Ride

2019 APPAREL

At RSD we're always looking to improve our products which is no easy task. Our aim is better leather, better protection and better build quality and if we can keep the price in the ball park, then it ends up being less expensive to the customer in the end. The new collection is exactly that and a little more. We've taken the classics, the Ronin and Clash and added CE1 level protection and construction with the same style and improved build quality taking our bestselling jackets to another level.

The heritage portion of the collection remains true to the DNA of the brand but comes with the added features of included removable armor and strategic ventilation without compromising the wear ability. We remain true to the focus of on bike function and off bike wear ability.

Clean, stylish, subtly branded riding gear, it's what we expect and what we deliver.

Times may change, but the details of what make a quality motorcycle jacket worth owning do not. Quality, comfort, fit, finish, protection and style. It's a recipe that gets better in time if you stay true to your roots, learn from your customers and work to improve on what you have learned.

Industry shaping designs like the Clash and Ronin are a tough product to improve on, but that's what we've done with the RS Signature models.

We realize not everybody wants to wear the same gear, so we've further expanded both our textile range and leathers to bring more diversity to the collection, always keeping function and form in mind. Weather we've turned a classic bomber into a rider's jacket or added a hood to a classic leather silhouette it's quality first.

MATERIALS & CONSTRUCTION

RSD apparel borrows deeply from RSD custom bikes. With the subtle merging of motorcycling heritage and modern components, we've created the perfect combination of style and function. Our unique materials for main bodies utilize waxed and oiled leathers, waxed cotton and heavy duck cotton plus others, all used in measured combinations. Our goal is to create a line of riding and living apparel using materials that offer excellent riding comfort and protection without sacrificing everyday wear ability, even when you're not riding.

LEATHER

We use only the finest available hides for our leather and require all our suppliers to be REACH compliant, plus AZO and PCP free. Each RSD leather jacket receives customized treatment and handling which gives every piece its unique, one-of-a-kind finish, with an "already broken in" feel that usually takes years to achieve.

MATTE BUFFALO

- Top Grain Buffalo Leather
- 1mm - 1.2mm thickness
- Pre-oiled leather
- Proven abrasion and Durability qualities
- Water repellent

OILY BUFFALO

- Top Grain Buffalo Leather

- Authentic British Millerain, 10.5 oz (final finish)
- 100% Cotton
- Water repellent
- Refinishing capable

FIT

RSD jackets are built to ride, but still retain everyday comfort. We pay extra attention to getting our fit "just right". Our forward rotated, pre-curved sleeves, flex panels and forward rotated collar openings allow for all day riding while retaining "walk-around" comfort.

AGGRESSIVE FIT

Tailored torso with pre-curved sleeves, conforms to riding position. Snug overall fit.

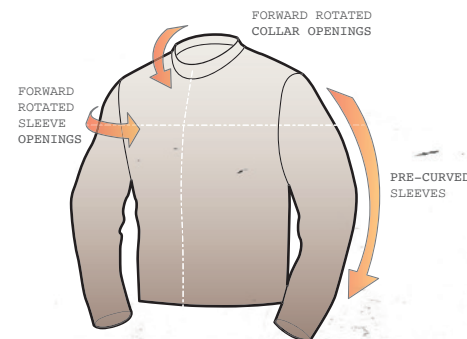

CLASSIC FIT

Pre-curved sleeves and rotated collar, but more room for ease of movement

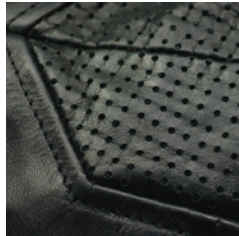

RELAXED FIT

More relaxed fit for range of motion and comfort.

TRIMS & DETAILS

We use only the finest materials and trims available. Each component is chosen or designed for function, comfort, durability, and feel. The details make the difference.

CONSTRUCTION

We pay utmost attention to our construction methods and materials, using only the best nylon and cotton blend thread, durable seam construction and pattern layering techniques. Extensive double or triple stitching and proper pattern assembly ensure durability and protection. Combined with premium quality zippers and closure systems, your RSD jacket should last and function hassle free for the life of the garment.

Back

We make every effort to find and develop some of the most unique leathers available. With a combination of protection, durability, comfort and style we hope you enjoy your RSD leather garment as much as we enjoyed creating it.

MENS LEATHER JACKETS

RONIN RS SIGNATURE

NEW
2019

MEN'S LEATHER JACKETS

The Iconic Ronin re-imagined with elevated protection, construction and technical features.

Often replicated, but never duplicated. The jacket that started it all, the Ronin by RSD now offered in a fully re imagined version as part of the Roland Sands Signature Collection. The DNA of this iconic jacket remains but has been wrapped in a ton of new features. Including an all new premium leather quality, GT Racer. GT Racer is a hand washed, hand waxed and hand finished leather that gives it a pre-worn look and feel. It is soft to the touch and requires very little break in. The leather will age with the rider and develop a natural patina overtime. Additional features include a premium mesh liner that is moisture wicking and antimicrobial, YKK zippers throughout and premium KNOX™ MICROLOCK™ molded armor for superior impact protection.

- GT Racer premium top grain cowhide leather (1.1-mm - 1.3mm)
- Aggressive riding fit
- Cool core mesh liner with moisture wicking properties
- Zippered vents at shoulders and back
- Rotated-pre-curved sleeves
- Cafe style collar w/snap back feature
- WP interior device pocket
- 3 Front zip pockets
- Drop back length
- Perforated leather interior trims
- Sleeve zip pocket, side zipper waist adjuster
- Zip closed cuffs
- Ships with CE-Knox™ elbows and shoulders, with back protector ready pocket
- Colors: Black, Tobacco
- Sizes: S - 3XL

CLASH RS SIGNATURE

NEW
2019

MEN'S LEATHER JACKETS

A technical evolution of RSD's classic perfecto rocker jacket.

The infamous Clash jacket by RSD in an all new, elevated version that brings modern function to this classically inspired jacket design. Part of the Roland Sands Signature Collection, The Clash RS Signature is a blast from the past. Based on the styling of the classic perfecto rocker Jacket the all new Clash keeps that timeless design language but boats a ton of new features. Including an all new premium leather quality, GT Racer. GT Racer is a hand washed, hand waxed and hand finished leather that gives it a pre-worn look and feel. It is soft to the touch and requires very little break in. The leather will age with the rider and develop a natural patina overtime. Additional features include a premium mesh liner that is moisture wicking and antimicrobial, YKK zippers throughout and premium KNOX™ MICROLOCK™ molded armor for superior impact protection.

- GT Racer premium top grain cowhide leather (1.1mm - 1.3mm)
- Aggressive riding fit with relaxed shorty snap collar
- Cool core mesh liner with moisture wicking properties
- Angled front zipper with snap button at top
- Rotated pre-curved sleeves
- Quilt stitch accent at shoulders and elbows
- 3 Front zip pockets

RONIN

MEN'S LEATHER JACKETS

RONIN-n.1.A master-less, wandering Samurai, the vagabond warrior.

The RSD Ronin sets the standard for what a new motorcycle jacket should be. Many have tried in vain to duplicate this jacket, but legends can't be replicated. The Ronin features our specifically developed and exclusive Airborne leather that feels and smells as good as it looks. The hand finished wax, wash and oil finish not only makes each jacket unique, but makes it so it instantly has a broken in feel. Versatile and stylish both on and off the bike, it's the jacket you wear for a night out even when you don't bring your bike along.

- Detailed café style, with shorty snap collar and front zip pockets
- RSD "Airborne" hand finished, washed and oiled/waxed top grain cow hide(.9m-1.1mm thickness)
- Aggressive riding fit, with rotated, pre-curved sleeves, dropped back length and relaxed collar opening
- Perforated leather interior trims
- Perforated sleeve venting
- Sleeve zip pocket, side zipper waist adjust
- Zip close cuffs
- Satin poly lining with custom RSD repeat "numbers" heat emboss
- Soft lined electronics security pocket
- Stretch mesh cargo stuff pockets
- Zip close interior chest pocket
- Armor ready shoulder, elbow and back protector pockets

CLASH

MEN'S LEATHER JACKETS

Classic style. 59.

Classic 1959 styling, the Clash is the perfect blend of a detailed rocker style leather jacket with premium materials and motorcycle functionality. Inspired by the vintage "perfecto" jacket of the 1950's the Clash by RSD offers a ton of unique features that make this jacket an instant classic. Constructed of a specially developed and exclusive Airborne leather that feels and smells as good as it looks, each Clash is unique. Versatile and stylish both on and off the bike. The asymmetrical designed front zipper keeps the that rocker look front and center while the quilted stitched accents and the infamous coffin stitched elbow round out the design. Don't let the looks of the Clash fool you; underneath that rocker styling is a true performance riding jacket.

- Detailed rocker style, with shorty snap collar, offset zipper and front zip pockets
- RSD "Airborne" hand finished, washed and oiled/waxed top grain cowhide (.9mm-1.1mm thickness)
- Aggressive riding fit, with rotated, pre-curved sleeves, dropback length and relaxed collar opening

MEN'S TECHNICAL LIFESTYLE

Classic five pocket jean with riders fit and superior protection.

The Dalton Jean has a ton of great features that will keep your game tight both on and off the bike and provide all day wear-ability. The Dalton Jean has a slim / straight low rise fit, button fly and a supple raw denim hand that you would expect from a premium pair of jeans. We have created a unique material that increases protection but still wears like your favorite pair of jeans but with motorcycle functionality. The denim is comprised of 70% 12.5 oz cotton and is reinforced with 30% Dupont™ Kevlar® that is woven together to create a tough material that provides abrasion, heat and slide protection.

This material also keeps the fit consistent and the Dalton will retain their shape after any wash cycle. We then laced out the Dalton Jean with the very best in construction features like reinforced triple stitching on the inseam and back rise and a reinforced double layer back pant cut off that to ensure top notch impact burst protection. Lastly, we added quilt stitched details and custom RSD trims that have become a staple in premium RSD Apparel products.

- 12 oz 70% Cotton, 30% Kevlar®
- Slim straight fit with low rise
- Button fly
- Reinforced / triple stitching on inseam and back rise
- Reinforced / double layer back pant cuff
- Quilt stitching detail
- Custom RSD trims
- Sizes: Waist, 28", 30", 32", 34", 36", 38"

INDIGO

RSD gloves merge the best of performance, comfort and style. Tough but supple grade A top grain cowhide and performance textiles combined with protective strategic padding and great fit will make them your favorite pair(s) in your riding closet.

MOJAVE

MEN'S FOOTWEAR

Classic boot with performance rider features and protection.

The Mojave boot follows the heritage of our proven jackets, combining the ideal blend of function and classic styling. Every minute detail was considered in the development of this top quality boot to ensure the final product not only performed, but also looks great both on and off the bike. Only the best materials and premium protective technologies were used to construct the Mojave boot. We utilized beautiful top grain cowhide leather for the upper, strategic molded protective inserts in the heel, mid-foot and toe box, a reinforced shank and a hi-grip sole by Vibram™ that is oil/chemical resistant. The waxed laces and double layer protective shift pad ensure durability and provide superior comfort. We added a Hipora™ waterproof and moisture wicking liner and developed the proprietary triple density removable Cheater insole to provide unparalleled cushion and support.

The Mojave boot is the real deal, and is sure to become your new favorite boot.

- Genuine cowhide leather upper
- Oil resistant, slip resistant Vibram® proven performance-out-sole Hipora® waterproof barrier with gusseted tongue construction
- Comfortable RSD custom multi-density removable insole

MIA **NEW 2019**

WOMEN'S LEATHER JACKETS

Cafe styled hoody jacket with multi seasonal features.

Meet MIA. She's got attitude, but she's ready for whatever you throw at her. Classic Café Racer styling on the outside, with a removable and separately wearable waterproof hoody on the inside. The MIA is a 3-1 multi season jacket with all of the right features. A clean A-sym front zipper are featured on both the jacket and the hoody and simple yet refined quilt stitch details on the jacket give it just the right amount of styling. The Mia also features Flex ribbing on the back sides and elbows help with articulation and fit. Run it with the hoody for those colder / damp days and without for mild to warm conditions. The MIA also comes equipped with premium KNOX™ MICROLOCK™ molded armor for superior impact protection.

- Premium oiled buffalo leather (1.0mm-1.2mm)
- Aggressive riding fit
- Shoulder zip vents
- Cool core mesh liner with moisture w/wicking properties
- Rotated pre-curved sleeves
- Back gusset w/zippered vents
- Quilt stitch accent at shoulder and back
- WP interior device pocket
- 3 Front zip pockets
- Zip closed cuffs
- Sleeve zip pocket, side zipper waist adjusts
- Ships with CE-Knox (TM) elbows and shoulders, with back protector ready pocket
- Removable/wearable WP soft shell hoodie
- Elastic cuffs
- Colors: Black, Brown
- Sizes: XS - 2XL

MAVEN

WOMEN'S LEATHER JACKETS

Great fitting riders jacket.

By definition, a maven is a trusted expert in a particular field who seeks to pass knowledge on to others. It also proved to be the perfect name for our latest leather jacket. We have taken all the knowledge gained from producing instant classics in our men's jacket to develop the Maven Jacket for women. Styled after the iconic men's Ronin Jacket, The Maven is a simplistic café racer style jacket that is form fitted and plenty feminine. Constructed using Airbone leather, our most premium cowhide offering. An adjustable zip waist and comfort flex panels under the arms at the chest enable women riders to further tailor the Maven to their form. Pre-curved sleeves, relaxed collar and a dropped back are part of the performance riding fit designed into the jacket.

- Detailed, fitted café style, chest flex panels, with shorty snap collar and front zip pockets
- "Airborne" hand finished, washed and oiled/waxed top grain cowhide (.9mm-1.1mm thickness)
- Aggressive riding fit with rotated, pre-curved sleeves, dropped back and relaxed collar
- Perforated leather interior trims and sleeve venting
- Sleeve zip pocket
- Side zipper waist adjust
- Zip close cuffs
- Satin poly lining with custom RSD repeat "numbers" emboss
- Soft lined electronics security pocket
- Stretch mesh cargo stuff pockets
- Zip close interior chest pocket
- Armor ready shoulder, elbow and back protector pockets
- Colors: Tobacco, Black, Oxblood
- Sizes: S - 2XL

OXBLOOD

RIOT

WOMEN'S LEATHER JACKETS

Classic cafe style, her way.

Sleek, sexy and built for the ride. The Riot is for the ladies who are ready to cause a disturbance. A rocker jacket built for her that looks just as good on the bike as it does off the bike. Made of premium Blackstone top grain cowhide that is soft and supple the Riot is durable and abrasion resistant. The asymmetrical front zipper screams style and the quilted stitch accents bring just the right amount of femininity to this vintage styled café jacket.

