JEEP® WRANGLER

ACCESSORIES, PERFORMANCE &
REPLACEMENT PARTS

WE MAKE JEEPS ROCK.

Rugged Ridge® is synonymous with quality Jeep® parts and accessories. As a brand from Omix-ADA®, an industry leader in Jeep restoration and replacement parts, Rugged Ridge is a household name among Jeep and off road enthusiasts. With over 3,000 products developed and manufactured to date, Rugged Ridge continues to add hundreds of new products each year to satisfy the off road enthusiast's desire to personalize their Jeep. Over the past ten years, Rugged Ridge has developed many unique and patented items that set us apart from other manufacturers in the market. Items like the Modular XHD bumpers, modular snorkel, X-Clamp, Hurricane fender flares are just some of these. Tested and proven by Rugged Ridge's engineering team and employees, you can trust that Rugged Ridge products are the perfect fit for your Jeep.

A FEW WORDS ABOUT PRODUCT SAFETY

The Omix-ADA®, Rugged Ridge® and Alloy USA® brand products illustrated in this catalog are generally intended to increase the utility and enjoyment of your off-road capable Jeep® or street rod. We hope this catalog will help acquaint you with our featured products as well as the broader offerings in each of our product families. Before installation, please take a moment to review the safety information and installation instructions accompanying your product. Safety information for particular products is summarized in this catalog but is not intended as a substitute for your review and understanding of actual product instructions and warnings! Important safety information is generally preceded by one of three signal words indicating the relative risk of injury. The signal words mean:

⚠️ WARNING

A hazardous situation which, if not avoided, could result in death or serious injury. **You can be killed or seriously hurt if you don't follow instructions.**

⚠️ CAUTION

A hazardous situation which, if not avoided, could result in minor or moderate injury. **You can be moderately hurt and also may suffer property damage if you don't follow instructions.**

⚠️ NOTICE

Careful attention is required to this instruction or operation but does not generally relate to personal injury. **Damage to your product or other property may result if you don't follow instructions in their entirety.**

We hope you enjoy your Omix-ADA®, Rugged Ridge® and Alloy USA® purchases and are here to help if you still have questions after reviewing this safety information and instructions. See Customer Service contacts included with your Limited Warranty.

PROP. 65 INFO FOR CALIFORNIA RESIDENTS:

Products in this catalog contain chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. Wash hands following handling and avoid contact with mouth.

⚠️ WARNING

California Prop. 65
Certain products in this catalog may contain chemicals known to the State of California to cause birth defects and other reproductive harm. For example PVC products may unavoidably be formulated with DEHP (a phthalate) known to the State of California to cause birth defects or other reproductive harm. To minimize risks of harm, follow all product instructions, do not store food directly on PVC covers or allow young children to chew or ingest PVC materials.

XHD ARMOR FENDERS

Rugged Ridge® JK XHD Armor Fenders represent some of the most extreme off-road styling that has ever been offered for the Wrangler JK. Rest assured that our engineers left any elements of subtlety on the cutting room floor when they developed these fenders. Aggressive lines and high wheel arches give your JK a whole new attitude that begs to be taken off-road. Sturdy all-steel construction with welded seams and a heavy textured black powder coat makes these fenders capable of absorbing abuse while delivering head-turning good looks. The front fenders are narrower than stock for greater clearance and feature stylized vents at the rear to aid in venting engine compartment heat. The rear fenders 2-piece design encloses the tail lights for the ultimate in protection. Rugged Ridge® XHD Armor Fenders are designed to work with factory components as well as the Rugged Ridge Spartan Grill, Hood Latches, XHD Modular Snorkel and even Rubicon Rock Rails. Installation uses the factory inner wheel liners or our Rugged Ridge® All-Terrain Wheel Liners (11620.50), with minor trimming required. Patent Pending.

XHD ARMOR CLADDING

When it comes to protecting your vulnerable rocker panels from off-road hazards, Rugged Ridge® XHD Armor Cladding has got you covered like no other. Robust 3 mm thick steel plate shields your JK's lower body panels from glancing blows with a sectional design that conforms tightly to the contoured surface for an extremely uniform fitment. A rugged black textured powder coat offers impressive looks and superior resistance to rust and corrosion, backed by the added assurance of our 5-Year Limited Warranty. XHD Armor Cladding secures to the body firmly with the supplied black button-head hardware for a clean, finished appearance (some drilling required) and is compatible with OE and aftermarket fender flares, as well as the perfect complement to Rugged Ridge Armor Fenders. (11615.01/11615.02), for a total appearance package capable of tackling any trail. Available for 2 and 4-door JK models.

XHD WHEEL, 17 X 8.5

These Euro-spec 17x8.5 hub-centric wheels are designed to exactly center the wheel over the hub. Providing the best fit possible and the proper clearance for brake rotors, steering components, and suspension. Better fit means no wheel vibration! A stainless steel button-head socket cap screws around the perimeter of the outer wheel face, giving it a great 3-piece look, and allowing you to accessorize with our optional trim ring. Each wheel includes a modular center cap. Rugged Ridge® wheels are certified to meet/exceed SAE J2530 standards for wheel strength and durability. Backspacing is 5.17 inch with a +10mm offset, load rating is 2200 lbs and bore diameter is 71.5mm. US Patent No. D761,183, 9, 242, 506.

ALUMINUM HOOD CATCH

Is your hood fluttering while driving? This could be a sign that it is time to replace your hood catch. The Rugged Ridge® Aluminum Hood Catches are built as a stronger direct replacement for the OE catches that degrade and fail after years of use. These hood catch kits are adjustable, durable and aesthetically pleasing. The adjustable tension rod guarantees a precise fit. Installation is a breeze for any do-it-yourselfer with basic hand tools; the catches are designed as a bolt-on solution using the same mounting points as the factory hardware. Includes black hardware. US Patent No. D692,290.

Aluminum Hood Catch w/ Black Hardware	Part #
07-17 Wrangler, Textured Black	11210.17

ELITE FAST TRACK WINDSHIELD LIGHT BAR

Rugged Ridge® designed the new Elite Fast Track Windshield Light Bar to be the most versatile component you'll likely ever bolt to your JK, allowing you to adapt your light bar configuration for your changing tastes or to better suit your needs. The Elite Fast Track Light Bars innovative design incorporates a revolutionary series of channels that run the length of the a-pillars and crossover section so that any variety or combination of lights, cameras, trail mirrors or accessories can be assembled and reconfigured in countless combinations. Constructed of high-quality 6061 T6 aluminum, the Elite Fast Track Windshield Light Bar is extremely lightweight but impressively strong, able to withstand the grueling conditions Jeeps are prone to endure. The light bar works with most LED light bars, regardless of length, curved or straight and incorporates an aerodynamic design and integrated end caps that alleviate airflow turbulence that often result in soft top buffeting and annoying whistling. A durable black textured powder coat finish gives great protections from the elements while sturdy steel brackets with Grade 8 mounting hardware insure years of dependable service that is backed by our 5-year limited warranty. Patent Pending.

ELITE PIVOTAL HEADLIGHT EURO GUARD

The Rugged Ridge® Elite Pivotal Headlight Euro Guard retains the classic off-road styling of the original headlight Euro Guard but benefits from being cast in solid aluminum for a lightweight, but seriously sturdy, option in headlight protection, on and off-road. Its special design allows for the unit to be rotated on the headlight for a variety of looks. The angry attitude of the Spartan Grille is amplified by the angled light guards allowing you to make your own unique automotive expression. Elite Pivotal Headlight Euro Guards are available in three finishes to suit any taste - a textured black, red or a rugged raw aluminum finish. Installs easily in minutes using factory hardware and replaces the factory headlight retaining ring. Patent Pending. (Sold in pairs)

Elite Pivotal Headlight Euro Guard	Part #
Textured Black	11230.13
Raw Aluminum	11230.14

C3 CARGO COVERS

Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep®. By protecting the carpet and plastic trim from damage, scratches, pet claws, dirt, and other debris, it'll stay looking pristine through all your daily tasks. A custom made and functional accessory for 2007-2017 Wranglers, this unique design also allows for a pet friendly space, ideal for your pet to rest during long off-road trips. Featuring water resistant material, the split fold feature allows for 40-60 rear seat lowering, and provides coverage with your rear seat up, partially or fully lowered - flexible and functional! A flip out cover flap keeps dirt from falling into the rear tailgate door gap. The built-in front curtain wall helps to keep items and pets from entering the front seat area. A unique side retention system insures the cover stays securely in place as you load or unload. Easy to install and remove so you get protection when and where you need it. Patent Pending.

C3 Cargo Cover	Part #
07-17 Wrangler, 4-Door w/out Sub*	13260.01
07-14 Wrangler, 2-Door w/ Subwoofer	13260.02

07-14 Wrangler, 2-Door w/ Subwoofer	13260.04

*Will fit 15-17 style subwoofers

C2 CANINE CURTAIN

Designed to work with the C3 Cargo Cover, the Cargo Curtain provides full top to bottom separation between the seats and the cargo area. Heavy duty ballistic weave construction is built to give you years of use while the innovative design allows for easy installation and removal. Comes with a handy storage bag to keep the curtain protected when not in use.

C2 Canine Curtain	Part #
07-17 Wrangler, Front	13260.05
07-17 Wrangler, Rear	13260.06

LED INTERIOR LIGHTING SYSTEM

The perfect complement to any Jeep® interior, Rugged Ridge® LED Interior Lighting System contains everything you need to bring your interior to life with dazzling light. Multi-color acrylic LED tubes illuminate both front and rear passenger foot-well areas, as well as the rear cargo area, for total vehicle coverage. Integrated connectors, mounting clips and a built-in splitter make for simple installation while the wired controller provides easy control of light functions and patterns with the push of a button. A built-in microphone with sensitivity adjustment lets the music control the light show for a unique visual experience.

LED Interior Lighting System	Part #
07-17 Wrangler	11250.09

LASER ETCHED ROCKER SWITCHES

Want to add a cool custom look to your rig’s interior? These laser-etched rocker switches are designed to control all of your electrical lights and accessories with a sharp-looking, laser-etched logo that identifies the light’s function: Rock Lights, Off-Road Lights, Light Bar, Sasquatch Lights and even Zombie Lights! Switches are rated for 20 amps with amber LED illumination when the switch is in the ON position. Installation is simple with a 3 terminal hook-up allowing them to be used in virtually any Jeep®, Truck, SUV or car.

Laser Etched Rocker Panel Switches	Part #
Rocker Switch, Zombie	17235.06
Rocker Switch, Rock Lights	17235.07
Rocker Switch, Sasquatch	17235.08
Rocker Switch, Off Road Lights	17235.09
Rocker Switch, Light Bar	17235.10

LOWER SWITCH PANEL

The Rugged Ridge® Lower Switch Panel allows for practical & convenient installation of electrical switches in 2011-2017 Jeep Wrangler models, regardless of transmission type (Manual or Automatic). This switch panel replaces the lower center dash panel with an injection-molded panel made of an impact-resistant thermoplastic, matching the color and grain of the factory dash for a finished look. Each panel allows for the addition of up to 5 rocker style switches (available separately) for a variety of fits. Switches are positioned for easy access and effortless operation in your JK, while maintaining the factory correct appearance. (Use 17235.84 for a complete kit with lower switch panel, 4 colored rocker switches and a dual USB switch)

Lower Switch Panel	Part #
11-17 Wrangler	17235.54

LED ROCK LIGHT KIT

Rugged Ridge® LED Rock Lights is a complete package to equip your Jeep® or off-road vehicle so that you can see and be seen when piloting the trails after dark. Designed with the off-roader in mind, the LED Rock Lights utilize waterproof aluminum LED housings for safe and reliable performance in all weather conditions. Each of the four white LED Rock Light circuits is fitted with weather-resistant connectors and combines using a sealed splitter for a clean installation and efficient operation. The kit includes four flat mounts and four curved mounts, allowing you to mount the LED's in a variety of locations depending on your application for greater versatility. Includes hardware and wiring instructions.

