

SUOMY. The New Era

2019, Suomy Helmets, represents the New Era, a whole new volume of our long history. **SR-GP, MX-SPEED AND SPEEDJET**, these are the titles of the main chapters of Suomy vol.MMXIX. Our most glorious project, named SR-GP, is developed in collaboration with Andrea Dovizioso. **SR-GP** is a synthesis of technological innovations, born from the in-depth and unprecedented analysis of parameters, such as ventilation, field of vision, ergonomics and safety. Worn and tested also by Gary Johnson on the amazing 2018 Tourist Trophy circuit, SR-GP is an innovative helmet that defines new standards for comfort, protection and aerodynamics.

MX-SPEED is the SR-GP alter ego for the off road sector. Two are the main innovations that make MX-SPEED the materialization of all that off-road lovers can have: a bigger window to house goggles, which also ensures a wider field of vision, and the integrated technology of the MIPS Brain Protection System. All certified by the approval of our best riders in MXGP and Rally. And, Suomy didn't forget urban motorcyclists who do not want to renounce safety, and presents **SPEEDJET**.

A jet helmet with a strong character that combines Suomy's twenty years of experience in racing and the fashion side of a company that is always at the cutting edge of market demands. With all these new models, we can only start to count the days to plunge again into competitions and cheer our Suomy champions, bringing back memories to all the fantastic thrills we had in 2018. A special thanks goes to our top rider, Andrea Dovizioso, who brought our SR-GP project helmet on the top of

the podium for the first time at the Czech Republic GP. And that was not the only time that SR-GP has tasted champagne ...

Brilliant results were also achieved thanks to Bang Bang Joan Barreda, who bent, with MR JUMP, the imposing dunes of the Afrika Merzouga Rally, putting the Seal with his name on the ninth edition of this exciting race through the desert. Finally We can't forget to mention our young Suomy riders, Thomas Olsen and Thomas Covington, promises of MX2 World Championship, who made us exult thanks to the countless victories and podiums and gained respectively the third and fifth place in the World ranking

And now, close your visor and get ready to leave for a new long journey with Suomy Helmets.

SR GP

SR-GP

Il nome che abbiamo scelto per il nuovissimo casco racing di Suomy, la dice lunga sull'anima di questo rivoluzionario modello.

Sviluppato in collaborazione con Andrea Dovizioso, pilota ufficiale MotoGP, e testato anche in situazioni estreme come il Tourist Trophy 2018, SR-GP si inserisce con decisione al top della gamma Suomy.

Elevata protezione, innovativa ergonomia, eccezionale campo visivo e riforma nello studio dell'aerodinamica sono le parole chiave che danno vita a SR-GP.

Lo studio in galleria del vento, anche nell'inedita posizione del pilota in curva, ha portato alla progettazione di un casco all'avanguardia che ridefinisce e innalza totalmente nuovi parametri di comfort, sicurezza e aerodinamica.

SR-GP è sinonimo anche di una trasformazione a livello di ventilazione: la calotta esterna presenta infatti dei condotti che forniscono un flusso d'aria più efficace all'interno del casco, e un particolare spoiler posteriore che aumenta notevolmente le prestazioni aerodinamiche e l'estrazione dell'aria.

SR-GP, semplicemente SUOMY NEW ERA.

The name we have chosen for the new Suomy racing helmet says everything about this innovative model.

Developed in collaboration with Andrea Dovizioso, MotoGP Official rider, and also tested in extreme situation such as 2018 Tourist Trophy, the SR-GP enters the Top of Suomy range

High protection, ergonomics, fantastic field of vision and a new way to study aerodynamics are the word keys that gave life to SR-GP.

Wind tunnel tested, even in the unprecedented position of the rider in turns, has led to an innovative helmet that redefines and raises the parameters for comfort, safety and aerodynamics.

SR-GP is totally new also in terms of ventilation: the outer shell has channels that provide a more effective airflow inside the helmet, and a special rear spoiler that greatly increases the aerodynamic performance and the air extraction.

SR-GP, simply a NEW SUOMY ERA.