- "Blackstone" supple top grain cowhide (.8mm-.9mm thickness)
- Shorty snap collar, offset zipper and front zip pockets
- Aggressive riding fit with rotated, pre-curved sleeves, dropped
- back length and relaxed collar opening
- Quilted accent details
- Perforated leather interior trims
- Zip close side and cuffs
- Zip close interior chest pocket
- Satin poly lining with custom RSD repeat "numbers" heat emboss
- Stretch mesh cargo stuff pockets
- RSD custom trims
- Armor ready shoulder, elbow and back protector pockets
- Colors: Black, Oxblood
- Sizes: S - 2XL

TRINITY

WOMEN'S LEATHER JACKETS

Cleanly styled classic quilted ladies jacket

The Trinity jacket blends premium fashion with motorcycle function. This versatile jacket can be worn on ladies night out on the town, or when your carving canyons with the throttle wide open. The Trinity Jacket features a semi-aggressive performance riding fit, premium oily buffalo leather that is soft and supple and quilt stitched accents that give it just the right amount of attitude.

- Genuine, top grain RSD "Matte Buffalo" leather (1.0-1.1mm thickness)
- Quilted detail on shoulders
- Adjustable zip waist, zip close cuffs, interior stuff pocket
- Armor ready shoulder, elbow and back protector pockets
- Pre-curved sleeves, rotated shoulders
- Performance riding fit
- Colors: Black, Brown, Merlot
- Sizes: XS - 2XL

GINGER

WOMEN'S LEATHER JACKETS

Utilitarian 3/4 riding jacket.

The RSD Ginger women's jacket, a true utilitarian style with just the right amount of femininity. The jacket is constructed of premium British Millerrain waxed cotton that is water repellent and has a soft and supple feel yet still offers top-notch protection. The classic fit and 3/4 length allow this jacket to be very versatile and its fully adjustable waist means you can dial in the fit just right. Plenty of storage pockets on the Ginger for all of her pretty things.

- British Millerrain 10.5oz Waxed Cotton
- Classic riding fit with rotated, pre-curved sleeves, mid length, and relaxed collar opening
- Genuine leather contrast detail
- Zip front and cuffs
- Plenty of storage pockets
- Side adjustable waist tabs with metal buckle
- Satin poly lining with custom RSD numbers heat emboss
- Soft lined electronics security pocket
- Stretch mesh cargo stuff pockets
- Armor ready shoulder, elbow and back protector pockets
- Colors: Black, Red

BAGGER PARTS

BAGGER LINE

ROLAND SANDS DESIGN
CURATED PARTS OFFERING FOR
TOURING MODELS

THE ROAD TO YOUR BAGGER

The Bagger trend has taken many turns on the road from simple road bike to full custom's that pushed the boundaries of non-function. We're happy to see things have taken a turn back to the performance side of the tracks and we have the right product line to satisfy the high performance consumer.

NOTES

We can't help but go to a racing frame of mind, even when building a Bagger.

TOP 10 RECOMMENDED BAGGER PARTS

These bolt-on parts have been tested and approved by all types of riders and continue to be our most popular.

Baggers, they're not just for your dad anymore.

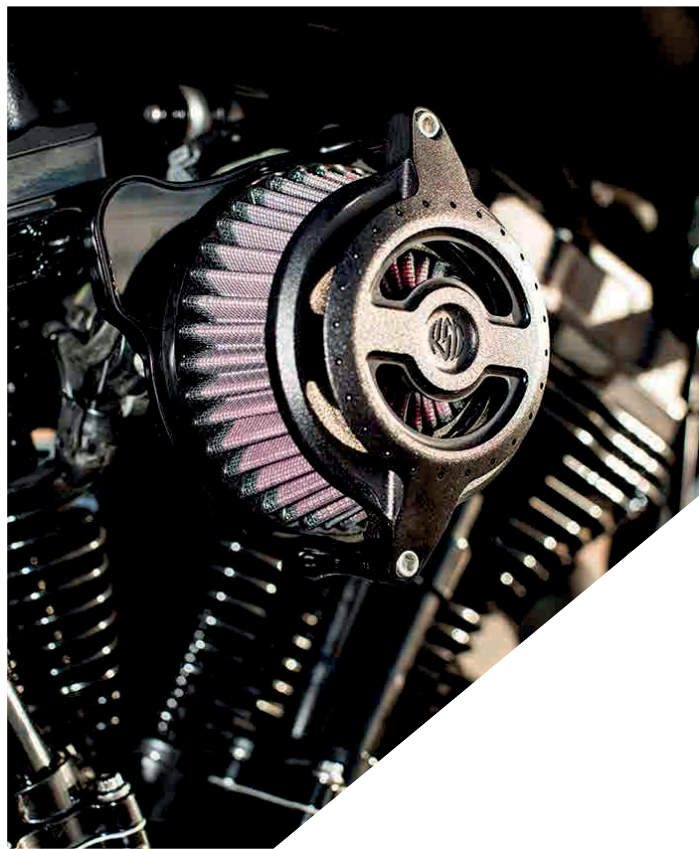

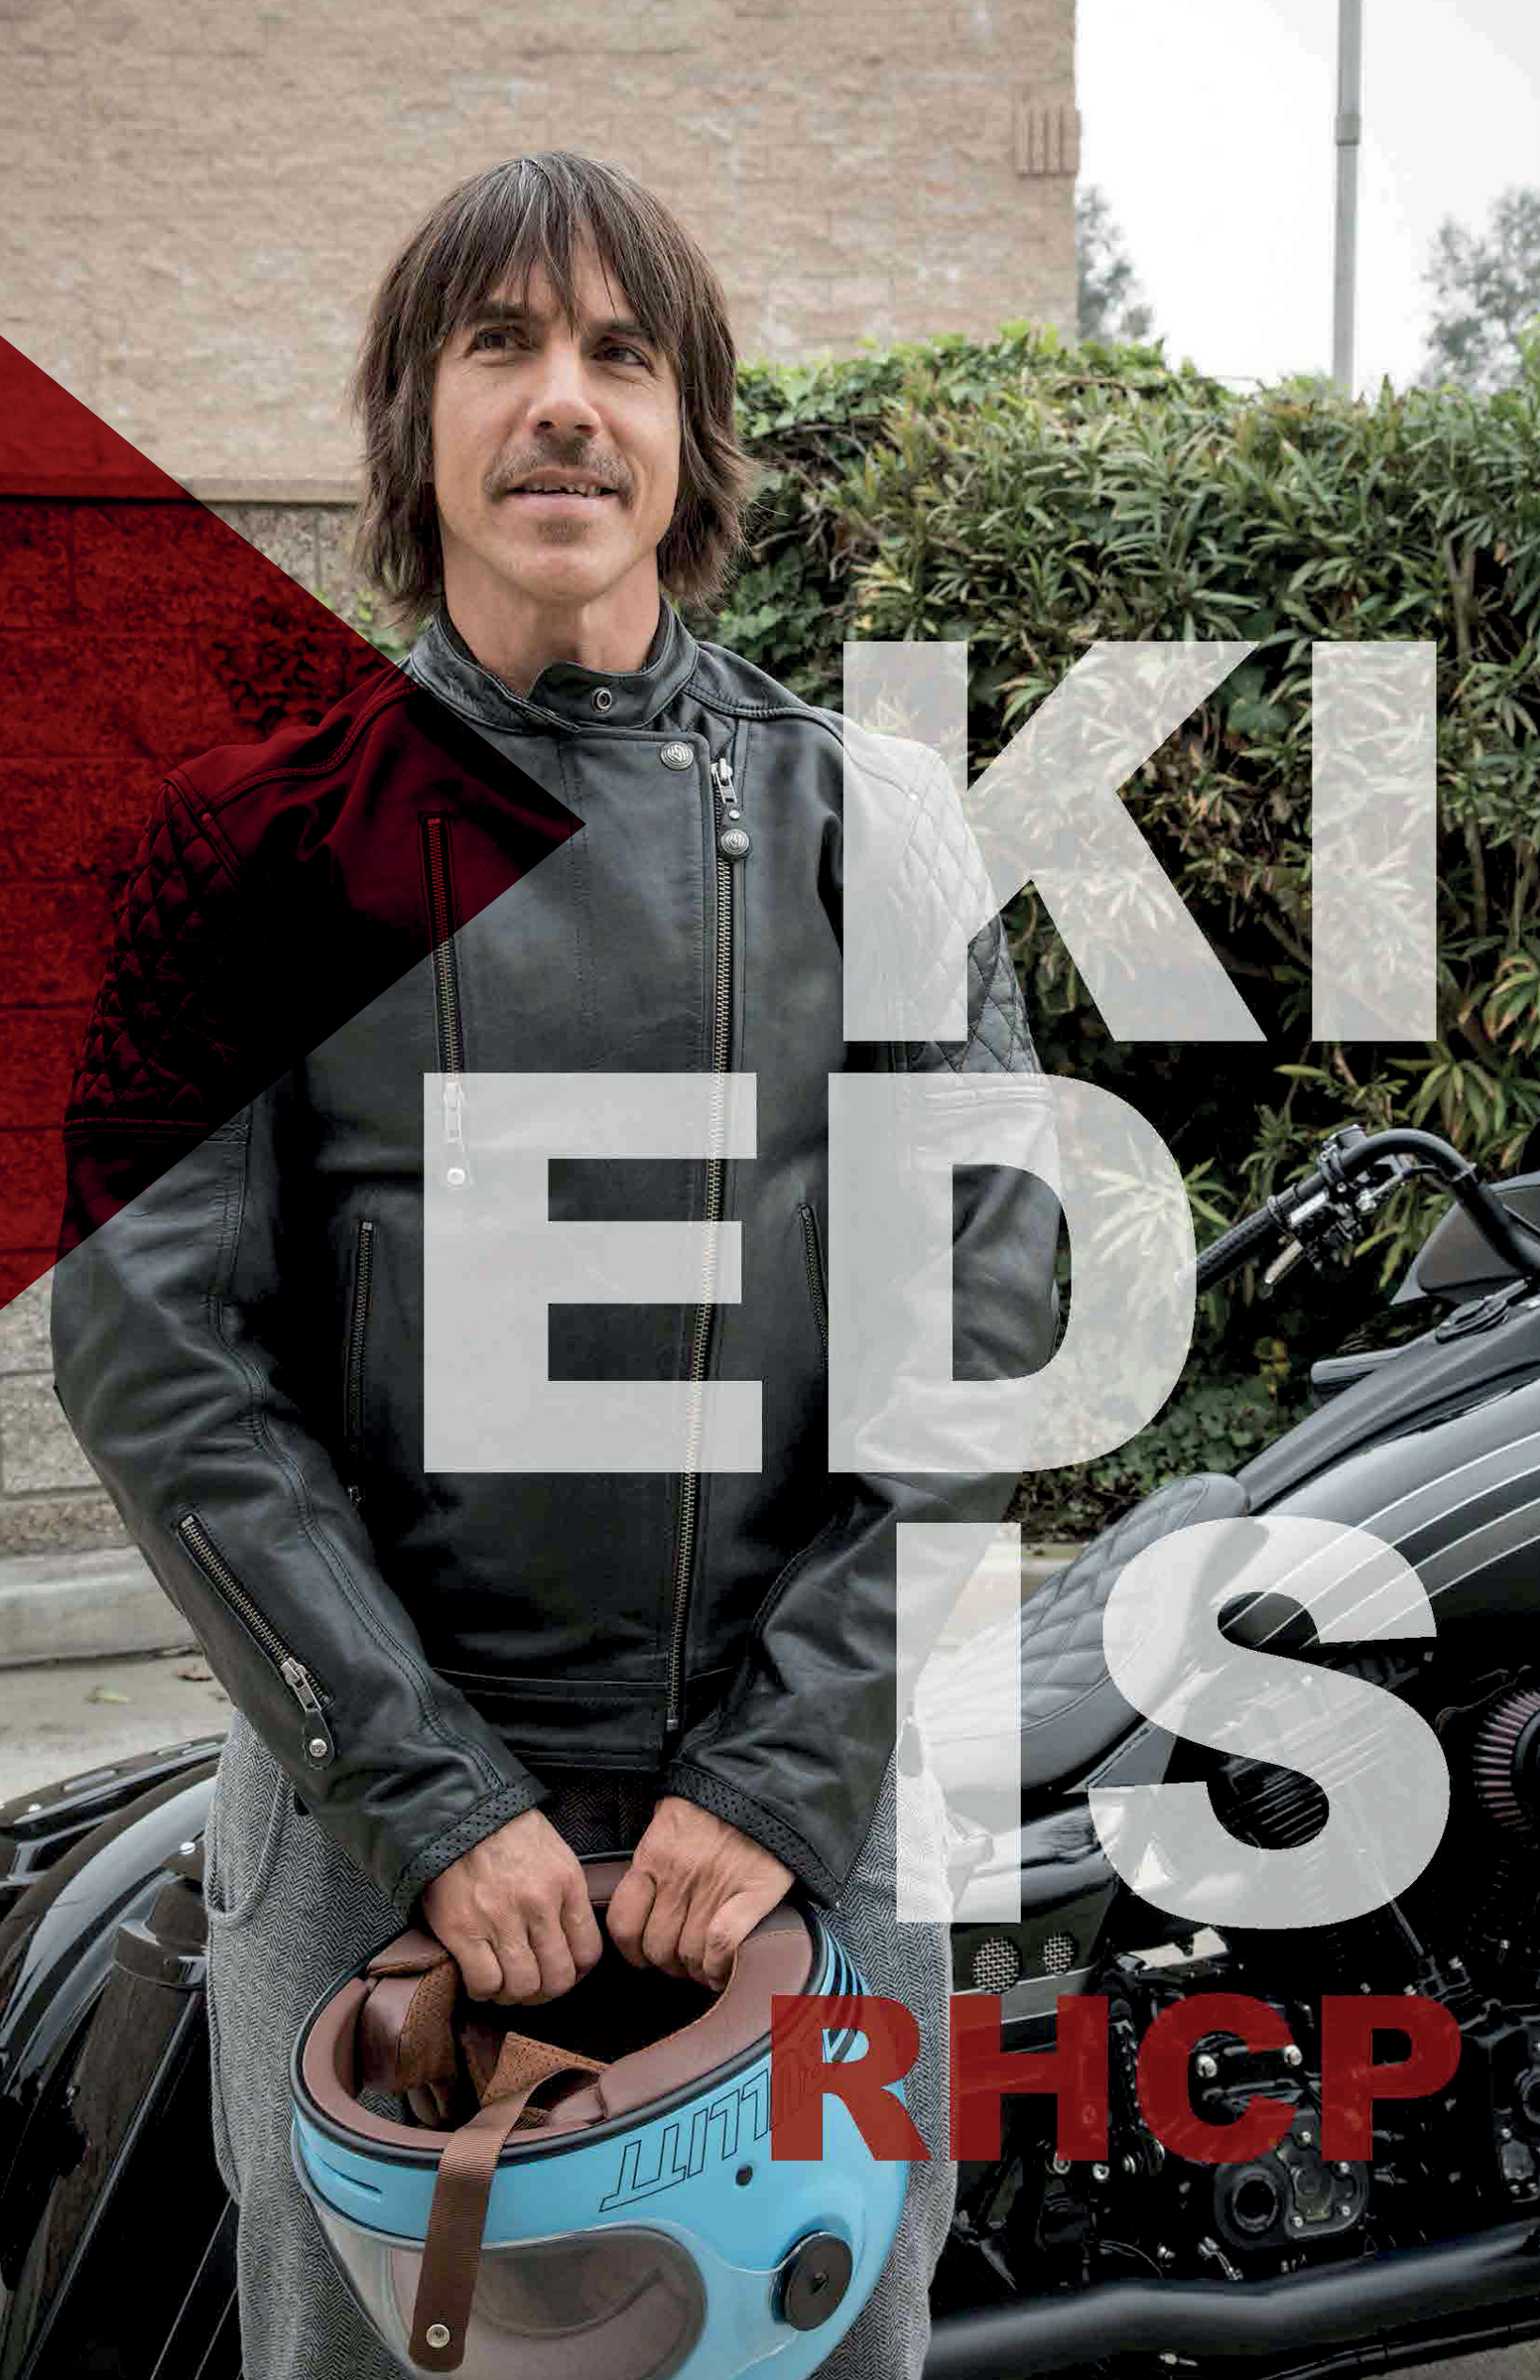

KIEDIS ROADGLIDE

When Anthony Kiedis from the Red Hot Chili Peppers calls and says he wants a bike built, you got to wonder where it's going. When he tells you he writes all his songs on his bike while he's listening to the tracks on the sound system you start to get the picture.