LED Rock Light Kit	Part #
Rock Lights	11232.39
Lights w/ Wiring Harness & Switch	11232.40

DUAL BEAM LED LIGHTS

15209.31

15209.30

No Jeep® or off-road vehicle is complete without a full array of off-road lights and no light is more efficient at lighting your path than an LED. Rugged Ridge® now offers an innovative LED light that provides that searing nighttime illumination accented by a functional and cool-looking running lamp allowing you to be seen without blinding other drivers. Each LED is constructed of a virtually indestructible black thermoplastic case that houses four bright white high-beam LEDs with a single center-mounted amber low-beam LED illuminating a unique "cross-hair" designed reflector giving you greater visibility in low light conditions. With a high-quality Fresnel optic lens and an IP-67 Waterproof rating, these LEDs are built to provide years of outstanding performance making them the perfect complement to your existing light package or as a standalone lighting option. Rugged Ridge® Combo LED Lights are available with Cube or Round housings to fit any application or suit any taste.

Dual Beam LED Lights	Part #
Square	15209.30
Round	15209.31

THIRD BRAKE LIGHT LED RING

If you have lifted your Jeep® or have a larger-than-stock spare wheel and tire on the back, chances are your high-mount third brake light has either been deleted or is no longer as visible as it once was, making it less than effective. Rugged Ridge® has the perfect solution to restore your Jeep to factory safety standards AND increase the cool factor at the same time! The Rugged Ridge® Third Brake Light LED Ring adds a surprisingly brilliant ring of torch-red LEDs behind your spare tire - guaranteed to grab the full attention of all who are near. Designed to work with various rim diameters from 15 to 20-inches on Jeep CJ / YJ / TJ and JK models having either a 5 on 4.5", 5 on 5", or 5 on 5.5" bolt pattern. Fitted with waterproof connectors, this Third Brake Light LED Ring is built to withstand the elements for consistent all-weather performance. Imagine a world where nobody can ever say "I didn't realize he was stopping".

Third Brake Light LED Ring	Part #
Jeep® Models w/ 15-20" Rim Diameter	11585.04

ECLIPSE CARGO BARRIER

The Eclipse Cargo Barrier is designed to allow open-top enjoyment while providing protection from harsh sunlight and wind for your rear seat passengers. Constructed of reinforced mesh with integrated bungee straps, this 3-piece barrier installs easily to your sport bar and tub rails in minutes for the utmost in convenience. The Eclipse Cargo Barrier also helps keep your 4-legged Jeeps contained safely inside for added peace of mind.

Eclipse Sun Shade - Rear Cargo	Part #
07-17 Wrangler, 4-Door	13579.42
07-17 Wrangler, 2-Door	13579.41

ECLIPSE TUBE DOOR COVERS

Rugged Ridge® Eclipse Tube Door Covers give JK owners the ability to enjoy the open air element of their Rugged Ridge tube doors while providing a higher level of containment for the passenger area and its contents. Nylon reinforced mesh construction offers a sturdy barrier that installs quickly and easily with the integrated bungee top and button retaining system. Highly functional and great-looking...you'll wonder how you ever did without them! Set includes front and rear pair.

13579.50

13579.51

TOTAL ECLIPSE SHADE

Rugged Ridge® Total Eclipse Shade revolutionary design offers superior protection from the intensity of the sun's rays without the need for a separate windshield header. The Total Eclipse Shade 1-piece design utilizes the same attaching method as our Eclipse Sunshade, securing to the windshield frame and sport bar with integrated bungee straps, so there is no cumbersome buckles or straps to lose, but provides a greater level of sun protection with durable Black Diamond soft top fabric. Installs in minutes and can be left in place with the top on or off. Includes a handy storage bag.

13579.45

Total Eclipse Shade, 07-17 Wrangler	Part #
Soft Top	13579.15
Hard Top	13579.45

13505.32

PARACORD GRAB HANDLES

Rugged Ridge® Paracord Grab Handles are constructed of durable 550 nylon parachute cord that is woven into a brawny "Double Cobra" style knot that feels substantial in your grasp. Each handle secures to two OR 3-inch diameter roll bars with heavy duty hook and loop straps for a firm and stable fitment. Your Jeep will love the attractive tactical styling, not to mention how much you'll love the assistance getting in and out of your rig! Paracord Grab Handles are available in a variety of color combinations, with one to suit any taste: Black on Black, Red on Black or Gray on Black. Sold in pairs.

Paracord Grab Handles	Part #
Black/Black	13505.30
Red/Black	13505.31
Gray/Black	13505.32

KINETIC ROPE

When it comes to preparing your rig for the next off-road adventure, don't forget to pack the essentials. Rugged Ridge® Kinetic Recovery Rope is easily one of the most effective products for successful vehicle recovery that you're likely to ever use. The defining difference is in the ropes elasticity, allowing it to stretch slightly, giving the pulling vehicle a growing momentum before transferring the pulling energy to the stuck vehicle for consistent pulls. Kinetic Rope allows for a smooth, gradual transition of load for convincing pulling power in even the most unstable terrain. Rugged Ridge Kinetic Ropes are 30 feet overall length to accommodate a wide array of recovery scenarios and come with a convenient and rugged cinch-style storage bag.

Kinetic Rope	Part #
Kinetic Rope, 30 ft, 7,500 lb. WLL	15104.05
Kinetic Rope w/ Cinch Bag	15104.30
Cinch Bag for Kinetic Rope	15104.21

ROPE D-SHACKLE

Bring your recovery gear into the 21st century with Rugged Ridge® Soft Rope Shackles. Constructed of an ultra-strong HMPE rope material, these shackles are considerably stronger than steel with a 18,000 lb. breaking strength and, unlike nylon, they actually repel water, resist abrasions and have very low elasticity making them the obvious choice for off-road recovery. Unlike rigid steel shackles, Rugged Ridge Soft Rope Shackles are always pliable so they can be manipulated easily in tight spaces, even wearing gloves, allowing for painless attachment to tow hooks or recovery points. When not in use, Soft Rope Shackles make a great Grab Handle; just store them conveniently around your roll bar at either door - you'll find yourself using them, even when you're NOT using them! Better yet, Rugged Ridge Soft Rope Shackles won't ever rust and resist abrasions. Rope D-Shackles work so well under rigorous conditions, they'll make an ideal addition to your off-road recovery gear (Includes a pair of shackles).

Rope D-Shackle	Part #
7/16 inch, Gray, 7500 lb. WLL	11235.50
5/16 inch, Gray, 4,650 lb. WLL	11235.51
5/16 inch, Gray, 4,650 lb. WLL, Pair	11235.53

UNIVERSAL WINCH HOOK HOLDER

The Rugged Ridge® Winch Hook Holder provides a safe and secure location to store your winch hook when not in use, saving your bumper from dents and scratches. Constructed of stamped stainless steel and finished with a durable black semi-gloss powder coat, the hook secures to both hawse or roller style fairleads and installs in minutes.

Winch Hook Holder	Part #
Universal Fit	15102.04

NAUTIC WINCHES

The Nautic Heavy Duty / Performance winches feature a durable 6.6 HP series wound motor for long life and impressive pulling power with an innovative X-braced gearbox housing and motor cap for increased strength. Solenoid, motor and gearbox achieve an IP68 rating so you can count on consistent performance regardless of the conditions. The tough 3-stage planetary gear box delivers power and reliability. Includes steel cable (Heavy Duty) or synthetic rope (Performance) and a powder-coated latch hook. Automatic load holding brake system (in the drum) provides exceptional control. Our Nautic Heavy Duty Series winches feature an exclusive light mount roller-style fairlead which allows for mounting up to two off-road lights for added safety and convenience, while the Nautic Performance Series winches include a durable aluminum Hawse-style fairlead. Tough, stainless hardware is used on the body of the winch to resist rust. Each Nautic Series winch includes a durable 12' all-weather cable remote controller and sturdy solenoid box that can be mounted in multiple positions and angles to accommodate various bumper configurations.

D-RING ISOLATORS

Put an end to the loud clanging and banging of your d-ring shackles for good AND look great doing it! Rugged Ridge® D-Ring Isolators are designed to isolate all portions of recovery shackles from contacting your bumper, virtually eliminating the obnoxious noise from your off-road rig. Molded of energy-absorbing polyurethane, these D-ring Isolators easily snap over the outer perimeter of your shackle providing complete protection from contact with nearby surfaces while the included urethane washers isolate between the shackle pin and the mounting tab for total coverage. Rugged Ridge® D-Ring Isolators are available for both 3/4 and 7/8-inch shackles and are molded in a variety of colors to suit your individual tastes or paint scheme: Black, Red, Green, Yellow and, yes, Pink. Patent Pending. (Sold in pairs- 2 isolators / 4 washers)

REFLEX ANTENNAS

The Rugged Ridge® Reflex Antenna implements a shorter antenna design and a flexible material in its construction, making it a practical antenna solution for your JK. The Reflex Antenna is so resilient that it just bends over to release anything that may become hung on it and then returns to an upright position. Fitted with the proper threaded adapter for the application makes the Reflex Antenna a breeze to install.

07-17 Wrangler	Part #

13-inch Antenna	17212.10
15-inch Antenna	17212.11
21-inch Antenna	17212.12

MESH RECOVERY GEAR KIT

When you are ready to hit the trails, make sure you are prepared for anything! When combined with a winch, Rugged Ridge's Premium Recovery Gear Kit has all of the necessities for effective vehicle recovery in one package, leaving you cool, confident and equipped for those times when things don't go as planned. Each kit contains a 30 foot 7/8" kinetic recovery rope, a pair of 7/16" soft rope shackles, 3" x 6 foot tree strap, a 20,000 lbs. snatch block pulley, high-visibility winch line dampener, a pair of rugged recovery gloves and a sturdy mesh recovery gear bag to keep it all together.

Mesh Recovery Gear Kit	Part #
Universal	15104.29

HOOD MOUNT OFF-ROAD JACK HOLDER

The only thing more important than having an off-road jack on your Jeep® is being able to access it when the need arises. That's why we designed the Rugged Ridge® Off-Road Jack Hood Mounting Brackets to store your jack in a safe, secure place that is accessible to you, regardless of your vehicles positioning. We developed these jack mounts to be lightweight but sturdy by building them from high-strength 6061 T6 aluminum and treated with a durable textured black powder-coat to keep them looking great for years of trail duty. Your off-road jack is kept safely contained with large thumb screws that can be easily removed and installed, even while wearing gloves. Rugged Ridge Off-Road Jack Hood Mounting Brackets look great as well with a skeleton style design and laser-etched logo. All mounting hardware and protective gaskets are included for a smooth trouble-free installation

Hood Mount Off Road Jack Holder	Part #
07-17 Wrangler, JK/JKU, Non-Locking	11586.04

RRC SIDE ARMOR

RRC Side Armor Guard Plates are the perfect addition for your RRC Side Armor (11504.20-.21) and Rocker Guards (11504.22-.23). Constructed of tough stamped steel with a sturdy black textured powder coat finish, the Side Armor Guard Plates give a solid platform to assist with vehicle entry that look great and are engineered to last. With stylish recessed vents and a cutout Rugged Ridge® logo (fronts only) these guard plates are as good looking as they are functional.

Stinger & Stinger Guard

XHD STINGER GUARD

The Rugged Ridge® XHD Stinger Guard is the ideal complement to the XHD Stinger (11540.13). Constructed of high-strength stamped steel, the guard is contoured to match the dimensions of the XHD Stinger, adding a muscular, off-road accent to the XHD bumper. Finished with a durable textured black powder coat, the Stinger Guard allows full use of the winch retaining hook when properly installed. Each Guard receives eight elongated relief cuts on the primary panel that allow for increased airflow while still protecting the radiator and grill from off-road hazards.

Stinger Guard	Part #
For Rugged Ridge® Stingers	11540.29

HOOD BRA

Protect your JK's hood from unsightly damage caused by bugs, rocks and road debris with Rugged Ridge Hood Bra. Our one-piece design bra is constructed of durable crush grain vinyl that defends against the hazards of everyday driving while the pillow-soft inner layer pampers your paint's finish, shielding it from scuffing and scratches. Since this Hood Bra is made specifically for the Wrangler JK, it won't interfere with factory or aftermarket hood catches and installs quickly & easily with an adjustable strap secured to the footman loop. Since when did protecting your paint look so great?

