LARGE FLAG POLES & LICENSE PLATE FLAG HOLDER

License Plate Mounted Double Flag Holder Kit

- Mounts to all vertical license plate holders
- Rugged design won't bend or flex and remains sturdy at highway speeds
- Flag holder and 12" poles are made from stainless steel and polished to a brilliant finish
- Made for 6" x 9" flags (not included)

FH100

Telescoping Flag Pole

- Collapsible pole goes from 18" (fits in most saddlebags) to 6 1/2 feet in seconds with positive twist locks inside each section
- Bottom section is 1 1/4" in diameter & slides snugly into all RIVCO parade flag holders
- Patented clips keeps flags tight, in place and can be removed in seconds
- Made from aircraft aluminum tubing with a silver anodized finish

NOTE: Parade use only - recommended for use at a maximum speed of 25 mph. (Due to the adverse handling that a flag can cause at higher speeds as well as flag pole load limit.)

• PFPOLE

3 Piece Heavy Duty Screw Together Flag Pole

- Sections screw together in seconds
- 1 1/4" diameter sections are 24", assemble to 72" and fits snugly in all RIVCO holders
- Machined from stainless steel tubing & polished to a mirror finish
- Complete with custom sewn storage bag and will fit in your saddlebag
- Patented flag holder clips keeps flags tight, in place and can be removed in seconds

NOTE: While it will withstand a 100lb. load, it is recommended for use at a maximum speed of 25 miles an hour. (Due to the adverse handling that a flag can cause at higher speeds.)

PFPOLE-3

FLAG POLE HOLDERS & RACK MOUNTED FLAG POLE

Trunk Mounted Single Flag Holder Kit

- Dome mount with 12" flagpole
- Mounts easily and securely on Harley Tour-Paks or aftermarket trunks
- Features 3M brand stick-on tape and optional through lid stud for secure mounting
- Made for 6" x 9" flags (not included) and includes clips to keep flag in place

FH200

Rack Mounted Fold Down Flag Pole

- Fits all trunk and luggage racks with 3/8" and 1/2" diameter round tubing
- The split clamp base is made from ABS so it will not mar the rack and attaches securely with two screws
- Total length is 12" tall including the gold-tone eagle finial, the flag pole itself is 8.5"
- Made for 6" x 9" flags (not included) and includes grommet to keep flag in place

FH300

License Plate Mounted Double Flag Holder Kit for 2009 & Up Street Glides/ Road Glides

- Designed for Street and Road Glides 200 and newer which have the "lay down" style license plate
- Replaces the flimsy plastic license plate holder with stainless steel polished to a brilliant finish
- The two poles are spaced 16" apart and topped with chrome finials
- Made for 6" x 9" flags (not included) and includes clips to keep flags in place

FH500

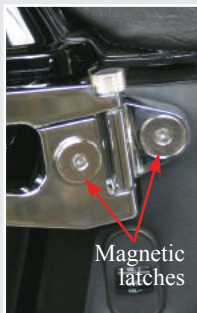

Hard Bag Mounted Single Flag Holder Kit

- Dome mount with 12" flagpole
- Made to be mounted on Harley-style angled hard bags without interfering with the Tour-Pak
- Features 3M brand stick-on tape & optional through bag stud for secure mounting
- Made for 6" x 9" flag (not included) and includes clips to keep flags in place

FH600

TRAILER RACKS

HWK020 shown fitted with
QD1000 Quick Detach
Rack and CRLGHT
Rack LED Tailight Set

Quick Detach Rack For ALL Bikes WITH A Trailer Hitch

The **#GL18008** includes chrome receiver bracket that **fits ALL, yes ALL trailer hitches**. Bolt the bracket onto your hitch using your trailer ball - then either slip the rack into the receiver and lock with the supplied pins or place your trailer onto the ball. The rack receiver bracket does NOT interfere with trailer coupler or towing.

- Rack can be installed or removed in seconds
- Perfect for when you need a little extra storage but do not want to tow a trailer.
- Rack's location on the bike helps keep the center of gravity low and handling better than loading the Tour-Pak® and bags with heavy items
- Made from aircraft quality aluminum, weighs only 3lbs
- Strong enough to support 250 pounds but rated at a 35 lb. maximum capacity to maintain good handling characteristics

• 11" x 17" size with holes around the edge for bungee cords and nets easily accommodates small coolers and luggage as well as our lock on bag w rain cover #RB100

• LED tail lights can also be added optionally to the rack where a clear view of the tail light would be blocked # CRLGHT

For All Motorcycles With Trailer Hitches
GL18008 (Includes **HWK010**)

Quick Detach Rack For 1990 & Newer FLT & FLH That DON'T Have A Trailer Hitch

If you don't have a trailer or hitch and need extra storage for trips - the **#QD1000** is the rack for you. Bolt a set of our rack receiver brackets (sold separately) on then slip the rack into the receiver brackets and lock securely in place with the supplied pins.