SR-SPORT

SR-SPORT, the racing helmet developed and used by Suomy riders during all Road race Championship events, from MotoGP to CIV. This is an important business card for SR-SPORT, that makes the most selective international circuits its natural habitat to which are combined technology and performance designed for professionals, now available to all the most demanding riders. High level of safety, spoiler with dual extractor-stabilizer functionality to offer the maximum comfort even at thigs speeds, thermoformed visor and anti-fog treatment on the entire surface are the outstanding features of SR-SPORT. Available also in CARBON version, designed and developed with our brand ambassador Max Biaggi, balance and lightness are improved. Six different sizes, easy to customize thanks to the removable inners which can be purchased separately to obtain a perfect comfort

SPEEDSTAR

The ambitious Speedstar is the most recent Suomy intuition that, with this model, is offering a new concept of a versatile sports helmet.

Frequent wind tunnel sessions, tested as a racing helmet, allowed creating dynamic shapes, a powerful aerodynamic coefficient and an enviable overall balancing. The R&D, Design and Riding Test department created a package of solutions that enhance comfort, versatility with breathable technical fabrics, D-Ring chin strap and balanced fitting suitable for any type of riding.

The new injection visor in Optical Class 1 and variable thickness, with Pinlock Max Vision, ensures the best visibility from several driving angles.

The inedited Wide-Sunvisor extends to the cheek pads borders offering a full protection from the sunlight.

Born to satisfy the youngest Suomy riders, STELLAR is the full face helmet affordable to everyone inspired by the previous Speedstar to complete the range. Designed for both touring and urban use, it perfectly combines safety, design and comfort. Wide visor in optical class 1, Pinlock Max Vision included and maxi internal visor are the allies to satisfy all kind of visibility conditions. Stable and comfortable fitting, removable inners made of hypoallergenic fabrics and a front air intake that ensures a better airflow also at lowest speed, are now a "must" even for a helmet with thermoplastic adv shell. New and captivating designs have been added to the existing iconic graphics, symbol of Stellar.

double
emotion

MX TOURER

MX Tourer is Suomy's ace both for mid and wide range touring. Its plus are lightness and small dimensions of shell, which, together with high level technical solutions, ensure a long term use without any physical effort. A perfect symbiosis between a full face road helmet and an off road one: the peak, removable for long journeys, wind tunnel tested and, thanks to its particular shape, it creates an air flow tunnel which decreases the sail effect of 50%, limiting the aerodynamic resistance and ensuring a better use even at high speeds. The wide viewing window and the inside sun visor become a must for every adventure during day or night.

SPEEDJET

For all the motorcyclists who don't want to renounce safety, even around the city, Suomy gave life to SPEEDJET. A jet helmet with a strong character that combines Suomy's twenty years of experience in racing and the fashion side of a company that is always at the cutting edge of market demands. The ergonomic shell is made of tricarbo; dry comfort inners are removable and washable and, thanks to its technical fabrics, allow a homogeneous transpiration, adjustable air vents ensure a wide ventilation. To ensure a wide field of vision, according to the urban and extra-urban needs and situations, SPEEDJET is equipped with Pinlock Max Vision, which also offers greater protection of the face, even at high speeds. On sunny days, the dark sun visor is essential to protect your eyes from light and reflections. New and trendy designs to stand out every day even on home and work journey.

MX SPEED

MX SPEED

MX SPEED represents the last generation of off road helmets by Suomy. Developed and optimized on the most famous MXGP world championship tracks and insidious terrains of the Rally World Championship, it's the materialization of everything that professionals and off road lovers can ask for adventures made of mud, dust and adrenaline. MX SPEED is available in two different shell. Made of tricarboco, with ergonomic and dynamic shapes, it's the result of in-depth studies on track with the best off road riders. Innovative helmet also thanks to the improved dimensions of the window which, besides ensuring a wider field of vision, allows to house all the last generation goggles. MX SPEED is synonymous of safety, thanks to MIPS Brain Protection System technology, which reduces rotational motion by absorbing and redirecting rotational energies and forces transferred to the brain from angled impacts to the head.

MR JUMP

A well-known name among fans of motocross and of all has to do with mud, sand and jumps, but which is difficult to leave behind

A tricomposite fiber shell as strong as light available in three different EPS sizes and with modular cheek pads, this helmet gives the possibility to every off road rider to find the right comfort, essential feature necessary to face the off road activity with the required concentration. The wide window ensures the maximum visibility and a great air inflow even at low speeds. And, because it's important to have a helmet that represents the personality of each rider, Suomy added a new appealing and trendy graphic for the 2019 collection which follows the market demands.