Hood Bra	Part #
07-17 Wrangler, Black	12112.01

ECLIPSE SUN SHADE

The Rugged Ridge® Eclipse Sun Shade gives the open air and top down feeling you want, while providing added protection from harsh sunlight. Featuring reinforced mesh construction, the half sun shade installs between the front portion of a JK sport bar and windshield to protect either front or rear passengers separately. The full-length sun shade is secured between the windshield and the rear crossbar of the JK sport bar to protect both front and rear passengers simultaneously. By using the mesh material with built-in elastic straps, this sun shade was designed from the start to eliminate the need for a header channel as with other similar products. An all-in-one package, this sun shade is simple to install and does not require any modifications. By retaining access to the Jeep® top clamps, drivers can keep the shade in place and preserve function of the factory top. The Eclipse Sun Shade installs with sewn-in bungee cords and a small mesh carrying bag for storage when not in use.

HARD TOP SOUND DEADENER/INSULATION

If you have a hard top on your 07-17 Wrangler, then you need Rugged Ridge's Hard Top Sound Deadener. This insulation is patterned for a custom-fit for Jeeps® factory multi-piece hard top for a trouble-free installation. Each insulation panel is constructed of a dense insulating material that is surrounded by heavy-duty pleated nylon, for an attractive interior complement, providing greater protection from the heat and cold while also keeping harsh road noise out and sounds from your audio system in. Durable hook and loop fasteners allow for an easy no-drill installation without the need to remove your hard top.

MESH SUMMER BRIEFS/ISLAND TOPPERS™

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge® Mesh Brief/Island Topper is designed for strength and durability while providing open air protection from the harsh sunlight. The Summer Brief that goes to the center hoop and the "Island Topper" goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel (13308.06) needed to install these tops!

BOWLESS TOP

Replace your worn out soft top just in time for the summer season with the Rugged Ridge® Bowless Top Systems. This distinctive, fully enclosed, design quickly converts from a full top to a Savannah top. The Bowless Top takes you from ceiling to sky in seconds and eliminates the need for the bulky OE soft top frame. Precise engineering allows for a secure and formed fit over the factory sports bar. Supplied “whisper bars” dramatically reduce wind and road noise commonly associated with other frameless soft top designs. These Bowless Soft Tops also feature useful zippered mesh corner pockets for extra and convenient storage. As an added bonus, the soft top design also allows you to use more affordable aftermarket windshield headers. (#13308.06 recommended.)

POCKET BRIEFS/ISLAND TOPPERS

The Pocket Brief and Island Topper from Rugged Ridge® are essential to the full-enjoyment of your Jeep®, allowing for a wonderful open-air experience while protecting riders from the sun’s harmful rays. Pocket Briefs offer coverage for both front seat passengers while Pocket Island Toppers cover both front and rear seat occupants. This revolutionary “pocket” design incorporates two mesh zippered compartments at the front corners giving you a convenient and secure place to store sunglasses, cellphones or any other personal items you don’t want to fall out during your adventures, on or off-road. Constructed of heavy-duty soft top fabric, in either Diamond Black or Diamond Khaki, these tops securely attach to your Jeep’s roll bar with built in nylon straps for a secure fit and a quick & easy installation.

EXO-TOP™

ROOF RACK AND SOFT TOP FOR THE PRICE OF JUST ONE!

The Exo-Top™ is an innovative new design that, for the first time ever, combines the joy of top-down driving with the utility of a roof rack. The Exo-Top takes convenience, function, and style to new levels by allowing Jeep® owners the ability of conveniently lowering, raising or removing the Jeep's soft top without having to unload gear from the roof-rack. By combining the soft top and roof rack, the Exo-Top™ allows owners to experience a Jeep® to its full potential for camping, off-roading, or any lifestyle hobby they may have. This new top also features an innovative Sun Slider® retractable function which allows the top to slide back with the release of just two latches, creating an open-top experience for owners without the hassle of getting out of the driver's seat. Integrated into the 300-lb. capacity roof rack is an advanced externally suspended soft-top design that fastens using a series of hook and loop fastener straps along the perimeter bars of the roof rack. The pulling force applied by the hook and loop fastener helps to tighten and shape the soft top. Offered for both the two- and four-door configurations, the Exo-Top™ features a patent-pending design that is a direct bolt-on application with no drilling required for installation. US Patent No. 9,376,002;D748,038

Rugged Ridge Exo-Top™	Part #
07-17 Wrangler, 4-Door	13516.02
07-17 Wrangler, 2-Door	13516.01

Note: for 07-08 models with a plastic header it is recommended to upgrade to #13516.10 for best results

SHERPA JK ROOF RACK SYSTEM

The Sherpa Roof Rack System by Rugged Ridge® is an easy bolt-on solution for two and four-door Wranglers that requires no modifications to the body of your Jeep®. The unique tilt feature allows you to access your soft top with ease, and the hard top or freedom panels can be removed without removing the rack system. The Sherpa Roof Rack has a 300 pound static weight rating and, as an added bonus, the forward mounting bar acts as an integrated light bar. The Roof Rack System accepts the Rugged Ridge drop down light bracket (#11232.22) to mount up to four lights.

Designed to allow removal of hard top without moving the roof rack.

Unique roof rack tilt function allows you to easily put your soft top back.

WINDOW STORAGE ROLL BAG

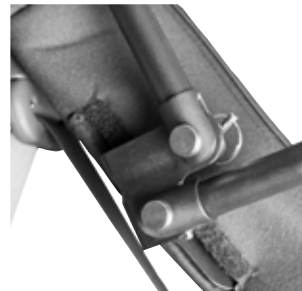

Protect your soft top windows from scratching and other damage with a Window Storage Roll Bag from Rugged Ridge®.

This easy to use storage bag stores your rear windows using a soft internal material and a heavy duty exterior fabric for the ultimate in protection. The internal fabric is placed between the windows to prevent scratching and window on window contact. Simply place the windows in between the fabric and gently roll the windows into an easy to store "window roll". The rolled up bag can now be easily installed to the rear of your sport bar with attached nylon straps and buckles.

Window Storage Sport Bar Bag	Part #

TIRE COVERS

Rugged Ridge® Tire Covers are custom designed to fit today's most popular sized tires. Constructed of durable vinyl coated polyester fabric. Colors match other Rugged Ridge soft accessories. Please measure tire diameter.

Tire Diameter	Black	Gray	Denim Black	Diamond Black
27-29"	12801.01	12801.09	12801.15	12801.35
30-32"	12802.01	12802.09	12802.15	12802.35
33"	-	12803.09	12803.15	12803.35
35-36"	-	12804.09	12804.15	12804.35

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above

TUBE DOORS

Rugged Ridge® Tube Doors are constructed from durable 1.5 inch mandrel bent steel tube that is E-coated primed and powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

- Thicker than most tube doors with durable 1.5" diameter steel tubing construction
- E-coated & textured powder coated for corrosion resistance
- Designed to work with original mirror or Rugged Ridge replacement mirrors.
- Easy to install and remove
- Durable and lockable paddle handle
- Full frame rattle free design

DOOR LATCH SET

Door latches are included with half doors and tube doors, but are available separately for custom applications.

Door Latches, 07-17 Wrangler	Part #
Half & Tube Doors, Pair	11812.80

HALF DOORS

Rugged Ridge® Half Doors help keep the elements out while maintaining that open air experience. Our Half Doors are constructed of paintable, impact resistant, thermoplastic outer door skins mounted to rigid powder coated internal steel door frames. They feature lockable door handles, an internal storage pouch, waterproof seals, OE style hinges, and mirror mounts. Easily interchangeable with the factory steel doors and require no body modification for installation. Also available with optional upper soft doors.

- Impact resistant thermoplastic black ABS material with enhanced UV protection.
- Matte finish is easily paintable to match your Jeep®
- Specially reinforced internal steel frame provides strength and is powder coated to resist corrosion
- The textured inner ABS panels provide a finished look and feature a grab handle and storage pocket
- Each door has a weather tight seal to keep out moisture and reduce wind noise
- OE Style Hinges provide a factory look
- Durable and lockable paddle handle
- Matching soft upper doors available for all season protection from the weather
- Designed to work with OE mirrors or Rugged Ridge replacement mirrors

WARNING This product is intended to provide added off-road convenience and utility to your vehicle. This product is not intended to provide occupant containment or protection in the event of an accident or roll-over. Further, on road use may involve increased risk of serious injury in the event of side-impact accidents. **TO REDUCE RISK FROM THESE TYPE OF INJURIES:** • Always wear seat belt and shoulder harness for all vehicle occupants. • Keep arms and body inside vehicle. • Drive safely, read and understand all manufacturers warnings and product instructions before installation.

MIRROR RELOCATION BRACKETS & DOOR FILLER PLATES

Custom designed brackets bolt into existing holes on the windshield relocating your mirrors off the door. The perfect add-on accessory for those off-road adventures where you do not want your doors. Each bracket kit for the 2007-17 Wrangler comes with a special paintable filler plate to cover up the hole created when you remove your mirrors. Sold in pairs.

Mirror Relocation Brackets	Black	Stainless	Tex. Black

Fits 2011-2017 Wrangler models equipped with manual mirrors. Will not work with power mirrors.

QUICK RELEASE MIRROR RELOCATION

Love taking your doors off, but hate the hassle of swapping out your mirrors? Have mirror relocation brackets, but dislike the limited visibility they offer with doors on? The Rugged Ridge® Quick Release Mirror Relocation Kit is the perfect solution for your Wrangler. The mirrors mount to a bolt-on bracket and are secured with a locking knob that allows for easy installation and removal. The long adjustable arms give you great visibility with your doors on or off. Available in durable black powder coat, textured black powder coat and stainless steel finish.

+ Recessed valve stem pockets for advanced protection on trails

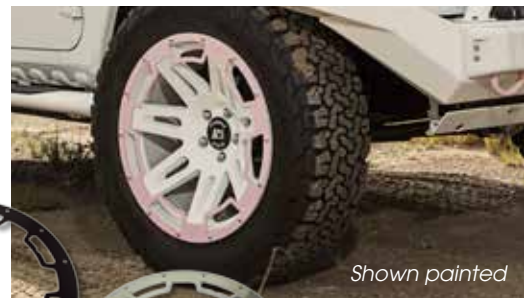

JESSE SPADE HUB-CENTRIC WHEELS

Jesse Spade, a skilled fabricator and designer from Atlanta with a heritage in the off-road and hot-rod industry, engineered this wheel for Rugged Ridge®. The new Jesse Spade Wheel from Rugged Ridge is offered in two finishes of satin black and satin gun metal. Offering the best styling and fit possible this 17x9 inch hub-centric wheel features a 5x5 inch bolt pattern, -12 mm offset, 4.53 inch backspacing, and 71.5 mm center bore. This wheel also features exclusive valve stem pockets which protect the valve stem from potential off-road damage. The Jesse Spade Wheel was built to deliver the handling that your rides performance requires while offering the best design and quality possible.

XHD ALUMINUM HUB-CENTRIC WHEELS

Rugged Ridge® is proud to offer the toughest design in custom wheels for 07-17 Wranglers. This hub-centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. A better fit with no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face giving a great 3-piece look. You can also accessorize with our Rim Protector.

Available in five finishes: satin black powder coat, satin black powder coat with machined lip, silver powder coat, polished chrome, and gunmetal. The durable powder coat gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine.

Rugged Ridge wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Backspacing is 4.53 inch with a -12mm offset. Limited lifetime structural warranty and one year finish warranty (see warranty information for details and limitations). US Patent No. D761,183,9,242,506

New modular center cap design for the XHD wheels allows for multiple looks - full center cap or low profile. Patent Pending.

WARNING

Improper wheel/spacer installation and torquing may degrade handling and result in wheel separating from vehicle.

TO REDUCE RISK OF INJURY OR DAMAGE ALWAYS:

- Torque lugs using vehicle manufacturer's recommendations & sequence, assuring clean threads, wheel cold and compatibility of lugs nuts to wheel surface.
- Inspect & re-torque lugs after 50 miles (80 Km.) of installation or wheel service.

DRAKON ALLOY HUB-CENTRIC WHEELS

Bring the look of your Jeep® to a whole new level with our Drakon Alloy Wheels from Rugged Ridge®! These hub-centric wheels offer a sleek design created to appeal to 07-17 Jeep Wrangler owners. Rugged Ridge designed and built this wheel from cast aluminum alloy and made it available in two stunning finishes to create a unique appearance; satin black and gunmetal. Designed to appeal to even the most hardcore Jeep enthusiasts, the DOT-approved Drakon Alloy Wheels offer the best fit and style possible, featuring 4.53-inch backsparing, -12mm offset and a 2200-pound load rating on the JK's 5-on-5 inch bolt pattern as well as a center cap for a complete look. These wheels feature a hub-centric design, meaning this wheel will center perfectly every time. Limited lifetime structural warranty and one year finish warranty (see warranty information for details and limitations). US Patent No. D701,156.