We stripped this one down to the frame as it spent most of its life on the Malibu Coast. Our friends at Bennett's Performance rebuilt the gloss black motor from the ground up using S&S parts and we slathered it in RSD Black Ops Clarity engine covers. Anthony wanted it blacked out. So the Black Ops theme was carried throughout. Radial mount forks, PM brakes, Progressive Suspension reservoir shocks and our Machine Ops Raid Wheels wrapped in sticky Dunlops keeps things rolling. Sound system upgraded by Kicker Audio. RSD Slant Slip-On Mufflers and Blunt intake keep the gasses rapidly moving. Pro Step bars with new Radial master cylinders are aggressive and comfortable.

Hopefully the bike keeps Anthony inspired to continue entertaining us with more blood, sugar, sex, magik and whatever else he's got cooking.

RECOMMENDED PRODUCT MAINTENANCE

CHROME

Wash with mild soap and water, use a healthy coat of Carnuba, apply often with a soft cloth.

BLACK ANODIZE

Wash with mild soap and water, no detergents or harsh chemical cleaners that can destroy the black anodized finish. You may use a non-abrasive wax with UV protectant on the black anodized portion of the product to protect it. Never use a harsh or abrasive wax as it will remove the black anodized finish. Avoid exposure to UV rays whenever possible.

CONTRAST CUT

See above for Black Anodized portion. For the milled area on standard Contrast Cut wash with mild soap and water, no detergents or harsh chemical cleaners. To remove stains on the milled area you may use the following methods depending upon the condition of the wheel.

- *A mild MAG polish will remove mild stains from the milled area, but will make the milled area shiny as it contains some abrasives. CAUTION: Take extreme care not to use this on the Black Ano surface of any product as it will remove the black finish.*

- *Scotch bright can be used to remove more severe stains on the milled area. CAUTION: Measures should be taken up to and including masking to ensure that the Black Ano surface of any product is not damaged.*

BLACK OPS

Wash with mild soap and water. No detergents or harsh chemical cleaners should be used, as they can destroy the anodized finish. Wax and/or cleaners containing wax are not recommended as they may leave an uneven finish on the matte surface. Detail spray or WD40 also work well for “dry cleaning” or wipe-down. Due to semi-rough surface of the finish, we recommend using a micro-fiber or other lint free type of cloth so as not to leave behind any remnants of the cloth.

BMW PARTS

BMW LINE

ROLAND SANDS DESIGN
CURATED PARTS OFFERING FOR
BMW MODELS

THE ROAD TO YOUR BMW

After the introduction of the R nineT based Concept 90 in 2013, RSD's vision of a customizable BMW platform was realized. In response, RSD developed a stylish and functional product line to customize your BMW R nineT with Contrast Cut billet products and beautiful Seats. We have now expanded the BMW offering with a line for GS and Water Boxer Engines, as well as adding our most sought after finish, Black Ops on the R nineT products.

Riding and customization of motorcycles are both unique passions that exist on separate, yet also parallel planes. The harmony of putting those two things together in a machine that's fun to ride and easy to work on is no easy task and a major factor in why we chose to design, engineer and produce our line of BMW parts. We saw that BMW understood the performance vs. customization idea from a very basic level, from the ground up really. Our collection of products takes advantage of this simplicity and vision to help you realize your version of what a BMW can be. Functional, simple, high quality parts with big visual impact are the core of the RSD line of BMW parts. We strive to give that extra level of quality, one detail at a time, keeping the core of the machine as it was delivered from the factory.

RADIAL R NINET

BLACK OPS

We introduced our R nineT Radial Contrast Cut product line in 2015 and are now expanding the line with our Black Ops finish. Black Ops is a two-tone black finish that utilizes both a textured black and gloss black finish on one part. It's aggressive, but subtle; the perfect product line to customize your R nineT.

BLACK OPS

RADIAL VALVE COVERS

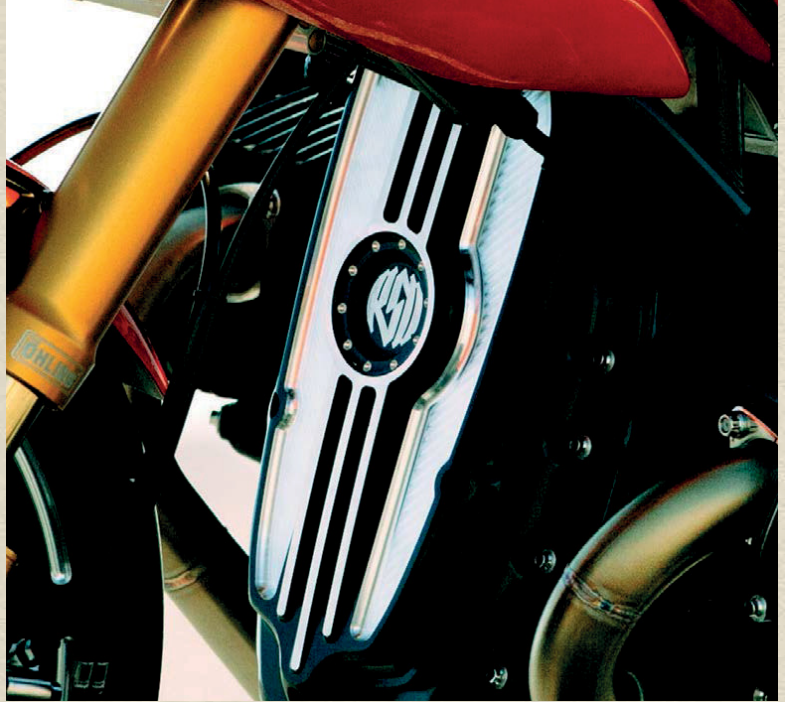

Valve Covers are the highlight of your BMW Boxer motor, and RSD has taken special care designing these highly visible pieces. Finely CNC machined in Southern California with exact tolerances and added strength. Our unique three stripe plug wire cover keeps your wires secure and hidden. The covers are machined from a 6061 aluminum forging and black anodized with a UV protective finish, now in both Contrast Cut and Black Ops, both unique finishes developed by RSD.

CONTRAST CUT

BLACK OPS

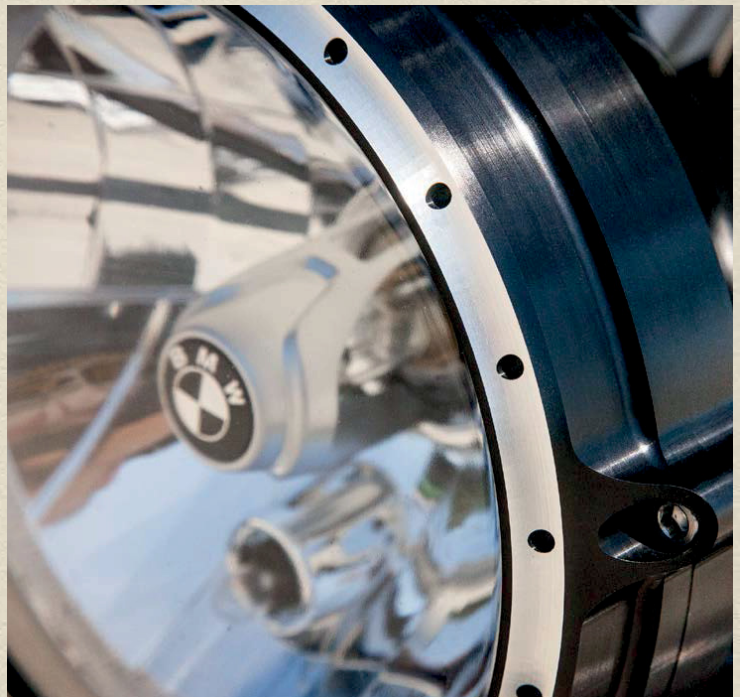

CONTRAST CUT

RADIAL BREAST PLATE

The billet machined RSD Boxer Breast Plate is a bold statement that's reminiscent of an auto grill in its aesthetic effect. Our Breast Plate replaces the stock plastic piece with a crown jewel for your AirCooled Boxer motor. Simple and bold, it changes the front end view of the bike drastically while allowing the airflow necessary to keep your motor vented.

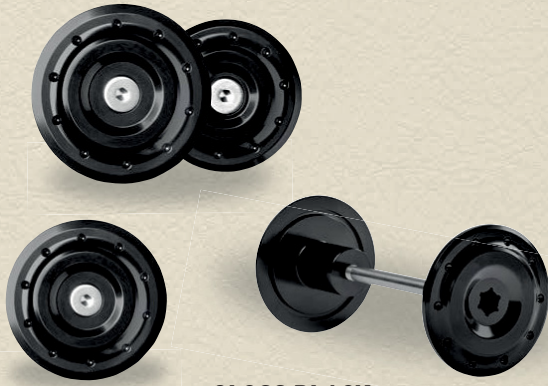

BLACK OPS

CONTRAST CUT

RADIAL HEADLIGHT BEZEL

The R nineT Headlight is just the right size and shape, so we put the effort into building a Bezel to accentuate an already beautiful headlight. The RSD Radial styling features a ball end milled detail, giving the front of your R nineT a unique look.

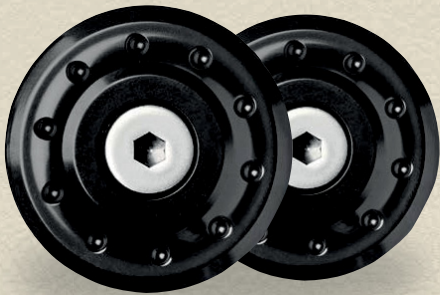

GLOSS BLACK

CONTRAST CUT

RADIAL PLUGS

All Radial Plugs are CNC machined from billet aluminum and now available in Gloss Black and Contrast Cut. The Radial Rear Drive Pivot Plug replaces the standard plastic rear drive pivot cover with something a little more stylish. The Radial Rear Axle Plugs cover the holes through the rear axle. The Radial Swing Arm Pivot Plugs cover the standard zinc coated steel fasteners in your Swing Arm Pivots.

GLOSS BLACK

CONTRAST CUT

RADIAL BAR ENDS

Simple and stylish Bar Ends are made from billet aluminum available in Gloss Black or Contrast Cut to set off your handlebars. Designed matched to the Radial product line, they will compliment the rest of the RSD products on your R nineT. Also available in Gloss Black.

RADIAL OIL FILLER CAP

Now available in Gloss Black, as well as Contrast Cut, Radial Oil Filler Caps stylize your stock Valve Covers.

CAFÉ SEATS

The RSD Café R nineT seat takes the line of a café tail and blends it with the tank and frame rails creating a clean, comfortable and custom detailed seat.

2-UP SEATS

The RSD 2-Up Seat offers a form fitting shape, while adding the right amount of detail to make the seat stand out.

FLAT OUT ENZO SEATS

Maximizing simplicity, the Flat Out BMW R nineT seat is a perfect complement to the R nineT. Also available in Black.

CHROME

CAFÉ GAUGE & HEADLIGHT RE-LOCATOR

The Café Gauge and Headlight Re-locator lowers your headlight and gauge to a more sleek position from the top handlebar clamp down to the front of the top triple clamp and lowers the stock Sportster headlight 2 inches. This allows for the use of any aftermarket risers or complete elimination of risers for use of the RSD 39mm Clip-Ons.

FEATURES

- UTILIZES STOCK SPORTSTER (HANGING) HEADLIGHT
- ELIMINATES STOCK SPORTSTER HEADLIGHT VISOR/EYEBROW
- CNC MACHINED FROM BILLET ALUMINUM
- AVAILABLE IN BLACK OPS & GLOSS BLACK
- LED WARNING/INDICATOR LIGHT SOLD SEPARATELY

MADE IN THE USA

BLACK OPS

CLIP-ON HANDLEBARS

The RSD 1" Clip-Ons mount to 39mm front forks, below the top triple clamp, for a low handlebar position. The aluminum bars are dimple milled to allow for stock wiring to cleanly exit your stock switch housings.

- ADJUSTABLE TO ANY PULLBACK & ANY HEIGHT
- FIXED 5 DEGREE DOWN ANGLE
- BARS ARE 1" DIAMETER
- AVAILABLE IN GLOSS BLACK & CHROME
- BARS SLOTTED FOR EXTERNAL WIRING
- BLACK OPS HAS A GLOSS BLACK BAR W/ A CONTRASTING TEXTURED BLACK & GLOSS BLACK CLIP ON

MADE IN THE USA

BLACK OPS

TRACKER FRONT PULLEY GUARD

Replaces the stock pulley cover adding an exposed, race inspired look to the right side of your Sporty motor. Use with the RSD front pulley cover for a high performance look.

FEATURES

- **FRONT (COUNTERSHAFT) SPROCKET COVER FOR SPORTSTERS**
- **CHROME & GLOSS BLACK GUARD FEATURES BRASS BADGING**
- **BLACK OPS GUARD FEATURES SATIN BLACK BADGING**
- **HARDWARE INCLUDED**
- **MATCHING REAR BELT GUARD AVAILABLE SEPERATELY**
- **PAIRS WITH FRONT PULLEY COVER**

ROLAND'S PICKS

We've built many Sportsters over the years, as it is the perfect platform for customization. Here are some of Roland's favorite pieces for your sportster.

"Unique Narrow Width"

NARROW EMPIRE HANDLEBAR & CAFE MEGA RISERS

A tweak to our vintage handlebar with a new gusset we call the Empire. We've also changed up the bend and straightened the control area of the bar for a feel closer to a Tbar, but with adjustability. Pair the Mega Risers with your bars and you have the ultimate highbar set up.

"Easy bolt-on installation"

NOSTALGIA ROCKER BOX COVERS

RSD Nostalgia Rocker Boxes for Sportsters give your Sporty a nice finned detail while also adding increased cooling surface area to aid in lowering engine temperature.

"Unlimited bar & riser options"

TOP TRIPLE CLAMP

RSD billet Top Triple Trees increase the rigidity of your fork, improving suspension and decreasing front fork flex. They also look great while eliminating the built in riser on some Sportster models, allowing the use of standard risers. Also available without riser holes for a clean look on cafe bikes using Clip-Ons. All triples are drilled and tapped for Top Triple Gauge Mount and Adapter Plate.

