreTEC CONNECTOR BLOCK

The CoreTEC connector block, crafted from solid billet aluminum, seamlessly integrates into the tube, providing a snug fit and reinforcing each joint section of the Venture TEC™ rack. This meticulous design ensures unparalleled stability and strength for the entire structure.

CLAW-GRIP JOINTS

Each joint is firmly secured using a 4-bolt mechanism along with the CoreTEC Block, an aluminum stabilization insert ensuring solid reinforcement.

TONNEAU COVER COMPATIBLE!

TIE DOWN POINTS

Tie-down points are seamlessly incorporated into the Venture TEC™ design, enhancing the convenience of securing cargo with ease.

6061 T6 ALUMINUM

6061 T6 aluminum construction provides a lightweight and durable core for carrying any cargo load that will attach to the framework. Load Rating: 600 lb dynamic & 1000 lb static.

CNC 7-AXIS BENDING

Employing CNC 7-axis bending precision, we craft each rack to seamlessly conform to your vehicle's cab contours, ensuring a sleek appearance without compromising any functionality.

STAKE POCKET BED MOUNTS

The system's core mounts effortlessly to any truck bed using stake pocket mounts, leveraging the bed's robustness as a solid foundation for the rack.

WORKS WITH POPULAR MOUNTING ACCESSORIES

The MOLLE plate design accommodates a variety of accessories, not only those using the standard MOLLE strap lacing method but also compatible with most strapping mechanisms. Crafted from black-coated aluminum, it seamlessly attaches to the side of the Venture TEC™ rack, offering full compatibility with the Rotopax mounting system.

Many ways to customize your cargo load.

Quick-fist Original • Quick-fist Super Clamp • Quick-fist
Long Arm Clamp • Kolpin Rhino Grips
MOLLE Accessories

Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

Explore our latest innovations and comprehensive fitment guides at www.putco.com

VENTURE TEC™

TEC MOUNTING PLATE
Precision-crafted from robust 10-gauge aluminum and finished with a stylish black powder coating, our Venture TEC™ mounting plate effortlessly enhances your rack.

FULL-LENGTH TEC MOUNTING PLATE
Experience the extended edition of the TEC grate—a full-length marvel crafted from premium black-coated aluminum.

TEC CROSS RAIL
TEC crossrails provide additional support and add more ways to customize your Venture TEC™ rack.

TEC GRAB HANDLE
These aluminum die cast handles fasten to anywhere on the Venture TEC™ rack to provide a sturdy grip for holding on.

TEC TABLE
These arms clamp to the frame of the Venture TEC™ rack and creates a support unit to hold a platform that can be used as a work space or table. Includes table and pair of arms.

ELEVATED TENT MOUNTING KIT
Elevated brackets are designed to provide clearance between the bottom of flush-mount tents and the top of rack to accommodate cap head bolts. Includes 4 plates and mounting hardware. Black coated stainless steel mounting plates.

LUMINIX® TEC MOUNTS
Unlock limitless possibilities with our universal LED light bar mount kit. Effortlessly install any desired size of light bar or pod with our versatile mounting brackets, seamlessly attaching to the t-slot channels on your truck rack.

ELEVATED TEC CROSS RAILS
Pair up these crossbar rails for a quick and easy modular rack system. Ideal for swift installation and removal in minutes! Whether it's bikes, kayaks, snowboards, or camping gear, load up effortlessly for your next adventure!

MOLLE GRIP CLIPS
Upgrade to Putco MOLLE Grips for pro-level gear security. Made from heavy-duty rubber and FRP, they withstand tough climates and UV exposure. Each kit supports 50-150lbs, making securing gear a breeze.

LUMINIX® LED LIGHT BAR
15-degree focus lenses, 1,200 to 27,600 Lumens for off-road brilliance. Built tough for all adventures, creating a super bright LED beam pattern.

BLADE® SERIES
Seamlessly fitting into the TEC channel system, this light bars add flair and an extra brake light to your Venture TEC™ rack. Encased in watertight tinted polycarbonate, these LEDs are both sleek and durable. Easy installation with the included wiring harness ensures a quick upgrade to your Venture rack's lighting game.

BOSS™ RACK

BOSS OF ALL RACKS.

Putco Boss™ Rack — Crafted for seamless integration, effortlessly harmonizing with truck racks, rails, covers, and lighting.

The combination of a sleek black powder-coat finish and premium aluminum material not only enhances the overall aesthetic appeal of your vehicle but also introduces a perfect blend of sophistication and durability to the design.

The integration of a 3-axis center plate pattern goes beyond aesthetics, offering comprehensive protection for your window. In every application, the Putco Boss™ Rack stands out with a direct-fit CNC-milled 3rd brake light opening. Meticulously designed to ensure zero obstruction, this detail underscores our commitment to providing a headache rack that exceeds your expectations.

SCAN TO LEARN MORE

ELEVATING STYLE + SAFETY THROUGH SEAMLESS INTEGRATION

VEHICLE SPECIFIC DESIGN FOR A DIRECT-FIT

100% ALUMINUM
Lightweight and strong 6061 T6 aluminum construction.

TEC CHANNELS
Unique dual channel system creates secure and reliable connection points for a diverse collection of accessories.

CHAMFERED EDGES
3 axis CNC center plate pattern with sleek stylized chamfered edges.

NO DRILLING NECESSARY
Boss™ Racks come with hardware that allow no drill mounting. Insert brackets in stake pocket and simply tighten bolt in place. Additional bolts included if drill mount is desired.

3RD BRAKE LIGHT OPENING
Each application features a CNC-milled 3rd brake light opening, ensuring zero obstruction where it matters most.

TEC RAIL™ COMPATIBLE
The mounting plate seamlessly fits TEC Rail™ stanchions for full integration, featuring identical hardware for an easy upgrade to the complete TEC System.

READY BUILT
Built to integrate Hornet™ (Pg 193), Blade® LED light bars (Pg 169), Luminix® LED light bars (Pg 147), TEC Rails™ (Pg 33), and Locker Rails (Pg 25).

TONNEAU COVER COMPATIBLE
Narrow mounting brackets for discrete installation utilizing stake bed pockets.

WARRANTY ASSURANCE
Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

DESIGNED + MANUFACTURED IN THE USA
Proudly designed and manufactured in the USA by Putco Inc. in Des Moines, Iowa, embodying American craftsmanship and quality standards.

MUD SHIELD™

MUD SHIELD™

ONE TOUGH SHIELD.

Putco Mud Shield™ — A versatile solution designed for both front and rear wheel wells. These mud flaps flex, bend, and groove to the beat of your truck's needs. The set includes two mud flaps and mounting hardware, ensuring comprehensive coverage for your vehicle. Crafted from rubber material, these mud flaps provide flexible protection for truck fenders and rocker panels against road debris. The sail-plate, constructed from black platinum stainless steel, not only enhances durability but also adds a touch of style to your rig. The channeled inner surface efficiently directs debris and moisture out, simplifying the cleaning process.

Choose from three different size options to perfectly fit your vehicle. The large 23"x20" flaps are ideal for larger trucks or lifted vehicles with oversized tires, providing flexibility for height and width adjustments. For standard pickups and SUVs, the medium 23"x11.5" flaps offer a direct-fit, while the small 14"x10" flaps cater to smaller vehicles. Mud Shield's™ are available with or without the black platinum anti-sail plates, allowing you to customize both function and aesthetics.

MUD SHIELD™

DURABLE BUILD

A superior mud flap begins with better materials and a simple, solid one-piece construction. The rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. The entire flap is a single piece of this durable material which ensures that the strength of the flap is consistent throughout the full length. This extruded splashguard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

ANTI-SAIL PLATE

The anti-sail provides extra weight to keep the Gorillatuff Splashguards™ in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Shields™ does a better job protecting the items being towed from damaging road debris.

QUICK + EASY INSTALLATION

The universal design accommodates each make and models' mounting locations. Each can be positioned higher or lower to adjust to wheel size and body height. This allows the owner flexibility in terms of placement to maximize protection.

SINGLE PIECE CONSTRUCTION

Each flap is a single piece of Gorillatuff Splashguards™. Without having any additional points of attachment ensures the most durable construction. Mud Shields™ are able to withstand any and all road debris that a vehicle can kick up at it.