STEEL WHEELS

TRAIL RUNNER HUB-CENTRIC CLASSIC WHEELS

An upgrade from ordinary steel wheels, the hub-centric design features five retro-style kidney shaped holes and a sleek gloss black finish, tough enough to withstand trail duty. The hub-centric design ensures the wheel is precisely centered upon installation, minimizing stress on wheel studs and eliminating the added road vibration common with non-hub-centric designs. It features a 4.5-inch backspacing, and a 0mm offset. Available with or without a molded ABS center cap, offering Jeep® owners two different looks with the same wheel.

HEAVY DUTY TIRE SPACER

This Rugged Ridge® Heavy Duty Tire Spacer bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Features 5x4.5-inch and 5x5-inch wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-17 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50 inch or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier or the Spartacus HD Tire Carrier.

HD Tire Carrier & Spacer	Part #
07-17 Wrangler, Textured Black, Each	11585.02

CAUTION:

The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes.

PRE-FILTER

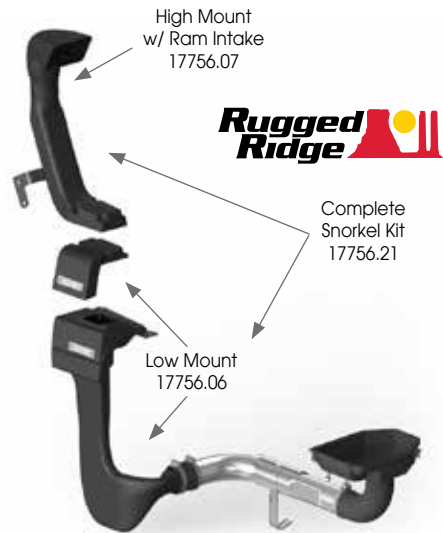

XHD MODULAR SNORKEL

The Rugged Ridge® Modular XHD Snorkel System is easily the most versatile snorkel system on the market today for Jeep Wrangler JK models. Designed to protect your vehicle from accidental water ingestion while crossing rivers and streams, the XHD Modular Snorkel innovative design gives the user the ability to adapt the snorkel to changing conditions to suit their needs, in just minutes. No other snorkel gives you this kind of functionality and versatility in one package. In its basic configuration (17756.06), the snorkel is fitted with a low mount air intake that is positioned on the cowl at the base of the windshield, slightly higher than the factory airbox position. The installation of the optional High Mount Ram Intake (17756.07) provides an additional 21 inches of increased elevation, moving the air intake to the top of the windshield allowing you to navigate water crossings with confidence. For extremely dusty conditions, an optional Pre-Filter (17756.09) can be mounted onto the High Mount Ram Intake for added protection from dirt and contaminants entering your engine's intake. Of course, kits are available that include the high mount ram intake and pre-filter with the base system, as well, or the options can be added on later, if desired.

The XHD Modular Snorkel System is manufactured from high quality materials with sturdy premium molded thermoplastics, mandrel-bent aluminum intake tubes and hi-temp silicone couplings for a water-tight system that gives long-lasting performance. The main snorkel body features a built-in manual drain valve to release any moisture that might enter the snorkel intake opening. The entire system installs with only minor modification to the JK fender and does not require any cutting to the exterior sheet metal like other snorkel systems. In fact, we even include a bracket so that you can reinstall the factory cowl panel allowing you to transfer the snorkel system to your new Jeep JK when it comes time to trade-up. Patent D687,071 / D687,072

STAINLESS STEEL AXLE-BACK EXHAUST SYSTEM

Open up your Jeep®'s exhaust with this great looking & long lasting dual exhaust system. The 2 1/4-inch mandrel bent pipes give hot exhaust gases a smooth exit without the restrictions found in crush-bent pipes. The additional exhaust flow will increase the horsepower and torque of your 3.8L or 3.6L engine. This is a bolt-on system that installs after the catalytic converter to keep your Jeep's emissions legal. The dual split exits feature slash cut and rounded tips. Each kit includes all necessary mounting hardware for an easy bolt on installation.

Stainless Steel Axle-Back Exhaust System	Part #
07-17 Wrangler 2-Door & 4-Door, Polished, Kit	17606.75
07-17 Wrangler 2-Door & 4-Door, Black, Kit	17606.77

JK HEAVY DUTY OFF-ROAD MUFFLER

Designed to deliver a more aggressive tone than the stock muffler, the off-road muffler produces a deep tone throughout the RPM range. It is designed to sit as high as possible for extreme off-road ground clearance. The exhaust routing is designed to be protected by the Jeep's frame to reduce trail damage. Stainless steel and aluminized steel construction with black hi-temp coating insures extended durability.

Heavy Duty Off-Road Muffler	Part #
07-17 Wrangler 2-Door & 4-Door, Kit	17606.70

EXHAUST SPACER KIT

Jeep® moved the exhaust forward on the 12-17 Wrangler. Unfortunately, on Jeeps with 2.5-inch or more of lift that means their front driveshaft is liable to make contact with the exhaust Y-pipe melting the CV boot and causing the driveshaft to fail prematurely. The Rugged Ridge® Exhaust Spacer Kit for 3.6L Wranglers helps move the Y-pipe further back and increases the amount of front suspension travel from 2.5 to over 5.5-inch, thus saving your driveshaft. The spacers install on the flanges between the exhaust manifolds and Y-pipe. The great thing is the kit is easy to install and does not require permanent modification to the exhaust. Hardware included. Backed by Rugged Ridge's exclusive five-year limited warranty.

Exhaust Spacer Kit	Part #
12-17 Wrangler (w/ 2.5-Inch + Lift)	17606.76

COLD AIR INTAKES

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Our dry filter design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs of torque.

PERFORMANCE VENTED HOOD

Inspired by Chrysler's aggressive SRT® designs, Rugged Ridge's Performance Vented Hood was engineered to provide 50 percent more ventilating surface area over similar designs, helping heat quickly escape from the engine compartment to maximize engine efficiency. Made from high quality stamped steel, the Performance Vented Hood uses a factory style inner core assuring it fits like the OE hood. In addition to fitting like a factory piece, Rugged Ridge® ships each of the hoods standard with a rust preventative E-coat that's ready to be painted. Uses factory attachment points and most aftermarket accessories will simply bolt into place. Got heat? You need this hood! US Patent No. D718,682

Performance Vented Hood	17759.01
Performance Vented Hood Kit*	17759.02

*Kit includes hood and (2) inserts (17759.09)

PERFORMANCE VENTED HOOD INSERT

These Rugged Ridge® Performance Vented Hood Inserts are the perfect add on accessory, offering an aggressive OE style for your vented hood. Injection molded for a precise fit, these inserts promote proper air flow into your engine compartment and mount to the Performance Vented Hood (17759.01) or JK OE hood.

Performance Vented Hood Insert	Part #
07-17 Wrangler, pair	17759.09

SPARTAN GRILLE

The Rugged Ridge® Spartan Grille was designed to appeal to the Jeep® enthusiast who refuses to blend in with the crowd. With its aggressive angled headlight recesses and monstrous mesh insert, the Spartan Grille delivers unmistakable off-road styling while promoting greater airflow through the radiator for better overall performance. A variety of interchangeable inserts are available to suit any taste while the Spartan Grille can be left flat black or easily painted to match any color scheme allowing for countless automotive expressions. The Spartan Grille is compatible with factory headlights, as well as most aftermarket lights (with minor trimming required). US Patent D749,995

XHD ARMOR FENDERS

Rugged Ridge® JK XHD Armor Fenders represent some of the most extreme off-road styling that has ever been offered for the Wrangler JK. Rest assured that our engineers left any elements of subtlety on the cutting room floor when they developed these fenders. Aggressive lines and high wheel arches give your JK a whole new attitude that begs to be taken off-road. Sturdy all-steel construction with welded seams and a heavy textured black powder coat makes these fenders capable of absorbing abuse while delivering head-turning good looks. The front fenders are narrower than stock for greater clearance and feature stylized vents at the rear to aid in venting engine compartment heat. The rear fenders 2-piece design encloses the tail lights for the ultimate in protection. Rugged Ridge® XHD Armor Fenders are designed to work with factory components as well as the Rugged Ridge Spartan Grill, Hood Latches, XHD Modular Snorkel and even Rubicon Rock Rails. Installation uses the factory inner wheel liners or our Rugged Ridge® All-Terrain Wheel Liners (11620.50), with minor trimming required. Patent Pending.

HOOD VENT INSERT

The new JK Hood Louvers from Rugged Ridge® mount to the factory JK hood and are designed to provide more ventilation surface area to assist with reducing heat build-up in the engine compartment. Our hood vent insert promotes proper airflow through and out of the engine compartment, while adding style and design to your JK. Can be painted to match exterior paint.

HURRICANE FLAT FENDER FLARES

Jeep® enthusiasts can now get that aggressive off-road look with the newly designed Hurricane Flat Fender Flares by Rugged Ridge®. This design was inspired by the 1941 Willys MA. The double bolt pockets provide a new modern twist to classic flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black). Constructed of durable injection molded thermoplastic material, the flares rest high on the vehicle providing 2-inches of extra vertical clearance with an additional 1 inch of extra width for oversized wheels while on trails. Backed by an industry leading 5 year limited warranty, the Hurricane Flat Fender Flares will really set your JK apart from the crowd! Patent No. D712, 324

* EU Models come with E-Marked side markers

ALL TERRAIN FLAT FENDER FLARES

Now, with the All-Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting flares are out-of-the-box ready to turn your street Jeep® into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, with the necessary ground clearance for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory flares, yet still maintain proper tire coverage. Constructed of a flexible UV treated high impact thermoplastic and easy to install by attaching to the mounting points with no drilling. The kit also includes mounting brackets that allow you to relocate and use the existing factory side marker lights.

2 and 4-Door, Flat Fender Flare Kit, 4 Pcs.	11620.10
Flat Fender Flare & Liner Kit, 8 Pcs.	11620.11

FLARE WHEEL LINER KIT

Designed for use in combination with the Rugged Ridge All Terrain Flat Flares (11620.10), these wheel well liners help keep mud and debris out of the engine compartment and provide a clean finished look. Constructed from durable HDPE, the wheel liners replace the factory wheel well liners that must be removed when running aftermarket flares. Simple bolt in installation, no cutting or drilling required. Kit four wheel well liners and mounting hardware.

KEEPING THE JEEP® LEGEND ALIVE

Omix-ADA®, Rugged Ridge® and Alloy USA® are dedicated to preserving the Jeep® history. Over the past years great efforts were placed in finding Jeeps that were and are significant to either the Jeep brand or the off-road hobby.

The growing collection of over 30 Jeeps provides access to vehicles for continued product development, which is one of the driving factors for the growth of the Omix-ADA brand.

With the collection spanning from 1940 through today, it is a constant reminder of where we have been and where we are going.

ELITE FUEL DOOR

The Rugged Ridge® Elite Series Fuel Door for '07-'17 Wrangler combines rugged styling, refined details and smooth mechanical operation into a fuel door that truly makes a lasting impression. Not just a cover for the factory JK fuel filler housing, the Rugged Ridge Elite Fuel Door cover replaces it with a sturdy cast aluminum housing fitted with a smooth-operating internal hinge and a positive retention latch that you press to open/close. A fuel-resistant satin black textured finish and easy, no-drill installation will surely make you one of the ELITE. Patent Pending.

Elite Fuel Door	Part #

REFLEX ANTENNAS

The Rugged Ridge Reflex Antenna implements a shorter antenna design and a flexible material in its construction, making it a practical antenna solution for your JK. The Reflex Antenna is so resilient that it just bends over to release anything that may become hung on it and then returns to an upright position. Fitted with the proper threaded adapter for the application makes the Reflex Antenna a breeze to install.

