- Compact design that fits most bikes

EH500 most other models

LED REPLACEMENT BULBS

LED HEADLIGHT REPLACEMENT BULB

LED bulbs offer all the benefits of more expensive LED bulb / lens replacements at a fraction of the cost!

The LED HEADLIGHT REPLACEMENT BULB:

- Replaces all stock H4 bulb (most HD models 1990-2013)
- Uses stock reflector and bulb housing
- 6000K daylight white light beam, no yellow or blue tint
- 20,000 hour bulb life
- Super bright 3000 lumen output (standard H4 lumen output is 800-1200 lumens)
- Draws less than 1 amp compared to stock bulb at 5 amps
- Easy DIY plug and play installation

LED-100

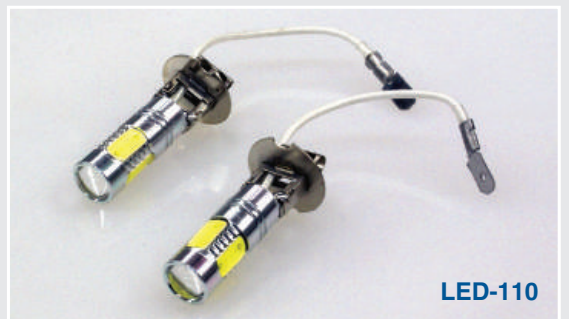

LED REPLACEMENT PASSING LAMP BULBS

Set of bulbs allows conversion of stock Harley passing lamp bulbs to LEDs

- Uses stock reflector and bulb housing
- 6000K daylight white light beam, no yellow or blue tint
- 20,000 hour bulb life
- Super bright 600 lumen output per bulb
- Draws less than 1 amp compared to stock bulb at 5 amps
- Easy DIY plug and play installation

LED-105 2006-2013 Harley models with 881 bulbs (Pair)

LED-110 1996-2005 Harley models with H3 bulb (Pair)

LED-110

LED TURN SIGNAL MIRRORS

Custom-Look LED Lighted Turn Signal Motorcycle Mirrors

- Forward-facing side of the mirrors function as a turn signal and running light combination
- Rear facing LEDs function as turn signals
- Longer stems and larger 3 1/2" x 5" convex mirrors provide greatly improved field of vision
- Fit all motorcycles with handlebar mounted mirrors
- Increased visibility and safety
- Perfect for custom bikes without turn signals
- Super-bright LEDs - easy to see in the brightest sunlight
- Triple chrome plated or semi-gloss black anodized frames
- Simple 3-wire connection to turn signal wires

MIRLED Chrome
MIRLEDBK Black

ADDITIONAL LIGHTING

Super Bright Trunk Mount LED Tail Light and Trunk Light

- 18" long, has 24 high intensity LEDs and functions as both a tail and brake light
- Greatly increases visibility/safety of bike
- Mounts easily on Harley® Classics, Ultras, trikes, and many other bikes with a trunk, as well as trailers, and pivots on mounts to aim light for greater rear visibility
- Simple electric hook-up

SBRKL

LED Tail & Flashing Brake Modulator

- Works with SBRKL and all other LED lights
- Brake light flashes 3 times/second continuously or can be set to flash for 5 seconds and then remain on until brake release
- Easy to connect

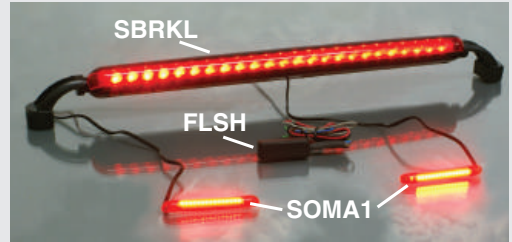

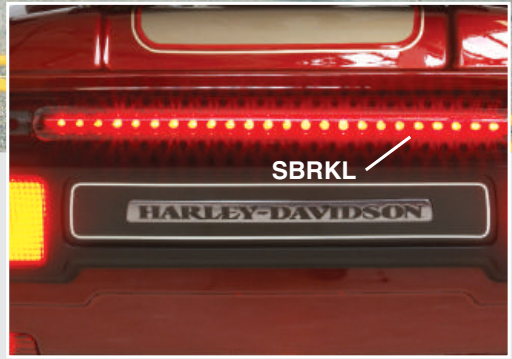

FLSH

2"- Halogen Driving Light Kit - with 1.25" Clamps

- 55 watt halogen bulbs
- Chrome-plated 2" steel housings
- 1 1/4" clamps fit all Harley Davidson O.E.M. crash bars and most other brands
- Fits with fairing lowers
- Kit includes lights, clamps, switch, relay, all wiring and simple to follow instructions