STANDARD

BLACK PLATINUM ANTI SAIL

CHANNELED SURFACE

The patented design employs principles of gravity and wind flow to conjoin fine droplets, compelling water to drip from the lower edge of the flap. This strategic mechanism prevents the aerosolization of water, eliminating the formation of mist that could pose hazards during lane changes and vehicle passing maneuvers.

RECYCLED MATERIALS

A key attribute contributing to the excellence of this product lies in its composition, wherein 95% of the material is sourced from recycled materials. This dual focus on waste reduction and the production of a superior flap results in the creation of a state-of-the-art material, ensuring prolonged durability and performance.

GORILLATUFF SPLASHGUARDS™ EXPLAINED

GORILLATUFF SPLASHGUARDS™ CHANNELED PROTECTION

COMPETITOR FLAPS (SMOOTH)

Conventional smooth-surfaced mud flaps permit moisture to accumulate and flow towards the perpendicular edge, resulting in the generation of fine particulates that diminish visibility.
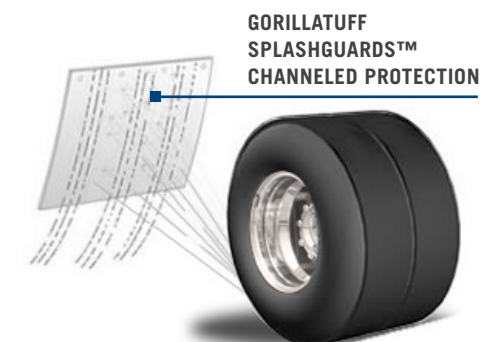

PUTCO'S FLAPS (CHANNELED)

Gorillatuff Splashguards™ feature channeled splash protection, directing water from the truck tire to the ground for effective water management.

MUD SHIELD™

SINGLE REAR WHEEL (23"X11.5")

NO ANTI-SAIL

BLACK PLATINUM ANTI-SAIL

DUAL REAR WHEEL (23"X20")

NO ANTI-SAIL

BLACK PLATINUM ANTI-SAIL

SINGLE REAR WHEEL (14"X10")

NO ANTI-SAIL

BLACK PLATINUM ANTI-SAIL

SIMPLE + DURABLE BUILD

Our product is meticulously crafted from a flexible material, offering superior protection for truck fenders and rocker panels against road debris. Additionally, it undergoes rigorous testing for UV damage, ensuring durability and longevity.

GORILLATUFF SPLASHGUARDS™

Part of what makes this product so great is that the material itself is comprised of 95% recycled materials. Reducing waste and creating a superior hitch flap at the same time to create a state-of-the-art material for long-lasting durability.

FLEXIBLE MATERIAL

The patented design uses gravity and wind flow to unite fine droplets forcing water to drip from the bottom of the flap rather than aerosolize and create a mist that makes lane changes and vehicle passing dangerous.

MUDSKINS™
LICENSED

MUD SKINS - LICENSED
GET MUDDY IN STYLE.

Upgrade your Bronco, Super Duty, or F150 with Putco Mud Skins™ - Licensed. These matching mud flaps feature laser-etched logos on a sleek black platinum stainless steel surface. Whether you go for the heavy-duty solid Mud Skin™ or the edgy hex Mud Skin™, you're choosing premium materials and design crafted to endure the lifetime of your Ford tough truck.

Precision is the name of the game with laser-cut main components, ensuring an impeccable fit. The setback design provides ample room for larger tires, while the HDPE material offers corrosion resistance and durability in extreme temperatures. These Mud Skins™ don't just deflect debris; they make a statement with flexibility in their design, delivering top-tier protection against whatever the road throws your way.

Backed by Putco's NeveRust™ limited lifetime warranty, these made in the USA Mud Skins™ are born in Des Moines, IA. The offset design, paired with Gorillatuff Splashguards™, strikes the perfect balance between style and function, making heads turn towards your etched mud flaps.

MUD SKINS

FEATURING: PUTCO HEX SHIELD.

MUD SKINS - HEX

HEX PROTECTS.

Hex Shield™ mud flaps – Crafted with precision and durability in mind, these direct-fit Mud Skins™ are manufactured from top-tier materials, ensuring a lifetime of resilience against rocks, mud, snow, and road debris. The laser-cut main components guarantee the best precision fitment available, while the carbon black high-density polyethylene (HDPE) material not only resists corrosion but also withstands temperatures from -76°F to 180°F without cracking or fading under UV.

Choose your style from polished stainless, brushed stainless, or the sought-after matte black carbon HDPE options, with many applications available in dually. Plus, enjoy peace of mind with Putco's NeveRust™ limited lifetime warranty.

These Hex Shield™ mud flaps feature an offset design, expertly positioning the Gorillatuff Splashguards™ to provide extra room for larger tires while delivering the protection and clearance your truck deserves. Installation is a breeze – these Mud Skins™ feature a no-drill design, ensuring a hassle-free and stylish upgrade for your pickup.

MULTIPLE FINISHES

Polished stainless steel: Super 8 mirror finish, durable, and corrosion-resistant. **Carbon black HDPE:** Light textured matte black CNC'd high-density polyethylene. Corrosion-resistant, won't crack or fade under UV. **Brushed stainless steel:** High Molybdenum 304 stainless steel with a brushed metallic sheen.

MOUNTING BRACKET
WITH HEX-SHIELD™ PATTERN

The mounting bracket with Putco's Hex-Shield™ pattern adds style to your vehicle and offers a sturdy connection point for easy installation, regardless of your vehicle's mounting points.

BOLTED STRUCTURE

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

ANTI-SAIL
WITH HEX-SHIELD™ PATTERN

The anti-sail provides extra weight to keep the Gorillatuff Splashguard™ in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Skins™ Solid does a better job protecting the items being towed from damaging road debris.

KICKBACK DESIGN

Mud Skins™ utilize a hefty 18 gauge stainless steel mounting bracket that is offset to position the Gorillatuff Splashguards™ back to allow more room for larger tires while still providing the protection and clearance that you need. Mud Skins™ will not interfere with your preference for big tires and dirt roads.

FLEXIBLE MATERIAL

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

MUD SKINS [SOLID]™

MUD SKINS - SOLID

SOLID DEFENSE.

Elevate your truck's protection and style with our direct-fit Mud Skins™ - Solid. Precision laser-cut for your specific year, make, and model, these Mud Skins™ offer a tailored solution to shield your vehicle from rocks, mud, snow, and other road debris. Choose from a front pair, rear pair, or opt for the complete four-piece set for comprehensive coverage.

Designed with an innovative offset, the Mud Skins™ provide extra tire clearance, making them ideal for trucks with larger tires. The carbon black finish adds a sleek touch to your vehicle, enhancing both form and function. Crafted from durable 18-gauge stainless steel and featuring a 1/4" thick rubber with a distinctive Hex shield pattern, these mud skins not only protect but also offer a unique aesthetic.

Installation is a breeze with a no-drill process, and the included matching black finish hardware ensures a seamless look. Safeguard your truck's fenders and rocker panels with top-notch protection that doesn't compromise on style. Backed by Putco's NeverRust™ limited lifetime warranty, our Mud Skins™ are proudly made in the USA by Putco in Des Moines, IA.

ROCKER PANELS
ROCK YOUR RIDE WITH STYLE.

Give your vehicle a touch of sophistication and protection with our laser-cut stainless steel rocker panels: Pro-stainless steel, crafted from polished 28GA premium T-304 stainless steel. Premium stainless steel, crafted from polished 26GA premium T-304 stainless steel. Black platinum, crafted from polished 28GA premium T-304 stainless steel. All versions are available with licensed Ford and GM etching.

Designed to seamlessly complement your vehicle's year, make, and model body lines, these rocker panels provide a direct-fit that enhances both style and functionality.

Enjoy a hassle-free installation process with pre-applied 3M™ tape. No drilling or cutting required – simply clean the area, press the panel into place, and let the automotive-grade adhesive secure it in position. It's a quick and efficient way to add protection and style to your vehicle.

Putco takes pride in offering best-in-class quality and design. Backed by Putco's NeverRust™ limited lifetime warranty, these rocker panels provide assurance and durability that you can rely on.

ROCKER PANELS

CHROME
Trim Accessories

PILLAR POSTS
PILLARS OF STYLE.