"Eliminates bulky brackets"

SPORTSTER MID CONTROLS

The ultimate improvement for your foot positioning. Features foot pegs with race style pivots allowing for a higher lean angle and a mega knurl to ensure your feet stay planted and your focus remains on the road ahead. High quality fasteners and pivots ensure smooth operation with little effort.

RECOMMENDED STYLE GUIDE

Get the protection and look you need both on and off your Sportster.

For Him

Our new Track pipe and velocity stack take care of fuel and exhaust duties while the mid-controls keep the riders feet planted while ripping corners.

FLAT TRACK YOUR SPORTY

Whether you're a pro or a Joe, the Sportster is the perfect platform to build a hooligan race bike. The spirit of hooligan racing comes from a simpler time, when you raced and rode home on the same bike. Today's flat track hooligan racing category is rapidly gaining in popularity with riders of all ages and experience levels across the nation by offering the fun of motorcycle competition in a less structured environment. Join in on the fun with a couple key products to get your sporty flat track ready.

SLANT CARBON FIBER INTAKE

This is the ultimate High Performance intake from RSD. We've combined the best in performance and light weight with an ergo friendly slanted carbon intake filter from K&N. Our Slant Filter element gives you more knee clearance and a slanted surface that's easy on the body during hard riding. The filter element is coupled with our newest backing plate shape from Vance & Hines for industry leading filtration in a simple package.

19 X 3" DEL MAR WHEEL

The Del Mar looks fast standing still, and it should. Inspired by classic flat track and road racing wheels, the Del Mar is one of our lightest wheels. Even with a lightened rotating mass, we still kept the detailing and style up to par with our new Contrast Ops and Machine Ops finishes. This wheel screams quality, race styling and performance. Also available in Chrome.

5" BLACK OPS

NARROW PRO STEP HANDLEBAR

Pro Step moto style, billet aluminum details with an ultra-narrow notched and welded base. Designed to be used exclusively with our new MEGA riser.

BOSS

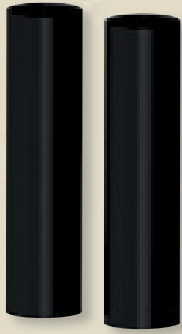

AVENGER

DYNA 2-UP SEAT

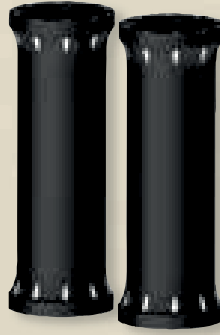

The Dyna seat line was the first that we tackled in the line up and we worked hard to find the right combination of style and comfort. With multiple styles featuring the highest quality materials and padding, we are sure you will find the right seat for your Dyna.

FEATURES

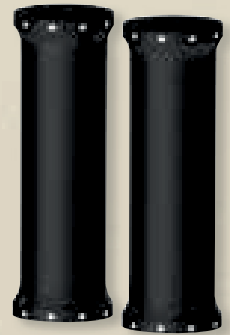

- DIRECT BOLT ON
- ERGONOMIC SHAPE KEEPS RIDER SEATED FIRMLY & COMFORTABLY
- CONTROLLED DENSITY POLYURETHANE FOAM
- MARINE GRADE FIBERGLASS PAN
- RSD METAL LOGO
- MANUFACTURED BY MUSTANG SEATS

SMOOTHIE

CHRONO

TRACKER

UPPER FORK COVERS

Blackout kits for Dyna's fill the gap between your triples with a little extra style and stealth. When used with Fork boots you can easily blackout the front fork of your machine for a more aggressive look.

MADE IN THE USA

FEATURES

- **SLIDES OVER OEM FORK LEG TO BLACK OUT EXPOSED FORK AREA BETWEEN TRIPLE CLAMPS**
- **CNC MACHINED BILLET ALUMINUM**
- **DESIGN MATCHED TO EXISTING PRODUCT LINES**
- **AVAILABLE IN CONTRAST CUT AND BLACK OPS FOR CHRONO & TRACKER**
- **AVAILABLE IN GLOSS BLACK FOR SMOOTHIE**

MADE IN THE USA

BLACK OPS

CLARITY DERBY COVER

The RSD Clarity Derby Cover is the next best thing to an open primary. Articulately machined billet aluminum frames transparent polycarbonate, giving you the same feel of a spinning clutch pack, yet is fully enclosed. Now you can show off that trick clutch.

FEATURES

- **ALLOWS FOR VIEWING OF INTERNAL ENGINE**
- **CNC MACHINED BILLET ALUMINUM & POLYCARBONATE**
- **SPECIALTY COATING DOES NOT ALLOW OIL AND GREASE TO ADHERE AND A PROPRIETARY ABRASION AND UV RESISTANT FILM TO PROTECT SURFACE**
- **HARDWARE INCLUDED**
- **AVAILABLE IN CONTRAST CUT & CHROME**

MADE IN THE USA

CONTRAST CUT

MISANO FORK PRELOAD ADJUSTERS

The RSD Fork Preload Adjusters allow on-the-fly fork spring preload adjustment. With the use of allen wrench, easily increase or decrease preload to alter the handling characteristics for a softer or stiffer ride.

FEATURES

- **REPLACES THE OEM TOP FORK CAPS**
- **NO NEED TO REMOVE FORKS OR TOP TRIPLE TREE FROM BIKE**
- **CNC MACHINED FROM BILLET ALUMINUM**
- **UP TO 1.15" OF PRELOAD ADJUSTABILITY**
- **AVAILABLE IN BLACK OPS & CHROME**

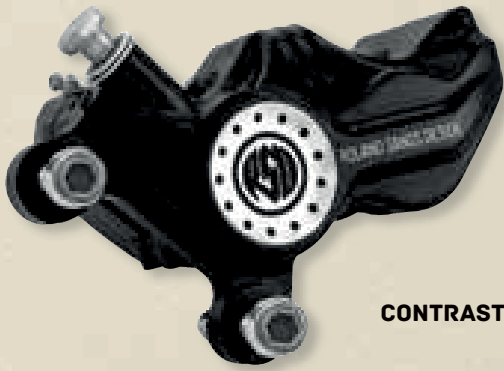

*Fully functional for ripping in the streets with
a classic look that will stand the test of time.*

HYDRAULIC RADIAL MASTER CYLINDERS & CABLE CLUTCH LEVER ASSEMBLY

Race driven Radial Mount Master Cylinder with a built in reservoir. This master delivers stunning performance and feel for any bike with classic RSD styling and without the need for an external reservoir. With fully adjustable levers and clearance for stock switch housings, this versatile system will drastically improve your brake system from the master cylinder down.

FEATURES

- COMPATIBLE WITH OEM SWITCH HOUSINGS & CANBUS WIRING
- 1" CLAMPING DIAMETER
- TWIST ADJUSTER MODIFIES LEVER DISTANCE
- 2.5" OF LEVER ADJUSTMENT
- CNC MACHINED FROM BILLET ALUMINUM
- BRAKE LIGHT SWITCH INCLUDED
- LEVER SURFACE SHAPE COMFORTABLE & SMOOTH
- AVAILABLE FOR 9/16" BORE FOR SINGLE DISC & 11/16" BORE FOR DUAL DISC APPLICATIONS
- SOME MODELS REQUIRE USE OF HYDRAULIC SLAVE CYLINDER (SOLD SEPERATELY)
- MOUNTING HARDWARE & SWITCH INCLUDED
- ASSEMBLIES AVAILABLE W/ OR W/OUT MIRROR MOUNT
- AVAILABLE IN CHROME & BLACK OPS AS WELL

GLOSS BLACK

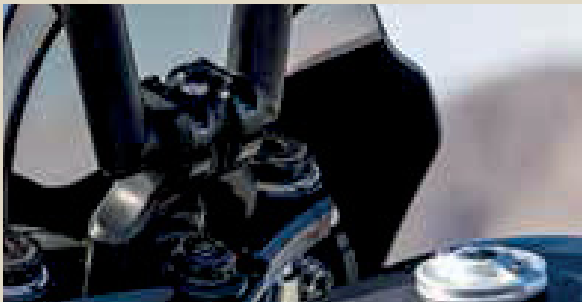

BLACK OPS

NARROW EMPIRE HANDLEBAR & CAFE MEGA RISERS

A tweak to our vintage handlebar with a new gusset we call the Empire. We've also changed up the bend and straightened the control area of the bar for a feel closer to a Tbar, but with adjustability. Pair the Mega Risers with your bars and you have the ultimate highbar set up.

BAR FEATURES

- UNIQUE NARROW WIDTH REQUIRES USE OF RSD'S 1" MEGA RISER
- 1" DIAMETER UPPER SECTION ALLOWS FOR STOCK OR AFTERMARKET HAND CONTROLS
- SLOTTED AND DRILLED FOR INTERNAL WIRING

FEATURES

- SIMPLE BOLT ON INSTALLATION
- COMPLIMENTS ADDITIONAL RSD TRACKER PRODUCTS
- BLACK GUARD FEATURES GLOSS BLACK FINISH W/ BRASS BADGE
- BLACK OPS FEATURES TEXTURED FINISH W/ SATIN BLACK BADGE
- CHROME W/ BRASS BADGE

ROLAND'S PICKS

Roland's obsession with Dynas continue even after last years BIG NEWS from Harley. The Dyna is the perfect bike when you have to get out of town fast. This love affair can spread to every nook & corner of the bike but Roland has a few favorites...

"Don't cut corners"

RADIAL BLUNT AIR CLEANER

The Blunt Air Cleaner is our smallest filtered air cleaner and features more leg clearance with a high flow filter. Simple, yet aggressively detailed styling keeps the Blunt focused on getting as much clean air into your motor, with as little ergonomic impact as possible.

"Handcrafted"

NOSTALGIA CAM COVER

The original billet ribbed cover line; the RSD Nostalgia Cam Cover is a direct replacement for your stock timing/cam cover that gives your machine a high quality vintage vibe with modern materials.

"Technical yet classic"

DYNA FREESTYLE SEAT

The Freestyle Dyna Seat is a slimmed down seat with a fast back that keeps you planted in the saddle. The material is black distressed vinyl with a Traction gripper center panel and features double stitching.

"Complete the package"

HUTCH WHEEL

The Hutch relives those glory days without the swap meet searches and the questionable safety of vintage cast wheels. Designed with weight savings in mind for a light, reliable and high quality wheel with enough funk to turn out any race chopper.

RECOMMENDED STYLE GUIDE

Get the protection and look you need for your Dyna.

For Him

HEFE JACKET

Versatile classic denim jacket/vest combo with zip off sleeves.

RECOMMENDED PRODUCT MAINTENANCE

CHROME

Wash with mild soap and water, use a healthy coat of Carnuba, apply often with a soft cloth.

BLACK ANODIZE

Wash with mild soap and water, no detergents or harsh chemical cleaners that can destroy the black anodized finish. You may use a non-abrasive wax with UV protectant on the black anodized portion of the product to protect it. Never use a harsh or abrasive wax as it will remove the black anodized finish. Avoid exposure to UV rays whenever possible.

CONTRAST CUT

See above for Black Anodized portion. For the milled area on standard Contrast Cut wash with mild soap and water, no detergents or harsh chemical cleaners. To remove stains on the milled area you may use the following methods depending upon the condition of the parts.

- *A mild MAG polish will remove mild stains from the milled area, but will make the milled area shiny as it contains some abrasives. CAUTION: Take extreme care not to use this on the Black Ano surface of any product as it will remove the black finish.*

- *Scotch bright can be used to remove more severe stains on the milled area. CAUTION: Measures should be taken up to and including masking to ensure that the Black Ano surface of any product is not damaged.*