DL20K125 Includes lights & 1.25" clamps

S.O.M.A. LED Safety Flashing Tail & Brake Light Kit

- Helps prevent rear-end collisions
- Includes 2 high intensity flexible LED lights
- Includes FLSH Tail Light & Flashing Brake Modulator
- Included brackets to fit between license plate and holder
- Kit includes 36" wires, wire connectors and easy to follow instructions

SOMAKIT

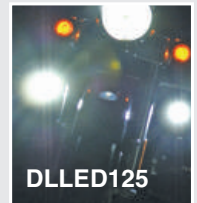

2"- LED Driving Light Kit - with 1.25" Clamps

Significantly increase night time vision and daytime visibility with these high output 3000 Lumen LED lights.

- 6000K daylight white
- Low power consumption, cool running
- 1 1/4" clamps fit all Harley-Davidson O.E.M. crash bars and most other brands
- Silver anodized aluminium housings
- Fits with fairing lowers
- Kit includes lights, clamps, switch, relay, all wiring and simple to follow instructions

DLLED125 Includes lights & 1.25" clamps

PARADE FLAG HOLDER

PF1000 shown with **HWK010** mounting kit.

Parade Flag Holder

- Display up to three full size flags easily, prominently, safely and with a very custom show look
- The flag holder bar with flag socket can be attached or removed from the brackets in seconds by removing two safety pins
- One socket is included and 1-2 more additional flag sockets can be added (**PF920**, sold separately)

PF1000 Mounts also sold separately

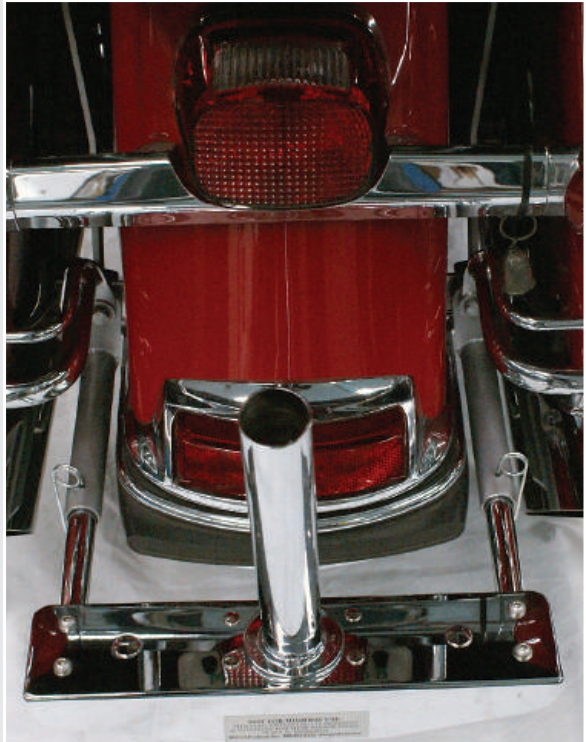

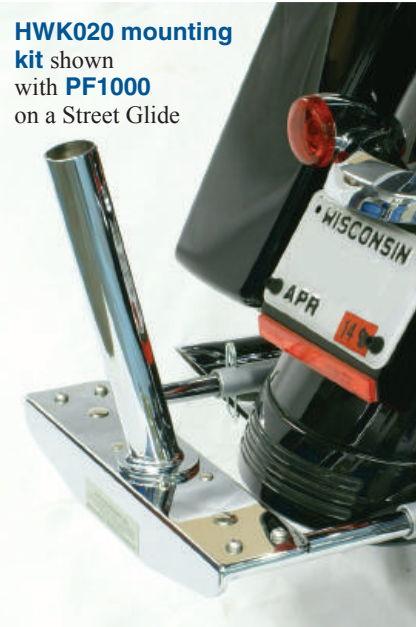

PF920 Additional sockets

PF1000

(shown left with **HWK015** mounting kit), utilizing two **PF920** sockets

LARGE FLAG POLES & LICENSE PLATE FLAG HOLDER

License Plate Mounted Double Flag Holder Kit

- Mounts to all vertical license plate holders
- Rugged design won't bend or flex and remains sturdy at highway speeds
- Flag holder and 12" poles are made from stainless steel and polished to a brilliant finish
- Made for 6" x 9" flags (not included)