- This rack features all the same great features and manufacturing strengths of our **#GL18008** - just **designed for the rider who doesn't have a hitch**

QD1000 (**HWK015** or **HWK020** required)

RB100

LED Tail Light Set For Quick Detach Racks

LED tail light and license plate mount designed for use with any RIVCO quick detach rack.

Recommended any time the

luggage used on the rack covers any portion of the motorcycle's stock lighting or license plate.

- Provides additional tail, brake & turn signal lights as well as a license plate mounting location
- LEDs are extremely bright (even in direct sunlight), as well as water & vibration proof
- Attaches easily to the rack using pre-drilled holes

Note: Lighting is a four wire system and requires the use of a 5 to 4 wire convertor on 2013 and earlier models (RIVCO part **#EC100** sold separately)

CRLGHT

HI-FI STEREO SYSTEM & TRAILER HITCH WIRING

Premium 200 Watt 3" Bluetooth Chrome Hi-Fi Stereo System

- Superior sound at speeds up to 80 mph
- Bluetooth
- Wireless remote control from mobile phone or iPod
- Amplifiers are built into speaker housings
- Easy, clean "Plug & play" installation

MS100

Plug-In Trailing Wiring Sub-Harnesses

No cutting, splicing or soldering!
Simply unplug the tail light from the main wire harness under the seat, and plug in the mating male and female connectors to make an easy plug-in connection with RIVCO's Isolator and/or 5-4 Wire Converter.

Sub-Harness for FLH/FLT Harleys® - 1997 - 2013

• Fits Street Glide 06-09, Road King 97-13, Road Glide 97-09, Classic, Ultra, Limited & CVO, - all 97-13, Tri Glide - All

HD007-13

Sub-Harness for 2010 & newer FLHX (Streetglide) & FLHXR (Road Glide Custom)

HD007-28

Sub-Harness for 2010 and newer FLHXSE (CVO Streetglide) & FLHXRSE (Road Glide CVO)

HD007-38

Trailer Wiring Sub Harness for 2014-'15 Harley-Davidson Tour Models

HD007-48

5-to-4 Wire Converter

• Converts the 5 wire tail lights on 2013 & older models to a 4 wire signal
• Easy plug-in connectors and installation
NOTE: Must use with #**GL18007-IU**
EC07664

Signal Decoder For 2014 & Newer Harley FLH CAN-bus Trailer Wiring

- Separates the now combined Can-bus brake & turn signal functions to give a 5 wire signal to trailer lights
- Decoder box and other components have easy plug and play connections. NOTE: Using the decoder box without an isolator will damage the decoder box.

HD007-50

TRAILER HITCH WIRING

Trailer Wiring Isolator

This is a must for all models! Designed to prevent any damage or malfunction to electronic ignition, fuel injection, ABS braking systems and other sensitive electrical components when towing a trailer.

- OEM tail light circuits, wires and fuses are not heavy-duty enough to handle the additional load from trailer lighting - causes both the motorcycle and trailer lights to dim as well as overheat the wiring and blow fuses.)
- Draws all required power for the trailer lighting directly from the battery through it's own heavy-duty wiring and fuse.
- Measures 1" x 1 1/2" x 3" long, has a peel-and-stick adhesive backing and 36" wire leads in a loom ready to accept any trailer plug, making it easy to install and conceal
- Plug in connection to all RIVCO Sub-Harnesses and Converters

GL18007-IU

Premium Weatherproof 6-Wire Trailer Connector Set

- Marine quality, sealed to keep out water, dirt and prevent corrosion
- No splicing, soldering or crude bulky connections
- Easy to assemble with crimp on terminals and seals gives a high quality and sanitary trailer connection
- Includes an additional male plug to use as a weatherproof dust cover on the motorcycle side connector when not towing your trailer

Molded 6-Wire Trailer Connector

- Manufactured with a 60" loop of 16 gauge wire that can be cut as desired for splicing

TWC002

TWC001

5-to-4 Tail Light Wire Converter For RIVCO Rack Lighting

- Use with RIVCO rack lighting system's #CRLIGHT Rack LED Tail Light Set. Converts the motorcycle's 5 wire tail light system to a 4 wire system which is used on the rack lighting system. Can also be used to power trailers with a four wire system that have only LED lights, as these have a low current draw.

