2013 RACE PRODUCTS FOR THE SPORTSTER® XR1200™

VANCE HARLEY-DAVIDSON
HINES RACING SERIES

THE T

THUNDER IS BACK!

2013 marks the fourth season that XR1200s will take to the track in AMA Pro Racing. And with it, the class has been renamed as the **AMA Pro Vance & Hines Harley-Davidson Racing Series** to reflect the two brands that make this series happen. Through its first three seasons, it has proved to be an excellent feeder series to showcase the talents of up and coming young racers looking to make a name for themselves. As the most cost-effective class, with all the teams on identical equipment, it's up to the riders to make the difference to determine who will cross the finish line first.