FH100

Telescoping Flag Pole

- Collapsible pole goes from 18" (fits in most saddlebags) to 6 1/2 feet in seconds with positive twist locks inside each section
- Bottom section is 1 1/4" in diameter & slides snugly into all RIVCO parade flag holders
- Patented clips keeps flags tight, in place and can be removed in seconds
- Made from aircraft aluminum tubing with a silver anodized finish

NOTE: Parade use only - recommended for use at a maximum speed of 25 mph. (Due to the adverse handling that a flag can cause at higher speeds as well as flag pole load limit.)

PFPOLE

3 Piece Heavy Duty Screw Together Flag Pole

- Sections screw together in seconds
 - 1 1/4" diameter sections are 24", assemble to 72" and fits snugly in all RIVCO holders
 - Machined from stainless steel tubing & polished to a mirror finish
 - Complete with custom sewn storage bag and will fit in your saddlebag
 - Patented flag holder clips keeps flags tight, in place and can be removed in seconds
- NOTE: While it will withstand a 100lb. load, it is recommended for use at a maximum speed of 25 miles an hour. (Due to the adverse handling that a flag can cause at higher speeds.)

PFPOLE-3

FLAG POLE HOLDERS & RACK MOUNTED FLAG POLE

Trunk Mounted Single Flag Holder Kit

- Dome mount with 12" flagpole
- Mounts easily and securely on Harley Tour-Paks or aftermarket trunks
- Features 3M brand stick-on tape and optional through lid stud for secure mounting
- Made for 6" x 9" flags (not included) and includes clips to keep flag in place

FH200

Rack Mounted Fold Down Flag Pole

- Fits all trunk and luggage racks with 3/8" and 1/2" diameter round tubing
- The split clamp base is made from ABS so it will not mar the rack and attaches securely with two screws
- Total length is 12" tall including the gold-tone eagle finial, the flag pole itself is 8.5"
- Made for 6" x 9" flags (not included) and includes grommet to keep flag in place

FH300

License Plate Mounted Double Flag Holder Kit for 2009 & Up Street Glides/ Road Glides

- Designed for Street and Road Glides 2009 and newer which have the "lay down" style license plate
- Replaces the flimsy plastic license plate holder with stainless steel polished to a brilliant finish
- The two poles are spaced 16" apart and topped with chrome finials
- Made for 6" x 9" flags (not included) and includes clips to keep flags in place

FH500

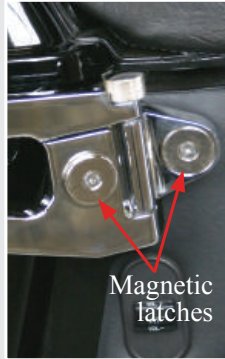

Hard Bag Mounted Single Flag Holder Kit

- Dome mount with 12" flagpole
- Made to be mounted on Harley-style angled hard bags without interfering with the Tour-Pak
- Features 3M brand stick-on tape & optional through bag stud for secure mounting
- Made for 6" x 9" flag (not included) and includes clips to keep flags in place

FH600

PASSENGER ARMRESTS

Adjustable Passenger Armrests For Harleys®

These quick detach armrests offer increased passenger comfort and security.