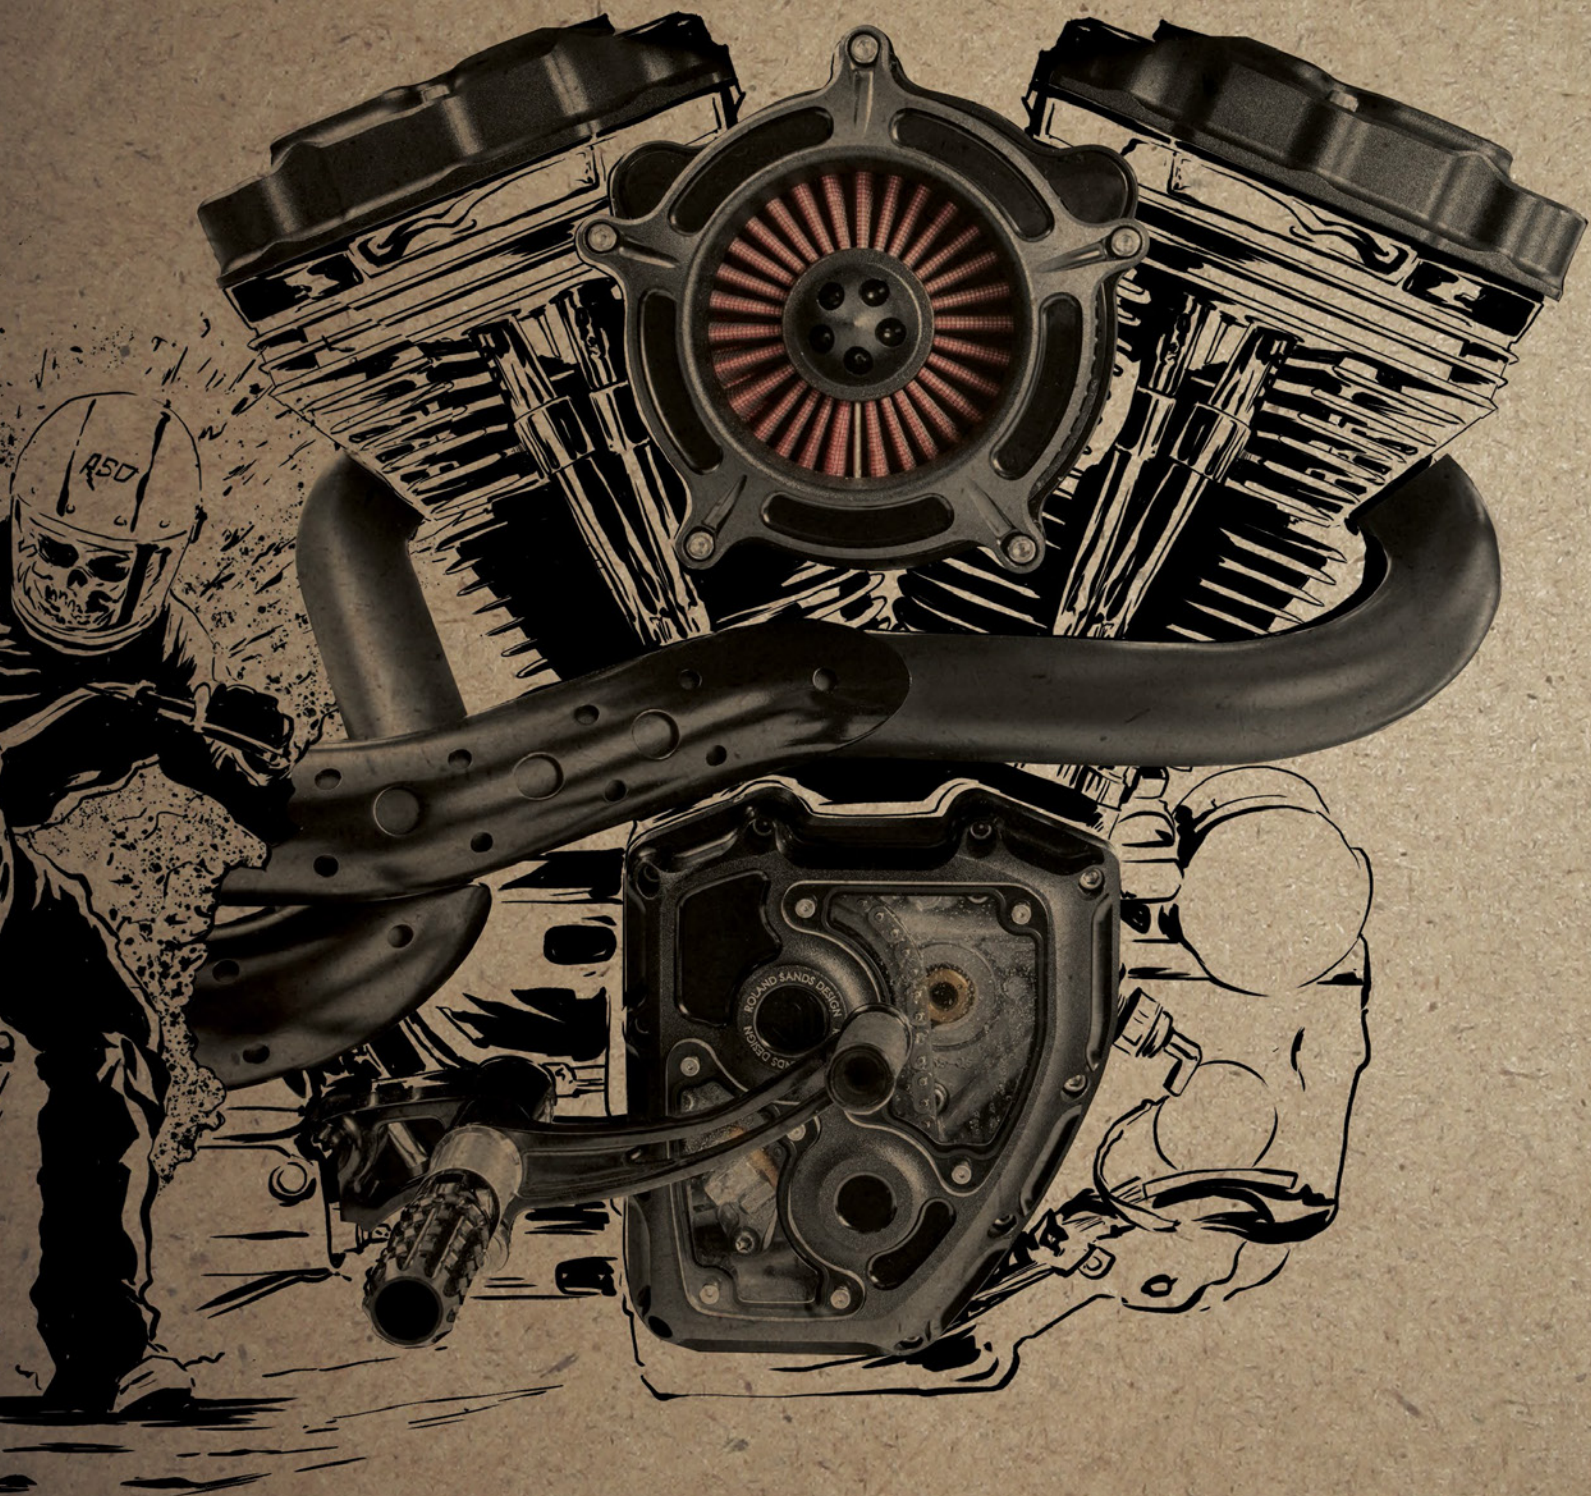

BLACK OPS

Wash with mild soap and water. No detergents or harsh chemical cleaners should be used, as they can destroy the anodized finish. Wax and/or cleaners containing wax are not recommended as they may leave an uneven finish on the matte surface. Detail spray or WD40 also work well for “dry cleaning” or wipe-down. Due to semi-rough surface of the finish, we recommend using a micro-fiber or other lint free type of cloth so as not to leave behind any remnants of the cloth.

Roland Sands Design

MOTORCYCLES ♦ PARTS ♦ LEATHERS

2016 International V-Twin Catalog

This catalog in your hands aims to satisfy both the creative and functional side of the customizing motorcycle journey. At RSD we pride ourselves on providing parts to enhance the aesthetic as well as the performance of your bike. No compromise, just high quality well-built products that will withstand your vision and your right wrist.

Black Ops

Black Ops™ has taken black anodized finishing to a new level of quality and detail. Utilizing both textured black and a gloss black finish on one part. It's aggressive, yet subtle.

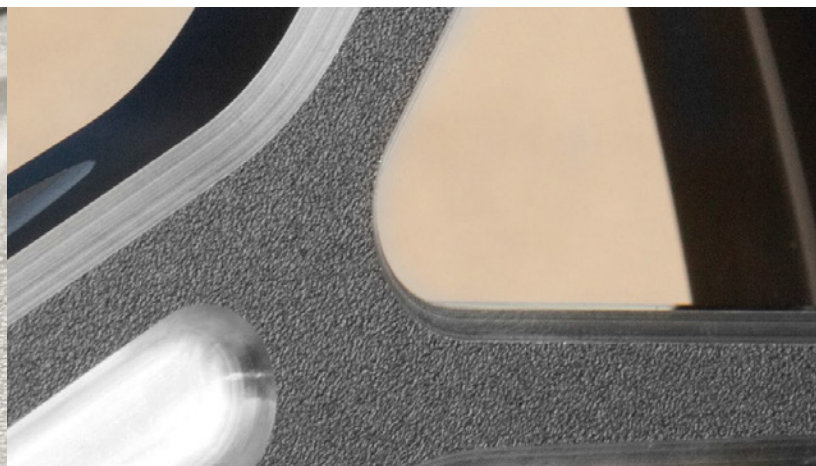

Contrast Cut

RSD Contrast Cut™ products start with a finely machined, polished and black anodized part which is re-machined to bring out the design highlights. Close attention is paid to machine pattern and quality to ensure the best and cleanest machine work.

Machine Ops

Machine Ops is a fusion of textured natural aluminum and detailed machining that exposes the true beauty of our aluminum alloy. We then dip the fresh machined parts in a slick clear anodize to protect the surface while keeping its raw aesthetic protected.

Contrast Ops

Our two most popular finishes have been combined into one. Contrast Ops adds detailed Contrast Cut highlighting to a textured Black Ops part for a truly unique next level finish.

Brass

Our Brass parts are simple, raw and golden, giving your bike just the right amount of soul. Finely machined brass is left in its natural state and will take on a feel unique to your environment.

Chrome

RSD offers the best chrome in the business by starting off with a hand polished surface preparation, followed by layers of high quality, durable chrome. You will not see a shinier chrome.

Gloss Black

Our Gloss Black anodized products are first hand polished and then anodized with a UV-resistant black anodize that will hold its color, increase durability and prevent oxidation. Our steel parts all receive a high quality surface prep followed by industry leading powder coat finish that protects it from the elements.

Braking System

RSD braking systems are a result of years of thought and design practice, coupled with on track testing knowledge and off track development. Manufactured by Performance Machine, the world leader in high performance V-Twin braking systems. Race technology inspired design puts function and form together in a lightweight performance product. Differential bore brake calipers that take flex and heat head on for a brake caliper that resists fading, and provides a consistent lever and powerful clamping force, stopping you quicker. Coupled with our new Radial master cylinders, they are a maximized combo.

Brake Calipers MADE IN THE USA

We've taken the best of brake caliper technology, high quality precision machining and trademark RSD styling to create the next step up in braking power for your V-Twin. With GP racing architecture and weight distribution, the extra rigidity maximizes your effort at the brake lever, stopping you faster with more feel. RSD brake calipers coupled with RSD Radial master cylinders are the ultimate V-twin braking system providing unparalleled feel and power.

- Feature differential bore pistons (1.125" & 1.375") that apply a different force at both the leading edge and the trailing edge of the brake pads for superior braking
- Dual-disc applications require separate purchase of left and right calipers
- Includes brake pads, bleeder screw, 3/8"-24 banjo bolt and sealing washers & shim kit
- Available in Contrast Cut, Black Ops, Machine Ops and Chrome finishes

Hydraulic Radial Master Cylinders & Cable Clutch Lever Assembly

Race driven Radial Mount Master Cylinder with a built in reservoir. This master delivers stunning performance and feel for any bike with classic RSD styling and without the need for an external reservoir. With fully adjustable levers and clearance for stock switch housings, this versatile system will drastically improve your brake system from the master cylinder down. Now available with an optional mirror mount.

- Race driven radial mount technology gets the most out of your stock or aftermarket brake caliper by increasing leverage
- Compatible with OEM switch housings and CANbus wiring
- 1" clamping diameter
- Twist adjuster easily modifies the lever distance from the handlebar
- 2.5" of lever adjustment
- CNC machined from billet aluminum
- Brake light switch included
- Lever surface shape designed for a comfortable and smooth feel
- Available for 9/16" bore for single disc & 11/16" bore for dual disc applications
- Some models require use of hydraulic slave cylinder (sold separately)
- Design matched to the Radial product line
- Mounting hardware included
- Machined RSD logo
- Switch included
- All assemblies available with or without mirror mount
- Mirror mount also available separately

STRAIGHT MALE MOUNT

Inspired by our passion for motocross styling, we decided to bring a little dirt to the road. Intentionally designed with a featherweight, ventilated body and aggressive tooth pattern for performance and grip.

- Direct stock replacement
- Fits driver and passenger mounts
- Chrome mounting hardware kit sold separately

*Straight male mount pegs are used on all HD models, including Sportster & Dyna passenger peg applications
 *45 degree male mount pegs are used on all Sportster and Dyna driver peg applications

* Foot Pegs do not fit 2013-16 XL1200V/1200X/1200 C models

 *Softail Forward Controls*

RSD forward controls have been a long time in the making. We borrowed some style and function from our rearsets and applied that thought process to the RSD forward controls. The end result is a product that's at home on a high performance custom as well as any style of bike. An aggressive yet simple design means the RSD controls don't take over the look of your machine but do exactly what they're supposed to do, keep you connected to your bike.

- Race styled bolt-on forward controls
- Integrated 11/16" bore master cylinder included
- Standard reach
- Hard anodized piston for increased performance and increased wear resistance
- Billet aluminum construction
- Folding footpegs, shifter and brake toe pegs included
- Banjo bolt and Stainless Steel hardware included
- Kickstand bracket included (*note: 2007+ models require use of 2000-2006 kickstand assembly)

*May require custom brake line for proper fit

Sportster Rearsets

Our racetrack driven RSD Rearsets for Sportsters are the ultimate improvement for an aggressive foot position. These Rearsets have RSD's high quality finish and feature foot pegs with race style pivots allowing for a higher lean angle. The mega knurl on our pegs ensure your feet stay planted and your focus remains on the road ahead. High quality fasteners and pivots ensure smooth operation with little effort.

- Bolt-on Rearset foot controls
- Completes the RSD "Café Sportster" package of products
- Moves foot position approximately 2" up, 13" back and 1.5" narrower per side (compared to stock mid controls) for increased ground clearance when cornering
- Aggressive rider position
- Utilizes OEM rear master cylinder
- Designed to fit seamlessly with RSD Slant 2-into-1 Exhaust System
- Eliminates bulky, heavy OEM cast steel footpeg brackets, bell crank brake rod and master cylinder bracket
- * 2014-16 does not include brake reservoir bracket, not needed
- * Not compatible with passenger pegs
- * Relocates stock master cylinder

Air Cleaners

When RSD set out to create an air cleaner, we wanted to make something that improved performance as well as the look of a bike. We ended up revolutionizing what an air cleaner can be in both function and aesthetics, and we continue to bring fresh designs to the market.

All RSD air cleaners feature a high-volume K&N air filter for the best in filtration and flow.

POWER AIR CLEANER

SPLIT AIR CLEANER

RADIAL AIR CLEANER

Blunt Air Cleaners **MADE IN THE USA**

The Blunt Air Cleaner is our smallest filtered air cleaner and features more leg clearance with a high flow filter. Simple, yet aggressively detailed styling keeps the Blunt focused on getting as much clean air into your motor, with as little ergonomic impact as possible.

- Smaller size gives more knee clearance
- 4.5" outer diameter face
- High volume best in filtration K&N air filter included
- Hidden crankcase breathers
- Revolutionary backing plate that promotes smooth airflow into the carb/throttle body
- Includes slotted breather bolts & oil tubes
- See page 24 for available rainsock

- Available in Contrast Cut, Black Ops, Machine Ops and Chrome finish
- Mounting hardware included
- *Not legal for street use on pollution controlled vehicles
- *All air cleaners can be used on Mikuni carbs with use of adapter (Part# HS42/001-K sold separately)

The Venturi Air Cleaner is a proven high performance bolt-on part that drastically improves the looks and performance of your machine. Our revolutionary backing plate promotes smooth air flow into the carb/throttle body while also providing hidden internal crank case breathers and our tight seal oil separator insures a clean, leak free ride. Manufactured from Billet Aluminum in the USA, the Venturi is a jewel for the side of your bike.

- Distinct exposed filter design with a Stainless steel wire mesh screen
- Design matched to RSD wheels
- Hidden built in crank case breathers
- High volume, best in filtration, K&N Air filter included
- Revolutionary backing plate that promotes smooth airflow into the carb/throttle body
- See page 24 for available rain sock & scrub bag
- Includes slotted breather bolts and oil tubes
- Includes mounting hardware
- *Not legal for street use on pollution controlled vehicles
- *All air cleaners can be used on Mikuni carbs with use of adapter (Part# HS42/001-K sold separately)

Scrub Bag

While washing or storing your motorcycle, stretch our RSD Scrub Bag over your complete RSD Air Cleaner to prevent water or other debris from entering engine.

- Compatible with ALL RSD Air Cleaners
- Made from waterproof Denier material
- Elastic enclosure seals out water and debris
- Printed RSD Logo – Keep it Clean

*Note: Cannot be used while engine is running
For washing and storage purposes only!

Internally Mounted Rain Sock

If you are doing a lot of wet weather riding we recommend our Internally Mounted Rain Sock. While not a necessity for riding in the rain with a RSD Air Cleaner, it can help reduce filter saturation.

- Compatible with RSD Air Cleaners listed
- Durable polyester pre-filter is factory treated using a proprietary hydrophobic process to repel water
- Uniform micron openings allow air in while keeping debris .005" or larger and water out
- Dyno & flow bench proven to maintain current performance

Exhaust and Slant Intake

RSD's high performance roots are deep in both racing and design. Developing true high performance products is at the heart of what the entire crew at RSD is about. Design matched both in performance and aesthetic, RSD promises to deliver the highest of quality and horsepower for your V-twin powerplant.