~ Casquete en RESINA REFORZADA TERMOPLÁSTICA estampada por inyección.

~ Calotta realizzata in pregevole CARBONIO a vista, kevlar e fibra con varie grammature/ carichi di rottura, legati con resina che permette di ottenere una calotta ancor più leggera e allo stesso tempo più rigida, protettiva e resistente agli urti.

~ The shell is made of fine CARBON (at sight), Kevlar and fiber with different weights/ tensile strength linked up with resins that ensures a lighter shell but, at the same time, harder more protective and impact resistant.

~ Die Innenschale besteht aus biegsamem und sichtbaren KOHLENSTOFF, Kevlar sowie Fasern mit verschiedener Gewichtung/ Bruchlasten, die mit Harz verbunden sind, um ein noch leichteres und zugleich beständiges Gehäuse zu schaffen, die schützt und schlagfest ist.

~ Casque en fibres de CARBONE composite haute qualité et de kevlar incluses dans une couche de résine, avec différentes poids / charges de rupture, pour un casque léger, encore plus rigide, protecteur et résistant aux chocs.

~ Casquete realizado en CARBONO especial a la vista, kevlar y fibra con diferentes pesos/ cargas de rotura, unidos con resina especial que permite obtener un casquete aún más ligero y, simultáneamente, más rígido, protector y resistente a los golpes.

~ Le forme della calotta e delle varie appendici aerodinamiche sono ottimizzate grazie a intense sessioni in galleria del vento. Le performances aerodinamiche risultanti più leggeri e allo stesso tempo più rigidi, protettiva e resistente agli urti.

~ The shell shapes and related aerodynamic spoilers are optimized due to intensive sessions in the wind tunnel. Aerodynamic performances allow the best comfort at all speed

~ Die Formen des Gehäuses und des verschiedenen aerodynamischen Zubehörs sind dank dem Test im Windkanal stark optimiert worden. Die daraus resultierende aerodynamische Leistung ermöglicht den besten Fahrkomfort bei allen Geschwindigkeiten.

~ Les formes du casque et des différents accessoires aérodynamiques sont optimisées lors de sessions de test en soufflerie. Les performances aérodynamiques qui en résultent offre un meilleur confort à toutes les vitesses.

~ Las formas del casquete y de sus elementos aerodinámicos son optimizados gracias a intensas sesiones en túnel del viento. Las cualidades aerodinámicas obtenidas garantizan mayor confort durante la marcha a cualquier velocidad.

~ Le forme, il posizionamento, l'area di ingresso delle prese aria, le canalizzazioni della calotta interna e i tessuti di conforto sono studiati per ottenere la massima efficienza nella dissipazione del calore all'interno del casco.

~ Shapes, positions, air intakes positioning, canalization of the inner shell, comfort liners are developed to obtain the maximum efficiency in heat dissipation inside the helmet.

~ Die Form, die Positionierung, die Lüftungsöffnungen, die Kanäle der Innenschale und die komfortablen Polster wurden entwickelt, um eine maximale Effizienz bei der Wärmeableitung im Helm zu erreichen.

~ Les formes, le positionnement, la zone d'entrée des prises air, le passage de l'air dans la calotte intérieure ainsi que le matériau intérieur sont étudiés pour obtenir une dissipation optimale de la chaleur à l'intérieur du casque.

~ Las formas, el posicionamiento, el área de entrada de las tomas de aire, las canalizaciones del casquete interno y los tejidos confortables utilizados han sido estudiados para obtener máxima eficiencia de disipación del calor en el interior del casco.

~ Le geometrie della visiera sono accuratamente studiate attraverso avanzati software ottici. La visiera ha uno spessore variabile al fine di ottenere la classe ottica 1, la migliore performance raggiungibile per una lente.

~ Visor geometries are carefully studied and designed through advanced optical software. The visor has a variable thickness in order to obtain the optical class 1, the best performance achievable for lens.

~ Visiergeometrien werden sorgfältig durch fortgeschrittene optische Software untersucht. Das Visier hat eine variable Dicke, um die optische Klasse 1 zu erhalten, die beste Leistung, die für eine Linse erreichbar ist.

~ Les formes de la visière sont soigneusement étudiées par logiciel optique de pointe. La visière présente une épaisseur variable, ce qui lui confère la classe optique 1, la meilleure performance possible pour une lentille.