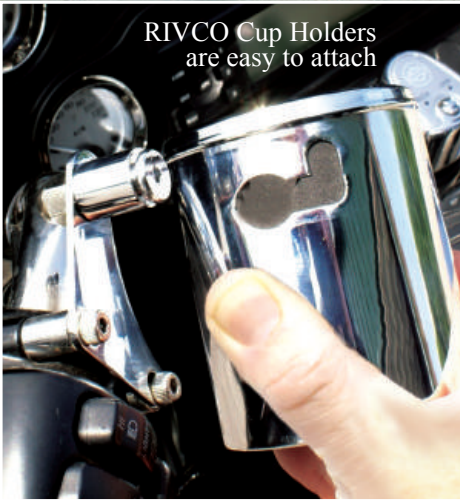

- Arms remove easily from mounts without tools
- Adjustable friction/removal knobs and magnetic latches hold the arms securely in place
- Arms pivot for easy passenger access
- Plush 2" thick upholstered pads
- Sturdy backing plate mount securely to all King Tour-Paks® including Tri Glides with or without speakers
- Easy installation, no drilling

For information about Cup Holders, see page 11

HD410

TRAILER HITCHES

Completely Hidden Harley-Davidson® Trailer Hitch For FLH/FLT Touring Models

- Fits Ultra Classic, Ultra Limited, Street Glide, Road Glide, Road King, including CVO versions
- Vertical receiver hitch with removable chrome tongue
- When installed hitch is hidden and virtually invisible when the chrome tongue is removed
- Simple bolt-on installation, mounts to the bike at 5 points for superior rigidity

Kit does not include ball or wiring.

HD0073 Fits 2009-2013 FLH/FLT

HD0074 Fits 2014 and up FLH/FLT

NOTE: 2010 and newer Street Glide and Road Glide models will additionally require **#HD007-100 Series** Tail/Brake Light Kits, see our website.

HD0073/74

Ball sold separately

HD0073/74

(Virtually invisible when attached)

HD0073/74

HD007-TG3

Trailer Hitch for Harley-Davidson® FLHTCUTG TRI-GLIDES

- Receiver type hitch that bolts directly to the frame in minutes
- The receiver is almost totally hidden when the tongue is removed
- Made for use with or without RIVCO's or Harley's optional rear bumper
- Does not include ball or wiring
- Per Federal law (Google "Magnuson-Moss Warranty Act 1974"), a manufacturer cannot void your warranty for using a trailer hitch

HD007-TG3 2009 & 2010 Tri-Glide

HD007-TG-113 2011 & newer Tri-Glide

HD007-TG3

(Shown with **GL18007-C** Ball, sold separately)

HWK010

TRAILER RACK MOUNTING KITS & FLAG SOCKET

Trailer Hitch Mount

- For use with any trailer hitch
- Bracket will not interfere with your trailer's coupler and does not need to be removed when towing
- Bolt bracket on under your ball, either over or under tongue (shown under) then either plug in the rack, flag holder or pull your trailer

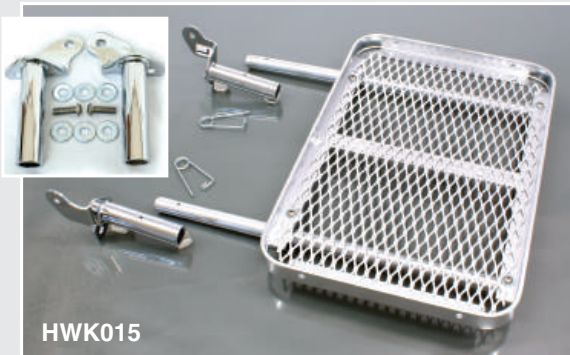

HWK010

Mounting Kits For 1996 & Newer Harley® FLH & FLT Models

- For bikes not having a trailer hitch these easy to install almost unseen mounts allow the use of either our parade flag holder or quick detach rack
- Set includes chromed receiver brackets and all hardware required for mounting **PF1000** or **QD1000**

HWK015 Fits 1996-2008 FLH & FLT models including CVOs

HWK020 Fits '09 & Newer FLH & FLT Models including CVO and LTD

HWK015

HWK020

PF920

**PF1000,
PFPOLE,
PFFLAG**

Add-On Flag Holder Socket

- Sockets hold up to 1 1/4" poles, and are set at a 15° angle to their bases
- They can be rotated and tightened to display flags, angled to the rear, sides or any combination

GL18008

QD1000

Quick Detach Rack For ALL Bikes WITH A Trailer Hitch

The **#GL18008** includes chrome receiver bracket that fits ALL, yes ALL trailer hitches. Bolt the bracket onto your hitch using your trailer ball - then either slip the rack into the receiver and lock with the supplied pins or place your trailer onto the ball. The rack receiver bracket does NOT interfere with trailer coupler or towing.