Track 2-into-1 High Pipe MADE IN THE USA

We've taken our original Tracker Pipe and decreased the weight, improved the performance and simplified the tip creating the Track 2 into 1 High Pipe. There is no better option when you're looking for ground clearance and an aggressive look. Available in ceramic Black Ops finish as well as ceramic Black with Chrome.

- Race quality, high temperature black ceramic coating
 - Mono filament fiberglass & ss wool packing
 - Drilled heat shields with V&H Logo Stamp
 - Black Ops features matte black exhaust with gloss black heat shields, logo & tip
 - Chrome features matte black exhaust with chrome heat shields and tip
 - Redesigned Baffle for Deeper Tone
- *Not for use on models with saddlebags
*Not legal for street use on pollution controlled vehicles

Peg Brackets MADE IN THE USA

Allows the use of passenger pegs when using the RSD Tracker pipe on Softails. Your lady will thank you.

- Gloss Black powder-coated
- * Required for installation of pegs with Tracker 2-into-1 pipe

Internal backing plate & breathers

 **Slant Carbon Fiber Intakes** MADE IN THE **USA**

This is the ultimate High Performance intake from RSD. We've combined the best in performance and light weight with an ergo friendly slanted carbon intake filter from K&N. Our new Slant Filter element gives you more knee clearance and a slanted surface that's easy on the body during hard riding. The filter element is coupled with our newest backing plate shape from Vance & Hines for industry leading filtration in a simple package. Ultimate leg clearance makes a more comfortable ride.

- Backing plate, internal breather and hardware included
- Laser etched Black Anodized cover, Black Anodized backing plate and mounting hardware
- Carbon fiber ergo trimmed K&N filter
- Powder coated inlet adaptor
- * Not legal for street use on pollution controlled vehicles
- * See page 24 for rain sock and scrub bag

Vance & Hines Slant 2-into-1 Exhaust Systems MADE IN THE USA

The collaboration between RSD/Vance & Hines brings you high performance exhaust in a light weight package. We've stripped this exhaust system to only the necessary elements and added a slash cut carbon fiber and stainless tip for style points, as well as performance. We've also done all we could to tuck the system up tight to the bike for added ground clearance. The Works Finish features exposed welds, while the Carbon Ops finish is dressed in a satin black finish.

- Works Finish-All raw stainless steel construction with carbon fiber end cap
- Carbon Ops Finish-Black hi temp ceramic coated with carbon fiber end cap
- Fully TIG welded
- Heat shields included
- * Not legal for street use on pollution controlled vehicles
- Softail & Dyna applications include both 18mm & 12mm O2 sensor bungs
- O2 sensor port plugs included for pre-2007 models (all applications)
- 1.75" to 2.0" Stepped header tubes
- Monofilament fiberglass and SS wool baffle materials for hi temp resistance

Wheels Discs & Pulleys

Wheels are perhaps the largest aesthetic change you can make to your bike besides paint and bodywork. The size and width of the wheels coupled with your tire choice can drastically alter your bikes stance, changing the performance and look. When we build a bike we often start with the wheel and tire choice as it sets the stage for the entire machine. We understand how vital your wheel choices are and are proud to offer wheels, discs and pulleys manufactured by Performance Machine with over 45 years of experience in wheel manufacturing. We concentrate on building lightweight wheels that also deliver a variety of visual choices in many finishes for the ultimate rolling package.

 *Hutch Wheel*

CONTRAST CUT

BLACK OPS

MACHINE OPS

Being BMX racers and fans, who could forget the Kimtab? Originally sold by Roland's dad in the 80's for motorcycles, it was fitting to bring the Kimtab to the future and make it out of high quality forged billet aluminum with signature RSD detailing. The Hutch relives those glory days without the swap meet searches and the questionable safety of vintage cast wheels. Designed with weight savings in mind for a light, reliable and high quality wheel with enough funk to turn out any race chopper.

- Fully sealed, maintenance free - deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Rim lip detail
- Available in Contrast Cut, Machine Ops and Black Ops

MADE
* IN
THE USA

 *Del Mar Wheel*

CONTRAST OPS

MACHINE OPS

CHROME

The Del Mar looks fast standing still, and it should. Inspired by classic flat track and road racing wheels, the Del Mar is one of our lightest wheels. Even with a lightened rotating mass, we still kept the detailing and style up to par with our new Contrast Ops and Machine Ops finishes. This wheel screams quality, race styling and performance. Also available in Chrome.

- Fully sealed, maintenance free - deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Rim lip detail
- Available in Contrast Ops, Machine Ops and Chrome

 *Raid Wheel*

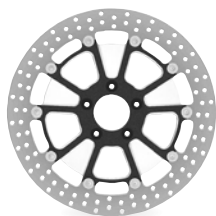

CONTRAST OPS

CHROME

MACHINE OPS

Inspired by classic hot rod styling with the modern twist of thin spokes resting between massive pocketed main spokes, the Raid is a throwback with a forward lean. We've removed a ton of weight from the rim and added a double pinstripe for an additional style feature. Available in Contrast Ops and Machine Ops as well as Chrome, the Raid will look stylish on anything that needs an attitude change.

- Fully sealed, maintenance free - deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Rim lip detail
- Available in Contrast Ops, Machine Ops and Chrome

 Diesel Wheel

CONTRAST CUT

BLACK OPS

One of our most popular wheels, the Diesel is clean yet mean. We introduced the drilled rim lip speed dots on this wheel to help compliment simple design and give it just enough pop to be a stand out. The Diesel Wheel will flow with whatever bike you put it on.

- Fully sealed, maintenance free – deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Rim Lip Detail
- Available in Black Ops and Contrast Cut

BLACK OPS

 *Morris Wheel*

The Morris is a blast from the past with the full RSD update. 7 tapered spokes are a simple but effective way to connect rim to hub in a classic road race pattern. Further pocketing towards the outer edge of the rim lip offer a further reduction in weight and add a stylish detail.

- Fully sealed, maintenance free – deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Rolled rim lip details
- Available in Black Ops

CONTRAST CUT

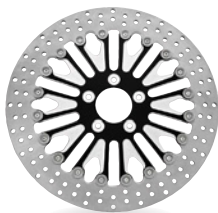

BLACK OPS

 *Boss Wheel*

The Boss in Contrast Cut is striking. The Contrast Cut finish on this wheel is second to none with an amazing amount of detail while staying lightweight.

- Fully sealed, maintenance free – deep groove wheel bearings
- RSD logo badge
- Design matched discs, pulley and air cleaner available
- Rim Lip Detail
- Available in Contrast Cut and Black Ops

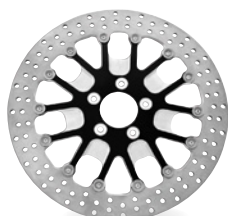

CONTRAST CUT

BLACK OPS

 *Slam Wheel*

Huge rim pockets remove tons of weight while still retaining a rolled rim lip. Coupled with speed dots and super aggressive straight spokes, the Slam is up to the task of making your motorcycle turn faster while looking unlike any other machine.

- Fully sealed, maintenance free – deep groove wheel bearings
- RSD Logo Badge
- Design matched discs, pulley and air cleaner available
- Rim Lip Detail
- Available in Contrast Cut and Black Ops

 *Domino Wheel*

CONTRAST CUT

As far as aggression and purpose, this wheel gets the job done as effectively as possible. Its simple yet direct design splits 9 into 18 spokes and is visually and architecturally built with structure in mind. This wheel will look at home on a race inspired bike as well as a cross country road bomber.

- Fully sealed, maintenance free – deep groove wheel bearings
- Design matched discs, pulley and air cleaner available
- Available in Contrast Cut

Wheel Testing

TORSIONAL LOAD TESTING

The torsional load testing machine simulates starting and stopping, as well as the occasional burn out. Load sensitive rams cycle back and forth replicating real world style torture in an attempt to rip the hub out of the rim.

SIDE LOAD TESTING

Side load testing replicates the incredible stress a wheel is subjected to during cornering. You can trust your RSD wheels will withstand those canyon roads and track days because they've come out of the simulated side load test unscathed.

RADIAL LOAD TESTING

The radial load testing machine simulates a load on a tire/wheel assembly while taking miles and miles of road with the occasional beating. The wheel is forced to endure countless rotations with one flaw sending the design back to the drawing board.

IMPACT TESTING

The massive impact testing unit simulates the pot holes and road hazards that a wheel is subjected to in the real world. Each and every wheel design is wrapped with a tire and a hard edge hit is replicated. The wheel must retain air pressure for a specific time in order to pass.

Two Piece Rotors

- High grade 420 stainless steel replaceable outer bands
- Billet aluminum CNC-machined inner carriers
- Cross drilled bands for increased ventilation
- Blanchard ground bands ensure precise and even tolerance
- 11.5" and 300mm rotors are fixed
- 13" rotors attach via floating elements
- Front rotors are drilled for standard HD bolt pattern 3-1/4" X 5" X 5/16"
- Rear rotors are drilled for standard HD bolt pattern
- All rotor carriers are counter bored with 2.22" I.D.
- A reducer spacer (part# 1710-0636) is sold separately for 1.985" I.D.
- Wide rear wheels require use of rotors with 2.50" I.D.
- * RSD rotors will fit 1984-1999 HD applications only if used in conjunction with Performance Machine calipers and RSD wheels
- * RSD rotors will not work with stock HD wheels
- * Not available for 2014-16 XL Sportster

Forged Aluminum Pulley

- CNC Machined from aluminum forging
- Hard anodized teeth
- Special adapter included allowing fitment of 1.95", 2.22" and 2.50" O.D. hub flanges
- 2000-06 Softail pulleys include mounting bolts
- Stainless steel belt retainer bolts included

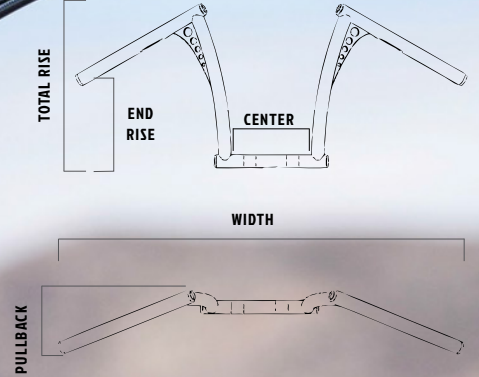

Handlebars

Comfort, attitude and quality are the priorities when picking a handlebar. We've pioneered new frontiers with our Narrow Bar line-up, Vintage Bars and Pro Step Bars making a handlebar more than just a handlebar. Made in America of the highest quality materials and tested both in the lab and real world.

MADE IN THE USA

Narrow Handlebars

Not just a handlebar, but a handlebar system for those that like to keep it slim. We're offering two designs of narrow Mega Risers in three finishes that allow for the narrowest of handlebars. The narrow handlebar line is a great alternative to T-bars for getting your bars up high, and allow for adjustability for the perfect bar position. Ideal for splitting lanes and counting the cars as you pass them in traffic. We've built a number of handlebars in various heights and styles, from simple to tech, to give you plenty of options. (Narrow Bars only work with our narrow Mega Riser)

Narrow Empire Handlebar

A tweak to our vintage handlebar with a new gusset we call the Empire. We've also changed up the bend and straightened the control area of the bar for a feel closer to a Tbar, but with adjustability.

- Unique Narrow width requires use of RSD's 1" Mega Riser, see page 52
- Newly designed gusset offers strength and rigidity
- 1" diameter upper section allows for mounting of stock or aftermarket hand controls
- Slotted and drilled for internal wiring
- Available in Gloss Black, Black Ops and Chrome

Mega Risers

Get your bars up where you can use them with the RSD Mega Riser. We've taken design flavor from BMX and Mountain biking, blended it with a little Motocross, sprinkled in classic RSD styling and created the ultimate narrow high riser for your V-twin. Now you can run an extremely narrow handlebar with a narrow grip to grip width keeping your hands inboard of mirrors and car doors. Pair Mega Riser with the new RSD narrow bars and you have the ultimate highbar set up that looks at home on a club bike, ultra narrow glide chopper or aggressive scrambler.

The heart of the Narrow Handlebar collection is the RSD Mega riser, see page 52 for full details.

Step it up! The RSD Pro Step bar is a factory motocross inspired bar with a fat 1-1/4" base and 1" upper section. Our unique machined billet ring allows two different finishes on one handlebar.

 *Pro Step Handlebars 12"*

- 1-1/4" diameter lower section of handlebar
- 1" diameter upper section allows for mounting of stock or aftermarket hand controls
- Slotted and drilled for internal wiring
- Requires use of RSD's Nostalgia 1-1/4" risers or other aftermarket 1-1/4" risers

34" WIDE X 12" TOTAL RISE, 7-5/8" END RISE X 6-1/2" CENTER WIDTH X 4" PULLBACK

 *Pro Step Handlebars 6.5"*

- 1-1/4" diameter lower section of handlebar
- 1" diameter upper section allows for mounting of stock or aftermarket hand controls
- Slotted and drilled for internal wiring
- Requires use of RSD's Nostalgia 1-1/4" risers or other aftermarket 1-1/4" risers

 **Vintage Handlebar** MADE IN THE **USA**

The Vintage bar is RSD's twist on the classic ape hanger. The true "Made in America" original gusseted ape and its flowing radius tubes and riding position are unmatched in style, design and quality. The stance will give you the aggressive yet comfortable riding position you are looking for and our end caps make it extremely easy to run internal wiring. If quality and originality are important to you, then look no further.

- Multi-hole drilled corner gusset offers strength & rigidity
 - Available for standard or springer applications
 - 1" diameter to accept stock or aftermarket hand controls
 - Slotted and drilled for internal wiring
 - Standard bars feature knurling for risers at 3-1/2" on-center
 - Springer bars feature knurling for risers at 4-3/4" on-center
 - Black bar features a gloss black bar & Chrome moon end caps
 - Black Ops features textured black bar & gloss black moon end caps
- Note: Springer bars are not for use with OEM Crossbones FLSTSB (crossbones) OEM Risers

 16" Vintage King Ape Handlebar

 19" Vintage King Ape Handlebar

It seems like you can never make an ape hanger bar too big so we shot for the sky with our King Ape. We borrowed some style from our classic Vintage bar and made everything a little larger, including the tubing diameter to give you a punk tall bar with attitude, style and quality hand TIG welding. No swaging or uneven surfaces on these bars. If you're looking for high quality, look no further.

- Accepts stock or aftermarket hand controls handlebar clamps & risers
- Use of aftermarket hydraulic clutch master cylinders
- Slotted and drilled for internal wiring
- Knurling for risers at 3-1/2" on-center (non-springer)
- Multi-hole drilled corner gusset offers strength & rigidity

- 1-1/4" diameter bars with 1" diameter center mounting surface & control clamping surface
- Recommend the use of 1 piece riser to clamps, see page 70
- Black bar features a gloss black bar
- Black Ops has a textured black handlebar

8" VINTAGE APE

16" VINTAGE KING APE

19" VINTAGE KING APE

 8", 16" & 19" Vintage King Ape Bagger Handlebar MADE IN THE USA

For our King Ape Bagger Handlebar, we continued with the classic vintage bar styling but added a special bend. This bend allows the bars to mount in a more upward position for a more aggressive riding position. Keeping with the King Ape aesthetic, everything is a little larger including the tubing diameter to give you a punk tall bar with attitude, style and quality.