EC-100

HIGHWAY BOARDS & PASSENGER MOUNTS

Adjustable Passenger Floorboards For '93 and newer FLTs, FLHTs, FLTRs, FLHS's, FLHXs, FLHRs & FLHTG

- 12 positions with 9" range of motion
 - No tools required - change by pulling the spring-loaded locking pin
 - Moves the board forward up to 4", giving passenger best possible leg support & comfort
 - Featuring a Classic Steel design, with anti-vibration rubber pads
 - Installs easily without modification to the bike
- US PAT: 7114739

Mounts with Classic Steel Passenger Boards - [HD125A](#)

Mounts with Classic Steel - for use with Rinehart Exhaust [HD125A-RE](#)

Adjustable Passenger Floorboard Mounts

- Same features as above but set does not include the floorboards
- Machined to accept any Harley-Davidson passenger floorboards
- Available in black or chrome

[HDPBLA](#) [HDPBLBK](#)

Adjustable Passenger Floorboards - For Indian Models

- Replaces the stock fixed passenger pegs
- Adjust in seconds to 12 positions through a rotating 9" range of motion, by pulling spring-loaded locking pins – no tools required
- Mounts are billet aluminium and all parts are triple chrome plated, and install easily without modification to the bike
- Set includes Classic Steel Passenger Floorboards with anti-vibration rubber pads to ensure greater passenger comfort and the best possible leg support. Fit 2014 & newer Indian Classic, Vintage, Chieftain and Roadmaster models. US PAT: 7114739

[IC125A](#)

ADJUSTABLE HIGHWAY MOUNTS

Ultimate Frame Mounted Highway Mounts and Pegs

- Fit most models without engine guards!
- Arms mount directly to the front frame down tubes - allow for an 8" range of motion backwards from the center line of the frame tubes
- The arm and peg have a combined length of 13", and can be extended 2"-3" by using PEGSEXT or PEGSEXT-3
- Split clamps with 4 screws each tighten securely to the frame and will not slip
- Includes anti-vibration pegs with RIVCO's unique angle adjustment locking set screw system
- Fits most American and metric bikes with these frame sizes:

Chrome **HD002** all models 1 1/8" from down tube
Chrome **HD003** all models 1 1/4" from down tube
Black **HD003BK** all models 1 1/4" from down tube
Chrome **HD004** all models 1 1/2" from down tube

HD005C5

Curved Steel Mounts With Clamps

Curved arms available in 3" or 5" length offer a custom look as well as wrap around fairing lowers. These sets adjust easily to fit any rider's preference.

HD005C3

- Includes 1-1/4" clamps and either a 3" or 5" arm
- Work with all RIVCO Pegs and others having up to 3/8" bolts
- Fits all bikes equipped with engine guards including those with fairing lowers

- The finishing touch for 2014 & newer Harley Tri-Glides!
- Chrome plated billet aluminum

HD025-TG

HD9000

Easy Reach On/Off Seat Knob for Harley-Davidson FLH/FLT

- 2" long extended knob replaces the hard to get at Phillips screw that secures your seat. (you know what a pain it is to fumble with that screw.)
- With this knob you can easily remove the seat in seconds without tools
- Knurled grip for finger use, can use a coin in the handy slot to loosen if too tight, and a rubber washer at the base to prevent it from coming loose

HD9000

POWERMMASTER MUFFLER & BAFFLE SETS FROM RIVCO

The sound you want and better performance are now available for Harley-Davidsons®, RIVCO PowerMaster® mufflers are the result of comprehensive design, dyno-testing, and real world road tests, delivering your choice of sound and performance. For '95 and later FLHT and FLH models including Tri Glides.

With a choice of 2 different baffles, the PowerMaster® allows you to choose the sound you want.

- Proprietary high temperature inner coating and 4 step chroming process creates a beautiful finish and an amazing one year limited warranty against manufacturers defects in chrome plating, and also against blueing
- Mufflers deliver 4-5 additional horse-power
- Requires no retuning of fuel injection like additional EFI modules, “re-mapping”, or “dealer-downloads”
- Replacement baffles available separately, see our web site
- **HD600LT2** Slash-Cut with mid tone baffles
- **HD600LT2L** Slash-Cut with loud baffles
- **HD600S2** Straight-Cut with mid tone baffles
- **HD600S2L** Straight-Cut with loud baffles

HONDA GL1800

Quick Detach Racks

Small Quick Detach Rack For All Motorcycles With Trailer Hitches (11" x 17") - And Large Quick Detach Rack with Lighting (18" x 30")

Made from aircraft quality aluminum, these racks are very lightweight at 3 and 6 lbs, and while strong enough to support 250 pounds they are both rated at a 35 lb. maximum capacity to maintain good handling characteristics.