~ Las geometrías de la visera han sido cuidadosamente estudiadas mediante sofisticados softwares ópticos. La visera presenta un espesor variable a fin de obtener la clase óptica 1, el mayor rendimiento posible para un lente.

~ I campi di visibilità verticali e periferici sono aspetti fondamentali nella guida su strada e in pista. L'ampia apertura del campo visivo permette una guida più sicura e performante.

~ Vertical and peripheral visibility fields are primary aspects while riding in road and track. The wide opening of the visual field allows a safer and more performing ride.

~ Vertikale und periphere Sichtfelder sind Schlüsselfaktoren bei der Fahrt auf der Straße oder Piste. Die breite Öffnung des Sichtfeldes ermöglicht ein sichereres und leistungsstärkeres Fahren.

~ Les champs de vision verticale et périphérique sont des aspects fondamentaux de la conduite de la route et piste. La grande largeur du champ de vision permet une conduite plus sûre et plus performante.

~ Los campos de visibilidad verticales y periféricos son aspectos fundamentales para la conducción en carretera y en pista. La amplia apertura del campo visual garantiza una conducción más segura y de mayores rendimientos.

~ Visiera stampata e ricavata da una lastra in piano e successivamente termoformata. Ogni visiera è un pezzo unico e con proprietà ottiche e di resistenza meccanica senza eguali. Grazie a questo processo non è necessario l'utilizzo di ingombranti, e talvolta distorcenti, pellicole da applicare alla visiera in quanto già provvista di trattamento permanente "anti-fog" e "anti-scratch".

~ Printed visor produced by a thermoformed sheet. Each visor is a unique piece, having unparallelled optical quality and mechanical resistance. Thanks to our process, it is not necessary to use bulky, and at times, distorting visor films, since our visor is pre-treated with anti-fog and scratch-proof material.

~ Visier gedruckt und gefertigt aus einer Flachscheibe und anschließend thermogeformt. Jedes Visier ist einzigartig und mit optischen Eigenschaften und einer mechanischen Resistenz ausgestattet, die Ihregleichen sucht. Dank dieses Verfahrens ist die Verwendung von auf dem Visier aufzubringender voluminöser und teilweise verzerrender Folie nicht mehr erforderlich, da dieses bereits mit einer permanenten "Anti-Fog" und "Anti-Scratch" Behandlung versehen ist.

~ Visière moulue et issue d'une plaque plate et ultérieurement thermoformée. Chaque visière est une pièce unique aux propriétés optiques et de résistance mécanique inégalées. Grâce à ce processus, il n'est pas nécessaire l'emploi de pellicule encombrante ayant parfois un effet de distorsion, à appliquer à la visière, car elle a été déjà soumise au traitement permanent «antibrouillard» et «anti-rayures».

~ Visera estampada obtenida de una plancha plana y después termoformada. Cada visera es una pieza única, con propiedades ópticas y de resistencia mecánica exclusivas. Gracias a este proceso no es necesario usar voluminosas y a veces distorsionantes películas a aplicar a la visera, ya que ha sido sometida a tratamiento permanente "antiniebla" y "antirrasguño".

~ Ampia gamma colori.

~ Available in a variety of colors.

~ Große Farbauswahl.

~ Large gamme de colors.

~ Amplia gama de colores.

~ La visiera è tridimensionale e otticamente corretta, stampata in PC ottico, trattata con lacche anti-scratch e fornisce protezione dai raggi UV.

~ The visor is three-dimensional, optically accurate, printed in optic PC, treated with scratch-proof and UV blocking material.

~ Das Visier ist dreidimensional und optisch korrekt eingestellt, in PC gedruckt, mit Anti-Scratch Lackenbehandelt und bietet vollen UV-Schutz.

~ La visière est tridimensionnelle et correcte du point de vue optique, moulue à l'aide d'un ordinateur optique, traitée avec des vernis anti-rayures et fournit une protection contre le rayonnement UV.

~ La visera es tridimensional y ópticamente correcta, estampada en PC óptico y tratada con lacas antirrasguño, asegura también protección contra los rayos UV.

~ Visierino interno parasole facilmente azionabile dall'esterno che svolge la funzione di occhiale da sole.

~ Internal visor that can be operated from the outside and functions as sunglasses.