ALUMINUM HOOD CATCHES

The Rugged Ridge® line of Aluminum Hood Catches was designed as a stronger, more functional and durable alternative to the factory rubber hood catches- not to mention, they look great too! Engineered with an adjustable tension rod for a precise fit, these latches provide a noticeable improvement in hood rigidity when in the closed position eliminating the hood flutter often experienced with rubber latches. Available in Black, Black Textured or Silver powder coat finishes- there's a set to match any taste. Installation is a breeze with basic hand tools making Rugged Ridge Aluminum Hood Catches one of the best upgrades we could recommend for ANY Jeep. US Patent D692,290

OMIX-ADA STEWARDSHIP

At Omix-ADA, our passion for Jeeps, and the sense of adventure that they inspire, is much more than just a hobby to us; it's a way of life. As a company, we hold a strong commitment to help insure that future generations enjoy a brighter tomorrow. By assuming a personal responsibility in several key areas, we strive to influence a positive change that promotes a healthier way of life, assists in the preserving of public land and recreational trails, educates on the ethics of responsible stewardship of the outdoors, and supports the off-road community and their interests.

At Omix-ADA, our passion for Jeeps, and the sense of adventure that they inspire, is much more than just a hobby to us; it's a way of life.

CHARITABLE DONATIONS

As a part of our commitment to a healthier tomorrow, Omix-ADA has organized, sponsored and participated in numerous fundraising events and projects over the past two decades, donating the proceeds to various charitable organizations like The Breast Cancer Research Foundation, American Diabetes Association, SEMA Cares, Children's Healthcare of Atlanta, and The Boy Scouts of America.

OMIX, RICHARD PETTY & SEMA CARES

In 2016, Omix-ADA partnered with legendary NASCAR driver and car owner Richard Petty to build a one-of-a-kind Jeep Wrangler JK to be unveiled at the SEMA 2016 Show in Las Vegas. The build was performed in cooperation with SEMA Cares, an organization comprised of members of the SEMA community and whose focus is on making a difference in the lives of others. With the finished product slated to be auctioned off in early 2017, all the proceeds from the auction tapped to benefit the Victory Junction Gang Camp in Randleman, NC, a camp whose primary purpose is to serve the needs of terminally ill children and inspired by Petty's grandson, Adam, who was tragically lost in a racing accident in 2000.

It is an honor to continue building a partnership with SEMA Cares. With their support, we are able to fulfill our mission to serve children with serious medical conditions. Since 2004, donations have totaled more than and we are grateful for the generosity of those within the industry that give back!

-Chad Coltrane, Victory Junction, CE

SHOW AND CLUB SUPPORT

Each year we lend support to hundreds of Jeep shows and club events across the country, varying in size from 50 Jeeps to over 2,000; providing show materials, products and necessities for organizing a successful event. It's our way of taking part in events that further advance the Jeep hobby that we love and the lifestyle that surrounds it.

**Rugged
Ridge**

TRAIL ACCESS
Program

The Omix-ADA / Rugged Ridge Trail Access Program, first announced in 2013, was created to support the 4WD community by providing direct support to the people and organizations working hard to protect access to public land and recreational trails across the country; improving education about the off-road hobby and matters of conservation, so our open spaces remain open for generations of off-roaders to enjoy for years to come. Since its inception, the Trail Access Program has awarded grants equaling over to date and have gone far in helping numerous organizations such as the Blue Ribbon Coalition, Friends of Uwharrie and the Colorado OHV Coalition- just to name a few. Best of all, our efforts are ongoing. Non-profit organizations can apply for online grants of up to that can be designated for use toward education, stewardship, litigation, or any other activity advocating the conservation of public land or access to recreation trails.

The amount of money raised with the 2014 and 2015 SEMA Cares Jeep® builds benefiting both Child Help & Victory Junction Camp charities.

SEMA CARES 2014 JEEP WRANGLER

The 2014 SEMA Show in Las Vegas in November 2014 was the backdrop for an unprecedented Jeep build that serves as a model for the years to follow. The project saw collaboration between **SEMA Cares** and Omix-ADA® / Rugged Ridge®, and was successfully executed in conjunction with the Alex Xydias Center for Automotive Arts, a program designed to assist young people with the skills necessary to develop a career in the automotive industry. With an eager team of students from the school manning the SEMA Garage facilities in Diamond Bar, Calif., a stock four door 2015 Jeep Wrangler in basic white was magically transformed into a one-of-a-kind off-road masterpiece, thanks to a host of aftermarket goodies from Rugged Ridge.

Upon completion, the SEMA Cares Jeep was presented for auction in Scottsdale, AZ at the preeminent Barret Jackson Auctions, with proceeds appointed to benefit two worthy charities- **Child Help**, a charity aiding victims of child abuse and the **Victory Junction Camp**, a facility whose goal is to provide a unique and rewarding camping experience for children with serious medical conditions. The Jeep was extremely well-received at auction, reflected in its healthy selling price and established a high water mark for years to come.

The automotive industry is passion-driven and is filled with people and companies that are constantly giving back. Its especially inspiring to see companies such as OMIX-Ada demonstrate such immense generosity. Omix-Ada has been a strong supporter of SEMA Cares, and has been a valued partner for several years. They have aided thousands of children at organizations' including Victory Junction and Childhelp. Their annual donation of purchasing a jeep and completely outfitting it with quality OMIX-Ada products has been an inspiration to us all and we are truly amazed by their eagerness to help these great SEMA causes.

-Mike Spagnola, SEMA Garage, Vice President, OE Relations & Product Development Center

SEMA CARES 2015 JEEP WRANGLER

Building on the swell of enthusiasm that surrounded the prior year's **SEMA Cares** Jeep build, Omix-ADA®/Rugged Ridge® partnered with LFTD & LVL D Magazine and SEMA Cares in coordinating yet another charity build for the 2015 SEMA Show in Las Vegas. Acquiring the design talents of UFC 'Queen of the Octagon' and renowned model Arianny Celeste to develop the styling concept while assigning the wrench-turning duties to the master builders at DUB Garage, the factory-fresh 2015 Jeep Wrangler JKU was outfitted from head-to-toe with a gang of interior and exterior accessories, many of which were brand new to the market.

"We're proud to partner once again with **SEMA Cares**," said Henk Van Dongen, Director of Marketing at Omix-ADA, "SEMA Cares does so much to help ensure the continued success and growth of our industry by actively engaging the future generation of enthusiast and industry professionals. We couldn't be happier to support this committee that gives back, not only to the industry, but also to the community."

The Arianny Celeste Signature 2015 Jeep Wrangler JKU was brought to Scottsdale, AZ and placed up for auction in January, 2016, where it fetched a respectable, resulting in a much needed charitable contribution to the continuing efforts made by **Child Help**, on behalf of countless victims of child abuse across our country.

SEMA CARES 2016 JEEP WRANGLER

The "third time's the charm" could easily have been the slogan that signifies the third time that **SEMA Cares** and Omix-ADA® have joined in their efforts to increase awareness while raising resources for a worthy cause. Joining forces with NASCAR racing's legendary driver and car owner Richard Petty and his Level Cross, NC based Petty's Garage, plans to build the definitive off-road powerhouse were devised. The finished product, serving as a testament to what can be accomplished when two come together to work as one, would be featured in the Off Road Success Center during the automotive aftermarket's premier event, the 2016 SEMA Show in Las Vegas. What started out as an ordinary 2016 Jeep Wrangler JK, was entirely re-imagined by the design staff at Petty's Garage, adding a full lineup of styling and performance parts from Rugged Ridge including front & rear bumpers, an off-road winch, Spartan Grille, XHD wheels, tube doors, performance vented hood, Fast Track Light Bar and much more.

This Hydro Blue 2016 Jeep Wrangler will be featured as Lot# S88 at the Mecum Auctions in Houston, TX on April 8, 2017. Crossing the auction block and turning heads in the process, the **SEMA Cares / Petty's Garage** Jeep Wrangler JK will be offered up for auction, without reserve, with the entire proceeds from the auction being donated to the **Victory Junction Gang Camp** in Randleman, NC, a camp whose primary goal is to serve the needs of critically ill children.

As we look towards the future, we are enthusiastic, as a company, about the partnerships we have been able to forge within our industry and the positive influence that our combined efforts have made on the communities in which we live. With a renewed sense of purpose, we set our sights on tomorrow and the prospects of having opportunity to, once again, make our mark.

SHOW & CLUB SUPPORT

THE INAUGURAL 2016 OMIX-ADA JEEP HERITAGE EXPO

On July 16, 2016, Omix-ADA® observed the 75th Anniversary of the legendary Jeep in the best way we know how. We gathered hundreds of Jeep enthusiasts at our Suwanee, Ga. Headquarters for a day long celebration of everything Jeep. For the first time ever, the corporate Jeep Collection was made available to the public, allowing an up-close look into the history of this iconic American hero; with many models of Jeeps you won't see anywhere else, all gathered in one place. The event featured a fun zone for kids, a gathering of the regions top food trucks and a giant show & shine area for Jeeps from 1941 to present. All of the events entry fees totaling were donated, in their entirety, to the **American Diabetes Association**, a charity that is near and dear to heart of company president Al Azadi, as well as many of the company's employees.

Was raised through event entry fees from the 2016 Jeep Heritage Expo and donated to the American Diabetes Association.

There were many reasons to start the Jeep® collection. Two were very important to me personally, one preserving the Jeep® heritage, and second to have access to vehicles for continued product development.

-Al Azadi, Owner, Omix-ADA

OMIX-ADA JEEP COLLECTION

After years of productively selling parts and accessories to the Jeep hobby through a dedicated network of distributors, Azadi realized that there was a need to preserve the Jeep legend. “There were many reasons to start the Jeep collection”, said Azadi. “Two were very important to me personally, one preserving the Jeep heritage, and second to have access to vehicles for continued product development.”

While preserving the Jeep heritage seems reasonable, many times trying to find original or near original vehicles is a time consuming task. Luckily, a breakthrough came when Azadi found a unique selection of historical vehicles available from Mark Smith, the founder of Jeep Jamboree USA. It was there that Azadi found the three early prototypes all in one location—a rare occurrence.

After purchasing the initial vehicles it was only a matter of time before the collection grew. From the beginning, a great deal of importance was placed on obtaining a number of Jeeps that were significant for either the Jeep brand or the off-road hobby.

Having access to vehicles for continued product development was the second driving force to bring the collection together.

Since Omix-ADA, the Jeep parts and accessories manufacturing company that Azadi founded and currently owns, develops products for Jeeps from 1941 through current model years, having these models onsite inspires the Omix-team to develop more and more products.

For the newer models this was always easier as those were easily accessible from the dealers, but developing a replacement part for a 1956 CJ5 was a different challenge. As the collection continues to grow, the engineering team at Omix-ADA will have plenty of opportunities to continuously develop more products for both classic and new Jeep vehicles.

THE ONLY FLOOR LINER WITH PATENTED "DEEP TREAD" TECHNOLOGY™!

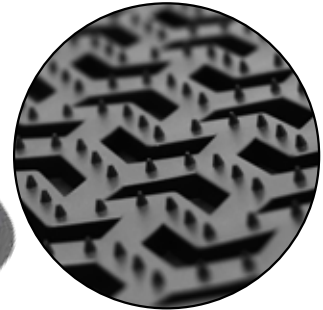

Floor Liners Designed with Safety in Mind

- Perfectly contoured to your vehicle's floor for precise, secure fit & protection
- Nibbed bottoms and floor hook keeps liners safely in place
- Exclusive self sealing floor hook attachment keeps moisture out while securing the liner (where applicable)

Chevron shaped raised pattern channels water and dirt away from shoes & clothing.

High perimeter wall provides maximum protection & water retention

Nibbed Bottoms

Rolled reinforced edges provide added strength & finished look

Exclusive self sealing floor hook attachment keeps moisture out while securing the liner

3/8" tread is 2-3 times the tread height of regular vacuum formed liners

Injection molded soft compound creates a better fit for the small variations in individual vehicles

⚠ WARNING

Unsecured front liners may shift, restricting pedal movement which may lead to loss of control. TO AVOID SERIOUS INJURY: Replace vehicle's floor anchor if damaged. Do not stack or use other liners or movable carpet under your Omix(r) liner. Read and follow all instructions and other warnings included with this product and within your vehicle owner's manual.

⚠ WARNING

California Prop. 65
These products contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

ALL WEATHER PROTECTION

ALL TERRAIN FLOOR LINERS

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go! The mat actually reseals itself around the hook! US Patents D627,285 & 8,163,369.