- Both racks have holes around the edge for bungee cords and nets to secure gear
- For the smaller rack, #**GL18008**, we offer a lock-on custom matching weatherproof bag, #**RB100**
- Both include the Chrome Receiver Bracket which bolts onto **ANY** trailer hitch, remains permanently in place with the ball and does **NOT** interfere with your trailer's coupler. It can be installed as shown or below the tongue next to the nut that secures the ball
- Racks can be installed or removed in seconds by slipping the pins on the rack into the holes of the receiver and secured in place using the locking clips supplied
- Large rack #**GL18010** includes LED tail, brake, signal lights and license plate holder with quick-release screws as larger items can obstruct the tail lights. The light can also be added optionally to the small rack where clear view of the tail light would be blocked

HONDA GL1800

Quick Detach Racks

100 lb. battery
on the **GL1800B**

*(NOTE: These racks are not for use on any un-sprung trailer hitch (i.e. a hitch which is bolted directly to the swing arm or axle) such as the Voyager Trike Conversion due to the excessive vibration and impacts from these type hitches. (An exception to this guideline is the use of the #**GL1800B** rack on the Can-am Spyder RT, with the support of our #**HWK030** Mounting Kit) NOTE: Lighting is a four wire system and requires the use of a 5 to 4 wire convertor RIVCO PT# **EC100** if one is not already installed on the motorcycle.*

Rack Mounting System

Rack Mounting System For the GL1800

Designed specifically for the GL1800, this is an inexpensive, quick and easy to install alternative to a complete trailer hitch and wiring, enabling the use of a rack.

- Vertical receiver portion (1) bolts easily to the frame behind the rear fender
- Tongue (2) slides into the receiver and is held in place by a locking hitch pin with two height adjustments
- Chrome receiver bracket (3) (supplied with rack) bolts to the top of the tongue
- Rack's two mounting rods (4) slip into the chrome receiver bracket and are secured by the 2 supplied small wire clips (5)
- Tongue is removed or installed in seconds, by removing the tongue pin from the receiver
- Receiver is finished in black powder coat and the tongue is triple plated chrome. Fits all years GL1800 models.

Trailer Hitch Wiring & More

GL18007-IU

Universal Trailer Wiring Isolator

A must for all models! Prevents damage or malfunction to electronic ignition, fuel injection, ABS braking systems and other sensitive electrical components when towing. (NOTE: OEM tail light circuits, wires and fuses are not heavy-duty enough to handle the additional load from trailer lighting - which causes both the motorcycle and trailer lights to dim.)

- Draws all required power for trailer lighting directly from the battery through it's own heavy-duty wiring and fuse.
- Isolator's electronic components sense the need for power to the taillights and are activated through its smaller gauge wires that connect to the motorcycle's tail light - allowing both the trailer and motorcycle's taillights to be at full intensity
- Measures 1" x 1 1/2" x 3" long, has a peel-and-stick adhesive backing and 36" wire leads in a loom ready to accept any trailer plug - making it easy to install and conceal
- Plug in connection all RIVCO Sub-Harnesses and Converters

GL18007-IU

EC07664

5-to-4 Wire Converter

If the trailer you want to tow has a four wire system (combined brake and turn signal bulbs) you will also need this five to four wire converter in line before the isolator.

- Installs easily with plug in connectors
- NOTE: Must use with Universal Trailer Wiring Isolator #GL18007-IU

EC07664

Wiring Sub-Harness for Honda GL1800 Models

This product connects to your GL1800 on one end and the isolator on the other.

- Makes the connection "Plug & Play"
- You don't have to splice between the motorcycle's wire harness and optional isolator or trailer plug
- (NOTE: #GL18007-IU Isolator sold separately).

Fits 2001-2011 GL18007-28

Fits 2012 & newer GL18007-38

EC-100

HONDA GL1800

Trailer Hitch Wiring

5-to-4 Tail Light Wire Converter For RIVCO Rack Lighting

- Use with RIVCO rack lighting system's #CRLGHT Rack LED Tail Light Set. Converts the motorcycle's 5 wire tail light system to a 4 wire system which is used on the rack lighting system. Can also be used to power trailers with a four wire system that have only LED lights, as these have a low current draw.