~ Leicht von außen zu bedienende interne Sonnenblende mit der Funktion einer Sonnenbrille.

~ Petite visière interne pare-soleil, qui peut être facilement mise en service de l'extérieur, jouant le rôle de lunettes de soleil.

~ Pantalla solar interna, fácilmente accionable desde afuera, que desempeña función de gafas de sol.

~ Il nuovo meccanismo a scomparsa sotto la visiera è studiato accuratamente in ogni dettaglio per avere un solido assemblaggio con la visiera e un facile sistema di rimozione della stessa senza l'utilizzo di attrezzi.

~ The new mechanism under the visor is carefully designed in every detail in order to have a solid assembly with the visor and an easy removal system without the use of any tool

~ Der neue versenkbare Mechanismus unter dem Visier wurde bis ins kleinste Detail studiert, um eine solide Montage mit dem Visier und eine einfache Entfernung ohne den Einsatz von Werkzeugen zu ermöglichen.

~ Le nouveau mécanisme de rétraction au-dessous la visière est soigneusement étudié dans chaque détail pour un assemblage solide avec la visière et un système de retrait facile de celle-ci, sans outil.

~ El nuevo mecanismo retráctil bajo la visera ha sido estudiado cuidadosamente en cada uno de sus detalles, a fin de obtener un sólido ensamblaje con la visera y un sistema de remoción facilitado de la visera misma, que no requiere uso de herramientas.

2019 Helmets Collection

**QUICK VISOR
RELEASE**

→ Quick visor release: il meccanismo è studiato accuratamente in ogni dettaglio per avere un solido assemblaggio con la visiera e un facile sistema di rimozione della stessa senza l'utilizzo di attrezzi.

→ Quick visor release: The mechanism is designed in every detail for a solid assembly with the visor and an easy removal system without the use of tools.

→ Der Mechanismus wurde bis ins kleinste Detail studiert, um eine solide Montage mit dem Visier und eine einfache Entfernung ohne den Einsatz von Werkzeugen zu ermöglichen.

→ Ce mécanisme est soigneusement étudié dans chaque détail pour un assemblage solide avec la visière et un système de retrait facile de celle-ci, sans outil.

→ El mecanismo ha sido cuidadosamente estudiado en cada uno de sus detalles a fin de obtener un sólido ensamblaje con la visera y un sistema de remoción facilitado de la visera misma, que no requiere uso de herramientas.

ANTI-FOG

→ La visiera è trattata con i più performanti processi anti-fog che garantiscono le migliori prestazioni anche nelle condizioni più critiche.

→ Visor is treated with the most performing anti-fog processes to guarantee the best performance even in the most critical conditions.

→ Das Visier wird mit den leistungsstärksten Antibeschlag-Prozessen behandelt, die auch unter den kritischsten Bedingungen die beste Leistung garantieren.

→ La visière est traitée par des procédés antibuée ultra efficaces qui garantissent une performance optimale, même dans les conditions les plus difficiles.

→ La visera es sometida a varios procedimientos avanzados antiniebla que garantizan las mayores prestaciones incluso en las condiciones más críticas.

ANTI-SCRATCH

→ La visiera è trattata con i più avanzati processi antigraffio che ne proteggono efficacemente la superficie.

→ Visor is treated with the most performing anti-scratch processes which effectively protect the surface.

→ Das Visier wird mit den modernsten kratzfesten Prozessen behandelt, die die Oberfläche effektiv schützen.

→ La visière est traitée par des procédés anti-érayures ultra efficaces qui garantissent la protection de la surface de la visière.

→ La visera es tratada con los más avanzados procedimientos antiarañazos que protegen eficazmente su superficie.

PINLOCK

→ La pratica lente interna permette un'efficiente protezione anti fog anche nelle condizioni più critiche.

→ The practical internal lens provides an effective anti-fog protection in the most critical conditions

→ Die praktischen Innenlinsen bieten auch unter den kritischsten Bedingungen einen wirksamen Antibeschlagschutz.

→ La lentille intérieure très pratique offre une protection antibrouillard efficace même dans les conditions les plus difficiles.

→ El práctico lente interno garantiza eficiente protección antiniebla incluso en las condiciones más críticas.

PINLOCK

→ La pratica lente interna Max Vision permette un'efficiente protezione anti fog estesa e di conseguenza un ampio campo visivo anche nelle condizioni più critiche.