- Fitments available for all FLHT/FLHX Models
- 1" diameter to accept stock or aftermarket hand controls
- 8" only will work with stock cables and brake lines
- Slotted and drilled to allow internal wiring
- Knurling for risers at 3-1/2" on-center
- Stylish multi-hole drilled corner gusset offers strength & rigidity
- Billet aluminum end caps included
- Black bar features a gloss black bar & Chrome moon end caps
- Compatible with cable & throttle-by-wire applications

8" - 32.75" WIDE X 8" TOTAL RISE, 8" END RISE X 12" CENTER WIDTH, 10.75" PULLBACK

RSD *Clip-On Handlebars* MADE IN THE **USA**

The RSD 1" Clip-Ons mount to 39mm, 41mm or 49mm front forks, below the top triple clamp, for a low handlebar position. The aluminum bars are dimple milled to allow for stock wiring to cleanly exit your stock switch housings.

- Adjustable to any pullback and any height between top and bottom triple clamps
- Fixed 5 degree down angle
- Replaces top mounted handlebars and risers
- Bar is 1" diameter to accept stock or aftermarket hand controls
- Bars slotted for external wiring and black anodized
- Black Ops has a gloss black bar w/ a contrasting textured black and gloss black clip on

- 39mm Clip-Ons utilize all stock wiring, so there is no cutting or soldering.
- 41mm and 49mm Clip-Ons may need to shorten, cut and/or solder wiring, depending on current bar height
- * 41mm and 49mm are not recommended for use with stock hand controls, due to clearance issues. A modified gas tank is recommended.

CAFE

NOSTALGIA

RSD *Mega Risers*

Get your bars up where you can use them with the RSD Mega Riser. We've taken design flavor from BMX and Mountain biking, blended it with a little Motocross, sprinkled in classic RSD styling and created the ultimate narrow high riser for your V-twin. Now you can run an extremely narrow handlebar with a narrow grip to grip width keeping your hands inboard of mirrors and car doors. Pair Mega Riser with the new RSD narrow bars and you have the ultimate highbar set up that looks at home on a club bike, ultra narrow glide chopper or aggressive scrambler.

- Replaces conventional risers to allow for use of narrow handlebars
- Overall handlebar clamping width 2.5"
- Designed specifically for RSD Narrow handlebar line but, also fits standard handlebars (knurling may be exposed)
- Available in Contrast Cut, Black Ops and Chrome
- Bolt-on to most models with removable risers & 3-1/2" on-center pattern
- Available for 1" and 1-1/4" handlebars
- Drilled and tapped for 1/2" -13 mounting bolts
- Pinch bolts included
- 3-1/2" on-center mounting bolt spacing

RSD *One Piece Risers* **MADE IN THE USA**

The leverage produced when running tall ape hangers causes extra stress to the bars and risers. We developed our one piece top riser for that extra bit of rigidity needed with high apes. We've added strength where needed and connected the top clamps to unify the structure, meaning less flex and more clamping force.

- Accepts stock or aftermarket 1" diameter bars
- 1 1/2" tall
- Pinch bolt is included
- Drilled and tapped for 1/2" -13 mounting bolts
- Available in Contrast Cut, Black Ops and Chrome
- 3-1/2" on-center mounting bolt spacing

Signature Series

The RSD Signature Series Café Kit converts stock late model Sportsters into Iconic Café Racers with minimal effort. The bolt on modifications retain all the function and reliability of the stock machine eliminating any fabrication. Two levels of Signature Series Kits are available to cover both levels of budget.

Cafe Starter Kit

The Café Starter Kit is the perfect starting point for Sportster customization at the right budget. Just the Café essentials are included to visually change your stock bike to the Café Stance with the Café Seat, Clip Ons, Grips and Gauge Mount set up.

Signature Series Keychain & Kickstand Puck included

Cafe Seat

Taking the simple lines of a Cafe tail and blending it with the tank to create a clean and comfortable seat. Three styles available. *Pg. 74*

Clip-On Handlebars

The RSD Clip-Ons mount to the front forks, below the top triple clamp, for a low handlebar position. *Pg. 51*

Grips

Comfort and control are very important when ripping down the highway. We are big fans of being in control and RSD Grips are the perfect link from your hands to your bike. Three styles in multiple finishes are available. *Pg. 12*

Cafe Gauge & Headlight Re-Locator

Lowers the headlight and gauge to a more sleek position from the top handlebar clamp down to the front of the top triple clamp. *Pg. 57*

L.E.D. Indicator

Keep your indicator light functionality with the L.E.D. unit. *Pg. 57*

Cafe Racer Kit

The Café Racer Kit is for the customer that wants the performance upgrade as well as Café styling. Includes all items in the Café Starter Kit, as well as the performance upgrades with the Exhaust System, Rearsets, Levers and Air Cleaner. The perfect combo of parts architected by the crew at RSD for a high performance Café Racer at the right budget.

Signature Series Keychain, Kickstand Puck and exclusive Points Cover included

POINTS COVER

All Starter Kit parts included plus:

Slant 2-into-1 Exhaust

We've done all we could to tuck the system up tight to the bike for added ground clearance in the Slant 2-into-1 Exhaust system. *Pg. 28*

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.

Sportster Rearsets

Racetrack driven rearsets are the ultimate improvement for an aggressive foot position and cafe styling. *Pg. 17*

Front Master Cylinder Cover

Add race style to the stock HD master cylinders. *Pg. 10*

Lever Set

Race-styled stock replacement levers add an aggressive look to your

OEM controls. Three options include the Avenger Levers, Avenger Inlay Levers or enjoy the comfort of adjustability with the Regulator Levers. *Pg. 8*

Misano Riser Plug Set

Use these Misano race styled riser hole plugs to clean up the riser holes in the top of your stock triple clamp. *Pg. 51*

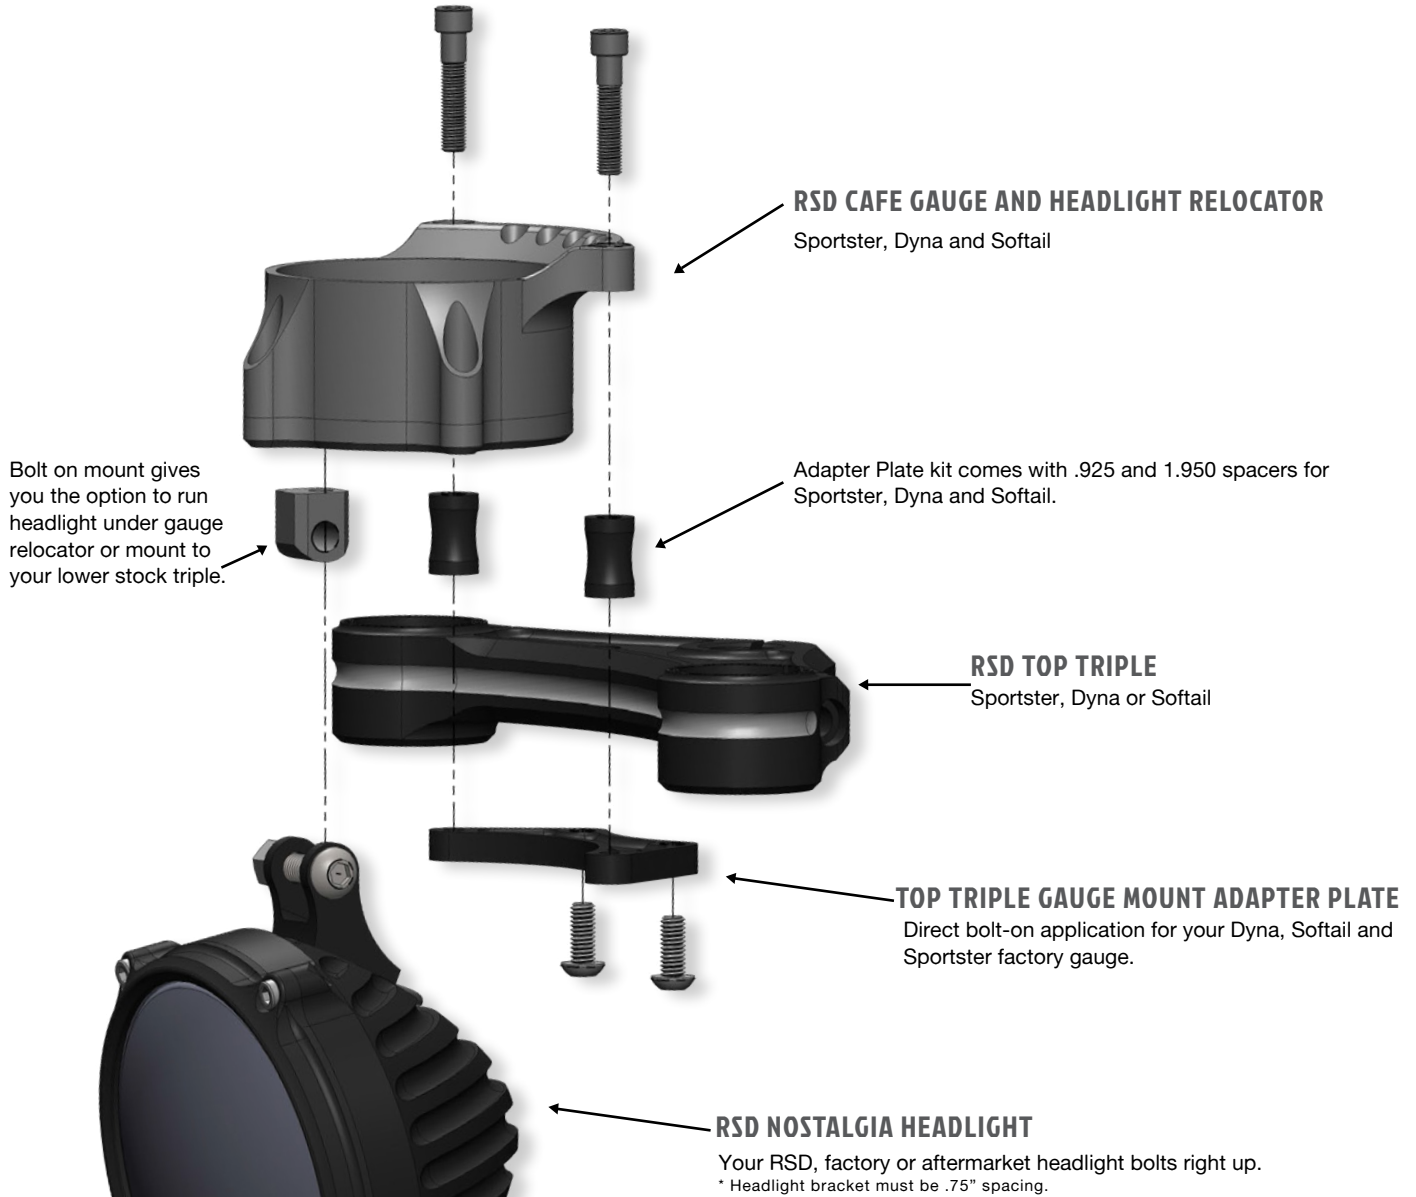

Air Cleaner

Proven high performance part that drastically improves the performance and looks of your bike. *Pg. 19*

Gauge Mount and Triple Set Up

With the popularity of our Sportster Café Gauge Relocator, we've found it necessary to expand the concept with additional options. It's now possible to move any stock HD 3-1/4" gauge from the gas tank or risers, to the front of the forks, with use of our Top Triple Clamp and gauge mount variations. Top Triple Clamps also allow for use of standard risers instead of the standard HD built in riser mounts, allowing for unlimited bar and riser options. All Top Triples include mounting holes for Gauge Relocation. Available for Dyna, Sportster or Softail applications.

MADE IN THE USA

Café Gauge & Headlight Re-locator for Sportsters

The Café Gauge and Headlight Re-locator lowers your headlight and gauge to a more sleek position from the top handlebar clamp down to the front of the top triple clamp and lowers the stock Sportster headlight 2 inches. This allows for the use of any aftermarket risers or complete elimination of risers for use of the RSD 39mm Clip-Ons.

- Utilizes stock Sportster (hanging) headlight
- Eliminates stock Sportster headlight visor/eyebrow
- CNC machined from billet aluminum
- Available in Chrome, Contrast Cut, Black Ops and Machine Ops
- LED warning/indicator light sold separately
- Does not fit Sportster 48

Café Gauge Re-locator for Softail, Dyna & Sportster 48

The Café Gauge and Headlight Re-locator moves any stock HD 3-1/4" gauge to a more sleek position from the top handlebar clamp down to the front of the top triple clamp. This allows for the use of any aftermarket risers. The backing plate has been updated with a bolt on headlight mount, giving you the option to run your aftermarket or stock bottom mount headlight under the Gauge Re-locator.

- Includes hardware to mount any standard bottom mount headlight in the hanging position (3/4" wide mount for 3/8th bolt)
- Headlight plug is included to keep headlight in bottom mount position off of lower triple if desired
- CNC machine from billet aluminum
- Available in Chrome, Contrast Cut, Black Ops and Machine Ops
- 48's, Dynas and Softails without removable risers, must use RSD Top Triple and Adapter Plate sold separately
- Dyna and custom applications with 3.5" on center removable risers, can use RSD Universal Gauge Mount Adapter Plate sold separately
- LED warning/indicator light sold separately

XL SPORTSTER

W/O RISER HOLES

RSD billet Top Triple Trees increase the rigidity of your fork, improving suspension and decreasing front fork flex. They also look great while eliminating the built in riser on some Sportster and Dyna models, allowing the use of standard risers. Also available without riser holes for a clean look on cafe bikes using Clip-Ons. All triples are drilled and tapped for Top Triple Gauge Mount and Adapter Plate.

- CNC machined from 6061 T-6 Billet aluminum
- 1/2" riser holes located at standard 3-1/2" on-center spacing
- Allows the use of most handlebars and risers
- Hardware included
- Adapter sold separately to allow use of RSD Café Gauge & Headlight Re-locator
- Available in Contrast Cut, Black Ops and Gloss Black

Lighting

Nothing is more important as you head into the dark abyss of night than a good headlight. A bonus is a headlight surrounded by finely machined detail as with the RSD headlight collection. We've kept it simple and thrown just enough detail to make it stylish. For something a little extra, check out the Nostalgia lighting keeping in tune with the rest of the Nostalgia ribbed collection.

Nostalgia Headlight MADE IN THE USA

RSD Nostalgia flavor is available in our 5-3/4" headlight. This beautifully machined headlight pushes styling while retaining classic shape.

- CNC machined billet aluminum
- Design matched to the Nostalgia product line with ribbed housing
- DOT Approved H-4 bulb
- 5-3/4" Headlight with bottom mount configuration
- 3/4 wide mount for 3/8" bolt
- Mounting hardware included
- Available in Chrome, Contrast Cut, Black Ops & Machine Ops

 Tracker Headlights

 Chrono Headlights

 Vintage Headlights

Headlights

Design matched to our Tracker, Chrono and Vintage components, our 5 3/4" headlights are subtle, yet with enough design cues to keep it proper. Our beautifully machined forged billet housing and bezel do a fine job of capturing our DOT rated lens and bulb to illuminate any road you wish to travel.