CUSTOM FIT NEOPRENE SEAT COVERS

Protect your Jeep's interior with these Custom Fit Neoprene Seat Covers from Rugged Ridge®. These covers are constructed of durable 100% neoprene with no filler fabrics creating the best fitting, longest lasting neoprene seat cover available. Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you! Each cover is custom tailored for your Jeep's original equipment seat style making your seats look like they have been recently reupholstered.

Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. All seams have been double reinforced for strength and a special backing fabric is used on the seams for added protection against rips and tears. Available in black on black, gray on black, red on black and tan on black to complement virtually any Jeep® interior.

⚠️ Calif. Residents: See Prop. 65 Warning on Page. 2

C3 REAR CARGO COVER

A versatile Jeep® deserves versatile accessories. Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep. By protecting the carpet and plastic trim from damage, scratches, pet claws, dirt, and other debris, it'll stay looking pristine through all your daily tasks. No mess, no stress! A custom made and functional accessory for 2007 to current JKs, this unique design also allows for a pet friendly space, ideal for your pet to rest during long off-road trips. Featuring water resistant material, the split fold feature allows for 40-60 rear seat lowering, and provides coverage with your rear seat up, partially or fully lowered-- flexible and functional! A flip out cover flap keeps dirt from falling into the rear tailgate door gap. The built-in front curtain wall helps to keep items and pets from entering the front seat area. A unique side retention system insures the cover stays securely in place as you load or unload. Easy to install and remove so you get protection when and where you need it.

New! UNIVERSAL WINCH HOOK HOLDER

The Rugged Ridge® Winch Hook Holder provides a safe and secure location to store your winch hook when not in use, saving your bumper from dents and scratches. Constructed of stamped stainless steel and finished with a durable black semi-gloss powder coat, the hook secures to both Hawse or roller style fairleads and installs in minutes.

Winch Hook Holder	Part #
Universal Fit	15102.04

SYNTHETIC WINCH ROPE

Rugged Ridge® Synthetic Winch Ropes combine two key elements that makes it the choice of off road vehicles everywhere. Our ropes are both lighter and stronger than the traditional steel cables, so no more worrying about kinking or breaking steel strands. Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength and a power to weight ratio unmatched by wire rope. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries. Synthetic winch lines are easier to unspool, making recovery easier. Each synthetic rope comes with a protective sleeve that prevents it from overheating on the winch drum and includes a chafe guard to protect the rope from abrasion, a black powder-coated latch hook, and a stainless steel thimble. *Requires aluminum hawse fairlead.*

Synthetic Winch Rope, each	Part #

Dark Gray, 23/64" X 100 Ft	15102.14

New! ROPE D-SHACKLE

Bring your recovery gear into the 21st century with Rugged Ridge® Soft Rope Shackles. Constructed of an ultra-strong HMPE rope material, these shackles are considerably stronger than steel with a 30,000 lb. breaking strength and, unlike nylon, they actually repel water, resist abrasions and have very low elasticity making them the obvious choice for off-road recovery. Unlike rigid steel shackles, Rugged Ridge Soft Rope Shackles are always pliable so they can be manipulated easily in tight spaces, even wearing gloves, allowing for painless attachment to tow hooks or recovery points. Better yet, Rugged Ridge Soft Rope Shackles won't ever rust, nor will they open under load however, they can be opened easily once a load is removed, making them an ideal addition to your off-road recovery gear.

NAUTIC WINCHES

The Nautic Heavy Duty / Performance winches feature a durable 6.6 HP series wound motor for long life and impressive pulling power with an innovative X-braced gearbox housing and motor cap for increased strength. Solenoid, motor and gearbox achieve an IP68 rating so you can count on consistent performance regardless of the conditions. The tough 3-stage planetary gear box delivers power and reliability. Includes steel cable (Heavy Duty) or synthetic rope (Performance) and a powder-coated latch hook. Automatic load holding brake system (in the drum) provides exceptional control. Our Nautic Heavy Duty Series winches feature an exclusive light mount roller-style fairlead which allows for mounting up to two off-road lights for added safety and convenience, while the Nautic Performance Series winches include a durable aluminum Hawse-style fairlead. Tough, stainless hardware is used on the body of the winch to resist rust. Each Nautic Series winch includes a durable 12' all-weather cable remote controller and sturdy solenoid box that can be mounted in multiple positions and angles to accommodate various bumper configurations.

New! D-RING ISOLATOR

Put an end to the loud clanging and banging of your d-ring shackles for good AND look great doing it! Rugged Ridge® D-Ring Isolators are designed to isolate all portions of recovery shackles from contacting your bumper, virtually eliminating the obnoxious noise from your off-road rig. Molded of energy-absorbing polyurethane, these D-ring isolators easily snap over the outer perimeter of your shackle providing complete protection from contact with nearby surfaces while the included urethane washers isolate between the shackle pin and the mounting tab for total coverage. Rugged Ridge D-Ring isolators are available for both 3/4 and 7/8 inch shackles and are molded in a variety of colors to suit your individual tastes or paint scheme: Black, Red, Green, Yellow and, yes, Pink. Sold in pairs- 2 isolators / 4 washers. Patent Pending.

HOOD MOUNT OFF-ROAD JACK HOLDER

The only thing more important than having an off-road jack on your Jeep® is being able to access it when the need arises. That's why we designed the Rugged Ridge® Off-Road Jack Hood Mounting Brackets to store your jack in a safe, secure place that is accessible to you, regardless of your vehicle's positioning. We developed these jack mounts to be lightweight but sturdy by building them from high-strength 6061 T6 aluminum and treated to a durable textured black powder-coat to keep them looking great for years of trail duty. Your off-road jack is kept safely contained with large thumb screws that can be easily removed and installed, even while wearing gloves. Rugged Ridge Off-Road Jack Hood Mounting Brackets look great as well with a skeleton style design and laser-etched logo. All mounting hardware and protective gaskets are included for a smooth trouble-free installation.

Hood Mount Off Road Jack Holder	Part #
07-17 Wrangler, JK/JKU, Non-locking	11586.04

New! KINETIC ROPE

When it comes to preparing your rig for the next off-road adventure, don't forget to pack the essentials. Rugged Ridge® Kinetic Recovery Rope is easily one of the most effective products for successful vehicle recovery that you're likely to ever use. The defining difference is in the rope's elasticity, allowing it to stretch slightly, giving the pulling vehicle a growing momentum before transferring the pulling energy. Kinetic Rope allows for a smooth, gradual transition of load for convincing pulling power in even the most unstable terrain. Rugged Ridge Kinetic Ropes are 30' overall length to accommodate a wide array of recovery scenarios.

New! MESH RECOVERY GEAR KIT

When you are ready to hit the trails, make sure you are prepared for anything! When combined with a winch, Rugged Ridge's Premium Recovery Gear Kit has all of the necessities for effective vehicle recovery in one package, leaving you cool, confident and equipped for those times when things don't go as planned. Each kit contains a 30 foot 7/8" kinetic recovery rope, a pair of 7/16" soft rope shackles, 3" x 6 foot tree strap, a 20,000 lbs. snatch block pulley, high-visibility winch line dampener, a pair of rugged recovery gloves and a sturdy mesh recovery gear bag to keep it all together.

Mesh Recovery Gear Kit	Part #
Universal	15104.29

New! DUAL BATTERY TRAY

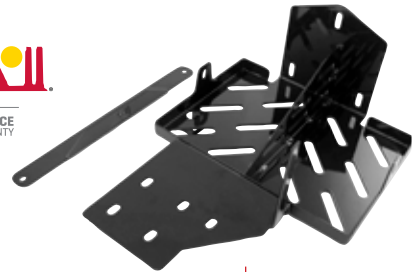

Equipping your JK to handle the power demands of off-road lights and accessories has never been easier. Don't let the drain of winches, lights and compressors leave you stranded. Installing a dual battery tray in your rig enables you to virtually double your powering capability, preserving precious power in reserve for crucial engine starts. Rugged Ridge's Dual Battery tray for 12-17 JK is constructed of heavy-gauge steel plate for strength and durability and is finished in gloss black powder coat for lasting good looks. Tray includes mounting hardware and battery retaining straps for a secure installation. For optimum performance, we recommend a Dual Battery Isolator (17265.01) be installed for proper charging and isolation of the secondary battery during normal operation.

Dual Battery Tray	Part #
3.6L 12-17 Wrangler	11214.54

DUAL BATTERY TRAY

The Rugged Ridge® Dual Battery Relay Kit is a simple, practical and cost-effective way to implement a second battery on your rig - providing extra power for winches and off-road lighting while maintaining reserve battery capacity for those crucial cold-weather starts. The system allows for normal operation while in BYPASS mode. With a simple flick of a switch, EMERGENCY mode gives you the compounded power of both batteries when you really need it.

Dual Battery Tray	Part #
07-11 Wrangler	11214.53

DUAL BATTERY RELAY KIT

The Rugged Ridge® Dual Battery Relay Kit is the perfect companion to the Rugged Dual Battery Tray. This relay kit allows you to connect two batteries to your electrical system. The last thing you want when you're out on the trail or headed to the beach is a dead battery. Each kit contains a heavy duty 12V isolating relay, three-position illuminated rocker switch, battery interconnect cables w/ terminals, wiring, hardware and instructions.

Dual Battery Relay Kit	Part #
07-17 Wrangler	17265.01

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and improved gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge offers two great tire deflator kits to fit your lifestyle and budget.

Rugged Ridge Tire Deflator Kits	Part #
Adjustable Tire Deflator Kit, 4 Piece Kit, Brass	15104.53
Keychain Tire Deflator Kit, 4 Pieces, Stainless	15104.50
Tire Deflator/Inflator with Gauge	15104.55

TIRE REPAIR KIT

Be prepared for what ever the trail throws at you! The Rugged Ridge® Tire Repair Kit is essential recovery gear for any road or trailside tire repair. The kit includes: two sturdy aluminum handles, two reamers, two needles, two Allen head wrenches, and 25 self vulcanizing tire plugs all self contained in a heavy duty storage case.

Rugged Ridge Tire Repair Kit	Part #
Tire Repair Kit, Each	15104.51

OFF ROAD JACK HANDLE STRAP

The Rugged Ridge Off Road Jack Handle Retainer Strap pulls taut to secure the jack handle to the jack eliminating obnoxious rattles. Simply loop the strap around the jack handle and pull it tight and go! Fits most off road style farm jacks including Hi-Lift.

Off Road Jack Handle Retainer Strap 	Part #
Universal Application, Black	13305.60

XHD OVERRIDER LIGHT CLAMPS

Light mount brackets for use with XHD part numbers 11540.14, 11540.16 and any other 2-2.5 inch bumper override/tubes. Easy mount design makes these a must for mounting Lights to your Rugged Ridge bumper. Also available for smaller 1.5-1.75 inch tube sizes. Sold individually.

Light Clamps	Part #

 Calif. Residents: See Prop. 65 Warning on Page. 2

LED LIGHTING

Rugged Ridge® has been lighting the trail for off-roaders for years with some of the best lighting options available. Current LED Lighting offers some of the finest illumination on the market for your Jeep or off-road vehicle with impressive light output and extremely efficient operation, when compared to traditional halogen or HID lighting. With a choice of 3.5" round 18W LED lights with a driving-style light pattern OR a 13.5" LED 72W Light Bar that combine both spot & flood light patterns for superior off-road performance, Rugged Ridge has the LED lights that can suit almost any need. All Rugged Ridge LED Lights feature black powder-coated aluminum housings, weather-tight connectors and are vibration, corrosion and submersion tested to provide unequalled performance.

New! DUAL BEAM LED LIGHTS

All of the superior lighting abilities of an LED combined with a super-cool built in running light. Each 3-inch 10 watt Dual Beam LED is outfitted with 4 highly-efficient LEDs for 900 lumens of nighttime illumination on the trail with a fifth amber-colored LED in the center of the optic lens that produces a softer light serving perfectly as a running lamp. The amber LED reflects on machined edges of the internal reflector causing a 'crosshairs' effect that will undoubtedly turn heads. Constructed of a unique thermoplastic housing and a nearly unbreakable polycarbonate lens & frame, these LED's are virtually indestructible, even in severe off-road conditions. An IP67 waterproof rating gives consistent, reliable performance in the harshest of weather conditions. Stainless steel hardware and mounting bracket are included.

