Ride Engineering 2019 KX450

BRAKE ACCESSORIES

270mm Oversized Rotor Kits – 270mm Rotors- 270mm Hanger Brackets

Our new 270mm Solid Wave Rotor is made by Galfer exclusively for Ride Eng. The special grade stainless/iron alloy material is imported from Japan, manufactured in Spain, then imported to the US and is a favorite among most of the top level motocross teams. All the hanger brackets are precision machined by Ride Eng. and made in the USA.

BRAKE ACCESSORIES

Billet Front Brake Caliper V2

Increases stopping power with a more progressive feel and better modulation between the rider's input and front tire traction. We've achieved this with larger pistons, reducing flex and providing large fins for better cooling. V2 is easier to bleed making installation faster and it reduces drag on the front wheel.

Appl:

'04-'18 CR125/250/CRF250/450/CRX250/450
(will fit 2019+ if CR-00270-KT is also used)

RX-HB250-BA (black)

Honda Braided Steel Brake Line

Improves stopping power and reduces fade over the stock plastic line. Why? Because expansion is close to zero under all riding conditions. Our lines are made from extremely flexible Dupont Teflon steel. They will never crack or leak for the lifetime of your motorcycle. '04-'19 CRs & CRFs require Brake-line Clamp (page 3) for installation.

Appl: '90-'08 CR125/250
'02-'20 CRF250/450

SHOWA STEERING DAMPENER

Now the Honda HPSD is available from Ride Engineering.

MX-HPSD9-00 (20mm piston, MX use)
MX-HPSD1-10 (24mm piston, MX or off-road use)

**7" BAR PAD**

Designed to fit Ride Engineering One-Piece Bar Mounts perfectly.

MX-BP007-BK

Ride Eng. CR/CRF Triple Clamps

Ride Eng. triple clamps improve handling, remove weight (8 oz) and increase strength. They retain the factory rubber-mount system for less hand fatigue and accept the factory Honda steering stabilizer. Fit '09 and up front no. plates.

KT-LKA49-GE (ORANGE) KT-LKA49-BA (BLACK)

KTM/HUSKY FULL LINKAGE ASSEMBLY

This full suspension linkage is designed to improve comfort on acceleration chop and improve handling. Must be used in conjunction with a one rate stiffer shock spring. Recommended sag with the Rideng full linkage system is 104-108mm. (lowers 2mm)

Appl: 2015.5-2020.5 SX250F/450F FE - 2016-2020 SX/XC-F 250F/350F/450F; 2016-2020 SX125/150; 2017-2020 SX250/XC250/XC300 - HUSKY: 2016-2020 FC 250/350/450; 2016-2020 TC125; 2017-2020 TC250/TX300/FX350/FX450

KT-LKN16-GE (ORANGE)
 KT-LKN16-BA (BLACK)
 KT-KNU00-BA (BLACK)

CRF PULL RODS

Ride Eng.'s new longer billet pull rods are a key ingredient to balancing out the 2017-20's suspension, increasing traction on acceleration, utilizing all the travel and improving handling. Recommended sag is 102-104mm.

'17-'18 CRF450R & CRF450RX CR-DLA46-RA (RED)
 & 2018-'20 CRF250R
 '19-'20 CRF450R, CRF450RX & CRF450L (1/2") CR-DLA49-RA (RED)
 '19-'20 CRF450L (1" drop) CR-DLA4L-RA (RED)

YZ/YZF PERFORMANCE LINK

Ride's YZF suspension link lowers the back of the motorcycle 8-10mm. Our link improves handling mid-corner and balances out the bike. Less effort is required to initiate turn-in and it keeps the bike tracking straight in whoops allowing the rider to be more aggressive. Recommended sag with the Rideng Link is 102-105mm.

'09-'20 YZ250F/450F; YZ250FX/450FX '15-'20; WR450 '16-'20 YZ-LKA44-BA (BLACK)
 '05-'20 YZ125/250 YZ-LKA46-BA (BLACK)
 '05-'20 YZ125/250 YZ-LKA46-MB (BLUE)

RMZ PERFORMANCE LINK

Our Suzuki link stiffens the initial part of the stroke for better control which helps it transition into the high speed circuit better for smoother shock action. The bike also becomes balanced with less weight bias on the front wheel. Recommended sag for '13-'17 is 102-104mm, '18+ is 108mm.

Appl: '13-'17 RM450Z RM-LKA33-RA (RED)
 '18-'20 RM450Z RM-LKA36-MB (BLUE)
 '19-'20 RM250Z RM-LKA36-BA (BLACK)

KXF PERFORMANCE LINK

Ride's KXF link lowers the 2009 bikes 10mm and the 2010-15 bikes, 5mm. It comes complete with bearings and seals. The link improves handling in flat or off-camber turns, driving forward instead of sliding sideways. Less effort is required to initiate turn-in and it helps keep the bike going straight in whoops. It also keeps the back end planted in breaking bumps. The recommended sag with the Rideng Link is 100-105mm. 2017 Link lowers rear 8mm.

CONTROLS

Billet Engine Kill/Starter Switch & Throttle Housing Switch

Replaces the stock engine kill switch on all off-road motorcycles. Integrated into the clamp that holds the clutch lever or front brake master-cylinder; this item eliminates one component completely off the motorcycle. For those that ride electric start motorcycles, a second switch can be added to eliminate the stock start button!