- Rack can be installed or removed in seconds
- Perfect for when you need a little extra storage but do not want to tow a trailer.
- Rack's location on the bike helps keep the center of gravity low and handling better than loading the Tour-Pak® and bags with heavy items
- Made from aircraft quality aluminum, weighs only 3lbs
- Strong enough to support 250 pounds but rated at a 35 lb. maximum capacity to maintain good handling characteristics

- 11" x 17" size with holes around the edge for bungee cords and nets easily accommodates small coolers and luggage as well as our lock on bag w rain cover #RB100

- LED tail lights can also be added optionally to the rack where a clear view of the tail light would be blocked # CRLGHT For All Motorcycles With Trailer Hitches **GL18008** (Includes **HWK010**)

Quick Detach Rack For 1990 & Newer FLT & FLH That DON'T Have A Trailer Hitch

If you don't have a trailer or hitch and need extra storage for trips - the **#QD1000** is the rack for you. Bolt a set of our rack receiver brackets (sold separately) on then slip the rack into the receiver brackets and lock securely in place with the supplied pins.

- This rack features all the same great features and manufacturing strengths of our **#GL18008** - just designed for the rider who doesn't have a hitch **QD1000** (**HWK015** or **HWK020** required)

RACK BAG, LOCKS & RACK LED LIGHT SET

RBDL

Rack Bag Dowel Lock Rods

- Easily secures and locks the RIVCO Rack Bag to your rack
- Provides access to all compartments without having to fumble with clumsy bungees

RBDL (Sold in pairs)

RB100

Rack Bag

For use with RIVCO quick detach racks and most other luggage racks.

- Heavy water-resistant nylon - measures 11" x 17" x 12" tall
- Zippered outer storage compartments on 3 sides carry handles, detachable shoulder strap
- Includes tethered hide away water and dust proof cover
- Slots in bottom allow locking to the rack using optional dowel locking rods, **RBDL**

RB100

CRLGHT

LED Tail Light Set For Quick Detach Racks

LED tail light and license plate mount designed for use with any RIVCO quick detach rack.

Recommended any time the

luggage used on the rack covers any portion of the motorcycle's stock lighting or license plate.

- Provides additional tail, brake & turn signal lights as well as a license plate mounting location
- LEDs are extremely bright (even in direct sunlight), as well as water & vibration proof
- Attaches easily to the rack using pre-drilled holes

Note: Lighting is a four wire system and requires the use of a 5 to 4 wire convertor on 2013 and earlier models (RIVCO part **#EC100** sold separately)

CRLGHT

HI-FI STEREO SYSTEM & TRAILER HITCH WIRING

Premium 200 Watt 3" Bluetooth Chrome Hi-Fi Stereo System

- Superior sound at speeds up to 80 mph
- Bluetooth
- Wireless remote control from mobile phone or iPod
- Amplifiers are built into speaker housings
- Easy, clean "Plug & play" installation

MS100

MS100

MS100

Plug-In Trailering Wiring Sub-Harnesses

No cutting, splicing or soldering!

Simply unplug the tail light from the main wire harness under the seat, and plug in the mating male and female connectors to make an easy plug-in connection with RIVCO's Isolator and/or 5-4 Wire Converter.

Sub-Harness for FLH/FLT Harleys® - 1997 - 2013

- Fits Street Glide 06-09, Road King 97-13, Road Glide 97-09, Classic, Ultra, Limited & CVO, - all 97-13, Tri Glide - All

HD007-13

Sub-Harness for 2010 & newer FLHX (Streetglide) & FLHXR (Road Glide Custom)

HD007-28

Sub-Harness for 2010 and newer FLHXSE (CVO Streetglide) & FLHXRSE (Road Glide CVO)

HD007-38

Trailer Wiring Sub Harness for 2014-'15 Harley-Davidson Tour Models

HD007-48

EC07664

5-to-4 Wire Converter

- Converts the 5 wire tail lights on 2013 & older models to a 4 wire signal
- Easy plug-in connectors and installation

NOTE: Must use with **#GL18007-IU**

EC07664

Signal Decoder For 2014 & Newer Harley FLH CAN-bus Trailer Wiring

- Separates the now combined Can-bus brake & turn signal functions to give a 5 wire signal to trailer lights
- Decoder box and other components have easy plug and play connections. NOTE: Using the decoder box without an isolator will damage the decoder box.