Customize the appearance of your truck with our pillar post trim accents. Crafted from highly polished stainless steel 28GA premium T-304, these accents feature a mirror finish that not only adds an OE shine, but seamlessly complements your truck's existing chrome accents.

Engineered for a direct-fit, our pillar post trim accents are designed to enhance your vehicle's body lines and overall aesthetic. Utilizing laser scanning technology, our engineering team ensures perfect fitment, and the accents are precision-cut with laser technology for impeccable quality.

Installation is rapid with the pre-applied 3M™ tape, making it fast and hassle-free to achieve an instant upgrade for your truck. Backed by NeveRust™ limited lifetime warranty, so you can enjoy peace of mind with every purchase.

PILLAR POSTS

CRIMPED EDGES
Crimped edges for precise fitment and seamless integration with your vehicle's pillar posts, ensuring a polished and professional look.

PERFECT OEM MATCH
Precisely matches OEM Chrome for a seamless integration with your vehicles existing accests

LICENSED ETCHING
Featuring laser-etched logos for an authentic and officially sanctioned design.

3M
Simple installation using 3M™ automotive tape.

No cutting
No drilling

AVAILABLE WITH OR WITHOUT OE LICENSING

SOPHISTICATED BRAND APPEARANCE
Elevate your vehicle's aesthetic with our OE licensed etch, meticulously laser-etched to perfection with Super Duty, Chevrolet, F150, Cadillac, or GMC logos. This detailed craftsmanship adds a distinctive and personalized touch to your vehicle, ensuring a sophisticated and branded appearance that reflects your automotive style.

EASY INSTALL
Experience effortless installation with each post featuring pre-applied automotive-grade 3M™ adhesive – simply clean the area and seamlessly press the panel into place for a quick and secure transformation.

LASER CUT
Laser cut to seamlessly complement your vehicle's year, make, and model body lines. These pillar posts provide a direct-fit that enhances both style and functionality.
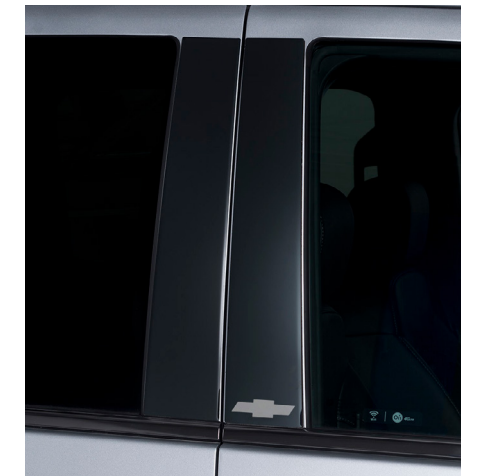

WARRANTY ASSURANCE
Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

FENDER TRIM

FENDER FINESSE.

Amplify the OE chrome of your vehicle with Putco premium fender trim, meticulously crafted from high-quality 304 stainless steel. The mirror-like polish seamlessly complements your vehicle's chrome elements, adding a refined touch.

The installation process is streamlined, facilitated by the included stainless steel hardware, ensuring a straightforward and hassle-free setup. Furthermore, the fender trim incorporates a pre-installed UV-resistant rubber seal, not only guaranteeing a snug fit but also providing optimal protection to your vehicle's paint.

In the pursuit of refining your vehicle's sleek style, every detail is of paramount importance. Putco stainless steel fender trim serves as the ultimate finishing touch, delivering chrome accents, precise fitment, and enduring shine.

FENDER TRIM

UV-RESISTANT RUBBER SEAL
Provides a direct-fit and OE-like finish, enhancing protection.

MANUFACTURED FROM PREMIUM POLISHED T304 STAINLESS STEEL
Delivers a mirror-like finish, ensuring a high-quality aesthetic.

SOLD AS A SET OF 4
Includes front and rear wheels for comprehensive coverage.

3M
Simple installation using 3M™ automotive tape.

No cutting
No drilling

DIRECT-FIT
Specifically designed for your truck, this fender trim kit ensures a direct-fit, seamless integration and and easy installation.

EASY INSTALL
Experience effortless installation with each post featuring pre-applied automotive-grade 3M™ adhesive – simply clean the area and seamlessly press the panel into place for a quick and secure transformation.

ENHANCE + PROTECT
Protect your fenders and elevate your truck's appearance with the Putco stainless steel fender trim kit. This kit not only shields your paint from debris and door dings but also adds a distinctive touch to make your ride stand out. Crafted from T304 stainless steel, polished to a mirror-like finish, each kit guarantees a premium look.

WARRANTY ASSURANCE
Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

WINDOW VISORS
RAIN OR SHINE.

Our exclusive patented visor design ensures a high-class OEM appearance, blending seamlessly with your vehicle's aesthetic. Constructed with polycarbonate injection-molded material, the color remains consistent throughout the part, presenting a sleek and uniform look.

Built with high-impact ABS construction, these vent visors are crafted to endure the rigors of the elements, providing optimal protection for your vehicle's interior against wind, rain, and debris. The UV-resilient feature ensures long-lasting color vibrancy, free from fading or cracking over time.

Enjoy open windows with minimal turbulence. The fully in-channel fit not only enhances the appearance but also minimizes wind noise. The CAD-designed direct-fit ensures a precise alignment with your vehicle, offering a seamless integration.

No cutting or drilling required. Utilizing pre-applied 3M™ automotive tape, these deflectors securely attach to the exterior of your vehicle's windows for a durable and reliable hold.

PATENT NUMBERS:

US D554,571 | D556,657 | D544,821

WINDOW VISORS

BEADED EDGE
Moisture wicking, beaded edge for controlled water and wind flow.

IN-CHANNEL FITMENT
Enjoy open windows without disruptive turbulence. Crafted to seamlessly match OE window channel perfectly.

INJECTION MOLDED
High quality injection-molded process provides a precise fit with no sharp edges.

3M
Simple installation using 3M™ automotive tape.

ABS
Made of High Impact ABS Material

No cutting
No drilling

DIRECT-FIT
Specifically designed for your vehicle, this fender trim kit ensures a direct-fit, seamless integration and and easy installation. Engineered to perfection, these deflectors come with vehicle-specific spacers that allow for smooth window operation without interference, ensuring optimal functionality and performance.

EASY INSTALL
Designed for hassle-free installation, these deflectors require no cutting or drilling, allowing for quick and convenient 3M™ installation, so you can spend less time installing and more time enjoying your ride.

FUNCTIONALITY
In addition to enhancing the appearance of your vehicle, these deflectors also provide essential protection against the elements, shielding your vehicle from rain, wind, and other weather conditions, while promoting fresh air circulation.

WARRANTY ASSURANCE
Backed by Putco's 1-year limited warranty, you can trust that these deflectors are built to last, providing you with peace of mind and confidence in your purchase.

DOOR SILLS
STEP UP YOUR DOOR SILL.

Crafted from premium T-304 polished stainless steel, these door sill plates embody not only enduring durability but also exceptional resistance to corrosion, ensuring a sustained enhancement to your pickup truck's visual appeal. Meticulously precision-cut with a laser, each plate is uniquely tailored for both sides of your vehicle, guaranteeing an exact fit that seamlessly complements the specific year, make, and model of your truck. Elevate your vehicle's identity even further by choosing from an array of licensed etched sills, available in both chrome and black platinum finishes.

Designed with a commitment to elegance, Putco's stainless steel door sill plates feature a mirror-like surface that harmonizes seamlessly with OEM chrome trim, adding a refined touch to your vehicle's profile. The pre-applied 3M™ tape ensures an easy upgrade with minimal effort.

Have confidence in your purchase with our NeveRust™ limited lifetime warranty, underscoring the enduring quality and protection that each Putco stainless steel door sill plate delivers against potential damage from rocks and debris.

BILLET PEDALS

SOLID UPGRADE.

Presenting a refined enhancement for your vehicle, Putco liquid billet pedals offer a direct replacement for OEM pedals with each pedal direct-fit and CNC milled, securely bolting to OEM pedal mounts. Putco provides a comprehensive selection of gas, brake, clutch, and parking brake pedal replacements to suit various applications. The liquid billet pedals are crafted from billet aluminum, with a thickness of 1/4", and feature an exclusive track design that adds a distinctive touch to your vehicle's interior.