EC-100

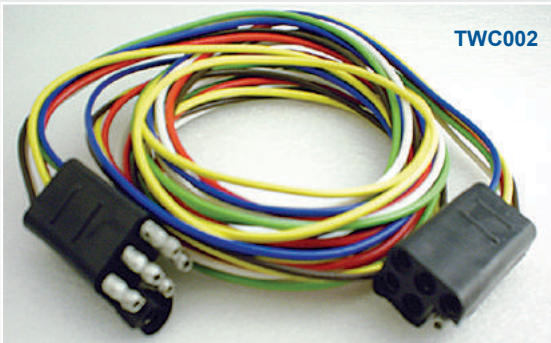

• Premium Weatherproof 6-Wire Trailer Connector Set

- Marine quality, sealed to keep out water, dirt and prevent corrosion
- No splicing, soldering or crude bulky connections
- Easy to assemble with crimp on terminals and seals gives a high quality and sanitary trailer connection

- Includes an additional male plug to use as a weatherproof dust cover on the motorcycle side connector when not towing your trailer

TWC001

TWC002

TWC001

Molded 6-Wire Trailer Connector

- Manufactured with a 60" loop of 16 gauge wire that can be cut as desired for splicing

TWC002

HONDA GL1800

LED Rack Tail Light & More

LED Tail Light Set For Quick Detach Racks

LED tail light and license plate mount designed for use with any RIVCO quick detach rack. Recommended any time the luggage used on the rack covers any portion of the motorcycle's stock lighting or license plate.

- Provides additional tail, brake & turn signal lights as well as a license plate mount location
- LEDs are extremely bright (even in direct sunlight), as well as water & vibration proof
- Attaches easily to the rack using pre-drilled holes

Note: Lighting is a four wire system and requires the use of a 5 to 4 wire convertor on 2013 and earlier models (RIVCO part #EC100 sold separately)

CRLGHT

- **Weighted Chrome Handlebar Ends** Replicate stock except triple plated chrome and bolt on in place of stock ends using included stainless steel screws.

• A custom touch for handlebars works with heated grips.

Sidestand Pad

Kickstand pad slides over the stock kickstand foot - secured with a set screw.

- Over twice the surface area of original foot
- No worries about the bike falling over or fumbling for a kickstand plate
- Machined from billet aluminum
- Black anodized finish - fits all GL1800s. NOTE: Not for use with driver boards.

LED Headlight Bulb

LED Headlight Replacement Bulb

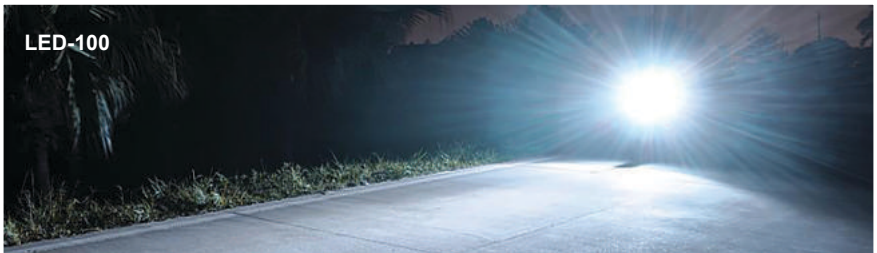

BE SAFE! BE SEEN! LED replacement for standard H4 headlight bulb high and low beam. Only RIVCO brings you the latest and greatest technology in LED motorcycle replacement headlamps. Don't over pay for an O.E.M. "upgrade" LED headlamp with technology that's four years old. Just like your cell phone and computer, technology changes rapidly, the cost comes down and so have LED headlamp prices.

This is the brightest, most compact, longest lasting, easiest to install, and most economical LED headlight - *with the only 2 year warranty available anywhere!*

- Simple "DIY" installation, as easy as replacing your old bulb
- Compact design is no larger than original bulb with plug and fits all headlamp housings
- Uses your original reflector and lens assembly to retain the original pattern of light
- Will project 30% farther down the road with a 15% increase in field of vision
- 6000K (Kelvin) color produces bright daylight white (not yellow) light beam with no blue tint
- Built in cooling fan for active heat management helps achieve the amazing 20,000 hour LED bulb life, equal to roughly 300,000 miles of riding
- Low current draw of 1.5 amps compared to stock at 6 amps means less strain on your bikes strator/alternator (charging system)
- Built-in resistor circuitry prevents radio interference (a common problem on other bulbs)
- Offers a super bright 3000 lumen LED output (versus standard H4 lumen output of 1400-1500 lumens)

•LED-100

Engine Guard Highway Pegs Mounts

Our solid Billet design machining makes these mounts strong enough that you can stand on them and they WILL NOT SLIP!