HD007-50

TRAILER HITCH WIRING

GL18007-IU

Trailer Wiring Isolator

This is a must for all models! Designed to prevent any damage or malfunction to electronic ignition, fuel injection, ABS braking systems and other sensitive electrical components when towing a trailer.

- OEM tail light circuits, wires and fuses are not heavy-duty enough to handle the additional load from trailer lighting - causes both the motorcycle and trailer lights to dim as well as overheat the wiring and blow fuses.)
- Draws all required power for the trailer lighting directly from the battery through it's own heavy-duty wiring and fuse.
- Measures 1" x 1 1/2" x 3" long, has a peel-and-stick adhesive backing and 36" wire leads in a loom ready to accept any trailer plug, making it easy to install and conceal
- Plug in connection to all RIVCO Sub-Harnesses and Converters

GL18007-IU

TWC001

TWC002

Molded 6-Wire Trailer Connector

- Manufactured with a 60" loop of 16 gauge wire that can be cut as desired for splicing

TWC002

Premium Weatherproof 6-Wire Trailer Connector Set

- Marine quality, sealed to keep out water, dirt and prevent corrosion
- No splicing, soldering or crude bulky connections
- Easy to assemble with crimp on terminals and seals gives a high quality and sanitary trailer connection
- Includes an additional male plug to use as a weatherproof dust cover on the motorcycle side connector when not towing your trailer

TWC001

EC100

5-to-4 Tail Light Wire Converter For RIVCO Rack Lighting

- Use with RIVCO rack lighting system's #CRLIGHT Rack LED Tail Light Set. Converts the motorcycle's 5 wire tail light system to a 4 wire system which is used on the rack lighting system. Can also be used to power trailers with a four wire system that have only LED lights, as these have a low current draw.

EC-100

HIGHWAY BOARDS & PASSENGER MOUNTS

Adjustable Passenger Floorboards For '93 and newer FLT's, FLHT's, FLTR's, FLHS's, FLHX's, FLHR's & FLHTG

- 12 positions with 9" range of motion
 - No tools required - change by pulling the spring-loaded locking pin
 - Moves the board forward up to 4", giving passenger best possible leg support & comfort
 - Featuring a Classic Steel design, with anti-vibration rubber pads
 - Installs easily without modification to the bike
- US PAT: 7114739

Adjustable Passenger Floorboards - For Indian Models

- Replaces the stock fixed passenger pegs
- Adjust in seconds to 12 positions through a rotating 9" range of motion, by pulling spring-loaded locking pins - no tools required
- Mounts are billet aluminium and all parts are triple chrome plated, and install easily without modification to the bike
- Set includes Classic Steel Passenger Floorboards with anti-vibration rubber pads to ensure greater passenger comfort and the best possible leg support. Fit 2014 & newer Indian Classic, Vintage, Chieftain and Roadmaster models. US PAT: 7114739

IC125A

ADJUSTABLE HIGHWAY MOUNTS

Ultimate Frame Mounted Highway Mounts and Pegs

- Fit most models without engine guards!
- Arms mount directly to the front frame down tubes - allow for an 8" range of motion backwards from the center line of the frame tubes
- The arm and peg have a combined length of 13", and can be extended 2"-3" by using PEGSEXT or PEGSEXT-3
- Split clamps with 4 screws each tighten securely to the frame and will not slip
- Includes anti-vibration pegs with RIVCO's unique angle adjustment locking set screw system
- Fits most American and metric bikes with these frame sizes:

Chrome **HD002** all models 1 1/8" from down tube

Chrome **HD003** all models 1 1/4" from down tube

Black **HD003BK** all models 1 1/4" from down tube

Chrome **HD004** all models 1 1/2" from down tube

See website for more detailed fitment.