These pedals prioritize both aesthetics and functionality, incorporating super grip pyramid nubs for a secure anti-skid surface. Each pedal pad is direct-fit to match the original outline and curvature of the factory pedal, finished by skilled craftsmen for impeccable quality.

Manufactured entirely in the USA by Putco Inc. in Des Moines, Iowa, these liquid billet pedals undergo machining from .25" aluminum, delivering a robust and premium look for your truck. The track design, coupled with a smooth finish, facilitates a straightforward installation process for a quick and easy upgrade. Individual foot rests are available for specific applications. Backed by Putco's NeveRust™ limited lifetime warranty, these pedals stand as a testament to a commitment to quality and customer satisfaction, making them a reliable choice for drivers seeking a blend of performance and style.

DIRECT-FIT
Direct-fit and CNC milled for precise fit; securely bolts to OEM pedal mounts.

SUPERIOR TRACTION
Kit or pedal design includes non-slip nubs, crafted from milled aluminum.

COMPLETE PEDAL REPLACEMENTS
Gas, brake, clutch, and parking brake pedal replacements offered based on application.

QUALITY CRAFTSMANSHIP
Liquid Billet pedals CNC milled from billet aluminum, boasting a substantial 1/4" thickness and featuring an exclusive track design.

WARRANTY ASSURANCE
Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that affects the part's structure or value.

BUMPER INSERTS

BUMPER BRILLIANCE

Transform the appearance of your vehicle while ensuring superior protection with Putco bumper grille inserts – a sophisticated and durable choice for automotive enhancement. Meticulously crafted from high-quality 26-gauge T-304 stainless steel, these inserts stand as a testament to enduring strength against the rigors of various environmental elements. The precision of their design is exemplified through the use of CNC laser cutting, guaranteeing a flawless fit that seamlessly integrates with your vehicle's front-end aesthetics.

Choose from an array of styles, including hex, bar, Boss™, and punch patterns, each presenting a unique visual appeal. These grille inserts offer a personalized touch to match your specific taste and elevate the overall design of your vehicle. Additionally, Putco provides versatile finish options to suit your preferences – a lustrous polished finish for a refined and sophisticated look or a rugged black textured powder-coat finish for a more assertive presence.

These grille inserts are backed by Putco's NeverRust™ limited lifetime warranty, emphasizing the brand's confidence in the durability and longevity of their product. For additional peace of mind, the black powder-coated finish is covered by a 90-day warranty, making Putco bumper grille inserts an ideal combination of style, precision, and reliability for the discerning automotive enthusiast.
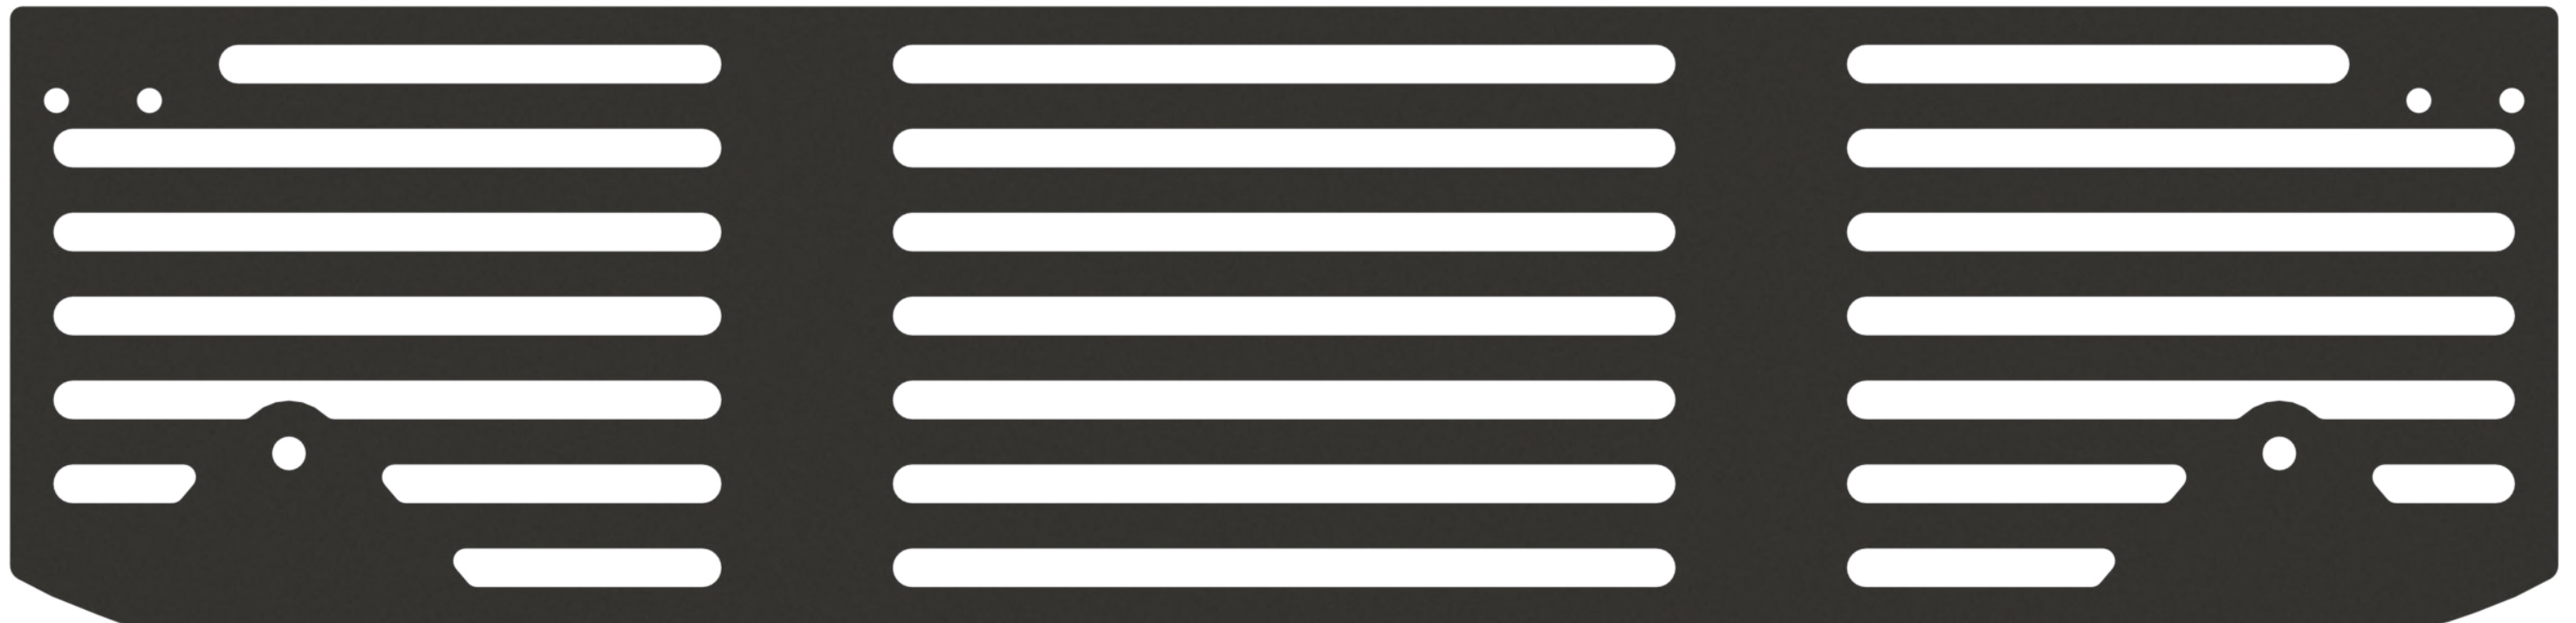

BUMPER INSERTS

MATERIAL COMPOSITION
Crafted from durable 26-gauge 304 stainless steel, ensuring resilience and longevity against environmental elements.

DIRECT-FIT
Each grille is CNC laser cut with meticulous precision to guarantee a perfect fit utilizing the OEM mounting system allowing for a no drill installation.

2 FINISH OPTIONS
Available in polished and black powder-coated finishes, providing style versatility and protection.

DOMESTIC MANUFACTURING
Proudly manufactured in the USA, specifically in Des Moines, IA, ensuring high-quality production standards.