15209.30

Dual Beam LED Lights	Part #
Square Light, 10 watt, 900 lumens	15209.30
Round Light, 10 watt, 900 lumens	15209.31

New! THIRD BRAKE LIGHT LED RING

If you have “lifted” your Jeep or have a larger-than-stock spare wheel and tire on the back, chances are your high-mount third brake light has either been deleted or is no longer as visible as it once was, making it less than effective. Rugged Ridge has the perfect solution to restore your Jeep to factory safety standards AND increase the cool factor at the same time! The Rugged Ridge Third Brake Light LED Ring adds a surprisingly brilliant ring of torch-red LED’s behind your spare tire- guaranteed to grab the full attention of all who are near. Designed to work with various rim diameters from 15 to 20-inches on Jeep CJ / YJ / TJ and JK models having either a 5 on 4.5”, 5 on 5” or 5 on 5.5” bolt pattern. Fitted with waterproof connectors, this Third Brake Light LED Ring is built to withstand the elements for consistent all-weather performance. Imagine a world where nobody can ever say “I didn’t realize he was stopping”. Patent pending. Not D.O.T. approved.

X-CLAMP MOUNTING SYSTEM FEATURING PIVOTAL FIT TECHNOLOGY™

The Rugged Ridge® X-Clamp is an innovative, extremely versatile and attractive option for attaching LED lights, action cameras, antennas and other accessories to your rig. Our patented X-Clamp design utilizing Pivotal Fit Technology™ mounts securely to your vehicle at any location where you have tubing from 1.25” to 3” in diameter with an adjustability you just won’t find in other mounts. Roll bars, bumpers, stingers, cages, tube steps OR any place you have tubing are all THE perfect spot for mounting any number of accessories. Available in two sizes (1.25” – 2” and 2.25” to 3” diameters) and a variety of durable finishes- Black, Black Textured OR Silver powder coat, there is an X-Clamp to suit any taste. Patent No. 9,145,084, D773,110

LED INTERIOR LIGHTING SYSTEM

The perfect complement to any Jeep interior, Rugged Ridge LED Interior Lighting System contains everything you need to bring your interior to life with dazzling light. Multi-color acrylic LED tubes illuminate both front and rear passenger footwell areas, as well as the rear cargo area, for total vehicle coverage. Integrated connectors, mounting clips and a built-in splitter make for a simple installation, while the wired controller provides easy control of light functions and patterns with the push of a button. A built-in microphone with sensitivity adjustment lets the music control the light show for the ultimate visual experience.

New! LED ROCK LIGHT KIT

Rugged Ridge® LED Rock Lights is a complete package to equip your Jeep® or off-road vehicle so that you can see and be seen when piloting the trails after dark. Designed with the off-roader in mind, the LED Rock Lights utilize waterproof aluminum LED housings for safe and reliable performance in all weather conditions. Each of the four white LED Rock Light circuits is fitted with weather-resistant connectors and combines using a sealed splitter for a clean installation and efficient operation. The kit includes four flat mounts and 4 curved mounts, allowing you to mount the LED's in a variety of locations depending on your application for greater versatility. Includes hardware and wiring instructions.

ELITE FAST TRACK WINDSHIELD LIGHT BAR™

The Rugged Ridge® Modular LED Bar Mount represents the ultimate in versatility for your 07-17 JK. The light bar utilizes integrated aluminum channels which allows for unlimited configurations of your lights, trail mirrors, camera and accessory mounts, based on your changing needs. Constructed of high-quality 6061 T6 Aluminum and steel brackets, the Modular LED Light Bar is built to support the weight of full length light bars, curved or flat, or any variation of smaller lights you can dream up. Stylized end caps help to reduce the wind noise that is inherent with traditional light bars while delivering eye-catching looks. A durable black textured powder coat will keep your Modular Light Bar protected from the elements and looking great for years to come. Patent Pending.

HOOD LIGHT BAR

Rugged Ridge's Hood Light Bar is a great solution for those vehicles where A-pillar lighting is restricted due to snorkels, roof racks and other accessories. With its sturdy steel construction and attractive cut-away side supports, this Hood Light Bar mounts directly to factory hood hinges with the included hardware and provides excellent mid-level mounting for up to 5 LED lights. Available in a sleek gloss black powder coat OR a rugged black textured powder coat to accent most off-road bumper finishes. The Rugged Ridge Hood Light Bar is available separately or in kit with your choice of three OR five 3.5-inch round LED lights.

JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Oversized 2-inch textured black tubing attaches to your windshield mounts with no drilling. Each light bar has five light tabs for use with Rugged Ridge® lighting options (fits up to five 7-inch lights). Each light bar has been specially developed to work with Rugged Ridge light mount brackets and/or mirror relocation brackets. Lights not included.

Windshield Light Bar, 07-17 Wrangler	Part #
Textured Black, Each	11232.21

LIGHT BAR LOWERING KIT

The Rugged Ridge Light bar Lowering Kit was designed for Jeep® owners who enjoy the overhead lighting that our JK Windshield Light Bar provides but need a lower profile to avoid clearance with garage doors & parking decks or just simply prefer to reduce the wind resistance of accessories mounted above their roof line. The Light Bar Lowering Kit mounts to the windshield light bars light mounting tabs and lowers the overall elevation by 3.25" allowing for greater clearance and allows for mounting up to four 7-inch lights. Lights not included.

Light Bar Lowering Kit, 07-17 Wrangler	Part #
Textured Black, Each	11232.22

HID LIGHTING

We mated the brilliance of high intensity discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is a more efficient and powerful beam better capable of illuminating the night sky. Rugged Ridge® HID Lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6-inch and 5-inch HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish.

New! LOWER SWITCH PANEL

The Rugged Ridge® Lower Switch Panel allows for practical & convenient installation of electrical switches in 11-17 Jeep® Wrangler models, regardless of transmission type (Manual or Automatic). This switch panel replaces the lower center dash panel with an injection-molded panel made of an impact-resistant thermoplastic, matching the color and grain of the factory dash for a finished look. Each panel allows for the addition of up to 5 rocker style switches (available separately) for a variety of fitments. Switches are positioned for easy access and effortless operation in your JK, while maintaining the factory correct appearance. (Use 17235.84 for a complete kit with lower switch panel 4 colored rocker switches and a Dual USB Port)

LIFT KITS

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-17 JK Wranglers, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

Rugged Ridge® 2.5"-3.5" Coil Spring Lift - With shocks

The most complete kit available on the market for JK.

- Includes four powder coated and E-coated 5160H hot rolled bar, and 5/8 inch coil springs that are set to factory rates, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Four Door JK's will get on average a 2.5 inch lift. Two door models will get up to a 3.5 inch lift.

Rugged Ridge® 4"-5" Coil Spring Lift - With shocks

Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!

- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Kit includes sway bar disconnects for more articulation off road.
- Uses tough, over built extended control arms for added strength and performance.
- In most cases control arms are longer than factory to adjust for caster.
- 4-Door JK's will get on average a 4 inch lift. Two door JK models will get up to a 5 inch lift.
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4 inch or greater lift kit on a four door Wrangler. A new drive shaft will be required on any 2007-17 2-Door Wrangler due to the shorter wheel base.
- All 4 inch Kits require a drop pitman arm (Part# 18006.55)

WARNING

07-17 Jeep® Wrangler JK/Rubicon, 4WD (2 & 4-Door models)

RUGGED RIDGE® SHOCKS

Rugged Ridge uses only nitrogen charged gas shocks for all their kits, which provide a better ride both on and off road. By using a Rugged Ridge Lift Kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road.

Shock features include:

- 150 PSI pressurized nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" automatically adjusts to make the ride as smooth as possible
- Bonded iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings

Rugged Ridge Nitrogen Series Shocks	Front	Extended	Collapsed	Rear	Extended	Collapsed

Front, 11-17 Wrangler	18305.24

STAINLESS STEEL BRAIDED BRAKE HOSES

Rugged Ridge® Braided Stainless Steel Brakes Hoses feature a tough stainless steel braided outer cover with a flexible teflon inner core that withstand trail hazards better than OE rubber hoses. They provide up to four inches of additional length over stock hoses, a must for any lifted vehicle! These brake hoses also improve braking performance so you won't suffer from a soft brake pedal caused by OE rubber hose expansion. Meets or exceeds DOT FMVSS-106 regulations.

Stainless Steel Braided Brake Hoses	Part #
Kit, Front and Rear Hoses, 07-17 Wrangler	16734.10

STEERING STABILIZERS ⚠ WARNING

Rugged Ridge® recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeeps. The Rugged Ridge Steering Stabilizer dampens out the roughness of the highway minimizes and the vibration from running larger tires and wheels. Rugged Ridge Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

Rugged Ridge Steering Stabilizers	Part #
Hydraulic Series, 07-17 Wrangler 2 & 4-Door	18475.03

ALLOY USA® AXLE TUBE SEALS

Keeping mud, dirt and debris out of your axle tube is the best way to preserve your inner axle seals and protect your gears from damaging contaminants. ALLOY USA offers high-quality CNC machined aluminum housings for durability, replaceable double-lip seals and greaseable fittings for superior protection around the entire seal. (Sold in pairs)

HEAVY DUTY BALL JOINT KITS

Big tires will accelerate wear on factory ball joints, which can lead to death wobble. Alloy USA has the solution with these new Heavy Duty Ball Joint kits for the 07-17 JK Wrangler! Constructed of steel for greater strength and hardness to minimize wear. Includes low-profile Zerk fittings for regular maintenance, a feature not available with the factory original style. Features an exclusive threaded preload system to ensure precise tolerance for prolonged ball joint life and precise steering.

Ball Joint Kit, 07-17 Wrangler	Part #
Front, Heavy Duty, Includes 2 Upper and 2 Lower	11800

ADJUSTABLE TRACKBAR

This Rugged Ridge Heavy Duty Adjustable Trackbar helps keep your front differential centered under the vehicle for a stable ride and smooth road manners and is essential for proper alignment. Each trackbar is adjustable for JK models with suspension lifts ranging from 2.5 to 5.5-inches. Constructed of sturdy 1.25-inch DOM tubing for reliable performance on & off-road, this trackbar is fitted with premium polyurethane bushings that absorb suspension vibrations and resist damage from shocks & impacts, unlike rubber bushings.

Adjustable Trackbar 	Part #
07-17 Wrangler	18205.08

TRACKBAR RELOCATION BRACKETS

These heavy duty steel track bar relocation brackets offers a direct fit with a bolt-on application. No drilling or modification required. Easy to install.

Trackbar Relocation Brackets	Part #
Front, 07-17 Wrangler	18305.21
Rear, 07-17 Wrangler	18303.80

FRAME BRACE KIT

The heavy duty Frame Brace Kit from Rugged Ridge has been designed to reduce front end movement and shimmying on lifted JK Wranglers. The frame brace includes a trackbar drop bracket to help maintain the proper steering geometry. The kit is recommended on any JK Wrangler with 3 inch or more of lift and an adjustable trackbar. Welding is required for installation.

Frame Brace Kit	Part #
07-17 Wrangler	18205.25

 See Safety Warning on Page 101.

INVERTED DRAG LINK

The Rugged Ridge Inverted Drag Link is designed to restore the steering geometry on lifted Wranglers. The re-designed drag link is inverted or flipped up over the knuckle to increase ground clearance and reduce bumpsteer. This part may reduce the need for a drop pitman arm. NOTE: a 13/16 inch drill bit is required for installation.

Inverted Drag Link 	Part #
07-17 Wrangler	18205.26

DROP PITMAN ARM

This Rugged Ridge® drop pitman arm helps reduce the angle of your drag link reducing the bumpsteer created when a 3.5-inch to 6-inch suspension lift is installed.

Drop Pitman Arm, 07-17 Wrangler	Part #
Drop Pitman Arm, Power Steering	18006.55

WARNING See Safety Warning on Page 101.

CV EQUIPPED DRIVE SHAFTS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. Constant velocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

BUY WITH CONFIDENCE
MINIMUM 5 YEAR WARRANTY

ABS TONE RING

When your ABS tone ring needs replacing, it results in the ABS light illuminating and the ABS pulsing continuously. This ABS tone ring from Alloy USA offers the perfect direct replacement for those that crack over time due to fatigue and/or rust and corrosion.