- Sets are chrome or black powder coated

1 1/4" Chrome **PEGS125** 1 1/4" Satin Black Powder Coated **PEGS125BK**

CENTERSTANDS

HD001A-9BK

RIVCO's innovative adjustable centerstand feet screw-in or out from the legs of the stand and lock securely in place with a set screw.

Centerstand/Ride-Off Stand for Harleys®

All big bikes need a centerstand, so finish up what the factory didn't. Easily detail wheels, check air pressure, check and change oil and filter, remove wheels, perform maintenance functions, greatly reduce the required storage space, and take 95% of the bike's weight off the tires during storage.

- Bolts to the frame in minutes without modification to the motorcycle
- Virtually unseen in the retracted position
- Does not reduce ground clearance or interfere with cornering ability
- Our stands are height adjustable and can be used as either a centerstand or a ride-off stand
- **Centerstand:** With the feet adjusted out or longer, you get the rear wheel approximately 1" off the ground. Getting off the centerstand is done by giving a push forward while seated on the motorcycle
- **Ride-Off Stand:** With the feet adjusted in or shorter, it becomes a Ride-Off Stand. This allows the motorcycle to be on the stand but low enough for both wheels to be on the ground. The motorcycle can be put in gear and ridden off the stand
- Fits all FLT and FLH models (Road King, Classic, Ultra Classic, Street Glide, Road Glide), Screamin' Eagle/CVO models of the same and including those fitted with Harley® lowering kits (shorter shock absorbers)

NOTE: RIVCO centerstands do not fit with "Perfect Storm" exhaust or frame stabilizers

HD6200L

With a choice of 2 different baffles, the PowerMaster® allows you to choose the sound you want.

- Proprietary high temperature inner coating and 4 step chroming process creates a beautiful finish and an amazing one year limited warranty against manufacturers defects in chrome plating, and also against blueing
- Mufflers deliver 4-5 additional horse-power
- Requires no retuning of fuel injection like additional EFI modules, “re-mapping”, or “dealer-downloads”
- Replacement baffles available separately, see our web site

See a video and hear them on our website.

HIGH QUALITY COMFORT & CARE PRODUCTS

Bagger Budz - Saddlebag Feet & Pin Retainer Kit

Tired of fumbling thru your bags to find the keeper pins and washers? Then you need Bagger Budz!

- Cable set and retainer washers keep the saddlebag pins and washers together, and prevent them from falling lost to the bottom of the bag
- For use with hard and soft saddlebags
- Stick on, protective clear bumpers go on the bottom of your bags allowing you to set them any surface and the paint from damage
- Set includes all items needed for 2 bags

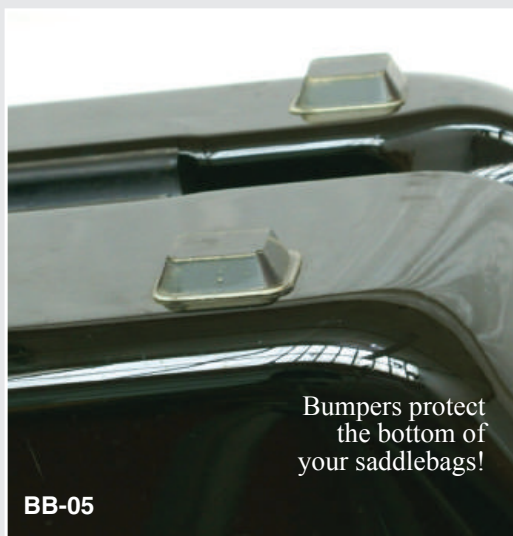

BB-05

Dyna Handlebar Risers

- Set replaces the stock risers and will bring the handlebars up 1" and back toward the rider 2"
- Significantly reduces back, neck and shoulder fatigue
- Uses the original hoses and cables with only minor re-routing required
- Set uses the stock caps
- Made for 1" Dyna handlebars, fit FXDL Dyna Low Rider - 1994 through 2005, and FXDWG Dyna Wide Glide - 1994 through 2005, Super Glide 2003-2010, 2006 Street Bob and 2006 Sportster

FXD017