STYLE VARIETY
Choose from four distinctive styles - hex, bar, Boss™, and punch styles, allowing for a customized appearance that suits your preferences.
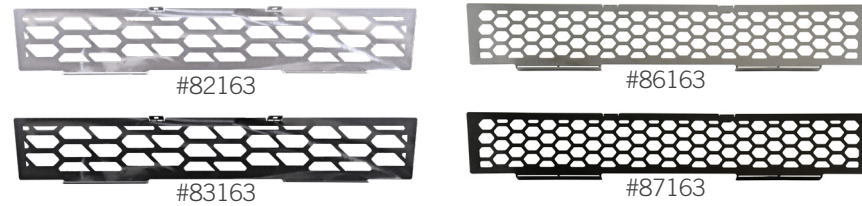

WARRANTY ASSURANCE
Demonstrating our dedication to quality and customer satisfaction, we provide the NeveRust™ limited lifetime warranty, covering surface rust on chrome, aluminum, or stainless steel that effects the part's structure or value. Bumper Grille Inserts come with an additional 90-day warranty specifically covering the black powder-coated finish.

LETTERING KITS
SHOW OFF IN STYLE.

These premium stainless steel emblem kits are designed to seamlessly fit into the original tailgate impression. Choose between polished stainless steel or black platinum finishes, both constructed with the highest quality 304 stainless steel, offering a beautiful 100% mirror or black mirror finish.

Precision-cut to match the size and style of the original badges, the lettering emblems provide a seamless and factory-like appearance, aligning perfectly with the contours of your truck's tailgate. The two distinct styles – cut and stamped. Our cut design and a 3-dimensional lettering options – allow you to choose the one that best suits your preference, ensuring that your tailgate stands out from the rest.

Installation of the Putco tailgate lettering emblem kits is straightforward thanks to the simple tape-on installation using pre-applied automotive 3M™ tape. This adhesive backing ensures a strong and secure bond, keeping the emblems in place under various weather conditions. Officially licensed by GM and Ford, these emblem kits also come with Putco's NeveRust™ limited lifetime warranty, providing peace of mind and assurance of quality.

PUTCO® CHROME Trim Accessories

PUSH UP, TIE DOWNS

RISE UP TO THE CHALLENGE.

Putco's Push-Up, Tie-Downs – A solution designed to handle the toughest loads in your truck bed. With an innovative push-up system, these tie-downs effortlessly rise when needed and conveniently retract when your task is complete. The stake pocket mounted anchor points hold an impressive 500 lbs capacity per set, ensuring strength and reliability. Installation is simple, as these tie-downs mount into your stake pocket holes without the need for drilling, providing a versatile solution compatible with full-size domestic trucks and bed rail caps. Choose from black or chrome options to match your desired style.

Crafted from T-304 NeverRust™ stainless steel, these tie-downs showcase high-quality materials for enduring durability. The OEM chrome finish ensures years of great looks, enhancing both the functionality and aesthetics of your truck bed. Available in pairs or a 4-piece front and rear set, each tie-down anchor point can handle up to 250 lbs, providing a secure and flexible cargo management solution. The tie-downs are also tonneau compatible, working seamlessly with almost any inside-the-rail tonneau cover.

PATENT NUMBER:

US 6,498,009

PUSH-UP, TIE-DOWNS

EFFORTLESS ACTIVATION
Utilizes a push-up design, enabling easy activation of tie-downs or discreet concealment when not in use.

2 STYLISH OPTIONS
Available in sleek OEM-like chrome and black powder coat finishes, allowing you to match the tie-downs to the aesthetic of your truck.

QUALITY MANUFACTURING
Manufactured with the highest quality 304 stainless steel, ensuring exceptional durability.

DIRECT-FIT
Designed to mount directly into stake pocket holes, ensuring a snug and secure fit without the hassle of drilling.

HEAVY DUTY PERFORMANCE
Engineered for durability and style, these Push-Up, Tie-Downs are capable of handling up to 500 lbs per set.

DOMESTIC MANUFACTURING
Proudly manufactured in the USA, specifically in Des Moines, IA, ensuring high-quality production standards.

WARRANTY ASSURANCE
Putco guarantees this product against defects in materials and workmanship for 1-year from the original purchase date when installed correctly on the vehicle. For finishes like powder-coat, black platinum finish, and painted products, there is a 90-day warranty on the finish from the original purchase date.

FORD LED EMBLEMS

FORD LED EMBLEM
ILLUMINATE YOUR JOURNEY.

Give your truck a new look with the officially licensed Ford Emblem for the front and rear of your F150, Super Duty, or Ranger. Featuring a groundbreaking illuminated design to elevate the aesthetic appeal of your truck. Engineered for a headache-free installation, the LED Emblem seamlessly replaces the OEM emblem, fitting directly into OEM post mounts with precision. The Plug-N-Play wiring option provides straightforward installation into the fuse box, while the optional quick connect harness, available for 2021+ models, accelerates the process by installing directly to the headlamp plug.

Stand out with brilliance as the lighted oval emits a striking 6,500K White LED output, enhanced by the state-of-the-art manufacturing featuring chip-on-board LEDs for bright and crisp illumination day or night. The LED emblem showcases a head-turning startup sequence, captivating attention upon engine ignition. Designed to withstand the elements, it holds an IP69K rating, ensuring resistance to high temperatures and high-pressure water. The injection-molded matte black finish contributes to the emblem's UV resilience and chip resistance, ensuring long-lasting performance. Compatibility with cameras is maintained, allowing for full use of camera and camera washing components.

HIGH POWERED LEDS

HIGH-POWERED
Featuring a 50,000 hour LED bulb life and 6000K color temperature. Operates at 12 volts, utilizing NICHIA LEDs to achieve high light output with 3 Watts per LED and only a .75 amps draw per LED.

BEHIND GRILLE MOUNTING
No-drill bolt-on installation for a seamless fit. Designed to mount into OE locations behind your factory grille.

LASTING PERFORMANCE
Equipped with 15-degree focus lenses with output ranging from 1200LM to 27600LM.

IP69K RATED
IP69K rated for dusty and moisture protection, with an operating temperature ranging of -100°F to 180°F.

BILLET ALUMINUM HOUSING
Crafted with sealed, anodized aluminum protected with a UV-protected matte black finish.
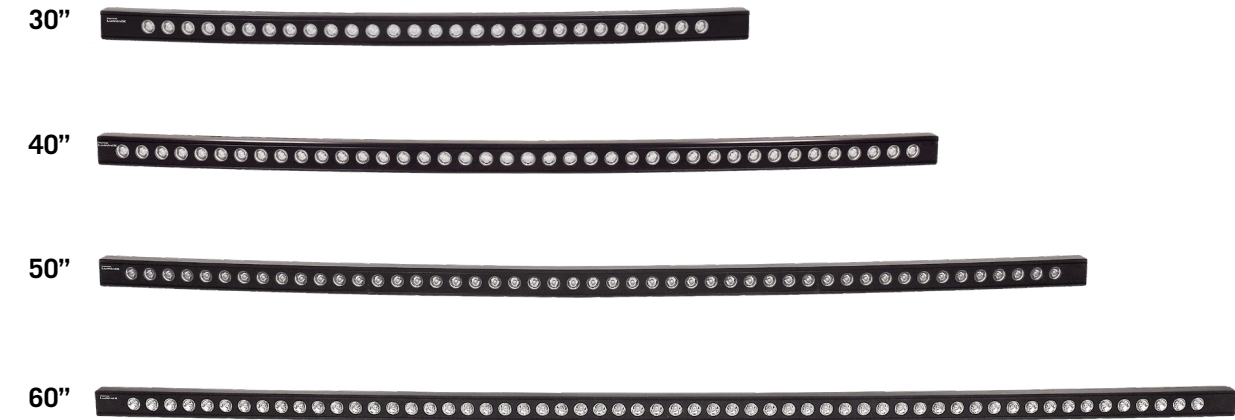

REVOLUTIONARY THIN DESIGN
Thinnest high power LED light bar design on the market. Measuring .75" thick & 1.5" high.

High Power LED

MINI-BLOCK LAMPS
LIGHT THE TRAILS AHEAD.

