

Transforming an Era

VAH

VAH

2016 NEW COLLECTION

HengDa Racing was established in 2014 and is a Taiwanese-owned company located in Tainan, Taiwan. Our factory specializes in the research, development and production of safety helmets. Growing out of the family business of (Tong Ho Hsing/ THH Hel- mets), HengDa Racing has acquired more than forty years of experience to assist in the transformation of the company and its safety products.

The company's dedication to the highest quality standards has led to the awarding of ISO 9001:2015 certification. This feat could not have been achieved without the strict control of state-of-the-art manufacturing facilities and is a testament to the high level of investment in the company. There are no other companies in Taiwan which can meet these criteria nor match the quality and dedication of HengDa Racing.

The development of new products uses the latest 3D software and analysis tools to ensure that we are producing products which exceed the requirements of both our customers and international standards. Our products are then manufactured to the highest international quality standards, ensuring consistent quality over time. Once manufactured, the products are rigorously tested to exceed the international stan- dards, including but not limited to AS, DOT, ECE, JS, NBR, SNELL, CE and CPSC. The diversity of our markets in Europe, the United States, Australia, Japan and Latin America allows us to stay at the forefront of all standards, codes, certifications, mate- rials and styles. These factors have rewarded us with loyal customers and a consis- tently growing share of the global helmet market for more than four decades. Our long-term plans and investments guarantee that we will be a leader in developing and transforming an era of safety helmets for decades to come.