- CNC machined from billet aluminum
- Design matched
- 5-3/4" headlight
- Available in Chrome, Contrast Cut, Black Ops & Machine Ops
- Mounting hardware included
- DOT approved H-4 Bulb has twice the illumination of standard sealed beams
- 3/4" wide mount for 3/8" bolt
- High & Low Beam
- Bottom mount style
- Easy bolt-on installation

Wideglide Fork Brace MADE IN THE USA

When the front fender is removed from the stock forks it may look good but you end up with a "flexy flyer" that twists and sways more than a drunken sailor. We found this out when we started putting wide, 21" wheels on our Softails. Bring the performance back by keeping your front wheel going in the direction you point it.

- Replaces front fender on Softails or Wideglide forks
- Laser cut from 3/16" 1018 steel
- Practically eliminates front fork flex
- For use with up to a 21" x 3.5" front wheel/tire
- Hardware included
- Chrome has a Chrome hoop with a Brass RSD logo badge
- Gloss Black has a gloss black hoop with Brass RSD logo badge
- Black Ops has a texture black hoop with gloss Black RSD logo badge

1984-16 FXST/FLST, 1993-2005 FXDWG

*Not designed for use with front fender

Narrowglide Fork Brace MADE IN THE USA

Simplification in the name of function is what our fork brace is all about. It allows you to get rid of the front fender without losing the integrity of the suspension. Eliminates fork twist and increases rigidity from stock while looking damn good.

- Replaces front fender on narrowglide forks
- Laser cut from 3/16" 1018 steel
- Practically eliminates front fork flex
- For use with a 19" or 21" front wheel/tire
- Hardware included
- Chrome has a Chrome hoop with a Brass RSD logo badge
- Gloss Black has a gloss black hoop with Brass RSD logo badge
- Black Ops has a texture black hoop with gloss Black RSD logo badge

Dyna Fork Brace MADE IN THE USA

Not wanting to do things in the traditional way, we have combined our steel and billet capabilities to bring you a unique and functional piece that allows you to remove your front fender without losing the integrity of your suspension.

- Replaces the front fender on most FXD models
- CNC machined billet aluminum support brackets mount to the existing fender bolt holes and a forward hole giving the brace increased lateral support
- Laser cut hoop from 3/16" steel
- Practically eliminates front fork flex
- For use with up to a 21" front wheel/tire
- Hardware included
- Chrome has a chrome hoop, chrome bracket and a brass RSD logo badge
- Gloss Black has a gloss black hoop with Brass RSD logo badge
- Black Ops has a texture black hoop with gloss Black RSD logo badge

* Not designed for use with a front fender

Tail Sections

Originally designed for our Technics Sportster project, the RSD cafe tail section is the final touch to your Sportster cafe racer. Coupled with a highly detailed seat, it's full custom with small effort. You do have to dedicate yourself and cut off your struts, but anyone with a sawzall can accomplish it. Watch your fingers. You've only got ten.

CAFE TAIL SECTION W/ BOSS SEAT

W/CAFE SEAT

TAIL SECTION

Cafe Tail Section MADE IN THE USA

The RSD Café Tail Section slims and simplifies the back of your Sportster. The tail is made of thick, strong fiberglass that is covered with a Black Gel Coat. Sold separately are two different seat options, the simple clean lines of the Café style, or the triple diamond stitched Boss. The RSD Café Tail package is aggressive, yet flows perfectly with the Sportster side covers and gas tank.

TAIL SECTION

- Has clearance for stock shocks, wheels & tires
- Covered in Black Gel coat
- Required removal of stock fender, supporting struts and seat
- Requires relocation of taillight and turn signals
- Fiberglass construction with stainless steel mounting brackets
- All necessary mounting hardware included

BOSS & CAFE TAIL SECTION SEATS

- Direct Bolt on to the RSD Café Tail Section
- Ergonomic shape keeps rider seated comfortably & firmly
- Controlled density polyurethane foam
- Marine grade fiberglass baseplate
- RSD metal logo

SEAT

FINISH	PART #
BOSS	76949
CAFE	76958

When we set out to build a line of RSD seats we didn't want to reinvent the wheel. It was more about taking what we love about the classic designs and blending it with non-traditional styling. The seat shapes are both comfortable, yet still as thin as we could make them while the patterns push classic design.

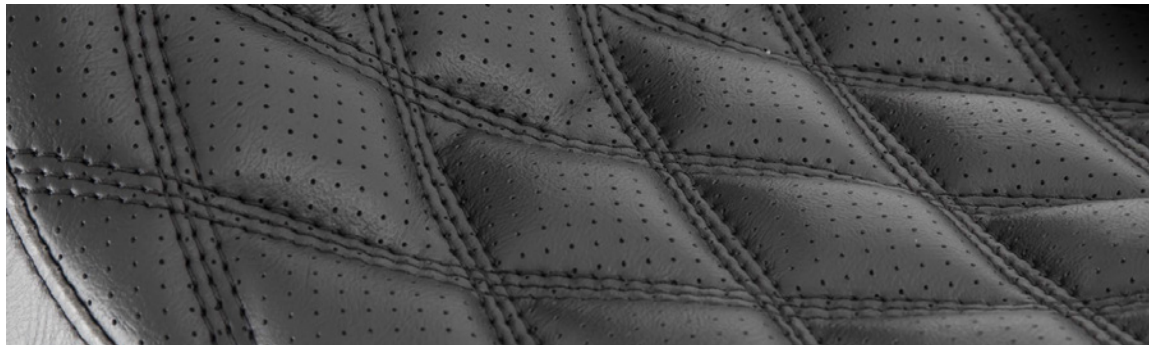

Avenger

Our Avenger pattern features raised padding with a perforated cover, sewn and formed in just the right places for a comfortable seat. The detailing of the perforated sections add the right amount of style to make it unique yet not overdone.

Boss

Our inspiration for the Boss seat was born on the runway and pays homage to the art of high end upholstery. This is not just another diamond seat as is evident in the painfully detailed triple stitch, hand-sewn lines and raised perforated diamond pattern coupled with our unique distressed vinyl.

Enzo

Inspired by high performance automobiles and fine leather craftsmanship of the old world, the Enzo seat gives you a high level of detail that blends in as well as it stands out. Our shaped foam center part line adds an extra level of comfort on long rides while keeping it classic.

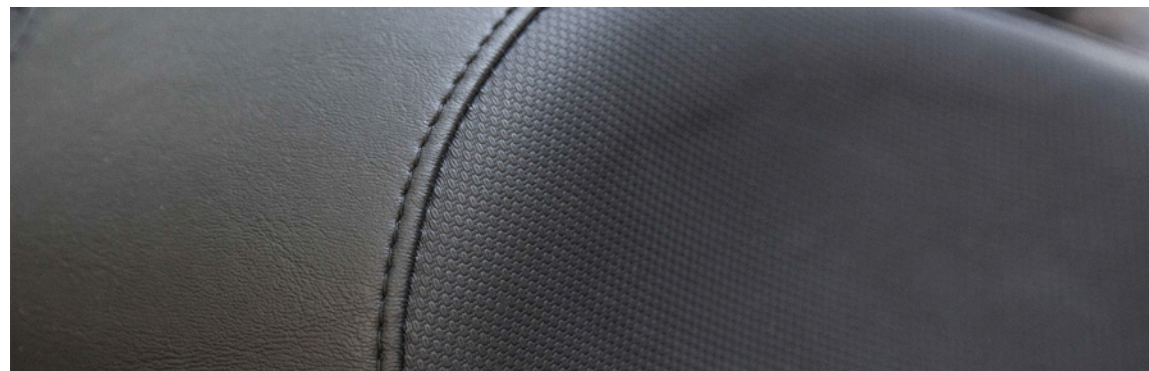

Cafe

The RSD Cafe Sportster seat takes the simple line of a cafe tail and blends it with the tank and frame rails of the stock HD Sportster creating a clean, comfortable and custom detailed seat. The RSD Cafe seat is the perfect complement to the rest of the RSD Cafe Line of products.

Traction

The added function of the Traction Seat with gripper material offers a simple solution to keep you planted in your seat.

RSD Clarity Cam Cover **MADE IN THE USA**

We've set out to expose the heart of the twin cam engine with the RSD Clarity Cam Cover. It's finely machined billet housing and transparent polycarbonate lenses show you a view of the cam gears, chain and support plate, exposing the inner workings.

- Allows for viewing of internal engine components
- Direct replacement for your stock Timing/Cam cover
- CNC machined from billet aluminum & polycarbonate
- Specialty coating does not allow oil and grease to adhere and a proprietary abrasion and UV resistant film to protect surface from yellowing, marring or breakage
- Minimum 5/16" clearance between exhaust & polycarbonate window
- Machined RSD Logo
- All mounting hardware included
- Gasket included
- Matching Clarity Air Cleaner and Derby Cover available
- * For aftermarket exhaust w/minimal headpipe/cam cover clearance we recommend FL touring application

 *Clarity Rocker Box Covers* **MADE IN THE USA**

This was probably the most difficult Clarity item to design. Engine clearance was a major issue as we wanted to ensure it worked with most engine internals and highlift cams, while still fitting the tight clearance of the stock HD frame. We accomplished all that while exposing the internals of the twin cam rocker box with a design that matches the rest of the Clarity line of products. Now you don't have to hide all those high-tech engine internals. The Clarity line also gives you a unique opportunity to customize the inside of your motor with watch like precision and detail.

Steel Line

At RSD we still believe in hand fabricated, made in the USA products. It's who we are and how we started, one piece at a time, where every detail counts. All of our stainless and raw steel parts utilize the highest quality material for a true handmade product that gives your machine a hand built feel without the bloody knuckles.

Tracker Front Pulley Guard

MADE IN THE USA

Replaces the stock pulley cover adding an exposed, race inspired look to the right side of your Sporty motor. Use with the RSD front pulley cover for a high performance look.

- Front (countershaft) sprocket cover for Sportsters
- Chrome & gloss black guard features brass badging
- Black Ops guard features satin black badging

 **Tracker Rear Fender Kit**

Clean and effective, the RSD Tracker Fender Kit greatly simplifies and lightens the back end of your Softail, in looks and weight. The RSD steel fender struts are first machined then bent to avoid the flat plate look and our rear fender is bobbed for a tight fit to your rear tire. Easy and simple installation takes the guessing out of how to bob your Softail.

- Direct bolt-on to HD Softails (Except Rocker)
- 3/8" thick 1018 Steel Struts
- 7" and 9" fender made from 1018 steel and available in raw finish only
- Rear fender and struts available separately
- Quality sheet metal work requires minimal preparation for paint
- * Requires fender supports to be cut off from stock chassis on 1990-2007 models
- * Seats available separately (see page 76)

Recommended Product Maintenance

CHROME

Wash with mild soap and water, use a healthy coat of Carnuba, apply often with a soft cloth.

BLACK ANODIZE

Wash with mild soap and water, no detergents or harsh chemical cleaners that can destroy the black anodized finish. You may use a non-abrasive wax with UV protectant on the black anodized portion of the product to protect it. Never use a harsh or abrasive wax as it will remove the black anodized finish. Avoid exposure to UV rays whenever possible.

CONTRAST CUT

See above for Black Anodized portion. For the milled area on standard Contrast Cut wash with mild soap and water, no detergents or harsh chemical cleaners. To remove stains on the milled area you may use the following methods depending upon the condition of the wheel.

- A mild MAG polish will remove mild stains from the milled area, but will make the milled area shiny as it contains some abrasives. CAUTION: Take extreme care not to use this on the Black Ano surface of any product as it will remove the black finish.
- Scotch bright can be used to remove more severe stains on the milled area. CAUTION: Measures should be taken up to and including masking to ensure that the Black Ano surface of any product is not damaged.

BLACK OPS/MACHINE OPS

Wash with mild soap and water. No detergents or harsh chemical cleaners should be used, as they can destroy the anodized finish. Wax and/or cleaners containing wax are not recommended as they may leave an uneven finish on the matte surface. Detail spray or WD40 also work well for “dry cleaning” or wipe-down. Due to semi-rough surface of the finish, we recommend using a micro-fiber or other lint free type of cloth so as not to leave behind any remnants of the cloth.

Apparel SP2016

We make every effort to find and develop some of the most unique materials available, combining protection, durability, comfort and style, and we hope you enjoy your RSD riding and lifestyle apparel as much as we enjoyed creating it.

BLACK

TIMBER

Zuma Men's Jacket

Rotated, pre-curved sleeves, stretch nylon panel sleeve inserts, a race hump, a dropped back and relaxed collar opening, the Zuma fits right in to the RSD family with its aggressive riding fit and features. Made with topgrain Buffalo leather the Zuma offers extensive protection, increased two-fold by the include foam back protector and SAS-TEC certified Level 2 shoulder and elbow armor.

BROWN

BLACK

Houston Men's Jacket

When what you're seeking is freedom and the unknown of the open road, you need a riding jacket that is up to the challenge. Made with British Millerian 10.5oz Waxed Cotton that is reinforced with a 100% waterproof barrier and taped seams. This unique distance-ready textile jacket offers ample storage space – from the waterproof chest cargo pockets to the inside pockets on both the outershell and removable thermal vest. Adjustable inner cuffs and side belts enable on-the-fly adjustments to match your every need.

ANTHRACITE/BLACK

Sentinel Men's Jacket

The Sentinel was designed with one singular concept in mind: versatility. You can wear it one of three ways: the inner liner if you're looking for that essential windbreaker on the bike; the outer layer, vents zipped open, for warmer conditions; or seamlessly pieced together for any conditions you might find yourself in. This innovatively developed design has a Cordura nylon shell with breathable waterproof barrier protection and DuPont Teflon DWR (durable water repellent). The added YKK water repellent pocket, vent zippers, and included SAS-TEC certified level 2 shoulder and elbow armor only add to the versatility and insight that went into this be-all jacket.

TAN

BLACK

Quinn Women's Jacket

The RSD Quinn jacket expresses all the allure of a fashion jacket, while offering the sophistication of a performance fit riding jacket. Power stretch back shoulder panels, rotated, pre-curved sleeves and quilted accents prove that you don't have to sacrifice style for comfort. The Quinn is armor ready, has zip close pockets and zip close side waist for the perfect fit.

INDIGO

Dalton Jean

It's easy to stitch some armor onto a pair of trousers and call it a riding pant. It's much more difficult to design and create a seamless integration of form and function. That's what we've done with the Dalton Jean. We took durable DuPont Kevlar and wove it into the very fabric of the Dalton, creating a more substantial Denim made specifically for riding. We also took care in triple-stitching the inseam and back rise and reinforcing the back pant cuff. Precision tailed with a modern, slim fit to provide the utmost comfort and flexibility.

WHISKEY

Mojave Boot

When it came to taking the next step in expanding our line of apparel, we did just that with classic RSD style. Step into our new Mojave boot. We have mingled RSD styling with a boot built for performance and protection. The Mojave boot features oil resistance, slip resistant Vibram® soles, a Hipora® waterproof barrier and reinforced toe box, heel cup and sides. These genuine cowhide boots also come with a comfortable RSD custom multi-density removable insole for added comfort. No detail was over-looked and we wouldn't be surprised if you ended up sleeping with your Mojave boots on.

Tees and Accessories