Experience unforgettable brightness with Putco Luminix® block style LED lights, meticulously engineered with 15-degree focus lenses and an impressive output ranging from 1200LM to 2400LM, ideal for off-road adventures. Designed to withstand the harshest elements, these super bright LED lights illuminate your path with a powerful beam pattern, making them perfect for trucks, SUVs, Jeeps, side by sides, trailers, and more.

Constructed from billet aluminum and finished with a protective anodized matte black coating, the housing ensures durability and longevity, safeguarding against UV damage for years to come. With a 6000K color temperature and a lifespan of 50,000 hours, these block style LED lights offer superior performance and reliability. Engineered to endure vibration, dust, immersion, high spray water, salt, and fog, they are built to excel in extreme conditions. Each light is sold individually and comes complete with a 12-volt full wiring harness featuring Deutsche connectors, compatible with 12-36v systems. Backed by an industry-leading 3-year warranty, Putco Luminix® block style LED lights are the ultimate choice for off-road enthusiasts seeking uncompromising quality and performance.

MINI-BLOCK LAMPS

HIGH-POWERED
These bright off-road lights offer over 50,000 hours of LED bulb life and a crisp 6000K Color Temperature. Powered by 12 volts and advanced NICHIA LEDs, they deliver high Lumen output with each LED operating at only 3 Watts, drawing just 0.75 amps for exceptional energy efficiency.

SLEEK DESIGN
Crafted from matte black billet anodized aluminum, sealed with a UV-protected finish. Equipped with 15-degree focus lenses with output ranging from 1200LM to 2400LM.

LASTING PERFORMANCE
Tested for vibration, dust, immersion, high spray water, salt, and fog, our lights ensure unmatched performance and durability on all your off-road endeavors. Backed by Putco's 3-year warranty.

DURABLE CONSTRUCTION
CNC cut from 12 gauge stainless steel, our brackets ensure lifelong durability and rust-free performance. Backed by Putco's 1-year limited warranty and limited lifetime warranty against rust, you can trust in the quality and durability of our product.

SCRATCH RESISTANT
The black mini-texture powder coat finish offers a scratch-resistant surface with a consistent and smooth black appearance.

CONVENIENT KIT
Sold as a pair, these brackets come as a complete kit for easy installation. (LEDs not included).

BRACKETS SOLD SEPERATLY
DESIGN VARIES PER MODEL TYPE.

COMPLETE PACKAGE
Sold individually and includes a 12-volt full wiring harness with Deutsche connectors, compatible with 12-36v systems, offering hassle-free installation.

ADVENTURE READY
Putco Luminix® block style LED lights are meticulously designed and engineered for off-road use, making them ideal for trucks, SUVs, Jeeps, side by sides, trailers, and more.

WARRANTY ASSURANCE
Enjoy our premium Luminix® LED bars with an exclusive 3-year warranty against defects in workmanship or materials.

DIRECT-FIT
Tailored for each vehicle's a-pillar mounts, our brackets are 100% bolt-on, requiring no drilling or cutting during installation. With a single-bolt mount, our brackets offer easy adjustment to focus light where it's needed most.

LOW PROFILE MOUNTING
Engineered for stability without obstructing the driver's view, our brackets provide a low-profile, vibration-free mounting solution.

OEM INTEGRATION
Utilizing OEM mounts ensures a seamless fit, blending seamlessly with your vehicle's design.

BLADE

LED TAILGATE LIGHT BAR

BLADE®

BE SAFE. BE SEEN.

Illuminate your truck's tailgate with the powerful Putco Blade® LED tailgate light bar, featuring high-powered COB (chip-on-board) technology. Available in various sizes including 18" pair, 36", 48", and 60", these light bars offer industry-leading brightness with options for red and white or red, white, and amber LED configurations. The 60" variant boasts over 2000 LEDs, ensuring exceptional visibility and safety on the road. Enclosed in tinted polycarbonate, these waterproof lights provide sharp LED output in 6000K cool white and red, meeting SAE IRST 21 DOT and SAE J595 standards.

Included in the package is a 16-gauge wiring harness with a 4-pin connector, facilitating easy installation and seamless integration with your vehicle's running, brake, hazard, and turn signal functions. For added convenience, a true model-specific hidden Plug-N-Play wiring harness is also available separately. Backed by a 3-year warranty, these Blade® LED tailgate light bars are proudly manufactured by Putco in Des Moines, Iowa. If you're looking to make a statement and increase visibility in low-light conditions, the Putco Blade® LED tailgate light bar is the ideal solution for your truck.

BLADE®

COB LEDS
Unlike traditional LED setups where individual LED chips are housed separately, COB LEDs consolidate multiple diodes into a single package, resulting in a higher power density and more uniform light output. This design allows for better thermal management and enhanced efficiency.

IP69K RATING
Our light bars are fully encapsulated with a tinted polycarbonate housing to keep moisture, dirt, and dust out ensuring that our light bars will function consistently rain or shine.

UP TO 2000 LEDS
Our compact design allows us to mount LEDs in a dense pattern that yields a light pattern with indistinguishable output points. This creates a seamless blade of light.

WARRANTY ASSURANCE
Putco stands behind this premium product with an exclusive warranty, ensuring freedom from defects in workmanship or materials for 3-years from the original date of purchase when properly installed on the vehicle.

60"

48"

36"
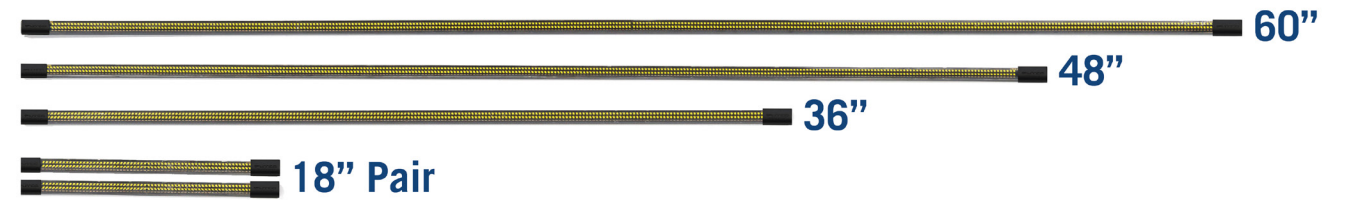

18" Pair

5 FUNCTIONS
Our classic Blade® tailgate light bar runs on the factory 4-pin harness providing your standard left & right turn signals, reverse, running, brake and hazard over-ride functions.

MULTIPLE SIZES
The Blade® lineup provides a range of sizes including an 18" pair, as well as 36", 48", and 60" variants to suit your specific needs.

PLUG-N-PLAY
Our quick connect wiring harness drastically reduces installation time. Featuring a straightforward Plug-N-Play design, the harness includes a 4-pin connector compatible with vehicle-specific OEM connections using specialized T connectors.

FULLY ENCAPSULATED
Our waterproof lights are encased in tinted polycarbonate, providing robust protection against external elements such as moisture, dust, and physical damage. This ensures durability and reliability.

FREEDOM BLADE

LED TAILGATE LIGHT BAR

FREEDOM BLADE®

FREEDOM TO CHOOSE.

Upgrade your truck's lighting game with the Putco Freedom Blade®, the most advanced LED tailgate light bar on the market. Designed and manufactured in the USA by Putco in Des Moines, Iowa, the Freedom Blade® offers unique features and performance. With its industry-exclusive start-up sequence and customizable turn signal color options (choose between amber or red), this light bar sets a new standard in tailgate illumination. Its scanning turn signal and center-out scanning hazards add an extra layer of safety and style to your vehicle.

The Freedom Blade® isn't just about aesthetics—it's also about performance. With over 1,296 LEDs in a single 60" light bar, producing a solid beam of light visible for miles, this light bar is ten years ahead in technology compared to its competitors. Fully encapsulated in tinted polycarbonate resin, the Freedom Blade® is built to withstand the elements, ensuring durability and longevity. Installation is a easy with the included direct fit harness, which plugs into Putco's exclusive quick connect harnesses for today's high-tech truck electrical systems. Plus, with a 3-year warranty backing it up, you can trust that the Freedom Blade® will light up your truck for years to come.