- Arms have 56 possible mounting positions and lock into selected position with internal pins
- 6" long arms have a full 360° range of motion to accommodate any leg length
- Machined clamps with 4 screws each will not mar or slip on tube
- Fits all bikes equipped with engine guards including those with fairing lowers
- Fits with all RIVCO pegs or any others with 3/8" mounting bolts

HD005

METRIC CRUISER

Ultimate Highway Mounts & Pegs

Ultimate Highway Mounts & Pegs

Look great, and they really work!

- Arms mount directly to the frame down tubes and can be adjusted within an 8" range of motion, front to rear
- They tighten securely with four fine thread stainless Allen bolts each
- Machined from billet aluminum and triple plated chrome, they look custom and will not slip or mar the frame tubes
- Includes anti-vibration pegs that have a unique locking set screws which allow you to adjust the pegs to the desired angle for maximum comfort
- Mounts measure 13" long from the center of the frame to the end of the peg, and can be extended an additional 2" or 3" with the use of **PEGSEXT** or **PEGSEXT3** (page 13).
- The pegs will interchange with most other brands, and will fit any motorcycle having a minimum of 3/8" clearance between the frame tube and engine or radiator or frame tubes that are angled inward toward the top, and have a minimum of 1 1/4" of clear or free space on the tubes for the arms to mount to
- These sets fit most Yamaha Roadstars, Victories and many others.

NOTE: An easy way to calculate your frame tube diameter - wrap a piece of paper around the frame tube, make a pencil mark where the paper overlaps, then remove and measure the length between the marks. A 3 1/2" measurement will be the 1 1/8" size, 3 15/16" will be the 1 1/4" size and 4 11/16" will be the 1 1/2" size. Peg is 3 1/2".

For 1 1/8" Frame Tubes - **HD002**

• For 1 1/4" Frame Tubes - **HD003, HD003BK**

For 1 1/2" Frame Tubes - **HD004**.

Risers

Handlebar Risers For The Honda® VTX1300

This set replaces the originals and will bring the handlebars up 1" and back toward the rider 2".

- The extra 2" allows a much more upright seating position rather than stretching over the gas tank.
- Will significantly reduce back, neck and shoulder fatigue
- Risers are machined from billet aluminum and retain the stock cables and hoses - set uses existing stock caps

VTX13C017 C model - Chrome

Kawasaki® Vulcan Handlebar Risers

CNC machined from billet aluminium, polished to a flawless finish. Set is triple plated chrome.

- Bring the bars up 3/4" & back a full 2"
- Relax rider back, neck and shoulder strain
- Allow a more comfortable riding position
- Bolt on in minutes, retain all stock hoses and cables
- Fit all Vulcan Classic & Nomads 1500/1600 and 2000 - uses existing stock caps

VUL017

XV17017

Yamaha® Roadstar 1600/1700 Risers

Replace your stock risers and bring the handlebars back toward you 2 1/4".

- Reduce back strain while making the ride more comfortable
- Easy to install, and retains all stock cables, hoses and wiring
- Fits Yamaha Road Star 1600 & 1700, and set comes with matching caps

XV17017

METRIC CRUISER

Risers

TB017

Triumph® Thunderbird Risers

These triple plated chrome handlebar risers are CNC machined from billet aluminum.

- Replacing the stock, they bring the handlebars back toward the rider 2"
- Create a more relaxed seating position, significantly reducing rider back strain
- Retain all stock cables, hoses and wiring and are easy to install

TR3017

- Set includes matching caps - fits all years, ABS and non-ABS models. Fits 2009 and newer models, present standard & ABS models. NOTE:#TB017 does not fit the Triumph Thunderbird LT (light touring model) 2014 and newer

TB017

Triumph® Rocket III Handlebar Risers

Bring the handlebars up 1" and back toward the rider 2". • The 2" allows a much more upright

- seating position rather than reaching over gas tank
- Greatly reduces back, neck and shoulder fatigue
- Machined from billet aluminum and are triple plated chrome
- Uses the original hoses and cables - only minor rerouting required

Fit all models except Tourer **TR3017**

•

Fits Tourer model only **TR3017-TR**

TR3017-TR
