Prospect

The Prospect is a new highlight among MX goggles and has never been on the market like this before. It gives the rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes the lens stay in the frame no matter what impact is coming from outside. To avoid slipping of the goggle, it is equipped with an extra wide, no-slip silicone strap. This strap together with articulated outriggers, highly contribute to the improvement of the helmet integration. Last but not least, a great feature of the Prospect is that it comes with two lenses – chrome and clear - ideal for any weather conditions.

- Regular
- 50mm WORKS Film System Canisters
- Lens Lock System
- Articulated outriggers
- NoSweat 3.2 Face foam
- Extra wide 50mm no-slip silicone strap
- Cylindrical SCOTT Trueview single WORKS lens

Prospect enduro

All-terrain mask offers a field of vision, comfort and exceptional support. Triple-layer facial foam with 2 layers of foam and 1 layer of fleece: the first layer absorbs the sweat as much as it is used as a padding, the second layer ensures a precise and comfortable fit, the 3rd layer acts as a barrier between the mask and the pilot's face. Reliable screen lock system, the screen is locked by 4 pins that pass through it (2 up and 2 down) that you have to slide forward to release the screen.

- SCOTT anti-stick grid whit mudflap
- Lens Lock System
- Articulated outriggers
- Extra wide 50mm no-slip silicone strap
- NoFog anti-Fog lens treatment
- Microfiber goggle bag

Prospect

The new SCOTT Prospect Goggle begins a new chapter in a much decorated goggle history here at SCOTT. Capitalizing on 45 years of experience, the SCOTT Prospect pushes the limits of field of vision, comfort and lens retention. Our new, innovative lens lock system not only increases impact resistance but will keep the lens in the frame regardless of how rowdy your ride gets. A massive field of vision, and clever features for riding in any weather conditions including the brand new WFS50 roll-off system.

Prospect WFS

The Prospect WFS possesses the same great features than the Prospect goggle. It is equipped with a WFS film system featuring a 50mm film for a large field of vision even in the muddiest conditions. New is , that the canister can be clipped directly on the WORKS pins of the lens which makes their installation much easier and less time consuming. Offers a better field of vision ,an easier installation in the canisters,a better sliding on the lens and a better sealing with the lens at the top.

Prospect Snow Cross

The Prospect Snow Cross is a new highlight among Snowmobile goggles and has never been on the market like this before. It gives the rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes it easy for the rider to change the lens. Its large silicone-lined strap together with articulated outriggers, highly contribute to the improvement of the helmet integration.

Features

- Lens Lock System
- Articulated outriggers
- Big 3-layer molded face foam
- Extra wide no-slip silicone strap

Lens technologie

- Cylindrical SCOTT OptiView double lens
- NoFog™ Anti-Fog lens treatment
- Noseguard

LENS CONSTRUCTION

Standard Lenses

Standard single lenses are constructed from polycarbonate material to maintain impact resistance and provide 100% UV protection. Standard lenses do not include tearoff posts.

Works Lenses

WORKS single lenses are built with factory installed WORKS adjustable tearoff pins and can adapt to fit the WORKS film system. WORKS lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

Thermal Lenses

A dual pane lens designed to separate the warm air in the goggle chamber from the chilly air outside. All Thermal lenses feature Scott's No-Fog™ Lens coating, polycarbonate material to maintain impact resistance and provide 100% UV protection. Thermal lenses do not include tearoff posts.

Works Thermal Lenses

Feature WORKS lens technology on a dual pane lens, ideal for cold temperature or high moisture race conditions. WORKS Thermal lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

ACS Lenses

A thermal lens featuring Scott's ACS offset vent holes in the lens to further decrease fogging. ACS lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.