FREEDOM BLADE®

FULLY PROGRAMMABLE

With our array of 8 exclusive start-up sequences, and 5 turn signal options, you can add a touch of elegance to your vehicle's ambiance. Whether you're unlocking your truck, starting the engine, or activating your turn signal, our customizable animation settings ensure that every lighting experience is tailored to your preferences.

PLUG-N-PLAY

Our quick connect wiring harness drastically reduces installation time. Featuring a straightforward Plug-N-Play design, the harness includes a 4-pin connector compatible with vehicle-specific OEM connections using specialized T connectors.

2 SIZES

With up to 1,728 LEDs, our Freedom Blade® is available in two distinct size options, 48" and 60", our lineup ensures that your lighting needs are not only met but exceeded with precise fitment.

RGB LED LIGHT OUTPUT

The Freedom Blade® offers a spectrum of color options including red, amber, and white LEDs, with the freedom to select between amber or red turn signals for added flexibility.

QUICK PULSE BRAKE OPTION

Stay safe and visible with quick pulse brake light flash, providing triple flashing for heightened awareness when braking. Powerful reverse illumination with our bright 6000K cool white reverse light, with an impressive 3000LM output for enhanced visibility.

WARRANTY ASSURANCE

Putco stands behind this premium product with an exclusive warranty, ensuring freedom from defects in workmanship or materials for 3-years from the original date of purchase when properly installed on the vehicle.

VIRTUAL BLADE

LED GRILLE LIGHT + WORK BLADE

VIRTUAL BLADE®

BE SAFE. BE SEEN.

Experience the luxury performance, style, and functionality with the Putco Virtual Blade® LED Grille Lights. Engineered to exceed expectations, these lights boast best-in-class features across the board, from their unrivaled performance and quality to their comprehensive warranty and top-notch customer support. Each light bar is packed with a multitude of features, including DRL lighting, start-up sequences, and work blade® strobes, offering both style and function in one sleek package.

Crafted with high-power automotive-grade LEDs, the Virtual Blade® ensures superior illumination and longevity, setting it apart from cheap interior LED strips. With up to four start-up sequences and switchback DRL options, you can customize your lighting experience to suit your preferences. Plus, with weather-resistant construction and a full 3-year warranty, you can trust that these lights will stand up to the elements and provide reliable performance for years to come. Whether you're upgrading your factory grille or adding a touch of sophistication to an aftermarket one, the Virtual Blade® LED Grille Lights offer universal fitment with an OEM look, ensuring seamless integration with your truck's front end.

Work BLADE

LED LIGHT BAR FOR WORK TRUCKS

WORK BLADE®

BE SAFE. BE SEEN.

Illuminate your work environment with confidence using the Putco Work Blade® LED Light Bar, designed to enhance visibility and safety for utility vehicles. Derived from the popular BLADE® series, this specialized variant incorporates unique features tailored for professional use, making it a valuable asset for any fleet.

With up to 2,000 C.O.B. LEDs packed into a 60" light bar, the Work Blade® delivers a formidable 1,400 lumens of illumination, ensuring high visibility day or night. Certified for CLASS 1, 2, 3, and Title 13 compliance, these lights are built to withstand the harshest conditions, encased within a robust polycarbonate housing sealed with Putco's proprietary 2-part silica epoxy formula. This guarantees enduring performance in demanding work environments, providing peace of mind when visibility is crucial. Additionally, each kit utilizes live wire technology for color and pattern changes, eliminating the need for external strobe modules. Designed and manufactured in the USA, the Putco Work Blade® products are backed by a premium 3-year warranty, solidifying their status as the essence of safety, performance, and reliability.

PATENT NUMBERS:

US 10,156,336 | 10,775,006 | 10,281,095 | 10,837,615 | 10,859,229
D642,952 | 3,001,587 | 3,001,578 | 11,022,268 | D922,672
CA 2,001,587 | 2,909,296 | 3,009,863 | 3,001,578 | 3,004,576

WORK BLADE®

FLEXIBLE DESIGN
The flexible design allows for installation in a wide variety of locations. A curved surface or a standard straight mount both work seamlessly with our patented mounting clips.

INNOVATIVE SEALED HOUSING
Our patented PC housing is fully sealed using Putco's exclusive formula of 2-part SILICA epoxy, ensuring durability and protection.

EASY INSTALLATION
Patented clip system and 100% tape along end cap to provide a secure mounting solution. Includes 16-gauge wiring harness for full power lighting, ensuring efficient operation.

STROBE FUNTIONS
Experience 64 amber/white or amber/blue strobing functions, including frequency and speed adjustments for superior hazard signaling, ensuring maximum safety in any driving situation. Additionally, it offers a white override and solid color ON states for added versatility and control. SAE Class 1,2,3; Title 13 compliant.
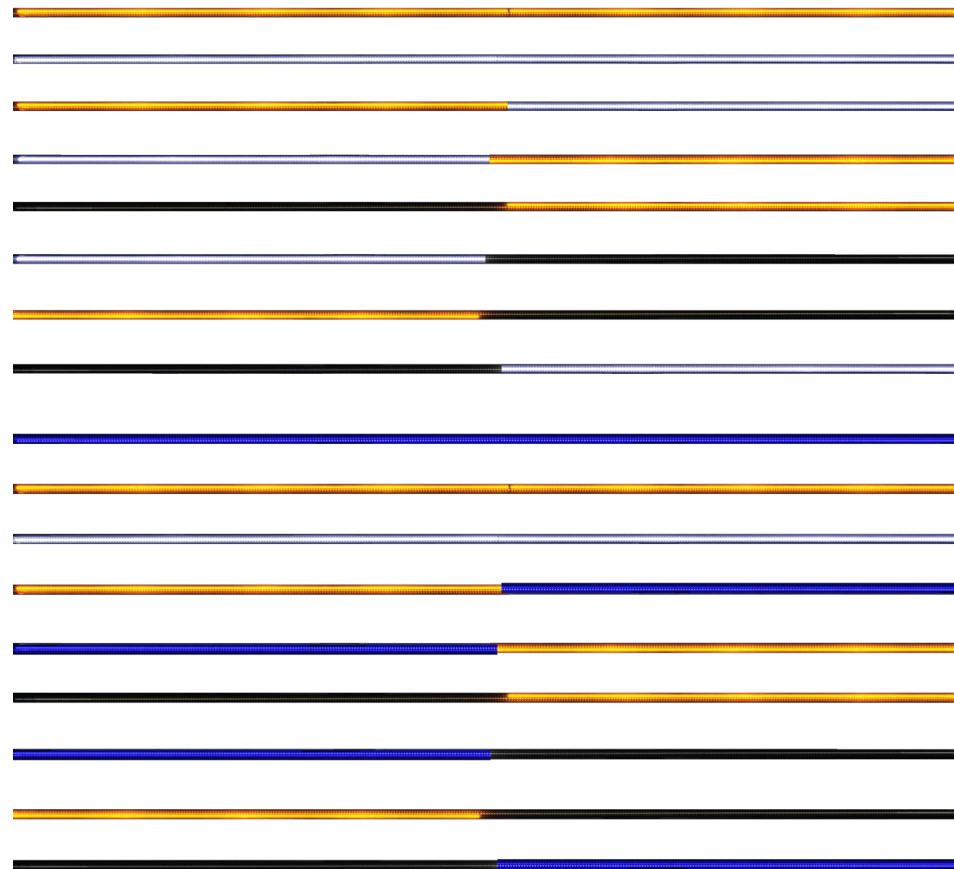

1400 LUMENS
Our compact design allows us to mount LEDs in a dense pattern that yields a light pattern with indistinguishable output points. This creates a seamless blade of light.

WARRANTY ASSURANCE
Putco stands behind this premium product with an exclusive warranty, ensuring freedom from defects in workmanship or materials for 3-years from the original date of purchase when properly installed on the vehicle.

MULTIPLE SIZES
The Work Blade® lineup provides a range of sizes including a 6" and 12" pair, as well as 18", 24", 36", 48", and 60" variants to suit your specific needs. Easily install on cab racks, rooftops, snowplows, front grilles, and truck sides.

PUTCO HORNET™

AMBER LED STEALTH ROOFTOP ✦ **STROBE LIGHT BAR**

HORNET™
SO BRIGHT, IT STINGS.