ABS Tone Ring	Part #
07-17 Wrangler	11320

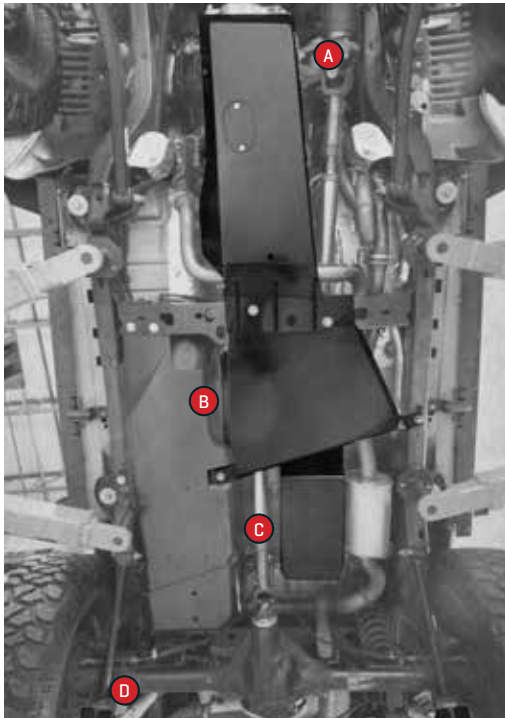

FRONT SKID PLATE

Constructed of durable 1/4-inch powder coated steel with a rust resistant E-Coating, this skid plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge® front bumpers or all factory front bumpers. This skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. The easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

Front Skid Plate for 07-17 Wrangler	Part #
All RR bumpers, all factory original bumpers	18003.30

HEAVY DUTY SKID PLATES

Rugged Ridge® Heavy Duty Skid Plates are built from hefty 3/16-inch thick steel plate and are finished with a rock-hard black powder coat for superior protection so you can wheel with confidence. Designed to protect the most crucial components on your Jeeps underside, these skid plates are simple bolt-on installations with no drilling required and include all necessary hardware and instructions. Equipping your JK with battle-proven armor has never been so easy!

JEEP® AXLES & PARTS BY ALLOY USA®

Alloy USA® axle shafts and ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for over a decade. As a member of the Omix-Ada® group of companies Alloy USA® will provide the service and support you demand! Our dedicated team of engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

FRONT AXLE KITS COMPLETE INNERS/OUTERS WITH U-JOINTS & CLIPS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40 percent stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA's exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

Front Axle Kits

DIFFERENTIAL COVERS

16595.12

BOULDER™ ALUMINUM DIFF COVERS

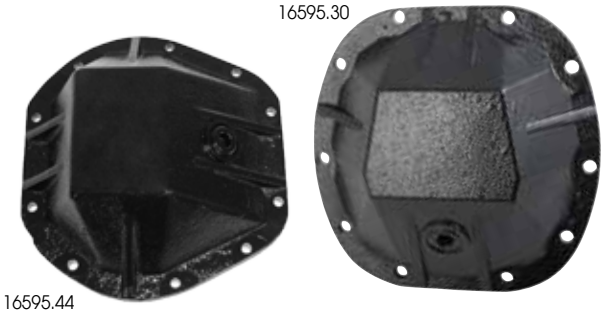

The new matte black Boulder Aluminum Differential Covers are constructed from A356-T6 cast aluminum for strong impact resistance and feature a precision machined sealing surface, allowing gaskets or RTV sealant to be used for a leak-free seal. The Boulder Aluminum Differential Covers come complete with a magnetic drain plug for protection against costly damage from metal particles that can accumulate in gear oil. Also includes a specially designed dipstick bolt to help Jeep® owners avoid under or overfilling their differentials. Patent pending.

ALLOY USA DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8 inch cast steel or 5/16 inch stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy installation.

HD Dana 60™	11207	11203

For more differential covers see Pg. ###.

FRONT AXLE X-JOINT

The heavy-duty X-Joints are a direct replacement for the factory U-joints and are manufactured from 8620 case hardened alloy steel. Alloy USA® has incorporated a number of design features to ensure the joints stand up to the stresses of off-roading. Each of the X-Joint's forged bearing caps feature an individual grease Zerk fitting for quick, easy and complete lubrication. In addition, triple ridge seals help keep out dirt and contaminants to maximize joint life. Each X-Joint comes complete with four 360-degree retaining clips, four 180-degree retaining clips and four grease Zerk fittings.

LIFESTYLE ITEMS BY RUGGED RIDGE

RUGGED RIDGE BEACH TOWEL

Ready to rock, just in a softer style? This exclusive Rugged Ridge beach towel is a must have for any Jeep® enthusiast. Featuring a beautiful beach scene, this towel gets you ready for your next pool or beach trip. Made from 100% cotton, this heavy (400 grams per square meter) beach towel measures a comfortable 29.5 x 59 inches. The printed velour pattern is extremely soft with a white terry cloth back. Durable crafted hems prevent unraveling. Machine wash.

Rugged Ridge® Backpack	12595.40

OMIX-ADA/RUGGED RIDGE/ALLOY USA BASEBALL CAP

Featuring a pro-level design with contrast stitching, these stylish one-size-fits all baseball caps come embroidered with the Omix family of brands and offer excellent comfort for all your outdoor adventures. Going hiking? Great! Hitting the trails in your Jeep? Awesome! Available in three popular colors, the structured silhouette and adjustable style gives you a custom fit and an authentic "going jeepin" style to complete your off-roading look. Perfect for showing off your favorite brands and standing out on the trails.

ALLOY USA ALUMINUM DIFFERENTIAL COVERS

The new red powder coated Alloy USA Aluminum Differential Covers are constructed from A356-T6 cast aluminum for strong impact resistance and feature a precision machined sealing surface, allowing gaskets or RTV sealant to be used for a leak-free seal. Each cover is designed to help protect internal components from damage caused by contact with rocks and other terrain off-road as well as aid in dissipating heat from differentials. These covers also come complete with a magnetic drain plug for protection against costly damage from metal particles that can accumulate in gear oil and include a specially designed dipstick bolt to help Jeep owners avoid under or overfilling their differentials. Red in color. Patent pending.

QUICK RELEASE “STUBBY” MIRRORS

The new Rugged Ridge Stubby Quick Disconnect Mirrors give you the visibility you need for safe driving when you take the doors off your JK, but with a new “stubby” arm; delivering a narrower, more off-road friendly profile. Each mirror arm is reduced by three inches, allowing the mirror to hug more tightly to the vehicles body. Available with both round and rectangular mirror heads, Rugged Ridge Stubby Mirrors textured black powder coat looks great on any paint color and installs easily with the included mounting hardware. When it’s time to put the doors back on, these mirrors can be removed quickly with a few turns of the convenient thumb screw. Includes mirror head, mirror arm, mounting bracket, bushing, thumbscrew, gasket and hardware.

Quick Release “Stubby” Mirrors	Part #
Round, Textured Black	11025.19
Rectangle, Textured Black	11025.20

HOOD DRESS UP KIT

The Elite Billet Hood Dress Up Kit from Rugged Ridge adds a stylish custom touch to your JK. Constructed of high quality 6061 T6 Aluminum and treated to a premium black textured powder coat for a long-lasting durable finish. Each Hood Dress Up Kit consists of a buckle-style footman loop, a pair of polyurethane bumpers with aluminum bases, two washer nozzle covers, gaskets and hardware to complete the package. Our Billet Hood Dress Up Kit is designed to be the perfect accent to Rugged Ridge Aluminum Hood Catches (Part 11210.17), as well. Installation instructions included. Patent Pending.

Rugged Ridge

FAST TRACK 50" LED & A-PILLAR MOUNTS

Rugged Ridge designed the new Elite Fast Track 50-inch LED Light Bar to be the most versatile component you'll likely ever bolt to your JK, allowing you to adapt your a-pillar light configuration for your changing tastes or to better suit your needs. The Elite Fast Track Accessory Bar's innovative design incorporates a revolutionary series of channels that run the length of the a-pillars so that any variety or combination of lights, cameras, trail mirrors or accessories can be assembled and reconfigured in countless combinations. Constructed of high-quality 6061 T6 aluminum, the Elite Fast Track 50-inch LED Bar Mount is extremely lightweight but impressively strong, able to withstand the grueling conditions Jeeps are prone to endure. The light bar works with most straight 50-inch LED light bars, as well as Ridgid 50-inch curved light bar. A durable black textured powder coat finish gives great protections from the elements while sturdy steel brackets with Grade 8 mounting hardware insure years of dependable service that is backed by our 5-year limited warranty. Patent Pending.

ELITE FIRE EXTINGUISHER HOLDER

The Elite Fire Extinguisher Holder is the perfect way to store that essential fire extinguisher on your off-road rig. Featuring stunning billet-style cast aluminum construction, durable textured black powder coat and a spring-loaded release mechanism made from 316 Stainless Steel, the Elite Fire Extinguisher Holder sets the standard for both form and function. Designed to work with most 2.5 lb. round extinguishers, the holder can be mounted directly to a roll bar tube or to any flat surface with the included hardware and allows for one-handed access if the need ever arises. (Extinguisher not included). Patent Pending.

Cast Aluminum, Textured Black	11238.40

ELITE ANTENNA BASE

Rugged Ridge Elite Antenna Base allows you to modernize the appearance of one of the most over-looked parts of your Jeep- the antenna! Featuring the same bold styling you've come to expect from our Elite line of accessories, the Elite Antenna Base is built from high-quality die cast aluminum and is offered in a variety of premium finishes: a textured black powder coat, a vibrant red powder coat or a classic raw aluminum finish. Each Elite Billet Antenna Base comes with mounting hardware and a gasket to help protect your paints finish from damage. Make your JK truly stand out in a crowd- make it one of the Elite. Patent Pending.

REAR TRACK BAR BRACE

Constructed of sturdy 4 mm thick plate steel, the Rugged Ridge Rear Track Bar Relocation Bracket repositions the factory rear track bar to aid in centering the rear differential and correcting tracking issues common with lifted vehicle. For use with 2.5 to 5-inch suspension lifts, this rear track bar brace fits all 07-17 Wrangler JK models and features a durable black semi-gloss powder coated finish. Includes installation hardware.

Note: Holes are designed for 3-inch to 4.5-inch lift. When paired with the Adjustable Rear Track Bar (18305.06) it will work with up to 5-inch lifts, and anywhere in between.

Rear Track Bar Brace	18303.81
Adjustable Rear Track Bar	18305.06

MESH GRILLE INSERTS

Add a bold performance-inspired look to your 07-17 Wrangler JK with Rugged Ridge Mesh Grille Inserts. Each insert features an inlay detailed with 7 mm perforations that is an aggressive accent to any front end. Constructed of durable UV-treated space age plastic that resists fading, cracking, and warping for years of good looks, these Mesh Grille Inserts are molded for a precise custom fit and an easy installation with no drilling or tools required.

DUAL BEAM LED LIGHTS

No Jeep® or off-road vehicle is complete without a full array of off-road lights and no light is more efficient at lighting your path than an LED. Rugged Ridge® now offers an innovative LED light that provides that searing nighttime illumination accented by a functional and cool-looking running lamp allowing you to be seen without blinding other drivers. Each LED is constructed of a virtually indestructible black thermoplastic case that houses four bright white high-beam LEDs with a single center-mounted amber low-beam LED illuminating a unique “cross-hair” designed reflector giving you greater visibility in low light conditions. With a high-quality Fresnel optic lens and an IP-67 Waterproof rating, these LEDs are built to provide years of outstanding performance making them the perfect complement to your existing light package or as a standalone lighting option. Rugged Ridge® Combo LED Lights are available with Cube or Round housings to fit any application or suit any taste.

Square	15209.30
Round	15209.31

3RD BRAKE LIGHT RING

If you have lifted your Jeep® or have a larger-than-stock spare wheel and tire on the back, chances are your high-mount third brake light has either been deleted or is no longer as visible as it once was, making it less than effective. Rugged Ridge® has the perfect solution to restore your Jeep to factory safety standards AND increase the cool factor at the same time! The Rugged Ridge Third Brake Light LED Ring adds a surprisingly brilliant ring of torch-red LEDs behind your spare tire - guaranteed to grab the full attention of all who are near. Designed to work with various rim diameters from 15 to 20-inches on Jeep models having either a 5 on 4.5", 5 on 5", or 5 on 5.5" bolt pattern. Fitted with waterproof connectors, this Third Brake Light LED Ring is built to withstand the elements for consistent all-weather performance. Imagine a world where nobody can ever say "I didn't realize he was stopping".