→ The practical internal Maxi Vision lens provides an effective and wide anti-fog protection and, therefore, a wide vision field in the most critical conditions

→ Die praktischen Innenlinsen Max Vision bieten einen effektiven Antibeschlagschutz und damit ein breites Sichtfeld auch unter den kritischsten Bedingungen.

→ La lentille intérieure Max Vision, très pratique, offre une protection antibuée efficace et, par conséquent, un champ visuel large, même dans les conditions les plus difficiles.

→ El práctico lente interno Max Vision garantiza eficiente protección antiniebla extendida, ofreciendo un amplio campo visual incluso en las condiciones más críticas.

**RACING
APPROVED**

→ I piloti più blasonati delle varie categorie contribuiscono a sviluppare e ottimizzare le prestazioni dei caschi Suomy grazie alla presenza dei tecnici del reparto racing. Questa interazione permette uno sviluppo continuo delle performances del casco nelle condizioni più estreme.

→ The most popular riders, in different categories, help to develop and optimize the performance of Suomy helmets thanks to the technicians of the racing department. This interaction allows a continuous development of the helmet performances in the most critical conditions

→ Die berühmtesten Fahrer der verschiedenen Kategorien helfen bei der Entwicklung und Optimierung der Leistung von Suomy Helmen, dank der Anwesenheit von technischen Fachpersonal aus dem Bereich Rennsport. Diese Interaktion ermöglicht eine kontinuierliche Entwicklung der Helmleistungen unter extremen Bedingungen.

→ Los elementos aerodinámicos son el resultado de profundizados estudios aerodinámicos ejecutados mediante softwares dedicados, cuyos resultados son sometidos a pruebas en el túnel del viento. El resultado es una excepcional penetración aerodinámica y una extraordinaria estabilidad a todas las velocidades.

→ Les plus grands pilotes de différentes catégories nous permettent de développer et d'optimiser la performance des casques Suomy, grâce aux techniciens de notre département Courses automobiles. Cette collaboration permet un développement continu des performances du casque dans les conditions les plus difficiles.

→ Los pilotos más prestigiosos de las diferentes categorías contribuyen a desarrollar y optimizar las prestaciones de los cascos Suomy gracias a la participación de los técnicos del departamento de carreras. Esta interacción permite un desarrollo continuo de los rendimientos del casco en las condiciones de máxima dificultad.

**STABILIZED
SPOILER**

→ Le appendici aerodinamiche sono frutto di approfonditi studi aerodinamici attraverso software dedicati i cui esiti sono testati in galleria del vento. Il risultato è una eccezionale penetrazione aerodinamica e una straordinaria stabilità alle varie velocità.

→ Aerodynamics spoilers are the result of in-depth aerodynamics studies through dedicated software whose outcomes are tested in the wind tunnel. The result is an exceptional aerodynamic penetration and extraordinary stability at various speeds.

→ Aerodynamisches Zubehör ist das Ergebnis umfangreicher aerodynamischer Studien durch spezielle Software, deren Ergebnisse im Windkanal getestet wurden. Das Ergebnis ist eine außergewöhnliche aerodynamische Durchdringung und außergewöhnliche Stabilität bei verschiedenen Geschwindigkeiten.

→ Les accessoires aérodynamiques sont le résultat d'études poussées en aérodynamique avec un logiciel dédié dont les résultats sont testés en soufflerie. Le résultat est une pénétration aérodynamique exceptionnelle et une stabilité extraordinaire à différentes vitesses.

→ Los elementos aerodinámicos son el resultado de profundizados estudios aerodinámicos ejecutados mediante softwares dedicados, cuyos resultados son sometidos a pruebas en el túnel del viento. El resultado es una excepcional penetración aerodinámica y una extraordinaria estabilidad a todas las velocidades.

**REMOVABLE
INNERS**

→ Guanciali e calotta interna completamente removibili e lavabili, in diversi spessori per una completa personalizzazione del prodotto finale. Gli interni (guanciali e calotta interna) sono realizzati in pregiato tessuto che assorbe il sudore.

→ Cheek pads and internal shell are completely removable and washable. They are made with prestigious sweat-absorbing materials largely customizable.