Illuminate your vehicle with high visibility and safety using the Hornet™ rooftop light. Upgraded to offer selectable amber or tri-color options in amber, blue, and white, these lights are powered by high power TIR LEDs, ensuring exceptional brightness that stands out on the road. Meeting and exceeding Class 1, 2, and 3, SAE J595/J845, and DOT 20 certifications, these lights provide 360° illumination with 32 different strobing patterns and built-in memory recall function.

Designed to be up to 40% more compact than other rooftop lights, the Hornet™ lights hold a low-profile, stealthy design that blends seamlessly with your vehicle's aesthetics. With a solid-state design and a life expectancy of over 50,000 hours, these lights are backed by a solid 5-year warranty. Installation is a simple, requiring no drilling, cutting, or modifications thanks to the included third brake light mounting bracket. Made from lightweight 6061 aluminum and finished with a textured black powder coat, these brackets ensure a fast and easy install while maintaining durability and a sleek appearance. Crafted to Putco's exacting specifications and proudly manufactured in the USA, the Hornet™ rooftop lights offer the best-in-class quality and design for your vehicle.

NITRO LUX

NITRO LUX

LIGHT YOUR WAY THROUGH THE FOG.

Nitro-Lux CSP LED bulbs—an excellent solution for upgrading your vehicle's outdated OEM fog lights. Engineered to perfection, these bulbs hold a remarkable 6500K color temperature, emitting a powerful 5000LM for an enhanced down-road punch. The high-spec tower is fully anodized with a non-reflective nickel finish, ensuring the elimination of light ray interference within the lamp.

The Nitro-Lux bulbs feature an innovative Easy-Clock™ Collar, allowing for swift and precise adjustments to the light beam angle. With a slim 20mm heat sink depth, these bulbs effortlessly fit into modern headlamps with minimal housing space. The anti-flicker driver box, equipped with new miniature capacitors, eliminates the need for an external anti-flicker module, reducing the size of the driver box by an impressive 80%. Moreover, the waterproof driver is fully potted with Tough Seal™ and advanced polymer, guaranteeing 100% waterproof performance.

With a focus on enhanced visibility, ease of installation, and longevity, the Nitro-Lux bulbs redefine expectations, backed by an industry-leading 2-year warranty.

Resins serve as an essential shield, safeguarding circuitry, components, and devices by providing robust protection, insulation, and discreet concealment.

DRIVER BOX
UPGRADED TECH • MINIATURIZED PARTS

Putco's anti-flicker driver box is fortified with Tough Seal™ 22 potting, ensuring complete waterproofing for exceptional protection. Enhancing its performance further, we've integrated miniaturized capacitors to shrink the size of our driver box by 30%. Additionally, our driver box features braided 10mil PET mono-filament sleeves, safeguarding wires against abrasion and heat for extended durability.
* Flicker kit still required on Ram Trucks

FULL SURFACE ANODIZATION

Non-reflective nickel finish to eliminate light ray interference inside lamp housing.

[ATC] **ADVANCED THERMAL CONTROL**

These bulbs are rigorously tested and scientifically validated for both peak performance and prolonged bulb lifespan. Its solid-state design sets the industry standard for superior heat management.

EC **EASY-CLOCK™ COLLAR**

With our built in Easy-Clock™ collar design you can effortlessly adjust the light beam by precisely directing the angle of the beam to suit your exact needs with ease.

SSD **SOLID STATE DESIGN**

Engineered without any moving parts, ensuring enhanced durability and unmatched reliability for a product built to last.

STREAMLINED DESIGN
The Nitro-Lux LED boasts a sleek, ultra-slim profile, setting the standard in fitting into modern minimal housing spaces with ease. Featuring twist-lock and slide-pressure locks, our LEDs guarantee flawless contact points, meeting OEM standards for reliability.

SEAMLESS INTEGRATION
Engineered for perfect fitments with existing OEM harnesses, ensuring a hassle-free installation experience.

WARRANTY ASSURANCE
Putco stands behind this premium product with an exclusive warranty, ensuring freedom from defects in workmanship or materials for 2-years from the original date of purchase when properly installed on the vehicle.

PUTCO NITRO 360°
LED FOG LIGHT KIT

NITRO 360°
LIGHT YOUR WAY THROUGH THE FOG.

The Nitro 360° fog light kit revolutionizes driving visibility with its innovative dual-color functionality, allowing drivers to effortlessly adjust between a 6000K ultra white and a 3000K crisp yellow LED output using their vehicle's fog light switch. This adaptability ensures optimal illumination regardless of the road conditions. While the 6000K white light enhances visibility on dry roads, the 3000K amber light excels in adverse weather conditions such as fog, rain, or snow, where yellow light penetrates more effectively, cutting through these conditions with ease.

Designed for simplicity and convenience, the Nitro 360° Fog Light Kit requires no additional wiring or switches; its Plug-N-Play installation ensures seamless integration with each vehicle's specific year, make, and model. Beyond its dual-color capabilities, the Nitro 360° boasts a comprehensive feature set, including a 360° light pattern for improved peripheral visibility, a solid-state design for enhanced durability, and an ultra-compact driver box suitable for space-constrained applications. Backed by Putco's 1-year warranty and designed in the USA, the Nitro 360° Fog Light Kit exemplifies versatility, performance, and reliability in fog light technology, offering drivers exceptional adaptability and peace of mind on the road.

LUMACORE™
DRIVE WITH CONFIDENCE.

Upgrade your vehicle's lighting with the Putco LumaCore™ LED bulbs, perfect replacements for brake lights, reverse lights, turn signals, license plate lights, and more. Putco's high-powered LumaCore™ LED bulbs emit light in a full 360° pattern for full visibility. Crafted with cutting-edge LED chips, these bulbs deliver exceptional down-road punch, ensuring superior performance wherever you go. Their 360° placement offers a brighter light with reduced hot spots, enhancing overall light emission and visibility. With multiple color options including red, amber, or white (depending on bulb), you can customize your vehicle's lighting to suit your preference.

Engineered for durability, these bulbs feature a solid-state design for over 50,000 hours of reliable use. With a hassle-free Plug-N-Play installation and OEM fit, they eliminate radio interference and offer error-free performance.

Compatible with Putco's Plug-N-Play resistor kits (sold separately) to prevent CANBUS interference, they feature a copper core for efficient heat control and powerful light output, ensuring exceptional performance for every application.

LUMACORE™

COPPER CORE
LumaCore™ LED bulbs contain a copper coated heat sink for improved heat dissipation.

LUMACORE™ QUICK PULSE BRAKE

INITIAL ILLUMINATION
When the brake is first engaged, the lights will illuminate for 1-second before activating the quick pulse function.

QUICK PULSE FUNCTION
Following the initial illumination, the bulbs perform a 3-measure quick pulse function, with each pulse lasting 0.8 seconds. This rapid pulsing alerts others on the road to the braking sequence.

STEADY ILLUMINATION
The quick pulse illumination sequence cycles through once, completing the entire sequence within 2-seconds. After the sequence is finished, the LED bulb remains steadily illuminated, providing continuous visibility.

OPTIC 360°

![OPTIC 360°]

OPTIC 360°
POWER THROUGH THE FOG.

When adverse weather conditions reduce visibility on the road, safety becomes crucial. Say goodbye to dim and ineffective fog lamp bulbs and upgrade to Putco Optic 360° LED fog lamp bulbs for the best performance. Crafted with cutting-edge 30-watt CREE LEDs, these bulbs deliver a powerful 800LM per kit with a cool white temperature of 6000K, ensuring clear visibility even in the thickest fog or heaviest rain. Unlike cheaper alternatives, these bulbs feature machined CNC billet aluminum construction, providing efficient heat dissipation for long-lasting performance.

Designed to enhance safety, Putco Optic 360° LED fog lamp bulbs utilize an optic convex lens to cast light in a 360° pattern, significantly improving peripheral visibility in adverse weather conditions. With a lifespan rated at 50,000+ hours, you can trust these bulbs to provide reliable illumination for years to come. Each kit includes a pair of direct replacement LEDs for both the driver and passenger side factory incandescent bulbs, backed by Putco's 1-year warranty for added peace of mind. Upgrade your fog lamps with Putco Optic 360° LED bulbs and drive confidently through any weather condition.