→ Die Auspolsterungen und die interne Helmkappe sind komplett herausnehm- und waschbar und in verschiedenen Stärken verfügbar für eine vollständige Anpassung des Endproduktes. Die Interna (Auspolsterungen und interne Helmkappe) sind aus einem wertvollen Gewebematerial realisiert, welches den Schweiß absorbiert.

→ Mousses de joues et coiffe interne complètement amovibles et lavables, disponibles en plusieurs épaisseurs pour une personnalisation totale du produit final. Les intérieurs (mousses de joues et coiffe interne) sont réalisés en tissu prestigieux qui absorbe le bruit.

→ Almohadillas y casquete interno completamente desmontables y lavables, en diferentes espesores para asegurar completa personalización del producto final. Las partes internas (casquete interno y almohadillas) son realizadas en tela fina que absorbe el sudor.

**ADJUSTABLE
PEAK**

→ Frontino regolabile con ampia escursione.

→ Adjustable peak with a wide range of motion.

→ Verstellbares Frontvisier mit breiter Exkursion.

→ Pare-soleil réglable avec large amplitude.

→ Visera frontal regulable con amplia excursión.

PEAK

→ Frontino parasole removibile studiato per avere un'ottima penetrazione aerodinamica.

→ Removable peak designed to have an optimal aero-dynamic penetration.

→ Das auf eine optimale Aerodynamik ausgelegte UV-Visier ist abnehmbar.

→ Pare-soleil amovible conçu pour obtenir une parfaite pénétration aérodynamique.

→ Parte frontal para el sol desmontable, estudiada para alcanzar óptima penetración aerodinámica.

→ Il Sistema di protezione MIPS è studiato per ridurre il movimento rotatorio trasferito al cervello da un impatto angolato a livello cranico. La tecnologia MIPS è scientificamente provata per ridurre il movimento rotatorio assorbendo e reindirizzando la forza e le energie rotatorie trasferite al cervello da un impatto angolare alla testa

→ The MIPS Brain Protection System is designed to reduce rotational motion transferred to the brain from angled impacts to the head. The MIPS technology is scientifically proven to reduce rotational motion by absorbing and redirecting rotational energies and forces transferred to the brain from angled impacts to the head.

→ Das multidirektionale Aufprallschutzsystem, MIPS, ist eine Technologie, die es einem Helm erlaubt, relativ zum Kopf zu gleiten und so mehr Schutz gegen Rotationsgewalt des Gehirns zu bieten, die durch angewinkelte Schläge verursacht wird.

→ Le système de protection MIPS est étudié pour réduire le mouvement de rotation du cerveau à partir d'impacts obliques sur la tête. La technologie MIPS a scientifiquement prouvé son efficacité à réduire le mouvement de rotation en imitant les propriétés naturelles du cerveau par l'absorption et la redirection des énergies de rotation et des forces transférées au cerveau.

→ El Sistema de Protección Cerebral MIPS está diseñado para reducir el movimiento de rotación transferido al cerebro a causa de un impacto angular en la cabeza. La tecnología MIPS está científicamente probada para reducir el movimiento de rotación absorbiendo y redirigiendo la energía de rotación transferida al cerebro que generan los impactos angulares en la cabeza.

MICROMETRIC

→ Sistema di ritenzione micrometrico a sgancio rapido: semplice e robusto.

→ Micrometric retention system with rapid release: simple and strong.

→ Mikrometrisches Rückhaltesystem mit Schnellverschluss: einfach und robust.

→ Dispositif de retenue micrométrique à ouverture rapide: simple et robuste.

→ Sistema de retención micrométrico de desenganche rápido: simple y robusto.

D-RING

→ Il sistema di ritenzione ad anelli doppio D assicura stabilità, sicurezza e robustezza. Il cinturino è provvisto di anelli D-ring in lega leggera.

→ The D-ring retention system ensures stability, safety and strength. The strap features D-rings in light alloy.

→ Das Rückhaltesystem mit Doppel-D-Ringen gewährleistet Stabilität, Sicherheit und Widerstandsfähigkeit. Der Riemen besitzt D-Ringe in einer Leichtmetalllegierung.

→ Le dispositif de retenue à manille double D assure stabilité, sécurité et robustesse. La bride est doué de manilles D- ring en alliage léger.

→ El sistema de retención de anillos doble D asegura estabilidad, seguridad y solidez; la correa está provista de anillos D-ring en aluminio ligero.
